## ACTION GROWS LEVELER ON WESTERN FRONT

### British Continue Raids on Enemy Lines—At One Place Penetrated to Depth of 1,200 Yards—U. S. Troops Repulse Strong German Attack—Active on the Italian Front

London, Feb. 28.—(Delayed)—The report from British headquarters in France and Belgium tonight reads: "Early this morning British troops successfully raided enemy trenches in the neighborhood of Gommecourt (southwest of Cambrai). Considerable casualties were inflicted on the garrison, a machine gun blown up and a few prisoners brought back. In the raid last night south of the Houtholst Forest, Dorset, Manchester, Lancashire and Scottish troops penetrated the enemy's lines to a depth of 1,200 yards. In addition to fourteen prisoners captured, a large number of the enemy are believed to have been killed.

"Hostile artillery has shown some activity again today at a number of points along our front, particularly in the neighborhood of St. Quentin, southeast of Arras and in the Zonnebeker sector.

London, March 1.—A successful raid in which we captured a few prisoners was carried out by Stafford and Cheshire troops last night north of the Ypres-Staden railway," the war office reports. "There was some artillery activity on both sides during the night in the neighborhood of La Vacquerie and east of Ypres."

### STRANGE TALES OF NEW YORK FROM BERLIN

#### City Surrounded by Barbed Wire Fence; Looting Immediately Suspect; Hoboken Deserted, According to German Newspapers

New York, Mar. 1.—German newspapers here have informed their readers that New York city for its protection has erected itself with a barbed wire fence 625 miles in length. The Germans also have been told that the city is surrounded by a barbed wire fence 625 miles in length. The Germans also have been told that the city is surrounded by a barbed wire fence 625 miles in length.

### PLANNED TO DYNAMITE CANADIAN FACTORIES

Detroit, Mich., March 1.—Federal authorities last night took into custody four Germans whom they accuse of conspiring to dynamite Canadian factories. The arrests were made, the authorities said, after they had received affidavits signed by a son and grand-daughter of one of those arrested, charging that they had experimented with dynamite bombs, with the intention of destroying property in Canada.

### LEFT FOR WINNIPEG

Mr. and Mrs. Vernon Steel left yesterday for Winnipeg after spending ten days visiting relatives in this city. Mr. Steel was a member of the staff of the department of militia and defence in Ottawa and is now en route west to report for service to the Bank of Commerce.

### A SURPRISE PARTY.

A surprise party was held last evening at the home of Mr. and Mrs. R. A. Brown, 74 Wall street, when a number of friends called and made them the recipients of a handsome tea set. During the evening games and music were enjoyed.

### CAPT. ANGLIN RETURNS.

Among the returned officers to arrive in Halifax yesterday from overseas was Captain Gerald Anglin, son of Mr. and Mrs. J. V. Anglin of Lancaster Heights. He is expected in the city on the Halifax train this afternoon.

## BELGIUM'S REPLY TO OVERTURES BY GERMAN HERTING

### Will Not Discuss Peace Except With Allies

Reichstag Refuses to Prosecute Social Democrat—Belgian Senators Condemned to Death for Espionage—Appeal is Made

Brussels, Feb. 28.—(By the Associated Press)—Without debate the Belgian foreign minister, gives the Reichstag the following statement concerning the recent peace overtures of Herling, the German imperial chancellor: "The Belgian government's views are known and have not changed. It affirmed them quite recently. In its answer to Herling's peace overtures, the Belgian government said: 'The integrity of the metropolitan and colonial territories, political, economic and military independence without condition or restriction, reparations for damages and guarantees against repetition of aggressions of 1914, are the indispensable conditions for a just peace as far as Belgium is concerned.'

### WAR BREAD IS BEING MADE IN CANADA TODAY

Ottawa, Mar. 1.—Bakers throughout Canada today are busy making war bread for the army and navy. The government has issued regulations for the production of war bread, and bakers are working overtime to meet the demand.

