QUEBEC TAKES STAND ON PORT ISSUE

TRADE BOARD WOULD SUSPEND  
BRITISH PACT IF NOT FULFILLED

Wants Old Country to Carry Out Terms of Preference Agreement Giving Canada Reciprocal Advantages

TORONTO HEARS MARITIME PROBLEMS

Professor Fay Sees Solution of Eastern Difficulties in Development of Own Resources—Urges Lower Freight Rates to Develop N. B. Trade with Montreal and Toronto

Canadian Press.  
QUEBEC, QUE., March 13.—At the monthly meeting of the local Board of Trade yesterday, among several resolutions, unanimously adopted, was one dealing with the preferential tariff. It advocated the suspension of this agreement with Great Britain until such time as Great Britain actually starts to give to Canada the reciprocal advantages that were promised the Dominion when the agreement was entered into 20 years ago.

Use of Home Ports.

J. S. Royer declared that when he had been in Ottawa with a delegation of business men a short time ago, Premier King had informed them that in 1924 Canadian imports from Great Britain totalled \$102,000,000 under the preferential-tariff and \$82,000,000 of these goods had entered Canada via American ports; \$10,000,000 had entered the country through Canadian ports, and 20 per cent. of this total benefited by the 10 per cent. preference accorded for the reason that they did not come through Canadian ports.

Maritime Problems.  
TORONTO, Ont., March 13.—Before the problems confronting the Maritime Provinces can be permanently solved, they must be understood by the other provinces of the Dominion, Prof. H. Fay, of the University of Toronto, told the Women's Canadian Club here yesterday.

The Maritimes were relying overmuch on diverting certain traffic, such as wheat, to their ports, but the speaker believed that a more expeditious course would be the building up of their own traffic out of their own grand resources. These, he feels, they do not adequately appreciate.

Referring to Prince Edward Island, Prof. Fay said it was quietly prospering, because it developed its own natural purposes. Nova Scotia, in capitalizing its wonderful natural attractions, was brilliantly solving one of its problems, and the beauty of Cape Breton he compared to Switzerland.

N. B.'s Needs.

Dealing with the industrial needs of New Brunswick, he appealed for cheaper transport rates, in order to develop closer trade relationships between the Maritimes and Montreal and Toronto.

C. O. T. C. AT U. N. B. INSPECTED TODAY

Col. W. B. Anderson and Lieut. Col. H. C. Sparling Carry Out Ceremony at Capital.

Special to The Times-Star.  
FREDERICTON, March 13.—The annual inspection of the University of New Brunswick contingent C. O. T. C. took place this afternoon. Col. W. B. Anderson, D. O. C., and Lieut. Col. H. C. Sparling also attending. This contingent furnished the greater part of the guard of honor for the opening of the legislature.

OWN THREATENED

Disastrous Fire Which Swept Connecticut City, Brought Under Control.

THOMASTON, Conn., March 13.—Fire which threatened a large part of the business section of Thomaston, broke out in the Weston Block in the centre of the town yesterday, swept through that block and the Webster block, nearby, set fire to the Glenn Keagle building and menaced the telephone exchange and other buildings before it was brought under control at 2:30 this morning. Firemen fought the flames for three hours.

Blackmailers May Get Lash in England

LONDON, March 13.—In the debate in the House of Commons, following announcement by Sir William Joynson-Hicks, home secretary, that he was seriously considering drastic new penalties, including flogging, for blackmail, Commander Kenworthy, Liberal, Hull, said it was not the newspaper editors or proprietors who were to be flogged. It was the British public who liked to read "filth." Lansbury expressed his complete opposition to the practice of flogging.

INVALIDATE BARON ROTHSCHILD VOTE

Liberality to Voters Charged in Election of Financier to Chamber.

PARIS, March 13.—The election of Baron Maurice de Rothschild, a member of the well known international banking family, to the Chamber of Deputies to represent the Hautes Alpes, was invalidated by the first bureau of the Chamber yesterday after a lengthy discussion. The question now will go before the chamber for final decision. Alleged liberality to electors, described as coming close to the legal definition of corruption, are given as the reason for the action to contest the validity of the Baron's election.

EXPECT BUDGET TO ANNOUNCE FEW CHANGES

Some Revision of Customs Tariff Is Probable

REVENUE IS LESS

Receipts For 11 Months Off \$54,000,000; Expenses Cut Only \$4,000,000

Canadian Press Despatch.  
OTTAWA, Ont., March 13.—No sweeping changes are expected when Hon. J. A. Robb, acting Minister of Finance, brings down his second budget next week. There will probably be some revision of the tariff but reductions of importance in taxation are unlikely. General trade conditions have not been so good as was anticipated a year ago. There has been a considerable falling off in revenue.

Drop in Revenue.

When Mr. Robb makes his statement the fiscal year will not have been completed, but during the 11 months of the fiscal year up to February 28, there was a drop in current revenue of \$54,000,000, while current expenditure was only \$4,000,000 less than in the corresponding 11 months previous. The net debt at the end of February was two millions more than on February 28, 1924.

Short Session Likely.

Yet while no fiscal changes of great consequence are expected, announcement that the budget is to be brought down next week, has set political circles agog with gossip. The announcement is generally interpreted as implying a short session, closing possibly by May 24. The main bone of contention will be proposed subsidy to the Peterborough steamship line.

Fall Meeting Predicted.

Predictions that this will be the last session of the present Parliament are made freely. There is, however, another view that parliament will be summoned again late in the fall, wind up business early next year, with a general election following.

WHEAT COLLAPSES ON TWO MARKETS

Ten Cents a Bushel Drop and Much Selling in Chicago.

CHICAGO, March 13.—More than 10 cents a bushel collapse in wheat prices took place today, soon after business began. May delivery underwent an almost vertical fall to 171, as against 181 1/2 at yesterday's closing. Selling on a huge scale was witnessed.

WINNIPEG, Man., Mar. 13.—Influenced by a flood of liquidation lack of demand and sharply lower Liverpool cables, the wheat market here underwent a break of seven cents during the first half hour of trading this morning.

GOVERNMENT SHIP DOING BUOY WORK

New Mark Placed at Blonde Rock—Other Labor Accomplished.

YARMOUTH, March 12.—The Canadian Government steamer Dollard, Capt. Bayers, doing buoy and light house work, returned to Yarmouth this afternoon after spending several days at points between Yarmouth and St. John's. While out the ship replaced or attended a very large number of buoys, and among the job was a new one put down at Blonde Rock, replacing the one which during a recent gale had its superstructure torn away and destroyed. Tomorrow the ship is taking up the spar buoys in Yarmouth harbor, which, during the winter months, and will put out for the channel, and will place a new bell buoy at Port Maitland, and another at the Larcher Shoal, and the Northwest Ledge automatic off Brier Island.

ACTS DESPITE FALL

Tenor Sings 45 Minutes With Fingers Broken and Other Injuries.

Canadian Press Despatch.  
NEW YORK, March 12.—The jinx that seems to have pursued singers of the Metropolitan Opera Company this season, attached itself yesterday to Curt Taucher, German tenor, who narrowly escaped death when he fell 21 feet from the stage to a platform directly above the engine room during a matinee performance of Wagner's "Siegfried."

Despite his injuries, two broken fingers, badly swollen wrists and many bruises, Taucher, using a sword as a cane, was assisted to the stage and sang the role of Siegfried for 45 minutes of the last act before a capacity audience which had no inkling of the accident.

FREE STATERS WIN

Two Government Candidates Win Seats, Vacated by Nationalists.

