## THE BEAVER BROOK CLAIMS.

Dominion Government Officials Here Interviewing Victims of Recent Accident.

### SOME HAVE SETTLED.

Others Refuse Sums Offered As Being too Small. Men Being Seen Separately.

Mr. Harry Alward, assistant law clerk of the Department of Justice, at Ottawa, assisted by District Superintendent Evan Price and J. El Stevens of Campbellton, has been here since last week, arranging the terms of compensation with the victims of the Beaver Brook accident. The work has progressed very slowly, owing to many of the men thinking that where they have not been offered what they have gone through. Messrs. James Gardiner, Elijah Astles, John MacDonald, John McCallum, William Allison and Walter Galley and one or two others have agreed to settle their claims for what was offered them—\$124.80, or thereabouts, over and above the amounts of their doctor bills. Mr. Black, we understand, was offered some \$300. Some have been offered their grocery bills in addition to the physician's charges. The majority have not yet accepted the commissioner's offers. Mrs. Thibodeau's case has not been considered. The men are being negotiated with separately, their counsel not being recognized in the matter.

## MYSTERIOUS DISAPPEARANCE.

Belleville, Ont., April 30.—Deep mystery surrounds the disappearance of B. Davis, the noted mining expert, who left Madoc some time ago, presumably for Bannockburn. Before leaving, Davis left a very valuable collection of minerals and other valuables with John Cochran, proprietor of the St. Lawrence Hotel. He has not since been heard of. Police and Pinkerton detectives are working on the case.

**KNIGHTS OF COLUMBUS.**  
Chatham Council, K. of C., was instituted at Chatham last Wednesday by officers of St. John Council. The third degree was worked by W. J. Mahoney of St. John, state deputy, and his staff. The officers are: Grand Knight, R. A. Murdock. Deputy G. C., R. A. Lawlor. Chancellor, Michael Morris. Recorder, H. J. McIntyre. Financial Sec., M. Keoughan. Treasurer, Fred Maher. Lecturer, P. F. Duffy, M. D. Advocate, Charles Morrissey. Warden, A. P. Williams. Inner Guard, Thos. Fitzpatrick. Outer Guard, Donald Fraser. Trustees, George Harper, John Morrissey and David Buckley. Chatham Council makes the fifth in the maritime provinces, there now being one in P. E. Island, two in Nova Scotia and two in this province. Chatham has 58 members.

**ICE HAS GONE.**  
The ice in the river started here on Sunday, and the channel is fairly clear to-day. It is reported that some logs have been lost by the Barnaby River Boom Company.

## TRAGIC END OF LONG CAREER.

Wandering Umbrella Mender, Insufficiently Nourished and Poisoned by Alcohol, Dies in Police Cell.

Mr. Stewart Campbell, an old gentleman about seventy-five years of age, who had been in town several days, earning a precarious livelihood mending umbrellas, spending his nights no one knows where, while intoxicated on Thursday afternoon broke windows in the residence of Mr. James W. Davidson. On being summoned by telephone Policeman Ashford arrested the rioter and took him to the police station, where he was left to sober up. He was placed in the cell between five and six o'clock. Night policeman Hill says he was all right between twelve and one o'clock. On returning to the station about two o'clock that night, Mr. Hill noticed that he heard no breathing; and on investigation found that the prisoner was dead. Continued drinking, with probably insufficient nourishment, must have been the cause of his death. Dr. F. T. Desmond, coronor, held an investigation, taking the sworn statements of the policeman, but elicited no information further than above stated. Deceased lately came over from P. E. Island, and has wandered through the villages along the I. C. R. till he reached here. It is said that he was an ex-sea captain. His relatives, if any, are not known. He was buried on Saturday in St. James' cemetery.

### OBITUARY.

#### ROBERT RITCHIE.

Mr. Robert Ritchie, an aged and much respected citizen, and one of the oldest of our lumber manufacturers died on Friday night after a long illness of cancer in the throat. The funeral took place on Monday afternoon, Rev. John Valentine conducting the services. Interment was in St. James' cemetery. The attendance was very large, the deceased being very popular with all classes of the community.

Hon. J. P. Burchill, Dr. Jos. S. Benson, Samuel A. Wheeler, W. J. Sutherland, Patrick Wheeler and R. Cory Clark acted as pall bearers. Deceased was seventy years old, and was born in Renfrewshire, Scotland.

Mrs. Ritchie, also a native of Scotland, survives.

#### MRS. JOSEPH MARONEY.

Mrs. Joseph Maroney died at her home here on Monday night. Deceased lady was a native of Syria, and forty-five years of age. She had been in this country about five years. Her husband and one daughter, Mrs. Charles Maroney survive. Funeral will be held this (Wednesday) morning at St. Mary's church.

#### MRS. WM. MAILEY.

Mrs. Wm. Mailey of Chatham Head, died on Sunday, leaving a husband, and twelve children to mourn their loss. Interment took place yesterday in St. Patrick's cemetery, Nelson, Rev. Father Power officiating.

**MRS. DANIEL McALLISTER.**  
Mrs. Daniel McAllister, formerly Miss Cicely Mullin, daughter of the late W. Mullin, died of consumption at her home in Redbank, on the 28th year of her age. Her husband and two small children survive. Mrs. John Wells and Mrs. Edward Howe are sisters of the deceased. The funeral took place on Thursday at the R. C. church, Rev. Father Duffy officiating.

