FARMERS HAVE CLEAR MAJORITY IN ALBERTA HOUSE

Latest Returns Show Thirty-six Elected.

Liberals Fifteen, Labor and Independents Four Each, and Conservatives None—Details of the Voting—Some Comment.

Calgary, July 19.—(Canadian Press)—The farmers have swept Alberta. At ten o'clock last night it was apparent that nominees endorsed officially by the U. F. A. had been elected last night 36 out of the 61 seats in the legislature of the province. This demonstration of their strength in favor of the Liberal government, headed by Hon. Charles Stewart.

The Liberal group in the next house will number not more than fifteen and perhaps less. Labor elected four and these can be added to the Liberal vote. The strength of the forthcoming farmer administration. Four independents also made their way to the legislature including "Bob" Edwards, editor of the Calgary Eye Opener, who ran second in Calgary.

No Straight Conservative. No straight Conservative was elected. General G. S. Stewart, the winner in Lethbridge, is described as an independent-Conservative.

Premier Stewart has six colleagues in his cabinet. Three of them were defeated by U. F. A. candidates and three were elected. Hon. Duncan Marshall went down in Olds; Hon. A. McLean in Taber and Hon. George Smith in Camrose; Hon. J. B. Boyle, attorney general, was elected in Edmonton, but defeated a farmer in Sturgeon. Hon. J. L. Cole won his fight in Grouard and Hon. C. R. Mitchell in Bow Valley.

H. W. Wood, president of the U. F. A., but he worked actively during the campaign on behalf of the farmers. G. Headley, a former member of the provincial legislature, who accepted a farmer nomination in Okotoks, was elected. Hon. C. S. Pringle, speaker of the last legislature, was defeated in Redcliff.

Two women were elected out of eight nominees. Mrs. Nellie McClung, well known writer, went in with the government ticket in Edmonton and Mrs. Walter Peartley, a member of the last legislature, was returned for Lacombe. Edmonton returned five Liberal candidates in a field of 26. Calgary split its vote, sending back two Labor men, two Independents and one Liberal.

Medicine Hat elected a United Farmer and a Labor candidate who ran on a joint ticket against two Liberals. With thirty-six members the farmers will have two more members in the next legislature than the Liberals had in the last house.

It is a fact of note that only twelve members elected held office in the old legislature and only seven Liberals out of thirty-four former members are returned, though not all of them were candidates. These seven are Premier Stewart, Hon. Messrs. Boyle, Mitchell and Cole, and Messrs. Walker, Tobin and Mills. Two U. F. A. men, Moore and Headley, sat in the last house, though Headley was there as a Conservative.

General Stewart and Messrs. Ross and Headley were the only members of the U. F. A. who declined to make any statement concerning their attitude to the question of membership. It is expected that a conference of farmers elect will be called at an early date to settle the political leadership so that the seats of government may be transferred and the expressed will of the people put into effect without delay.

FALLS FROM HIGH WINDOW TO DEATH

Montreal, July 19.—Henry Lacroix, sixty-three, caretaker of the Convent of the Sisters of the Congregation of Notre Dame, was almost instantly killed yesterday when he fell from a third story window of the convent. He suffered a fractured skull. He had been cleaning the window and lost his balance.

MORE NAMES IN CITY DIRECTORY

Population of City Estimated at 67,050, as Compared with 64,805 Last Year.

The new St. John directory, which was being distributed today by publishers, The McAlpine Directory Co., contains 22,800 names, an increase of 918 over the figures for 1922. This gives the city population of 67,050. The usual method of directory publishers of multiplying by three, as 67,050, the estimated population in last year's issue was 64,805. The new volume contains 1,100 corrections.

POLICE COURT

Simon Gueter, charged with being a member of a disorderly crowd in Haymarket square on July 10 was again remanded. L. McE. Ritchie, counsel for the accused, said his client would change his plea to that of guilty and in view of the youth of the accused, it seemed hardly fair, he said, that the accused, who was only twenty-one, should be sent to jail to bear the brunt of the trouble. He had employment and could return to it and therefore asked the magistrate to dispose of the case quickly so that he might return as soon as possible to his work. The magistrate said that he would take some action in the next three days after he had found out some more particulars concerning the accused and his record. He was not disposed to allow him to go free at the present time until he had satisfied himself as to some of the details in connection with the case.

Samuel Taylor was charged in the police court this morning with being drunk and using profane language. He pleaded not guilty to both charges. Hon. C. S. Pringle made the arrest, said that he found the accused last evening at the corner of King and Charlotte streets, where he was drinking and using profane language. One man charged with drunkenness was remanded. Henry Brittain was again brought up on the charge of stealing a pair of boots and again remanded.

TO K. C. SUPREME COUNCIL

Dr. W. F. Broderick will leave for St. John to attend the 39th annual convention of the Supreme Council of the Knights of Columbus. E. C. Hanrahan, of Sydney, C. B., will accompany him. They will join the Knights from Connecticut at Chicago and will travel the remainder of the journey in the delegates' special car. There will be more than 400 delegates present at this conference, the first to be held in St. John. W. J. Mahoney is also going to the convention but will not leave for a day or two.

MONTEAL STOCK EXCHANGE

Montreal, July 19.—During the first half hour this morning the local exchange experienced the dullist session of the month, only two of the principal issues putting in an appearance. Brazilian was weaker by a point at 26, as was also Klondike at 18.

