SEVEN BADLY HURT IN MONTREAL CRASH

One Victim of Street Car Spill Is in Critical Condition—Speed Is Blamed.

Montreal, Dec. 6.—Seven of the fifteen victims who were taken to various hospitals early this morning following the accident, when a heavy Casterville line tram jumped the track at the corner of Maplewood avenue and Desceles street, are still in the hospitals tonight. One of them, who suffered a crushed chest, is reported at the Royal Victoria Hospital in a serious condition. This is E. E. Lefebvre of 169 Clifton avenue.

List of Injured. Hector Prevost, of Carterville, at the Royal Victoria Hospital, with a fractured leg.

Miss Bernadotte Prevost, his sister, at the same hospital, with a fractured leg.

Alphonse Soucy, 121 Gouin boulevard, at the Western Hospital, with general contusions.

Douglas E. Saunders of St. Laurent, at the Western Hospital, with injuries to face.

Mrs. Douglas E. Saunders, his wife, at the Women's Hospital, suffering from nervous shock.

Constable Narcisse Trudel, 270A Desceles street, at the Hotel Dieu, with a broken leg.

Blame Speed. An official statement issued tonight by the Montreal Tramways Company, thru its general manager, states that the cause of the accident has been found to be due to the high rate of speed at which the car had taken the curve.

SOME CLEVER WORK BY SIMCOE POLICE

Catch Brantford Man, Who Pleads Guilty to Theft of Watch From Hotel.

Brantford, Dec. 6.—(Special).—Clever work by the Simcoe police resulted in the arrest of Carl Scott, who was trying to dispose of a \$35 watch for \$5. Scott appeared in court here today and pleaded guilty to a charge of stealing the watch from the Benwell hotel here, and was remanded for sentence.

M. W. McEwen, appearing for Wm. Hume, charged with selling liquor, asked two other spotters to pick out Hume among the police court habitués. The first picked the wrong man, and the second declared after closely scrutinizing the people that Hume was not there.

The Dufferin Rifles' lineal successors of the Mad Fours, were inspected by Brig.-Gen. Williams this evening, with Col. M. A. Colquhoun, D.S.O., C.M.G., in command.

The value of a dog depends on circumstances. Herbert Cara appealed to the Brantford township council this morning for fifty dollars for a dog killed as a sheep warden, by township officials. The township assessor reported that Cara had told him that the dog was worthless for taxation purposes. The council accordingly took Cara's own valuation and refused to make compensation.

APPEAL TO CONSTANTINE TO ABANDON HIS CLAIM

Constantinople, Dec. 6.—As soon as the decision of the plebiscite in Greece, which resulted in favor of the return of former King Constantine, became known here, the Greek Patriarch called the Holy Synod and the lay council into extraordinary session, and it was decided to despatch an energetic appeal to Constantine exhorting him to abandon his claim to the Greek throne in favor of Prince George, pointing out that his return to Greece not only would endanger the position of Greece but would jeopardize the future of Hellenism.

The excitement among some of the Greeks reached such a pitch that there was talk of the possible isolation of Greece and the establishment of an independent Byzantium, including Thrace, Smyrna and Macedonia.

MRS. WILSON ENTERTAINS WHITE HOUSE SUCCESSOR

Washington, Dec. 6.—For the first time within the memory of the oldest attendee of the White House, a first lady of the land entertained today a next first lady of the land.

Mrs. Florence Kling Harding, wife of the president-elect, was the guest of Mrs. Edith Bolling Wilson, wife of the president at an informal tea for two at the executive mansion late this afternoon.

Mrs. Wilson met her guest in the front hall and escorted her to the blue room, where tea was served.

After Mrs. Wilson and Mrs. Harding had chatted a while they walked about the White House, thru the green and red rooms and the state dining room, over which Mrs. Harding will be called upon to preside after next March 4.

Mrs. Harding did not meet the president who had retired to his study on the upper floor to read, nor was she shown over the White House kitchen.

DOHERTY PRAISES BIG WATER FAIR

Says Guelph Show Finest in America—Announce Many Prize-Winners.

Guelph, Ont., Dec. 6.—(Special).—"I believe this is the finest show of its kind ever held in the Province of Ontario, if not on the continent of America," said Hon. Manning Doherty, minister of agriculture, officially declaring the Ontario provincial winter fair open this afternoon.

There was a good crowd in attendance, great enthusiasm was manifested in the judging, and as the show progresses the quality of the stock continues to improve.

One of the chief features of the show today was an announcement of the result of the three days dairy test.

Marion De Kol Wins. The winner turned up in the 10-year-old Holstein cow, Marion De Kol, owned by J. G. Currie, of Ingersoll. She gave during the three days, 27.4 pounds of milk, average per cent. of butter fat, 3.27; average per cent. solids, not fat, 9.11. Total pounds, 292.99.

Second in the test was Pioneer Snowflake, owned by W. Rivers and Sons, Ingersoll; third, Pearl of Malgindo, an Ayrshire, owned by H. Macpherson, Newburg.

In the morning the time was taken up with the stock judging contest and the judging of the shires and Belgian horses, both classes being small.

The Shorthorns were the centre of attraction in the arena all afternoon. W. J. Boyd, the judge, had a hard time selecting the winners in some of the classes, but gave general satisfaction.

He said that the females were the best he had ever seen, the bulls and the steers of exceptional quality. The feature of the show was the contest for the championship of the province, which was won by the University of Alberta male steer, owned by W. W. Rivers and Sons, Ingersoll; third, Pearl of Malgindo, an Ayrshire, owned by H. Macpherson, Newburg.

NO GREEK LOANS IF KING RESTORED

Britain Presents a Note to Greece, and France Follows Suit.

Athens, Dec. 6.—Great Britain will extend no further financial aid to Greece in case former King Constantine returns to the throne according to a note presented to the Greek government yesterday by Earl Granville, British minister in this city.

The French minister also presented a note to the government demanding the payment of outstanding loans.

Both the notes forbid the issuance by the National Bank of paper money already printed against a loan of 400,000,000 drachmas which was arranged during the regime of former Premier Venizelos.

"We can only do what the people want," said Premier Tsallis, speaking of the two communications. "The present has received no word from Constantine. I will reply in a few days to the British and French notes."

Returns from the plebiscite held thruout Greece yesterday, which was to decide whether the Greek people would prefer former King Constantine to the throne made vacant by the death of his son, King Alexander, indicate a majority of 500,000 in favor of the return of Constantine, and claims are made that the entire electorate of 800,000 voted for him. Four million ballots were printed for the plebiscite.

Crows Wild for Constantine. The wild scenes which marked the departure of former Premier Venizelos on November 17 were again enacted last evening in celebration of the result of the plebiscite, which was known before the vote was taken. A crowd estimated at 200,000 in all, there were babies, children, women, civil servants, girls, peasants, women from court circles, sailors and soldiers, gathered in Place de la Constitution, near the king's palace, converging on that square by all streets. Some were walking, some riding in carts and automobiles, and some worked themselves into a perfect frenzy, waving flags of all nations, olive branches and paintings and photographs of Constantine.

A large part of the crowd was composed of women who clamored for permission to vote. As they marched along, they chanted madly: "Constantine has promised us the vote."

It is planned that the liner Paris will meet Constantine at Brindisi late this week.

Twenty-five Lithographers Go On Strike at Ottawa

Ottawa, Dec. 6.—Failing to receive a satisfactory answer to their demands for an increase in wages, twenty-five members of the Lithographers' Union, employed by the Mortimer Co., Ltd., went on strike this morning. The men are demanding a 20 per cent. increase, similar to that which has been granted recently to lithographers in other Ontario cities.

Development in Greece Keenly Eyed by Ottawa

Ottawa, Dec. 6.—(By Can. Press.)—Developments in Greece as a result of the plebiscite calling Constantine back to the throne, are receiving close attention here. Greece is one of the Balkan countries to which Canada, on the conclusion of the war, extended financial assistance in the way of credits. The total amount of credits was \$25,000,000, but only one-fifth of this sum has actually been advanced and so far Greece has no interest payments due. For some months past, there has been no further extension of credits on the part of Canada beyond what were necessary to carry out existing contracts.

RELEASING STRIKE LEADERS ON THE FIRST OF MARCH

Winnipeg, Dec. 6.—(By Can. Press.)—Rev. William Ivens, John Queen and George Armstrong, strike leaders, sentenced to serve one year in jail on April 6, last, will probably be released in time to take the seats to which they were elected at the provincial election before the closing of the house. It was announced today that if their good conduct continues the five strike leaders sentenced, which includes the above mentioned men and W. A. Pritchard and Richard Johns, will be released March 1.