### WANTS TO RETAIN AFRICAN COLONIES

Secretary for Colonies Denies Militarization Plans But Says Germany Cannot Make Herself Defenseless

Amsterdam, Feb. 28.—Dr. W. S. Self, secretary for the colonies, said that General Smuts had demanded East Africa as a connecting link on the road to Egypt and India and had thus set a sort of Monroe Doctrine for the southern hemisphere with the exclusion of the Germans, just as the French had in West Africa.

### NOT READY TO ACCEPT PEACE AT ANY PRICE

Jassy, Roumania, Tuesday, Feb. 26.—An official note announcing that Roumania has decided to enter into peace negotiations with the Central Powers, declares reports that Roumania will accept peace at any price are untrue. The government, it is added, will only enter into negotiations if assured that they will be conducted on a basis acceptable in every respect.

### NO CHANGE IN YUKON.

Dawson, Y. T., Mar. 1.—Official reports of the Yukon parliamentary vote before Judge MacAlay was completed yesterday and resulted in no change from the result as announced some time ago by the returning officer.

## SCHOONER CREWS LAND HERE AFTER THRILLING EXPERIENCES

### Small Nova Scotian Schooners, Bound For Spain, Foundered in North Atlantic; Curious Co-Incidences Run Through Their Stories

A large ocean liner which arrived in port yesterday had on board, in addition to the regular passenger list, thirteen sailors who were members of the schooner *Minnie* and Albert A. Young, who was rescued by the *Minnie*. The schooner was registered in Lunenburg, N. S., but sailed from St. John's, Newfoundland, with a cargo of fish for Coruna, Spain.

The schooner *Albert A. Young* was a two-masted schooner and was in command of Captain Clarence F. Dodman of St. John's, N.B. She had a crew of five, consisting of Mate, Ronald Moore; Boatman, Patrick Clancy; Joseph Compton, cook; Patrick Ryan and Daniel Keefe, sailors before the mast. Captain Dodman told the following story about his voyage: "We left St. John's on Jan. 27, 1915, bound for Coruna, Spain. We were sailing on the coast of Newfoundland when we encountered heavy weather. Later our ship sprung a leak and began to sink in the water. Stormy weather continued and we were buffeted about in the Atlantic at the mercy of wind and sea. When combers swept over our deck, for we were sailing low in the water and our little craft would not rise, we were in a perilous position. We were unable to make any headway and our position was becoming more and more desperate. We were in a perilous position when we were rescued by the *Minnie*.

### 750,000 MORE IS BRITAIN'S LIMIT

Chairman of British Commission in New York Says That is Most That Can Be Spared From Industries

New York, Feb. 28.—Speaking tonight before the Lottus Club, Sir John Foster, chairman of the British war food committee, said that Great Britain could not put more than another 750,000 men in the field. The assertion that Great Britain could raise additional armies of two million men, the speaker characterized as untrue.

### STEAMER SUNK

New York, Mar. 1.—The British merchant steamship *Tiberia* of 4,800 tons, owned by the Anchor Line, was struck by a German submarine about Feb. 27, while bound for this port, according to information received in shipping circles today. The crew was rescued.

### WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Stuppard, director of meteorological service.

### RETIREMENT ON PENSION.

J. J. Irvine has retired from the C. G. R. after forty-five years and five months service, as fireman and engineer. He began on the old European and North American Railway, afterwards the I. C. R., and now the C. G. R. Mr. Irvine is the oldest son of the late Robert Irvine, who was for many years yardmaster at St. John. He was sixty years old on Nov. 8, and is now retired on a pension. He is superintendent of Knox Church Sunday school, a Freemason and Orangeman, and has hosts of friends along the line.

## Promise To Defend Petrograd And Withstand Long Siege If People Will Supply Needed Food

### Another Proclamation Appeals to Russians for Utmost Resistance to the Germans, But Announcement That United States Consul Has Left the Capital is Taken to Indicate That Situation Has Taken a Turn for the Worse

London, Mar. 1.—A Russian wireless message gives the text of another proclamation to all Russians, appealing for the utmost resistance to the Germans and ordering the food-producing provinces to immediately send as much food as possible to Petrograd and Moscow. The appeal says: "The capital of the revolution will have to resist a long siege, but it will not capitulate until the last moment. To this end it needs the utmost assistance in regard to food. You must permit the starvation of revolutionary Petrograd."

