ISSUE BULLETINS

Exertion of Strenuous Pro-
gram Makes Impression
Upon President.

(By Canadian Press)

San Francisco, July 30.—The illness
of President Harding which became
more serious after his arrival here yester-
day through developments of complica-
tions, was the subject of a consulta-
tion by physicians held here today.
None of the four physicians who
participated in the conference would
make any statement, but from other
sources it was learned that a state-
ment might be made later in the day.
This was interpreted as meaning that
the physicians were awaiting develop-
ments of what had been described in
a bulletin issued last night in which
Brig-Gen. Sawyer, personal physician
to the president, said "new symptoms
indicating complications."

Participating in the consultation,
which lasted about an hour, were
held at the hotel where the president
was taken upon his arrival in San
Francisco early yesterday were Gen-
eral Sawyer, Dr. Hubert Work, Sec-
retary of the Interior and a former
president of the American Medical
Association, and Dr. Charles M.
Cooper, of San Francisco, a heart spe-
cialist.

Because of new symptoms having
arisen during the day indicating com-
plications in the case of the President,
a consultation of physicians has been
called. After this has been con-
cluded, the president will be regu-
larly, for the information of the public.
The above form the executive coun-
cil, as explained yesterday by Dr.
Sawyer, lies in some crabs he ate
aboard the naval transport Henderson
just before reaching Vancouver, B. C.
Eating the crabs gave the president
a touch of ptomaine poisoning from
which he seemed to be recovering until
his visit to Seattle last Friday. The
exertion caused by the strenuous pro-
gram he followed there aggravated the
poisoning, and the disorder became
more serious than before.

WARNING ISSUED
BY DRY LEAGUE

Investigation Would be Con-
sidered Act of War Says
Resolution.

New York, July 30.—Directors of
the anti-Saloon League of New York
yesterday made public a resolution
warning members of the legislature
that a vote for the legislative investi-
gation of the league recommended by
the grand jury which indicted league
superintendent William H. Anderson
for grand larceny, forgery and extor-
sion, would be considered "an overt
act constituting a declaration of war
against the approximately 5,000 Protes-
tant churches of the state committed
to dry enforcement and represented by
this board."

ango City, according to advices re-
ceived here.

Damaged Steamer
Is Towed to Port

Victoria, B. C., July 30.—The steam-
er Hanter, which collided early yester-
day with the Japanese S. S. Madan-
san Maru, was towed into Esquimaux
last night. The Hanter was badly
damaged with her decks awash and
will be docked here and patched up.

One Train in Two Successive
Crashes Causes
Thirteen Deaths.

(Canadian Press)

Chicago, July 30.—Twenty-four per-
sons were reported killed yesterday in
six railroad crossing accidents in var-
ious parts of the U. S., a train striking
an automobile in each instance.
New York, July 30.—A report of
five killed, including Wm. I. Gottlieb,
a well known manufacturer, when a
Long Island passenger train struck his
automobile in which they were riding.
Another accident was reported from
Washington, N. C., where a southeast-
ern train demolished an automobile, killing
one person and seriously injuring two
others.

One Pennsylvania train struck two
automobiles within a few hours, four
being killed in the first crash and nine
in the second. The first accident oc-
curred at Highland, Pa., where an au-
tomobile apparently became stalled on
the tracks in the path of an express
train.

A few hours later, the same train
struck to make up for lost time,
striking another automobile, killing
three persons and seriously injuring
others. The driver apparently
was having trouble with the driver's
wheels, and the train struck them
as they crossed the tracks.

Another accident occurred at Castle-
ton, Conn., where one man was
killed and two badly injured when
a freight train collided with an auto-
mobile and the sixth, at Iron Mountain,
Mo., a Missouri Pacific express train
crashing into an automobile and kill-
ing four persons returning from Sun-
day school.

Say Villa Buried
A Small Fortune

Mexico City, July 30.—The fight of
his numerous widows and children for
the estate of Francisco Villa, slain
bandit chief, promises to become as
exciting as the search for the 7,000,000
pesos which "Pancho" is popularly re-
ported to have hidden in various parts
of Parral. Reports from Chihuahua
state that Villa had a presentiment of
death several weeks before his assassi-
nation, and wrote to several of his
wives promising them shares of his es-
tate. Thus far, five wives and a small
army of children have been named, in
addition to his brother, Hipolito and
his sister, Mariana.

Ottawa Treats Lightly Reported
Intention of Siberia to Seize
Wrangell.

Ottawa, July 30.—Officials of the
National Defence and Naval Depart-
ments refused to give credence to the
report last night to a despatch from
Nome, Alaska, to the effect that the
Siberian government was fitting out an
expedition to Vladivostok to wrest
Wrangell Island from the party of Brit-
ish explorers now in possession of it.
The officials of the National De-
fence Department claimed, would be
equivalent to an act of war.

Demand Restoration
Of Rhenish Assembly

Coblenz, July 30.—Three thousand
delegates to a meeting of the Independ-
ent Rhineland party yesterday passed
a resolution demanding the replace-
ment of the Rhenish commissary and
Parliamentary council by a genuine
Rhenish assembly. The first duty of
this body, the resolution said, should
be to restore food supplies and stabil-
ize the economic situation. A copy of
the resolution was presented to Paul
Tirard, president of the International
Rhineland Commission, and others
were telegraphed to the Pope and to
the governments of the world.

French Reply Set on
Versailles Treaty

Paris, July 30.—The French and
Belgian notes in answer to the British
reiterations communication were both
slightly retouched before being finally
transmitted for their expected delivery
in London today. This came as the
result of exchanges of views between
Paris and Brussels.

The efforts to keep the contents of
the documents secret are being main-
tained, but it is confidently asserted in
well-informed circles that Premier
Poincare's reply is set squarely on the
treaty of Versailles and on the Franco-
Soviet policy outlined on January 11,
that negotiations with Germany are
impossible until her passive resistance
ceases and that the evacuation of the
Ruhr is impossible until the payment
of reparation is absolutely guaranteed.

Rich Man, Held
In Kissing Case,
Charges Blackmail

Portland, Me., July 30.—Charged
with assault and battery on Mrs.
Joseph Vanier, Jr., by implanting
several kisses on her neck, Harry
Foster, wealthy head of a furniture
company here, was arraigned in
municipal court. Probable cause was
found and he furnished \$1,500 bail.
He characterized the charge as
blackmail and said that the woman's
husband told him the case would be
hushed up if a bill for furniture was
cancelled.

NEGRO IS BURNED
AT THE STAKE

Mob Accuse Him of Attack
On White Woman—Another
Escapes.

(Canadian Press)

Yazoo City, Miss., July 30.—White
men were hanged at the stake here
yesterday by a mob, which accused
him of attacking a white woman twenty
miles south of Yazoo City, Miss., early
yesterday night, inflicting wounds which
it is thought will prove fatal.

Another black man was captured by
a posse, in a swamp. According to
members of the posse, the negro
declared that he stood outside the
woman's home while Minnifield went
in to attack her.

A posse took up the pursuit of the
negro who escaped.

Chicago, July 30.—One negro is
dead, two policemen believed dying
and two other men seriously wound-
ed, the result of a fight at Wood-
field, Ill., between 150 negroes and police-
men yesterday, according to the Chi-
cago Herald-Examiner. Fifty negroes
at midnight invaded a dance hall
in Woodfield, where a dance of white
persons was in progress. The negroes
armed with knives, razors and re-
volvers, chose as partners the white
women, taking wives from the arms
of their husbands, says the Herald-
Examiner, and resistance on the part
of the whites met with little suc-
cess. The negroes retreated towards
the village center where the police
began firing and a general light start-
ing four persons returning from Sun-
day school.