HAMILTON

Hamilton, Dec. 6.—The jury tonight investigating the murder of Harry Burns, who was killed two weeks ago, found that he was killed by two blows from Edward Taylor, one in the head and a man named "Lou," for whom the police are searching. Rural citizens who allow their houses to be used as a refuge for criminals are expected a visit from inspector Berlinhoff. He has received several complaints from Burlington, Stoney Creek and Winona districts, and will investigate immediately. Inspectors will allow their horses to be used in the fields without protection. Instructions as to how matters by the members of the city council cost the city \$100,000 in the past year. It was learned tonight. There have been no "pleasure tours" at the expense of the ratepayers this year.

Hydro conditions are reported better by E. I. Duffin, chief engineer of the local branch. But this announcement is not intended to be taken as a reminder to turn on all the lights in the house. The conservation of power is as necessary as ever. Labor tonight nominated George Hallock for mayor, making it a three-cornered fight for the honor, with Controller T. W. Justice and George C. Copley in the race.

The Labor Party: Board of Control—O'Neil, C. H. Atchison, Controller T. O'Neil, Harry Peiser, and Hydro commissioner—Gordon Nelson.

Hamilton's "Grand-Old Man," 95 years of age, yesterday announced his resignation as postmaster, an office he has held for thirty years.

CIVIC NOMINATIONS IN PRAIRIE CITIES

Mayors of Saskatoon, Prince Albert, Regina and Lethbridge by Acclamation.

Winnipeg, Man., Dec. 6.—(By Canadian Press.)—Civic nominations were held this afternoon in the cities of Alberta and Saskatchewan, with few unexpected features arising. Mayor A. McO. Young of Saskatoon was re-elected by acclamation. Similar honors were accorded T. C. Davis, who becomes mayor of Prince Albert. Mayor Grassick of Regina and Mayor Hardie of Lethbridge also drew no opposition.

Moose Jaw has a field of four for the mayoralty—William Gardner, Labor candidate, and three aldermen, C. H. Boyd, W. G. Ross and Dr. R. H. Smith. Calgary has what is termed a "hot" fight for city commissioner between A. J. Samis, present incumbent, and A. G. Broatch, endorsed by the Dominion Labor party, with a third candidate, Argue Smith, appearing today as a "dark horse." Two aldermen, S. H. Adams and I. G. Ruttle, are contesting the mayoralty.

Joseph Clark, Edmonton's labor mayor, is seeking re-election for a third term, and is opposed by David Macleod, the present incumbent. The Progressive League, J. K. McK. Dickson and A. Stimmel.

Mayor Hardie of Lethbridge was elected by acclamation for a three-year term. He has been mayor eight years already.

NORTH DAKOTA BANKS CLOSED.

Bismarck, N.D., Dec. 6.—The Citizens Bank of Edgley, and the State Bank of Northville, closed their doors today, according to word received by O. E. Loftin, state bank examiner. This brings the total of recent bank closures reported here to 22, all on account of depleted reserves.

DRAMATIC RAID ON DUBLIN CITY HALL

(Continued From Page 1).

clouds which have been over our country for some time. The Archbishop of Tuam has appealed for aid of the God, and Cardinal Logue (Primate of Ireland) has given his blessing to the appeal.

The Archbishop of Dublin has stated that any effort which has for its object the cessation of all acts of violence and other provocative acts would receive the approval of the Catholic hierarchy. Roger Sweetman, member of the Dail Eireann, has spoken in favor of peace. The Galway county council has passed resolutions in favor of truce and in favor also of a conference between representatives of the British government to arrange a truce, and the preliminary of peace.

"Outside of this country there are forces favoring a just peace. We have the noblest of the Catholic hierarchy, and the Belgian Bishops, for which Ireland must ever be grateful. We are also sympathetic for Ireland displayed in the Irish parliament."

"These and other things give some rays of hope. Let us invoke the aid of the Immaculate Mother of God. She will be desert us not when we ask her to obtain for us a just and lasting peace."

Town Clerk Arrested.

London, Dec. 6.—Soldiers conducting a raid in Queenstown have arrested Hugh O'Reilly, the town clerk, it being alleged that he had concealed arms found in his possession, says a despatch to The Daily Mail. The residence of the Most Rev. M. Fogarty, Bishop of Killaloe, at Ennis, also was raided on Sunday during the absence of the bishop, and some papers were confiscated.

The newspaper's labor correspondent states that during the interview between Arthur Henderson, Labor leader in the house of commons, and Cardinal Logue, primate of Ireland, last week, the cardinal said he was extremely anxious to assist in ending the reign of terror, and that the Catholic hierarchy would exert every effort to bring about a permanent settlement of the Irish problem.

Guilty of Treachery.

London, Dec. 6.—At a meeting of the Sinn Fein divisional council in Dublin during the week-end, reference was made to the report that negotiations were proceeding between the Sinn Fein and the British government, says the Central News' Dublin correspondent today. It was decided that any person or persons discussing terms of a settlement of the war with the British government, or any person acting as a "foreign" government, or "Irish republican" parliament, is guilty of treachery and that any such negotiations and the results thereof will be repudiated by the people of Ireland, the correspondent adds.

STRIKE BALLOT DUE TO HANNA ORDER

Ottawa, Dec. 6.—(By Canadian Press.)—An immediate strike ballot, by the unions affected, will probably be taken on the Canadian railroads if the famous order of D. B. Hanna, director of the National Railways, is not withdrawn or so modified that it will not interfere with what are looked upon as the inalienable rights of a citizen to seek public office, according to trustworthy information which has been received in labor circles in Ottawa.

GOVERNMENT AGAIN MEETS WITH DEFEAT

New Clause to Home Rule Bill Adopted by House of Lords.

London, Dec. 6.—The government was again defeated in the house of lords tonight when an amendment proposing a new clause to the home rule bill, offered by the Marquis of Salisbury, was carried by a vote of 51 to 50.

This amendment provided that neither the northern nor the southern parliament should be established until the King's authority and the protection of the rights and liberties of all persons in both northern and southern Ireland were fully assured, and that otherwise the appointed day for putting the act in force should be fixed by resolution of the imperial parliament.

Criticized Safeguards. In moving his new clause to the bill, the Marquis of Salisbury strongly criticized the safeguards in the bill respecting the oath of allegiance and the proposed crown colony system of administration in the event of either parliament not functioning.

Lord Birkenhead, the lord chancellor, declared that the government could not accept the amendment as the government's own proposals contained adequate securities.

The general belief was expressed in the lobby of the house tonight that some of the changes in the bill as made in the house of lords would not be persisted in. It is expected that the proposal to substitute a joint session of senators for the council will not be pressed, and the belief was expressed that the government would agree to establish a senate for the south, if not for the north, of Ireland.

FAULT LIES IN BOY, NOT IN HIS PANTS
 Boston, Dec. 6.—A mother's letter complaining that her young son had worn out three pairs of pants in three months on chairs in the public schools was answered by Chairman Joseph P. Lomasney of the school house commission today with the statement that \$44,000 had been spent this year to repair chairs and desks smooth. He said this boy's chair had been especially hard on pants. All things considered, the boys and not the chains must be held responsible.

BRITISH VESSEL RUNS ASHORE
 Turks Island, B.W.I., Dec. 6.—The British schooner Giant King ran ashore near Ambergis Cays, in the Calicos group, on December 1. The crew and passengers on board were saved. Assistance has been sent to the stranded craft and it is believed she will be gotten off in safety.

SHIPPED STOLEN AUTOS; GIVEN PRISON SENTENCES
 Detroit, Mich., Dec. 6.—Two men and a woman alleged to have been members of a band of automobile thieves, who, the government charges, shipped stolen machines to Sweden, pleaded guilty to interstate traffic in stolen automobiles in federal court today. Almore Basden and William J. Halpin were sentenced to two years in Leavenworth and Belle Wagoner was sentenced to two years in the Detroit House of Correction.

MAN HELD IN MONTREAL FACES BIG FRAUD CHARGE
 Montreal, Dec. 6.—Lewis Smith, a United States citizen, charged with transporting stolen goods into Canada, will also be charged with defrauding his creditors in New York to the extent of some several thousand dollars, according to Peter Berovitch, K.C., and Mr. Mullin, a New York lawyer, who so informed Judge Couse in the arraignment court this morning when Smith appeared on a charge of transporting stolen goods.

Ten-Year Term for Bandit Who Stopped Poker Game
 Halleybury, Ont., Dec. 6.—Sentence of ten years' imprisonment was passed by Judge Hartman here yesterday on Ledar Mazur, a Ukrainian, who was found guilty of robbery with violence.

