## PREFERENTIAL TRADE WITH AUSTRALIA LIKELY

### Encouraging Returns Presented in House of Commons — Prospect of Successful Conclusion of Negotiations at Colonial Conference Next April—Vacancy in Nova Scotia Supreme Court Discussed

(Special Despatch to The Leader)  
OTTAWA, Jan. 29.—Sir Wilfrid Laurier presented to Parliament today a report relating to negotiations with Australia in regard to preferential trade. He disclosed the fact that there has been no interruption of the friendly feeling between the two countries and that negotiations are still in progress with hopes of a successful conclusion when the Colonial Conference meets in London in April next.

On the 22nd July, 1905, the Ottawa Cabinet authorized the transmission of a despatch enquiring whether the Government of the Commonwealth would be willing to enter into negotiations with the Government of Canada, with a view to establishing preferential trade relations between the two countries, and, if so, whether the former would be prepared to offer stated tariff concessions to the latter, or would prefer to make the subject of a conference by a conference between delegates representing the two Governments.

Premier Deakin Replies.  
Premier Deakin wrote to Sir Wilfrid Laurier on November 22nd of the same year to the following effect: "The suggestion for the establishment of a preferential trade arrangement is one that meets with my approval, and it will probably involve negotiations more or less prolonged. I venture to suggest that there appears to be no constitutional objection to conducting further correspondence on this, or similar subjects, on respective Governments."

Premier Deakin had previously written on November 24th to Earl Grey, desiring to learn whether the Colonial Conference would afford suitable opportunity for discussion of the principles on which any scheme of preference "it may be," he said, "that the more convenient course would be for the Canadian Government to make a vacancy in the position of the Chief Justice of the Supreme Court of Nova Scotia, and to tender that office vacant."

Mr. Deakin, in reply, said that some Mr. Foster was heard there was a strong suspicion that he was guilty of the neglect of the Leader of the Opposition in not giving the usual notice. In this way it prevented the Minister of Justice from giving the facts as to vacancies on the bench. If that had been done, it would have shown the true position of Mr. Foster, who would not have been able to have assumed "the holier than thou" attitude.

For two full years the administration of justice was carried on by six judges instead of seven. No one charged that there was any serious delay. Up to the present there had been no complaint of serious delay, but if there were, the minister would call for immediate attention. It was also somewhat significant that none of the members from Nova Scotia were asked to bring this matter up or communicated with.

In the whole sixteen years that the Government has been in power, there has been no vacancy in the position of the Chief Justice of the Supreme Court of Nova Scotia, and the case of a county judge which was given to a Liberal member to make a vacancy for Sir John Thompson, who was leaving the bench to enter the political arena. According to the usual practice of the Government, it was Sir John Thompson's right to be appointed to the position of Chief Justice. Sir Hector Langevin got the seat of Mr. McDonald in Three Rivers and Mr. McDonald became a judge, yet no one said that Sir Hector bribed McDonald. That was how Mr. Bennett was appointed to the position of Chief Justice, and Sir Charles Tupper got the constitution, and, according to Mr. Bennett, McKee was bribed to give the seat to the House of Commons to regulate the exportation of absences.

Mr. Fielding, "There is not the shadow of a foundation for what the honorable member says."  
Mr. Foster was apparently well prepared for the occasion as he spoke at length and was more bitter than usual.

"Holier Than Thou."

## THE NEW WALKER THEATRE TWO MORE DEATHS CAUSED BY GOLD

### Winnipeg's Palatial Home of the Drama—One of the City's Sights—Seeing Attractions.

Visitors to Winnipeg during Bonaparte—or any time for that matter—should not fail to see the new Walker Theatre, which without doubt is the finest theatre in all Canada. Indeed, it will be a revelation to those of our citizens who do not often get to see the theatres of New York or other large cities, for it is a truly metropolitan playhouse, having a stage equal in size and modern appliances for the perfect handling of the scenery and effects of the largest productions touring the continent.

The Walker Theatre, which was built by the late Mr. Walker, was destroyed by fire on the 10th inst. A year previous to that date the old playhouse and that he would build a theatre which would meet the needs of the growing city, and one that combined safety, comfort and beauty. Doubtless the gallery Walker Theatre is absolutely fireproof, and is pronounced by insurance and building experts to be the best building in Winnipeg and one of the safest in America. The insurance rate is 1 1/2 per cent., while on the old theatre it is 6 per cent.

If possible visitors to the theatre should not stop at merely seeing the interior from the ordinary spectator's point of view, but should take advantage of Manager C. P. Walker's uniform courtesy and inspect the building thoroughly from the combined gallery and the roof. It is in this space, perhaps, that the visitors who have not seen the massive steel frame of the absolutely fireproof nature of the construction and the immensity of it all.

Nearly 600 seats are provided for the audience, and the beautiful and airy balcony will be the two entirely separate sections in the new Walker. The balcony is one section and the gallery above that is the wonderful gallery, which is suspended by a 40-ton steel truss, and which seats 800.

The Walker Theatre was opened on December 17th informally, and since then work has been carried on steadily and rapidly that now everything is complete, and our townsmen when next they go to Winnipeg will have the chance to see the beautiful and the finest theatre in the Dominion of Canada.

Mr. Walker is booking an exceptionally fine season, those for the Bonaparte being "The Bonnie Blue Bird," "The Sultan of Sulu," "The Duke of Burgundy," "Madam Butterfly," and "Roselle Knott," the beautiful Canadian actress in J. M. Barrie's "Successful Play," "Alice-Sit-by-the-Fire."

### WALKED OFF TRAIN.

Minneapolis Man Had Plenty of Excitement, But No Fun.

(Special Despatch to The Leader)  
GUELPH, Ont., Jan. 29.—J. W. Porter, who was coming east from Minneapolis, Man., had a rather exciting experience for the rear of the car and apparently walked off the platform. After turning several corners into space he landed up in a snow drift, but escaped with only a few minor injuries. He had, however, to foot the bill for a couple of miles without hat or overcoat to the next station, where he found a train to take him to his destination.

### GAME POSTPONED.

On account of the Moose Jaw hockey team being unable to practise this week, owing to the home and away games in the Railway City, the scheduled match that was to have been played here Thursday night has been postponed until next Tuesday night. The Wanderers and Clerks which were to have played a City League game next Thursday night will play this Thursday night instead.

### WOMAN FREEZES TO DEATH IN WINNIPEG.

Mrs. C. W. Troughton, Aged 67 Years, Found Dead Amid Squalid Surroundings.

(Special Despatch to The Leader)  
WINNIPEG, Jan. 29.—In the long list of tragedies which have for years past been recorded, not one is more distressing than that which took place today. In a cottage, 397 Logan avenue, resided Mrs. C. W. Troughton, and the interior presented anything but a homely appearance, the rooms being very scantily furnished. Near a bed, which did not appear to have any covering, lay the body of a woman who had been crushed to death by the weather.

The woman who witnessed the scene described, it was most pitiable to behold—in fact, it would be difficult to imagine one could live in a house, the state of which has been described as filthy. In several rooms there were beds, and in one of the apartments a mattress lay on the floor. There did not appear to be any clothing or coverings, and the condition of the house suggested that Mrs. Troughton had had a miserable existence.

A closer examination revealed the fact that the woman was frozen to death. She was dressed, though scantily in her everyday attire, while around the neck was a muffler. There was no fire in the house and no appearance of any fuel of any description. In one of the back rooms was a bed in a dilapidated condition, while on it lay a black dog.

It is stated that the deceased had been of intemperate habits of late, and came in last evening to her home whilst in a state of intoxication.

Deceased, who was about 67 years of age, was the widow of C. W. Troughton, a well-known watchmaker, whose business was on Logan avenue. He died about two years ago, and was recognized as an expert in the watchmaking art. He used to do all the repairing for the city, but he left several days ago, and since then apparently no one has visited the old lady. Coroner Maguire has not yet decided on the holding of an inquest, but it is to be hoped that a most searching investigation will be held. Mrs. Troughton has several relatives residing in the city.

### DEPUTY SHERIFF NOT APPOINTED.

Deputy Attorney General and Sheriff Duncan Both Deny Reported Creation of New Post.

The report circulated yesterday to the effect that Sergeant Wilkinson had been appointed Deputy Sheriff is absolutely denied both by the Attorney General's department and by Sheriff Duncan.

Interviewed by the Leader with regard to the alleged appointment and the creation of the new position of Deputy Sheriff, Mr. Frank Ford, Deputy Attorney General, stated that, so far as his department was concerned, the entire story was news news to them. The Government had made no such appointment, and he was not aware that they intended doing so or creating any such post. Questioned as to the alleged "open secret" that the present incumbent of the office of Sheriff will shortly be given a better position, Mr. Ford replied: "Surely there is no higher position than that of Sheriff could get."

Sheriff Duncan himself, when approached by the Leader, denied all knowledge of any such appointment, so far as he was concerned. He knew nothing of the creation of such an office as Deputy Sheriff. Sergeant Wilkinson was leaving the police force, it was true, and was going to work for him, but not in the capacity of Deputy Sheriff.

### MYSTERIOUS DEATH.

Proprietor of Lace Factory Meets With Foul Play.