#### HARRY WILLIAMSON.

Mr. Harry Williamson, son of Mr. and Mrs. William Williamson, and born here on July 3, 1881, died in Minneapolis, on the 7th April. He had moved to Minneapolis with his parents about twelve years ago. Mr. Williamson was an elder of Shiloh Presbyterian church, and a member of the I. O. O. F., Royal Arcanum, Modern Samaritans, and Machinists' Union, and was universally loved and honored. The above orders were all well represented at the funeral that took place on the 9th. The bereaved family have the sympathy of all who know them.

## PREMIER PUGSLEY THE CHOICE.

Unanimously Nominated by Liberal Convention to Contest St. John For the Commons.

### ACCEPTS NOMINATION.

Explains His Differences With the Conservative Party on two Important Questions.

At the convention of the delegates chosen at the Liberal primaries the previous Monday to choose a candidate for the city and county seat at Ottawa. Hon. Wm. Pugsley was on Friday night nominated amid great enthusiasm; and no other name was placed before the convention. Of the 130 odd delegates nominated less than ten were absent and every one present cast his vote for Dr. Pugsley as the next representative for St. John city and county. Soon after the result had been announced Hon. Mr. Pugsley, to whom a telephone message had been sent, entered the hall and was received with ringing cheers. He gave a short and spirited address. He thanked the many Conservatives who had signed his nomination paper, and explaining that his reasons for leaving the conservative party in 1896 were their stand on the Manitoba school question and their provisional contract with the Allans to make Halifax the terminus of the latter's line instead of St. John.

### TO BE SETTLED.

Fernie, B. C., April 30.—The difficulty between the Coal miners and operators was practically settled by agreement last night. The terms of settlement will be submitted to an referendum of the miners on Thursday. Conditions are not given out, but it is understood that a co-promise has been made.

#### K. O. K. A.

Beginning with the first Friday in May, qualification for admission to Castle Northumberland will be upon a new basis, only those being admitted or retained as members who intend to honestly strive to make the society all that such an organization should be. Those who were present the last night of meeting understood that, unless some such move were made, it would be utterly useless to continue as an organization. The boys will be glad to know that a letter has been received from the leader of Castle Griffin, Bangor. In a postscript he said that on the very day he received the letter from Castle Northumberland one arrived from a Castle in San Francisco, asking about the same questions. Just think! boys belonging to the K. O. K. A. on the very opposite side of the continent are studying the very same play as the K. O. K. A. of Newcastle.

### BORN.

## IN THE POLICE COURT.

Offenders Summarily Dealt With.—Scott Act Inspector Keeping Busy.

Police Magistrate Maltby is making it hot for disturbers of the peace.

Two young men are serving sentences in jail for insulting a lady on the street and will doubtless be more careful after their liberation.

A few days ago, an Indian named Solomon Francis was arrested for raising a disturbance while drunk. When arraigned, he told that he got his liquor from another Indian, Peter Paul, who in turn laid the blame on a grave by the name of Thomas Sunnyfast. Mr. Sunnyfast got the intoxicating fluid from a white gentleman named Robert Wright. As a result, Mr. Wright, was fined \$50 and costs, or two months jail; Sunnyfast, \$35 and costs, or two months; Paul, \$25 and costs, or one month; and Francis, \$5 and costs, or a term in prison. In default of payment, all four were handed over to the custody of the deputy-sheriff.

On Wednesday, the Canada Temperance Act Case, brought against Mr. W. H. Mailey by Inspector Ashford, was finished, and defendant fined \$50 and costs.

Thursday, the complaint against Mr. William MacCue for a similar offence resulted in a conviction and fine of \$50 and costs. Mr. T. W. Butler was the lawyer for the prosecution, and Mr. A. A. Davidson for the defence.

Thomas Foley was fined \$50 and costs on Friday.

### FRESHET EXPECTED.

The water is still rising rapidly in the St. John River, and it is expected that there will be a freshet breaking all records.

### PRESS ASSOCIATION.

Mr. J. L. Stewart, President of the New Brunswick Press Association, has called a meeting of the Press Association of this province in St. John, for Thursday of this week to consider the action of the Postmaster General in negotiating a treaty with the United States, whereby the postage on Canadian newspapers is enormously advanced.

### DOING WELL IN THE WEST.

Mrs. James V. Copland of Silver Beach, Washington, has, we are pleased to hear, entirely recovered from her recent illness. Mr. Copland, who left Newcastle in January, is doing well in his new home. So also are Messrs. Allan Murray, Wm. Sheppard and Harry Brooks, who lately went to the same place.

### FIREMEN'S TOURNAMENT.

The Moncton Firemen, who will hold a tournament in August, have invited the Newcastle fraternity to attend, and it is expected that a delegation of our Firemen will be present at the Moncton celebrations. Our Firemen's brigade is not asking any grant from the Town, but it would be in order for the Town Council to vote them some assistance for this Moncton trip, as such gatherings also prove of value to the town that sends representatives.

## SERIOUS ACCIDENT ON I. C. R.

Indiantown Branch Train Left the  
Track At Millerton, Engine  
Rolling Down the Bank.

### FIREMAN BADLY HURT.

His Right Leg Broken In Two  
Places, and Hand and Head  
Burned.—Engineer Flung  
Out on Ice.

Wednesday afternoon's train on the Indiantown branch (the "Hooper") met with a serious accident. The train, consisting of engine, a tank car loaded with acid for the Miller Extract Co., a box car loaded with barrels, a box car of general freight, and a passenger car, left Newcastle at 4 p. m. Engineer Andrew McCabe was in the cab, with Cam. Smallwood as fireman, and Conductor Vye in charge of the train.

