Prince Away At Early Hour Today

Warships Left For Halifax At Seven O'clock

His Royal Highness Expresses Appreciation and Gratitude For Welcome and Says He Will Come Again — Arrangements Carried Through Successfully to Completion of Programme.

St. John's distinguished and royal guest, the Prince of Wales, has gone. He and his party left this morning about 6:30 o'clock for Halifax. The warships were notified in the harbor by early rising citizens, but once the order to move was given they sped out of port with remarkable quickness. As one man said: "One moment they were here, the next they were gone."

IN HALIFAX ON SUNDAY MORN

Prince to Attend Service on Board The Dragon

Charlottetown on Tuesday and Quebec on Thursday—Will Stay in Letter Place Until Following Sunday Afternoon

Halifax, N. S., Aug. 16.—The cruiser Dragon, with the Prince of Wales is due to be in Halifax harbor on Sunday morning. The prince will attend divine service on board the cruiser that day. He is due at Charlottetown at ten o'clock Tuesday morning, and if it is considered necessary to leave Halifax at six o'clock Monday evening, in order to make that hour in Charlottetown, he will then. If the weather is such that the trip can be made by leaving at 9:30, the start will be delayed till then.

To Receive Son's Medal

Sydney, N. S., Aug. 16.—Mr. and Mrs. Dennis O'Day of Port Morden will attend an investiture to be given on Monday in Halifax by the Prince of Wales. They will receive a military medal won by their son, the late Corporal M. J. O'Day, in France last year. He was killed during the Cambrai operations in September last year.

In Quebec on Thursday

Quebec, Aug. 15.—Elaborate preparations are being made here for the reception of His Royal Highness the Prince of Wales on Thursday at 5 p. m. He will leave on Sunday at 2:15 p. m.

Pavements in the streets through which the prince will pass are all being repaired and a thorough cleaning is being given the entire city. Arrangements have also been made for fireworks displays. A beautiful arch will be erected in Du Fort street opposite the Place d'Armes square with the Majestic monument of Samuel De Champlain on one side and the Monument of the Patrie on the other. All buildings will be decorated with flags and the civic and government buildings will be brilliantly illuminated every night of the prince's stay.

BIGGEST SEIZURE OF LIQUOR YET MADE IN TORONTO

Lot of 225 Cases Captured and Several Rich Citizens Are Arrested

Toronto, Aug. 16.—"I'd rather give \$30,000 than have to appear in court over this."

The words were spoken to a provincial license inspector yesterday following the biggest haul of illicit consigned liquor yet made by the department. Certain well-to-do Toronto citizens grouped in a downtown hotel were placed under arrest, and others are being sought by provincial license inspectors who located a suspected box car on the railway tracks this morning and seized 225 cases of whiskey, which were consigned to Toronto from Montreal. The names of those arrested have not been made available.

HEAT WAVE OVER BRITAIN AND FRANCE

London, Aug. 15.—(Reuters)—The heat wave over Britain and France continues. M. H. Molau, a French astronomer, attributes the conditions to sun spots. Telegraph and cable lines in different parts of the globe have been affected by the upsetting of the world's telluric currents, resulting in occasional heavy delays on all routes.

As Hiram Sees It

The Settlement, Aug. 16. Mr. Hiram Hornbeam and Mrs. Hornbeam were tired but happy when they returned from the city last evening. They had seen the Prince, and Mrs. Hornbeam had a word with him.

"Why, he was just like one of our own boys," said Mrs. Hornbeam. "I could-a hugged him right there. He seen me lookin' at him, an' I guess he knowed I was glad to see him, for he come right over an' took me by the hand."

"I don't know," says Hiram. "Say, Antie, says he, 'tell the folks for me that I got to play this game of bein' a Prince, but it makes me dizzy. I hope you set much store by dices in Canada. I think I read where they talked about it in Ottaway.' Princes says I must go now, but see what they want me to do next. Some people turned up their noses when he shook hands with me, but I'm glad I got a chance to tell him how common folk feel about it."

"And you," said the Times reporter to Hiram, "how did the Prince impress you?"

"Nice boy," said Hiram—"just a nice, good-lookin', sensible young feller. He didn't stick no umbrella up so you couldn't see—no did he tramp on nobody's feet—he didn't shove through the crowd as if he hed no manners—an' he didn't strut around as if he wanted to be looked at. It done me good to hear the crowd cheer. He did loosen up some yesterday, all right. I didn't get no chance to talk to the Prince. I hed a hard sayin' I could see whar I wanted to go, but one of them policemen said it was no good, an' pushed me right back into the crowd. I guess he thought he was the king. I seen Borden makin' signs to me, but I don't know whether he got union government now or not—no I didn't see what we'd see hed if the Prince an' that was all I wanted. But I did see somethin' else. I seen a sober town. Just think what we'd see hed if all them bar-rooms was open. St. John's all right—an' I'll bet it give the Prince a good opinion of this hull country—yes, sir."

ARCHDUKE JOSEPH TO QUIT POLITICS

Socialists Join Hungarian Cabinet on Understanding He Will Leave When Cabinet Formed—Peasants Aiding Anti-Bolsheviks in Russia — German Assembly Sticks to Its Name

Will Retire

Berlin, Thursday, Aug. 14.—(By the Associated Press)—The Socialists were conciliated and agreed to join the new cabinet when Archduke Joseph, the governor of state, today reiterated his intention to retire from politics when the cabinet was definitely formed. The Socialists had feared that Royalists influence would be used in the coming elections for the proposed constituent assembly.

Aided by Peasants

Omsk, Sunday, Aug. 10.—(Russian Telegraphic Agency)—Anti-Bolshevik forces operating in the southern front of Russia are being aided by peasants' revolts, it was stated here today by military authorities of the All-Russian government.

Sticks to Name

Berlin, Thursday, Aug. 14.—(By the Associated Press)—President Feherbach announced to the National Assembly today that the government had agreed unanimously to the recommendation of a committee that the assembly should continue to retain its name of the constituent German National Assembly. The rights and duties given the Reichstag by the constitution, however, would become those of the assembly.

Rioting In Ireland; Nationalists And Orangemen In Fight

Londonderry, Aug. 16.—Rioting and looting occurred in this city during last night and early this morning. Troops charged on mobs, but did not fire any shots. The soldiers, however, were met with a volley of stones when they attempted to break up a Nationalist demonstration. The monetary loss from looting and from damage to property is estimated at thousands of pounds.

The trouble started when Nationalists set fire to a large number of tar barrels which had been collected beneath an arch over which was displayed a picture of Edward De Valera, president of the Irish Republic and sang the Soldiers' Song. Unionists responded by singing the National Anthem. One force of troops kept the crowds apart, while other detachments attempted to clear the streets, charging upon the demonstrators. Many windows were smashed and shops were looted by the crowds, and the city was in darkness the entire night. More rioting is feared tonight.

Although several revolver shots were heard during the rioting, no reports of any one having been injured have been received. The troops declare that none of them fired any shots and that when they drove back the crowds they raised in the air.

Belfast, Aug. 16.—Ten Nationalist exiles were injured during a fight Friday night at Lisburn. The Nationalists had attended a "Lady Day" celebration at Louth. In the riot at Coal Island, County Tyrone, the trouble at Lisburn took place after the Nationalists had attended a "Lady Day" celebration at Louth. In the riot at Coal Island several policemen and military officers were injured severely.

