GERMANS ARE FIGHTING WITH ENERGY OF DESPAIR; GIANT EFFORTS TO STEM THE TIDE OF BATTLE

BREACH IN HINDENBURG SYSTEM EXTENDED TODAY

Important Enemy Retreat Is Expected Before Long

Germans Putting In Their General Reserves, Including Best Troops, In Desperate Attempt To Hold Allies—Frankfurt Gazette Admits "Great Danger Along Whole Western Front"—Allied Forces Make Local Gains of Great Importance

London, Oct. 4.—News from all sectors of the western front tells of giant efforts by the enemy to stem the daily advancing tide of battle. The Germans are putting in their best troops, and, according to all correspondents, are fighting with the energy of despair.

Still there is no sign of any great retreat, except the withdrawal in the Flanders sector, where the British have occupied Armentieres and Lens and are closely pressing the retreating enemy. The recapture of the great French coal region affords great satisfaction here.

In the Sequehart-Bony sector, the Allied breach in the Hindenburg system was extended today and the fighting reached the outskirts of Mont Brehain, where Australian units, with tanks, are operating.

The importance Germans attach to the retention of this portion of the line is indicated by the Frankfurt Gazette, which states that, in order to prevent a frontal break through between Cambrai and St. Quentin, General Von Boehn's army has been made so strong that it is equivalent to a complete army group. The Gazette declares "there is great danger along the whole western front."

It cannot be long before an important enemy retreat from the Hindenburg line is bound to happen, according to the universal military opinion here.

Interesting news come from Eastern Europe. Austria has withdrawn her troops in Albania, and the Italians have recaptured Berat. It is learned in official quarters that German residents of Sofia and Constantinople, including officers and their families, are leaving hastily and going through Roumania to Germany.

ALLIES CONTINUE TO GAIN

Paris, Oct. 4.—Germany is now throwing in general reserves into the battle on the St. Quentin front. This accounts for the stiffening resistance there and also the German left bank and marks the beginning of the last phase of the great battle.

Notwithstanding violent counter-attacks by the enemy, the Allies continue to make gains, which, although local, are, nevertheless, important, as they have a cumulative effect on the centre of the line.

As a further result of the German retreat in the north, the enemy now is in peril of losing the Belgian coast. Should the Allies succeed in forcing their way through the gap between Oisid and Lille, it would mean disaster for the Germans. Even if the drive should be stopped on the coast, General Ludendorff no doubt realizes it will be difficult to resist indefinitely the growing strength of the Allies in Flanders.

Second Line Breached

French Quarters in France, Oct. 3.—(Reuters)—The capture of Challerange, northwest of the Argonne Forest, means that the enemy's second line of resistance which he was wise enough to prepare, has been breached.

The line lacks the fantastic strength of the first line—seven miles back, but it rushed the enemy to hold on tenaciously during the last few days of fighting. It was organized in great depth, like the old line, but it has the continuous lines of trenches like the old front. It consists of many links of concrete machine gun shelters, protected by an abundance of extraordinarily deep entanglements.

The fighting, especially on the left, has been of a furious character, the Germans clinging to their positions with the greatest obstinacy.

They began with thirteen divisions in the line and then flung in twelve new divisions, all having been solemnly enjoined by their commanders that they must hold the ground at all cost, that when the main line of resistance was at stake there was no such thing as mobile defence.

French Statement

Paris, Oct. 4.—French troops in the St. Quentin region have advanced east of Leuling, says the war office statement today.

French and American troops in Champagne have made further advances northwest of Mont Blanc and Meudal Farm. North and northwest of Rheims the French have increased their gains somewhat and improved their positions in the region of Betheny.

HALIFAX LIEUTENANT POSTED AS KILLED

London, Oct. 4.—Lieut. J. W. Ings, Royal Engineers, belonging to Halifax, is posted as killed.

GREATEST FEAT EVER PERFORMED BY DIVISION IN BRITISH ARMY

Stirring Story of War Comes From S. Quentin Sector

WONDERFUL DAY'S WORK

Men Swam Across to German Positions Through Hail of Bullets, Then Rush at the Foe—Huns Apply Torch as They Retreat

With the British Army on the St. Quentin front, Oct. 3.—(By the Associated Press)—Among the British divisions which have made deep gains in this sector in the recent fighting is the forty-sixth, commanded by a major-general, who was a private in the South African war. It was this division which first crossed the Hindenburg line at St. Quentin Canal, north of Belleplais, last Sunday. The division advanced from a point 2,000 yards west of the canal, and virtually annihilated all the Germans holding the first Hindenburg line there. Then, being unable to see twenty feet because of the dense fog, these soldiers followed the explosion of their barrage to the canal banks, where under the leadership of a brigadier-general already the winner of the Victoria Cross, they plunged into the water.

The opposite bank was lined with German machine guns. Some of the British were hit by the fire, but they swam across through a perfect hail of bullets. Some went hand over hand across life lines. Only one man was drowned in the whole operation.

Once on the other bank the men of this North Midland division immediately plunged into the fight, fought their way up the slippery canal banks, went over the enemy parapets and finished off hundreds in every section with bayonets and rifles and pistols fired at point blank. The terrified Germans just a little bit farther back saw the performance and ran for their lives.

During the operations of a single day this division by its dash and quick fighting took 4,200 prisoners, seventy cannon, more than 1,000 machine guns and great quantities of war material.

The total casualty list of the division was only 800. This is regarded by the British army as the greatest feat ever performed by a British division.

As the Germans retreat in the Armentieres sector they are applying the torch whenever they have the time, and their retreat is marked by great explosions as ammunition stores are destroyed.

It is known that the Germans are becoming so short of ammunition that many of the higher officers are alarmed, but in the retreat the destruction of dumps has been absolutely necessitated.

WOMEN'S AID DEPARTMENT IN HOSPITALS IN CANADA

Ottawa, Oct. 3.—The department of militia and defence in cooperation with the St. John Ambulance Brigade overseas has authorized the establishment of a women's aid department for service in the military hospitals throughout Canada. This action is based, according to a statement issued by the department, "realizing the necessity for man-power in the war period and knowing the readiness of Canadian women to give their services in any emergency."

MARKET IRREGULAR

New York, Oct. 4.—(Wall Street)—Further moderate selling of our shares, including equipments, contributed to the irregular trend in the first half hour of today's stock market. U. S. Steel and Crucible Steel reacted a point each with specialties, such as Sumatra Tobacco and Texas Company, and St. Paul also yielded to the same extent. These reactions were balanced by renewed strength in shipping, Mexican Petroleum and Utilities, the latter being represented by Brooklyn Transit, Philadelphia Company, Peoples Gas and Ohio Gas.

ENEMY NAVAL BASE AT DURAZZO AND SHIPS DESTROYED

British, American and Italian Vessels Hit The Austrians a Smashing Blow—Our Losses Nothing

Rome, Oct. 4.—British, American and Italian warships have destroyed the Austrian naval base at Durazzo and the warships anchored there, according to an announcement made by Premier Orlando.

The attack commenced at noon on Wednesday, when Italian and British cruisers, protected by Italian and Allied torpedo boats and American and British destroyers, succeeded in making their way through mine fields and avoiding attacks by submarines, got into Durazzo harbor.

An intense bombardment followed until the base and the Austrian ships anchored there were completely destroyed.

Italian sailors, in the teeth of a hot enemy fire, torpedoes an Austrian destroyer and a steamer. Another vessel, which was recognized as a hospital ship, was allowed to withdraw.

British and Italian airplanes co-operated in the work. Other Italian and Allied warships were drawn up in order of battle outside the harbor to deal with any enemy warships coming up to the assistance of the port.

No losses or damage were suffered by the Allied squadron, except a slight injury to a British cruiser by a torpedo from an enemy submarine.

MUCH MATERIAL DESTROYED

London, Oct. 4.—In the leveling of the fortifications and depots at Durazzo, Wednesday, the British command, according to a Central News despatch from Rome, destroyed much material for the Austrian army in Albania.

