INSANITY PEA WILL BE UTILIZED TO SAVE HIM

This Will Be the Defense in Case of Syrian Who Shot Denver Priest-- Precautions Taken Against Lynching. Another Arrest in Chicago Case.

DENVER, March 9.—Anticipating the presence of a large crowd at the opening of the trial today of Giuseppe Alia, the Syrian, who in cold blood, murdered Father Heinrich of St. Elizabeth's church, while he was giving the sacraments on Sunday, Feb. 23, Sheriff Alexander Nisbet had stationed deputies along the walks and in the entrance ways leading from the jail to the courtroom and also in the court room itself. This precaution was taken to frustrate any attempt at mob violence, although the authorities do not look for any real outbreak of this kind.

TOO STRONG ON KISSING

This Man Objects to Osculatory Demonstration More Than Six Times a Day.

CHICAGO, March 9.—Six kisses a day are the limit for Ora M. Leedom. He promised Detective Skark and Johnson who arrested him for deserting his affectionate wife, that he would stay with her on that basis. They found him in Springfield, Ill., where he went several weeks ago.

KING ALFONSO WILL NOT BE WARNED

He Intends to Visit Barcelona Tomorrow and Almost Anything May Happen -- Anarchists Have Decried His Death

BARCELONA, March 9.—General Linares, the captain general of Catalonia is confident that the visit of King Alfonso will pass off safely. His majesty is expected tomorrow morning. General Linares declares the population of this city shows courage in coming after the repeated bomb outrages here is greatly admired. Nevertheless, the captain general is sparing no precautions to safeguard his majesty. The official programme of the visit has not been allowed to be printed and the houses along the streets through which the king is to pass have been thoroughly searched. But in view of the fact that for twenty years Barcelona has been a stronghold of republicanism and the centre of violent Calist agitation brought about by the withdrawal of the ancient privilege of Catalonia at the time the government was centralized at Madrid after the French model, an enthusiastic popular reception is not expected.

IT HAS BEEN HARD WINTER

Many Calls Have Been Made Upon the Associated Charities During Past Few Months

The present winter has been the hardest in the history of the Associated Charities, owing to sickness, poverty and lack of employment. This statement was made this morning to a Times representative by Mrs. C. H. Hall, secretary of the organization referred to.

L. P. D. Tilley Tells How One Government Ward Heeler "Rewarded the Faithful" the Day After Election Day -- The Purity Agreement Violated.

A Times man called on L. P. D. Tilley, secretary of the Social and Moral Reform Council, and asked if the council had done anything in reference to watching the course of events in the recent local government elections. Mr. Tilley replied that the league had not remained with its eyes closed during the recent campaign. They had already, he said, secured some definite information in regard to the violation of the undertaking by both parties that neither money nor intoxicants should be used. When asked as to what he thought about the improvement of conditions as to the expenditure of money in the last local elections as compared with other elections, he said the improvement was wonderfully apparent, in fact there appeared to be very little money going.

SHOT MAN WHO CAME TO ROB

Italian Banker in New York Fatally Wounds Man Who Tried to Loot His Bank.

NEW YORK, March 9.—Pasquale Patti, who conducts a loan, banking and exchange business in the Italian quarter in Elizabeth St., in a pistol duel in which his son in law, Louis Carriar joined, shot Francesco Pellatro, alias Giuseppe Sapio, five times Saturday, as a result of Pellatro's alleged attempt to rob the bank. Pellatro is lying in a hospital, Michele Dogonetto, who is believed to be an accomplice of Pellatro, was arrested while running from the bank after the shooting. For 14 years, Patti told the police, he has steadily received black hand letters and only a month ago the front of his bank was blown out by a bomb and \$40,000 was scattered about the street. The cash was saved by the banker's quickness.

"KEEP YOUR EYES OPEN"

George E. Foster Predicts Additional Sensational Revelations at Ottawa.

TORONTO, Ont., March 9.—(Special)—Hon. George E. Foster, M. P., was a guest at the Fourth Ward Conservative Association banquet on Saturday night and made a rousing speech. "Keep your eyes open," he counselled, adding that the opposition at Ottawa is at work, drilling, training and driving tanner before the present session of parliament is over you will hear additional revelations, not more to the credit of the government than those already made known. I may be strong in my expressions, but I have been in public life for 22 years and so I am a judge of parliamentary work, and know what it means. Yet I say that a more extravagant, shameless or unworthy government has not been in Canada since 1877. What a shock it gives us to investigate and find that the government has been passing out valuable franchises to its friends and favorites. Coal lands of the west are being alienated as fast as clerks at Ottawa can scribble out permits, while in regard to timber, we are in the midst of the most atrocious deals ever made by any government of any country. Timber, grazing, agricultural and coal lands are concerned in these transactions. Last of all we have unearthed the fact that during the past five years hundreds of thousands of square miles of valuable fishery reserves in the northwest were parcelled out and leased for a period of twenty years to friends of the government. On these grounds alone the people of this country have a perfect right to rise and no longer allow the liberal party to hold a position of trust."

