

TRINITY MEDICAL COLLEGE.

ANNUAL ANNOUNCEMENT

— OF —

Trinity Medical College. ESTABLISHED 1850. Toronto.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

In affiliation with
Trinity University, the University of Toronto, Queen's University, and the University of Manitoba, and specially recognized by the Royal College of Surgeons of England, the Royal College of Physicians of London, the Royal Colleges of Physicians and Surgeons of Edinburgh, the Faculty of Physicians and Surgeons of Glasgow, and the King's and Queen's College of Physicians of Ireland, and by the conjoint Examining Boards in London and Edinburgh.

SESSION - - 1894-5.

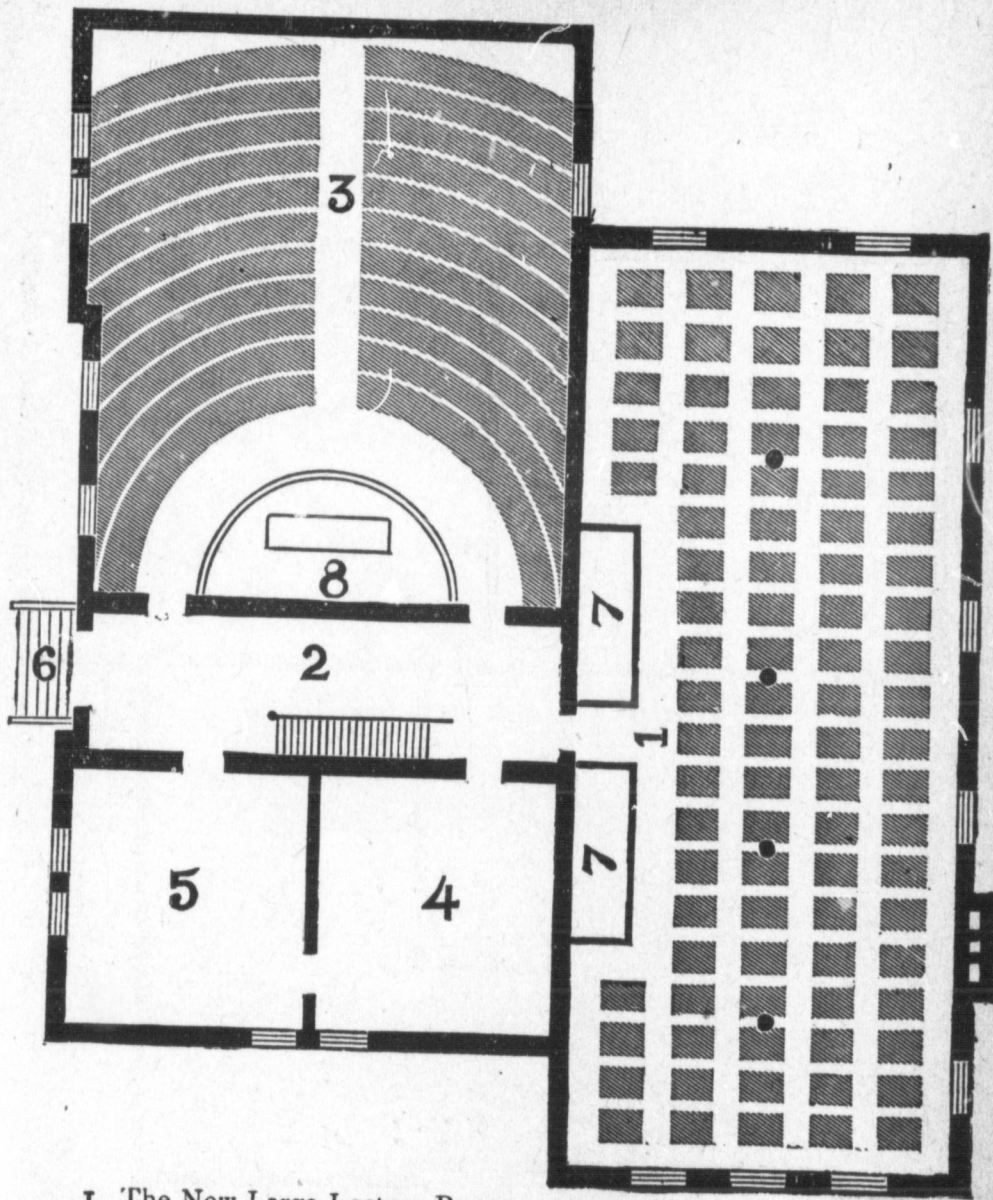

Toronto:

DANIEL ROSE, PRINTER, 78 BAY STREET.

1894.

TRINITY MEDICAL COLLEGE BUILDINGS.
THE FIRST FLOOR.

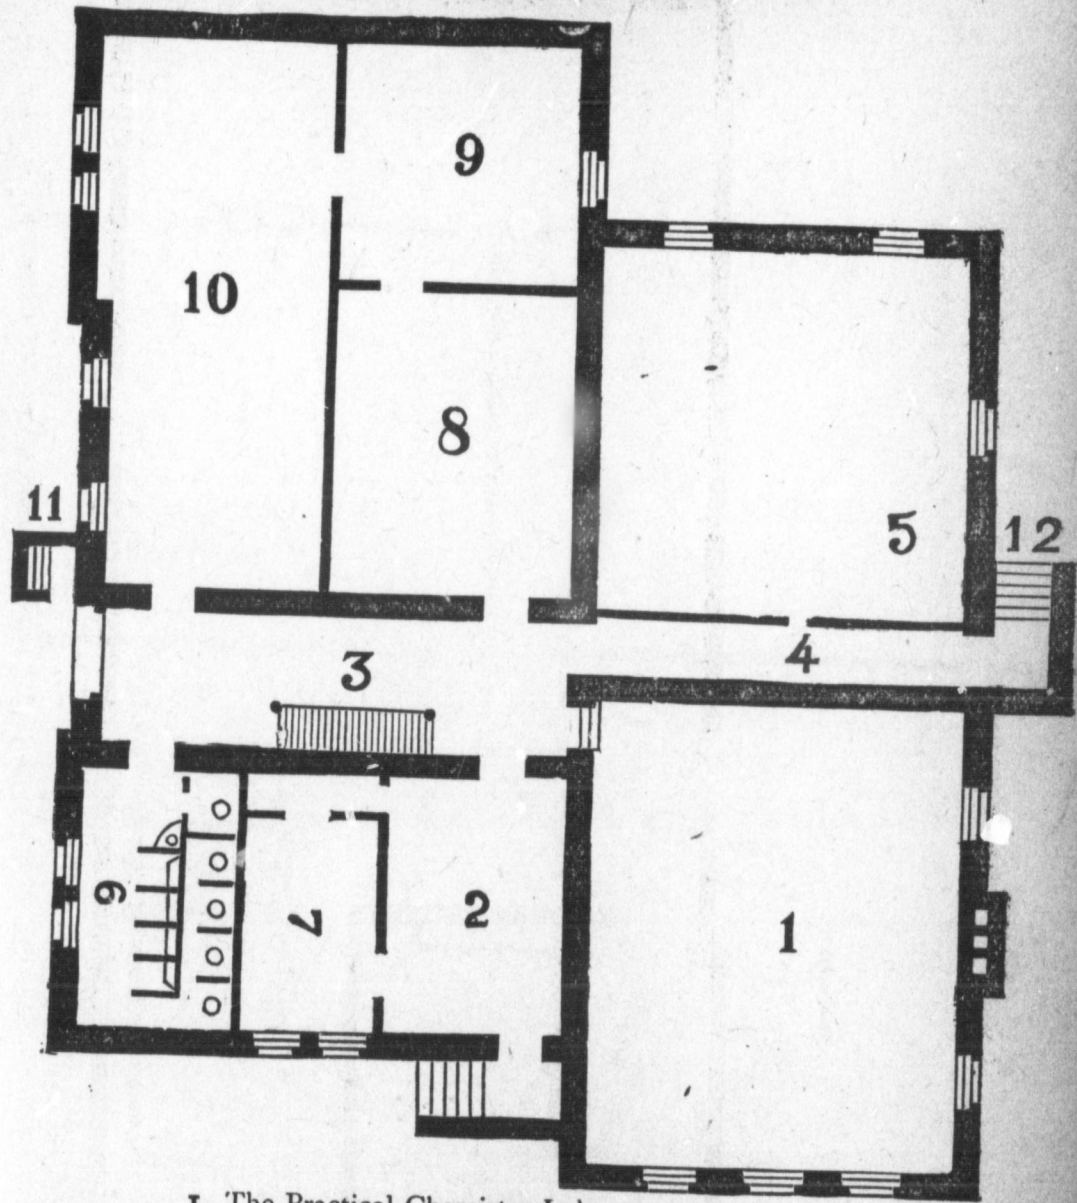

1. The New Large Lecture Room.
2. The Main Hall.
3. The Large Theatre Lecture Room.
4. The Plate, Model and P. O. Room.
5. The Faculty Room. (Private).
6. The Porch.
7. Platform in New Lecture Hall.
8. Platform in Lecture Theatre.

THE UPPER FLOOR.

1. Large Museum.
2. Physiological and Histological Laboratory.
3. Upper part of Large Lecture Room.
4. Pathological and Bacteriological Laboratory.

v
THE GROUND FLOOR.

1. The Practical Chemistry Laboratory.
2. Steam Heating Room.
3. and 4. Halls (down stairs).
5. New Reading Room.
6. Lavatory.
7. Ophthalmological Room.
8. and 9. Store Rooms.
10. Gymnasium and Coat Room.
11. Entrance from the front.
12. Exit behind.

GROUND PLAN—DISSECTING ROOM.

- ALTOGETHER APART FROM THE MAIN BUILDING—FOR SANITARY REASONS.
- | | |
|---|-----------------------------------|
| 1. The Porch. | 4. Water for all purposes. |
| 2. The Hat and Coat Room. | 5. Vat Room. |
| 3. The Dissecting Room, lighted by Sky-light in the ceiling and from all sides. | 6. Demonstrators' and Bone Rooms. |

FACULTY.

PROFESSORS.

- WALTER B. GEIKIE, M. D., C. M., D. C. L., F. R. C. S. E., L. R. C. P.,
Lond. ; Dean of the Faculty ; Member of the Council of the College of Physicians
and Surgeons of Ont. ; Consulting Physician, Toronto General Hospital ;
Consulting Physician, Hospital for Sick Children.—Holyrood Villa, 52 Mait-
land Street.
Professor of Principles and Practice of Medicine.
- J. ALGERNON TEMPLE, M. D., C. M., M. R. C. S., Eng. ; Gynæcologist,
Toronto General Hospital ; Physician to the Burnside Lying-in-Hospital.
205 Simcoe Street.
Professor of Obstetrics and Gynæcology.
- THOMAS KIRKLAND, M. A., Principal of the Normal School, Toronto.—432
Jarvis Street.
Professor of General Chemistry and Botany.
- C. W. COVERNTON, M. D., C. M., M. R. C. S., Eng. ; Lic. Soc. Apoth.,
Lond. ; Ex. Chairman and Member of the Provincial Board of Health.
Emeritus Professor of Medical Jurisprudence and Toxicology.
- FRED. Le M. GRASETT, M. B., C. M., Edin. Univ. ; F. R. C. S. E. ; M. R.
C. S., Eng. ; Fell. Obstet. Soc., Edin. ; Surgeon, Toronto General Hospital ;
Physician to the Burnside Lying-in-Hospital ; Member of the Consulting Staff,
Toronto Dispensary.—208 Simcoe Street.
**Professor of Principles and Practice of Surgery, and of Clinical Sur-
gery.**
- W. T. STUART, M. D., C. M., Trin. Coll., and M. B., Univ. Toronto ;
Professor of Chemistry, Dental College, Toronto.—195 Spadina Avenue.
Professor of Practical and Analytical Chemistry.
- CHARLES SHEARD, M. D., C. M., Fell. Trin. Med. Coll., M. R. C. S., Eng. ;
Physician, Toronto General Hospital ; Consulting Physician to the Hospital
for Sick Children.—314 Jarvis Street.
**Professor of Physiology and Histology and Lecturer on Clinical
Medicine.**
- G. STERLING RYERSON, M. D., C. M., L. R. C. P., L. R. C. S., Edin. ;
Surgeon to the Eye and Ear Dept., Toronto General Hospital, and the Hospital
for Sick Children.—60 College Avenue.
Professor of Ophthalmology and Otology.
- LUKE TESKEY, M. D., C. M., M. R. C. S., Eng. ; Surgeon, Toronto General
Hospital, Member of Staff, Hospital for Sick Children, and Professor of Oral
Surgery, Dental College, Toronto.—612 Spadina Avenue.
Professor of Anatomy, and Lecturer on Clinical Surgery.

JOHN L. DAVISON, B. A., Univ. Tor., M. D., C. M., M. R. C. S., Eng.;
Physician, Toronto General Hospital.—12 Charles Street.

**Professor of Therapeutics and the Theory and Art of Prescribing, and
Lecturer on Clinical Medicine.**

GEO. A. BINGHAM, M. D., C. M., Trin. Coll.; M. B., Tor. Univ.; Surgeon,
Out-door Department, Toronto General Hospital; Surgeon to the Hospital for
Sick Children.—64 Isabella Street.

Professor of Applied Anatomy, and Lecturer on Clinical Surgery.

