

HOME RULE WITHIN YEAR, REDMOND'S PREDICTION

Sees No Chance of Goodwill of Opponents Being Won or Bought.

CHANGE MUST BE IN UNITY WITH IRELAND

Refers to William O'Brien's Resignation and Asks His Supporters to Refrain from Contesting.

Waterford, Ireland, Jan. 25.—"Every sane man knows that, bar accidents, the Home Rule Bill will be the law of the land this year," said John E. Redmond, leader of the Irish Nationalists, speaking before an immense gathering here this afternoon.

If any change is made in the Home Rule Bill, continued Mr. Redmond, it will only be to buy the good will of our opponents. But I say frankly that I see no prospects of their good will being purchased at any price whatever. That good will is worth purchasing at a big price, but any change in the bill should be consistent with the unity of Ireland. There are no lengths of abandonment of the principles you and I hold to which I would not go to win the confidence of the men of Ulster.

Referring to William O'Brien's resignation from his seat in Cork, Mr. Redmond asked his supporters to refrain from contesting the seat, declaring that a fight between two professional Nationalists at the present moment would cause a scandal and an injury to the cause.

Mr. O'Brien resigned his seat in parliament a week ago in answer to a challenge issued by Augustine Rooke, M. P. for North Louth, to test the strength of his following. He declared his readiness to meet any member of the Irish party from John Redmond down, as the opposing candidate to decide whether the home rule bill as it now stands is acceptable to the Irish people.

POWERS WILL SEND SHIPS TO ALBANIA

International Demonstration to Enforce Demand that Essad Pasha Give Up Claim to the Throne.

London, Jan. 25.—The powers of Europe have decided upon an international demonstration in Albanian waters to enforce their demands that Essad Pasha give up his claim to the throne of Albania. Each nation will send one ship to Durazzo.

This action of the powers also taken as an intimation to Turkey that the future of Albania is now a European question.

In the event of Essad Pasha yielding before the arrival at Durazzo of the international fleet, as is possible, the ships will be utilized to welcome Prince William of Wied, who has been selected by the European nations to occupy the Albanian throne.

The demand of the prince for a loan of \$16,000,000 with which to finance his administration of the new state, has now been agreed to by the powers, so that the reason for delaying his assumption of the throne has been removed.

Strathcona's Faith In Boy Scout Idea

One of Last Benefactions was \$5,000 Left to Fund—Believed from Inception it Would Help Boys.

Ottawa, Jan. 25.—One of Lord Strathcona's very recent benefactions, showing the deep interest he took in Canadian boyhood, was a promise to contribute \$5,000 a year for three years to a fund being raised to permit of the appointment of a Dominion secretary to travel through Canada and organize. His Lordship's offer was conditional on the raising of an equal amount from other sources. A passage from Lord Strathcona's letter on the subject reads:

"On the initiation of the boy scouts movement some years back, by General Robert Baden-Powell, (now Sir Robert Baden-Powell), he consulted me on the subject, and as he found it impossible to procure the necessary

TORONTO'S STRATHCONA MEMORIAL

Massey Hall Scene of Great Gathering Yesterday Afternoon—Tributes from Leaders in Church and State.

Toronto, Jan. 25.—The Province of Ontario and the City of Toronto paid tribute to the memory of Lord Strathcona this afternoon at Massey Hall, when men prominent in the civil, political and military life of the community gathered to participate in a great memorial service.

The hall was suitably decorated for the occasion, being draped with flags and purple. Several hundred "Strathcona" cadets of the Toronto public schools occupied seats in the upper part of the platform.

Words of tribute were uttered by the Rev. Dr. J. Neil and Right Rev. Bishop W. D. Reeve, who delivered the only addresses at the service.

Dr. Neil attributed his measure to his tremendous faith not only in himself but also in the future of Canada.

Bishop Reeve, through his long residence in the Canadian Northland, has had a more or less intimate acquaintance with the late Lord Strathcona. Knowing him personally, Bishop Reeve spoke with authority of his generous liberality and his many charities.

ASSAILANTS OF CHAS. M. MOYER NOT IDENTIFIED

Special Prosecutor Decides No Law to Punish Men Who Exported Federation Leader Even if Identified.

Houghton, Mich., Jan. 24.—None of the members of the crowd who assaulted Charles M. Moyer, president of the Western Federation of Miners, in Hancock on the night of December 26, and then deported him, were identified to the satisfaction of the special grand jury, and a "no true" bill was returned in the case this afternoon.

Geo. E. Nichols, the special prosecutor, decided that there was no law under which the men who are alleged to have forced Moyer on the train could be punished for kidnapping, even if they could be identified and he so informed the jury. He presented the names of seventeen prominent men, all members of the Citizens' Alliance, who were alleged to have been involved in the affair, and sought their indictment on the charge of assaulting Moyer "with the intent to do him great bodily harm."

Twenty-seven witnesses, including Moyer and Chas. H. Tanner, another federation official who was deported with Moyer, were examined. None of them, it is said, was willing to swear positively as to the identity of any members of the crowd.

"I have no comment to make," said Tanner tonight, when informed of the grand jury's action.

JOINT COMMISSION WILL TAKE UP CONSTRUCTION OF THE DEEP WATER ROUTE

Waterway Through St. Lawrence and Great Lakes for Ocean Liners.

COST ONE TO THREE HUNDRED MILLION.

Members of American Section of International Body to Confer with Chairman of Canadian Section on Matter.

Washington, Jan. 25.—A project for the joint construction by the governments of the United States and Canada of a deep water way for ocean-going steamers from Montreal, English Bay, has been inaugurated through the international commission which has jurisdiction over the boundary waters of the two countries.

The discussions instituted through the international joint commission are the result of a recent conference in Washington in which Secretary Bryan, Chairman James A. Tawney of the American section of the international commission and Senator Charles E. Townsend of Michigan participated.

It was arranged the matter should be taken up first with the Canadian government through the commission. Chairman Tawney will confer soon with T. Chase Casgrain, K. C., chairman of the Canadian section.

The project for an ocean waterway from the head of navigation Superior to the Atlantic has been agitated for many years. It was considered seriously at the time when President Taft entered the reciprocity negotiations with Canada.

Several rules have been proposed for the waterway, the cost of which is estimated from \$100,000,000 to \$300,000,000, but the one most favored in the United States provides for the utilization of all the lakes and the St. Lawrence river. It would result in any material lowering of the waters of the Great Lakes, while it is said a considerable change in the lake level would result if any of the other proposed routes were decided upon.

Senator Townsend, of Michigan, is one of the most ardent advocates of the project, and said recently:

"It does not require an economist nor an expert traffic man to show the economy which would result in the industry of the Middle West of the United States and Canada. If the burdens of re-shipment were removed and cargoes could be forwarded in bulk to the ultimate destination."

"This benefit would be increased by the similar advantages resulting to the sound inland routes from the Atlantic coast and from foreign ports, but these benefits coming directly from the actual use of the ocean waterway would not be the only ones enjoyed by industry."

"Such a waterway would produce the result which has always followed, and will always follow from the construction of water transportation, namely, it will cause a reduction of rail rates and an improvement of rail facilities from all points on even remotely competitive rail lines."

SPEED BOATS LOST IN FIRE

Stationary Marine Company Burned—Craft Belonged to Wealthy New Yorkers—Quarter Million Dollar Loss.

New York, Jan. 25.—About thirty boats, among them high speed motor craft, power cruiser yachts, sloops and launches, and two hydroplanes, were lost today in a fire which completely destroyed the plant of the Stationary Marine, Engine, Motor and Supply Company, of Port Washington, Long Island. So rapidly spread the flames that only two of the boats in the yard near the burning building could be saved.

Those who fought the fire had to confine their efforts to protecting two yacht club houses. The shipping loss, most of whom are wealthy New York business and professional men. Among the speed boats lost is the "Bullet," which cost its owners, a syndicate, \$50,000 to build, and which last summer developed a speed of 36 miles an hour. Another boat of the same class was also lost by them.

REV. DR. McDONALD AS MARITIME BAPTIST EDITOR.

Ottawa, Jan. 25.—Rev. Dr. McDonald, of McPhail Memorial Baptist church, tonight asked his congregation to release him from the pastorate. He has been appointed editor of the Maritime Baptist, published in St. John, N. B.

CELEBRATED PAINTER DEAD.

London, Jan. 25.—John Henry Frederick Bacon, the painter, died today.

NORTON GRIFFITHS' BIG CHICAGO SUBWAY SCHEME

To Join With American Capitalists in Organizing a Company to Build and Operate Sub way System.

Montreal, Jan. 25.—It is quite possible that a British-Canadian firm of engineering contractors will be commissioned to carry out one of the largest subway schemes ever planned. The city is Chicago and the firm Norton Griffiths and Company of London, Montreal, and St. John, N. B. The head of this firm, in conjunction with the head of Watson H. Brown and Company, New York, has sent to Mayor Carter Harrison a definite proposition in the following terms:

"We propose to organize an operating company of \$25,000,000 capital with power to issue \$150,000,000 five per cent. first mortgage bonds, which shall build and operate a comprehensive system of subways for the city of Chicago, to be laid out and defined by the subway and harbor commission, and that the first unit of the subway system shall consist of thirty miles, which it is estimated the proceeds of \$50,000,000 of bonds will approximately provide for the whole or any portion of the remaining bonds to be issued as soon as the commission certifies that the earnings of the subway, then existing, justify the extension."