Pennsylvania Coal Operators
Say Now Is Time to Get
Check-Off.

Seranton, Pa., July 30.—Officers of
district No. 1 United Mine Workers of
America, upon their return from the
conference with the anthracite
coal operators at Atlantic City, de-
clared last night that the men would
stand firm for the check-off system.

"If we are ever to get it, this is the
time," Secretary Williams said.

2,500 Prisoners Freed
By Soviet During July

Moscow, July 30.—Twenty-five hun-
dred prisoners have been released from
Moscow prisons this month, through
the efforts of special commissions ap-
pointed to investigate the severe sen-
tences of Moscow courts and over-
crowding in the prisons.

MONCTON WOMAN IS
DEAD IN VANCOUVER

Vancouver, B. C., July 30.—Mrs.

WAR ANNIVERSARY

Woman Speaker Touches in
Debt Cancellation and
Disarmament.

(Canadian Press)

Brian Cliff Maston, N. Y., July 30.—
At a "law-not war" mass meeting
held Saturday night at Brian Cliff
Lodge, on the ninth anniversary of the
outbreak of the world war, Mrs. C. C.
Catt, noted suffragist, Everett Colby,
former U. S. Senator from New Jer-
sey and Major Gen. John F. O'Ryan,
advocated U. S. entry to the world
court.

Mrs. Catt said the U. S. should have
"more backbone and less wishbone."
She asserted the U. S. should cancel
all debts owed by foreign nations, and
contracted prior to the armistice on
condition that Great Britain and other
European countries follow suit and
agree on an absolute disarmament
problem which should be carried to a
point far below that necessary for de-
fense.

Major Gen. O'Ryan, who presided,
expressed himself in believed with the
principles of the League of Nations,
and the world court, but said he did
not believe in endorsing one without
the other.

Toronto Parade
Toronto, July 30.—"This is a man's
parade and not a kid's parade, and
just take those signs away from those
children and give them to men," was
the first intimation of trouble in the
"No More War" parade which was
held yesterday afternoon from the
Normal School grounds to Queen's
Park. The parade was led by a band
of three to seven, were carrying signs
with such inscriptions as "War Is
Hell," "Wooden Heads Now Mean
Wooden Legs Later—Think," "One
of the organizers who took objection to
the children carrying the banners, said
the man who was lining up the
children to replace them with men.
"Now, then, no more war," shouted a
bystander when he saw that trouble
was brewing.

Railways to Discuss Wage
Matters at Montreal Meet-
ing Today.

Montreal, July 30.—After rather
more than a month's wait since notice
was served on the Railway Association
of Canada by division four, Railway
Employees' Department of the Ameri-
can Federation of Labor, for a general
increase of 10 cents an hour in the
wages of 35,000 rail shovemen employ-
ed on the principal railways of Canada,
representatives of both parties will
meet here today to discuss the in-
creased wages demand and certain
changes in working conditions, includ-
ing overtime rates, representing the
men there will be included at the
meeting C. E. Shaw and G. S. Chad-
burn, Winnipeg; W. E. Rogers and
D. McKinnon, Moncton; W. A. Mc-
Guire, Stratford, Ont.; J. Corbett,
London, Ont.; and J. P. Riley, Car-
leton Place.

NO DESIRE FOR
RY. EXTENSION

Old Timer From Moose Factory
Brings This Word to
Cochrane.

Cochrane, Ont., July 30.—There is no
enthusiasm at Moose Factory for the
extension of the P. & N. O. Railway
toward James Bay, if the views ex-
pressed by Robert Reid, who has lived
most of his life in the northern part
of Ontario, are any indication of the
trend of opinion among the folk there.
Mr. Reid was in Cochrane this week,
and said that people up there did not
look with favor upon the approach of
the steel.

Want Private Concerns
To Continue Activity

Moscow, July 30.—A special com-
mission appointed by the Council of
People's Commissars to investigate the
commercial situation in the Far East
has decided that it is desirable that
private industrial concerns continue their
activity, says the Trade and Industrial
Gazette. "The commission is now dis-
cussing the advisability of permitting
foreign concerns to carry on business
in the Far East under the same status
as Russian citizens and without spe-
cial concessionary agreements."

DAMAGE IS HEAVY

One of Bombs is Reported
Exploded in Heart of
the City.

(By Canadian Press)

Sydney, N. S., July 30.—By a series
of explosions which roused the sleeping
city, the pipe lines which supply the
British Empire Steel Corporation
steel plant with water were blown up
at several points early today. As a
result, the plant was rapidly getting
back to normal, has been completely
closed down.

The actual damage caused by the
explosions will be heavy, but it may
be as nothing to the damage caused in-
side the plant by the sudden cutting
off of the large water supply needed
for the various operations, particularly
in the coke oven section.

One of the bombs was exploded in
the heart of the city near the corner
of Prince and Inglis streets. It is pos-
sible that the city of Sydney may
be able to supply a small quantity of
water for vital services until repairs
have been made.

The only clue the authorities have
is that after the Prince street explo-
sion, several men were seen making a
get-away in an auto.

FUTILE ATTEMPT
TO HOLD UP CAR

Masked Men Attempt Brigand
Tactics, But Auto Driver
Outwits Them.

Oshawa, Ont., July 30.—Three masked
men made a deliberate, but futile
attempt to hold up a motor car on the
Kingston road, between Oshawa and
Whitby, Friday night.

The motorist, driving a touring car,
was returning from Whitby, a few
minutes after midnight. About half
past seven between Oshawa and Whitby
a masked man leaped from the ditch and
attempted to jump on the running
board. The motorist threw on speed and
escaped him, when a second man, about
thirty feet farther on, also wearing a
mask, attempted the same tactics.

The speed of the car was too much
for the second bandit, but the headlights
revealed a third masked figure
standing in the middle of the road and
behind the third man was a car drawn
up across the middle of the highway.
The motorist was then going at a terrific
speed and swerved to avoid the third
man. The car took the ditch but the
speed was sufficient to carry the auto-
mobile past the standing car and out
of the ditch again on the road.

Haldane Opposes Naval
Base Expenditures

London, July 30.—Lord Haldane, ad-
dressing the Educational Conference
here protested against the expenditure
of £10,000,000 on Singapore as a naval
base, as proposed by the Government.
The Admiralty, however, was a potent
department of the Government, he
said, because the sea was a great tradi-
tion with Englishmen.

The expenditure at Singapore would
mean more cuts in the appropriation
for education, which also ought to be
a great English tradition, Lord Hal-
dane said.

Against this view expressed by Lord
Haldane is placed a statement made
at another educational gathering by
Sir Donald MacLean, ex-M. P., who
said that £20,000,000 had been raised
this year for education in Great Brit-
ain, or about £24,000,000 more than
was spent on the navy.

club here.

Man Who Would Be King Of
France, Delirious In London

London, July 30.—The Duke of Orleans, who would
be King of France today if royalty had survived in that country,
is now confined in a private house in Roehampton, an outlying
London suburb, under the care of physicians and four male at-
tendants, says the Daily Express.

The head of the House of Bourbon, the newspaper asserts,
suffers from delusions and has often been delirious. He is so
ill that one or the other of his attendants is constantly with
him. A physician constantly supervises the Duke's routine exist-
ence and eminent specialists from London and the continent pay
him visits.