(Associated Press Despatch.)  
NEW YORK, Jan. 29.—Joseph Coury, proprietor of a lace factory at West Hoboken, was mysteriously murdered in his factory late last night. Three men have been placed under arrest on suspicion. The shooting was the result of a quarrel over the possession of the factory, which Coury had gained possession of by foreclosure.

## NATIVES REVOLT.

### Reported That Many Officials Have Been Killed in Dutch East Indies.

(Associated Press Despatch.)  
AMSTERDAM, Jan. 29.—A serious revolt has broken out in the Province of Kediri, Island of Java, Dutch East Indies, according to a Batavia despatch. It is stated that 300 natives have taken up arms and that many of the Dutch officials and their adherents have been killed or wounded. The Vice-Governor of the province is said to be among the wounded, and the chief of police is reported killed. Troops have been despatched to the scene of the outbreak.

### MINING DISASTER.

SAARBRUECKEN, Rhensia, Prussia, Jan. 29.—It is announced that the death list in the mine disaster at Ste. Joana on the Saar yesterday will probably reach 148. The fire in the mine is under control, and the rescue work has commenced. The injured are being treated in the scenes at the pit mouth are harrowing.

### KICKED TO DEATH.

Winnipeg Teamster Meets With Fatal Accident, Hitting Horse.

(Special Despatch to The Leader)  
WINNIPEG, Jan. 29.—A teamster named Bell was kicked to death by a horse in Moffat's stable at the city yards at 2:30 today. He was harnessing the horse at the time, and the accident he sat up and told one of the men in the stable, who ran to him, that he had been kicked, and then fell over dead.

### BREAD MADE OF STRAW.

Recipe for "Hunger Bread" Eaten by Starving Russians.

MOSCOW, Jan. 29.—The last number of the Agricultural Messenger contains an article on the so-called "hunger bread" of the starving peasantry, and gives directions for its preparation from straw.

This remarkable recipe is as follows: "Take wheat or beaten straw will do, but the last is the best where procurable. A few knots of the lower end of the straw should be cut up in lengths of about 1 1/2 inches and washed in sieve. The washing should be done in running water, or by continually pouring water over the sieve rested on the edge of a tub. This is not only to clear away dirt and dust, but to remove as far as possible the rusty spots on the straw. After the straw has been cleaned it must be laid up to dry in the sun and is then ready for use. It is first soaked in water, and this straw is then made into a bread by mixing any other kind of flour and baking in the ordinary way."

The paper goes on to explain that for children and sick persons straw bread is unsuitable, but if made palatable with a little skim milk may be given even to the sick when it is unavoidable.

### FEAR REIGN OF TERROR.

Ruthenian Students Declare Bomb War Against Poles.

VIENNA, Jan. 29.—In recent disturbances among the Ruthenian students at the first of the Government of Austria, the reply of the Ruthenians in Galicia to the allotment of a preponderant number of seats to Poles, under the new suffrage bill.

Butzmowski, the leader of the Ruthenian radicals, confirms this declaration that bomb-throwing will mark the next outbreak and that "corpses must lie in front of the Lemberg students, Butzmowski adds, will be followed at the approaching elections by the Ruthenians in the provinces.

### BACKS UP TRAIN FOR BRIDE.

Engineer Forced to Return 17 Miles to Pick Up Weeping Girl.

CLEVELAND, Ohio, Jan. 29.—A railroad engineer was made to back up his train seventeen miles to carry a weeping girl to her fiancé's side by Undertaker James Richards of Cleveland. Richards, stopping at Boult's, had the flag to stop the 2:15 p.m. train. Soon after the girl walked five miles through the snow to the de-posit station, the engineer ignoring the flag.

Richards and the bride-to-be were stranded without a hotel or house in front, six miles from the nearest railway, and no other train for that day. Richards warned the telephone wires into the superintendent's office at Akron, and three hours later the engineer who had hurried so quickly through to Akron came as quick as a flash—seventeen miles. The weeping bride and her distracted fiancé were united, and Richards attended the wedding feast as a guest of honor.

### JAPS FAVOR DISARMAMENT.

News Is Received With General Satisfaction in England.

LONDON, Jan. 29.—The news that the Japanese government favors the discussion of disarmament at the Hague conference was received with general satisfaction in England. It is general satisfaction for British additional support for British diplomacy in its campaign on behalf of peace, and it is a clear indication that Japan has armed only to preserve her own security.

It is preservative proof that she entertains none of the aggressive designs with which she has been credited by pan-Germans in the United States and Germany.

The thinking part of the British nation would favor any rational plan which could be reduced. But it can never consent to the reduction of the British navy without an equivalent reduction in foreign fleets.

### Fast Freight Crashed into Express Near South River—The Dead Were All Railroad Employees—Several Passengers Were Injured, But Only One Seriously

(Associated Press Despatch.)  
DEERFIELD, Mass., Jan. 29.—Five persons were killed and several others injured in a collision between an express train and special freight on the Fitchburg division of the Boston and Maine Railroad, near South River today. The killed were all employees of the railroad, and several included railroad employees and several passengers.

The collision was caused by a sudden stopping of the express train, the fast freight crashing into the rear car before the danger signals could be set. The injured were all seriously injured to the passengers consisted mainly of bruises caused by the sudden stopping of the train and the shock of the collision. The wrecked cars at once caught fire and two of the cars of the express were burned.

The Dead Are:  
George B. Busson, of the express train, living at Troy, N. Y., 47 years of age, married.  
E. W. Harrington, baggage-master of the express, living at Troy, N. Y.  
M. A. Fitzpatrick, engineer, Mechanville, N. Y.  
P. N. Denant, fireman, Mechanville, N. Y.  
John Clapp, injured, unknown, was taken to the hospital. "None of the others injured needed hospital treatment. The bones of the five trainmen were all badly bruised by the fire which followed the collision.

## CUTS THROUGH C. P. R. STATION

### Map Supplied to City Engineer by the Railway Commission Shows Hamilton Street Crossing as Passing Within a Few Feet of Station Building

An interesting question has arisen in consequence of a map supplied to the City Engineer by the Railway Commission relative to the Hamilton street crossing. The map shows the extension of Hamilton street, would seem to point to the latter, and several of the Aldermen take the view that it is indeed the case. On the other hand, His Worship the Mayor, who during his previous term of office, had some-thing to do with the negotiations which led up to the making of the order by the commission, and the City Clerk, who naturally has had a great deal to do with the handling of the matter, both contend that it was the intention of the commission to open the crossing as it exists today, not altering its position in any way. To finally settle the matter the commission will probably be applied to and asked to furnish an order dealing with the subject. This, the Mayor and City Clerk believe, will show that the map recently supplied was a public misstatement.

## TWO THAW JURORS HAVE BEEN RELEASED

### No Explanation Given of This Surprising Move—Nine Jurors Now Secured.

NEW YORK, Jan. 29.—The first big surprise of the Thaw murder trial came today, when Justice Fitzgerald, with the consent of the defense, accepted the motion of District Attorney Jerome for the release of two of the jurors. It was announced that, while this action did not reflect upon the juryman in any way, no explanation was given. Shortly afterwards two new jurors were secured. There are now nine jurors who have been selected out of 218 called. The members of the Thaw family were all in court today. It is not believed that the taking of testimony will begin before Thursday or Friday.

### TORY OFFICE-SEEKERS.

Registering Big Kick Against Central Patronage Committee.

(Special Despatch to The Leader)  
TORONTO, Jan. 29.—There is said to be a big row in the Conservative camp in Ontario and a meeting of the central patronage committee has been called to meet in Toronto next Saturday for the purpose of pouring oil on the troubled waters.

Some say that the objections are so many and so pronounced to the patronage committees that they must either go, or new Conservative associations will take their place.

At the police court today Albert Squires was sent to the Central prison for five months for the theft of a web of cloth valued at \$70 from C. P. R. freight sheds.

### \$180,000 FOR PARK.

The Sum for Which Winnipeg Can Buy Elm Park.

(Special Despatch to The Leader)  
WINNIPEG, Jan. 29.—Elm Park can be secured by the city for \$180,000. Ald. Palford has interviewed the owners of the property and this is the price they have set on Winnipeg's favorite resort. As there is fifty-four acres in the park which brings the price at something over 12,000 per acre. Ald. Palford considers that this is not exorbitant and at the City Council Monday night will bring the question up and will advocate the immediate raising of a by-law to be presented to the ratepayers for the purchase of the property.

### SASKATOON'S OFFICIALS.

Offices of Secretary and Treasurer, Hitherto Combined, Are Separated.

SASKATOON, Jan. 29.—The City Council this afternoon appointed a number of civic officials for the year 1907. The offices of Treasurer and Secretary, hitherto combined and in the hands of J. H. Turner, have been divided. J. H. Turner gets the office of Treasurer. Mr. Turner is retiring from the city's service. R. E. Dunlop was reappointed chief of police and A. R. Kelsey and J. B.

PARTY vs THE MACHINE

In quoting from a recent editorial utterance in this paper The Standard referred yesterday to The Leader as "the recognized local organ of the 'machine,' but which has had the 'rare courage to openly rebel at this 'scandalous piece of jobbery.'"