ADMITTS HE HAS SEVEN WIVES; GOES TO PRISON

New York, Aug. 16.—Convicted of bigamy upon his confession that he has seven living wives, one of whom he married twice, Charles Hugh Wilson, forty-eight years old, former Y. M. C. A. secretary, was sentenced yesterday to three years and six months in Sing Sing prison where, he announced, he will take up prison reform work.

Judge Wehman told the prisoner he would have given him five years, the maximum sentence, but that he had mercy on him because he had been in a Wisconsin penitentiary for a larceny which another man afterwards confessed to having committed.

POLITICAL TRANQUILITY CANNOT CONTINUE LONG

Status of New Liberal Leader and Two New Ministers in Parliament Indefinite

General Arthur Ross May Enter Cabinet—Problem of Finding Seats—Legislation Pending

(Special to Times)

Ottawa, Ont., Aug. 15.—With the reopening of parliament only about three weeks away the tranquility of a mill pond characterizes the political situation at Ottawa. That the calm will be troubled before long there is no doubt, but in the meantime the premier is engaged in doing honor to the prince and most of his colleagues are holidaying. Cabinet reconstruction has stopped in the middle and no provision has been made or steps taken even to bring the two ministers who have been appointed, within parliament. Under the franchise act passed last session it is computed that thirty-seven days must elapse between the issue of writs and polling day in the case of by-elections held in countries other than those not possessing a centre of 1,000 inhabitants or over. The situation, both as regards Sir Henry Drayton and Dr. S. F. Tomlin, the new ministers, and Hon. W. L. McKenzie King, the newly elected Liberal leader, is somewhat uncertain.

Dr. Tomlin will, of course, run again in Victoria. Sir Henry Drayton does not yet know in which constituency he will run. It would appear that wherever he chooses to stand for election he will be opposed either by a Liberal, a straight Conservative, a Labor representative, a Farmer, candidate or a Returned Soldier or by several of those named. North Toronto has been mentioned but Sir George Foster still represents North Toronto and is still minister of trade and commerce. Other Ontario vacancies already existing include North Ontario, Guelph and Stormont and Kingston. It is stated that General Arthur Ross is to be brought into the cabinet as minister of soldiers' civil re-employment through the constituency of Kingston. In Guelph Mr. King may secure the Liberal nomination and there may also be a Farmer's candidate. North Ontario will also be good fighting ground for the farmers. Two distinct movements are ruffling the equanimity of provincial students here. They are a re-creation in politics and the growing agitation in Toronto and elsewhere for the reorganization of the old Conservative party.

The programme for the session is still in a somewhat nebulous form. Many estimates and the ratification of the treaty of peace will engage considerable attention as will also the measure of legislation emanating from the war measure act. It is stated that a prohibition measure will again be introduced. A permanent franchise act will furnish the greater part of the controversy of the session. In view of the appointment of a new leader for the Liberal party, it is probable resignations in the house will be watched with interest. Hon. W. S. Fielding, who has sat aloof from both parties so far, will come down to the front opposition desks.

Questioned about the government's attitude regarding the agitation in the high cost of living, Mr. Meighen said: "The board of commerce is now at work and has ample powers to deal with the question. Its personnel is satisfactory to the whole country. Whatever is necessary will be done by the board."

Ottawa, Aug. 15.—The order-in-council of May 8, 1918, appointing R. J. McCall as cost of living commissioner and the order-in-council of December 11, 1918 establishing the existing cost of living regulations are rescinded by the deputy governor-general-in-council in an order taking effect August 14.

Ottawa, Aug. 15.—The cost of living secured another advance during July, according to the current issue of the Labor Gazette. The average cost of a list of twenty-nine staple foods in some sixty cities at the middle of the month was slightly higher, being \$13.77, as compared with \$13.72 in June, \$13 in July, 1918, and \$7.42 in July, 1914. There was comparatively little change in fuel and rents.

STRIKES IN CANADA IN JULY

Ottawa, Aug. 15.—Seventy-three strikes, involving 35,696 work people and resulting in a loss of about 561,010 working days, occurred during July, according to the Labor Gazette. The time lost was considerably heavier, there being eighty strikes, with 87,917 work people affected and 1,445,021 working days lost. Thirty-two strikes were reported as having commenced in July and twenty-nine, affecting 17,350 people, were unsettled at the end of the month.

Looks Like Serious Effort to Cut Profiteers

GOLD STORAGE STOCKS SEIZED

Some 10,000,000 Eggs and 300,000 Pounds of Butter Taken in Detroit—Similar Action in Ohio Ordered—State and Federal Authorities Co-Operate

Washington, Aug. 16.—Close co-operation between state authorities who possess detailed information of food and price conditions and the attorney general and his staff of assistants empowered to enforce the food control law has been established as part of the government's fight to reduce the cost of living.

Instructions went out yesterday from Attorney-General Palmer to the two district attorneys in Ohio to proceed immediately to assist Governor Cox in the seizure of large quantities of meat, butter and eggs alleged to have been held in storage in that state for more than six to ten months, the legal limits. Criminal prosecutions will be instituted, it was said, if it can be shown that the purpose of hoarding prices. Officials here were inclined to think that the long period of storage indicated some other reason than an effort to spread the abundant supply of a production season over the lean part of the year.

Acting on a telegram from Governor Cox saying that a Cleveland concern, in order to escape possible prosecution for hoarding, was moving its meat products to warehouses in Chicago and destroying its records, the department of justice ordered the district attorney in Cleveland to look into the matter immediately. All attempts at transfer of goods in storage, officials said, would be summarily dealt with.

Seizure of large stocks of foodstuffs in storage continued yesterday and there were reports of libels filed in Cleveland and Detroit and preparations for such action in many cities. The department was informed last night that the district attorney in Detroit had filed libels in three cases and seized approximately 460,000 eggs and 800,000 pounds of butter, all of which had been held in storage for some time.

HON. MR. MEIGHEN ON LIVING COST

Winipeg, Aug. 15.—Hon. Arthur Meighen, minister of the interior arrived here today.

Questioned about the government's attitude regarding the agitation in the high cost of living, Mr. Meighen said: "The board of commerce is now at work and has ample powers to deal with the question. Its personnel is satisfactory to the whole country. Whatever is necessary will be done by the board."

LABOR MEN WILL NOT GET TOGETHER FOR A JOINT CELEBRATION

Quebec Nationals and Internationals Each to Have Own Observance of Labor Day

Quebec, Aug. 16.—The city of Quebec will have two processions of working men to celebrate Labor Day this year, as the relations between the international and national unions are rather strained. Delegations representing both bodies had a conference with the finance committee and the city voted \$800 to the national unions and \$200 to the international unions.

The national unions have secured exclusive privilege to use the Exhibition grounds for their field sports, while the international unions are obliged to go outside of the city to Montmorency Falls for their athletic competitions.

Asked by Mayor Lavigne why they could not hold their manifestation jointly, the international men said they were prepared to do so. The national men refused, saying that they had a contract with the exhibition commission, a body responsible to the city council, and would have nothing to do with the international men.

After I had taken several boxes, I was completely relieved of these troubles and have been unusually well ever since."