British Territorials
Leaving For Camps

London, July 30.—This week marks
the establishment of the annual
camps for the training of the territorial
volunteers, and 10,000 have left
London alone. It is anticipated that
the number of men in training will
be 100,000 or 40 per cent. of the full
strength of the territorial force.

Irene Castle Denies
Having Been Divorced

New York, July 30.—Irene Castle,
dancer, today added another touch
of mystery in her matrimonial af-
fairs, when returning on the Lafay-
ette she announced that contrary to
reports she had not obtained a Paris
divorce from Robert E. Treman of
Ithaca, N. Y., to whom she was
married shortly after the death of
her first husband, Vernon Castle.

"I have not a divorce and I have
not instituted proceedings for one,"
she said, adding that she would
meet Mr. Treman when he returns
to New York next week on the
Majestic.

EFFORTS FAILED

Proposal to Organize State Con-
ference For Political Action
Falls Through.

Albany, N. Y., July 30.—Efforts of
the railroad brotherhoods, the Social-
ist party and Federation of Labor re-
presentative to organize a state confer-
ence for progressive political action
here last night failed when the various
factions refused to agree upon the
question of a proper date for partici-
pation in elections.

Morris Hiquit, representing the Social-
ists, proposed taking no action un-
til 1924. The railroad brotherhoods
and labor organizations demanded par-
ticipation in the fall assembly election
and the meeting broke up.

HALF PRICE AND LESS GETS CROWD GOING TO HUNT'S

The whole city seems to be making a dead set for the Hunt bankrupt sale of men's and boys' clothing and furnishings. To say that hundreds attend every day is putting it mildly. Clerks by the score have been hired to cope with the crowd and with good reason.

The Hunt merchandise has a good reputation, and when the prices are cut down below half it means much to every type of earner. The very best of furnishings are stocked, together with that outfitting the working man, and a total of \$40,000 worth, so the supply is strong. Well known brands are featured at a fraction of the regular retail price of today, and it looks like a big week for hunters of bankrupt bargains.

METHODISTS MAY DROP DANCE BAN Theatregoing and Card Playing Also to Be Allowed, Says Minister. Chicago, July 30.—The ban against dancing, theatre and circus going, and card playing in the Methodist Church will be lifted by the union of the Methodist Episcopal Church and the Methodist Episcopal Church, South, which now seems a practical certainty, according to the Rev. E. Robb Zaring, editor of the Northwestern Christian Advocate. With the abandonment of the restriction will go the prohibition against allowing actors and dancing teachers to join the Methodist Church.

WOODROW WILSON'S WARNING.

Former United States President Woodrow Wilson's first utterance on public questions since his illness is a warning to his fellow-countrymen against revolution.

"There must be," says Mr. Wilson, some real ground for the universal unrest and perturbation. It is not to be found in superficial politics or in mere economic blunders.

"In his view the man of the whole matter is that our civilization cannot survive materially unless it is reformed spiritually. Hence is the final challenge to our churches, to our political organizations, and to our capitalists."

By the way, it is not sufficient justification. It is extraordinary enough, surely, that in our day there should be even casual discussion of such planning against organized and murderous criminals who are ready to make their attack even in the busiest centres of the greatest cities on the continent.

BELEYEA'S GREAT EFFORT.

Keep it in mind that Hilton Beleyea, reduced in strength by the tough race of the day previous, was beaten on Saturday by two feet only. That is, he just missed retaining his Canadian title by the slightest of margins.

By Beleyea could have known the intense interest with which his friends and admirers here and all over the country awaited the result of Saturday's contest and how fervently they hoped for his success, the knowledge would have cheered him but he could not have put an ounce more into the struggle.

SOCIETY AND ORGANIZED CRIME.

We may be inclined to laugh at the talk in Toronto about the need for armored cars and bullet-proof vests for bank messengers and police, and some method of sounding a general alarm to put the whole population on guard to prevent the escape of bandits.

The modern city is wide open, unprepared for foes within or foes without, ready to deal with the ordinary and occasional offenders only, not with the organized gang, planning long in advance, striking swiftly, and with powerful motor cars at hand for escape.

The condition of ordinary business in Berlin may be judged by Saturday's official quotation on mark exchange, 760,000 to the dollar, which was to hold good until today, speculators in the meantime quoting 900,000.

The lumberjack was directed to proceed from camp to the nearest town and arrange for certain supplies. This entailed a long tramp through a forest composed of hemlock.

HEMLOCK.

"Why, doctor," returned the patient, "I'm not a doctor, but I know a hemlock when I see it."

CERTAINLY.

It is unusual to see a man standing in a public highway holding a ram by the horns and the passer-by was interested.

RESTING ON HIS BOSOM.

Mother (to daughter)—"My goodness, how did you get all that ink on the side of your face?"

and they must like it or it would not bob up so regularly.

"Anybody who shouts for keeping out of Europe in the name of good Americanism," says the New York Times, "must be ready to advocate doing all we can to help Europe get on her feet, when it is proved to him that this is an immense concern of America."

Reforestation is beginning on a small scale in the United States. There was more progress in 1922 than in any previous year, but at the present rate 180 years would be necessary to reforest the 1,000,000 acres of denuded timber land which has been selected as containing the tracts which should first receive attention.

APPROVES QUEBEC ENCOURAGING ARTS

London, July 29.—"For some time that Canada has been resentful of its literary bondage to the United States," says the Manchester Guardian in noting that the Quebec Government is regarding good literary work with prizes for some time and was continued in "Quebec, of course," says the newspaper, "represents the French and sentimental tradition which accepts the furtherance of the arts as the proper function of government."

Taggart Displeased With Views of Chief—But Bryan Is Released.

Washington—Charles F. Murphy, the Tammany chief, is in French Lick Springs, Indiana, to confer with Thomas Taggart and other Democratic leaders of the Middle West in the interest of the Presidential boom.

The governor's friends admit that Mr. Bryan speeches put a big dent in the Smith boom and, in view of the forthcoming meeting of the executive committee of the Democratic State Committee of New York to be held in Albany Monday, Governor Smith is preparing a speech in which, it is declared, he will modify his position on the liquor question so as not to appear so far from the party line.

St. John Man Is Killed In Wreck

HARRY L. ALEXANDER.

To the left is a picture of Harry L. Alexander taken with a group of friends and members of No. 1 Salvage Corps and Fire Police a year ago last month at an outing held by the Corps at Loch Lomond. The picture was taken in front of the Log Cabin Club, Mr. Alexander being a member of the Salvage Corps Company.

To the right, Harry Alexander is seen in his working clothes standing alongside of his train on which he was a Canadian National Express messenger. This picture was also taken last summer.

Harry L. Alexander, 97 Exmouth street, is dead along with three others and eight or more persons are injured as a result of a railway fatality at Picard, Quebec, about six o'clock on Saturday morning when the Canadian National Quebec Express crashed into a freight train which was preparing to take the switch. The other train was Joseph Duchesne, fifty-two years of age, whose home was in Edmundston, engineer of the express; Arthur Rouanger, thirty-seven, Lewis, P. Q., baggage master; and a news agent, name unknown. The body of Mr. Alexander was brought to the city last evening by C. N. R. via Montreal and the body of Brennan's undertaking rooms in Main street. It was removed to his late home today and the funeral will be held tomorrow.

