## BUYERS PROTECTED BY ADVERTISING

**Man Who Buys Standard Brands From Local Merchants Knows That He Is Getting Full Value for His Money**

Time was when advertising did not occupy the place in the world of trade that it does today. It has not been so very many years ago that the people were suspicious of advertising. They were inclined to believe that the merchant was trying to "fool" them with his advertising, that he exaggerated the value of the merchandise he advertised and took that method of trying to get them to buy goods that he could not sell by the old established methods of merchandising.

Those days are gone. The public now realizes that it is the greatest beneficiary of advertising.

Advertising has done more in a decade to establish certain standards in merchandise than could have been accomplished in a hundred years by any other agency. The manufacturer who a few years ago merely made and sold blank clothes now makes Blank's hats.

And so it is with everything that one buys today. The manufacturer, by his advertising, has built up his business around a trade name and if he is to continue in business he must protect that trade name by maintaining such a high standard of quality that people when they buy his products will know just what they are getting.

The consumer, when he goes into a store today, does not buy merchandise blindly, with the hope that it will prove to be worth the money. He buys standard goods that bear the trade-mark of the manufacturer and that are backed by the reputation not only of the merchant who sells them, but the manufacturer who makes them. This has been brought about by advertising.

**No Reputation to Protect**

All this applies to the retail merchant as a class but it does not apply to the mail order business. The man or woman who buys goods from a catalogue house is not protected by the manufacturer of the goods, for the reason that most manufacturers who sell goods to the mail order house do not place their names upon the goods and therefore have no reputation to protect.

The great majority of articles listed and illustrated in the mail order catalogues are included in what is known among manufacturers as "stencil" stuff. These articles bear the name of the mail-order house which sells them instead of that of the manufacturer who makes them. It can readily be understood that any manufacturing concern which turns out goods that do not bear its name or trade-mark is likely to be a very unreliable institution. It is not building up any reputation on the quality of its goods, for its products have nothing to distinguish them from the products of any other concern. With no reputation to sustain and no chance of creating a general demand for its goods the only concern of a manufacturing institution of this kind is to make stuff as cheaply as possible in order to obtain the largest possible profit on its products.

**Same Price World Over**

These facts are chiefly responsible for the generally prevailing idea that the home merchants do not sell goods as cheaply as the mail order house. They do sell the same quality of goods that the mail order house sells as cheaply as the mail order house sells it, but they cannot sell the standard, guaranteed products of responsible manufacturers at the same price at which the mail order house sells its nameless, unbranded merchandise. Standard goods bearing a registered trademark sell for the same price the world over and the manufacturer's guarantee stands back of them when they are sold in the smallest village in the country just the same as when they are sold to the stores of the larger cities.

This is what the national advertising of the manufacturers has done for the consumers of the country. It has enabled them to go into their home stores and buy merchandise which they know from the past experience or from the reputation and guarantee of the manufacturer will give them satisfaction. They are not buying blindly and hopefully when they buy from the merchants in their home towns. They are buying with the knowledge that they are getting their money's worth. When they buy advertised brands they are getting double protection, that which is afforded by the responsibility of the retail merchant and that which is given by the reputation and guarantee of the manufacturer. When they buy the unknown brands of goods that are offered by the mail order houses they are getting neither kind of protection.

## CONDITIONS IN INDIA

Better Than for Thirty-four Years Says Dr. W. V. Higgins

In a private letter to THE ACADIAN Dr. W. V. Higgins, formerly of this town, and now a missionary in India, gives the following very interesting account of conditions in that country, which we are taking the liberty to give to our readers:

India is now enjoying a period of quiet. Ever since the arrest and imprisonment of Gandhi a remarkable change for the better has taken place. The Muslim-Hindu unity, of which we heard so much, has been shown to be a "joke". The Hindus are awakening to the fact that the Mohammedans had no thought of anything but a Mohammedan kingdom in which the Hindus would have a poor show. Doubtless you may run across a lot of Anti-British propaganda especially in American newspapers. But we, who live here, know that most of this is made to order. In my thirty-four years in India I have never found better conditions than at present. Of course every now and then there is some trouble especially among the wild tribes on the frontier but such troubles have always happened. When written up with an anti-British purpose it would look as if all India was in convulsion and this part of the British empire doomed. But such an occasional scrap in a country of 325,000,000 is something like a street fight in which some half dozen quarrelling neighbors are involved in some home town.

The Indians are making rapid progress along the line of self-government and the men who seem most truly patriotic and capable as leaders seem to realize that India's best interests will be served if she remains in the British Empire. In the civil service English are less and less in evidence as Indians qualify and take their places. This is as it should be.

As regards the attitude of Indians toward Christianity I would say that in all my experience I have never known a time when people of all classes seemed more eager to hear the gospel message and more ready to give it sympathetic consideration. There is a very wide spread conviction that Hinduism and Mohammedanism fail to meet India's need and that Christ alone can do so.

In the march of events during the next fifty years you may expect to see India "upon the map" not as a mere black patch but as a power in the affairs of men and as a contributor to the life of the world. Everyone who has a part in the remaking of this vast country, either politically, educationally, industrially or religiously may be profoundly thankful for the privilege. Among those who are making a solid contribution to India's new era I think the missionaries will be reckoned as a leading force.

## ALMOST A CENTENARIAN

On Sunday, July 15th, there passed away in her home at Cambridge Station, this county, Mrs. Eliza S. Orpen, daughter of the late Fairfield and Margaret MacGee Smith, of Aylesford. Mrs. Orpen was born at Aylesford on October 3, 1823, and married John E. Orpen on October 21, 1844. Their children were Mrs. S. P. Benjamin, Wolfville; Mrs. Charles Blair, of Auburn, Mass.; Herbert, deceased; Dr. Edwin, lost at sea; Fairfield, of Winthrop, Mass.; Mrs. Bessie Caldwell and Mrs. Alice Huestis at home. Mrs. Orpen was buried at St. Mary's cemetery, Auburn. During the past winter the deceased was in Wolfville at the home of Mrs. Benjamin.

The road leading to the government pier has been receiving some attention of late which has considerably improved its condition. A little more work in raking off the loose stones and grading the road would make it a fairly good one.

## SOCIAL SERVICE COUNCIL

To the Editor of THE ACADIAN.  
Dear Sir,—Will you permit me to say through THE ACADIAN to the Temperance voters, and to the Social Service Council Supporters of the constituency of THE ACADIAN that I have entered into an engagement with my own church which will take me out of the county of Kings for ten months from August 31st, and I would be grateful if those who have promised support to the funds I have been collecting for these objects will send me their promised sums not later than August 26th. My P. O. address is Berwick.

ARTHUR HOCKIN  
Missionary Agent of the Kings county Social Service Council.

A splendid assortment of Birthday Cards, including some very pretty booklets, just received at THE ACADIAN store.

## FIRE AT LAKEVILLE

The dwelling of Mr. Raymond Clark at Lakeville, with its contents, was totally destroyed by fire on Friday afternoon last. A family re-union was in progress. Mrs. Clark's mother with four of her sisters being present, when the fire was discovered while Mrs. Clark was preparing the evening meal. No explanation as to its origin can be given except that it caught from the kitchen stove. When first noticed the fire had made such headway that practically everything was destroyed including personal effects of the occupants. Fortunately the other buildings were saved. We understand there was \$3600 insurance on the house and \$1000 on the contents.

Col. N. H. Parsons has been appointed a School Commissioner for the town of Wolfville, in place of Dr. A. deW. Barrs, who resigned a short time ago.

## WOLFVILLE DEFEATS KENTVILLE

In League Tennis Match, Taking Seven Events to Opponents One

The Kentville Tennis Club was defeated by the Wolfville Tennis Club in a tournament on the local courts last Saturday afternoon. Despite the fact that the visitors only took first place in one event, the ladies' singles, all the matches were very closely contested.

The second set of the men's singles between E. McMinn of Kentville, and C. E. A. deWitt of Wolfville, was a real thriller, and provided many interesting moments for the spectators, of whom there was a fairly large number. Later in the afternoon tea was served in the recently erected tea-house, the hostesses being Mrs. Eugene Eaton, Mrs. Ralph Creighton, Mrs. Burpee Balcom, and Mrs. Robie Tufts.

**Ladies Singles**  
Miss Wickwire, Kentville, defeated Miss McLean, Wolfville, 6-2, 6-2.

**Ladies Doubles**  
Miss Smallman and Miss DeWolfe, Wolfville, defeated Miss Dodge and Miss Moore, Kentville, 4-6, 6-3, 6-2.

**Men's Singles**  
C. E. A. deWitt, Wolfville, defeated E. McMinn, Kentville, 6-3, 10-12, 6-1.

**Men's Doubles**  
M. Beardsley and G. Waterbury, Wolfville, defeated Metzler and Morton, Kentville, 6-0, 8-6.

**Mixed Doubles**  
Dr. L. Eaton and Miss Chute, Wolfville, defeated Mr. Neary and Mrs. Walker, Kentville, 7-5, 6-0.

Mr. Tufts and Miss deWitt, Wolfville, defeated Mr. Moore and Mrs. Hill, Kentville.

Mr. Chute and Miss Beardsley, Wolfville, defeated Mr. Prince and Miss S. Wickwire, Kentville, 7-9, 6-1, 8-6.

Dr. Ross and Mrs. Bishop, Wolfville, defeated Mr. Wickwire and Mrs. Murphy, Kentville, 7-5, 6-2.

## WOLFVILLE AND BRIDGETOWN

Play Friendly Tennis Tournament at Latter Town—Each Wins Four Events

Wolfville tennis players motored to Bridgetown last Friday and enjoyed a friendly tournament with Bridgetown club. This was not a league fixture. Each team won four events with Bridgetown winning 88 games to Wolfville's 86. The events were as follows:

**Men's Doubles**  
Dr. E. Eaton, and M. Beardsley, Wolfville, defeated H. Hicks and R. W. Donaldson, 6-3, 6-0.

R. Tufts and Dr. deWitt, Wolfville, defeated V. Lloyd and Rev. J. H. Freestone, 6-0, 6-0.

**Ladies Doubles**  
Mrs. F. R. Fay and Miss E. Daniels, Bridgetown, defeated Miss Beardsley and Miss M. Coit, 6-1, 6-1.

Misses Ruth and Frances Fowler, Bridgetown, defeated Miss Smallman and Miss deWolfe, 6-1, 6-1.

