LADY LAURA'S RELEASE

THE STORY OF A SPOILED BEAUTY.

CHAPTER XL.

All that day Angela was debating in her mind—was she right or wrong in her suspicions of the captain? If they were well founded in what deadly danger she stood! Her thoughts travelled back over every detail of the meeting in the library—his abject terror, his involuntary exclamation, his plausible statement, and the evident anxiety he had displayed that no trace of what was spilled should remain on the library carpet. The incident was full of suspicion, and she could not help the feeling that in some way or other she had had a narrow escape.

On Tuesday evening she found on her toilet table the "silent message"—a glass filled with fresh violets—and she knew, as Jane Felspar had expressed it, that the way lay straight before her, that early the next morning she must leave the dear old home, which was no longer a place of safety for her.

CHAPTER XLIII.

Friday morning broke calm and beautiful. April was drawing to a close; there was a faint gleam of gold from the laburnum, a faint shimmer of purple from the lilac, and the hedges gave promise to a profusion of fragrant may.

Captain Wynyard came down early and seemed very impatient for the arrival of the letter-bag. His face was sullen, his eyes were troubled, and at times he was so engrossed in his own thoughts that he saw or heard nothing of what was passing around him. He looked miserable. It happened that no visitors were staying just then in the house, and the captain had to breakfast alone.

Bottled Relief
Is the title thousands of people have given to SLOAN'S LINIMENT. It is unequalled as a counter-irritant. Its beneficial and soothing effect when applied to any painful part is immediate. It is highly effective in relieving pain caused by sprains and strains and will soothe and cool the inflamed parts. It is the only liniment that can be used on the face and neck. It is the only liniment that can be used on the face and neck. It is the only liniment that can be used on the face and neck.

shall be well taken care of—I shall be under safe shelter; but all the time I am absent my thoughts, my heart, and my love will be with you. Mamma, when you know why I left home, you will understand, and say that I acted wisely. You must forgive me, darling, because I do not say more at present. You will trust me because I have never until now kept one thought from you, and I grieve with my whole heart that I cannot tell you the whole truth now. Good-bye, mamma, my darling! My heart will be with you until I see your dear face again. I said good-bye to you in my heart last night when I kissed you. I say it again, praying Heaven it may not be long before I return to you."

The captain's face grew even more ghastly as he read the letter. He laid it down on the table, and, looking at his wife, asked: "What does it mean?" "I do not know," she answered. "That is what I have come to ask you. What does it mean? Where is my daughter gone? Have you quarreled with her? Have you grieved or struck her? I hope Heaven will pardon me if I misjudge you, Vance; but I feel sure that you have something to do with her going away."

"You were never more mistaken in your life," he cried angrily. "I know no more about the cause of her departure than you do. I have heard nothing to lead me to suspect that she contemplated such a thing; and you cannot be more surprised than I am, or more astonished. What in the world has she done it for? What does it mean? Laura," he concluded, "you must know something about it."

"I do not indeed," she declared emphatically; "that is the reason I sought you. I thought you must know. I feared that there had been some words, some misunderstanding, between you."

"And I know less about it than yourself!" It is incredible to me that a girl of her age, who has been all her life under guardianship, should dare to leave home alone. Whether can she have gone? She knows no one. I am completely puzzled."

"The one great mystery to me is why she went, what drove her away from home."

She looked at the captain as she uttered the words, "what drove her away from home." She noted his livid face, the great fear in his eyes, the trembling of his hands.

"Vance," she cried, suddenly, "you are in a state of fear!"

"How ridiculous, Laura!" he returned, quickly. "But I confess I am startled. I never dreamed of such a thing happening. She has surely not gone alone!"

"She has indeed," said her ladyship, the conviction growing upon her that her husband was in some way to blame for the occurrence.

"After a brief pause the captain began to rally. A faint show of color crept into his lips and cheeks; the deadly terror had passed. He had time to ask himself whether Angela had gone in consequence of something she had discovered concerning him. He decided that it would not be so, for in that case she would have left some written record against him.

"There is one thing quite certain," he said at last. "She has acted foolishly, absurdly, and ridiculously. If there was anything unpleasant, why did she not complain to you or to me? Why has she gone amongst strangers? You have pleased yourself in the matter of training her, Laura. I can only say that, if she were my daughter, I would make her come back, and confine her to her room with bread and water for a week."

(To be continued.)

"MY DARLING MAMMA—Only Heaven knows how full my heart is of desperate, bitter pain as I write this to you. I am going away from home for a time; I cannot tell you why or whither. I have a very strong and urgent reason for the step I am taking, but it is one I cannot explain to you. Do not grieve for me; I shall be safe and well. I shall be happy in every respect, except in leaving you. It will seem to you that I am acting strangely, but I have no other resource.

A POPULAR STYLE FOR SLENDER AND MATURE FIGURES.

4307. Linen and checked gingham are combined in this model. One could have wool jersey with plaid or checked taffeta or woolen for contrast. Braid and embroidery too, are pleasing for decoration. The pattern is cut in 7 sizes: 34, 36, 38, 40, 42, 44 and 46 inches bust measure. A 38 inch size requires 4 1/2 yards of 40 inch material. The trim as illustrated requires 1/2 yard of contrasting material. The width of the skirt at the foot is 3 1/4 yards. Pattern mailed to any address on receipt of 10c. in silver or stamps.

SIMPLICITY AND GOOD TASTE COMBINED.

4305. Here is a model that has attractive features, and is without compromise. Figured and plain crepe, or the same combination in voile or foulard, or linen and gingham could be used for this style. The pattern is cut in 3 sizes: 16, 18 and 20 years. To make this style for an 18 year size will require 4 1/2 yards of 32 inch material. The width at the foot is 3 1/4 yards. To make the waist and sleeves of contrasting material requires 2 1/4 yards of 32 inches wide. Pattern mailed to any address on receipt of 10c. in silver or stamps.

Just Folks.

By EDGAR A. GUEST.

ABE LINCOLN.

Bill and Jim drove into town on a pleasant summer day. Puffed their pipes and talked of things in a friendly sort of way. A case talked of crops and politics, neighbors and the price of nails. Then, as they were loitering on, passed a fellow splashing rain. "Who's that yonder, Bill?" says Jim. "I don't seem to know his face." "That's Abe Lincoln," answered Bill. "got a shabby sort of place."

Lawsuit going on one day, Bill and Jim had time to spare. Dropped into the court awhile, found most all their neighbours there. "Moonlight night," one witness said, "prisoner's chances mighty small. Till his lawyer rose and proved there wasn't any moon at all."

Moral of it isn't much. Greatness may be round about from day to day men are slow to find it out. Those who saw him splashing rain, those who heard him splashing rain. Passed him by with little thought, laughing at his homely face; Those who neighbored with the boy, those who saw his summer tan, Those who lived in Lincoln's time, never really knew the man.

Fads and Fashions.

An upturned brim is often slashed at the side.

There is a decided vogue for white sports wear.

Sports suits of jersey have charming short jackets.

Straw ribbons are a novelty in millinery trimming.

A great deal of black satin is used with black lace.

Black is creeping into favor again especially for evening.

White embroidered taffets is a favorite at Palm Beach.

Blue and red cretonne trims a coat dress of navy reps.

A coat of plaid camel's hair is smartly trimmed in leather.

Fluted ribbons and tucks are important dress trimming notes.

Very narrow pipings in dull red are used on a frock of black crepe.

Gray will undoubtedly be one of the most popular colors for spring.

Fuchsia crepe makes an effective giraffe for a frock of gray silk lace.

Bronze embroidery and deep blue beading is effective on green crepe.

Novel tuck arrangements are used on capes of silk cut quite full.

A knife-pleated cape of fawn-colored crepe is collared with caracul.

Printed crepes and all materials with shiny surfaces will be good for spring.

The Egyptian influence makes itself felt even in the new printed ratings.

A cut-out trimming of bright blue leather is effective on a black crepe costume.

A novel sports coat of mohair fastens with six buttons, placed very low.

The black hat seems to be holding its place this spring among a riot of colors.

Fine pleats are used in the skirt flounces and short sleeves of a printed silk frock.

Both the Eton treatment and the long coat line are favored in spring suit styles.

Burns feathers lace and ostrich are used on Milan hats in brown and beige tones.

Rows of cording are the only trimming used on a suit of Peiret twill in gray.

A shawl collar of soft seru lace is used on an oak-colored frock of Canton crepe.

Black glycerine ostrich trims a close-fitting hat of black Milan with a turned-up brim.

Appliqued strips of self-material are used on a three piece costume of putty twill fabric.

