BROOKLYN EVENS UP, INDIANS SHUT OUT

Dodgers Roll Up Three Runs Off Bagby, While Grimes Is Invincible in Pinches

Catches by Speaker and Griffith Features--Attendance Falls Off.

New York, Oct. 6.—In a pitching duel between the leading hurlers of the National and American Leagues, Burleigh A. Grimes, Brooklyn's spitball ace, today shut out Cleveland 3 to 0 in the second game of the world's series at Ebbets' Field.

The inability of the Indians to connect with Grimes' slants, which have meant the scoring of runs, is proved by the fact that the Cleveland clan got 14 runners on the bases, when ten were stranded and four retired by subsequent plays.

MAGISTRATE KINGSFORD VICTIM OF PNEUMONIA

Two Weeks' Illness Fatal to Second Police Magistrate, Who Was in His Seventy-First Year--Known as an Ardent Imperialist.

Rupert Etheridge Kingsford, K. C., second police magistrate of Toronto, died at his residence, 13 St. Joseph street, at four o'clock yesterday afternoon. He had been suffering from pneumonia for two weeks, having been seized with the illness shortly after returning from a holiday in Muskoka.

Magistrate Kingsford was born in Montreal, October 20, 1849, and was a son of William Kingsford, the well-known historian. He was educated at Upper Canada College and at Toronto University, being a member of the latter. He took part in repelling the Fenian raid and was wounded. He was called to the Ontario bar in 1878.

Mr. Kingsford, in 1875 married Alice, daughter of George Templeman Kingston, M.A. (Cantab). In 1894 he was appointed by Sir Oliver Mowat, deputy police magistrate for Toronto. In 1905, on giving up the practice of law, he was appointed assistant police magistrate, a position which he held up to the time of his death.

The deceased is survived by his wife, three sons and four daughters. The sons served overseas in the great war and were all wounded. Their names being George, who is now in China; Maslow W. B., of the Royal Canadian Dragoons; and Captain

Canadian Paper Trade Association Holds Annual Convention in Toronto.

The third annual convention of the Canadian Paper Trade Association was commenced at the King Edward yesterday when some fifty representatives of the industry assembled in conference.

An address of welcome was given by John F. Ellis, of Toronto, after which John Martin, of Winnipeg, president of the association, presented his annual report.

The principal address of the day was given by W. C. Ridgway, general secretary of the National Paper Trades Association of the United States, who declared that recent indications do not give any hope for reduction in the price of paper.

A lengthy discussion on the protection of jobs by manufacturers took place, whilst the report of the mill reduction committee took up some considerable time of the afternoon session.

Election of Officers. The last business of the day was the election of new officers. John F. Ellis was elected honorary president; C. W. Graham, president; E. Dawson, first vice-president; C. S. Kay, second vice-president; E. S. Munroe, treasurer; and N. L. Martin, general secretary.

The annual dinner of the association took place last night. John F. Ellis presiding over some one hundred guests. The principal toast was "Pulp and Paper Industry of Canada," which was replied to by C. Kent in the absence of J. A. L. Dawe, secretary of the Canadian Pulp and Paper Association.

At today's session of the association some important matters will be up for discussion. In the afternoon the delegates will be the guests of the city for a tour of the harbor.

PLUCKY POLICEMAN BESTED BURGLARS

Constable Logie Wounded in Gun Fight—Saves Toronto Bank From Burglary.

In a gun fight with three desperate bank burglars at 119 a. yesterday morning at Ellisworth avenue, just west of Christie street, P. C. William Logie, of Markham street police station, was shot twice thru the right arm. After being attended to by Dr. C. J. Taylor, 645 Christie street, Logie was removed to St. Michael's Hospital, where he was reported last night to be resting quietly.

According to his own story Logie was riding his wheel north on Christie street, when near St. Clair avenue he saw two men standing in the market garden at the back of the temporary premises of the Bank of Toronto, located at the southwest corner of St. Clair avenue and Christie street. Logie saw the men start towards the bank, and he started towards the men, who ran south thru the garden to the lane, which led towards Ellisworth avenue. Logie then retraced his steps and running down Christie street headed the men off at the entrance of the lane on Ellisworth avenue. Pointing his revolver at the men, Logie commanded them to put their hands up and both obeyed, but at that instant another—a third man—fired at him from the darkness of the lane. That was sufficient to give the other two courage to do likewise and all three fired a fusillade of shots in the direction of the plucky constable, who stood his ground until two of the bullets struck him in the right arm, rendering it helpless.

Logie, however, is confident that one of his shots found a mark in one of the men. Immediately he saw that the men had covered were drawing their revolvers, Logie fired point blank at the nearest of the two, who yelled "I am shot." The other two, from the darkness of the lane, continued to fire shot after shot at Logie. As he was unable to return their fire, his "shooting" arm hanging limp at his side, there was only one thing to do, and that was to get out of reach of the murderous bullets. Logie made for the office of Dr. Taylor, where he phoned headquarters and a general alarm was sounded by Operator Kerr. In the shortest possible time Sgt. Brown of Markham street station and Constables Thompson and Detective Sergts. Taylor and Stewart and others had responded.