**Mixed Doubles**  
Miss E. Daniels and H. B. Hicks, Bridgetown, defeated Miss Coit and Dr. E. Eaton, 6-2, 10-8.

Mrs. F. R. Fay and James Fay, Bridgetown, defeated Miss Smallman and M. Beardsley, 8-6, 6-0.

Miss Bishop and Prof. Balcom, Wolfville, defeated Mrs. Flett and Rev. J. H. Freestone, 4-6, 6-4, 7-5.

Miss F. Fowler and W. Phinney, Bridgetown, defeated Miss deWolfe and R. Tufts 12-10, (called off on account of darkness).

**Men's Singles**  
R. W. Tufts, Wolfville, defeated J. Fay, 6-2, 6-2.

Are you going to have a picnic? Get your waxed paper and paper napkins at THE ACADIAN Store.

## A GATHERING OF UNUSUAL INTEREST

The Wolfville Missionary Conference Now in Session at Acadia Seminary

The college grounds are alive this week with the delegates to the Wolfville Missionary Conference, which opened its twelfth annual gathering on Tuesday evening in the Seminary building. Ideal weather, an intensely eager group of young people, and a staff of leaders and missionaries which include no less than seven representatives from foreign mission fields with still two others expected, combine to make for a gathering of exceptional interest. The Pictou celebration has interfered not a little with the attendance this year, one of the strongest delegations usually coming from that county. Delegates are present however from points as far distant as Fredrickton, Bathurst, N. B. and Charlottetown, P. E. I.

This Conference, which is one of a series conducted by the Missionary Education Movement—the Co-operative agency of the Mission Boards of the various churches—has come to be a centre of remarkable interest and strength. Other conferences in the series are the Whitby Conference for Ontario and the Knowlton Conference for Quebec.

At the opening session President Paterson, after extending a cordial welcome to the members of the Conference, emphasized the vital importance of Missions in the life of the church and the challenge the enterprise presents to young life. Rev. J. Lambert Alexander, of Hamilton, Ont., chairman of the Congregational Union of Canada, told of the great service being rendered to the churches by these Conferences and stressed the value of the fellowships such gatherings made possible. Rev. H. C. Priest, of Toronto, the secretary of the Missionary Education Movement, the Executive officer of the Conference, outlined its general character and purpose.

Every part of the conference is alive with the Missionary atmosphere. It seeks not only to give an intelligent understanding of missionary problems and activities but particularly to inspire and train for missionary leadership in the home congregations.

A feature of no small interest has been the messages of greetings received from Missionaries now on the field, who have been in attendance at former Conferences, some of whom had made their decision for missionary service or had had such decision strengthened at the Conference. Among these were messages from Rev. and Mrs. Harry Rackham, of Sackewan, China; Prof. and Mrs. Bain, of West China Union University; and a cable-gram from Miss Annie Christie, of Honan.

The Bible study is being conducted by Rev. Dr. MacDonald, of Wolfville, and Prof. J. W. Falconer, of The Hill College, Halifax. Mission study, in which deep interest is being shown, includes courses on Formosa, India and Korea. A course on methods of Missionary Education is being given by Mr. Priest.

An active committee on sports is filling the afternoons full with enjoyable and health giving recreation and Thursday afternoon was given over to a picnic to Evangeline Beach. The evenings are devoted to vesper services on the lawn and to platform meetings in the Seminary chapel. On Wednesday evening Rev. E. J. O. Fraser, of Korea, spoke on modern developments in that "land of the morning calm". The Conference will close on Tuesday evening next.

Work has been begun on the foundation for the new home on Summer street to be erected for Mr. and Mrs. W. B. Eaton. Mr. E. S. Langille will have charge of the building.

The members of the staff of Phinneys Limited, on their annual picnic at Wolfville. At the extreme right is Mr. H. W. Phinney, the President of the Company.

**THE ACADIAN**

(Established 1883)

Published at Wolfville, N. S., every Friday by

**DAVIDSON BROS., Printers and Publishers**

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

**Editorial**

Our pulpits are our work clothes. Each of us live some kind of a sermon every day.

**CANNING PLANT NEEDED**

The strawberry crop this season is a large one and the fruit of unusually good quality. Growers have found it difficult to secure pickers in some instances and latterly the price received for the fruit has been far from satisfactory. With the increased expenses of growing and getting ready for market the margin of profit has been exceedingly small. It has been fully demonstrated, however, that facilities for producing this luscious fruit are exceedingly good in this valley and some organized action should be at once taken to secure some better method of taking care of the product.

In this section where all kinds of vegetables and small fruits can be so successfully grown there should be a splendid opening for an up-to-date and well equipped preserving and canning establishment. In all our stores today are to be found attractively put up goods of this kind, the sale of which is enormous. With present excessive transportation expenses it appears ridiculous to bring from British Columbia and Ontario an article of food which can be better produced here by our own people. Wolfville is ideally located for such an industry and a properly equipped establishment here should be able at least to control the markets of the Maritime Provinces and prove a beneficial and paying undertaking.

**THE FARMERS AND TOWN BUSINESS**

One of the readers of THE ACADIAN, representing the agricultural industry recently suggested to us that the fact that Wolfville business places were closed so many evenings during the summer was decidedly inconvenient to farmers and their families and detrimental to the interests of our merchants. At this season the farmer, who is looking after his farm, has no opportunity during the day-time of coming into town, but now that the automobile has become so common it is easy for him and his family to run in after work of the day and get back before bedtime. He also suggested that if the town offices and banks could arrange during the farmers' busy season to keep open for an hour or so some evening during the week it would be a great convenience for that important class of our population. While we realize that outdoor attractions during the summer evenings make a very strong bid it might be well for our business men to take the above suggestion into consideration.

**MORE LIGHT ON COAL PRICES NEEDED**

In the face of the exorbitant prices that householders have been called upon to pay for late for their coal supply it is no wonder that dissatisfaction should exist among the miners of this province. They probably understand better than do the public generally the profits which the operators are exacting from the consumer and quite naturally feel that they are reasonably entitled to a larger share than they are getting. The proposition made by the Trades and Labor Council that these conditions should be freely investigated does not appear to be an unreasonable one. After all the people who are the owners of the coal mines, have to bear the cost and are entitled to the fullest possible information concerning this matter in which they are so vitally interested.

**DISFIGURING THE TOWN**

One of the town by-laws, the observance of which is sadly neglected these days, is that which provides that no advertising signs or other similar matter shall be posted upon electric or telephone poles or street ornamental trees in town. For a number of years after the passing of this ordinance its conditions were rigorously enforced but of late little or no attention seems to be paid. The by-law is a good one and deserves better treatment. In every progressive community today measures are observed which tend to the prevention of anything calculated to deface or mar the landscape. Wolfville cannot afford to lag behind.

**A CHANGED MAN**

Not very long ago the popular conception of a farmer was an Uncle Reuben who wore a tousley beard, never put on a clean collar and "biled shirt" except Sunday, who said "b'gosh" with great frequency and spat on the floor of his own home—when mother wasn't looking.

The farmer of today is a very different looking kind of a fellow. The Farmers' clubs, granges, bureaus, and federations have wrought the change. Today we hear about co-operation in buying and selling, legislation advocated and secured, good roads, better country schools, etc. One of the greatest changes has come in the broader social life for the farm home. Time was when most farmers went to bed every night at eight, or at the latest, nine o'clock. It was not so much that they were tired as that there was nothing interesting to make it worth while to keep awake. When the grange and farm bureau established a meeting place at the cross roads hall, with congenial amusements and stimulating discussion, they struck a blow at the worst of all obstacles in the way of agricultural advance—the loneliness of the farm. The automobile has also brought the farm closer to town, and the entire family can get home from a picture show in less time than it took old Dobbin to jog through the covered bridge.

Keen observers of country people say they are dressing much better and appearing far neater and more stylish than they did ten years ago. Social life always works that way. If Reuben has got to go down to the Grange Hall to make a speech, the old hickory shirt won't do.

**NOVA SCOTIA APPLE MARKETING**

(From the Halifax Herald)

To produce the best flavored apples in the world is one thing. To market them in the best possible manner and conditions is quite another. Both are essential to good business.

The aim of our apple growers and selling companies should be so to select and pack their fruit as to build up a reputation of careful and honest marketing, so that the mere label, "NOVA SCOTIA APPLES", will be taken the world over as a guarantee that they are properly packed and in fine condition. Only by winning such a reputation can they ensure sales, good prices, and business success.

It is regrettable that there is evidence that our apple growers, or selling companies, have relied too much on the native excellence of their fruit, and paid too little attention to proper selection and packing.

Only the best grades of apples should be sent to market; the smaller fruit should be manufactured near the source of production; and the fruit selected for market should be so carefully packed as to be certain to reach the consumer in good condition.

The people of Halifax last year had much dissatisfaction in their purchases of Nova Scotia apples. Not only were they not carefully selected as to size, but many were badly bruised, and many were rotten.

It is very unpleasant to have to state this; but our apple growers or selling

Minard's Liniment Heals Cuts.

companies had better be told the truth in order that they may realize the imperative need of amendment.

The quantity of decayed fruit last year was unusually large. It has been suggested that excessive cultivation of the orchard lands coupled with extensive use of high fertilizer may have a deteriorating effect on the keeping quality of the fruit. If there be any possibility of this being the case, it is a most serious matter demanding prompt and careful attention.

The choice of containers for apples is also important. In the opinion of many the apple barrel should be discarded altogether, and be superseded by boxes of a convenient size for handling.

In the British market especially it is said that the apple barrel is very unpopular, the people there generally desiring to buy apples in smaller quantities and in handy boxes.