His honor, who said it was an exceptionally serious case, declared he had never heard of a clearer case against a defendant since he had been on the bench. Masked and armed, three men entered McGuire and Racicot's poolroom at Connaught, on the Porcupine branch of the T. and N. O., about two o'clock in the morning of September 16 last, interrupted a poker game in progress at that hour, and between robbing the players and breaking into the till, took about \$1,000.

Prominent Western Man Praises Tanlac

Chairman of Committee on Pensions to Parliament. "Exceeding Canada lead payments to their dependents."

G. W. Logan, Peabody, Kansas

"Tanlac has completely restored my health and I feel finer than in years," was the straightforward statement made recently by Mr. George W. Logan, of Peabody, Kansas, one of the most prominent stock-dealers in the Middle West.

"It has not only made a new man of me but I have actually gained thirty-five pounds in weight and feel as well as I ever did in my life. I am telling all of my friends about Tanlac but they can see for themselves what it has done in my case."

CANADA LIBERAL IN PENSIONS PAYMENT

Chairman of Parliamentary Committee Gives Particulars to Canadian Club.

"Excepting the United States, Canada leads very distinctly in its payments to disabled soldiers and their dependents," said Major Hume Cronyn, M.P., chairman of the parliamentary pensions committee during the last session, before the Canadian Club, at the King Edward yesterday.

Canada paid a greater pension, he said, than the United States, and the bonuses were considered, but under the insurance system in the latter country, the disabled soldier or his widow got further allowances.

Before the war, said Mr. Cronyn, private in Canada received \$150 per year, if totally disabled, and his widow a like amount. In 1915 the amount was raised to \$254 and in 1916 a totally disabled man received \$480, widows \$382. A parliamentary committee was appointed, and as a result of their advice, disabled soldiers received \$600 an average of \$480. "Those rates," said Mr. Cronyn, are still considered basic and any increases are added as bonuses. The first bonus was given in 1919 when 20 per cent was recommended, and as a result, soldiers received \$720 and widows \$576. In view of the cost of living a bonus of 50 per cent was added to the pensions in 1920 by which a soldier received \$900 and a widow \$750 per year, to take effect on September 1, 1920. If married the amount paid would be as follows:

Totally disabled men	\$750	\$900
Wife	250	300
First child	15	180
Second child	12	144
Third child	10	120

Total \$1377 \$1644

"That amount is in excess of the fire departments of an average of 12 of the largest cities in Canada," said Mr. Cronyn.

Pensions for Officers.

"Officers pensions were fixed in the early part of the war and everyone under the rank of captain gets the same amount, so that 99 per cent of the pensions are paid on an absolute basis of equality as far as the bonus continues. A first lieutenant receives \$900 per year as a basic rate."

The pensions received in Canada and elsewhere are:

Canada	\$1,844.00
New Zealand	1,138.80
Great Britain	879.42
Australia	854.01
South Africa	759.20
France	660.00

Pre-war earnings were not considered in the matter of pensions, said Mr. Cronyn, and the extent of disability was based upon the untrained labor market, which was obviously unfair when an accountant with his legs off was compared to a laborer with his anxious to employ disabled men on account of the liability to accidents, and would act in this respect. Personal earnings of disabled men was encouraged and the aim of the schools was to make them independent. Up to last year \$50,000,000 was spent in education, and this year the outlay would be from 30 to 35 million.

The total number of disability pensions on March 31, 1920, was 69,583, and the yearly liability was \$14,895,441. The total number of pensioners of all classes was 87,771, with a yearly liability of \$25,408,904. Including the wives and children of pensioners, the total benefited was 177,035. With the bonuses paid in September, the grant liability is increased to over \$33,000,000.

A Spring Day In Muskoka

A SPRING day in Muskoka, with sky and water vividly blue; the smell of pine, the song of birds in the air. On a sunny slope a girl gathered trilliums with eager hands. She smiled at the questioning stranger.

"I never picked wild flowers before," wistfully. "We lived in the city. Father died, and then—mother, of tuberculosis. I was all alone. I wasn't strong—worked too hard—and I got it. They brought me here to the Sanatorium on a stretcher."

"But look at me now!" exultantly. The glow of health was in her cheeks, and the real and care and good food and fresh air that saved me," and her eyes shone joyously.

Surely she was worth saving, this bonny, blue-eyed girl; surely the Muskoka Free Hospital for Consumptives deserves her gratitude!

court of appeal to which cases of complaint can be submitted for adjudication, but my opinion is purely personal, and has not the support of the government or the pensions board. The fact that pre-war disability did not allow a returned soldier a full disability pension caused endless complaint which was finally partially solved by wiping a soldier's record clean if he reached France, regardless of what his previous record was. It was for Canada to consider whether the same should apply to the man who only got as far as England."

Regarding soldiers' insurance, Mr. Cronyn said that the government were insuring many men without a medical examination from \$500 to \$5,000, and grand-parents' wives, children, etc., would be affected only if direct dependents. When a soldier died, one-fifth of the policy was paid in cash and the remainder spread over a certain period. Policies could not be transferred or subjected to creditor's terms, nor could a family which was pensionable, draw both the pension and the insurance.

Mr. Cronyn doubted if the insurance scheme would grow unless a form of selling was introduced. The government defrayed all the expenses at present and paid no commissions. The rates were slightly lower than those of other companies, but a heavy loss would be suffered in a great many cases as it was impossible to indicate the liability. The government owed W. Nichol, K. C., Kingston, a great debt for his untiring efforts.

VIADUCT CONFERENCE AWAITING MINISTER

"There is no conference on the railway viaduct today," said Mayor Church yesterday. "It was adjourned until today, but it cannot go on without some word from Hon. J. D. Reid, minister of railways and canals. He arrived at Ottawa today and when we hear from him we will be able to go ahead."

ONTARIO ESTATE IN WILL

Ancillary letters probate of the will of Major John Findlay of London, England, have been granted to Ernest F. Lyons and Geo. W. Finch. Deceased left an estate of \$30,715.65, of which the Ontario portion consisted of 25 shares in the Brazilian Traction Light and Power Co. Ltd., valued at \$2,218. By his will, executed Dec. 23, 1919, he bequeathed a legacy of \$2,218, and his ornaments to his sister Mrs. D. G. Carson, of Kilmalcolm, and the residue between Ernest F. Lyons and Mrs. May Lyons of London, Ont.

TO SPANK YOUNG MOTOR CAR THIEVES

York County Justices of the Peace Ask Free Hand on Bench.

The question of proper punishment for youths under 21, who were convicted of stealing automobiles, featured the meeting of the York county justices of the peace, held at the city hall yesterday. It was felt that some means could be found which would tend to make for better citizenship. By the present method, it was pointed out, the boys could be sent to jail with the minimum sentence of one year, and the intermingling with criminals certainly did the boys no good. Many became hardened and went from bad to worse.

Mr. Beatty said that all justices were agreed on the fact that a sound spanking would do much to remedy the present practice thus removing the stigma of criminality from them. Judge Coatsworth, the chairman, drew a distinction between a cane-nine-tails and the use of the strap in the good old-fashioned way, and thought the time was not far distant when criminals would be dealt with as individuals and not as a class.

Major Brunton, who during the present year had tried 2,000 cases, besides settling a great many out of court, said that the laws should be curative instead of punitive, and was in there accord with the idea of spanking. "The boys read dime novels," said he, "and visit the movies, which are so indiscriminately censored in Toronto, and notwithstanding the criticism of the great moguls of Toronto, I propose to carry on with my system, no matter what these magistrates say. The power should be given to judges to administer punishment in cases where they consider it better than imprisonment. Our duty is to fan the spark of delinquency in our boys into a flame."

J. E. James, J.P., said that a rule of thumb could not be applied to all crimes, and that magistrates should not be saddled with any ornaments which would prevent them from exercising a broad-minded view.

The resolution recommended that the criminal code be changed to empower judges to administer spanking to boys under 21 for stealing autos, and was carried unanimously.

Regarding the inadequacy of punishment where men were convicted of driving autos while intoxicated, Judge Coatsworth said, while it was a serious thing, he had never had any serious motor accidents in consequence of drunkenness brought to his attention.

The probation system was outlined by the judge, who said that 30,000 people, of six per cent of the population of Toronto, faced the magistracy last year, while in New York the number amounted to five per cent. Of the 25 per cent of the offenders were demitted with fines, reprimands, etc., it was very necessary there should be probation officers, who would go to the homes of the probationers and certify as to their conduct, and these offenders would report to the county crown attorney every six months until their parole was lifted. Some of the most hardened criminals sometimes unexpectedly reformed, and something should be done to infuse hope, if possible, that many might be rescued.