EXCHANGE TODAY

New York, July 19.—Sterling exchange easy. Demand, 329 1/2 cables, 358. Canadian dollars, 11 1/2-16 per cent. discount.

Bookbinders Return to Work

Ottawa, July 19.—The strike of bookbinders in job printing offices here has collapsed and men are returning to work. The strike had lasted for 48 hours. The typographical men and pressmen are still out.

of the Canadian Press, was very tired after the strenuous campaign and was not prepared to make a statement. He said it was doubtful of the Liberals would have more than sixteen seats in the next house. "It was my intention to continue in office," he said, "until such time as the United Farmers are ready to take office in an appearance. I have presumed the same course would be followed as in Ontario two years when the Hebert government continued in office. The Stewart government was in office when the farmers had chosen a leader and he was recommended to the lieutenant governor. It was his purpose, Premier Stewart said, to turn over the government as soon as it was known who the leader would be and the crown had indicated readiness to act. He would then make a formal statement.

Views of Editors

Calgary, July 19.—Commenting on the election, the Calgary Alberta says editorially: "The Stewart government was not overturned by an irate electorate which had lost confidence in the administration, but a friendly group with different ideals of government and perhaps more progressive plans for administration. The paper does not share the belief that this means anything like disaster to the province, but regrets that more men of experience and training are not elected to the legislature.

RECRUITS' DAY IN BIG LEAGUES

Four-hit Game for Pitcher on First Trial.

Another Makes Second Homer in Two Days—Ruth Brings Number to 36 With Long One—Late Sport News.

New York, July 19.—The feat of pitching a four-hit game in his first appearance in the major league was virtually performed yesterday by Peter Donohue, a Cincinnati National recruit. Donohue held Philadelphia for six scattered hits in 2-3 innings, after which the Phillies had batted Manhattan out of the box. Another recruit to step in the line-up was Catcher Peters of the Phillies, who made his second homer in two successive games. He won the game with his first home run, but yesterday it made little difference, as the Reds had a large lead.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornbourn, "I suppose you have not got the usual story about the 'royal'?" "They fell a basin of milk," said the reporter, "and tried to jump out. One got up at last, but was wounded. The other kept on kicking until he chucked the milk into butter and had something to stand on."

HON. MR. MEIGHEN IN LONDON AGAIN

Is Rushing Work to Leave Thursday for Home.

London, July 19.—(By Grattan O'Leary, staff correspondent of the Canadian Press.)—Back from Scotland, Mr. Meighen has conferred upon him the freedom of the city of Edinburgh and the degree of doctor of laws, from Edinburgh University. Hon. Arthur Meighen, premier of Canada, today plunged into the final work of the conference of premiers in an effort to check the Empire of Britain, which calls for Canada on Thursday.

In an address in Scotland, after an eloquent tribute to the Scots as a race, he re-affirmed the principles and policies which he laid down at the conference, and today the Manchester Guardian, leading organ of British Liberalism, says: "Mr. Arthur Meighen, who the other day received the freedom of the city of Edinburgh and by her university, Mr. Meighen is in the authentic line of British unity, with firm insistence on the right of the dominions to develop on their own and diverse lines."

The following real estate transfers have been recorded: S. Creighton to Fernhill Cemetery Company, property in Simons. D. M. Hamm to W. McInnis and others, property in Simons. Gertrude M. Good to W. P. McDonald, property in Simons. H. C. Perry to H. M. the King, property in Lancaster. J. M. Smith to William Pugsley, property at Salt Springs.

KNIFE IN HEART, BOY RECOVERING

New York, July 19.—Frank Farpino, 16, of Brooklyn, is recovering though his heart was pierced with a knife and promptly sewed up. The boy was working in a factory when a 17-inch knife with which he was cutting rope slipped. The blade entered his chest, piercing the heart covering and cutting through the heart muscles. He was whisked to a hospital where surgeons opened his chest wall, put four stitches in the heart and threw the covering.

SEEK LOWER OCEAN FREIGHTS

Montreal Importers Present Request—Matter of Ad Valorem Schedule.

Montreal, July 19.—Local importers are urging the Transatlantic shipping companies doing business with Canadian ports to take up the question of reducing ocean freight rates. Modification of the ad valorem schedule which applies to goods specially liable to breakage or loss by theft, is particularly requested. Importers say that the present freight rates from the Atlantic tend to limit business with Great Britain and increase imports from the U. S. despite the unfavorable rate of exchange.

LOCAL BASEBALL

The North End Ramblers wish to challenge the Shamrocks and the South End Imperials to games on the Shamrock grounds, the game with the Shamrocks to be played on Thursday evening and the game with the Imperials on Monday evening.

The Duke Street Stars accept the challenge of the Beavers, for a game to be played on the Rockwood Park diamond tonight.

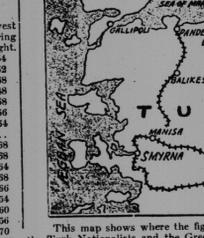

The challenge of the Royal Canadian Mounted Police to a football game has been accepted by the Central Athletic Club. This game will be played and the receipts will be donated to the Bellevue fund. If suitable grounds can be secured, here is another chance to help the good work along. Somebody will surely offer the use of grounds suitable for the game.

