51 29TH YEAR

CANADIAN'S VIEW OF LINCOLN'S CAREER

Rev. J. A. Macdonald Principal
Speaker at Chicago Cele-
bration of Famous
President's Cen-
tenennial.

CHICAGO, Ill., Feb. 12.—(Special).—
Patriotic ardor swept over Chicago
to-day in a grand climax of Lincoln
centennial celebration, and found vivid
expression in a demonstration at the
Seventh Regiment armory, where thou-
sands gathered. Rev. J. A. Macdonald,
editor of The Toronto Globe, was the
principal speaker, and his fervid ut-
terances were received with great en-
thusiasm.

A band concert and the Irish Choral
Society were on the program. In the
boxes were many prominent men of
all vocations here, and there were
splashes of blue and gold lace, indicat-
ing the presence of officers of the
army. The display of brilliant plumage
and handsome gowns also helped to
dazzle the eyes of onlookers.

Hundreds of school children sang
the national anthem.
The interior was appropriately de-
corated with bunting and flags and
portraits and busts of Lincoln were
prominently placed. Coupon seat hold-
ers held an indignation meeting in the
corridors because they could not gain
admittance because of the throng mil-
ling thru doors when they were open-
ed.

Rev. Edward Kelly offered invoca-
tion. Daniel Morley introduced chair-
man Frank Hamlin, who in turn in-
troduced Mr. Macdonald. Prayer and
benediction were offered by Rev. Chas.
Bayard Mitchell.

Mr. Macdonald chose to speak on
"The Significance of Lincoln," first
to democracy in America; second, for
Anglo-Saxon civilization; third, his
world significance. His Canadian point
of view and the exposition of demo-
cratic principles under the Union Jack
was a feature of the address. He spoke
as follows:

"Among the men born of American
women there has not arisen a greater
than Abraham Lincoln. It is fitting
that through this republic, from the
capitol to the remotest pioneer hamlet,
his name should this day be lifted
high in loving memory. The honor of
that name is the priceless heritage
of every state in this great union,
whose integrity he maintained and
whose flag he saved from shame."

"But if the people of other states
raise their voices in this centennial
celebration with pride and grateful
praise, how much more you people
of Illinois, whose state gave him
to the nation; you citizens of Chicago,
whose city witnessed his first nomina-
tion to the presidency; how much more
should you cherish the name of
Lincoln as the honorable birthright of
yourselves and your children, and
for many and many an age proclaim
at civic revel and pomp and game,
With honor, honor, honor to him,
Eternal honor to his name."

Blending of Sections.
"And, sir, it is significant, as well as
gracious, that in this centennial cele-
bration in Lincoln's own state there
should be not only a blending of voices
from all states, South as well as
North, and a joining of all parties and
creeds and races composing this great
republic, but also that the Union Jack
should salute the Stars and Stripes,
and that the spokesmen of this hour
should be, by the blood of four gener-
ations, a native-born Canadian, I am
quite sure that round about me on this
stage are men of like blood."

GOES TO THE PRIVY COUNCIL

Lord Advocate of Scotland Will Succeed
Lord Robertson.

EDINBURGH, Feb. 12.—At the hear-
ing of evidence in the notorious Stirling
divorce case, that has been going on in
Edinburgh for the past three weeks,
it was explained that the Scottish sol-
licitor-general now represents Mr. Stirling
instead of the lord advocate, who is
about to be appointed a judge.

This undoubtedly means that the lord
advocate will succeed the late Lord
Robertson as lord of appeal in ordinary
in the house of lords. He will also sit
on the judicial committee of the privy
council of the supreme imperial court
of appeal.

Thomas Shaw, who now attains the
highest judicial position open to a Scot-
tish lawyer, has risen from the ranks.
Born in Dunfermline, in 1859, he was
educated at the high school of that
town, and at Edinburgh University,
where he took the degree of M.A., and
Hamilton Fellow in Mental Philosophy.
He was called to the Scottish bar in
1875, and soon made his mark, becoming
advocate deputy in 1886, and acted
as solicitor-general from 1894 to 1895.
On the advent of a Liberal government
in 1905, he was appointed lord advo-
cate, and Mr. Shaw was a Radical in poli-
tics and an effective platform and par-
liamentary speaker.

GIRL SENTENCED FOR ARSON

Will Serve Ten Years—Father and
Brother Are Acquitted.

CALGARY, Alta., Feb. 12.—(Special).—
Judge Harvey this morning sentenced
Florence Driscoll, aged 19, High River,
to ten years for arson.

Her father, Charles, and a brother
were charged with her with burning
the barn and attempting to burn the
house in which was Mrs. Denn. The
four children and a hired man, The
judge criticized the verdict of not guilty
brought in for the father and son.

EARL GREY URGES MORALITY IN FORESTRY

Addressing Board of Trade
Banquet, His Excellency
Earnestly Solicits Co-
operation in Pre-
venting Waste.

Two hundred guests applauded Earl
Grey, Governor-General of Canada,
at the National Club last evening as
his excellency dwelt with great ear-
nestness on the importance of forest
preservation. The banquet was given
by the Toronto Board of Trade to de-
legates of the Canadian Forestry As-
sociation. J. P. Watson presided.

The addresses at the convention just
concluded had, said his excellency, de-
monstrated that the permanent pros-
perity of the nation was dependent
upon the conservation of the forests
at the head waters of the rivers. As
Ton. Mr. Fisher had pointed out, a
neglect of this might shake the position
of Montreal as the chief commer-
cial port.

In the United States the forest de-
struction is three and one-half times
greater than in Canada. The loss to
the farmers of that country aggre-
gates a thousand million dollars per
annum as a direct and indirect loss.
Wanton and criminal neglect of the
forests meant the transforming of a
heaven into a hell.

When the relative per capita wealth
of Canada in undeveloped resources
is made known the people of the whole
United States would want to come
to make their home in the Dominion to
have a share in the vast untapped
treasure.

"What we have to do—I have been
so long among you that I say we—
(applause) "We," he repeated, "have
a great duty, to teach the children to
have a patriotic regard for the re-
sources of Canada. It is difficult to
make people brought up on farms in
an atmosphere where the tree has been
regarded as an enemy, to make them
feel that a tree is their best friend."

Wanted Destruction.
Last year he enjoyed a very pleas-
ant trip in British Columbia. When
on a walk around a mountain he was
astonished to see the whole mountain
side a spectacle of burnt wood. A
prospector, it appeared, angry at not
discovering the ore he coveted, set
fire to the forest, and the result was
dead. A man who made the same boast
to-day would scarcely be allowed to
live to repeat it. (Applause). Twenty
years ago he saw men in Lower Cali-
fornia wantonly set fire to monster
forest giants, which it had taken 2000
years of growth to produce. That man
mark Twain told us, who blew out
a lamp which had been burning in a
church a thousand years was domi-
nated by similar vulgar vanity and in-
difference.

The children of Canada should be
taught a feeling of reverence for the
greatness of their country and to con-
serve its resources.
He entirely agreed with the associa-
tion that forestry was not only an
economic but also a moral question.
This made it necessary to teach the
children that they share a duty to
others as well as to themselves.

A certain class of Canadians were
first to be animated by the thought of
"what can Canada do for me?" while
the true ideal was what they could do
for Canada. It is because of this great
principle that forestry was a moral
question. He trusted the gentlemen
of influence present would do their
utmost to co-operate with the Forestry
Association in their efforts for the
country.

MEMORIAL AT THE BIRTHPLACE

President Roosevelt Lays Cor-
nerstone, Ceremonies Be-
ing Participated in by
Notables and an
ex-Slave.

THROUGHOUT THE UNITED STATES, away
to the Philippines, and even in
England, was the centenary of
Abraham Lincoln observed yester-
day. (Showered in with the firing
of salutes, the day was marked by
special church services, gatherings
of public societies and the G.A.R.,
addressed by prominent men, and
exercises in which school children
participated. The Gettysburg speech
being declaimed by many a school-

and Lincoln portraits were every-
where displayed in every city, town,
and hamlet.

HODGENVILLE, Ky., Feb. 12.—
Henceforth the birthplace of Abraham
Lincoln is to be marked by a pile of
stone. The emancipator of a race, and
the liberator of the negroes of a na-
tion, bulwired his own monument in the
heart of the world, and appropriately
the physical structure which has now
found a beginning at the place where
Lincoln first saw the light takes the
simple name of a memorial. It is to be
a simple, classic building of granite,
and it is hoped that it may be com-
pleted some time next fall, when the
present President Taft will officiate in
dedicating it as the present president.
Theodore Roosevelt, to-day officiated
in laying its foundation stone.

The cornerstone laying took place
after appropriate forensic ceremonies,
which were participated in by the pre-
sident of the United States, Governor
Augustus E. Wilson, of Kentucky,
former Governor Jos. W. Folk of Mis-
souri, president of the Lincoln Farm
Association; Hon. Luke E. Wright,
secretary of war, who spoke as an ex-
confederate soldier; General James
Grant Wilson of New York, who re-
presented the union soldiers, and I. T.
Montgomery of Mississippi, a negro
and an ex-slave.

With one exception the orators, re-
presenting not only the conflicting sides
in the great struggle, but the present
Continued on Page 2.

THE CANADIAN WEST HEARD FROM.

The most significant declaration on the Canadian Pacific
Railway stock-watering deal is the following, heading and all, from
the Liberal Winnipeg Free Press, owned by Hon. Clifford Sifton:

THE C.P.R.'S STOCK JOB.
Winnipeg Free Press, Feb. 9: W. F. Maclean, M.P., has been
doing good service by drawing attention in parliament to the C.
P.R.'s proposal to issue \$50,000,000 worth of new stock at par to
their shareholders—which will be equivalent to presenting them
with at least twenty-five million dollars, upon which interest will
have to be earned by the freight and passenger rates exacted by
the company.

This issue of stock has been authorized subject only to the
conditions that it must not be disposed of for less than par and
that it must not be regarded as part of the capital stock upon
which ten per cent must be paid before control of the freight tariffs
is vested in parliament. It is, therefore, open to the C.P.R. man-
agement to "cut the melon" if they choose. Doubtless they will
choose to do so because it is quite apparent that the big insiders
have been contenting themselves with a comparatively small divi-
dend in expectation of this handsome bonus upon the next issue of
capital stock. It is well, however, that they should know that the
transaction is regarded by the public—because the public, we are
satisfied, is with Mr. Maclean in this matter—as polite and legal
robbery on a gigantic scale.

The matter is so clear that it cannot be clouded by sophisms.
The C.P.R. puts \$50,000,000 additional capital into the road; but
it obligates itself to pay to the holders of this stock dividends, not
on the fifty millions, but on the seventy-five or eighty millions of
dollars which this stock represents to its holders. In its effects the
transaction is not distinguishable from stock-watering, which is an
operation no longer tolerated. The injection of over twenty-five
million dollars of water into the capital stock of the C.P.R. is a
matter of very lively concern to the Canadian West.

A NOBLE MISSION.

Good Brother Foy goes out to succor those who are lost in the legal Alps.

**Plot to DUST SULTAN
IS QUICKLY FRUSTRATED**
Sudden Changes in the Turkish
Ministry This Week Due to
Sensational Discovery.

BERLIN, Feb. 12.—Surprising
changes in the Turkish ministry are
due to the discovery of a plot
against the Sultan that had for its
objects his deposition, according to
the Constantinople correspondent of
The Frankfurter Zeitung.

The plan was to depose the Sul-
tan to-day while he was riding to
the Solanlik celebration and pro-
claim as sultan Prince Yusuf Izzet-
din, the eldest son of the late Sultan.

**Two Ministers Suddenly Removed and
Crisis Set Near.**
CONSTANTINOPLE, Feb. 12.—
The new government seems to be on
the edge of a serious crisis as the re-
sult of the sudden removal of Osman
Nizami Pasha, minister of war, and
Arif Pasha, minister of marine, who
without public explanation, were re-
placed on Wednesday by Nazim
Pasha and Husni Pasha respectively.

Nazim Pasha has been commander
of the second army corps at Adrian-
ople, where he has shown great
talent for organization. Husni Pasha
is vice-president.

It is learned that Kiamil Pasha,
the grand vizier, in discharging the
ministers, was actuated by the
necessity of frustrating a coup d'
etat, which was being arranged by
the committee of union and progress
to establish a military dictatorship
under Prince Yusuf Izzetdin.

The affair is the climax to a
struggle between the two rival re-
form parties, the committee of union
and progress and the liberal union.
The committee is strongly opposed to
Kiamil Pasha, and is composed largely
of young officers, including all the
officers of the Macedonian army,
which was largely instrumental in
the successes of the "Young Turkey"
revolution.

The crisis is further developed by
the resignation of the president of
the council, Hassan Fehmy, and the
threatened resignation of the min-
isters of justice, interior and fi-
nance.

IMPERIAL DEFENCE

Important Communication Forwarded
to Australia.