Very coarse flit filled in with hard darning in colored thread is a new sweater note.

DISTURBANCE AND LOSS OF LIFE IN ROUMANIA.

Conan Doyle and the Late Lord Carnarvon. —Disease Epidemic in Constantinople.—Tornado in New Orleans Causes Death and Destruction.

CRITICAL SITUATION IN RUMANIA
PARIS, April 5.
A Havas despatch from Bucharest says the situation in Rumania is very critical throughout the country and the agitation continues by the Government which is resorting to a great display of military force to prevent manifestations. Disturbances have continued with loss of life and persons wounded in Czernowitz and Jassy. The despatch adds Kind Ferdinand has sanctioned the new Con-

stitution but that it is reported he has refused to take the oath again.
CLUETT'S CREW AT HALIFAX
HALIFAX, April 5.
The United States ice patrol cutter Tampa arrived to-day with the rescued crew of the Mtd. schr. Vita M. Cluett. The crew were taken off the vessel which was sinking when the Cluett was four hundred and eighty miles south of Cape Race. All the men were well on arrival here except Louis Miller

who had taken ill when seven days out from Oporto. He was taken to Hospital. The men are Capt. J. H. Cluett, J. Buffet, mate; Wilson Evans cook; John Dodge, Charles Bragden, and Louis Miller, seamen.

CONAN DOYLE ON ELEMENTALS.
NEW YORK, April 5.
Sir Arthur Conan Doyle to-day expressed his belief that "an evil elemental," brought into being by Egyptian occultism or the spirit of Tut-enkhamen, might have caused the death of Lord Carnarvon. "The Egyptian knew a great deal more about these things than we do, and if they could put these elementals on guard over their dead bodies they certainly would have done so. An elemental is a built up artificial thing, an imbedded force which may be brought about by a spirit mind or by nature. It exists of itself for a specific purpose and is not pre-created. We know very little about them but we have had evidence of their existence especially in regards to the Egyptians. There was once a mummy in the British Museum which we believe was guarded by one of these elementals, for everyone who came in contact with it came to grief. I know the Egyptians know a lot about spiritism, all Easterners did. It is in communication with them often. Wise old Eastern spirits our spiritual guides; in fact I got advice from him on spiritual matters. I never consult him on material things. He says he often helps me without my knowing it. He lived three or four thousand years ago in Arabia and was a man high in his country." Sir Arthur added smiling: "You know a great many people have dug into graves without anything happening to them and I'm inclined to believe that by now old King Tut's spirit is far enough away not to care 'tuppence what happens to his old bones."

CECIL ON THE LEAGUE.
NEW YORK, April 5.
Members of the League of Nations would be willing to withdraw article ten of the Covenant League, if that were the only objection to United States co-operation. Lord Robert Cecil, British proponent of the League, declared in an address here before the League of Nations non-Partisan Association. Provision must be made, he declared, for submission for discussion to the Assembly of the League of any Treaty which proved un-

desirable or likely to disturb the peace of the world.

MONTREAL, April 5.
Those who are familiar with the St. Lawrence predict that ice on the river will break up in two weeks, (time which, while later than usual, will have no bearing on the first ship arrivals, the earliest of which is not due until the end of the month, leaving a week or ten days clear water before the first ship sails up the river.

LADY NORTHCLIFFE NOW LADY HUDSON.
LONDON, April 5.
Lord Northcliffe died on August 14, and, it is understood, his dying wish was that his widow might marry Sir Robert Hudson, if anybody. The newly married pair started for Italy on their honeymoon immediately after the ceremony which was celebrated at the Chapel of Hartlebury Castle, the episcopal residence of the Bishop of Worcester, who officiated.

Farewell Party.
Miss Mame Hamilton of Saunders' Place, who is leaving shortly for Boston, entertained a number of young friends to a farewell party at her home last night. Songs and dancing were engaged in until an early hour this morning. At supper the best wishes of the gathering were tendered Miss Hamilton, and the hope was expressed that she will have a most pleasant stay in the land of Uncle Sam.

"I Now Feel Fine"
Mrs. F. G. Murdoch, Box 433, Portage la Prairie, Man., writes:
"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I used Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

Municipal Council

WEEKLY MEETING.
The weekly meeting of the Municipal Council was held yesterday afternoon. Mayor Cook presided, and Councillors Martin, Collier, Ryan and Dowden were present. The preliminary business being disposed of, the following matters received consideration.

Inspector General Hutchings stated he had no object to permit being granted the Red Taxi Co. to install gasoline tank at their garage, Prescott Street.

McGrath and McGrath called attention to the condition of Irwin's Hill, stating that in its present state it was unsafe for horses. The matter has already received the attention of the Board's Department.

Solicitor Carter advised no liability on the part of the Council, with regard to J. Burnstein's claim for loss of dog.

The City Health Officer reported 74 cases of Scarlet Fever in the city during the past week, 70 of which were at Belvidere Orphanage. He stated that the cases were of a very mild type, and special arrangements were made for a temporary hospital at the Institution; a number of nurses being employed, and everything possible being done to cope with the situation.

Permit will be given F. M. O'Leary to erect bill board, Clapp's property, subject to the approval of the City Engineer.

Permission was also given the Liberal Reform Committee to erect door sign at their Committee Rooms, Empire Hall, King's Road.

During the past week, Mayor Cook received a communication from the Secretary of the Hudson Bay Tourist Syndicate, intimating that a party of 300 tourists will be leaving Montreal on August 1st for Fort Churchill, Hudson Bay, and that it is their intention to visit St. John's on the return journey. The Secretary of the Syndicate, Mr. Thomas, stated the company would consist of representatives of the best financial, educational and social circles of Canada and the United States. He further stated that he was compiling a handbook for distribution, and would be glad of literature, views or other advertising matter pertaining to our city and island.

The Mayor some weeks ago replying to a previous letter in connection with the matter assured Mr. Thomas that everything would be done to make their stay as pleasant and as interesting as possible and he has already forwarded the views and literature requested. A cable to this effect was ordered to be sent immediately.

April 5th, 1923.

During the past week notices were served on many citizens, giving them until the 26th of the present month in which to pay their taxes. All amounts unpaid at this date will be placed in the hands of the Solicitor.

Orders were given the Sanitary Supervisor to immediately proceed to have the men use the street sweeping broom on Water, Duckworth and New Gower Streets, so as to have these thoroughfares cleaned up.

The following plans were passed, subject to the approval of the City Engineer:—(Dwellings)—Sergt. Peet, corner Livingstone St. and Long's Hill; Arthur Wood, corner New Gower and Cuddihy Streets. (Extension)—Daniel Foley, Macklin Place.

For some time past, complaint has been made that the pump, Battery Road, was out of order. The City Engineer was instructed to have a new pump installed immediately.

Reports of the City Engineer, Sanitary Supervisor, Road Inspectors, etc. were tabled. Several other routine matters were disposed of. Accounts for week were ordered paid. The meeting then adjourned.

The Cold Shivers.
FOR THE COAKERITES IN ST. JOHN'S WEST.
Editor Evening Telegram.
Dear Sir.—Returning to my home on New Gower Street last night, I met a couple of my acquaintances returning from a Coakerite pow-wow at their meeting rooms. Without venturing myself on a discussion of politics they voluntarily admitted to me they were going home in disgust with the cold shivers all over them, so hopeless seemed to be the chances of Squires getting anyway near a look in, in St. John's West. Hopeless, without a doubt, they viewed the chances of his two colleagues, and then finally they admitted to me it will be an easy win for CASHIN, LINEGAR and HUNT. This is only an example of the strength of the sentiment in favour of the BENNETT party, and of the great desire in St. John's West for a change from the gloomy times of Coakerite to the

Coaker and Squires must go.

Great news from every district.

Squires himself will be defeated by more than six hundred votes.

He refused to attend the opening meeting of the three "Boes" in the Empire Hall last night.

It was never the intention of the Prime Minister to send a team to St. John's East to be elected.

In his wildest dreams he could not hope for such.

He just merely filled the District.

That Higgins, Fox and Vintcombe will establish a record vote is admitted by all.

So much for St. John's East.

Cashin and Linegar are as good as elected.

Back to Morris's majorities in favor of the Bennett candidates is the verdict.

Squires defeated and his Government snowed under will be the answer on polling day.

Hear all three tell the fishermen how Coaker's principles of compulsory control will wipe them all out of existence; kill out the fisheries and ruin their homes and fishing property.

Hear all three repeat for the laborers, Coaker's trade they were but "drunked bums and loafers."

Hear them tell the tradesmen how Coaker's threat to make the grass grow on Water Street with the killing out of local industries is so conducive to their welfare.