The Mounties also have a fast ball team with the exception of a first baseman and shortstop. They will be glad to have players volunteer for these positions and they should not be hard to fill as St. John players will doubtless be only too pleased to play with a body of men such as the Mounties. They also wish to challenge the Young Rocklands to a game of baseball to be played on Thursday evening at 7:30 on the East End diamond. They also issue a challenge to the Young Larks to a game on Friday evening at 7:15 on the Rockwood Park diamond.

PREDICTS THAT RUSSIA WILL BE MUCH WORSE

Montreal, July 19.—John C. Dunlop, B. Sc., a civil engineer here on his way to England, was in Russia during the war. He said last night that he went to school in Odessa with Trotsky, whose real name, he said, was Leon Bronstein. His view was that it will be generations before Russia recovers and that things will be much worse. He predicts that cannibalism or something like it will break out in Russia before long.

STILL HOPE, BUT SNAG STRUCK IN IRISH MATTER

Statement of Ulster Leader Much Discussed.

Referred to as a "Disagreeable Shock"—Talk of Possible Failure of Negotiations and of Issue Submitted to British Vote.

London, July 19.—Irish negotiations appear to have reached a deadlock in so far as they concern a tripartite conference between Lloyd George, Eamon De Valera, Irish Republican leader, and Sir James Craig, premier of Ulster. This developed late last night when Sir James, as he left for Belfast, issued a statement on the subject of "self-determination," which was interpreted to mean that he will not compromise on any matter pertaining to Ulster's political rights.

While the statement has made a deep impression upon political circles, in many quarters it is not accepted as a difficult matter, and that the negotiations for such a conference are not yet ended.

The Ulster premier's statement said that he was "returning home well satisfied with the efforts being made towards peace," and that Mr. De Valera "has broken his silence and cleared the ground by his statement to the press that he proposes to found his claim on recognition of the right of self-determination."

It is from these concluding paragraphs that the Premier's statement is referred to as a disagreeable shock, which brings matters to a critical stage and causes a very momentous decision to be referred to an all Irish parliament sitting at Dublin, while the Ulster leaders are equally determined that Ulster parliament be subordinate only to Great Britain.

Several of this morning's papers assert that if this attitude is resisted in all negotiations must break down, while others advance the belief that if the present conference fails, parliament may be dissolved and the issue submitted to the British people in a general election.

La Belfast

Belfast, July 19.—The return of Sir James Craig, Ulster premier, and the members of his cabinet who have been with him in London in connection with the Irish peace movement, must be taken as a rupture of the negotiations, it was declared today by Colonel Spencer, secretary of the delegation on arrival here. It is thought, indeed, that the delegation will be recalled to London next week. None of the cabinet members should have anything to say for publication.

Eamon De Valera is regarded by the Ulster Unionists as a visionary and the feeling in Unionist circles here is that no discussions among all the parties concerned in the Irish settlement will be possible until he considerably modifies his position.

When Sir James Craig saw the recent public statement in Dublin by Sir James Craig, Ulster premier, and the members of his cabinet who have been with him in London in connection with the Irish peace movement, must be taken as a rupture of the negotiations, it was declared today by Colonel Spencer, secretary of the delegation on arrival here. THAT PUBLIC MEETING.

Major Schofield has postponed the meeting on harbor commission because it was not sufficiently advertised and because only one speaker had indicated a desire to address the meeting.

Who is at fault, if not the city council, for lack of advertising? And why should there be a lack of speakers when the mayor and commissioners have not as yet taken the platform to explain the harbor commission act?

That is what the people want. They do not care a hoot about somebody's opinion of harbor commission in Montreal or elsewhere. They want the mayor and his colleagues, with the harbor commission act in their hands and that alone as a text, to tell exactly what it means; what it will do and will not do; what various changes the revenue of the harbor under commission would have to bear; how these would compare with present charges; what the harbor surplus has been for a period of years; what the real condition of the wharves is as shown by an expert engineering report; how much money would be required to spend in the next few years, and what for; how the work would have to be financed under the harbor commission act; and how many millions of past expenditure by the government the harbor revenue would have to provide interest on; what the cost of administration under commission would be; how the act would affect river traffic, and what powers the commission would have apart from approval of the government at Ottawa.

The mayor and commissioners have not yet given this information. It is known that Commissioner Thornton does not like the present act. Commissioner Frink has declined to say whether he is for or against it. This leaves the discussion to the mayor and Commissioner Bullock and Jones. The citizens want to hear them explain the act. If the act is adopted it leaves the city powerless to make any further appeal to Ottawa, for everything will then rest with the commission and the government of the day, and the government will be able to say—

"You voted for the act, and the act settles it—what are you kicking about?" But if the members of the city council will not discuss the act, meetings should be called by others for that purpose.

There is another matter which should be very fully discussed. An effort is being made to frighten the people by the taxation body. The wharves are said to be in a wretched condition. They are not. Engineers have not said so. The revenue of the harbor will take care of repairs, and there is absolutely no ground for fear on that score. If the people will keep to the facts, and to the truth about the harbor commission act, they will bury that document and call for a square deal.

GET BACK TO THE ACT. In the public notice published in the press over the name of Mayor Schofield the following paragraph appears:

"The said harbor commissioners are authorized to borrow money and issue debentures to provide for the purchasing, constructing, extending and improving wharves, dry-docks, elevators, warehouses, railways, bridges and other accommodations and structures in the harbor, the principal and interest of the money so borrowed to be repaid out of the revenue arising out of the rates and penalties imposed by the said harbor commission act."