While expressing our appreciation of the small amount of justice done us in stating that we can be "courageous" on occasion, we think our evening contemporary might in all fairness have gone a step farther. Just why the newspapers of Canada like The Standard, the Winnipeg Tribune, the Toronto Telegram and the Montreal Star, which style themselves "independent," should label every other paper which openly supports one or the other of the political parties a "machine" organ we cannot for the life of us see; that is, granting they wish to be honest and fair.

Because The Leader, in common with a large majority of the people of Canada today, conscientiously believes in the Liberal policy of a tariff for revenue rather than a high protective tariff; and in a progressive and businesslike immigration policy rather than the reverse; and in the Liberal rather than the Conservative policy respecting transportation, is that any reason why we should be characterized as a machine organ by those who do not support these Liberal policies?

Sir John A. Macdonald once said that he did not feel especially grateful to the man who supported him when he was right; the Grits would do that, but what he wanted was men who would support him when he was wrong. There you have the real definition of a "machine" supporter—a man, or a paper, who either from fear or because of favor will support what they know to be wrong and cannot endorse.

The Leader is honest in its belief that the policy and administration of the Liberals is the best for Canada today. The majority of the people of the Dominion hold the same view. But because of that belief they are not necessarily subservient to the party leaders nor "machine" supporters. They do not for one moment relinquish the right to criticize and condemn when they believe their party leaders are taking a false step. The Leader believes the Ottawa Government is taking a false step if it proceeds to reorganize the Regina Lands district on the basis at present proposed. The Standard admits we have condemned the Government's suggested changes and by that admission it falsifies its own charge that we are a "machine" organ for a "machine" organ would never have done so. Such an organ is of no value if it cannot be depended upon just as just functions as the present.

EDUCATION AND THE EARL

The Earl of Darnley, speaking recently to a gathering of science and art students in Gravesend held himself up as a terrible example of what the average education and training of young English aristocrats turns out.

"I place myself," said the noble Earl, "before you as an example of deficiency in education. 'I went through the ordinary public school (Eton) course, and received a university education. I found myself at 22 a B.A. of Cambridge, with a certain knowledge of Latin and Greek, which I have never found of any particular use, but without knowledge of French, German or science. 'From my example I hope you will glean some benefit by securing that knowledge which it is now too late for me to acquire.'"

such as W. E. Gladstone, the late Lord Salisbury, Lord Roseberry and scores of others that could be named. Were they successful in spite of their education? Shall we not rather believe that Earl Darnley is a failure in spite of the advantages of public school and university? Silk purses are not to be made from the ears of swine and there are lords' sons whom no amount of education would ever make useful members of society. It is not, after all, simply a question of education. The man counts. The world today knows John Burns and Thomas Burt better and appreciates them more than Earl Darnley, not because they failed to take a university course or a B.A. degree, but because they have made the most of the meagre opportunities that were theirs, and carved for themselves by sheer force of will a place in foremost ranks of their country's public men. Does Earl Darnley suppose that he would have done any better had he started life handicapped as those two labour M.P.'s were handicapped? The probability is that positioned as they were he would never have been heard of. While circumstance certainly counts for something in life's struggle, still, when all is said and done, a man is what he makes himself, not what the schools make him.

ONTARIO'S LIBERAL LEADER

Hon. George P. Graham, M.P.P. for Brockville, has been chosen leader of His Majesty's Loyal Opposition in the Ontario Legislature, in succession to Hon. George W. Ross, who was recently created a Senator. Those who know Mr. Graham will agree that a happy selection has been made. The new leader possesses in a marked degree the qualities of the popular tribune. He is a gifted speaker, a bright writer, a man of broad sympathies, a hard hitter, a fair fighter. In addition to these gifts and graces, Mr. Graham has two additional qualities indispensable to the successful leader—personal magnetism and ability to organize.

No one can come into Mr. Graham's presence without being irresistibly drawn to him through his attractive personality. And once a friend, always a friend. Mr. Graham makes no enemies. He is too considerate of the feelings of others, has too much respect for others' convictions to say or do things that would wound the most sensitive. It must not be thought, however, that Mr. Graham is one of those namby-pamby creatures. On the contrary, he is a man of intense conviction, of fearless utterance.

As to Mr. Graham's ability as an organizer, it has been demonstrated time and again. So substantial a reputation does the new leader enjoy in this respect that at the last Dominion election the powers that be at Ottawa appointed him organizer for the eastern part of the Province of Ontario. He made good in this position, and a stirring and effective fight was made under his leadership. The Conservative press labored and lied hard to connect Mr. Graham with electoral wrongdoing in this campaign, but in the witness-box he vindicated himself and showed that his hands were clean.

Mr. Graham is another living refutation of the belief somewhat common once, but now pretty well exploded, that ministers' sons generally amount to very little. The new leader is a son of the parsonage, his father being the late Rev. W. H. Graham, one of the most popular preachers that ever presided over the deliberations of the Methodist Conference. Mr. Graham has always identified himself with church work, and is a member of the Official Board of George Street Methodist Church, Brockville, and the leader of the choir. He excels as a chorister, and where he wields the baton there is good singing and an absence of choir quarrels.

Mr. Graham is a journalist by profession, and is editor and manager of the Brockville Recorder. His editorials are attractively written, and carry much weight. Since Mr. Graham made his mark in the Legislature his writings are widely quoted by the Ontario press.

His first journalistic venture was the Morrisburg Herald, which he took charge of in 1881, and continued to control until 1892. During his residence in Morrisburg, Mr. Graham was exceedingly popular with all classes of citizens. He enjoys the distinction of being the youngest member that ever sat at the Niagara Council Board.

Mr. Graham early turned his attention to the political arena, and had done some excellent campaigning before the Liberals of Dundas county nominated him their standard-bearer in the Provincial elections in 1891. He had for his opponent a foeman worthy of his steel, Mr. J. P. Whitney, now the Premier of Ontario. The young Liberal candidate put up a gallant fight, but lost the day by a small majority.

THE GLASGOW HOUSE "THE STORE THAT SERVES YOU BEST."

THE EVILS OF CONSTIPATION

Mr. Graham was plainly destined, however, for a political career, and in 1898 was returned for Brockville. His rise in the Legislature was rapid, his debating ability and keen repartee rapidly bringing him to the front. It was soon a foregone conclusion that he would be in the Cabinet, and in 1904 no surprise was occasioned when he was appointed Provincial Secretary in succession to Mr. J. R. Stratton, resigned. Although the new Minister was in charge of his office for only a few months, he discharged his official duties with statesmanlike ability.

As Liberal leader Mr. Graham will not have too flowery a path. The Promised Land seems quite a way off, but Leader Graham is not the one to lose hope and heart on the march through the wilderness. He is an optimist, and will impart his optimism to his followers. The way will never seem to him so long and so dark but that it might be longer and darker. He will keep a stiff upper lip, and his face will always be toward the enemy.

Mr. Graham is young as public men go, having been born on March 31, 1869. And his heart is younger than his years, Mr. Graham being one of the altogether too few individuals that never grow old. He is an ideally happy home, and is the father of two bright boys.

The evening session of the House of Commons on Thursday was taken up by the Conservative leaders in a vain attempt to secure more protection for the paper manufacturers. Mr. Fielding pointed out that the paper manufacturers had entered into a combine and this action of the manufacturers had induced the Government in reducing the duty on paper to 15 per cent. With this greatest wealth of wood pulp in the world at their very doors it is too bad if our Canadian paper makers cannot get along under any kind of a tariff without combining to hold up the people of the country. A high protective tariff is the "mother of compliances and monopolies, and the Conservatives in standing for a high protective tariff stand for the encouragement of these methods of depopulating the farmers and the large comprising classes of the Dominion.

C. P. R. PROFITS GREATLY REDUCED

Increase of Half Million in Working Expenses Plays Havoc With Net Earnings.

MONTREAL, Jan. 28.—The serious effect of this winter on the railways of this country is well exhibited by the financial statement of the Canadian Pacific for December. Although the gross earnings of the system amounted to almost six million dollars and showed a handsome increase over the returns for December of the previous year, so great was the cost of operation of the line, that there was an actual falling off in net profits of almost \$1,000,000, which was caused by an increase of almost half a million in working expenses, nearly entirely due to snow and frost. The figures for the month, which are of a sufficiently imposing nature, are as follows: Gross earnings of the road, \$3,922,098, as compared with \$3,906,812 in 1905, an increase of \$15,286, as compared with \$3,272,000 last year, an increase of \$650,098. Thus the net profits for last December were only \$2,265,584, a decrease of \$9,588, from the \$2,345,586 profits earned in December, 1905.

Failures on the Stage

In answer to the request of the Illustrated Extra-Blatt (Vienna), a number of stage celebrities of that city have told of their stage failures. Hugo Thimig, a well known actor, said: "It was dreadful. The director of the Littau Theatre had made the discovery that I was the most bashful of all bashful lovers, and the best fitted on that account to do justice to the part of the heroic Gardinal in Koblerstein's drama, 'What God Hath Joined Let No Man Put Asunder.' I felt honored. I fought my way through the 24 pages of manuscript, and arrived in good condition at the last scene, when fate overtook me. I twisted the last sentence of my part, and I said, dramatically: 'What man hath joined—' and a boy in the gallery finished: 'The carpenter need not glue.' His comic laughter was all I heard as the curtain was quickly lowered. It was dreadful, I say! I tore off my wig in a fit of despair, while the director consoled me by saying, 'Don't you care—you are useless.'"

