Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

The Nova Scotia
Legislative Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \longrightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

The Nova Scotia
Legislative Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \longrightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

SPRATT'S PATENT MEAT FIBRINE DOG CAKES.

From the reputation these Meat Biscuits have now gained, they require scarcely an explanation to recommend them to the use of every one who keeps a Dog; suffice it to say that they are the cheapest food, require no cooking, are entirely free from salt, will keep the Dog in condition without meat or other food, make the hair glossy, the skin pure, and, being made of the best meal, fibrine, dates, and other ingredients, are a sound diet, obviating WORMS and distemper, giving all the elements for endurance, bone, muscle, and vigorous health.

GENERAL REGULATIONS.

1. The Exhibition grounds and buildings will be opened on Monday, September 29th, at 7 o'clock, a. m., and continue open during the day till sunset, for the reception and arrangement of exhibition articles and animals. Exhibitors on arrival will immediately report themselves at the office of the Secretary, who, with the assistance of the Committee of Management, will allot appropriate pens or space for their exhibits. This day none but members of the General Committee, officials, exhibitors and necessary attendants will be admitted.

2. Live animals, flowers, and perishable articles will be received on Tuesday morning from sunrise up to 9 o'clock, unavoidable delays to be dealt with at the discretion of the Committee.

3. The Exhibition will be open to the public on Tuesday, September 30th, at 2 o'clock, p. m., when an Opening Address will be given. Admission, this day, 50 cents. Children under twelve years of age, 25 cents. The grounds and building will be open each succeeding day to visitors from 9 a. m. to 6 p. m., after which the main Exhibition Building only will remain open till 10 p. m. Admission 25 cents; children, 10 cents. Bands of music will be in attendance daily. The cattle yards will be closed to the public every evening at sunset.

4. The judges will meet at the Secretary's office on Tuesday, September 30th, at 9 a. m., to obtain entry books and proceed to award premiums. On completing their work, which must be finished by Wednesday, noon, they will personally show their books to the Secretary, and will be furnished with the requisite prize tickets, which it will be their duty to place carefully, and as soon as possible, upon the various articles, before giving up their books and report.

5. Exhibits may be removed from the grounds on Friday afternoon, October 3rd, at 3 o'clock, immediately after the closing address has been delivered. The Treasurer will commence to pay premiums on the grounds at 9 a. m., on Friday. Prizes not claimed within three months from the close of the exhibition will be forfeited.

6. Every intending competitor, must transmit to the Secretary, not later than the dates mentioned below, an entry paper, containing a correct list of the animals or articles which he intends to exhibit, together with certificate of pedigree in the case of thoroughbred stock, or else a reference to the registry numbers of the Nova Scotia Stock Register. Any competitor failing to transmit his entry certificate at the proper time, will be excluded from competition. No fee is charged for the entry of animals or articles. In class II, no animal will be accepted as thoroughbred unless actually registered in the Nova Scotia Herd Book Register, or certified by the Executive Committee of the Board of Agriculture, as duly qualified for entry.

7. Horses, cattle, sheep, swine and poultry must be entered on or before Saturday, September 6th, three weeks preceding the show, and

the age of each animal should be stated in years and months, at date of exhibition; the precise date of birth to be given when necessary.

8. Plants and flowers, fruit, grain, roots, vegetables and other field and garden products, agricultural implements and manufactures of all kinds, and articles not elsewhere enumerated, may be entered up to Saturday, September 20th, one clear week preceding the show.

9. Exhibitors of bulky articles, requiring extensive accommodation, must communicate with the Secretary on or before Monday, August 25th, stating what space they will require, in order that there may be time for the committee to make the requisite arrangements.

10. All articles for exhibition must be on the grounds on Monday, September 29th, after which day none will be received, except live stock, fruit, flowers and other perishable articles, which will be received up to 9 a. m. on Tuesday, September 30th. All necessary erections, and bulky articles requiring to be put together on the grounds or in the buildings, must be finished, and all waste material and rubbish removed, not later than 12 o'clock, noon, on Saturday, September 27th, as no such work can be permitted during the show week.

11. Exhibitors will, in every case, give the necessary personal attention to whatever they exhibit. Necessary attendants upon live stock, and workmen actually required to attend to machinery, will be furnished with admission tickets, (*price 25 cents*) with their names written upon them, which tickets will be good at the *Exhibitor's gate only*, during the show, such tickets to be obtained from the Secretary, by personal application.

12. All articles for competition shall be the production or manufacture of the exhibitor; field produce must be the growth of 1879, except where otherwise specified; and all live stock must have been owned and kept by the exhibitor in the province not less than three months prior to the exhibition.