### ADVANCE RESUMED.

London, March 1.—Despatches received by the Exchange Telegraph Company received in Petrograd at 6 p. m. Thursday indicate that the German advance into Russia has been resumed. A forward movement by the invaders of some thirty-five miles beyond Pskov, midway between Dvinsk and Vitebsk, is reported in these advices, the Germans pushing on despite the fact that the railway had been blown up and the stores of provisions in their way destroyed.

### JAPAN'S OFFER RECEIVED WITH GREAT INTEREST

Developments Dominate News Columns of London Papers—Proposals Are Generally Welcomed in View of German Menace

London, Mar. 1.—Japan's proposals with regard to Siberia and their reception in Washington has brought the question of Japan's active participation in military operations to the forefront here, the developments dominating the news columns of the newspapers. A Reuters cablegram quoting the Associated Press despatch from Washington is given great prominence in type and position by the morning newspapers, and is commented on extensively. Some papers displayed contributed articles setting forth the Japanese view of the situation.

### REORGANIZATION OF THE SPANISH GOVERNMENT

Madrid, Feb. 28.—The Marquis De Alhucemas notified the king tonight that he had definitively accepted the offer to remain in power. The premier has appointed Count De Gerny, a Catalanist, minister of finance, and Luis Silvela, minister of public instruction, in place of Senora Ventosa and Rodes whose resignations brought about the collective withdrawal of the cabinet early today. The other members of the cabinet retain their portfolios.

### Use Vacant Lots.

Ottawa, Mar. 1.—In view of the urgency of the food situation, the Canada food board makes a public appeal to all owners of vacant lots that they place the same freely at the disposal of local education committees.

## German Socialist Leader Takes the Emperor to Task

Amsterdam, Feb. 28.—In Tuesday's debate on Chancellor Von Hertling's speech in the German Reichstag Philipp Scheidemann took the emperor to task for his reply to the address of the Burgomaster of Hamburg, in which the emperor said: "We desire to live in friendship with neighboring peoples, but victory for the German arms must first be recognized."

"We have heard recently," said Scheidemann, "of the speech in which it was said that the world must first recognize us as victoriously. In times when there is talk of peace, words from an authoritative source should be very carefully weighed. A great part of the people whom we represent do not share the views uttered in that speech, but on the other hand energetically repudiate them."

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff. For it will waste your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

HEALTH AS AN ASSET.

The advantage to be reaped by business establishments by proper care of the health of employees and their families has received a striking recognition in Toronto.

"The packing houses are establishing hospitals of their own in which first aid is rendered to injured employees. But they are going further than that and sending their nurses into employees' homes where there is sickness, with the object of ensuring proper medical attention. This is along the line of work conducted by Dr. Hastings, medical health officer of Toronto, whose nurses have long been visiting the homes of civic employees who were absent on sick leave, not merely for the purpose of checking up malingerers, but in order to make sure that proper medical attention is available and that the household is instructed in precautions which will tend to shorten the period of the disease.

"The William Davies Company was the first to grasp the value of Dr. Hastings' home visitation policies, and its action in adopting similar methods in its plant has been followed by other large manufacturers, some of whom have followed suit in the past few weeks. The Davies Company established a first aid hospital and home visitation system some fifteen months ago, instructed in precautions which will tend to shorten the period of the disease.

"The Davies plant there is also a 'safety committee' of the men and these recommend improvements which will result in reducing various factory dangers.

"In a plant like that of the Harris Packing Company, there may be as many as one or two scores of dressing necessary in a day. If inconstant poisoning is to be arrested, the hospital there is just being started under Miss Lowther's direction, and she also has charge of the home visitation. The provisions of the Workmen's Compensation Act make this work of peculiar importance. It is, of course, a substitute for medical attendance, but is supplementary to that.