It is thought by the police that the two men first seen by Logie were acting as lookout for the gang who were within the bank working on the safe. The fourth man was not seen by Logie, but the police believe he took to his heels when the shooting commenced. Entry to the bank was gained by forcing a side window facing a narrow alley on the east side, between the temporary office and the new building.

That the burglars had been at the "job" for some time before Logie put in an appearance was evident from the condition of the safe. The combination had been smashed entirely off and the door had been drilled in one corner, also the door bore marks where it had been struck by a heavy hammer. The safe was found in the hallway at the rear, near the back door, and it is thought the robbers were going to drill the safe from the outside, as it would be physically impossible to take the safe outside.

The safe, which weighed about 1,600 pounds, and was supposed to be burglar proof, is said to have contained more than \$1,000. The bank has a reputation for the city of Toronto for the St. Clair avenue car also and a general alarm is made on Monday. It is presumed that the burglars were aware of this fact.

In the garden at the rear of the building Detective Sergeant Taylor stumbled upon a kit containing a heavy sledge hammer, a crow bar and heavy gimlet, which was wrapped up in a heavy overcoat.

Who the exact number of those fired would be impossible to estimate, the whole neighborhood was awakened by the noise of firing. Scores of people, many in night attire, came out into the street while numerous heads were to be seen peering from windows to find out what it was all about. Two bullets struck the home of John Keenan, 17 Christie street, one lodging in the window frame after breaking the glass and the other in an attic bedroom wall. Still another entered the front bedroom window of E. Finn, 831 Christie street.

The burglars, it is thought, had an auto hidden in the vicinity, in which they made their getaway as Logie was one speeding along Christie street while two newbies, who were getting ready to go out on their paper routes, heard the shooting and then heard a motor car on Christie street.

Constable Logie is a married man, with four children. He has ten years' service on the force and is an active member of the Police Union.

MAN SUSPECTED IS UNDER ARREST

(Continued From Page 1).

A quantity of radical pamphlets was found in his room. Department of justice officials declared they had trailed Caruso eight months, suspecting he was connected with radical activities. Their vigil was increased after the Wall street disaster, and they followed him to a Connecticut city where he evaded them on the day a hold-up occurred in the Italian quarter. They explained they had been unable to pursue him into the Italian colony without arousing suspicion as to their presence.

Two victims of the hold-up, in which \$4,000 was taken, came here today and identified Caruso as the man who had robbed them, according to the authorities.

Three Others Arrested.

Three other Italians, one of whom the police allege had a quantity of black powder in his possession, were arrested. Two of them, Vincenzo Abato and Frank A. Ferro, were charged with robbery in connection with the hold-up in which Caruso is alleged to have participated. According to police, victims of the robbery from Waterbury, Conn., where it occurred September 23, identified the men. The third, Charles Pasulo, a barber, was charged with having been a member of the "Breast" gang of powder were found in his barber shop, the police allege.

The charge against Caruso was changed to robbery after his alleged identification by victims of the hold-up.

Police and department of justice agents said they would question all of the men concerning any knowledge they might have of the Wall street disaster. The authorities declared Caruso served a term in the reformatory at Rahway, N. J., as the result of the discovery of a bomb in his home in Jersey City in 1907.

After examining him, officials said they learned he was a member of Alexander Berkman and Emma Goldman, who were deported to Russia.

BIG BOND ISSUE BY GRAND TRUNK

Twenty-Five Million Dollar Offering Snapped Up In New York.

Ottawa, Oct. 6.—(Canadian Press)—Although no official confirmation has been given by the railways and canal department, it is understood that the newspaper announcement of the issuance of \$25,000,000 sinking fund gold bonds of the Grand Trunk Railway is correct. Major Graham Bell, deputy minister of the department, was not returned to Ottawa this evening, and it is authoritatively stated that he has been in New York in connection with the purchase of bonds by William A. Reed & Co. This firm heads the syndicate of New York and Chicago bankers, which will offer the bonds for public subscription.

Hon. J. D. Reid, minister of railways, is in England at present, and it is not known just what purpose the money obtained thru the flotation of the bonds will be used for. It is said that they will be guaranteed by the Dominion government.

Quickly Over-subscribed. New York, Oct. 6.—The G.T.R. bonds were announced at the offices of the syndicate managers. The bonds are twenty-year 7 per cent. sinking fund gold debenture bonds.

CHARGED UNDER O. T. A. William Thorpe, 233 Manning avenue, was arrested yesterday afternoon on charge of selling liquor. Government Inspector Herbert Cross made the arrest. Thorpe was lodged in No. 2 station.

MUST CO-OPERATE IN WORLD TRADE

Britain and U. S. Should Play With Cards on Table Says Sir Auckland.

Washington, Oct. 6.—Adequate world trade development by Great Britain and the United States requires that both nations lay their cards on the table. Sir Auckland Geddes, British ambassador, declared tonight at a dinner given by the Chamber of Commerce of the United States to representatives of the British Chamber of Commerce, here as guests of the United States organization.