DUBLIN, March 13.—Two more Government victories are reported as returns received today from the elections held to fill vacancies caused by Nationalist resignations from the Dail. In Kilkenny the Free State Bolger, received 24,142 vote to 16,830 for Barry, Republican.

Claims Buried Nevada City Older Than Tomb of King Tut

NEW YORK, March 13.—Older by thousands of years, according to the Haye Foundation expert, than the tomb near the great pyramids at Giza, there lies in southern Nevada a buried city, its walls covered by the drifting sand of the Mohopa desert. It is the oldest relic of a civilization that existed on the American continent nearly 10,000 years ago.

This buried city, lying along the muddy river, between St. Thomas and Yarrow, was discovered by an exploring party in charge of M. B. Harrigan of the Museum of the American Indian Haye Foundation, last November.

PROBE INTO MINE SITUATION RUMORED

N. S. Premier and Minister of Mines Hold Conference in Halifax.

Canadian Press Despatch.  
GLACE BAY, March 13.—A report that has gained considerable credence here is that Premier Armstrong within the next 24 hours will appoint a commission to conduct an enquiry into the coal mining situation and the present condition of affairs now a fall season strong and it was stated that no official announcement of the government policy regarding the wage dispute situation in Cape Breton would be forthcoming pending the minister's return to the province building.

INVENTOR SUICIDES

Sets House on Fire After New Type of Motor Proves Failure.

British United Press.  
LONDON, March 12.—Maddened by his failure to invent a new type of automobile motor on which he had spent years of his life and all his fortune, A. J. J. Gulard set the night in his workshop smashing a full size model of his invention to bits with a hammer. He then ascended to his apartments, wrote a farewell letter and let the building on fire.

Gulard and his wife were found dead in the smouldering ruins, each clasp in the arms of the other.

Saint John

SINCE the suggestion was made recently that the city revert to the old name of Parrottown, there has been much discussion as to the desirability of so radical a change. Along with leading business men and citizens, The Times-Star is of the opinion that the best way at the moment to make the name of the city distinctive is to spell out the name Saint John, instead of the abbreviated form that has become so prevalent, and beginning with today's issue The Times-Star will in future use the extended form, already being used by many business houses, with the hope that it will become universal.

\$10,000 DEMAND ON PURITY CO., WARRANT SAYS

Disclosure To Board Of Health Alleged Threat

DETECTIVE THERE

Biddiscombe and Stenographer Hear Proposition Made and Warrant Is Issued

Charged by the police with demanding \$10,000 for withholding information from the Board of Health officials which he claimed would put the Purity Ice Cream Co. Ltd out of business inside 24 hours, Harry LeBaron Anthony, until about four months ago a clerk in the employ of the company, was arrested on a warrant at noon today by Sgt. Detective Power and Detective Patrick Biddiscombe and will face the charge at a hearing in the police court either this afternoon or tomorrow morning.

According to the detectives, Anthony is alleged to have gone to A. D. Stern, manager of the company, yesterday afternoon with his proposition. He is said to have informed Mr. Stern that the Board of Health had told him that if a single quart of milk of the company's were turned back and put in the cold room for sale later on, the Board of Health would close up the business inside 24 hours. As his price for withholding evidence to substantiate such a charge, Anthony is said to have demanded \$10,000.

Manager's Statement.

When questioned about the matter, Mr. Stern explained today that when a team was sent out with several quarts of milk, it was found to return with several bottles not delivered. The practice of the company is to have this milk churned and not put in the cold room for sale later on, as claimed by defendant.

P. F. Tilley, milk inspector for the Board of Health, stated that not any official of the Board of Health had ever made any threat as claimed by Anthony. The board, he said, was not likely to deal with a clerk who had left the company when it paid officials of its own to look after this work.

Was Surprised.

Mr. Stern said he was dumfounded when Anthony walked into his office yesterday afternoon with his proposal. He was indignant over the matter and ordered Anthony out of the office, he said, but later on re-considered his decision, and, having the man might work harm to the company by his talk, he asked him to come to the office this morning and talk the question over again. He took the precaution, he said, of having a stenographic report of the conversation taken down unknown to Anthony and for further corroboration he had invited Detective Biddiscombe to be present. The detective and the stenographer were hidden from the others while the conversation took place.

As a result of his repeating the offer this morning in the presence of these witnesses, a warrant was sworn out and served on Anthony. The warrant declares that Anthony told the company's manager that in case he refused to give the money to him, there were others in the city who would pay the same amount for putting the Purity Ice Cream Co. Ltd. out of business.

Anthony, Mr. Stern said, is a man of about 35 years, unmarried. He had been with the company, the manager said, until about four months ago when he left the company on his own volition.

SECOND SUMMONS

Thos. C. Wiggins Not in Court Again Today in Taxi Case.

When a civic ordinance case, operating a taxicab without a city license, against Thomas C. Wiggins was called in court this morning by Magistrate Henderson, Wiggins was not present. His Honor said he had been given to understand that Wiggins was not in the city. He directed that another summons be issued, returnable on Tuesday of next week when the case would be proceeded with without any further delay.

HAVE TALK OVER INSURANCE FEE LEGISLATION

Delegates at City Hall in Matter of Proposed Bill

SOME OPOSE AND SOME IN FAVOR

Board of Trade, Merchants and Fire Underwriters Are Represented

That they were opposed to the proposed bill to impose a fee of \$100 on all fire insurance companies selling protection in the city and making those who bought the protection liable in case the sum could not be collected from the insurance company, on the ground that it was class legislation and a form of direct taxation on manufacturers, was the burden of argument advanced this morning by a delegation which met the Common Council.

This delegation was composed of members of the Board of Trade and Retail Merchants' Association, opposing the bill, and the New Brunswick Board of Fire Underwriters, endorsing the proposed legislation.

Mayor Potts called on L. W. Simms, president of the Board of Trade, to speak first. Mr. Simms said he would prefer to have the insurance men, whom he understood were sponsoring the bill, to state their case first.

Mr. Potts then called on W. H. Harrison, representing the Board of Fire Underwriters, who said that the bill was a form of direct taxation on manufacturers, and that it would accomplish that purpose and at the same time place all the fire insurance companies on the same footing.

Legislation Unfair

L. W. Simms said he was speaking as the president of the Board of Trade and the board was opposing a bill which seemed to them to have an element of unfairness about it.

The closing date of the 1924-25 winter season draws near and the steamship companies operating regular services out of Saint John have announced their last sailing dates. These schedules show that the season here has a little more than six weeks to run.

Head Line April 23

The last sailing of the Head Line with the steamer Lord Downshire for Dublin and Belfast about April 23. The Scandinavian-American Line sailing for Scandinavian ports will be the steamer Gorm on April 28. This vessel will be one of the last of the winter sailings from this port.

C. P. and C. G. M. M.

The C. P. S. will close their mail and passenger sailings from Saint John with the departure of the Metagama on April 23 for Glasgow. The C. G. M. M. will wind up their operations here with the departure of the Canadian Ranger on April 23 for London and Antwerp and that of the Canadian Mariner on April 24 for Cardiff and Swansea.

Mancheater Services

The direct fortnightly winter service between Mancheater and Saint John will be brought to a close with the departure of the Mancheater Brigade on April 23. The usual fortnightly service maintained the year around between Mancheater and this port will be continued via U. S. ports.

WANTS LIGHT ON N. S. LIQUOR TRADE

Opposition Leader Will Ask if Federal Government to Prevent Smuggling.