MELBOURNE, Australia, Feb. 12.—
C.A.P. Cable—Minister of Defence
Pearce has received an important de-
spatch from Secretary Haldane, dealing
with military affairs of the empire as a
whole.

Pearce cabled the war office, asking
that a copy of the despatch be handed
to the general board, inspector-general of the
commonwealth forces, now in London.
The commonwealth government will
await Haldane's report.

View Flag in Lincoln, Eng.

LINCOLN, England, Feb. 12.—The
mayor of Lincoln to-day cabled greet-
ings to President Roosevelt on the Lin-
coln centenary. He said in his mes-
sage: "The Lincoln city flag waves over
the Guild Hall to-day in sympathy
commemoration of the event."

FOUND A HOME FOR ERRING WOMEN

Toronto Evangelist's Kindness
to Wayward Girl in Chi-
cago Leads to Hand-
some Memorial Be-
quest.

Because he went, Bible in hand, into
a "dive" in Chicago and rescued a
beautiful young Australian woman
from the life of shame which she was
leading, David S. Kidd of 17 Lennox-
avenue, this city, is to receive a for-
tune, and the City of Toronto a home
for fallen women, to be called the Burn
Memorial. An option has already been
taken on a piece of property on Col-
lege-street, and Architect Ratray is
at work on the plans for one of the
most beautiful rescue homes on the
continent.

David Kidd, the lame tea salesman,
has been widely known thruout the
city for many years. Particularly in
evangelistic circles is he a familiar
figure, and for a long time he has
been one of the strong men of the gos-
pel movement.

It was two years ago that he fell
upon the adventure which has made
his fortune and given Toronto a no-
table benefaction. Kidd had gone to
Chicago to visit his brother, Arthur
S. Kidd, and after spending a few
days in the city he started down town
Wacker street. As he was roaming
about the city, it occurred to him to
look up the Chicago headquarters of
the Order of Chosen Friends. He is
a member of the Canadian section. He
started for a directory and first sought
out Siegel Cooper's departmental store.
After an exasperating quarter of an
hour seeking the office where he
might find the desired book, he turned
to the street door determined to look
elsewhere. Just across Congress-street,
in the corner of State-street, stood a
fine looking building, for all the world
like a real estate broker's office. Tak-
ing it for something of the kind, he
crossed the street and went in. It
proved to be Bowes and Manning's
saloon, still a somewhat notorious re-
sort in Chicago. The barkeeper di-
rected him to an inner room where
he would find the book he wanted.
Entering, Kidd found himself in the
palm garden of the saloon.

The Turning of a Life.
At a table sat a girl of twenty-two
or thereabouts who was a familiar
familiarity of her class. She turned to
him wearily.

"Are you going to buy a drink?"
she asked.

Kidd looked at her for a moment;
then he quoted the words of Christ to
the woman of Samaria: "Thou
wast ever drunk of this water—
ever dripest of the water that I
shall give him, shall never thirst,
but the water that I shall give him
shall be in him a well of water
springing up into everlasting life."

Drawing from his pocket the tes-
tament which he always carries where-
ver he goes, Kidd sat down at the
table and read to the girl the 24th
chapter of Luke.

In the hour that followed she told
him something of her life, while Kidd
read and talked to her. Finally he
went away together to a restaurant,
where he bought her a dinner.

"My dear girl," he said, "you
had finished, 'where is your mother?'
She started to cry, and bit by bit
he succeeded in piecing out her story.
Her name was Lucy Burn, and her
parents lived in Australia, where her
father was quite wealthy. She had an
aunt in Pittsburg, and there she pro-
mised to go that very night. The mil-
lions gave her his card and said good-
bye, never expecting to hear from her
again.

THE SUNDAY WORLD.

Illustrated features appearing
in the Magazine Section of the
Toronto Sunday World, Sunday,
Feb. 14:

A photograph of Thomas Long-
bolt and Alfred Shrubbs taken
especially for The Sunday World,
a few seconds before they were
killed in their famous Marathon
race in Madison Square Gar-
den.

A photograph of James E.
Crossland, chief officer on the
ill-fated liner Republic, which
sank after coming in contact
with the Italian liner Florida,
200 miles off New York. Mr.
Crossland is a Canadian, having
been born at Dundas, Ont.

A photograph of William
Pearce, ex-mayor of West Tor-
onto.

A view of the handsome new
dental college, which is now un-
der construction in this city.

A group photograph of the
councillors and officers of the
Township of York—1907-1908.

G. Company, 48th Highlanders,
champions of the Indoor Base-
ball League.

Seven interesting photographs
taken from the world-famous
"Merry Widow Waltz," which is
being danced at the Princess
Theatre next week.

A view of the Imperial Bank
at Elk Lake (Smith).

Photograph of Vaughan Glas-
er, the noted actor appearing at
the Grand Theatre next week.

Scenes in the Montreal River
District, the new silver land of
the north.

Several views showing the
progress which has been made
in connection with the construc-
tion of the Panama Canal.

Life in a lumber camp of the
far north. A dog train starting
out on a long journey.

An entire page of photographs
of Mr. James K. Hackett and
members of his company, who
are appearing at the Royal Al-
exandra Theatre.

Numerous other features.
On sale at all news-stands and
railway trains—five the copy.

Backache That Tells of Kidney Disease

The back is a sort of thermometer for the kidneys, for here is indicated at once derangements of these organs. Pains in the back, backache, weak, lame back—all tell of diseased kidneys.

What we want to tell you today is how to cure kidney disease by the use of Dr. A. W. Chase's Kidney-Liver Pills. This is positively the most prompt and effective treatment and the most thoroughly successful in even complicated forms of this dreadfully painful disease.

LAME BACK FOR TEN YEARS.

"For ten years I was subject to spells of lame back from deranged kidneys. At times I had to go about in a stooped down position. Plasters, liniments and medicines did not even bring relief, and when I had an unusually agonizing attack last winter and doctors failed to help me I decided to use Dr. Chase's Kidney-Liver Pills. Before I had finished one box my back was as sound as a bell, and what is better even, has remained so. During the winter I was chopping, loading and hauling heavy timber and doing all sorts of heavy work and had no recurrence of the old kidney trouble and backache and feel unusually strong and well."—Mr. A. K. MacKAY, Ex-Postmaster, Tarbot Vale, Victoria Co., C. B.

Dr. A. W. Chase's Kidney-Liver Pills

By invigorating the action of the liver and bowels immediately take much of the burden off the kidneys, and by their direct action on the kidneys bring about radical and thorough cure. Because of this combined action on both the liver and kidneys these pills prove effective in cases not touched by ordinary kidney medicines, and also cure constipation, biliousness, intestinal indigestion and liver complaint. One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

Dr. A. W. Chase's Ointment positively cures every form of itching, bleeding and protruding piles.

ROOSEVELT DISTRUSTS THE CONDUCT OF JAPAN

Can't Tell What This New Nation Will Do, President's Statement According to Congressman.

KALAMAZOO, Mich., Feb. 12.—In his address before the Lincoln Club last night, Congressman Duncan E. McMillan of California quoted President Roosevelt as being distrustful of the Japanese. "The president said to the California congressmen that we must preserve our lands for the white men, and that he was with us in our fight to bar Asiatic labor. But," said the president, "Japan is a powerful nation, and we don't know what attitude her statesmen will assume towards us. If the difficulty were with England, I would have a hundred years of precedent to guide my action. Nor would the Kaiser strike us in the back, but would meet us on level ground on even terms. But we cannot tell what this new nation will do. We must be patient, and I will endeavor to negotiate a treaty with Japan, under which Japan will herself hold back her people from our continent."

Celebrated the Alliance. KIO, Feb. 12.—At the official reception of Count Komura to-night, there occurred the annual dinner celebrating the formation of the Anglo-Japanese Alliance.

In his address Count Komura dwelt particularly upon the Japanese appreciation of the benefits derived from the alliance between the two countries. Sir Claude MacDonald, the British ambassador, replied in terms equally felicitous.

Against the Repeal. HELENA, Mont., Feb. 12.—A memorial to congress, praying against the repeal of the Asiatic Exclusion Act, was introduced in the house today by Representative Norton, who moved that it be referred to the committee on labor.

Trainmen Go to Trial. GUELPH, Feb. 12.—On the charge of manslaughter arising out of the fatal collision near Harrison on Jan. 14, Conrad Kennedy and Matthew Fleming were this morning committed for trial by Magistrate Saunders. They will now appear at the spring assizes opening on the 22nd of the present month. The men were released on bail.

GRAND TRUNK RAILWAY SYSTEM

The Greatest Mining Camp the World Has Ever Seen.

Cobalt, the wonderful silver El Dorado, reached in Pullman Cars leaving Toronto daily, 10:15 p.m., arriving there 11:10 a.m. will continue for many years to be the mining centre of the north. No one should think of visiting Elk City, Smith, Miller Lake or Gowganda without first visiting Cobalt. The pioneer route to Gowganda takes in Cobalt, Haliburton, New Liskeard, Eaglehart and Charlton. Comfortable sleighs meet the 10:15 p.m. Toronto night train daily at Charlton, reaching Elk City for supper, where good hotel accommodation may be obtained. Leaving Elk City at 9 a.m., Gowganda is reached at 2 p.m.

Further information may be obtained from Grand Trunk Agents, Toronto City Office, northwest corner King and Yonge streets. Phone Main 4209.

A SERIOUS MATTER.

OTTAWA, Feb. 12.—(Special.)—Dr. Barr to-day moved the second reading of his bill to facilitate the crossing of railway tracks by telegraph, telephone, electric or water companies. It gets rid of a \$5 payment for the privilege and requires the railway to take the application to the railway commission within 15 days if objection is taken.

Mr. Graham said it was a serious matter. Such application should be referred to the railway commission and entirely controlled by that body. The bill went to the railway committee.

A SERMON ON LINCOLN.

Beginning with to-morrow (Sunday) evening, the pastor of Jarvis-street Baptist Church, Rev. Dr. Perry, is to preach four alternate sermons to young men and to young women.

The first subject to be presented will be addressed especially to young men. To-morrow is the nearest Sunday to the centenary of the birth of Abraham Lincoln, the emancipator and martyred president.

Special reference will be made to his great statesmanship and surpassing service to liberty in the subject "Heroic Achievement Through Reliance Upon God."

Niagara District Fall Fairs. ST. CATHARINES, Feb. 12.—At a meeting of fair managers dates were set as follows for fall fairs: Bertie, Sept. 15-18; Dunnville, Sept. 15-18; Watford, Sept. 17-18; Niagara, Sept. 21-22; Smithville, Sept. 23-24; Stamford, Sept. 23-24; Thorold, Sept. 27-28; Clinton, Sept. 29-30; Monck, Oct. 1-2; Abingdon, Oct. 7-8; Fenwick, Oct. 12-13.

Officers were elected as follows: President, M. H. Prentice; vice-president, E. Durham; secretary-treasurer, T. R. Gilmore.

RAILWAYS TOO POOR TO PAY

Governments Should Help Financially to Eliminate Crossings.

A timely address on the subject of level crossings was given by F. L. Somerville, M.C. Sec., C. E., at the Engineers' Club.

Mr. Somerville said that while some grade crossings in Canada had been eliminated, this has generally been incidental to grade improvement. Few systematic attempts had been made, the only known ones to the speaker being the proposals of the Grand Trunk to eliminate grade crossings in Montreal and London, neither of which had yet been carried out, because of non-agreement between the cities and the railway.

The attempt to solve the problem of the tracks along Toronto's waterfront was without doubt the most important step yet taken in Canada.

No railway in Canada had to proper means to raise the money to proper to protect every crossing, and many municipalities could only contribute a small amount, if any. As the federal and provincial governments were the guardians of the public interests, they should authorize a new railway in the water-front area, and on the crossings were protected, and on the older roads one or both governments should contribute towards the expense of eliminating unprotected crossings.

Annotated Hymn Books. An entirely new idea in the line of hymn books is the annotated edition of the Book of Common Prayer, the new being issued under the editorship of James Edmund Jones, B. A.

Not only is the history of each hymn gone into fully and variant readings noted at length, but the book practically furnishes a complete, necessary condensed, biography of each hymn, writer whose work is included in the volume.

The composers of the tunes are dealt with in similar manner.

It will be a most valuable contribution to the literature of hymnody.

TRIBUTE TO DEVLIN. BELFAST, Ireland, Feb. 12.—Presiding at a banquet given in honor of Jos. Devlin, Irish nationalist member of parliament for Belfast, John Redmond said that since the days of Parnell, no man had entered the Irish party with such commanding political genius and ability as Joseph Devlin.

Port Arthur Lacks Ice. PORT ARTHUR, Feb. 12.—(Special.)—The ice in the harbor during the past few days has blown out into the lake to-day and there is now hardly any chance of an ice harvest this winter.

DOMESTIC LIFE IN THE BALKAN LANDS

Peculiar Ideas and Customs of Women of the Slav Race.

