TWENTY-SECOND YEAR

BOY'S SKULL CRUSHED BY LORRY MAN PINNED BY A FALLING ROOF

Harold Robinson Loses His Life in King Street—Frederick Smith Meets a Lingering Death at the Island.

MESSINGER BOY CRUSHED.
Two fatal accidents were recorded in Toronto yesterday. The victims were Harold Robinson, a 10-year-old lad, who lived at 40 Bolton-street, and Frederick Smith, whose home was at Hanlan's Point. Both met violent and instantaneous deaths while at work.

Harold Robinson met his death on the first day of his employment with the Toronto Messenger Company, 147 West King-street. About 3 o'clock yesterday afternoon he was instructed to deliver a letter to the Harold Wilson Company, West King-street, and mounted his wheel outside his employer's premises. He had only gone as far as No. 121 when he caught up with two vehicles, going in an easterly direction on the south side of the street. The wagons were proceeding at a slow rate and young Robinson attempted to pass between them. He had just reached the rear end of the wagons when the front wheel of his bicycle wobbled and he was thrown under the rear wheel of the lorry heavily laden with scrap iron. The wheel of the lorry passed over the upper portion of the boy's head, terribly crushing the skull. Death came instantaneously in the opinion of the coroner. Police men removed the body to the morgue. Coroner Jones issued a warrant for an inquest to be held at 2 o'clock this afternoon.

Harold Robinson, the deceased, was a stepson of James H. Jones, a conductor employed by the Toronto Railway Company. He was a pupil of the Bolton-street Public School during the term which has just closed, and attended Wood-green Methodist Sunday School.

The vehicle which ran over young Robinson is the property of the Goddard Orange Co., 190 West Wellington-street, and at the time of the accident was in charge of T. Goddard, 320 West Adelaide-street. Robinson's bicycle was wrecked.

KAISER AS A RAILWAY-BUILDER BLOSSOMS OUT IN A NOVEL ROLE

Forms Partnership and Devotes Private Fortune to Construction of Fast Express Line Running Electric Trains at a Hundred Miles an Hour.

London, July 8.—Emperor William has blossomed out as builder of electric railways, according to two American engineers, returned from Berlin.

They are informed that he is the joint partner of the Siemens-Halske firm in the construction of a great Hamburg-Berlin fast express line, which purpose shooting trains from the seaboard to the capital at a hundred miles an hour.

His Majesty, it is said, is contributing to the enterprise several million marks of his private fortune. One of the engineers last week rode on the completed portion of the railway. He says: "The Kaiser has in this project, first, because of its benefit and the undoubted financial success it will prove, and second, to set his countrymen a royal example in the development of electricity.

"The road is unique among the world's electric systems. It is built on an embankment 20 feet high, 54 feet wide at the top and 112 at the bottom. Parallel with the road are ditches on either side, which give a total breadth of over 150 feet.

"All the intersecting lines go over or under the embankment to avoid grade crossings.

"Ten trains an hour will run in each direction. The motor cars are fitted with sharp-nosed fronts to overcome the pressure incident to the terrific speed. The cars are of huge design, with wheels four feet in diameter and four pairs of trucks, and are of 250 horse power each.

"American air brakes are the only Yankee equipment so far ordered."

VACCINATE ALL THE PEOPLE

Dr. Hodgetts Predicts a More Alarming and Disastrous Smallpox Outbreak in Ontario in Autumn

Unless Greater Care is Taken

Warning to Latt, Clergy and Physicians: "Look Out for New Cases."

"A more alarming and disastrous outbreak of smallpox is a probability in Ontario next autumn, according to Dr. Hodgetts. That prominent officer of the Provincial Health Board presented a written report to the secretary of the board, Dr. Bryce, yesterday afternoon, in which the outlook is officially depicted in plain, outspoken language. Reviewing his inspection of the outbreak in Brant County, the report states that he visited the townships of Barford, Oakland and West Union. Dr. Hodgetts states that he inspected 84 houses where smallpox was supposed to exist. They were inhabited by 154 persons. Of these 84 had smallpox. Of the 154, no less than 51 were unvaccinated.

Dr. Hodgetts traced the infection to a house in Brantford, where the person had brought it from London. An unvaccinated girl visited the house and returned to her home in a locality where two-thirds of the settlers were unprotected by vaccination.