The offer made to the City of Chicago by the combination of British-Canadian and United States capitalists provides for the construction, equipment and operation of an extensive system of subways at the cost of not one dollar to the city. Mr. Griffiths, who sits on the Conservative side of the British house of commons, is the head of the British house of commons, and the head of the United States capitalists provides for the construction, equipment and operation of an extensive system of subways at the cost of not one dollar to the city. Mr. Griffiths, who sits on the Conservative side of the British house of commons, is the head of the British house of commons, and the head of the United States capitalists provides for the construction, equipment and operation of an extensive system of subways at the cost of not one dollar to the city.

STRIKES WERE FEWER THAN IN 1912

Number of Workers Affected Was Less, But Days Lost More—Vancouver Island Factor in Increase.

Ottawa, Jan. 25.—A review of labor conditions in Canada during 1913, prepared by the labor department, notes that the general slackening of industrial conditions due to the financial stringency, especially during the latter half year, more particularly affected the western provinces and employment is now most noticeable in the larger cities of the West.

There were fewer strikes and lock-outs last year than in 1912, and fewer employees involved although the aggregate number of working days lost was greater. The total number of trade disputes last year was 112 as compared with 150 during the previous year. The number of workers affected was 38,000, as compared with 40,511 during 1912. The number of working days lost was approximately 1,550,000 an increase of about 150,000 over the preceding twelve months. The strike of coal miners on Vancouver Island, which resulted in the loss of 588,000 days, is largely accountable for this increase. During the height of the strike 300 men were out of work and at the end of the year there were about a thousand men out of work as a result of the still unsettled dispute with the mine operators.

VICTIMS WERE NATIVES OF THIS PROVINCE

Alex. Rogers and David Craig, Residing in Minnesota, Murdered by Imbecile in Fit of Jealousy.

Woodstock, Jan. 24.—Word has been received here of the murder of Alex. (Sandy) Rogers and David Craig, two old time Aitken, Minnesota, men at their home at Poupore Sliding near Aitken City by Harry Reesley, a supposed harmless imbecile who then killed himself.

Reesley, who was 35 years of age, became infatuated with sixteen-year-old Nora Hall, who lived with her grandparents near the home of the two murdered bachelors. The girl used to run over to their place and they took a fatherly interest in her. Reesley became jealous without any reason for it, sent her a note saying he was going to kill the men and finally the following night went to the Rogers' home and shot both of the occupants.

Mac Boland, another neighbor, returning from a dance went into his barn and found the body of the murderer lying nearby where he had shot himself. Giving the alarm a visit of the neighbors to the Rogers home found both men dead.

Rogers and Craig were both about 54 years of age, while Reesley was 35. H. W. John J. Milligan and Nathan

HUERTA OPTIMISTIC IN FACE OF OBSTACLES

OCEAN LINERS IN PORT AFTER BAD WEATHER

One Captain Says Worst Trip He Made Across Atlantic—The Cedric Thirty-six Hours Late.

New York, Jan. 25.—Exceptionally heavy weather was encountered in mid-Atlantic by four liners which reached this port today. One of them, the Cedric from Liverpool, was 36 hours late.

La Savoie, from Havre, was due here Saturday.

Captain Pavy of the Sant Anna, from Marseilles, the third of the liners, said that he had made one hundred and eleven trips across the Atlantic but had never experienced such a succession of high gales and heavy seas.

The sea was worst from Tuesday noon to Wednesday, causing the Cedric to make only 209 knots for the day's run, about half her usual average.

Another steamer which made port reporting an unusually stormy passage, was the Campania from Liverpool. Three of the crew were suffering from painful injuries sustained in the rough and bitter cold weather encountered.

REVOLUTION IN HAITI IS SPREADING

Whole North Up in Arms, and Number of Important Towns Taken—Two Aspirants for President Among Revolutionists.

Port Au Prince, Jan. 26.—The revolutionary movement in Haiti grows stronger day by day. All the towns in the north are in arms against the government and several of the most important places have been captured by the revolutionists.

For the present the situation at Port Au Prince is tranquil. The United States armored cruiser Montana arrived today in Haitian waters, and the German cruiser Vineta is expected to arrive in a few days.

There are two aspirants for the presidency among the revolutionists, Senator Davilmar Theodore, who initiated the present revolution, and General Belliard, who is in command in the north. The president of the republic, Michael Oreste, had practically decided to abdicate, turning the executive power over to General Belliard, but today Senator Theodore proclaimed himself supreme chief of the revolution, and President Oreste then announced his determination, with the support of the chambers, to offer every resistance to his power.

GOV. GENERAL WILL VISIT QUEBEC.

Ottawa, Jan. 25.—His Royal Highness the Duke of Connaught, accompanied by Captain Beller, A. D. C., and Captain Boscowan, A. D. C., left for Quebec tonight where he will spend two days.

Cold Drives Wolves Into the Villages

Little Girl in France Devoured by Wild Animals on Her Way from School—Cold Becoming More Intense.

Paris, Jan. 25.—The long-continued cold, especially in the central districts of France, is bringing numbers of wolves, frantic with hunger, out of the woods. A little girl returning from school at La Coquille, was devoured by wild animals, the searching parties finding only a torn plaid and few bones. Hauling parties are being organized everywhere.

The temperature in Paris has shown a slight improvement in the last day or two, owing to the brilliant sunshine,

Not Worrying Over Demands and Schemes for His Elimination.

RESIGNATION ALONE WILL SATISFY STATES

Treasury Empty, He Surveys Situation Calmly—People Burdened with Heavy Taxes to Meet Costs of War.

Mexico City, Jan. 24.—President Huerta betrays no sign of yielding, although he is cognizant of the increase in the strength of his enemies intriguing within the capital and those in the field; is handicapped by inability to procure money and is confronted with Washington's determination that he must retire from Mexico's affairs.

Personal and political friends and the highest officials of the Catholic church in Mexico, who have been endeavoring by methods for the most part discreetly indirect to bring about his elimination, are seemingly convinced tonight that they have failed.

General Huerta talks optimistically of the outlook displays pride in the size of his army, which he estimates as considerably more than 100,000, and appears to believe that in spite of all obstacles and reverses he will be able to dominate the situation within three months. It is conceded here that Ex-Minister Florencio Magon has failed in his mission to Mr. Lind at Vera Cruz and that the United States will listen to no proposition short of the unconditional elimination of Huerta.

No one, not even President Huerta, attempts to disguise the fact that the Mexican treasury is practically empty. In the capital the government pay-rolls are being liquidated with reasonable promptness, but it is no secret that the diplomatic representatives and consuls abroad in many instances have not been paid for weeks and that the troops outside the capital often receive their pay long after it is due. In most cases these funds are derived from local sources; sometimes they are from forced loans levied on the inhabitants, where the troops happen to be stationed.

Extraordinary taxes have been levied in the capital, as well as outside points, and there are rumors that other decrees are still to be issued that will exact still greater tribute from the people.

There is little change of importance since last week in the military situation and the residents of the capital are expecting that the rebel chief, General Villa, who has appeared outside of Torreon, will reach here at an early date. One of the disquieting developments has been the increased number of rebel bands between Orizaba and Vera Cruz, and south as far as the isthmus of Tehuantepec.

The question as to whether there is some directing force behind this movement is giving the officials at the Palace moments of uneasy speculation. There are some who believe that General Diaz and General Mondragon, his chief lieutenant in the uprising in the capital almost a year ago, are behind this latest rising. The rebels in this region have not been called upon so far to test the strength of the federals, but it is anticipated that the coming week will see an engagement, since considerable force of federals has been sent to Tehuantepec to take part in the campaign.

The chief fear is the possibility that the rebels may cut communication between the capital and Vera Cruz.

PIONEER SETTLER OF CAPE BRETON DIES

Quebec, Ont., Jan. 25.—There passed away at the General Hospital at the ripe old age of 102 years, Mrs. Julia McLean, who was one of the pioneer settlers of Cape Breton. Twelve years ago she came to Quebec, where for some time she resided with her son, Mr. August McLean. She spent two days.

CHILDREN DIE BECAUSE OF NURSE'S MISTAKE

Gave Them Wrong Medicine—Four Others in Critical Condition—Inmates of Orphan Asylum.

Utica, N. Y., Jan. 25.—As a result of a mistake by a nurse, two children at the Utica Orphan Asylum are dead and four others are in a critical condition. There is an epidemic of measles in the institution. Last night a nurse gave some of the children poison in mistake for a laxative, and today Frederick Gilmore, aged four, and Julia Vincent, aged three, both from Rome, N. Y., died. The other four received similar doses of the poison.

Rogers, of Northampton are cousins of Mr. Rogers, who was a native of the county, while John Craig of Lower Woodstock and William, of Cabano, Que., are brothers of David Craig, who also was a native of this county.

the mercury today standing at above the freezing point for the first time in many days. In the country districts the cold is growing more intense and the weather bureau sees no immediate probability of higher temperatures.