SEARCHING FOR SEARCHERS.

Mounted Police Are Seeking for  
Constables Smart and Shand.

EDMONTON, Jan. 27.—On Decem-  
ber 22 last, Constables Smart and  
Shand of the R.N.W.M.P., accompa-  
nied by Sam Adams, left the Grand  
Eddy via Lake St. Anne, about 500  
miles distant from that place. Their  
mission was to capture a rascal  
named Hornbeck, who had gone in-  
famous from loneliness, the losses of  
his horses and the cold. The report  
of his condition had been brought to  
Lac St. Anne by an Indian, who re-  
ported that the rascal refused to  
eat and was in immediate danger  
from starvation and cold.

Since their departure no word has  
been received of the constables, and  
it is thought they have gone astray  
and failed to capture their man, and  
Corporal Munro and Constable Dow-  
den have left in search of the former  
constables.

They will be joined by a guide at  
Lac St. Anne. It is not thought the  
former party have any arms, and they  
are well equipped. They should have  
been heard from before this, how-  
ever, and their silence has caused  
some uneasiness.

Fine Offices of Advertising Firm

The Woods-Norris Company Have  
Splendid Equipment for  
Their Business.

A firm's office is an index of its  
standing in Canada, that the  
business generally means a poor  
business, which leads a hand-to-  
mouth sort of existence. A well-fur-  
nished office means a business which  
is recognized in the business commu-  
nity as a well founded enterprise. The  
splendid suite of offices, which have  
been opened in the new Building by  
Woods-Norris, Limited, show the im-  
portance in the modern business  
world of the advertising agency and  
its standing in Canada, that the  
Woods-Norris Company has.

The size of the office would sur-  
prise anyone not acquainted with  
the extent of the advertising busi-  
ness. It is on the second floor of the  
Mall Building, and takes up nearly  
all of the front part of the block, in  
front of King and Bay Streets. The  
floor space is approximately eighteen  
hundred square feet, and it is arrang-  
ed and fitted out systematically. The  
various departments are cut off with  
rallings, according to the up-to-date  
principles of office arrangement, and  
having the whole office workings ex-  
posed to view.

On entering one finds oneself in  
front of a long waiting room. This  
is a large waiting-room. Opening off  
this are the private offices of Messrs.  
J. H. Woods and C. C. Norris, the  
principals of the company. The main  
offices are about fifty by twenty feet.  
In one corner is F. A. Rowland's office,  
and next to that is the office of Mr.  
McLellan, the treasurer. Adjoining  
this is the accountant's department,  
with large accounting desks and the  
stenographer's room, and around  
the wall. The next department is the  
copy-writing and art department,  
presided over by Mr. J. D. Logan, as-  
sisted by Mr. Murray.

Beyond this again is the checking  
department, in which are files of all  
the leading papers in Canada as well  
as the principal city dailies of the  
United States. More room and bet-  
ter accommodation is given here to  
this department than in any other  
agency in Canada. Next come the  
shelves where the cuts are kept, ac-  
cording to a special tabulated system  
and then the results in which the or-  
iginal copy and drawings are kept.  
These drawings are often of consid-  
erable value, as in many cases the  
drawing used is the best of a number  
handed in by several competing ar-  
tists.

The private and general business  
offices are decorated in good taste,  
and for additional adornment of the  
walls interesting examples of adver-  
tising art have been framed and  
hung. The floors are hardwood, the  
office furniture light oak, and all the  
rooms brilliantly lighted.

The principals of the firm are J.  
H. Woods, who for a number of years  
has been the head of the J. H.  
Woods Advertising Agency, and Mr.  
C. C. Norris, who was for eleven  
years connected with the Mail, of  
which he has been advertising man-  
ager for the last eight years. The  
union of these two men, both well  
and widely known in advertising cir-  
cles, opened the way for a large ex-  
tension of business. The results of  
this alliance altogether to advertising  
of the better sort, for commercial,  
financial, and educational interests.

The character of the business is the  
deciding point with them, and, al-  
though they have many large com-  
missions, none is too small as long as  
it calls for a good class of work.

The Rev. Rodney Swepe, rector of  
the Vanderbilt church at Atlanta, and  
the other night in the course of an ad-  
dress:

"These subtle attacks are the most  
unexpected, and the most wounding.  
You have heard about the clergyman  
and his aged parishioner?"

"The parishioner said that he thought  
clergyman should be better paid."

"I am pleased to hear you say that,  
Brother Brown," exclaimed the young  
man, beaming with joy and happi-  
ness. "It relieves my heart to hear  
you say that."

"Yes," resumed the parishioner  
thoughtfully, "we'd get a better class of  
men, then."

THE WORSTED ASTRONOMER.

An editor was talking about the fa-  
mous English astronomer, Sir Robert  
Ball, who has recently declared that  
radiation proves the earth to be 300,000,  
000 years old.

"Sir Robert Ball is as full of fun as  
a barrel of powder," said the editor.  
"Once everything must return to its first con-  
dition? Listen, madam, in 24,000 years  
we shall all be here again, on the same  
day and at the same hour, eating a dinner  
precisely like this one. Will you give  
me credit for all that?"

"Madam, I am going to give you a  
lesson in astronomy. Have you ever  
heard of the great Platonic solids?"

"Don't take anything said to

tion of the qualifications of the var-  
ious candidates, selected an old Re-  
gina High School boy in the person  
of Chris. Adamson as the fortunate  
recipient of the much coveted hono-  
rable and successful student is the son of  
A. J. Adamson, M.P., late of Rosthern  
and now of Winnipeg. Mr. Adamson,  
who received part of his education in  
Regina, where he earned golden opin-  
ions with those of 'the teaching  
staff with whom he was brought into  
contact, is at the present time a student  
at St. John's College, Winni-  
peg, where he is now in the third  
year of the philosophy course.

As is pretty generally known, one  
of the stipulations made by Cecil  
Rhodes bearing his name, was that  
they should be awarded to men of  
some athletic as well as bookish abil-  
ity. In addition to being a scholar  
of no mean ability, Mr. Adamson cer-  
tainly also fills the latter require-  
ment, having always, both at school  
and college, distinguished himself in  
the world of sport, actively participat-  
ing in Rugby and association foot-  
ball, hockey and nearly every other  
kind of athletic pastime. Slightly  
under twenty years of age, there is  
little doubt but that Mr. Adamson  
when he takes up his residence at the  
ancient seat of learning on the banks  
of the Thames, which it is understood  
will do this fall, will be a credit to  
Regina and the Province of Sas-  
katchewan.

A DARING ROBBERY.

Messenger Bound and Gagged in Sit-  
ting Room of Paris Hotel.

PARIS, Jan. 27.—The police are  
searching for a man with a strong Ger-  
man accent, who has carried out a dar-  
ing robbery from a Parisian jeweller.  
After receiving about \$1,500 worth of  
jewellery at the shop, the man suggested  
that an assistant might be sent with  
him so that his wife could make her  
purchases. On arriving at the hotel  
named by the man the assistant was  
shown by him into a sitting room. There  
the man presented a revolver at his head  
and said, "If you move, I will fire."

He then produced a long coil of rope  
and after gagging the assistant, bound  
him securely and left him helpless. If  
this departure with the \$1,500 worth of  
jewellery, and has not been since.

SEE REDONCEMENT

A bride's mother presented her with  
a check on Christmas day. With a feel-  
ing of extreme tenderness she took  
it down to the bank in which her hus-  
band had opened an account for her.  
The cashier took the check, then handed  
her a note, saying, "I am sorry to hear  
"Will you please endorse it, madam?"  
"Endorse it?" repeated the bride, pu-  
sied.

"Yes, across the bank, you know," re-  
plied the man, too busy to notice her be-  
wilderment.

The bride carried the cheque to a desk  
held it face downward, and nibbled the  
end of a pen thoughtfully. Then she in-  
spiration came. Dipping the pen, she  
wrote triumphantly across the back:

SNOW FLAKE ANXIOUS.

SNOW FLAKE, Man, Jan. 29.—  
There has been no train into Snow  
Flake for the past several days. The  
four supply is getting very low, and  
today will see the last of the coal  
used up. The thermometer is hover-  
ing about 10 below, and there is a  
chance of severe cold. And what is  
more, the C.P.R. is attempting to  
break the blockade this afternoon,  
but so far have not been successful.

The Season for  
Croup and Colds

But Serious Results Can be Avoided  
By the Timely Use of  
Dr. Chase's Syrup  
of Linseed and  
Turpentine

With the return of wintry weather  
there comes again mother's anxiety  
for the health of her little ones—  
wet feet and chilled bodies and then  
croup or severe cold. And what is  
to be done to prevent serious trou-  
ble?

Because it is pleasant to the taste,  
composed of simple ingredients of  
proven value, and positively free  
from anything of an injurious na-  
ture, Dr. Chase's Syrup of Linseed  
and Turpentine is especially suitable  
as a treatment for children, and its  
popularity is due to its wonderful  
success in the prevention and cure of  
croup, chest colds and bronchitis.

In the hour of emergency you can  
depend on Dr. Chase's Syrup of Lin-  
seed and Turpentine to loosen the  
cough, aid expectoration, allay in-  
flammation and bring speedy relief  
and cure.