The C. N. R. authorities at Moncton refused to give a detailed statement to the Canadian Press until an investigation had been held. The inquiry probably will be conducted by Frank Griffin, divisional superintendent, with headquarters in Edmundston. So far as could be ascertained the passenger train was rounding a curve, running, it is reported, four minutes ahead of time. The freight train was about to take the siding when the oncoming passenger train crashed into it. Alexis Albert, engineer of the freight, saw it coming and shouted to the fireman to jump. Both jumped as the crash came. When the wreckage had been cleared away somewhat Albert was extricated from the debris with one arm shattered. Passengers were thrown about in the car and many minor injuries were reported. Alexander was badly injured about the head, his skull was fractured and one leg broken. He was dead when found. The injured were attended to and a special train continued to Quebec, about 100 miles away.

No particulars as to the manner of his death were received at the Alexander home yesterday. The death of Harry is the fourth death of the Alexander family in the last four years, his father, mother and a brother having died in that time. He is survived by two sisters, Miss Hazel Alexander at home and Mrs. William Fleming of Maugerville, N. B.; also two brothers, William J. at home and Walter of Westwood, Mass.

Harry Alexander was the son of the late John L. and Rebecca Alexander. For a number of years he was engaged in the grocery business in the city and for a time conducted a store on Waterloo street.

For the past six or seven years he has been connected with the Canadian National Express Company in the capacity of messenger. He was one of the most efficient messengers in the service and a general favorite with all railway employees. He was of a happy disposition, a perfect gentleman, and his loss is being keenly felt by the many railway men with whom he continually came in contact.

He was a member of Albion Lodge No. 1 A. and F. M.; of New Brunswick Lodge No. 1, Knights of Pythias; a member of the Dokers, an order in the K. of P. fraternity, also a member of No. 1 Salvage Corps and Fire Police. In all of these organizations he was admired.

The body arrived in the city on the express from Moncton last night at 9 o'clock, and was in charge of W. C. Johnson, depot foreman for the Canadian National Express. Mr. Protau, traveling agent for the company, accompanied the body from the scene of the wreck as far as Moncton, where he transferred the charge to Mr. Johnson. When the train arrived last evening, in addition to relatives, a large number of the members of the Albion Lodge, New Brunswick Lodge, and No. 1 Salvage Corps were at the station. Depest sorrow was seen in

Yesterday In The City Churches

In the absence of several of the city clergymen visiting ministers conducted the services in several of the churches yesterday. Rev. W. M. Fraser, of the Greensboro, was the preacher in the Knox church in the morning and in St. Matthew's Presbyterian church in the evening. Rev. George Scott occupied the pulpit of Dr. J. A. Morrison in the First Presbyterian church, West St. John. Rev. H. Jenner, the former pastor of the Charlotte street United Baptist church, was the preacher at the evening service in the church and was warmly greeted. Rev. Bruce D. Knott, of Truro, conducted both services in the Central Baptist church.

Rev. George E. Ross, D. D., of Montreal, occupied the pulpit of St. David's Presbyterian church at both services yesterday. Dr. Ross is well known in the Maritime Provinces, being a graduate of Dalhousie University and Pine Hill, Halifax, and having been minister of Bethany church, Halifax, and of Zion church, Charlottetown, as well as serving for a number of years as a missionary of the Presbyterian church in Canada to British Guiana. He is now minister of St. Matthew's church, Montreal, one of the largest churches in the city, and is honorary secretary of the Presbyterian Board of Education. Dr. Ross will supply St. David's during Rev. Mr. Miller's absence in August. While in the city he is being entertained at 92 Carleton street.

In the Carleton Methodist church Rev. F. T. Bertram, the pastor, conducted the morning service, preaching for the first time since he returned from his vacation. In the evening Rev. J. M. Rice, of the Fairville Methodist church, made a pulpit exchange with Mr. Bertram and Mrs. W. Lord and Miss Lois Neil sang a pleasing duet. In the Ludlow street Baptist church in the evening the junior choir conducted a song service and E. Clyde Parsons was the soloist.

Rev. Canon R. A. Armstrong was the speaker yesterday afternoon at a special service in the church of St. James the Less at Renforth. He spoke helpfully on "Cheerfulness." During the offertory Miss Agatha Steves sang a solo. A. C. Burnham was at the organ. The service was conducted by Rev. Canon A. W. Daniel. An endeavor is

DOMINION P. O. IMPROVEMENTS AND ECONOMIES

Some \$400,000 Saved in Ry. Charges—\$950,000 Back Debts Collected.

Ottawa, July 28.—The Post Office Department has made public a series of improvements and achievements resulting from its educational campaign and its better organization. Some results of increased co-operation by the public which the department worked up are, the better delivery of mail matter, a marked decrease in mail forwarded to the dead letter office, and an evident improvement generally in the better comprehension by the public of postal regulations so as to avoid delay and non-delivery.

A post office weekly bulletin has been sent out to the employees making for a general improvement in the morale of the service and a better spirit of co-operation among all the branches. It was the practice in the past to take on relief employes in the postal service during the annual leave season. These temporary men commenced their employment in April or May, and were released after the termination of the holiday season, often at the commencement of the winter. By extending the period during which annual leave is taken and by establishing reserve staffs, known collectively as the postal pool, it has been possible to take care of the holiday relief and other emergencies peculiar to the postal service with comparatively no additional expenditure. Moreover, this reserve staff constitutes a training school and makes it possible to give a better public service through retaining experienced men instead of releasing them in the fall of each year and taking on "green" hands in the spring.

Steps have also been taken to improve conditions under which employes work. Lunch rooms have been established at the larger centres and this will be further extended at other offices where circumstances are favorable and the necessary accommodations available.

Two years ago thefts and abstractions from the mails were causing concern to an alarming extent and reflected what was known as the "Crime Wave," which at the time was more or less universal throughout Canada and the United States. In carrying out the re-organizing of the postal service special attention has been given to the investigation work with the result that in the past two years a greater number of arrests and convictions for thefts from the mails were made than during any corresponding period, and a great percentage of the cases were satisfactorily concluded. This has resulted in a marked diminution of the so-called "Crime Wave" in so far as the postal service is concerned.

Reduced Rate Paid to Railways.

Of the various economies effected, perhaps the most important in postal matters is that which was made by reducing the rates paid to railways for conveyance of the mails. This was brought about through conference between officers of the Post Office Department and the Department of Railways and Canals, respectively, who were directed to make a compilation of the cost of operating the different kinds of mail services performed by the railways, with a view to fixing rates which would give fair compensation and put the baggage car mail service on a fair basis. The railways agreed to accept the new rates effective from the first of June, 1922, and these have

resulted in a saving of \$400,000 per annum to the Post Office Department, and consequently to the tax paying public.

A considerable number of accounts for the carriage of mails of foreign countries across Canadian territory had not been attended to, nor had settlement been made. Eventually the Postmaster General succeeded in getting these accounts settled, with the result that the treasury of the Dominion of Canada benefited to the extent of \$850,000.

Improved Business Methods.

Improvements have been made in the method of conducting Post Office business, both in the operating field and at the seat of administration. These improvements embrace a variety of subjects and cover such items as mechanical accounting in connection with money order accounts, Government-owned motor truck transportation service for the collection and delivery of mail, improved registration system, improved lay-out of Post Office in connection with new buildings. Other potential improvements are being tried. In addition, changes in organization have been effected, resulting in an aggregate saving, on this account alone, of approximately \$200,000 and at the same time increasing the efficiency of the service.

SUBSIDIZED THEATRES.