The foreign market is no doubt important. But it may well be doubted whether it is to the permanent interest of our apple growers to send nearly all of their marketable fruit abroad and leave the home market only half supplied. For a large part of the year, Halifax, for example, has to depend upon importations from British Columbia and the United States, for apple supply. This should not be so. The prospect for this season is said to be a big crop of apples everywhere, but whether there will be a corresponding return in cash will depend much upon the marketing.

And upon the character of that marketing will depend the future of the industry.

**WOLFVILLE WINS AT TENNIS**

The first game of the Valley Tennis League was played at Windsor on July 3rd, when the Wolfville tennis players defeated the home team by 5 events to 3. The results were as follows:

**Ladies' Singles**  
Mrs. Kendall, Windsor, defeated Miss Creighton, Wolfville, 6-1, 6-0.

**Ladies' Doubles**  
Misses I. Dimock and G. Harriott, Windsor, defeated Misses Johnson and McLean, Wolfville, 6-1, 6-5.

**Men's Singles**  
Dr. deWitt, Wolfville, defeated J. R. Harrison, Windsor, 6-2, 6-4.

**Men's Doubles**  
Dr. L. Eaton and A. B. Balcom, Wolfville, defeated O. B. Keddy and C. H. Brown, Windsor, 6-0, 6-1.

**Mixed Doubles**  
Miss M. Chute and A. Chute, Wolfville, defeated Miss Clift and K. Tremain, Windsor, 5-7, 6-0, 7-5.

Miss Coit and M. Beardsley, Wolfville, defeated Mrs. H. Wilcox and C. N. Bissett, Windsor, 8-6, 6-4.

Miss Geldert and F. Buckle, Windsor, defeated Miss DeWolfe and E. Eaton, Wolfville, 6-4, 8-6.

Miss DeWitt and R. Tufts, Wolfville, defeated Miss A. Christie and W. C. Robinson, Windsor, 6-0, 6-2.

Minard's Liniment for Dandruff.

**MEDICAL EXAMINATION OF SCHOOL CHILDREN**

The following is the full report from the recent examination of the school children. The examinations were made by the School Health Committee consisting of the doctors and dentists of the town, who gave their time that the parents may benefit by an accurate report. That the children may have the defects corrected before much damage is done. Parents, do everything possible to give your child a chance. Preserve the sight, prevent deafness, and keep teeth in good healthy. Look after the decayed teeth, don't waste good teeth by delay.

Grade	Enlarged tonsils & Adnoids	Dental work needed	Defective vision	Mal nutrition	Total number in class
Grade 1 A	16	24	1	3	28
Grade 1 B	14	29	11	4	41
Grade 2	16	34	11	2	45
Grade 3	9	23	4	2	44

**The Telephone Can Lengthen our Visiting Cousins' Stay With Us**

A friendly invasion of Nova Scotia by our cousins across the line is in full swing.

All in this Province are mightily pleased to see these visitors and anxious to make their stay with us as pleasant and as long as possible.

There's one thing, at all events, that need not shorten a visitor's stay—worry about business or home affairs!

The Long Distance Telephone provides a sure cure for that

A talk over the Long Distance Telephone Lines with his home or office in his home town—all but as good as a personal trip there!—will put our visitor's mind at rest concerning these matters and induce him to extend his holiday in this old Province by the Sea.

# MOTORS AND MOTORING:

## A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

### THINGS THAT HAPPEN INSIDE YOUR MOTOR IF IMPROPERLY LUBRICATED

If Car Owners Kept Their Cars Supplied With Best Oils and Greases Adapted to it 70 Per Cent of Troubles of Motorists Would be Avoided

We read many warnings about lubrication—about using the kind of oil best suited to the motor, changing the oil in the reservoir frequently, etc. But seldom is this important motoring problem so clearly and interestingly treated as in an article by Mr. Richard B. Bennett in "Motor Life", part of which is printed here.

There's nothing so true in all motorology as this: If every car owner would keep his car supplied with the best oils and greases adapted to it, 70 per cent of the troubles of motorists would be avoided.

Funny, too, isn't it, if you come to think about it? You put six months' income into a car and bring it home for the family to admire. It's admirable, all right. It's the embodiment of every principle known to mechanics, from high tension to hydraulics; it's the apex of the most modern standardized perfection. With honest-to-goodness care, its normal life will run from fifty to a hundred thousand miles, and it may be much longer. But, if you don't look out, at 10,000 it has reached the dangerous years, and at 20,000 it is swiftly sinking into senile debility. You can't break the commandments and stay young—not without a painful lot of expensive overhauling, anyhow.

#### A Typical Case

Suppose we take a typical case of the race that kills. You trot your special Spic Six out on its first few thousand miles, driving pretty carefully for the first thousand, so as not to burn her up. You don't mind watching the oil gauge, and when it drops low you run to a station and tell 'em to shoot you a quart or two of oil.

"Light or medium?" asks the man in overalls.

"Oh, medium, I guess," you say, because "medium" sounds like a good average. For the rest your selection depends on the kind of oil the station you happen to pull up to happens to have. After a while "3,000" tumbles into place on the speedometer, and you decide it's about time to find out what the old girl can do. She has got eased in long ago by this time, so here goes! Twenty miles of copious concrete ahead when you start calling for action; the indicator slips to 50, 55, 60. Ain't it grand? Well, better be sensible; so you set the hand throttle to a casual 45, and lean back to watch her purr. Perhaps there's a rough over-tone to the purr, but life is too glorious just now for fine distinctions. Oh, boy, what a car! Can't tell a hill when she sees one.

Presently you do notice a hint of labor in the drone of the motor, but figure it will pass in a minute—probably a speck of dust in the carburetor that will soon flood out; so you forget it, to be wakened after a bit by a musical little tap. It gets louder. Something wrong, by hickey! Then, just as you whip back the lever to slow down, the tap becomes a whack, ending in an unquotable piece of slambang racket somewhere in the motor. Before you kill the garage man at the cross roads where you had to leave the car after the haul-in, let's listen to the reason for the \$47.53 that looks so modestly at you from the bill he offers. You are getting off lucky.

#### Wrist-Pin Yells Murder

Here's what you would have seen if you had been inside of the car since the day you started to run it. It was a dandy job, to start with—every joint cozy, every bearing snug. But it was new metal, and as surface ground itself against surface, tiny little filings washed off into the oil and sank into the pan below. There were even more of these little particles than there should have been, for you had called for just any old kind of oil, and that wasn't the right kind. Some of it was poor stuff that scorched under friction and left the bearings hot and dry. At other times you got the best oil on the market, but you called for "medium", whereas your car was designed with broad bearing surfaces of narrow clearance, calling for light oil. The "medium" was in as bad a fix as a fat man trying to get through a jammed street car in a hurry—it simply wasn't

built for it; so the bearings got hotter than ever and wore away swiftly, sending still more filings into the oil below. Dust came in through the breather tubes and air intake, carbon began to accumulate, and as the motor never got a good cleaning out, there formed in the reservoir a sandlike mixture of metal, oil and grits of many kinds. Some of this, floating back and forth with the oil flow, choked up the filter; some formed in the trough that holds the oil for the splash, with not a ghost of a chance to get down through the stopped filter into the safer lower story of the pan.

#### Hurry Call

When you stepped on her on that grand stretch of road, the motor sent in a hurry call for more oil. The pump got busy instant and started to flush the friction surfaces with a sticky muck of burned oil, carbon, steel filings and terra firma. As the speed increased, the pump worked harder, and the harder it drove the more dirt it sent in for the work. Finally the wrist-pin bearing in number four began to dry up and yell murder.

Just then along came a piece of gooey the size of a match head, a committee made up of all the materials that should have been washed out many hundred miles ago, got halfway through an oil groove, and stuck. Look over a few bearings and you will understand. You'll find some of them marked with small channelings running at angles across their surfaces, reminding you of the worm markings along the trunk of a tree under the bark. Of course they are straighter than worm cuts, and located with scientific care and accuracy, their purpose being to insure an ample supply of oil in the critical places at all times.

The rest of the story is short enough. That bit of synthetic muck stopped the flow of oil through the groove, the bearing went completely dry and gripped the wrist pin so tightly that it was torn loose, and the continued motion of the engine, gouging the loose pin against the cylinder wall like a cold chisel soon scored the cylinder so badly that it had to be rebored, or at least patched by a patented process. To do this the motor had to be taken down, cleared and emptied, and the block hauled to town, left a few days, brought back and reassembled; and the bill made out that let you off, so easy. You can be glad you didn't get a strained or broken crankshaft along with the rest.

#### Motor's Internal Bath

Fortunately the case we've cited was merely an imaginary one. We'll say you have driven the three thousand and got away with it. If every 500 miles or so you have drained the bottom of the crankcase, flushed what sediment you could out through the drain plug with kerosene and a little extra oil, and refilled with good oil, your motor should be in first-class order; but it is imperative for good service that every two, or at most three thousand miles it should have a washout that will make it feel good. For this job we should have within easy touch a gallon can of kerosene, an old hand-basin or a half-gallon tin can, with the top neatly removed, to serve its stead, some rags or waste, a stiff paint brush (one-in, size will do), a wire motor-cleaning brush (or, if such a one is not available a strong scrub brush), a ratchet wrench with extension, or at least a long socket wrench, and a spark-plug wrench. Pour a quart of kerosene into the basin or tin can, and you are ready to start.

Take out the spark plugs, to begin with, and drop them into the kerosene; when the last one is out, the first will be soaked enough to start cleaning it. If they have not been cleaned for a long time, it will be a good plan to disassemble them far enough to brighten up the porcelain insulations on the outside, examining them carefully for any cracks that might cause misfiring. For cleaning the insides of the plugs, you can buy brushes made for the purpose, but if you will take a soft piece of wire two and a half inches long, flatten half of it with a hammer against the anvil of the vise, and then file it to a good edge, you will have a scraper that will do the work very handily. Before replacing the plugs, clean out the plugseats in the motor head, being careful not to brush any of the accumulated dirt down into the motor. See, too, that the plug gaskets

### SUMMER CRUISES

are in good condition, for if they are not, they may cause loss of compression.