NEWTON ALBERT POWELL, M. D., C. M., Trin. Coll.; M. D., Bellevue
Hosp. Med. Coll., N. Y.; Lecturer on the Practice of Surgery, Woman's
Medical College, Toronto; Surgeon, Out-door Department, Toronto Genera
Hospital.—Cor. of College and McCaul Streets.

**Professor of Medical Jurisprudence and Toxicology. Lecturer on
Surgical Appliances.**

D. GILBERT GORDON, B. A., Tor. Univ.; M. D., C. M., Trin. Univ.; L.
R. C. S. & P. Edin.; L. F. P. & S., Glasgow; Physician, Out-door Dep-
artment, Toronto General Hospital.—646 Spadina Avenue.

**Professor of Sanitary Science, and in charge of Microscopic Patholo-
gical Laboratory work of the College at the General Hospital.**

E. B. SHUTTLEWORTH, Phar. D., Trin. Univ., F. C. S.; Late Principal and
Professor of Chemistry and Pharmacy, Ontario College of Pharmacy.—220
Sherbourne Street.

Professor of Materia Medica and Pharmacy, &c.

H. B. ANDERSON, M. D., C. M., Fell. Trin. Med. Coll.; Pathologist to
Toronto General Hospital.—233 Wellesley Street.

Professor of Pathology.

LECTURERS, DEMONSTRATORS, INSTRUCTORS AND ASSISTANTS.

E. A. SPILSBURY, M. D., C. M., Trin. Univ.; Surgeon to Nose and Throat
Department, Toronto General Hospital.—189 College Street.

Lecturer on Laryngology and Rhinology.

ALLAN BAINES, M. D., C. M., Fell. Trin. Med. Coll.; L. R. C. P., London;
Physician, Out-door Department, Toronto General Hospital; Physician to
the Hospital for Sick Children.—194 Simcoe Street.

Lecturer on Clinical Medicine.

A. Y. SCOTT, B. A., Tor. Univ.; M. D., C. M., Trin. Univ.; Professor Chem-
istry, &c., Ontario College of Pharmacy.—2 Lamport Avenue.

Lecturer on Zoology, Biology, Practical Laboratory Work, &c.

D. J. GIBB WISHART, B. A., Tor. Univ. ; M. D., C. M., L. R. C. P., London ;
 Professor of Ophthalmology and Otolaryngology, Woman's Medical College ; Surgeon,
 Eye and Ear Department, Hospital for Sick Children.—47 Grosvenor Street.
Senior Demonstrator of Anatomy.

J. T. FOTHERINGHAM, B. A., Tor. Univ. ; M. D., C. M., Trin. Univ. ;
 Physician, Out-door Department, Toronto General Hospital, and the Hospital
 for Sick Children ; Professor of Materia Medica, College of Pharmacy.—492
 Yonge Street.

Clinical Medicine at Toronto General Hospital.

H. B. ANDERSON, M. D., C. M., Fell. Trin. Med. Coll.—Pathologist to
 Toronto General Hospital.—233 Wellesley Street.

Second Demonstrator of Anatomy—and Demonstrator of Pathology.

D. ALBERT ROSE, M. D., C. M., Fell. Trin. Med. Coll. ; L. R. C. S. &
 P., Edin. ; L. F. P. & S., Glas. ; L. M., Edin.—50 Avenue Road.

C. A. TEMPLE, M. D., C. M.—315 Spadina Avenue.

FREDERICK FENTON, M. D., C. M.—Cor. Scollard & Yonge Street.

A. H. GARRATT, M.D., C.M.—160 Bay Street.

HAROLD C. PARSONS, B.A., M.D., C.M.

Assistants in Practical Anatomy.

C. TROW, M. D., C. M., Trin. Univ., L. R. C. P., Lond. ; Surgeon to the
 Eye and Ear Department of Toronto General Hospital.—57 Carlton Street.

Clinical Lecturer on Diseases of the Eye and Ear.

W. H. PEPLER, M. D., C. M., Fell. Trin. Med. Coll. : L. R.C.P., Lond.

Assistant in Pathology.

SUMMER SESSION.

TEACHING STAFF.

PROFESSOR GRASSETT.

Surgery of Genito-Urinary Organs and Clinical Surgery.

PROFESSOR STUART.

Chemical Analysis of the Fluids of the Body.

PROFESSOR TESKEY.

Injuries and Diseases of Joints, and Clinical Surgery.

PROFESSOR DAVISON.

Fevers,—Medical Diagnosis, and Clinical Medicine.

PROFESSOR BINGHAM.

Amputations, Fractures, Dislocations, and Clinical Surgery.

PROFESSOR POWELL.

Surgical Diseases of Children and Clinical Work.

PROFESSOR BAINES.

Diseases of Children and Lecturer on Clinical Medicine.

PROFESSOR SHUTTLEWORTH.

Bacteriology.

PROFESSOR GORDON.

Obstetrics, other than Operative.

DR. SPILSBURY.

Clinical Instruction, with Practical Teaching, of Diseases of Nose and Throat, with the practical use of Rhinoscope, Laryngoscope, &c., at the Hospital.

DR. TROW.

Clinical Instruction, with Practical Teaching, of Diseases of the Eye and Ear, with the practical use of Ophthalmoscope, and Otoscope, etc., at the Hospital.

DR. WISHART.

Applied Anatomy.

DR. FOTHERINGHAM.

Clinical Medicine.

DR. MEYERS.

Pathology of Diseases of the Nervous System and Electrotherapeutics.

For fuller information regarding Summer Session see page 15.

Trinity Medical College.
ESTABLISHED 1850.
Toronto

INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

IN AFFILIATION WITH

TRINITY UNIVERSITY, THE UNIVERSITY OF TORONTO, QUEEN'S UNIVERSITY,
AND THE UNIVERSITY OF MANITOBA, AND SPECIALLY RECOGNIZED
BY THE ROYAL COLLEGE OF SURGEONS, ENGLAND, THE ROYAL
COLLEGE OF PHYSICIANS, LONDON, THE ROYAL COLLEGE
OF PHYSICIANS AND SURGEONS, OF EDINBURGH,
THE FACULTY OF PHYSICIANS AND SURGEONS
OF GLASGOW, AND THE KING'S AND
QUEEN'S COLLEGE OF PHYSICIANS
OF IRELAND,
AND BY THE CONJOINT EXAMINING BOARDS IN LONDON AND EDINBURGH.

The Winter Session of 1894-5 will begin on Monday, the 1st day of October next, and will continue for six months. The opening lecture of the course will be delivered by Dr. D. J. Gibb Wishart, at 4 o'clock, p.m., on that day, in the College. The regular work of the College begins at 8 o'clock, a.m., on the following day. It is hoped that, in view of their own interests, students will, as far as practicable, be present at the opening lecture, so as to lose none of the early teaching in the several branches.

The Faculty records with pleasure the constantly increasing prosperity of the College. The last Session was one of the most successful in its history, both as regards the large classes in attendance, and the assiduous work on the part of the Students in all the years.

Trinity Medical College has the great advantage of being governed

entirely by its own Faculty, composed of Medical teachers of long experience who are fully conversant with all that is required to constitute a thoroughly practical medical education.

From its inception, "STABILITY AND EFFICIENCY, with PRACTICAL TEACHING IN EVERY BRANCH," has been the motto, and the basis on which the College has been, and will continue to be conducted, and to this, its great success is undoubtedly due.

The only modification made in this Institution for many years, was the passing of an Act by the Legislature in 1887, raising "Trinity Medical School" to the standing and dignity of a "Medical College," a position well earned by many years of successful teaching.

TRINITY MEDICAL COLLEGE GOES ON ADVANCING AND IMPROVING Session by Session and keeps fully abreast of the rapid advances of science in every branch, and of the requirements of the medical profession, as laid down from time to time by the Ontario Medical Council.

Thoroughness in TEACHING—making it throughout, as PRACTICAL AS IT CAN BE MADE, and PUNCTUALITY and ZEAL in all College work, will as heretofore, be steadily maintained in view of the high position this Institution has reached as a teaching body by continued attention to these fundamental essentials of a sound medical education.

All the lectures, except those on Clinical Medicine and Clinical Surgery are delivered in the College Buildings, situated in the immediate vicinity of the Toronto General Hospital. The College has found it essential to medical students, and a great saving of their valuable time, to have all the lecture rooms where they learn the nature and the various forms of disease, AND ALL THE BRANCHES OF SCIENCE RELATED TO MEDICINE, as close as possible to the General Hospital, where cases are seen, which practically illustrate what they have been taught in the class rooms. The Clinical teaching is all done in the Hospital. Very special attention has been paid to the fitting up of the Lecture and Dissecting Rooms, Laboratories, etc. They are large, exceedingly well lighted, and contain every appliance required for Practical Teaching. The Trinity Laboratory in the General Hospital, where the Students see practical work relating to disease is also furnished with all that is required for the most careful investigation of morbid products.

One of the largest rooms in the College, and well lighted from the ceiling, is set apart for the Museum; and the Reading Room is well supplied with the leading journals and papers. The Faculty continues

to make every improvement necessary for the comfort and convenience of the constantly increasing number of students in attendance. To meet the requirements of the large Anatomy classes, the new Dissecting Room was built. It is spacious—lighted from the ceiling, and expressly for SANITARY REASONS, IS ENTIRELY SEPARATE FROM THE REST OF THE COLLEGE BUILDING. Large additions have been recently made to it comprising a Demonstrator's Room, and another room admirably arranged and furnished with fine marked specimens for the special study of the bones; also Vat Rooms, Wash Room, etc., etc. It is furnished with every modern requisite of a Dissecting Room. The entire arrangements for the study and teaching of Practical Anatomy receive every attention in this College, so as to have them as perfect as they can be made, taking the best European Schools of Anatomy as the models. The perfect isolation of this Building is considered by the Faculty as essential to the health and comfort of the Students.

Although it is not many years since the erection of our commodious Medical College Buildings, the attendance of students has increased so much, as to require from time to time more ample accommodation, and large additions have been built. Very recently, the buildings were greatly enlarged, and last summer were still further improved, so as throughout, to meet all the requirements of a well equipped Medical College. The latest additions and improvements, are those made in the Laboratories, in the Department of Practical Anatomy, and in the Ophthalmological Department.

There are in the College two equally spacious lecture theatres, a new Laboratory for Practical Histology, one for Practical Chemistry, and a new one for Pathology and Bacteriology. THESE LABORATORIES AFFORD ALL THE PRACTICAL FACILITIES WHICH MEDICAL STUDENTS REQUIRE, OR CAN USE IN LABORATORY WORK. The Laboratory for Practical Chemistry has been recently much improved and completely re-equipped.

The gymnasium was much improved in 1893, and will be found useful to many students in affording healthful exercise during the short intervals between lectures.

TRINITY MEDICAL COLLEGE IS AN ENTIRELY INDEPENDENT, SELF GOVERNING CORPORATION, QUITE SEPARATE AND DISTINCT FROM EVERY OTHER. HAVING ITS OWN SPECIAL ACT OF INCORPORATION, THE COLLEGE IS EMPOWERED TO ENTER INTO AFFILIATION WITH ANY "UNIVERSITY OR UNIVERSITIES" WITH WHICH IT MAY BE DESIRABLE,

IN THE INTEREST OF THE STUDENTS, TO HAVE IT CONNECTED. THE COLLEGE THEREFORE RESTS ON THE BROADEST POSSIBLE BASIS, AND IS IN AFFILIATION WITH

Trinity University,
The University of Toronto,
Queen's University,
The University of Manitoba.

Students attending Trinity Medical College have every advantage which ample University connections afford, under which they can, by conforming to the curriculum laid down by the several Universities named, go up for their degree, before any one, or more of these. In addition, they have the opportunity of presenting themselves for the several "Trinity Medical College" Examinations, which are held under the provisions of the SPECIAL ACT incorporating the College. Full particulars regarding these Examinations are given on page 31 of this Announcement. They are equivalent in every way to those required for a University Degree in Medicine, and if successful, the candidate obtains the "Fellowship by Examination" Diploma. This qualification is fully recognized, separately and conjointly, by the several Examining Royal Colleges of Physicians and Surgeons in Great Britain.

Under its special Act, this Medical College is represented on the Collège of Physicians and Surgeons of Ontario, and upon its Examining Board, and is therefore possessed of every privilege enjoyed by any Medical teaching body in the Dominion.

The "Fellowship by Examination" Diploma entitles its holders to go up before the Royal Colleges of Surgeons and Physicians in Great Britain and Ireland, with precisely the same exemptions from various parts of such examinations as are allowed to holders of University Degrees.

Full instruction is given in Trinity Medical College in all the subjects required for the degree in Medicine, by the University of Toronto, including Biology, Comparative Anatomy, Practical Pharmacy, etc.

The Faculty has been greatly gratified with the high standing taken by the students of Trinity Medical College at the Examinations of the College of Physicians and Surgeons of Ontario, and the various other Medical Boards at home and abroad, before which they have presented themselves. This, better than anything else, proves the HIGHLY PRACTICAL AND THOROUGH CHARACTER of the TEACHING given in the College.

THE SUMMER SESSION.

Attendance upon ONE Summer Session is now made compulsory by the Medical Council of Ontario, and the teaching throughout this Session is thoroughly practical. The Session of 1894 began on Monday, April 30th, and continued for two months, and that of 1895 will be *essentially similar*.