The report warns medical men and other municipalities that unless greater precautions prevail there will be "in the approaching autumn an outbreak of smallpox more alarming and more disastrous than any seen for some time."

"Vaccination of all the people and successful should be the order of each municipality in this province," says Dr. Hodgetts. "If this warning is not heeded the future expense incurred in stamping out smallpox will be both great and burdensome in many municipalities.

"Many from the Brantford and the Baptist convention in Scotland. This warning is given both to laity and clergy and physicians: Be on the lookout for new cases."

WANTS PAY FOR TROUSERS

Ottawa, July 8.—The Census Department has received a novel claim from an Ontario claimant. He asks \$10 for a pair of trousers, "the right leg of which was entirely destroyed by a meagrel colle, which greeted me as I was about to enter on my duties." It is doubtful if the claim will be allowed.

BIT ON DYNAMITE

Denver, Col., July 8.—Mistaking for candy a torpedo made of dynamite and wrapped in pink paper, 4-year-old Esther Oliver bit into it, and her head was entirely blown off.

Everything the best at lowest prices at the City of the West. Wholesale and retail, 40 King West.

FINEST VESSEL IN AMERICA HE TRIED TO WORK TORONTO AUTHORIZED FROM OTTAWA

New Ferry Boat of I.C.R. to Transport Trains Across Straits of Canoe. Bogus Private Secretary to Sir Wilfrid Laurier Arrested at Niagara Falls.

HANDLE 21 FREIGHT CARS AT ONCE
Other Improvements on the Line Contemplated or Accomplished, According to Its Manager.

Montreal, July 8.—(Special.)—Manager E. G. Russell of the I.C.R. gives out the following: "In company with other officials of the road, I have completed a critical examination of the Intercolonial. We have again to-night, in company with Mr. Collingwood, the Deputy Minister, to examine the different points where improvements are necessary and where money should be spent. We shall go over the entire system.

"I may say that I have been very much pleased with what I have seen of the completion of the road during my trip. We do not propose at present to double-track the Intercolonial in the vicinity of Sydney, but by a system of sidings, which have been built, the efficiency of the road in handling the very much increased volume of traffic, owing to the developments of the Cape Breton coal and iron industries, will be much increased.

"The new freight coal and iron trains are being pushed by the Armstrongs, and will be put on the route presently. It will be probably the finest vessel of its kind in America. The ferry will be capable of transporting six or eight double-tracks, or a dozen passenger carriages.

"The road is being supplied with new locomotives of superior construction. These are at the present time being rapidly completed and turned over to the road from the works at Scranton and at Kingston.

THINK HE IS BLONDIS.

Man Arrested at Middletown N.Y. Bears Out All the French-Canadian's Description.

Middletown, N.Y., July 8.—A stranger, who is believed to be Wilfrid Blondin, the Chelmsford, Mass. wife murderer, was arrested this afternoon at Grahamsville, Sullivan County. The arrest was made on a warrant sworn out by John Galbreath, a farmer, who thought he recognized a striking similarity between the man and the public descriptions of Blondin. The stranger is now being held to await the arrival of officers from Boston.

The prisoner stoutly denies his identity, claiming that he is Fred Hamlock. He acknowledges, however, that he was born in Boston. People who have seen him declare that he has the characteristics of a French-Canadian. He seems much depressed over his arrest, and is constantly watched in the fear that he may commit suicide.

The stranger came to Grahamsville a week ago in search of work and was engaged to do hostler's work about an hotel. A comparison of the points of the prisoner with the published description shows them to be almost identical, even to the India ink mark on the arms.

FUNERAL OF JOHN W. BELL, M.P.

Conducted by the Orange Association and Attended by a Large Concourse of Citizens.