This paragraph is misleading in the most important particular. While it makes clear that the cost of all improvements would be a burden on the harbor revenue, it does not say that the harbor commission must get the approval of the government before it does anything. But the Act reads:

"The corporation may, with the approval of the governor-in-council (at Ottawa) do the things the paragraph refers to. This is very different from saying that the commissioners "are authorized." They are not. They must refer even their by-laws to Ottawa, for the act says: "No by-law shall have force or effect until confirmed by the governor-in-council and published in the Canada Gazette."

Will the citizens endeavor to get the facts clearly in their minds? Some of them appear to think the harbor commission will have full authority and go right ahead to develop the harbor. It can do nothing of the sort.

But there is a much more serious aspect of the case. Suppose the harbor commission act, which throws the whole

LIGHTER VEIN.

Some men were sitting in a village inn yarning on various experiences. One of them had just concluded telling how he had killed a great South African lion with a revolver.

"That's nothing," said another man, rising from his seat. "Why, when I was in South Africa, walking through the jungle, I saw a great lion, but I had no revolver to shoot it with."

"What happened?" asked the startled crowd. "Why, I simply took out my pocket knife and cut off its head!"

"What!" exclaimed the man who had first named "Cut off the head of a lion with an ordinary pocket knife! Fiddlesticks, sir—fiddlesticks!"

"Indeed, did you?" answered the second speaker. "But perhaps I ought to say it was a dandelion."

He was the meekest of the meek. He was so very small and so very mild. "You'll find me quite easy to please," he said to a landlady, where he had applied for a room.

"Ah, that's what they all say," replied the landlady. "Feller comes here last week. I ain't perticker, see he. No, he wasn't. 'Paps,' he said to me, 'I'm sorry. First, he objected to sleep in a room with four others. Then when I giv' 'em a bed to himself he said, 'I'm sorry, I'm sorry. Then he complained of the low—the same towel all the other visitors had written a nasty note. Well, now, are you goin' to be as perticker as all that?'"

"Perhaps, after all," murmured the meek applicant, "I'd better not risk it."

"You said you would be home at eleven, and here I have been keeping awake these last two hours waiting for you to come in!"

The delinquent husband leaped against the wall and prepared to remove his shoes. "And if?" he said sorrowfully. "I have been waiting outside for these last two hours so you'd go to sleep."

Slight Difference. Little Robert lived in the country and had never seen a sailor.

"Paps," he said one day, "sailors must be awfully small men."

"Why do you think so?" asked the father.

"Because," answered Robert, "I read in the paper about one who went to sleep on his watch."—Detroit Free Press.

MILLION LOSS, '12 EXPLOSIONS. People of New Jersey and Staten Island Have a Night of Anxiety.

Linden, N. J., July 19.—Fire that did one million dollars damage to the Warner Quilton asphalt plant here was under control today after thousands of residents at nearby points in New Jersey and Staten Island had spent a night of anxiety lest the flames spread. Their fears were increased by flames mounting high during the night and by explosions that were heard at Arlington and Staten Island Sound to save shipping menaced at times by burning oil that flowed on the sound and the Rahway river.

Navigation was stopped over a radius of a mile from the local danger point. Some of the fifty U. S. shipping board vessels tied up at Arlington had steam up ready to dash for safety.

Linden, N. J., July 19.—The loss from fire which destroyed 83 of the 34 oil tanks and fifteen asphalt stills here was estimated at \$1,000,000 today.

In addition to the tanks and stills the entire plant was ruined with the exception of several main structures. Three hundred thousand barrels of oil were burned.

While the fire was under control, firemen estimated that some of the oil might continue to burn for days.

Ottawa, July 19.—Bulging hip pockets and suspicious looking parcels coming into Ottawa from Hull are likely to be inspected by the city police mortuary squad. A special lookout will be stationed at the Greyhound station by the city police and by provincial temperance inspector Howard Graham.

A water patrol may be formed by the provincial authorities to prevent smuggling liquor into the province by boats. In the meantime, ferry crossings and boat houses will be kept under observation.

SEES NO TROUBLE IN MARKETING THE GRAIN CROP. Ottawa, July 19.—(Canadian Press)—Dr. McGill, secretary of the Winnipeg Grain Exchange, who was here yesterday, is of the opinion that there will be no difficulty in marketing the western wheat crop despite the United States tariff. He intimated that English buyers are already in the market for vast quantities of Canadian grain and that the U. S. will have to buy large quantities in any event. Indications at present are for a banner crop.

CAPTAIN BELVEA'S SON TELLS TALE OF FATAL COLLISION

The New York Times, reporting the collision of the schooner E. Marie Brown and the steamer Harmodius off Fire Island, in which Capt. B. W. Belyea, formerly of St. John, and three of his crew were drowned, tells of the rescue of the captain's son, Howard Belyea, and two Norwegian seamen, and says they were saved in a lifeboat lowered from the steamer and taken to New York.

The Times story continues: The younger Belyea, deck engineer on the schooner, said that the weather was clear and the vessel about thirty miles southeast of Fire Island when the steamer was sighted coming head on.

"It was a peculiar accident," he said, "and difficult to explain, because everything occurred so quickly.