HE MET DEATH IN THE "CHAIR"

Italian Murderer Electrocuted in Sing Sing Today.

OSISNING, N. Y., March 9.—Antonio Stroilo, an Italian who killed a man in Yancourtland Park, near here for the purpose of robbery, went to death in the electric chair at Sing Sing prison today with a smile and a cheery goodbye to those who had been summoned to witness the execution. Stroilo showed the most extraordinary composure for an instant. Four convicts were made before the man was pronounced dead.

SENATOR PERLEY EXPOSES A GAME

How "the Secret Ballot" Was Worked at Blissville

MADRID, March 9.—It developed here today that a section of the Spanish ministry is bitterly opposed to King Alfonso's stay in Barcelona, which is described as "wasp's nest," but the king, with a display of the old Bourbon courage, has refused to be dissuaded. He considers it his duty to go and is confident that his visit to Barcelona will appeal to the chivalrous spirit of the Spanish people and have a good effect. A despatch has been received here from the Spanish minister to Switzerland saying that the anarchists of Geneva have vowed the death of King Alfonso and Premier Mauras.

DISCUSSED NEW WHARF

West Side Improvements Committee Spent Some Time Over It This Morning

In consequence of objections raised by Capt. Walsh, marine superintendent of the C. P. R., that the proposed extension of the new west side wharf to the harbor line, would make the space between it and Sand Point wharves too narrow to allow the Empire steamers to be handled, the west side committee met this morning to consider the matter.

BREAKING UP THE DIAMOND TRUST

Monopoly Which Controls the Output of Diamonds Will Probably Be Ended.

LONDON, Mar. 9.—There is a probability, according to the Daily Mail, that the diamond monopoly will be broken up through the non-renewal of the contract, which expires this month, between the Premier Diamond Mining Company and the diamond syndicate, which hitherto has taken the output of both the Premier and the De Beers companies. In case the contract is not renewed, war will be declared by the Premier Company against the De Beers.

CHURCH SEXTON HALF A CENTURY

Frank Brown Has Resigned His Position in Carleton Methodist Church.

Mr. Frank Brown, who has recently resigned his position as sexton of the Carleton Methodist church, was presented one evening last week with an address of appreciation and a purse of gold—\$50. The presentation was made by the trustees of the church on behalf of the congregation, the members of which contributed to the fund for that purpose. Mr. Brown has held the position for nearly 50 years and on account of advancing age felt that he could no longer do the work.

HE WAS PREMATURE

Worcester Man Expecting Death Gave Away His Property—Now He is in Alms House.

WORCESTER, Mass., March 9.—Dr. John Wallely, well known here as a cancer expert and a philanthropist, has applied for admission to the poor house at the age of 83. A year ago Dr. Wallely decided that he could not live more than six months, and therefore gave away all his property, retaining only enough money to keep him the half year. The amount has been used and as he has no relatives and nothing to live on, he asks the county authorities to care for him.

HIRAM ON PURITY.

"Well," said Mr. Hiram Hornbeam to the Times newspaper reporter this morning. "I see you had a pure election in St. John. Two dollars an' a pair o' gloves. It beats all how pure people kin be when they try. But they done a little better out to the Settlement. When the government fellers heard about anybody that was likely to go opposition, they went to em three or four days afore the election an' hired em for the day."

CHAPTER I. Keith, who hitherto had paid but scant heed to the drinkers about him. "A bonnie company, as thou sayest, and Scots among 'em, Alan. Scour the wide world o'er from Ailsa Craig to the Indian seas, thou'll find a Scot—a Scot and a Jew, laddie, the favored children of the Lord."

Invalid Ladies This Is For You.

There are thousands of females who suffer untold misery common to their sex. This is largely due to the peculiar habits of life and fashion, and the improper training of girlhood. Then, too, the physical changes that mark the three eras of womanhood (the maiden, the wife, and the mother) have much to do with her sufferings, most of which are endured in silence, unknown by even the family physician and most intimate friends.

of fashion to be found in the Prince's entourage. But his influence and position notwithstanding, the man's vapourings on tactics and policy were evidently little to the taste of his elders, however much they impressed on younger men. My kinsman yawned and drummed upon the boxes with his knuckles, while Colonel du Merle expressed his weariness by leaning back in his chair and blowing tobacco rings across the table. The Hungarian officer, however, was well enough content to drink the liquor that their comrade ordered and I listened half-dozing, half-amused, watching the play of the man's flushed features not without the expectation of gaining some enlightenment from some state.