"During the past five years approximately 50 justices of the peace passed away."

MILLIONS FOR ROADS.

According to statements made before the executive committee of the Canadian Good Roads Association, over \$100,000,000 has been voted for better roads throughout Canada. The coming year will see, according to prediction, cheaper material, plenty of labor and conditions generally much more favorable.

TO DISCUSS IMPERIAL EDUCATION SCHEME

The board of education has invited all the principals of the Toronto public schools to a special meeting in the council chamber of the board in the administration building at 8 o'clock this evening. The purpose of the meeting is to consider the extension of the imperial education scheme that Dr. L. B. Jackson of Toronto, started in the Toronto schools about three weeks ago. Dr. Jackson has a demonstration of his method of teaching and display a sample of his "travelers." Canada will be depicted from coast to coast.

MANY COMPLAINTS AGAINST HASTINGS

Attorney-General Will Investigate Dunnville Police Magistrate's Conduct.

"It is Dunnville's fight except in so far as Messrs. Lator and Hastings charge me with treating them unfairly," was the comment of the attorney-general in interviews given by those gentlemen and published in yesterday morning's papers. "That charge I will answer now."

"There were for some months inconsistent complaints, both verbal and in writing, from Dunnville as to want of effective law enforcement. I had written to Mr. Hastings, calling his attention to the provision of the statutes and pointing out that in cases of flagrant offenders the maximum fine imposed by the act amounted only to high license, while the minimum fines were low license, and that for this class of offender the minimum fines were impracticable, as provided by the amendment to the statute made this year. Mr. Hastings paid no attention, but went imposing for the most part minimum fines on men who were making a business of illicit dealing in liquor in a wholesale way."

Still Further Complaints.

"Then, under pressure of further complaints, I sent an officer of the department to Dunnville to investigate. On his report, Mr. Hastings' own record of his court's proceedings, I wrote him a private letter on November 23, notifying him that I was suspending him, but stating that if he desired to make representations I would be glad if he could come to Toronto and see me. Mr. Hastings came to Toronto, he handed my letter to the newspapers and gave an interview, and a few days later he wrote a letter to the department, which he also handed to the newspapers, in which he criticized his suspension as an unwarranted abuse of authority."

"The publicity which Mr. Hastings sought and obtained in connection with the suspension other than a desire to motivate because he was still an officer of the department and bound to observe the usual courtesies of correspondence between the government and its officials."

"Then the delegation came over last Friday and some of its members demanded to know the charges were on which Mr. Hastings had been suspended. They were handed the charges, with the explanation that they were not the charges of the government, but of Dunnville people themselves, except in so far as they were contained in the records of the Dunnville court's proceedings."

"There will be inquiry with as little delay as possible when full opportunity will be given to the people of Dunnville to present both sides of the case."

ASSOCIATES HONOR MANAGER OF G. N. W.

Presentation Marks Taking Over of Quarters in the World Building.

An interesting event, marking the formal taking possession by the executive staff of the Great North Western Telegraph Company of their new quarters in the World building, took place yesterday. This was the presentation of a gold-chased fountain pen, engraved with initials, to the general manager, Geo. D. Perry. The presentation was made on behalf of his associates on the executive staff by W. G. Barber, general commercial superintendent, who expressed the high personal regard in which Mr. Perry is held by the subscribers.

Mr. Perry made a cordial response. The G.N.W. have taken the two top floors of the World building for the local office, the operating staff and the commercial news department remaining at the company's building at East Wellington street.

ONLY U. S. JURISDICTION.

James H. Duthie, secretary of the National Waterways Association, has received a letter from Geo. B. McCormick, secretary of the Interstate Commerce Commission, pointing out that the board's jurisdiction applied only to United States territory.

SUCCESSOR TO R. T. HARDING.

No successor to R. T. Harding as crown counsel in the timber case has yet been appointed. "The matter came to us like a bolt from the blue," said Premier Drury yesterday, "and we have not had time to consider it."

AN UNBIASED COUNSEL.

Attorney-General Raney has written to Furlong & Furlong, Windsor, counsel for Mrs. Trumble, widow of the man shot by Rev. J. O. L. Spracklin, saying that he will see to it that the crown counsel assigned to the case will be absolutely unbiased.

TO RELIEVE UNEMPLOYMENT.

The cabinet received a deputation yesterday from the Independent Labor party of Ontario, asking that steps be taken to deal with unemployment in the province this winter. The government promised to at once institute inquiries in an effort to see what can be done.

CHANGE POLICY OF SCOUT MOVEMENT

Committee Must Accept Responsibility for Any New Troops Formed.

A resolution passed at yesterday's meeting of the provincial executive committee of the Boy Scouts' Association, foreshadows a radical change in the organization policy of the association in Ontario, especially with reference to the formation of new troops. Every troop now, instead of having as its sole sponsor the man who is its scoutmaster, must be responsible to a troop committee of at least three men, who derive their appointment from the governing body of a church, school, club or other permanent organization desirous of using the Boy Scout program in its boys' work, or from a group of representative citizens organizing themselves together for this purpose.

Before a troop is registered the troop committee must accept definite responsibility for the troop, its leadership, facilities for its meetings, its finance, its property and for advising with the scoutmaster in all matters pertaining to its effective operation. It is felt that the existence of these committees will greatly strengthen the scoutmasters, who, in many places, have little more than their own devotion and enthusiasm to carry them on, and also make for greater permanency of the troop units.

By another resolution the executive committee abandoned the policy of forming local scout associations except in communities where there are, or where there are likely to be, two or more troops. This step was taken because experience has demonstrated that the local association is too cumbersome a machine for the proper administration of a single troop. This work will now be done by the troop committee, which in one-troop towns will perform all the duties of the local association with respect to its own troop.

J. W. Mitchell reporting for the finance committee, recommended that an appeal for funds be made on January 5, 6 and 7, 1921, and that local associations be assigned quotas to be raised for the provincial work. These amounts it is being suggested, should be added to a sum representing local needs for the next year, and a joint appeal made for the combined objective. Hamilton is conducting its campaign this week with \$25,000 as its goal. This amount will cover the city's local work and its provincial assignment for a period of three years.

Those in attendance at the meeting were: Provincial Commissioner W. K. George (chairman), Lt.-Col. Noel Marshall, and Messrs. J. W. Mitchell, A. B. Fisher, C. Q. Ellis, H. A. Laurin, J. F. M. Stewart and Assistant Provincial Commissioner Frank C. Irwin, all of Toronto, and Lt.-Col. Wm. Hendrie, of Hamilton.

MAKES CLAIM OVER HARBOR CONTRACT

Judge Dissolves Injunction Leaving Parties to Rights Over Court Action.

"The most extraordinary state of affairs which ever came under my notice," declared Justice Latchford, at Osgoode Hall, when counsel for Col. R. H. Boyd Magee sought to continue an injunction restraining the Toronto harbor commissioners and the Bank of Toronto from paying over to the Canadian Stewart Company the sum of \$50,000, in connection with closing up the Toronto harbor contract. Mr. Magee is suing the Canadian Stewart Company for \$95,000, his claim to which is set out in a letter written to him by J. C. Stewart in November, 1913.

"Does not the letter show graft on the face of it?" asked his lordship. "We had had a lot of such things when the war began, but this occurred before the war."

A. Bicknell and N. M. Young appeared for Mr. Magee and A. C. McMaster and A. M. Langmuir for the defendants.

For Obtaining Contract. "The services were for obtaining the contract," queried his lordship. "In connection with the contract," returned Mr. Bicknell, who suggested that Mr. Magee had been a partner in obtaining it. He added that the letter did not say whether the \$100,000 was for obtaining the contract or for future services.

"Future services are provided for at \$500 a month," pointed out the judge.

"He was engineer for some years. He drew \$500 a month for five years," Mr. Bicknell remarked.

"We have," said Mr. McMaster, "no intention of being held up for this claim." He did nothing to obtain the contract.

Justice Latchford—"You must have thought he did when you promised to pay him \$100,000."

"It looks bad on the face of it," added his lordship. "I will leave the parties to their rights in an action and dissolve the injunction."

ACTION DISMISSED.