Napanee, July 8.—The funeral of the late John W. Bell, M.P., took place this morning at Napanee, Ontario, at 10 o'clock, and was attended by about 2000 people. Over 600 Orangemen followed the remains, including Hon. N. Clarke Wallace, Sir Macdonald Bovey, Past Grand Master of Ontario; R. H. Holland, Grand Master of Ontario East, and other prominent officers of the order. The religious services were conducted by Rev. William Wehrer, assisted by Rev. W. J. Knox, Rev. C. M. Wallace, assisted by Sir Mackenzie Bovey and William Johnston, read the Orange Association ritual. The pall-bearers were Sir Mackenzie Bovey, Sir Macdonald Bovey, Hon. N. Clarke Wallace, and Hon. J. H. Holland. The funeral left the house of Hon. N. Clarke Wallace and Sir M. Bovey shortly after 1 o'clock, and the great loss sustained by the community by the death of Mr. Bell.

MOTHER FINDS SON DEAD.

F. D. White of Syracuse Committed Suicide—Father is Ambassador to Germany.

Syracuse, N.Y., July 8.—Frederick D. White, son of J. M. White, U.S. Ambassador to Germany, committed suicide this afternoon at his home. He was a physical wreck, owing to an exhausting nervous disease. The deed was done with a rifle. His mother found him in the bath-room, where he had shot himself. An ambulance was called and the sad intelligence at Berlin.

The deceased was his only son, and was 43 years of age. He was a lawyer. He leaves a widow and one son.

PRISONER LEAPS FROM TRAIN.

Elmira, July 8.—William Burns, a prisoner who was being transferred from the Eastern Penitentiary to Elmira Reformatory for violation of parole, in charge of the reformatory transfer officer, suddenly jumped from the window of Northern Central passenger train No. 1 last night while the train was going at the rate of thirty miles an hour, near Troy, Pa., and escaped.

POWDER WORKS EXPLOSION.

Santa Cruz, Cal., July 8.—Three explosions at the powder works today wrecked the mill and resulted in the killing of W. R. Darling and serious injury of Joseph Maynard, employees. The coming mill was completely demolished. It is not known what caused the explosion.

OLD DOMINION BADLY DAMAGED.

Greenwich, Conn., July 8.—The plates under the bow of the Joy Line steamer Old Dominion, which ran on the rocks at Rye Saturday, have been found to be pierced, and the steamer is more badly damaged than at first thought.

ANOTHER VESSEL ASHORE.

St. John's, Nfld., July 8.—The British steamer Delmar, from Dupree, is ashore at Renewa, on the east coast, and a mile from the wrecked Lusitania. She was caught on a reef. No lives were lost.

SHOT HIS CHILDREN.

Lockport, N.S., July 8.—Sydney Locke, while temporarily insane, this morning shot his three children, Roy, aged 14, Howard, aged 11, and Dennis, aged 8. The three are dead.

8000 BOERS IN PAST FOUR MONTHS PUT OUT OF THE TRANSVAAL FIGHT

Scheeper's Commando Enters Murraysburg, Cape Colony, and Wantonly Burns Public Buildings—Counter Report to Miss Hobhouse's Suppressed by Pro-Boer Committee.

BOERS ALREADY OUT OF FIGHT.
London, July 8.—The Financial Secretary of the War Office, Lord Stanley, in the House of Commons to-day, in answer to a question gave the total number of Boers killed, wounded or made prisoners among the active commandos recently as follows:

March..... 1,473
April..... 2,434
May..... 2,940
June, incomplete..... 1,538

HARRIED MURRAYSBURG.

London, July 8.—A special despatch from Cape Town, dated to-day, says Scheeper's Boer commando has entered Murraysburg, Cape Colony, and burned the public buildings and residences. The town was not garrisoned.

Murraysburg is situated in about the centre of Cape Colony, not far from the railroad leading from Cape Town to Kimberley and 245 miles from Algoa Bay.

PEACEFUL RESIDENTS SCANDALIZED

Everything Ran Wide Open—Gambling and Disruption by Political Visitors.

Montreal, July 8.—(Special.)—The Witness publishes the following: Residents of the town who were in Montreal to-day express themselves as greatly indignant at the flagrant desecration of the Sabbath and the open violation of the Sunday closing law in that pretty little town yesterday.

The occasion was the visit to Berthier of the Club Lancer Club, Montreal, who had chartered the steamer Paul Smith for the day.

From the time the excursionists landed at the town in the morning until they left for Montreal in the evening, the place was a veritable pandemonium. Two, at least, of the bars in the town were wide open during the entire day. The main street was obstructed with tipsy brawlers, and gambling tables were maintained in full operation.