TURKISH MINISTER OF INTERIOR HAS RESIGNED

Kaiser Sends Mission to Sofia—Burning Villages Mark Retreat of Bulgarians—Socialists Serve Notice on Government

Amsterdam, Oct. 4.—The Turkish minister of the interior has resigned, according to a Constantinople message today. Kaiser Is Busy.

Paris, Oct. 4.—Emperor William sent a military mission to Sofia as soon as the situation there was reported to him, according to a Munich newspaper. This mission, it is said, has placed German and Austrian troops at strategic points along the principal Bulgarian railways.

Bulgarian deserters reached a point within six miles of Sofia, according to a Zurich despatch, but were driven back by Bulgarian contingents.

Sofia, Oct. 3.—Burning villages marked the trail of the retreating Bulgarian army in Macedonia, according to telegrams received here from the front. Bodies of slain civilians were found in the smoking ruins at many places by the advancing Allies. Reports state that this work of destruction surpassed even that which has been reported from districts in France and Belgium from which the Germans have been driven.

As a further condition the Socialists demand that the government shall make such negotiations as are necessary to ensure good relations between the Balkan peoples and which will tend toward the establishment of a Balkan league.

HIGHER FREIGHT RATES ARE AUTHORIZED FOR PENNSYLVANIA COAL

Washington, Oct. 4.—Railroads not under federal control are authorized by the Interstate Commerce Commission today to increase their rates on coal from the Pennsylvania fields to points in Pennsylvania, New York and Canada to a level with those lines under federal control.

GOVERNOR-GENERAL AND PARTY AT QUEBEC

Quebec, Oct. 4.—His Excellency the Governor-General entertained a number of ladies and gentlemen at luncheon at his quarters at the Citadel yesterday. In the afternoon the governor-general, accompanied by Lady Dorothy Cavendish and members of his staff, visited the Quebec Golf Club at Montmorency Falls, where they had an excellent round of golf.

CAVALRY, 'WHIPPETS' AND MOTOR BUSES POUR THROUGH BREACH

Capture of Fresnoy Gives Allies Access To Open Country

Entire German Positions North and South of St. Quentin are Gravely Menaced—Enemy Appears to be in Full Flight North of Break in Line—Allies Farther in Cambrai as Enemy Withdraws—Six Thousand Yards Beyond the Beaurevoir Line—British, French and American Troops all Advance

With the American Army in the St. Quentin Sector, Oct. 3.—(By the Associated Press)—British forces broke through the entire Hindenburg defence system in the neighborhood of Fresnoy today. As soon as the break had been made cavalry forces swept through, being followed closely by "whippet" tanks and armored cars. According to the reports which are considered reliable the village of Fresnoy itself was taken soon after ward.

Allied airplanes which have been flying low over the rear of the Hindenburg line, report that there are only one or two thinly held hasty trench lines in front of the advancing British.

This is a perfect cavalry country and with this force free behind the enemy's lines, the entire German position north and south of St. Quentin are gravely menaced.

The enemy appears to be in full flight to the north of the break in the line. Allied patrols have penetrated further into Cambrai, from which the Germans seem to be withdrawing.

There was fighting of the most desperate character before the last line of the system was smashed. Fresh troops which had not been in the earlier fighting here were poured into the battle. P. respect Hill, a strong enemy position, was taken by storm. An immense number of Germans were killed during the fight.

During the afternoon the Germans delivered a terrific counter-attack against Gouy and Lecatet. Unconfirmed reports say that they gained slightly here, but their advantage was short-lived. New British attacks were launched and desperate fighting is still in progress.

Last available air reports are to the effect that the advancing British troops are 6,000 yards beyond the Beaurevoir line. Machine gunners in large numbers are said to have poured through the breach in the Hindenburg system aboard motor buses.

BADEN PRINCE IS NEW CHANCELLOR OF GERMANY

Maximilian Will Head Coalition Government, is Belief in London; Reply to Demand for Dictatorship

Amsterdam, Oct. 4.—Prince Maximilian of Baden has been appointed German chancellor, says an official announcement received from Berlin.

London, Oct. 4.—There is little room for doubt that the solution of the German governmental crisis will be found in the shape of a coalition government under the chancellorship of Prince Maximilian of Baden. No official news on the situation has as yet reached London, but, according to German newspapers, there is a possibility that among the ministers there will be some Socialists.

It is understood that the new government will be considered a collective body. All the secretaries will participate in its decisions, but the chancellor, vice-chancellor and the secretaries without portfolio. Philipp Scheidemann and a Centrist deputy will form an inner committee.

It is stated that Prince Maximilian will outline his programme before the Reichstag on Saturday.

Amsterdam, Oct. 3.—Responding to a demand for the establishment of a dictatorship in Germany, Herr Von Borch, chief of Emperor William's civilian cabinet, has sent the following reply to the citizens of Hanover.

"His majesty confidently expects in the present times that the entire German people will unanimously and trustfully support the Kaiser and the empire, and with its competent leaders pursue only one aim, staking its blood and treasure to free the Fatherland from threatening dangers."

Deputies Greber (Centrist), and Schickelmann, majority Social Democrat, have been appointed secretaries of state without portfolio.

The official statement adds that Prince Maximilian also has been named Prussian foreign secretary. He will announce his programme at a full meeting of the Reichstag on Oct. 5.

FEW RESERVES OPPOSITE THE CANADIANS

Enemy Counter-Attack Easily Put Down—Germans Severely Punished in Spite of Use of 33 Reserve Battalions

With the Canadian Forces, Oct. 2.—(Delayed)—(By J. F. B. Livesey, Canadian Press Correspondent)—Our line was abnormally quiet today until three o'clock this afternoon when the enemy artillery started to strafe Stolle, but nothing further came of it. Early this evening a counter-attack, local in character, developed against our Tilly positions, but was easily put down by our artillery and infantry. We took some prisoners.

It becomes increasingly doubtful whether the enemy is in any shape to launch a powerful thrust against our positions, so severe was the punishment he received yesterday, when he threw in no fewer than thirty-three battalions. He cannot have more than nine in reserve, unless he can draw from new elements. Five possible reserve divisions he had for this battlefield have been moved since Sept. 27 to the Flanders battlefield and the only other he has immediately available is the fifteenth reserve division south of Lens. If, however, a general retreat in that sector is under way it is certain he cannot afford to weaken himself during such difficult operations. To sum up, whatever counter-attacks he may have in store for this front must be carried out almost entirely by existing elements which are tired and greatly weakened by heavy losses inflicted by the Canadian corps. Since the Canal Du Nord was passed he is more likely to be content with the zone of manoeuvre he still retains west of the Canal Desout.

BRITISH AVIATORS DESTROYED FOUR ENEMY MACHINES

Have, Oct. 5.—In aerial fighting on the Flanders front today British aviators destroyed four German machines, the Belgian war office announced tonight.

J. F. BECKWITH,
AS ST. JOHN BOY,
DIED OF WOUNDS

Many Local Soldiers Today in
Casualty List—Indication of
Severity of Fighting by New
Brunswick Troops

Arthur Beckwith of East St. John has been advised that his son, John Francis Beckwith, died of wounds on September 23. This gallant young soldier enlisted two years ago while only a boy of sixteen. He crossed to England with the 140th and within a few days was sent forward in a reinforcement draft to France. Since then he had been through many of the big engagements and had borne his full share of the fighting. The despatch announcing his death was the first intimation received by his family that Pte. Beckwith had been wounded. It is probable that his death followed soon after he was struck. Surviving are his father, two brothers, Leo, who went over with the first contingent and who has been in military service for more than four years, and Harold at home, and one sister, Mrs. Walter Coaman of this city. In their sad bereavement, mitigated somewhat by the glorious cause in which the young life was so willingly offered, Private Beckwith's family will have the sincere sympathy of their friends.

Pte. W. Madden Killed.
Mrs. Mary Dixon of 225 Brussels street received a letter this morning from Scotland informing her that her brother-in-law, Pte. W. Madden, had been killed in action on July 28. Private Madden was a native of Scotland, but resided in this city for a few years. As the outbreak of the war he returned to Scotland and enlisted. He is survived by his wife and one child.