While diplomats confer and kings pronounce and armies get into shape, it is sometimes well to take a peep behind the scenes at what may be called the domestic side of an upheaval. Since the date of annexation by Austria, the names of Herzegovina and Bosnia have, by the frequency of their mention both in papers and conversation, roused sluggish memory, and sent it back to the old days of geography lessons when the names of such places had to be served up in the form of exercises over maps. One gets a sudden reverence for the teaching thought at the time so futile—it is something, after all, to have these names slip easily off the tongue. It is curious, by the way, to observe how faithfully the tongue always serves memory—the word may not have been pronounced for 20 years—yet it slips off as freely as if it were in daily practice.

Ignorance of Locality. What do any of us who have not traveled there know? I confess, that a lady at a quiet gathering of none too stupid folk asked if the Balkans were the mountains between Europe and Asia, and did not even raise a smile of wonderment at the question. No one could venture to hand to her a deadly chessboard promptly. I can imagine many exclamations of horror from you, O my readers (men and women), at a display of ignorance, yet how many of you over the age of 30, who have not recently studied a map, could name the Balkans? So the question: What are the boundaries of Bosnia and Herzegovina? The two little states are to our minds just as exactly defined as chessboard squares. What are the boundaries of Bosnia and Herzegovina? The two little states are to our minds just as exactly defined as chessboard squares. What are the boundaries of Bosnia and Herzegovina? The two little states are to our minds just as exactly defined as chessboard squares.

Life of Mahometan Wife. When the treaty of Berlin confined the countries to the administration of Austria, they had been almost completely isolated by manners and mountains from the rest of Europe. In the interior particularly life was entirely primitive, and the law of the strongest reigned supreme. This law of brute force left with particular harshness on the women; so much so that the first movement under the new conditions was for the amelioration of her lot.

There is a large Moslem population. The commonly supposed to be Turkish, the Bosnian Moslem is in reality of the same race as the Christian.

His ancestor had changed his religion at the wish of the conqueror, and kept his position and his property. The wife of the Mahometan woman in Bosnia is, as with most well-to-do Easterns, one of material comfort. She is tenderly reared, and behind the barred windows and the walls of her tower she passes lazy and monotonous days in sleepy content. She does not even know the usual excitement of her jealous husband, since she has no rival. She reigns the one and only wife of her husband, and the Bosnian Moslem remains monogamous "because of his love of peace," he explains. The remainder of his life is a life of peace, and he is very strictly to his traditions. The family or patriarchal system has still full swing in the village, and the village is a very old-fashioned place. The chief is sovereign, law-giver, and judge, from whom there is no appeal. His wife shares his authority, and has absolute control over the women of the tribe. No woman reaches the honor until old age, it comes at the end of a life of hardship and slavery.

Charms and Witchcraft. The young girl of these primitive states is handsome, intelligent, poetic, and sweet-tempered. So absorbed is she in illusions that the wretched life of her married sisters, which passes daily before her, does not in the least dispel them. Marriage is the one object of her life, the one aim of her thoughts. In a country where superstition abounds all the charms of wise women and the rest of the fortune-tellers and "witches," she is ever in search of a charm to ward off evil and retain the love of a husband—difficult problem in a country where sentiment is unknown, and where a girl has secured a master and become a slave. In the charms to which the girl resorts it is interesting to note one familiar in Scotland and Ireland, at least so far as the new moon plays a part. At first sight of the new moon the Bosnian girl calls out: "Oh, moon, I beg of you by your youth, you who go round the world, if you see my intended husband, tell him to come to me." This is very like the "new moon, true moon" rhyme we all have heard.

But, say that the new moon does its business, and a Marko or Nikolaos comes along, the girl does not want him to steal her heart straight away. It is easily taken, but not easily regained. So she takes a little casket and goes to the cross-roads where the admired one is sure to pass. She holds up the box, and as she watches him coming along she turns the key in its lock; afterwards she throws the box in a well and the key in a river. Thus does she guard her heart, poor Bosnian maiden.

Bermuda and the West Indies. It is becoming a yearly custom for a great many people to leave Canada during the winter months. Every season the same question is asked: "Where shall we go?" and in many cases it is an unanswered question. A traveling friend suggests this place or that where one can get away from the cold and the winter resorts Bermuda is without doubt the most popular, and it is surprising the number of people that go there, not only in the winter, but the whole year around.

The Quebec Steamship Co. have for years been running and improving the service from New York to Bermuda and the West Indies, until now they have the finest, largest and most luxuriously fitted up boats sailing to these South Atlantic ports. The Steamships "Bermudian" and "Trinidad" leave New York every few days and are offering specially low rates. A. F. Weber & Co., King and Yonge streets, make reservations and issue tickets.

FINGER RIPPED OPEN

Mr. Daniel McDougall, 124 Creighton St., Halifax, N.S., says:—"I was pulling a piece of meat off a hang nail when I received a nasty wound. One of my fingers got caught in the hook and the flesh ripped open to the first joint. I suffered much pain, and try how I would could not get it healed, or prevent the flesh from peeling off. Just at this time I received a sample of CUROL. It stopped the pain at once and the next morning the wound looked nice, so I continued using this wonderful Salve until the finger was healed completely. I cannot praise CUROL too highly for it did wonders for me."

Accidents will happen in every path of life and once the tissues are lacerated it is an easy matter for disease germs to make entry into the blood. Once they are permitted to do this (for the air is full of microbes all too ready to enter the body) they commence their deadly work and develop ugly sores and very often blood poison. The deadly effect of the latter is apparent to everyone—every mother, wife or sister should therefore protect the lives of their families by keeping on hand a Box of CUROL, the greatest antiseptic healing and soothing Salve the world has known. The timely use of CUROL prevents festering and blood poison for no microbe or disease germ can live where CUROL is. As a pain reliever it is a marvel and never fails to soothe and then heal.

CUROL HEALS Eczema, Bad Legs, Ringworm, Ulcers, Cuts, Burns, Poisoned, Itching, and Stinging, Scalds, Sores, Chapped Hands, Itch, and all Skin Irritations and Troubles. It is a positive cure for Blind and Bleeding Hemorrhoids, or piles, or postural, CUROL.

Files: 25c box, all drug stores; 6 boxes, \$1.35. Salve Co., Toronto; 6 boxes, \$1.35.

FREE! Mr. McDougall got to know the healing merits of CUROL through a free sample. You may do likewise by sending 13c in coupon to CUROL Salve Co., Spadina, Toronto. All druggists or dealers sell CUROL at the popular price, 25c box. C 15

Cholera in Hospital. ST. PETERSBURG, Feb. 12.—There has been a serious outbreak of the Asiatic cholera among the staff of St. George Hospital, an institution maintained by the red cross.

Big Fire at Geneva. GENEVA, Switzerland, Feb. 12.—The railroad terminus here was destroyed by fire to-day. The fire destroyed the terminus and loss in property will be heavy.

Attack on Land Bill. DUBLIN, Feb. 12.—The Irish Land Owners' Convention, in session to-day, adopted virtually the Secretary for Ireland Mr. Birrell's proposed land bill and adopted a resolution demanding its rejection by parliament.

At Elm-Street Methodist Church. To-morrow will be the fifty-fifth anniversary of the opening of Elm-Street Methodist Church. Services will be held at 11 a.m. and 7 p.m., and sermons will be preached by Rev. J. W. Stewart of "Yonge-street" Methodist Church in the morning and by Rev. William Briggs, D.D., in the evening. Special music will be rendered.

Fired Him Out. DUBLIN, Feb. 12.—Laurence Ginnell, member of parliament from the north division of Westmeath, was forcibly ejected from a meeting of the Irish parliamentary party after persistently demanding an open discussion of the party finances, which collect credits wrongfully given to customers on his baker's route; H. G.

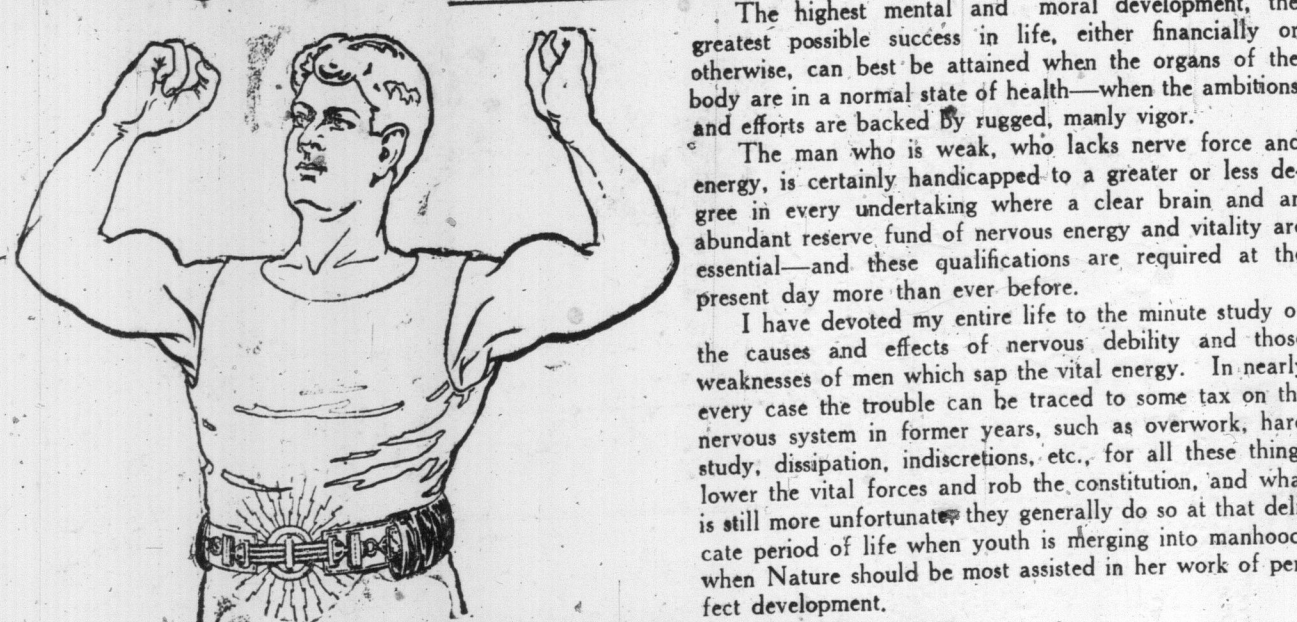

In the Police Court. The following penalties were imposed in police court yesterday morning: John Dundas, forger on South African scrip applications, 60 days; Louis Ryan, theft from employer, a week; J. J. Ryan, theft from employer, a week; collect credits wrongfully given to customers on his baker's route; H. G.

Does not Color the Hair Ayer's Hair Vigor is composed of Sulphur, Glycerin, Quinolin, Sodium Chloride, Capsicum, Sage, Alcohol, Water, Perfume. Show this to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor, as made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows.

J. C. AYER COMPANY, Lowell, Mass.

Free Until Cured

The Dr. Sanden Electric Belt gives New Strength and Vigor to Men and I Ask no Pay Until Cured

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep.

My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and that ends the transaction. Isn't that a fair offer?

If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing fields crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

This book, profusely illustrated, contains valuable advice for men, and outlines the proper course to pursue for the greatest possible development of the physical and mental powers. Write or call for it to-day. It is sent free, sealed, by mail.

DR. A. B. SANDEN, 140 YONGE ST. TORONTO, ONT. Office Hours 9 to 6; Saturdays until 9 p. m.

Dineen Building, Entrance 6 Temperance Street.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a broken-down system. No matter what may be its cause (and there are almost numberless), its symptoms are such the same: the more prominent being weakness, some of prostration, nervousness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour.

VITAL STRENGTH & ENERGY

To throw off these morbid feelings, and experience the joy of life, the broken-down system must be restored to its normal state, and this can be done by a course of

THE NEW FRENCH REMEDY THERAPION No. 3

than by any other known combination. So surely as it is taken in accordance with the directions accompanying it, will the shattered health be restored, THE EXPIRING LAMP OF LIFE

LIGHTED UP AFRESH.

And a new existence imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently overcome by this restorative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

COBALT---Ossie and Hargrave Active at the Mining Exchanges---COBALT

Cobalt Markets Are Steady Beaver and Otisse Firm

Hargrave Still in Demand—But With New York Closed Business Was Somewhat Lighter.

World Office, Friday Evening, Feb. 12.

The practically all of the American business was out to-day, the trading in Cobalt securities at the local markets was only restricted to a moderate degree.

There was very little real liquidation in the market and this was readily taken by those looking for reactions in the market, or shorts who had put out stocks at a little higher price.

Price changes were exceedingly narrow in all securities, and ranges of three points would cover the dealings in any one issue in the market. There was no special feature to-day, though there was a desire among speculators to take profits in issues which have undergone recent advances, such as Teniskaming, Crown Reserve, and Beaver.

