ROIL'S Appeal to Citizens!

It is a recognized principle that Government derives its authority from Society of which it is Agent. During my canvass of the city it is deplorable to find that this principle is entirely lost sight of and there is substituted in its stead Narrow Sectarianism

lost sight of and there is substituted in its stead Narrow Sectarianism.

The question of the religious persuasion of the church in which a Candidate worships, with many I regret to state is the deciding factor in their choice of candidates.

Why this narrow, intolerant spirit should exist is difficult to understand; that it does exist is beyond question.

When our soldier lads offered their lives for a principle, the question "which altar they bent their knee" was never raised; all went forth to do their duty.

Is it not possible for us to emulate the spirit of those brave lads? We can if we will make up our minds to do it, but unfortunately many will not aim to this heighth.

Government to be either lasting or strong must be founded upon independence of mind and conduct among the people. If you desire the incoming Council to be representative of the independent mind and thought, the sectarian bias and religious intolerance must be buried.

The Polling Booth is the place where the battle must be fought against this narrow sectarianism.

Citizens, in casting your vote let you be animated by the principle that Government is instituted for the common benefit of all, irrespective of creed or class.

In this contest I know nor care not what a voter's creed is; I solicit his vote and support as a citizen and not as a member of any creed or church. You can aid the cause of good citizenship, and respect and toleration for all creeds and classes by voting for

Loss of the Brig "Experiment."

CAPTAIN, MATE and FOUR OF CREW DROWNED.

The following melancholy intelligence of the death of Capt. R. Bransfield, master of the brig "Experiment," and son of Mr. Richard Bransfield of Cocker's Cove, has been received by Robert Pack, Esq., Carbonear:-

Poole, Oct. 18th, 1836. We are sorry to inform you that yesterday the brig "Experiment" of and from Carbonear, Nfid., R. Bransfield, master, laden with oil and fish bound to Poole, was brought into St. Mary's by three or four pilot boats which fell in with her in the morning to the southward of the island with loss of mainmast and foretopmast with all the sails, rigging etc., thereto belonging, the said vessel being on the evening of Wednesday last, been struck by a heavy sea whilst laying to, which threw her on her beam ends, when she instantly filled with water, through the companion and fore hatch or scuttle, by which means the master and mate, who were in the cabin, and four of the crew were drowned. Three men were saved by getting on the foretop, the vessel having righted aftter the masts were carried away, and floated with her deck level with or rather under water. She is not at St. Mary's pier, and the water having been got out of her this morning, the bodies of the master, mate and seaman, have been found in the cabin and forecastle, and we shall get them buried here as soon as possible. The following are the names of the saved, Abram Snelgrove, Henry Rogers and George Barfoot. - From Conception Bay Mercury, Dec. 16,

History of the Royal Nild. Regiment,

CALLED "THE FIRST FIVE HUNDRED."

This Book will quite probably not be available after Christmas. It has been on the market only 5 weeks and more than half the total publication has been sold Many people who really want this book will want to put off getting it until some future date.

There has been only a limited number published, and at the rate these are selling there will not be a copy available by New Year's Day.

Many boys look forward to Christmas time with the hope that they may be able to add one or two good, worth-while books to their small collections. Give your boy or brother a thoroughly Newfoundland book this time that he will always prize highly.

Many people will want to send something representative of Newfoundland to friends in England. Scotland, the States, Canada, and other places. As a Christmas gift nothing that you could send would be prized as highly as a copy of this book, telling wha Newfoundland's Sons did in the Great War.

Returned men will want a copy of the History that they helped to make. As years go by it will have in creasing value for them and their children. This book is available now; it will not be available after New

THE LITTLE FELLOW TAKES GREAT PRIDE IN HIS NEW JOB.

Fishermen! Here's the Boot for You-"Excel"

"EXCEL" Made 'All in One Piece'

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen how salt water seems to take the life out of rubber and how the uppers crack and the soles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets. The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the dryingout action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wear-proof, because they are made like an Auto Tire, with plies of rubber and fabric welded by tremendous pressure into a "tire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots. The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of

PARKER & MONROE, LIMITED, Distributors

strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study fais picture. Learn these features. Remember then when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained. "EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

To the Electors of St. John's. LADIES AND GENTLEMEN, --

Having been pressed by numerous friends to enter the Municipal contest, I have decided to offer myself as a Candidate in the forthcoming Election. The outstanding features of my policy will be the conservation of the Taxpayer, and amongst thte necessary improvements which I intend advocating will be the inauguration of a Public Market Place and the extension of the Street Car Service to the Higher Levels

TAXATION HAS REACHED THE LIMIT. If this is to be a place fit to call home, we must call a halt and get back to the simple life. Instead of looking for more sources of taxation to worry and harrass the already overburdened Taxpayer, my frank and honest conviction is, if Council work was put out to tender and contracted for, there would be ample funds for all our needs if public monies were conserved and not played fast and loose with. We have a huge city debt, and our duty is to see that it is not increased but reduced. Our slogan must be ECONOMIZE.

PUBLIC MARKET PLACE FOR ST. JOHN'S

A NECESSITY.

It is obvious to all who have visited any country outside Newfoundland the great blessing it confers on producer and consumer alike. Beside, the Town or City which posses such has a valuable asset. In Towns in England, Ireland and Scotland, where the population is from 10,000 to about 15 or 20,000, you find a weekly market, and in larger ones a daily one. It would encourage the producer to increased production, lower the cost of living to the consumer, The money that would change hands would go into the shops and stores.

Market Day would be our Red Letter Day.

The development of Agriculture would be encouraged. Tens of thousands of acres of valuable land now lying waste would be tilled. Idle lands like idle hands are a curse to any country. In 1898 the late Hon. E. M. ckman got a Government grant of Ten thousand dollars for the above purpose. With accrued in there is available about \$20,000 (now in Bank). HIS DIARY. December 12th.—About three o'clock this morning I waked with the noise of the rayne, having never in my life heard a more violent shower, and all the day it staid so, and there was a foul wind whereby I was often nearly blown off my feet. By and by to Sir Richard Squires, to talk with him about what will happen when the House opens, and he tells me how he is doing better with his revenue than he did estimate. At noon, to Mr. H. D. Reid, there to get news of the Humber proposition, but had little success. Mr. Reid told me how he was even now, preparing to write the Government on the matter. To Water Street, and there meeting Mr. Baird, he told me how the outports do still contribute to the fund for the War Memorial. To the Colonial Building, and there find great expectations what the Parliament will do. But, the House opening after the long adjournment, great was the surprise, when Sir Richard Squires, in the middle of his discourse, was interrupted by Black Rod, who did inform the members how the Governor did await them in the Council Chambers. To which, Sir Michaeel Cashin answered with great temper, and did even protest to His Excellency, but to no avail, and the House was prorogued. Meeting Bagge, I did make haste to tell him of it, and he greatly amused thereat, it being a most humourous thing. At night, my wife read the Telegram news sheet to me, and I find it a very excellent thing -worth reading, and its editor and scribes to be very wise men.
