## THE ALDINE,

THE ART JOURNAL OF AMERICA, ISSUED MONTHLY.

A MAGNIFICENT CONCEPTION, WONDER-

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably observed in the successive failures which so invariably observed. The successive failures which so invariably followed each attempt in this country to restablish an art journal, did not prove the indifference of the people of America to the cleims of high art. So soon as a proper appreciation of the wapt and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—the ALDINE. The ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodical-likean elegant miscellany of pure, light, and

The artistic illustration of American scen ery, original with THE ALDINE, is an import ant leature, and its magnificent plates are c a size more appropriate to the sail factory treatment of details than can be afforded by any inferior page.