And entertainment I had, and of a nature that I scarce looked for, entertainment that culminated in uproar, came near cutting in sword-play that night and was the cause original of my much toil and no small peril in the days to come and in the event of joy that I but too deeply desired.

It was growing late and glasses and tankards had been filled and refilled when the Count von Wagon drifted from a survey of the policies of sovereigns and ministers to enlarge upon his own knowledge of the world and in particular of the part played in the Prince's journey to Vienna and of the part he had played therein.

ENDORSED BY THE BISHOP

Bishop Richardson Presents a Pastoral Letter in Favor of the Laymen's Missionary Movement.

The following pastoral letter by Bishop Richardson on the Laymen's Missionary Movement was read in the Church of England pulpit yesterday: To the Laymen of the Church of England in St. John:

My Dear Brethren: Many of you have doubtless heard something of what has become known as the "Laymen's Missionary Movement," and as arrangements are being made for its initiation in St. John on Tuesday next, I want to say a few words to you upon the subject in advance.

Let me begin by telling you what the movement is. It is simply an organized and systematic recognition by the laymen of the extension of their responsibility that rests upon them as laymen for the collection and administration of money. It is not in any sense an interference with the already constituted machinery for missionary effort. It aims to take the steam lying latent in the church, but by the men who are, or ought to be, the backbone of the church's membership.

It was with this deep conviction that the movement was initiated in New York about a year ago, and under its powerful impulse, the laymen of city after city in Canada, no less than in the United States, are being stirred to united action as they have been never stirred before.

My Dear Brother: It is my desire that the above pastoral to the laymen of the church in St. John be read from the pulpit in your church next Sunday morning, and that you will give your own share in the coming of the same day in the Assembly rooms at half past six. In view of the Lenten season, I would suggest that the service be held upon the fact that this luncheon will be of a simple character, and has only been arranged as a convenient means of getting men together.

DR. WOOD'S NORWAY PINESYRUP

Contains all the wonderful lung-healing virtues of the Norway pine tree and cures Coughs, Colds, Bronchitis and all Throat and Lung Troubles.

Do Not Accept Dangerous Substitutes. There is nothing "just as good" as Dr. Wood's. Put up in a yellow wrapper; three pine trees the trade mark; the price is 25 cents.

COLD SETTLED ON THE LUNGS. Mrs. Irwin Bennett, Parrsboro, N. S., writes: "I feel it my duty to write a few words in praise of Dr. Wood's Norway Pine Syrup. I took a bad cold, which settled on my lungs, and made it almost impossible to breathe at times. I coughed constantly and could not sleep at nights. A friend told me how Dr. Wood's Norway Pine Syrup had helped her, so I procured some, and before I had taken one bottle my cough was gone and I could lie down and sleep at night."

COUNT BONI'S FORMER WIFE REPORTED WED TO PRINCE DE SAGAN

Paris, March 7.—Although Prince Helie de Sagan continues to visit Madame Goude, who recently procured a divorce from her husband, Count Boni de Castellane, her children, both in Paris and at Madame Goude's country residence, the report that the Prince and Madame Goude had been married not only cannot be confirmed, but it is discarded.

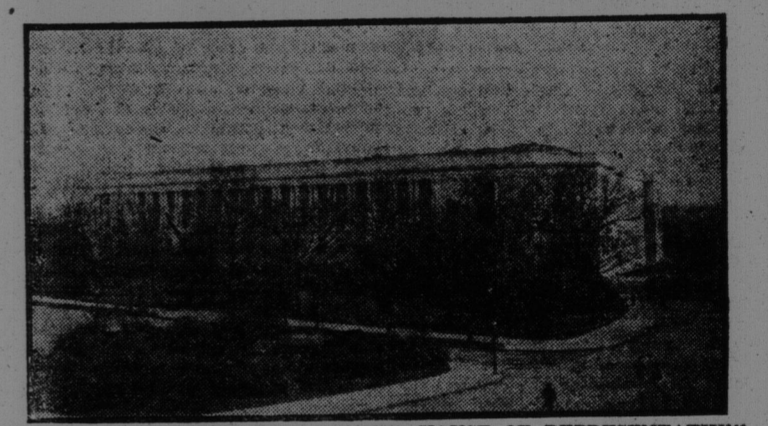

Madame Goude's friends admit that the visits of the Prince would naturally give color to rumors of an approaching marriage, but they do not believe that the ceremony has taken place or is imminent. On the contrary, Madame Goude has announced her intention of leaving her children for the United States with her children to spend three months with her relatives. It is understood that Count Boni's consent to take the children away from France, which is required by the decree of divorce, already has been secured.