Less than half a mile this side of Millerton station, the train was just entering a curve, when Mr. McCabe noticed the forward end of the engine dip. The steam had been shut off before entering the curve. As soon as he noticed that there was something wrong, he applied the brakes and blew the whistle. Before he had time to jump or in fact do anything, the engine left the track. The side of the cab broke open, and Mr. McCabe was thrown out. The track runs right alongside the river there, and he landed on the ice. The engine plunged down the embankment, and turned upside down. Mr. Smallwood was on the side to which the engine fell, and he also had not time to save himself. He was thrown down the embankment with the engine, and sustained serious injuries. His right leg was broken in two places, between the knee and ankle, and his hand and head burned and scalded, from the escaping steam and the flame from the firebox.

Beyond a bruised side and arm and a severe shaking up, Mr. McCabe was not injured. There were about 20 passengers, some of whom received bruises and scratches from being thrown about in the car. The passenger car and the box car ahead of it stayed on the track. The forward truck of the other box car left the track. The acid car broke from its trucks and plunged partly down the embankment, doing most of the damage to the track. The tender remained attached to the engine, but fell on its side, twisting the drawbar. The engine lay slanting down the embankment, the pilot near the track. Although it is upside down, the driving gear and other principal parts seem to be uninjured, and it is thought it will be good for the road again after repairs.

Mr. Smallwood was removed to Mr. Crocker's house, near by, where his injuries were attended to by Dr. Desmond, who had been immediately conveyed to the scene of the accident on the auxiliary special. He will not be in condition to be brought home for some days, and will be laid off for several months. Much sympathy is felt for him. He lost a good deal of time during the winter, and had only gone to work on Monday, after being off eight days through illness.

The train was only going about fifteen miles an hour when the accident happened. It was doubtless owing to the slow speed, and Mr. McCabe's quickness in applying the brakes just before he was thrown out of the cab, that the

whole train did not go into the river. Mr. McCabe is one of the most careful and experienced drivers on the road. In his thirty years of railroad driving this is his first accident. He was watching the track at the time and it seemed to be all right. Edward Kane, the section foreman, was over the track about half an hour before the train was due, and it seemed to be in perfect condition. It is thought that the heavy rain had undermined it under one side, and weakened it so that when the weight of the engine came on it, it sagged. About four rail lengths were damaged on one side. A steam crane was sent from Atoucton and is now working at the wreck. A temporary track has been built around, and the regular trains were running yesterday.

HAS REDUCED THE NATIONAL DEBT. London, April 18.—No budget statement of recent years has been awaited with so much interest as that of Chancellor of the Exchequer Asquith-to-day. That of last year was only a legacy from the previous administration, so his proposals today constituted the first real Liberal budget in twelve years.

The financial statement issued by the chancellor's speech informed the house that the exact realized surplus for 1906-07 was \$26,955,000 which, in accordance with the law would be devoted to the reduction of the public debt. Mr. Asquith estimated the expenditure for 1907-08 at \$703,785,000, the revenue on the existing basis of taxation was estimated to be \$720,950,000. The permanent reduction of the national debt for 1906-07 was announced to be \$68,750,800.

## STOP, WOMAN! JOHN McKANE.

AND CONSIDER  
THE ALL-  
IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for many years under her direction, and since her decease, she has been advising sick women free of charge.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidney's. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the RESULT of your ailment, and not THE CAUSE. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. Dr. Shoop's Restorative sold by Thos. J. Durick.

### A GREAT CHANGE.

The first white child born in Chicago died in that city Monday afternoon at the age of eighty-five. He was born in a stockade fort. Without changing his place of residence he died in the second largest city in the United States, and one of the greatest in the world. There are others still living who can remember the metropolis of the west when it was a slab of clay on the mud flats. No other in the world's history has grown so great during the span of a single human life.—Boston Transcript, 1907.

### BRITAIN'S DEATH DUTIES.

For the year just ending, Britain has collected over £18,750,000 in death duties, the largest amount ever recorded. Every estate there has to pay to the government a considerable percentage before it can be transferred to the heirs of deceased proprietors.

### Practical Elasticity

"Maritime" wirefences are made of a coil-spring wire that holds the coil shape and not only makes the fence easily adaptable to rough, holey, ground, but prevents the possibility of sudden strain and breakage as well.

"Maritime" wire fences need few posts; twenty or thirty feet apart is near enough. Every post saved reduces the cost. Moreover a long panel between posts enables the fence to better encounter any sudden shock.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—acidic bile.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

## McClary's Magnet Furnace

Nothing mean or stingy about the ash-pit of the "MAGNET" Furnace. It's the entire width of the Furnace. Good and deep, too. Easy to remove the ashes from such a commodious receptacle.

And this large, roomy pit affords lots of space for the air to circulate. Gives the drafts a chance to draw well—work perfectly. Furnace burns the fuel to a fine ash. Grates don't get clogged with partially burned pieces of wood—a fault common to furnaces with small ash-pits.

For all-round satisfaction, buy the "MAGNET."

Built for wood, but will also burn coal.

Sold by enterprising dealers everywhere.