HALIFAX, March 12.—That the Government would be called upon to give a detailed account of its treatment of the liquor traffic in Nova Scotia was indicated at this afternoon's short session of the Legislative Assembly when D. G. MacKenzie, leader of the Opposition gave notice of a list of questions he would ask on a future day.

The information to be sought would include an account of the recent loss of liquor from Board of Vendor Commissioners' bonded warehouse No. 4, and details of the commission in general, showing salaries, rents paid, receipts and disbursements, etc., and will also refer to the illegal liquor traffic, if any, that may be carried on by rum runners and smugglers along the coast line of the province.

Mr. MacKenzie will ask if any assurance has been received from the Federal Government "that adequate provision will be made by the Department of Customs to deal more effectively with smugglers and rum-runners, and to prevent smuggling operations along the coast."

SAINT JOHN, N. B., MARCH 13, 1925.

THE EMPIRE AT GENEVA.

While the British Foreign Secretary was making it plain yesterday at Geneva that Great Britain and the overseas Dominions were a unit in their objection to the protocol on disarmament and security, statements to the same effect were made in Ottawa by the Premier, and likewise in the capitals of Australia, New Zealand and South Africa.

There has been a tendency hitherto to make it appear that the Mother Country in its objections to the protocol was influenced chiefly by the attitude of the Dominions, but from Mr. Chamberlain's speech it would appear that the Imperial Government's reasons for rejecting the arrangement are even more numerous and more sweeping than those of the British countries overseas.

The fact emerges now that at the peace conference following the German defeat, the rigid fixing of new boundaries and some of the other agreements that were then subscribed to in the general desire to prevent future conflicts were subject to objections not then viable.

The Foreign Secretary yesterday found his view supported practically by Italy alone, and opposed by France, Belgium, Spain and some of the smaller nations, but while he demonstrated very clearly that the weight of the British Empire would be thrown strongly toward the cause of arbitration and general disarmament, he proved to the satisfaction of the English-speaking world at least that the new protocol would saddle the Empire with an excessive and dangerous share of the work of keeping the world's peace.

STARTING THE BALL.

Although prohibition and government control did not receive mention in yesterday's speech from the Throne, Mr. W. E. Scully, in moving the address in reply, placed his own views on these questions before the House, and so probably started a discussion likely to result in expressions of opinion from many members.

It has long been evident that any protection for protection's sake, but growing out of war conditions the British have found it necessary to grant special conditions to some of their key industries, and there is a growing disposition to devise measures for the encouragement of a much greater interchange of products with the overseas Dominions.

WHO FEELS IT?

In spite of all the talk about the Americanization of this country of ours through American moving pictures and American magazines and newspapers, one often wonders if a single Canadian, not to speak of dozens or scores of Canadians, could be discovered whose allegiance has been unsettled or destroyed by these influences.

meanings propaganda is really being directed our way through the agencies he cites, it is surely a hopeless enterprise. Our Canadianism is far too robust a plant to wither under any such influences.

In twenty years Toronto has reduced deaths from tuberculosis by seventy-two per cent. That city, according to the Mail and Empire, now has the lowest general death rate on this continent.

The announcement that the budget is to be brought down at Ottawa next week is interpreted in some quarters as meaning that the session will be short and that there will be a general election in the autumn. What the outlook will be clearer after the budget debate. No tariff changes of consequence are expected.

Early morning reports as to the Nova Scotia coal strike indicate a welcome intimation from Halifax that a change for the better is expected. This view is based on a statement made by the miners' executive in a message to Premier Armstrong expressing willingness to consider "any proposition the Government may have for the reopening of the mines."

Odds and Ends

"You never know what you'll find among the odds and ends."—From Notes by a Wayfarer.

Some Dickens' Heroes

(A. B. deM. in Christian Science Monitor.) The most individual of all Dickens' novels, and the farthest removed from the old manner in style and plottings, was undoubtedly "A Tale of Two Cities," published in 1859. There is much evidence of Carlyle here (he said Dickens "is a true old-fashioned Dickens"). Here we have two heroes, Darnay belongs to the familiar type, despite the grim atmosphere which at times surrounds him. The actual hero is Sidney Carton, and Dickens has secured our interest in the man himself no less than in the tragic circumstances through which he passes.

The turning point is also marked by a change in characterization. In "Great Expectations," published in 1861, the hero represents a new departure. Pip is monumentally selfish; he might stand as a study of the egotism of youth. He is in no sense a pleasing character, rather more than by the elements of historical veracity. But in the "Tale" we have something particularly effective, not only in the appeal as a picture of bygone days, but also in the skill with which fiction is interwoven with history. The novel, as one critic very properly says, where the domestic life of a few private persons is so effectively blended with the outbreak of a terrible public event that the one seems part of the other. This is masterly work.

Right up Ben Lewis could be pressed And not a sob his toll confess; and he swam Loch Katrine with all his clothes on. Yet his maker said rather ruefully: "I dipped him in the lake; but wet or dry, I could make nothing of him." Nevertheless, throughout his novel the author of "Waverley" observed the demand for a perfect hero and devoted the full power of his genius to the development of various other types which have not been required by the rules of the game. Thus, we accept Ivanhoe, Quentin Durward, and Obadiah Stowe with a mild and friendly interest; it is a very different thing when we come to the "Templar," or "Le Balafré," or "Rashleigh Obadiahstone."

The Test of Accuracy. (Halifax Chronicle.) There is a disposition on the part of an ultra-critical section of the public, which knows little about the difficulties which confront a news-gatherer, to make sweeping complaints against newspapers on the score of inaccuracy and unreliability in the printing of news. But in point of fact, when the enormous mass of facts which a newspaper has to handle day by day is considered, inaccuracies of this character are comparatively few, and any text made in a systematic way has been generally in favor of the newspaper. For instance a school principal in New York city said the other day that he clipped 5000 stories on biological subjects from 402 newspapers in a seventeen month period, and out of that number only 14 articles contained an inaccuracy. That the principal said, "is a better record than most books can show."

STAYS ON ICE TO SAVE TWO HORSES

Aime Lafleur Sends Aged Man Ashore in Canoe—Drifts to Sea.

QUEBEC, March 12.—Sending a 72-year-old one-armed man named Martel ashore in the canoe in which he came to his rescue, Aime Lafleur, a resident of St. Antoine Des Fondes, near Ste. Croix, Lobiens county, remained on a broken batture of ice to rescue Martel's team of horses, and was swept down the river until three hours later he was rescued with the team by the Canadian Government steamer Lady Grey. He was in an exhausted condition and one of the horses was all but drowned when it sank to its middle in the spongy ice just before the Lady Grey's arrival.

DIGBY, March 12.—A meeting of the ratepayers of the town of Digby is called for Monday evening next for the purpose of borrowing the sum of \$40,000 to redeem water debentures, which fall due on June 1. The ratepayers will be asked to vote upon the following resolution:

"Resolved that the Town Council of the Town of Digby be empowered to borrow a sum not exceeding \$40,000 for the purpose of paying off \$35,000 water debentures maturing June 1, 1925, also for the payment of the extensions of the water system recently made; and also for the payment of the purchase price of the Benedict Vanasse property containing Lily Lake; and an act of the Legislature of Nova Scotia be obtained authorizing the Town of Digby to borrow the above sum for the purpose aforesaid."

Matters relating to the Digby hospital are to be brought up at this meeting as well as a report from the committee on the possibilities of the development of hydro.