The ambassador insisted that there was greater desire in Great Britain for close business co-operation with the United States than has been indicated by many United States writers. He had learned from these writers, he said, "how diabolically clever the British, more especially the English, are, and with what Machiavellian duplicity the British push their trade." Economic waste results when each nation regards the other's commercial and financial activities with suspicion, he said, adding:

"I believe that it is imperative that each country should play the great game of world trade as important to us both, with its cards upon the table insofar as trade is supported and developed by national that is, political action."

Secrecy Breeds Suspicion. "Secrecy breeds suspicion, the member of hostility. I believe that full reciprocity of frankness is essential if we are to avoid difficulties. I believe most strongly that in spite of possible local animosities the development of trade between our nations will pay us both best in the long run."

The ambassador declared published reports that the British government has resolved to the German government a number of German ships with the object of hindering the development of the United States mercantile marine. "Utter nonsense," he said, adding: "The British parliament under the leadership of the government has made it illegal for a period of years to sell any ship in British hands to Germany or to Germany."

Reverting to his theme of mutual understanding, the ambassador said: "If the English-speaking peoples worked together, the hanker communitist or militarist adventures will long continue to disturb the re-settling world."

RESTAURANT MEN MUST GIVE REASONS

Federal Attorney at Boston Will Demand Explanation of Extortionate Rates.

Boston, Oct. 6.—United States Attorney Gallagher announced today that he was going to call on proprietors of hotels and restaurants "to explain what he meant by extortionate rates" for food. The federal grand jury will not be adjourned until his inquiry is completed, he said.

The district attorney indicated that he had been waiting for the hotel and restaurant keepers to mark down their prices to reflect the drop in commodity prices. "Yesterday an association of hotel and restaurant keepers met and considered the situation, but took no action. As a result Mr. Gallagher said he is going to have these hotel and restaurant men in the United States attorneys' office to explain their enormous profits and tell what they mean by their action in keeping up prices."

"On the face of things," he said, "it looks like extortion—nothing more. The prices that are being charged are outrageous. In some places the price of a pound of steak would find a case that this meat is costing \$4 or \$5 a pound, whereas the best sirloin can be bought today for 75 cents a pound. "We are paying tremendous prices for potatoes, while they are one of the cheapest things on the market today. The same is true of coffee."

"What's in a Name?" Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel. By MILDRED MARSHALL.

LAVINIA. Lavinia hails from ancient Rome. It is a name associated with old Italian delites, the not of itself divine. Translated to mean "of Lavinium" it is believed to be the feminine of the old Roman name Lavinus with the "i" changed to "v."

The first Lavinia was a mythical personage initiated by the moderns, the not by the Romans themselves. She was the daughter of King Latinus, according to Lavin and Virgil, and the last wife of Aeneas, in whose "it" she obtained a footing in Italy. Niebuhr denied her existence, personification of the Latin territory. However that may be, the classical Lavinia and bestowed her name upon their daughters.

The name reached England thru literary and religious channels, when

WILL MAKE SURVEY OF APARTMENT HOUSES

Commission to Secure Full Information in Connection With Efforts to Get at Rent Profiteering—Private Hotels and Rooming Houses Subject of Probe—Civic Office to Handle Complaints—Problem of Re-Routing Cars.

The assessment commissioner has been asked by the mayor to make a survey of all the apartment houses in the city, securing the names of the owners, number of tenants in each, and rents charged, assessed value of properties and the percentage of profit accruing to the landlords.

An office will be opened by the commissioner with a lawyer in charge to handle all complaints and general information coming in from the public regarding excessive rents. Advertisement has been published in the newspapers asking all who know of rent overcharges to forward the information to that office.

Assessment Commissioner Forman has already started his investigation. He said yesterday: "Sixteen men from the department will start out this afternoon. Each of them will have a letter to the owner or manager, setting forth the information we want and also giving him an opportunity of putting down the overhead expenses on his building, including taxes, repairs, heating, etc., as well as the rents received."

"We are asking for the rentals fixed from October 1, 1920, not those received before that date. We are also going to rooming houses."

Mr. Forman said that in the event of the legislation sought being obtained, the actual valuation of the property under inquiry following complaint would be required and his department would probably be called upon to give it. Apartment properties that had lately changed hands were using that as an argument for increasing the rents.

The board of control will have a conference with the provincial cabinet tomorrow morning at 11 o'clock on the question of legislation authorizing the establishment of a fair rents court. The Toronto members of the legislature have been invited to attend.

The government will be asked to call a special session to pass the required legislation if the necessary authority cannot be provided by order-in-council.

Re-routing Cars Problem. The Transportation Commission is already working on the problem of re-routing cars when the Toronto and civic systems come under their management next year, and in this connection data is being gathered concerning the destination of patrons of the civic lines. A printed notice appears in the cars asking passengers to give the necessary information to the traffic officers.

It is proposed to merge both systems.