### WILL KISSING BE PROHIBITED

The Osculatory Process Denounced by Scientists as Extremely Dangerous—How the Danger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Nalpas, of the Medical Faculty of Paris. They charge the kiss with spreading grippe, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post them on verandahs, in cosy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience in the following brief statement:

Dr. Slocum Co. I am sending you photo and testimonial here-with for your great remedy PSYCHINE. Your remedies did wonders for me. I was about 25 or 30 years of age when I took PSYCHINE. The doctors had given me up as an incurable consumptive. My lungs and every organ of the body were terribly diseased and wasted. Friends and neighbors thought I'd never get better. But PSYCHINE saved me. My lungs have never bothered me since, and Psychine is a permanent cure.

MRS. LIZZIE GARDNER, 810 Bethune St., London, Ont.

Psychine, pronounced Si-keen, is admitted to be the most wonderful of all disease and germ-destroying agencies. For building up the run-down system and curing all forms of stomach troubles and diseases of the chest, throat and lungs or head, it is simply unapproachable. It is a reliable home treatment. ## SPECIAL MEETING TOWN COUNCIL.

Interest on Current Overdraft Raised to Five Per cent.—Further Vote to Inspector Menzies Refused.

### ACCOUNTS PASSED.

Day Policemen Will Henceforth be Board of Health Inspector—Defaulters List Placed In His Hands.

A special meeting of the town council was held in the council chamber at 8 p.m. on Tuesday. Mayor Miller presided, and all the aldermen were present. Some twenty-five or thirty citizens attended the meeting and followed the proceedings with interest.

Two letters were read, from Mr. E. A. McCurdy, manager of the Royal Bank, in reference to the town's indebtedness to the Bank. In one the council was informed that hereafter the rate of interest on current account loan would be 5 per cent. per annum. In the other Mr. McCurdy stated that he had been notified by the head office that hereafter the Bank would require demand notes for current loans to the town and loans on hypothecated securities, instead of carrying such loans as overdraft. The letter submitted a form of resolution in this connection which the council was asked to pass. On motion of Ald. Belyea, seconded by Ald. Falconer, it was decided that Mr. McCurdy be heard in reference to the matter and that it then be referred to a committee of the whole council.

Mr. McCurdy explained that the giving of demand notes would not materially alter the town's position in regard to the various loans. It would bring this town's account into conformity with those of other towns having an account with the Bank, the change being a general policy adopted by the Bank. In regard to the increase of interest on current account balance, from 4 1/2 per cent. to 5 per cent., he said that when the arrangement was made in regard to current account overdraft the intention was that such overdraft should only be for a few thousand dollars, to meet the requirements of the town from time to time pending the collection of taxes. The amount was now, however, over \$28,000, a large part of which was really an advance on bond issues, and it should therefore be subject to the same rate of interest as other advances on bonds deposited. When the bond market improved the town would be able to dispose of its bonds, which would improve its financial position. He asked that the resolution authorizing the issue of demand notes for the indebtedness be passed at this session if possible.

Ald. McCurdy reported for the Public Works committee, recommending that a bill of P. Hennessy for \$49.01 be paid. On motion of Ald. T. A. Clarke, the report was received and the bill ordered paid.

Ald. Belyea reported for the Finance committee. The report stated that the town marshal had been furnished with the list of defaulter, as the first step towards the collection of overdue taxes. The following bills were recommended for payment:—D. Doyle \$25.25; J. J. Pallen \$5.50; Union Advocate \$23.00; R. L. Maltby \$50.00; total \$104.75. Ald. Belyea explained that Mr. Doyle's bill was for horse hire in 1905, which seemed to have been overlooked since; and that Col. Maltby's bill was for the usual salary as acting secretary of the Board of Health. On motion of Ald. J. Clark, seconded by Ald. Allison, the report was received, and the bills ordered paid.

Ald. Russell, for the committee on bye-laws, reported progress. On motion the report was received and placed on file.

Ald. Morrissey reported for the Water and Light committee, recommending payment of the following accounts:—John Russell & Co., \$80.80; D. Doyle \$3.00; B. F. Maltby \$5.91; Miller's Foundry \$105.08; W. H. Thorne & Co., \$39.25; P. Hennessy \$18.32; total \$252.36. The committee recommended the purchase of another car of coal for the power house. On motion the report was taken up section by section. Section 1 was passed, and the bills ordered paid. Some discussion took place on section 2, and it was eventually passed with the addition of authority to the committee to also purchase a second car of coal if they should deem it advisable.

Ald. John Clark reported for the Park and Fire committee, recommending the payment of the following accounts:—P. Hennessy \$2.20; Miller's Foundry \$30.00. On motion the report was received and the bills ordered paid.

Ald. T. A. Clarke reported for the Police and Appointment to Office committee. They had received a

letter from Dr. Nicholson, secretary of the Board of Health, asking for the services of the day policeman as a sanitary inspector. The committee recommended that the request be granted, on condition that in case his orders from the Board conflicting with his other duties he apply to the chairman of the Police committee or to the Mayor, and that his services as inspector be confined within the police limits. The committee recommended a list of the statutory town officers for the year that a uniform be procured for the day policeman; that the lockup be cleaned and disinfected; and that the Police Magistrate's office be furnished with a locked cabinet for holding the magistrate's papers, etc., as he requested. They also recommended payment of the following bills: John Russell & Co. \$4.11; T. W. Butler, \$85.16, for services in connection with two Scott Act appeals, (including \$35 paid to A. R. Shipp, counsel at Fredericton.)

On motion the report was taken up section by section, and passed. In regard to procuring a cabinet for the police magistrate, the committee was directed to call for tenders, the cost of the cabinet not to exceed \$15.