People going to and from church had to make wide detours to avoid these scenes of disorder. In fact the whole place, usually so quiet on Sunday, was turned upside down. A visitor, who was spending the first Sunday at Berthier, remarked: "It is this Sunday in Berthier, it must be a perfectly dreadful place."

The more respectable element of the community is intensely indignant, and while the organs were in operation yesterday, they appealed to the authorities to interfere, to close the bars and suppress the gambling tables.

To these demands the official appealed to remarked that nothing could be done, as permission to open the bars had been telegraphed from Ottawa.

The people of Berthier are now anxious to ascertain whether such permission was received, and, if it was, whether anyone has authority to suspend the law.

ROSEBERY SEES THE KING.

Taken in Conjunction With the Liberal Party Government.

London, July 8.—Lord Rosebery came to London to-day and was received in audience by the King at Marlborough House. The public announcement of this visit to His Majesty soon after the former Premier's return from the south coast, where he had been on a tour of inspection, excites much comment in view of the political situation.

At the same time well-informed persons point out that it is extremely unlikely that the King will in any way attempt to intervene in what, after all, is wholly a family quarrel of the Liberal party.

Several circumstances, however, are pointed to in an organized effort to bring Lord Rosebery back into the political arena.

DR. LEYDS' CHALLENGED.

Deputy Milroy, a Prominent Pro-Boer, Wants to Know What Has Become of France.

Paris, July 8.—Dr. Leyds left Paris yesterday after a stay of eight days. He was here on a mission from Kruger to President Loubet, and he had two conferences with the President, Premier Waldeck-Rousseau, and Foreign Minister Delcasse.

Before leaving Dr. Leyds had a most unpleasant public encounter with Deputy Milroy, editor of Patrie and a prominent pro-Boer, who challenged the Transvaal representative to explain where the vast sums subscribed for the South African cause in France, Germany and Holland had gone, inasmuch that only a few hundred francs of those many millions ever left the hands of the supposed distributors.

PREMIER BOND MAY RESIGN.

Unable to Come to Any Agreement With Mr. Reid Concerning Railroads.

St. John's, Nfld., July 8.—Mr. Bond, Premier of the last six weeks has been negotiating with Mr. Reid, the contractor, for an adjustment of the difficulty respecting the ownership of the colonial railways, is still unable to bring the matter to a head.

One section of the cabinet wishes to proceed specifically for the colony receiving the proprietorship of the railway, while the other section is satisfied with the power of the colony to expropriate under the common law. The dissentients may resign.

ISLAND MINISTER RESIGNS.

St. John's, Nfld., July 8.—It is reported that Minister of Finance Jackson, acting on the advice of Bishop Howley of St. John's, has resigned from the Bond Ministry owing to a disagreement with his colleagues over the Reid railroad question. Mr. Jackson declines to make any statement confirming or denying the report.

MONK ON BORDEN.

Montreal, July 8.—(Special.)—F. D. Monk, M.P., arrived home today from Nova Scotia, and states that R. L. Borden stands very high with his fellow-countrymen in that province. He states that the Conservative party are organizing for the local campaign, and will give a good account of themselves when Premier Murray decides to appeal to the electorates.

TORONTO WOMEN OFFICERS.

St. John, N.B., July 8.—Miss Anne Brown and Miss Austen, Toronto, were today elected Dominion secretary and treasurer respectively of the King's Daughters' Convention, being held here. The convention will meet in Toronto in 1904.

COOK'S TURKISH BATHS, 204 KING W.

BIRTHS.
DEATHS.
HUMPHREY—At Scarborough Village, on Monday evening, July 8, 1901, James Humphrey, aged 74 years.
FURBER on Thursday, July 11, at 8 p.m., to St. Margaret's Cemetery.
WEBSTER—Suddenly, on Sunday, July 7, 1901, one when Francis Murray decides to appeal to the electorates.

BRITAIN DECLINES TO RELEASE AMERICANS CAUGHT WITH BOERS

Lord Milner's Dictum, That a Person Who Serves as a Belligerent Loses His Nationality and Must Be Treated as an Enemy, Stands.

Washington, D.C., July 8.—Americans, Britain in the Boer army made prisoners by the British will have to endure their captivity until the close of the South African war.