"I was standing by the galley at the time and heard my father give the order to the man at the wheel to starboard the helm, and he obeyed.

The steamer was supposed to go to starboard at the same time to avoid our colliding with each other. There was not much wind at the time and the schooner might not have shifted her course as quickly as she was expected to do.

The next thing I remember was seeing the steel bow of the Harmodius crash right into the port side of our vessel just before the beam and make a big hole through which the water poured in tons.

We had a big cargo of coal which put the Marie Brown down deep and she went under by the head in less than three minutes. Before the boat from the steamer could reach us my father, the cook and two Norwegian sailors were drowned.

CRUEL GUIDE RUSHES WOMEN FROM HOUSE

Washington, July 19.—Led by an official Capitol guide—who taxed them twenty-five cents a head—nearly one hundred women from different parts of the country swarmed into the house galleries during the tariff debate and saw what they had hoped to see—a woman member in action.

Just after they sat down, Miss Alice Robertson of Oklahoma, the only woman representative, arose. Her voice does not carry far, and the women spectators, thrilled as the old-time crowds were when Joe Cannon was in action, leaped forward, cupped their ears and tried to listen.

Miss Robertson had not concluded all of her five-minute appeal for free hides, however, when the guide, uttering a shrill signal, led the crowd away. They had to go or else hire another guide for the rest of the racing trip through the corridors and to the senate gallery.

MAID FIRED HER NEW YORK, July 19.—Cora Spaulding, thirty-three years old, a negro, of 160 West 122nd street, who said she was employed as a maid for an actress in "The Follies," was fined \$25 by Magistrate Frederick House in Traffic Court for speeding and operating her large seven-passenger eight-cylinder touring car without a license. She said she had no idea that she was speeding, adding that she very seldom operated her own car.

"And who usually runs it?" asked the court. "My chauffeur, of course," returned the maid. "I fired the last one two days ago. I found out that when I wasn't using the car he took it to the beach and entertained his friends, so I gave him the sack. But it's really so hard to find a good chauffeur that I've decided to learn to drive the car myself."

GUilty of KISSING HIS OWN WIFE

A public bathing beach is no place for a husband to hug and kiss his wife, Recorder Alfred Innes of North Bergen, N. J., ruled when he found Matthew Marquard and his wife, Lillian, Union Hill N. Y., guilty of disorderly conduct. They had engaged in a public demonstration of their affections at the swimming pool in Columbia Park, North Bergen, on Thursday night. He let the couple off with a suspended sentence.

"It is rather unusual these days to see a man kissing another woman's husband, but for a man to hug and kiss his own wife is unusual." The Recorder added that it was highly commendable for a husband to hug and kiss his wife, but that a public bathing beach was not the place to do it. Mr. and Mrs. Marquard, who have been married two years, were frolicking on the beach, after a swim in the pool, when their lovemaking attracted the attention of Special Officer Malta. Mr. Marquard admitted in court that they were playing leap frog and that he had sat on his wife's lap and lugged and kissed her. They continued their display of affection despite the warning of the officer, and, after they had donned their street clothing, were taken to the North Bergen station and registered as disorderly persons.

Three Women Had Corns and this is what they did

One simply pared them and kept them. She never knew an hour without corns. One used a harsh, unscientific treatment. It was inefficient and it often caused soreness.

The third applied Blue-jay, liquid or plaster. It was done in a moment and it stopped the pain. In a little while the whole corn loosened and came out.

**POLITICS KEEP WHARVES IDLE**

**Fiume Slow to Resume Its Pre-war Commerce—Jugoslavia Pressing Forward.**

Fiume, June 30.—(Associated Press, by Mail)—Fiume lingers in the doldrums so far as resumption of the once world-renowned trade of this port is concerned, while the new state of Jugoslavia is pressing forward in an effort to take the trade with America that Fiume held before the war.

Political quarrels in this city and international disputes keep the wharves of Fiume idle but in Jugoslavia a company has been formed to establish a line of steamers to operate from Spalato, Ragusa and Cattaro to New York.

A ready-made small steamer is being operated along the whole Dalmatian coast under the Jugoslav flag but they do not touch at Fiume, formerly the chief port for this trade.

The Italian suggestion of a consortium for the management and amalgamation of the port of Fiume and the port of Baross, has been rejected by the Jugoslavs, who claim complete sovereignty over the port of Baross and with it the town of Sussak, all of which, they contend, is in keeping with the treaty of Rapallo.

An Italian naval commander, Captain Faschini, has been designated by the Italian government to take charge of the city of Fiume in an effort to adjust the differences between the contending groups inside the town.

COMPETITION BY GERMANY

(Financial Post)
Canadian industrial interests are being forced to give increasing attention to German developments. German agents are increasingly active and aggressive. We have had this week a practical example of what Germany with her low production costs, owing to low wages, longer hours and greater efficiency of her workers—executive, clerical and mechanical—is able to do in Canada. A contract for some machinery for a Canadian paper mill has just gone to a German manufacturer, and this in the face of the Canadian super-customs duties, recently imposed to overcome the low prices at which Germans can manufacture.

MAKING FUN OF THE BOLSHEVIKI

Conditions in Baltic States Compared With Communistic Ideals—The Story of a Set of Dishes.