Otisse was decidedly strong again to-day, with sales as high as 54 1/2, the closing transactions being practically at the highest point of the day in the unlisted issues. There was a continued demand for Hargrave, which sold in large quantities between 60 and 61.

The market undertone was substantial, but with certain exceptions the pressure against prices destroyed any idea of buoyancy.

MOVEMENTS ERRATIC

But Hargrave and Otisse Are on Constructive Side.

Heron & Co. in their weekly letter say: Trading in Cobalt stocks during the week has again been on a large scale, with more public participation than for some time. Price movements have been very erratic, but the advances on the average more than offset the declines.

Hargrave, Otisse, and Crown Reserve have been the leading features on the constructive side, making and holding in the face of persistent bearish attacks substantial gains. We look for continued steady improvement in these shares, particularly the two first named. The spectacular rally in Varte presented an excellent opportunity for holders to realize. Little Nipissing met a lot of stock on the advance, but insiders aver that the rise will be resumed before long.

DISCOVERIES AT DEPTH.

Found by Diamond Drilling on the Bailey Property.

COBALT, Feb. 12.—(Special).—Diamond drilling at the Bailey property has resulted in the discovery of rich veins at depth. The report is not verified but believed to be absolutely reliable. This property is under lease to the Cobalt Central Mining Co., Ltd., and the new consolidation known as the Pol-Davis Company has bought the Bailey subject to this lease.

The Pol-Davis Co. operate properties in various sections of the north country. It has acquired the Flynn lot and 1.0 acres under Cross Lake, also the Donaldson properties in the Elk Lake section. W. A. P. Davis of Philadelphia is the president of the company.

F. B. Moore.

PRESS MEN SEE THE BARTLETT MINES

Chunks of Silver Dislodged From Veins With Pick and Handed to the Visitors.

GOWGANDA, Feb. 9.—(Staff Special).

The visit of the Canadian Northern press party to the Bartlett Mines proved to be one of the most enjoyable and illuminating events of an exceedingly interesting journey.

Eight weeks before, I had met the two young Scotch-Canadian prospectors who discovered the silver veins on the Bartlett property and learned from their lips the fascinating story of their struggles in the wilderness. Their description of the properties and the subsequent sale to the present owners appeared to me because of the intense earnestness with which it was told. To them the sale of the Bartlett spelled fortune. The story which they related to us at that time was absorbing, and I was impressed with the truth of their utterances by the calmness and carefulness with which they formed a good opinion of the Bartlett.

I had not visited on my first trip to the camp in November. The press had dealt from time to time with the Bartlett properties, as well as with other celebrated properties at Gowganda, but at best uncertain impressions may be secured from such publicity unless the writer has a personal knowledge of what he is writing about.

The party rested comfortably on the mattresses of the Bartlett, and the night of our arrival. We were awakened the following morning as the grey dawn faded into broad daylight. Outside we could hear the calls of the teamster, the blows of the ax and ring of the hammer on the staked bunk house and dining hall in course of erection.

The Cook is King.

An order came to summon us into the presence of the cook. It was a peremptory command, for in all mining camps the cook is king, and the cook must be obeyed.

When the cook wants his subjects he wants them quickly and we soon learned that there were very good reasons why his orders must be carried out on the hop, step and jump.

This particular king, the culinary sultan of the Bartlett, was serving a staff of fifteen men as best he could in the old cabin, which is only about twelve feet square. His guests, on our arrival, increased to about twenty-two.

"You will be glad when you get into the new dining hall," I remarked.

"Well," said the little English cook, "it's about as broad as it's long. When we get into the big building I'll have more meat, but I'll have less room."

"Do you have some of the conversation (laughs) here?" he asked.

Despite his slashing commands the cook of the Bartlett is a good one, and the men are probably as well fed as any in the north country.

Saw Real Silver There.

At 9 o'clock we started off to see the Bartlett silver veins. J. W. Bartlett, whose guests we were, took the lead with a spade over his shoulder.

The world man followed closely with a pick. J. B. Tyrrell, M.A. author, mining engineer and geologist, and J. C. Murray, editor of the Canadian Mining Journal, followed closely with distance behind.

Two Toronto morning newspapers, and following up in the rear was Arthur Hawkes, the Canadian representative of publicity for the Canadian Northern Railway. As yet Mr. Hawkes, with his 240 good-natured pounds, scarcely realized what he was up against, but he was game and was there at the finish.

Down the hill the party proceeded from the camp house to the little lake, then turning to the right started to break a trail thru the deep snow to the forest. For nearly a mile we walked, a mile we worried along, practically breaking our way over the old trail, which had been almost obliterated by the recent heavy falls of snow.

At last Mr. Bartlett turned to the right and commenced to shovel snow. Some fifteen feet of a vein was stripped, and after which it was found that the seam between the rocks was full of ice. This vein, running down an incline, forms a natural drain thru which the water runs.

Mr. Bartlett went at his task bravely. From time to time he wedged out lumps of frozen charcoal, and a piece of frozen charcoal responded to the prying of the pick, for the vein had been thawed out by fire on a number of occasions for the benefit of visitors to the mines.

This process was taking considerable time and Mr. Hawkes lighted a fire to keep the crowd warm.

At last Mr. Bartlett wedged out several nuggets coated with rust-colored decomposed matter. These were examined carefully. More silver was removed, until it became evident that the vein was full of the precious metal.

The party then hit the trail once more to inspect what proved to be even more striking deposits.

Hard Climb Over the Hills.

It was a hard climb over hills and ravines thru the snow for some sixty chains, and again Mr. Bartlett removed his coat and brought out a number of samples which he passed around and carefully inspected. It was the most beautiful native silver I had ever seen and must have been 90 per cent. pure.

Threads in the Apilite.

Remarkable as this showing had been we were yet to see what I regard as the strongest evidence of the whole-sale mineralization of the properties.

It seemed the left about 20 feet, where a wall of apilite and diabase stood out some ten feet above the level of the vein just threads of the vein.

It seemed almost a shame to disfigure that beautiful showing of precious metal, but into it again and again Mr. Bartlett drove the point of the mercurial pick.

Some of us protested. "Oh, never mind," said Mr. Bartlett, "I can show

SOUTH GOWGANDA NEW CITY OF THE MINES

What Two Big Men Are Doing
to Direct Traffic Into the
Silver Country--News
Notes From Rich
New District.

SOUTH GOWGANDA, Feb. 8.—(Staff Special.)—This is the first newspaper despatch from a brand new mining camp.

It was named to-day by "Big Jim," one of nature's noblemen and one of Canada's actual nation builders. The naming of Gowganda is one of the little human interest stories that crowd themselves on a journalist in a new country, and it is worth relating here.

"Big Jim" is W. J. Cowan, president of the Gowganda Construction Company of Winnipeg. Associated with him in the construction of the Canadian Northern railway road from Selkirk to Selkirk is "Big Archie," A. C. Mackenzie, president of the Northern Construction Company.

These men, acting separately, have constructed hundreds of miles of the Canadian Northern Railway System, and have produced millions of the ties which rest under the steel of that ever-expanding enterprise.

A. C. Mackenzie named Phoenix, twenty-eight miles south of Elk Horn Lake, because his adventures in reaching there reminded him of an experience of his earlier years in getting to Phoenix, B.C.

"Now, Archie named Phoenix," said Mr. Cowan, "and I'm going to take a smash at this one." And thereupon the new terminal was named South Gowganda.

These men regard the building of the Canadian Northern railway road as one of the least of their undertakings. They have so many horses in the west that it takes 1500 bushels of oats a day to feed them. They can ride for days over western railroads, which they have constructed. Their personal fortunes run into several hundred thousand dollars and their credit runs into millions. These big men are used to large undertakings and are disposed to regard the building of 63 miles of sleigh road through the forest, unbroken by lakes and rivers, as one of the smallest of their accomplishments.

And yet, it is one of the most notable undertakings in the career of either of these men, and they are just commencing to realize it.

With a staff of men and teams they slashed the road thru and graded it in 25 days. That was something big, surely.

Hundreds of Horses at Work.
But now these men must handle the traffic. Already they have 150 teams employed and need a steady supply of the north country for one hundred more. They have built road houses for passengers and for the horses, and are putting out a staff of "road monkeys" or "road boys" to keep the road in perfect condition. They have had to haul in car load after car load of their own supplies, and this while their credit runs into millions.

Days after day telegrams are coming to Selkirk asking them to handle so many car loads of this, that or the other thing. Invariably they reply, "Yes, send it along." Then Mr. Cowan raises his hand in the air and in husky tones will shout:

"Yes, let 'em send it along. We'll smash 'er thru, or we'll buy up every horse and sleigh in the country."

Another telegram is handed to Mr. Mackenzie. It reads:

"Twenty passengers on Gowganda Special going right thru."
Mr. Mackenzie turns to Mr. Errington, the general manager, and says:

"Put the six best horses on the stages and rush these men thru. Tell the drivers to make it a record. Send a man on to-night with orders for the best possible relays at Burwash and Phoenix."

Mr. Errington then steps up to Mr. Cowan respectfully and says:

"Mr. Cowan, we could load fifty teams if we had them here to-morrow. There are 17 cars on the siding."
Up goes the Cowan fist in the air. "We've got to smash that stuff thru," he says, with set jaws. "We won't let the shippers get sore on us. Send Bill and Dave to Sudbury and tell them to sub-contract, buy horses or do anything. We'll tear up this business or die in the attempt."

Another wire is handed to Mr. Cowan. It reads:

"Can you handle two thirty-horsepower boilers to Gowganda?"
There is a little smile on the side of Mr. Cowan and Mr. Mackenzie. Then turning to the operator Mr. Mackenzie says:

"Wire back that we will handle anything. We will have sleighs specially constructed to handle all kinds of machinery."
In the meantime General Manager Errington leaves for the north to direct the traffic.

Getting Together.
And how did these big fellows get together on this unique undertaking? A. C. Mackenzie was down east spending the Christmas holidays at his home in Beaverton. Mr. Cowan was also visiting his family at his 400-acre Clydesdale farm near Canington.

One day they were summoned to the office of the Canadian Northern Railway by the company.

ed fool," said Mr. Mackenzie. "And me, too," said Mr. Cowan. "Smooth Bill has tripped us up again, but we'll take a smash at 'er, eh, Archie?"

"Yes, we'll drive her thru, Jim," said Archie.

And it was into the care of these men we were placed on one of the most unique newspaper journeys of recent years.

On a Splendid Train.
At the Union Station a party consisting of Arthur Hawkes, Canadian Northern superintendent of publicity; J. B. Tyrrell, M.A., the well-known geologist and mining engineer; John W. Bartlett, of the Bartlett Mines; J. C. Murray, editor of The Canadian Mining Journal, and representatives of the Toronto morning newspapers, boarded the C.N.R. Gowganda Special.

It is a splendid train, consisting of baggage, smoking, cafe and sleeping cars. An evening dinner was served on the train and the party retired to sleep comfortably until morning.

Breakfast was served the next morning as the train was speeding north of Sudbury to Selkirk, where the Moose Mountain iron mines are being developed. There a long line of freight cars loaded with supplies for the new mining camp. There were racks behind for the hand baggage and the seats were covered with profusion of fur robes. There was no particular necessity for the day of our arrival, for the sky was bright and clear and the temperature moderate.

In less than a minute everyone was seated and the driver cracked the whip in the air over the horses' backs. The animals responded by taking up a lively trot. We passed quickly thru the little town of Selkirk and in a few minutes were moving quickly into the depths of the forest. Great pines, weighted down with snow, stood on either side. Now and then the forest would open and let the stage out on a lake, across which the horses would spin at a lively gallop. At noon, in hours' time, the party had reached Burwash, twenty miles from Selkirk.

Burwash consists of a road house, dining hall, a bunk house with spring beds, a bathroom and several other log buildings. In the dining room, in which an excellent meal was served in enamel dishes about fifty men were crowded. Outside were freight and passenger sleighs, dog teams and loaded toboggans. A number of men were erecting an old bunk house, which had been burned down the night before.

In the meantime the stage horses were changed and at 1 o'clock sharp we were off for Phoenix. This trip includes about fifteen miles on the Selkirk-Burwash and Welcome Lakes. Phoenix was reached early in the evening, and there, to our surprise, we found the bunk house filled with spring beds, mattresses and blankets. Forty people slept in that building that night.

Everything that could be done to contribute to the comfort of the transient was done. The meals were excellent, there being fifteen varieties of food on the tables. The bill of fare included beef, pork, sausage, potatoes, corn cake, bread, cakes of several kinds, stewed prunes, bananas, stewed apples, apple sauce, raisin pie and pumpkin pie.

We were off again in the morning at a lively clip. The road we passed the four tents of the surveyors, who are making the preliminary survey into Gowganda. A glance at Engineer Hazen's profile showed the road to be easy of construction, and it will probably be built. It is everyone's opinion that the road will be built.