WILL FORM MOBILE MACHINE GUN UNIT

Ottawa, Aug. 15.—Colonel W. K. Walker, D. S. O., M. C., better known in the Canadian Expeditionary Force as "Tiny," who commanded first the cavalry brigade-machine guns and later the Canadian motor machine guns and armored cars, is perfecting arrangements for the formation of a mobile machine-gun unit of the permanent force. He has lately been in consultation with military authorities here and is now inspecting various eastern military districts with a view of reporting on the location of machine-gun sections. He will visit Montreal, Kingston, Hamilton and Toronto, and he has already put in his report on western districts.

It will be remembered that in the dark days of March, 1918, when the Fifth Army fell perilously back on Amiens, Field Marshal Haig paid a great tribute to the Canadian armored cars and machine-gun batteries and in his report declared "they saved Amiens." Colonel Walker was then in command of the force, which was made up of the Eaton, Borden, Sifton and Yukon batteries. Their casualties were not light, but they showed down the Germans until a new line could be dug in front of Amiens. In the victorious advance just a year ago they fought back victoriously over the same ground, holding the right of the Canadian flank. The brigade then was called the Independent Force, and was under the command of Brigadier-General Bruntin, Colonel Walker having command of the First brigade. It is with a view of collecting as many of the old machine-gunners who will join the permanent force as soon as possible that Colonel Walker is now visiting eastern military centres.

Joseph Devlin Makes an Appeal For the Old Nationalist Policy

London, Aug. 15.—Joseph Devlin, Nationalist M. P. for Belfast, addressing a meeting of Nationalists yesterday at Black Rock, Ireland, made an appeal for the old Nationalist policy as against the Sinn Fein policy in the matter of abstention from attendance upon the sessions of parliament. Mr. Devlin contended that the presence of the eighty Irish members at Westminster during the peace conference would have changed Ireland's fate because every voice raised for freedom in the House of Commons "resounded through two hemispheres." The Nationalists, Mr. Devlin continued, had given the Sinn Feiners fair play, but the future must show whether the old policy, so fruitful of results, or the new policy, so prolific in promises, was the better for Ireland.

ARMOUR AND HIS BOOTS

Chicago, Aug. 15.—J. Ogden Armour yesterday wrote a note of thanks to the Builders and Traders' Exchange whose members yesterday voted to send him a pair of shoes because he recently said high prices had led him to have his old ones repaired. He enclosed his address so the shoes would not go astray. He said when he saw the bids of the buyers and traders on building projects he marvelled that their generosity stopped at a pair of shoes. He said this was the year for him to buy a new wardrobe would be acceptable.

BABY HAD DIARRHOEA WAS GIVEN UP

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER

Mothers should look well after their children during the hot summer months as this is the time of year when the young ones are liable to all kinds of young complaints.

If your children have any looseness of the bowels do not experiment with new and untried remedies. Get one having stood the test of time. Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Comland, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor but to no avail. After I had given her up I read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. Within two days she was improving fast. I cannot ever praise it enough. I hope some poor sufferers will see this letter and lead them to a friend indeed."

Price 35 cents. Put up only by The T. Milburn Co., Limited, Toronto, Ont. the crowd.

And so the Prince passed on to the crowd, with the people shouting their welcome in the streets.

THORPE DROPS TO SECOND PLACE; COBB DOES WELL

Chicago, Aug. 15.—Jim Thorpe, Indian outfielder of the Boston Braves, has relinquished the batting leadership of the National League. He has dropped to second place with an average of .348. Cravath of Philadelphia has again advanced to the head of the list with .351. The number of 300 hitters is gradually dwindling, the list being cut to thirteen. Benny Kauff, New York, and Cravath are sharing home run honors with nine circuit drivers or each. Cutshaw, Pittsburgh, continued to show the way to the base stealers with twenty-eight thefts. Other leading hitters include McHenry, St. Louis, .330; Roush, Cincinnati, .323; and Wheat, Brooklyn, .318. Ty Cobb, Detroit's star, increased his lead among the American League batters during the last week, and is now fourteen points in front of the runners-up—Veach, a teammate, and Sister of St. Louis, who are tied for second place with .371. Sister is out in front among the base stealers, with twenty-four stolen sacks to his credit. Ruth, Boston, seems unable to increase his home run total, which remains at sixteen. Other leading batters include Peckinpaugh, New York, .340; Jacobson, St. Louis, .335; and Jackson, Chicago, .331.

PICK POCKET GANGS ORGANIZED TO FLEECE CROWDS SEEING PRINCE

Montreal, Aug. 15.—"Pickpocket gangs with headquarters at Toledo and Philadelphia have a thorough organization covering all the places to be visited by the Prince of Wales, and have planned to operate on a wide scale in the crowds that will gather to see the royal visitor," said Chief Detective LePage today, "and parties of scouts from the bands have begun their survey of the largest centres. Numbers of them have arrived in Montreal, and I have a free hand in the place, as special measures have been taken."

GENERAL CURRIE TO MAYOR OF HALIFAX

Halifax, N. S., Aug. 16.—Mayor J. S. Parker has received the following telegram from General Sir Arthur Currie in reply to a message asking the distinguished soldier to accept an address and gift of plate from the citizens of Halifax. "Proud to accept invitation and address, providing arrangements do not conflict with visits minister of militia. It was arranged that I proceed direct to Ottawa stop."

FINE HORSES IN SOLDIERS' DAY PARADE

Among the different turnouts it is pleasing to note that three of the prize winning foals were drawn by horses. First prize, Murray & Gregory, drawn by McNamara Bros' six-horse team; fifth prize, Christie Wood Working Co., drawn by Frank Hazen's two-horse team; sixth prize, Trades & Labor Council, drawn by James Naves' and Henry Lowe's four-horse team. Credit is due our St. John draft horse owners for the magnificent showing their horses made. It is also worthy to note that the harness worn by the respective prize-winners were manufactured by R. J. Currie, 467 Main street, St. John, N. B.

A RECENT PICTURE OF SOLDIER PRINCE

Evansville, Ind., Aug. 16.—Leo Witt, a St. Louis lightweight, knocked out Battling McCarthy of Brooklyn, N. Y., here last night in the fourth of a ten round bout. Kid Alberts of Pittsburgh was disqualified in the sixth round of a preliminary bout and Jack Rogers of St. Louis, champion of the 88th Division, was given the decision. Bill Cole of Winnipeg, knocked out Al Montrey of Milwaukee, in the final round of an eight round bout.