Riga, Latvia, June 28.—(A. P., by Mail).—The comic press of the Baltic states has recently indulged in much humorous sarcasm regarding the reported order by M. Ganetsky, the Soviet Russian minister to Latvia, of a hand-painted china set for his use on state occasions to cost 500,000 rubles. This is equivalent, at present rates of exchange in Riga, to something more than \$1,200.

The dinner service, according to reports widely circulated in Riga, is to be painted by hand, with each piece representing "a scene from Bolsheviki life."

One of the comic papers depicts, in a cartoon, Ganetsky seated at a table, surrounded by this spectacular china, in pushing away the plates and asking for something to eat.

In all of the Baltic states, where the Soviet government has legations, the ministers and their aides live in luxurious villas at the seaside. Each of the ministers has a large automobile, and summer villas at the seaside have been engaged for the Riga legation personnel.

Some of the ministers have also bought elaborately-furnished town houses. Their legations are housed in large hotels in Helmsingfors, Reval, Riga and Kovno, the entire buildings having been taken over for them.

Between Riga and Moscow, and Reval and Petrograd, luxurious saloon and sleeping cars are operated for the benefit of Bolsheviki officials, while all other passengers must crowd into unupholstered, packed, third-class cars.

The newspapers here and in other Baltic states frequently point to these conditions and contrast them with Communistic ideals.

of the historic old town from destruction when Tilly captured it in 1631, after the surrender and retirement of Gustavus Adolphus' forces, which co-operated with the villagers.

After the Passion Play, which is given every ten years at Oberammergau, the Rothenburg festival is probably the best known of all the Bavarian folk-plays. Nearly all the 7,000 inhabitants of the picturesque walled town participate in the brilliant festival, which continues throughout most of the day.

The play opens in the valleys surrounding the fortified city. By degrees the actors make their way to the city gates, enter the narrow streets and finally terminate the performance in the city hall, where Burgomaster Nusch saved the town from destruction by taking three liters of wine at one draught in response to the challenge of Tilly.

Every day at noon the residents of Rothenburg are reminded of Burgomaster Nusch's feat. When the great town clock in the city hall square sounds 12, doors beside the timepiece open and life-sized figures of Tilly and Nusch appear. The burgomaster lifts a goblet to his lips and when it is emptied the two figures disappear.

VICTORY FOR BIRD LOVERS

Ostrich and Eider Duck Feathers Only Ones Allowed to Enter England for Sale.

London, July 2.—(Associated Press, by Mail).—Bird lovers have won a victory by the final passing of the Plumage Bill, which prohibits the importation into the United Kingdom of the feathers of any bird except those of the African ostrich and the eider duck.

The bill is mainly designed to prevent cruelty in securing the feathers of such ornamental birds as ospreys and birds of paradise.

The prohibition regarding importation extends to dead bodies of birds with the plumage on them, but does not apply to feathers worn by travelers or introduced in travelers' baggage, provided it can be shown that they are for personal use only.

Strenuous opposition had been offered to the passage of the bill by the trade interested.

Fast Junior Game.  
There was no game in the West End league last night. The match between St. Rose's and the St. George's was postponed on account of a heavy fog which hung over the field during the early part of the evening. Instead, the spectators witnessed a fast game between the Imperials, junior champions of the city, and the Carleton Braves, which was won by the Imperials, 8 to 5, after a scoreless first inning. Mullaney and E. Sparks; for the winners, Green and Stackhouse.

Imperial Oil 9, Royals 5.  
The Imperial Oil team won from the Royals 9 to 5 in the South End Senior league last evening. The game was a good one and in all but an inning each with teams played good ball. The Oils were unsteady in the first inning and the Royals succeeded in getting three runs with which to start off the game. The Royals, in turn, went up in the sixth and the Oils profited by the loose playing and errors of the Royals to get together with their own batting to the extent of four runs. Thompson was on the mound for the winners and pitched a good game. Cooper worked well for the Royals. Duron was behind the plate for the Oils and Austin for the Royals. The All-Stars, who recently made their entry into this league, the Sugar Beethers, who are at present in first place, will clash tonight.

The Fog Interfered.  
The game in the City League last evening between the Commercial and the Pirates was postponed on account of the foggy weather. This mist lifted about the time the game was scheduled to commence but it was too late, as the game had already been called off.

Y. M. C. I. vs. Y. M. H. A. Tonight.  
The Y. M. H. A. and Y. M. C. I. are scheduled to play in the latter Society League on the St. Peter's ball park this evening.

A. A. Irwin Disappeared.  
Arthur A. Irwin, sixty-three years of age, for many years prominent as a baseball player and coach, who boarded the steamer Calvin Austin at New York on last Friday evening bound for Boston, was missing when the boat docked at its Boston pier.