The instruction given in the summer Session will be clinical and practical rather than didactic, and given, chiefly in the Theatre, the Wards, and the Out-door Departments of the Toronto General Hospital, and of the Hospital for Sick Children, while in the College, courses of lectures will be given on Medical and Surgical Diseases of Children,—Dietetics,—Nervous Diseases, and on other subjects.

The course on Obstetrics will consist of demonstrations on the Mechanism of Labor on the manikin, and the chief operations of Midwifery.

Clinical instruction will be given daily in the Theatre, as well as in the Wards and Out-door Department, thus giving students opportunities for observing every variety of practice Medical and Surgical, remedial measures other than drugs—at the bedside and in the consulting room.

There will be a special series of demonstrations on minor Surgery—Bandaging, Splints and Dressings. In Surgical Anatomy there will be practical work done on the *cadaver*.

In Pathology the course will consist of the display and careful study of gross specimens.

Physical diagnosis will be taught by a series of demonstrations upon the normal subject before the class, and in these, as in all the demonstrations, the aim of the instructors will be to make the student do for himself, the examination and manipulation necessary.

Fee for the course \$30.

Those who have paid for a former Summer course are permitted to attend a second session, without further charge, on presentation of their tickets.

Fees are to be paid not later than May 15th, and will be received at the Faculty Room of the College at 1.30 p.m. on Mondays and Tuesdays during the first three weeks of the Session.

SUMMER SESSION, CLINICAL INSTRUCTION.

AT THE HOSPITALS.

Operations on Wednesdays and Saturdays at 2.30 p.m. in the Theatre of the General Hospital.

The fee for the Summer Session at the Hospital for Sick Children is \$2, and several Clinical Lectures each week will be given there, besides operations.

After May 15th, the presentation of tickets will be necessary for admission to classes.

To intending Medical Students who propose to begin their Studies during the Summer Session.

Instruction will also be given in the Anatomy of the Bones and Ligaments, in Elementary Physiology, Materia Medica, and in Elementary Chemistry. Those who take this work, which will be done in special Private Classes, will be prepared for beginning the next Winter Session, as it embraces the first year's work.

Primary work will also be taken up for those who desire it.

For instruction in First Year's work—in practical Pathology, or for Primary work of any kind, an extra fee will be charged.

MATRICULATION.

EVERY STUDENT WHO INTENDS PRACTISING HIS PROFESSION IN ONTARIO IS REQUIRED BY THE MEDICAL COUNCIL BEFORE ENTERING UPON HIS MEDICAL STUDIES, TO PASS THE "DEPARTMENTAL PASS ARTS MATRICULATION EXAMINATION" REQUIRED BY THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO, UNDER THE ONTARIO MEDICAL ACT.

NO PERSON CAN PRACTICE MEDICINE IN ONTARIO WHO IS NOT REGISTERED AS A MEMBER OF THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO, therefore any one intending to do so, must comply with the regulations of the Medical Council.

Prior to July 1st, 1888, the Medical Council's MATRICULATION EXAMINATIONS consisted of the THIRD CLASS NON-PROFESSIONAL EXAMINATION WITH THE LATIN OPTION included,—after that date, of the SECOND CLASS NON-PROFESSIONAL with Latin,—and since Nov. 1,

EAST END OF HISTOLOGICAL LABORATORY.

1892, the Departmental Pass Arts Matriculation Examination, with the addition of Physics and Chemistry—is required from every Candidate, not a graduate in Arts, who desires to register with the Medical Council as a Matriculate.

A COPY OF THE PRINTED REGULATIONS GIVING ALL DETAILS OF THIS "DEPARTMENTAL PASS ARTS EXAMINATION," can be obtained on application to the EDUCATION DEPARTMENT, TORONTO. This EXAMINATION IS ACCEPTED BY *Trinity Medical College, Trinity University, and by all Canadian Universities.*

Attention is called to the fact that the Medical Council dates the period of study, *in every instance*, from the time the student is registered on their official list as a *matriculated medical student*. All students will therefore remember that the Medical Council of Ontario requires that every one desirous of being registered as a matriculated student on its register, who intends to practice in Ontario, must present to the Registrar of the Council the OFFICIAL CERTIFICATE of his having passed the above Examination, which alone entitles him to registration.

Students who prior to July 1st, 1888, passed THE THIRD CLASS NON-PROFESSIONAL EXAMINATION, or after that date, the SECOND CLASS, ON ALL OTHER SUBJECTS, BUT WITHOUT THE LATIN OPTION, can complete the required examination, by going up for the LATIN ONLY, of the "Departmental Pass Arts Matriculation Examination," held annually, at the various High Schools. The names of such students cannot be entered on the Medical Council's Register *till the Examination in Latin has been passed.*

All such candidates must go up for the LATIN of the "DEPARTMENTAL ARTS" MATRICULATION, above mentioned. Any candidate however, who requires to take LATIN ONLY, (having a certificate for everything else), who DOES NOT INTEND TO PRACTICE IN ONTARIO, can take the LATIN at the Trinity University MEDICAL Matriculation Examination, which is held in Trinity University Examination Hall in October and March in each year.* BUT EVERY CANDIDATE WHO INTENDS TO PRACTISE IN ONTARIO MUST BEAR IN MIND THAT THE MEDICAL COUNCIL, SINCE JULY, 1888, ACCEPTS ONLY, EITHER THE "SECOND CLASS" LATIN, or that of the "DEPARTMENTAL PASS ARTS MATRICULATION EXAMINA-

* For full details of the Examinations see pages 19 and 20.

TION." This is repeated more than once, in order that no one may make any mistake on this point.

Graduates in Arts, or students who have matriculated as the Medical Council requires, are exempt from any further matriculation examination, and are entitled to registration in TRINITY MEDICAL COLLEGE, on payment of the fee of \$5, and to registration, as a Medical student, at the College of Physicians and Surgeons of Ontario, on payment to the Registrar of that College of the fee of \$20, and to enrolment in Trinity University on payment of the enrolment fee of \$1.

From the foregoing, students will see, that there are but two ways of being REGISTERED WITH THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO, as a matriculated student ; and they are specially asked to bear in mind, that THIS REGISTRATION IS ABSOLUTELY REQUIRED FROM EVERY ONE WHO INTENDS PRACTISING HIS PROFESSION IN ONTARIO.

FIRST—By having passed the THIRD CLASS NON-PROFESSIONAL EXAMINATION, WITH LATIN, PRIOR TO JULY 1ST, 1888 ; OR, AFTER THAT DATE, THE SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH LATIN, or after November 1st, 1892, The "Départmental Pass Matriculation in Arts Examination," including Chemistry, Physics and Latin ; or

SECOND—By BEING A GRADUATE IN ARTS, IN A BRITISH OR COLONIAL UNIVERSITY.—In the case of students who are desirous of taking their Degree in Medicine, but who do not intend to practise in Ontario, Trinity University, the University of Toronto, Queen's University, and Trinity Medical College do not insist upon the matriculation examination being passed BEFORE attendance on medical lectures, but it is very strongly recommended that it should in all cases, be passed as soon after entering the medical college as possible, where this has not been done before—and in every case, where at all practicable, it should be attended to, BEFORE passing of the Second year's or PRIMARY Professional Examination.

A certificate of having passed the MATRICULATION EXAMINATION IN ARTS, or in MEDICINE, in any British or Colonial University, or that of the Medical Council of Ontario, or that required by the various Colleges of Physicians or Surgeons in Great Britain and Ireland, or of the College of Physicians and Surgeons of Quebec, or of the Law Society of Ontario or Quebec, or of having passed an examination, whether for a TEACHER'S CERTIFICATE in any of the PROVINCES of the Do-

MINION, which must include Latin, or an examination EQUIVALENT to any of the above, is also accepted by Trinity Medical College, and by Trinity University.

Non-matriculated students from the Maritime Provinces, Manitoba, and the North-West, the West Indies, or other British Colonies, the United States, or from any quarter, and who are non-residents of Ontario, and therefore do not take the Examinations of the Medical Council, may attend lectures in Trinity Medical College on payment of the fees. Should such non-matriculated students however desire to graduate at Trinity University, or at any of the other Universities with which Trinity Medical College is affiliated, or to go up for the "Fellowship by Examination" Diploma of Trinity Medical College, they must either pass the Trinity University Medical Matriculation Examination, given below, or present a certificate of having passed some other Matriculation Examination equivalent thereto in every respect.

THE MEDICAL MATRICULATION EXAMINATION of any of the Universities with which this Medical College is affiliated, is only required by Students who have not previously matriculated otherwise, and who do not intend to practise in Ontario, and while strongly recommended to be taken at the beginning of the course, MAY BE PASSED AT ANY TIME BEFORE GRADUATION. Details as to these University Matriculation Examinations are given in this Announcement, under the proper headings.

TRINITY MEDICAL MATRICULATION EXAMINATION.

Students who have not otherwise matriculated and who do not intend to practise in Ontario, desirous of taking the Fellowship Diploma of Trinity Medical College, or to graduate in Trinity University, or Queen's University, will be required to pass an examination on the following subjects :

- (1) Writing and Dictation ; (2) English Language, including Grammar and Composition ; (3) Arithmetic ; (4) Algebra, including simple Equations ; (5) Euclid, Books I., II. and III. ; (6) Latin Grammar and Translation from Cæsar's *Bellum Gallicum*, Bks. I., II., or III., and IV., or V., VI., or Cicero, *de Lege Manilia* or Virgil, *Æneid*, Bk. II., also Translation of easy passages from an unspecified Latin Author ; (7) and any ONE of the following optional subjects *which may be selected*

by the candidate, (a) Scripture History and St. Matthew's Gospel, ch. i. to x. incl., in Greek, (b) Greek, Xenophon's Anabasis, Bk. I., (c) French, Voltaire's Charles XII., Bks. VI.-VIII., (d) German, Schiller's Thirty Years' War, Bk. I., (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics, (Balfour Stewart's lessons in Elementary Physics is recommended), (f) *or* Logic.

THIS EXAMINATION, which is that required by the Medical Council in Great Britain and Ireland, WILL BE HELD in Trinity University Examination Hall ON THE SECOND FRIDAY AND SATURDAY IN MARCH AND THE SECOND FRIDAY AND SATURDAY IN OCTOBER OF EACH YEAR. Applications may be made to the Dean of the Faculty of Trinity Medical College or to the Registrar of Trinity University enclosing the fee of \$5.00, at least a week before the Examination. Forms supplied on application.

All students going up for examination in Great Britain before the several Royal Colleges there, are required to present a certificate of having passed an examination in Elementary Mechanics. An examination on this subject will therefore be held at the Medical College in November of each year, at the same time as the Supplementary First year's Examination, when any students who intend going to Europe, whose matriculation examinations may not have embraced it, may present themselves, without any additional fee being charged.

LECTURES. CLINICAL AND DIDACTIC.

The several Professors and Lecturers will illustrate their respective courses by plates, preparations, models and specimens—including the application of the Laryngoscope, Ophthalmoscope, Sphygmograph, Spectroscope, etc., and the various forms of Electrical apparatus used in medicine. It will as heretofore, be the constant aim of the Faculty to make the entire teaching of the College as PRACTICAL and THOROUGH as possible. IN THIS COLLEGE, ever since its organization, throughout the entire session, FIVE Lectures have been given each week on the principal subjects, viz.: Anatomy, Physiology, Chemistry, Medicine and Medical Pathology, Surgery and Surgical Pathology, and Midwifery, thus meeting more than fully, the requirements of the Ontario Medical Council, and all the Boards in Great Britain and Ireland. And on every subject the Courses are made not only FULL, but thoroughly PRACTICAL, and they are amply illustrated.

CLINICAL TEACHING.

The **Clinical Teaching** will be carried out during the entire session at the General Hospital, by the following Professors and Lecturers:

Clinical Surgery 4th year.—DR. GRASSETT, DR. TESKEY.

“ “ *3rd year.*—DR. BINGHAM, DR. POWELL.

Clinical Medicine, 4th year.—DR. SHEARD, DR. DAVISON.

“ “ *3rd year.*—DR. BAINES, DR. GORDON AND DR. FOTHERINGHAM.

Gynæcology Obstetrics.—DR. TEMPLE.

Ophthalmology Otology and Laryngology.—DR. RYERSON, DR. TROW AND DR. SPILSBURY.

Pathology in connection with Autopsies, &c.—DR. H. B. ANDERSON.

Practical Laboratory work at Trinity Medical College Laboratory, in the Hospital. Including Urinalysis, Sputa &c., &c., and Practical Clinical Microscopy. In charge of a member of the Faculty.

The classes will be so divided that at the bed-side ample opportunity will be afforded each student of becoming practically familiar with the methods of physical examination, as well as with case taking.

Instruction will also be given daily, in the out-door department, and the students encouraged to diagnose and prescribe for Medical cases, or to perform minor Surgical operations, and act as dressers for the Surgeons.

Clinical Teaching has always been carried out in every department of the College as fully as possible, and in view of its very great importance, SPECIAL and INCREASING attention continues to be given by the Faculty to this essential department of the course. It includes CLINICAL LECTURES, and teaching the DIAGNOSIS of Medical and Surgical Diseases at the bedside, nothing being of more value to those engaged in the study of medicine and surgery, than a close and careful observation of the numerous cases in the Hospital wards. Arrangements were made years ago, and are now very perfect, which have largely increased the amount of clinical instruction given in the Toronto-General Hospital, and afford to all students who attend it, as great facilities as are enjoyed in any part of Canada in this important part of their studies. Besides this, the number of Hospital patients is very large and increasing, and the College being CLOSE TO THE HOSPITAL, students can readily avail themselves of the many advantages there afforded for gaining practical knowledge.

