Germany Threatened With Financial Ruin

Workmen's and Soldiers' Councils Squandering Money at Rapid Rate and Difficulties are Growing More Acute; Conference on Possible Occupation of Berlin

Munich, Dec. 6, via Geneva.—(By the Associated Press)—Anxiety is being shown by the German, especially the Bavarian, press over the financial stability, and even the honesty, of many of the hundreds of workmen's and soldiers' councils now functioning in this country.

The Bavarian Gazette says that the money difficulties of the councils are constantly growing more acute. The financial problem was simple in the beginning because, it is said, the soldiers occupied state buildings which were heated and lighted by the old staff and requisitioned state automobiles.

Riots in Berlin. London, Dec. 6.—An Amsterdam despatch to the Central News Agency says there were riotous demonstrations in Berlin on Wednesday by the unemployed. The disorders became so threatening that labor leaders addressed the crowds, promising assistance, and finally pacified them.

To Consider Occupation. London, Dec. 7.—An extraordinary meeting of the German cabinet was summoned at Berlin on Thursday evening to discuss the possibility of the Allies occupying Berlin, owing to Germany's alleged inability to carry out the terms of the armistice, according to Amsterdam advices to the Express.

Changes Forecasted. London, Dec. 7.—Kurt Eisner, the Bavarian premier, will probably succeed Dr. W. S. Soll as German foreign minister. Negotiations on the subject are now proceeding between Berlin and Munich, according to the Cologne Gazette, quoted in an Amsterdam despatch to the Exchange Telegraph Company.

British Fleet Arrives. London, Dec. 7.—The British battleship Hercules, with a naval delegation aboard, escorted by the torpedo boat destroyers, arrived in Jaldie Bay this morning, says a despatch to the Exchange Telegraph from Copenhagen.

Jahde Bay is the port of the German naval station at Wilhelmshaven. Disarming Southern Army. Amsterdam, Dec. 7.—The disarming of Field Marshal Von Mackensen's army has begun in Hungary, according to a Berlin despatch received here.

The soldiers will not be interned, but will be permitted to cross the frontier. They are selling their motor cars, horses and other equipment cheaply. British Enter Cologne. Amsterdam, Dec. 7.—British troops entered Cologne at four o'clock Friday afternoon.

German Leaving Coblenz. Amsterdam, Dec. 7.—Five American officers arrived at Coblenz on Thursday and conferred with the Burgomaster, the local German commander and the railway authorities, according to the Cologne Gazette. The newspaper states that the last German troops will leave Coblenz on Saturday.

ELEVEN TEAMS IN FINAL DAY OF SIX DAY RACE

New York, Dec. 7.—Eleven teams entered the final day of the annual six day bicycle race with seven of the pairs tied, having covered 2,179 miles and one lap at 8 a. m., the 128th hour. Three teams were one lap behind and another was two laps behind the leaders. The record for this hour is 2,065 miles four laps, made by Cameron and Keyser in 1914. In the point system, McNamara and Magin led the field at 8 a. m. with 363. Madden and Corry had scored 301 points and Grenda and Hill 291 points.

First Serious Accident. New York, Dec. 7.—The first serious injury to a rider in the six day bicycle race this year occurred late last night on the last lap of the sixth sprint, McNamara tried to get through to the front and crashed into Fred Weber's wheel. Both riders were pitched down the banked track and it was found that Weber had fractured his nose so badly that he will not be able to continue in the race. His partner, Eaton, had until this morning to find another team mate.

McNamara escaped, with a few scratches. He and Magin, Magin on four of the sprints last night and were leading the field with 363 points scored in the sprints.

The midnight score for 120 hours was 2,086 miles and four laps. The record for 120 hours is 2,349 miles and two laps, made by Moran and McNamara in 1914.

MINE SWEEPERS ARE MISSING AND CREWS BELIEVED TO BE LOST. Sault Ste. Marie, Ont., Dec. 7.—No word has been received from the mine-sweepers Crissoles and Inkerman, which were followed by its adoption as a war measure. The people demand a fuller test, after which final sentiment will follow by decisive vote.

ENTHUSIASTIC CELEBRATION OF BRITAIN'S DAY IN UNITED STATES

Republic's Tribute To War Effort Of Empire

HONOR MEN WHO FOUGHT. General Observance of Day as Mark of Respect to Great Britain—Public Holiday in Many Places

New York, Dec. 7.—Today is Britain Day in the United States. Telegrams yesterday from 288 cities and towns where the American defence society has branches, told of completed preparations for the day's observance.

San Francisco, Calif., and Tacoma, Wash., are among the cities which have declared Britain Day wholly or in part a holiday, and in Fresno a great pageant will be followed by dancing in the streets.

In the south, where, as in other nations, scores of shell marked British veterans have recently spoken for the united war work campaign and the Red Cross, special preparations are reported for the entertainment of officers and soldiers who have fought under the banners of St. George.

The accomplishments of Britain and America will be fittingly celebrated in New York, culminating Sunday in an afternoon mass meeting at the Hippodrome and an all-star performance of "Freedom" at the Century Theatre in the evening.

In New York. The Pilegrim Society has a luncheon today in honor of the British army and navy, and tonight many prominent Britons and Canadians will be guests at a dinner under the auspices of the St. George Institution and the Canadian Club. Special services will be held in nearly all the city churches tomorrow.

The morning newspapers, devoting leading editorials to the subject, generally pay tribute to many prominent Britons and Canadians who played a part in the great war. Under the caption "To a Great Friend," the Tribune says: "America and Britain stand today loyal and seasoned friends."

(Continued on page 2, fifth column) NATIONAL LABOR PARTY IN STATES. Washington, Dec. 6.—Confidential records of the department of justice dealing with the activities of German agents and others in the United States were placed today before the senate committee investigating brewers and German propaganda by A. Bruce Bielaski, chief of the department's bureau of investigation.

They dealt with correspondence of Count Von Bernstorff, former German ambassador, and other newspapers; the sending of William Boyer Hale to Germany as correspondent of the Hearst newspapers, described by Von Bernstorff as having "outspokenly placed himself on the German side" and with suggestions of fomenting between the United States and Japan as a means of stopping munitions shipments to the Allies.

Such a league will be necessary "in some parts of the world," he declared, in order to enforce the terms of the peace treaty. It will be needed, he added, in order to set up new governments in middle Europe which will stand.

WOMAN HAD NARROW ESCAPE FROM DEATH. Mrs. Cogswell, wife of Amos Cogswell, a fisherman residing on Navy Island, while tying her boat to a scow on the Carleton side of the channel yesterday afternoon, slipped and fell into the water. It was only through the efforts of Allan Gregory, who happened to be near at the time and who heard the woman's cries for help, that she was saved from drowning.