Irwin had been ill for months and was being treated at a New York hospital for stomach trouble. When he boarded the steamer he met a number of friends and to them he seemed very despondent. He made a statement that he was going to the home of his brother, John, to die. During the evening he talked with sev-

Carbonated  
Ice Cream

The newest and purest thing "Under the Sun".  
The ice cream industry of the world has been turned topsy-turvy by a wonderful new method of making super pure ice cream which is known as "Carbonating." By means of a tiny device attached to the freezer all ordinary air is forced out of the cream and replaced by atmosphere a hundred times purer than air. The result is ice cream far purer and finer than any other has ever been possible.

of \$710,000 from the result of betting operations on an average of more than \$100,000 a year, and more than 1,000 per cent. per annum on their investment," says Mr. Hendrie.  
"Many years ago the Ontario Club purchased the Woodbine race course when it was on the outskirts of the city, for \$100,000. Today the Woodbine property is assessed by the city of Toronto at \$710,000 and the 1921 municipal taxes payable by the club amount to \$22,000. As the value of property increased, the shareholders of the jockey club considered they were justified in increasing the capital stock to correspond more nearly with the value of the land, and stock dividends were declared. The Ontario Jockey Club has never paid a cash dividend in excess of five per cent. per annum on the paid up capital except during four years, when an additional five per cent. was paid from the proceeds of the sale of a farm."  
The writer says that the Ontario government's revenue from the race courses for 1920, including the amusement tax, was nearly \$900,000, but that the government had not seen fit to donate one dollar thus far of this sum to the breeding of any kind of horses.

CHESS.  
Janowski in Lead.

Atlantic City, N. J., July 18.—David Janowski, chess champion of France, took the lead last night in the chess masters' tourney by defeating Charles Jaffe of New York in the ninth round after sixty-two moves. Janowski has 61-2 points to his credit, one half more than Jaffe and N. Whitaker of Washington, who won yesterday from Samuel Factor of Chicago after 48 moves. Capt. J. B. Harvey, Pennsylvania, lost to E. S. Jackson, Philadelphia by default.

ATHLETIC.  
Amended Results.

The result of the fifty yards dash, held in the sports held on the Queen square by the West End Improvement League on Saturday afternoon should have read: 1, McLaughlin, Y. M. C. A.; 2, Gallagher, Portland Y. M. A.; 3, Stephenson, McAvity A. A. Time, 6.4 seconds.

FOOTBALL.  
Halifax Boston.

Montreal, July 18.—Defeating the Halifax eleven four to two here this evening Canadian Pacific Railway soccer team, gained the victory over the Halifax players in the series of two interprovincial semi-finals for the Connaught cup. C. P. R. will meet the Toronto Scottish team in the final for the Connaught cup.

WEST END BASEBALL  
MATTERS ADJUSTED  
BY THE EXECUTIVE

An exhibition game between a picked team from the West End Intermediate League and the Pirates, on falling terms, a picked team from another intermediate league, will be played on the Queen square diamond, Thursday evening, July 22, at 8 o'clock. The game will be a heart-to-heart manner and it brought out that misunderstandings, which had been the cause of the unpleasantness. Explanations from both sides cleared the air to a considerable degree, in the matter of the defaulted game last Friday, the St. Rose's representatives, in a commendably sportsmanlike manner, waived their legal right to count the game as a win and, if it has any bearing on the Connaught cup, it will be played at the close of the season.

BOBBY BELVEA TO  
ACCOMPANY HILTON

The executive in charge of the collection of the fund to defray the expenses of Hilton Belyea to the regatta at Buffalo and St. Catherine's met last evening. It was reported that the sale of tickets for the benefit ball game to be played tomorrow evening on the St. Peter's grounds between the St. John's and Commercial was going on satisfactorily. A large crowd is anticipated at this game.

None of the donations in gratifying amounts were also reported by the executive. His Worship, Mayor E. A. Schofield, and other members of the executive are the authorized collectors for this fund.  
The executive decided to send Robert Belyea to the meets at St. Catherine's and Buffalo. "Bobby" Belyea, New England sculling champion at the regatta on the Charles in Boston, July 4, and his brother and trainer, Harry, and Robert will leave for St. Catherine's probably on Friday.

SEVEN YEARS'  
BAD LUCK IS  
BARREL OF FUN

The latest Robertson-Cole super-special picture, "Seven Years' Bad Luck," was shown for the first time at the Unique Theatre last night and carried the house by storm. Max Linder, a famous comedian, who has been absent for many months from the silver screen, appeared in the stellar role and without doubt never showed to better advantage. For a straight, clean and hilarious comedy, this picture is far and above anything of this line that has ever been offered.

There are really too many funny situations in the picture to begin to describe them. Mr. Linder appears as himself—in other words as Max—and he is the victim of the title of the film. At the very opening of the first reel the comedy begins and lasts the bad luck for Max. After celebrating his last bachelor dinner, Max arrives home with a decided list. The morning after the night before he hurls one of his shoes through a big mirror. Enter the hard luck.

It is hard to realize just how big a jinx a broken mirror wishes on a fellow. Max not only loses his sweet-heart immediately, but falls heir to all the misfortune ever recorded as having befallen a mortal man. The morning after the night before he hurls one of his shoes through a big mirror. Enter the hard luck.

THE BISLEY MEET

(Canadian Press Despatch).  
Bisley Camp, July 18.—Major C. P. Blaylock, who came second today in the first stage of the King's prize competition, the blue ribbon Bisley feature, with an aggregate score of 100 out of a possible 105. He scored 34 on the 600 yards range and 66 each on the 200 and 300 yard ranges. The special prize of bronze medal awarded to the competitor having the highest aggregate score in the first stage, went to private J. P. Rae, formerly of the Scottish Rifles, but now a motor engineer of Mirfield, Yorkshire, who registered 105.

Major F. Richardson of Victoria, was given a miss for the third shot at 600 yards, but he scored 50 with six bullets, his aggregate being 94. Other aggregate amongst Canadians included: Sergeant L. B. McCalum, Turro 87; Capt. W. E. Swaine, Kingston, 84.