The thermometer registered six below zero today at Puy-De-Dome. The cold is likely to prove disastrous as many farmers have sown late wheat trusting to a repetition of the mild autumn and winter of the past few years, and it is feared that crops in many places will be destroyed.

GIRL DIVES TO SAVE BROTHER

Kept Him Afloat in Water and After Rescue Carried Him on Shoulders to Their Home.

Poughkeepsie, N. Y., Jan. 22.—Elizabeth Fisher, twelve years old, plunged through a hole in the ice in Fishkill creek this afternoon, clutching her little brother in one hand and while the swift current carried them under the ice she thumped with her other hand upon the solid ice above them. Through remarkable heroism she saved the life of the child. Tonight in her home at Upper Howell she is threatened with pneumonia, but happy.

With her brother Malcolm, six years old, Elizabeth started across the fields to the home of a relative. It was necessary to cross Fishkill creek, a swift stream. The stream was covered with ice except at the bends, where the swirling waters had prevented the ice from forming.

The ice was a treat for Malcolm and he started to slide on it. In one long slide he was unable to check himself and he plunged into the water at a bend. Elizabeth did not hesitate a second. She did not stop to remove her coat or her shoes, but leaped into the water just as she saw the current carry her little brother under the ice.

The girl went after him. A dozen feet under the ice she caught him. She said she never thought of closing her eyes in the water, so anxious was she to get hold of her brother. Passing one hand about him she began to pound the sheet of ice above them, hoping to break it, but it was too solid for her strength.

The swift current carried them on down stream, and twenty or thirty feet away was the next bend. The ice there was broken and Elizabeth brought her brother to the surface. The current threw them against the bank and the girl struggled out, drawing her brother with her.

No one was in sight and Elizabeth started back across the fields toward her home, carrying Malcolm on her shoulders. Her clothes were freezing with the water and occasionally she had to put Malcolm down to rest. When she reached her home she was almost exhausted.

Malcolm was quickly revived and tonight is all right, but the exposure and exertion may result seriously for Elizabeth.

See "The Talker" tonight, Opera House, Thompson-Woods Stock, Co.

FRENCH BARON STARTS SUIT AGAINST MEMBERS OF A JOCKEY CLUB

Paris, Jan. 25.—The Matin announces that Baron Robert Le Vasseur has begun proceedings against seven of the most prominent members of the exclusive jockey club by having them summoned to appear before the Correctional Court.

ALASKA RAILWAY BILL GOES THROUGH

Seattle, Wn., Jan. 24.—As soon as news of the passage today of the Alaska Railway bill by the senate was received in Seattle, bombs were thrown into the air and a band and wagons bearing banners paraded through the business streets. The banners announced that the senate had passed the bill and that a great celebration was being prepared to take place after President Wilson had signed the bill, which has yet to go through the house. Alaska also is preparing such a celebration as never was known there before.

Left to Itself Eczema Spreads

When left to itself, eczema, as a rule, runs on indefinitely. Even with careful treatment it is often obstinate in resisting curative measures. The cause is often difficult to find, but you can readily obtain relief from the dreadful itching by the application of Dr. Chase's Ointment. This treatment cleanses the sores and soon sets up a process of healing which leads to complete cure.

WOMAN IN \$100,000 LOVE BALM ACTION WHO IS SUING A CITY

MRS. LOUISE B. ALLEN
R. J. DARNELL

"I kissed you near your heart. The next time I will kiss you nearer your heart, and I don't want you to jump out of the automobile." These are simple sentences in a packet of letters in the possession of Mrs. Louise B. Allen, a widow of Louisville, Ky., who is suing R. J. Darnell, a wealthy Memphis lumberman, for \$100,000 for breach of promise. She has begun an action for \$100,000 against the city of Memphis, alleging false imprisonment following her arrest on a charge of loitering and vagrancy, to "righten her," she says, into abandoning her contemplated action against Mr. Darnell. She was released from the Memphis city jail on a writ of habeas corpus. She charges indignities at the hands of the city officials.

P. E. ISLAND MINISTER REFERS TO ELECTION

Says Good Moral Standard in Danger if Certain Candidates are Elected in Civic Fight.

Charlottetown, Jan. 24.—What may be termed a forerunner of a hot civic election occurred here today when committee rooms of Alex. Horne, one of the candidates for mayor were badly damaged by fire which broke out early this morning. Suffragettes are not to blame, the fire being considered accidental.

MOST NOTICEABLE INCREASE WAS FOR MEATS AND ANIMALS

Ottawa, Jan. 25.—Statistics compiled by the labor department as to the general price movement on articles of general consumption in Canada, during 1913 show that the most noticeable upward movement was in the prices for animals and meats. The department's group index number indicating the average prices for this class, rose from 167.5 in January to 185.9 in December. Dairy products also reached the very high level of 182 in December as compared with 160.4 in January of last year. Furs alone showed an important decline as a group the percentage falling from 383 in January to 247.9 in the last three months of the year.

RAILROAD FROM WEST OF EUROPE TO GREECE

Paris, Jan. 25.—Within eighteen months western Europe will have direct railroad communication with Greece by means of a projected new line connecting the Piræus, Athens and Larissa railroad with the Oriental railroad. The contract for the construction of this line was signed today by the Greek minister at Paris and the French contractors in the presence of the Greek premier, Eleutherios Venizelos. The projected line between Paris and Athens will thus be reduced to sixty hours.

CHILDREN'S FRIEND ARRESTED AS SEEN

Mrs. Emma Johnson, who Received Medal from Mayor of Paterson, N. J., in Cell as Fortune Teller.

New York, Jan. 23.—Mrs. Emma Johnson, a philanthropist and one of the best known women in Passaic county, was arrested late yesterday afternoon in her home, at No. 28 Hamburg avenue, Paterson, N. J., on a charge of telling fortunes, which is prohibited by a state law. She was unable to furnish the cash bail of \$250 demanded, or refused to do so, and spent the night in a cell in police headquarters.

When the children of Paterson heard of Mrs. Johnson's arrest last night many of them called at her cell, some with flowers and others with what delicacies they could offer. She had been a friend of children for many years, providing playgrounds throughout the city, seeing that they were permitted to use roller skates on the sidewalks and giving large quantities of clothing and food to the children of poor families.

In the campaign of the police against fortune tellers and "woodoo doctors," in which many persons of prominent families were arrested in the rooms of these persons, Mrs. Johnson fell into a trap set by the police. She was formally presented a gold medal to Mrs. Johnson recently in recognition of her philanthropic work.

At Police Headquarters Mrs. Johnson exhibited a letter purporting to have been sent by Queen Victoria commending her for her work among the children of Paterson. Mayor McBride formally presented a gold medal to Mrs. Johnson recently in recognition of her philanthropic work.

When the detectives made a raid upon the home of Lydia Conover, a woman, charged with fortune telling, at No. 54 Fair street, they also arrested sixteen white persons, and among them were many women connected with prominent families. Among them was Miss Christina Tait of No. 46 Fairview avenue, Prospect Park, who sings in the choir of the First Presbyterian Church of Paterson. Another was Mrs. Minnie Gerry, wife of a wealthy and prominent contractor. Others arrested were Hester Peterson, Elizabeth McAuley, Emma Schofield, Anna Smith, Jessie McAuley, Julia Dawson, Elizabeth Boncamp, Herbert Herberner, Jessie Van Dien, August Sisco, Henry Carter, John Smith, John Van Dine, Minnie Gerry, Margaret Brown, Edward Conover and Adeline Duke.

The negroes was fined \$100 and the others \$25 each.

Why Not a Land-Saver?

The First Lady—My husband wired me from Paris on my birthday asking whether he should buy me a Rembrandt or a Titian. Now which would you have?

The Second—Well, as far as that goes any of those French cars are very good.

The Bridegroom—A bridegroom is a person who spends a lot of money buying himself a wedding suit that nobody notices.

SUFFRAGISTS TO BLACKEN FACES AS MINSTRELS

The American suffragettes' idea of attracting attention to the cause of woman suffrage will be exemplified on the afternoon of February 20 at the Columbia Theatre in Washington. The means will be a real minstrel performance with some of the devotees, if not all, in "really and truly" black-face make-up, and possibly some trousers.

The show will be given under the auspices of the Congressional Union for Woman Suffrage, and the proceeds will be used in promoting the campaign for the passage of the federal amendment for woman suffrage.

Mrs. Jessie Hardy Stubbs, head of the press department of the union, is in charge of the minstrel show, assisted by Mrs. Martha Tagg, business manager of The Suffragist, the weekly official publication of the Congressional Union.

SIR JAMES' RECOVERY IS NOW PROBABLE

Doctors Very Optimistic in View of Steady Improvement Shown During Past Couple of Days.

Toronto, Jan. 25.—It now seems probable that Sir James Whitney will completely recover from his illness. Dr. Alexander McPhedran tonight said the prime minister had passed a very satisfactory day, and when asked whether his patient would ultimately regain his health, stated that Sir James was making very good progress and that the outlook was exceedingly hopeful.