Poor old Terra Nova—land of historic misfortunes; nearly four years of misery under a Squires-Coaker Government; the hardest winter on record as if the very elements themselves resented the gang of misleaders, a poor seafarer and then to add to the agony, Mr. P. Gibbs and son making speeches dictating how the West End voters should cast their votes.

The Humber Deal guns are so spiked by the Bennett Party that their splutterings are now useless, whilst it is disastrous for them to use any Coaker artillery because their weapons have such a kick and a boomerang shape, that to use them would only be the means of injuring their own ranks and of causing many of their followers to run from self-inflicted danger to neutral ground or that of the Bennett Party.

Now altogether for the grand victory.

All of Bennett's men are in the field.

And everyone is saying.

Bennett and Better Times.

TO BEWOP.

All the bouquets you are throwing, in the Mail with all your power will but make the West End voters with their ballots overshoot.

Out of sight the Coaker cronies that you're squealing now about, squealing like a rat that's drowning, or as if you had the gout.

All the brickbats you are hurling, at Sir Michael Cashin's name, will all surely rebound on you with a "power" like your name.

For the West End voters, mark it, will not stand your nasty slurs. More belittling debased reasons far beneath the meanest curs.

You may think yourself quite clever, but the "power" of your pen, will be weighed far less by voters than if wedded by a hen.

Rather on such heads as yours is must your deeds recoil some day.

As they surely did to others who your peculiar game did play.

Chopped raisins or nuts are nice in oatmeal bread.

Cheese straws are appreciated with a fruit salad.

Cress makes a delicious garnish for scrambled eggs.

A fruit sauce is nice served with chocolate blancmange.

The Landslide Coming

The Flowing Tide Is For Bennett And Better Times.

Reports reaching the city from all sections of the country indicate the general feeling is for a change of Government. The West Coast is practically solid. All the Southern districts will roll up big majorities for a change of Government. The Squires-Coaker crowd admit that St. John's has gone from them and that the people will not agree to re-elect a party so false to its promises as the Squires-Coaker outfit. Conception Bay will send back a solid nine for the Bennett Party and in the North Coaker's weakness is daily becoming more apparent. At the last election Squires and Coaker were able to fool the public by the promises they made because nobody believed for a moment that they would be so heartless and dishonest as to repudiate every plank in their platform and shamelessly abandon any attempt to give effect to these undertakings, but now the people have got wise; they have learned their lesson and they pay no more attention to the shouts and shrieks of the Squires-Coaker party than they do to the winds that whistle round us every night. The people read Coaker's ravings from day to day, as his circulars to his unions are published by the Opposition papers, and they recognize that this man is a colossal joke and no longer to be taken seriously. They know, too, that apart from Coaker's support Squires has nothing of himself on which to rely; that he has no following, no prospects, and that even if he were elected he would be absolutely at Coaker's mercy as he has been the past three years. They see Coaker standing one night, in an attempt to get the votes of some people in Green Bay, that the Government is going to sell Labrador to Canada and use the money to pay off the national debt. Then they see him a few days later, frightened by the promise of Mr. Bennett to provide a bonus for fish, throwing overboard that plan and announcing that the money from the sale of Labrador is to be used to give a perpetual bounty for fish and then they ask why should Labrador be sold at all, especially now when, with the prospect of gold in that country bringing thousands of men to the region, its worth to us in the future should be hundreds, if not thousands of millions of dollars. People are asking themselves to-day if it is not a monstrous outrage on this country to talk of selling Labrador at the present time when a Canadian mining speculator is informing the Board of Trade at North Sydney that 5,000 men and 10,000 tons of freight are being sent to Labrador this summer by his Company alone, and that many other Companies are being formed to do the same thing. People are asking, and with good reason, why attempt to sell Labrador now? Why not hold on to this territory and use for the benefit of the people of Newfoundland all the advantages it possesses. For these reasons the electors are going to turn a deaf ear to the pleas of the Squires-Coaker crowd and vote for

From the Lumbering Camp.

Editor Evening Telegram.

Dear Sir—As I have been working in one of the lumbering camps of the A.N.D. Co., at Badger all the winter and not seeing any papers I'm somewhat anxious to know who the standard bearers will be for the Opposition in Notre Dame Bay the coming election. When I mentioned not seeing any paper, I forgot to say we are over stocked with Advocates, with glaring headlines on the Humber project, and Coaker's victory for the sealers and loggers—his prayer was omitted. It was awfully kind of the present Government to send Mr. Grimes around visiting the camps looking after our comforts, and telling us the logging act which was framed by Mr. Coaker was the means of having the conditions that exist to-day. Some of the boys in the bunk house said something must be on the more to see Mr. Grimes so much interested in our comforts, and it was not long before we noticed he was on a political tour, no doubt getting a good salary. We had the pleasure of having him pay us a visit in our camps and he was full to the mouth with "Humbermouth" and the good things that would surely follow, but he forgot to tell us that the money now being spent is Govt. money not Armstrong & Co.'s money. I have been a supporter of the Coaker-Squires party for the past two elections, and several men whom I have come in contact with have changed their minds also, and thanks be to the Advocate for the change, the bluff it is putting up is an eye opener to us loggers, and we don't want to have our country bankrupt. Mr. Editor, I have been in the logging business for twenty years, and know enough to say that the Government logging operations that is being carried on in the vicinity of Badger this year will be another debt for the tax payers of this little island to pay. I think his high time for the Minister of Agriculture and Mines to send a man out to Badger to dig the pork and beef that is snowed in and frozen or some person may start digging it out in the night. I should also like to know from the Minister of Agriculture if frost bitten potatoes are good for seed, and if so would he kindly make arrangements to have those that we shipped for the Government logging camps at Badger given out for seed. Mr. Editor, waste a lot of talking in the camp about the election taking place in the spring, and I suppose the reason is they don't want the House to open and have some of their woeful expenditures exposed, so they figure it better to keep the people in the dark. Thanking you Mr. Editor, for giving me space for those few lines.

I remain,

Yours truly,

DOUBIE BITTER.

First Drive Concluded.

Sure Victory In St John's West

Bennett Candidates Will Get Sweeping Majorities.

The Bennett candidates for the West End of St. John's, Messrs. Cashin, Linegar and Hunt, have their opponents looked to a **frustrate** and the only hope of the Government candidates, a split vote has now disappeared. Morris at his zenith never had such an enthusiastic committee. They have thrown their whole weight into the campaign, and the result is the election of the Bennett candidates by sweeping majorities, is a foregone conclusion.

Last night some 800 of the regular working committee were present at headquarters and heard stirring addresses from Cashin, Hunt and Linegar, who were given tremendous receptions. Chairman Caldwell reported that the work of the committee was progressing beyond expectations, and thanked all for the manner in which the District had been gone over, during the first drive, which had been conducted by Mr. Charles Hunt, who was called upon by the Chairman, gave a stirring address. He first told of the extremely cordial receptions they were receiving in their personal canvasses. At Central Street on Wednesday night they held the most remarkable meeting that was ever held in St. John's West. Everywhere the people were most pronounced in supporting BENNETT and BETTER TIMES. Concluding, Mr. Hunt dealt with some of the sins of the present Government during their term of office. Not one promise had been fulfilled and he challenged contradiction.

DESPICABLE TACTICS DENOUNCED.

Mr. Hunt said the Government papers were saying that if Bennett was returned the soldiers' pensions would be decreased. He wished it understood that the day that anything of that nature was attempted he would forthwith sever his connection with the party. He further stated that thousands of dollars now being squandered should have been paid to the men who did their duty in France and Flanders and the Dardanelles. The Government's policy to-day is based on the Humber Deal, which he says they are responsible for. This is another falsehood. The Humber proposition was first introduced in 1913 by Carbide Wilson, but was come on and nothing could be done. Then in 1922 it is again talked of and the Government takes the credit. This time it is introduced by the Reid and it is purely a Reid Deal. If it is a good Reid Deal it is a right, but it is the country's and not the Reid's interests that had to be protected. Mr. Hunt also spoke of the challenge that was not answered by Squires and his colleagues and M. P. Gibbs, which demonstrated their weakness. It was not fair to say that if Squires is defeated the much discussed Humber Deal would not go through. In conclusion Mr. Hunt spoke of the despicable propaganda that was going on to discredit the leader of the Opposition, Mr. J. R. Bennett, by saying that he is not the leader. This was said for a purpose that no self-thinking man was going to stand for. Sir M. P. Cashin was supporting Mr. Bennett in this fight, and was standing by him, and Cashin has never yet been known to break his word. Thirty-one years ago he gave his pledge to Ferryland and now he has given his promise to Mr. Bennett, and also to St. John's West. Squires' first act when elected was to get detectives to go into the accounts to see if Cashin had done anything wrong, but they exonerated him and his colleagues completely, and their report was a vindication of their honesty, but it cost the Colony \$15,000 for their report. As regards Mr. Bennett, he had been twenty years in public life, and no one can say that he took a dollar that he had not given value for. Mr. Hunt made a strong plea for the straight ticket vote.