On motion of Ald. Allison, seconded by Ald. McCurdy, the town clerk was authorized to advertise for a horse for town purposes.

On motion of Ald. Clarke, seconded by Ald. Belyea, John Menzies was heard. Mr. Menzies made a short statement in reference to his request for further remuneration for his services last year in connection with Scott Act matters. He desired that Mr. T. W. Butler be heard in his behalf. Mr. Butler, being present, addressed the council by permission. He said that Mr. Menzies had undertaken the prosecution of the Scott Act within the town when affairs in connection with the Act were in very bad condition. Mr. Menzies had succeeded in putting the enforcement of the Act on a good basis, had collected about \$100 in fines, and as a result of his efforts he understood the sale of liquor in the town had been greatly curtailed. The council had voted \$100 to Mr. Menzies for services during 9 months, but as that was a mere pittance he refused to accept it. All that Mr. Menzies had received was \$70 for horse hire and a few dollars to cover amounts paid for witness and constable's fees.

Ald. T. A. Clarke, who was chairman of the Police committee last year explained how Mr. Menzies took up the work. They had made no agreement as to paying him, because they knew they could not legally make such an agreement. Mr. Menzies had done good work, and the committee felt that he should be voted a larger sum than usually granted. They had recommended a grant of \$150, but the council had only granted \$100. Mayor Miller then vacated the chair which was taken by Ald. Belyea. The Mayor said that he was opposed to any further grant to Mr. Menzies, because the whole matter was illegal. Mr. Menzies was Scott Act inspector for the county, and therefore could not legally come into the town and prosecute the Act. The granting of money to him for performing services which were in themselves illegal, was something which the council had no authority to do.

Ald. T. A. Clarke said that Mr. Menzies was not engaged as Scott Act inspector, but "permitted" to prosecute the Act within the town. He had secured larger receipts for fines, and committee had therefore felt that he should receive a larger remuneration, not as salary, but as a gift from the Scott Act funds.

It was moved by Ald. Falconer, and seconded by Ald. Belyea, that the discussion close. The motion carried, which ended the incident.

The council then adjourned for ten minutes, to consider the Royal Bank letters in committee of the whole. After some discussion in committee the council re-convened, and immediately adjourned to meet at the call of the mayor.

Following are the town officers for the ensuing year:—

Scalers of leather—Edward O. Donnell, Edward Hickey. Measurers of stone—C. E. Fish, John Williamson. Ferryman—L. Macdonald, M. Russell, James Maher. Overseer of Poor—Thomas Russell.

## Skin Disease is Blood Disease

"Fruit-a-lives" clean the blood of all impurities and clear the complexion.

Pimples and Blotches—Redness—Boils—Eczema and other inflammations of the skin—mean Impure Blood.

A person with a bad complexion always suffers from poor digestion—non-action of the bowels (or Constipation) and often the kidneys are weak. These unhealthy organs cannot rid the system of the waste matter. It is this waste—taken up by the blood and carried to the skin—that ruins the complexion.

"Fruit-a-lives" cure all skin troubles because they cure the kidneys and bowels.

"Fruit-a-lives" cause the eliminating organs to do their

proper share of the work of ridding the system of waste. This purifies the blood—and instantly the pimples and blotches disappear, and the complexion clears.

"Fruit-a-lives" cure skin troubles when everything else fails.

"Fruit-a-lives" are fruit juices, intensified, and combined with valuable tonics and antiseptics.

They are without doubt the greatest blood purifier in the world. 50c. a box—for \$3.50. At all druggists.

### CHILD LABOR AND EDUCATION.

The National Child Labor Committee in its department officially furnished to the Woman's Home Companion each month publishes a vitally important article on child labor, by A. J. McKelway, Assistant Secretary of the Committee, in the May number of the Woman's Home Companion. Mr. McKelway supplies some interesting statistics on so-called educational conditions in the Southern cotton mills, and prefaces his article with the reproduction of a contract between parents and mill owners, which reads:

"I (the parent) agree that all children, members of my family, between the ages of five and twelve years shall enter the school maintained by the Pelzer Company, and shall attend every school day during the school session unless prevented by sickness or other unavoidable causes, but all children, members of my family, above twelve years of age shall work in the mill, and shall not be excused from service therein without the consent of the superintendent for good cause."

Read the contract and answer the question: "Could you conceive yourself signing such a document to bind your own children?"

The second part of the contract, binding whole families to the mill, is simply unspeakable. We have known a widowed mother to leave another mill making such requirements simply because she did not choose to bind her twelve-year-old child to drudgery.

## NEW POSTAL REGULATIONS.

Much loss will be caused by the new postal rates to Canadian newspapers having subscribers in the United States. Hitherto the postage has been a very small item, but after next week, all papers sent to the States must be prepaid with stamps at the rate of four cents a pound, and all single papers will cost one cent each. As most of our American circulation goes in single wrappers, the new law means nearly fifty cents a year additional cost on each paper.

This must ultimately be paid by the subscribers, but as thousands of American subscriptions are paid in advance, half of such amounts will be lost by the publishers, who have not had sufficient notice to enable them to protect themselves. This is a real hardship, and one that should not have been imposed by the Postal Department without consulting the parliament, and then only after giving notice in time to permit an equitable adjustment to the new conditions. We trust that the Department will see its way clear to indefinitely postpone the adoption of the new charges.