Dr. C. K. Clarke also was quite hopeful. "The condition of Sir James is very favorable," he said. "The premier is taking nourishment well, and although he is very much improved in health, of course," he added, "we still regard Sir James as a sick man."

Both doctors said that the patient was much better today than at any time since he was brought home from New York, and that he was not nearly so restless as he had been.

Dr. R. A. Pyne, too, was pleased at the improvement in the patient's condition. Ungar's Laundry, fifty pieces for seventy-five cents. Phone us. Team will call.

SHOTS WOMAN AS DINERS LOOK ON

Finds One-time Wife Bride of Another, and After Killing Her Takes His Own Life.

Honolulu, Jan. 22.—In the presence of a roomful of diners at the Seaside Hotel last night, a man known by the name of Woodward, who arrived in Hawaii yesterday on board the steamship Sonoma, of San Francisco, shot and killed his one-time wife and then committed suicide.

The woman had married Charles A. Stewart, of San Francisco, last Saturday. She came recently from San Francisco and was married under the name of Margaret Phipers. Immediately after the ceremony, Stewart left for Hilo.

Mrs. Stewart remained at the hotel after she had taken a seat in the dining room. Woodward, whose right name is believed to be A. W. Wagner, entered. He walked up to Mrs. Stewart's table and, after a few words passed between them, he drew a revolver and began firing. Both died almost instantly.

San Francisco, Cal., Jan. 25.—Charles A. Stewart, in the representative office of a commission house of this city. His employers here expressed surprise that he was married, but thought it might have been the culmination of a love romance. He left them for Hawaii on December 30. A. W. Wagner formerly lived in this city, but about a year ago he moved to Oakland, Cal.

HOW SHACKLETON PROPOSES TO DRAG HIS SLEDGES ACROSS ANTARCTIC

Sir Ernest Shackleton's plans for his new expedition to the Antarctic are arousing the keenest interest in exploratory circles and among the public in general. The above drawing shows the new ideas of Antarctic traction, which are now engaging the leader's attention. The heavily loaded sledges are to be drawn across the ice, if the experiments prove successful, by means of air propelled sleighs, taking the form of wingless aeroplanes. Ahead of the main party will go the taxi-aeroplanes with clipped wings, which will bear its own load of food.

Local and Foreign Shipping Notes

SIGNA LBERVE BULLETIN.
(Issued by Authority of the Department of Marine and Fisheries.)
St. John, Jan. 24-10 a. m.—Cape Race, 720—Clear, light north-west.
Sable Island, 850—Cloudy, light south.
Halifax, 267-6 a. m.—Albatross arrived from Liverpool, 5 a. m. Stephano sailed, 9 a. m. Charterhouse sailed for Manchester.
Sable, 138—Clear, strong south.
Brier Island, 61—Fair, moderate southwest.
Point Lepreau, 22—Cloudy, strong southwest.
Partridge Island—Cloudy, moderate southwest.

DRIVEN ASHORE.

San Francisco, Cal., Jan. 16.—Schr. Plover, hence for Europe (in tow of stmr Wilmington), parted hawser and went ashore at Duxbury Reef during heavy southeast gale last night.

BLOW UP WRECK.

Newport, R. I., Jan. 23.—Revenue cutter Acushnet (57 tons) in tow of John Paul, which sank recently in Nantucket Sound.

THE CREW RESCUED.

Gloucester, Mass., Jan. 22.—Gloucester fishing schr Eganline (37 tons) net was driven ashore yesterday near Liscomb, N. S., and will be a total loss. The eighteen men in the crew were rescued.

SCHOONER SUNK.

Lewes, Del., Jan. 23.—Assateague reports schr Levi S. Andrews, Slocum, from Philadelphia via Newcastle, Del., for Savannah, struck an obstruction and sank at 2.30 a. m. today 3 miles southeast of Watchpesque. Crew taken off by Assateague life savers.

STEAMER NOTES.

R. M. S. P. liner Caraque was due to leave Bermuda Saturday for St. John, and is scheduled to arrive here on the 26th. Captain Coffin is pilot on the Caraque.

The Manchester Line S. S. Manchester Exchange, Capt. Adamson, sailed Saturday for Philadelphia to load for Manchester.

DANGERS TO NAVIGATION.

(Reported to the Hydrographic Office.)
New York, Jan. 23.—Stmr Evelyn reports, Jan. 11 and 12, passed a considerable quantity of lumber off Dry Tortugas and in the Strait.

Stmr Bosnia (Ger), reports, Jan. 20, lat 39 56 N, lon 63 11 W, saw derelict schr Lady Smith (Br), sunk with force main standing, and surrounded by a quantity of debris.

Revenue cutter Miami reports that on Jan. 20, after three days' search, found a derelict schooner up, and that she would destroy same.

CAPTAIN HARRDON ILL.

Philadelphia, Jan. 23.—Captain Harrdon, who commanded the British steamship Rappahannock, when the vessel went to the rescue of the steamer Volturra, a fire in midcoast, is in a hospital here suffering from a nervous breakdown.

He arrived yesterday aboard the steamship South Point. The latter steamship was picked up by the Rappahannock in a disabled condition about two weeks after the rescue of the crew of the Volturra and towed into Queenstown.

These happenings, it is said, caused a mental strain from which Captain Harrdon has not recovered. He was obliged to take to his berth soon after the South Point, to the command of which he was transferred at Queenstown, had left port on a voyage here.

RICH PRIZE AT SEA.

Several thousand dollars salvage awaits the first tug boat crew that captures the abandoned schooner George W. Anderson (from Windsor, N. S., via St. John for New Bedford).

What on earth? Get on her right in style!

How "TIZ" eases sore, swollen, sweaty, calloused feet and corns.

Just couldn't wait to take my hat off!

When we were TWENTY-ONE

I. L. B. Show will be a Huge Success.

It is not only the play and the ability of the cast that are bound to make the I. L. B. production of "When We Were Twenty-One" at the Opera House on January 29th, 30th and 31st with Saturday matinee, a huge success but the bright, attractive, snappy choruses and dancing specialties. The specialties are from the most recent successes on the Great White Way and are being rehearsed under the baton of the popular musical director, Mr. John A. Kelly, with a chorus of pretty girls, stalwart youths and pleasing voices. John R. McCloskey is the director of the play and has the play well in hand and with D. J. Corr and Miss Stella Fyne, both local favorites in the leading roles, and supported by an exceptionally strong cast, the play is bound to exceed all expectations. Box office is now open and just take a tip and arrange for yours now.

Only One Doubt.

Briggs—"Rogers claims to be an agnostic, doesn't he?"

Grigs—"Only as to religion; as to everything else he knows it all."

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture.

Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

Rich Husband Makes Wife Eat Cheap Food

Wealthy Builder Sued in United States Court For Divorce.

HAD TO DO FAMILY WASHING WHEN ILL

Mrs. Paterno, Known in New York as the Hudson-Fulton Bride, Tells Story of Hardships.

New York, Jan. 23.—Mrs. Mildred Paterno yesterday in Supreme Court, began an action for separation against Francis S. Paterno, wealthy builder and owner of apartment houses. Mrs. Paterno alleges her husband forced her to live with his relatives who were suffering from tuberculosis, and that she, too, became ill of the disease. She also alleges Mr. Paterno and his mother allowed her to do the family washing, although he was worth hundreds of thousands of dollars, he forced her to eat food that was not nutritious and that while married to her he squandered his gold on scarlet women.

Mrs. Paterno was known as the "Hudson-Fulton Bride" before her marriage she was Miss Mildred Pascello, of No. 560 East 187th street, the Bronx. During a meeting of the Hudson-Fulton celebration committee in the Mayor's office she was introduced to Mr. Paterno, son of Charles Paterno, who owns the Alta Vista apartment house, St. Nicholas avenue and 172d street. Their marriage was in September, 1909.

Mrs. Paterno charges that her husband and his family forced her to wash the clothing of the family when she was ill, accused her of theft and once she asserts, her mother-in-law seized her by the throat and told her if she was not ill she would choke her to death.

Upon an occasion when friends called to offer their congratulations on the birth of a child, she asserts, she offered them a few cookies and claret, and for that she was denounced by her mother-in-law for extravagance. About this time she was told by a physician, when she was in need of nourishing food, her husband demanded that she buy a pound of twelve cent soup meat. Her mother-in-law, she says, met the boy and told him to cut the order to six cents.

When Mr. Paterno was told of the happening, the complaint says, he replied that a half pound of soup meat served his parents and family of six, and he thought it should do for herself and himself as well. Then, she says, he slapped her face with his hand and "shared that privilege with his mother."

Mrs. Paterno names Lucia Smith and mentions another woman, said to be a designer in an apartment store, and says her husband associated with them. She says that her husband said to her:

"My heart is cold as stone toward you. I am glad to give you cause for divorce. I am glad to give you cause for divorce. I am glad to give you cause for divorce."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the reason is, they become "tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, and, if not treated, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See tongue coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out, the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contents.

January 26 is the birthday, in 1716, of Lord George Germain, Viscount Sackville, who was colonial secretary during the American revolution. He endeavored to induce Carleton, Canada's great governor, to incite the Indians to massacre and butcher, and utterly complained of the latter's refusal to follow his advice.