IN WALL STREET. New York, Dec. 7.—(Wall street)—Shipments, steels and motors were higher by fractions to a point at the opening of today's stock market, rails and copper showing irregularity.

Would Intern Them in Dutch Colonies

Holland Willing to Hand Over Former Emperor and Crown Prince, but Has an Alternative Suggestion; Life Sentence on Lonely Island in East or West Indies

London, Dec. 7.—If the Allies insist upon the delivery of the former German emperor and crown prince to an international court of justice, Holland will yield, but will first urge that at the Allies content themselves with an undertaking by Holland to intern them for life, in one of the Dutch colonies, according to an Amsterdam despatch to the Express.

Holland, it is understood, will suggest that Herr Hohenzollern and his son be placed on an island in either the East or West Indies, where he will be guarded by a Dutch fleet.

It is also anticipated that Holland will be asked for compensation for permitting a violation of her neutrality by allowing German troops to pass through the province of Limburg on their retreat from Belgium, and receiving German ships from Antwerp. This compensation, says the correspondent, may possibly be the cession of certain territory along the Belgian frontier owned by Holland since 1839, perhaps the southern part of Dutch Limburg, the population of which region is claimed to be principally Belgian.

Make Germany Produce Them. Manchester, Dec. 6.—Sir John A. Simon, former attorney-general of Great Britain, speaking here today, said there was nothing worse for a lawyer than to be called upon to prosecute a prisoner who did not appear. He would make it one of the terms of the peace treaty that the nation to which an accused person belonged should be responsible for producing that person before an international tribunal.

To Prove Kaiser's Guilt. London, Dec. 7.—(British Wireless Service)—Kurt Eisner, the Bavarian premier, declared in a speech yesterday that he intended in a few days to commence publication of documents of the German foreign office, in order to prove that Emperor William was responsible for the war, according to a despatch received here today from Copenhagen.

"Comments on certain documents prove that the Kaiser caused the war," Eisner asserted. Dealing with Eisner's speech, the Telegraph of London says it is true that the documents often bore signs of the known impulsiveness of the emperor, and declares that there is no doubt the documents are most compelling for the emperor than for those who wrote them.

Shocking Record of Brutality and Neglect. SOME TYPICAL CASES. British Soldiers Died of Starvation and Dysentery—Cruelty to Sick and Wounded—Deliberate Effort to Destroy Health

London, Wednesday, Dec. 4.—(Reuters)—Two further reports were issued tonight by the government committee which has been investigating the treatment of British prisoners of war. The first deals mainly with the treatment of men captured during the spring offensives of 1918, and relates largely to the employment of prisoners directly behind the German lines. Like previous reports, it is a long, shocking record of brutality and callous neglect.

Following are typical extracts from testimony given by prisoners who escaped to British or French lines. "Several prisoners died of starvation at Rancourt. Later deaths of starvation became even more numerous. When I left Bazancourt about 150 men suffering from dysentery and half of them were living skeletons. There was a lot of sickness in Cappy, caused from lack of food and exposure. No attempt was made to remedy these conditions."

Large numbers of prisoners, no longer fit to work behind the German lines, were sent to Heilsberg, East Prussia, or Treton, in Prussian Poland. A witness, describing the arrival of about 800 of these prisoners at Heilsberg early in October, says they were mostly stretchers cases and were taken to a ship, but many of those sent to the boat were so weak they could hardly walk. He says that youths of twenty years looked like men forty years old.

At Treton, which is supposed to be a hospital for prisoners, disabled while working on the western front, conditions were even worse. The place was supposed to accommodate 400 but there were about 1,000 there. There was but one doctor in attendance on the men, many of whom were in shocking condition.

One Bright Spot. Only one bright spot is found in the harrowing record. This relates to the Deuzyn hospital for the fourth German army, where, although many supplies were short, prisoners received careful treatment and adequate food, including wine and eggs when necessary.

The second report, which is dated Oct. 28, says that the conclusion was reached that events in the camps attached to the tenth army corps point to a deliberate policy of vindictiveness, with a definite purpose of reducing the health of officer prisoners. It is said that this impulse sprang from responsible German authorities and was directed by them. The war ministry did not interfere for the alleged reason that it had no authority over the commander of any German army corps. The committee says that this seems a mere pretense.

Later Victims. London, Dec. 7.—Thirty American soldiers released from a German prison camp in West Prussia landed at Leith, Scotland, yesterday, with 1,000 British prisoners of war, many of whom were in an emaciated and pitiful condition.

NUEMPLOYMENT IN BERLIN IS SERIOUS. London, Dec. 7.—Dr. James Crack, an American who has resided for a long time in Germany, is head of the department at Berlin which is finding work for idle men, according to a Berlin despatch to the Express. Three thousand applications for work register daily with him, it is said, and 24,000 men are now unemployed there.

Less than a quarter of the Berlin troops have not as yet returned from the front, and it is estimated there will be 70,000 idle when demobilization is completed.

Today is being observed in the United States as Britain's day in recognition of the services rendered to the cause of civilization by the British Empire. Elaborate preparations have been made for the celebration all over the Union. Every town and city will fly the Union Jack and great demonstrations of speech and music have been planned. Special services will be held in the churches on Sunday. This picture shows a poster drawn especially for the celebration by J. Montgomery Flagg, the celebrated American artist—British and Colonial Press Service.

"STERN JUSTICE"

The utterances of British statesmen make it clear that the crime of causing the war and the crimes against humanity committed during the war are not to go unpunished. Exalted position is to be no protection. The more exalted the criminal the greater his responsibility. Now that the war is over there are those who would be disposed to be lenient, but if the world is to be made safe for democracy the guilty must be punished, as a lesson for all men and nations for all time. Nor can the leaders of the Bolsheviks be overlooked, whether their case is considered with the others or not. Their crimes are among the most horrible of those recorded. Democracy was threatened from above; now it is threatened from below. Having beaten autocracy it has to reckon with anarchy. It is for the statesmen of the Allied nations to recognize this condition of affairs and hew to the line.

Germany presents a problem the solution of which is very far from clear, but the various states forming the empire must be held to account, whether they form one monarchy or republic or one man or another, was authorized to speak for the whole country, there would still be the difficulty that no reliance can be placed in what any German group or individual would say. Bitter experience has proved that they cannot be trusted. Their pledge is good only while they believe it serves their interests. The phrase, "death before dishonor," has for them no meaning. Hence the Allies must take whatever steps are necessary to ensure the fulfilment of their demands. In time there may arise a generation of Germans worthy of trust and confidence, but the best way to ensure that result is by a stern policy of punishment and enforced reparation for crimes committed.