"Last year was the best year in the history of the church, and this notwithstanding the money given to the Church Forward Movement. All our regular funds were increased," stated Mr. Warren, general treasurer of the Baptist Church mission department, yesterday.

The churches throughout Canada gave \$210,947 for foreign missions. Ontario and Quebec convention lead the way with \$125,422. The Maritime convention contributed \$71,255 and western, \$16,688. Ontario and Quebec contributed \$71,745 for home missions.

It is stated that the Ontario government is considering the question of taking action to cancel patents for certain water lots granted by the Whitney government to J. J. Carrick. These are located near Port Arthur and in extent are said to be about 95 acres.

If it is decided to take proceedings along this line, the matter would have to be taken to the courts, and it is understood that Mr. Carrick, who has been at the parliament buildings several times this week, will contest any such action.

Premier Drury is out of town and it is not possible to obtain any further information regarding the action said to be contemplated.

PURCHASE PROPERTY FOR CANDY FACTORY

Residence of Late W. J. Hanna Sold—Building Permits Issued at City Hall.

Burgers, Ltd., candy manufacturers, have purchased from William C. Ballev, thru the Toronto General Trusts Corporation, the property at 157 Sherbourne street, and will convert it into a candy factory. The property has a frontage of 33 feet and a depth of 130 feet.

Morton Keachie has sold his residence in Wyndwood Park to Fred Morrow for about \$60,000. This was formerly the residence of the late Hon. W. J. Hanna.

The steel for the new King Edward Hotel is now up two storeys above the street, or four storeys in all, and according to plans the building will be up the entire 19 storeys before Christmas.

The city architect's department issued permits yesterday for the following residences:

- A Bennett, dwelling, east side of Dufferin street, near Hallam street, \$4,500; Ed. Le Drew, pair semi-detached residences, 335-37 Concord avenue, \$5,000; A. Cornell, dwelling, north side of East Gerrard street, near Morton road, \$4,800; Allen & Low, two dwellings, east side of Willard avenue, near Colbeck, \$9,000; Lewis Batterskill, dwelling, north side of Ansbury avenue, near Elmwood, \$3,500.

LABOR NEWS

COME TO TERMS ON ROOFERS' STRIKE

Employers Agree to Recognize Men's Union and Consider Wage Scale.

Settlement of the roofers' strike upon a basis by which the employers agree to the recognition of the men's union and undertake to enter immediately into negotiations for a wage agreement for the year 1921 was reported yesterday at the Labor Temple.

Secretary John Doggett, of the Building Trades Council, in reporting the settlement, credited it solely to the offices of the Joint Industrial Council, a wholly voluntary body, which offers equal representation to the employers and the men of the affiliated building trades. Sessions of the council were held on Tuesday afternoon at which a proposition was outlined, which was accepted by the men at their meeting at 10 o'clock yesterday morning.

The men went on strike on the 28th of September, seeking recognition of their union and wage increases of from 50 and 65 cents per hour to 62½ and 75 cents per hour.

The Canadian Federation of Labor reports the granting of two charters to the Alberta locals of the Stationary Engineers' Union. This makes a total of ten charters granted by the federation to the stationary engineers of that province.

The Iron Moulders' and Structural Steel Workers' Union initiated eight new members at its recent meeting. Business Agent Alex. Pillow reports that the Toronto local is experiencing a healthy labor market.

A proposal to increase the fees of their organization was introduced at the last meeting of the Carpenters' Brotherhood, but after discussion, was laid over until a later meeting.

M. F. Tupane, president of the Canadian Federation of Labor, reports that his work is progressing upon the project to unite a national body of the Canadian Federation of Labor, the Canadian Union, and various independent western workers. He points out, however, that the matter is one which will require considerable time for its consummation.

The Bricklayers' Union will unveil a memorial tablet tonight in the Labor Temple to those who were killed in the war. The organization who fell in the great war.

RAJNEY NOT AGAINST FREEDOM OF SPEECH

"I should hope not," said Hon. W. E. Raney yesterday when asked if he ever undertook to tell Mayor Macleod of Brantford that as a supporter of the government he was not to have freedom of speech.

The attorney-general looked up his correspondence and found that he had, some time ago, written to the member Brant, telling him that "as a member of the government occupying a seat on the government, it was his duty, he had some responsibility in imputing improper motives to a member of the government."

BAKERS DIFFIDENT ON PRICE FORECAST

Convention Speaker Claims Trade Using Material Bought Before Slump.

Better bread as the foundation of increased business was discussed yesterday at the King Edward Hotel by 150 members of the Canadian Bread and Cake Bakers' Association, who were in convention. The gathering was inclined to be very pessimistic in its forecast of the year ahead.

The modern baker cannot think of increasing his business apart from the consumer, declared E. Wilham, one of the speakers of the afternoon session, in discussing the modern method of increasing the cost of living. He declared that the bread of bakers' times had not been a self-sufficient commodity because of its lack of the complementary necessities of milk and butter. He then gave various formulas and methods of manufacture which would result in bread of highest nutriment and for which an increased sale could consequently be secured.