This well-known preparation is  
not a mere cough mixture, but a  
medicine having thorough and far-  
reaching action on the whole system  
and hence its remarkable success.

Don't take anything said to  
be "just as good." There is no throat  
and lung medicine just as good as  
Dr. Chase's Syrup of Linseed and  
Turpentine. Remember this when  
buying, and insist on having Dr.  
Chase's, the portrait and signature  
of Dr. A. W. Chase, the famous re-  
cipes-book author, are on every bot-  
tle. 25 cents a bottle. All dealers or

DOUKHOBORS RECEIVE  
A GENTLE WARNING

Government Notices Them That They  
Must Occupy Their Land  
or Lose It.

WINNIPEG, Jan. 27.—The Division  
Government is bringing gentle but  
determined pressure upon the Douk-  
hobors to induce them to become British  
subjects and to occupy and cultivate  
their lands individually like other citi-  
zens. Circulars printed in both Russian  
and English have been sent out to the  
aiders and people of every village,  
and Rev. John McDougall has visit-  
ed extensively among them, accom-  
panied by an interpreter, and has taken  
great pains to make the situation clear  
to convince them that the Canadian  
Government, which represents the ma-  
jority of the people of Canada, desires  
their welfare and assures them of pro-  
tection in their religious beliefs, and in  
the enjoyment of their rights as citi-  
zens extended to all other residents in  
the Dominion.

Test of Circular.

The circular is as follows:  
The Government is glad to see that  
some of the Doukhorobors are cultivat-  
ing their own land, and have become  
or are becoming, citizens of Canada and  
British subjects. It is very sorry to  
see that after having been in Canada  
for seven years, the large majority of  
the Doukhorobors still cultivate their  
land in common, and refuse to become  
citizens of the country. They have left  
their large areas of land, which the  
Government has permitted them to  
hold in common, without cultivation  
and improvement. The law is that a  
man must cultivate his own land or he  
cannot hold it. The people who are  
Doukhorobors now demand that Douk-  
hobors be no longer allowed to hold  
land without cultivating it, and becom-  
ing British subjects.

"The Government of Canada is the  
majority of the people of Canada, and  
when the majority of the people say  
that the Doukhorobors must not be al-  
lowed to hold land without cultivation  
any longer, so the Government must  
cancel the entries of the people who are  
not properly held, so that they may be  
properly held by other people. The only  
Doukhorobors who are properly held  
are those who have their own land or  
either on their land or in a village with-  
in three miles of it, and who cultivate  
their own land for their own use, and  
who have either already become or in-  
tend to become Canadian citizens and  
British subjects.

MEAT CANCELED ENTRY

"If any man who lives in a village  
cultivates his land more than three  
miles from the village in which he  
lives, his entry will be protected for six  
months to enable him to build and live  
on the land. If he does not live on the  
land within that time the entry will  
be cancelled.

"While the Government wishes every  
man to cultivate his own land for his  
own use, and to become a citizen, it  
will not attempt to compel the Douk-  
hobors to do either. It will protect  
them as it has hitherto done in their  
religious beliefs, but it cannot longer  
grant them privileges in regard to land  
which it does not give to other people.  
If the land upon which they live, stands,  
or partly stands, is under en-  
try, the entry must be cancelled in  
whole or in part, so that the Govern-  
ment can protect the Doukhorobors in  
their homes."

"The community entries in the vicin-  
ity of each village to the amount of  
fifteen acres to each person in the vil-  
lage, and so distributed as to comprise  
as much of the community cultivated  
land as possible, will be cancelled and  
land held by the Government for the  
protection of the community of Douk-  
hobors. All other entries in the vicin-  
ity of the Land Titles Office at Regina  
as No. G. 763, and dated the Eighteenth  
day of July, A.D. 1905.

Which I shall expose for sale on

April, 1907, at the Court House, Re-  
gina at the hour of 12 o'clock noon.

BRITAIN MUSTERS GREATEST FLEET

Amazing Power of Huge Armada to Gather Off Lagos Next Month.

LONDON, Jan. 23.—The largest number of battleships and cruisers ever brought together at one time will assemble at Lagos in February next for the combined British maneuvers, which are to take place on the coasts of Portugal and Spain.

Almost immediately afterward the redistribution scheme announced by Lord Tweedmouth comes into effect, under which a number of ships now serving at sea are to be stripped of their crews and placed in that strange invention, the "special reserve."

At the same time it must be remembered that Great Britain has at her disposal a fleet of ships which are ready if called on for active service. If the tonnage of the ships which will assemble at Lagos be considered it works out as follows: Battleships, 439,350 tons; cruisers, 186,020 tons; scouts, 55,250 tons.

TORONTO, Jan. 25.—Discussing overcrowding in street cars yesterday, Mayor Coatsworth heard a suggestion that people should refuse to pay fares unless they got a seat. His reply was: "I'll back up the man who'll do it—in fact, I'll be the man to do it myself. I intend to make a case out of the truth of what I believe to be a principle of common law, that every person who pays street-car fare has a right to a seat."

The "Jolts" and "Jars" of Life

are what we people up. Most people live pretty well up to the limit of their powers, and so long as everything goes smoothly that is apparently all right; but a "jolt" or "jar" in the shape of business worries, domestic anxieties, or an attack of La Grippe, Pneumonia, Typhoid, or other wasting disease, suddenly reveals the fact that there is a sad lack of reserve force to meet these contingencies and the result is serious, often fatal. A wise man will see to it that his system is fully fortified against sudden attack. To attain this result nothing is so sure and effective as

GOVERNOR'S ACTION OPEN TO CRITICISM

Besides Dismissing American Troops, He Has Docked Pay of Government Clerks.

KINGSTON, Jamaica, Jan. 23.—The publication in The Daily Telegraph of Governor Sweetenham's letter to Rear Admiral Davis has greatly intensified the resentment of residents against the Government for rebuffing the tender of U. S. assistance, and there is a movement on foot to demand his recall. The correspondent of the Associated Press brought Governor Sweetenham and spoke to him of the Davis incident. The Governor said that he had not invited Rear Admiral Davis to land sailors. Asked if he endorsed the action taken by Rear Admiral Davis, the Governor replied: "That is a matter between yourself and Rear Admiral Davis, to whom I must refer you."

The Governor said that his references in his letter to Rear Admiral Davis to a tramp pillaging the house of a gentleman was merely a local parallel. A meeting of the relief committee was held here today on the call of the Governor to discover the exact conditions attending differences between the Governor and the Admiral. At the close of this meeting and after having read Governor Sweetenham's letter to Rear Admiral Davis, the most Rev. Dr. Enoch Nuttall, archbishop of Jamaica, sought the Governor to talk matters over with him, saying that if he found conditions warranted, he would send a personal explanatory cablegram to President Roosevelt.

There is much indignation expressed here at Governor Sweetenham's action in docking the pay of the Government clerks who absented themselves from duty for the purpose of nursing dying relatives. Last Saturday the Governor presented a free service of trains for transportation of refugees into the country, and at the urgent request of Archbishop Nuttall, he consented to continue his service for one week. No sailors have been landed from the British cruiser Indefatigable, which arrived here last night.

Sweetenham Heard From. LONDON, Jan. 23.—The Government has received a message from Governor Sweetenham of Jamaica, dealing with the Davis episode. The message is being kept secret, but it is rumored that the Governor practically confirms the main features of the affair, as already published. It is likely a blue-book will be published, dealing with the situation.

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused it to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature. In 1843 she married Isaac Pinkham, a fruiter and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She was particularly interested in the medicinal properties of the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured it because quick relief was brought about.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world. The three sons and the daughter, with

TO UNFOLD THE RICHES OF NORTHERN CANADA

Senator Davis Moves for Special Committee of the Senate to Enquire into the Resources of the Country North of the Saskatchewan—Untold Wealth of Timber and Minerals

OTTAWA, Jan. 24.—Senator Davis in the Senate today moved that a select committee composed of the Honorable Messrs. Talbot, Loughheed, Douglas, Delver, Antry, Tessier, Wilson, McMillen, Young, Ferguson, Ross, (Moose Jaw), McGregor, Power, Robertson, Watson, Bernier, Kilbiffer, Ellis, Thompson, Penry, Riley, Bostock, Bonville and the mover, be appointed to enquire and report from time to time as to the value of that part of the Dominion lying north of the Saskatchewan watershed, east of the Rocky Mountains and west of the Hudson's Bay, comprising the northern parts of the province of Alberta and Saskatchewan and Mackenzie territory; its extent of navigable waters, rivers, lakes and seascoast.

Senator Davis said a good deal was known of the grazing lands of Alberta and the great hinterland to the north beyond the Saskatchewan. He had lived there 27 years and had gone over a good deal of it, but he was learning more about it every day. Several years ago the Schultz committee of the Senate had obtained a great deal of valuable information about the West as far as the Saskatchewan Valley, Railways and so on. The report on that by that committee and it was time to extend the enquiries further. Men had gone into the region between the Saskatchewan and the Yukon. They had found great areas of timber, mineral deposits, water power and all things that go to make up a great country. A great deal of valuable information could be obtained by examining the reports although a better way would be to have one or two exploring parties sent out.