A COMMUNITY HOUSE

An interesting development following the disaster of a year ago in Halifax has been the establishment of a Community House for the benefit of those living in temporary houses in the devastated area. The Christian Science relief committee sent to Halifax was asked by some citizens interested in social service to assist in such a movement and at once gave four thousand dollars, without any conditions or stipulations whatever, to build a Community House. In a letter written to clear up some misunderstanding, Dr. George B. Cutten, director of the rehabilitation department, says:—

"The supervision of the Community House and of its activities have been handed over to the Bureau of Social Service, which has provided an efficient special worker to supervise the work. The department of technical education of the provincial government expects to conduct domestic science and other classes there, and the playground commission will also probably take part. The Halifax Relief Commission did not pay for the building and is not conducting any classes, but the building was erected with the full consent of the commission, and the scheme has the commission's approval. This Community House is to furnish an educational, social, and recreational centre for the people at the Exhibition grounds."

It is easy to realize how great a benefit a community centre conducted as this one will be to the people. Such centres are needed in all cities, and it should be one of the tasks of the reconstruction period to provide just such educational, social and recreational centres for those who need them. Their value has been proved over and over again in the experience of American cities, where more and more attention is being given to this phase of social welfare work.

A SOCIAL OBLIGATION

Pursuing a topic discussed on this page yesterday, it should rouse the public to the point of action when it is said that there are today in the maternity hospital of the Salvation Army in this city four young women of feeble mind. If society fails to protect itself by proper provision for the care of the feeble-minded, segregating the worst cases and keeping a careful supervision over those less severely afflicted, it must pay a heavy price, not only in the cost of institutions but in a lowered standard of human efficiency. Public interest in this problem needs to be aroused. Far too large a proportion of the people fail to give attention to social questions, perhaps under the mistaken impression that they and their families are not concerned. Surely the war has taught us that we are all in the world-currents which shape human destiny, and that difference to what is transpiring around us is the very essence of unwisdom. But apart from the question of self-protection and making less dangerous the pathway of our children, there is the call to service which comes to every member of a Christian community. The horrors perpetrated in Belgium move us to pity and deep indignation, but what of the crimes daily committed against the innocent at home? When will the

people of these provinces throw the protection of the law around those who are incapable of protecting themselves, and whose sins are less flagrant than that of a Christian people who throw them to the wolves? Feeble-mindedness leads to crime as well as vice. There are varying degrees and phases of mental weakness. We should have, and the people should heartily support the minister of health in having a proper census of the feeble-minded in this province; and when that has been taken an institution \$300 and in default of payment two years imprisonment upon any person

The Standard charged that the Foster government had neglected the Hartland bridge, almost to the point of endangering the lives of the people. It made a most vicious attack upon the public works department. Hon. Mr. Veniot, who has a pardonable weakness for the truth and some merits as an investigator, presents the facts in today's Telegraph. He goes back to 1915, shows how Frank Smith sidestepped the Hartland bridge, condemned by their own engineer, and how the present government has taken steps in preparation for the erection of a new bridge. The Standard is caught again.

The government at Ottawa should agree to the request to continue prohibition till a referendum has been taken. Indeed parliament would not be going contrary to public opinion to enact a permanent prohibitory law.

A new railway station is ornamental and to a degree useful; but St. John also needs proper connection with the National Transcontinental and more export business over the government railways, with, of course, the facilities to handle it.

The Standard has not withdrawn its false charge against the Foster government in relation to the Campbellton sinking fund. Instead, it made another false charge about the Hartland bridge.

This is Britain Day in the United States. It marks the end of old misunderstandings and the beginning of the new era of Anglo-Saxon unity.

British troops are in Cologne today. They include Canadians.

About the Choice of Flour

It's always much the best to select a brand of well established quality. LA TOUR FLOUR has stood the test of time, meeting satisfactorily, all requirements in thousands of homes. You'll like it, too. **Fowler Milling Co. Limited** Phone West 8.

L. F. Managhan, city clerk of Halifax, has written to E. L. Newcomb, K. C., deputy minister of justice, asking that under the war measures act or such authority as it may possess have an order-in-council passed making it an indictable offence and imposing a fine of \$500 and in default of payment two years imprisonment upon any person unlawfully giving or selling any intoxicating liquor to any returned soldiers. His Excellency the Governor-General was in Charlottetown yesterday and at a dinner given in his honor he congratulated the island on its record during the war. His excellency decorated Lieut. Andrew McEachern with the military cross.

STORAGE BATTERIES

A Battery for Every Model and Make of Car

USL The Storage Battery With the Exclusive Machine Pasted Plates

Battery Repairs

Our U. S. L. Battery Service Station is now completely equipped with the necessary apparatus and electrical instruments for the care and repair of storage batteries of all makes, and in charge of expert battery men. We carry a full line of spare parts and make repairs promptly and at reasonable prices.

Winter Storage and Overhaul

Your storage battery requires special winter care. Batteries stored wet in apparently good condition frequently develop trouble during the winter or soon after being placed in service in the spring. You can't determine the condition of the working parts without disassembling the battery. They deteriorate appreciably in acid, even though standing idle and properly cared for, and usually require overhauling annually.

We therefore store "dry" by a new process all batteries left with us—overhaul, wash, re-insulate, re-assemble, charge completely, then remove acid and seal them. We make only our regular overhauling charge of \$10.00, and store your battery free until next spring.

CODFISH TALKS

Issued by Canada Food Board
COD PLENTIFUL AND CHEAP
The proportion of cod consumed in Canada is very small. It is a fish we have in great abundance but one which is not appreciated as it should be by the Canadian housewife. It is plentiful and cheap at all seasons and if the consumption were larger it would be cheaper still. Our forefathers used more codfish, pickled and dried, than we do today. Years ago, every country store in the eastern provinces carried stocks of salted and dried codfish, but nowadays the tastes of the people run to halibut, salmon and haddock, while the cod is neglected.

A Song for Every Mood

Music gives expression to every human emotion. All that is happy and beautiful in life, has been expressed in music.

When things seem bright and cheerful because a ray of happiness has come into your life, you need an outlet to give vent to your feelings.

When sorrow or depression comes, the need of consolation is even greater.

It is at such times that you derive the greatest comfort from **The NEW EDISON** "The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case, or one ripple of melody from the bow of Albert Spalding, puts your soul in harmony with the world. Music—real music—is one of life's greatest boons. Edison music is real music because the New Edison does not merely imitate, it RE-CREATES. One never tires of the New Edison, the novelty never wears off because there is no novelty to wear off. It is not just another "talking machine". It is decidedly different. To appreciate the difference you must hear it.