In connection with the treatment of the out-door patients who apply DAILY for advice and treatment at the TORONTO GENERAL HOSPITAL, an OUT-DOOR Patients' Clinic is given every day from 1.15 to 2.30 p.m. These patients are examined and prescribed for, in the presence of the students. An IN-DOOR Patients' Clinic is also given daily, from 3.30 to 4.30 p.m., the patients being brought before the students, and everything of importance pointed out by the Lecturers in Clinical Medicine and Surgery, as well as by the other members of the *Consulting and Acting Staff* of the Hospital. In addition to these, there is, every day, making THREE HOURS AT LEAST, OF CLINICAL WORK, a BED-SIDE CLINIC ON MEDICINE, and a BED-SIDE CLINIC ON SURGERY, given at from 2.30 to 3.30 by members of the Acting Hospital Staff. The students attend these bed-side clinics in regular rotation.

The CLINICAL Teachers on the Hospital Staff act conjointly, in giving daily instruction of the most practical kind to the students in the Hospital; and as there are many such teachers, it is manifest that young men studying in Toronto receive an amount of practical instruction not excelled anywhere on the Continent.

The giving of special daily Clinics at the bedside, as above referred to, by all the Hospital teachers in turn, is a special feature of the greatest value, in addition to the Out-door and In-door Clinics above mentioned. Much importance is attached to this work, and the greatest care is bestowed upon it, so as to make it as profitable to the student as it can be made.

Special Clinical instruction will be also given by the Professor of Midwifery at the Burnside Hospital, and by other members of the Staff of the Hospital, on Diseases of Women and Children, and on Practical Midwifery, and special Practical Instruction at the Eye and Ear Department of the Hospital is also regularly given, as well as on Dermatology. The Diseases of Children may, during the Winter and the Summer Session, also be practically studied at the Hospital for Sick Children, on College Street, a little West of Yonge Street.

Trinity University and the Medical Council require CLINICAL EXAMINATIONS in Medicine and Surgery from ALL candidates for the FINAL examination, making careful CLINICAL study a necessity, throughout the entire course.

For further information regarding the work done at the Hospitals, see page 35 of this calendar.

PRINCIPLES AND PRACTICE OF MEDICINE.

PROFESSOR GEIKIE.

This course embraces the following :—

I. The General Principles of Medicine, the Nature and Causes of Disease, the Symptoms and Morbid Changes which arise in the course of disease, together with the general principles of treatment, as well as the means to be used for its prevention.

II The Classification of Diseases, and the Description of the affections of the different Organs and Structures throughout the body.

The Lectures will be Practical throughout, and very fully illustrated by the most recent plates, also by models, and morbid specimens from the Museum, as well as by specimens from the Hospital post-mortem rooms, furnished by the Hospital Pathologists.

PRINCIPLES AND PRACTICE OF SURGERY.

PROFESSOR GRASETT.

The Lectures on this branch embrace Surgery and Surgical Pathology. The entire course will be illustrated by preparations from the Museum of the College, by specimens from cases at the Hospital, or elsewhere and by those which may be obtained in practice, as well as by the best models and plates.

The course will include the Theory and Practice of Surgery, and Surgical operations. These operations will be performed before the Class, on the fresh Cadaver. Surgical Apparatus and Instruments will also be exhibited, and their uses pointed out to the students. In the Department of Surgery the Hospital will be used as largely as possible to illustrate the teaching, by cases of all kinds, in the theatre and in the wards.

MIDWIFERY AND GYNÆCOLOGY.

PROFESSOR TEMPLE.

This course, like all the others in the College, will be Practical and will embrace the Principles and Practice of Obstetrics, illustrated by Diagrams, by fresh and Preserved Specimens, the Artificial Pelvis, etc. The Principal Diseases of Women form an important portion of the work taken up.

In teaching the Diseases of Women, the Anatomy and Physiology of the Female Organs will be demonstrated, and the various methods of Examination fully described,—the necessary instruments will be shown and their use explained. The diseases peculiar to the sex will be considered as fully as time will permit, as follows:—Disorders of Menstruation; Leucorrhœa, Pelvic Cèllulitis; Peritonitis; Lacerations of the Cervix Uteri and Perineum; Urinary and Fæcal Fistulæ; Inflammations of the Uterus; Displacements of the Uterus; Tumors of the Uterus; Diseases of the Ovaries, etc.

The Lectures will also be fully illustrated by plates, models and morbid specimens.

ANATOMY, DESCRIPTIVE AND SURGICAL.

PROFESSOR TESKEY.

The course on Anatomy, Descriptive and Surgical, is made very complete, as this subject is unquestionably the foundation on which all professional knowlegde is based. It will be taught in the most practical manner possible. The relations of Anatomy to Pathology, Medicine, Surgery, etc., will be fully taken up. The Lectures will be illustrated by the fresh subject, moist and dry preparations, sections, models, plates and original drawings.

The College has a large supply of Disarticulated Skeletons, which is being largely increased this summer as well as other preparations, and a complete collection of the best models of various parts of the body, to aid in the study and teaching of this all important branch. This collection is being constantly enlarged by models imported from Europe.

To facilitate the study of Osteology, students under certain regulations, can procure the use of finely prepared imported bones belonging to the College, from the Senior Demonstrator of Anatomy, on payment of a small fee.

APPLIED ANATOMY.

PROFESSOR BINGHAM.

The Lectures of this Course, now required by THE MEDICAL COUNCIL, TRINITY UNIVERSITY, and TRINITY MEDICAL COLLEGE, are for FINAL students only, and embrace the most important parts of Anatomy as applied to Medicine and Surgery. This practical course will be made more extensive during the coming session than heretofore, and it is of the greatest practical value. It consists of FIFTY LECTURES.

PRACTICAL ANATOMY.

DR. D. J. GIBB WISHART, DEMONSTRATOR ; DR. H. B. ANDERSON, ASSISTANT DEMONSTRATOR ; DRS. ROSE, C. A. TEMPLE, FENTON, GARRATT, AND H. C. PARSONS, B.A., ASSISTANTS IN PRACTICAL ANATOMY.

To the Department of Practical Anatomy, so closely connected with Surgery, the greatest attention is paid, and the Demonstrators, with the Assistants in Practical Anatomy, will give daily attendance in the Dissecting Room, forenoon and afternoon, while dissection is going on. The Dissecting Room is large, perfectly lighted and ventilated ; and under the amended Anatomy Act recently passed by the Ontario Legislature an abundant supply of anatomical material is secured. It is the desire of the Faculty that each student should have every facility to acquire a thoroughly practical knowledge of Anatomy in the Dissecting Room, where alone it can be properly studied.

Bone grinds are given daily, to limited classes by each Demonstrator during the month of October, which every student must attend, and at the close, an Examination is conducted by the Senior Demonstrator which each student must pass as a necessary preliminary to actual dissection.

Progress Examinations are conducted by the Senior Demonstrator from time to time upon each part, and the marks obtained at these examinations will determine the relative standing of the students at the close of the Session.

Disarticulated bones and casts are provided in abundance for home study, which students may secure on payment of a small fee.

A separate room is also provided, equipped with marked bones, models, casts, brain sections, cross sections, and dissected parts, which is open at all times, where the students may study.

All Pathological Specimens or Abnormalities, found in subjects in the Dissecting Room, are the property of the College, and are added to the Museum for the benefit of all the students.

PHYSIOLOGY, INCLUDING HISTOLOGY.

PROFESSOR SHEARD.

This course will embrace a description of the Elementary Tissues of the Body ; the Structure of the various Organs and Glands ; also the functions of Respiration, Circulation, Digestion and Nutrition, Secre-

tion and Excretion. Special attention will be given to the Nervous System, and to Embryology, and Development. The last will be fully illustrated in all its stages by specimens. The greatest attention is given to the Practical Study of Normal Histology.

The Physiological Laboratory is furnished regardless of expense, with all the best modern appliances necessary for the practical study of this subject. Amongst the apparatus imported for this Laboratory are a DuBois Raymond's Coils, DeBois Raymond's Keys, Foster's Moist Muscles Chamber, Revolving Drum Cylinders, Galvanometers and Scale, Electrodes, Excitors, Mercurial Keys, Stricker's Warming Stages, Hot Air Baths, etc. Further additions are being made from year to year.

MICROSCOPIC ANATOMY.

This subject receives ample attention from the several lecturers upon the branches in which the microscope is employed; and in addition to this, very complete Courses of Instruction will be given upon Microscopy, and the use of the Microscope in connection with Normal and Pathological Histology, BOTH OF WHICH SUBJECTS ARE NOW REQUIRED BY THE MEDICAL COUNCIL. The best high power Microscopes from Europe are provided. The various methods of injecting, staining, mounting, etc., receive special attention.

GENERAL CHEMISTRY AND CHEMICAL PHYSICS.

PROFESSORS KIRKLAND AND STUART.

In this Course the general principles of Chemistry will be fully discussed, and the laws and theories deduced from suitable experiments. Great pains will be taken to point out its relations and applications to Physiology and other departments of medical science. Physics, including Heat, Light, and Electricity, will be discussed both theoretically and experimentally, as far as they bear upon, or are connected with Chemistry.

The lectures on both Inorganic and Organic Chemistry will deal more particularly with those substances and compounds of special interest to students in Medicine and Pharmacy. Towards the end of the course a number of lectures will be devoted to Medical Chemistry. The whole subject will be illustrated by numerous experiments, charts and drawings, every facility being offered to students for acquiring a thorough knowledge of these branches. Professor Stuart will take up the chemistry of the metals.

PRACTICAL AND ANALYTICAL CHEMISTRY.

PROFESSOR STUART.

Practical Chemistry is taught very thoroughly, under the personal supervision of the Professor. In view of its growing importance, great care has been bestowed on the re-fitting of the Laboratory, and the Course will include experiments of various kinds, qualitative and quantitative analysis, etc., etc. In view of the many cases of poisoning coming before the courts of law, Toxicology will have much attention paid to it—no pains being spared to prepare students for the grave responsibilities which such cases impose upon them as practitioners. Each student will be supplied with the requisite re-agents and apparatus, and the course will be adapted to meet the demands of the physician in his daily practice. Special attention will be devoted to *Urinalysis*, also to the normal and abnormal constituents of the animal fluids—to Tests for Blood, for Bile, for Albumen, etc.—as well to the other departments of Medical Chemistry.

PRACTICAL THERAPEUTICS, WITH THE THEORY AND ART OF PRESCRIBING.

PROFESSOR DAVISON.

The course will be made as full and as practical as possible. The important subject of prescribing will be carefully dealt with. The course in Therapeutics will include instruction in *Electricity* as used for both Therapeutical and Diagnostic purposes, *Massage* will be dealt with as full as time will permit.

The *Principles* underlying the application of medicines in disease will be thoroughly discussed, and no pains spared to make the *why* apparent, in every case in which present knowledge of the action of drugs will enable it to be done.

MEDICAL JURISPRUDENCE AND TOXICOLOGY.

PROFESSOR POWELL.

This course will include:—A full discussion of the the inter-relations of Law and Medicine, Medical evidence from the Inquest to the Superior Courts, the making and reporting of *post mortem* examinations, the signs and the phenomena of death, and the various causes of death by violence, Wounds, the Examination of Blood Stains, Offences against Chastity, Abortion, Infanticide; also Insanity in its Medical as well as in its legal as-

pects. Feigned diseases, Mal-Practice, Life Insurance, &c. In Toxicology the classification and general action of Poisons will be considered, and the common Poisons will be taken up, their symptoms, treatment and *post mortem* appearances given, and such tests as a Physician might be called upon to make will be illustrated before the class.

SURGICAL APPLIANCES.

PROFESSOR POWELL.

This Course consists of twenty Demonstrations upon minor Surgery and Bandaging, the *technique* of Antiseptic Wound treatment, the selection and uses of the various instruments required in general and in special practice, the making and fitting of splints in treatment of Fracture, the fitting of Trusses, and of the Apparatus used in Orthœpedic Surgery, the application of Plaster of Paris, and other permanent Dressings, the methods of inducing local and general Anæsthesia, the Medical and Surgical uses of Electricity, the use of the Photographic Camera in Medical practice, etc., etc.

This course is an optional one, and the fee is payable once only. Third year, as well as all Final Students, should take it.

SANITARY SCIENCE AND PUBLIC HEALTH.

PROFESSOR D. GILBERT GORDON.

This course comprises lectures upon—

Air—Its chemistry, including the constituents and impurities of external and internal atmospheres, and its chemical and biological analysis. The physics of air, and the influence of temperature, moisture, and heating. Its meteorology with special reference to winds, malaria, deforestation, and transmission of diseased germs.

Water—Its chemistry, impurities and analysis.

Meat—Its constituents and various diseased conditions.

Milk and Cheese,—The constituents, impurities, their source, adulteration, and inspection.

Canned Meats—Their constituents, impurities, adulterations, changes, analysis and inspection.

Fruits—Fresh and preserved.

Soil—Its constituents, impurities, pollution, examination, methods of purification, cultivation, sewerage, drainage, and how to prevent pollution.

Preventable Diseases—Origin and causes, methods of communication, methods of prevention, quarantine and investigation.

Municipal Sanitation—Sanitary law, vital statistics, house construction, plumbing inspection, road building, conduct of factories, isolation, hospitals, cemeteries, crematories, over-work and over crowding.