#### To Clean It of Dust and Oil

Next, dip some waste into the kerosene and go over the motor to clean it of dust and oil. The corners you can't well reach with the waste, you can get at with the one-inch brush mentioned above. Don't forget the dust pan if there is one around your engine; it will probably be so thickly encrusted with dust and sand oil that you had best begin shovelling the worst off with a broad putty knife, finishing with a kerosene swabbing.

The internal bath is the most important part of the process. This means a thorough flushing out of the oil system as can be obtained without any real disassembling. The details of the job will be found described for each car in the manual that comes with it. The general order will be somewhat as follows: Drain oil from reservoir and return plug; flush motor with half a gallon of clean oil (method of flushing will differ in different cars; the more oiled parts it can reach and still allow complete draining of kerosene, the better); crank motor by hand for a minute or two, or with self-starter for half a minute, but do not run it on its own power; remove oil pan and scour it out thoroughly, cleaning oil screen; drain off all oil again; replace drain plug and oil pan; refill case with clean oil, seeing that splash trough is well filled, so splash can begin operating the moment motor starts.

#### A GOOD TIME TO SPEED UP ADVERTISING

(B. C. Forbes, in Forbes' Magazine.) "How's business with you?" I asked the head of a leading advertising agency. Instead of the reply now most often received to that question, "Slowing up," he said cheerfully, "Fine doing better." He went on to say that more headway can be made now in selling advertising than was possible when so many manufacturers were overstocked, during the recent spectacular activity. "When business is coming pouring in without exercise of any effort," he explained, "advertising and sales work often are neglected. Manufacturers have had a chance during the last couple of months to reflect that all their production and all their profits and everything else must come from their advertising and selling effort. Now that they can handle more business they are willing to give more attention to advertising and selling. If this policy be followed generally, then we ought to see good business during the second half of the year."

True, is it not? It is important to have clear vision. Even the potato may not have sound eyes.

### MAKING THE MOST OF OUR FORESTS

Canada has lost close to half a billion dollars since the beginning of the war by allowing the shipment of raw pulpwood to the United States to be manufactured into paper in American mills and by American workmen. This itself is a strong argument for the imposition of an embargo on the export of Canadian pulpwood and suggests the need for not only a thorough but an early survey of the situation by the Dominion government. The forest problem of Canada is not acute; but it might easily become acute if fires, insects and cutting are allowed to denude the forests without proper reforestation programmes. It is essential that Canada make the most of the forest assets that it has and one way of doing this is to bring the raw materials to a higher state of manufacture in Canada before allowing their shipment abroad. Natural conditions are bringing this about to a partial degree; the concentration of experienced labor and of vast water powers being responsible for the establishment of many paper mills in Canada, but the influence of natural conditions might well be supplemented by legislative authority.

A further suggestion is heard now; that not only should Canadian pulpwood be forbidden the privilege of export but that sulphite and groundwood should not be shipped from Canada. Perhaps the time is not ripe for such a measure, which is more drastic than the other. It would work a hardship on many pulp mills that have been established with Canadian capital and that are still dependent on foreign paper mills to take their product. But a few years hence it may be that we will see such an embargo in as favorable a light as that in which the pulpwood embargo is showing itself. As an easy step to this end the suggestion is made that an export duty should be levied on pulp shipped from Canada, the money to be earmarked for reforestation; in other

words, insuring that when Canada's trees leave the country in the shape of pulp they should pay for the planting of other trees to take their place. The ultimate step from this would be an export duty on all forest products to continue the development of new planting.—Financial Post.

#### HOLIDAY SALADS

**Orange Salad**—Peel the oranges, slice them crossways, take out the seeds, and cover with a dressing made in the proportion of three spoonfuls of salad oil to one spoonful of lemon juice, and add salt and a dash of cayenne; flavor, if desired, with a little grated orange rind. Fine as accompaniment of cold pork or poultry.

**Egg and Cheese Salad**—Put slices of hard-boiled eggs in a dish, grate on nice cheese, add another layer of eggs, and so on alternately. Put a few capers and finely chopped pickles on top, pour

a mayonnaise dressing over all, and sprinkle grated cheese on top.

**Celery Salad**—Wash and wipe half a dozen heads of celery. Cut with shears in a salad bowl. Mix the yolk of one egg, one teaspoon of mustard, a little salt and pepper and the juice of two lemons with two tablespoons of water. Stir well together, drop over it three ounces of salad oil, then add a spoonful of hot water, and pour over the celery.

**Chicken Salad**—Take the meat from one cold boiled chicken, and two teacups celery; do not chop either, but cut each into dice, and mix. Put two teacups cream into a sauce pan and boil; stir in four eggs, well beaten, until it becomes like thick cornstarch; put the saucepan into cold water and stir on half a bottle of salad dressing; stirring to keep it from curdling; add vinegar to taste. When cold, pour over the chicken and celery.

Keep Minard's Liniment in the house.

Added reach means fewer blisters

The added length of MAPLE LEAF MATCHES means greater safety when lighting ranges, stoves or lanterns. They will not glow after use. They are not poisonous. Rats won't gnaw them. They withstand more moisture. They are Different and Better.

## A quality six-cylinder car for \$1395

There was a time when owning a six-cylinder automobile was a privilege confined to wealthy people.

But today, the Studebaker Light-Six, at \$1395, has made it possible for thousands of owners to enjoy the smoothness, the flexibility and the abundance of power inherent in a six-cylinder motor car of the highest quality.

Great financial resources; modern plant facilities; large scale production; and the complete manufacture of Studebaker cars in Studebaker's own factories—make possible a quality six-cylinder car, such as the Light-Six, at its price of \$1395.

The Studebaker Light-Six has not only brought six-cylinder performance within the price reach of thousands of people, but it has actually set new standards for motor car performance, comfort, economy and dependability.

We will consider it a pleasure to show you the Light-Six; demonstrate it—or let you drive it yourself. It represents the greatest accomplishment in Studebaker's 71 years of manufacturing experience. In fairness to yourself, you should see the Studebaker Light-Six before you buy any make of car.

HANTSPORT NOTES

The members of the Hantsport Women's Institute assembled at the home of Mrs. Asaph Newcombe on Friday afternoon for the purpose of holding their regular monthly business meeting.

The Rev. Dr. Bullock, Rector of the Anglican church, is visiting his son, Rev. Gerald Bullock, of Bridgewater.

Dr. McLeod, of Prince Albert, Sask., a recent graduate of McGill College, is the guest of Rev. Dr. and Mrs. Dickie.

Messrs. Angus McKinnon and Harold McKinnon, of Springhill, are guests of Mayor and Mrs. Murray.

Mr. and Mrs. John Cowan, of Montreal, are guests of Mrs. Cowan's mother, Mrs. J. M. Fisher.

Mrs. M. McNealy entertained the Ladies Auxiliary of the Presbyterian church on Wednesday afternoon.

Dr. and Mrs. Bishop and family, of Kentville, were recent guests of Mr. and Mrs. W. A. Bradshaw.

Mrs. Budd Riley left last week for Sydney, where she will spend the summer.

Mr. Ernest Davison, of the staff of the Prince Albert Collegiate, is home for the holidays.

Mr. W. Currie and daughter, Miss Doris Currie, who have been on a motor trip to the "Island" returned on Tuesday bringing with them Mr. Fred Currie and little daughter Ada and also a niece, Miss Linda Currie.

Mrs. B. Jordan, of Kentville, visited her friend Mrs. W. Fullerton recently.

The monthly business meeting of the Ladies Auxiliary of the Methodist church was held in the vestry on Thursday afternoon, when the usual routine of business was transacted.

Mrs. Geo. Dill and daughter Miss Georgie Dill, of Windsor, spent Wednesday in Hantsport calling on old acquaintances.

Mr. and Mrs. George Woolaver and family, of New Jersey, motored to Hantsport last week and are the guests of Mr. and Mrs. John Woolaver.

Miss Claire McDonald is enjoying a vacation with relatives in Moncton.

Mr. L. Charlton, electrical engineer for the D. A. R., with Mrs. Charlton and family, of Kentville, are occupying their pretty bungalow, "Avonside."

Mrs. Geo. Holmes and daughter, Miss May Holmes, are guests of Mrs. Holmes' sister, Mrs. Miller, Yarmouth.

Master Don Sealy, of Halifax, spent last week at the home of Mrs. Regina Masters.

Capt. B. Davison arrived from Boston on Tuesday and will spend a vacation of two months with his family here.

The Methodist Sunday School held their Annual Picnic at Oak Island on Wednesday.

Miss Mabel McConnell is visiting relatives in Pictou County.

Miss Thelma Conrad spent several days recently with friends in Mapleton.

Mr. A. Metzler arrived from Chicago last week.

Mr. Geo. Lawrence, of Truro, was the week end guest of his brother, J. W. Lawrence.

Miss Woodferne Davison, of Boston, is visiting her cousin Miss Phyllis Davison.

Mr. Arthur Gill is erecting a bungalow on Avon Street.

Capt. and Mrs. Nash and son, of New York, were recent guests of Mr. and Mrs. W. T. Shaw.

Mrs. Isaiiah Shaw, of Wolfville, was the guest of Mrs. J. E. Borden last week.

A number of young folks enjoyed an outing at Cameron Lake on Thursday.

Mrs. (Capt.) R. Taylor left on Saturday for Parrsboro where she will be the guest of relatives. She will also visit friends in Port Greville before returning home.

Miss Bailey, of Boston, is visiting Mrs. F. W. Cruikshank.

Mr. A. Welsh, of Parrsboro, spent several days last week at the home of Capt. and Mrs. Taylor.

The employees of C. J. Yeaton and Co. motored to Cameron Lake on Saturday.

The Barge Wildwood was on the blocks undergoing repairs last week.