Professor Harcourt of Guelph Agricultural College, spoke on the prospects for the baker which this season's crop held out. It was early in the judicial proceedings that he stated, but added that samples examined so far indicated a food value equal to that of last year's crop. He declared that the Guelph College would welcome the establishment of a department which could experiment for the bakers upon methods for the securing of bread of the greatest nutriment, and which could give to intending bakers the basic chemistry required for their trade.

Methods for Advertising. Various marketing and factory organizations problems were tackled in addresses by D. P. Woolley of New York and H. W. Crider of Homestead, Pa. Both speakers stressed bread as a commodity which is delicious, of good value, and ease of serving presented a paramount appeal to the housewife.

Mr. Woolley outlined effective methods for advertising the product, and Mr. Crider offered suggestions for factory organization so as to secure most economical production.

Members of the organization were extremely diffident in making price forecasts and were non-committal when Controller Ramsden, in delivering the address of welcome, requested that he might be the bearer to the Toronto citizens of news of a price reduction.

President Harry Neal of Windsor pointed out that the flour market had just recently slumped and that bakers were still manufacturing from materials bought some time ago. He admitted the probability of a decline, however, by warning members of the association against buying heavily with the market manifesting its present uncertainty.

MAKES APPEAL FOR STRICKEN EUROPE

Red Cross Society Director in Toronto Tells Terrible Tale of Suffering.

"While we at home are intent on industrial expansion and a place in the sun, Europe in its war-weakened condition is fighting for its very existence," said Donald W. Brown, director of the department of organization in the League of Red Cross Societies of the World, which has its headquarters at Geneva, Switzerland. He is in Toronto to learn the peace program of the Canadian Red Cross Society and to establish closer contact between it and the league.

"There is a big field for health work," said Mr. Brown in the course of an interview with The World yesterday, "and I hope that the Canadian Red Cross will receive the support it needs. It did wonderful work in France and in recognition of its services, was decorated by the French government."

In Europe, where suffering has been accentuated by lack of food and clothing and sufficient nursing and medical attention, tuberculosis, small-pox, typhus and dysentery are continuing unchecked. It is estimated that there are over eleven million fatherless children in that great area between the Baltic and the Black Seas who face the next few years, and particularly the coming winter, without hope of proper care unless assistance is given them.

That dread disease which is rapidly spread by a louse in the clothing, is doing deadly work and the people in Poland and elsewhere are driven by want to wear the clothing of those who have died from the disease.

"Founded in May 1918," Mr. Brown continued, "the League of Red Cross Societies has thirty-one national branches. Its main object is to further health education and child welfare in Czechoslovakia a child welfare unit has already been established under English doctors and nurses. Here the native women are particularly in the work of combating the diseases raging there. Tremendous good is being done in child feeding also. Rumania, Serbia, Austria and Hungary are distinctly barren of doctors and nurses, and after a course at King's College, London, nurses will be sent to those regions which require the most urgent attention.

So pitiful are the conditions among the children in some parts that it is almost past human belief to place credence in the report that over five thousand orphans were found living like wild animals in the Rutherfordian mountains.

"But it is to Poland that we are directed to turn our attention," Mr. Brown emphasized. "The Bolshevik advance swept the country of all domestic animals, poultry and grain, and so many houses were destroyed that the population is living under conditions that are particularly conducive to the growth of typhus. Hundreds are packed together amid scenes of indescribable filth in the homes that have escaped the Red terror, and their weakened constitutions are unable to fight the disease, and medical assistance is sadly lacking."

Mr. Brown said a Canadian Red Cross appeal on behalf of the British Empire Fund would be made through the Dominion.

SIR ROBERT BORDEN WILL DELIVER LECTURE

The second of the series of Marslett lectures will be given at Convocation Hall in March by Sir Robert Borden. They are primarily for the students of the university, they are also open to the public.

These lectures were provided by Mrs. Lydia A. Marslett of Prophetstown, Illinois, who gave \$5,000 to the University of Toronto ten years ago to fund a special lectureship. The interest of the money is used to give this series of three lectures every four years, with the purpose of promoting good relationship between Canada and the United States. The theme usually deals with the political movement in the two countries.

BROTHERHOOD PARTY MOTORS TO WASHINGTON

Ten motor cars, containing forty-eight delegates, left Sunnyside yesterday morning en route to Washington, where the World Brotherhood Federation congress will be held from the 9th to the 18th. Another party left in the afternoon by train.

Among the Toronto delegates are: James Burns, Rev. Dr. Alfred Hall, W. H. Male, Mrs. Male, Rev. E. B. Lansdowne, John Cowan, Dr. T. A. Moore, Dr. Shearer, J. O. W. Kearney, Dr. Plidgen, Rev. J. A. Toussot, W. A. Seaman, W. K. Freudenburg, J. W. Mowbray and Rev. D. M. McLachlin.