Senator J. B. P. Casgrain thought the motion ought to take in the Labrador Peninsula. Little was known of Ungava. It was stated last year that there was no timber there, yet Lord Strathcona, who had spent 30 years of his life in that region, told him there were great stretches of most valuable timber in Labrador. Senator Power thought exploring parties would produce a great deal more valuable information than would a committee. A committee was the most expensive and least effective manner of getting information. He offered an amendment dropping the provision for a committee, but requesting the mover to take steps to procure information upon the unexplored portions of the North-West and Ungava. A committee on a route to the Yukon had reported in favor of the worst possible route. Hon. Mr. Scott thought information would not cost a great deal. He supported Mr. Davis' motion. Senator Watson would like to see both the committee and exploration resolutions passed. Sir Richard Cartwright supported Senator Davis' motion. We hardly, he said, know anything about the resources of Canada. The Yukon and Cobalt were hints of what was yet to come. Senator Gibson supported the amendment. The Interior Department could prepare a report on the North as well and at less cost than a Senate committee. Senator Ross said it was most important to have the knowledge of our north land increased as soon as possible. Ontario has sent out exploring parties, each of which included a geologist, a surveyor, an agricultural expert and a forester.

NEW PRE-EMPTION REGULATIONS

Three Dollars to Be Minimum Price for Pre-empted Land—Full Details.

The bill to consolidate and amend the acts respecting the public lands of the Dominion, which was introduced in the House of Commons by Mr. Frank Oliver, Dec. 19, 1906, and referred to by D. W. Bole, M.P., in his speech at the Old Times banquet on Dec. 31, contains the following regulations with regard to the right of pre-emption which is proposed to again bring into force:

27. A person who has obtained entry for a homestead and who continues to hold the land included therein, but who has not acquired or does not hold a pre-emption, may apply to the agent in charge of the section lying alongside such homestead or separated therefrom by only a road allowance, and upon the payment of the fee of ten dollars, such quarter section shall be entered upon the books of the land office and in the returns of the agent as part of the pre-empted land, and the provisions of this Act as to the completion of the requirements for obtaining letters patent for a pre-empted quarter section, payment in full may be made for the same and letters patent therefor may thereupon issue.

28. No person who has obtained or has become entitled to letters patent for a homestead shall be entitled to obtain another entry for a homestead. Provided, however, that any person who, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; and upon the payment of a fee of ten dollars, for which a receipt shall be issued as aforesaid, such quarter section shall be entered in the books of the land office and be included alongside whose homestead there is not a quarter-section available for pre-emption under subsection 1 of this section, may, after the issue of letters patent for his homestead, or upon completing the requirements requisite to obtaining letters patent therefor, pre-empt any quarter section open for entry as a homestead in the manner set forth in this section; **MOOSE JAW, Jan. 22.**—On the recommendation of W. E. Knowles, M.P., the post office department will create an inspectorate for Saskatchewan, with headquarters at Moose Jaw. In future the inspection office will have charge of Manitoba, Winnipeg and Calgary of Alberta. This is a very popular move in Saskatchewan and is especially beneficial to the new rural districts, assuring prompt action in regard to new offices and the arranging of mails, which have been unfortunately delayed of late. It is also hoped that the work in general will be improved and the service generally improved. The new inspectorate will be organized at once with offices on the second floor of the post office building.

**INDIAN HEAD, Jan. 24.**—Indian Head defeated Qu'Appelle here Wednesday evening before a rink packed to the doors, by the score of 6-3. The play was fast from the start, and the spectators were treated to a splendid exhibition of the premier winter sport. During the first half the Qu'Appelle boys seemed unable to get a grip on the game, Indian Head leading at half time by 4 to 1. In the second half, however, Qu'Appelle had a little the better of the play, but were unable to overtake the lead gained by their opponents. In the end their weight to advantage whenever the opportunity offered. The game was one of the cleanest ever witnessed on the home ice, very few penalties being handed out. W. Van Valkenburg acted as referee and W. R. Van Valkenburg as judge of play.

**MEDICINE HAT, Jan. 24.**—Thomas Oliver, butcher, who failed in his business here recently and could pay his creditors practically nothing, has been arrested at Maple Creek and will be brought here to answer to a charge of concealing and disposing of goods rightfully belonging to his creditors.

**EDMONTON, Jan. 24.**—The R.N.W.M.P. are in receipt of news of a tragedy from the Great Eddy, on the MacLeod River, where a rancher named Hornback, who had gone insane because of the cold and exposure, was shot by his partner to save his life. The insane man had two men in a shack, which he was riddling with bullets. The inmates decided it was necessary to do something, and fired a shot with the intention of disabling Hornback, but the bullet went wide and the unfortunate man fell dead. An inquest will be held, and it is possible that the two men will be placed on trial.

**WINDSOR, Jan. 23.**—The announcement that the C.P.R. have applied to the Dominion House for legislation to ratify their agreement as to joint terminals in Winnipeg has put the city on its guard. The members of the city council that the city should be consulted before any such agreement is ratified by the Federal House, in view of the fact that the city council has an agreement with the C.N.R. regarding the closing of Broadway East and the construction of a C.N.R. depot.

**WINDSOR, Jan. 23.**—The fuel situation is unchanged today except that Winnipeg is continually moving nearer to the fuel situation here. The same steady stream of anxious householders enquiring for coal or wood and the same long lines of people waiting for coal are to be seen. Each succeeding day now dwains on a worse situation than the one of the day before and this morning several of the dealers refused to take orders at all. The dealers state that even if they had the required coal they would not have the steady delivery to let all those needing fuel have a little. Dealers now believe that the railways should cancel all passenger trains and run freight trains on their time until the situation is relieved.

**WINDSOR, Jan. 24.**—Efforts are being made to have the local government to establish a court for juvenile offenders, and enact a compulsory education law. The Government is disposed to fight shy of the latter proposal.

**PORTAGE LA PRAIRIE, Jan. 24.**—J. Pethick, manager of a local hardware store, fell down the elevator shaft today, a distance of 100 feet, breaking his collar bone and receiving other injuries.

**NAPINKA, Man., Jan. 24.**—The traps in this section of the country are completely tied up, the drifts in some places being ten feet deep. The drifts are being blown away by the wind, the mails being brought in from Melita by team. Several of the towns are running short of fuel.

**SNOWFLAKE, Man., Jan. 23.**—No trains have arrived here for five days and the outlook is bad. A request that mails be sent forward to the river by team has been turned down by the post office inspector and citizens are growing indignant.

**ALBERTA**

**LETHBRIDGE, Alta., Jan. 23.**—Yesterday's chitcock gave way at noon today to a raging blizzard, and the ranges are covered with ice and snow and it is feared that a large percentage of the cattle will perish. The losses among the horses will be light. This is the most severe winter in Southern Alberta since 1887.

**VANCOUVER, Jan. 23.**—Smith Curtis challenged Mr. McBride to meet him in Keenmore last night, when the former Manitoba heavily assailed the Premier and made serious charges of maladministration. The most important result of the meeting, however, was Smith Curtis' compelling McBride to promise that if the Conservative Government was returned, it would not grant the C.P.R. 9,000 acres of land which that company wants to complete its road to Midway. Curtis feels now that whatever may be the result, he has saved his country from being robbed of land worth at least half a million dollars.

**WINNIPEG, Jan. 23.**—Several freight cars were smashed and a number of horses killed in a wreck which took place last night in the C.N.R. yards. The cars were piled up and a switch and ran down the siding leading to the stock yards, where a string of cars were standing. In the smash which followed four cars were piled up in a tangled heap and three others were thrown from the rails and across the lower end of Water street. In one of the wrecked cars were a number of horses and a second was loaded with baled hay. How many of the animals were killed is not known, and the ones which were only injured were removed in the ambulance to the horse hospital.

The officials of the railway company are unable to state whether the switch had been properly closed, or whether the accident was due to the snow. The accident occurred at the exact spot where the four men were killed in a similar smash about a month ago.

**WINNIPEG, Jan. 23.**—The announcement that the C.P.R. have applied to the Dominion House for legislation to ratify their agreement as to joint terminals in Winnipeg has put the city on its guard. **EAU CLAIRE, Mich., Jan. 23.**—The body of Daniel Heaton, a wealthy hermit, was found frozen in his own blood in a small hut near the house where he had been living alone. There were evidences that the old man had been tortured to make him reveal the hiding place of his money. Amputated fingers and toes lay scattered about, and the appearance of a heavy rope on a beam of the ceiling, coupled with marks on the victim's neck, indicated that he had been strung up for a time. The body was found by a hunter who had a hatchet finished his suffering. It is thought that the murderers secured the booty, as no money was found in the house.

**NEW YORK, Jan. 23.**—The American Bible Society today received a message from its missionaries in China appealing for aid for the thousands of famine sufferers in that country. ## DEATH OF HON. A. G. BLAIR AT FREDERICTON, N. B.

### Former Minister of Railways in the Laurier Cabinet Passes Away in Dramatic Manner—No Indication of Ill Health Recently Manifested—A Distinguished Career—The Creator of the Railway Commission

(Special Despatch to The Leader.) FREDERICTON, N. B., Jan. 25.—The Hon. Andrew G. Blair, formerly Minister of Railways in the Laurier Cabinet, dropped dead at his residence here this afternoon.