LEADER CANDIDATE SCORES GOVERNMENT.

Mr. Linegar was given a rousing reception. He spoke of the false reports that were being spread about concerning the Humber proposition, and that work would stop if Bennett was returned. He also spoke of the often campaign against Mr. Bennett. What had Squires or his party done for the returned soldiers that they could blow their horns. The returned soldiers had given all kinds of promises, but where are they, leaving the country which they fought to live in. Regarding the Humber Deal Mr. Linegar would like to know what wages were going to be paid. Five shillings a day might be all right in England, but it was not worth much here, after Squires and Coaker taxation had to be met. There apparently a little more in it for M. P. Gibbs, Dr. Campbell and others, if one may judge from what was going on. Regarding the West End, Mr. Linegar was convinced that socialism was a dead letter, and

that the Opposition trio were going to be elected with a sweeping majority. They had learned during the canvass that Campbell and Fitzgibbon are now looking for personal votes, while Squires was also out to save himself regardless of his colleagues. Mr. Linegar reviewed conditions now compared to those of 1919, and he scored Squires and Coaker for allowing the Fish Regulations to kill trade and commerce in this country. The present condition of the country was entirely due to the utter incompetence of the Government. In conclusion he asked for the straight ticket, and was cheered to the echo at the conclusion of his address.

SIR M. P. CASHIN THANKS THE WEST END COMMITTEE.

Sir M. P. Cashin was given a reception from the assembled hundreds that must have made him feel very proud indeed. Sir Michael does not mince words, he speaks straight from the shoulder, and his fighting spirit has won for him a high place in the hearts of the people of the West End. Sir Michael thanked the Committee for their nightly attendance. In all his political career he had never seen such an enthusiastic Committee, and it bespoke but one result and that was a big victory for the Bennett candidates on Polling Day. Sir Michael spoke of the splendid meeting at Ferryland on Tuesday night, when some 500 people were present to hear his reasons for leaving the District. For two and a half hours he told them of the wrong doings of the Government, and he felt very proud of the reception he was given. In 1919 there were 61 for the Opposition in Ferryland, now there are 120. Sir Michael was shown a pamphlet that is being sent around by Squires, which is like his manifesto, a joke. It said nothing about the Humber Deal or why the House of Assembly did not pronounce upon it but it said "vote for Squires and prosperity." Sir Michael said it was an insult to a person's intelligence. We are seriously asked to vote for a Humber Deal with our eyes closed, because Squires dare not disclose it to the electors of Newfoundland. The country was entitled to know the terms but despite his challenge they had not given any particulars. It was a case of trying to hoodwink the electorate but it was not going to work this time. The people were alive to the situation and to-day both Squires and Coaker are quaking because they are aware that their doom is sealed by an outraged electorate. Sir Michael said that one of Squires' pamphlets must have reached Sydney and got in the Halifax Herald by mistake. Squires lifted the tax on ore and he (Sir Michael) would like to know if it was worth his while. He would ask him this question if he could get him to meet him on a public platform. Sir Michael said in conclusion that the Humber Deal like all the Government's other deals, was a fishy deal, and it was because of that, that Squires was afraid to place his cards on the table. These were points the people had to consider and he was convinced that they could do nothing else, but vote the straight ticket for CASHIN, LINEGAR and HUNT.

Messrs. Young and Whelan from Placentia made short addresses in which they assured the audience that Walsh, Sullivan and Sinnott would have the biggest majority ever polled in Placentia and St. Mary's. Mr. J. Donohue also spoke a few words from the audience dealing with labour matters in general. The meeting did not conclude till near midnight, when amidst cheers for Mr. Bennett and the Opposition candidates the large gathering dispersed.

Coaker on His Last Legs, Politically.

Coaker finds himself in a desperate plight and is sending out the S. O. S. call to his Union followers who are on the verge of bolting from his camp. The only bait he has to offer is the Humber Deal and the Gull Pond Copper property development. Every paying industry having been destroyed by his policy, he has to fall back on embryo propositions that are in the air and may never mature. We can understand the feeling of doubt and despair in the minds of the northern people when they realize that the only hope for the country which Coaker can offer is the development of water power and paying Reid mill-taxes for the purchase of the Railway outfit and the prospect of the development of a copper property when paying copper in sufficient quantity may not exist. The talk of fishery development by Coaker has long ago ceased and he now turns his attention to the mines and the lumber woods. He will probably end up by farming on Duggan's Island.

TO THE VOTERS OF ST. JOHN'S.

Never in the political history of Newfoundland have the electors been confronted with such a menace to their interests as that which now looms up before them. Reduced to the hard practical common sense view, every man who has a home in St. John's or money savings, has the question put to him now as to whether he will pledge these belongings to W. F. Coaker or retain them in the security they now possess. In a few weeks as each voter goes into the polling booth in St. John's that question will stare him in the face.

In St. John's East the names of Bartlett, Bulley and Burke will appear on the ballot papers so that the man who puts his mark opposite these names says "Yes, my representatives of Coaker, I so disregard everything I possess in property and savings which I have accumulated for my self-security and for the benefit of my wife and helpless children, that I am quite willing that Coaker may use them on his gambles and speculations I am quite satisfied to give up all I have to the balliffs if Coaker loses."

That is what, in effect, the voter says and he who votes in St. John's West will say and do exactly the same thing by marking his ballot paper for Squires, Campbell and Fitzgibbon.

On the other hand, the voter who marks his ballot paper for Higgins, Fox and Vincombe in St. John's East votes to retain to himself the complete security of his property and savings so that his comfort and happiness may be still further assured and that his wife and the little ones she dearly loves may be protected from the danger of poverty and want. The West End voter who marks his ballot for Cashin, Linegar and Hunt also votes to retain to himself complete control over everything he possesses for the benefit of himself and fellow citizens, householders of St. John's, let these facts be deeply stamped upon your minds until polling day you go to the booths to receive your ballot papers. It is your property and savings that are at stake as against the Coaker gambles which Bulley, Bartlett and Burke stand for in St. John's East. These six candidates by entering into a political alliance with William F. Coaker, declare to you in effect and to every New-

foundlander that they look upon him as one fitted to dispose of your homes and savings as may suit his purpose, for Coaker has declared his purpose to pledge what we possess in order to carry out his designs. The methods he contemplates to pursue are in direct antagonism to all the fundamental rules and order of business as every solid business man will tell you. This country must rely for its maintenance upon such value for its exports as can be obtained from these foreign countries prepared to give the highest value for same, but if this value does not reach such a figure as may suit the political designs of Coaker, then all immediate losses must fall back upon the people themselves. It is here then that the danger lies and it is in connection with such losses that every man who is a shareholder in the Colony's assets and the owner of property and savings places himself in the position of having these assets and effects levied on for contribution to the funds that would be sunk. Enormous losses, owing to unsettled conditions, might result in such disaster as to sweep away the life-long accumulations of everybody possessed with any of this world's goods, so that nothing can now prevent this possibility except the sound, steady sense of the voters, not alone in the city but every other part of Newfoundland as well. City and outport voters therefore must not permit themselves to be led away by appeals of other sorts between now and polling day. The question of the protection of their property and savings must stand supreme over every other consideration, voters must be careful how they mark their ballot paper, otherwise some unexpected day balliffs may walk into their homes to take possession of them and swoop down besides on every dollar which has been put by for a rainy day. We have great faith, however, in the belief that Newfoundlanders will not write themselves down as men who so disregard their homes and savings as to put them in pawn to William F. Coaker to be tossed up in the air as gamblers toss their coins so as wild cat speculators risk the money that guileless people trust them with. Run no risk then, fellow countrymen, but vote solid against the Coaker-Squires Combination.

Work For The Unemployed.