BANKS MAKE APPEALS AGAINST ASSESSMENT

The banks are well represented in the appeals sent to the court of revision against assessments in Ward 3. The Imperial Bank claims over-assessment of its premises at 76-78 Yonge street and also at 6 West King street. These two properties are assessed at over \$700,000.

A. E. Wallberg, a civil engineer who is assessed on income of \$50,000, claims that his income is only \$12,000. J. J. Morrison, U.F.O. organizer, is asking that his assessment of \$517 on income be wiped off on the ground that he has three dependent children.

ACTION AGAINST CITY.

PROCLAMATION SAFETY WEEK OCTOBER 10TH TO 16TH. The City Council at its last meeting directed that a proclamation be issued requesting all classes of the community to assist in observing the week commencing October 10th instant as "Safety Week," for the purpose of reducing losses due to needless accidents and fires. The statistics show that there were 241 fatalities arising from accidents which occurred in the city in 1919. In addition many persons were seriously injured or crippled for life. These losses are a serious drain upon the resources of any city, and the necessity of more care and caution in everyday life is most urgent. The Ontario Safety League, supported by public-spirited citizens, as well as by the leading organizations of the city is carrying out this campaign, which should have the whole-hearted support of the public at large. It, therefore, most earnestly asks the enthusiastic help of every citizen in making Toronto a "safer city." Feeling assured that by united effort a material reduction in preventable casualties can be at once secured. T. L. CHURCH, Mayor. Mayor's Office, Toronto. October 5th, 1920. GOD SAVE THE KING!

HIGH RENTALS NOTICE TO TENANTS. Numerous complaints having been received respecting the exorbitant increases in rentals which have been made by many landlords for dwelling houses, apartments and single rooms throughout the city, the Board of Control have authorized this advertisement requesting citizens who have been obliged to pay unreasonably high rentals to fill in the following form and return the same to the Assessment Department, City Hall, at once. Name of tenant. Location—Name and number of street. Name of owner. When tenancy began. Length of term. Nature of tenancy—Monthly or yearly. Former rent and present rent, also increases in rent during period of tenancy. Reasons given for such increases. Further remarks. All replies will be treated in a strictly confidential manner. J. C. FORMAN, Assessment Commissioner. City Hall, Toronto, October 6th, 1920.

THURSDAY MORNING, OCTOBER 7.

Blaming the Government for Not Controlling the Canadian Wheat Board.

Some of the leaders of our western grain growers are getting cold feet as the price of wheat slides down the toboggan. They now regret the passing of the Canadian Wheat Board and would have us believe that the government failed to keep the board alive.

The Canadian Wheat Board was in full operation seven or eight months ago, and it was at that time a thoroughly detested body in the province of Saskatchewan. The farmers had to sell their wheat, if they sold it at all, at the price of \$2.15 a bushel, and a certificate entitling them to share in the final profits of the undertaking.

It turned out that the western grain growers howled before they were hurt. Their participation certificates proved so valuable that the average price received by the Canadian farmer equaled the average price received by the American farmer.

The World was the first paper on this continent to suggest the nationalization of wheat, and W. F. Maclean, M.P. for South York, repeatedly urged upon parliament the propriety of establishing a permanent policy for national marketing of our wheat.

efficiency, and with strong views against it as a permanent policy.

Last year the American farmers, with a minimum price guaranteed of \$2.25 made some money, gambling with the bulls and bears on the Chicago wheat market. They enjoyed seeing wheat tumbled up by the bulls and they knew the bears could not drag it down with Uncle Sam ready to give \$2.26 a bushel.

There will be more business and more work for every one under lower prices. First of all, people want houses and business men want business accommodation of all kinds, and cheaper building material and cheaper labor because of reduced cost of living.

The railroads will call for immense production of equipment, bridging, upkeep. So will the street cars and radials. Electrification of railroads will make big orders. Gold mining, coal mining, all kinds of mining will take many new men.

The Paper Boom is on the Wane. The declarations of Lord Beaverbrook of the London Express against the unfair and over-high price of paper and of the Ontario government that it will build a pulp and paper mill and hydro-electric power plant to work them; also the failure of the Montreal and Toronto brokers to unload on the investing Canadians a lot of watered stock in paper and pulp companies.

bringing to an end the wild profiteering started in Canada by the companies who had got control of pulp wood limits and water powers on the public-owned lands and rivers of Ontario and Quebec. There will be so many new and old mills that prices will have to drop away down to keep them going.

DODGERS SHUT OUT THE INDIANS IN SECOND SERIES GAME, 3 TO 0

BAFFLING SPITTER BLANKED INDIANS

Grimes Had Cleveland Well in Hand All Way in Second.

THREE TO NOTHING

Timely Hitting of Dodgers Evened Up the Series Wednesday.

Brooklyn, Oct. 6.—The detailed story of the second world's series game follows:

First Inning.—Cleveland—Jamieson out, Koney to Grimes. Johnston threw out at first. Speaker singled past Johnston. Smith struck out, being unable to fathom Grimes' quick-breaking spitter. No runs. One hit. No errors.