FOUND GUILTY AND SENTENCED TO HANG

Thomas Collision Convicted of Murdering Sweetheart in Cornwall, Ont. CORNWALL, Ont., March 12.—Thomas Collision was today found guilty by a jury of the murder of Beatrice Thorpe last November and next. Miss Thorpe, who had discouraged Collision's attentions, was shot by her home through a window.

The jury was out exactly 53 minutes and when the verdict was announced the accused sat in the box in the same manner as had characterized his attitude during the trial. The verdict contained a recommendation for Short, The Tall Man.

COW AND HEN GET HIGH PLACE IN FARMS REPORT

N. B. Agricultural Statement for 1924 is Tabled in House

EXCELLENT YEAR FOR ORCHARDIST

Field Production Lighter—Diversified Farming Standby.

The report of the Minister of Agriculture of New Brunswick, Hon. D. W. Mercer, tabled today at Fredericton shows an increase in the crops of potatoes and other root crops over 1923, but a decrease in the hay and grain crops.

Deputy's Summary. Harvey Mitchell, deputy minister of agriculture, in his summary of the activities of the department for the year says: The year 1924 might well be termed

a "fallow" year for the New Brunswick farmer; inasmuch as his hope for an improved produce market is deferred until at least another crop year comes around.

Field crops, with the exception of potatoes and roots, are lighter than last year and, though values for small grains are in accord with the high value of western grain, the value of our total production of field crops is less.

The orchardist has, however, experienced an excellent season, having in his favor the combination of a large crop and a good market. The bulk of the crop, from commercial orchards was sold in Montreal.

The production of milk for factories, compared with the quantity delivered last year, increased, and though prices of factory and dairy products were relatively lower, the total value of the factory output was greater.

Diversified Farming. Diversified farming, not the various special types of farming, again has proven itself the standby. The cow and the hen loom large as sources of revenue on the farm this year and it augurs well for the future that the live stock census of June showed an increase in the numbers of cattle and poultry.

In Parliament Today

THE SENATE will sit this evening. IN THE HOUSE—Robert Forke, Progressive leader will resume the debate on the Petersen contract.

West Indies Contract Extended to June 30

The contract of the Royal Mail Steam Packet Company, whose ships operate between this port and the West Indies, has been extended from March 31 to June 30 according to announcement made in Halifax yesterday by John Hubert, Canadian manager of the line. The contract has been extended to permit the Canadian and West Indian governments to discuss the matter in May.

DAYLIGHT TIME IN EUROPE

PARIS, March 13.—Summer time will become effective in France, Belgium and England simultaneously on the night of April 4-5.

RETURNS \$50,000 FOUND IN TAXICAB

Driver is Rewarded With Gift of \$100 After Finding Owner.

BOSTON, March 13.—Articles inadvertently left in railroad and street cars form quite a considerable item in the course of a year's business and equally has this come to be true in the case of taxicabs. Indicative of the honesty of taxi drivers is the record maintained by Miss Magee, secretary to Frank Sawyer, president of the Checker Taxi Company.

Smallest of all is a pair of gloves and most valuable of all was a sheaf of bank notes totalling \$50,000 in value. This latter item was found not long ago by Chauffeur John Manning, who had spent a considerable portion of the day driving a passenger about town. When he returned to the garage, Manning found the sheaf of bank notes. He at once delivered them to Miss Magee and on the following day deposited his entire attention to locating his passenger. The latter knew he had lost some money but was unaware of the exact amount.

Yesterday In Parliament

IN THE SENATE—Sir George Foster criticized the Government for not having given more exhaustive consideration to the Geneva protocol, and advocated the protocol as a means of the further elimination of war.

IN THE HOUSE—The Premier explained that the Government was not in favor of adherence to the Geneva protocol on the grounds that it was not in the interests of Canada or the Empire. It was announced that the budget for 1925 will be introduced in the House next week. The debate on the Petersen contract continued throughout the day. The speakers were—W. Duff, Liberal, Lunenburg; L. J. Lader, Conservative, Vancouver; W. B. Snowball, Liberal, Northumberland, and A. J. Lewis, Progressive, Swift Current.

When Miss Magee delivered the \$50,000 to him his gratefulness knew no bounds. He gave Manning \$100 for his honesty.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

ELABORATE BILL IMPERIAL MONDAY

Monday's rarely beautiful picture of "The Loves of Mary, Queen of Scots" will set a new standard of beauty and historical value for the theatre-going picture in English action and Scotch and English locale. Fay Compton, who plays the romantic role of the queen, is Great Britain's leading star today and at present playing with John Barrymore in his much-discussed London production of Shakespeare's "Hamlet." The whole cast of "Mary, Queen of Scots" is stellar in brilliancy. Each performer has been selected for his and her physical fitness for the role assigned them, the men with especial care as to their swordsmanship.

CHURCH TEAMS/TIE IN DOUBLE DEBATE

St. Andrew's and St. John's (Stone) church debating teams tied in the double contest last night in the City Debating League preliminary event. The team from the church upholding the affirmative of the resolution "Resolved that the League of Nations is a more effective means of preserving peace than diplomacy," was given a unanimous decision by the judges. As a result of the tie it will be necessary for the committee of the League to hold a special meeting to decide which team, St. Andrew's or St. John's will have St. Andrew's and Stone teams take part in a second debate.

THE SINGING EVANGELISTS.

Another large and fine group met at Main street Baptist church last night. These meetings are growing in interest and power. Rev. Henry Taylor and his daughter, Ruth, are each evening bringing the Gospel message to the people in song and story with wonderful power. Messrs. Stillwell and Crookshank of Main street choir, sang a duet last evening very acceptably.

A special feature of the service will be the Sunday school choir attending in a body with a Sunday school choir in attendance. Any one who has not heard these singing evangelists, should hear them tonight.

**GIVES ADDRESS IN CITY HIGH SCHOOL**

**Miss Faithfull Also Visits Kindergarten—Leaves on Tour of Canada.**

Miss Lillian Faithfull yesterday interested the pupils and staff of the High School when she addressed the assembled classes in the last hour of the afternoon session. Miss Faithfull also visited the kindergarten, teacher training class in session in Holy Trinity school and gave a short address to the students.

This afternoon she leaves for Fredericton, which will be her next stopping place in her trans-Canada tour. She will be the guest of Mrs. Robert Fitz-

randolph in Fredericton and will give an address in the capital city tonight.

Here Again.

Miss Faithfull will pass through St. John again on Monday on her way from Fredericton to Sackville and from Sackville she will go on to Halifax on Tuesday. While making Halifax her headquarters for a time she will visit Truro, Quebec and will leave Quebec the following Tuesday for Sherbrooke. She will merely pass through Montreal on her westward trip and will spend some time there on the return trip before she sails for England, probably early in June.

In Ottawa.

On the westward trip she will arrive in Ottawa on Thursday, March 26, and will remain there until Sunday. Toronto will be her next stopping place and from Toronto she will go to Windsor, arriving there on April 2. The rest of her itinerary has not been definitely announced but it will take

her to the coast and back and will include stops at the most important centres en route.

**TALKED OF TEETH.**

Dr. A. J. Coughlan was the speaker last night at the weekly meeting of the Knights of Columbus, at which Grand Knight James L. Sague presided. His subject was the care and treatment of the teeth for young and old. There was a large attendance of members. The talks which were instituted several weeks ago as an addition to the regular meeting have proved a very popular feature among the members.