Pte. W. J. Pemberton.
Mrs. Ronald McAllister of 15 Duff street, received a letter this morning from Ottawa, stating that her nephew, Private William James Pemberton, had been wounded in the right shoulder on September 26. Private Pemberton prior to going overseas was engaged in farming in Kings county. His father, Private James Pemberton, recently returned from overseas and is at present attached to the Depot Battalion.

Pte. C. H. Williams.
Mrs. Williams, 294 Rockland road, was advised this morning from Ottawa

RECENT DEATHS

Mrs. B. N. H. Dibbles.
The death occurred yesterday of Violet E. Dibbles, wife of B. N. H. Dibbles, at her home, 205 Paradise Row. Death came as a great surprise to her many friends. Mrs. Dibbles had been in poor health for the past two years. She leaves a daughter, Hazel, and a sister, Mrs. Lewis Smythe, of Montreal.

Louis Goldfeather.
Many friends will regret to learn of the death of Louis Goldfeather, eldest son of Mr. and Mrs. F. Goldfeather, 188 Prince William street, which occurred on Tuesday night at the General Public Hospital after a short illness following an operation. Besides his parents, one brother and three sisters survive.

Lance-Corporal Medley B. Weldon.
The sad news of the death of Lance-Corporal Medley Bertram Weldon, Canadian Engineers, St. John's (Que.), was received yesterday by his sister, Mrs. Clayton Collette, 117 Elliott Row, in a telegram from the Royal Victoria Hospital, stating that he died there yesterday morning. A few days ago Mrs. Collette had word from her brother stating that he had a heavy cold and it is thought here that death was due to Spanish influenza.

E. R. Rogers.
Woodstock, N. B., Oct. 3.—Elegg Rogers, son of Mr. and Mrs. G. M. Rogers, of Northampton, passed away at his home, Monday morning, September 23, 1918. He was eighteen years of age, and is survived by his parents, three sisters, Mrs. Clifford Kidney, of Northampton; Daisy and Mary, and one brother, William, all at home. The funeral was conducted by Rev. Mr. Howard, of Woodstock. Interment was made in Green Bank cemetery.

Andrew Philip, Sr.
Upper Kintore, N. B., Oct. 3.—There passed to his rest recently, after a short illness, one of Upper Kintore's oldest and most highly respected residents, namely, Andrew Philip, at the age of eighty-three years. He was born at Quatton of Drum, Aberdeenshire, Scotland, and came to this country in the year 1874. Some years ago, while working in a sawmill, he was unfortunate enough to lose his left arm, but in spite of this he kept a small wood-working shop, where he worked until within a few weeks of his death. Mr. Philip was a staunch member of the Presbyterian church and was always to be found in his accustomed seat in the "kirk" where he will be greatly missed by all. He lived at

Mrs. G. Fred. Bond.
A telegram received here today by John H. Bond, 74 Waterloo street, conveyed the sad news of the death of the wife of his brother, G. Fred. Bond, in Malabar (Mass.), after a short illness. Mrs. Bond was a woman of kindly disposition and leaves, besides her husband, one daughter, Miss Beattie, at home. Mr. Bond was a resident of St. John before going to Malabar, where he has become one of the foremost business men, and much sympathy will be expressed by his friends here and elsewhere in his sad loss.

Mrs. Daniel Duffy.
Chatham, Oct. 2.—The death of Mrs. Daniel Duffy occurred at her home here on Thursday. Mrs. Duffy had been ill for a year, and her death was not un-

expected. Besides her husband, she leaves four sons, Frank, in Idaho; Ernest, in Trenton (Ont.); and James and Carl, of Chatham, and two daughters, Mrs. Edward Houghton, of Boston, and Miss Tessie, at home. Rev. E. J. Conway conducted the funeral service. Interment was made in the Catholic cemetery at Red Bank.

Miss Janet Fowler.
Chatham, Oct. 2.—Friends here heard with regret of the death on Saturday at Apolau of Miss Janet Fowler. Miss Fowler had lived here practically all her life, and had many friends, all of whom were much shocked when the message came announcing her death. The body was brought here on Monday and laid to rest in the Presbyterian cemetery at Red Bank. Rev. E. E. Morvatt conducted the service.

Mrs. Coley A. Craig.
Hartland, Oct. 2.—The death occurred on September 26, 1918, of Mrs. Coley A. Craig after a lingering illness. Besides her husband, she leaves four children, Mrs. Oran Hovey, little Miss Sybil, John and Winifred. The funeral was held on Saturday, and the service was conducted by Rev. E. A. Trice. Floral tributes were received from the W. M. A. S. and Star Bible Class of the Baptist church, of which Mrs. Craig was a valued member.

St. George, Oct. 3.—The funeral of James Woodbury, an aged and respected citizen was held here yesterday with services in St. Mark's church. Rev. I. W. Spencer officiated.

Mr. Woodbury died on Monday after a short illness, his end hastened by the loss of his son, Fred's death at the front a few weeks ago. His wife, one son, and two daughters, Mrs. Ernest Fisher survive.

Upper Kintore, N. B., Oct. 3.—There passed to his rest recently, after a short illness, one of Upper Kintore's oldest and most highly respected residents, namely, Andrew Philip, at the age of eighty-three years. He was born at Quatton of Drum, Aberdeenshire, Scotland, and came to this country in the year 1874. Some years ago, while working in a sawmill, he was unfortunate enough to lose his left arm, but in spite of this he kept a small wood-working shop, where he worked until within a few weeks of his death. Mr. Philip was a staunch member of the Presbyterian church and was always to be found in his accustomed seat in the "kirk" where he will be greatly missed by all. He lived at

Our Overcoat Prices Got Got Them All Guessing

AND THE REASON WHY:
First—Because we bought the cloth at an exceptional low figure.
Second—Because we believe it is unfair for any merchant in war times to sell goods at a large profit.
Third—Because we believe in quick sales, show no favors and one price to all.

HERE YOU ARE:
Our Special \$12.00 Black Coat, without a doubt, the biggest bargain in the city.
Our \$15.00, \$18.00 and \$20.00 Black Greys and Mixed Colors are equal to any \$25.00 coat sold elsewhere.
Our \$25.00 Special Tailor-made Grey and Black Melton and English Beaver means a saving to you at least of a five dollar bill.

To prove our statement and to be fair to yourself, we invite you to come and compare our prices and quality.

ON TO COMPLETE VICTORY

Cheering war news comes thick and fast. The Austrian naval base at Durazzo, in Albania, has been destroyed, with the warships anchored there. The Austrian troops in Albania have been withdrawn. On the western front the British have occupied Lens and Arras and are closely pressing the retreating enemy.

Particular interest now centres in the struggle on the Italian front. The line where the British and French are successfully operating. They have broken through the line, but the enemy is throwing in his reserves and fighting desperately.

ANGLO-SAXON-CELTIC UNION

The Sulgrave Institution is an incorporated effort to promote good-will, strengthen neighborly interest, increase social intercourse and advance hearty good-fellowship among all people who speak the English tongue, and between them and all other people of equivalent aims, ideals and progress.

In March, 1914, at a meeting held at the American Embassy in London, the board of governors holding title to the Sulgrave Manor, in Northamptonshire, England, approved, without division, a resolution authorizing the creation of the Sulgrave Institution, a society to center in Sulgrave Manor, the active purposes of which should be to foster friendship and prevent misunderstandings among English-speaking peoples.

Prince Maximilian of Baden, leader of the Moderates in the Reichstag, has been made chancellor, in succession to Von Hertling. It is expected a coalition government will be formed, including some Socialists.

The destruction of Durazzo is another notable naval feat of the war. It was accomplished with practically no loss to the Allied fleet.

tering the ideals which inspired their creation. Seventh—To maintain buildings, which shall be used as a place of meeting and popular assemblage, as a repository of memorabilia, of historic relics, and as centers from which can be prosecuted and carried on the work in connection with the above-mentioned objects and purposes.