In last night's issue of the Advocate there was a leading article on the efforts of the Prime Minister to obtain relief work for the unemployed and it contained several quotations from articles in the Evening Telegram, dealing with the matter. What was said in this paper in the articles referred to we are prepared to repeat to-day. "It is the bounded duty of the Government to provide means whereby those who need employment may have it." So said the Evening Telegram on January 19th, 1922. So we have a return of prosperity. There is no hope for this under the present Government. What fair hope there was has been destroyed by Coaker's policy of nationalization of fish. There must be relief work until the country recovers from the state into which her present rulers have brought her. We stand by what we said in 1922 but we hope that the necessity for relief work will soon be passed and that men of all trades will live again in the prosperity they enjoyed before their hopes were dashed by Sir Richard Squires and Mr. Coaker. That this hope will be realized we have no doubt because people everywhere are determined to put out of power those who brought about this unemployment and St. John's and other districts are voting in their thousands for BENNETT & BETTER TIMES.

happen when the Bennett Government is returned to power until by the return of progress that will follow the dismissal of the Squires-Coaker party the people will be able to find plenty of work in their trades. The cooper wants to return to his trade; the clerk wants his former work back again; the fisherman wants to be able to catch fish at prices that will help him to live as he did in 1919. With the return of the Bennett party conditions will improve and we shall have a return of prosperity. There is no hope for this under the present Government. What fair hope there was has been destroyed by Coaker's policy of nationalization of fish. There must be relief work until the country recovers from the state into which her present rulers have brought her. We stand by what we said in 1922 but we hope that the necessity for relief work will soon be passed and that men of all trades will live again in the prosperity they enjoyed before their hopes were dashed by Sir Richard Squires and Mr. Coaker. That this hope will be realized we have no doubt because people everywhere are determined to put out of power those who brought about this unemployment and St. John's and other districts are voting in their thousands for BENNETT & BETTER TIMES.

How Much Good Has Squires Done For Your Country, Men Of Newfoundland.

"There is a tide in the affairs of men, which taken at the flood, leads on to Fortune." That is true, and in the affairs of a country, there comes a time when its fortune is trembling in the balance. That day is close at hand, and it is your privilege as freemen and patriots to say if the reign of graft, extravagance, incompetence and the trafficking of your birthright is to be continued for another four years as it surely will be, if the Squires-Coaker crowd again get control of public affairs. What good has the present Government ever done for the country? What good has it done for you? The record of the Squires-Coaker Government is nothing but that of an accumulation of broken pledges, and their promises for the future foreshadow a big increase in taxation. Will you stand for it, Electors? Do not be misled by office-seekers who would try to make you believe that Squires and Coaker are in politics for the good of the country. You know better than that, and it is an insult to your intelligence to tell you otherwise. Just think for a moment of the hundreds of thousands of dollars that this unprincipled bunch have gathered in the past five years. Do you suppose for

compare. And if (as Byron puts it) "You strike the balance 'twixt the good and evil You'll find a deuced balance with the devil." To the ten thousand readers of the Telegram, we would say with all seriousness—Unless a Government can prove by its records that it has legislated for the best interests of the country, and not for individual interests, it is unwise—may more, it is suicidal—to retain that Government in office. Has the Squires-Coaker Government measured up to the standard or has it not? You know, every one of you, that the Squires-Coaker party has failed you and fallen down on every promise it made. Therefore, vote for BENNETT & BETTER TIMES.

Llewellyn Club.

REV. G. O. LIGHTBOURNE DELIVERS ADDRESS.

The weekly meeting of Llewellyn Club was held last night in Canon Wood Hall. A large attendance of the members was present. Rev. G. O. Lightbourne then delivered a most inspiring address on "Personality." It was probably one of the finest discourses of its kind ever delivered to the Llewellyn Club, and the Rev. gentleman is to be congratulated on the simplicity and clearness in which he explained his subject. It will long remain in the minds of those who were so fortunate as to hear his address. Rev. E. C. Harp was unable to take his place as chairman, through illness. His many friends hope that he will be able to attend the annual dinner which takes place on the 12th instant.

Fox Harbor Will Do Its Duty.

FOX HR. via Placentia. April 6. Special Evening Telegram.

Nothing in the nature of a political meeting ever evoked such wholesome enthusiasm since Fox Harbor was inhabited as did the meeting held here yesterday by Walsh, Sullivan and Sinnott. This place solidly united in the interest of a return to independence and civilized Government. We had Coakerism in the coffee here when our popular representatives arrived, and I tell you, boys, these three put the lid on and nailed it home tight. Before they finished the meeting we were all made to feel sure that the Humber Deal is safe enough in Bennett's hands; and his fishery policy is something decent for a man to talk about. We want a share of the givings out Skipper Tom Bonia is bringing around with him, as we believe we turned in as much to the revenue of this country as anyone, but we don't expect to see it being shared out that way. The Coaker crowd seems never to have had much use for independence, that's why Fox Harbor got nothing; but every dog has his day and ours is near at hand. Now we are backing Walsh, Sullivan and Sinnott while there is breath in our body; we showed it at the meeting, we will prove it at the polls. Come on the rest of the district, do your duty as we'll do ours and our three popular representatives will have majorities of at least seventeen hundred.

East End Committee Meeting.

MR. FOX UNMASKS FALSE STATEMENTS.

The members of the East End Liberal-Labour-Progressive Committee at the conclusion of their canvass of the city wards last evening repaired to the Committee Rooms, Mechanical Hall, where they handed in reports which were all favourable to the Opposition candidates. The gathering was then addressed by Higgins, Vincombe and Fox, Chambers, Captains Green and Roberts, each of whom congratulated the committee on the good work done.

FALSEHOOD ABOUT HUMBER.

In the course of Mr. Fox's remarks that gentleman referred to the Humber Deal and charged the Daily

Mall with deliberate falsification of facts. The statement that there is no contract is absurd and puts a lie in the mouth of His Excellency the Administrator who told Messrs. Cashin, Crosbie, Higgins and Bennett that the Humber Deal was a fait accompli. Mr. Fox's statement that the deal was an absolute disaster for truth and continuing, said that its statement that as far as the guarantee went, the British and Newfoundland governments were in on a fifty-fifty basis, was an absolute falsehood. "We stand," said Mr. Fox, "in the case as holders of a second mortgage and in the event of failure, the British Government had first claim and we get whatever may be left." Mr. Fox's remarks served many present as an eye-opener and were greeted with hearty applause. To-night the young voters of the District will hold a meeting and a great rally is anticipated.

The Government Cannot be Returned.

No man of ordinary sagacity would contemplate the possibility of the return of the present Government. The forces that are arrayed against them are strong and determined. Strong because they have united these forces in their common interest, which is a desire to save the country from complete ruin. Determined because they have suffered severely from destructive legislation introduced by Coaker and sanctioned by Squires and his associates. The merchants have been seriously interfered with and their business interests shattered, if not wholly destroyed, by Coaker's interference with the Trade and Fisheries. The fishermen have found themselves practically ruined, supplies for the fishery have been curtailed and the fish markets have become so demoralized that they cannot get a living price for the product of the fisheries. The laborers find themselves out of employment, their families in want, because Coaker blocked the channels of trade by insane legislation. The mechanics are idle for similar reasons. The country which was flourishing in 1919 under Cashin is now reduced to a state bordering on bankruptcy. In the face of all this Squires and Coaker have the audacity to come before the country and the merchants whom they have ruined, seeking their support. They say in effect, "We know that we have made a mess of things, that we have jeopardized your business, but what about it? We can make you forget all about this and throw dust in your eyes by a Humber Deal. Put us back to power to finish our work. Once we get back to office it will worry us if we finish your job." They say to the fishermen, "Yes, we have ruined the fish markets and impoverished the fishermen, but forget it, give us a few more years to finish our work." To the laborers they say, "We know you have had a hard time, but we believe that when we preach a Humber Deal to you without telling you what the terms of it are, or what pay you are going to get, that you will swallow it all, bait hook and sinker, and we want to get back to finish our work. Above all, we want those trips to Europe again to enjoy ourselves with a good time in the most costly hotels at your expense." It is inconceivable that those people who have suffered at the hands of Squires and Coaker will support Squires and Coaker in their nefarious designs to again get control of the Legislature. It can't happen. It won't happen. Merchants, fishermen, mechanics and laborers—all who have a stake in the country will unite to end Coakerism. They will join forces in their desire for sane and honest Government and will be as a unit in electing Bennett and his capable body of men that are supporting him in the districts.

They Allowed Coaker to Dominate Everything

AND NOW THEY MUST PAY THE PRICE OF THEIR TREACHERY.