**PYTHIAN SISTERS MEET.**

Plans for a shanook supper to be held early next week were completed at the meeting of Loyalist Temple No. 13, Pythian Sisters, held last night with M. E. C. Miss Beatrice Andrews, presiding. Mrs. Angus addressed the temple telling of the work of the Y. W. C. A., and she had the interested and sympathetic hearing of the meeting. Assistance was voted to be given to two needy families.

**Social and Personal Notes**

Miss Marjorie Trotter, M.A., Maritime Girls' Work secretary for the C. G. I. T., was in Moncton this week and held a meeting of the Girls' Work board in the St. John's Presbyterian church. There was a mass meeting of the girls in the Wesley Memorial church yesterday, with a musical programme and a supper held in the school room of the Central Methodist church at six o'clock.

Mr. Albert Noonan, of Hastings, near Amherst, who has been visiting relatives and friends here, has returned home.

Mr. J. Wilfrid Tait, of the Chatham Grammar school teaching staff, and Mrs. H. G. Ashford, of Halifax, are in the city at 292 Princess street, called here by the illness of their stepfather, Mr. S. F. Hatfield.

Mrs. Alfred Morrissey, who has been visiting Mr. and Mrs. Howard Wilcox in Boston, returned home yesterday.

Miss Mary Murray is the guest of Mr. and Mrs. Hugh Mackay in Rochester, at a small bridge on Tuesday afternoon at her residence, Douglas avenue.

The Montreal Gazette of Thursday says: "Miss Aileen Dunn, Carleton avenue, is entertaining at a small luncheon today in honor of Miss Hortense Maher, of St. John, N. B."

Miss Ruby Miles was given a happy surprise at her home in North Devon on Tuesday evening, when her girl friends called upon her to congratulate her on the occasion of her birthday.

Mrs. James Doherty, of St. John, a sister of the guest of honor, was among the guests.

**FIRE IN CEDAR STREET.**

Fire in a house at 20 Cedar street, occupied by A. J. Nagle, but in which no one was at home at the time, 5 o'clock yesterday afternoon, destroyed a bed in addition to the damage caused by the smoke which was thick and heavy. An alarm was rung in from box 123, and it did not take the firemen long to discover the blaze and extinguish it. There being no one in the house at the time, it was impossible for the men to determine what caused the bed to catch fire.

**HAVE SOCIAL HOUR.**

Following the routine business at the meeting of Marlborough Lodge, Sons of England, last night in Orange Hall a social hour was enjoyed. Those taking part in the programme were A. Clayton, E. C. DEBATE TO BE RESUMED ON TUESDAY

Mover of Reply to Throne Speech Declares Hydro Will Be Salvation of Province—Wetmore, Seconder, Believes East Should Capitalize Geographical Situation

By D. LEO DOLAN
Mr. Wetmore, member for Kings, and while the debate was in progress, the order of the day for Friday, it is understood that Mr. Richards is once again to move the adjournment, and the speech-making will be resumed when the House meets on Tuesday, following the week-end recess.

Today the Opposition party held their first caucus of the session, but it was a brief meeting and no question of policy was discussed. Mr. Richards was endorsed as House leader and Lewis Smith, of Albert, as Opposition whip, while J. L. Peck, of Albert, continues as chairman of the caucus. Tomorrow morning another Opposition caucus is to be held and the debate on the Hydro development scheme will be resumed when the House meets on Tuesday, following the week-end recess.

Mr. Richards adjourned the debate following the address of Col. O. W. Wetmore, member for Kings, and while the debate was in progress, the order of the day for Friday, it is understood that Mr. Richards is once again to move the adjournment, and the speech-making will be resumed when the House meets on Tuesday, following the week-end recess.

Admits He Passed Worthless Checks

HALIFAX, March 12—Elwin E. Lucas, arrested on Tuesday at Middle Musquodoboit, about 30 miles from here, and brought to Halifax, was arraigned in police court today and pleaded guilty to the charge of having passed worthless checks in this city. He also pleaded guilty to a charge of obtaining money unlawfully by false representation. He was remanded for a week for sentence.

"There can be little doubt that a good living can be made by any of our people who would select this province for settlement." This is one of the sentences referring to Nova Scotia taken from a report made by the delegation representing the crofters and fishermen of the Hebrides, which, headed by Very Rev. Canon Macdonald, spent several weeks in Canada for the purpose of visiting those Hebrideans already settled in the Dominion and ascertaining the conditions as possible with a view to stimulating the movement from the Hebridean Islands and broadening its scope.

Mr. Wetmore

Mr. Wetmore, rising to second the address in reply to the Speech from the Throne, said the task was a trying one but he must thank the Hon. Premier for conferring the honor upon the County of Kings. He made reference to the loss of Hon. James E. Byrne, who had been elevated to the bench and welcomed to the House Hon. Ivan C. Rand, Attorney-General. He also referred to the death of former Lieutenant-Governor Pugsley. No enemy of his existed on either side of politics. He always had been a champion of New Brunswick and a champion of St. John. Always a patriot to his province, he would press to the front for his native province and all regretted his passing.

RICHARD BENNETT SUED FOR DIVORCE

No Alimony Asked But Wife Seeks the Custody of Children.
NEW YORK, March 13—Papers in a suit for divorce against Richard Bennett, now playing in "The Dream Girl" at the Klaw Theatre with Miss Pauline Lord, have been filed in the Supreme Court by attorneys for Mrs. Mabel Morrison Bennett, now playing in "Three Knaves and a Knight" with Lionel Barrymore.

Address in Reply

In moving the address, W. E. Scully, M. L. A. of Saint John, referred to the loss of the house sustained in the election of Hon. J. P. Byrne to the bench, to the choice of Hon. Mr. Rand as attorney-general and his election in Gloucester. "The large majority," the speaker said, "by which he had been returned in the County of Gloucester spoke well for the county, and he hoped the spirit would be emulated by other sections of the province."

The speaker dealt with the potato market matter, agricultural school and health act. He praised the Musquodoboit development and said it had proven fully justified. He said more industrial

PROPOSES ALL-CANADA MEET TO STUDY NATIONAL UNITY

Suggests Analysis of Difficulties by Local Associations and Experts to be Followed by Dominion Convention

WOULD MAKE POLICY LAW IF NEEDED

Amity and Harmony From Halifax to Vancouver and Prosperity of Whole Country is Aim of Earnest Sponsors of Movement—Sentiment Throughout West Strongly Supports Get-together

By A. M. BELDING
Special representative of The Telegraph-Journal and Times-Star now on route home from a tour of Western Canada in the interest of the Maritime Provinces.

TORONTO, March 12—The enterprise on which The Telegraph-Journal and Times-Star embarked when they sent me out on my present mission is destined to have far-reaching consequences.

It was not necessary to tour the Dominion to learn that there was an absence of a real national spirit, but my tour has revealed a universal desire for such a get-together movement as will harmonize conflicting interests, remove distrust and bitterness, and develop the national spirit.

In every city I have visited from coast to coast the appeal for a get-together movement has met with an instant response.

Even those in the West who are the most critical of the Central Provinces are ready to sit around the conference table without prejudice, and endeavor in the spirit of patriotism and compromise, to seek a way out of the present conditions which tend to a drifting apart.

Essentials of Method.
I have suggested that a small group of able business men representing the Maritime, Central and Prairie Provinces and British Columbia, the four great divisions of the country, meet and outline a policy which would be reasonably fair to all, and that their findings be then reviewed by a larger body representing all the provinces and great interests of the country.

The suggestion has been approved everywhere as offering the basis of a method to get results. It would be entirely divorced from partisanship of any sort.