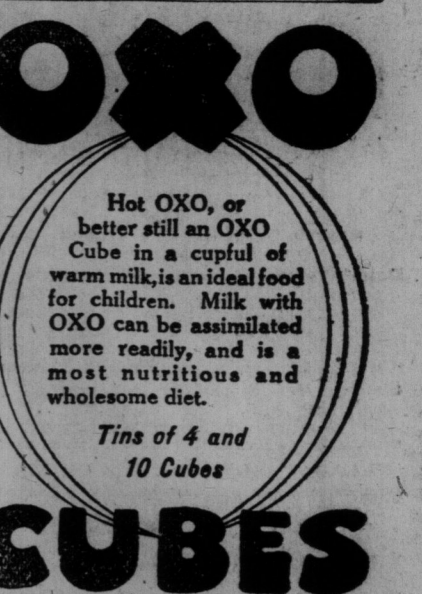

Mr. Justice Logie yesterday dismissed with costs the action of Ontario Fertilizers, Ltd., against the Progressive Farmers' Co-operative, Ltd., for \$2,313 alleged to be due on promissory notes.

KING STREET PROPERTY DEAL.

The Standard Fuel Co., Ltd., has purchased 79-81 East King street from Jas. G. Macdonell for about \$50,000. It will be shortly converted into a modern office building. R. B. Rice & Sons and The Chartered Trust & Executor Co. negotiated the deal.

FLEMING ASSURES FAIR PLAY FOR CITY

Percentages and Other Dues to Come Out of Purchase Money.

"We will do the decent and square thing by the city, and will pay their share of the percentages just as soon as we get that little \$10,000,000 from them," stated R. J. Fleming, general manager of the Toronto Railway Co., yesterday, when asked when the company would turn over to the city the \$47,000,000 owing to the corporation. This amount represents six months for which the city's percentage of railway receipts has not been turned over.

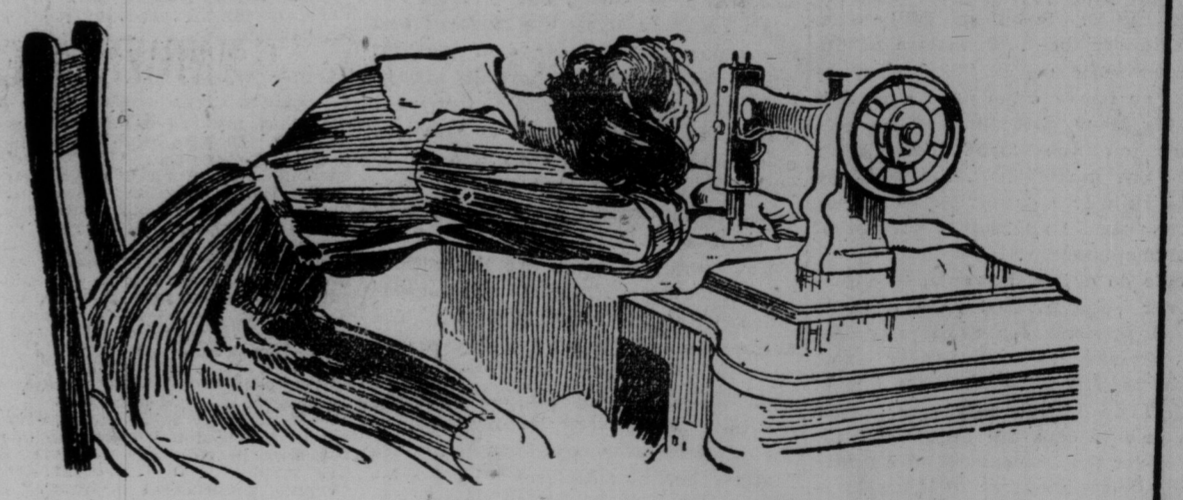

"Two other accounts between the city and the company remain to be settled. These, however, are more likely to come to an end when the railway is taken over than as a result of the present deal. The city holds a judgment of \$16,118.44 for snow cleaning during the winter of 1914-15, handed down by the Privy Council. The company has now referred this to the master-in-ordinary for a reference. The city is also suing for \$23,817.72 more for snow cleaning since 1915. There is also about \$25,000 still claimed, in addition to the \$80,000 paid, on the Queen street bridge account."

"Will the railway now pay what it owes the city for snow-cleaning?" Mr. Fleming was asked.

"That will be a matter of adjustment," said Mr. Fleming, intimating that the amount due on that account would be placed to the credit of the city when the deal was completed.

SCHOLARSHIPS AWARDED.

Two scholarships have been awarded by the council of University College—the Moss scholarship for classics in the third year to H. L. Tracy, and the McCaul matriculation scholarship for classics to A. K. McIlwraith, formerly of Upper Canada College.

My Nerves Were So Bad at Times that I Could Not Keep Back the Tears

WHEN the nerves collapse there is such a feeling of utter helplessness that strong men, as well as women, cannot do otherwise than weep.

Because Dr. Chase's Nerve Food supplies in condensed and easily assimilated form the vital substances with which Nature rebuilds the starved and wasted nerve cells it stands out today as the greatest of nerve restoratives.

The average physician is sadly at a loss when consulted by a nervous patient, and we have from such an eminent authority as Dr. Richard Cabot the statement that half the ordinary practitioners' work is with derangements of the nerves.

Think of the headaches, backaches, neuralgic and sciatic pains, the sleeplessness, indigestion and tired, depressed feelings that give the doctors their business, and you will realize the truth of this statement of Dr. Cabot.

The conditions under which people have lived during the last few years has meant enormous strain on the nervous system. The fear, the worry, the anxiety have wasted nerve force at such an enormous rate that persons of nervous temperament have been unable to stand the strain—the result is nervous collapse.

Recovery must necessarily be slow, and the average doctor, accustomed as he is to treating symptoms only, finds difficulty in bringing about restoration, and often fails to realize the helpless and discouraged condition of his patient.

Your Help Still Needed

Up to last night there still Remained about \$100,000 to be brought in if the 49 Charities in Federation are to receive sufficient money to carry on and extend their work the coming year.

Many who have not subscribed are doing so through these emergency appeals. Have you sent in your share? Can't you say: "In consideration of God's great gifts to me, I hereby subscribe to the Federation Campaign". This is your chance to show your thanks in a material way.

The Private Car Habit.

Now that no election is in sight it might be well to have a little discussion respecting the use of private cars by ministers of the Dominion and provincial governments.

There is no question of the propriety of the prime minister traveling in a private car. As we like to see the government-general travel in state because he is the titular ruler of the country, so the public do not object to the real ruler, the prime minister, being accorded a certain dignity.

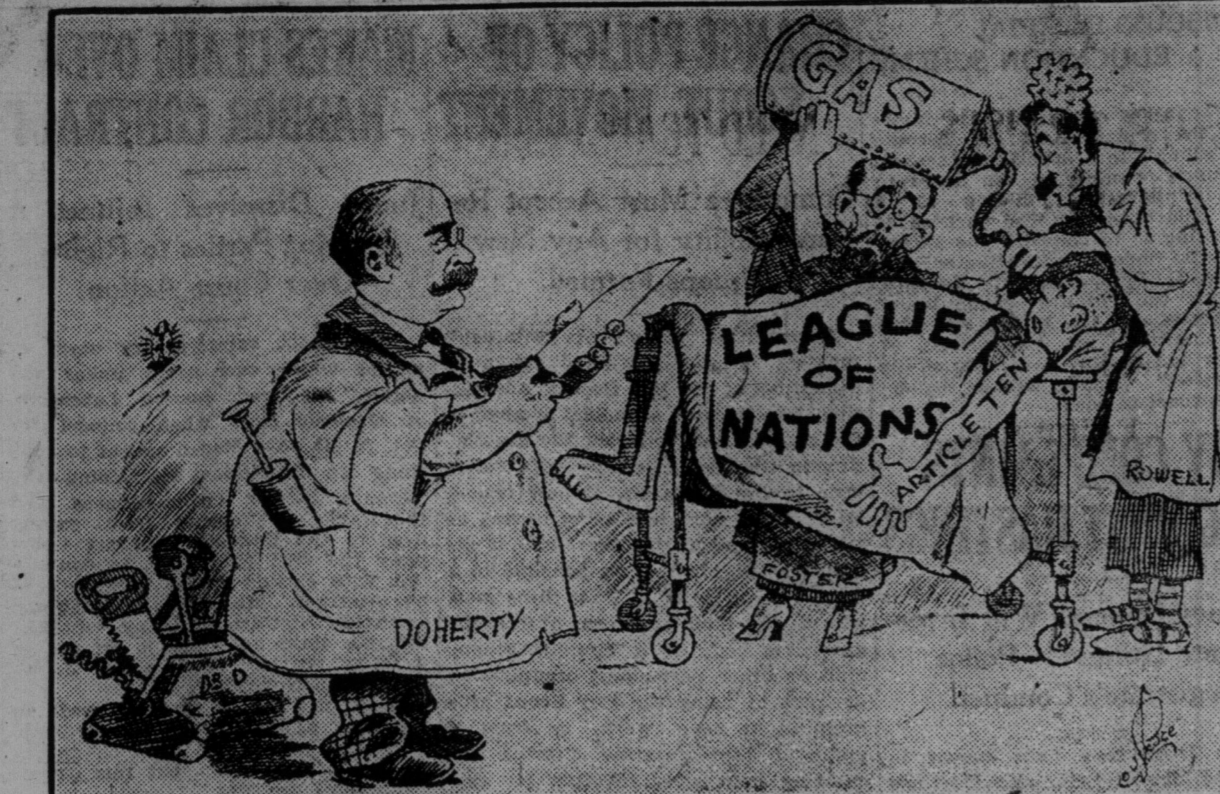

People do object, however, to a private car being hitched on a train to bring a minister for social purposes from Toronto to Ottawa or from Ottawa to Brockville, and the like of that.