Splendid Distribution Point.
At Elk Horn Lake, where we arrived about noon, dinner was served in a tent. This is the site of South Gowganda and already half a dozen buildings have been erected. An important distributing centre is bound to spring into existence here. It is situated two miles south of the Bartlett mines, within easy distance of every important property at Gowganda. It is four miles closer to the mines than Gowganda. From this point sleighs may be despatched to any of the mines, and the whole country west is most easily accessible from this base of supplies.

Within two hours after the first load of supplies arrived at South Gowganda the general manager and others, including prospectors, including food, blankets, axes, picks and other necessities.

The party left South Gowganda early in the afternoon for the camps of the Bartlett Mines. They were extended every possible courtesy by the management. The Bartlett camps are the convenient headquarters for the inspection of that property and other properties visited on subsequent days.

It is still to be seen in this article with the discoveries on such properties as the Bartlett, Reeve, Mann, Boyd, Armstrong and others, and it is for these reasons that they have been claimed for them by their respective management.

The trip was made without one unpleasant occurrence. Indeed, it was an enjoyable and exhilarating experience. The trip is being handled with business-like snap and the hand of a splendid organization is always visible in directing it. The new road is already a great factor in the development of the new silver fields.

DIVIDEND ON BIG SIX
Some Properties Sold, But Others Will Be Developed.

It is reported that the Big Six Silver Cobalt Mines, Limited, have sold four of their mining claims. The company have authorized the payment of a dividend from the proceeds of this sale. They have a large treasury fund and propose to use it to develop the property they have retained. They have retained ten properties, including one at Mill Lake and their valuable claim adjoining that of the Mother-Lode Mining Company at Elk Lake. A shaft has already been sunk 12 feet deep on an Elk Lake claim, and it is their intention to continue this shaft to the 150-foot level. Contracts are being let for this work.

Contract will commence at once. Machinery will be installed to do the work at the least possible cost. Driveway, which will be used to prove up at depth the rich Mother-Lode veins which run into this property. This company was organized in August, 1908, by Governor & Knight of Detroit.

STAGE FARES TO GOWGANDA.
The following table of stage fares will be interesting to those going into Gowganda from Selkirk:

Selkirk to Burwash	\$3.00
Selkirk to Welcome Lake	4.50
Selkirk to Phoenix	5.00
Selkirk to Quartz Lake	6.00
Selkirk to Gowganda	7.00

As they entered from the office both men were laughing.

"What are you laughing at?" asked Mr. Cowan.

"I am laughing because I am a blam-

O'KELLEY FIND IMPROVES RICH ACREAGE OWNED
WIDENS TO 21 FEET BY SILVERS LIMITED

Directors and Mining Engineer Will Inspire Confidence With Investment Buyers.

GOWGANDA, Feb. 12.—(From the man on the trail.)—On the west side of Gowganda Lake, at the extreme south end, where recent development and exploitation work has reached wonderful showings of silver, is located the O'Kelley claim No. 1338.

Up to date on the O'Kelley claim there has been uncovered to the naked eye a fragmentary surface matter of altered aplite and strong chlorides and volcanic ash, all of which are considered by mineral experts to be positive signs of silver abundance.

The proof positive is just so positive that any person can without difficulty pick out the silver particles and show them to the next person standing by—and neither person need be more than a casual traveler passing thru the country out of sheer curiosity.

There is also a secondary vein containing calcite and native silver, and this vein is 12 inches in width. With these proofs there is every indication that the leads will grow heavier as work on the sinking progresses.

This has been the case on the Boyd-Gordon and other claims lying adjacent to the O'Kelley.

Some O'Kelley History.
The O'Kelley properties were among the first to be staked. Last July, E. G. O'Kelley of North Bay and Frank McCracken of Mattawa, left Temagami Lake by canoe and, reaching Lady Evelyn Lake and Smooth Water Lake, the prospectors soon gained the east branch of the Montreal River. The south end of Gowganda Lake was reached as possible on account of the rush, and the 14th day of July, E. G. O'Kelley staked his two claims, numbering 1338 and 1339. On the 30th of March the claims were restaked and since then they have been absorbed by a syndicate, who have also a string of other claims, all of which are counted by men who are known to be among the best in Gowganda.

That this syndicate intends to develop these claims and make of them mines such as will produce the real stuff and swell the world's supply of silver, one needs only to visit the camp and see the work going on.

On the O'Kelley claim 1338, where the crew is now located, some dozen men are hustling to prepare the way for machinery, which has been ordered. A large bunk-house has been completed and just as soon as a cook shanty can be put in order the force of men will be increased.

The engineer in charge of the work is J. W. Smiley, who has given a number of years to studying the peculiar formations and characteristics of the northern country. Mr. Smiley also spent a year and a half traveling thru Labrador in connection with a geological survey, besides spending some time in the mines of Peru and Bolivia, South America.

In discussing the great O'Kelley claim with Engineer Smiley, The World was informed that it can be traced at this date for 400 feet. It was discovered not more than 100 feet from the lake and runs northeast and southwest.

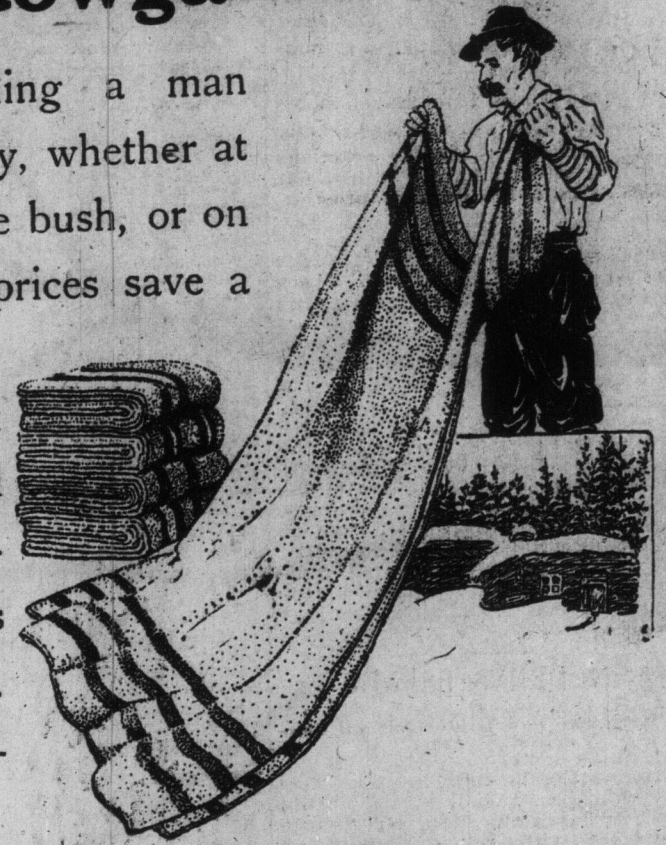

Prizes for Handwriting.
KINGSTON, Feb. 12.—Hon. William Hart and B. W. Robertson have each offered the board of education \$50 for prizes for writing competitions in the schools.

THE SIMPSON COMPANY, LIMITED

THE ROBERT

Outfit For Gowganda Here

We sell nearly everything a man wants for the North Country, whether at work in the rock, or in the bush, or on the road. SIMPSON'S prices save a whole lot of good money to the prospector. Our stock of Clothing, Footwear and Blankets afford plenty of variety and choice. Qualities are worthy. Prices are easy. Outfit here and save the difference.

Clothes for the North Country

All Wool Scotch Tweed Suits for \$8.00.
Heavy Frieze Oxford for \$8.50.
Untearable Tweed Trousers for \$2.00.
Black Oil-Tanned Leather Coats for \$6.50.
Black Mackinaw Pants for \$2.50.

Warm Working Shirts and Woolen Underwear

Heavy Khaki Duck Shirts, dome fasteners, two pockets, \$1.00.
Heavy Navy Blue or Grey Flannel Shirts, reversible collar, one pocket, \$1.00 to \$1.50.
FUR COATS AND CAPS FOR DRIVING.
Do you intend to travel behind a team much?

Shoe Packs, Moccasins and Rubber Boots

Prospectors' Hand-Made Shoe Packs, brown Showhegan leather; 6-inch leg, \$1.50; 10-inch leg, \$2.49; three-quarter leg, \$4.19.
Prospectors' Knee Boots, tan calf, lace sides at top, \$7.95.

Camp Blankets and Camp Towels

Seven-pound Grey Union Blankets, 60 x 80 inches, for \$1.98 per pair.
Pure All-wool Grey Blankets: 6 lbs., 56 x 76 inches—\$2.30 per pair.

Hunters' Axes, solid steel, 49c.
Drilling Hammers, any weight, per lb., 23c.
Clay Picks, 50c.

FIFTY PROSPECTORS AT SHINING TREE LAKE

Diabase Ridge Twenty Miles West of Gowganda—Sam Otisse on the Trail.

With the relentless advance of the mining prospector the silver fields of the northland are extending steadily day by day. Reports of new discoveries reach The World almost daily.

Yesterday E. Wallace Williamson, formerly assistant mining recorder at Elk City, was in the city.

"I had knowledge of the character of the discoveries at Gowganda last year, but held down my job while the rush developed and my chances vanished.

"Well, I got into the game myself at last and have staked four promising claims on Shining Tree Lake, twenty miles west of Gowganda. There is lots of diabase there, and it is rotten with calcite.

"On the way out I met Sam Otisse, discoverer of the Otisse Mine, going in. We started in—Alex. Campbell, who is my partner, and myself—and an Indian guide named John Domineck. Alex. Campbell is from Ottawa. We were the third party into Shining Tree, which is really a continuation of Dun-

can Lake. We hadn't grub enough, so we had to stop this arrangement.

"We camped all day on Wapoose Creek. The Indian went one way and we went another. He struck a fresh trail, which he followed for five miles, when he ran across a fresh staking. He came back and reported that he had found diabase.

"Well, we broke camp and cut our way three and a half miles thru a forest. We located four claims, one of which is a twelve-inch apite vein shot with iron and copper values.

"When we left ten days later there were fifty prospectors in the district."

TO Bailey Cobalt Stockholders

Have your Bailey Cobalt stock transferred in your own name at once. Important Developments in Bailey Cobalt will be announced soon to all Stockholders of Record. Send your stock to us and we will attend to it for you, free of charge. Look for a big and early advance in this stock.

BOND PRICES ARE FIRM

MONEY CONTINUES EASY

Many Brokers Think That Quo-

tations Are High Enough—Hal-

fax Issue Sells Well.

Perhaps the most noticeable feature

in this week's bond market is the

growing demand on the part of investors

for bonds of railroad, traction and in-

dustrial corporations yielding 5 per

cent, and better. This has been brought

about largely by the sharp advance

that municipal securities have had re-

cently. The market in the latter con-

tinues firm, and by many is thought

to be a trifle high, while on the other

hand others are of the opinion that

prices will work higher yet, and, in

the near future, with the tightness or

otherwise of the money market, an

important factor. Money continues

easy at 4 per cent.

The City of Halifax during the past

week disposed of an issue of \$105,000

school debentures, bearing interest at

4 per cent, and payable in 1940 by the

Royal Securities Corporation of Mon-

tréal at 99.61. Comparatively speaking

this is a good sale.

Many dealers who during last year

bought municipal bonds are now turn-

ing their attention to mortgages, on

real estate, preferring the trouble of

looking after these investments rather

than purchasing bonds which have in many

instances reached a 4 per cent basis.

Local bonds are selling at the fol-

lowing prices during the week:

The City of Calgary has sold to

Messrs. Wood, Gundy & Co. another

block of \$250,000 debentures. These

bonds are in addition to the \$777,000

the city sold the same firm on 25th

ult. The present issue is at 4 1/2 per

cent, and payable half-yearly in To-

ronto, Montreal and London, England,

and matures at the end of thirty years.

The financial position of Calgary shows

up well in comparison with other large

cities. The net debt of the city is \$253,300

per head of population, which is very

small compared with others. The net

debt of the city represents only about 3

per cent. of the assessment.

The City of St. Boniface, Manitoba,

school districts, have also awarded to

the same firm \$22,000 bonds issued for

school improvements, bearing 5 per

cent, interest, and payable in 1940.

The assessment of these bonds has

fallen heavily.

Money Markets.

Bank of England discount rate, 3 per

cent. Short bills, 2 1/2 to 3 per cent. Three

months, 3 1/2 to 4 per cent. London

Yorks call money, highest 4 per cent.

lowest 3 1/2 per cent. last loan 2 1/2 per

WITH WALL STREET CLOSED CANADIANS ARE BOUGHT

Coal-Steel Episode Dies Out and Speculation Assists Advances in
Local Speculative Securities.

World Office

Friday Evening, Feb. 12.

With the Wall-street market closed

until Monday, several local speculators

turned their attention to Canadian

listed securities to-day, with the result

that transactions were enlarged at the

Toronto Stock Exchange.