13. All expenses incurred for the conveyance of articles or animals, to and from Halifax, placing them in the exhibition, and maintaining them while there, shall be borne by the exhibitors, who must likewise undertake all risk of loss or damage. Articles must, in every case, be delivered and unpacked, free of expense to the committee.

14. In class 9, and for all miscellaneous exhibits, similar to those embraced in this class, "delivery checks," will be furnished, when such articles are given in charge of exhibition officials, and no such exhibits can be removed from the building, unless these "delivery checks" are presented to those in charge of the department.

15. Each exhibitor will receive from the Secretary, an entry ticket for every article to be exhibited by him, and he is required to affix such ticket upon the article or animal which he exhibits, or on the stalls.

16. When fewer than three competitors appear for any prize, and where the articles exhibited are not of superior merit, the judges shall have the discretionary power of awarding or withholding prizes, or reducing their values. No article can take two prizes, or be exhibited in two collections, unless the contrary is distinctly expressed in the

prize list. In estimating the merits of live stock, the judges are requested to take age into consideration, where animals of different ages are competing against each other.

17. The committee are required to reject articles which they may consider unworthy or unfit for exhibition.

18. No person shall be allowed to enter for exhibition, more than one specimen (or required quantity) in any one section or class. This rule is not to apply to animals.

19. During the exhibition, all vegetable products and manufactured articles shall be under the control of the Exhibition Superintendents, and all live stock shall be taken charge of by their owners, the Superintendents giving all practicable assistance in providing the necessary accommodations and food. Hay, straw, oats and roots will be supplied on the grounds, at reasonable prices, and there will be a free supply of water.

20. All articles exposed for sale, shall have the prices affixed, and be sold by the owners, or by parties appointed by them for that purpose. No auctioneer will be allowed to sell animals or articles on the grounds, or in the building, without the written permission of the Chairman or Secretary of the Exhibition committee, and the time and place of sale, specified in such permission, must be strictly adhered to.

21. Articles and Animals sent for competition or exhibition, shall not be removed from the exhibition rooms or grounds till the time appointed, under forfeiture of any prizes or awards that may have been made to their respective exhibitors.

22. Any person who shall attempt to interfere with the judges while in the discharge of their duties, or who shall attempt to influence their decisions, by his presence or remarks, or who shall afterwards, within the limits of the show grounds, use any contemptuous or abusive language in consequence of any award made, shall forfeit his right to any premiums to which he might otherwise be entitled, and be otherwise dealt with as the committee may determine.

23. Any exhibitor who may feel aggrieved in consequence of any irregularity, is requested simply to draw the attention of the Committee of the Department, or of some member of the General Committee, to such, without entering into any discussion apt to cause hindrance or distraction. Should he not receive what he may consider sufficient redress on the spot, he must, nevertheless, abide by the decision given; but he may, at the close of the exhibition, bring the matter before the committee, by written statement, with a view to full enquiry.

24. No animal can be admitted within the enclosure, that has not been previously entered, in accordance with regulations 6 and 7, and animals of an inferior character, unworthy of a place in the exhibition, will not be admitted under any circumstances.

25. Space will be provided for any article that may be forwarded for exhibition, subject to approval of committee, apart from such as are mentioned in the prize-list. Awards of merit will be given for such, all of which exhibits must be entered on the secretary's book, in the manner prescribed for those that come within the prize-list.

27. Arrangements will be made by the Railway to discharge live stock and other exhibits for Provincial exhibition at North Street Station. Exhibitors must be prepared to take them directly from the cars on arrival. The direct route from the Railway Station, is up North Street to Robie Street, thence south along Robie Street, to the Exhibition grounds.

28. No person shall be permitted, under any circumstances, to compete for prizes, as an exhibitor, in the same class in which he acts as a judge, and any one so acting shall forfeit *all awards* that may be made to him, at the exhibition.

AGENTS FOR THE EXCELSIOR WINDOW SHADE CO.

TESTIMONIAL FROM PROF. LAWSON,

Secretary Central Board of Agriculture of Nova Scotia.

DEAR SIR,
DALHOUSIE COLLEGE, Halifax, May 6th, 1879.
I am glad to hear that you are about to resume the agency for the North British Co.'s "Nutritious Condiment," originally introduced by you in 1872. It was then well appreciated by horsemen, cattle feeders, and dairymen in this Province, and the animals shown at the Provincial Exhibition, in October, 1874, for the special prizes offered by you, were very creditable, and attracted much attention.

I am, dear sir, yours truly,

GEORGE FRASER, Esq.

GEORGE LAWSON.

Hundreds of testimonials, are in agents' hands, in favor of the Condiment.

HALIFAX, N. S., June 9th, 1879.