The traveling public also object to unnecessary private cars so adding to the weight of the train that time is lost and connections missed by the necessary number of sleepers cannot be carried because of the intrusion of these dead cars of great weight.

Other objections can be marshalled against the indiscriminate use of private cars, some prompted by jealousy and pique. We think we are on safe ground, however, when we say that the public official who uses a private car should either pay the railway company for hauling it out of

My dear Laurens: The count is too indisposed to go out tonight and suggest that we forego Calamere and that you and Miss Dalzell join us at his temporary home, the 'per K'.

That the note was not in Woodstock's writing was explained by the 'per K' after his name, and Laurens had no doubt that it was the work of the count's secretary.

There was much bowing, and much subservency in getting the lady into the car, and Laurens, in a friendly way, overcoat, after which they entered the waiting limousine, the chauffeur sitting at the wheel.

They moved off, Mr. Kimeo chatting constantly and displaying the usual politeness of a chauffeur.

THE IVORY BALL

By C. C. Hotchkiss Copyright 1920

Kahn, the Mongol, and that which it longed for, the ivory ball, was what you know as Confucius. It is the Eye of God, and for fifteen hundred years it has been revered by those who know its mine, the house of Fel-Lung, the Flying Dragon.

It was a few years ago it lay in the temple which had been built for it by my ancestors in Tientsin—lay there until the coming of the West invaded my country. Then a wicked priest brought down a curse on me and my mine, himself succumbing to the ball's power in this sacred relic. The temple was looted. I witnessed the outrage.

At a moment the Chinaman paused and into his little eyes there came a look of hatred and fury. His words seemed to conjure up that picture out of the past which proved to the waiting Laurens that this was no small matter to the fanatic oriental. Then slowly, respectfully, with venom in each word, Fung Wang, or Ching T'au, began to speak.

Chow T'au had sent up a vow to his ancestors, he explained—a vow, the sacredness of which can be understood only by a Chinaman. In his own conscience Chow T'au, mingled with the sacred and as cruel as a Chinese hell, had lost caste to himself.

He had been a member of the Flying Dragon, leader of the house of the Flying Dragon, his honor was indicated by its recovry. Oriental ethics decreed that his prestige had gone and he must be restored until he had "saved his face" by restoring the Eye of God to the temple which had been his place for more than a thousand years.

"Sir," he said, holding up the ivory ball, "my soul died when I saw you. I made a vow, and a Chinaman is true to his vow. I have carried mine to the Flying Dragon, and I have placed the ball to the colonel, who recognized it as a rare work of art, if nothing else."

RESERVE CLAUSES LEGAL IN U. S. LAW

Important Baseball Judgment Given Against the Baltimore Club.

Washington, Dec. 6.—The District of Columbia court of appeals today reversed the recent judgment for \$254,000 granted by the district supreme court against the Baltimore Federal League Club, which claimed a violation of the anti-trust laws by the use of the "reserve clause" in the players' contracts.

The appellate court held that playing baseball did not constitute commerce as defined by United States supreme court decisions, and that the "anti-trust law" did not apply.

The "reserve clause" imposed restrictions on the club, which related directly to the conservation of the personnel of the clubs, and did not affect the movements of the Federal League club. Any ill-effects were merely accidental, the court found.

Would Go Higher.

Counsel for the Baltimore club announced that an attempt would be made to carry the case to the supreme court for review.

A verdict for \$30,000 was awarded by the jury when the former Federal League club's contention was upheld in the lower court. As provided by the anti-trust laws, the amount of the judgment was tripled and an attorney's fee of \$24,000 was added, bringing the total judgment up to \$254,000.

INTERNATIONAL SKIING BILLED FOR MCGILL

Montreal, Dec. 6.—Another international intercollegiate ski meet will be held this season in connection with the winter carnival at McGill, the dates of the meet being February 25 and 26. Invitations have been sent to every college in the United States and Canada, which take up skiing and it is expected that the meeting will be the biggest of the kind in the history of the sport in Montreal.

Prior to this McGill will compete in various meets throughout the country in the winter carnivals. The largest of these was the one at Dartmouth College. United States colleges expected to send representatives will be Dartmouth, Vermont and Middlebury while New Hampshire and Massachusetts are also expected. Ottawa College, which made so good a showing last year, will be asked to send a team.

During carnival games of hockey between McGill and one of the larger United States college teams will be arranged if possible.

SARNIA WANTS CRACK AT MANSON'S WONDERS

Sarnia, Ont., Dec. 6.—The intermediate rugby team has wired a challenge to the Hamilton Tigers for a game at the intermediate O.R.F.U. championship, the Canadian intermediate championship, and the senior championship of the O.R.F.U. in an exhibition game. Manager Awey signified his team's willingness, but wants the game played in Hamilton, which he is willing, providing the Tigers want intermission within reason.

MOTION ENLARGED ON ARENA GARDENS

"If your position is as strong as you say it is," said Mr. Justice Latchford to E. C. Long, appearing for the Toronto General Trust Co., "I think you can prevail upon the St. Patrick people to wait until Thursday before they make their decision whether to remain in Toronto or to go to Hamilton." The motion to set aside the receiver of the Arena Gardens, made at Oskodeo Hall this morning, was enlarged until Thursday.

JESS WILLARD IN QUARANTINE.

Lawrence, Kan., Dec. 6.—Jess Willard's training to meet the winner of the Dempsey-Brennan fight may be interrupted by a quarantine placed on his home, west of here, today. The former heavyweight champion's three children contracted diphtheria and the attending physician quarantined the house. The quarantine will stand until the patients have recovered.

AURA LEE AND GRANITES HOLD FIRST PRACTICES

Hockey Teams Down to Work—First Game on Saturday—Busy Signing the Players—Gossip of First Day.

The winter can be officially declared with us. Hockey practices opened at the Arena yesterday, and the first game is billed at the week-end. The trustees in charge of the Arena decided to let the first game go ahead and the first practice is Saturday. A last-minute order yesterday afternoon allowed Granites and Aura Lee to get down to practice.

It is said that only three games will be played in the senior S. P. A. series. Granites and Aura Lee play first on Saturday, a week later Varsity will take on the winner and the survivor will meet Kitchener in the final.

Granites, O.H.A. senior champions, defend the trophy. They will again have a strong team. They have nearly all last year's players and have gathered up some good ones in addition. Doug Addison will not be available for the goal position, and if the Church street club can fill this spot they will need watching. The curiers trotted out no less than four goal candidates last night, in Ernie Collett, last year with Parkdale; Mitchell, another goal last year; Stone, the good boy from De la Salle, and Melville, a net guardian from the west. Bob Armstrong, with Varsity in 1919-20, is expected out before the end of the week. Just how many of these goalers will stick until the future will tell, but Granites should at least land one good one out of the lot.

A Tidy Outfit.

Jerry Latourne was the directing hand of the practice last evening, donned skates and told the boys what should be done in addition. Doug Addison's team noted were: Hugh Fox, Hugh Alder, Alex. Romerelli, Harry Watson, Don Jeffrey and Corky Power. Add to this good lot Clary Hicks, last year with Arroy, Jack Aggett, the eleven-centre player from U. T. S., Nettiefield, another U. T. S. boy, and Boulter, with U. T. S. a couple of years ago, and you have a pretty classy outfit. Nettiefield may be available for the S. P. A. series, but he will be found with Varsity later. Dunc Munro is also claimed by Granites.