The Coal-Steel episode was pretty

well concluded in yesterday's business.

Drive was made to dislodge specula-

tive long holdings of the Coal shares at

the Montreal market, but as few

of these were found the adventurers

for profit on the short deals quickly

closed up their contracts.

Steel holders are trying to take full

advantage of the court's decision, and

despite liquidation, the inside interest

in these stocks held up prices again

to-day, with the aid of sundry specu-

lators.

Traction stocks were strong, with

the preference still given to R.O., which

sold at about 108 on legitimate deals.

Twin City was more active to-day, but

the pressure of stock continues to hold

this security in check.

In scarcely one issue was the market

broad, but sufficient business is

forthcoming to give a present advance

to values, and the hope is that this will

be increased.

In the speculative melee the investment

securities are at present being

overlooked, but there are no shares

pressing on the market in this depart-

ment.

The City of Calgary has sold to

Messrs. Wood, Gundy & Co. another

block of \$250,000 debentures. These

bonds are in addition to the \$777,000

which the city sold to the same firm

on the 25th ult., and bring the total

sale up to \$1,027,000. The present issue

bears interest at 4 1/2 per cent. It is pay-

able half-yearly in Toronto, Montreal

and London, England, and matures at

the end of thirty years. The bonds are

issued for street railway purposes.

Financially, Calgary shows up re-

markably well in comparison with other

large western cities. The net debt of the

city is only \$253,300 per head of popula-

tion, as compared with Victoria, \$31.77;

Edmonton, \$58.87, and Regina, \$45.53.

The net debt of the city represents only

about 3 per cent. of the assessment.

The City of St. Boniface, Manitoba,

school districts have also awarded to

Messrs. Wood, Gundy & Co. \$22,000

bonds, issued for school improvements.

They bear 5 per cent. interest, are pay-

able yearly, and mature in twenty

years. The assessment for taxation is

\$6,885,251, while the total debt is only

\$142,600.

Joint Boston Exchange.

J. Edward Thompson of the firm of

Thompson & Co., New York,

has become a member of the Boston

Stock Exchange.

\$1,250,000 Liability.

CLEVELAND, O., Feb. 12.—Receiv-

ers of the Cleveland Trust Co. have

declared a dividend of \$1,250,000 on

the assets of the trust, which would

be a record for any trust company.

"Mr. Bushnell, and they will not

lose a dollar."

Hogs—Receipts, 400; market firm; good medium weights, \$7.

East Buffalo Live Stock.
EAST BUFFALO, Feb. 12.—Cattle—Good demand and stronger; prime steers, \$2.50 to \$3.00; receipts, 400 head; active and 50c higher; \$7 to \$10.
Hogs—Receipts, 500 head; fairly active and steady; Yorkers, \$5.75 to \$6.00; pigs, \$5.00 to \$5.75; dairies, \$3.50 to \$3.75.
Sheep and Lambs—Receipts, 1100 head; active; lambs and yearlings, 1c to 1c higher; cull lambs, \$5 to \$10; a few 15c; wethers, \$5 to \$6.

British Cattle Markets.
LONDON, Feb. 12.—London cables for cattle are steady, at 12 1/2c to 13 1/2c; higher; refrigerator beef is quoted at 1 1/2c to 1 3/4c per lb.

Price of Hogs.
Editor World: This may give you an idea of the prices that are paid for hogs. The Matthews people of Peterboro paid, for 100 hogs, \$1000. The London and Ingersoll are only paying \$8.50 per cwt. Do the Matthews people pay those prices every where or only in Toronto?
Thorndale, Feb. 10, 1909.

UNION HORSE MARKET.
Trade at the Union Horse Exchange was the best this week, that has been this year. The exchange has been to get enough horses to fill the many orders that Mr. Smith has received during the past two weeks. Dealers who have been in the country trying to pick up a few good quality horses, find the farmers very hard to deal with at prices that would leave a very small margin for risk and trouble in handling. Farmers have been getting such high prices for the past two or three years, that they do not seem inclined to take current selling quotations. Mr. Smith shipped one car load of horses to Brantford, Ont., 2 car loads to Manitoba and 1 car load to Peterboro. Buyers from all over the Dominion were present, which goes to show the high estimation of the dealers for fair dealing and honest treatment received from the hands of the management of these stables. Prices ruled as follows: Drafts, \$100 to \$150; general purpose, \$100 to \$150; express or wagon horses, \$100 to \$150; drivers, \$100 to \$150; serviceably sound horses, \$80 to \$90 each.

A Strong Preacher.
Important meetings are to be held at the West Queen-street Mission, 1182 Queen-street, beginning Tuesday and continuing every night during the week. Rev. James Lyall of London, England, will give Bible expositions. Mr. Lyall has labored in Australia, India, England, Ireland, Scotland, and America with very marked and wonderful results. He is to be one of the principal speakers at the Christian and Missionary Alliance Convention on Feb. 23 to 26. Mr. Lyall conducted a very successful mission in Ontario, Presbyterian Church during the ministry of Rev. Wm. Patterson.

Mayor Oliver has been invited to attend the international medical congress, which will be held at Budapest from Aug. 29 to Sept. 4.

The Farmstead.

Spring lamb 40c a lb.

All meat supplies are short.

Read our advertising columns.

Donald McMillan of Pickering has a snap in some horses at his sale next Wednesday.

Poultry advertisers should be placing their ads soon for results.

The Holstein breeders are to be congratulated upon their splendid growth.

Jersey men say that there are more registered Jerseys in the States than there are of all other cattle combined.

A young men's club in Audley's other day debated the question of the comparative advantages of western and Ontario opportunities. The Ontario side won.

The Clydesdale advertisements as well as general sale ads in this issue show some excellent stock for sale, and they are all good men.

Prof. Dean at the Holstein dinner recently intimated that he hoped some day to go into farming for himself. Agriculture is the best of pursuits.

Ontario County is holding a fruit institute at Port Perry on Feb. 22 and 23, and at Whitby on the 26th and 27th of this month, when it is expected that the successful orchardists of that county will make things lively.

Essex County is doing a grand work for agriculture in holding the corn exhibit. The number of entries totaled 285, and the attendance was good throughout.

The postoffice department of the United States will heretofore allow 30 days' vacation each year to the horses employed at Washington. They will be sent a few at a time to a fine, rich pasture in the country. This is merely extending to horses the privileges enjoyed by the employees of the postoffice who receive each year a 30-day period of rest.

The Dairyman's Association of Manitoba have prepared an elaborate program for their annual convention at Manitoba Agricultural College, Winnipeg, on Feb. 17 and 18. In addition to the usual business of the association, Prof. T. H. Haeker of St. Anthony's Park, Minn., Prof. J. H. Shepperd of Fargo, N.D., and J. A. Ruddick of Ottawa, there will be a practical demonstration in milking cows with a milking machine.

A free course in stock and seed judging has been arranged by F. C. Hart, B.S.A., of the Galt Collegiate Institute, to be held at Agr. Ont., Feb. 8, 9 and 10. Mr. Hart will have the assistance of President Creelman, and Professors G. E. Day, C. A. Zavitz, R. Hargrave and J. H. Reed of Ontario Agricultural College, and T. G. Raynor of Ottawa.

Darwin to Be Celebrated.
The Canadian Institute meeting this evening at 8 will be held in the lecture theatre, biological building, Queen's Park.
As this is to be commemorative of the 100th anniversary of the birth of Charles Darwin, addresses will be given by Professors R. Ramsay Wright, I. P. McMurich, A. B. Macalpine, T. G. Brodie, I. H. Paul, A. H. Abbott, and Dr. R. Keys. The public are cordially invited.

Liquor & Tobacco Habits

A. McTAGGART, M.D., C.M.
75 Yonge St., Toronto, Canada.
References as to Dr. McTaggart's personal and professional qualifications are permitted by Sir W. R. Meredith, Chief Justice, Ontario, G. W. Ross, ex-Premier of Ontario, Rev. N. Burwash, D.D., President Victoria College, Rev. Father Teofilo, President of St. Michael's College, Toronto, Rev. Wm. MacLaren, D.D., ex-Principal of Knox College, Toronto.
Dr. McTaggart's habit of remedies for the liquor and tobacco habits are healthful, safe, inexpensive home treatments. No hypodermic injections, no "hot city," no loss of time from business, and a certain cure. Consultation or correspondence invited.

TARIFF IN PULPMOOD.

Recommendations That Will Be Made by Select Committee.

WASHINGTON, Feb. 12.—With the approach of the special session of congress for the consideration of a revised tariff, activities in regard to the investigation of wood pulp and print paper are being renewed. The select committee on pulp and paper, it is understood, will recommend considerable reduction in the duty of cheap print paper and probably the removal of the tariff on ground wood, under such conditions as would secure the free importation of both pulp wood and ground wood pulp from Canada.

It is also the desire of the committee to forbid any export tax or other charge by Canada upon either pulp wood, ground wood or print paper.

The tariff on sulphate or soda fibre will not be changed, it is understood, and is understood to represent a portion of both pulp wood and ground wood pulp from Canada.

This information was given out in an official statement by Representative Mann, chairman of the special committee, and is understood to represent the unanimous opinion of the Republican and Democratic members of the committee.

POLITICIAN'S SUICIDE.

Chicago Leader in Council Was Thrown Down by His Club.

CHICAGO, Feb. 12.—Alderman Jos. F. Kohout, long a Democratic leader in the city council, committed suicide to-day by shooting himself in the head in the basement of his home, 787 Douglas-boulevard. His wife found the body.

Mr. Kohout was a candidate for re-election. He was a party to a spirited contest to obtain the nomination. Disappointment over the failure of his ward club last night to endorse him for the benefit of his supposed to have prompted the suicide.

ELEVEN MILLIONS FOR DEFENCE

Denmark Proposes a Huge Expenditure for Fortifications.

COPENHAGEN, Feb. 12.—Bills providing for better sea and land defence for Copenhagen and the coast of Zealand were introduced to the Folketing today by the minister of national defence.

The contemplated fortifications involved an expenditure of something over \$11,000,000, and the construction of a score of torpedo boats and half a dozen submarines also is contemplated.

SET HIMSELF ON FIRE.

Saturated Himself With Coal Oil and Then Ignited Clothing.

NEW YORK, Feb. 12.—The charred body of a man was found to-day on the remnants of a burnt-out fire on the grounds of the Hazel-Orange Public School in West Orange, N.J.

Year by year a can which had evidently contained kerosene, and circumstances pointed to the man's having chosen to commit suicide by saturating his clothing with the oil, lying down on a prepared pile of inflammable material and setting fire to the mass.

DEAD AT 111.

Great Smoker, and a Bachelor, But Retained All His Faculties.

BELLEVILLE, Feb. 12.—(Special.)—There passed away in the House of Refuge this morning Julian Terrian, born in the City of Quebec 111 years ago, but who for the greater part of his life lived at Marmora Village.

Up till his death he retained all his faculties. He never used glasses, was a great smoker and was a bachelor.

Militarism of the Indians.

F. Oonodoyah Loft, a full-blooded Mohawk of the 6th Nation Indians, a man of good address and fine presence, will deliver an address on "The Militarism of the Indian Yesterday and Today."

Mr. Loft will deal with "Indian traditions" from a military point of view, the Indian methods of warfare, their military tactics, their ideas, etc., and the Indian mind during the years 1620 to the present day.

He is well fitted to discuss the present day conditions of the Indians—he is one of them—he has lived among them, and has seen military service.

VALUABLE SHIPMENT OF HORSES TO WEST

Some of the Prize Winners of the Recent Show Are Purchased by R. H. Taber of Saskatchewan.

That Ontario can furnish the pure-bred animals for the great west, and has everything ready for becoming the great breeding grounds of Canada, has been contended by many for some time.

In horses, cattle, sheep and swine, there is no better blood than already exists in our breeding yards. The fact that shorthorn men from the States will come over here and pay the prices they did last week, topping the sale with the \$2500 price for a Canadian-bred heifer, is one evidence of the excellence of our blood foundations.

The sheepmen have learned the bitter lesson that the great market to the west has been overlooked in their play for the American trade, until a cruel embargo cuts down values from \$25 to \$5 per head, as J. G. Hammer, Woodstock, at a recent meeting of the sheepmen, said.

Swine breeders have long been noted for the excellence of their herds, and when a Canadian-bred boar brings \$50 at public auction and young sows can sell for that sum also, as many have done, the facts of Canadian superiority are being established.

But a decided impetus to this side of the live stock question was given by the loading of the carload of horses at North Toronto yesterday.

R. H. Taber of Hillcrest Farm, Condie, Saskatchewan, whose winnings at the western prize shows in 1908, was one of the number. She was owned by Messrs. Graham and Renfrew of Bedford Park.

In this mare Mr. Taber has secured an animal that should win at all western shows. She is regarded by many as the best mare that ever was shipped out of Ontario. As a breeding animal, she will leave her mark in the Hillcrest stables.