Great Britain has declined to comply with the request of this government to release an American now confined in the island of Ceylon, and this declaration will probably prove a bar to further representations by the State Department in behalf of Americans captured as belligerents in South Africa.

The test case was that of a naturalized American named Morgan, who was captured in Virginia. Lord Milner, the British High Commissioner in South Africa, disapproves of the release of foreigners who fought with the Boers. He has announced that a person who serves as a belligerent with the Boer forces loses his nationality and must be treated as an enemy. This view is concurred in by the legal officers of the State Department.

The department is satisfied, from investigations made by American consuls and the British authorities, that all reports that the British are ill-treating the only hardship that Americans captured in South Africa will have to undergo will be that of confinement until hostilities cease.

THANK YOU VERY KINDLY.

Leader Balfour Knows of No Better Way of Conveying Thanks Than Firm Friendship.

London, July 8.—When asked in the House of Commons to-day as to what public acknowledgment was intended of the gift by Bernard Baker of Baltimore, Md., of the hospital ship Maine to the British Navy, A. J. Balfour, the government leader, said the utmost publicity of the thanks of Great Britain for this most noble and generous gift had been given by the First Lord of the Admiralty, the Earl of Selborne, in the House of Lords, and by the secretary to the Admiralty, H. O. Arnold-Forster, in the House of Commons, adding:

"I am not aware of any mode of giving publicity to our national thanks that is more effective than this."

NEW TITLE OF THE KING.

Sir David Tennant Says Addition Likely to be "Sovereign of Greater Britain."

London, July 8.—The addition to be made to the title of King Edward VII. in fulfillment of the royal titles will probably not name the colonies. It is more likely to be one generic title, covering all the colonies, such as "Sovereign of Great Britain."

Sir David Tennant, the Agent General at Cape, said to-day: "I was suggested in addition to the royal titles is undoubtedly very gratifying to colonies. That which represents a marked change in the attitude of the Imperial government toward the British beyond the seas. I have good reason to believe that the crown of Greater Britain is practically decided upon as the form the new title is to assume."

TRACKMEN ARE HOLDING OUT

First Vice-President Lowe of the Brotherhood Confident the Men Will Win Their Cause.

TIMMERMAN HAS CONTRARY NEWS

Reports Defections From Strike? Banks and Says Men on Eastern Division Are Returning.

A. B. Lowe, First Vice-President of the United Brotherhood of Railroad Trackmen, was in Toronto yesterday. He is confident the striking trackmen will win their cause and will remain firm. A month's strike is the maximum time he would stand by the men. From St. John to Vancouver only one man is at work, and in all New Brunswick only one Toronto has returned. From Montreal to Toronto there are two foremen working, and from Montreal to Chalk River two foremen are on duty. None are without work. Mr. Lowe looks to an early settlement, and thinks the meeting of chairman of other orders to be held in Montreal will hasten that end.

Yesterday was the beginning of the fourth week of the struggle. The men are standing firm in Toronto, with no present intention of giving in.

General Superintendent Timmerman was advised yesterday that the men on the eastern division were returning. Two section gangs were reported to have gone back at Smith's Falls.

ALWAYS THE LATEST.

The advantage that the large specialist has over others is the enormous turnover he has in his particular line. This is particularly true of the noted dress specialists in the W. & D. streets. They always buy the latest styles in such large quantities that they can reach the most humble pockets. They trade this year in straw hats has been enormous, and they have been compelled to reorder, which gives buyers an opportunity of having the very newest New York styles at very close prices.

FINE AND WARMER.

Meteorological Office, Toronto, July 8.—The weather to-day has been the throu-out the Dominion, except in Alberta and near the western end of Lake Superior, where it has been showery. It has been rather cool in all provinces except Nova Scotia, where the temperature has been fairly high, 80 degrees having been registered at Halifax.

Minimum and maximum temperatures: Victoria, 62-82; Calgary, 54-70; Prince Albert, 46-74; Qu'Appelle, 50-70; Winnipeg, 62-72; Port Arthur, 43-60; Pelly Sound, 66-78; Ottawa, 68-72; Uruau, 66-74; Montreal, 66-72; Quebec, 62-74; Halifax, 66-80.