A secret marriage in France is almost impossible, because the law requires the publication of the bands a fortnight in advance. Furthermore, unless there is a marriage contract, a French marriage means that the property of the husband and wife is in common. It is a fact that Madame Goude's lawyers have arranged no such contract for her.

THE QUESTION OF FLOUR. Not the least of the many problems which puzzle the young housekeeper, as the selection of the flour. Cook books are often indefinite, one recommending another, neglecting the point or insisting on some flour you have found unsatisfactory. Have you ever tried blended flour? If not, use it next baking day. The leading Ontario millers are now making a blend of Ontario fall wheat with Manitoba spring wheat in such a way that the qualities of both are combined scientifically to make a perfect flour.

Man Proposes—Woman Opposes. And the divorce court exposes. The mission of Putnam's is to cure corns and warts which it does in 24 hours. Incest in this city to stand behind this laymen's missionary movement; and, with that end in view, to take some personal part in the meetings of Tuesday afternoon and evening.

HOME RULE WON. The question of Home Rule for Ireland was debated by the St. Peter's Y. M. A. yesterday afternoon. After able arguments had been presented for both sides the judges decided the affirmative had won. George McClusky led the affirmative and E. Black the negative. Mr. McClusky took the stand that Ireland was as much entitled to self-government as Canada and the other colonies. He argued that home rule would do away with the unrest and discontent for the welfare of the development of the country. Mr. Black on the other hand argued that home rule would result in complete separation from England.

NEW OFFICE BUILDING OF THE HOUSE OF REPRESENTATIVES. The members of the United States house of representatives taking possession of their magnificent new home adjoining the United States Capitol at Washington. It will be some weeks yet before the monster building is fully completed and all its rooms—there are upward of 900—in readiness for use, but congress has already moved in and is getting settled on the installation plan. This new marble office building, which has cost the tidy sum of \$3,000,000, was erected because the capitol building long ago proved too small for the needs of a rapidly growing law-making body. It is the largest office building in the world, and a handsome private office is provided for every one of the 400 representatives in congress. All these offices are furnished exactly alike, each containing a desk, leather rocker, table, chairs and a combination wardrobe and bookcase. All the furniture is of solid mahogany. Each office has a telephone and a spigot from which the thirsty legislator may draw ice water at any hour of the day or night. In addition to a private office for each representative the mammoth new structure provides numerous committee rooms, conference rooms, etc., as well as restaurants, shower baths, etc. An underground electric railroad connects this building with the capitol via an electric lighted tunnel.

FUTURE OF MARITIME PROVINCES Dealt With in Excellent Address by B. E. Walker Before Halifax Board of Trade.

The following is from the Chronicle's report of the address of B. E. Walker, of the Canadian Bank of Commerce before the Maritime Board of Trade.

FEDERATION WITH THE WEST

Speaking of the West Indies, Mr. Walker said there were a great many people in Canada who hoped we would sometime be able to round out our destiny...

"One understands and accepts the bitter scorn of the Dutch; the hopeless anger of one's own race in South Africa is also part of the burden; but the Canadian's profound, sometimes humorous, often bewildered, always polite contempt of the England of to-day can be felt."

"I went across to Canada the other day, for a few weeks, mainly to escape the Blight, and also to see what our Eldest Sister was doing."—Kipling.

CANADA and the Canadians have been carefully analyzed by the microscopic eye of Rudyard Kipling

who traversed the country from Quebec to Victoria for this purpose--as the peaceful, critical envoy of the British reading public.

The result--surprising, Kiplingesque, thrilling to Canadians and Englishmen alike--is given in the great writer's series of articles

BAITING MR. HAZEN

TEACHERS' PENSIONS

At the state house in Boston one evening last week four different bills relative to teachers' pensions were presented. That which was presented by the school committee, and which is favored by the teachers' club of one thousand, is thus described by the Boston Transcript.

"Daniel A. Ellis, of the school committee, speaking for the bill, said when the present school committee took hold, two and a half years ago, the first work was done in protecting the entrance of the teachers into the service and so they had enacted a school committee civil service law by which it is impossible for a teacher to get employment unless he or she is one of the first three on the list for the different departments.