## PROVINCIAL POLITICS.

Hon. Mr. Pugsley's retirement from local politics, necessitated by his accepting the St. John nomination for the House of Commons, will place Hon. C. W. Robinson in the provincial premier's chair. It is rumored that Mr. Pugsley's place as attorney-general will be taken by Mr. Geo. W. Allen, M. P. for York, who is now Supreme Court reporter.

## THE SPANISH ALLIANCE.

Germany's alliance with Denmark enabling her to close the Baltic sea whenever she feels like it, has been offset by the new British agreement with Spain, which brings that country into the Franco-British alliance, and enables Britain to shut Germany out of the Mediterranean. As Spain has over 18,000,000 people, and Denmark less than 3,000,000, Britain and France are ahead in the game so far.

## PREMIER PUGSLEY CHOSEN.

The Liberal Convention for St. John City and County, last Friday, unanimously tendered their nomination to Hon. William Pugsley, premier of the Province. There is no doubt of Mr. Pugsley's success when the election is held. It is also fairly certain that he will, as soon as elected, be taken into the Dominion cabinet, and will in all probability receive the portfolio of Railways and Canals lately vacated by Hon. H. R. Emmerson. Mr. Pugsley stated, on accepting the nomination, that he would support Mr. Emmerson's railway policy. That policy was developing the I. C. R. system in the right direction and its continuance will be good for the country. Mr. Pugsley will make a very strong cabinet minister and will prevent any lessening of New Brunswick's influence at Ottawa.

## THE IMPERIAL CONFERENCE.

The fourth conference between the premiers of the self-governing colonies the British colonial secretary, sitting in London since the 15th ult., is discussing questions of great importance to the Empire.

Among Australia's recommendations, an Imperial Council, an imperial court of appeal, imperial defence, decimal coinage, the metric system of weights and measures, an imperial patent law, etc.; and she submits the following resolution regarding preferential trade: "That it is desirable that the preferential treatment accorded by the colonies to the products and manufactures of the United Kingdom be also granted to the products and manufactures of other self-governing colonies, and that it is desirable that

the United Kingdom grant preferential treatment to the products and manufactures of the colonies."

The program of New Zealand comprises an Imperial Council, preferential treatment, reciprocal admission of barristers, naturalization, defence, islands of the Pacific, reservation of bills, reciprocity as to land surveys, preferential trade between the self-governing colonies, and international penny postage.

Cape Colony asks discussion on Imperial defence, British preference, income tax, imperial cable communication, Privy Council appeals, merchandise marks and patents, uniform legislation for the naturalization of aliens, and ocean freights.

Canada, Newfoundland and Transvaal have no stated program; and Orange River Colony has, unfortunately, not yet been granted self-government, and is therefore not represented.

Natal's ideas are about the same as those of Cape Colony.

Canada and Transvaal opposed the idea of a permanent Imperial Council, as likely to interfere with their autonomy, and the Conference wishing to be unanimous dropped the scheme for the present, deciding to hold an Imperial Conference every four years and appointing a permanent Imperial secretariat to take the place of the conference while the latter is not in session. Imperial Union is now coming, but is being advanced a step by the present meeting.

## THE IDAHO CASE.

By all appearances, a plot, worse than that which condemned Alfred Dreyfus to Devil's Island, has for the past fifteen or sixteen months been under way in the neighboring republic, where the governments of Idaho, Colorado and the United States have apparently conspired with the Rocky Mountain mine owners to do away with Charles H. Moyer, William D. Haywood and George H. Pettibone, leaders of the Western Federation of Miners, the most compact and virile labor organization of the West.

Ex-governor Steunenberg of Idaho was murdered in December, 1905 and one Harry Orchard, who has confessed to twenty-six other murders, was arrested for the crime. Under the threats and promises of Detective McPartland, Orchard is alleged to have made a confession stating that the labor leaders above mentioned had employed him to kill Steunenberg.

One Steve Adams was, in February, 1906, arrested in Oregon, without warrant, and taken to Boise City, Idaho, where Orchard was confined. By promising him liberty and great reward if he consented and threatening torture and trial on other capital charges if he refused, McPartland and Orchard won from him a confession similar to Orchard's. But after six months in Boise, where he was royally entertained by the elite of the State but not allowed to communicate with his brother or uncle or any member of the Federation, Adams's uncle, disguising himself, managed to see him, and Steve at once repudiated the confession got from him by fraud and violence, and applied for habeas corpus. The government,

having nothing to hold him on, at once released him, but immediately rearrested him on other charges as previously threatened by McPartland. Refusing to swear away the lives of the three miners, for which great reward would have been his, the government now seek to have him hanged for alleged crimes that, under certain conditions, they were willing to have forgotten.

As soon as Adams had added his bogus confession to that of Orchard, the governor of Idaho applied to the governor of Colorado and was permitted to kidnap Moyer, Haywood and Pettibone in Denver, one Saturday night in February, 1906, and take them to Idaho penitentiary without allowing them to communicate with their attorneys or even their families. Such an act was in direct violation of the American constitution, but that document has been repeatedly violated in Colorado and elsewhere in recent years. The accused miners applied for a writ of habeas corpus to return to Colorado for trial, but their demand was refused by eight of the nine judges of the United States Supreme Court, the members of which are presidential appointees. Had some millionaire been the victim of the kidnapping, there would without any doubt have been a different decision. But a plain workman in the United States has no rights, it seems, that the governments or the courts are bound to respect. President Roosevelt has shown on this side he stands by publicly declaring that Moyer, Haywood and Pettibone (who, by the way, have not been tried and are yet innocent in the eyes of the law) are "undesirable citizens," thus prejudicing their case before trial and increasing the chances of their conviction. When it is remembered that Roosevelt has never gone out of his way to stigmatize as "undesirable" any wealthy prisoner like Harry K. Thaw awaiting trial, the inference is obvious.