We will gladly submit the New Edison to your musical judgment either here or in your own home.

NEW BILL AT THE OPERA HOUSE WON GOLDEN OPINIONS. The vanderville bill in the Opera House, which changed last evening, was greeted by capacity houses and evidently proved a hit with the vast majority of the patrons. The bill is diversified and has features, which are bound to prove popular with all classes. There is a really good musical act, an exceptionally good wire walking and balancing act, and three bright numbers introducing songs, dancing and a mint of nonsense. On the whole it is well balanced and is bound to make a hit during the coming week. The third chapter of the "Woman in the Web" was shown on the screen and is proving one of the most popular serials shown for some time. When the curtain rises McDonald and Cleveland appear and their singing, recitation and general line of chatter struck a responsive chord from the large gathering and they were given hearty and well merited applause. Both are good entertainers and provide genuine amusement. Marie, an exceptionally clever pianocordianist, made a decided hit and was forced to respond to a number of

Wright and Anderson followed and their skit was quite amusing. The male member possesses a good voice and his singing was appreciated. Arthur Demin, an old time minstrel, entertained the audience for several minutes and was well received. He had a good line of jokes in addition to some catchy songs. The Sullivans gave a clever demonstration of tight wire walking and balancing and their act is one of the best of its kind seen here for some time. Bot

MORNING NEWS OVER THE WIRES A revenue return of \$18,000,000, or one million more than last year, is shown by Montreal's 1919 budget. The additional million will not benefit the city, however, as it represents school tax.

That Montreal liquor dealers do not anticipate prohibition is evinced from the fact that at their annual meeting they elected officers for next year. They expect the sentiment of returned soldiers, the influence of labor and cessation of hostilities will act strongly in the way of a continuation of the licensed sale of liquors.

W. R. Reek, formerly deputy minister of agriculture for the province of New Brunswick, has joined the live stock branch of the federal department of agriculture at Ottawa, as assistant to S. H. Harkiss, live stock commissioner. Mr. Reek says that Canada's huge war debt can be paid off by live stock exportations.

RAISED \$1,200 FOR DINNER FOR 26TH The monthly meeting of the Royal Standard Chapter L. O. D. E., was held last evening. Mrs. E. A. Smith, the regent, presiding. A report of the quarterly meeting of the provincial executive recently held in Fredericton was read. The regent reported that the sum of \$1,200 had been received to provide a Christmas dinner for the 26th Battalion and the amount is to be called to London. One hundred and twenty-five pairs of socks were donated to the Provincial Navy League as a Christmas gift. Reports from various committees were received. The chapter is to provide a sun parlor in the Provincial Convalescent Home in Fredericton and will present a permanent library to the St. John County Hospital.

The results of the raffle drawings were announced as follows: Patriotic shawl, win by No. 284; hand embroidered cushion, donated by Mrs. V. S. White,

FORMER CROWN PRINCE RENOUNCES HIS CLAIM

A despatch from Paris says that Crown Prince Frederick William has renounced his right to the German throne. Word from Berlin quoted the Prince as saying that he renounced formally and definitely all rights to the crown of Prussia and the Imperial crown, which would have fallen to him by the renunciation of the emperor-king or for other reasons.

BRAMPTON WAS PLEASED.

A portion of the vocational training exhibit shown at the National Exhibition at Toronto was sent abroad to several of the fall fairs in other towns of Ontario. Richard Binns, the director of the Brampton fair wrote to Professor Haultain, the district vocational officer for Ontario, thanking him as follows: "I wish to thank you for your kindness in sending your exhibit to our county exhibition which was held on Friday and Saturday of last week. It was the centre of attraction and was a real education showing what Canada is doing for the returned soldiers. Lieutenant Hannibal and his associates did splendid work and together it was a real success for which I wish to express the thanks of the whole community."

HER FIVE CHILDREN Had Whooping Cough At the Same Time.

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age, sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."

On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucus and phlegm, and in this way ease the racking cough and in a short time make it disappear entirely.

Mrs. Walter McLaughney, North Balford, Sask., writes: "I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but none gave me the same satisfaction as Dr. Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will happily recommend it to those who want a quick cure."

There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 50c. and 90c. and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

RECENT DEATHS

William G. McInerney.

There will be many who will hear with regret of the death of William G. McInerney which occurred last evening at his residence, 809 Union street, from pneumonia. Deceased was a well known local teamster having been in business for himself. He was twenty-nine years of age and was taken ill only on Sunday. His death came as a shock to his family and many friends. He leaves, besides his wife, an adopted daughter, his mother, three brothers and five sisters. The brothers are John H., James G. and A. E., and the sisters are Mrs. A. Beatty, of Dorchester (Mass.); Mrs. William Robb, of St. John; and the Misses Annie, Mary and Gertrude, of this city. Funeral will be held this afternoon.

Mrs. Norman K. Gesner, daughter of Sergt. Major E. Bayers, of Fredericton, died at Halifax on Thursday. She was married only last June. Sergt. Major Bayers was with the R. C. B. and later with the 29th McLean Highlanders.

The funeral of Dawson S. Glendening took place from his brother Gilbert's residence at Sussex Corner on Saturday last. He was called home only a few weeks ago owing to the death of his father and returned to New York in apparently good health. On Sunday he was admitted to the hospital suffering from erysipelas and on Tuesday, Nov. 25th, died. Mr. Glendening was a member of the American Expeditionary Force. His brother, Walter, just returned from France, was allowed in port long enough to see his brother. He leaves his mother and seven brothers, George of New York, Edwin of the American Expeditionary Force (now overseas), Walter of the U. S. Naval Force, Fred of New York, James of Houlton, Bertram of Belleisle and Gilbert of Sussex; also three sisters, Mrs.

King, Norton; Mrs. Hindman, Houlton, Miss Lillian of Boston.

The death of Willard T. Baldwin occurred Sunday at the home of his parents, Mr. and Mrs. W. H. Baldwin, Douglasfield. He survived by his parents, four brothers, Lieut. Andrew, overseas; John, Harold and Purdy, and one sister, Mrs. Estey of Sackatoon. He was about thirty years of age and was a member of the Bank of Nova Scotia staff, but had resigned to enlist for military service.

In omnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start doing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Veigt, Rapid City, Mont. writes—"For several years I suffered from indigestion, nervous debility, insomnia and constipation. Had no appetite and doctors did not expect I would live throughout the winter. Your book interested me. I got a J. B. L. Cascade and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the J. B. L. Cascade as a God-sent to me."