Gwynes Would Devote Amusement Tax Revenue to Art.

London, July 28.—The latest proposal for a state-subsidized theatre in this country comes from the well-known Labour leader, Right Hon. R. Gwynes. In the House of Commons he asked Prime Minister Baldwin what was the total revenue received from the entertainment tax and if he would provide from it an adequate sum to enjoy a Shakespeare memorial and establish a national theatre in London. Mr. Baldwin replied that the total revenue from the entertainment tax, since its imposition seven years ago amounted to £27,606,000 and added that it did not favor the extension of Government enterprise to art.

A scheme is afoot to establish in London a theatre to be known as the Forum, which, while not "high-brow," will meet the demands of intelligent people. One of the proposed productions, it is understood, will be a play by Bernard Shaw which has not yet been published or performed. One of the managers of the Forum will be Theodore Komisarjensky, who was a director of the Moscow Art Theatre, and has had successes in Paris and New York.

FREED OF CRUELTY TO FOWL.

State Falls to Supply Corpus Delicti in Five-Year-Old Charge.

Chicago, July 28.—William Watts was freed of a charge of having slain a chicken in 1918 in the suburb of Oak Park. "How does one go about killing a chicken legally?" Superior Court Judge David inquired, when informed that Watts had appealed from the decision of a Justice of the Peace who had fined him \$3 for "beating and torturing" a chicken, which he seized on his domain and threw over the fence.

The defense asserted that the chicken fell and broke its neck, and when the state admitted its inability to prove the corpus delicti, the Judge dismissed the case.

KILLED BY SHELL IN PILE OF TRASH.

New York, July 28.—John Brown, No. 48 Laveton Place, Perth Amboy, was killed by the explosion of a shell he had uncovered from a pile of trash while cleaning up at the United States arsenal at Morgan.

It is believed the shell was buried by an explosion at the arsenal in 1918.

Thirteen Worcester Nurses Get Outlaw Bobs; Furore in Hospital

Worcester, July 30.—Thirteen student nurses at Worcester City Hospital gave their caps while on duty; permissions which have been granted them from time to time to be away from the hospital all night have been revoked; they cannot go home after dark; they cannot sleep or even eat with the other nurses; they must eat with hospital aids.

The entire thirteen students had their locks clipped off at either the same time or about the same time, and never sought the advice of their superiors, so the superiors say. The alleged infraction of the hospital rules is said to be covered by the code regarding proper and fitting attire and general appearance of nurse students.

Supr. Charles A. Drew of the hospital says that the length of time that the students will remain under sentence of punishment will depend much on their attitude from now on.

There was considerable of a furore at the hospital when the thirteen student nurses reported for duty. The superior of nurses was somewhat alarmed. She hardly recognized her charges, who she has continued ever since. "The naughty, naughty girls!" some of the other—and good—nurses said.

Classifies Love As A Mental Disease

Pulse Gives Clue to Object of Affection Says Spanish Doctor.

The Madrid correspondent of The Journal of the American Medical Association says that on his admission to the National Academy of Medicine Dr. R. del Valle y Aidaibale, physician in the Madrid General Hospital and author of many works on nervous diseases, read a paper on the subconscious. Dr. Valle considers that "Vicenna and Schopenhauer enter forerunners of Freud in psychanalysis. Vicenna ("Cannon," Chapter De Hiri), in describing symptoms, especially the irregular pulse caused by love—which he classifies among mental diseases—says:

"In this way it is possible, even though the patient may deny his feelings, to identify the person loved, and to base on this knowledge a mode of treatment. The method consists in repeating certain names while the patient's pulse is being read. As soon as the pulse shows any irregularity the trial is stopped and begins again. I have tried this method more than once, and discovered through its use the name of the person loved by the patient."

Here is psychanalysis in the eleventh century, even with its application to love. Valle also recalled Schopenhauer's words:

"If a quarrel, unpleasant news or remembrance is so painful as to become unbearable, then nature itself causes insanity, as a last source of salvation."

Dr. Palacio Valdes, another physician in the General Hospital, welcomed the new member and spoke on the same subject. He said that fifty years ago people considered as subconscious facts or images which, through conscious repetition, have become cerebral character and have become automatic, requiring neither intelligence nor attention. Palacio Valdes knows a woman, aged eighty-four, who often does not recognize her own children and much of her mind is deteriorated, yet she can play well on the piano.

Ribot has stated that personality is made up of two factors, psychic and somatic, the former originating in the latter, which is the bodily sense or consciousness. Pathological conditions may split these two elements apart and create a dual personality. Palacio Valdes described a woman, aged twenty-eight, who was admitted to the psychiatric department of the General Hospital suffering from manic-depressive insanity. This was her third admission to the hospital and she had a history of depression. This was so pronounced as to prevent her personality and cause her to become a somatic being, which is of great interest because of the light it throws on this much debated psychological problem. The patient spent a night and part of the day lying in bed on the floor crying.

"Are you hurt?" attendants asked her. "No, why do you cry?" "Because I'm dead and they are going to bury me alive." She persisted with these thoughts for about fifteen days. Some time after her discharge Palacio Valdes met her on the street. She greeted him and told him of her agony in the hospital. "But what made you think you were dead?" he asked her. "Nothing, nothing at all. I felt nothing, and that's what made me think I was dead." "But you knew you were alive," he said. "It is all very strange and inexplicable. I must have been crazy."

Palacio Valdes considers this a disintegration of the ego. The patient had lost her vital or bodily sense, her consciousness. It was not a mere, for she must have been able to recall her former life, or she could not have suspected that she was dead. On the other hand, she was afraid of being buried alive. Even in the midst of her derangement she reasoned logically. Her primitive ego, the bodily sense, had disappeared, but her secondary or psychic ego survived. Turning to metaphysics and telepathy, Palacio Valdes told of an old woman who came out on the street one night screaming pathetically and begged help for her son, who was being murdered. The neighbors attributed her excitement to the nervousness of old age. The next day the boy was found murdered at a spot three miles from town. In concluding, Palacio Valdes asserted that the study of subconscious phenomena is four centuries ago. Man's intelligence and effort cleared up the mysteries of these early speculations, which have since

HE KIDNAPPED WRONG CHILD

Mother's Cries Cause Arrest at Jersey Beach—Stranger Fined.

Manasquan, N. J., July 30.—Scores of persons bathing on the beach here saw Merton W. Greims of Philadelphia, through what he claimed was mistaken identity, pick up Norma Jean Altenburg, 2 years old, of Elizabeth, who was playing on the beach, and attempt to walk away with her in his arms.

A cry from the girl's mother brought quick response and bathers held Greims until the arrival of Officer Elmer Carson, who arrested Greims on the charge of attempted kidnapping. When arraigned later before Justice of the Peace Longstreet, Greims told the court that he had trouble with his wife, and that while searching for his child he had learned that both of them were at Manasquan Beach. He hurried from Philadelphia, he said, and went by auto to the beach. He said he thought the Altenburg child was his and that he did not realize his mistake until he started to walk off with the child. Justice Longstreet believed the charge of attempted kidnapping. DEATH DUTIES \$250,000.

Earl of Plymouth Left Estate of £260,102.