PROBABILITIES.

Lower Lakes—Moderate easterly and southerly winds; fine, with a little higher temperature.

Georgian Bay—Moderate to fresh easterly to southerly winds; a little warmer and fair, with local showers by night.

Ottawa and Upper St. Lawrence—Light to moderate winds; fine and a little warmer.

Lower St. Lawrence and Gulf—Light to moderate winds; fine and a little warmer.

Martime West and East—Light to moderate winds; fair and moderately warmer.

Lake Superior—Moderate to fresh easterly and southerly winds; partly fair, with local showers.

Manitoba—Fine and moderately warm.

Weather From Buffalo.

Cool weather Tuesday, slight to fresh southerly winds.

WEATHER FROM BUFFALO.

Cool weather Tuesday, slight to fresh southerly winds.

Issue of \$1,000,000 7% Cumulative Preferred Stock.

THE GRAMP STEEL CO., LIMITED

Incorporated Under the Laws of the Province of Ontario, Canada. FREE FROM BONDS OR MORTGAGE DEBTS.

CAPITAL STOCK. Seven Per Cent. Cumulative Preferred Stock \$2,000,000 Common Stock \$3,000,000

SHARES \$100.00 EACH. BOARD OF DIRECTORS.

WILLIAM M. CRAMP, Ltd. General Manager Cramp Shipbuilding and Engine Co. Philadelphia, Pa.

Dr. W. SHAWWEBB, President Adirondack and St. Lawrence R. R. Chairman. H. L. BURRAGE, Vice-President Elliot National Bank, Boston, Mass.

With Every Share of Preferred Stock, Subscribers will Receive One Share of the Common Stock, Fully Paid and Non-assessable, Without Additional Payment.

Payments for the preferred stock to be made as follows: 25 per cent. on application. 25 per cent. on August 1, 1901.

Subscribers will have the privilege of anticipating all deferred payments. Receipts will be issued against payments, exchangeable for shares of the common stock concurrently with dividends on preferred stock.

PROPERTIES OF THE COMPANY. A. The Company owns iron and limestone lands in Ontario. B. The iron ore is of a superior Bessemer quality.

TRANSPORTATION. The Collingwood site affords excellent facilities for rail and water transportation. Mr. Walter Kennedy of Pittsburgh, the well-known engineer, in a letter to the Company, says:

"I believe that Pittsburgh is at present the greatest steel manufacturing city in the world, and is most advantageously situated for the export of its product by way of the Great Lakes to foreign markets. I believe that Collingwood would be more advantageously situated for this trade than Pittsburgh, and for any local market would have a great advantage."

EARNING CAPACITY. Mr. George R. Waite, Consulting Engineer, Philadelphia, after making a careful and conservative estimate, speaking of the Company's plant at Collingwood, Ontario, says:

"A careful estimate of the annual profits of your plant at Collingwood, Ontario, producing 200,000 tons per year, under present conditions of trade, gives a profit of \$100,000, without considering bonuses."

In addition to the ordinary profits, the Company will receive a bounty of \$6.00 per ton from the Government of the Dominion of Canada on all steel produced during the year ending June 30, 1902. After June 30, 1902, the bounty will be reduced on a sliding scale until June 30, 1907, when it will be discontinued. The Government of Ontario at present is paying a bounty of \$1.00 per ton on pig iron manufactured in the Province. The latter bounty is continued at the pleasure of the Government.

It is estimated that the bounty from the Dominion Government will increase the Company's ordinary trade profits as follows:

6 months ending June 30, 1902 \$270,000 Year ending June 30, 1903 450,000 Year ending June 30, 1904 270,000 Year ending June 30, 1905 180,000 Year ending June 30, 1906 108,000 Year ending June 30, 1907 108,000

Total Bonuses \$1,755,000 The following is a statement of the yearly profits:

Business profits from plant at Collingwood, as estimated by Mr. Waite \$320,000 Average yearly bounty of the Dominion Government 450,000 These figures do not include profits from coal mining operations or the bounty of one dollar per ton paid by the Ontario Government on pig iron.

The amount required to pay the annual dividend on preferred stock is \$100,000. The balance of the profits will be available for improvements, bonuses, a substantial reserve fund and dividends on Common Stock.