NOTED BIRDS

(From the New York Evening Post.) It is time that someone compiled a "Who's Who in Fowls." The swan that accompanied Leda has been made forever famous. The one that furnished transportation to Wagner's Lohengrin has likewise achieved immortality. The black swan on the Rousseau island at Geneva attracted thousands of visitors long before the League of Nations ever thought of establishing its headquarters at that city. Ducks have made Long Island famous. In her "The Lover," Lady Montagu says: "And we meet with champagne and a chicken at last." Whereupon Lord Byron exclaimed to Bowles: "What say you to such a supper with such a woman?" The rooster is the emblem of a political party. And now comes the president presenting no fewer than four roosters to a delegation of serious-minded gentlemen from the south. They (the roosters) are to be auctioned off at the classic town of Demopolis, Ala., and the funds are to go for the building of a bridge across the Tombigbee. It is to be hoped that the \$200,000 to be raised on this occasion has no connection with the president's admirable idea that the price of

CONSTANTINE THINKS GREEKS MOURN FOR HIM
Again Denies He Was Pro-German—Only Wanted to Keep His Country Out of the War

Lucerne, July 30.—(Correspondence)—It has been the bright thought of some social genius to arrange an interview with ex-King Constantine of Greece to occur right between the salad and the desert of a banquet to be given to American Peace Conference correspondents by the Swiss of Lucerne. The dinner and the ex-king were in the same hotel. Thus it was that in the middle of a tribute given by one republic to another the representatives of the recipient republic should all go off and see a king. Soon we stood in the ex-regal presence and tried to distinguish wherein royalty lay. Certainly Constantine's dinner jacket was more frayed than any of us would dare to have worn—and he had a strangely shaped head. It was a head that bulged in front and behind and was small in the middle and like a well developed potato. It brought to one's mind all the hair-raising stories fishermen tell about the heads of infants whose skulls are deformed at birth. The uneasy, restless pouch-surrounded blue eyes under the bulging and wrinkled lid dead-white forehead recalled the blinking big-headed infants one finds in certain hospital wards. The interview was slow in getting started. The ex-king was feeling out his questions—asking them if they were to enjoy themselves, if they were to stay in Lucerne, and watching closely to see if their tones were friendly. One had to be surrounded by an entourage of people all in either hidden activity or forced idleness. Every time he strove out of the hotel a Swiss detective follows him and another detective follows the first. Gradually the interview took its gait and began to mean something as the questioned and questioners began to feel their way into each others' personalities. Constantine still stood with his feet well apart and shifted his weight from one foot to the other constantly—his hands twitched nervously behind his back. He was asked what he thought of the peace treaty; if there was any indication of Bolshevism in Greece; if he believed the Czar was dead; what he

GREAT FUTURE IN STORE FOR CANADA
U.S. of Today Only a Prototype of Canada at Close of Century
By A. B. Cooper, Canadian Associated Press.
London, Aug. 15.—I met Sir Arthur Bunn, and knowing that he is deeply interested in Imperial questions, and in Canada especially, I took the opportunity of asking him to talk to me on the subject.
"Now that Canada has made a great leap forward," said Sir Arthur, "achievements in a decade what she might have achieved in half a century, what are we going to do to stabilize that new found position, to make it a platform from which this vast dominion, with its mighty promise of greatness in achievement, may go on to even higher prospects. This is destined to be Canada's century, I could easily prophesy, and if I did so venture I would say that the United States of today is only a prototype of what Canada will be at the close of the twentieth century, and what I prophesy of Canada I prophesy also of Australia, New Zealand and South Africa."
"Personally, I am inclined to think that the basis of trade relations, superimposed, of course, upon the sense of natural kinship of which I have already spoken is the most promising road to these great ends. I see that the Canadian government has sent to London a trade mission which has already done very notable work in directing Canada's policy of trade. Surely this is a good precedent. What Canada has done why should not the other dominions do? Why, indeed, should not the Mother Country do likewise? If a trade mission comes from Ottawa, why should not a trade mission go there from London? Why do not Melbourne and Wellington and Cape Town send one? And why should we not have drawn from all of the missions and delegations a sort of Imperial trade union which should watch every trade route as the British Navy watches every coast, whose duty it should be to assist and further any enterprise which is for the well-being and prosperity of the Empire."

Is Your Nose Plugged? Have You Catarrh?
If Subject to Colds, Here is Real Good Advice
Don't load your stomach with cough syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Catarrhose, which cures a cold in ten minutes. Even Catarrhose—through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhose follow. You'll not have Catarrhose, or throat trouble if Catarrhose is used. Get it today, but beware of dangerous substitutes meant to deceive you for genuine Catarrhose. Large size, two months' treatment, costs \$1.00; small size, 50c; sample size, 25c; all dealers or The Catarrhose Co., Kingston, Canada.

WHY MAUBEUGE SURRENDERED

Paris, Aug. 16.—That the forts around Maubeuge were obsolete and incapable of withstanding artillery fire was brought out by a court of investigation into the surrender of Maubeuge to the Germans in September 1914, according to information received officially.
The investigation is charged in army circles, is an attempt on the part of politicians to place responsibility for the fall of Maubeuge on the general staff, while the latter, defending itself, is shifting the blame to the war minister, who had office in September, 1914, and to his predecessor.
Major B. M. Foulois declares the failure of American aviation is hopeless unless its control is taken from the army, the navy and the post office department and placed under a department of aviation.

ODD STORIES ABOUT DIAMONDS

Chicago, Aug. 14.—The loss of a diamond in these days of the gem's unprecedented prices and popularity is a tragedy. The finding or recovery of one is an event as thrilling as a border melodrama. There are three old little stories about diamonds recorded in recent news dispatches:
Frank Ford of Spokane, Wash., is a plumber. While tossing corn to his chickens, he tossed away a \$250 diamond from a loose setting in his ring. He issued a frantic search in vain. The stone was given up for lost. Six weeks later he killed a pullet for dinner. While cleaning the fowl, its interior plumbing arrangement interested him. He sliced open the gizzard. There lay his diamond.

land, bought a cockerel for \$1.10 and killed it. His wife was cutting up the gizzard to drop in a savory giblet sauce, and found a sparkling stone. She was not sure it was not a pebble. A jeweler assured her it was worth \$400. Not a bad profit on a \$1.10 investment.
A stranger dropped into the jewelry shop of Armand Jessop of San Diego and offered a diamond for sale at \$375. The jeweler removed the stone from its setting with a pair of tweezers and blew his breath upon it to study its possibilities. As he drew in his breath for a second blow, the diamond somehow leaped into his mouth and he swallowed it. With the diamond resting securely in his stomach the stranger demanded his price and got it. An emetic restored the gem and Mr. Jessop resumed his inspection of it. He found he had made a good bargain.

Instructions for the Young.
Yells from the nursery brought the mother, who found baby gleefully pulling Billy's curls.
"Never mind, darling," she comforted. "Baby doesn't know how it hurts."
Half an hour later white shrieks from the baby made her run again to the nursery.
"Why, Billy," she cried, "what is the matter with baby?"
"Nothing, mother," said Billy, calmly, "only now he knows."

THE ROYAL VISIT

It was with eager interest that the people of this city and province awaited the visit of His Royal Highness, the Prince of Wales. During his necessary brief stay in St. John everyone took deep pleasure in doing his or her share in adding to the success of the visit, and now that the eventful day has passed the memory will remain as one of the significant occasions in the history of this section of Canada.

INDUSTRIAL CONFERENCE

The Board of Trade has been advised by the Association of Canadian Building and Construction Industries that, at the request of the Minister of Labor, an industrial conference will be held at Ottawa on Sept. 11 to consider the recommendations of the Industrial Commission which recently investigated labor conditions throughout the Dominion.