Personal and Social

Mrs. Maude Abbott is spending a few weeks at Bedford.

Mr. and Mrs. W. O. Pulsifer left on Wednesday for Truro on a short vacation.

Mrs. Robena Shaw is visiting old friends and relatives at Hantsport, her former home.

Miss Sarah Eye left on Tuesday for Parrsboro to visit at the home of Mr. and Mrs. A. J. Mason.

Mrs. Frank W. Barteaux and daughter Zelma are visiting at Springfield and Bridgewater.

Dr. and Mrs. Findell, of Massachusetts, are visiting at the home of Mr. and Mrs. Frank W. Barteaux.

Miss Carrie Ruffee, of Bridgetown, is visiting at the home of her aunt, Mrs. Julia Ruffee, Gaspareau avenue.

Misses Mary and Frances Anthony, of Bridgetown, are the guests of Mr. and Mrs. Henry Ruffee.

Mrs. A. C. Starr, of Halifax, is visiting in town a guest at the home of Mr. and Mrs. A. C. Johnson.

Misses Elmira and Jessie Borden, of Hantsport, have been visiting at the home of Mrs. (Capt.) Lockhart, Acadia street.

Miss Clara Chisholm, of the office staff of Acadia University, is enjoying a well deserved vacation of a few weeks duration.

Mrs. F. L. Stephens and three sons, of Bedford, are visiting at the home of the former's parents, Rev. and Mrs. Noble Crandall.

Mrs. J. W. Smith and family, and Mrs. Angus Murray, left on Wednesday for Big Bras d'Or, C. B., where they will spend the remainder of the summer.

Miss Mabel Welsh, of the public school staff, left by the "Prince Albert" on Wednesday, to spend a few weeks at her home at Port Greville.

Mrs. D. H. Simpson left yesterday for Lawrenceton, Annapolis county, where she has purchased a new home. Her daughter Marion accompanied her.

Dr. C. E. Avery deWitt, who with his family is spending the summer at Deep Brook, was in town Saturday playing in the Wolfville-Kentville tennis tournament.

Mr. W. J. Boates and son Willie returned on Saturday from P. E. Island, where the former accompanied the remains of his father, Mr. T. J. Boates, to his last resting place.

Miss Thompson, of Brooklyn, N. Y., is visiting her sister, Mrs. Starr Fullerton. She motored from New York with the Misses Daly, Fyfe, Walsh and Mulhearn, who are making a tour of the Maritime Provinces.

Mrs. A. M. Russell, of Windsor, spent a week in Wolfville with her daughter, Mrs. Norman M. Foley, Willow Avenue. Her grandson Edward T. McManus, of St. Mary's College, Halifax, accompanied her.

Mrs. L. H. Field, Pasadena, Calif., spent a few days last week with her cousin, Rev. C. H. Martell, and Mrs. Martell. Mrs. Field will be better known as a daughter of the late Rev. A. Martell, a former resident of Wolfville.

Mr. and Mrs. W. B. Davidson, with the latter's mother, Mrs. Foster, and sister, Mrs. Burton and little daughter, have taken a cottage at Kingsport, where they are spending a few weeks. They expect to return on Sunday.

Rev. G. A. Martell, Ph. D., left on Wednesday morning for his home in Paso Robles, Calif., after a brief visit with his brother, Rev. C. H. Martell and Mrs. Martell, Highland Avenue. Dr. Martell recently attended the reunion of the 25th anniversary of his class at Harvard.

Miss Florence E. Davidson, who spent the past winter at Ware, Mass., with her sister, Mrs. Cox, and Miss Isabel D. Davidson, English teacher in the High School at Beverly, Mass., arrived at Wolfville on Friday of last week and are occupying their old home during the absence of Mr. and Mrs. Macpherson and family at their summer cottage.

Governor Channing H. Cox, of Massachusetts, Mrs. Cox and party, who have been spending the week in Nova Scotia, paid a visit to the Valley yesterday. The party came by special train and stopped for a short time at Grand Pre to view the Memorial Park. From Grand Pre they went to Kentville where they had lunch and enjoyed a motor drive in the afternoon. It is to be regretted that no chance was given for them to stop off at Wolfville, as our citizens would have been pleased to give them a welcome.

Mr. T. L. Harvey left on Monday on a trip to England. He expects to be gone about six weeks.

Mr. and Mrs. J. L. Crandall, of Malden, Mass., have been the guests of their niece Mrs. R. B. Blauvelt.

Rev. Dr. Patterson, president of Acadia University, will occupy the pulpit of the Waterville Baptist church circuit on Sunday.

Mr. Eugene Stackhouse returned home last Saturday from Halifax where he had been spending a week and undergoing a slight operation at Camp Hill Hospital.

Mrs. Stafford and Miss Seaman, of Amherst, were recent guests at the home of Mr. and Mrs. G. K. Prescott, Summer street. With their guests Mr. and Mrs. Prescott motored to Mahone Bay where the week end was pleasantly spent. The visitors left on Wednesday by the "Prince Albert."

Mr. Fred Russell, of this town, who has been in attendance at Harvard University, Cambridge, Mass., has just received his marks for the year's work. He made a first class average with high distinction in several subjects. We understand it is Mr. Russell's intention to continue his studies at Harvard next year, with a view to securing his degree.

WEST END WINS SERIES

First Series of Town Baseball League Finished—Second Series Starts Tonight

By defeating The Hill by the large score of 18 to 9 last Friday evening the West End won the first series of the Town Baseball League. The game was a poor exhibition errors being very numerous.

Ritchie struck out eleven men and Kenzie eight. The Hill took the lead in the first innings scoring four runs to their opponents three. However they were unable to keep the lead long as they did not score during the next two innings, while the West End added five more runs and clinched the game. The teams were as follows:

West End—Robinson, c; Boates, 3b; G. Rand, 2b; Dick, ss; M. Burgess, lf; McKenna, cf; Hansford, rf; Ritchie, p; F. Johnson, lb.

The Hill—Prescott, ss; Russell, 1b; Baird, rf; Langille, c; Kenzie, p; Regan, 3b; Ferris, lf; Williams, 2b; Welsh, cf.

On account of the rain on Monday the first game of the second series could not be played. It will be played tonight between the East End and The Hill, each of which is determined to win the second series.

YOUNG PEOPLE'S ACTIVITIES

The Boy Scout Camp at Sunken Lake is now in better shape than ever before.

A large diving platform and landing stage has been built and the boats and canoes are being repaired and painted.

This year all Guides, Cubs and Scouts who intend to go camping must purchase tickets before hand.

On account of the expense of keeping up the equipment and looking after the camp in general, which expense is borne by the Wolfville people, it has been decided that all those from outside of Wolfville who attend camp must pay \$1.00 extra towards this expense.

The Girl Guides under Miss Haley

and Miss Parry, go to camp on July 25th, returning August 4th. The Wolf Cubs, under the Scoutmaster with several assistants, will have their camp from August 6th to August 13th. The Boy Scouts go out on the 13th returning on the 20th.

The charge for the Guides will be \$5.50, for the Cubs and Scouts \$4.00. As stated above those from places outside Wolfville must pay \$1.00 extra. All tickets must be purchased before leaving Wolfville.

Remember your friends on their birthday by sending them one of our pretty Birthday Cards or Booklets. THE ACADIAN Store.

Automobile Owners and Campers

Here's an article you want, a heavy guaranteed pure wool rug, size 54 x 73 inches, beautifully finished, in shades of Brown and Green heather mix, with maroon stripe or Lovatt Mix with Royal Blue and Brown Stripes. Artistic in appearance, soft and fleecy, very serviceable, and the warmth and comfort will be satisfactory.

Price only \$5.00

This is wonderful value for the style and quality, and this price for a rug of such high quality is made possible only by the manufacturers turning out a large quantity, and both manufacturers and dealers figuring on a small profit, depending on a large turn over for the profit.

It's an ideal lap rug for a car and great for camping.

Come in and see this exceptional rug or we will mail a photo showing the style and stripe.

AVONPORT NEWS

Miss Madge Daniels is spending two weeks vacation at her home in Martock. Her place in the Post Office is being filled by her sister, Miss Isabel Daniels.

Miss Dorothy Curtis, of Halifax, is the guest of her cousin, Mr. A. B. Cox.

Mr. and Mrs. L. E. Shaw and family and Mr. and Mrs. J. A. Macpherson and family have moved from Wolfville and are occupying their summer cottages on the river-bank.

Mrs. Wm. Morris and Mrs. Union, of Mass., are guests of their cousin, Mr. A. B. Cox. Mrs. Morris will be remembered as Miss Grace Cox, a former resident of Avonport. Mr. Union and son arrived on Tuesday from Mass., having motored here, and are also guests of Mr. and Mrs. A. B. Cox.

Mrs. Geo. Pye, of Sheffield Mills, is spending a few days with her mother, Mrs. David Fuller.

Mrs. A. B. Cox and little daughter, accompanied by Mrs. Morris and Mrs. Union, of Mass., spent the week end in Middleton, guests of Mr. and Mrs. F. E. Cox.

HIS REASON

"Really, Bobby," said the teacher at a village school, "I am ashamed of you! Why do you come to school with your hair in such a state—why don't you brush it?" "I haven't got a brush," replied Bobby. "But you could use your father's," said the teacher. "He hasn't got one!" sighed Bobby. "Now get a hair brush—how is that?" cried the teacher. "He hasn't any hair!" said Bobby.

**Items Of Local Interest**

Mr. A. J. Mason, of Parrsboro, paid a short visit to Wolfville this week.

Dancing every Thursday evening, Community Hall, Wolfville. 4 piece Orchestra. Auspices Wolfville Band. Admission 75 cents. Refreshments.

Miss Edith Lynwood Winn, violinist, and Miss Bertha Wesselhoft Swift, teacher of voice, of Boston, will accept a limited number of pupils at Kentville and Wolfville during July and August. Highest References. Address at Kingsport, in care of Mrs. J. D. Clarke. 36-41

The Family Herald and Weekly Star for the balance 1923 for only 75 cents. This offer is good only until the end of this month and to new subscribers. Subscriptions left with H. P. Davidson, The Magazine Man, will receive prompt attention. Orders taken for all magazines.