HAS NOT ACCEPTED.

San Francisco, Jan. 25.—Wille Ritchie, lightweight champion, when shown the despatch from Chicago, announcing he had been matched with Ad Wolgast, said he had received a letter from Wolgast's manager offering him a ten-round bout but had not accepted.

ONE-TIME JUDGE WHO WAS KILLED BY CONVICTS

Using a terrified telephone girl as a shield, three convicts recently attempted to escape from the State Penitentiary at McAlester, Okla., and in the battle that ensued seven men were shot to death. The three convicts were killed by guards but a short distance outside the walls. Of the others killed three were officials of the penitentiary and the fourth was John R. Thomas, of Muskogee, formerly United States District Judge and one-time Representative from Illinois.

Magical Effect on Neuralgia Throbbing Pain Goes Quickly

A YEAR'S SUFFERER CURED BY "NERVILINE."

No person reading this need ever again suffer long from Neuralgia. Nerviline will quickly cure the worst Neuralgia, and Mrs. G. Evans, in her strong letter written from Russell post office, says: "One long year, the longest of my life, was almost entirely given up to treating dreadful attacks of Neuralgia. The agony I experienced during some of the hours that night I can never describe. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline as simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline as simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline as simply unmentionable."

Frederickton, N. B., Jan. 25.—Special convention of the provincial government party in York county has been called for Thursday, January 29th, at 2.30 p. m. at the county court house. The call for the convention was issued at a meeting of the executive of the provincial government party held at the office of Secretary Percival A. Guthrie on Saturday afternoon. The government party's candidate in the bye-election to fill the vacancy caused by the entry of Hon. H. F. McLeod, M. P., into the federal arena will be selected at this convention.

Convention day will be February 1st with polling a week later.

none other than Christy Mathewson, whose fame, it seems, has gone to all lands. There was great excitement when the journalists were told that Matty had ducked the trip.

Superlatives were not missing in the advance notices. It was also the "most famous player" who figured in the write-ups, and they were all famous. The curves of the pitchers were described as something "magnificent," and he "batted to the stars and borne, and so on through the list.

Next to Consumption. There Are More Deaths From PNEUMONIA Than Any Other Lung Trouble.

Pneumonia is nothing more or less than what used to be called "inflammation of the Lungs."

Consumption may be contracted from others, but as a rule pneumonia is caused by exposure to cold and wet, and there is only one way to prevent pneumonia, and that is to cure the cold on its first appearance.

Dr. Wood's Norway Pine Syrup will do this for you if you will only take it in time.

Mrs. Wm. M. Steeves, River Glade, N. B. writes: "Please allow me to express my gratitude for the presence of Dr. Wood's Norway Pine Syrup in the house, for I believe it saved our little boy's life. Three years this fall we were in the lumber woods, and it was very hard to get a doctor to us, and our little boy got pneumonia, and was very ill. The only relief he could get was to take Dr. Wood's Norway Pine Syrup, and with the combined use of the Syrup, and your British Troop Oil Liniment, he soon got better, and was around in a couple of weeks. It certainly is a great remedy."

Be sure and get "Dr. Wood's" when you ask for it. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

DAVID HIWELL AGAIN DENIES STATEMENT

Did Not Tell J. King Kelley Chief would not be Disturbed by Premier Flemming.

In reference to J. King Kelley's letter in the evening paper of Saturday, David Hiwvell, in an interview last evening, said:

"I can only reiterate what I have said before, that neither I nor Premier Flemming nor any member of his government ever gave me a promise or assurance of any kind that the Chief of Police would not be disturbed in any event. I am surprised that Mr. Kelley should have rushed into print with the statement that I gave him the impression that the Premier had assured me that the Chief would not be disturbed, 'just to please McLeLan.' I am satisfied that I said nothing to Mr. Kelley that would warrant him in forming the impression that the Premier had made such a promise to me. I may have said to Mr. Kelley as I have said to other friends that I did not believe the Premier had assured me that the Chief would not be disturbed in any event."

"So far as I am concerned," added Mr. Hiwvell, "the matter ends here. What impressions my friend Mr. Kelley may have formed is now a matter between him and Com. McLeLan."

YORK CONSERVATIVES MEET THURSDAY TO SELECT CANDIDATE

Frederickton, N. B., Jan. 25.—Special convention of the provincial government party in York county has been called for Thursday, January 29th, at 2.30 p. m. at the county court house. Na-Dru-Go Dyspepsia Tablets Quickly Put Disordered Stomachs Right

It's a revelation to the chronic dyspeptic to feel no discomfort after a hearty meal, when that meal is followed by one Na-Dru-Go Dyspepsia Tablet. He is hardly prepared for the almost magic relief which the tablet gives him from the various discomforts to which he is accustomed after eating. Na-Dru-Go Dyspepsia Tablets sweeten stomachs that are sour—relieve stomachs that feel as if a stone had been swallowed—stop heartburn—and give the needed assistance to stomachs that are weakened.

Containing in themselves the active principle needed for digesting every drop of food, Na-Dru-Go Dyspepsia Tablets enable even the weakest stomachs to get the good out of what is eaten, preventing the accumulation of undigested food and gas. With a little help for a while, the digestive organs recover their strength, do their work properly, and your troubles are over. Don't go on suffering! Get a box of Na-Dru-Go Dyspepsia Tablets from your druggist today. National Drug and Chemical Co., of Canada, Limited, Montreal.

ST. JOHN, N. B., MONDAY, JANUARY 26, 1914.

A SELF-CONVICTED LIAR.

The Times apparently objects to being called a liar by The Standard, and in its issue of Saturday evening plaintively observes, "It is quite useless for a newspaper which has any regard for the truth, or the decency of discussion to attempt to discuss any matter with The St. John Standard. The latter has falsely charged the Times with saying what it did not say, and implying what it did not imply."

When The Standard applied the term of a deliberate liar to the Times, we did so with a full knowledge of its meaning and the ability to prove the case. The Times can be convicted without argument, but by its own editorial statements. In its issue of January 21st it published an editorial headed, "Where is Mr. Hazen," in the course of which it accused The Standard of misrepresenting the Board of Trade and Hon. Mr. Hazen of delay in refuting the slanders against St. John and the Bay of Fundy. In the editorial, which was really a remarkable production appeared the following statement:

"The Standard was told by J. M. Robinson, president of the Board of Trade, that some ten days or more since he had asked the Marine Department to supply the Board with a statement of the sailings to and from St. John and the percentage of loss, and that the information is now being compiled, and when it is received the Board will be in a position to give authoritative answer to the slanders concerning the Bay of Fundy. A representative of The Standard knew this, having received the information direct from the Board of Trade."

If the Times did not lie in its editorial of January 21st, but on the contrary, correctly quoted the president of the Board of Trade, then by its own statement "ten days or more" had elapsed since the president of the Board of Trade asked the Marine Department for the information in reference to the "percentage of loss" of vessels in the Bay. Let us be absolutely kind to the Canterbury street journalistic assassin and give him the benefit of any doubt that might have clouded his mind. Eliminate the "more" and, for the sake of proving the veracity of the Times, admit that it was only "ten days" since the Board of Trade had asked for this information which the Marine Department had so cruelly delayed. Reference to a calendar will show that ten days before January 21st, the date of the Times editorial, was January 11th. Then we may take it as a verity that on that date, January 11th, the president of the Board of Trade asked the Marine Department for information regarding the matter quoted. By turning up the files of the Times once more we find that the accident to the Cobeguid occurred early on the morning of January 13th, and the first news of it appeared in the Times that evening. Yet, according to the Times, the president of the Board of Trade had applied to the Marine Department for information on January 11th, or two days before there was any necessity for it. A most peculiar proceeding.

J. M. Robinson, president of the Board of Trade, is a sane and honorable citizen. In this matter or any other he has had no occasion to tell anything but what he believed to be the truth. On the other hand the Times in its eagerness to attack Hon. Mr. Hazen has had every motive to lie, and when it states on January 21st that the president of the Board of Trade "ten days or more since" applied to the Marine Department for information to use to refute slanders arising out of an accident happening on January 13th, it lies, and it knows it lies.

There had been no question of the safety of the Bay of Fundy until after January 13th. Why then, in common sense, should the president of the Board of Trade on January 11th apply for material to prove a condition that up to that time had not been questioned?

The attitude of the Times is at variance with all facts. To convince the public to the contrary it has not only to overcome the contentions of the Standard but also the evidence of its own files and of the calendar. In its eagerness to attack the Minister of Marine the Times has been even more reckless than usual. When a newspaper deliberately gives publication to statements it knows to be untrue there is but one term to describe the action. And even at the risk of harrowing the sensibilities of the Times, The Standard is respectfully compelled to reiterate that the Times is not only a deliberate liar but a self-convicted liar as well.