Queen of the Waves, winner of first prize in her class, and reserve at the same show, is also being shipped. Another one of the purchase, she having been secured from the Cairnbrogie Stables at Clarendon.

The third mare was a three-year-old and second to Queen of the Waves in the show. She was purchased from Hodgkinson & Co. of Beaverdam.

One stallion was taken, and he was the celebrated McAlrie, purchased from Geo. Davidson & Sons of Cherryvale, who sold their stock at a very near date. This stallion is a noted son of the Champion Macqueen, and is understood to be a good sire.

At Toronto, winding up last fall as first in the aged stallion class. He is a rovaly made and bred horse. The same parties who sold the mare, Mr. Davidson's prize mare, but he decided to sell no more out of the sale than this one stallion.

In Hackneys they carry off the cream in Comptonhorse Swell, a Hackney stallion, five-years-old, winner of many prizes, including the grand reserve for championship at the horse show held in Toronto January 1909. This horse is a dark chestnut, a grand type of his breed and a great all-round goer.

He was purchased from Graham, Renfrew Company, of Bedford Park. An extra choice Hackney gelding was also obtained from the Graham-Renfrew Company. This animal was shown 13 times and won 13 firsts, and will be heard from in the western shows next year.

These valuable animals are in good condition, and every one of them being shipped. It is one of the most valuable sales that have ever left Ontario for the west, and every Ontario breeder hopes that this shipment will be the beginning of an annual flow of good blood to the west.

Mr. Taber, who owns 1000 acres in Saskatchewan, is an old Ontario boy, and while here was the guest of his uncle, J. L. Spink of the board of trade, and Messrs. Major Bros. of Whitevale, Ont.

Ready to Build Dam.
Proclamation of the act passed by the last legislature for the building of a dam at Dog Lake has been made.

The construction of the dam will be proceeded with immediately under the H. E. P. Commission. The object of the dam is to preserve the waters in storage for the benefit of the powers on the Kaministiquia River.

SET HIMSELF ON FIRE.
Saturated Himself With Coal Oil and Then Ignited Clothing.

NEW YORK, Feb. 12.—The charred body of a man was found to-day on the remnants of a burnt-out fire on the grounds of the Hazel-Orange Public School in West Orange, N.J.

Year by year a can which had evidently contained kerosene, and circumstances pointed to the man's having chosen to commit suicide by saturating his clothing with the oil, lying down on a prepared pile of inflammable material and setting fire to the mass.

DEAD AT 111.

Great Smoker, and a Bachelor, But Retained All His Faculties.

BELLEVILLE, Feb. 12.—(Special.)—There passed away in the House of Refuge this morning Julian Terrian, born in the City of Quebec 111 years ago, but who for the greater part of his life lived at Marmora Village.

Up till his death he retained all his faculties. He never used glasses, was a great smoker and was a bachelor.

Militarism of the Indians.
F. Oonodoyah Loft, a full-blooded Mohawk of the 6th Nation Indians, a man of good address and fine presence, will deliver an address on "The Militarism of the Indian Yesterday and Today."

Mr. Loft will deal with "Indian traditions" from a military point of view, the Indian methods of warfare, their military tactics, their ideas, etc., and the Indian mind during the years 1620 to the present day.

He is well fitted to discuss the present day conditions of the Indians—he is one of them—he has lived among them, and has seen military service.

Apply to J. H. Beaton, Whitevale, Henry Moyle, & Bedford-road, Toronto.

PECULIAR CLAIM DISMISSED.

Doctor Sued Steamship Co. for Burying Wife's Body at Sea.

NEW YORK, Feb. 12.—A verdict for the New York & New England Steamship Company in the suit for \$250,000 instituted against it by Dr. Chalmers Prentice of this city, was directed by Judge Martin in the United States District Court to-day.

Dr. Prentice claimed that the body of his wife, who died on board the steamer Koenigsluise while en route from Naples to New York, was buried at sea against the protest of her daughter and in violation of an alleged contract to embalm the body and bring it to New York.

THEATRICAL MANAGER ESCAPES. Montreal Civic Bylaw Didn't Prevent His Opening Theatre.

MONTREAL, Feb. 12.—Some weeks ago the Sparrow Amusement Company started Sunday performances in the Academy of Music and the Theatre Francaise as a protest against allowing moving picture shows to operate on Sunday.

W. A. Edwards, the manager, was arrested on a charge of violating the civic bylaws. To-day Recorder Weir dismissed the charge on the ground that the civic bylaw did not apply in the present instance and that the information was not properly laid.

GIRL'S AWFUL DEATH.

BELLEVILLE, Feb. 12.—(Special.)—Mabel Blanche Bates, the two-year-old daughter of Mr. and Mrs. Edward Bates, of Roslin, fell into a pall of boiling water her mother had placed upon the floor.

She was found by her mother, who was alarmed by her screams, and was taken to the hospital, where she died.

Cheap Trip to Bermuda.
The attraction on the traveling public is called at the cheap rate, New York to Bermuda and return, of \$30, advertised in another column by the Quebec Steamship Company. Tickets are procured from A. F. Webster & Co., corner King and Yonge-streets, and Thomas Cook & Son, 35 East Adelaide-street, Toronto.

Free Receipt For Weak Men

Gentleman Will Send It Confidentially, Free and Sealed, to Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weak manhood, failing memory and lame back, brought on by excess, unnatural drains or the follies of youth, that has cured so many worn and nervous men in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined of charge, to send a plain, very sealed envelope, to any man who will write me.

This prescription comes from a physician, who has made a special study of the matter, and I am convinced it is the surest acting compound for the cure of deficient manhood and vigor—failure of the system, and I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe to be the quickest acting, restorative, unadvised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. R. Robinson, 539 1/2 E. Lake, Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

Several Townships, able are ununs this a good in land with is very r some, and a good in will sell G. Ed. Br buildings by auct suitable as the as the early con half ment do

FARMING AND LIVE STOCK PAGE

LINCOLN'S VALUE.

One of the inspirations that come to farm boys is the splendid life of Abraham Lincoln, now in review because the 12th of February marks the centenary of his birth.

It is an inspiration because it is a splendid object lesson, to the humblest farm lad of our land, of how to rise from his lowly beginnings to the most coveted gifts of usefulness in the nation.

No employment is so honored that it can lay claim to all the advantages that go to fit men for service, but to agriculture above all others, belongs the proud distinction of affording to the growing youth that opportunity for right and healthy development of mind, body and heart that counts for the highest in the struggle of life. Above all it gives to its freemen a moral outlook, a pure and lofty uplift which keeps the mind, as the directing force of the man, perfectly poised amid the distracting disturbances of the rushing world.

Lincoln learned the secrets of strength in his communings with nature, in the woods, the fields, the log cabin and the country store. He deliberately chose the good, read the best at his hand and exercised that discrimination between good and evil attributes that may be the property of every lad who yet sees the glorious sunsets and the roseate morns from the hilltops of his country home.

INCREASE THE LAND'S FERTILITY.

Spring is approaching fast, and farmers must now look to the production of the maximum from the land this year. It was never intended that a half crop should be harvested from the soil of Ontario. But there are many things done on our farms that prevent a full crop being returned and likewise many are not done that would develop latent energy.

Cultivation is the first great need of our farm lands. Too often we have expected crops from a light scratching over of the surface but that day of successful farming is past. It is science and energy now that reaps the big fields. Again, our applications of soil food have been very intermittent and unsystematic. A rotation of crops with an application of barnyard manure once in four years is a very good one, but where the land is intensively farmed this is not enough. There are many fields that do not get this good treatment. Others there are where indirect fertilizers are needed, such as salt and lime. Especially in the case of corn, clovers and legumes, is plaster a good aid. Land plaster, otherwise known as gypsum, is sulphate of lime, and applications of it to clover, corn and oats allow the lime to act on the soil ingredients in such a way as to render the plant food in such a shape as to be readily taken up by the tender roots.

Just so is the action of salt on many heavy soils. Both these are known as indirect fertilizers because they assist in the liberation of plant food from a soil already supplied with the elements. No doubt there are other advantages accruing from their use also.

To get value from plaster or seeds, it is well to sow it on the plants just as soon in the spring as one can walk on the land. The use of rock phosphate with the stable manure before it is put on the fields is also a good plan.

LIVE STOCK INSURANCE.

In another column will be found the advertisement of the General Animals' Insurance Company of Canada, whose representatives for Toronto and Western Ontario are the well-known insurance brokers, Messrs. Burnett, Ormsby & Clapp, Limited, 38 Wellington Street East, Toronto.

We would more particularly draw the attention of our readers who are interested in pure bred stock, to the fact that they now have a means of insuring themselves against loss by practically any cause. The need of a good, sound home company for this class of insurance has long been felt, and now that such a company is in the field we have no doubt but that they will receive the unanimous support of the stock breeders of the Dominion.

The fact that the president of the company is that well known Clydesdale and Ayrshire breeder and importer, Mr. Robert Ness, Howick, Quebec, whose name is practically a household word among stock men, should in itself be sufficient to give the public every confidence in the General Animals' Insurance Company.

FARMS FOR SALE.

Several fine farms in Pickering Township, where the land is becoming valuable, are offered for sale in our columns this week. The one on the fourth concession comprises 150 acres of good concession land with 100 acres of hard wood bush, and with 10 miles of the mill route. The price is very reasonable and is a snap for the land is fertile and can be worked early. The cellar, first class, only a few minutes' ride is required as a payment down.

GARDENERS' CHANCE.

Ed. Bryan, merchant of Pickering, is advertising a fine house, with out buildings and over five acres of land, by auction on Feb. 20. This is a most suitable place for a small gardener, as the land is fertile and can be worked early. The cellar, first class, only a few minutes' ride is required as a payment down.

SOME CREDITABLE SALES SOON TO OCCUR

The World's farming pages are able to report the sale by public auction at early dates of some of the choicest Clydesdales, handiest ponies, most promising standard breeds and hackneys; the best milking grade short-horn herd east of Toronto; a utility bunch of milch cows, and as fine a line of implements as can be cornered. These sales include those of Dr. McDiarmid, Pickering; Geo. Davidson & Sons, of Cherrywood; J. W. Cowie, of Markham; A. C. Bunker and Geo. Leng of Pickering.

McDiarmid's Sale.
Donald McDiarmid, of Pickering, whose farm is situated one mile north of the village, has sold out to Jno. Crockett and leaves for the west. His stock is not large but is select. In horses he has a brood mare 12 years old, a regular breeder, in foal to the prize horse Cairngairn imp. and a perfect model of a brood mare, being a large, deep bodied and handsome. Few brood mares like her are seen in ordinary farm yards. Her filly foal is a handsome one by Cairngairn imp. and of the kind that will need no urging upon purchasers. She is the makings of a show mare.

In geldings he has a team of good ones weighing about 1400 lbs. and one was the land horse in one of the prize winners' teams at Myrtle last year. There are good cows, five and six years old. A driver five years old is a handsome bay about 16 hands. The implements are good, while the cattle consist of a few milch cows and young cattle.

Davidson & Sons' Sale.
For years George Davidson of Cherrywood has been raising and exhibiting Clydesdales. He early pinned his faith on the champion Macqueen, the greatest sire of Canada, and their winnings at Toronto are evidence enough of how well he has learned the art of Clydesdale production.

He has one stallion and two mares sired by this celebrated horse. MacRobbie, a brown stallion and a full brother to Macairle, who went west recently and three years old, was second as a foal, first as a yearling and third as a two and as a three year old at the Canadian National.

Fair Queen, the dam of the above two, is a fine looking matron with splendid action and style, and bears the first honors as a brood mare of 1904, third in 1905, besides winning the premier place four years in succession for mare with two of her foals. She is in foal again to old Macqueen and bid fair to raise many more of the kind.

Queen Bess (6238) is a choice daughter of the last named. She was first at two years at Toronto, taking the sweepstakes at the same show. She was first in 1905, third in imported yield mare class 1907 and first in brood mare class in 1908.

Correctly named is the sweet Macqueen's Flower (13318), winner of first place in the open class at Chicago in 1904, as well as first in the American class. She was second at Toronto in 1903. She is the makings of the best animal in the stables.

A MacRobbie will make money for some one. He has good feet, pasterns and body.

In roadsters the matched team, Nellie and Jennie, aged four and five years, are beauties by that celebrated sire Hal Forest, 214-1-2, bred by Altona, by Altona, 225-1-4, with Highland Mary as their granddam. Princess, out of the same dam by Carl King, is a choice two-year-old. She and a colt by Royal Oak make two good hackneys.

In ponies they have the first winners also. The brood mare Maud and her two colts by Spark, that pretty stallion belonging to Graham Bros., will be sure to be picked up by the fancier. More notes about these and the cattle will appear next Friday.