School Hygiene—Technical and physical training, regulation of studies, heating and light.

PATHOLOGY.

PROFESSOR H. B. ANDERSON ; DR. PEPLER, ASSISTANT.

The teaching upon this subject will include both Gross and Microscopic Pathology.

Specimens for the Microscope of the various Pathological conditions in the different parts of the body will be prepared, mounted, stained, and studied under the personal direction of the Professor and his assistant.

In addition to this, all facilities for the study of Gross Pathology are afforded to the students, at the Post Mortem Examinations made in the Hospital by the respective members of the Faculty who serve on the Pathological staff and do practical Laboratory work in that institution, and also by other members of the Hospital Staff.

BACTERIOLOGY.

PROFESSOR SHUTTLEWORTH.

The growing importance of this subject has led the Faculty to introduce it as a separate and special branch of the department of Pathology. The instruction given will be for the greater part of a practical character, and will include the various modes of culture, with the characters, methods of staining, and differentiation of the commonly occurring pathogenic micro-organisms, and the application of bacteriology to the determination of the sanitary character of drinking water.

BOTANY.

PROFESSOR KIRKLAND.

In the course of Botany, the general principles of the science will be fully developed, and its relation to medicine constantly kept in view.

The lectures will be illustrated by fresh specimens, diagrams and models. The aim will be not only to make it useful, in its application to medicine, but also to train the mind to that kind of research which is essential to successful medical study.

OPHTHALMOLOGY AND OTOTOLOGY.

PROFESSOR RYERSON—DR. TROW.

Lectures will be given at the Medical College on Diseases of the Eye and Ear, illustrated by the latest appliances—plates and diagrams. Professor Ryerson will also give special clinics in the Eye and Ear Department of the Hospital on cases of interest which may present themselves. Dr. Trow gives regular instruction on Diseases of the Eye and Ear at the Toronto General Hospital.

LARYNGOLOGY AND RHINOLOGY.

DR. E. A. SPILSBURY.

A practical course of Lectures on Diseases of the Throat and Nose, illustrated by cases, plates, models, etc., will be given.

A special Throat and Nose Department has been fitted up in the East Wing of the Hospital, where Clinical Instruction will be given TWICE a week.

PRACTICAL INSTRUCTION IN OPHTHALMOLOGICAL AND OTHER APPLIANCES.

DR. D. J. GIBB WISHART.

Instruction will be given in the College, in the practical use of instruments employed in Diseases of the Eye, Ear, Throat and Nose. Dr. Wishart will form a class for students who desire in this way to become practically familiar with all the Appliances used in the special diseases of these parts. This class is an optional one, but it will be found of great practical value.

MATERIA MEDICA AND PHARMACY.

PROFESSOR SHUTTLEWORTH.

This course will include the pharmacy; materia medica, proper; pharmacology, and posology of all important drugs named in the *British Pharmacopœia*, as well as those extra official remedies which have for some time held a place in medical practice, or are of recent introduction. The lectures will be illustrated by characteristic specimens of the various drugs described.

The subject of pharmacy will be first introduced and the student, familiarized with the general processes by which medicines are prepared. The various compounds will then be considered in pharmaceutical groups as powders, solutions, tinctures, etc., and the application of the

operations of pharmacy applied to each. Special attention will be given to the subject of incompatibility. The Inorganic Materia Medica, including its pharmacology, and posology, will then be introduced, and completed before the Christmas holidays.

The succeeding portion of the course will be devoted to a similar treatment of the Organic Materia Medica.

MEDICAL PSYCHOLOGY.

BY DR. DANIEL CLARKE, MEDICAL SUPERINTENDENT AT THE PROVINCIAL LUNATIC ASYLUM.

A course of Lectures, open to all who desire to take it, will also be delivered on Medical Psychology, at the ASYLUM, for the special benefit of gentlemen who desire to graduate wherever this course is demanded.

ZOOLOGY, ETC.

A. Y. SCOTT, B. A., M. B., TORONTO UNIVERSITY, M. D., C. M., TRINITY UNIVERSITY, AND LATELY DEAN OF THE ONTARIO COLLEGE OF PHARMACY.

A course of Practical Zoology is given in the COLLEGE, for the special benefit of gentlemen who desire to graduate wherever such a course is required. The lectures embrace the morphology and classification of the various sub-kingdoms, classes, etc., of the Animal Kingdom, also the special practical study of the several type-forms.

TRINITY MEDICAL COLLEGE.

PROFESSIONAL EXAMINATIONS.

Professional Examinations will be conducted at the close of the 1st, the 2nd, the 3rd and the last sessions, to be known as the *first year's*, the *primary*, the *third year's*, and the *final* Examinations, respectively.

I. The First Year.—**Anatomy** of the Bones, Ligaments, Muscles, also the Viscera of the abdomen and Thorax. All candidates for this Examination must present a certificate of having dissected carefully an UPPER and a LOWER extremity, and **MUST PASS A PRACTICAL EXAMINATION** on the parts dissected.

The Physiology of the elementary tissues. *e. g.*, Connective tissue, Protoplasm, and Cells; also of Respiration, Circulation and Digestion.

Materia Medica and Pharmacy.—Drugs and their preparations.

Chemistry, Inorganic, including Chemical Theory.

Physics.—Heat, Light and Electricity.

Botany.

A Certificate of having passed this examination is required by Trinity University, Trinity Medical College, and the Medical Council.

A Supplementary First Year's Examination will be held **Annually** on the **first Saturday** in November.

II. The Primary.—Descriptive Anatomy, Physiology, and Microscopic Anatomy, Chemistry, Theoretical and Practical, Toxicology, Botany (when it has not been passed at the end of the first year), and Materia Medica.

The Primary examination may be passed at the close of the second Winter Session. A certificate of having passed it in Trinity College, or in any recognized British or Canadian Medical College, School or University, or at the College of Physicians and Surgeons of Ontario, will be accepted by this College.

III. The Third Year's Examination.—In April 1896, and thereafter, the Medical Council will require from all candidates for the Final Examination who are not graduates in Arts,* a **CERTIFICATE** of having **PASSED** at the close of their **THIRD SESSION** in the College or School they have attended, an Examination, in such parts of Medicine, Surgery, and Midwifery, &c., as may be required by the Faculty of such College or School. This Examination will not in any way interfere with any of the Examinations of the Council.

An Examination will therefore be held in this College at the end of the **PRESENT SESSION** for students in their third year who intend presenting themselves for the Final Examinations of the Council in 1896 which shall embrace the following :—

Medicine.—Causes of Disease, Physical Diagnosis of Diseases of the Chest, Physical changes to which the Nervous Centres are liable.

Surgery.—Inflammation and its consequences, Dislocations and Frac-

* Graduates in Arts will take this Examination at end of their Second Winter's Course.

tures, Injuries and Diseases of Bones and Joints, Surgical Diseases of Blood vessels, Muscles, and Nerves.

Midwifery.—Anatomy and Physiology of the organs concerned in Parturition, Conception, Signs and Symptoms of Pregnancy and Diseases of Pregnancy.

Therapeutics and the Art of Prescribing.

Pathology.—Gross and Microscopical.

IV. The Final.—Theory and Practice of Medicine, and Medical Pathology, Principles and Practice of Surgery and Surgical Pathology, Applied Anatomy, Midwifery, and Diseases of Women and Children, Medical Jurisprudence, Sanitary Science.

CERTIFICATES OF HONOR.*

Certificates of Honor are awarded annually in all the Professional Examinations to Candidates who obtained **not less than 75 per cent.** of the total number of marks.

SCHOLARSHIP.*

There are **Seven Scholarships** offered for competition in this College, as follows :

First Year.—**Three First Year's Scholarships** known respectively as **FIRST**, **SECOND**, and **THIRD**, will be competed for at the close of the **First Session**. The value of these Scholarships is \$50, \$30, and \$20, respectively.

Special Prize in Physiology (Dr. Sheard's)

For the highest standing in the Physiology of the first year. This prize is given annually, value, \$25.

Second Year.—**Two Second Year's Scholarships**, known respectively as the **FIRST**, and **SECOND**, are open to competition at the close of their **SECOND Winter Session**, to all students who have taken out their entire Primary Course at this College. The value of these Scholarships is \$50, and \$30 respectively.

Third Year.—**Two Third Year's Scholarships**, known

* N.B.—Any Breach of the regulations, on page 43 will disqualify a candidate from receiving a **MEDAL**, **SCHOLARSHIP**, or any other **HONOR** in the College, or a recommendation for a Hospital, or other position. **SPECIAL ATTENTION IS CALLED TO THIS NOTE.**

respectively as the **FIRST**, and **SECOND**, are open to competition at the close of their **THIRD Winter Session**, to all students who have taken their entire Course at this College. The value of these Scholarships is \$50 and \$30 respectively.

Scholarships will be awarded only to the candidates who stand highest in the Honor lists of the **First, Second, and Third** years respectively.

MEDALS.

A **GOLD** and **TWO SILVER MEDALS**, known as the "**TRINITY MEDICAL COLLEGE MEDALS**," are open to competition annually at the close of their **FOURTH** winter session, by students undergoing examinations in this College in the **FINAL BRANCHES**. They will be awarded to the gentlemen who stand **FIRST, SECOND** and **THIRD** respectively on the Honor list. All students competing for them, must have attended at least **THREE** full courses of lectures, out of the **FOUR** required, in this Medical College, and must have paid all fees for the same.

FELLOWSHIP DIPLOMAS.

Under the authority of the Special Act of the Legislature, incorporating this College, Diplomas will be awarded at the close of the Final Examination, to candidates whose standing has been sufficiently high to merit them. These Diplomas constitute students who obtain them "**FELLOWS BY EXAMINATION**" of Trinity Medical College, and such "**FELLOWS**" are allowed in Great Britain the same privileges as are there accorded to holders of Degrees in Medicine from Colonial Universities, by the *Royal College of Surgeons of England, the Royal College of Physicians of London, the Royal College of Surgeons, and the Royal College of Physicians of Edinburgh, and the Kings and Queen's College of Physicians of Ireland; and also by the conjoint Examining Boards in London and in Edinburgh.*

No Candidate is allowed to present himself for examination for the **COLLEGE FELLOWSHIP DIPLOMA**, who has not passed a recognized Matriculation Examination, and spent **FOUR** entire years in the pursuit of Medical studies, and attended during that time **TWO FULL COURSES OF PRIMARY**, and **TWO FULL COURSES OF FINAL LECTURES** during **FOUR** winter Sessions. Attendance on not fewer than **FOUR** Sessions is in **ALL** cases (except in the cases of graduates in Arts,) absolutely insisted on by the Medical Council. All students who are not graduates in Arts, or in Science, of a British or Colonial University, who entered Trinity

Medical College as freshmen for Session 1889-90 and subsequently, will be required to present evidence of having attended Lectures for FOUR WINTER SESSIONS, either in this or in some other recognized Medical College, before being permitted to present themselves for their Final Examination ; and at least ONE Winter course must be attended at this College.

A certificate of good moral character is required from each candidate.

The obtaining of this Diploma—*which is the Faculty's certificate of Qualification*—or any of the other Honors granted by this College, is a guarantee of high professional attainments on the part of those who hold them. **In every case, successful Candidates for the Fellowship Diploma must be present in person, to have it presented and to enrol their names in the official list of Fellows.**

THE FELLOWSHIP DECLARATION.

The following is the Declaration made by all who receive the Diploma and are admitted, after examination, to the "FELLOWSHIP OF TRINITY MEDICAL COLLEGE." It is much the same as that made by successful candidates in some of the higher Colleges in Great Britain :

"We, the undersigned, who now publicly receive the Diploma of Trinity Medical College, and are admitted '*Fellows by Examination*' of that Incorporated Medical Body, do solemnly and sincerely declare that we will exercise the several duties of our profession in its various branches to the best of our knowledge and ability, for the good, safety, and welfare of all persons committing themselves, or who are committed to our care and direction ; and that we will not, knowingly, or intentionally, do anything, or administer anything to their hurt, or perjudice, for any consideration, or from any motive whatever.

"We further declare that we will not divulge anything we may have seen, or heard, while visiting the sick, which it would be improper to divulge. We shall, moreover, do everything in our power, to uphold the honor, and to promote the welfare of the Medical College whose Diploma we now receive, and to the FELLOWSHIP of which we are hereby admitted."

HOSPITALS.

TORONTO GENERAL HOSPITAL.

This Institution, which is, in every respect, under the best and most efficient management, is now so greatly enlarged as to be capable of accommodating 300 patients in the various buildings on the grounds, and is visited daily by the medical officers in attendance. The patients—extern and intern—are examined and prescribed for in the presence of the students. In the course of a year the Patients admitted number between 3000 and 4000, besides externs. The operating theatre is well lighted, having been recently greatly improved, and the seats are arranged so as to enable the students to see the successive steps of the numerous operations performed. The theatre is, also, through the courtesy of the Trustees used daily as a lecture room for the delivery of Clinical Lectures. Every Saturday regularly and on other days in cases of urgency operations are performed in this theatre. It has been recently greatly enlarged and remodelled, and is the largest and finest hospital theatre in the Dominion, and is not surpassed anywhere for accommodation, light and convenience. It is capable of seating 600 medical students. Under existing arrangements, the Clinical Course, both in Medicine and Surgery, is very full; and all the numerous Lectures delivered in the hospital, by the various members of the Hospital Staff, are open to every student who has taken out his Hospital and Clinical Lecture Tickets. Toronto being the great railway and manufacturing centre of Ontario, accidents requiring operation are of frequent occurrence. The attendance of out-door patients daily is also very large and increasing, and abundant opportunities are enjoyed by students for acquiring a familiar knowledge of Practical Medicine and Surgery, including not merely major operations, but minor Surgery of every kind—ordinary Medical Practice, the treatment of Venereal Diseases, Skin Diseases, and the Diseases of Women and Children. Every year very great improvements continue to be made in various parts of the Hospital, so as to increase its facilities for acquiring Clinical knowledge.