CONCESSIONS. The Town of Collingwood has granted the Company: A. A cash bonus of \$115,000. B. A free site consisting of 80 acres of land, with 800 feet frontage on Collingwood Harbour, also water lots suitable for dockage and terminals.

THE IMPORTS OF IRON AND STEEL INTO CANADA during the year ending June 30, 1900, amounted in value to \$19,768,725, and into Canada during the year ending June 30, 1901, the amount was \$19,768,725, and into Canada during the year ending June 30, 1901, the amount was \$19,768,725.

SUBSCRIPTIONS. Subscriptions for the above-mentioned issue of \$1,000,000 preferred stock will be received up to close of business on July 15, 1901, subject to the right reserved to the Company to accept any or all subscriptions, and to close the subscriptions at any time without notice, at the following offices:

NORTH-AMERICAN TRUST COMPANY, New York. ELIOT NATIONAL BANK, Boston, Mass. THE FIDELITY AND SECURITY COMPANY, Philadelphia, Pa. THE BANK OF TORONTO (LIMITED), Toronto, Ont. THE REAL ESTATE TRUST COMPANY, Toronto, Ont. Applications will be made to list both the Preferred and Common Stocks in the New York, Boston and Toronto Stock Exchanges.

TORONTO WON AT WORCESTER

Sullivan Redeemed Himself, the Enemy Failing to Score Till the 9th Inning.

ROCHESTER BEAT STARS IN TENTH

Montreal Took Another From the Champions and Hartford Shut Out Buffalo.

Sullivan redeemed himself at Worcester yesterday, being materially aided by the sharp fielding behind him. The dispatch states that Worcester's mistakes and Harrogate's brilliance were the chief factors, to which should no doubt be added the three double plays that are recorded in the summary. Rochester won in 10 innings at Syracuse, Montreal beat Providence again. Buffalo gets worse every day, failing to score a run against the tail-enders.

Worcester won today's game thru loose fielding by Worcester at critical times and Harrogate's star play in the centre field. The home team could not score until the ninth. Score: Worcester, 4; Montreal, 3; Hartford, 2; Syracuse, 1; Toronto at Worcester, 0; Buffalo at Syracuse, Montreal at Worcester, 0; Buffalo at Hartford.

Lawless Bowling Tourney To-Day. The Toronto bowling tourney starts at the Island today. Forty-eight teams will compete for the handsome \$1000. The first matches in the primary division will commence at 10 o'clock. The draw:

A. S. Wignall (P) v. Wm Gray (T). D. O'Leary (P) v. G. Stevens (O). Dr. G. Stewart (P) v. E. C. Hill (V). A. F. Jones (P) v. G. B. Woods (C). Dr. J. Johnston (P) v. M. J. McCann (S. Kilt). The : Sole : of : Comfort.

Sole-conforming.

Your shoe sole is flat and hard.
Your foot-sole is curved and soft.
Breaking in an ordinary shoe means shaping your foot to the sole, till wear shapes the insole to the curves of your foot.
Here is a shoe which conforms to your footsole, the first moment you bear upon it, through the compression of the Resilia centre sole.

See picture of foot sole lower shoe.

Weight-distributing

Your shoe sole is level and unyielding.
Your foot sole therefore bears upon it at four spots only, viz.: ball and heel, great toe and outer edge.
These are the calloused places, the tired, painful, overworked, surfaces.
Nature intended that the whole area of foot-sole should support the body, as a child's foot on sand; an Indian's in a moccasin.
The Resilia Shoe Sole distributes pressure all over the sole of the foot, supporting the arch, easing the tired spots, and reducing to half the labor in walking.
(Observe footsole in lower shoe cut.)

Wear-diffusing.

Turn up the sole of an old shoe!
You'll find it worn out in spots only.
Lots of leather unused, wasted—a few inches ground away under pressure points of foot sole.
Heels worn down at outer edge, causing shoe to twist sideways.
Now observe in picture, lower shoe sole where it touches floor.
Note how it flattens when borne upon, through the compression of Resilia Centresole.
Reflect that this diffusion of wear, all over the sole of the shoe, means twice the service out of sole leather because there is twice as much area of contact.

Self-expanding.