When Small, Warren, Foote and Cheeseman are confounded with conditions on the West Coast, and when their constituents ask them why they permitted Coaker to ruin them and their industry, what answer can they give? They probably will say that Coaker was responsible, that having the Union members behind him he was strong enough to force his views upon the Government. But is this excuse good enough for those members of the West Coast who were elected not to back Mr. Coaker but to protect the industries of their constituents. Whatever came, they should not have allowed Coaker to dominate everything to the detriment of the interests of those whose interests they were elected to protect. If Coaker is responsible for the conditions that now exist, what excuse can they give for not supporting the Government — Squires, Coaker and their policy. They know that Coaker is again seeking control. They know that he has Union candidates in several districts, and they know, and the people all know, that if the party is elected with a majority Coaker will again control the Government in the same way as he has controlled it the past three years. Where then is the security for the fishermen in electing men who must do as Coaker orders them, mere puppets and pawns who dare not refuse to support him even to the destruction of their own constituents. The people of the West Coast realize the danger of electing Coaker candidates. They know that Small, Warren, Foote and Cheeseman are candidates who must support Coaker in the future as they have done in the past if he should get power, but they will take no chances and will turn them down. The Bennett candidates are independent of any Union or Corporation. They stand for the interests of the districts, they offer themselves to represent and they will therefore receive the support of the fishermen who know that their interests are safe in their hands and that they are not mere hirelings of Coaker. They will vote for BENNETT AND BETTER TIMES. THEY WILL

JAY WALKERS
Of jay walkers and jay jumpers I could sing a frantic ode; they wear neither lights nor bumpers, and they're always in the road. Down the village street I travel in my creaking old sedan, kicking up some dust and gravel with good will for every man. All the rules I am observing, making signals left and right, winding dodging, twisting, curving, to avoid some of bitter talkers hit the driver of the less children playing, and my foot is on the brake, and my costly horn in braying till the wall known echoes wake. I am never taking chances, and I never go it blind; as my pea-green bus advances all the rules are horn in mind. But the walkers walk unheeding of all by-laws ever framed.

BROADWAY HOUSE OF FASHION, 331-Water St.-331

Pointed Paragraphs.

The salvation of the country to-day depends on a change of Government. Vote for Bennett and Better Times.

The tradesmen of the city are to-day idle because of Coaker's destructive Fish Policy.

The fishermen are without supplies and their children in want because of Coaker and his Fish Regulations.

Now then, boys, rally around Bennett and turn down Squires and Coaker.

Workmen, if you want to live in the country, vote for a change of Government.

The depression, unemployment and poverty in Newfoundland to-day was caused by the policy of Squires and Coaker.

Coaker says "he will make the grass grow on Water Street." Don't let him do it. Turn him out.

Squires and Coaker, not satisfied with the destruction of the country's industries, are now busy in defaming the few business men who weathered the storm.

The West Coast is solid for Bennett. Make no mistake about that.

Small, Warren, Foote and Cheeseman will be at the foot of the Poll.

The fishermen are determined on a change of Government.

The merchants, mechanics and laborers have no further use for Coaker and Squires.

The whole country is crying out for a change.

Better fish prices, a bonus on fish and more employment. Bennett and Better Times.

Son: "Father, what is an optimist?"
 Father: "An optimist, my son, is a man who expects the Squires-Coaker Government will be elected."

The Bennett wave is sweeping the country from end to end.

Twillingate and Trinity are coming into line and are determined to row off the Coaker yoke.

What a sore disappointment is in store for the civil servants who resigned their jobs to fight for Squires.

No election, no job, no sympathy, no happiness. Oh, what a surprise!

It will be a bright day for Newfoundland when 50,000 fishermen go to the polls to vote against Coaker's Fish Regulations.

Squires says he can win without the Labor vote. It is just as well for him to say so as not, for he knows he can't get it.

There is nothing coming out of the ballot boxes for Coaker or Squires in St. John's East or West but bitter disappointment—six defeated men.

Remember, electors, that a vote for Squires is a vote for Coaker, the man who ruined St. John's.

A vote for Squires means a vote for unemployment, destitution and hard times. Therefore vote for Bennett and Better Times.

Watch Bennett win.

The cheerful idiot who expects a soft Government job or patronage.

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Kidney's Syrup" after meals makes your digestion sound.

and pickings is the only man who is shouting "Squires can't lose."

The people of Newfoundland were never more determined on a change of Government. Their cry is "Turn the Wasters Out."

The fishermen say "No more Coaker, no more Squires. Bennett and Better Times."

If Coaker and Squires by any chance of fortune should again get the Government, who will care to engage in the fisheries? Who will care to give out supplies?

The merchants will certainly not risk supplying for the fishery if Coaker gets the ruling power again. He has another mad scheme in his head which he calls the "Nationalization of Fish."

The tide of popularity is flowing to Bennett stronger every day.

The grafters will find that though it is possible to buy up candidates they cannot purchase the majority popular vote.

Everywhere around the street now you can hear the slogan of "Bennett and Better Times."

Remember, electors, that the money now being used so lavishly to purchase candidates for the Government party will be wrung from the fishermen and the laborers by increased taxation.

Coaker's day is done. Bennett's day has just begun.

The Government started their drag-net

To pull a few candidates in. They searched high and low till they stood in a row. Six stalwarts wanted to win.

Three were shipped off to Placentia. Three others were kept in the town, A Bartlett, a Burke and a Bulley.

The Woman Power of America

is well illustrated by the thousands of women who are entering every profession, almost every line of business and politics as well. They are bound to make good, and there is no question but what health is their greatest asset.

As in many families the older brother helped make this higher education possible for the younger, partly by removing the burden for his own support from the family finances and partly by gifts of money.

All that interests me about the situation to-day is the younger man sometimes speaks slightly of the older man's lack of interest in any kind of serious reading. "All he ever reads is a novel," he says "try to get him to read a book on economics or psychology or government or anything serious and he isn't interested."

No Great Shakes Himself. Now, as I happen to know, the younger man is no great shakes of a

SIDE TALKS.

By Ruth Cameron.

SPARE THAT PAT.

"Act well your fate, there all the honor or lies. Honor and fame from no conditions rise."

Among my acquaintances are two brothers of whom the elder went directly to work from high school while the younger had the advantage of a college education.

As in many families the older brother helped make this higher education possible for the younger, partly by removing the burden for his own support from the family finances and partly by gifts of money.

All that interests me about the situation to-day is the younger man sometimes speaks slightly of the older man's lack of interest in any kind of serious reading. "All he ever reads is a novel," he says "try to get him to read a book on economics or psychology or government or anything serious and he isn't interested."

No Great Shakes Himself. Now, as I happen to know, the younger man is no great shakes of a

reader himself. Once in a while he reads a popular book of science or psychology and talks about it for the next month. When a widely read history of the world came out he bought it, read a few chapters and tried to make everyone who hadn't bought it, including his brother, feel as if they were culturally condemned. But when it came right down to it he doesn't go in for any regular serious reading, not half so much as you would think a man with a college background and education would.

And there is the hub of the whole matter. He prides himself because he takes a little more interest in such matters as science and economics and government than his brother. But he does not really take as much interest as he should by reason of the greater opportunity he had to get interested in such things, the greater background of understanding which his college course gave him.

He Ought To Be Ashamed.

In other words, it is he who should be ashamed not his brother. How easy it is to fall into the unreason of priding oneself on some superiority that is the result entirely of circumstances over which one has no control.

How often we may be looking down on people who, if they had our initial advantages, would be far far ahead of us.

Isn't whether he wins every hand that proves whether a man is a good card player, it's whether he plays the particular cards he happens to have as well as they can be played. And very few of us do.

Or Hasn't He!

Canon Farror says: "The only real failure possible is not to have done the best one knew." I know a man who did not go to college, indeed, he did not even finish High School, but by reading and studying and thinking he has developed himself mentally until he is a better informed and far ahead intellectually of nine of the ten college students. He has some reason for pride (though even there you come back to the question of inherited intellectual equipment).

When you feel like patting yourself on the back for being ahead in one way or another of your fellow beings, stop first and ask yourself where they would be if they had had your advantages. Unless you are sure they would be behind you, spare that pat.

Soapmakers to His Majesty King George the Fifth

Trepassey Scores Coaker

March 27, 1923.

Dear Sir—As the time for a general election is rapidly approaching I am constrained through the medium of the people's paper, to express my condemnation of the present Government which will go down in history as the greatest crowd of incompetents and squanderers this country has ever known.