Eighth—The Institution may, if desirable, pursue its activities in association with the board of trustees of Sulgrave Manor, the ancestral home of George Washington in Northamptonshire, England, of which board the American Ambassador to Great Britain is, ex officio, chairman.

Ninth—The duration of the institution shall be perpetual.

The American branch of the institution has already been organized and is authorized to join with similar organizations in the British Empire to create an international body, with a governing board of two hundred members, half American and half British, all committees also to be evenly divided.

"The cardinal purposes to carry out which the Institution has been organized are to effect an interchange of pupils of secondary schools, a pupil exchange, an exchange of professors, and an exchange upon a five-year basis of working newspaper men invited to come to America, and invited to go to places within the British Empire, France or elsewhere for the purpose of studying local national conditions and the genius, customs and point of view of the people in order that later they may in a public way give a first-hand interpretation of subjects which they have thoroughly studied and which they so thoroughly understand, and finally, to erect a Sulgrave Manor Lectureship which shall be occupied in alternate years by an American or some conspicuous citizen of the British Empire."

Judge Parker, who is the first chancellor of the Institution, says: "If we are blessed with ample support, our plans, we confidently prophesy, must establish such a closer community of interest among our own people and those who tread the same upward path and will result in an unified purpose more clearly co-ordinated effort to guard the world against predatory outbreaks on the part of imperfectly civilized peoples. Our work is among our own people and the people of other lands who speak our tongue, and every people whose aims, purposes and civilization coincide with ours; but our labor will be among individuals, not nations; and our object is to strengthen and perpetuate their warm friendship, man for man; to promote good-fellowship among all those who have been bred on the same literature and who share in common those sentiments, these high ideals, those trust-worthy purposes and that broad humanity which mark the world over people who speak our tongue."

Spanish influenza and pneumonia caused 191 deaths in Boston yesterday. The former disease claimed three members of one family in Toronto yesterday and five new patients were removed to hospital. Forty-five new cases among the soldiers developed yesterday in Montreal, making 169 to date. In St. Johns, Quebec, 210 cases have developed since the epidemic began. There were fourteen new cases and four deaths yesterday. Every community should be on the alert to detect at once and check if possible the spread of this disease.

The formal closing of the War Gardens Exhibition this evening will be an event of great interest. Plans should be set afoot at once for next year's campaign.

THE CASUALTY LIST. Newcastle, Oct. 2.—Mrs. F. Petrie, of Millbank, in this parish, has been notified that her son, Private Alex. Petrie, who went overseas with the 5th Battalion, was killed in France. Private Petrie leaves his mother, and following brothers and sisters: John, of Rumford (Me.); Cyril, of St. Isidore; James, at home; Mrs. A. LeClair, Chelsea (Mass.); Mrs. A. Bernard, Canada; and Miss Annie, at home. Another brother, Thomas, was killed at Vimy Ridge.

MONTECALM, Oct. 3.—Thomas Triton, of Moncton, has received a telegram from Ottawa stating that Private Lester Warman Triton, who enlisted over two years ago, has been admitted to hospital with a gunshot wound. His condition is reported dangerous.

HIGH SCHOOL ALUMNAE. The annual meeting of the High School Alumnae was held last evening at the residence of Mrs. W. H. Shaw, Duke street, and after the reading of the reports the following officers were elected for the coming year: President, Miss Jessie R. Lawson; 1st vice-president, Miss Alice Walker; 2nd vice-president, Mrs. W. H. Shaw; 3rd vice-president, Miss Grace Estey; secretary, Miss Mabel Rogers; treasurer, Miss Laura Myles; executive, Miss Ward, Mrs. Lloyd Estey, Miss Mary McKim, Miss Jean Smith, Miss Grace Campbell. It was decided to hold meetings on the first Thursday of each month throughout the winter, and a committee was appointed to arrange the programme in connection with the meetings.

Paint in the Fall. The Fall of the year is, by general consent, the most favorable time for painting the house. Owing to comparative dryness and the freedom from dust, on account of the stillness of the air, combined with the absence of small insects. To insure satisfactory results use "Hand and Ring" Pure Prepared Paints. They cover a lot of surface, wear well, work easy under the brush—and cost no more than good paint ought to cost.

COST OF LIVING REGULATIONS ARE MORE DRASTIC

Ottawa, Oct. 3.—New cost of living regulations have been laid down by the government on the recommendation of the minister of labor. Wider in their scope than the existing regulations they provide for extended facilities of investigation; publication of fair prices; prosecution by a municipality or the minister of labor, if deemed necessary, in addition to the present method of prosecution by provincial attorney-general; the inclusion of rental as a subject of investigation and power, under a general clause, to proceed against hotels and restaurants which sell necessities of life at a price higher than reasonable and just.

The council of each municipality is authorized to appoint a committee of two or more of its officers, to be known as the fair price committee. The names

of the committee are to be submitted to the minister of labor who will authorize it to be investigated. The committee is to have the powers of a commissioner appointed under the provisions of part I of the Inquiries Act.

McKay-Akerley.
A most interesting wedding took place yesterday afternoon at 4:30 o'clock at the home of the bride's parents, Mr. and Mrs. F. A. Akerley, Bridge street, when their daughter, Mildred, became the bride of Rev. William Kempt McKay. Miss Akerley is well known in this city, having trained for nursing at the General Public Hospital where for some time she was also assistant superintendent. For two years she was associated with Dr. Hinson West with the General mission at Labrador. Rev. Mr. McKay is pastor of the Presbyterian church at Marble Mountain (C. B.).

The ceremony was performed by Rev. Dr. D. Hutchinson in the presence of a large number of friends and relatives. After the ceremony a dainty luncheon was served after which the happy pair left on a honeymoon trip through the maritime provinces. The bride received many beautiful gifts.

Rev. and Mrs. McKay will make their home at Marble Mountain (C. B.).

Issued by Canada Food Board.

CANADA'S COD RESOURCES

Over 200,000,000 lbs. of codfish were caught and landed in Nova Scotia, New Brunswick and Quebec last year. The fresh cod exported amounted to 6,783,400 pounds, of which 5,068,500 pounds went to the United States.

The dry salted cod exported amounted to 80,725,000 pounds, the salted and pickled variety to 12,831,900 pounds and the smoked cod to 1,822,882 pounds.

It is estimated that somewhere between 90,000,000 and 100,000,000 pounds of cod should be available for export this year if shipped fresh or frozen, and between 20,000,000 and 30,000,000 pounds if cured.

Food Board Flashes For Feminine Folk

The housewife of today, in placing her order with the butcher, almost invariably asks for steaks, roasts, chops, ham, or bacon—in other words, the primal parts of the animal. But it should be borne in mind that along with these parts there is always a fair proportion of sweetbreads, hearts, kidneys, livers, snouts, and other minor parts. There have been a certain amount of prejudice where these "fancy meats" are concerned, but it is gradually being worn down as women are learning by experience what palatable dishes can be prepared from them at a much lower cost than steaks or chops. They are being put on the market in attractive form by the packers.

FOUND GUILTY OF SERIOUS OFFENCE

Woodstock, Oct. 3.—The Carleton county court is in session here. There is much criminal business to be taken up. In the case of the King vs. William O'Donnell of Kent parish, charged with a serious offence against a young school teacher, the jury after being out only five minutes brought in a verdict of guilty. Major Heron was expected to come up tomorrow. R. L. Simms is appearing for the crown and J. C. Hartley for the defence. This is a case of alleged obtaining money under false pretences. According to the authorities the defendant went about holding people up for not registering and mulcted them for a considerable sum before releasing them. The two officers will give evidence.

DETROIT, Mich., Oct. 4.—Henry Ford, Democratic candidate for the senate, will not permit his campaign to be handled by the Democratic state central committee. An active campaign on behalf of his election will begin throughout Michigan as soon as the Liberty Loan campaign is concluded. It will be conducted by a non-partisan committee now in process of organization under the supervision of Alfred Lucking, personal attorney for Mr. Ford. The chairmanship of this committee has been offered to one prominent Democrat who rejected it. The non-partisan committee will have to raise and spend its own money, according to Mr. Lucking. The committee, however, will be recognized by Mr. Ford as his official agency for the campaign.