The J. B. L. Cascade is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, back and forward from one to the other, thousands to perfect health. It is shown and explained by E. Clinton Brown, Druggist, Cor. Union and Waterloo Streets. W. Munroe, Dispensing Chemist, 687 Main St., St. John, who will be pleased to give you an interesting book called "The What, The Why, The How of Internal Bathing" on request. Ask for it.

MILBURN'S LAXA-LIVER PILLS

Act as a stimulant to the sluggish liver, clear the furred tongue, sweeten the foul, obnoxious breath, and clear away all the poisonous accumulations from the system by causing the bowels to move regularly and naturally every day, thus preventing as well as curing constipation, sick headaches, bilious headaches, water brash, heartburn, and all diseases arising from a lazy, slow or torpid liver.

They are purely vegetable, small and easy to take, and there is nothing of the gripping, weakening and sickening effects of the old-fashioned purgatives.

Mrs. John Kadey, Chipman, N. B., writes: "I have been using Milburn's Laxa-Liver Pills for some time and can recommend them to anyone suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers, as I think they are a valuable remedy."

When you go to your dealer and ask for Laxa-Liver Pills, see that you get the genuine "Milburn's" Price 20c. a receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

UNDER ONE ROOF

Since the Invalided Soldiers' Commission and the Board of Pension Commissioners have been brought together under one minister in the Department of Soldiers, Civil Re-establishment, the two commissions have sought to work in as close co-operation as possible. To further this end it has been agreed between the two branches of the department that whenever possible the district offices of both organizations shall be brought under one roof.

There are many details in which the two organizations have to be in close consultation. Soldiers' files are passed back and forward from one to the other, many decisions in regard to pension depend upon information supplied by the Invalided Soldiers' Commission. Similarly, when discharged men return to the pay and allowances of the Invalided Soldiers' Commission information about their pension is at once required. Furthermore, it is a matter of great convenience to all discharged men to be able to transact all their business with the government at one place.

For these and many other reasons all possible effort is being made throughout the country to bring the offices of the two organizations as close together as possible. In several places this has already been achieved.

New Station May Follow Visit

In his interview with the mayor and commissioners yesterday at city hall, D. B. Hanna, president of the board of directors of government railways, is said to have committed himself definitely to providing a new and up-to-date railway station for St. John. He said that in coming to this section in years past he always believed this was a necessity and he would certainly see to the matter as soon as things get into working order.

At noon they were tendered a luncheon at the Union Club by His Worship Mayor Hayes. Then in the afternoon Commissioner Bullock accompanied them for a while. Later A. P. Barnhill, New Brunswick representative on the board, plotted the visitors about. They inspected the island yard, the round house, the situation at Courtenay Bay, went to the McAvity plant where they were very much impressed and later took a trip to the West Side docks. In the evening they were entertained at the Cliff Club.

Late in the evening the train pulled out for Fredericton. The Valley road will not be travelled over this time, but today the directors will go over the old Canada Eastern line to McGivney Junction, the line by which it is hoped to divert transcontinental traffic to the Valley Railway and to the port of St. John.

The visiting board of directors included: D. B. Hanna, president; A. T. Mitchell, vice-president; Major G. A. Bell, deputy minister of railways and canals; Robert Hobson, Sr., Her Majesty's Inspector; A. P. Barnhill, K. C., Colonel Thomas Cantley, R. T. Riley. Others of the party were: F. H. MacLeod, R. P. Ormsby, secretary to President Hanna, F. P. Brady, general manager of Eastern lines; L. S. Brown, general superintendent, and W. A. Dug, assistant chief engineer.

"Look here," said the late diner, "there's a fly in the butter."
"That isn't a fly," commented the waiter; "it is a moth. And that isn't butter; it's margarine. Otherwise your assertion is correct."

Wanted To Die!
At 72 He Lives to Tell Wonderful Story!

"Eleven years ago I was in a hospital for seven weeks, at a cost of over two hundred dollars," says Mr. Wilson the well-known hydraulic engineer. "For two years I suffered tortments, and winter before last I was laid up six weeks under doctor's care. Truly in the last twelve years I have wanted to die, I was in such agony. I would say, 'good Lord take me rather than go through it again.'"

"But now I am a new man. I am a better man today than I was twelve years ago. I can almost put my leg over the back of my head. I could do that at 30, now I am 72."

Mr. Wilson is only one of thousands who suffered for years, owing to the general belief in the old, false theory, that "Uric Acid" causes rheumatism. This erroneous belief induced him and legions of unfortunate men and women to take wrong treatments. You might just as well attempt to put out a fire with oil as to try and get rid of your rheumatism, neuritis and like complaints, by taking treatment supposed to drive Uric Acid out of your blood and body. Many physicians now know that Uric Acid never did and never will cause rheumatism; that it is a natural and necessary constituent of the blood; that it is found in every new-born babe, and without it we cannot live!

It took Mr. Wilson twelve years to find out this truth. He learned how to get rid of the true cause of his rheumatism, and recover his strength and endurance from "The Inner Mysteris," a remarkable book now being distributed free by an authority who devoted over twenty years to the scientific study of this malady. And Mr. Wilson says: "Now I know, and I never can forget the carrier left it in my box and I came near throwing it in the fire. But something prompted me to look it over. Thank God I did."

NOTE: If any reader of this paper wishes the book that reveals these facts regarding the true cause and cure of rheumatism that were overlooked by doctors and scientists for centuries, simply send a post card or letter to the author below, and it will be sent by return mail without any charge whatever. Send now! You may never get this opportunity again. If not a sufferer yourself, hand this good news to some afflicted friend. The author of this remarkable book that has brought relief and happiness to so many is H. P. Clearwater, 235-D Street, Hallowell, Maine.

EARTHQUAKE CAUSED MUCH DAMAGE IN CHILE

Santiago Chile Dec. 6.—The latest reports from the earthquake in Chile show that at Copiapo, capital of Atacama province, 100 buildings, including the municipal buildings, were destroyed with the loss of 3,000,000 pesos. At Chanaral, on the coast south of Antofagasta, three tidal waves destroyed a large portion

of the city. At Taltal, northwest of Copiapo, there were several deaths and many persons were injured. There were heavy property losses at Taltal also. There has been no severe shock since Wednesday, but earth tremors were continuing almost without cessation at Copiapo, Chanaral and Taltal to an early hour this morning. The Chilean government has appropriated funds for relief work, which is well under way.

DOCKS FREE TO ALL

Word was received at local military headquarters yesterday that all measures of defence for the port of St. John had been done away with and as far as access to the docks and wharves is concerned, the city will revert to pre-war conditions. Undoubtedly this official word has been received at Halifax and other ports.