"At Gunn's, a first aid department has just been opened, in charge of John Evey. At the Swift-Canadian Company's plant the construction department has been in charge of first-aid, but a new medical room is now being installed and will be open within a month. A regular medical man and an assistant will probably be in charge. Twenty dressings a day is not an unusual requirement.

"The Massey-Harris Company, where there are as many as twenty cases a day requiring attention, has for years maintained a first-aid establishment in charge of the fine department. Now, however, the work is deemed worthy of being put on its own footing, and a new surgery has been installed in charge of Nurse Cooper.

"The importance of the work being undertaken by these large establishments may be judged from a summary of the number of employees affected, which is, in round figures, as follows:—William Davies Co., 1,800; Harris Abattoir, 1,600; Gunn's, 550; Swift-Canadian Co., 1,500; Massey-Harris, 2,000. Total, 6,000.

"It is expected that other large concerns will shortly follow the example set by those mentioned, both by the installation of first-aid hospitals and adoption of sick-visitations systems."

"When business establishments find it to their advantage to look after the health of employees and families, the importance of medical inspection of schools cannot be denied. Such inspection should be carried into every school in New Brunswick, and should have school nursing associated with it to render the work more effective.

"The Allied ambassadors are reported to have left Petrograd, and the Russians are preparing for its defence. The new front in Russia is conflicting and the situation obscure. With no central authority there seems little hope of a rally that would give any serious trouble to the Germans if they persist in advancing against Petrograd.

AN INTERESTING REPORT

Mr. Blois, superintendent of neglected and dependent children in Nova Scotia, in his annual report, says:—

"The province of Nova Scotia, apart altogether from moral or religious considerations, cannot afford to have neglected or delinquent children growing up to become delinquent or anti-social and non-productive men and women."

When the attorney-general presented the report to the house, says the Halifax Herald, he urged the members to give it their most careful consideration. It dealt with a subject of the first importance. He said that at a later date he would take occasion to make more extended remarks upon the work of Superintendent Blois and the men and women of various parts of the province who have given the superintendent such splendid assistance.

The report tells of the work of the juvenile court and of what has been done by Children's Aid Societies and reformatory institutions for children in Halifax and other parts of Nova Scotia during the year. It is an interesting record of child-welfare work. An appendix to the report carries an article by Judge Wallace, 25th Year in a Juvenile Court. In early paragraphs of the article Judge Wallace points out what a juvenile court is not and what it is. He says:—

"There being some misconception as to the work of a juvenile court, it might be well in explaining its work to follow Bacon's precept, delivered in his reading on the Statute of Uses: 'The nature of a use is best discovered by considering what it is not, and then what it is, for it is the nature of all human science and knowledge to proceed most safely by negative and exclusive to what is affirmative and inclusive.' A juvenile court is not a complete remedy, or cure-all, for crime. It is not, and cannot be, a substitute for parental care, moral and religious training, and good environment. It cannot render entirely unnecessary the reformatory and charitable institutions. It is not a scheme for relieving parents of their natural responsibilities. It is not sentimental; it is based on common sense. It is not really a court for deciding cases, but rather a bureau of practical justice, and a 'clearing house' where conditions of juvenile delinquency are adjusted. It is not so much a method of investigation with a view to the punishment of a delinquent act as a remedy for conditions from which the delinquent act probably arose. The child's act is often viewed by the judge as simply the evidence of conditions requiring remedy. The court was instituted as a recognition of two facts; first, that children are children even when they break the law, and second, that while the rights of parents should not be lightly interfered with, every child has a right to a fair chance to become an honest, useful citizen. The state must protect the citizen in those things in which he cannot protect himself. The business of the court is to search out the underlying causes of juvenile delinquency and to supply preventive measures."