GROCERY MARKET

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer last week: Damage to the crop of prunes in California has been very severe, and the growers face a very serious situation. In fact, the outlook from the grocer can be considered bright.

The government has stopped all shipping of complete information as to the extent of the cargo damage can be reckoned. The report when available may result in the government taking over the entire crop, or at least such a large percentage that none will be released for Canadian consumption as a decided uncertainty in the light of existing conditions.

Sugar supplies will, it is thought, be somewhat easier in another week or ten days. Shipments now rolling west on the Pacific coast are now being consigned to load 40,000 pound cars as a minimum car shipment.

Montreal.—The ton market is strong for Japan and China. Black cotton is a little better because of the stocks of cheap Java in the country. Prices on Ceylon and Indian blacks are all on high marks and are likely to continue so throughout the winter.

There has been no change in prices on coffee this week. The demand for bulk coffees is not quite so plentiful, and it is probable that sweetened condensed coffees will be discontinued by the manufacturers. One large manufacturer informed Canadian Grocer that the market for bulk coffees has been very strong, and prices have advanced 40c to 60c a bag of 90 pounds of coffee. Tonnes are not quite so plentiful, and have advanced.

The market for apples continues to be quite strong. Apples reaching the market are readily absorbed. Nova Scotia apples will likely be on this market next month, and the arrival of these may make for easier prices.

The wet weather prevailing for the most part of this month to date has resulted in a substantial fall in supplies suited in the outside. Tender for Stores Building—Campbellton, N. B. will be received up to and including twelve o'clock noon, Tuesday, October 8, 1918.

Plans, specifications and blank form of contract may be seen at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, Ont., at the office of the Chief Engineer, Canadian Government Railways, Moncton, N. B., and at the office of the Resident Engineer, Campbellton, N. B.

All the conditions of the specifications and contract forms must be complied with. Tenders must be put in on the blank form of tender, which may be obtained from any of the offices at which plans are on exhibition.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Railways and Canals for an amount equal to ten per cent (10 p. c.) of the tender.

The lowest or any tender not necessarily accepted. By order, J. W. PUGSLEY, Secretary, Department of Railways and Canals, Ottawa, September 26, 1918. 10-5

cent to even 50 per cent in some instances. A further advance of 10 per cent has been made in quotations on hand saws, compass saws, buck saws and pruning saws, while buck saws are up as much as 20 per cent. Two lines of wrenches are also on the upward trend, showing an increase of about 10 per cent.

The tin market is somewhat easier, and declines of from five to ten cents per pound are noted in some quarters. Trading is rather limited owing to uncertainty still prevailing re government action. First advances indicated that the United States were to get two-thirds of the available supply. Now there are indications that the British government may handle the entire product, appointing one importing firm as their agent. This would probably work out to best advantage as a more accurately gauged basis if the available supply could be secured and allocations made to essential in the order of their importance. Soldier is down one cent per pound, sympathy with lower prices of tin.

Other important changes during the week have been made, all providing for advanced prices. The lines affected include tin roofing cups, washboards, wheelbarrows, saw sets and roofing. Business is good, fall lines moving forward freely. Jobbers intimate that there is a marked increase in difficulties surrounding the securing of merchandise. The question of procuring goods for next spring is going to be a big factor in determining to what extent prices will advance. Manufacturers cannot give any assurance that shipment of orders booked now for spring delivery will be made.

Five hundred and two lobsters less than the legal length cost Alfred Smalling and James Pancreas \$100 fine each in the Coney Island police court. A watchman who bought a dozen of the lobsters for \$1.25 made the complaint.

One man was killed and twenty-five women, mostly colored, were killed in an explosion at the Edystone munitions plant, Philadelphia.

HARDWARE PRICES

(Hardware and Metal, Sept. 28) New prices have been announced on garden hose. These become immediately effective and apply on spring business as well. Present quotations represent a substantial advance over opening prices of last year.

Lawn goods have been revised to higher levels, a 15 per cent increase being shown in new prices issued on hose nozzles, sprayers, sprinklers, hose clamps, hose menders and kindred lines. The question of delivery remains uncertain.

Saddlery hardware has also come in for a sharp advance, amounting to about 15 per cent. The lines affected include harness snaps, rope snaps, breast strap snaps, bridle bits, harness staples, harness clips, trace cockeys and breast strap slides.

Wrought washers have been placed on a new selling list, and manufacturers intimate that orders placed should be filled in no alternative in the question of prices on the manufactured article. The scarcity of all materials and labor are also contributing factors which have combined to shove prices up from 25 per

cent to even 50 per cent in some instances. THE SAXBY GALE. Michael Kelly reminded the Times this morning that this pleasant October day is the forty-ninth anniversary of the famous and terribly destructive Saxby gale.

DEATH OF CHILD. Many will sympathize with Mr. and Mrs. Alfred Pearson, Sunnyside West End, in the death of their youngest daughter, Evelyn S., aged two years and nine months, after a week's illness of broncho-pneumonia. She leaves besides her parents, two sisters. This is the second bereavement in six months.

NOVELTY SHOWER. A novelty shower was tendered Mrs. Sydney Jenkins by Miss Mabel Byers, in honor of her recent marriage at the home of Mrs. George Jenkins, 87 Robbsey avenue, by her friends, on Thursday evening. Many useful presents were received, including cut glass and silverware.

MRS. GEORGE MACDONALD. Mrs. George Macdonald, formerly Miss Gertrude Burke of St. John, died at her home in Portsmouth, N. H., on Oct. 2. She leaves her husband and one daughter besides her mother and father, two sisters, Miss Lauretta J. Burke of Newburyport, Mass., and Miss Ida Burke of the 9th Siege Battery, now in St. John.

HOME FOR INCURABLES. At a business session of the board of governors of the Home for Incurables, held yesterday afternoon at 4:30 the resignation of Mrs. W. H. C. Grimmer was reluctantly accepted. Dr. Thomas Walker presided and among other business the applications of one female patient was accepted and the person admitted.

FORD-DOBSON. William Inval Ford of New Glasgow and Miss Kathleen Maud Dobson of Boston were united in marriage by Rev. J. A. MacKellan at his residence on Wednesday evening. The bride is a native of Tatamagouche, N. S., but has been practicing her profession as registered nurse in the Massachusetts capital. Mr. and Mrs. Ford will make their home in New Glasgow.

HORSES RECOVERING. The two horses which were quite badly burned recently in Short Street by a fire, will in all probability recover. Speaking to the Times this morning, Mr. Shore said that one is on the road to recovery and the other showed signs of improving this morning. He said that it will be a long time before either horse will be well enough for service.

GUESTS IN BOX PARTY. The Japanese military Y. M. C. A. officers who have been in the city for a few days in connection with their government mission in connection with Y. M. C. A. work, among them were in France—chiefly naval work—were the guests of the new general secretary of the local Y. M. C. A. at the Imperial last evening and occupied a table at the Oriental Allies attracted a lot of attention in their dapper uniforms and were graciously received on all sides.

POTATO ROT IS COMMON. Amateur gardeners and door-yard farmers of the past season have been consternated of late—at least many of them have—to find that one is on the road to rot. While crops have not been a total failure in these cases the percentage is too high to compensate for a season's hard work. The rot is naturally most prevalent in low level ground where heavy rains have accumulated. Hills and sandy soils have yielded good sound potatoes. One hard-working war gardener near the city lost a whole field of tubers and his enthusiasm has sunk to zero.

MACDONALD-INNIS. A pretty wedding took place last evening in Trinity church, when Rev. R. A. Armstrong united in marriage Miss Louise Innis, daughter of Mr. and Mrs. George Innis, and Howard Macdonald. The bride was given away by her brother, George Innis. She looked very charming in a dress of blue crepe de chene with hat to match and carried a bouquet of bridal roses. Miss Florence Innis and Miss Elizabeth Leak acted as bridesmaids and Corp. Irving Van Tassel supported the groom. They were the recipients of many presents, including cut glass, china and silver. Many friends will wish the young couple much happiness. Mr. and Mrs. Macdonald will reside in the city.