"A BLESSING IN DISGUISE"

The newspapers supporting Mr. H. C. Dugas' bid from Massachusetts, were compelled to retract their opposition with the complete statement of the facts that is characteristic of their utterances, are attempting to misrepresent the provincial Secretary for Agriculture, Mr. Daggett, in discussing the potato embargo, made the statement that it might prove to be a blessing in disguise if it had the effect of leading the farmers of New Brunswick to pay more attention to the quality of their output. The opposition newspapers seized with avidity upon the first part of his statement, but were very careful not to quote him correctly. While their mode of attack is unfair and unjustified, it is, nevertheless, not surprising, for there never was a time when those newspapers could discuss any question affecting either political party without stooping to misrepresentation and falsehood.

Mr. Daggett can probably take care of himself, but the important fact is that what he really did say should be given the widest possible publicity, and in distorting it, the opposition press have kept back useful advice from the very farmers, whose case they claim to plead.

It is of the utmost importance that in future the potato growers of this province should exercise every care to keep the quality of their product to the highest possible standard. It is said, and is probably true, that in the past the desire has been to produce a large crop rather than one of high quality. Quantity rather than quality has been the goal in some cases. The Secretary for Agriculture, when he referred to the potato embargo, also said, that if it and the agitation which would follow it would have the effect of emphasizing the necessity of quality in potatoes rather than quantity, it might prove a blessing in disguise, and there appears to be every warrant for such a statement.

When the opposition newspapers attempt to dismiss Mr. Daggett's remarks as a mere expression of unjustifiable optimism and ignore the advice he gave, they not only do him an injustice, but they show their utter ignorance of the situation and of the necessity existing for greater care in the selection and cleansing of good seed potatoes and the attention directed the period of growth that will lead to the best results. If the farmers have been rather inattentive to the question of quality, and if the embargo serves to direct their attention to the very important point emphasized by Mr. Daggett, it looks as if his statement was very much a fact.

DEVELOPING THE HARBOR.

When Hon. J. D. Hazen and Hon. Robert Rogers visited St. John some few weeks ago they pledged themselves that the government would do everything in its power to speedily equip this port with the facilities necessary for the handling of the winter port traffic. The announcement made elsewhere that the Maritime Dredging and Construction Company has been awarded the contract to complete the West Side wharves undertaken by Mr. Connolly, is evidence of the implementing of that pledge.

Through a combination of circumstances, the details of which are not germane to the question, there was delay in the finishing of the Connolly contract. One berth at least, that should have been ready in time for this winter's business was not finished, and the government properly decided that if the original contractors could not provide the facilities as rapidly as the needs of the growing trade called for them, action should at once be taken. As a result of such action another firm takes up the work, and although an herculean task already appears to confront them have undertaken to finish it in time for next season. This is good news and refutes the claim of the Grit newspapers that Hon. Mr. Hazen and his colleagues in the government have neglected the port of St. John.

But there is still other evidence to prove the case. When the grain conveyors were needed for the West Side wharves, and the government undertook to build them, a long wait regarding delay arose from the reckless assaults of the Minister of Marine. A visit to West Side today will show what good work has been done on the conveyors, and The Standard is informed that the indications are they will be completed and ready before the time set in the contract. Next year should find this port in a much stronger condition to handle the winter port trade than at any previous time in our history.

Lady Nicotine still reigns! Late English papers tell of a Yorkshire lady of 100 who takes much satisfaction out of a briar-root pipe. Then comes Nora Sullivan, Potsdam, N. Y., who admits 100 years—and does know how many more actually—with a record of 50 years' attachment to the pipe. But not a word of the deadly cigarette, 470 notice!

Diary of Events

HISTORIC DAYS IN CANADA

Sir Edouard Percy Cranwill Grouard a French-Canadian, who performed conspicuous services for the British Empire in both North and South Africa, was born in Montreal forty-seven years ago today, the son of Hon. Edouard Grouard, of the Cassin Supreme Court. He was educated at the Royal Military College at Kingston, and in 1888 joined the Royal Engineers specializing in railway construction. He served in the Dongola expeditionary force in 1896, and constructed the railway which carried Kitchener to Khartoum. The young French-Canadian engineer was honorably mentioned in the despatches and received the D. S. O. and the Khedive's medal. During the next few years he served as director of Sudan railways and president of the Egyptian railway board. When Kitchener went to South Africa he called Grouard to his assistance, and from 1898 to 1903 the Canadian was South African director of railways, rebuilding the lines which had been destroyed during the conflict. A brief service in England followed, and in 1904 he was appointed as high commissioner of the protectorate of Northern Nigeria. He became the Governor of Northern Nigeria in 1908 and governor and chief commander of the East Africa Protectorate the following year. In 1913 he retired from the imperial service to join the board of directors of a great shipbuilding firm. He was knighted in 1900.

THE PASSING DAY

AUSTRALIAN NATIONAL HOLIDAY

The people of Australia will celebrate today the 126th anniversary of the establishment of the first permanent white settlement on the world's largest island and smallest continent. For many years the twenty-sixth of January—which comes in the middle of the Australian Summer—has been one of the great national festivals of the Australians, and it is a legal holiday in all of the States of the Commonwealth. It was on this day in 1788 that Governor Phillip founded the city of Sydney, with 1,030 emigrants. For many years thereafter Australia was a dumping ground for English and Irish convicts, but the great majority of them returned and prospered in the new country, and they and their descendants laid the foundation of one of the greatest and most enterprising progressive governments in the world. Many Australians are as proud of tracing their ancestry back to a convict as the American is of boasting of Mayflower descent. While in the mother country are being fought in America and Europe, and which are considered radical to the verge of socialism, have long since been incorporated into law. The powers of the State and Federal parliaments include the right of enforcing arbitration and conciliation in industrial disputes.

Australia has a population of over five millions. Sydney, the first settlement on the continent, now has about 550,000 people, while Melbourne, in Victoria, has about 600,000, although it is much younger than its rival, having been founded in 1837. Melbourne is now the capital of the Commonwealth, but it will soon lose that honor, as the federal capital is now being established at Yass Canberra, a new city now in process of construction. In transferring the seat of government to a new municipality, Australia is following the example set by the United States and Canada, as both Washington and Ottawa were literally hewed out of the wilderness. Magnificent public buildings are now being constructed at Yass Canberra, and the city is being laid out by some of the world's greatest experts in city planning.

French, Portuguese and Dutch navigators were the first to visit Australia, and the latter claimed the continent and gave it the name of New Holland. In 1770 Capt. Cook visited the country which is named New South Wales, by which one of the States is still known. Convicts and adventurers were the first settlers. The discovery of gold in 1851 gave a great impetus to immigration. The six original colonies of Australia were combined in a federal union in 1901.

FIRST THINGS

THE GRIFFIN.

The first vessel built in the western hemisphere was the Griffin, the keel of which was laid on this date in 1679 by workmen in the employ of La Salle. The Griffin was a bark of Cayuga and was built at the mouth of Cayuga creek, not far below the site of Buffalo, and near the foot of Squaw Island. She was armed with a battery of seven small cannon and some muskets, and floated a flag bearing the device of an eagle. In August of the same year La Salle embarked with a battery of seven small cannon and some muskets, and sailed for the western end of Lake Erie. This was the beginning of the commerce on the Great Lakes. The Griffin had a successful voyage to Green Bay, but in the meantime La Salle's creditors, thinking him lost, were selling at Montreal all his possessions. To prevent this, he loaded the Griffin with a rich cargo of furs and sent it back, with orders to return immediately. La Salle then explored the western country, but on returning to Fort Frontenac he learned that the Griffin had been shipwrecked.

THE HUMAN PROCESSION

TWO GREAT BISHOPS.

January 26th marks the birthday of two of the greatest bishops of the Anglican Church. The Rt. Rev. Arthur Foley Winnington Ingram, D. D., Bishop of London and dean of the chapel royal, will pass his fifty-sixth birthday today, while the Rt. Rev. Daniel Sylvester Tuttle, of St. Louis, the presiding Bishop of the Protestant Episcopal Church of the United States, and the oldest of American Anglican bishops, in point of service, was born seventy-seven years ago today.

IN LIGHTER VEIN

AND HE DID.

CONFOUND IT—I DON'T UNDERSTAND THIS INCOME TAX BUSINESS—I MUST TRY TO FIGURE IT OUT!

AND HE DID.

The Easiest Way.

Speaking of the splendid work being done by the Carnegie Foundation, which recently held its annual meeting in New York, Jacob Gould Schurman, president of Cornell University, said in Ithaca:

"The generosity, the intelligent and unselfish devotion which Mr. Carnegie has shown this philanthropy have won for him the esteem of the whole nation."

"The esteem of one's fellow men is not an easy thing to win; but as Mr. Carnegie has proven, not so difficult, either, as the sage considered it to be. 'A youth, you know,' continued President Schurman, 'sought a sage and inquired of him: 'What shall I do, oh sage, to have my fellow men speak well of me?' 'Die.'"

An Idea.

The stout man in the fourth row was attentively following the pastor's sermon.

"Let us, then," said the exhorter, "break the bonds of custom and throw off the shackles of self, and acknowledge our debt to life's fundamental lessons. Let us deduct from the year's balance sheet those obligations which we are normally bound to assume."

At this point the stout man suddenly chuckled and slapped his leg with considerable force. Many other men were overtaken by the pastor.

"You seemed greatly pleased with one section of the sermon," he said.