Repeats Suggestion.
I hinted at such a method in addressing the representatives of the Toronto Board of Trade, Manufacturers' Association and Export Association on my way west. This afternoon, after giving the same large group of keen business men my impressions gathered in the west, I pressed the suggestion more strongly.

I imagine my surprise and satisfaction when President S. B. Gundy, of the Board of Trade, handed me a copy of the following letter, which goes out in tomorrow's mail to the Board of Trade in every city in Canada with a request that they consider it and make suggestions leading to a better understanding and cooperative feeling between the various provinces.

Text of Letter.
"The Toronto Board of Trade, conscious of the present divergence of opinion and lack of enthusiastic cooperation between the various provinces, proposes that an effort should be made to remedy, if possible, this unfortunate condition.

"With this end in view, this board is endeavoring to foster a get-together plan amongst the various Boards of Trade of the Dominion. It is felt that, possibly by a series of addresses delivered in various parts of the country by men of independent thought and acknowledged ability, the ground work may be formed for expert investigation of certain national problems from which it may be found that all provinces could agree on certain fundamentals connected with the economic life of the country.

Suggests Study.
"Occurs to us merely as a tentative suggestion that the Boards of Trade in each province, either collectively or individually, might conduct investigations of whatever national problems they consider of the greatest importance under the guidance of non-partisan committees of the most competent men available and with the assistance of experts in each topic to be studied. The recommendations or conclusions resulting from such studies should, we feel, after adoption by the provincial or local committee, be submitted to a national committee.

"If then it should transpire that by wise concessions, each to the other, unity could be reached from Halifax to Vancouver, legislation if necessary, would follow making effective a new national policy which might lead to prosperity for all."

Leaves Fortune Of \$75,000 For Dogs
MOUNT HOLLY, N. Y., March 12—Thinking more of dogs than of men or women, because she had so many false friends on two legs and so many true and faithful friends on four legs, Mrs. Beatrice M. Bohn, 54 years old, who was burned to death when her home on the East Side of Mount Holly was destroyed by fire last Friday morning, has left a will in which she bequeaths her estate, said to be worth \$75,000, to a fund to be used in caring for homeless and suffering dogs.

## FALLS BRIDGE ONE OF LARGEST SINGLE ARCHED

C. C. Kirby, C. E., Mentioned  
It in Address on  
Engineering

POPULAR TALK AT  
ART CLUB SESSION

Various Phases of Work  
Touched on in Compre-  
hensive Lecture.

The fact that the highway bridge across the Reversing Falls of the Saint John River is one of the largest single arch steel bridges in the world was one of many bits of information given by C. C. Kirby, C. E., in his address before the St. John Art Club in the Church of England Institute last night that was not recalled by many of those in his audience. Mr. Kirby gave in an easily comprehensible way an admirable popular lecture on engineering, illustrating his address with many interesting slides.

Ven. Archdeacon A. H. Crowfoot, president, was chairman and extended the hearty thanks of his audience to Mr. Kirby, to those who had taken part in the musical programme and to Miss Holt, who operated the lantern. The musical selections had included vocal solos by Mrs. Isaac Murray and Miss Frances Withers and piano solos by Mrs. R. Taylor McKim.

Countering Forces.  
Mr. Kirby said engineering dealt with structures at rest, and things were only at rest when every action had an opposite reaction, so in the designing of these structures it was necessary to find out what the forces were and where they would act and using suitable materials to arrange other forces

### In Poison Plot

Ralph P. King, above, and Lou Madison, alias "Lou the Russian," are under arrest in San Francisco in connection with the attempted poisoning of three members of the wealthy Hotaling family. They admit they accepted \$3,500 to kill the family—but insist they left town and that the attempt was carried out by others.

to counteract them. He spoke of the various properties of the materials used, steel, iron, wood, stone and concrete, referring to the early concrete used by

the Romans who, without knowledge of the chemical reactions, had stumbled upon a proper concrete mixture. After Roman times concrete making had become a lost art and it was only in 1824 that Joseph Aspin in Leeds had discovered and patented the Portland cement used in the manufacture of modern concrete. The name Portland, Mr. Kirby said, had been given because the product was of the color of Portland stone.

Electricity.  
He explained that it was not correct to say that electricity was "made" by anyone as electricity was an element. It was concentrated and induced to flow by means of coils of wire revolving within outer coils of wire.

He described the various types of bridges, beam, arch, cantilever and suspension and showed notable examples of each. He spoke of retaining walls and dams and said he was afraid there were many retaining walls in St. John that were in a serious state of unrest because the laws of engineering had been ignored in their construction.

Tunnel Construction.  
While speaking of the construction of tunnels and the foundations of bridges, Mr. Kirby told of the great advance made recently by compressed air operations. The use of compressed air, he said, had made it possible to build tunnels through soft mud and quicksand, but in one case it was said the compressed air had struck a specially soft spot below the Hudson in New York and had shot the construction worker through the river bed into the water above, where he was rescued in a boat.

Sky-scrapers Shown.  
The skyscrapers of New York and breakwaters in various parts of the world were also shown and described, including the breakwater at St. Elizabeth, in Malta where furious waves had washed away the first part of the construction. Mr. Kirby reminded his audience that it was at St. Elmo that St. Paul was wrecked and he thought his pictures gave some idea of why that wreck took place.

He showed some remarkable pictures of the Quebec bridge in construction. One photograph had been snapped at

## RECLUSE SUICIDES

Aged Man Invites Woman Neighbor to Call For Important Discovery.

SYRACUSE, N. Y., March 13. — Lemuel Burt, 75, Fayetteville reclusive, called at the home of Mrs. Emma Wilcox, a neighbor, and asked her to visit his home half an hour later to help in a discovery of great importance. Mrs. Wilcox called on schedule time and when her ring failed to bring a response, she entered the house to find Burt, a suicide, victim of a shooting contraption whereby the dropping of a trap door had discharged the gun which killed him.

Mr. Burt, long a resident of Fayetteville, had lived alone and had avoided company of all neighbors for more than two years, following the death of his wife, a few days after their golden wedding anniversary.

LECTURES ON W. A.  
The Girls' branch of the W. A. of the Church of the Good Shepherd met in the school room of the church last night with Miss Olga Maguire, the president, in the chair. Rev. E. J. Letroy, the rector, led the devotions. Encouraging reports were given by the various officers, and Mr. Letroy gave an address on the work of the Woman's Auxiliary and explained the significance of the W. A. emblem. Miss Alice Armstrong read the report of the diocesan board meeting recently held in Trinity church hall.

WERE INVITED.  
Mayor F. L. Potts and Mrs. Potts received invitations to be present at the opening of the House yesterday at Fredericton but were obliged to decline on account of business engagements of His Worship.

### That all-in, dragged-out feeling

What a way to go through life—dragging through each day, tired after a night's sleep, listless, just going on from one day to the next. In nine cases out of ten, such a condition is the result of constipation. Only ALL-BRAN brings sure, safe relief from this disease.

## Fired because he was always tired

"Drowsy Bill," they called him—a lifeless, eternally tired, old young man. He tried hard enough, but his energies always sagged before the job was done. One day Bill was missing . . . fired.

In every walk of life you'll find men and women who are fighting constipation—the dread disease which robs the body of its energy and strength. But thank goodness, there is pleasant, safe, permanent relief from constipation—Kellogg's ALL-BRAN.