## GONE TO TORONTO.

The young girl named Agnes Arnot, whom Chief Munn located at Fox Creek near Moncton, a few weeks ago, having searched for her at the instance of the mother, who is located in Toronto, left for the latter place last week. The girl belongs to Scotland, and went to Newcastle after arriving in this country. Not finding the surroundings congenial, she ran away, and was located at Fox Creek. She denies, however, that the woman who wrote from Toronto is her mother, claiming that her parents are dead. She left for Toronto at the request of her uncle, who is located there.

## LABOR UNION

## HEAVILY FINED.

The following judgment recently given by the Ontario court of appeal in Toronto will be of interest to all labor unionists:

**Metallic Roofing Co. of Canada v. Jose.**—Judgment (G. A. B.) on appeal by defendants from order of a Divisional Court (70 W. R., 709), dismissing with costs an appeal by defendants from judgment of MacMahon, J., after trial with a special jury in favor of plaintiffs for the recovery of \$7,500 damages and for an injunction in respect of a conspiracy by defendants, as members of a trade union, to withdraw workmen from the service of plaintiffs and to injure them in their business. The Divisional Court held that the withdrawal of the men in the midst of their work by the combined action of the defendants was oppressive and unfair to plaintiffs, and that there was in effect a boycotting of plaintiffs' goods, and that the loss which resulted to plaintiffs was not over-estimated at \$7,500. Appeal dismissed with costs.

## REDBANK.

Redbank, April 25—Mrs. Daniel E. McAllister passed to her rest on the 23rd and was buried in the R. C. cemetery here to-day. She leaves an affectionate husband and two small children to mourn their loss. The pall-bearers were Edward Howe, John Dupuis, Wm. Ramsay, Geo. Hubbard, Daniel Easty and Irvin Matchett. Deceased was only twenty-eight years old.

We are glad to learn that Mrs. G. W. Blackmore is convalescent. A very enjoyable evening was spent at John Matchett's, North Esk, on Tuesday. Dancing was the order of the evening, music being furnished by Henry Cloud and Wm. Hogan.

Miss Myrtle M. Blackmore is visiting friends in Littleton. Last week, Alfred Payne had a very narrow escape from a vicious bull. After battling for a time, he was assisted by Daniel and Elmore Payne, and the animal retreated.

## SEVOGLE.

Sevogle, April 29—Many of our young men have gone driving. Mrs. Wm. Hyland has been visiting her sister, Mrs. M. O'Shea, for the past week.

Mr. and Mrs. James Cunningham of Redbank are visiting friends here and at Portage River.

James Wedden, who was called to Boston last week by his sister's illness, has returned.

Miss Helen Whitney of Whitteville is visiting her mother, Mrs. G. Peabody.

A great number of our young people belong to the postcard exchange.

Wilbur H. MacLean was the guest of his uncle on Thursday.

Mrs. James O'Shea and her son Burton spent Sunday here.

**A TOUR TO CALIFORNIA.** Miss Blanche Reid returned from the Pacific coast on the 5th of April after a most delightful visit of three months to her uncle, Jas. W. Reid. Mr. Reid has been over thirty years in California, and she was the first of his kin he has seen in that time. Miss Reid was very much pleased to meet her uncle and his charming family who entertained her most hospitably and only regretted that she was obliged on account of her mother's illness to shorten her sojourn with them.

While absent, Miss Reid, visited San Francisco, still the finest ruins in the world; Oakland, a city that has grown from 40,000 to nearly a quarter of a million since the earthquake; Berkeley, the seat of the State University, and the educational capital of the Pacific coast; Stockton, Sacramento, the State capital; and various other parts of the "white-awake west."

**ST. JAMES' CHURCH.** The service in St. James' Hall were conducted last Sunday by Rev. John Valentine. The church will be closed for several Sundays yet, the interior undergoing alterations and repairs.

**HAS ACCEPTED CALL.** Rev. S. J. MacArthur of New Glasgow, N. S., has accepted the call lately tendered him by St. James' congregation here, and will be inducted to his new charge on the 23rd inst.

**ELLMORE'S SECRET****NOW KNOWN.**

Ashes Can Be Burned By Mixing Them with Salt Water, with or Without Oxalic Acid.

As soon as it was announced that John Ellmore had found out how to burn ashes, several chemists of Altoona, Penn., set to work on the problem and solved it independently. Here is the secret:—

Moisten with either salt water or salt water in which oxalic acid has been dissolved a mixture containing one part coal and three parts ashes, and a better fuel than pure coal is obtained. The ashes of anthracite coal burn as readily as do those of bituminous coal. This mixture will, upon being placed upon a burning fire, fuse into a coke-like mass and deposit but little residue. The salt water may be obtained by the dissolution of common salt in water.

The chemical action of this compound is thus explained: When an aqueous solution of an alkaline salt, such as common salt, is mixed with coal ashes the result is that a mild lye is formed, which, when mixed with any combustible material, such as coal, and upon the application of heat gives off oxygen gas, thus promoting rapid combustion.

The addition of oxalic acid causes a chemical change of greater value than the first, for the reason that the second chemical breakdown results in the formation of a carbide, which in turn gives off acetylene gas, this adding to the intensity of the heat and facilitating complete combustion.