CONGO REFORM

King Leopold of Belgium, whose responsibility for the horrible atrocities in the Congo region have won for him the title of the arch-murderer of modern times, is to be compelled to lose his grip but is not to be deprived of his ill-gotten gains.

and Great Britain and the United States have been exerting their influence to bring about reform. The Belgian parliament appointed a commission, and on its report a scheme has been prepared, which will probably be adopted, and by which the control of the Congo, except one small section, shall pass to Belgium.

"The text of the new Congo annexation treaty was submitted to parliament today by Premier Schollaert. It confirms the forecast that King Leopold agrees to abandon the crown domain and the crown foundation to Belgium, but it requires that Belgium shall not only assume all the Congo obligations, but undertake also to continue the king's usufruct in the Congo revenues during his lifetime.

It is much to be regretted that it is necessary to defeat a government in order to reform a newspaper—the reformation of the Sun is sincere. But, really, the public should not take the up-street journal too seriously. If it had ever given the slightest fault with any act of the government—there might be some reason to assume that its present utterances are entitled to some weight.

The declaration day speakers in Sunbury county facetiously paid a tribute to the aid afforded the opposition by Col. McLean. It is a notable fact that with the Colonel working against them Messrs. Hazen and Glasier rolled up the largest majority ever gained in a contested provincial election in the county of Sunbury.

The Victoria Colonist remarks: "Since Germany had her fracas with the natives in West Africa, and the United States tried its hand at suppressing the Filipinos and France has undertaken to deal with the Moons, we do not hear quite as much as we did about the inability of Britain to accomplish things in a military way."

The citizens should remember that the civic elections are soon to be held. There should be a keen contest with strong men in the field.

DULL STRENGTH IS THE FEATURE OF THE MARKET (J. S. Bache & Co's Report.)

NEW YORK, March 7.—A significant item in the news of the week confirms the opening of the idle mines of the Amalgamated Copper Co., as well as the Butte and North Butte companies, putting 7,000 men at work eventually.

The citizens should remember that the civic elections are soon to be held. There should be a keen contest with strong men in the field.

The market shows dull strength, and gives little indication thus far of the expected slump awaited by investors, who hope to get in on a lower level.

Judge Forbes left Saturday for Ottawa and London (Ont.), where he will attend a Bible Society meeting. Rev. G. M. Campbell and Joshua Clawson will go this evening.

COMMENT UPON WOMAN SUFFRAGE
What Sir William Bull, M. P., Said to the Constitutional Club - The Outlook in England.
(Vancouver World.)
When the Constitutional Club solemnly debates a question, that question is well within the range of practical politics, and where a question gets so far the proposition it advances is in a fair way of becoming law. The suffragettes are to be congratulated on having gained a hearing for their cause with the subjects of that notable institution, the well-to-do gentlemen whose name is exactly one of those we should expect to find on its books. According to the report before us most of the speakers favored woman suffrage. Indications, indeed, were not wanting that we may one day see the Conservative party making the plank to their platform "no separation" and "fair reform." The report is in part as follows:

"Sir William Bull, M. P., in opening the discussion, said the time was rapidly approaching when the question of woman suffrage must be dealt with in one way or another. The recent action of its most prominent advocates might be considered reprehensible. But it had to be remembered that, as a rule, those people who made the most noise got what they wanted, and he had no one to blame for their sincerity and their courage. Every great movement had three stages—first, tremendous ridicule; secondly, fierce opposition; and finally, approval. The woman suffrage movement was passing from the period of ridicule into that of fierce opposition. Lord Beaconsfield in 1873 had said in the abstract that it was in favor of women having votes, and he thought that the time had now come when its members should see if they could not put that abstract principle into concrete shape. There were 1,250,000 more women than men in the British Isles, and women could not be provided for by marriage; the majority of them must work in order to live. Gross inequality existed in the rates of pay as compared with the rate paid to men, and without representation in parliament women were unable to alter their position. Lord Beaconsfield in 1873, the late Lord Salisbury in 1888, and Mr. Balfour in 1892 had spoken in favor of franchise being extended by women. The late Lord Salisbury in 1888, and Mr. Balfour in 1892 had spoken in favor of franchise being extended by women. The late Lord Salisbury in 1888, and Mr. Balfour in 1892 had spoken in favor of franchise being extended by women.