Kellogg's ALL-BRAN is what doctors call a bulk food. As it journeys through the body its fiber remains unchanged. Therefore, it can sweep the intestine clean. ALL-BRAN also absorbs and carries moisture through the intestinal tract, thus stimulating regular, healthy action. ALL-BRAN urges nature to act normally—something that habit-forming pills and drugs can never do.

You'll like Kellogg's ALL-BRAN. Serve it with milk or cream, sprinkled over other cereals or cooked with hot cereals. Delicious with fruits. Try it in soups too. Also use the many recipes given on every package. If eaten regularly, Kellogg's ALL-BRAN is guaranteed to bring permanent relief or the grocer returns the purchase price. Eat two table-spoonfuls daily—in chronic cases, with every meal.

KNOW THE TRUTH ABOUT BRAN  
To be effective, bran fiber must go through the various digestive processes without submitting to any of them. It must pass through the entire alimentary tract without its form being changed.  
What happens when a bran food is eaten? After the saliva has acted upon it, it passes through the stomach and into the intestines where every part which is not fiber is absorbed. In ALL-BRAN the quantity of fiber is so great that it furnishes bulk enough to prevent and relieve constipation.  
In a part-bran food, the quantity of fiber is so small that there is only a puny amount to do a herculean task.  
ALL-BRAN brings sure results. Demand it.

Be careful! Only ALL-BRAN brings sure results. Be sure to get Kellogg's ALL-BRAN. A part-bran product is only partially effective—maybe not at all.  
Kellogg's is the original and only ALL-BRAN. Doctors recommend it. All grocers sell it. Buy a package today. Note how much better you'll feel in a week. Also served in leading restaurants.  
The original ALL-BRAN—ready-to-eat

## Your Body—

How well do you treat it?  
How smoothly does it run?

One simple food can tone up your entire system—banish constipation, skin troubles—stomach disorders

NOT a "cure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food. The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

All grocers have Fleischmann's Yeast. Start eating it today! Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days. And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept. 425, The Fleischmann Company, 208 Simcoe St., Toronto, Ont., Canada. FLEISCHMANN'S YEAST IS MADE IN CANADA

"THERE AREN'T MANY BRANDS OF PILLS or other forms of drug on the market I did not try during my seven years of fighting against stomach disorder. Results were invariably the same. The thought of eating brought only a feeling of disgust. Then I tried Fleischmann's Yeast and postponed my funeral. A week's trial brought astonishing results. In two weeks' time elimination became regular. My appetite returned. I began to sleep comfortably nights. Today I am considered one of the healthiest men in town."  
A. P. D'Ambr, Lawrence, Kansas

EAT 2 OR 3 CAKES a day before meals on crackers—in fruit juices or milk—or just plain. For constipation especially, dissolve one cake in hot water (not scalding) night and morning.

"I HAD TRIED MANY REMEDIES for a very disfiguring eruption on my face and chest. I imagined people passed remarks about my horrible complexion. I knew remarks were justified. One day I decided to try Fleischmann's Yeast. From the first there was a gradual change for the better, and after two or three weeks my complexion has entirely cleared of any blemishes."  
Miss Blanche Ward, Waterville, N. Y.

"I HAD A FRIEND who was an ardent Fleischmann's Yeast fan, and I used to take great delight in teasing her. This is what she handed me: 'Well, I'd rather be a yeast fan, than a pill fiend. Furthermore, I wouldn't trade my yeast complexion for your pill one! I was a pill fiend, and my face was sallow, and usually spotted with eruptions. I started that very day to eat Fleischmann's Yeast. It proved to be all the yeast enthusiasts claimed for it. In a few weeks, I had entirely overcome the pill habit; elimination was natural and regular; my appetite and digestion were fine, and I had a complexion instead of a skin.'  
Miss Edith C. Armstrong, Chicago, Ill.

"THIS SUMMER (1924) I entered the Democratic primary for the 'State-Senate.' After a hard campaign and a successful one, I found myself in a run-down condition. Complexion sallow; nerve system shattered; biliousness rampant; sleepless nights numerous; and sick headaches every morning. I began consuming two cakes of Fleischmann's Yeast daily; within two weeks I was feeling like a new man. My stomach trouble was relieved; complexion began to brighten; nerves were normal, and all headaches had disappeared."  
W. A. S. Furlow, Bristol, Tenn.

"PREVIOUS TO COMING TO THIS COUNTRY in 1921 I had always enjoyed good health. My first job in the great Northwest was that of school teacher, necessitating my going far into the bush country. The monotony of the diet produced an alarming condition of constipation and dizziness which frequent cathartics only aggravated. While on vacation, a brother-in-law in the city advised me to try Fleischmann's Yeast. I did so with the most gratifying results. The bush with all the terrors it previously held for me is no longer a bugbear, thanks to Fleischmann's Yeast."  
J. H. Foley, Winnipeg, Can.

for revenues could not be expected to maintain their high figure. Crops had been excellent during the year, potatoes particularly. Strawberries also had been a large crop. He would refer in this connection to a crop which many might not know existed—the squash crop. In the district about St. John one hundred tons of winter squash had been raised. It had been difficult to place this crop on the market, but gradually the farmers worked it off.

For the Department of Agriculture he would say that its members worked hard to market the potato crop. Mr. Hicks, it was active in stimulating sales of seed potatoes. Over production seemed to be the trouble with potatoes, as three bushels per head was said to be the quantity which would meet local requirements.

It was a fact that other countries, particularly on the continent of Europe, produced potatoes in large quantities. So New Brunswick was not the only country with a surplus. This province had quality in its potatoes, and it was hoped that marketing would be more successful in the future.

Blames Methods of Farmers. It was regretted that after a market for the potatoes had been found in Great Britain, the embargo had been put on again. He believed that the methods pursued by the farmers in the past were to blame. Great Britain was not to be blamed in trying to protect itself against the Colorado beetle.

If care had been taken to rid the potato fields of this pest in the past they could get rid of the beetle first then they would get rid of the embargo. He felt proud of the Department of Agriculture, all members of which were always ready to assist the farmer.

In regard to horticulture, many might wonder why apples were not grown in greater quantities in New Brunswick. The McIntosh which was produced to perfection and during the past season had occupied the highest place in the Montreal market. Production was not large enough for proper marketing methods to be employed.

Egg Production

In this connection A. G. Turney, provincial horticulturist, was urging the growing of McIntosh wherever the soil was suitable. During the autumn he had had the opportunity of seeing at the Experimental Station, Fredericton, McIntosh and Fameuse trees bearing fruit, which were the height of production. He felt sure that if packing methods were adopted similar to those in use on the Pacific coast New Brunswick fruit would compete on the local or any other market with the high colored western apples.

As far as poultry was concerned, it was possible to ship newly hatched chicks with little loss and in that way those who did not wish to hatch their own chickens could secure their supply. The early hatching pullets were the one which brought in the money.

Egg production also was profitable, and it was a fact that during the egg-laying contests conducted in New Brunswick a profit of 37 cents per dozen was secured during certain months.

Marketing Agency

In regard to marketing he was pleased to note that the Provincial and Federal Departments were co-operating in the establishment of an organization.

Beauty

A Gleamy Mass of Hair

35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When coming and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.

BUILD RED BLOOD, REGAIN STRENGTH AND NERVE FORCE

Body Vigor May Be Quickly Restored This Safe Way

You used to be strong. Your nerves were steady. Your vitality responded to every call you made upon it. Then do not be discouraged even though you are now weak in body and your nerve power seems exhausted. You know that you can return to success and happiness just as soon as you win back your old time vigor.