THE VICTORY LOG (Special correspondence of the Christian Science Monitor.) London, England—The Log-Book of H. M. S. Victory, which Messrs. Sobhy by arranged to sell by auction, covers the period from Sept. 19, 1905, to Jan. 18, 1906, and was written by Thomas Atkinson, sailing master, of the navigating lieutenant, as he would now be called. The MS., as will be seen from the dates, includes an account of the Battle of Trafalgar as it was witnessed from the deck of the admiral's ship, and of the last voyage home.

St. John was still gaily decorated during much of this morning. It almost seemed as if the people were reluctant to put the gay colors away, so pleasant was the memory of Thursday and Friday.

THE LIBERAL LEADER. The Montreal Journal of Commerce says of Hon. W. L. Mackenzie King—The new Liberal leader, Mr. Mackenzie King, brings to his important station a record of the qualifications which usually command success—integrity, youth, energy, education, some political experience. One feature of the relations of capital and labor. He was the chief designer of the labor legislation which was placed on the statute book by the Laurier government during the period when he was, first, Deputy Minister of Labor, and later, Minister of Labor. That legislation, though it has not received the approval it deserved from the labor organizations, has unquestionably proved effective in many cases. How to deal with the labor question and its kindred problems is one of the most important subjects that can engage the attention of our public men. Mr. King brings to the public service a knowledge and experience in such subjects that should be of the highest value at this time. The leadership of one of the great political parties of the day, whether the party is in power or in opposition, is a position of high honor and large opportunity for usefulness. There is every reason to expect that Mr. King will worthily fill the place.

How Nuxated Iron Helped Me To Whip Jess Willard And Win The World's Championship

JACK DEMPSEY "TIGER OF THE RING" Tells a Secret of His Training—Recommends Nuxated Iron To Every Man and Woman Who Wants To Build Greater Strength, Energy and Power

Today recognized as the physical superior to any living man—the Superman of the Age—Jack Dempsey, Heavyweight Champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the supreme test of his career. In his decisive, smashing victory over the mighty Willard who had never before been knocked from his feet, Dempsey displayed a dynamic overwhelming strength and power never before known in the history of the ring. That he took Nuxated Iron as a part of his training is convincing evidence of the importance Dempsey attached to keeping his blood rich in strength-giving iron, and the high regard in which he holds Nuxated Iron as a master strength and blood builder.

According to reports Dempsey placed himself unreservedly in the hands of expert trainers and competent physicians and heeded their advice. In his opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition to be counted on for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaught of a giant like Willard. It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. There is today a widespread feeling of weakness, nervousness, irritability, easily fatigued, but it is utterly where the possession of super endurance is not him of that virile force, that stamina necessary. I feel that I am in a position to and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, man, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron. Dr. John J. Van Horn, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, and Dr. J. J. Van Horn, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, says: "Strength and vitality of body and mind are derived from the blood and the blood in turn derives it from the food we eat and the oxygen contained in the air we breathe. But unless the blood is rich in iron to increase its oxygen power, it cannot develop living tissue muscle and brain or keep active the vital forces. Strong, healthy men and women with plenty of iron in their blood are the ones who go through life with a smile, self-reliant and fearless and their dynamic power and energy make them virtuous masters of their own destinies. It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

Miles and Miles of Smiles

Have you ever stopped to think that others see you as you see them. This is hard to do when driving; but next time you're out for a spin, just "take in" the motorists you meet.

There's the man whose expression spells despair. Have you stopped to consider the strain the poor fellow is under? He is constantly in dread of his tires failing him.

Then there's the man with the smiles, lots of them, miles of them. HE KNOWS that whatever place he starts for, his tires will take him there and back without trouble.

Every mile is a mile of smiles for the motorist who uses Maltese Cross Tires.

BAD NAUHEIM

COULDN'T BE MUCH WORSE

Gambling in Germany is Reported Eating into "Plunger" Stage Now

Frankfurt-on-Main, Aug. 16.—Gambling is on the increase throughout Germany to an alarming extent, according to German newspapers.

"The demoralizing effect of the three gambling resorts erected in Bad Nauheim during the period of the soldiers' council is now seen in its grossest form. Following the scene of a week ago when a summer guest threw his revolver in the centre of the gambling hall at the Villa Heinenmann after losing 80,000 marks in an hour, another guest said to be from Frankfurt, was found murdered in one of the parks.

"At the Bristol hotel it is said that a German woman recently lost 85,000 marks by gambling, and could not pay her hotel bill, so she was obliged to auction her clothing and valuables.

BRINGS ROBES OF PRIEST OF THEBES

Egyptian Relics Dating Back 700 B. C. Given to New York Museum

New York, August 16.—Some of the personal effects of Pudu Bost, mayor and chief priest of Thebes, Egypt, about 700 B. C., arrived today on the Duca d'Aosta, consigned to the Metropolitan Museum of Art.

Mr. Lansing returned on the ship. He said he had brought only a few of the things for the Egyptian collection which he found. Most of the relics were left in Italy until arrangements can be made to bring them to the United States.

Mr. Lansing said an interesting discovery of his excavations was that of a more modern tomb, when he uncovered the grave of Pudu Bost, at a depth of forty feet, he found evidences that grave robbers had been there.

"I imagine they were frightened off before they were through, as we found many rare relics," Mr. Lansing said. "The excavating in Thebes, which is now known as Luxor, was most interesting. We found from inscriptions on the mayor's tomb which we deciphered that Anneris, whom opera lovers recognize as the queen in Aida, was the real queen of Upper Egypt when Mayor Pudu Bost died."

MENNONITES MUST OBEY SCHOOL LAW

Manitoba Court Declares Sect Has No Special Rights—Province is Supreme

Winnipeg, Aug. 16.—Mennonites in the province of Manitoba have no educational privileges not extended to all citizens, according to a judgment handed down today by the Manitoba court of appeal.

The court refused an application for permission to carry an appeal from this decision over the supreme court of Canada to the privy council, holding that the matter was so clear to the minds of the members of the court that they did not feel that they should interfere with the usual course of appeal.

By the judgment the court decides that the government intended to give the Mennonites, as they claim, the right to their own schools, but that even if this had been done the dominion government would have no such power, as the province of Manitoba has the exclusive right to deal with matters pertaining to education.

At Moncton on Tuesday evening Miss Hattie Idella Mitten was married to William Cookmanson by Rev. Hammond Johnson. The ceremony took place at

the home of the bride's parents, Mr. and Mrs. Valentine Mitten.

Miss Violet Ellen Chittick, of South Clones, was married to Emerson T. Glenn, of St. John, at the bride's home by Rev. J. Prescott on Tuesday.

Miss Florence Ethel Flagg, of Grand Manan, was married in Halifax on Wednesday to Daniel R. McDonald, of Port Huron, Mich.

RECENT DEATHS

Mrs. Thomas Tumith. The death took place yesterday of Mrs. Thomas Tumith at her home in this city at the age of sixty-nine years.

Four daughters survive—Mrs. James Harris, of Beaver Dam; Mrs. Frank Northrup, of Glouce Bay; Mrs. Donald McEachern, of Presque Isle (Mrs.), and Mrs. Ambrose Pelkey, of this city; and two sons, William of Boston and Arthur of this city. The funeral service will be held at 8.30 p. m. Sunday at her late residence, 309 City road. The body will be taken on Monday to New Maryland for interment.

Mrs. James W. Gallagher died at the Fisher Memorial Hospital, Woodstock, last night at the age of fifty years. She leaves two sisters.