It is understood that Mrs. Stafford and Miss Seaman, of Amherst, who recently visited Wolfville, have purchased from Mr. R. Creighton the place on Linden avenue where he now resides. The new owners will take possession on Oct. 1st, when Mr. and Mrs. Creighton occupy their new home on Seaview avenue.

The work of renovating and remodeling the Opera House, which has been in contemplation for some time, was begun by the new owner, Mr. Evans, yesterday. Extensive changes will be made during the next few weeks which will make it probably the most up-to-date and attractive theatre in the Valley, of which Wolfville may be justly proud.

Some people think that tea is too dear today, and as compared with what it used to be, no doubt it is. But is there anything else that people use that is not relatively as cheap? Think of being able to get a cup of MORSE'S TEA for less than one-third of a cent. A pound of MORSE'S standard tea costs 65 cents and there are 240 cups to a pound.

Conditions at the harbor front have been considerably improved since our last issue. The waste material, which had been left exposed in a half decayed state, was gathered up and burned on Saturday and fresh earth placed over the remains. So far as appearances are concerned much might yet be done, but on the whole a substantial improvement has been effected.

The final performance at the Opera House this summer was given this week. D. W. Griffith's wonderful production, "Orphans of the Storm", being presented on Monday, Tuesday and Wednesday evenings. There was a good attendance each performance and all thoroughly enjoyed the picture. There will be no more pictures shown at Wolfville until this fall, when the theatre will be reopened by Mr. Evans.

Some weeks ago the Evening Echo, of Halifax, offered a number of prizes to the young people of Nova Scotia under fifteen years of age in a competition for the best written paper on "The care of our birds". Considerable interest has been aroused of late concerning this subject as is evidenced by the fact that over two hundred and fifty papers were handed in. Mr. R. W. Tufts was selected to judge these and he found fully half these to possess real merit. A Wolfville girl, Miss Flora Patrinquin, daughter of Mr. and Mrs. C. A. Patrinquin, was accorded second place and a prize of five dollars.

**CANADA'S DEBT GROWS IN MONTH**

OTTAWA, July 11—The national debt of the Dominion continues to rise, although the war is over. The financial statement for June last shows an increase in the net debt of \$2,602,062 during the month. On June 30 the net debt amounted to \$2,409,000,572, as compared with \$2,406,399,510 on May 31. The increase in the net debt, when the debt figures of June 30, 1922, are compared with those for the present year, is \$11,589,657.

If you would like to look your best And feel you're really smartly dressed Just visit at "The Little Shop" They'll fit you out from toe to top.

**ENGAGEMENT ANNOUNCED**

Rev. and Mrs. A. H. Huntley, of Penticton, B. C., announce the engagement of their youngest daughter, Sylvia Grace, to Mr. Charles M. Haverstock, son of Mrs. and the late Rev. C. H. Haverstock, of Annapolis Valley, Nova Scotia. The wedding will take place on August 15th.

**AN INTERESTING WEDDING**

A nuptial event of unusual interest, in which two of Wolfville's most popular young people participated, was solemnized at the Baptist church at nine o'clock on Wednesday morning, when Mr. George Clyde Nowlan, barrister, and Miss Miriam Grace, youngest daughter of Mr. Robert O. Chisholm, were united in matrimony. The church was artistically decorated for the occasion with ferns and white flowers in Corinthian effect, and presented an exceedingly pretty appearance.

Rev. J. H. MacDonald, D. D., was the officiating clergyman, the double ring service being most effectively used. Before the ceremony Miss Evelyn Duncanson rendered "My World", a delightful vocal solo by Geehl, while Mr. D. D. Cameron presided at the organ. Misses Pauline Parry, Marjorie Wickwire, Marion Grant and Maurine Elderkin acted as ushers and the church was well filled by the friends and well wishers of the contracting parties.

The bride was attired in a charming gown of white konkora with the conventional veil and orange blossoms, and carried a bouquet of white carnations and bridal roses. She was attended by her sister, Miss Clara Chisholm, who was attired in blue and wore a black hat, her bouquet being of red carnations. Mr. Frank Blackett, of Halifax, a comrade overseas, attended the groom.

On leaving the church the bridal party was attended by a guard of honor composed of Girl Guides, who presented the bride, their first captain, with a handsome silver bread tray.

After the ceremony a delightful reception was held at the home of the parents of the bride, where relatives and intimate friends had an opportunity of tendering congratulations. Mr. and Mrs. Nowlan motored to Milford, where they will spend the first few weeks of their honeymoon, returning to Wolfville to reside.

**HOW NEWSPAPERS HELP**

The newspaper starts in When you are born; Relates about your excellence And tells about your sweetness. It follows you to school, And prints the honor roll If your name is found there. It tells of your graduation And speaks of the excellence Of your magnificent essay; It tells of your progress During your college career And then dilates much about The choice of your location. Then it gives a nice notice About your marriage And praises up the blushing bride Till her folks don't know her. Then, in due course of events, It tells about the bouncing baby That happens in your family— Thereby beginning its life work All over and over again. The newspaper does all this And it also does much more. It tells of the progress Made by the city and county And boosts all enterprises; Gives free advertising Worth thousands of dollars To its own home town. There are scads of things That all good newspapers do For which they cannot be paid. That is why every citizen Should do his very best To support the newspaper In every possible way And all the time.—Exchange.

"You've made a mistake in your paper!" said an indignant man, rushing up to the editor of the local paper. "I was one of the competitors in the boxing competition yesterday, and you called me the 'well known light-weight champion'." "Well, aren't you?" said the editor. "No, most certainly not; and its extremely awkward because, you see, I'm a coal dealer!"

An extension handle attached to the radiator drain cock lightens the task of draining the water supply.

NEWS OF KINGSPORT AND VICINITY

The S. S. pupils of Kingsport congregational church gave a delightful cantata, "Hearts of Gold", on Sunday evening, under the direction of Miss Juanita Loomer and Miss Emma Dickie.

More than thirty children representing various flowers, marched through the church, while Miss Juanita Loomer presided at the organ form around the Queen of Flowers, Miss Mildred Holmes, who was very beautiful on a throne of white, the little ones responded with suitable recitations as their flower names were called.

The program was a very delightful one and was added to by vocal duets by Miss Ruby Dickie and Miss Marian Nixon. The proceeds will be devoted to S. S. purposes.

Mr. H. Carty and family, Woodside, have moved to Medford and are occupying one of Mr. E. I. Loomer's houses.

Mr. Lloyd and family are occupying their summer home.

Mrs. Whitfield Coffin is being welcomed by the summer community.

Miss Iva Jess is visiting Mr. and Mrs. Otis Jess, Port Williams.

Mr. Edgar Hatfield, Parrsboro, is building a camp and will begin lumbering operations at Cape Split in a few days, about 20 men being engaged in the work.

Large schools of herring are seen in the Bay daily.

Mr. Cyrus Steele, who spent several months in New Hampshire, returned on Saturday to spend the summer with his parents, Mr. and Mrs. Oxley Steele.

Mrs. Fred Petrie, Mass., is visiting her brother, Mrs. Augusta Sanford, who is ill.

Miss Iva Jess is visiting Mr. and Mrs. Otis Jess, Port Williams.

**OUR HOMES**

King George, in an address delivered at an Anglican Convocation in the North of England some time ago, said, among many other things:  
 "The foundations of national glory are set in the homes of the people. They will only remain unshaken while the family life of our race and nation is strong, simple and pure."  
 That is quite as true in Canada as in Britain, and parents who lay stress on the attraction of home, and the teaching of principles by which the young lives should be guided through all the years, have great need to consider those words, "Strong, simple and pure". What are the teachings which lead to these virtues and where they are to be found?  
 More than ever it is necessary to place in schools copies of the law which imposes a penalty on the sellers of tobacco to a child under sixteen. Careful explanation by teachers of the reason should accompany these laws. The young should know that their country expects them to grow up strong and well, desires that they should be a valuable asset to that country, instead of a liability. Some day that sleepy Government will awaken to a realization of the wrong of having laws which are not enforced. In good homes the teaching—precept and example—should be sufficient to turn out fine citizens, but unfortunately teachers are expected to do so much which the Government neglects.—White Ribbon Tidings.

**JULY 20**  
 IT PROFITETH NOTHING:—Though I bestow all my goods to feed the poor, and though I give my body to be burned, and have not charity, it profiteth me nothing.—1 Corinthians 13:3.  
**JULY 21**  
 MAN'S BIRTHRIGHT:—Thou madest him to have dominion over the works of thy hands; thou hast put all things under his feet.—Psalms 8:6.  
**JULY 22**  
 STATE OF THE BLESSED:—There shall be no night there; and they need no candle, neither the light of the sun; for the Lord God giveth them light; and they shall reign for ever and ever.—Revelation 22:5.  
**JULY 23**  
 A BENEDICTION:—Be perfect, be of good comfort, be of one mind, live in peace; and the God of love and peace shall be with you.—2 Corinthians 13:11.  
**JULY 24**  
 THE WAY OF ESCAPE:—It shall come to pass in the day that the Lord shall give these rest from thy sorrow, and from thy fear, and from thy hard bondage wherein thou wast made to serve.—Isaiah 14:3.  
**JULY 25**  
 THY WILL, NOT MINE:—Teach me to do thy will; for thy art my God: thy spirit is good; lead me into the land of uprightness.—Psalm 143:10.  
**JULY 26**  
 EVERY DAY:—This is the day which the Lord hath made; we will rejoice and be glad in it.—Psalm 118:24.