Aura Lee came next and showed the skeleton of a high-class team. They had Charlie Stewart, without a partner, another red and white stand-by, and with Denials of late years, the receiver of the Arena Gardens, made at Oskodeo Hall this morning, was enlarged until Thursday.

The Sunday World's story of the price to peddle wares in the great winter pastime stirred up a lot of talk yesterday. It simmered down to the wise ones saying yesterday that a reduction was in the order, and the senior slices now will be 65 per cent. for the rink and 35 for the clubs. Somewhat better.

Parkdale have entered senior and junior challenges for the C.P.A. cups. It is doubtful if the west end club will set a crack at the senior ones, but the juniors will be accommodated.

Aura Lee will defend the Junior S.P.A. Cup, and the first game will be played next week. Just who will be their opponents is not yet known.

DAVIDSON DRAWS TWO MONTHS' REST

Council Give the Desired Action—Brigden Cup Final Saturday.

The T. & D. Council at their weekly meeting in S.O.E. Hall last night, had the stadium proposition up again. Legal advice secured by the council was to the effect that it was beyond the limit of the association's charter to invest funds in an outside venture.

It was decided to call a special meeting next Monday night to go further into the matter and take up the issue of having further letters of patent secured to the association's charter, which would give them power to invest in these or other bonds.

The order of the delegates that a decision be rendered in the Davidson-Capps case resulted in quick action, and Davidson drew suspension until June 1, 1921.

The Swanes Club made application to have the suspension of Player Mays raised. He was put under the ban for assaulting Referee State during the month of August. The council decided to ask the club again to make application for the raising of the suspension on March 1 next year.

The Brigden Cup final between Ulster and Willys-Overland was ordered for Saturday with Cameron as referee, and Cochran as linesman. The game will be played at Broadview field at 2:30 p.m.

Devlin and Swifts will replay their Guy Long Cup semi-final at Dunlop Field on Saturday at 2 p.m., and will play a final if necessary. Taylor will be the referee.

Admit Connacher is Great Back.

Hamilton Herald: Sammy Manson indulged in a battle with Lionel Connacher of Toronto on Saturday afternoon. The result was a draw, but it is out of the question.

As captain of the team I would like to say that, really, I don't think there is a chance in the world of the game being played," he said.

THE ROSS STABLE CANADIAN BREDS

Thorny Way Most Successful of the Baker's Dozen of Campaigners.

Baltimore, Dec. 6.—The powerful stable of Commander J. K. L. Ross of Montreal, which has gone into winter quarters at the Ross farms, in Howard County, Maryland, near Laurel Park, the winner this year of \$250,000 in the United States and Canada, developed a bunch of smart Canadian bred—Cp the quarter of a million dollars earned by the Ross campaigners, a total that was exceeded only by the earnings of the stable of Harry Payne Whitney of New York, a little more than \$75,000 or more, \$34,735 was accounted for by the Canadian-turfmans.

Commander Ross, the products of his fast expanding stud at Vercheres, in the Province of Quebec, Marathon, an imported son of Marlston and the sire of Jack Hare, Jr., Squares, Dancer, a number of other winners in the United States and Canada of these ten or dozen years, and Fitz William, a splendid imported son of William the Third, are the stallions now at the Ross farms stud, of Vercheres, which boasts of two scores of brilliantly bred mares of British, French and American ancestry.

Commander Ross went to the post all told thirteen Canadian bred, which accounted for thirty purses, finished second, thirty-three, and third nineteen times. No other group of Canadian bred in any other stable made anything like so good a showing, and these winners did their racing in a series of the toughest opposition at Kembleworth Park, Windsor, Woodbine, Fort Erie, Hamilton, Blue Bonnets, Dorval and Connaught Park. Some of the Canadian two-year-olds won at Pinelock early in the spring, before they were shipped to Canada, and from youngsters bred in the United States, Commander Ross Canadian bred winners were Agon, bay gelding, 3, by Stanhope.

Algon, chestnut colt, 2, by Stanhope, \$4600. Polly Hill, bay filly, 2, by Stanhope, \$3600. Assyrion Crown, chestnut filly, 2, by Prince Ahmed-Ladon, \$3875. Delaham, chestnut colt, 2, by Prince Ahmed-Della Mack, \$3310. Flying Ford, chestnut colt, 2, by Oiseau-Giffords, \$4703. French Miss, chestnut filly, 2, by Malabar-Misty Morning, \$1000. Mad May, brown filly, 3, by Prince Ahmed or Madman-May L., \$1740. Martie Crown, chestnut colt, 2, by Prince Ahmed-Myrtille, \$2085. Silent West, bay colt, 2, by Calgary-Cypher, \$2800. Thorny Way, chestnut filly, 2, by Prince Ahmed-Briar Path, \$5730. Prince Myrtle, bay filly, 3, by Prince Ahmed-Myrtille, \$803. Thorny Way filly, 2, by Dorante-Sou, \$805. Waac, chestnut filly, 2, by the Cur-race-Mary Street, \$650.

The Canadian bred of the Ross stable, two-year-olds and three-year-olds alike, were well grown and developed, deep throated. Thorny Way, the most successful of the baker's dozen, began a winning career at Pinelock by defeating the field that included Irish Jig, Bee Nest, Eastward Princess and Attorney. Later she held Vermont, the Canadian and Harneytons at Hamilton. In the Provincial Nursery Stakes, run at Blue Bonnets on Sept. 16, she defeated the field of five other youngsters. Thorny Way scored her last victory in the Epsom Plate at Woodbine on Sept. 30, when she defeated Reconnaissance and her stable companion, Flying Ford and five others. Ajon and Flying Ford, racing in comparative interests, they having been leased for the occasion, finished one, two in the Montreal Jockey Club Cup, a dash of five furlongs and a half for horses owned or bred by the Montreal Jockey Club, at Blue Bonnets on Sept. 16. They beat Thorny Way, which bore the silks of Commander Ross. Ajon bore the silks of Sir Charles Gordon.

Commander Ross will have upward of thirty Canadian bred two and three-year-olds for next season's racing. Frederick Schelke, trained the northern division of his establishment last summer and fall, and Claver and Grunseln did most of his riding.

KISSING ACTRESSES DENIED BY MARTIN. Montreal, Dec. 6.—Mayor Moderic Martin, of this city, has requested the press of Montreal to deny emphatically a story that he was kissed by one of Marcus Loew's moving picture actresses, to whom he extended an official civic welcome last month. The mayor declares the story entirely false, and claims he has witnesses who will corroborate him. It now appears that the story had its origin in the enterprise of the press agent who arranged the civic reception.

Report of Prosperous Past Season In Canadian Wheelmen's Association

The annual meeting of the A. A. U. of C. is to be held in Winnipeg on the 10th and 11th inst. Fred A. O. Johnson will be the representative of the Canadian Wheelmen's Association at this meeting, with full powers to accept and present the following report for his association:

In presenting this our first report since renewing our affiliation with the A. A. U. of C., as representative of this association, I desire to submit a brief summary of the activities and business completed during the current year.

Some 200 cards have been issued to bicycle riders during the past year and competitions have been held in numerous towns and cities throughout Canada. The usual championships at the gift of the association were held and there was a large attendance at the Dominion championships, as the winners were selected to attend the Olympic games at Antwerp in August last. Messrs. Norman Webster, Harold Dounsal, Herb MacDonald, Willie Taylor and Harry Larkin were the representatives selected from competitions covering two months, the final trial of which was a 100-mile race held at Exhibition track in the city of Toronto, on July 30, 1920.

The above bicycle riders we consider are the equal of any competitors in the world, but from reports we have received, we beg to point out that the track on which the championships were held, was a motorcycle track rather than a bicycle track, and this placed our representatives at a very decided disadvantage.

The proof of our statement is this, that Harold Dounsal and Willie Taylor, our two sprint men, won a number of races which were held in France and Belgium after the games, competing against the same competitors who won the championships, so that as stated above, had the track been a bicycle track, where each competitor would have had a fair chance, we believe, and rightly so, that our riders would have made a much better showing for Canada at the Olympic games.

It is our intention during the present convention to call together the representatives from the different provinces in Canada, with a view of extending our activities during the coming year to cover all provinces in the Dominion, and the representative who has the honor of presenting this report has full power and authority to promulgate any suggested agreements which will further the interests of cycling throughout our territory. We ask the hearty co-operation of all amateur athletic associations in any province to assist us in furthering the interests of cycling, and in our turn, we will do all in our power to assist track and field athletics, with which the cycling game is so closely connected.