In Squires' Manifesto he promised to bring about the dawn of a new day in Newfoundland and he has accomplished his purpose in that he has brought about an era of depression, want and suffering, never equalled in the history of our country. The record of the Squires-Coaker party is indelibly engrained in the memory of the people, every promise made has been shamefully violated by this so called Liberal Reformer, who 3 1/2 years ago, solicited the votes of the electors, posing as a patriot, who was actuated by love of country and whose ambition was to eliminate graft and establish a permanent prosperity. Until we are taught to love the land that bore us, above love of lucre and honestly no country can be what nature intended it. That R. A. Squires was not animated by love of country was evidenced by the first session of his Government when he increased expenditure by nearly two million dollars and raised the salaries of members of the executive and House of Assembly to three times what they were under his predecessors and this at a time when a period of depression as an aftermath of the war was expected. Truth is mighty and will prevail. Truth exists everywhere; it flames in every flower, it glazes in every star, but there was no truth in the mind of R. A. Squires when he wrote his Manifesto to deceive the people of the country into voting for his party. No sooner was he elected than he departed from the straight line of duty, he embarked upon the start, and to-day he is

without the respect and confidence of many of those who were formerly his most ardent supporters—many of whom have been reduced to poverty by tyrannical legislation. A feeling of melancholy is at times interwoven within my memory as I take a retrospective look back over life's pathway to the prosperity we enjoyed under previous Governments and compare it with the present when a cloud of depression descends and want has settled like a funeral pall over the land. The infamous fish regulations promulgated by Coaker was the greatest injustice ever perpetrated and as a result merchants in St. John's and Outports are crushed down in the dust and the fishermen reduced to starvation. Outport merchants who were in affluence 3 1/2 years ago are to-day without a dollar and unable to pay their creditors—the hard earning of a lifetime gone—in fact some of them are practically starving. The worthy 14 accountants exceeding \$15,000, when the Squires-Coaker party assumed power and not only have they lost it all but some of them are thousands of dollars in debt and had to sell cattle to purchase provisions to tide them over the winter.

Mr. Editor, it is heart-breaking to those one time prosperous outport merchants to be reduced to penury and the writer can understand their feelings as he has lost a lifetime's savings during the past 3 1/2 years. Had Sir M. P. Cashin been in charge of the Government during the past 3 1/2 years we are confident that the country would not be in the condition she is to-day and while no one expected the prosperity we enjoyed during the war days we are confident that had a sane business Government been in power instead of picnic hunters and squanderers we should to-day have our business men in St. John's and outports with their heads above water. It is a ray of sunshine among the dark clouds to see a party led by J. R. Bennett whose long experience in public life makes him eminently qualified to bring poor old Newfoundland out of the depths of disaster in which she is plunged by Coaker and Squires. The advent of W. S. Monroe to the political arena is an index of the seriousness of the situation and is a trumpet call to the electors of Newfoundland to rally to the banner of clean Government. The name of Monroe is known for generosity and square dealing all around the shores of our Island Home and we congratulate the country on having a man of his business experience and ability and that he will be elected is an accepted fact. That such men as Monroe, Ayre, Dunsbridge and Harris should enter public life is a call to awaken the electors from their lethargy and stimulate them to break

the shackles of Coakerism which has brought us to the depths of poverty and starvation. What Newfoundland needs is a firm economical government concentrating on the practical essentials of life, with encouragement to prosecute the fisheries and development of our internal resources. The Humber Deal is safer with Bennett than with Squires and we feel sure no man of intelligence will take Squires' Manifesto seriously. Instead of issuing a Manifesto he should apologise for his last one. Every pledge he made in it has been broken and the public funds squandered in a disgraceful manner in picnics in England and elsewhere. The squandering of money is likely to be much in evidence during the next few weeks in an attempt to purchase votes but we feel sure that bribes and money will not delude the people into voting against their best interests. The cry of down with the merchants will not take this time. The country needs more merchants and the man who would by false propaganda engender a feeling of distrust between merchant and fisherman is a menace to humanity. The problem confronting the country to-day will need our best men. The immense bounties given by the French Government seriously endangers our time honoured industry, the codfishery and our only salvation is in placing in power men who have a stake in the country and those will be found under the Bennett banner. The Mail and Advocate shout "Let Squires

and Coaker finish their work." I imagine that they had finished it with the merchants ruined and grass growing on Water Street, mechanics idle, labourers and clerks breaking stones, fishermen starving, fisheries ruined, markets demoralized and the country groaning under taxation and want, and men fleeing from the country. Is there anything else Squires and Coaker can accomplish in the way or ruin if given a further lease of power. The time has come for the most rigid economy and luxuries must be eliminated and useless offices abolished. The United Fishermen of the North deserve the thanks of the people for their success in forcing the Government to reduce taxation and we are sure their efforts will be appreciated by their countrymen. Newfoundland has too many useless officials, both in St. John's and outports who are doing practically nothing to earn their salaries. I shall deal with them in my next letter. Men of Placentia and St. Mary's stand by your tried and true representatives, Walsh, Sullivan and Sinnott and send them back with record majorities. Down with Squires and Coaker frenzied finance and wild cat experiments. I appeal to the electors of my home district, Bay de Verde, to mark their ballots for Sir J. C. Crosbie and colleague. Sir J. C. Crosbie has on more than one occasion shown himself the friend of the fishermen in their darkest hour and in time of need. For a friend in need is a friend indeed. You have seen what Coaker and Squires rule means—your merchants ruined and crushed down—strike for freedom and vote for Bennett's candidates and better times, and a fighting chance to live. Thanking you for space. Yours very truly, D.O.N.

Canada Will Test Out Labrador Gold Fields.

Dominion Interested in Alleged Discovery Because of Conflict With Newfoundland Over Location of Boundary—Titles to the Gold Leases May Be Doubtful—Glacial Country Not Promising as Gold Field.

The question of ownership and the gold possibilities of Labrador takes on additional interest from the decision, understood to have been reached by the Department of Mines at Ottawa, to send a party of exploration into the country this summer, says the Montreal correspondent of the Financial Post.

As stated in a recent issue of The Financial Post, Quebec and Newfoundland are playing the leading roles in the drama of Labrador ownership; Newfoundland because it has governed and policed Labrador for a number of years back; Quebec, because of a traditional belief that Labrador is

ings in Labrador leased from the Newfoundland government have a very precarious title to their lands.

At least one of these companies, the Labrador Gold Fields, Ltd., is parceling its holdings into smaller ones which they are leasing for \$200, to be worked by the lessees with an increasing percentage of profit to the company from any increased earnings of the holding. It is apparent that with the title of the land so indefinite, the gold digger must not only face the gamble of finding gold, but the gamble of the title to his holding. Not altogether a promising combination surely.

A suggestion to an Ottawa official that the Newfoundland government may have leased the Labrador areas, expecting through this priority to strengthen their claim to ownership brought a trite reply. "If the Newfoundland government," he said, "wishes to lift up by the bootstraps it is at liberty to do so."

Other facts of interest arise from a different angle; one from a news item appearing in an American paper which claimed that Canadian government mining officials had condemned rumors of gold in the Labrador as being unfounded on fact. The financial post learns, however, that no such statement has been made from official sources and the Labrador Gold Fields, Ltd., who brought the matter to the attention of Ottawa, have been advised

of the lack of truth in the item. While the Department of Mines has not yet had representatives in the Labrador gold areas, and it not prepared to express an opinion on the value of the find, it is expected that an official survey will be made this summer when accurate reports can be had.

As to the finding of gold in quantity in Labrador, that is indeed questionable, despite the "ray of the land" suggesting a second Klondike. It was pointed out that Labrador is a heavily glaciated country which argues gold in pockets rather than its presence in

Picture Filmed in the Orient.

COMING TO THE NICKEL MONDAY NEXT.

On Monday next the Nickel Theatre will screen "The Love Slave," featuring the incomparably beautiful star, Lucy Dornato. This is a gripping drama of East and West. A tremendous drama by Georges Ohnet, famous French author. A beautiful Arabian slave girl madly in love with the handsome young Parisian who rescued her from a beast. A flower of the East transplanted to Paris—the age-old clash of East and West—a mad jealous passion that would destroy one once beloved—then prison walls that close in on another form of slavery. A thrilling escape from a living death—freedom and peace—the re-kindling of dead fires—and a climax so powerful—so satisfying—that it brings a profound sigh of relief. Actually filmed in the Orient—as a production "the Love Slave" is greater than all the so-called Eastern stories. The great dramatic theme—East against West.

"The Holy City."

The second rendition of Gaul's Cantata, "The Holy City" by the Kirk Choir, was given last night in the Presbyterian Church before a very large audience. The leading soloists, Mrs. C. F. Garland and Mrs. Harvey Small, who were unable to be present, owing to suffering from heavy colds, and their absence was greatly regretted. Miss Doris Withers, who at very short notice took the important parts, created a wonderful impression with the audience. Special mention has already been made of the artistes who assisted. The music was undoubtedly the finest heard in the city, and Professor Mawer and his talented choir are to be heartily congratulated on their excellent production.