A Mother's Sympathy

If there is ever a time when a girl needs the sympathy of a loving mother it is when her nerves give out, for there is no condition under which one feels so utterly helpless and discouraged.

Nervous diseases are too often misunderstood.

Even the family doctor's knowledge of diseases of the nerves is limited, and he sometimes makes the mistake of joining with those who are deceived into believing that the patient only "thinks she is ill," is only "putting it on."

And so it happens that patients suffering from neurasthenia and nervous prostration are often greatly wronged and even cruelly treated.

The mental tortures of nervous sufferers are often so indescribable that no physical pain can be compared to them.

The patient may look perfectly well or she may be mentally ill and gloomy. One day she may feel better and begin to be encouraged, only to be more discouraged than ever on the day following.

If in addition to the disheartening nature of her ailment she finds her friends and relatives out of sympathy with her you can scarcely wonder at the development of a chronic state of gloom and despondency.

But whether the cause of such a condition is from overwork, worry, mental anxiety or nervous shock, restorative

treatment must take the form of nourishment for the starved and depleted nerve cells.

While there is not the hopelessness in such cases that there is when paralysis sets in, the building up process must necessarily be slow at first, and the patient needs all the sympathy and encouragement that she can get.

There is no question that the regular use of Dr. Chase's Nerve Food will restore the run-down nervous system, but the treatment must be persisted in if the best results are to be obtained.

The use of the nerve food will stimulate the appetite and improve digestion. It is important that the food should be the most wholesome and most nourishing in order that an abundance of rich, red blood may be formed.

The patient should get into the sunshine and out into the fresh air, if possible. Her associates should be cheerful and pleasant. Keep out the pessimists and gloom dispensers.

While the building-up process resulting from the use of Dr. Chase's Nerve Food may seem slow at first, it is most highly satisfactory, because the benefits obtained are lasting. You can feel that each dose is at least doing some good, and that you are on the road to recovery.

Dr. Chase's Nerve Food, 60-cent box, 6 for \$2.75, all dealers, or Edmondson Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

Is Your Blood Starving For Want of Iron?

Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Deficiency in Blood of American Men and Women.

Why Nuxated Iron so Quickly Builds Up Weak, Nervous, Run-Down Folks—Over 3,000,000 People Annually Taking It in This Country Alone to Increase Their Strength, Power, Energy and Endurance.

"Is your blood starving for want of iron? If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally starve for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood, and who never suspect the cause of their weak, nervous, run-down state. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force that stamens and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable."

Which kind of man are you?

Which kind of woman are you?

"I have strongly emphasized the great necessity of physicians making blood-examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real and true cause of their trouble. Without iron in your blood your food merely passes through the body, something like corn through an old mill with rollers so wide apart that the mill can't grind."

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable, and all 'run-down,' while at 50 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy."

"As proof of this take the case of Former United States Senator and Vice-Presidential nominee Charles A. Towne, who at past 58 is still a veritable mountain of tireless energy. Senator Towne says: 'I have found Nuxated Iron of the greatest benefit as a tonic and regulative. Henceforth I shall not be without it. I am in a position to testify for the benefit of others to the remarkable and immediate helpfulness of this remedy, and I unhesitatingly recommend Nuxated Iron to those who feel the need of renewed energy and the regularity of bodily functions.'"

"In commenting upon the value of Nuxated Iron as a means for creating red blood, strength and endurance, Dr. Ferdinand King, a New York Physician and Medical Author says: 'Scarcely a day goes by but I see women whose careworn faces, dragging steps and generally weak, tired appearance show unmistakable signs of that anemic, run-down condition usually brought on by lack of iron in the blood. There can be no strong, healthy, beautiful women without iron and thus much as refining processes and modern cooking methods remove the iron of Mother Earth from so many of our most timely different things from Nuxated Iron.'"

"But in my opinion you can't make strong, keen, forceful men and healthy

rosy-cheeked women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are ready to be taken up and assimilated by the human system. Notwithstanding all that has been said and written on this subject by well-known physicians, thousands of people still insist in dosing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and Iron and other similar iron products and failed to get results remember that such products are entirely different things from Nuxated Iron."

be supplied by using some form of organic iron just as we use salt when our food has not enough salt. "Iron is absolutely necessary to enable your blood to change food into living tissue. Without it no matter how much or what you eat your food merely passes through you without doing you good, and as a consequence you become weak, pale and sickly-looking just like a plant trying to grow in a soil deficient in iron. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby. The memory fails, and often they become weak, nervous, irritable, despondent and melancholy. Give such a woman a short course of Nuxated Iron and she often quickly becomes an entirely different individual—strong, healthy and rosy-cheeked. I have used Nuxated Iron widely in my own practice in most severe, aggravated conditions with untiring results. I have induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its great power as a health and strength builder."

MANUFACTURERS' NOTE: Nuxated Iron which is used by Dr. Sullivan and others with such surprising results, and which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists everywhere. Unlike the other inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they refund your money. It is dispensed in this city by Wassons Drug Store and other druggists.

Take Every Precaution - Safeguard Your Health

A SERIOUS Epidemic of Spanish Influenza has spread throughout this country bringing sickness—and even death to many of our homes.

We owe a great deal to the health officials in the various municipalities who took such firm and quick action in dealing with this epidemic. But for their almost superhuman efforts in the face of many obstacles the ravages of this disease might have been much more serious.

The "Ban" has now been lifted in many localities and the number of cases reported in other districts is rapidly decreasing, but we are well advised to still take every precaution to safeguard health.

Many people have considered it necessary in renovating their bedrooms to discard old mattresses and buy new ones—and rightly so.

There is probably nothing in the home that is so essential to keep clean and sanitary as the mattresses. How very important it is, then, in selecting a new mattress to buy one that is guaranteed to be made of new, clean, and sanitary materials.

In the United States various state laws require manufacturers to attach a label to mattresses, stating exactly what is inside—guaranteeing nothing but new, clean, and sanitary materials.

At present there are no pure bedding laws in Canada. We, however, realizing our responsibilities as the largest manufacturers of Beds and Bedding under the British Flag have made a law into ourselves and have fought the pernicious practice of using second-hand materials in mattresses. Furthermore, we have rigidly lived up to our own pure bedding law established with the inception of this business twenty-seven years ago.

Whenever you buy a mattress bearing the well known "Alaska Guaranteed Bedding" trade mark, you are assured that the mattress contains absolutely nothing but new, sanitary materials.

Whether it be the high grade cotton felt used in our more expensive mattresses or the sun-dried sanitary wood fibre and felt filling of the cheaper grades, there is only one standard of cleanliness. You are also buying the utmost in sleep comfort, and as one physician has said: "Perfect sleep is the greatest medicine in the world."