It is possible upon moistening a small quantity of ashes, without the addition of coal, to readily detect the odor of acetylene gas, and if the treated ashes are placed upon a lighted fire they will fuse and burn to a fine powder, leaving very little residue.

The ash-burning compound is now being used in many large industrial and mercantile places here, and it is claimed for it that it has reduced the fuel item more than half.

**WEDDING BELLS.**

McKEOWN-BURPEE. Miss Agnes Grace Burpee, only daughter of the late J. P. C. Burpee, and Hon. Harrison A. McKeown, were married at 8.30 o'clock Thursday evening in St. David's Presbyterian church, St. John, by Rev. A. A. Graham, pastor of St. David's church. Professor W. Morley Tweedie, of Mount Allison University, a college mate of the groom, served as best man, and Miss Maud Binning acted as bridesmaid. The bride carried a bouquet of white roses and wore a white gown. Her gown was worn by her mother at her wedding—white lace over white silk. The dress of the bridesmaid was of the same material, and she carried pink carnations. After the wedding ceremony a reception and supper were held at Kavanagh's, Mount Pleasant avenue, the residence of the bride's mother, and Mr. and Mrs. McKeown left on 11.25 train for Halifax, where they will sail on the steamer Empress of Ireland for England. After an extensive wedding tour in Europe they will return to St. John in July and will reside on Queen square.

SORE NIPPLES. Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. **I. C. R. MEN ASKING FOR AN INCREASE OF PAY.**

The I. C. R. machinists and carmen are pressing the management for an increase of pay which, they claim, was promised them some time ago. The matter has been brought to the attention of the general manager and the Machinists' Union and Order of Carmen have recently taken the matter up with Hon. Mr. Fielding, Minister of Railways. An increase of four cents an hour all round is being asked for, and members of the union say that nothing less than this will be acceptable. The machinists and carmen employed in the I. C. R. very rightly claim that they are the lowest paid mechanics on any of the big railways of Canada and urge as another reason for a prompt increase of pay the continued increase in the cost of living.

The Brotherhood of Trackmen will meet in Montreal early next month to revise their schedule and petition the department for an increase of wages.

**THE BOSTONIA SEXTETTE.**

Subscribers for tickets for Boston's Sextette Club Concert May 16 will please take notice that plan of hall opens at MacKenzie's Drug Store, Chatham, and Shaw's Drug Store, Newcastle, Tuesday April 30th at 9 a. m. for benefit of subscribers only. General sale of tickets will commence Monday a. m. May 6th at 9 o'clock. Over 300 tickets have been pledged by subscribers who do wisely to secure seats before general sale commences as concert committee cannot guarantee any subscriber tickets after May 4th.

**SILKIER.**

Silkier, April 25.—Most of our young men have gone to the drive and some of our young ladies are wearing sad faces.

Miss Myrtle Blackmore spent a few days with her cousin Miss M. White.

Mr. and Mrs. Harry Breinton spent Sunday with Mrs. Melvin Sutherland.

Mr. George Sutherland and his sister Minnie paid Mrs. Melvin Sutherland a flying visit Saturday evening.

Miss Delilah McDonald and Miss Barbara Matchett paid Mrs. Thos. Mullin of Exmore a short visit last week.

We are very much pleased seeing a new bridge being built.

Miss Mary Ann Harrington is spending a few weeks at Mr. Ed. Travis's.

**THE CENTRAL ROUTE.**

In choosing the Central route via Chipman for the Grand Trunk Pacific, the government have acted wisely, as this road will open up a new country for settlement. The St. John valley, so long hampered for lack of railway facilities, needs a local road, which it appears, will soon be built by the Canadian Northern. If not by them, it should be built by the government as part of the I. C. R. system. But there would have been no wisdom in bringing the G. T. P. down the St. John River.

## REDUCED THEIR PRICE.

Chatham, like Newcastle, has had a dispute with the company supplying a pumping engine. Chatham has settled for her engine on the basis of \$6,625 instead of \$8,425 as at first demanded by the company.

## PREVENTED ACCIDENT.

Mr. Peter McEachren, inspector of sleepers and roadbed, while on duty near Rogersville, Friday, heard a rail snap as the mail car passed. On inspection he found the rail broken in pieces, and one piece thrown aside. The eastbound maritime express was nearly due, and was warned by Mr. McEachren just in time to save a wreck.

## DROWNED AT CHATHAM.

Emery Sawyer, cook on Schooner "Stuart L." a widower of Lynn, Mass., thirty-one years old, was found drowned in the river, Sunday morning. He had left the vessel Saturday evening, and must have fallen from the wharf while trying to board the schooner on his return. Coroner Benson decided that an inquest was unnecessary.

## FOUND DEAD ON THE FLOOR.

Mr. Frank Keenan of Chatham, between 35 and 40 years of age and unmarried, was found dead in his room in Hotel Ottawa, St. John, about eight o'clock Saturday morning, by the hotel clerk, Sam Vealho, who left him in his room a quarter after twelve the previous night. Mr. Keenan had not been in good health of late and was receiving medical attention.

## SUING THE KING.

Mrs. Annie B. B. Mason of East Boston visited Chatham last October, and while preparing to board a train there to start for home was struck by another train and thrown to the ground, her body and nerves being injured by the shock. She has sued for \$10,000 damages in Suffolk Co., Mass.; but the suit being against the sovereign of another power, is an unusual one, and can be settled only by diplomacy or a trial in Canada.