ANOTHER NEW UNIFORM. On an American train lately a trim little lady wearing a navy blue skirted uniform with belt, shoulder straps and various other trappings and a tri-color felt hat, stepped off the Pullman and mixed with the crowd. Her collar bore the gold letters "U. S. S. B.—United States Shipping Board—and it transpired that she was a stenographer in that department of wartime activity across the line. The lady was on her way to Nova Scotia for a brief visit, having left her home town after her husband was killed in France. She offered her services to the Canadian government but at that time there was no opening so she visited friends in the United States and while there secured her present official situation. Needless to state the uniform and its attractive wearer caught the eye of many.

REBUILDING PLANS FOR THE DUFFERIN

Edward Bates, who has the work of rebuilding the Dufferin Hotel property in hand has a crew of men on the job clearing the premises of debris. An effort will be made to relocate the tenants in the King Square wing within a month. In the meantime Foras & Co., jewelers; Mrs. Gunn, corsetiers, are housed in Imperial Theatre lobbies and A. G. Brown's barber shop has resumed at the same stand. The fruit and candy store of Phinney & Dunlop has not been re-opened elsewhere. C. M. Bestwick, owner of the Dufferin property, in conference with his son, Guy, who came from New York for the purpose, has decided to rebuild the property on the same lines as before—a wooden wing on the King Square side and to follow the plan and quality of construction in repairing the main brick structure. There was partial insurance of \$7,000 on the main hotel and total loss of \$10,000 on the wing.

INFLUENZA IS MORE SERIOUS EVERY DAY

Drastic Steps To Be Taken In Halifax

PUBLIC PLACES CLOSED

Sixty Four Cases in Sister City—Montreal, Toronto and American Cities Are Wrestling With the Spanish Plague

Halifax, Oct. 4.—Drastic steps will be taken by the city health board to prevent the spread of Spanish influenza in Halifax. The closing of the theatres, schools and all other public places where people congregate, even the churches, if the situation warrants, will be closed for an indefinite time.

The situation in Halifax at present is more alarming than in generally supposed, the secretary of the health board stated that sixty-four cases, including the epidemic had been admitted to the Cogswell Street Hospital, had been reported. It only became known yesterday how serious the situation was developing.

Philadelphia, Oct. 4.—Orders of the state health commissioner closing every school and place of amusement in Pennsylvania were enforced today in an effort to check the spread of Spanish influenza which in some sections of the state, particularly in the east, has reached epidemic proportions and is seriously interfering with war industries.

Cleveland, Ohio, Oct. 4.—Spanish influenza is spreading throughout Ohio, according to reports received here this morning. All classes at Miami University, Oxford, were suspended, and about 500 students left for their homes. The university hospital is filled with sick and part of the men's dormitories have been taken over for hospital purposes.

191 Die in Boston. Boston, Oct. 3.—Spanish influenza and pneumonia claimed 191 lives in this city during the twenty-four hours ended at ten o'clock tonight.

Amesbury, Oct. 3.—Fourteen cases of influenza today were reported by Edward F. Martin, baseball writer of the Boston Globe, and secretary of the Boston Chapter, Baseball Writers Association of America. His wife died yesterday from the same disease.

In Toronto. Toronto, Oct. 3.—Spanish influenza today claimed three victims from one family in this city. Five more patients believed to be suffering with the malady were removed to the General Hospital today.

Montreal, Oct. 3.—Forty-five new cases of Spanish influenza developing in Montreal during the last twenty-four hours, brings the total among the military forces here to 102. No deaths have occurred since yesterday. Fourteen new cases were reported at St. John and there, making 610 cases to date. Thus far the cases reported in Montreal are of the mild type and there is little probability of a serious epidemic if due precautions are taken.

MAYOR WILL SPEAK AT WAR GARDEN EXHIBIT

The War Gardens Exhibition has attracted great numbers of people and every visitor is surprised at the excellence of the display of products from gardens cultivated by city people. And yet the exhibits are only a small fraction of what could have been shown. "Why, I could have equaled that," was the comment of many a war gardener who did not think it worth while to take part in the exhibition. Next year, no doubt, there will be scores of entries for every one this year. The exhibition will be formally closed this evening. Mayor Hayes, President of the War Gardens Association, and either the president or vice-president of the Housewives' League will speak, and the prizes will be awarded. The speaking will begin at 8 o'clock. Those citizens who have not examined the display should find time to do so this afternoon or evening.

WHERE THE COLORED TROOPS COME FROM

The accumulation of colored recruits in a maritime provincial training camp has been a steady process for some months and people have been heard to ask where they are all coming from and why the American trains are bringing men from Boston, New York, Philadelphia and elsewhere, labelled "British Army" on their arm-bands. These men are West Indians and have been working in American cities without taking out their naturalization papers. This keeps them officially under the British flag and when the conscripting measures were commenced naturally these absentees from the southern islands were secured in the States under the co-operation plans of the two countries.

FEWER SAVED THE WATER RATE DISCOUNT

Water taxes received this year up to the end of the discount period totals \$116,166.98 as compared with \$110,066.01 taken in during the same period last year. The total assessment this year amounted to \$125,525.88, and last year \$123,869.55. The slight falling off this year may be attributed to the fact that only five per cent discount was allowed this year, while last year ten per cent was granted.

REALIZE VALUE OF ORGANIZING

Systems Adopted by Britain and France Reach Perfection Address at Empire Club—G. W. Gardiner, American Business Man, Makes Impressive Speech

(Toronto Globe.) "Organization and what it means toward the successful prosecution of the war" was the keynote of a timely address delivered by George W. Gardiner, financial magnate of Providence, R. I., at yesterday's luncheon of the Empire Club at the King Edward Hotel. So stirring in their appeal were the utterances of Mr. Gardiner respecting the greatness of Great Britain and the overseas Dominions in defense of honor and liberty that the great majority of the assemblage were moved to tears. His remarks were not only solidly and conscientiously imparted, but they unfolded, probably for the first time to many of the audience, the seriousness of the German propaganda campaign in the United States. Mr. Gardiner was a member of a Commission sent to Europe by President Wilson to make a general survey of the principle of organization as applied in the great munition and shipbuilding plants in England, Scotland and France. "The people on this side of the Atlantic Ocean are just beginning to realize the importance of thorough organization, and what it means in raising money to combat the mercenary Hun," Mr. Gardiner said. "Canada made a good start at the commencement of the war. She has made wonderful sacrifices in men and money. Her American neighbor is now on the warpath, and both will be on top at the finish—and it will not be a Peace finish. (Cheers.) Fully thirty per cent of the money raised in the Liberty Loan campaigns in the United States has been loaned to the allies. We hear a lot about sacrifices that the people of Germany are making. I don't believe them; they are given publicity for a purpose. Every single activity every form of human activity in Germany for the past forty years has been the result of forty years' training in the art of war skill and today's business in Germany is done on the basis of war skill. I don't look for a revolution in Germany. The only