All furniture stores sell and recommend "Alaska Guaranteed Bedding". Your dealer will sell you Alaska Mattresses, ranging from \$6 to \$30 all clean and comfortable.

Other devices merely imitate; this wonderful instrument Re-Creates. No human ear can detect a shade of distinction between an artist's living voice and a Re-Creation of it on the New Edison. This is a startling assertion but it has been proved more than 1500 times by the famous tone tests in which the artists sang in direct comparison with the instrument. More than 2,000,000 people have attended these tone tests; more than 1500 newspaper critics have reported them. And the verdict was unanimous: artist and instrument were indistinguishable. Call at our store and satisfy yourself about the New Edison. Edison Re-Creations should not be played and cannot be played properly on any other instrument. If they could be, the manufacturers who seek to profit by Mr. Edison's research work would be able to make tone test comparisons, such as we have made with the New Edison before two million music lovers.

Coal Handlers Work For All But Dominion Co.

By arrangement with the British admiralty the Coal Handlers, who have been holding out for a wage schedule of seventy cents an hour, will resume work at the new rate, but they are still at odds with the Dominion Coal Co. and R. P. & W. F. Starr Coal Co., who at a meeting yesterday offered them sixty cents per hour which the men declined.

At a meeting last night between a delegation from the Coal Handlers' Union and Sir Arthur Harris, minister of shipping for the imperial government, Sir Arthur met the demands of the union of seventy cents an hour on behalf of the British admiralty. The meeting took place on board Sir Arthur's private car at the depot as he had wired H. H. Blennerhasset to arrange it. The offer made by Sir Arthur was for seventy cents per hour and a signed agreement for twelve months, starting from the first of December, was stipulated.

A meeting of the Coal Handlers' Union was held last night at their rooms to decide on Sir Arthur's offer. The matter was decided favorably and it was agreed to have the same delegation, consisting of President F. Freestone, P. McKinnis, W. Doherty, and W. McNulty, with Mr. Blennerhasset, meet Mayor Hayes this morning at 9 o'clock and give him their decision of acceptance of the offer which the mayor will wire to Sir Arthur.

The Coal Handlers' delegation had a conference yesterday with Mr. McKenzie, traveling superintendent of the Dominion Coal Co., and Mr. Meisnac, first Vice-president of the same company, in reference to the new wage schedule. Acting on behalf of the Dominion Coal Co. they turned the offer down but stated that they would pay the men at the rate of sixty cents per hour. This was not acceptable to the men, and at the meeting last night they decided not to work for the Dominion Coal Co. or R. P. & W. F. Starr's Coal Co. until the demands of the men for seventy cents an hour rate are met and a twelve months' agreement signed.

Charles Swanton, of Swanton Bros., was in attendance at the meeting last night and hired most of the men available to carry on the work on the West Side of coaling the steamers so that they will not be detained. Some of the men returned to work last night, and it is expected that they will all be working today.

TIM HEALY'S WIT.

Halifax Chronicle:—Tim Healy, whose retirement takes from the wit of the British Parliament, will still continue practice at the bar, where, also, he has a reputation for saying biting things. The Westminster Gazette gives one ex-

ample. He was engaged in an Irish suit in opposition to one of his most pronounced political antagonists, now occupying a high place on the Irish bench. In his address to the jury this gentleman went to the length of shedding tears, or, at any rate, Mr. Healy professed to think so. "Gentlemen of the

jury," he said in his own address, "there has been no such miracle since Moses struck the rock."

Annual Meeting Of Playgrounds Association

Reports Submitted Now Excellent Work Accomplished During the Year—Officers Elected

The annual meeting of the Playgrounds Association was held in the Y. M. C. A. last evening with the president, A. M. Belding, in the chair. The reports of the president, secretary and treasurer were read and adopted.

The president's report dealt upon the development of several neighborhood playgrounds this year, and the importance of this new movement, as well as the grant for Rockwood recreation field. This, he pointed out, brought up the vital question of proper control of all the playgrounds. He said the coming year should witness a great development of the playground idea, and especially commended such work as that of the South End Improvement League. Special reference was made to the Boys' Club and its work.

The secretary, Mrs. Good, gave a comprehensive review of the year's work, showing that the six supervised playgrounds had been successfully conducted last summer, and the Boys' Club in the winter. The work of the Girls' Club had been taken over by the Y. M. C. A. and the Playgrounds executive rejoiced that the Y. W. C. A. work had been so successfully inaugurated. Mrs. Good's report covered the year's work, showing what had been done, and pointing out where lessons useful for future use had been learned.

Treasurer's Report.

The report of the treasurer, Mrs. George Dishart, showed receipts for the year \$3,320.30. This included the city grant of \$2,500. The expenditure was \$2,602.76, leaving a balance of \$617.54. In addition to teachers' salaries during the playgrounds season and in connection with the Boys' Club, the sum of \$392.72 was spent for supplies and repairs. Other items included fuel, insurance, light, rent of Boys' Club and miscellaneous expenses.

The following officers were elected for the ensuing year: President, A. M. Belding; vice-president, Captain A. J. Mulcahy; secretary, Mrs. W. C. Good; treasurer, Mrs. George Dishart; assistant secretary, Miss Goodwin; auditors, H. H. McLellan and R. S. Ritchie; additional members of the executive, Miss Leavitt, Mrs. J. H. Doody, Mrs. T. N. Vincent, Mrs. H. C. Groat, Mrs. A. M. Belding, Mrs. W. E. McIntyre, Mrs. A. J. Mulcahy, Mrs. A. C. D. Wilson and M. E. Argy, with several more to be chosen later.

Votes of thanks were extended to the officers, on motion of Miss Leavitt, and also to Captain Mulcahy for his work in connection with the painting of the Allison pavilion and fence.

The association endorsed the secretary's action in offering to take Duke's ward for the Children's Aid tag day, and she was appointed convener with Mrs. McVitty and Mrs. Belding as captains of teams.

Mrs. Groat, Mrs. McIntyre, Miss Goodwin, Mrs. Belding, Mrs. Dishart and Mrs. Wilson were elected delegates to the Women's Council.

Returned Men Were The Hosts

That the returned soldier had an all important duty yet to perform in the public life of Canada is thrusting out incoherent men and imparting the same spirit that animated him overseas; that the returned soldier should stand outside making the man inside; that side what he should be; that there were many things yet undone in the national life of this country to the undoing of which the returned men should work; and finally that every reasonable consideration should be shown the man who has fought and bled, were among some of the speakers at a splendid smoker and entertainment in the Great War Veterans' rooms last evening at which Major Gordon Johnston, chairman, acted as toastmaster.