HOSPITAL TEACHING.

THEATRE CLINICS.

The teaching comprehends regular Daily Clinics *in the Theatre* on Hospital cases, Medical and Surgical.

OUT-DOOR PATIENT CLINICS.

Also regular daily Clinical Instruction on Medical and Surgical cases in the Out-Door Department of the Hospital. Obstetrics, Gynæcology, &c.

Burnside Lying-in Hospital—This Hospital is also on the Hospital grounds, making it very convenient for students attending its practice, and affording special and valuable facilities for the study of Practical Midwifery. One of the medical officers will be in daily attendance for the purpose of giving instruction to students. Students who have attended one course of Lectures on Midwifery, and who have taken out the ticket for this Hospital, are furnished with cases in rotation.

The advantages for studying Practical Gynæcology are also very great and increasing year by year.

The Eye and Ear Hospital is on the same grounds as the General Hospital, and gives unprecedented advantages to students desirous of making a special study of the diseases of these important organs. This Institution is fully equipped with every modern appliance.

Fever Hospital—A large building has been erected on the Hospital grounds where the treatment of fevers can be practically and profitably seen and studied.

PATHOLOGICAL TEACHING.

Post Mortem Examinations on cases of interest, Medical, or Surgical, are made by the Professor of Pathology or under his direct supervision, and Gross Pathology carefully studied in this Practical way. Whatever is found that can be of value to the students is pointed out. And anything calling for Microscopical or Chemical investigation is examined in the College Laboratories.

TRINITY MEDICAL COLLEGE.

Hospital Laboratory—Affords excellent opportunities for students making and seeing examinations made of Morbid Specimens as of Sputa—Urine—Morbid States of the blood, &c., &c., &c.

The Hospital for Sick Children—This large new Hospital is fully completed and affords students great advantages for the special study of Children's Diseases. It is well worth attending by all Medical Students who wish to become familiar with the many diseases of children, medical and surgical, and is one of the largest and best Children's Hospitals in the world.

There are large numbers of most interesting cases of Medical and Surgical Diseases of Children to be seen in this Institution during the Winter Session, and as at the General Hospital during the entire year. Professors Geikie and Sheard are on the consulting staff, and Professors Teskey and Bingham, and Drs. Wishart, Baines and Fotheringham, on the Medical and Surgical staff.

Toronto Dispensary—From 5,000 to 6,000 patients are yearly treated at this Institution. The cases are very varied, comprising a large number of Pulmonary Affections, and Children's Diseases. Minor operations are of daily occurrence and excellent practice is afforded in the application of splints and bandages. The hours of attendance are from twelve to one daily. This Institution with all its advantages is open to students, and the attending Physicians furnish them with all possible facilities.

APPOINTMENTS OPEN TO STUDENTS

Hospital Assistantships—The Board of Trustees of the Toronto General Hospital ANNUALLY appoint FOUR final students of this College who have graduated, as Hospital Assistants. Assistantships in the Hospital for Sick Children are also annually awarded to two final students from this College. These positions are of great practical value, and the recommendation for them from the Faculty will be given to those graduating students whose attendance and standing at the various Examinations and whose moral character and general conduct throughout their entire course have been such as will shew them to be capable of discharging satisfactorily the duties belonging to such appointments.

Clinical Clerks and Dressers—The members of the Faculty who belong to the acting Hospital staff, will each appoint two or more students to act as Clinical Clerks and Dressers, whose duties are to take notes of the cases under treatment, and to carry out such directions as they may receive from the Professors. These positions are tenable for three months and are of very great practical utility. Under the above arrangements, each of the Medical Officers who belong to the College is able to appoint at least FOUR students during each session. No student can act as Clinical Clerk for longer than ONE period of THREE months during the same session.

Prosectors—There will be appointed annually two students who have distinguished themselves as Practical Anatomists as Prosectors

who will have the great advantage of assisting to prepare the material required for the lectures on Anatomy.

LECTURE FEES.

Anatomy, Surgery, Practice of Medicine, Obstetrics, Materia Medica and Pharmacy, Physiology, General Chemistry, Clinical Medicine, and Clinical Surgery, \$12 each; Applied Anatomy, \$10; Practical Anatomy, Practical Chemistry, Normal Histology, and Pathological Histology, \$8, each; Medical Jurisprudence, and Therapeutics, \$6 each; Botany and Sanitary Science, \$5, each; Registration, payable once only \$5.

Optional Branches—Surgical Appliances,—Zoology,—Medical Psychology,—Eye, Ear, Throat and Nose Appliances. For the Fees of these Classes, intending Students will apply to the respective Teachers.

All students, after having attended and paid the fees for two full courses of lectures in any branch, are entitled, without further charge to a perpetual ticket for that branch, except the following:—Practical Anatomy, Practical Histology, (Normal, or Pathological), and Practical Chemistry, every course of which, if attended, must be paid for. Botany and Sanitary Science are charged for once only.

All fees to be paid strictly in advance.

THE FEES ARE AS FOLLOWS:

First Year.

Anatomy	\$12
Physiology	12
Chemistry	12
Materia Medica and Pharmacy	12
Practical Anatomy	8
Botany	5
Registration	5
	(payable once only)
Total	\$66

Second Year.

Anatomy	\$12
Practical Anatomy	8
Physiology	12
Chemistry	12
Practical Chemistry	8
Materia Medica and Pharmacy	12
Histology (Normal)	8
Medical Jurisprudence, including Toxicology	6
Total	<u>\$78</u>

Third Year.

Medicine	\$12
Clinical Medicine	12
Surgery	12
Clinical Surgery	12
Midwifery and Gynæcology	12
Therapeutics, &c.	6
Medical Jurisprudence	6
Pathology	8
Total	<u>\$80</u>

Fourth Year.

Medicine	\$12
Surgery	12
Clinical Medicine	12
Clinical Surgery	12
Midwifery and Gynæcology	12
Therapeutics, &c.	6
Sanitary Science	5
Applied Anatomy	10
Total	<u>\$81</u>

HOSPITAL FEES.

Toronto General Hospital Perpetual Ticket	\$24
“ “ “ for six months only	8
Lying-in-Hospital (six months)	8
Hospital for Sick Children Ticket	2

The arrangements of the College are such, that gentlemen desiring to enter, who may have attended one or more courses of Lectures in other recognized Colleges, Schools or Universities, can do so. Dental and other casual students in Arts, Law, or Medicine, matriculated or non-matriculated, can attend any course or courses of Lectures, Primary or Final, they may desire, in this Institution, on paying the usual fees for the same.

TRINITY MEDICAL COLLEGE FELLOWSHIP EXAMINATION FEES.

For the First Year's Examination	\$5 00
For the Primary	5 00
For the Third Year's Examination	5 00
For the Final, including Diploma	5 00

LIBRARY.

The Library is being added to more or less every session. The intention is, to have a copy of every standard work on Medicine, Surgery, Midwifery, etc.

MUSEUM.

Special care has been taken in regard to the Museum in order to make it useful, not only to the members of the Faculty in the teaching of their respective departments, but also, as far as is possible, to the student himself in getting up his work. Great expense is undertaken by the College every year in procuring Skeletons, Preparations, Models, Apparatus, etc., and the collection is now not surpassed by that of any Medical Institution in the Dominion. While, at whatever cost, nothing *practically useful* has been omitted, the mere multiplying of specimens of no *practical* value has been studiously avoided.

A large and constantly increasing number of specimens gathered from hospital and private practice has been collected and carefully put up during past years, which are used in illustrating the several lectures of the course. Large additions have been made to the number of these specimens since last session. Many of the very finest models and preparations, from Paris, have recently been added to the Museum, which is growing rapidly in size and in practical value.

The Museum has been quite recently much improved by the addition of a very large number of the specimens of the drugs most commonly

used in medicine, including the Alkaloids. The greatest care has been taken in the selection of these, and they are arranged in their **orders**, as required by the Examining Boards in great Britain and Ireland, so as to be readily studied by the students. And each year this is being made of still greater teaching value.

Former Graduates, Students and friends of the College may greatly benefit it, and advance the interest of medical science, by sending to the Museum, as many have already done, any interesting specimens they may meet with in practice. They may be sent by express addressed to Dr. Powell, Curator of Museum, care of the Janitor, **Trinity Medical College, 41-7 Spruce Street, Toronto.**

The Curator will be in attendance at stated times, to give all required information to students regarding specimens and preparations.

GENERAL MATTERS.

The Faculty, in order to give intending students every information, have appended to this announcement the latest requirements of the College of Physicians and Surgeons of Ontario, before the Board of which, all who desire a license to practice in Ontario, whether graduates or not, must present themselves.

Gentlemen who hold Certificates of Registration as qualified practitioners in Great Britain, are entitled to registration by the Medical Council in Ontario, on payment of the same fees, and passing the same examinations before the Medical Council, as are required of all Canadian graduates.

All Ontario students who intend practising in their own Province, are required to take the Examinations of the Council, whether they intend going into practice immediately after graduating, or going to Europe for a time, to pursue their studies still further.

The requirements for graduation in each of the various Universities with which this College is affiliated, will be found at the end of this Announcement. IT IS THE PRIVILEGE OF THE STUDENTS OF THIS COLLEGE THAT THEY MAY PRESENT THEMSELVES FOR EXAMINATION FOR DEGREES IN MEDICINE AT ANY ONE OR MORE OF THESE UNIVERSITIES. Those who desire to proceed to Great Britain, after finishing their studies here, will find Trinity Medical College fully recognized by all the Medical Institutions, Hospitals, and Examining Boards of the mother country.

The Treasurer or some other member of the Faculty will be in attendance at the College on Wednesday, September 26th, 1894, and the following days, up to the date of the opening of the session, from 10 a.m. till 12 noon, and from 2 till 4 p.m., to register the names of intending students, and to give such information regarding Lectures, etc., as may be required.

For further information, or for copies of this Announcement, apply to W. B. GEIKIE, M.D., C.M., D.C.L., *Dean*, Holyrood Villa, 52 Maitland Street, Toronto.

Board may be obtained in the vicinity of the College at rates varying from \$3 to \$4 or \$5 per week, according to the accommodation required.

REGULATIONS FOR STUDENTS.

(To which special attention is requested.)

I. Students are required to conduct themselves in an orderly manner in the lecture rooms, AT ALL TIMES, not only DURING LECTURES, but also when neither Lectures nor Demonstrations are going on.

II. In the case of noisy, or other disorderly conduct, or of doing wilful injury to college property, any student may, at the discretion of the Professor or Lecturer, be required to leave the Class-room. Persistence in this, or in any other offence against discipline, after admonition by the Professor or Lecturer, shall be reported to the Dean of the Faculty.

The Dean may, at his discretion, reprimand the student, or refer the matter to the Faculty at its next meeting, or he may suspend such student, or students, from attending the Classes till the decision of the Faculty has been reached. MISCONDUCT ABSOLUTELY DISQUALIFIES A STUDENT FROM COMPETING FOR MEDALS, SCHOLARSHIPS, OR FOR ANY HONORS, OR FOR RECEIVING A RECOMMENDATION FOR ANY HOSPITAL OR OTHER POSITION.

III. While in any part of the College buildings, Students are required to conduct themselves in the same orderly manner as in the Class-rooms.

IV. When students are brought before the Faculty under these regulations, they may be (a) reprimanded, or (b) suspended from classes, or (c) summarily expelled, according to the circumstances of the case.

V. Regular and punctual attendance on all lectures taken, is expected

from every student. Non-attendance to any considerable extent, unless from illness, or from some other unavoidable cause, will prevent the tickets being certified at the end of the session.

VI. Damage done to College property must in every case be made good by the party who does the damage.

Disregard of these regulations, will disqualify any candidate from COMPETING FOR, or receiving a MEDAL, SCHOLARSHIP, or any other HONOR, in this College, OR FOR RECEIVING A RECOMMENDATION FOR ANY HOSPITAL OR OTHER POSITION. SPECIAL ATTENTION IS CALLED TO THIS NOTIFICATION.

SPECIAL PRIZE IN PHYSIOLOGY.

(*Dr. Sheard's.*)

For the highest standing in Physiology of the First Year. Value \$25, J. S. McEachern ; Standing, 90 per cent.

SCHOLARSHIPS.

The 1st First Year's Scholarship, \$50, (Standing 504 out of 530 marks)—J. S. McEachern.

The 2nd First Year's Scholarship, \$30, (Standing 453 out of 530 marks)—C. A. Campbell.

The 3rd First Year's Scholarship, \$20, (Standing 444 out of 530 marks)—F. A. Scott.

The 1st Second Year's Scholarship, \$50, (Standing 407 out of 460 marks)—R. McRae.

The 2nd Second Year's Scholarship, \$30, (Standing 390 out of 460 marks)—V. A. Hart.

MEDALS.