"Yes," replied the stout man, "what you said reminded me of a rip-off new scheme for beating the income tax."

"Shaking" a Bum.

"Excuse me, sir," said the seedy one in the hotel lobby, "but though a

stranger to me, your face seems familiar. Have you any relatives in Atlanta?"

"Not one," was the reply. "Years ago I floated down the Chattahoochee river on a raft, leaving all my relatives behind. The raft was wrecked in a storm and I had to swim ashore with a forty-pound cash in tow. I traded the fish for a week's board, put an ad. in the lost column, recovered my wrecked raft and started a lumber yard."

He Was Quite Slow.

A shy young man had been calling on the sweetest girl in the world for many moons, but, being bashful, his suit progressed slowly. Finally, she decided it was up to her to start something, so the next time he called she pointed to the rose in his buttonhole and said: "I'll give you a kiss for that rose."

A crimson flush overspread his countenance, but the exchange was made after some hesitation on his part. Then he grabbed his hat and started to leave the room.

"Why, where are you going?" she asked, in surprise.

"To the florist for more roses," he called from the front door.

Wouldn't Spoil the Evening.

Four old Scotchmen, the remnants of a club formed fifty years before, were seated round the club table. It was 5 a. m., and Donald looked across at Dougal and said in a thick whisper: "Dougal, do ye no notice what an awful peculiar expression there is on Jock's face?" "Aye," said Dougal, "I noticed that; he's dead. He's been dead these four hours." "What, dead?" "Yes, he no tell us?" "Ah, no, no," said Dougal, "I'm no that kind of man to disturb a convivial evening."

Overshoes, Shoe-Packs, Lumbermen's Snag-proof Rubbers, Oversocks

These are the goods needed by the man working out of doors, and we can supply the most reliable kinds at lowest cash prices.

LOIS JOSEPHINE
In "TRAFFIC IN SOULS"

LYDIA BARRY
In "THE HOUSE IN BONDAGE"

CECELIA WRIGHT
In "THE HOUSE IN BONDAGE"

MISS GAIL
In "TRAFFIC IN SOULS"

In this collection of footlight favorites every one is a toptier. The group, it will be seen, has such a clever performer as Dorothy Donnelly, who has scored a distinct success in the new play "Maria Rosa," which probably will take to the road after a continued success in New York. The operatic stage is represented by that sterling singer Mme. Francis Alda, whose sweet singing in "Madame Brantome" has pleased thousands. Enid Gray, in "The Lure," is another capital artist who is delighting her audiences. Florence Reed, in "The Yellow Ticket," has scored the success that was expected of her, while

Lydia Barry is now, as she always has been, one of the biggest favorites in vaudeville. Lois Josephine and Cecelia Wright are two more vaudeville performers who continue to please

at every place they show, and Miss Gail, in "Traffic in Souls," goes along in her own pleasing way delighting audiences. Cecil Spooner, in "The House in Bondage," is turning them away as usual. From all of which can be gathered that the season of 1914 is enjoying a successful period thus far. The theatres throughout the country report suc-

cesses in every direction, and the old and new favorites are enjoying themselves as a result. In the latest of plays "Maria Rosa" is the dramatization of an actual occurrence in the mountains of Catalonia, which is the northeastern province of

Spain, told to Guilmer three weeks after it happened. All day long the playwright pondered over the story, fraught with human passion, love, fear, hate and revenge, as his mule steadily carried him up the mountain pass to the home of Maria Rosa. The plot and scenes took form in his brain, and when he reached the inn at night all that remained to be done was to put the dialogue on paper. This he did in forty-eight hours. F. C. Whitney has given his star excellent support, chief of whom is Lou Tellegen, for eight years a member of Sarah Bernhardt's company and for the last three years her leading man.

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. MURPHY & CO.)
Montreal, Jan. 24.—The local market showed little change today. The feature of the morning was a movement in Quebec Railway. It was reported from Ottawa that arrangements had finally been made whereby the Canadian Northern interests are to secure control of the Quebec and Saguenay Railway. It is stated that the Canadian Northern have secured a large percentage of the bonds of the Quebec and Saguenay and will assume the obligations of the Quebec Light, Heat and Power Co. Following the publication of this report the stock opened at a considerable advance on the local market the first sale taking place at 16. There was good selling at this price and the market fell back to 15, afterwards recovering to 15 1/2. The bonds were unchanged at 50 1/2.

ACTRESS, SUED FOR \$50,000, SAYS BANKER PURSUED HER

Instead of Lola May, leading woman in "The Lure," pursuing Derby Crandall, banker, as charged in the alienation action of Mrs. Marie Crandall, the actress asserts he was the pursuer. Once, she says in her answer, filed in the Supreme Court of New York recently, she gave up a profitable engagement in New York and fled to California to escape his attentions after he had threatened her with bodily harm if she did not permit him to see her.
Miss May's home is in Washington and her right name is Mae Furman. Mr. and Mrs. Crandall separated in the early part of 1913, when they were living at the Marie Antoinette Hotel. Mrs. Crandall alleges that Miss May was at the bottom of her marital trouble and about one month ago filed an action for \$50,000 against the actress.

Schlitz Brown Bottle Claims Authenticated

by Dr. Robert Wahl, President of the Wahl-Henius Institute of Fermentology. We reprint from his letter.

"Our observations, extending over the last twenty-five years, have convinced us beyond a doubt that exposure of beer to light has a very detrimental influence on its quality generally, but especially upon the flavor of the beer. We have tested beers repeatedly in this direction, placing the bottles into direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable, on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are therefore recommendable."

He quotes famous authorities to corroborate his opinion

Authorities on the subject of the detrimental influence of light on beer are:
C. Lintner, Lehrbuch der Bierbrauerei 1875, S. 343.
Beck, Zeitschrift für das gesamte Brauwesen, 1882, S. 370.
V. Huth, Der Bierbrauer 1876, S. 127.
Ney, Allg. Zeitschr. f. Bierbr. u. Malzfabr., 1876, S. 273

Light cannot harm Schlitz in Brown Bottles. It is made pure and then kept pure

THE WEATHER

Maritime—Moderate winds; fair and cold.

Toronto, Jan. 25—Since Saturday morning a pronounced disturbance developed on the middle Atlantic coast and moved northeastward across the Maritime Provinces, accompanied by gales and heavy rain. In the other provinces from Quebec to the Rocky Mountains, the weather has been fair and cold.

Minimum and maximum temperatures:

Table with 3 columns: Location, Min., Max. Includes entries for Victoria, Vancouver, Kamloops, Edmonton, Battleford, Prince Albert, Medicine Hat, Moosejaw, Regina, Winnipeg, London, Toronto, Kingston, Ottawa, Montreal, Quebec, and Halifax.

(*) indicating below zero.

Will Be Judges Mayor and Mrs. Frink, Hon. John E. Wilson, Mr. and Mrs. L. P. D. Tilley and Mr. and Mrs. W. E. Foster will be the judges at the Labor Carnival in Victoria Bink on Tuesday.

Vital Statistics Reports to Registrar Jones for the week ending Saturday were of 4 marriages and 3 births—all males.

Death of Child Mr. and Mrs. Hartley S. Wanamaker, 47 Elliott Row, were bereaved by the death of their only child, Horace E., on Saturday night, aged four years, and will have the sympathy of a large circle of friends.

At Evangeline Home Miss Georgiana Hannah died at the Evangeline Home on Saturday. She was 29 years of age, and a native of St. Stephen. The remains will be sent to St. Stephen today for interment.

Assisted Choir St. Mary's Band assisted the choir of the church at the service last evening. Miss Ferris was heard in a vocal selection. Rev. Archdeacon Raymond delivered an eloquent sermon on the conversion of St. Paul. There was a large attendance.

Higher Education In his remarks from the pulpit at 9 o'clock mass yesterday, in the Cathedral, His Lordship Bishop LeBlanc impressed upon the congregation the need of higher education among the Catholics of the community, and urged upon those present the importance of seeking to advance education.

Memorial Service There was a good attendance at the memorial service to the late Lord Strathcona, held in the Seaman's Church last evening. The Ven. Archdeacon Raymond conducted the service and delivered a fine address. The choir of St. Mary's church attended, and rendered special music. Solos were given by Miss Ferris and H. Walker.

New Members In the St. Peter's church last evening there were special services following the regular services, marking the receiving of new members into the Holy Family. There was special singing and a sermon appropriate to the occasion, and a large number of the congregational members were received as new members with the Society of Holy Family.

Rev. F. J. McMurray Yesterday Rev. Francis J. McMurray an old North End boy, and former rector of the Cathedral, celebrated the 25th anniversary of his ordination to the priesthood. Father McMurray is now pastor of St. Gertrude's church, Woodstock. He was ordained to the priesthood on January 25th, 1889, by the late Bishop Sweeney of the Cathedral. Father McMurray's long connection with the Cathedral and his intense interest in the work of his calling has gained for him many strong friends who will join in congratulating him on the occasion of his silver jubilee.