John W. Cowie's Sale.
Following Davidson's sale, and only a few miles distant from their farm, John W. Cowie, has a reputation well earned of being a good judge of a horse, a good feeder and a producer of the big, draughty, useful kind that can work as well as show off in the exhibition rings.

For years he has won first place on draft geldings at Toronto and local shows, having owned the first prize team at the recent horse breeders' show in Toronto, a cut of which appeared the following week in the Standard.

Having given up the lease of the farm, and retiring from active business, he has decided to disperse his many high-class milch cows to pass under the hammer. Among the horses there is a fine Macqueen (6866), a three-year-old stallion out of old Macqueen, that is a good one. A imported, mare, five years old, sired by Queen's Guard, and in foal to Baron Allister, is a grandly made beast weighing 1800 lbs. Another imported queen, and will prove a valuable investment for someone. These animals are

the kind that pay for they raise the good ones. A registered mare, four years old, sired by Macqueen, and in foal to Baron's Pride, horse Baron Elect (imp.), and a mare four years, sired by Prince of Currah, and in foal to Gormley's big Fullerton (imp.) will make two valuable brood mares.

In geldings he has a four-year-old by Gallant Chatton, a matched team, six and nine years, that are built along right lines, besides the show team, Charlie and Gypsy, which won first at the recent show. They are fine animals with feet and legs built for work, and bodies made to carry the necessary power and energy.

Four horse colts from such sires as the champion Right Forward, Baron Allister and Gallant Chatton. One of the colts by Right Forward has six registered dams and is a right good one.

BUNKER'S SALE.

Charlie Bunker of Pickering has sold his farm to Mr. Reid, lumberman, of Toronto, and all his implements, horses and Yorkshires must go, included in this is his right celebrated Clyde stallion, Bucephalus (imp.), nine years old and a good one. He has been the sire of the blocky type and his colts have sold like hot cakes. This year he has proven himself 80 per cent. sure, and as he is a handsome block, weighing 2000 lbs. and as good a driver as a whip, his days of usefulness in new territory are just beginning. Any one or syndicate requiring a stallion can hunt many a long day before getting a better. His Clyde fillies, draft geldings, and standard bred colts out of Hal Forest 214-1-2, are hard to beat. In implements he has the best real good old type of big dairy short-horn milkers wait for this sale.

GEORGE LENG'S MILCH COWS.

It is asserted, and with truth, that there is no better place for deep milking cattle east of Toronto, than can be seen on Geo. Leng's farm near Pickering. The cows look like Scotch Holsteins, further notes will follow, but if you want one of the best real good old type of big dairy short-horn milkers wait for this sale.

SALE REPORT.

The sale of Ayrshires and Yorkshires held at the Union Stock Yards last Friday came off successfully, with Auctioneer Geo. Jackson of Port Perry in charge.

The Ayrshire cattle were all sold and went to various parts of the country. Snowdrops Fitzaway, a choice young bull from Donlands farm, brought \$70 from E. C. Monkman of Brampton, while Guy of Dillington, and Gregg of Weston secured others merit.

The Donlands cows were secured by Wm. Thorn of Lyndoch, E. B. Palmer of Norwich, F. Begg of Downsview and others at prices ranging to \$90.

A. A. Morden and Son of Wellington dispersed their whole herd at fair prices, many of the animals going below their true value as breeders and performers. The best cows brought about \$100 each.

In Yorkshires, D. Gunn and Son sold one boar for \$50 to D. C. Platt, while others ranged around the \$30 mark. Donlands' sows brought \$30 for Grasmere Sybil 8th, and \$33 for Grasmere Maiden II. to Blair Ketchen of New Lowell. A Merryworth of Redbridge secured Grasmere Cinderella XII. for \$35.

F. M. Chapman's young sows were sold to D. C. Platt and Son, B. Thompson of Malvern and J. E. Baker of Carville, for an average of \$25. The young pigs ranged in prices from \$8 up.

FATAL FIGHT OVER DOG.

NEW YORK, Feb. 12.—James Klerman, aged 38, a saloon-keeper, and Charles Winters, aged 25, a driver, were shot and perhaps mortally wounded today in Stapleton, Staten Island, in a quarrel over a dog owned by Winters. Frank Warner is under arrest, but asserts he fired the shots in self-defense.

AUCTION SALE

Clydesdale Horses, Milk Cows and Implements.

At my Farm, one mile north of Pickering Village, on
WEDNESDAY, FEBRUARY 17, 1909
at 1 o'clock P.M.

of Registered Mares and Geldings, also of Registered cows, calves by side, property of F. J. Fisher, Lot 16, Con. 8, Scarborough, half-mile east of Malvern. Sale on Feb. 26, 1909. D. Baldam, auctioneer. Bus will meet all trains at Agincourt in the forenoon at both stations, also the 10.30, 11.30 and 12.30 street cars at Markham-road.

Brother Files Caveat Against Will.

Slas James, 227 George-street, has issued a caveat against the granting of probate in the matter of the will of his brother John, late of this city.

It is asserted that the paper purporting to be the will was made by him when he was of sound mind, and that it was secured under undue influence.

The dead man left an estate of \$213 to four nieces in equal shares, viz., Laura and Florence James, Vaughan Township; May James, Bowmanville, and Beatrice, Forbes, Thornhill.

University Saturday Lecture.

The university lecture this afternoon at three o'clock will be given by the vice-president. The subject, "A visit to Provence," is most romantic and the reputation of Professor Ramsay Wright as an interesting lecturer, who in English or in French, should draw a large audience of the general public to the Physics Building. The lecture will be illustrated.

Machinery Was Made to Save Work

SOME women waste half their evenings over the darning basket. It is a mistake. What was machinery invented for? You say it is cheaper to darn stockings than to buy new ones. Cheaper in money, perhaps it is, but don't you value your time? Do you set any price on your eyes?

In February it is really not worth the time and the trouble to bother with worn out stockings. See the sale prices for

Monday:

Women's Fine Imported Lisle Thread Hose, silk embroidered and laces, in black and colors, also plain black and colored lises. Regular 60c. Monday, pair, 35c, 3 for \$1.00.

Women's Silk Hose, black, sky, pink, tan and brown, German made, fine gauge silk. Regular \$1.25. Hosiery Sale price Monday, 65c, 2 pairs \$1.25.

Women's Fine Lisle Thread Hose, plain black and colors, with silk embroidered and laces, also plain black and colors. Regular 45c, 50c. Hosiery Sale price, Monday, 25c.

Women's 2-1 Ribbed Black Cashmere Hose, full fashioned double heel and toe. Regular 50c. Hosiery Sale price, Monday, 25c.

Men's Fine Black Silk Embroidered Cashmere Hose, double heel and toe, with neat silk embroidered fronts. Regular 60c and 75c. Hosiery Sale price, Monday, 35c.

The Cloak Department Shows Types of New Suits

WE are not going to say much about the new styles today. We are waiting to hear what you say. We want you to comment on the various types we have imported, to give us a hint, in fact, so that we will know whether our judgment has been at fault or successful as before. We are confident that the verdict will be, but before we make a big demonstration we would like discriminating people to give us the benefit of their opinion.

We call attention to two in particular which visitors will have the opportunity to examine on Monday.

One of them is of Imported French Venetians in black, navy, brown, green and smoke, strictly tailored, semi-fitting coat, 32 inches long, back and side seams trimmed with strapping of self, fancy pocket flaps, deep side vents, fancy buttons on cuffs, pockets, and seams at back, nine gore flare skirt has panel front finished with buttons to match coat, Monday, \$12.50.

New Model Suit of Fine Imported Panama, in navy, green, brown and black, semi-fitting, cutaway coat, giving long straight lines so fashionable for spring costumes, lined with mercurized, military collar of Persian embroidery, finished with satin tie, handsomely trimmed with braid ornaments on front and centre of back, flare skirt has nine gores, tucked on each side of front panel, finished with satin covered buttons, Monday, \$18.50.

The New Broadcloths

WE are making an elaborate showing of Chiffon and Panne Broadcloths woven from the finest Botany yarns. A high satin finish and guaranteed to remain after sponging. A complete range of dainty shades now in stock, it is almost impossible to ask for any shade that we have not represented in our Broadcloth Section. Paris and New York claim that broadcloths in the following shades are already in vogue:

ALL WOOL SATIN CLOTHS.

Bright, lustrous finish and beautiful soft draping fabrics, an ideal material for the fashionable Directoire and Empire gowns, as well as for light weight tailored suits. In the magnificent range of spring colorings can be seen the latest from Paris, including tawny, amethyst, canard, rose, wood browns, greys, peach, etc., 44 in. to 52 in. wide, \$1.00 and \$1.25 per yard. Vieux, Ros, Lylas, Amethyst, Crevette, Elephant, Framboise, Tan Brown, Heron, etc. These cloths are adapted for tailored suits, house dresses and carriage gowns, 52 inches wide, \$1.50 per yard.

Two New White Waists

Beautiful New York Models

Irish Linen Waists, new and very effective design, made of an excellent quality, mannish tailored effect, front in panels of tucking and imitation baby Irish lace, trimmed with cord buttons, high tucked collars and tucked sleeves, collar and cuffs edged with guipure lace, back finished with clusters of tucks, very moderate price, \$6.50.

Mull Waist, lovely fine sheer quality, elaborate front of small embroidered panels, German Vail insertions and Cluny braid trimmings, new Directoire sleeves, trimmed with embroidered medallions and Vail insertions, Directoire collar and cuffs of lace and insertion to match. A very attractive price, \$9.50.

The New "Rengo Belt" Corset

HAVE you seen it? Conforming to all the latest requirements of fashion, it is especially designed for stout figures. It has no superior as an abdomen reducer. We will hold a special showing and sale Monday. Pay us a visit and we will be pleased to show you the exceptional qualities of the "Rengo Belt."

"Rengo" Corsets are made of fine heavy white coutil, with high or medium bust and batiste with high bust, long extension hips and sides, boned throughout with double watchspring steels, guaranteed rustproof, 4 fine plain elastic garters in front, abdominal section reinforced with cross belt, trimmed with lace and ribbon. Sizes 20 to 30 inches. Our Special price, \$2.25.

The Economy of Furniture Buying in February.

WHEN sugar drops one-eighth of a cent a pound in this store housekeepers from all over the city and suburbs through the Basement to take advantage of the saving. If they bought enough sugar to keep them for a year they would hardly save a dollar, yet they are wise in watching the fractions of a cent and saving every time they can on a staple commodity like sugar.

How much wiser, then, is the housekeeper who saves not a fraction of a cent, not a part of a dollar, but dollars, whole dollars!

The opportunity to buy a Sideboard for your dining room and save \$13.50 is yours on Monday.

You may save just ten of those crisp one-dollar bills that represent so much on a handsome brass bedstead.

You can save twelve dollars on a quartered oak dressing table and washstand set. Big useful substantial amounts saved on goods your house lacks and will always need.

20 Sideboards, quartered oak, golden polished, nicely carved, attractive designs, top has large and small display shelves, handsome British bevel mirrors, top of case 24 x 36 inches, fitted with three small drawers (one velvet lined), long linen drawer and double cupboard, regular \$40.00 and \$45.00. Monday Furniture Sale, \$29.50.

14 Sideboards, hardwood, golden oak finish, massive design, fitted with small display shelves, British bevel mirrors, cutlery drawers, long linen

drawers and double cupboard, brass trimmings, regular \$16.50 and \$18.75. Monday Furniture Sale, \$11.75.

12 Brass Bedsteads, beautiful 2-inch continuous post design, seven heavy brass step rods with fancy husks, large ornamental husks on posts, extended foot end, size 4 feet 6 inches wide, regular \$40.00. Monday Furniture Sale, \$30.00.

20 Dressers, quartered oak golden, highly polished, pleasing design.

Large British bevel mirror, top of case 21 x 42 in., fitted with two small and two long drawers, brass trimmings, regular \$21.50. Monday Furniture Sale, \$15.50.

15 Dressers and Stands, quartered oak, golden, hand carved and polished, shaped British bevel mirror 24 x 30 in., top of case 21 x 45 in., serpentine front, two small and two long drawers, solid brass trimmings, large washstand with two drawers and double doors, regular \$41.50. Monday Furniture Sale, \$29.50.

The Silverware Sale Includes Wm. A. Rogers' Spoons and Forks

3000 Rogers' Tea Spoons, fancy pattern handles. Regular value \$2.00 a dozen. Monday, each, 10c.

300 sets Rogers' Dessert Spoons and Forks. Regular value \$4.60 a dozen. Monday, set of 6, \$1.50.

300 sets Rogers' Table Spoons and Medium Forks. Regular value \$5.50 a dozen. Monday, set of 6, \$1.75.

Silk Kimono Gowns.

at \$4.95.

Smart New York Sample Silk Kimono Gowns, all the most fashionable colors of Japanese and Oriental designs, in latest styles, including Princess and Directoire effects. Nearly every gown different in style or color. Values from \$6.50 to \$15.00. Special price for Monday, \$4.95.