Now is the Time

FOR ALL TRUE MEN TO GATHER TO THE AID OF THEIR COUNTRY.

The time has now arrived when "the free and independent electors" of the different districts must realize that on polling day they will be called upon to decide between honesty and fraud, between patriotism and selfishness, between clean Government and mal-administration, between the good of the Colony and between men

"Whose lust is power
And whose horrid joy
Is to tear the country
And it's hopes destroy."
The voters will be asked to choose between men who will stop at nothing to hold the possession of the public offices of the common wealth and the emoluments connected therewith.

The present Government are fighting a losing game. But in that realization they will not hesitate to undermine the very foundations of our social as well as our political institutions and plunge the country into a state of confusion and ruin in order to keep themselves in office.

It may seem that enough to the vitiated minds of Squires and Coaker to endeavor to "move Heaven and earth" to retain their hold on office, but thoughtful, sober minded citizens of all classes and all creeds think differently, and on polling day will bury under an avalanche of adverse ballots the present so-called conglomeration masquerading as a Government. The hour has come for a change of Government. The country wants it and the people are determined to have it. Squire's can't win. Vote for **BENNETT & BETTER TIMES.**

The Grand Bounce

IN STORE FOR COAKERISM OVER ON THE SOUTHSIDE.

Editor Evening Telegram.
Dear Sir—If there is any portion of St. John's West that has reason to feel the terrible effects of Coakerism is it over here on the Southside; more especially from the Bridge to the lower part of the Harbour. Everybody knows the changed conditions from what they were four years ago when every premises had its crowd of men at constant work and good wages. Now there is scarcely a hand turn doing anywhere and all because of the brutal work of Coakerism. How in the name of common sense then do Squires and his two other Coaker pawns expect Southside people to vote for them? They sure will get the grand bounce over here, and I hope the voters in the city proper will help us out.

We, therefore, make this appeal to our friends the labourers, mechanics, and shopkeepers in every street of the city to join up with us with all the force possible, so that we can silence this Coaker monstrosity for ever. Let us cut it adrift altogether and the best way for the whole district to do, is to do as we are doing—split no votes for any Squires man, but vote the solid straight ticket for CASHIN, LINEGAR and HUNT, and so give us what would be best for us, **BENNETT AND BETTER TIMES.**

Yours truly,
GOUTHSIDE VOTER

Forty-Four Years in the Service of the Public—The Evening Telegram

M. C. L. I.

VERDICT FOR NEGATIVE.

There was a very enthusiastic gathering of M.C.L.I. members present at the Institute last night. The debate for discussion was—Resolved, that the modern Church has lost its connections. The Affirmative side was supported by Messrs. I. C. Morris, G. P. Jeans, and W. R. Smith; while the Negative was upheld by Rev. R. E. Fairbairn, R. A. Templeton and A. E. Parkins as a substitute. The Affirmative holding that the Church as a whole was losing its grip on the people, was proved by the empty churches as against full houses for all sorts of amusement. Mr. Morris who led for the Affirmative made an eloquent and earnest appeal. For the Negative Mr. Fairbairn maintained the fundamental doctrines of the Church were unchanged, and that the Church now acknowledged the supremacy of God. The church was demonstrating its conviction in the movement towards Church Union. Mr. Fairbairn's address was very lucid and forceful in presenting his side of the resolution. The debate was a most interesting one and when the vote was taken the Negative contention was upheld. On next Thursday the annual meeting of the Institute will be held when the various reports will be submitted and the election of officers takes place. On April 19th the annual dinner will take place in the College Hall.

Mrs. Temple's Telegram.

WILL RUN FULL WEEK.
An appreciative audience attended the Majestic Theatre last evening to witness the presentation of Mrs. Temple's Telegram produced for the fourth time this week. The players were more at home than on previous evenings, and not a hitch was noticeable in the play from beginning to end. The drawing room scene presented a very pleasing appearance, the furnishings being beautiful. Miss Hilda Krentzlin as Mrs. Temple played her part in a very able manner and won new laurels. Miss Violet Crocker in the character of Dorothy, the younger sister of Mrs. Temple, who is engaged to Capt. Sharpe, was mirth provoking, and played her character to perfection. Mrs. Wallis in the role of Mrs. Fuller cleverly executed her character. Mrs. Holmes as Martha, wife of the real John Browne was most amusing, her make-up was exceedingly funny, and greatly added to the enjoyment of all. Mr. Thomas Payne gave a splendid portrayal of Mr. Jack Temple. His acting was very fine and he appeared to be more at home than on previous nights. He played right up to Fuller's lines and ably sustained his new found reputation of acting. Mr. Jack Hickey, in the character of Capt. Sharpe was particularly good; while Messrs. Stirling, H. F. Glass and Mr. A. E. Holmes in the respective roles as "The Real Mr. Browne," "Wilson" and "Mr. Frank Fuller," displayed their parts admirably. Between the acts Mr. T. H. O'Neill recited "H." in a pleasing manner, while Miss Phyllis Channing delighted her audience with a perfect exhibition of dancing. Mr. A. E. Holmes treated the audience with some very daring acrobatic stunts which brought forth rounds of applause. The presentation of Mrs. Temple's Telegram was an unequalled success in every way, and the performers and all concerned are to be congratulated. The proceeds, which amounted to a handsome sum go to the aid of King George V. Seaman's Institute.

In response to the request of many patrons of the Theatre and acting on the desire to put the show within reach of all who have been unable to attend, the management has decided to reproduce the show to-night tomorrow afternoon and to-morrow night, and thus round out the full week. Mr. Holmes has decided therefore to further reduce the price of admission, which is good value for a dollar, and may now be seen for twenty cents. Additional specialties will be given by leading artistes and the appearance of Master Teddy Meaney will be an added attraction.

"Adam and Eva."

Since the initial performance of "Adam and Eva" on Monday night last, the Casino Stock Company has gained a very high place in the esteem of St. John's theatre goers. Probably no leading lady in any company in recent years has such a charming appearance as Miss Amy Dennis who is starring as "Eva." The title "Adam and Eva" does not perhaps carry the drawing force which this excellent society drama merits. Whilst the plot is not deep, the solution of a jewel robbery offers several alternatives up to the close of the performance. Theatre goers should not lose the opportunity of seeing the play. It will be shown to-night and on Saturday. On Monday, "East is West" will be played. This play is somewhat heavier than "Adam and Eva" and offers more scope to this talented troupe.

are the Details Kept Secret?

hear a great deal of shouting about the Government organs about the "Deal" which they claim it will be for the country. If this proposition is the miscellaneous benefit that they are the dark? Why not (advised) fully so that the public in their own interest may vote, for it? It must be something in connection with the measure that the Government think prejudicial to its interests, otherwise the full terms would have been laid before the public long ago. There must be some conditions distasteful to members of the Executive or else the signature would have been given months ago to deal with the measure. Some say that Reid decided that the Railway be purchased by the country outright and that this proposition that will not meet the general acceptance. Others think that the bulk of employment to be given to outsiders and that the best positions will be given to those not belonging to the country; in that case our people will be mere "chewers of wood and drawers of water." Be that as it may, something with regard to this Humber is growing and the public are in the mood that they will not accept a "pig in a poke". The wild statements made by the Government are only outbursts of dangerous and deceptive minds. If the "Deal" was the best proposition in the world, the amount of labor would afford a grossly exaggerated Mail and the Advocate. The people are warned to be beware of the prophets. Squires promised property in 1919 and what came of it? No measure was ever attempted to make the condition of the people prosperous. On the contrary, anything that they did overwhelmed the country and its people with disaster. Squires will be remembered as the Premier of broken promise. He can't be trusted.

Three Years of Terrible Rule.

In a few short weeks the people of the country will be given an opportunity to rid Newfoundland of the rule of Coakerism and all that terrorism implies. We have had three years of terrible misrule and anarchy—three years which we all will ever remember with regret—three years of bungling incapacity in which the whole machinery of trade and industry has been paralyzed and, in 1919 the prospects of Newfoundland were bright and promising, then the blight of Coakerism spread the country like an epidemic plague and brought disorder and ruin in its wake. To-day the worker is unemployed, the fisherman without supplies and the merchant unwilling to invest his capital in business that may be destroyed by relative interference. Consequently all is stagnation. This condition will end. Confidence must be re-established in us as a people hope to live this country. It can end only in one way, and that is by the defeat of Coaker and Squires at the Polls and the adoption of their dangerous doctrines. The opportunity is now at hand. Let us avail of it and vote for BARNETT & BETTER TIMES.