**THINNING APPLES**

The reason for thinning the set of apples on a tree is to reduce the number of low grade apples. Inferior apples may be due to insect or fungus injury, over-production on a spur resulting in a lack of size and uniformity, or faulty pollination. The object of thinning therefore is to remove defective fruits and also some of those growing in clusters, so that the remaining apples will grow larger, of a greater uniformity and of a better colour. It is important to have a good set of fruit, but it is impossible in general to expect a tree with a heavy set of fruit to mature a high percentage of first grade apples. One often notices a heavily laden tree producing remarkably uniform apples, and this is possible on a very vigorous tree growing under favourable conditions. In most cases, however, if the set is good, thinning of the fruit is necessary if the No. 3 apples are largely to be eliminated, as they should be. There certainly is little if any profit in inferior fruit, and the expense of thinning is offset by not having this fruit to pick and handle.  
 Thinning is done about the middle of July in Nova Scotia, or soon after the drop of ineffectively pollinated apples has taken place. This drop very often thins the apples adequately—in some cases too much—making it unnecessary to remove any but the deformed or diseased fruits. The second or third week in July, when the apples are one-half to three-quarters of an inch in diameter, is as late as thinning should be done, for at this time the drop has been completed and the remaining apples are beginning to receive the benefit of this removal. If the set is heavy the apples should be thinned to only one in a cluster; or in extreme cases some clusters might be entirely removed. It is some times claimed that fruits should be at least four inches apart; some growers say six inches, and others contend that eight inches is close enough. Tests made on Ben Davis trees at Kentville show that 23 per cent of the apples were removed when the fruit was thinned to four inches apart, 22 per cent when thinned to one fruit to a cluster, and 36 per cent when thinned to six inches apart.  
 It is necessary to remove the fruit with a pair of small pruning shears made for that purpose. The work can be done rapidly and without any injury to the remaining fruit, which is impossible if the fruit is pulled off by hand. A light ladder such as is used for picking fruit is satisfactory. It is found that a fairly good job can be done in an hour on a tree likely to produce from eight to ten barrels.  
 One test made on Gravensteins with a heavy set of fruit gave results as follows:

Trees thinned	Trees not thinned
No. 1 70.1 per cent	42. per cent
No. 2 23.8 " "	38.65 " "
No. 3 5.6 " "	16.13 " "
Culls .5 " "	3.22 " "

From the above it will be seen that where the fruit is thinned, there is a great increase in the percentage of No. 1 fruit, many of the No. 2 apples going into that grade, and that the No. 3 apples are almost entirely eliminated. The fact that the No. 2 apples are raised to No. 1's accounts for the small loss in bulk from the thinning; in some cases no loss is evident. In the experiment outlined above the reduction in bulk was only 1.67 per cent. In the Ben Davis thinning experiments the No. 3 fruit was reduced by 18 per cent and the No. 1's and No. 2's increased 20 per cent. over those from similar trees not thinned. In Starks the No. 3's were reduced 12 per cent and the No. 1's and No. 2's increased 16 per cent. In Greenings the No. 3's were reduced 10 per cent and the No. 1's and No. 2's increased 15 per cent.  
 If thinning were to be generally practised much time would be saved in the handling of the crop on the farm and in the packing house, and any expense attached to the operation would be more than offset by this saving.  
 W. S. BLAIR, Superintendent,  
 Experimental Station, Kentville, N. S.

**BIG APPLE CROP EXPECTED**

A summary of the fruit prospects of the Dominion, issued by the Bureau of Statistics, shows an increased production of apples in British Columbia, Ontario, and Quebec, amounting to approximately 15 per cent. to 25 per cent. Ontario and British Columbia report heavy peach crops. Plums and prunes will equal the 1922 crop. Raspberries are reported as being light, while the production of strawberries will be in excess of 1922.

**MOWING HAY—TO PREVENT MOULD**

Any hay, no matter how dry it appears to be, contains a good deal of moisture. To prevent it from moulding, the mow must be built as carefully as though the hay was stacked in the open and had to be built so as to settle well for turning water.  
 If a mow of dry hay is put down in even layers and the middle is kept high and well tramped, it will go through an even sweat. The sweat or moisture will have a tendency to raise to the highest point in the centre of the mow, forming a wet spot. This wet spot should not be disturbed until the hay has cooled off.

**FRUIT GROWERS FIX PRICES**

VERNON, B. C., July 3—Better prices for fruit are already assured as a result of the operation of the Associated Growers of British Columbia, the recently organized co-operative of tree fruit growers. Contracts have been made with the canneries for peaches, apricots and early cherries at prices in advance of those received last year. The co-operative has also been able to make satisfactory arrangements with the jobbers and wholesale trade on the prairies for the selling of British Columbia fruit.  
 Ask for Minard's and take no other.

**PRINCE TO VISIT CANADA**

London, July 11—The Prince of Wales, it was learned today, intends to visit Canada in the autumn. He will go in a private capacity and will not accept official engagements during his stay.  
 The number of immigrants arriving in Canada during May was 17,766, an increase of 6,567 over that for the same month in 1922. The feature of this immigration was the marked increase in the arrivals from the British Isles and the continental countries. On the other hand, there was quite a slump in the arrivals from the United States, as compared with those for the same month last year.

**Shampoo This Way with Olive Oil**

and you will have hair with gleam and softness of silk

Olive oil for the shampoo, say leading hair specialists. Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair.  
 And this, specialists tell you, is why: Olive oil cleanses thoroughly but gently. It never leaves hair dry and brittle—robbed of the delicate gloss and sheen that means beauty.  
 It washes away all dirt and oil. Dissolves and removes clogging dandruff. It leaves hair fluffy and soft. But never dry, never dull. Pliant and shimmering as new silk, instead.

And this means beautiful, attractive hair—without which no beauty of face or dress is quite sufficient.  
 Olive oil treatment in its finest, most convenient form, is PALMOLIVE SHAMPOO. Thousands and thousands of women use it today. They find it most economical—for a treatment that costs a great deal when given by specialists.  
 You may have a 15c trial bottle free, by sending the coupon. Or you can get full-sized bottles at your dealer's. A single shampoo will amaze you.

**GOOD MONEY IN GOOD FARMING**

**"Let's Get to Work and Pay Off the Mortgage"**

**NINE** years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.  
 Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.  
 Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.  
**How Is It Done?**  
 Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods.  
 Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.  
 Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.  
**Crop Returns Should be Increased**  
 On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:  

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.09)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

 Similar results can be shown from the Dominion Experimental Farms in every province.  
 Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

# The Port Williams Acadian

## PORT WILLIAMS AND VICINITY

Mr. and Mrs. Kenneth MacNaughton, of Vancouver, B. C., are the guests of Mrs. MacNaughton's sister, Mrs. M. K. Ellis, at "Hope Farm". Mr. MacNaughton holds the responsible position of chief electrician on the Pacific liner "Russia" between Vancouver and Hong Kong.

Miss Dorothy Illsley returned last week from Sydney to spend her vacation with her parents, Mr. and Mrs. G. H. Illsley.

Mr. H. C. Childers and family, of Avonport, were the guests of Mrs. W. Y. Fullerton on Wednesday.

The Women's Institute held their regular meeting on Thursday last, on the lawn of Mrs. Geo. Starr. A large number attended and listened with much interest to the report of the delegates, Mrs. L. Woodworth and Mrs. Chas. Newcombe, who attended the convention at Truro. Mrs. Starr and Mrs. Chase, who were also to Truro supplemented the report with some interesting items. After the regular program of the meeting was over Miss Kathleen MacLean, of Wolfville, read Kipling's "The Explorer", responding to encores with two humorous selections. This was the first time she has read here, and her work was very much appreciated and enjoyed. At the close of the meeting delicious ice cream and cake were served. It was an ideal day and place for an out door meeting, the lawn and flowers, a picture of loveliness, contributing much to the enjoyment of the visitors.

Mr. Ira Gates is suffering from a lame back, the trouble originating from a wound received when over seas.

Mrs. Thos. Lingley, of Somerville, Mass., is visiting at the home of her brother, Mr. Isaac Lingley.

Mrs. Capt. Eldridge received the sad news one day last week of the death of her father, Mr. Harris Crosby.

Mrs. Skinner, accompanied by her two children, of Kentville, spent Wednesday with her sister, Mrs. Frank Balcom, Jr.

Miss Beatrice MacKenzie, of Cleveland, Ohio, has been visiting her brother, Mr. Chas. MacKenzie.

Mrs. MacLean, of Halifax, is the guest of Mrs. S. L. Gates.

## GREENWICH NEWS

The news of the death on Monday, July 9th of Mr. H. H. Marshall, Halifax, was received in Greenwich with sympathetic interest, he having been a resident of this place for over a year, although bed-ridden during the most of that time. He and Mrs. Marshall went from here about a year and half ago to Colorado Springs, and returned home to Halifax very recently. Friends here extend sympathy to Mrs. Marshall and family also to his sister, Miss Marshall, who has spent the last two summers in this place.

Annie and Kathleen Robertson, of North Kingston, arrived last Tuesday afternoon to spend a part of their vacation here at the home of their uncle and aunt, Mr. and Mrs. George Bishop.

The two little girls, with their little cousins and a few of their former school-girl friends were well entertained for the afternoon and tea last week, Mrs. Lewis Forsythe entertaining them on Wednesday afternoon, Mrs. George Bishop Thursday, Mrs. Howard Forsythe Friday, and Mrs. A. K. Forsythe on Saturday afternoon.

Mr. and Mrs. Ceryl Hiltz and two children, who are spending the summer in Kingsport were over night guests last Tuesday of Mr. and Mrs. A. K. Forsythe.

Miss Marion Bishop and Miss Marion Swin patronized and enjoyed the 15 cent tea, given by the Ladies Aid of Port Williams Baptist church at the home of Mr. and Mrs. Ralph Newcombe, of that place, last Wednesday afternoon.

Mrs. Edgar Forsythe and baby daughter, accompanied by Mrs. Forsythe's mother, Mrs. Roche, arrived home last Wednesday evening from a weeks visit at Hantsport and Burlington, Hants county, with relatives and friends.

Mrs. T. A. Pearson and daughter Annie are visiting for a few weeks at Bear River guests of Mr. and Mrs. Brenton L. Merry.