Brooklyn—Olson popped to Wambly, hitting the first ball squared. Johnston got a hit into deep short; Johnston stole second. Griffith went out, Johnston to Bagby. Johnston went to third. Wheat hit to centre field for two bases, forcing Johnston. Wheat made second by first base running. Gardner threw out Myers at first. One run. Two hits. No errors.

Second Inning.—Cleveland—Gardner got a two-base hit into left field. Grimes took Johnston's grounder and tossed to Olson, who touched out Gardner between the bags. Johnston getting to first. Sewell filed to Olson. Johnston went out assisting Miller to Kliduff. No runs. One hit. No errors.

Brooklyn—Jamieson made a nice catch of Koney's line drive. Kliduff lined out to Gardner. Miller popped to O'Neill, who took the ball near the visitors' bench. No runs. No hits. No errors.

Third Inning.—Cleveland—Grimes tossed out O'Neill at first. Grimes knocked down Bagby's hot grounder and threw him out. Jamieson socked a single over second. Wambly filed out to Wheat. No runs. One hit. No errors.

Brooklyn—Grimes singled thru the pitcher's box. Bagby took Olson's sacrifice and threw wildly to second; both batter and runner were safe. Grimes was spiked as he tried to advance. He sacrificed for Olson, but a fielder's choice. Johnston fouled out to O'Neill trying to beat the pitcher's box. Grimes scored on Griffith's two-base sock into right field. Olson going to third. Wheat was supposed to pass, filling the bases. The Cleveland infield played in close. A double play followed. Gardner took Myers' grounder and threw to O'Neill, who threw to first. The throw hit Myers on the back. Olson tried to score on the play but was out. Johnston to O'Neill. One run. Two hits. One error.

Fourth Inning.—Speaker walked. Smith grounded out to Koney, unassisted. Speaker moving on to second. Gardner filed to Myers. Johnston filed out to Wheat, who ran the bases. No runs. No hits. No errors.

Brooklyn—Koney sent up a high fly to Wambly. Kliduff sent a long fly into left centre, which Speaker took after a long run. Bagby threw out Miller at first. No runs. No hits. No errors.

Fifth Inning.—Cleveland—The stands gave Speaker a big hand as he came off the field. Grimes threw Sewell out at first. O'Neill was hit out by the Olson-Koney route. Bagby sent a long fly to Myers. Grimes' spit ball had the Cleveland badly puzzled. He kept it close and inside, and varied it with a fast inshoot. No runs. No hits. No errors.

Brooklyn—Sewell threw out Grimes at the initial sock. Olson singled, while Grimes threw Sewell out at first. Johnston went out, Johnston to Bagby. Olson going to second. Olson scored when Griffith's grounder got away from Sewell for a hit. Griffith went out stealing. O'Neill to Wambly. One run. Two hits. No errors.

Sixth Inning.—Cleveland—Kliduff threw out Jamieson at first. Wambly filed out to Griffith. Speaker shot a long drive into left centre for two bases. Smith grounded out to Koney. No runs. One hit. No errors.

Brooklyn—Wheat filed out to Speaker, who took the ball over the pitcher's box. Myers got an infield hit, which Gardner could not field in time. Koney filed out to Smith. Kliduff sent a high fly to Smith. No runs. One hit. No errors.

Cleveland—Gardner got a single thru the box which Kliduff was only able to knock down. Johnston forced Gardner at second. Olson to Kliduff. Sewell filed out to Griffith, who made a nice catch up against the wall. O'Neill singled into left field. Grimes, batting for Bagby, struck out on three pitched balls. The crowd cheered for the echo. No runs. Two hits. No errors.

Brooklyn—Lunt went into the box for Cleveland. Miller struck out. Grimes sent a high fly to Smith. Olson fanned. No runs. No hits. No errors.

Cleveland—Jamieson walked. Burns batted for Wambly. Kliduff was hit. Kliduff threw out Speaker at first, Jamieson going to third and Burns to second. Smith fouled out. Johnston. Gardner walked, filling the bases. Johnston forced Gardner. Kliduff to Olson. No runs. No hits. No errors.

Brooklyn—Lunt went on second base for Cleveland. Johnston popped to Sewell. Griffith fanned. Wheat filed to Jamieson. No runs. No hits. No errors.

Ninth Inning.—Cleveland—Sewell grounded out to Koney, unassisted. O'Neill filed out to Griffith. Numamaker, batting for Uble, singled over second base. Jamieson filed to Wheat. No runs. One hit. No errors.

Final score.—R.H.E. Cleveland..... 3 7 0 Brooklyn..... 0 0 0

LOCAL FANS BACK BOTH DODGERS AND INDIANS They roared at the Star Theatre just like a real ball game, and when Zack Wheat sent Jimmy Johnston across the plate in the first innings yesterday the crowd cheered and showed that a good half of it was for the Dodgers. The result makes an even break, with spit-ball artists winning for each side. It should be Smith vs. Matis today, and the result a toss up. The game starts at 1 p.m. tonight, and Tommy Ryan puts the Toronto time, and Tommy Ryan puts the Toronto time, and Tommy Ryan puts the Toronto time, and Tommy Ryan puts the Toronto time, and Tommy Ryan puts the Toronto time.