They have to be taught a lesson through punishment, and that punishment is going to be administered by a great military defeat. The cosmopolitan

make-up of a large part of the population of the United States has prompted the Hun to launch a propaganda of destruction in the great American Republic. The greatest mistake made in America has been in our colleges and higher schools of education, where German ideas have found a place to lodge. But thank God, such great colleges as Oxford and Cambridge in the Old Land have stuck firm to the old path, and are still there solid, educating the youth on the lines of good, sound old principles of democracy. The colleges of the United States have learned to respect them more and more and greater than ever before. (Cheers.) "The German is the greatest psychologist in the world. The German has endeavored to infect the whole world, neutral and belligerent, with ideas for the purpose of affecting the minds of the people. The German mind works in only one straight line, and that line is the tornado which brute power makes. The German has not used for the peaceful sunshine or the solemn breeze. The overseas Dominions have shown wonderful devotion to the Allies. When Great Britain entered the war, the overseas Dominions all went forward to defend the Empire. France today that demonstrates to you that Great Britain is the tramp of the marching feet from overseas. Every single ruler occupying palaces in Germany is trembling and feels the jar of those Canadian troops as they begin to close around. Segregate the Hohenollers. "When the war is won by the Allies every Hohenoller should be transported to St. Helena and segregated in order that there should not arise another generation of such beasts," said the speaker, with emphasis, and prolonged cheering followed. Mr. Gardiner said that the organization adopted by Great Britain and France and Scotland in operating their munitions and shipyard plants had reached a stage of perfection. Too much praise could not be bestowed upon the women of these countries for the work they are doing in these plants. In one airplane plant they visited they found, out of 4,000 employees, 2,000 were turning out an average of ten airplanes a day. "We had a fuss in the United States recently about airplanes," he proceeded. "But we have got it straightened out and are doing business on a big scale. It was rather significant that this airplane scandal in the United States was introduced in the middle of the third Liberty Loan campaign. I am not going to make any prophecies here, but I am curious to know what Mr. Justice Hughes is going to say in his report of this matter. "The Allies are supreme in the air," continued the speaker, "and they are going to hold it. By next spring there will be no more airplanes in the sky over Germany that the Germans will think there is a total eclipse of the sun." (Prolonged cheering.) Mr. Gardiner stated that before the war the total world output of sulphuric ether was 2,000 tons. While in London the commission of which he was a member was privileged to visit a plant which had sprung into existence since the outbreak of the war that last year alone manufactured 35,000 tons of sulphuric ether. Out of the 18,000 employees in the plant 12,000 were women, who work ten hours a day and receive a remuneration of thirty-five shillings a week. These women were under the care of the British government, which demanded efficiency. In one shipyard they went through of the 11,000 employees 3,500 were women, performing duties of all kinds. These were a few illustrations of what women were doing toward the winning of the war while the manpower combated the treacherous Hun. Treatment of Enemy Prisoners. Referring to the basis of economy practised in London by the rich as well

as the poorer classes, Mr. Gardiner said no exceptions were made to the rule in the entertaining of distinguished visitors. While the people of England were allowed only four ounces of meat a week, the German prisoners received that amount daily. He asked the commandant of one of the prison camps why the preference was shown the enemy, and, shrugging his shoulders, he replied: "Orders of the war office." "This shows the difference of treatment of the prisoner in Germany and the prisoner in England, and goes more than anything else to show you the greatness of Great Britain," Mr. Gardiner emphasized, amid tremendous cheering. Approaching a woman in a shipyard engaged in hard labor he asked if she was getting enough to eat, and her response was: "Not sufficient, but I can stand it, if it is going to help the boys at the front." (Applause.) Touching the devilish ingenuity of Germans on the seas, Mr. Gardiner said that a few weeks ago a U-boat had torpedoed a transport loaded with 2,000,000

pounds of bacon, adding, "We may have lost the bacon, but we will get the Rhine." (Cheers.) Briefly referring to the temper of the people in England, France and the United States, he said that nothing but complete victory would satisfy them, victory with the extermination of the merciless Hun. Bravery of Canadians. "The fact that we are privileged to dine here today is due to the heroism, bravery and stolidity of the heroic Canadians who stood in northern France and held back the Hun to the last man when Paris was threatened with invasion," concluded the speaker. MONCTON WIDE AWAKE. At a joint meeting of members of the Board of Health, city council, and school trustees of Moncton, held on Tuesday evening in the city council chamber, precautionary measures against Spanish influenza spreading through Moncton were discussed.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive processes, and remains there because the liver, kidneys and skin are too torpid to carry it off. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly with purifying effect, on the blood, and through the blood on the liver, kidneys and skin, which it stimulates, and at the same time it improves the digestion. Get Hood's Sarsaparilla today. Sold by all druggists.

Dr. Angus Campbell, New Yorker, Back From Russia, Says Conditions Are Beyond Imagination

Among Americans returning from Russia last week was Dr. Angus Campbell of New York, who has made eight trips to northern Europe since the war started in 1914, and left Moscow three weeks ago.

Conditions Beyond Imagination.

"The conditions existing in Russia at the present time," Dr. Campbell said, "are so bad that they cannot be imagined, except by those who have been there. The Bolsheviks hold full sway and are a band of adventurers, assembled from all parts of the world. I did not see Trotsky, but I often met Lenin and heard him address meetings. He is a fanatic out and out and very dangerous."

"There are a few street cars running in Moscow, but the Bolsheviks have had all been commandeered. The Bolsheviks and I had to go to them to get our papers. There are no courts of justice and no regular police. Gangs stand at the street corners with loaded rifles ready to shoot on the slightest provocation. They will hold a foreigner up and take his money from him if he has any, and may kill him if he has none."

The Old Lady and the Lighthouse-Keeper of Flamboro'

A FAMOUS showplace for visitors is the great lighthouse at Flamboro' Head, Yorkshire, England. Three things visitors invariably remark—the power of the light itself, the marvellous mechanism that controls it, but—above all—the brightness and cleanliness of the lamp and the lamp chamber.

The story is told how one old lady exclaimed in amazement to the lighthouse keeper, "My, how did you get everything so clean and spotless? It is just like new."

What is true of the Flamboro' Light is equally true of the human brain and body.

The proper development—continued health—physical effort—of the body—clear, decisive thinking on the part of the brain—can only accompany cleanliness. Keep your system clean and healthy by the regular use of—

FREDERICTON NEXT PLACE OF MEETING

Presbyterian Synod Hears Report on Home and Foreign Missions and on Forward Movement.

Charlottetown, P. E. I., Oct. 3.—At last evening's session of the Maritime Synod the questions of home missions, east and west, social service, and evangelism and the forward movement were up for consideration.

The subject of home missions was opened by Rev. D. McDerm, of Halifax, who, after a few preliminary remarks, moved a resolution calling the earnest attention of the churches:

1. To the opportunity for Christian service afforded through the forward movement within the bounds of the synod. 2. The great need of young men who are willing to dedicate their lives to the work of the ministry.

Rev. H. Hamilton, home missionary among the foreigners in the Sydney district, spoke on the duty of the church in Christianizing and Canadianizing the foreign element.

Dr. A. Rogers, convenor of the committee on social service and evangelism, submitted a number of resolutions. It was resolved to place on record the gratitude of the synod for the marked progress in prohibition sentiment throughout North America and appreciation of the action of the dominion government in passing the War Measures Act, prohibiting the importation and manufacture of strong drink.

The resolutions were carried. The forward movement was then taken up, an address being delivered by Rev. Dr. Gandier, principal of Knox College, Toronto, on "The Challenge of the War to the Churches of Christ."

At this morning's session of the synod, Fredericton was selected as the next meeting place. The chief themes taken up were the church and the war and the forward movement, the respective speakers being Professor Shaw, of Pine Hill College, Halifax, and Dr. W. Mungie, Toronto. The latter announced that Dr. Rochester, of Toronto, secretary of the Lord's Day Alliance, had received word that his second son had been killed in battle.

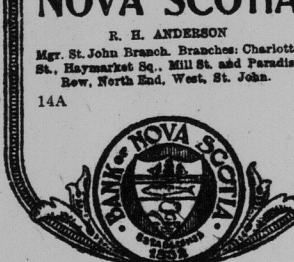

In outlining the requirements of the forward movement in missions, Dr. Gandier said that the annual budget in the next five years should reach \$720,000. He spoke on the forward movement and exhibited charts setting forth the Presbyterian part in the home and foreign work on the churches' programme. There are 898 men and women on the staff of the ministry, his wife and a single lady for 160,000 heathens.

MAKING SURVEY OF MAN POWER

Major-General MacDougall Here For Purpose

May Extend Exemptions

Soldiers Wing at County Hospital Nearing Completion—Lieutenant Hevenor Had Narrow Escape on the Missanabie

Major-General MacDougall, of Ottawa, arrived in the city yesterday and registered at the Royal Hotel. General MacDougall said that he was here on an important piece of military work, namely, the securing of the approximate military man-power of Military District No. 7, which includes the province of New Brunswick.

A similar plan was carried out in England since the present war and proved of high value to the authorities. General MacDougall said that his duties were primarily in gathering data in respect to military man-power. The movement was purely a military one and did not affect the civilian population of any part of Canada.