London, July 29.—(By Mail).—The Right Hon. Robert Grey, first Earl of Plymouth and fourteenth Baron Windsor, P. C., G. B. E., C. B., of Pagan's Castle, Cardiff, Havelock Grange, Redditch, Oakly Park, Ludlow, and Great Cumberland place, W., formerly First Commissioner of Works, High Steward of Cambridge University, a Trustee of the National Gallery, chairman of the Berry Railway Company and other companies, who died on March 6, aged 66, left unsettled property of the gross value of \$260,102, with net personally £13,315. The duties on the property at this valuation were amounting to nearly £250,000. The testator left 10,000 to his secretary, Mortimer Reginald Margeson, "feeling confident that he will always help me in my wife and family to the best of his ability," and requesting him to help him in the same way in examining letters, books, and private papers; £200 each to his servants, Algoner Lewis Clarke and Charles Griffiths; and one year's wages to each indoor servant (including the above two) of three years' service in his service at his death.

MORNING NEWS OVER THE WIRES

Hon. J. S. Blanchard, minister without portfolio, and a member of the Government, died in the general elections, is now said to have a majority of thirty votes over J. Gallant. This will give the Conservative Government 29 seats and the Liberals five.

Chief Inspector J. B. Hawthorne, accompanied by Sub-inspector Saunders and Duffy, swooped on some alleged moonshining activities in Minto on Friday and secured a quantity of mash. The owners will be charged under the Inland Revenue Act with the illicit manufacture of spirits. One seizure was made at New Zion and the other in Minto. The largest seizure was made from Peter Mills and the other from a forger.

According to an announcement from Los Angeles the engagement of Miss Pola Negri, film tragedienne, and Charlie Chaplin is off. The engagement was announced six months ago in Delmonte, Cal. Miss Negri says she realized some time ago that a match with him was an impossibility.

William I. Gattely, four young women were killed yesterday when a Long Island passenger train crashed into an automobile in which the witnesses said that the automobile crashed through the gates directly in front of the speeding train. The gate man said the train was traveling about sixty miles an hour and the accident that he will always help me in my wife and family to the best of his ability," and requesting him to help him in the same way in examining letters, books, and private papers; £200 each to his servants, Algoner Lewis Clarke and Charles Griffiths; and one year's wages to each indoor servant (including the above two) of three years' service in his service at his death.

SCANT TWO FEET BETWEEN HILTON AND HIS TITLE

Gilmour, Philadelphia, Wins at St. Catherines—Belyea Changes Tactics.

Hilton Belyea of this city lost his title of Canadian champion at St. Catherines last Saturday afternoon when he was defeated by W. E. G. Gilmour of the Bachelor Barge Club of Philadelphia, by a scant two feet. Belyea took the lead for the start and maintained it until within a short distance from the finish line when Gilmour forced his shell in front and captured the championship.

Hilton was utterly exhausted at the finish. He followed a new system in the race and instead of allowing his opponents a lead and depending on a final dash he went out in front and increased his lead to two lengths. But at the finish the younger man's stamina proved too much for Hilton and defeat resulted. Both he and the new champion were given great ovations by the crowd. Gilmour then teamed up with Haggood and defeated Lane and Hartman of Detroit. They also defeated Regan and Kelly.

ADVERTISED HIS WRECKED AUTO

Is Fined For Displaying Signs Blaming Other Driver for Crash.

New London, Conn., July 30.—May a person place his wrecked automobile alongside the road and plaster it with signs alleged to be facts concerning the collision? A New London man was fined \$10 for displaying signs blaming another driver for a collision, but it resulted in his arrest. He was taken into custody by Constable Charles W. Taftville on a charge of displaying signs on a wrecked automobile alongside the road and plaster it with signs alleged to be facts concerning the collision?

Such was the novel method adopted by Eugene LeBlanc, of Taftville, of advertising his troubles in connection with a collision, but it resulted in his arrest. He was taken into custody by Constable Charles W. Taftville on a charge of displaying signs on a wrecked automobile alongside the road and plaster it with signs alleged to be facts concerning the collision?

More than a month ago LeBlanc's car was in a collision on the bridge at Leitch City with the car of Dr. Harry McLaughlin of that place. Mr. LeBlanc has not yet obtained a settlement for the damage to his car, which he dragged out on Norwich Avenue and placed alongside the highway.

Mr. LeBlanc made the car still more noticeable by hanging signs on it, beginning with a few and adding others until the car was covered. It was this display that caused his arrest. One of the cardboard signs said: "You said you would get me if I would publish this, Dr. McLaughlin; so now come, E. L. LeBlanc was found guilty and fined \$5. He took an appeal.

ASK HALF HOLIDAY FOR THURSDAY

Request at City Hall for Horse Race Time—Work at Two Slips.

A request for a half holiday on Thursday for the benefit of the citizens who wish to take in the horse races was presented at the council meeting of the council this morning; coal tenders were awarded; and it was decided to call for tenders for the bulkhead at the head of the public slip, Indian town.

A delegation of merchants presented a request for a half holiday on Thursday to give an opportunity to attend the horse races at Moospath. They said that all the retail merchants who had been spoken to had been in favor of the idea, and also some of the manufacturers. They left with the intention of securing a signed petition of merchants and manufacturers, asking for the half holiday. Paul Quinn acted as spokesman.

The contract for coal for the ferry was awarded to the Dominion Coal Co. at \$1.28 per ton. This, Mr. Bullock said, was 15 cents a ton more than was paid last year.

Commissioner Bullock recommended that \$76.42 be paid to Capt. A. Norwood, to make up his full pay for time lost through an accident sustained while on duty. After some discussion the Commission changed his motion to read a special allowance of \$75, on account of time lost, and this carried.

Compensation Comment. During the debate Commissioners Bullock and Wigmore expressed the opinion that they would be better off with the Workmen's Compensation Board, but Commissioner Prink said he found it the other way.

Commissioner Bullock presented a recommendation of the city engineer and road engineer that a new bulkhead be built at the head of the Queen slip, about 12 feet farther out and filled in. This bulkhead would be 60 feet long, 18 feet high and 12 feet deep. The recommendation was laid over for further information as to the ownership of the slip.

A recommendation that tenders be called for a new bulkhead at the head of the public slip, Indian town, the structure to be 100 feet long, 10 feet wide and 12 feet deep, was presented by Commissioner Bullock and adopted.

Mayor Fisher asked who the engineer had not stated the necessity for this work in his report, and was assured by Commissioners Bullock, Wigmore and Thornton that the work was necessary.

John MacDonald Is Sent Up For Trial

Sydney, N. S., July 30.—John MacDonald of Toronto, prominent member of the Workers' Party of Canada, known in labor circles as "Moscow Jack," was this morning committed for trial at the next session of the Supreme Court, on a charge of seditious utterances. MacDonald is alleged to have used words "they come with their damnable flag and take you"

WHITE HOUSE FLOWERS

President and Mrs. Harding found time during their short visit in Tacoma, Wash., to greet suffering men in the veterans hospital. No former soldier was more proud of the flowers he received from the visitors than Chauncey Mays, formerly of the 49th Field Artillery, who won a special word of sympathy from the "First Lady."

TELL OF AUTO RIDE AND DRINKING

(Continued from page 2)

Moore's Story. John Edward Moore said that he had joined the party at Cooper's Corner. He said the bottle of liquor they bought was like the one produced in court and that they had paid \$8.50 for it. He did not know the name of the drug store where they had procured the liquor. He insisted that Crawford had blown his horn for Exmouth street and Brunswick street. He had seen a man step directly in front of the right hand headlight. He had seemed to jump clear of the headlight and then slipped and fell. He heard Miss Vialto tell Crawford that he had hit a man but he had told Crawford that he did not think the car ever touched the man and he felt no shock. At Haymarket square Crawford had asked him to take the car but he would not. Crawford had appeared nervous. Crawford started to drive him home to Egbert street by way of the March Road, when a policeman had overhauled them by the N. B. Car Exchange. This was a more roundabout way to go home but they always went that way. He had been ill in the car.