Mr. G. I. Fraser spent several days last week at Scotts Bay, at the home of his son.

Miss Marion Bishop returned home last Saturday morning from a two weeks visit in Amherst. She was accompanied by her friend Miss Marion Sutherland, who is now a guest at the home of her uncle and aunt, Mr. and Mrs. Edward Manning.

Mrs. Arthur Leslie, of Dartmouth, arrived Saturday evening and was a week-end guest of Mrs. Fred Forsythe, going on Monday to Aylesford to visit a few days at the home of her brother, Mr. William Brown, a former Greenwich resident.

John Andrew arrived home on midnight train Saturday and is visiting at the home of his uncle and aunt, Mr. and Mrs. Andrew Fenwick.

Mr. Chesley Forsythe, of Bridgetown motored through Saturday evening to spend the week end with his mother and brother, Mrs. Fred Forsythe and Ormond. On Sunday accompanied by them and his cousin Murray Forsythe, also Mrs. Leslie, he motored to Halifax and back.

Mr. T. Andrew Pearson and daughter Esther, accompanied by Mr. Grant Murphy left Saturday evening and motored through to Bear River returning Sunday evening.

Miss Georgie Miner, of Melanson, spent the week end guest of her friend, Mrs. George Bishop.

Congratulations to Mr. and Mrs. Edward Hennigar upon the arrival of their first baby, a son, last Sunday, July 15th.

## Questions and Answers —All About Canada—

READ UP  
ON THE  
COUNTRY  
YOU  
LIVE IN

### THE BATTLE OF CHIPPAWA

Q—When was the battle of Chippawa fought?  
A—The battle of Chippawa was fought on July 5, 1814. The invading army of Americans were entrenched at Chippawa Creek, above Niagara Falls. They had artillery and a strong position; but Riall, in command of the British and Canadians—made a reckless attack, in the open. Naturally he lost so heavily that he thought it best to retreat, in good order, to Queenston, while the enemy claimed the victory.

### QUEBEC PROVINCE

Q—What are some of the features of Quebec province?  
A—Quebec is the largest of the nine provinces of the Dominion, and for almost its entire length touches the banks of the St. Lawrence. To the south, Quebec is bounded by the United States and the Province of New Brunswick and Ontario. The north stretches to Hudson Strait, the eastern boundary is the narrow strip of Labrador coast, while Ontario and Hudson Bay form its western limit. Quebec City is the historic capital of the Province, while Montreal is the largest city and the commercial Metropolis of Canada, being exceeded only by New York. The population, roughly numbering 3,000,000 is about five-sixths French and one-sixth English speaking. The latter are principally found in Montreal and other cities and towns and in the eastern townships.

### INTERCOLONIAL RAILWAY

Q—When was the Intercolonial Railway opened?  
A—The Intercolonial Railway was opened on July 1, 1876. This was the second of Canada's great railway works. Our first railroad, the Grand Trunk, in 1850 had its lines from Lake Huron to the sea (at Portland, Maine) but not one of its branches touched the Maritime Provinces, and one big reason that induced Nova Scotia to consent to Confederation was the promise of a railway, for then 500 miles of wilderness lay between her and Quebec. So on July 1, 1876, the first trains ran from Montreal to St. John and Halifax.

### FUR FARMING IN CANADA

Q—What is the value of the fur farming in Canada?  
A—The total value of the pelts of fur bearing animals taken in the Dominion during the season of 1921-22 was \$17,438,800, an increase over the previous year of \$7,287,273 or 72 per cent and the number of pelts of all kinds was 4,366,790 and an increase over the previous season of 48 per cent. These figures, the Bureau points out, comprise pelts of animals taken by trappers and pelts of ranch bred animals.

### THE BANFF-WINDERMERE ROAD

Q—What and where is the Banff-Windermere Road?  
A—The Banff-Windermere Road is a remarkable motor road, opened in

June, 1923, between Banff and Windermere in the Canadian Rockies, completing the Canadian section of the Grand Circle tour which stretches up into Alberta for 6000 miles from California taking in ten American and Canadian National Parks.

### CANADA'S TOBACCO CROP

Q—What is Canada's tobacco crop?  
A—Canada's tobacco crop in 1922 was below the average quantity, though higher in value, viz. \$4,547,851.

### DIVORCE IN CANADA

Q—To what extent is divorce prevalent in Canada?  
A—Divorce is on the increase in Canada from 90 in 1918 to 544 in 1922.

### HALIBUT

Q—What is the value of the Halibut fisheries in Canada?  
A—The halibut is one of the valuable commercial fish of Canada, ranking fourth in value in 1922 of nearly \$3,000,000.

### CANADA'S EXEMPTIONS

Q—What do Canada's exemptions total?  
A—Canada's exemptions totalled \$1,021,051 in 1921, an increase of over \$200,000,000 in two years.

### THE NEW PREMIER OF ONTARIO

Q—Who is the new Premier of Ontario?  
A—The new premier of Ontario, resulting from the elections of June 23, 1923, is Hon. Howard Ferguson, formerly Minister of Lands and Forests, leader of the Conservative Opposition in the Legislature.

### CANADA'S MOTORS

Q—How many motor vehicles are there in Canada?  
A—Canada had in 1922, 514,000 motor vehicles, Ontario leading, Saskatchewan comes first in the number per capita.

### BRITISH COLUMBIA

Q—What are some of the chief features of British Columbia?  
A—British Columbia is one of the largest provinces in the Dominion and is known as the Pacific Province, owing to its western boundary being the Pacific Ocean. The climate of British Columbia as a whole presents all the conditions which are met with in European countries and on the coast is very much akin to that of the British Isles. Vancouver is the largest city and the largest Canadian port on the Pacific coast. Victoria, one of the most beautiful cities in the world, in the capital of the province. It is largely residential. Farming and fruit growing is carried on mainly in the valleys of the Central and Southern parts and on Vancouver Island, owing to the mountainous nature of the country. Mixed farming is proving extremely profitable because of the extensive market for farm produce and for fruit of every description. The fame of British Columbia as a fruit-growing country is world-wide. Large areas of pasture land make stock raising and dairying important industries, especially in the Cariboo districts in Central British Columbia.

### CANADA'S BUILDING ACTIVE

Canadian building statistics for the first half of 1923, show a steady expansion has occurred, month by month. Starting with the small total of \$9,840,000 in contracts awarded during January, the figures show a swiftly rising tide which culminates in the record for June. Ontario leads conspicuously, accounting

for more than 49 per cent. of the \$165,323,200 half-yearly Dominion total.

Haying is now in full swing, with an exceptionally heavy crop of excellent quality, in which there is said to be an unusually large amount of clover. Weather conditions being favorable the next few weeks will be a busy time for the farmers.

## TEN COMMANDMENTS FOR A TOWN

The following ten commandments adopted by an Illinois Chamber of Commerce might well be adopted by any community:

1. Thou shalt love thy home town above all other towns. Thou shalt be loyal to her people and her institutions.
2. Thou shalt guard thy home town from the hosts of evil that would invade and destroy her soul. Thou shalt keep the good name of thy home town clean and without stain or blemish.
3. Thou shalt elect as thy public servants men of strong character, eager to conserve the best interests of thy people. And when thou hast elected such men thou shalt stand to support and encourage them, for their temptations are many and burdens heavy.
4. Thou shalt exalt thy public school and honor it all the days of thy life with the best teachers, buildings and equipment, for the school is the cradle of the future. Thy children are here and they shall be the leaders of tomorrow. No training is too good for them and no preparation superfluous.
5. Thou shalt defend the health of thy home town from the death that lurks in the marshes, swamps and heaps of filth. Thou shalt exterminate the fly and the mosquito, for they carry typhoid and malaria. The tubercle bacillus shalt drive before thee, with the sun and fresh air as thy allies.
6. Thou shalt build good roads and keep them good. For by her roads is a town known for good or ill. "Eternal watchfulness" shall be thy motto that thy roads may not ravel, nor the supervisor forget thee.
7. Thou shalt keep thy home town beautiful. The hills, the trees, the waters that nature has given thee thou shalt preserve in sacred trust. No hovel shalt thou permit to disfigure them. Thou shalt keep thy house and dooryards clean and cheerful, thy waters shalt thou purify that they shall bring thee strength and life. The future of thy town shalt thou plan with care and diligence that thy

## BOXING THE COMPASS

Captain E. Landy, Commander of the Canadian Pacific liner "Melita" was at some pains to explain to one of his passengers the mysteries of the compass. Dick Anderson, the favoured traveller, was the youngest member of a party of boy immigrants from Dr. Barnardo's Homes. He has been received into the North Toronto Home and is in the process of being turned into a first class Canadian citizen and worker.

8. Thou shalt be a good neighbor to all who live in thy home town, whether they be rich or poor.
9. Thou shalt speak ill of no one and good of many. Thou shalt be a friend to strangers and a visitor to the sick in their affliction.
10. Thou shalt be a good neighbor to all who live in thy home town, whether they be rich or poor.

Mr. Henry Harris and his mother, with a party of friends, motored to Hantsport on Monday, visiting relatives there.

Souvenir folders, containing sixteen pictures of Wolfville and vicinity, on sale at THE ACADIAN Store. Price only 20 cents.

## GEORGE A. CHASE PORT WILLIAMS

## ELECTRIC HOUSE PUMPS

### Self Oiling

If you have Electricity it is unnecessary to labor with hand pumps. You can have city water supply in your own house. We have an outfit for every service and will guarantee you every satisfaction. Write for catalogue.

## Power Sprayers

I am still selling this line. I will buy good second hand Sprayers. The demand is strong. But I prefer selling the new goods which I have on hand. Am in a position to Repair all Sprayers. DO NOT LEAVE IT TOO LATE.

## STEEL HANDY WAGONS

for Farm purposes. 4 and 5 inch tires. These have just arrived, and I can quote you manufacturers prices.

Rubber Hose, Belting, Sheet Rubber, Automobile Tires and Tubes, Wagon Tires all sizes, in fact everything in Rubber.