If your body has failed you, and you have spent your vitality by overwork or nervous strain, start today to build yourself up again. Greater red blood will go pulsing through your veins with the throbs of life power. Your 'ash your nerves, which are the driving force of your life.

Weak, run-down men—and women, too—can quickly regain strength. Go to your druggist today and begin the Wicarsin treatment. For fifty years this strength-giver and nerve restorative has reinvigorated discouraged, weakened men and women.

A sixteen-ounce bottle of Wicarsin which is a fourteen-day treatment of strength building, is sold by all leading druggists for \$1.50. Wicarsin is so effective that only three tablespoonfuls a day need be taken. Try Wicarsin and see the difference just a few days will bring.

Free school books he considered a great thing. A system which would provide them would be a great benefit to the back districts where times had been hard for some time.

In that connection he would express the opinion that the Government was in a tight during the present year. Much had been heard recently concerning Maritime rights and he would not go into details.

On a previous occasion the mover had referred to victories won by New Brunswickers in athletics. Those victories were of extreme value to this province in advertising. Along these same lines he could refer to the achievements of the two Logan boys, of St. John, as speed skaters, one in the twelve-year-old class and the other in the eighteen-year-old class. They had won not only the Canadian titles, but also international titles. Their victories had given publicity to New Brunswick and to St. John. They were the sons of Fred Logan, and he might be pardoned if he referred to the fact that Fred Logan was born within a mile of his own home. He did not want St. John to have all the credit.

Financial Situation. The recent sale of New Brunswick bonds had shown that there was no feeling in the financial world that the province was in a bad way.

DON'T LET YOUR BOWELS GET CONSTIPATED. A free motion of the bowels every day should be the rule of every one who aspires to perfect health, for once the bowels become constipated and clogged up, all the other organs of the body become deranged.

Keep Your Bowels Regular By Using MILBURN'S Laxa-Liver Pills. They will clear away all the effects and poisonous matter which has collected in the system, give you a free, easy and natural motion of the bowels every day, start the sluggish liver working, and give tone and vitality to the whole intestinal tract.

Milburn's Laxa-Liver Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

TRY SULPHUR ON AN ECZEMA SKIN

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowie Mentho-Sulphur from any good druggist and use it like a cold cream.

Say Ben-Gay for Chest Colds

Don't take chances with your health—that cold—get it off your chest now with BAUME BENGUE. Get the original Dr. Bengue's Baume. Also clears away the congestion and relieves Head Colds and Sore Throat. At any Drug Store. Keep a tube handy.

province was going behind. New Brunswick possessed assets sufficient to carry her debt. The Crown Lands alone were worth \$50,000,000. In the Minto coal fields where deposits alone were able to pay the total provincial debt. More ready access to the markets of Ontario would make it possible to realize better on the value of that coal.

Richards Moves Adjournment. Before closing, he would refer to maple products as a possible side line of farming. He knew of one man who sold a ton of maple sugar two years ago for \$400. He believed the price was better at the present time. He had a personal recollection of one maple tree which would produce 50 cents in one drawing of sap. He believed maple products, if not attempted on too great a scale in order to avoid high labor costs, to be very profitable.

Mr. Richards moved the adjournment of the debate, which was made the order of the day for tomorrow at 3 o'clock.

Hon. Mr. Veniot, in the absence of the honorable Provincial Secretary-Treasurer, submitted the returns in the polling of the by-elections in Gloucester and Moncton City.

Submits Reports. Hon. Mr. Veniot submitted the annual report of the chancellor of the University of New Brunswick.

Hon. Mr. Veniot laid on the table statements of valuation and of municipal and civic bonded indebtedness for various municipalities, cities and towns.

Hon. Mr. Veniot submitted the annual report on schools.

Hon. Mr. Veniot moved that a committee of five members, composed of Hon. Messrs. Veniot, Rand, Foster and Messrs. Richards and Fawcett, be appointed to nominate all standing committees.

Nurse Stacey's Suggestions to Middle Aged Women

A MOST trying period of a woman's life is that of middle age, fraught with danger to some extent, and invariably with most annoying symptoms, such as hot flashes, smothering spells, nervous troubles, irregularities and fainting spells.

When a woman like Nurse Stacey after many years of caring for the sick writes a letter of praise for Lydia E. Pinkham's Vegetable Compound like the following, it should influence other women who are passing through the Change of Life to try it.

Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It helps nature to build up the weakened, nervous system, and enables women to pass this trying period with the least possible annoying symptoms.

Nurse Stacey's Letter Follows: Collinsville, Illinois.—I could almost write a book in praise of Lydia E. Pinkham's Vegetable Compound. In the first place my husband induced me to try it and I have continued taking it off and on for years. I have become a well woman from its use and am now taking it through the Change of Life just to be on the safe side. I first took it for backache and a weak condition of the whole system and I think it saved my life and my baby. She is now a mother and takes it herself and I think I can count as high as a hundred women I have recommended the Vegetable Compound to, as I am a practical nurse. Use my letter in any way you see fit for I will stand by what I write.—Mrs. H. STACEY, Collinsville, Ill.

Another Woman's Similar Experience. Ingomar, N. B.—I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women.—Mrs. ALYCE M. FRARY, Ingomar, Nova Scotia.

Take Mrs. Stacey's advice and try Lydia E. Pinkham's Vegetable Compound. LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

FORTUNE PLAYS GRIM PRANK ON GOOD FIGHTER

British Lieutenant of Great War in Fix in New York
OUT OF WORK AND LETTERS ARE LOST
Counted on Recommendations Left in Taxi to Get Him Job.

NEW YORK, March 13.—"I've had to learn to take a lot of punishment, so I just keep plugging away, hoping something will turn up some time."
Maurice Burke, fresh from the Brooklyn Naval Hospital, where they've been working over a gunshot wound he got in 1918 in the retreat from Mons, hates to admit it, but he's on his uppers. This former lieutenant in the British army, a trained and experienced civil engineer, finds it a bit hard to grin at the latest spin of fortune's wheel.

Incidentally there were three war medals with the papers, each engraved with Lieutenant Burke's name, and each representing an experience that was narrowing, but that did none of the terrors of Burke's present experience of unemployment. He wants the medals back, of course, but he wants the letters even more, because he counted on them to get him a job. He wants to trade on his business and not his war experience.

HAVE KIDNEYS EXAMINED BY YOUR DOCTOR

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers.
Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood.

Serge Made-Up, \$26
TRIPLE C BIRTHDAY SALE
Better class suitings have gone up the world over, but they're down here while the Birthday Sale of the Triple C Tailors show the public what they think of the way thinking men have patronized them this year past.
Come and get samples—take those samples of cloth to any and every tailor in town and see how prices compare. And remember this, every inch of cloth made into Triple C truly tailored Suits is top quality and nothing else. This also—your Suit is made to measure on whatever style you like—it is tried on before finally sewn up—the foundation is the best that money can buy—and it is fully guaranteed.
\$5 orders your Suit for any date of delivery—but book quick while Sale Prices save you more than ever.
20 Ounce Serge, \$26
Choicest Tweed, \$24
Give it any test—the acid test, the flame test, pull a strand apart. Weight it. By every test this 19 and 20 ounce Serge shows far above the average—in fact, no other Serge in the city matches it. To measure, during Sale only \$26.
Bring \$5—but line up before the chance slips by. This Sale is admittedly an advertising stunt—to thank old customers and attract new ones. Only 9 more days. Come any night—why not tonight?
Over a hundred and twenty selections of cloth on the floor.