CUTTING 'OVERHEAD' ON CLOTHES. It was a representative of the Semi-Ready Company who pointed out during the war period, which made our country safe to strike in, the money could be saved by direct buying of cloth from the mills, and then issuing that cloth to uniform manufacturers at cost. It saved 'overhead'.

I am tailoring and trimming suits on measure for \$22, plus the cost of the cloth, and saving my customers from \$15 to \$25 on winter suits and overcoats," said Mr. Mathewson, who owns the Semi-Ready store at 703 Yonge street below.

INDIANS' TURN TO FALL BEFORE SPITBALL OFFERINGS IN SECOND

Ebbets Field, Brooklyn, Oct. 6.—Burleigh Grimes fitted a fine coat of whitewash on the backs of the Cleveland Indians today, and the Brooklyn Dodgers, champions of the National League, walked off the field with a three to nothing victory in the second game of the world's series. Grimes' spitball tied the backs of the visitors in knots. Brooklyn's hitting was timely; the National Leaguers getting to Cleveland in clusters when they meant runs. A dissection of the following official score shows how Cleveland came a cropper and Brooklyn evened the series, each club now having won game apiece.

MORE INJURIES AT ARGOS' WORKOUT

O'Connor and Murphy Hurt Varsity Seniors Turn in Good Practice.

Argonauts' campaign of preparation for the game in Montreal on Saturday was continued last night with a strenuous line-up practice. The line is still clogging on the trail of the scullers, and two more were added to the injured list. Jack O'Connor injured his hand, and it is feared that a small bone is broken. It is hoped that he will be able to play in Montreal. Murphy came out of a tackle with a bad shoulder, and was not able to raise his arm after the practice. Polson will hardly be in shape to play Saturday, and Dunbar is out for the season with water on the knee.

Lights have been installed at Varsity, and made the field bright as day last evening. Garnet, late of Opa, was going well at outside, but the other outside wing candidates did not shine. Ai Young was tried at inside, Glen Sullivan was going great guns last night, and is playing the best football of his career right now. The team leave for Montreal at 11 o'clock on Friday night.

The Varsity seniors showed up much better against the intermediates last night. Snyder, Frank Sullivan and Allen were the halves, and they did some nice running and kicking. Snyder went the full length of the field on one occasion for a try. Green was out, but will hardly play on Saturday.

It will not be an untried, unconditioned squad that Varsity will be called upon to tackle on Saturday at the stadium, but an all-star veteran fourteen, composed of young old boys who are determined to show Cassels "taddies" that there are few things that they do not know and can do better than any other team in the city.

FRESHMEN INITIATED IN UNIVERSITY BATTLE

Free Use of Paint and Axle Grease in Stadium Entertainment—Old Clothes No Protection for Youthful Contenders—Budding Dentists and Doctors Make Matters Lively—Many Baths in Icy Waters.

Axle grease, paint of varied colors, tomatoes, not too fresh eggs, and more or less spoiled fruits from the soft slimy substance of a peach to the more solid body of an apple, all played their part yesterday afternoon in the annual initiation of freshmen students at the University of Toronto. Old clothes were no protection for the youthful contenders, for in the general free fight that followed the initial rush in the stadium saw the members of the initiation committee, the "Dents" of the Dents, the freshmen, sophomores as well as freshmen. The holiday roughhouse was divided, as usual, into two sections, the "Dents" of the Dents, the freshmen, sophomores as well as freshmen. The holiday roughhouse was divided, as usual, into two sections, the "Dents" of the Dents, the freshmen, sophomores as well as freshmen. The holiday roughhouse was divided, as usual, into two sections, the "Dents" of the Dents, the freshmen, sophomores as well as freshmen.

A spectator's viewpoint, at least, was decidedly the better half of the show. The freshmen, under the leadership of six-foot "Tiny" Guthrie, won the opening rush for the flag, which in the centre of the arena, and will place the torn remnants in the slaughterhouse of the dressing rooms. But in the scramble that followed, the selection of a victor would be a difficult task. The Sophs, under the leadership of "Smothered" Johnson, 274, and "Filthy" Horton, 275, had organized two teams of twelve men each for the purpose of ducking freshmen in a big water barrel provided for the occasion at the east side of the field. The organization was destroyed in the rush, and every able-bodied student took a hand in the duckings. Many sophomores as well as freshmen were bathed in the water. To some, the bath was a treat, no doubt, as they had previously been smeared with well-perfumed hair cream, fruit, or eggs in the common parlance. Many eggs and tomatoes, and unnamed missiles of this soft brand of warfare flew into the stadium stands, some by intention, and ladies and gentlemen in proper civilian attire were rushed from one end of the stands to the other, and then back again, in somewhat vain endeavor to escape the effects of the barrage. We ourselves just missed by a hair due preparation for city's refuse heap.