Your foot spreads when you stand upon it.
It narrows again, at the ball, when you lift it.
Therefore a new shoe which fits the foot neatly when lifted, must pinch it when you bear upon it.
And when wear has stretched the leather across the ball of foot, so that it is comfortable to stand on—the shoe is then too loose when the foot is lifted, so that it wrinkles on top, and over-runs on the sides.
Now here is a shoe, which expands when your foot sinks into the sole, and contracts when foot is lifted. This makes it easy as an old shoe, the first time you wear it.
Observe under toe cap, lower shoe.

Shape-retaining.

When you step down, your foot sinks into the Resilia centresole away from the toe cap (see picture.)
This makes the shoe a size larger inside, at the time your foot is widest, and so the upper leather is never stretched out of shape over ball.
When you lift your foot, the insole expands again from the outsole (see upper shoe sole in picture.)
This takes up slack in the leather, prevents wrinkling and over running on sides.
The shoe thus wears longer, and looks better, because it is never overstretched.
Even Patent Leather or Enamel is less likely to crack when not slackened and repeatedly wrinkled in the same spot at every foot step.

FOR MEN

THE RESILIA SOLE.

THE SLATER SHOE.

Rebounding Cushion Centresole Ventilates the shoe at every step. Prevents jar to nerves and spine. Distributes pressure over foot sole. Spreads wear evenly over shoe sole. Damp-proof, clean, dry, springy.

MAIL ORDERS FILLED.

Proof of Ventilation.

With every pair of Resilia Soled Slater Shoes will be found a tiny whistle attached to a tag.

Insert this whistle temporarily into the heel valve, and when foot is lifted, the whistle sounds out sharp and clear, as if blown through.

When the foot is borne upon the whistle is mute, because the valve will not permit the air to go out where it comes in, and so compels it to circulate up around the stocking and out at boot top.

This is an absolute proof of shoe ventilation—circulation.

Sweat-dispelling

Perspiration is the sewage of the system!

The foot sole is the chief outlet, and the shoe sole should be its scavenger.

Concentrated sweat is an irritant poison—a caustic which gnaws the foot and burns the leather.

The Resilia Centresole acts as a drainage system, permitting the perspiration to pass down through the pores of the leather insole to the cross channels beneath, where it is evaporated by exposure to the air.

This keeps the stocking dry and the foot clean, hardy and healthy.

Ventilating.

Every pore of the skin is a nerve feeder—an ejector of waste, an inhaler of oxygen.

Patent leather, Chrome and most other leathers stifle feet because they are air proof.

Stagnant air is not ventilation.

Circulation of air is necessary to renew oxygen, to evaporate moisture and to keep the feet hardy and healthy.

The Resilia Centresole acts as an effective air pump.

The insole expanding from outside when foot is lifted, draws in fresh air through a tiny valve in the heel which locks it in.

When insole is borne upon, the air contained in the cross channels is forced up around the stocking through a row of perforations under the hollow of the foot.

The value in heel working one way only, locks the air in when the foot is lifted, so that it can't go out where it comes in.

This compels it to circulate and means effective ventilation.

Damp-resisting.

Sole leather is cellular and carries street fluid to the foot, as the wick carries oil to a lamp.

Two-thirds of street moisture which reaches the foot comes up through the outsole.

Between insole and outsole is placed the Resilia Centresole of pure rubber, through which water cannot pass, making it damp-proof and rheumatic-proof.

Its cross channels permit the air to dry the inner side of both outsole and insole, thus preventing cracking, hardening, mouldiness. (Observe construction in cut.)

Shock-preventing.

Your feet strike the ground 6000 times per hour when walking.

This means 6000 shocks to nerve and spine on city pavements.

From physicians' knowledge of the result sprang an immense market for rubber heels.

The Resilia Centresole extends from sole to heel and thoroughly prevents jar.

It has twice the spring of solid rubber heels, with half the weight, and no "sneaker" characteristic.

The Resilia sole is springy as a bicycle tire, cushion-like, rebounding.

EVIDENCE.

A partial list of people, who bought from three to ten pairs each of \$5.00 Resilia Sole Shoes on different dates, within eight months—A to C.

Compiled from the sale sheets of the Boston Demonstration Store, and sworn to as bona fide.