Have You Pains In Side or Back?
Pains anywhere—in the chest, neck, side, back or muscles—they are always a discomfort. If the inflammation is severe, the pain will be intense. If allowed to continue complications will follow. Physicians say one of the best remedies is "Nerviline"—it can't help curing, because it penetrates through the sore tissues, carrying healing properties that destroy every symptom of pain. In case of colds, sore throat and pleurisy, there should be a good hand rubbing with Nerviline, and, of course, to prevent the trouble coming back, it's advisable to put on a Nerviline Plaster, which, by absorbing through the skin draws out all congestion. For general household use, for curing the ailments of the young and old, for destroying all pain, outward or inward, no combination could excel Nerviline and Foley's Nervine Plaster Sold by all druggists.

Woods Led in Queens With 85 Majority.
Gagetown, March 7.—Queens county declaration day proceedings were held quietly this morning, when the official returns were announced as follows: Woods, 1,296; Landry, 1,232; Farris, 1,181; Carpenter, 1,168. Brief addresses were made by all the candidates.

Opposition Had 600 Majority in Kent.
Richibucto, March 7.—The result of the contest in Kent was officially declared this afternoon in the presence of quite a number of electors. The proceedings passed off without any occurrence of unusual moment. The official returns were as follows: Bourque, 2,278; Landry, 2,270; Sheridan, 2,234; Carter, 1,857; Robichaud, 1,850. The successful and defeated candidates were present and briefly thanked the electors for their support.

Official Figures in Westmorland.
Dorchester, N. B., March 7.—Declaration proceedings in Westmorland passed quietly today. All the candidates except Mr. Leeger, who was called to control on business, were present and quite a number of electors were present from different sections of the county. Sheriff McQueen began summing up the result at 1 o'clock and declared the official result by parishes as follows:
Shediac, 732; Dorchester, 730; Salisbury, 729; Moncton City, 728; Botford, 727; Sackville, 726; Westmorland, 725; Non-resident, 724. Total, 4,619.

Official Figures in Sunbury Were Interesting.
Burton, N. B., March 7.—Declaration day proceedings here were interesting and were attended by a large number. J. D. Hazen, the victorious candidate, arrived at the court house at 11 o'clock from Fredericton, accompanied by his colleagues, Parker Glezier and W. H. Thorne, J. B. Stone and D. King. Hazen, of St. John, and Lewis H. Biss, of Monahan and J. C. Allen, of Fredericton. Mr. Hazen was given an enthusiastic greeting by the large gathering. The official count of the ballots was read, showing the following figures:
Hazen, 183; Glezier, 182; Thurrott, 181; Marzville, 70; Thorne, 62; 80; Sheffild, 71; 65; 67; 80; Northfield, 88; 85; 75; 74; Bienville, 85; 84; 83; 84; Gladstone, 182; 182; 57; 58; Glezier, 79; 847; 829. Messrs. Hazen and Glezier win by the largest majority ever given in a contested local election in Sunbury. When the successful candidates were announced speeches were made by Messrs. Hazen, Glezier, Thurrott, W. H. Thorne, Hon. D. W. Perley, of the Northwest, D. K. Hazen and Mr. Biss. At the close of Mr. Biss' speech, Alby Gross arose to address the assemblage but the audience began to move out and in a few minutes he was speaking to empty benches. Senator Perley was given a hearty reception by the old friends in Sunbury county. He referred to the fact that the last time he had appeared on that platform was in 1883 when he was defeated in Blissette by the late Hon. Charles Burpee. That defeat, he said, proved to be a blessing in disguise. He said he had been in Blissette on Tuesday last and he told of frauds he had seen perpetrated against the secret ballot, and wholesale bribery there in an endeavor to defeat Hazen and Glezier.

HAS MANY VICTIMS NOW
Valuable Prescription to Get Relief From Rheumatism Which Anyone Can Prepare at Home at Small Cost.
Thousands of men and women who have felt the sting and torture of this dread disease, which is no respecter of age, persons, color, rank, or position, are anxious to know that while for many years rheumatism was considered an incurable disease, now it is one of the easiest of ailments of the human body to conquer. Medical science has proven it is not a distinct disease in itself, but a symptom caused by an accumulation of uric acid in the blood and other waste products of the system which should be filtered and eliminated. Rheumatism is due to an accumulation of uric acid in the blood and other waste products of the system which should be filtered and eliminated.

GOOD MEETINGS YESTERDAY

Rev. Mr. Anthony and Dr. Silas Alward the Speakers at the Every Day Club--Rev. Mr. Graham at Thorne Lodge Meeting.