A despatch from London says that King George has given assent to the bill

ratifying the German peace treaty. The act thus becomes law.

SOLDIERS WELL FED. At the Red Triangle in Charlotte street more than 8,000 meals were served to the visiting soldiers and last night the fifty beds were all occupied. Under the direction of Mrs. E. A. Young, the ladies of the West Side did wonderfully well in the way of serving meals in quick succession. Under the supervision of Mrs. J. W. V. Lawlor, the Women's Institute in Union street served some 650 meals and the doors of the Institute were open for the recreation of the men during the afternoon. At the other lunch stations generous provision was made also for the men.

DURING the last few years people have had to be content with many lines of goods that were inferior in quality to those procurable before the war.

To-day, people are demanding the better grades again. Those who from a mistaken idea of economy tried to be satisfied with common teas are coming back to Red Rose Tea. They realize that they cannot be satisfied with anything less than Red Rose Quality.

And Red Rose probably will cost them no more than common tea, because Red Rose not only tastes better—it goes farther.

Consisting chiefly of Assam teas—the richest and strongest grown—three teaspoonfuls of Red Rose goes as far as five of ordinary tea. A brewing will prove it.

Sold only in sealed packages.

How Sallow Skin Can Be Changed To Rosy Complexion

Every woman with pale cheeks and poor complexion needs medicine—needs a potent tonic to regulate her system.

To tone up the system—to insure good digestion—to give new life and vitality to the whole system—where is there a remedy like Dr. Hamilton's Pills?

Dr. Hamilton's Pills enable you to eat what you like—they correct constipation—make nourishing blood—instill force and vim into a run-down system.

If nervous and can't sleep your remedy is Dr. Hamilton's Pills—they search out the cause of your condition and you rise in the morning refreshed, strong, vigorous, ready for the day's work.

Dr. Hamilton asks every weak and debilitated person to use his mandrake and Butternut Pills. They make old folks feel young, and weak folks feel strong. Their effects upon insomnia and languor are marvellous. Hundreds declare they soothe and quiet the nerves so that a good night's rest always follows their use.

To look well, to feel well, to keep well, use Dr. Hamilton's Pills. They are mild, cleansing, strengthening—good for the young or old. Sold by all dealers in 25c boxes.

Whistler was once invited to a wedding of a mere acquaintance, and promised to be present. When the wedding party reached the church the artist was nowhere to be seen, but a telegram was handed to the groom, which read: "Am unavoidably detained. Can't get to the church in time. Don't wait."

Massachusetts, Pennsylvania, Virginia and Kentucky are officially styled commonwealths, although there seems to be no particular reason, except custom, as commonwealths has practically the same meaning as state.

AMERONGEN DIZZY WITH EXCITEMENT

Skittles the Only Thriller Before the ex-Kaiser Came—Now Obsessed With Mesage of the Bolshevik

London, July 28.—(Correspondence)—Before the ex-Kaiser and the Bolsheviks came to Holland, writes the Daily Mail correspondent at Amerongen, skittles were the only distraction there.

Nowing more excitement than is good for it. The local tobacco planters and rose-growers have been drawn into the vortex of high politics, for does not the village barber visit the castle every morning to brush the hair and trim the beard of Wilhelm, late German emperor, now prisoner of the anti-Bolshevik guard?

Armed with rifles and wearing orange brassards, they drill religiously every Thursday, marching through the village to the tap of the drum, admired by the girls and lauded by the boys. It is said that the ex-Kaiser in his moated castle

has shuddered at the tramp of the Amerongen Burgerwacht.

Dominating Problems. But the two dominating world problems—the ex-Kaiser and Bolshevikism—cannot distract Amerongen from skittles. Skittles as played in this village is not so much a game as an achievement. We have nothing like it in England, though I understand there are feeble imitations in Germany.

Imagine a long, narrow shed, with a polished plank about fifteen yards long and a foot wide, run-down the centre. The object is to roll bowls weighing fourteen pounds each and equipped with a hole for the thumb along the plank, and thus knock down all or some of eight skittles, and the difficulty is to keep the bowl on the plank.

A novice may play for hours without achieving more than a dislocated thumb and a swollen forearm, but an expert like our gigantic town clerk can work wonders with spin and bias. Like all good and ancient games, skittles has a ritual of its own. There is the solemn wailing of the right hand on a sponge, the gentle drying on a towel, there is the importance of the studied pause, the swift spring, and the correcting contortion of the body as the heavy bowl rumbles to the skittles, which are replaced by an attendant who risks death and maiming for 2s. a night.

The men of Rhenen, the neighboring Rhine village, fancy themselves at the game, but so long as our town clerk and his colossal brother retain their form Amerongen will be known as the champion skittles village of the province of Utrecht.

Bored and Tired. Meanwhile, playing at emperors in the moated castle, the ex-Kaiser is a bored and tired man. His chief ambition at present is to saw 10,000 trees into presentation logs. He shows as much pleasure in counting, arranging and inscribing these logs as a boy with a bag of new marbles, but the rest of the household do not share his enthusiasm. A log of wood is an embarrassing gift to treasure with any degree of sustained sentiment.

On fine afternoons he walks in the garden, where he has seen the roses bloom, the beautiful roses of Amerongen, blood-red now, but soon to fade and wither even as the ambitions of unworthy kings.

"What ails the car?" "From what father mutters, I gather that something is wrong with the blanket-blanket."

BELIEVED MAN FOUND ON TRACK WAS MURDERED

Thorold, Aug. 16—Early in the morning the engineer of a Grand Trunk freight train on the Welland Division, noticed the body of a man on the tracks, near the Beaver Board Company's plant, just south of Thorold, but was unable to stop the train before the engine and some cars had passed over the body. The crew at once notified the dispatcher at Merrinton, and John Flett, county constable, inside the pocket of the coat was the name O. Romano, March 25, 1918, made by the Premier Tailoring Co., 124 Richmond street west, Toronto, Ont. It is not known whether the man was hit by a train or murdered and placed on the tracks afterwards, as the body was found not far from the spot where a foreigner was beaten unconscious and robbed a few nights ago, and two other foreigners were attacked while asleep on the porch of their house by three men with an axe and knives. The body has been removed to Williams' Undertaking rooms, pending an inquest being held by Dr. Colbeck, of Welland.

SEES LOOPHOLE IN PROHIBITION LAW

Drinking Allowed and Statutory Permit "For Beverage Purposes"

New York, Aug. 16.—Contending that a proper interpretation of the words "for beverage purposes" in the prohibition amendment to the constitution will not make the country dry at all, but will only destroy the bar and saloon. Howard Major, who lives at the Hotel Commodore, Manhattan, brought what may prove to be an important action in the Brooklyn supreme court today.

He made application before Justice Crosey for a receivership to take over the affairs of the American Maltng Company, in which he owns 100 shares of common stock, and for an injunction to restrain the officers and directors of that company from carrying out the dissolution of the company, which Major says they have started. This dissolution, he says, has been commenced in order to turn over the property to a new company, which will operate after the ban of war-time prohibition is lifted.

Major says that the defendants are giving the impression that the country will be bone dry, when they know that it will not be so.