The Second Trinity Silver Medal, (Standing 286 out of 360 marks)—Geo. H. Field.

The First Trinity Silver Medal, (Standing 291 out of 360 marks)—Thos. G. Devitt.

The Trinity Gold Medal, (Standing 293 out of 360 marks)—P. D. White.

TRINITY MEDICAL COLLEGE.

MEDICAL, LITERARY AND SCIENTIFIC SOCIETY,
SESSION 1893-4.

Patrons and Honorary Members, Professors and Lecturers of Trinity Medical College.

Honorary President—Walter B. Geikie, M.D., C.M., D.C.L., Dean of the Faculty.

Representative of Faculty—Dr. G. A. Bingham.

President, R. Brodie ; *1st Vice-President*, W. W. McQueen ; *2nd Vice-President*, T. H. Pease ; *3rd Vice-President*, — — —

Councillors—H. H. Alger, J. H. McConnell.

Secretary—W. H. Scott.

Treasurer—H. E. Tremayne.

The 1st Year's men elect their representatives at the first meeting, held in October, 1894.

This Society met several times throughout the last session, at regular intervals, for reading and discussing papers on Medical, Literary, and Scientific subjects, and gave several public entertainments of a literary and musical character during the season. The meetings were exceedingly successful, and they become more so, session by session.

 the Ontario

TRINITY UNIVERSITY.

(INCORPORATED BY ROYAL CHARTER.)

RULES AND REQUISITES FOR GRADUATION.

DOCTOR OF MEDICINE AND MASTER OF SURGERY

The candidates for this degree must have matriculated in one of the following ways :

- (a) By having passed the Matriculation Examination in Arts or Medicine of Trinity University, or of some other recognized University
- (b) By having passed the Matriculation Examination accepted by the College of Physicians and Surgeons of Ontario, or Quebec, or that of the Law Society of Upper Canada.
- (c) By having passed an Examination recognized as equivalent to any of the above.

The Medical Matriculation Examination* will be held twice in the year in the Examination Hall, Trinity University, beginning on the second Friday in March and October respectively.

The subjects for this Examination for 1894-5 are :—

- (1) Writing and Dictation.
- (2) English Language, including Grammar and Composition.
- (3) Arithmetic.
- (4) Algebra, including Simple Equations.
- (5) Euclid, Books I., II., III., with easy deductions.
- (6) Latin.

Grammar.

Cæsar, *Bellum Gallicum* Bks. I., II, or Bks. V. VI.; Cicero de *Lege Manilia*; or Virgil, *Æneid*, Bk. II.

Translation of easy passages from unspecified Latin Authors.

- (7) *One* of the following divisions, to be selected by the Candidate :

* This Examination will not qualify candidates to practise Medicine in Ontario, as the Ontario Medical Council only, can confer a License to do so.

- (a) Scripture History; and St. Mathew's Gospel, ch. i. x. incl., in Greek.
- (b) Greek : Xenophon's Anabasis, Bk. I.
- (c) French : Voltaire's Charles XII., VI.-VIII.
- (d) German : Schiller's 'Thirty years' War, Bk. I.
- (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics. (Balfour Stewart's Lessons in Elementary Physics is recommended).
- (f) Logic.

Notice must be sent to the Registrar of Trinity University or to the Dean of Trinity Medical College together with the examination fee of \$5 at least one week before the examination, on a form which will be supplied on application.

The Candidate for Degrees in Medicine or Surgery must be of the full age of twenty-one years.

He must furnish certificates of having attended four Winter Sessions at some Medical College recognized by the University, except he be a Graduate in Arts or Science, when attendance at three Winter Sessions will be accepted.

All Candidates who have registered with the University after March 1st, 1890, must produce certificates of having pursued medical studies for a period of *four* years, and during that time of having attended Medical Lectures during *four winter sessions*, in any of the Medical Colleges affiliated with, or which are recognized by, Trinity University. Graduates in Arts or in science will only be required to attend *three winter sessions*.

During the four years he must have attended two courses of Lectures, attended during different winter sessions, of six months each, on Descriptive Anatomy, Practical Anatomy, General Chemistry, Materia Medica and Pharmacy, Physiology, including Histology, and ONE course of three months on each of the following subjects :—Botany, Practical Chemistry, including Toxicology.

The above Lectures must have been attended, and the first year's Examination must have been passed, in a recognized Medical College or School before the candidate can be admitted to the Primary Examination in Medicine.

He must further have attended, during different winter sessions, two courses of Lectures of six months each, on Theory and Practice of

Medicine, including Medical Pathology, Principles and Practice of Surgery, including Surgical Pathology; Midwifery and Diseases of Women and Children, Therapeutics and the Art of Prescribing; ONE course of Practical Pathology, ONE course of Applied Anatomy;* and TWO courses of three months each on Medical Jurisprudence, and ONE course on Sanitary Science.

He must have attended for at least *eighteen* months the practice of some General Hospital, and during two sessions, Clinical Lectures on Medicine and Surgery. He must have attended for at least six months the practice of a Lying-in-Hospital, or give satisfactory evidence of having otherwise enjoyed equivalent advantages of gaining obstetrical knowledge, with a certificate of attendance upon at least six cases of labor.

He must have passed two University Examinations, called the Primary and Final Examination in Medicine.

Before admission to the Primary Examination, he must produce a certificate that he has passed the First Year's Examination in some recognized Medical College.

EXAMINATIONS.

The Primary Examination may be passed at the end of the Second year. The subjects are Anatomy, Physiology, including Histology, Chemical Physics and General Chemistry, Practical Chemistry, Materia Medica and Pharmacy, Toxicology and Botany, unless where this last subject has been passed at the First Year's Examination, at the end of the First Winter's Session.

The Primary Examinations of other recognized Universities, and that of the Colleges of Physicians and Surgeons of Ontario, Quebec, or Manitoba, will be accepted in lieu of the University Primary Examination, provided that the candidate shall in all cases pay the full fee for the Degree, but if any of the subjects of the Primary Examination do not form a part of the Examination allowed, the candidate shall be required to take such subjects together with his Final Examination.

* Applied Anatomy, and Pathology are examined in, in connection with Medicine and Surgery by the University.

Graduates of any recognized University, will not be required to take such subjects of the Primary Examination as they have already passed in their University Examinations.

Final Examination in Medicine.—This Examination shall take place at the end of the Fourth Year. The subjects are: Theory and Practice of Medicine, including Medical Pathology; Principles and Practice of Surgery, including Surgical Pathology, Therapeutics and the theory and art of prescribing, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Medical Jurisprudence, Sanitary Science.

The Primary and Final Examinations may be taken together at the end of the Fourth Year.

The Examinations are held annually in the Spring, and the time of holding them is so arranged as not to interfere with those of the Medical Council of Ontario, which are held annually in Toronto.

The Curriculum of this University being formally recognized by the several Royal Colleges of Physicians and Surgeons of Great Britain, all graduates of Trinity University are entitled to every privilege enjoyed by the holders of Degrees from any Colonial University.

Conferring of Medical Degrees.—These are conferred at a Special Convocation held annually, at the close of the Winter Session.

MEDALS.

Two Medals, one gold and one silver, known as the "University Medals," are given by this University, annually, in Medicine, to the two students who stand first and second respectively, in the FINAL Subjects at the close of the Examination. Two additional silver Medals are also given by the University annually, known as the FIRST AND SECOND UNIVERSITY PRIMARY SILVER MEDALS, to the two students who stand first and second respectively in all the Primary subjects at the close of the Examination. Medals of any kind are only awarded to students whose standing are the highest on the list of those reaching, or going above 75 per cent. of the Maximum number of marks.

CERTIFICATES OF HONOR.

Certificates of Honor require 75 per cent. of the marks, and are given in this University annually, only to those students who reach this standing.

FEES.

For matriculation examination, including Registration.....	\$ 5 00
For Registration of a Candidate who has matriculated otherwise than at Trinity University.....	1 00
For Degree of M.D., C.M.....	24 00

The fee for the Degree is distributed as follows: \$10 before the Candidate presents himself for the Primary Examinations, and \$14 before he presents himself for the Final Examination.

Candidates rejected in either the Primary or Final Examinations will have the fees for that examination returned to them less \$5. Candidates required by the examiners to take any of the Subjects of the Examination a second time, will not be required to pay any other fee for such examination.

UNIVERSITY OF TORONTO.

AFFILIATION.

This University has by Statute the power as heretofore with the approval of the Governor of Ontario in Council, to affiliate with itself, Independent incorporated Medical Colleges or Schools.

Trinity Medical College is, and always has been, FULLY AFFILIATED with the Provincial University, and is represented in the Senate. All the Degrees and other Honors of this University are as open to the students of this College, who fulfil the requirements laid down in the curriculum, and given in this announcement, as to those of any Medical College or School in the Province.

Rules and Regulations for Graduation—Degree of M.B.—

The following are the requisites for admission to the degree of Bachelor of Medicine, to which there are two ordinary modes of proceeding, viz. (1) by taking a Pass Course; or (2) by taking an Honor Course.

Matriculation.—Candidates must pass the Matriculation Examination, unless (1) they possess a degree in Arts, not being an Honorary Degree, from any Dominion or British University, or (2) having already matriculated in the Faculty of Arts, or in the Faculty of Law in this

University, or (3) present a Certificate of Registration as Students in the College of Physicians and Surgeons of Ontario. They must also produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The Annual Matriculation Examination (both Pass and Honors), will commence in the beginning of July. Supplementary Examinations for matriculation will be held in the latter part of September, at which those who were rejected in the July examination, as well as new candidates, may offer themselves. The fee for Matriculation is \$5.

Candidates may delay presenting themselves for the Matriculation Examination until any time before the Final Examination for the degree of M.B.; but no candidate will be allowed to compete for relative standing or prizes until he has passed the Matriculation Examination. Candidates are requested to signify whether they propose taking the Pass or honor Examination.

Degree of M.D., Fees, etc.—The following are the requisites for admission to the degree of M.D., viz.: Having been admitted to the degree of M.B., being of one year's standing from admission to the degree of M.B., and having composed an approved Thesis on some Medical subject or having been engaged in active practice or in post-graduate work at any British, Foreign or Canadian University for at least three years since admission to the degree of M.B. in the University of Toronto. The fee for the degree of M.B. is \$20; for the degree of M.D., \$20; and for admission ad eundem grandum, \$20.

Medals, Prizes and Certificates of Honor.—A gold medal and three silver medals are offered annually for competition among the Undergraduates who have succeeded in obtaining the degree of M.B., with First Class Honors, and will be awarded according to the percentage of marks in the aggregate result of the Second, Third and Fourth professional examination; but the gold medal will only be awarded on the special recommendation of the examiners. Prizes, each of the value of Ten Dollars in books, may be awarded annually among Undergraduates in Law, Medicine and Arts, for the best composition in Greek Verse, Greek Prose, Latin Verse, Latin Prose, English Verse, English Prose, French Prose or German Prose.

Certificates of Honor will be given to those students who, at any of the examinations, have been placed in the First Class in Honors in any department.

Regulations for Undergraduates.—Undergraduates are required to attend lectures and receive practical instruction during each of four years, at ONE OR OTHER of the Schools of Medicine recognized for this purpose by the University. Each undergraduate, at the end of each of the four years of his course, may present himself at the annual examination of that particular year, or if he prefer to do so, he may elect to take the Primary Examination, held at the end of the second, and the Final Examination held at the end of the fourth year. The annual examinations are styled the first, second, third, and fourth professional examinations, and are to be passed in separate years in the order, named, by all candidates for the degree. Graduates in Arts of this University, with honors in the Department of Natural Sciences will be exempted from the first professional examination, and from the fee for the same. They must, however, take the Anatomy of that examination along with the second professional examination. The fee for each professional examination is Five Dollars, payable when the candidate notifies the Registrar of his intention to present himself. The following certificates are required for the different examinations:—

First Professional.—(1) Of having attended lectures on the following subjects:—Anatomy, 100; Physiology, Inorganic Chemistry, each 60; Natural Philosophy, 20; Botany, Zoology, each 30; (2) Of practical instruction in Anatomy during six months.

Second Professional.—(1) Of having attended lectures on the following subjects:—Anatomy, Physiology, Materia Medica, and Therapeutics. Organic Chemistry. (2) Of practical instruction in Anatomy, six months; Histology, Physiological Chemistry, each three months. (3) Of having dissected the parts of the human body once. (4) Of being skilled in compounding and dispensing drugs.

This certificate may be from a registered Practitioner, the Apothecary of a public Hospital or of a public Dispensary; or from a member of the Pharmaceutical Societies of Ontario or Quebec, and must state that the candidate has been engaged for at least three months in such work.

Third Professional.—(1) Of having attended lectures on the following subjects:—Practice of Medicine, Surgery, Obstetrics, Clinical Surgery and Medicine, General Pathology. (2) Of having dissected the parts of the human body the second time. (3) Of practical instruction in Pathological Histology, three months.

Fourth Professional.—(1) Of having attended lectures on Clinical Medicine and Surgery, Forensic Medicine, Hygiene, Medical Psychology. (2) Of practical instruction in Chemistry in its application to Hygiene and Forensic Medicine. (3) Of having attended at least six clinics in a public Lunatic Asylum. (4) Of having conducted at least six labours. (5) Of proficiency in vaccination. (6) Of attendance in the wards of a public Hospital, accommodating not less than 100 beds, during eighteen months. (7) Of attendance for six months on the out-practice of a hospital dispensary or registered practitioner. (8) Of having attended twelve Autopsies.