In the Every Day Club hall yesterday afternoon Rev. Mr. Anthony delivered an eloquent and closely reasoned address on temperance, dealing chiefly with the effect of intemperance upon the individual. He was to take a text, he said, it would be that from Proverbs: "When sinners entice thee, consent thou not," but he would perhaps use the word sin rather than sinners. He pointed out the effect of alcohol upon the body and mind, and gave illustrations to show that in physical endurance the total abstainer far surpassed him who was addicted to drink. Alcohol not only weakened the body but affected the whole nature, tending to the destruction of hope, faith and love. Sin lured men as that which promised a quick road to happiness, but he never yet seen the man who could really afford to drink alcohol. It made him feel good, but it was conveying false impressions to his brain, and was really doing him an injury. Science established the fact beyond question that men, to be at his best, must be master of himself, and the time was coming when there would be no responsible positions open to the men who drank. Corporations did not want them, the railroads were throwing them out, banks would have none of them. But the time was also coming when the temptation would be removed. The speaker rapidly reviewed the advance of prohibition sentiment in England, the United States and Canada, and declared that the liquor traffic would eventually be entirely overthrown. In the meantime it was of thoughtful men to make the most of their manhood and aid the cause. He thanked God for such institutions as the Every Day Club, and observed that no such institutions were founded by the liquor trade. It would be discourteous to speak harshly of the liquor dealers, when we made their business lawful, but he pitied them and hoped the time would come when the sound of the money rattling in the till would not drown in their ears the cries of heart-broken mothers and wives and suffering children. In his view prohibition was a greater question than the tariff or transportation, since it related to the welfare of the manhood of the nation. E. H. Cother presided and made an appeal to men to join the club. There were solos by W. P. Colwell and Mr. Mitchell and a hymn by the club's male choir. Our Heritage, Its Duties and Responsibilities, was the subject of a scholarly and eloquent address by Dr. Silas Alward at the club last evening. The hall was crowded. Dr. Alward dwelt first upon the great

CAPITALS TAKE ANOTHER GAME

Down Halifax Crescents by 2-1 Score. Fredericton, 2; Halifax, 1. Halifax, N. S., March 8--(Special)--The Halifax Crescents proved that they could put up hockey nearly as good as the New Brunswick players, when they held the champion Capitals of Fredericton down to a score of 2-1, here on Saturday night, in an exhibition game. In the first ten minutes of play the Capitals had the best of it. After Fredericton scored the second goal, the Crescents had much the better of the play during the half.

Baird & Peters Won Again. Baird & Peters repeated the trick of Saturday by defeating the hockey team of the G. E. Barbour Co 2-1 on Saturday last. Both teams played better hockey than last time. The heavy checking of Sturdee and Leonard was a feature of the game.

Sussex Bankers Won. In the Glacier rink on Saturday evening the Sussex bankers defeated the St. John bankers 3 to 2. The teams enjoyed dinner at White's after the game.

Brook & Paterson Won. The Brook & Paterson hockey team defeated the Red Rose tea men in the Shamrocks rink on Saturday.

Montreal, March 8--(Special)--The Shamrocks beat Quebec 7 to 6 Saturday night in the closing game of the Eastern Hockey League. Final Standing: Wanderers... Won. Lost. 8 2, Ottawa... 7 3, Quebec... 5 5, Victoria... 4 6, Montreal... 1 9.

SACKVILLE MEN LOSE ALL THREE

Thrice beaten the four rinks of Sackville curlers who played McCaffrey trophy matches with the three St. John clubs left for home on Saturday evening. On Saturday afternoon two rinks played the Thistles and came out three ahead, but had established by the Thistles on Friday evening. The Sackville men also led Carleton by three points on Saturday but the west-siders had a lead-off on Friday night and won the match with seven points to the good.

The visitors were again vanquished on Saturday evening when they were defeated by the St. Andrew's club by 38 points. The soft ice in a measure accounts for the poor score of the Sackville men. The rinks and scores on Saturday were: On Carleton Ice. Sackville, 1; Carleton, 38.

On Thistle Ice. Sackville, 1; Thistles, 38. Sackville, 1; Thistles, 38. Sackville, 1; Thistles, 38.

AT THE OPERA HOUSE

Jere McAuliffe will start his second and last week in the Opera House tonight with a production of A Jealous Wife. This is one of the best plays in the McAuliffe repertoire. It has a strong plot and a heart interest story besides a good vein of comedy. The several vanguardie people will introduce an entire change of programme. Mr. McAuliffe will present a lot of new parodies.

The McAuliffe company had two big houses on Saturday. They had the honor of playing to the biggest week's business in the history of popular prices at the Opera House. There will be new plays presented this week and another big week is promised. There will be matinees on Wednesday and Saturday.