General MacDougall went overseas with the 1st Canadian contingent and was at one time O. C. of the Canadians at Shorncliffe, England. Since returning to Canada after two years service on the other side he was for a time acting

O. C. of M. D. No. 12 at Regina. Following that he was engaged on the revise work in connection with the King's Regulations for Canadian Forces.

In the interests of the national food supply all men now possessing exemption as farmers, but whose exemption is about to expire, may make application for renewal of their exemption, under an order of the military service department, notice of which has just been made known.

The order provides that all men in Class I possessing exemption as farmers and who wish to remain exempt, should communicate with the registrar under the Military Service Act in their respective districts, requesting an extension of time of such exemption. Questionnaires will be issued to these men and further exemption will be granted upon the production of satisfactory proof that they are contributing sufficiently to the national food supply.

The reason, it is said, is taken in view of the importance of leaving a sufficient number of men on the farms to maintain the food supply, and in order that productive work might be continued in the winter months. Men exempted as farmers should apply to the registrar for permits to engage for the winter in some occupation of national interest, such as lumbering or munition work. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming cannot be carried on.

New Hospital. Work on the wing of the St. John County Hospital is progressing most favorably, and present indications are that by the middle of this month, or possibly sooner, the first lot of tubercular soldier patients, numbering twenty, will arrive and be given a better chance in their fight for life.

The new wing will accommodate twenty soldiers on each floor. There are two spacious floors for the use of the patients, the ground floor being used exclusively by the male help. Mr. Sparrow, the inspector of the work, is rushing things along, and it is said that the whole wing will be finished by November 1, with a possibility of some twenty soldiers going in by October 20.

The nurses' home, also under construction, will be in readiness very soon. An X-ray equipment is being installed and all necessary equipment and implements for the complete establishment of a first class and up-to-date hospital for tubercular patients is being put in shape. Excellent balconies with splendid window protection for the use of the soldiers have been constructed along the new wing and their presence has called attention to the need of such balconies for the civilian patients at present undergoing treatment in the main hospital.

It was pointed out to The Telegraph last evening that some time ago money was voted by the municipal council for the attachment of such balconies for the use of the city patients in the St. John County Hospital, but no action has been taken since to have the work done. It is now thought, however, with the presence of the balconies in the wing erected for the use of the soldiers that some tangible action will follow in the matter of the same accommodation given the patients in the main building for which the money has already been voted.

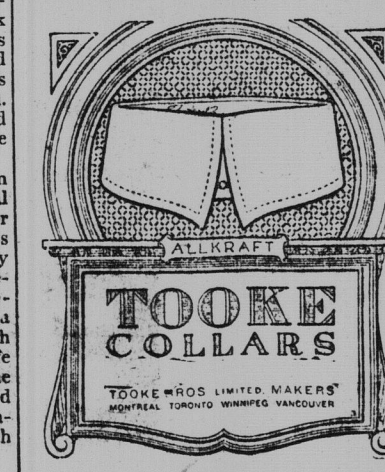

When Steamer Sunk. Lieutenant G. S. Hevenor, of St. John and Rothesay, one of the Canadian officers who was on board the ill-fated O. P. liner Missanabie when she was torpedoed on September 9 off the English coast by a German U-boat, has returned to the city. Lieutenant Hevenor would not speak of the incident nor his experiences when questioned by a newspaper man but it is understood that the scenes following the sinking of the big vessel were heartrending and unpleasant memories of the plight of those on board will remain in the minds of the survivors so long as they live.

The Missanabie, a well known liner in this port, was struck by two torpedoes from the U-boat, both hitting on the starboard side, one in the engine room and the other exploding in one of the steamers' hold. The steamer, it is said, sank in about seven minutes. The attack was made at 11 o'clock in the morning and without warning. Ten of the passengers and forty of the crew were drowned.

Many of the soldiers on the ship jumped overboard as they could not get to the life boats. Lieutenant Hevenor went across from here with a draft and upon his arrival in England immediately volunteered for service in France as a private. This was refused him on the part of the military authorities as a medical examination revealed a health weakness. He was consequently marked for return to Canada and sailed on the Missanabie from which he had a narrow escape with his life when she was hit. It is understood he lost all his military accoutrements and personal belongings but considers himself fortunate with having escaped with his life.

THE CHURCH AND THE RETURNED SOLDIER

Hamilton, Oct. 3.—"Forget the little things, and remember the big things, that we have done." With these words Major H. B. SWEEPSTAKES AT DOG SHOW WON BY MASTER BUTCHER

Toronto Entry is Best Show—Haymarket Charmer Best Dog Bred by Member of Club

One of the most successful dog shows ever held by the New Brunswick Kennel Club was brought to a close last evening with the presentation of the cups by Commissioner McLellan to the owners of the winning dogs in the different classes.

C. H. Davis, of New York, who came at the invitation of the club to judge the show, was presented a silver cigarette case as a souvenir of the occasion in recognition of his valuable services. Mr. McLellan tendered him a vote of thanks on behalf of the club and complimented him on the satisfactory service he had rendered.

The trophy presented by the late Governor Ganong for the best dog or bitch bred by a member of the club, which was won last year by W. W. Laskey with Pickled Peaches, was taken this year by Haymarket Charmer, owned by C. Phyllis McCaffrey.

The president's prize for the best dog in the show was won by J. J. Kent, of Toronto, president of the Canadian Kennel Club, with Master Butcher, who also won Commissioner McLellan's trophy cup.

The cups presented by the New Brunswick Kennel Club were awarded as follows: St. Bernard—Walter H. Golding, Barney Oldfield.

Chin-Chin is a somewhat modern adaptation of Aladdin and his wonderful lamp, at least it is to be supposed that such is the case from the anxiety that possessed most members of the cast to obtain the lamp, but not much of a plot is to be expected in a musical extravaganza. The patrons go to see the spectacle and the dancing and to hear the music and the jokes and such were offered in liberal quantity. No one can say that Chin-Chin is made over from any other comic opera for it is entirely distinct and full of unusual novelties. F. Hatheway, Baird and Peters, Fleming's Foundry, Western Union, C. P. R., Standard Pub. Co., Ames Holden McCready Co., Post Office, Emerson and Fisher, A. L. Goodwin. A committee composed of A. Bailey (chairman), G. Lemon, M. Flowers, R. Heaman and J. Owens, were appointed to look after the arrangements and to settle all disputes. A schedule will be arranged immediately and it is expected that the first game will be rolled on Tuesday, October 15. It was decided that each man in the league pay a certain amount to be devoted towards the prize. The committee was given power to name the twelfth team in the league.

Horse Racing at Fredericton, Fredericton, N. B., Oct. 3—The second day of Fredericton's autumn harness meet saw two races turn off on a heavy track and under conditions which well fitted mudlarks. The night before there had been heavy rain and during the late hours this afternoon rain again fell.

Bavus took the 2:22 trot in straight heats, with very little competition. The 2:15 trot and pace furnished the surprise of the meeting in the form of a dead heat between Laopla and Jenny Frisco, the first mile. Neither of these horses won, however, as Tommy Cotter, the heavy favorite, won the next three heats. In both races the time was good considering the condition of the track. The summary: 2:15 Trot and Pace. Tommy Cotter, b.g., T. Dryden, St. John (N. B.), (Deyden) 3 1 1 1 La Copla, 2:09 1/4, b.g., P. A. Belliveau, Moncton (N. B.) (Steele) 1 2 2 8 Jenny Frisco, 2:14, o.m., F. Doherty, Sydney (N. S.) (Carroll) 1 4 3 4 Jesse H., 2:15 1/4, b.s., H. G. Kitchen, Fredericton (N. B.) (Remond) 2 3 4 2 Belmont Miller, 2:16 1/4, b.g., R. H. Edwards, Halifax (N. S.) (Bostiller) 4 5 dr Time—2:23 1/4, 2:24 1/4, 2:26 1/4, 2:26. 2:22 Trot. Bavus, 2:22 1/4, r.g., R. H.