Must Be Careful Beware of apparently innocent amusement, said Evangelist Dr. Brown, at the Victoria street Baptist church last evening. He declared that young men and maid could not be too careful. There was no telling how far a little evil would lead them. His subject was the moral leper, and he declared that from a little contamination sin rapidly spread. Ninety per cent. of gamblers got their start on the wrong road at the home card table. Ninety per cent. of fallen women went astray at the dance hall. At the morning service the Evangelist spoke of the dangers of church people becoming too self satisfied and getting too lax to fight the evils of the world. The services are being well attended, and last evening an overflow meeting had to be held in the vestry.

DIED.

MOWRY—In this city, on the 24th inst., J. Grant Mowry, aged 33 years, son of Mrs. Mary E. and the late Captain Justus Mowry.

Funeral on Tuesday from his late residence, 35 St. James' street. Service at 2:30 o'clock.

WINTER—At the residence of Mr. H. Fletcher, 151 St. James' street, on the 25th inst., Eliza, widow of Samuel Winter, late of Moncton, aged 69 years.

Funeral on Monday, the 26th inst., from 151 St. James' street. Service at 3 o'clock. Interment at Fernhill.

WANAMAKER—On Jan. 24th, Harris Edward, only child of Hartley S. and Ethel Wanamaker, aged four years.

Funeral Monday afternoon, Jan. 26th, at 2:45 from his late residence, 47 Elliott row.

Charlottetown papers please copy.

MARITIME DREDGING CO. WILL COMPLETE WHARVES

Government Again Gives Evidence of its Desire to have St. John Harbor Facilities Added to as Speedily as Possible.—Connolly Contract Goes to Maritime Co.

The Maritime Dredging and Construction Company will complete the Connolly contract for new wharves on West Side. They take the work at the same price at which the original contract was awarded and undertake to have it completed during the present year. To prevent any possibility of delay the public works department has agreed to pay the extra cost which the use of hard pine, instead of hemlock, will involve, it being impossible to secure hemlock before the 1st. The work involves the completion of the wharf now underway and the building of a second one. This will really provide three berths, although until still another wharf is constructed, only two will be available for use, the outside one being too exposed to permit of the mooring of big steamers. The two additional berths will be ready for use next season.

Manning W. Doherty, manager of the company, when seen yesterday, admitted that his company had made an agreement to do the work. The price allowed will be the same as provided in the contract with Mr. Connolly, with the addition of the extra cost of hard pine over hemlock and payment for work to be done in cleaning up the base of the Connolly cribs that went adrift. Work on crib construction will be commenced on March 15th, and the company expect to sink 200 feet of crib per month until completed. The work of concrete laying will begin about April 1st and 7,000 cubic yards per month will be laid.

It is the intention of the company, as soon as the concrete superstructure has progressed about 200 lineal feet, to double the reclamation plant now at work so as to rush the work to completion with all possible speed. The

THIEVES MADE VALUABLE HAUL IN ROYAL HOTEL

Room Occupied by Mr. and Mrs. L. P. Fhayer, Entered and Gold Watch Valued at \$200 and Sum of Money Stolen—Pearls Overlooked.

A daring robbery occurred in the city on Saturday when in mid-afternoon the room in the Royal Hotel occupied by Mr. and Mrs. L. P. Fhayer was entered and a gold watch valued at \$200, together with a wallet containing a sum of money, was removed. Although the thieves succeeded in getting safely away with the watch and the money, an envelope containing a number of valuable pearls was overlooked, while an envelope containing some printed matter was stolen.

Mr. Fhayer was in another part of the hotel when the robbery occurred, and it was in the vicinity of five o'clock on Saturday afternoon when discovery of the theft was made. Taking advantage of his absence from the room the apartment occupied by Mr. and Mrs. Fhayer was entered and subjected to complete ransacking. It is understood that Mrs. Fhayer was the possessor of the stolen articles.

It is apparent that this thief or thieves had kept close tabs on the occupants of the room and planned the robbery so as to enter at the opportune time. The removal of the envelope gives evidence that those who made the haul had their eyes on a greater haul than they did.

TO PROTECT STURGEON?

Demand for this Fish in all parts of World — In Danger of Extinction.

St. John river fishermen are much interested in the proposition to establish a close season for sturgeon for a period of four years. This proposal is now being discussed by the fishery commissioners of the United States and Canada. It is said such a measure is imperative if the inland waters of Canada are not to be cleared of this fish. The principal fishing grounds for sturgeon in Canada are the St. John river district, and Lake Umbagog, and Lake of Woods in the west.

Twenty-one years ago the catch of sturgeon in Canada was 1,000,000 lbs., valued at \$60,000; last year the catch was only 900,000 lbs., but owing to increased competition among purchasers, the value was \$115,000. The British demand for Canadian caviar is increasing by leaps and bounds, and Germany and even Russia, the natural home of the sturgeon, are also making heavy inroads upon Canadian supplies.

Another great sale of carpets will commence this morning in M. R. A.'s carpet department. The offerings will consist of Tapestry carpets from the mills of the most reliable British manufacturers. Prices have been practically cut in two for this sale which will be for a few days only. Full particulars are given in a special advertisement in this issue on page 5.

Remember the fire sports at Queen's rink, Wednesday, 28th. Past races, fancy races, good music.

C. H. McLean of McLean and Riva, returned from Prince Edward Island on Saturday.

NEW YEAR FOLLOWED BY A GOLD SNAP

From One Degree Below to Forty-five Above Zero.

THE WEATHER PLAYS TRICK ON CITIZENS

Mercury Back to Zero and Below Last Night—Swift Change Surprises all.

A range in temperature from one degree below zero to forty-five above was portended out to St. John since Friday night. While the mercury was sitting up and down at this unusual rate a violent rain, during which the fall was 1.1 inches, was also handed out. This was the first rain storm of 1914.

The thaw began during Friday night, and during Saturday morning the brick and stone buildings of the city had the appearance of being built of white marble. During Saturday afternoon, however, rain began to fall and by midnight was quite heavy, while the thermometer registered forty-five degrees above zero. The rain fell almost continuously until about nine o'clock yesterday morning, when the mercury began to fall again. Slight snow falls were conspicuous during the morning, but by afternoon the mercury was well below the freezing point, while at nine o'clock last night it was only six above.

At midnight thermometers about the city registered below the cipher. Yesterday afternoon a high wind from the northwest was blowing which, at times, reached a velocity of thirty-eight miles an hour. At nine o'clock last night the wind at the rate of thirty-two miles an hour with the weather clearing.

Reports from Lepreau indicated that the gale had reached a velocity of forty-eight miles an hour yesterday afternoon. It was predicted last night that the mercury would be well below zero this morning.

THE ST. JOHN CONSERVATIVE CLUB MEETS

Interesting Programme Saturday Evening — Instructive Address by L. P. D. Tilley, M.L.A.

There was a large attendance at the Saturday evening meeting of the St. John Conservative Club, and an interesting programme of speeches and songs was carried out. The president of the club, A. O. H. Wilson, presided, and L. P. D. Tilley, M.L.A., was the principal speaker. Mr. Tilley suggested that the club should arrange for monthly lectures on various departments of the Canadian history, and gave an interesting and instructive outline of Canadian history from the days of Jacques Cartier down to Confederation. Other speakers were F. L. Potts, E. N. Jones and Dr. James Manning. Vocal solos were contributed by J. T. Nuttall, Albert Richey, F. L. Potts and Dr. Manning.

Fred Hayter favored the gathering with some bagpipe selections, and Alex. Gibbs with Scotch reels and ballads hornpipes.

Grand "Royal Edward" Concert. Tonight at eight in the Seaman's Institute Hall, the "Royal Edward" Concert Party (by kind permission of Captain F. M. Wood, R.N.R.), in a splendid programme. Come early. Admission, 25 cents.

The celebrated Billy Merritt is entered to skate in the fire sports in Queen's Rink, Jan. 28th. Don't forget the date.

M. R. A.'S JANUARY SALE OF PRINTED CAMBRICS.

A sale of particular interest just now when spring sewing is the order of the day will be this offering at a low price of full width printed cambrics suitable for making ladies' and misses' dresses, aprons, blouses and waists, also shirts for men and boys. The sale will start this morning at 9 o'clock in Wash Goods Department.

Follow the crowd to Queen's Rink. Come Wednesday night and see the big sports. Greatest sports of the year.

Startling values in Pallette silk waists. Owing to the change of the trade in the west a Montreal manufacturer had a lot of these fine Pallette silk waists left on his hands. F. A. Dykeman and Co. have bought them at a great discount and they are now on sale at \$2.50 and \$2.98. The colors are black, navy, brown and Copenhagen blue. All aises, high neck, and some are trimmed in the low neck effect with all over silk lace and button trimmings. These waists are perfect fitting and the silk alone would cost more than they are asking for the finished article. From the same manufacturer they have a lot of white pique waists and white lawn waists that they are placing on sale at 98 cents each. These waists were intended to be sold at \$1.25 and \$1.50. All aises.

Garlock Packings

Need No Introduction to Mechanical Men. Their splendid service, given on all classes of work for the last quarter of a century, prove them beyond all question the best packings on the market. We carry a large stock in High Pressure, Low Pressure, Valve Stem Twist, Hydraulic. Special orders can be filled promptly.