(Special Despatch to The Leader.) OTTAWA, Jan. 25.—The news of the sudden death of Hon. A. G. Blair at Fredericton, N. B., today, cast a gloom over Parliamentary circles to-night. The ex-Minister of Railways was present at some functions given here during the early part of the week in honor of the visit of United States Secretary Root and was to all appearances in excellent health. He went to New Brunswick on a business trip, little knowing that he was never to return.

During the past few months Mr. Blair was working in harmony with his old political associates of his native province, and his decision to re-enter active political life brought him more in touch with his old-time friends than had been the case since his resignation from the Cabinet. That he was to be a candidate for one of the New Brunswick constituencies, in all probability St. John City, was freely talked over, if not decided upon.

In Parliament he had many friends. A hard hitter, he provoked often strong antagonism, but he cherished no animosities, and in every sense of the word he was one of Canada's most prominent men. Had it not been for Blair, there might have been no Railway Commission. It certainly would have been delayed. Few knew at the time that his resignation was in the hands of the Premier when he was pushing the bill creating a commission through committee, with all the railway interests of the Dominion confronting him. And fewer still ever thought that he was to become the head of the same commission from which he resigned in rather tragic manner. Since his resignation he has been devoting himself to the practice

CHICAGO, Jan. 25.—The executors of the estate of Marshall Field yesterday filed in the probate court their inventory of the estate. No statement is given showing the present cash value of securities. It is impossible, therefore, to make an accurate estimate of the value of the estate from the inventory, but counsel for the executors place the total value of the property described in the inventory at \$75,000,000.

## RICH MADWOMAN PASSING AWAY

### Margaret Folsom, Who Is Worth \$4,000,000, Spends 35 Years in an Asylum.

NEW YORK, Jan. 22.—Margaret Winthrop Folsom, probably the wealthiest insane woman in the world, is reported to be dying in a sanatorium in Waverly, Mass. There she has spent most of the 35 years since she was declared incompetent to conduct an estate which she inherited in 1872. The estate was extremely large for those days, and is now enormous. It consists almost entirely of realty in this city and is probably close to \$4,000,000 in actual value.

The Folsom family, of which she is a member, 50 years ago was one of the most prominent in society and politics in this state. Today her only relative and heir is her brother, Geo. Winthrop. She collected an income of \$150,000 a year from the 30 properties which she owns, and from the bonds, stocks and mortgages amounting to a quarter of a million dollars included in her estate. For his services as committee of her person and estate, her brother is allowed \$50,000 a year by the supreme court. He has no other occupation. Miss Folsom is 64 years old. In a sanatorium she occupies a suite of four rooms with a dining room. Two nurses are in constant attendance and everything that money can buy is given to add to her comfort or gratify her slightest wish. But her wants are few. Last year the cost of her maintenance was only \$5,452.

### Greatest French Citizen of the Nineteenth Century—Victor Hugo Comes Next.

PARIS, Jan. 24.—The word plebiscite has been for more than thirty years a word of ill-omen in France. One of the most widely-circulated of French newspapers, the Petit Parisien, has, however, been rehabilitating the word during the past few weeks in a way striking all over the country to vote on the question of the relative pre-eminence of the great Frenchmen of the last century. Fifteen million answers have been received, and what gives striking demonstration is that the opinion of average France is recorded, not that of a political coterie or of a cultivated elite.

The world knows approximately what France thinks of her great men, and what her conception is of civic duty, as well as of civil and moral distinction. It is the revelation to the foreigner of an idealism hitherto unsuspected. Only those observers who have had the privilege of studying the evolution of the French mind and feeling over an unbroken series of years on the spot, were aware of the profound transformation which the republican school system and stable republican government in general have effected in the points of view of the present generations of Frenchmen.

## VICTOR HUGO IN FOURTH

The winner of the recent contest is Pastour. Victor Hugo runs him close, having received 1,225,108 votes, against 1,224,415 for the world-renowned man of science. But it is characteristic that two men of peaceful pursuits should precede on the lists those great Frenchmen who might have appeared at first sight to have contributed to the military glory which the French are supposed to so much admire. Gambetta follows Victor Hugo with 1,115,572 votes. Then comes Napoleon I, and Thiers with 1,118,931 and 1,028,443 votes, respectively.

For the sixth place what foreigner would have suggested the name of Lazare Carnot. The order of the names which succeed Lazare Carnot's is interesting in the extreme. Curie, the inventor of radium; Alexander Dumas, pere, who has charmed several generations, not only Frenchmen, but also of Englishmen; Dr. Roux, the discoverer of the tubercle bacillus; Pasteur, the discoverer of the potato blight; then Ampere, the father of the dynamo electricity; Bragg, the founder of the French West Africa; Soix, whose place here, the thirteenth on the list, shows conclusively what France now thinks of his courageous deed as author of "Fucus"; Lamartine, a consoling selection for those who have always regarded the author of "The Lake" as the most seductive Frenchman of the nineteenth century; and Francois Arago, the ast-

### President Roosevelt Will Ignore Governor Swettenham's Boorish Conduct—British Government However, Will Deal With His Excellency as He Deserves—Newspaper Criticism of the Affair

(Associated Press Despatch.) LONDON, Jan. 24.—President Roosevelt's assurance through a scathing editorial article arraigns Governor Swettenham as follows: We would be unfaithful to our duties as an exponent of public opinion if we failed to call attention to the extraordinary conduct of His Excellency in the present crisis. His general behavior at the moment of peril and difficulty was unworthy a responsible British official and even of a cultured Englishman. His letter to Rear Admiral Davis was a production of which he ought to be ashamed and of which Jamaicans are ashamed. The United States is a friendly nation; their bones is British bone, and their flesh is British flesh, and no one but a blinded bigot would have refused to admit American landing parties. Men from the United States warships did magnificent work in removing debris and removing bodies, and their naval surgeons performed equally splendid services. The action of the governor was absolutely reprehensible. We want a man who does not spend his time riding about the city cursing officials who are endeavoring to work loyally. The people of this community have lost confidence in his power of guidance and are indignant at his autocratic bullying and insulting manner.

The winner of the recent contest is Pastour. Victor Hugo runs him close, having received 1,225,108 votes, against 1,224,415 for the world-renowned man of science. But it is characteristic that two men of peaceful pursuits should precede on the lists those great Frenchmen who might have appeared at first sight to have contributed to the military glory which the French are supposed to so much admire. Gambetta follows Victor Hugo with 1,115,572 votes. Then comes Napoleon I, and Thiers with 1,118,931 and 1,028,443 votes, respectively.

For the sixth place what foreigner would have suggested the name of Lazare Carnot. The order of the names which succeed Lazare Carnot's is interesting in the extreme. Curie, the inventor of radium; Alexander Dumas, pere, who has charmed several generations, not only Frenchmen, but also of Englishmen; Dr. Roux, the discoverer of the tubercle bacillus; Pasteur, the discoverer of the potato blight; then Ampere, the father of the dynamo electricity; Bragg, the founder of the French West Africa; Soix, whose place here, the thirteenth on the list, shows conclusively what France now thinks of his courageous deed as author of "Fucus"; Lamartine, a consoling selection for those who have always regarded the author of "The Lake" as the most seductive Frenchman of the nineteenth century; and Francois Arago, the ast-

#### OVERCOME BY GAS.

Workmen in Sarnia Tunnel Removed in Unconscious Condition.

SARNIA, Jan. 27.—What might have resulted in another terrible tragedy occurred here late Saturday afternoon, when a number of young men who were engaged at work in the Sarnia tunnel were overcome by the poisonous gas and rendered unconscious.

Luckily their condition was noticed in time by some trainmen, who hurried them out to the open air, where immediate assistance was at hand.

The men were taken to their homes and, where necessary, were placed under doctors' care. Most of them soon recovered from their dangerous experience, but some of them are still feeling its effects.

It is the most recent of many such accidents, shows the gain which will result from the use of electricity as motive power in the tunnel. Its introduction will be welcome to the men whose daily work carries them within the precincts of the big tube.

A large gang of men are now employed at the St. Clair tunnel and at the G.T.R. tunnel yards putting in the equipment for the electrification of the tunnel.

Dynamite Explodes While Laborers Are at Dinner—Wine Dies.

ROANOKE, Va., Jan. 27.—A Richmond special to the Times says that nine foremen were blown to pieces by a dynamite explosion today on the Tidewater Railway, near Petersburg, Va. The laborers were at dinner when a quantity of dynamite which was being thawed before the fire, blew up.

## OTTAWAS BEAT VICTORIAS

### Over 6,000 People Witness Fast and Clean Game in Which Capitals Win by Score of 12-10—Ottawa Players to Face Magistrate To-day.

MONTREAL, Jan. 27.—By playing clean and consistently brilliant hockey, Ottawa defeated the Victorias in a league match at the Arena on Saturday night by the score of 12 to 10. Over 6,000 people witnessed the contest, which was one of the fastest and most exciting ever played here.

The Victorias were slightly favorites in the betting before the game, but they hardly justified expectations. Not a Victoria man was ruled off but penalties were dealt out to the Ottawas on six occasions and when they were shy one or more men the Vics scored five of their ten goals.

The Ottawas were very aggressive, but they were probably influenced to play clean hockey by the fact that three of their number, Harry Smith and Ed Smith and Ed Smith, were arrested on their arrival in Montreal at noon on Saturday. They were released on \$2,000 bail, the bonds being put up by Mr. Shirley C. Govey. They will appear for trial Monday morning. Blatford will likely not be able to testify as he has been in bed since the Wanderers-Ottawa game.

