The copy filmed here has been reproduced thanks to the generosity of:

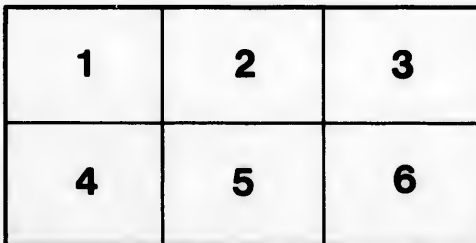

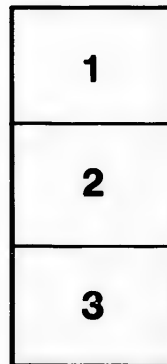

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WEATHER TABLE.

The following table, constructed upon philosophical considerations on the attractions of the sun and moon in their several positions respecting the earth, and confirmed by experience of many years actual observation, furnishes the observer without further trouble, with the knowledge of what kind of weather there is the greatest possibility of succeeding, and that so near the truth, that in very few instances will it be found to fail.

# SAVORY & MOORE'S BEST FOOD FOR INFANTS

As Supplied to the Royal Nurseries.

The most perfect substitute for Mother's Milk. The highest amount of Nourishment in the most Digestible and Convenient form. The only Food Specially Prepared for Infants. "The Adult cannot thrive on the Milk provided for the Infant, while the food adapted for Adults must be too strong for Babies." Abounding in Flesh-forming and Bone-forming substances, this Food perfectly fulfils its object, whereas other so-called Foods, such as Corn Flours, being entirely devoid of nourishment properties, induce a rickety and idiotic condition. It is also carefully freed from the ground husks of the wheat, which cause irritation of the bowels, diarrhoea, &c.

**CAUTION.**—A Genuine Food should not contain an excess of sugar, nor be too palpably sweet. Such Foods may be palatable, but they are also pernicious. For this reason so-called Milk Foods Condensed Milks, &c. are prejudicial to the health of Infants, from the large proportion of beet sugar they contain, rendering them utterly unlike the article they are supposed to represent, viz., **MOTHER'S MILK.** Tins, 1s. 2s. 5s. 10s

**ASTHMA, DIFFICULT BREATHING.** &c., Datula Tatula Inhalations afford the most prompt and effectual relief. Spasmodic Asthma as well as the milder forms of the disease, and other complaints attended with short and difficult breathing, loss of rest, &c., quickly yield to the soothing influence of the fumes of Datula Tatula, and painful paroxysms are either averted or quickly subdued by its use in either of the following forms:—Cigars and Cigarettes—Boxes 3s., 8s., 15s. Pastilles and Powder (For non smoker's use)—Boxes, 2s. 6d. 5s. 10s. For use as tobacco—Tin-2s. 6d., 5s., 10s., 18s.

**A SPECIAL FORM OF NUTRIMENT IN CONSUMPTION** and where there is a tendency to other Wasting and Debilitating Diseases, attendant with loss of power to digest and assimilate Food, **PANCREATIC EMULSION** or Medicinal Food restores Digestive Power, Appetite, Strength and weight, by supplying the system with the solid form of nourishment required. Pancreatic Emulsion, is infinitely more efficacious than fluid fats—such as Cod Liver Oil and Oily Emulsions of any kind—while it has also the advantage of being pleasant to the taste, and not disagreeing with the delicate stomachs of Invalids or Children.

Prescribed by the leading Physicians in the United Kingdom, America, India and the Colonies. Bottles 2s. 6d., 4s. 6d., & 8s. each.

**CHOLERA, DIARRHŒA, DYSENTERY, &c. JEREMIE'S SEDATIVE AND ANTI SPASMODIC**

is held in the highest repute, especially in India where it was introduced by an experienced officer of the opium department about 50 years ago. It is acknowledged to be a most valuable remedy for diminishing **NERVOUS EXCITEMENT, ALLAYING PAIN,** Procuring Tranquility and Repose without the unpleasant symptoms and objections which attend the employment of other Sedatives.—Dr. Jackson, Apothecary General, Calcutta.

"I have constantly used it, and always with the most favorable results."—Civil Surgeon Wynne, Patna.

"It affords me great pleasure and satisfaction to bear testimony to the efficiency of **JEREMIE'S Sedative** in Cholera, in no instance have I met with a failure of recovery."

From Sir **CHARLES D'OYLEY, Bart** ;—" **JEREMIE'S SEDATIVE** was frequently administered to me by Dr. King, and always completely soothed the pain, leaving no bad effects ; it has, indeed saved my life more than once."

All animals or birds, or portions of animals or birds so confiscated shall belong to the game-keeper.

No person shall have in his possession, custody or care, any animal or bird already mentioned, or any part of such animal or bird, with the exception of the skin, during the period in which by the act, the killing thereof is prohibited, or which appears to have been taken or killed by any of the means forbidden by this act; but every such animal or bird, or any portion or portions thereof, may be bought or sold (when lawfully taken), during fourteen days, to be computed from the expiration of the various periods respectively fixed by this act for the killing thereof.

Every such game-keeper may cause to be opened, or may himself open, in case of refusal, any bag, parcel, chest, box, trunk, or other receptacle, in which he has reason to believe that game killed or taken during the close season, or peltries out of season, are hidden.

Every offence against any of the provisions of this act shall be punishable by a fine not exceeding fifty dollars, and recoverable summarily or on information or summons duly issued by a justice of the peace.

Such justice of the peace, on the proof which shall be thereof made, may impose the penalty, with costs, and such penalty shall belong to the informer.

The evidence of the complainant alone, or any one witness, shall be sufficient to support a conviction.

No proceeding under this act shall be quashed, annulled or set aside by *certiorari*; but an appeal may be brought before the circuit court of the district in which the offence took place, in the same manner as appeals under the municipal code.

No prosecution shall be brought after twelve calendar months from the day of the committing of the offence.