ORNAMENTAL LIGHTS ASKED FOR

There was considerable discussion at the meeting of the council this morning on the matter of ornamental street lighting for the city during which it was suggested that streets pay one half the cost.

Mayor Fisher said residents of Waterloo street asked for a hearing.

Commissioner Bullock said he understood the members of the Germain street Improvement Association were considering offering to bear half the expense of ornamental poles.

Commissioner Thornton thought they had better wait until the new street lights were installed and then perhaps there would be the demand for ornamental poles as the new lights, he understood, were very nice.

The rain of Saturday interfered with the progress of the ornamental lighting system, it was said at the office of the Civic Power Commission this morning and it was hardly likely another section would be linked up tonight. It was hoped, however, to have the entire three sections connected and in operation by the middle of the week.

Some British Empire Forestry Conference delegates, including many foresters from all parts of the British Empire, were in Campbellton, N. B., this morning; others were salmon fishing on the Restigouche. This afternoon and tonight will be spent in Bathurst, Tuesday in Chatham. At 11 o'clock on Tuesday night the party will leave Chatham for St. John. A motor trip to Salmon River will be made, and the party entertained to luncheon by the Pejeapet Company. The afternoon and evening of Wednesday will be spent in St. John, and the party will be accompanied by the delegates at the Union Club at seven o'clock on Wednesday evening.

Dusseldorf, July 30.—The much heralded communistic demonstration against what is called the German Fascist, proved complete failure yesterday, according to reports reaching here. The day apparently was one of the most uneventful Sundays in many weeks, as far as indicated by reports from Cologne, where the demonstrators were, rather, lack of reports—reaching French headquarters.

Colonge, July 30.—British troops interfered here yesterday in the only "anti-Fascist" day, disturbances reported throughout the Rhineland and the Ruhr. The military clashed with German civilians on a street and one citizen was wounded and three arrested.

Word has been received here of the death of Albert J. Gross, a former superintendent of railway mail service in St. John, well and favorably known throughout the province. His death occurred in Hillsboro, Albert county, on Saturday night at the age of sixty-eight. He entered the railway mail service in 1876, was appointed superintendent in 1908, and superannuated in 1918. Since his superannuation he had spent his summers in Hillsboro and his winters in Florida. His wife died some years ago. He leaves one brother, Howard, formerly of Moncton but now of the U. S. A. step-daughter also survives. Mr. Gross' many friends will learn with regret of his death.

SPARROW-MARTEN WAR FOR TENACITY

Toronto Builds Home For Mosquito-eaters and Then the Fight Begins

Toronto, July 29.—"Apartments for martens," is the latest slogan of the Toronto Parks department. Martens have a voracious appetite for mosquitoes—hence the department's thoughtfulness. Already one large birdhouse, with all modern conveniences, has been installed at Withrow Park, and others are in preparation for erection at Reservoir Park and Centre Island.

But in seeking to provide housing for the enemy of the mosquito, officials reckoned without the ubiquitous sparrow. Scarce had the Withrow edifice been opened for business when squatters' rights were taken out by a flock of chattering sparrows.

The martens, renounced and abandoned, after mobilizing in force, accomplished an eviction, only to suffer a like fate as the result of a subsequent counter-attack. The uninvited guests are again in possession. The ball is now expected.

The collection of playing cards is a hobby with Queen Mother Maria Christina of Spain, she already having in her collection rare cards of Arabian, Egyptian, French and Spanish manufacture.

A GREAT TIME FOR RIFLEMEN AT PORT ELGIN Three Days at Target and Traps on August 1, 2 and 3.

Lovers of the gun will be interested to learn of the Maritime Trapshooting Association's annual tournament which will take place at Port Elgin on August 1, 2, and 3, three days of sport and competition for the magnificent silver and bronze trophies that are offered each year, besides many other prizes.

This meet, which took place in 1922 in Halifax, is one looked forward to by all sportsmen who delight in the open and the whirr of wings. The association has for one of its objects the preservation of game and the observance of game laws and regulations. All those who participate in the tournaments are ever sportsmen who enjoy the camp fire, the pipe and the stories.

Contentants can shoot for targets alone and not participate in the target shooting for targets were not debar one from winning trophies. One need not be a member of a gun club. If one never attempted to shoot at a clay target it makes no difference. There is an invitation to go and meet the brother sportsmen from all points of the Maritime Provinces. Those going are asked to write the secretary of the Port Elgin Gun Club and get regulations.

IMPERIAL MAE MURRAY'S LATEST SENSATION "JAZZ MANIA" READ HOW IT AFFECTS YOU: Speaking of being democratic, there's no greater antidote for snobbishness than jazz. As a leveling instrument, the scythe of the so-called grim reaper has nothing on a saxophone. No one is immune from the ravages of syncopation. Take even Queen Nippon, of the monarchy of Jazmania. If you don't know where that is, don't try a map. European geography is as shifty these days as the pea in a shell game. At any rate, Queen Nippon changed the name of her country from Jazmania to Jazmania, and the details of how this came about constitute the story of Mae Murray's latest and most gorgeous photoplay. She is Queen Nippon and the title of her picture is "Jazzmania," and after you've seen it you'll announce to the universe that it is the stupidiest, poppiest, most pulse-quickening and eye-filling strip of celluloid ever enlarged on a screen.

Veterans Are Behind Williams' Application

Strongly Endorse Him as Next Police Court Clerk.

Tell of His War Record and Qualifications; Ask for Appointment Soon.

The following sketch of Ervin E. Williams, B.C.L., an applicant for the position of clerk of Police Court, made vacant by the resignation of the Hon. George A. Henderson, has been submitted by the secretary of the G. W. V. A. Alex I. Macnam, with the request that it be published in view of the assistance having been rendered Mr. Williams' application for the position.

Ervin E. Williams, B.C.L., the returned soldier who is an applicant for appointment to the position of Clerk of the Police Court is a native St. John boy having been born in this city August 1886, son of William L. Williams, who was well known as a merchant for many years. He attended the public schools of this city, leaving High School in January 1916, his graduation year to enlist with the 118th Bn. C. E. F., with which unit he went overseas. In England he was transferred to the 24th Bn. Victoria Rifles of Montreal, with which unit he was serving in France, when wounded at Neuville, Ypres, on the Vimy front, in February, 1917. As a result of the wounds received in this engagement it was found necessary to amputate his right leg just below the hip. This operation was performed at the Casualty Clearing Station in France. As a result of this and eight other serious wounds it was not until late in November, 1917 that he had convalesced sufficiently to be invalided back to Canada. He returned to St. John early in December and was sent to hospital in Toronto for further treatment, and was finally discharged from active service in June 1919. He immediately commenced his studies as a student-at-law, receiving his degree as a Bachelor of Civil Law from Kings College at Windsor, N. S., in May 1922. He was admitted as an Attorney-at-Law in June of the same year and was called to the New Brunswick Bar in June 1923. He is now practicing law in his native city.