The following was the line-up: Ottawa: Goal, Fry; Lesur; Point; Davidson; Puffer; Cover Point; Howard.

Shore; Rover; Gilbert; A. Smith; Forward; Hale; H. Smith; Forward; Russell; Westwood; Forward; Russell.

Referee to Prosecute.

(Special Despatch to The Leader)

OTTAWA, Jan. 27.—F. C. Chittick referee of the final Wanderers-Kenora grand final will in all probability take legal action against Tom Hodge, of Montreal, an ex-member of the Wanderers Executive board, for an alleged assault which Mr. Chittick says was committed after the match.

It is stated that the referee was walking to one of the dressing rooms when Mr. Hodge struck him, being angry at his having been the second game, in which the Wanderers were defeated, with the consequent loss of the Stanley Cup.

Chittick stated tonight that he had not yet made up his mind, but that it was almost certain he would take legal action. When asked whether, as rumored, Hodge was his assailant, he remarked: "Well, I guess you can say he's the man, all right. That was as definite as he would make it. It is understood that nothing will be done pending the outcome of the prosecution.

It is stated that if that goes on, Lawyer Cotton of Montreal will be asked to take the case for Mr. Chittick.

#### THE BARD'S GREATEST POES.

Tolstol says that Shakespeare was small, warty tubers occurring in very scattered instances in the hills.

Bernard Shaw agrees that Tolstol only was the Best of Aron minute operations, but that if he were alive today he'd be a dead one. Shaw himself with one arm tied behind him, could knock him through the ropes, groggy, five seconds after the gong sounded. This is the day of the knocker.

But the worst knock that the author of "Hamlet" gets these days is when the college dramatic club gets after him.

The first hint of impending calamity is when this notice appears on the bulletin board in the main hall: "Vincent Archibald Fore Flusher, professor of public speaking, will meet candidates for the cast in 'As You Like It' at 4 o'clock, Tuesday afternoon, in his home, 1422 Tennessee street."

When "Tubby" Thompson, the 210 pound center of the new Wanderers, is selected to play Charles the Wrestler, the success of the production is assured. "Tubby" wanted to play Orlando, but he had the parts ever since he broke the bones of three of the best Medias and saved the day in the Warrentsburg game. Although Tubby is the college hero, his cauliflower ear and broken nose seem to disqualify him for a hero's part.

Orlando is a poet, and poets are not fat. Thompson carries about 130 pounds of avoirdupois in excess of the part. Archibald Fore Flusher, the Y.M.C.A. with plenty of pail, lands Orlando.

When "Tubby" learns that "Sissy" Smuggers is to throw him in the wrestling scene, "Tubby" roars.

"Um—Oh, no! Not that. None of this ham acting for me. Tuesday afternoon, in the all-American team for 1905, being downed by the secretary of the Wakarusa university. Not on your tumpy! If he thinks he can do it let him come out in the alley a minute."

"Tubby" is finally mollified by explaining that it was only in the play. Besides, they would introduce a specialty in the fifth act in which he and Harry Burton would do their tumbling and strong man act which they practiced in the gymnasium on Mondays, Wednesdays and Fridays. When the audience saw this it would know that Charles the Wrestler had a sponge in his nose when the big wrestling bout was pulled off.

Edith Wilmington, who occasionally condescended to play the pipe organ in chapel, had the leading part in the "Down East" company last year, was a candidate for the part of Rosalind, and when she was cast for the part, she said, "I guess not," and haughtily bounced out of the assembly. Later, speaking of Mayme Douglas—who got the role of the wastrel—Miss Wilmington was heard to remark in fine scorn: "They certainly got a Rosalind plenty enough to meet all requirements."

"Tubby" Thompson declared to his friends that it was all right about this fellow Smuggers throwing him in the wrestling scene.

"Don't tell anybody," said "Tubby," "but when the play comes off, I'm going to slip on the mat and accidentally throw that spindle-shanked piker clear out into the dress circle. It's all right for the boys in the bald-headed row. He won't touch 'em as he goes over. He's entirely too foxy for me. I always had it in for the Y.M.C.A. anyhow."

Alfred Smuggers, the Orlando, had the idea that to act meant to stride stiff-legged about the stage and declaim in a deep bass voice. "Toot" Sifers, who was cast as the clown, was his natural enemy. "Toot" didn't like the air assumed by Smuggers and the latter was aware of the fact.

After Professor Flusher had made out the personnel of the cast he asked "Toot" to see that it was published in the college paper.

"Can we trust Mr. Sifers to get this into the paper all right?" asked "Toot," who gave the Orlando a quiet cut-like look.

Professor Flusher rushed in the breach and smoothed over the asperities of the occasion. "I guess," he said, "we can trust Mr. Sifers to make a correct report, he being a newspaper man."

The "clown" and football games for a Topeka paper, thereby earning \$2.40 a month on his way through, and the Orlando and sixteen others seriously injured, two of whom will probably die.

The next issue of the college weekly contained the "write-up" of

#### PASSENGER RATES ON PRINCE ALBERT LINE

### Discussed Before Railway Commission—Commission Looking into the Matter of General Rates.

The bill respecting the Qu'Appelle, Long Lake & Saskatchewan Railway Company was considered by the Railway Committee of the Commons the other morning. It ratified the lease of the road to the Canadian Northern, and for making necessary financial arrangements. Mr. McCraney moved that the passenger rates on this road should not exceed three cents per mile. Mr. McIntyre (Strathcona) said he intended to bring in a bill applicable to all branch lines in Alberta and Saskatchewan, fixing the maximum passenger rate at three cents. He did not think it fair to single out one railway.

Colonel Tisdale said he was against attempts of this nature. The adoption of this amendment would have a tendency to keep back the construction of branch lines and prevent the investment of capital.

Mr. Turfitt warmly supported the amendment. It would take a long time to get a general amendment of the kind proposed. The committee deal with all these branch roads as they came up.

Mr. Moore, secretary of the Canadian Northern, said that although this line had hitherto been operated by a powerful company, it had failed to earn expenses simply because the traffic was not there. The Railway Commission was the proper body before whom to raise this point, and both sides could be prepared with their facts and statistics. It would be unfair to the foreign stockholders to crowd in this unexpected provision.

Hon. Mr. Emmerson said the matter of railway rates was engaging the close attention of the Railway Commission, and Judge Killam had indicated to the Premier the lines on which this was being done.

Mr. Emmerson said the question was a large one, but the trouble was that the commission had been congested with work. Different sections of the country required different treatment. He was not familiar with the local condition of this particular line, as contrasted with the conditions of other lines in the West. Personally he sympathized with the people of Saskatchewan with respect to passenger rates, and if there was a remedy which the Government could apply it would speedily be applied.

The road had been operated under certain charter rights, and a change of ownership having taken place, it would be hardly fair now to change the basis upon which their charter was originally granted, and hamper the company in its financial arrangements. The question of the reduction of passenger rates should be dealt with by the Railway Commission, which had full jurisdiction in the matter. He admitted that the 4-cent-a-mile rate was extravagant.

Mr. Turfitt—Then why not remedy it, and remedy it by means of the Railway Commission?

Mr. Adamson of Humboldt said that the Minister had admitted that the rate was excessive, and that it should be reduced. There was a good reason why the committee should pass this amendment now. The question was referred, and the bill ordered to be reported.

A bill to extend the time for the completion of the Manitoba & North-Western Railway, and to authorize a branch from a point between the color-line and the main line to the junction with the Qu'Appelle branch, also from Hredenburg to Kamsack was reported passed.

#### Court House Burned.

#### HE WILL ADOPT A SLUM CHILD

### Mechanic's Novel Method of Showing Gratitude for Good Fortune.

LONDON, Jan. 27.—William Settle, an American mechanic, has made good his claim to property in England which brings in a rental of \$6,000 a year. The bulk of it consists of several houses in Platow, a slum district in the outskirts of the East End of London. And to show his gratitude for his good luck, he has decided to adopt a slum child—a example which may be commended to many London landlords who derive big incomes from poor tenants.

The property belonged to Settle's paternal uncle, who died intestate in 1870. He had no relatives living, and all Rome followed her coffin. The heirs were laden with wreaths, and workmen's societies and citizens of all classes formed a solemn procession. When the cortege arrived opposite the Church of St. Lawrence, where the body was found, Signor Maza, formerly a parliamentary deputy, delivered an oration expressing the public lauding of the prime.

It was while taking stock of his houses that Settle came across the child he wants to make his own. He is a bright, winsome, intelligent little girl of four. Because of her extreme poverty, her parents, who have several children to support, handed her over to her grandmother. The old woman was loath to part with the child, but the mother and father, who have visions that she may return from the ambulance some day and wed a duke, are more than willing to renounce all claim to her. So the matter is likely to be settled to Settle's satisfaction.

He will soon return to New York and for the rest of his days expects to take life easy, having entirely got over the ambition of his young manhood to become a millionaire. He is unmarried, and intends to remain single, having grave doubts whether matrimony can add anything to the enjoyment he can extract from \$6,000 a year. The child he adopts, therefore, stands a good chance of becoming his heir.