The "Vets" had as their guests the lieutenant-governor, Hon. William Pugsley, Mayor Hayes, Brigadier-General MacDonald, G. O. C. M. D. No. 7, H. W. Wigmore, Hon. J. B. M. Baxter, M. L. A.; Hon. R. J. Ritchie, Major S. S. Wetmore, acting A. A. G., local headquarters, Commissioner E. J. Hilyard, many male members of the soldiers' reception committee besides friends of the G. W. V. A. Speeches were given by Lieut-Governor Pugsley, Mayor Hayes, who spoke on the matter of special taxation for all returned soldiers; J. B. M. Baxter, General Macdonell, R. W. Wigmore, M. P., and Hon. R. J. Ritchie. A programme of music was carried out by Mrs. Murray Long, A. W. Baird, S. H. Hayes, Robert Carson, Sergeant Logan and an act supplied by the Opera House through Mr. McKay, manager, Dudley Robilliard acted as accompanist.

Greater food value—increased palatability

In making chocolate cakes use

BAKER'S CHOCOLATE

with barley and hard wheat flour.

The chocolate covers the color and taste of the dark flour so it is practically as good as when made with all white flour.

This use of cocoa or chocolate increases the food value of the prepared dish.

First Details Of Canadian Armies

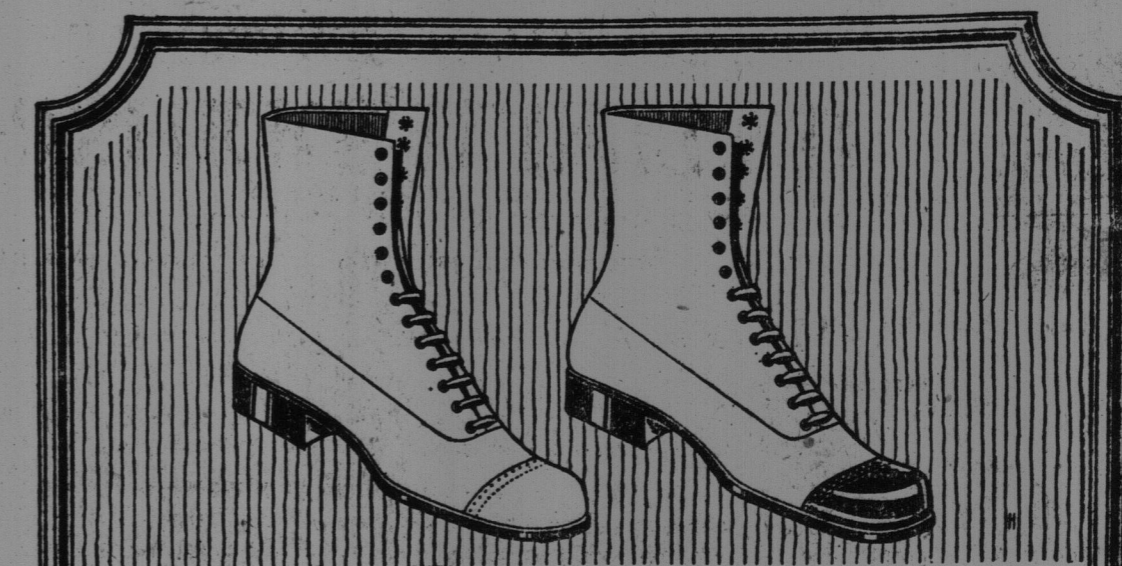

The cessation of hostilities in France and Belgium has made the publication of the Order of Battle of the Canadian Forces possible. During four years of war the Canadian troops have covered themselves with glory on the western front and have participated in battles the winning of which has contributed effectively to the victory of the cause of civilization and humanity.

The Canadian forces on the western front comprise the Canadian Army Corps, which includes four infantry divisions of nearly 80,000 men; corps troops of about 10,000 men, the Canadian cavalry brigade which is about 8,000 strong and the line of communication, railway, forestry and other services. Altogether there are about 160,000 Canadians in France.

The second Canadian division under Major-General Sir H. E. Burdall included the Fifth Infantry Brigade, under Brigadier-General T. C. Tremblay, in which was brigaded the 26th battalion from New Brunswick. Brigadier-General Tremblay was formerly O. C. of the 22nd French Canadian battalion.

Although it was announced previously that New Brunswick was given another representative battalion at the front careful perusal of the list fails to see any other battalion, outside the 26th, credited to this province.

It is worthy of note that Canadian special units served with each British army, among these being the Canadians with the Second British army under General Plimmer; the Canadians in the Third army under Byng; with the Fourth army under Rawlinson, and with the Fifth under Birdwood, all distinct and separate from the Canadian command under General Currie.

Good shoes are necessary to children. A correct last and a shoe made for service are always demanded by careful thinking parents. Models made in Black or Brown leather.

Consider the Extra Dollar

PAIR of shoes at a dollar more may easily wear twice as long as a similar-looking pair at a dollar less. That dollar of difference buys as much as all the rest of your investment.

Watch these extra dollars carefully. Consider what they will buy before you spend or save them. Spend them wisely, for real service rather than for mere appearance, and they will buy many times their own value.

You can buy quality shoes at fair prices if you will do this. But don't spend too much. Watch the extra dollars at the other end of the scale. An extra dollar spent for "frills" is a dollar wasted.

To buy wisely in these days of high prices, do this:

Put Service First. Ask your dealer's candid opinion as to wearing value. Look for the manufacturer's trade-mark on the shoes you buy. This will give you a double guarantee of service.

JUDGMENT IN CASE OF SISTER MARY BASIL

Toronto, Dec. 6.—By a judgment of the appellate branch of the supreme court of Ontario, today, Sister Mary Basil loses her case against the Roman Catholic diocesan corporation of the diocese of Kingston and the Sisters of Charity of the House of Providence, but the jury verdict in her favor against Archbishop Spratt, Sister Mary Regis and Dr. Phelan is confirmed.

The court today through Chief Justice Sir Wm. Meredith gave a finding sustaining the appeal of the two corporate bodies against the jury verdict, but dismissing the appeal of the individual defendants in the case. In general terms, the judgment declared that the corporate

bodies in question were not responsible for their representatives' acts in this matter.

The verdict of the jury gave the Sister \$20,000 damages as against the archbishop, Sister Mary Regis, Mother Superior, the diocese and the Sisters of Charity and \$4,000 as against Dr. Phelan, in connection with the forcible removal of Sister Mary from the Sisters of Charity institution.