He is unmarried, a religious persuasion a Roman Catholic. He is a member of Barristers' Society, Knights of Columbus and the Great War Veterans' Association, of which he is assistant provincial secretary. He is deservedly popular among both members of the legal profession and his former comrades-in-arms. He is an applicant for the position of clerk of the Police Court in and for this city which has been left vacant by the recent elevation of George A. Henderson to the magistracy's bench. His application, both because of his qualifications and meritorious record of overseas active service during the recent war, has the official endorsement and whole-hearted support of the Great War Veterans' Association and all returned soldiers, as well as the large majority of the citizens in general. His application will have the support pecuniarily of those of the community from whose families went the boys who made similar and even greater sacrifices for their country.

Mr. Williams' many friends and supporters feel that the question of this appointment should be dealt with by the Common Council as expeditiously as possible and that in accordance with the council's stated policy of consideration for ex-service men his appointment to this position should be made in the very near future.

BEATS THE MAINE COIN. In Saturday's Times there appeared an item announcing that a rusty coin found at Beaton, Maine, bore an excellent likeness of King Charles III of Spain and was dated 1717. The coin was found in a garden and was described as about the size of an American half-dollar. One who beat this was shown to a reporter for The Times this morning by William McGonagle, in the employ of John Frosham, Mr. McGonagle's coin bears the inscription: "CAROLUS III, 1773, DEI GRATIA, HISPAN ET IND. RES. 2 R. L. R." It came from the mint four years before the one in Maine. The inscription on it is very clear yet.

FIVE WHO IMBIBED. Five men, charged with drunkenness, are before Magistrate Henderson this morning in the Police Court, and were fined the usual \$8 or two months in jail.

As Hiram Sees It

"Well, str," said Mr. Hiram Hornbeam to The Times reporter, "we had one o' them, there clinics out to the Settlement, an' Hanner says we got to hev a public health muss, an' a lot more lookin' after the mothers an' the kids an' the folks generally. She haint been so took up with anything fer a long spell. It's a good thing, too. I kin take you to buryin' grounds where four or five out of a family was laid away in one season through some disease they never orto hev. I guess a lot of these here fellers that's always holerin' about how well everybody was an' how long everybody lived afore we had any health laws aint never took a census of the short graves in the buryin' grounds. I used to kick some about the taxes—but I got over that. I guess Hanner had a good 'eal to do with it—specially sence she got to know all about that there Red Cross an' got workin' fer it. I'll tell you one thing them clinics is doin'. They're wakin' youngsters needs to hev somethin' done fer 'em in one place they jist naterally begin to think about their own neighborhood—an' if they orto get busy—too. If we can't make it so's kids won't get these here troubles we orto help 'em get clear of 'em afore they grow up—yea, sice."

LOCAL NEWS

CARLETON PAVING. A start on the paving of King street, West, from Market Place to Ludlow street, was made this morning. The suit of the street will be done first in order to allow room for traffic while the work is in progress.

CROPS ALONG THE RIVER. The farmers along the St. John valley wanted rain, but now they would be thankful for some good hay weather, as the rain of the last week has given the other crops the needed moisture and the hay needs to be cut in the sun, vary as to the hay crop. Some farmers say they have more than last year and others report reduced cut. The potato crop promises fairly well.

A CLOSE CALL. A woman had a narrow escape from serious injury or death this morning in Main street at 8:35. She came out of a store with her arms full of parcels and, without looking to right or left, started across the street. A street car was coming down the grade and only for the quick action of the motorman in applying his brakes saved the woman. Bystanders said that she owed her escape to his cool-headed action.

ABLE TO RETURN HOME. Gerald M. Hoyt, of the traveling staff of W. H. Thorne Ltd., who has been ill in the city for more than a week, returned to his home in Bridgetown, N. S., this morning accompanied by his mother. The young man came back after blood poisoning as a result of an injury to the leg while playing tennis in Bridgetown about a fortnight ago and was forced to come to the city for treatment. Though still an invalid Mr. Hoyt's physicians permitted his traveling today.

BALL TEAM ENTERTAINED. Members of St. Peter's baseball team and their friends were guests of Mr. and Mrs. Louis King at their summer home at Fair Vale, over the week-end. The house and dancing pavilion, has been artistically decorated with the colors of the club, green and white, and also with Chinese lanterns, various colored balloons, ferns and cut flowers and presented an attractive and interesting scene. The evening was outting and hearty thanks were extended to the host and hostess.

ROSSLIEY KIDDIES RETURN. The Rossley Kiddies, who have been away three weeks, were guests of Mr. and Mrs. Louis King at their summer home at Fair Vale, over the week-end. The children had been far out of the city before and besides being a vacation trip for them, must certainly have broadened their views on Canada and things Canadian. Mrs. Rossley with several adult aides had careful watch-care of the children constantly during their absence from home.

MAY NOT HAVE CERTIFIED MILK. A prominent milk dealer said this forenoon that so far as he knew at present none of the local dealers were attempting to supply certified milk as prescribed by the Board of Health regulations. He said it was felt the demands were too far-reaching and exacting and that dealers would be put to great pains and expense in putting such quality of milk on the market. This was the dealer's personal opinion and the reports that had come to his ears. It looked as if the supply would remain as at present.

REMEMBER WHEN—

General Booth and Miss Eva Booth, of Salvation Army visited St. John on Tuesday, August 8, 1896, addressing large crowds at Centenary Church.

On January 19, 1898, some St. John ladies wearing seal skin sacques were obliged to return home from McAdam Jet, they not being allowed to enter the United States unless their furs were seized.

William Breen of St. John beat Duffey of Houston, Me., in three mile race in Moncton risk for \$25 on Saturday, January 25, 1898.

The Apple Woman at The Foot of King St.

Talking of old times, Do you remember The Apple Woman At the foot Of King street — Right there by the Western Union corner? The tall crouched figure Sitting on the wee stool In front of the store Her Table, laden with Shiny apples, little Bunches of cherries In season and Pieces of coconut Floating in a pan. Also the Penny candy-goods. 'Member the arguments We used to give the Old soul over the Size of the apples she Proffered for our copper And the wrangles about The number of Cherries in the String-tied cluster? Ah, those were good Old times, eh?—Nowadays An apple fit to eat is A nickel at least And Nova Scotia cherries Or where, or where Are they? Yes, I can see that Broad-brimmed black straw Hat of the Apple Woman Now And think myself back In the scurrying Whims of newsboys Hollering:— "Glo-o-be" or "Giz-ette." W. H. G.

RETIRE WITH HIGHER RANK

Lieut. Colonelcy for J. S. Frost is Announced Today.

Officer of Militia Who Has Had Excellent Record of 49 Years' Service.

43 Years in Service

Lt. Col. J. S. Frost.

Many friends will be interested to learn that Major J. S. Frost has resigned from active service in the militia. He was in command of the 2nd Battalion and Halifax returned on the morning train today from the latter city. He was in command of the 2nd Battalion and Halifax returned on the morning train today from the latter city. He was in command of the 2nd Battalion and Halifax returned on the morning train today from the latter city.

During the war, when the senior officers of the 62nd were overseas he was placed in command of the battalion. When an attempt was made to blow up the international bridge at St. Croix he organized a guard for docks and military buildings in St. John. At this time "C" Company of the Special Service Regiment was also under his command. Later he enlisted and trained the 62nd overseas draft. After the Military Service Act was put in force he was transferred to Moncton and was in charge of that office for several months. On the reorganization of the 62nd after the termination of the war he transferred to the regimental reserve.

Lt.-Col. and Mrs. Frost will leave tonight to attend the matches of the New Brunswick Rifle Association. His retirement Lt.-Col. Frost will take with him the best wishes of a host of friends both in military circles and private life.