The Victoria rink will be crowded on Wednesday night when the big fancy dress carnival will be held. Some fine features are being prepared and other special attractions will be announced tomorrow. From a spectator's standpoint, this carnival will surpass all previous ones this season. Substantial prizes are up for competition. Already quite a number of combinations are under construction. The other prizes are for the handiwork costumes or the most original, both lady and gentlemen. Further particulars see ad in another column.

St. Joseph's College, N. B., March 7--The Rhodes scholarship committee met today and nominated Rupert Rive, of Caraquet (N. B.), to represent St. Joseph's at Oxford.

SECOND GAME OF SERIES TONIGHT

Portlands and Algonquins Clash Again for City Championship. The second game of the series for the basket ball championship of the city will be played tonight. BOWLING

St. Peter's Y. M. A. League. Tonight in St. Peter's Y. M. A. bowling alleys the second series of the league will be commenced when E. Mahoney's team will play F. DeGrasse's. The first series was finished last week. J. McCarthy led off with F. Buckley following closely and E. Mahoney and F. DeGrasse tied for third place. The bowling league is being followed with great interest and keen rivalry exists among the teams. The scores made are very creditable and it is hard to account for the low scores of St. Peter's men when they roll on Black's alleys with outside teams.

THE RING AMATEUR BOXING CHAMPIONSHIPS MARCH 23-24

The national amateur boxing championship which will be held on March 23 and 24 give promise of being one of the best tournaments of this kind ever held. BASE BALL BOB UNGLAU, CAPTAIN.

LITTLE ROCK, March 6--Robert A. Unglau, first baseman of the Red Sox, was re-appointed captain of the team by Manager McGuire tonight. Bob was captain last year and filled the place to the agreement. Therefore his re-appointment tonight was not only expected but deserved. Last year was Bob's first regular "sit" with the Boston team, and from the first day at Little Rock last year he made good. McHale, the first outsider from the Portland, Ore., team, came on the night train and will report for duty tomorrow.

COUNCIL MEETS THIS AFTERNOON

Many Interesting Matters to be Taken Up. The monthly meeting of the common council, which was postponed last Monday, will be held this afternoon at 3 o'clock. With the exception of the claims of the aldermen for additional lights in their wards no large amount of contentious business is in sight.

The treasury board has recommended an increase of \$712.50 in the estimates for lighting, which will give 9 1/2 new lights, the hall being for an electric lamp on the hill leading from Gilbert Lane to the park, which will be in use only six months in the year. As applications have been sent in for fourteen lights there is likely to be considerable discussion. A recommendation subject to the recorder's opinion, to pay McArthur & McVey \$7,306.65, being ten per cent on section 2 of the water extension, will be considered. It is understood the city's legal adviser does not oppose the payment if safeguarded by certain provisions. A number of communications which will be sent to the boards for consideration have been received. Hazen & Raymond state that they have been retained by Mrs. Charles R. Watson to take proceedings against the city for death of her husband, Charles R. Watson, caused by injuries received on December 29 at Sand Point. Mrs. Mary Burns has asked for a retaining wall to her property, corner of Winslow and Market place, West End. MacRae & Sinclair request consideration of the claim of Mr. Arthur & McVey for rates on their contract and on Sections 1 and 2 of the water extension. The secretary of the board of trade of Halifax has forwarded a resolution to be submitted at a mass meeting in that city on March 12 in the matter of a list of Atlantic steamship service and has invited the mayor to attend. J. H. Crossley has sent in an application asking to be appointed harbor master in the event of a vacancy. A. E. Hamilton, D. L. Noble and R. J. Green have applied for the position of assessor of taxes. Peter Clinch, Charles Miller and F. W.

Holt have submitted a report appraising the improvements on the Armstrong leasehold properties at Green Head at \$3,500. The council will also consider the resolution of Ald. Bullock, chairman of the treasury board, for the issue of \$25,000 ten year debentures at 4 per cent, of which he gave formal notice at the February meeting.

PREMIER ROBINSON LOOKING FOR ADVICE

He Has Gone to Ottawa to Interview Sir Wilfrid Laurier. Montreal, March 8--Premier Robinson, accompanied by the party organizer, A. B. Cogg, were in Montreal today, and though they avoided all mention of their mission, which is to Ottawa, it is understood they will seek advice of the federal leaders as to their future attitude regarding appointments. A leading French Liberal member stated after seeing them, that there was no doubt Sir Wilfrid would advise them to get out of office at once and above all to make no posthumous appointments.