"Beverage purposes" means drinking between meals," says Major in his application, "and at bars and in saloons, for tipping purposes, for pleasure only. This amendment does not contemplate or prohibit drinking at meals or for food or for alimentary purposes. It is at the bar or the saloon that the amendment aims by the words 'for beverage purposes' and the supply of liquors for bona fide purposes to homes, hotels and restaurants is not prohibited by the amendment."

Most of the saloons are being turned into bakeries and lunchrooms and soon will be selling all kinds of liquor, Major adds.

TRAVELS WITHOUT WHEELS.

Looking toward the transportation facilities of the future, an American electrical experimenter, says the Boston Christian Science Monitor, believes that the chief means of travel will be trains without wheels, running on single tracks, and moving almost without friction, because they will slide on runners separated from the track by a thin film of water. In short, the fact that one plate of glass will glide practically without friction over another if there is a thin layer of water between them will be applied and worked out in running a train.

The idea of a train without wheels is sufficiently surprising, but according to the writer, a Frenchman had invented such a train just before the Franco-Prussian War, and the project was not resumed afterward, although a later

French inventor, made some important improvements. The advantage over modern transportation, if such trains became practicable, is prophesied as noiselessness of operation, equal carrying capacity, and about twice as much speed. The idea looks visionary; but after all it is not wise to distrust possibilities for that reason.

A HOT SPOT Chalmers Multiplies Its Friends

ONE Hot Spot Chalmers makes many friends. Those who own one like others to share the rare experience that goes with driving a Hot Spot.

This pleasure doesn't come solely from the reasons you might expect, such as, over-soft seats, a steering wheel at just the right pitch, generous, flat springs, or the like.

It comes from the engine—a new kind of power; not the terrific burst that you sometimes get from an immense engine, nor the roar that goes up when the "sporty" kind lets forth.

It's delicate, because you rarely hear it; it's soft, because it doesn't jar you; it's quick as lightning, for all you have to do is to touch the accelerator button gently.

The reason is found in Hot Spot and Ram's-Horn. Let us explain these two great improvements to you.

Then take one ride; and you will remember it long.

Three Hundred Mile Race is Being Planned For Horses in October

New York, August 16—A three-hundred mile endurance race for saddle horses is being planned by the Arabian Horse Club of America. The race, which will be one of the most remarkable ever held in this section of the country, will start at Fort Ethan Allen, Vt., and finish at Camp Devens, Ayer, Mass.

Three cash prizes totalling \$1,750 will be offered to the winners. Some of the best horse flesh in the country will compete and the winner will receive a cash prize of \$1,000 and a silver cup, on which will be engraved the name of the winning horse and that of the owner. The second prize is \$300 and show money will amount to \$250.

According to the plans of the race, it will start on October 14, and will continue for five days. It is for the purpose of stimulating interest in the breeding of cavalry horses throughout the country and also to determine the performances of various types of horses under the severe conditions of a forced march. The race is open to all who will comply with the conditions, which subject to modification by the judges, are in brief as follows:

The distance, approximately three hundred miles, is to be covered at the rate of sixty miles a day for five consecutive days, rain or shine, each horse carrying 200 pounds, inclusive of rider and equipment. Equipment will be optional.

The Post-War Maxwell is the Surprise Car of the Year

*More miles per gallon
 More miles on tires*

IT'S a mental stimulation to look over this post-war Maxwell and see one surprise after another in fine engineering.

You get the accumulation of war years in rare automobile ideas.

There's the new Lemoine type front axle, which gives a new delight at the wheel in its easy, castering effect in steering.

Then there's the heavy, new rear axle with the extra large, indestructible four pinion differential. And two universal joints of the oil-less disc type. They require no attention during the life of the car.

Brakes! The emergency is now found on the transmission, as on so many foreign cars. The service brake is the larger toggle type, and is equipped with equalizers, which prevent the tendency to skid.

In the rear now is slung the gas tank, large and with vacuum feed. No more gas fumes or gas leakage up in front.

Also equipped with Hot Spot and Ram's-Horn.

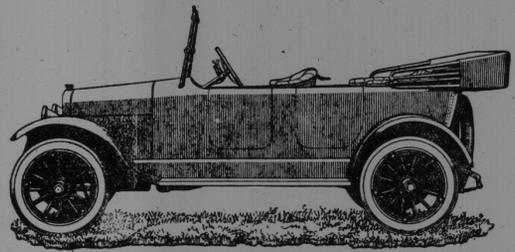

There are many more rare treats in store for you, but remember this Post-War model is the continuation of the original Maxwell chassis as laid down 5 years ago.

To date more than 300,000 have been built. The public has paid \$200,000,000 for previous Maxwells. This Post-War Maxwell is a greater car.

Be among the early ones to get this prized car.

LOCAL NEWS

BANK CLEARINGS St. John bank clearings this week were: \$2,687,541; last year, \$2,945,024; in 1917, \$1,764,740.

CHEERING REPORT. Friends of John Moore, who was seriously injured in an automobile accident recently, will be pleased to hear that he rested well last night and is greatly improved today.

A CHALLENGE. The Milford Creams challenge the Carlews of the North End League to a game of ball to be played on Firemen's Park Monday evening. They are also open to meet any other teams next week, games to be played on Firemen's Park. Answer is requested through the Times.

WILSON A. STINSON. The death of Wilson Alexander Stinson, eldest son of Mr. and Mrs. Alexander Stinson, occurred this morning at their home, 185 King street, West End. Besides his parents he is survived by one brother, Ronald. The funeral will be held from his parents' residence on Monday at 2:30 p. m., and the burial will take place at Lorneville.

TO BE CONTINUED. On account of the big attendance at the Veterans' fair this week, and for want of those who were unable to attend, it has been decided to keep the fair open on Monday and Tuesday nights. On Monday the show price will be a half ton of coal. This afternoon is children's afternoon. The life and drum band will be in attendance.

GAME THIS AFTERNOON. Baseball fans will be given an opportunity of seeing the fast St. Stephen nine, which has been playing a stellar brand of ball here during the holidays, and St. Peter's in a special match game, which is to take place this afternoon on Queen Square diamond. Both teams will line up their fastest players and a rattling good game is expected. O'Neil will pitch for the visitors and Hansen will pitch for the locals. The game is to start at 2:15 sharp (daylight time).

MET PRINCE FOUR TIMES. Though W. A. Cooper of East St. John did not meet the prince yesterday, although he was close to him through all his travels in the city, it would not have been the first time he had met him. Mr. Cooper was a sergeant in the original 26th Battalion and he met the prince no fewer than four times, while the 26th man was in hospital. He has the highest regard for the soldier prince. Mr. Cooper is now in the automobile business and he was chauffeur in the line yesterday, in charge of No. 2 car, immediately behind the prince's.

HALL-FRIAR. The marriage of Rheta A. Friar, daughter of Mr. and Mrs. E. A. Friar, of this city, to Dr. Irving C. Hall of Boston, was solemnized in Boston on August 12 by Rev. Dr. Penick. Miss Friar was popular among the younger set of St. John and has many friends here. She recently finished her course in a training school for nurses in one of Boston's hospitals where she and Dr. Hall became acquainted. Dr. Hall graduated from medical school in 1917. He has since served in the United States navy as a ship surgeon and had the rank of lieutenant-commander. Dr. and Mrs. Hall will make their home in Boston, after an automobile trip through the White Mountains.