Mesny of Albert and G. P. Vanwart of Fredericton. Hon. Dr. Roberts is presiding, and Dr. Thomas Walker, St. John, acted as chairman pro tem. The minutes were read and commented upon and certain communications from the Canadian Medical Society, containing resolutions, were submitted. No papers were read at this meeting, as the Canadian Medical Society held its convention only last week. The meeting adjourned to meet again in the Board of Trade rooms at three o'clock this afternoon.

The officers elected at the annual meeting last year are: Hon. W. F. Roberts, president; Dr. L. G. Pinault, first vice-president; Dr. F. J. White (since deceased), second vice president; Dr. J. D. Lawson, treasurer; Dr. C. J. Veniot, recording secretary; Dr. Wm. Warwick, corresponding secretary; Drs. A. E. Logie, W. P. Kirby and A. J. Sormany, trustees.

### BOTH MATTERS AT THE ONE TIME

#### One Man Cars and the Jitney Busses.

Subject Referred to at Meeting of the Common Council This Morning—G. H. Green Reappointed School Trustee.

A report on the application of the former employes of the New Brunswick Power Company for license to operate a jitney service in the city will be made at the same time as a report on the one-man cars now being operated by the power company, so Commissioner Thornton of the public safety department reported at a meeting of the city council this morning. On account of the meeting of the municipal council this morning, the time of the city council meeting was set ahead. The mayor presided and all the commissioners were present. Asked by the mayor regarding his report on the application of the street railwaymen's union for assurance that they would be granted a jitney license, Mr. Thornton said that, as the men had protested against the operation of the one-man car now in use, contending that it had no emergency brake or rear entrance, and as the proposed jitney busses were also without these conveniences and in addition had the door on the wrong side of the car, both matters would be considered together.

On motion of Commissioner Jones, it was decided to re-appoint G. Herbert Green as a member of the board of school trustees for another six-year term. A letter was received from W. Grant Smith on behalf of the F. B. Deacon Estate, protesting against an increase in the assessment on the Dearborn building in Prince William street. A previous letter had been addressed to the board of assessors, who refused to reduce the amount. Land was assessed at \$8,000 and buildings and machinery fixed at \$29,500. On motion of Commissioner Bullock it was decided to receive the letter and the matter was referred to the mayor to fix a time for the hearing of the appeal.

A petition was read from the citizens of Lancaster and West St. John in the vicinity of the proposed oil tanks, asking the city to take steps to prevent erection of them. The basis of the protest was the ground that the tanks would create a nuisance and an extra fire hazard.

The report of the committee of the whole was adopted section by section and in its entirety. It included the claim of Miss Martha Wilkins for damages alleged to have been caused by a leaking water main; the granting of the contract for the Newman Brook concrete arch to P. J. Linton and Peter Seab; release of obligation for interest and sinking fund charges on sewerage facilities to two lots belonging to Helen and Louise Park; a regulation whereby the building inspector was instructed not to issue a permit for the erection of houses for which sewerage facilities had not been provided until the matter was referred to the common council; protest by W. Frank Hatheway against the operation of the one-man car in its present form; the granting of a contract to the Remington and Smith Premier Typewriter Co. for the printing of the women's franchise list; the allotting of a space on the north side of King Square for the parking of public taxicabs, and a claim on behalf of Mr. James McDonald for damage done to his motor car by striking a rut in Douglas avenue.

The mayor announced that \$1,231,053.14 in taxes was paid in to the city chamberlain during the discount period. He said that this brought the city credit on the right side of the books and on account of the earlier date of payment the treasury would save about \$4,500.

Adjourned.

### FISHERIES AT THE EXHIBITION

#### Feature Being Arranged—Sardine Season Prospects.

One of the features of the St. John exhibition on this fall will be a fisheries exhibit on a scale never before attempted in this part of the country, so J. F. Calder, fisheries inspector for the southern portion of New Brunswick, said today. Mr. Calder is in the city to arrange with the exhibition association for the necessary space.

Included in the fisheries display will be exhibits of cured fish, specimens from the canneries of the province, a small aquarium containing an assortment of the fish that are taken in these waters, an extensive display of marine specimens from the biological station at St. Andrews, and an assortment of fishing tackle from one or more of the larger firms of manufacturers.

Sardine Situation.

Mr. Calder said that the sardine fishing situation had improved somewhat recently, the most important factor being the reduction of about 20 per cent. in the price of tins made last Saturday by the American Can Co., which supplies most of the canneries. By August 1, when the "summer schools" of sardines is due, it was expected that all the canneries, including that of the Booth Fisheries Co. at West St. John, would be opened. The price prevailing at the present time, he said, was about \$8 a hoghead.

### FIRST BRANCH IN THE MARITIMES

#### Application Made Today for Charter for Branch of the United Garment Workers' Union.

Application for a charter was made this morning by Fred A. Campbell, president of the trades and labor council, to the United Garment Workers' Union of America on behalf of the garment workers of the city. Mr. Campbell said that the local branch which has 100 per cent. membership, will be the first local of this organization in the maritime provinces. The membership of this union will include the makers of men's garments. St. John already has a branch of the National Lady Garment Workers, which is a union of those engaged in the manufacture of women's wearing apparel.