QUEEN'S UNIVERSITY.

Candidates for the degree of this University, with which TRINITY MEDICAL COLLEGE is affiliated, must be of the full age of twenty-one years, and must have completed a period of *four year's study*, and have passed the Matriculation Examination, which is as follows :

- English Language, Grammar, and Composition.
- Arithmetic, with Vulgar and Decimal Fractions.
- Algebra, including simple Equations.
- Geometry, first two Books of Euclid.
- Latin Grammar, and translation (Cicero, Cato Major, Virgil, Æneid, Bk. I., 1-304. Ovid, Fasti, Bk. I., 1, 390.)
- Natural Philosophy, as in Stewart's *Physics*.

Graduates in Arts and matriculants in Arts or in Medicine, in a recognized British or Colonial University, *and those who have passed the Matriculation Examination of the Medical Council of Ontario*, or any matriculation examination recognized by that body as equivalent to its own, are not required to pass the above matriculation examination.

This examination must be passed before a student is admitted to any of the professional examinations, although lectures may be attended previous to passing this matriculation examination.

In the case of graduates in Arts or in Science, a period of three years only will be required, but not fewer than THREE WINTER sessions attendance at lectures.

All other candidates must have given regular attendance on full courses of instruction in the following departments for the period stated, during **FOUR SESSIONS**.

Two full courses of six months each, on Principles and Practice of Medicine, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Physiology, including Histology, Anatomy descriptive, Anatomy practical, General Chemistry, Materia Medica and Therapeutics.

Also two courses of Medical Jurisprudence and Toxicology ; and one each on Practical Chemistry and Botany, and not less than eighteen months' hospital attendance, and six midwifery cases, etc., and every candidate must present a certificate of having compounded medicines in an office of a medical man, or in a hospital or dispensary for a period of not less than six months.

The above course of study may have been pursued either wholly at Trinity Medical College, or partly at some other Medical College or School recognized by Queen's University.

The examinations are (a) held at the end of the 1st year ; (b) the **PRIMARY**, at the end of the 2nd ; (c) the **FINAL** held at the end of the 4th year.

Candidates may undergo the examination on Sanitary Science and Medical Jurisprudence at the end of the 3rd year if they desire to do so, or they may be taken with the final examination at the end of the 4th year.

Every candidate must present a certificate of good moral character.
Graduation Fee, \$25 (for M.D.)

College of Physicians and Surgeons OF ONTARIO.*

Every one desirous of being registered as a matriculated medical student in the register of this College, except as hereinafter provided must present to the Registrar the official certificate of having passed the

* The sole licensing body in Ontario.

third class non-professional examination, with the Latin option included, prior to July 1st, 1888, or after that date the SECOND CLASS NON-PROFESSIONAL, with Latin and after Nov. 1, 1892, the "Departmental Pass Arts Matriculation Examination," and in addition Physics and Chemistry—whereupon he shall be entitled to be so registered upon the payment of twenty dollars, and giving proof of his identity.

The Third class non-professional with Latin passed, after JULY, 1888, WILL NOT BE ACCEPTED.

Graduates in Arts, in any University in Her Majesty's dominions, are not required to pass this examination, but may register their names with the Registrar of the College, upon giving satisfactory evidence of their qualifications, and upon paying the fee of \$20.

Every medical student, after matriculating, shall be registered in the manner prescribed by the Council, and this shall be held to be the beginning of his medical studies, which shall date from that registration.

MEDICAL CURRICULUM.

1. Every student, who after his matriculation has registered with the Council, PRIOR to November 1st, 1892, must spend a period of FOUR years in actual professional study, except as hereinafter provided.*

Graduates in Arts in any College or University recognized by the Council will, if registered before November 1, 1892, only be required to pass three years after graduating in Arts, in attendance upon medical lectures, before being admitted to the final examination.

Every student registered as above after 1st day of November, 1892, must spend a period of five years in actual Professional studies, except as hereinafter provided; and the prescribed period of studies shall include four Winter Sessions of six months each and one Summer Session of ten weeks. The fifth year shall be devoted to Clinical work, six months of which may be spent with a Registered Practitioner in Ontario, and six months at one or more Public Hospitals, Dispensaries, or Laboratories devoted to Physiological or Pathological research, Canadian, British, or Foreign, attended AFTER being registered as a Medical Student in the Register of the College of Physicians and Surgeons of Ontario.

* Students who have registered after November 1, 1892, will be required to spend Five years in Professional Study.

2. Graduates in Arts or Science of any College or University recognized by the Council, who shall have spent a year in the study of Physics, Chemistry and Biology, and have passed an examination in these subjects for degrees in Arts or in Science, shall be held to have completed the first year of the five years of Medical Study, and will only be required to pass three years after graduating in attendance upon Medical studies, and having spent one year thereafter in practical Clinical work before being admitted to their FINAL Examination.

No tickets for Lectures will henceforward be accepted by the Council unless it is endorsed thereon that the pupil has attended at least 75 per cent. of each course of said Lectures, as shown by the teacher's own Roll.

Every student must attend the undermentioned courses of lectures in a University, College, or School of Medicine, approved of by the Council, viz. :

Two Courses of Six Months each, in different years, upon Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Pharmacy, Therapeutics, Principles and Practice of Medicine, Principles and Practice of Surgery, Midwifery, and Diseases of Women and Children, Clinical Medicine and Clinical Surgery.

Two Courses of Three Months each upon Medical Jurisprudence.—
Two Courses of Three Months each upon Practical Chemistry, including Toxicology,—and *One Course of Three Months* on Diseases of Children,—and *One* on Botany,—*One Course of Ten Lectures* on Mental Diseases.

One course of *Twenty-five Demonstrations* upon Normal Histology, and *One* course of *Twenty-five Demonstrations* upon Pathological Histology, and one course of twenty lectures on Sanitary Science, and *One* course of *Fifty Lectures* on Medical and Surgical Anatomy.* This last course is for FINAL candidates, and is to be taken in the 3rd or 4th year.

Every candidate must prove his having carefully dissected the whole adult human body.

Every student before being admitted to the Final Examination hereinafter mentioned, must have spent a period of six months in compounding medicines.

* Often called Applied Anatomy.

He must have attended the practice of a General Hospital for 24 months.

He must have attended six cases of Midwifery.

He must, before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all examinations hereinafter prescribed, and must have attained the full age of twenty-one years.

Student or Graduates in Medicine from recognized Colleges outside the Province of Ontario and Quebec, who desire to qualify themselves for Registration in this Province, must pass the Matriculation Examination recognized by the Council, and must attend thereafter one or more full "Winter Courses" of Lectures, in one of the Ontario Medical Schools, so as to complete fully the Curriculum required by the Council, and shall pass, before the Board of Examiners appointed by the Council, all the examinations hereinafter prescribed.

EXAMINATIONS.

The Fall Examination of the Medical COUNCIL will begin on the 2nd Tuesday of September, 1894. The Spring Examination on the second Tuesday in April, 1895.

When the FIVE years curriculum goes into operation there will be a "PRIMARY" held at the end of the 2nd year, an "INTERMEDIATE" at the end of the 3rd or 4th year, and a "FINAL" at the end of the 5th year. THESE CHANGES WILL ONLY AFFECT STUDENTS REGISTERED WITH THE COUNCIL AFTER NOVEMBER 1, 1892.

The Primary to be held in April 1895 will be that of the FIVE year's curriculum. Under the following regulation.

The Primary Examination shall be undergone after the second Winter Session, and the Intermediate after the third or fourth Winter Session, the Final after the fifth year.

The following branches shall be embraced in the Primary Examination :

- a. ANATOMY.
- b. PHYSIOLOGY AND HISTOLOGY.
- c. CHEMISTRY (Theoretical and Practical).
- d. MATERIA MEDICA AND PHARMACY.

Every Candidate for the Primary Examination will be required to present, with his Lecture Tickets, a certificate of having undergone and passed an Examination at the School he has attended at the close of his first Winter Session on the Primary Branches. Also a Certificate of ability to make and mount Microscopic specimens.

In April 1895 the Final Examination will be conducted as heretofore, under the following regulation :

Each Candidate for Final Examination must present a Certificate of attendance at six Post-Mortem Examinations, and a Certificate of ability to draw up a Report of a Post-Mortem Examination ; and a Certificate of having reported satisfactorily Six Cases of Clinical Medicine, and Six Cases of Clinical Surgery, and of having attended twenty-five Pathological Demonstrations, and of having passed his Primary Examination. The certificates to be signed by the Teachers referred to upon these subjects, or the Practitioner holding Post-Mortem. At the Spring Examination of 1896 and thereafter, **all** FINAL Candidates (except Graduates in Arts who shall take the 3rd year's Examination, at the close of their Second Session) must present with their Final tickets, a Certificate of having passed *at the close* of their **Third** Session, in the College or Medical School, they may have attended, an Examination in such parts of Medicine, Surgery, Midwifery, &c., as may be appointed by the Faculties of the respective Colleges or Schools. This Examination will not in any way interfere with the Examinations of the Council.

The following branches are embraced in the Final Examination : Medical and Surgical Anatomy (or Applied Anatomy) Theory and Practice of Medicine and Therapeutics, Clinical Medicine, Sanitary Science ; Surgery, other than Operative ; Surgery, Operative ; Clinical Surgery ; Medical and Surgical Pathology ; Midwifery (other than Operative), and Diseases of Women and Children ; Midwifery, Operative. Medical Jurisprudence.

Any Candidate who passes creditably in three or more branches, but fails in the others, shall receive credit for the subjects so passed, and be compelled to pass in the other branches *only*, at a subsequent Examination.

A Professional Examination will be held in Toronto on the second Tuesday in September, 1894. Candidates who have failed in a former Examination must pay a fee of twenty dollars for this Exam-

ination. The Spring Professional Examinations will be held in Toronto and Kingston on the second Tuesday in April, 1895.

MEDICAL COUNCIL FEES (After July 1, 1889.)

The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario:—

Registration of Matriculation	\$20 00
Primary Examination	30 00
Final Examination	50 00

Candidates who are unsuccessful are entitled, at a subsequent time, to a second Examination on payment of \$20.

All fees are to be paid to the Treasurer of the Medical Council prior to the several Examinations.

For students not registered before July 1st, 1889, the Primary fee will be \$30, and the Final fee, \$50.

Any student registered with the Medical Council as a matriculate, PRIOR TO JULY 1, 1889, pays \$20 for the Primary and \$30 for the Final Examination Fee.

TEXT BOOKS.

Included in the Curriculum for the Examinations of the Trinity Medical College, and for reference, with the price of each. They are suitable for the Examinations of all the Universities and of the Medical Council.

Publishers prices are given, which owing to recent tariff changes will now be subject to a considerable discount.

HONORS AT THE MEDICAL COUNCIL.

The only standing recognized as giving "Honors" at the Medical Council are cases in which the candidate obtains 75 per cent. or more of the marks on EVERY subject of the examination he passes.

In the PRIMARY EXAMINATION only SIX candidates all told, have obtained Honors up to 1894.

1. J. Sutherland, } in 1889 both from Trinity Medical College.
2. J. Third, }
3. H. L. Barber, in 1890 from Trinity Medical College.
4. W. Glaister in 1891 from Trinity Medical College.

FOUR out of the *six* were students from this Medical College.

In the FINAL EXAMINATIONS only two candidates all told have obtained Honors up to 1894.

1. C. H. Bird, in 1893, a student, Gold Medalist, and graduate of Trinity Medical College; having been the FIRST candidate who took Honors in the Final Examination of the Council.
2. Mr. Connell, in 1894, a graduate Queen's University.

THE FOLLOWING FORMER STUDENTS OF TRINITY MEDICAL COLLEGE HAVE GRADUATED AT TRINITY UNIVERSITY.

Attention is directed to the very large number who, subsequent to graduation at Trinity, have taken one or more diplomas in Great Britain.

Allingham, L. W.	Andrus, W.
Allingham, A. W.	Allbright, Joseph.

A Catalogue of the Museum of Trinity Medical College will be sent on application to any address. It is too large to have had bound in this Calendar.

Professional Examination papers also may be had by applying for them.

For some years past the Medical Students' Branch of the Young Men's Christian Association, in addition to a great deal of good work done for Students, have taken much trouble to prepare carefully, a list of suitable boarding houses, for distribution among the Students at the commencement of each Winter Session. To young men, strangers in the city, this is a great help.

N.B.—The names of Drs. I. B. Anderson, F. Fenton and C. A. Temple, who took part in work of the Summer Session 1894, were accidentally omitted from the list on page 10.

On page 71, near the top of the page, on the 4th line the words "*since 1889*" should have followed the words "Primary Examination." For "six" on this line and on the 10th line, read seven.

In 1887 there were only three Honor men at the Council amongst the Primary candidates, Messrs W. R. Wade, J. H. C. P. Fisher, and H. W. Armstrong, all from Trinity Medical College. In 1888 there were two Honor Primary men from another College. In 1889 and since, the candidates have been as given in this Calendar, (page 71).

INDEX.

APPOINTMENTS for Students as Hospital Assistants, Clinical Clerks and Dressers, Prosectors.....	38
BURNSIDE LYING-IN-HOSPITAL.....	37
CERTIFICATES OF HONOR, Scholarships, Special Prizes, Medals, Fellowship Diplomas, and Declaration.....	33 to 35