TRANSFER NEWS IS CONFIRMED

D. W. Ledingham Brings Home Word of Sale of Thomson Business—Furness-Withy Company's Plans

With the active entry of the Furness, Withy & Co. Ltd., into the shipping business at this port, their taking over of the interests of William Thomson & Co. Ltd., and the opening of new lines to St. John, the commencement of a period of increased prosperity for the port is predicted. D. W. Ledingham, local manager for Wm. Thomson & Co. Ltd., has returned to the city from Montreal and confirmed the report that the company has sold out their full interests in St. John to Furness, Withy & Co. Ltd., of London, England. Mr. Ledingham was in consultation in Montreal with Mr. Blackiston, on the board of directors of the Furness company, and their representative in North America. Mr. Blackiston had arrived on Monday from England by the steamer Metagama. In conversation with Mr. Ledingham he said that the company was formulating plans for a considerable increase in the Canadian and United States steamship business. New lines would be opened and the port of St. John would receive a very large share of the Canadian business. The Wm. Thomson & Co. business is to be taken over formally on Sept. 1. Some of the officials of the Furness interests coming to St. John for that purpose. It is expected that important announcements as to their future plans will soon be made.

JAMES T. MCKINLEY DEAD

The death of James T. McKinley, a well known resident of St. John, occurred this morning in the St. John Infirmary. Mr. McKinley had been in failing health for about a year, following a stroke of paralysis which he suffered while at work on Partridge Island, where he was engaged in cooking for the soldiers stationed there. Yesterday afternoon he was stricken again and his condition being serious, he was hurried from his summer home at Loch Lomond to the infirmary, but died a few hours later. He has many friends in the city who will regret to hear of his death. Besides his wife he is survived by four sons, G. Herbert of Sydney and William E. James T. and Frank of this city, and one daughter, Mrs. James Boyle, also of St. John. Mr. McKinley's father, William McKinley, who resided in Scotland, was a veteran of the fire department and was seriously injured in an accident when his fire team crashed into another vehicle on the way to a fire some years ago, and has never fully recovered from the results. A brother, Charles, who lives in California, and five sisters also survive.

PRINCE AWAY AT EARLY HOUR TODAY

(Continued from page 1.)

John. He inspected the 26th Battalion guard of honor drawn up under Capt. R. A. Major, M.C., the royal salute was given, and after shaking hands with General Macdonnell, G.O.C. 7th M.D.; Lieut.-Col. Powell, A.A.G.; Captain Gooday, A.P.M., and Capt. Mulcahy, naval transport officer, the prince stepped into the launch awaiting him and was taken aboard the "Dragon." Huge crowds were assembled at the pier and gave him a hearty farewell cheer which he smilingly acknowledged. Aboard the "Dragon" last evening he entertained the Duke of Devonshire, Sir Robert Borden, who is going to Halifax in the warship with him, and Lieut.-Governor Pugsley at an enjoyable dinner.

Personally Complimented. Many were the compliments tendered D. Arnold Fox yesterday for the pretty and inspiring spectacle presented by the school children in greeting at Reed's Point, but none was so appreciated as the fact that His Royal Highness personally asked that Mr. Fox be presented to him. On being brought and presented the prince complimented him upon the excellent taste and the general effect of the gathering and the singing of the little ones.

His Excellency the Duke of Devonshire sought out Capt. A. J. Mulcahy, representative of the navy here as naval transport officer, and personally tendered his congratulations upon the manner in which the landing arrangements were carried out. The arch-royalist at Reed's Point, which attracted much favorable attention, was decorated by a committee of residents under the supervision of R. Chambers. The naval officials were most favorably impressed with the excellence of the arrangements for the disposition of the warships in the harbor which were under the personal supervision of the harbor master, F. D. Alward.

Official Appreciation. At 1 a. m., Saturday, daylight time, R. S. Barker, secretary to Lieutenant-Governor Pugsley, received the following message from H. M. S. Dragon: To the Lieutenant-Governor of New Brunswick, St. John, N. B.:

Before sailing for the day tomorrow, Saturday, I wish to express through you to the people of New Brunswick and the citizens of St. John my deep appreciation and gratitude for the most flattering welcome which I received on my first landing on Canadian soil. I regret my stay is so short, but I look forward eagerly to my next opportunity of visiting you all. (Sgd.) EDWARD P.

Other Visitors Away. The Duke of Devonshire with his staff left last night in private car by special train at 11.45. It is understood that his excellency will proceed to Campbellton where his yacht is awaiting him and he will sail on the yacht for Halifax.

Sir Robert Borden is to be the guest of His Royal Highness as far as the coast and will accompany him to that point on board H.M.S. Dragon to Halifax and Charlottetown, and then on H.M.S. Renown, to Quebec.

Sir Joseph Pope left yesterday for Halifax. Governor Miliken of Maine, and Mrs. Miliken left on the Boston train last evening for their home. Nearly all the other notable visitors to the city also left last evening on different trains, some to go on to Halifax for the reception there and others back to their homes. Chief Chamberlain of the Dominion, Police and the members of the force who were here also took their departure to Halifax last night by regular train to continue their duties there as headquarters to the prince.

Member of Prince's Crew. Among the members of the crew of the H. M. S. Dragon, was Thomas Mantle, first-class petty officer, who has had considerable war service with the British fleet. He is a nephew of Mr. and Mrs. John Mantle, 119 King street east, and paid them a visit yesterday which gave mutual pleasure.

Made Fast Time. The commander of one of the naval vessels allowed his enjoyment of the garden party at Robbsey yesterday to keep him later than he had intended. When he realized the hour, he sought a conveyance and for W. A. Cooper of East St. John in his car awaiting passengers. "How quickly can you get me to Robbsey?" he asked. "In eight minutes, if they give me a chance," Mr. Cooper replied. "Do your best," urged the naval officer. The trip was made in seven and a half minutes.

Good Work by Traffic Men. A feature during the celebration, and one which was not lost sight of by citizens, was the able manner in which local traffic policemen handled their arduous task. The work of Sergeant Thomas Sullivan and Policeman Frank Killen was especially good and many compliments were heard regarding the way they kept traffic moving and at the same time looked after the thousands of pedestrians. As a result of their vigilance and directions accidents were averted and traffic kept on the go.

Press and Camera Visitors. In connection with the visit of the correspondents for various newspapers in England, upper Canada and the States, to this city for the arrival of the Prince of Wales, efforts were made locally to have them brought together and entertained. This proved quite futile, however, as the correspondents were busy men and the idea of having a banquet in which they had to be abandoned. Then it was thought that a luncheon might be given them aboard their dining car last night but this owing to shortage of time had to be given up.

Last evening His Worship Mayor Hayes and W. H. Golding visited the press car and His Worship met all the representatives from the outside papers and the camera men. He voiced the city's regret that the hurry of events had prevented their being specially entertained while here. The newspaper visitors in reply said that they had enjoyed their stay very much. The facilities recorded them for carrying on their work had been exceptionally good, they had been treated in grand fashion and no matter where the tour would take them it would be hard to surpass what St. John had done in this regard. They were thoroughly pleased at the courtesy of His Worship's call.