In this connection we would suggest that at all athletic meets sanctioned by the different provincial branches of the union, a number of bicycle races be included in the program, so that we may work together for the furtherance of bicycling and track and field athletics, which latter competition is controlled entirely by the Amateur Athletic Union. In closing, we would like to bring to your attention the fact that when the Canadian Wheelmen's Association renewed their affiliation with your body, we struck out from our constitution all rights as to the control of professional bicycling in the Dominion of Canada, and we would like to add that we have not found this a prejudice to the welfare of sport in Canada. If we are not going too far, we might suggest to other organizations who might have had some controversy with the governing body, that we think it would be of benefit to these organizations to do the same as our association has done and waive all rights as regards the control of professionalism in sport. In conclusion, gentlemen, we hope that

RESTRICTED OUTPUT OF SET PURPOSE

Boston Clothing Manufacturers Break With Amalgamated Clothing Workers.

Boston, Dec. 6.—The Clothing Manufacturers' Association of Boston voted today to break all relations with the Amalgamated Clothing Workers of America. Agreements between the two organizations which have governed the employment of 6,500 persons in the clothing industry here were said to have been abrogated by the workers union. Encouragement by its member of deliberate restriction of output amounting at times to 50 per cent, was charged.

A formal letter of notification sent to the joint board, Amalgamated Clothing Workers, declared that a supplementary agreement, which expired on December 1, and the basic agreement between the association and the Amalgamated Clothing Workers had been "disregarded frequently" by the latter.

These agreements, the letter continued, "have proved a decided detriment to the clothing industry in this market, and have so increased the costs of production that today members of our association are unable to compete as either retailer or to consumer, as a result of which practically all of their shops are now closed."

LEADING GERMANS TALKED TOO MUCH

Warning by Allies That Versailles Treaty Must Not Be Questioned.

Berlin, Dec. 6.—A joint British-French and Belgian note has been handed to the German government protesting against speeches recently made in the occupied territories by members of the German government as calculated to cause trouble and bring the execution of the Versailles treaty into question. The note urged a grave warning that such speeches by responsible persons must be avoided in the future.

Chancellor Fehrenbach and Dr. Simons, the German foreign minister, have recently returned from a visit to the Rhine provinces, where they delivered speeches in which not only the internal policy of Germany was discussed, but matters closely connected with the treaty of Versailles were brought to the front in such a way as to be considered by the allies as the prelude of a concerted effort to obtain revision of the treaty.

GOVERNMENT TO RUN PAPER MILLS

(Continued From Page 1) into paper for Canadian newspaper charging a fair profit. They will do no missionary work for the news papers, but they will ensure them reasonable and dependable supply.

And they will pay their men good wages, and make them useful members of the community. It is believed that the government have already selected the limit, the river for the water power, the location of the town and the style of buildings. There will be no prison about it, but a public owned industry. Such an experimental plant, it is hoped, will enable the government to get its full share of the paper output of all crown lands; and be a check on the firms now making big profits out of the crown timber and depleting the limits at the same time.

It is even said that some kind of co-operation between the governments of Ontario and Quebec in this respect will be carried out. Ontario and Quebec ought to double the revenue they now get from their pulp lands, help the men sent to the pulp mills to live a more ordinary life, to supply newspaper to Canadian papers in preference to export; and out of the experiment to frame up such regulations as will compel all leasees of pulp limits to imitate the crown in the treatment of their help, and the handling of what ought to be a perpetual source of revenue, of labor, of new towns, of trade for public well-being.

It is believed Premier Drury will make a full announcement of the plan at the forthcoming session of the legislature.

Her husband replies: 'Well, I started to shiver when I bought this too—but I might as well have it over with—there's a fight goes with everything that costs over \$25 in our house.' Mrs. Gump then says: 'I have to economize so everything is so high.' Her husband replies: 'He kicks and growls—but when we get out and somebody says Mrs. Gump—it's different then—he throws his chest out—gets proud—you'd think he passed hats to me like they pass buckets at a country fire.'

URGE MORE FACILITIES FOR TORONTO VARSITY

President of Alumni Association Places Case Before Royal Commission—Must Meet Increased Demands of New Era of Education—Better Salaries for Staff—Starved and Hampered for Lack of Financial Aid and Accommodation, Sir Robert Falconer Says.

At the afternoon session of the royal commission of university finance yesterday, the Hon. Mr. Justice Mastron, president of the Alumni Association of the University of Toronto, made representations on behalf of that body, which, he explained, included in its membership, 25,000 graduates and former students of the university, 18,000 of whom were resident in the Province of Ontario.

Mr. Justice Mastron referred briefly to four points which had been mentioned in President Falconer's memorandum. The first was the fundamental need of increased facilities so that the development of the provincial university, as demanded by the people, might not be stymied. The alumni, deeply concerned as they were in all matters of education and progress, felt, he said, that a very grave crisis faced the alma mater when the war facilities existed to meet the greatly increased demands of the new era in education. The second point emphasized was that the "quality" of education be lost to sheer "quantity," better facilities for post-graduate and research work should be provided and the university must be developed at the top. The third was that if the standards of the university are to be maintained, salaries for the staff commensurate with those paid in similar walks of life, must be provided. The fourth was to express full accord with the position asserted by the Federated Colleges.

War Memorial Fund.
In proof of his statement that it was in the interests of the province that organization of the alumni be facilitated, Justice Mastron instanced the assistance to the provincial university. A war memorial fund, which was established in 1918, had been raised and part of this was now being used for loaning without interest to students who had returned from the war unable to complete their courses without financial assistance. Last year \$37,447 had been loaned to 152 students, and this year \$42,496 had been advanced to 188 students. When the need for assisting soldier-students had passed, the fund would be used for scholarships and the erection of a physical memorial.

The establishment of an employment bureau at the university was also advocated by Mr. Justice Mastron, on the grounds that it would be of advantage not only to those who passed through the university but also to the province, in ensuring that university trained people found positions in which their training would be of the greatest value.

The last point raised by the alumni president had to do with the appointment of the university board of governors, and was a suggestion that a proportion of the board might be appointed by the government on nomination of the alumni. This would not in any way interfere with the government's prerogative and at the same time would give the alumni a voice in the administration and thus stimulate their interest. Also it would likely result in the appointment of men who were deeply interested in the affairs of the university and willing and able to give time and effort to the duties of the position.

Building Program Behind.
At the morning session Sir Robert Falconer presented a report pointing out that nearly half of the present large building program should have been completed in 1912, but was postponed as a result of the war and of an inexplicable amendment by which the legislature, in the dying hours of the session,

Hodson, who were arrested in Oakville last week for the Toronto police, and found guilty of the theft of a charge of stalling an auto, are also wanted in Aldershot, Ontario, for the theft of gasoline there, the police here were notified yesterday. The four boys will leave for Aldershot this morning to stand trial there.

THIRTEEN THOUSAND PENSIONERS COMMUTED

Veterans Receive \$5,100,000 in Lump Sums From Canadian Government.

Ottawa, Dec. 6.—(By Canadian Press)—The privilege extended to Canadian veterans of commuting their pensions when their disability was lower than 15 per cent, this privilege has been granted by the amendment to the pensions act last session, has been availed of to a great extent.

UNEMPLOYED PARADE.
An unemployment parade of returned men will take place tomorrow. The parade will form at Queen's Park at 12 o'clock noon and proceed to the parliament buildings, where the members of the provincial government will be asked to receive a deputation. From the parliament buildings, the parade will proceed to the city hall, where they will be received by the mayor and council.

THEATRE NOTES.
The offering at Pantages Theatre this week is a tale full of strong action and melodrama. It is "The Heart of Anna Wood," a play of the ordinary love and marriage tangles that go to make up the story of most of our lives. The play is a comedy, and is full of interest, and is a play of the new China with that clever young actress, Lenora Lingo, in the title role.

"Beauty Trust" at the Star.
Better shows on the American burlesque circuit than "The Beauty Trust," at the Star Theatre this week, are few and far between. This is another of H. Herk's productions—in fact, it is one of his best. What more could be said about its merits than that it is billed as a musical farce in two acts, six localities and twenty musical interruptions, which about apply describes the musical interruptions at both matinee and evening performances yesterday were much more frequent as the company were forced to repeatedly provide encores. Al Hillier is the principal comedian. Hillier attacks to his Hebrew impersonation, and as a laugh-getter Al is right there. He has a most capable assistant in Eugene Baum. These two kept the audience in fits of laughter with their actions and witty repartee while on the stage. They are supported by an all-star cast, including the following well-known characters: Elsie Meadows, Dot Davidson, Frank Lester, Paul Yale, Jack Mitchell, Gene Schuler, and Marie Le Beau.