DEAR SIR,—

My Cow having been under the effects of lead poisoning has been successfully treated by Mr. Byrne, Veterinary Surgeon, and having become much emaciated from its effects, I was induced to try your "NUTRITIOUS CONDIMENT." The results have been most satisfactory. After using the Condiment for a short time, she has not only regained her usual tone, but instead of only a few quarts of milk daily, she is now yielding fourteen, and the quality much richer, and we have plenty of cream for butter and other purposes. I do believe the Condiment to be everything that is claimed for it, and can recommend it with confidence to others.

Yours very truly,

GEO. FRASER, Esq.,
 Agent North British Co's
 Nutritious Condiment, Halifax.

J. K. GOOLD, Major,
 Staff Paymaster to H.M. Forces.

The Condiment will coax the most impaired appetite.

Nutritious Condiment for Horses and Cattle.

Testimonial from Prof. Lawson.

DEAR SIR, DALHOUSIE COLLEGE, Halifax, May 6th, 1879.
I am glad to hear that you are about to resume the agency for the North British Co.'s "Nutritious Condiment," originally introduced by you in 1872. It was then well appreciated by horsemen, cattle feeders, and dairymen in this Province, and the animals shown at the Provincial Exhibition, in October, 1874, for the special prizes offered by you, were very creditable, and attracted much attention.

I am, dear sir, yours truly,
GEORGE FRASER, ESQ. GEORGE LAWSON.

CLARKE'S COMBINED GRINDING MILL AND FEED CUTTER.

(Patented, 1879, in Canada, United States and England.)

CLARKE'S COMBINED FEED CUTTER and GRINDING MILL is either a Hay Cutter or Grain Crusher, or both machines in one.

Its USEFULNESS is only surpassed by its SIMPLICITY.

It cuts Hay, Straw, or any kind of Fodder; also grinds Oats, Corn, Peas, or any kind of Grain, or Spices. A single lever converts the Hay Cutter into a Grinder, or combined machine into a single machine; changes length of feed cut, or stops the feed rollers in a moment, without moving a screw, or stopping the machine. The Grinder can be taken away if necessary, and no change is needed to make it simply a Feed Cutter.

Circulars, with full particulars, will be sent to any address.

We are prepared to receive offers from manufacturers for purchase of Patent, or manufacturing the machine on royalty.

Iron Patterns (complete) can be furnished.

Besides the Condensed Beef prepared from the best parts of the animal, this preparation contains Quinine, Peruvian Bark, and roots for their tonic and health giving properties.

THIS IS THE ONLY CONDENSED BEEF THAT DOES NOT REQUIRE COOKING OR WARMING. It was especially manufactured under the direction of BARON VON LIEBIG, before the late Franco-Prussian War, for the German Soldiers. Its tonic qualities are much greater than those found in any ordinary Specific or Appetizer, and its nutritive properties are sufficient to sustain the body without the addition of solid food. It is now recommended by the Faculty in preference to anything else as the best remedy for **CONSUMPTION, GENERAL DEBILITY, LOSS OF APPETITE, LOWNESS OF SPIRITS, INDIGESTION, DYSPEPSIA, LASSITUDE, &c.**

No article has yet been discovered that is so effective in all cases of failing health in the old, or weakness in the young. This preparation is not only the best, but it is the cheapest Beef Extract offered to the Public: Two Table-spoonful being sufficient three times a day.

Great care should be taken in purchasing the Liquid Beef Extract. See that the bottle contains the German Label and Certificate from Professor Wagner, of the University of Wurtzburg, and that it is prepared by the Liebig's German Beef Extract Co., as other extracts of an inferior quality have been put upon the market.

Price 75 Cents per Bottle.

For sale by all Druggists.

FOR BLASTING PURPOSES,

Can now be supplied in Packages, containing 50 lbs. each,
for export to any part of the World.

NOBEL'S DYNAMITE,

—OR—

SAFETY GIANT BLASTING POWDER,

Is the Cheapest and Most Powerful Explosive for every kind of Mining and Quarrying Operations; for blasting in hard or soft, wet or dry Rocks; for clearing land of Tree Roots and Boulder Stones; for rending massive Blocks of Metal; for Subaqueous and Torpedo purposes; and for recovering or clearing away of Wrecks, &c.

Its Safety is evidenced by the total Absence of Accidents in transit and storage. It is insensible to heavy shocks, its Giant Power being only fully developed when fired with a powerful percussion detonator, and hence its great safety.

As a Substitute for Gunpowder its advantages are, the Great Saving of Labor, rapidity and Increase of work done, fewer and smaller Bore-holes required, greater depth blasted, safety in use, no Danger from Tamping, absence of smoke, unaffected by damp, &c.