If action is taken to separate the inmates of the Municipal Home so that the demoralized, the victims of leprosy disease, the vicious and the merely indigent will each receive proper care in separate quarters the present inquiry will do great good. It is gratifying to note that implied charges against the management of the Municipal Home, which are another reason why no civilized nation wants to talk peace with the Hun until all these terrible scores have been wiped out.

That California attorney who denounces British rule in India should be sentenced to a year's study of British rule in India, getting his information from reliable sources. He talks as if he were a disciple of Henri Bourassa.

Monoton men go strong for maritime union. That project may presently emerge from the realm of debate to that of practical negotiation. There are difficulties, but difficulty was described by Gladstone as the condition of success.

The soldier vote gives the union government two supporters in Prince Edward Island. More than ever is it incumbent on the government to justify the confidence reposed in it by the country.

The Toronto prohibitionists should have left William J. Bryan at home. His attitude early in the war was not such as to commend him to any Canadian.

At this distance it would seem the part of wisdom to give Japan a free hand in Siberia. Germany is today the eastern menace.

"Look ahead, trust in God," says the Kaiser. And then he asks another question: "What ship or drops bombs on a nursery."

CANADA'S SHARE OF WAR FINANCE

Why We Must Raise \$800,000,000 This Year—Greater Part is Practically Loan to Mother Country

(Toronto Star.)

The Hon. Frank Carroll has now addressed the public twice at least on the subject of national finance. He is minister of public works, which used to be described as a "great spending department." But he does not seem to desire any of the glory which may come from spending. He is interested less in spending than in saving, and in raising money for war purposes. His announcement that \$800,000,000 would have to be raised next year is startling, and needs to be explained. He did not mean that the whole of this amount would actually be spent upon the ordinary Canadian services and on the war. The Canadian services at home would cost about \$400,000,000. This includes interest on the debt and pensions to soldiers. The revenues of the country, he thinks, would meet this expenditure and leave a surplus of about \$30,000,000.

In addition to this, he speaks of an expenditure of \$300,000,000 or \$400,000,000 on the railway problem, by which we suppose is meant the changes connected with taking over and operating the Canadian Northern. This would wipe out the surplus he refers to.

Then there will be \$140,000,000 spent on the war by our government, and another \$200,000,000 spent by the British government and charged to us.

"But to carry on Canada's great export trade with the mother country at least \$400,000,000 would be required to pay for the goods we would sell her. During the present fiscal year he expects that Canada would send to Great Britain at least \$900,000,000 in goods, including munitions, while the imports were only about \$600,000,000, leaving an adverse balance of over \$300,000,000 to be paid for by some way."

Great Britain represents large sums of money made by Canadian products which are not essential.

But it is on direct taxation that we must chiefly depend. The income tax may have to be increased and perhaps made to apply to a larger number of citizens. The excess profits tax is another source from which more revenue may be drawn.

We must be prepared to accept increased taxation, and we should bear it cheerfully because the enormous exports to Great Britain represent large sums of money made by Canadian products which are not essential.

Mr. Carroll says that another loan will be floated if Canada this year, and we must see how we can get along without borrowing also in the United States. But we must do our best also with increased taxation—pay our way as far as possible.

Mr. Carroll says the government has gone as far as possible in customs taxation. It is to be remembered that an increase in the rate of duty does not always produce more revenue, and may produce less, by discouraging importation. To put it simply, an importation of a hundred million at forty per cent will produce less revenue than an importation of a hundred and fifty million at thirty per cent. At the same time, in the case of luxuries, it might be well to take that risk for a decline in the importation of luxuries would be beneficial in itself, and would be in line with the American policy of restricting imports that are not essential.

But it is on direct taxation that we must chiefly depend. The income tax may have to be increased and perhaps made to apply to a larger number of citizens. The excess profits tax is another source from which more revenue may be drawn.

We must be prepared to accept increased taxation, and we should bear it cheerfully because the enormous exports to Great Britain represent large sums of money made by Canadian products which are not essential.

IMPORTANCE OF PURE SEED.

Pure seed is an important factor in greater production. It might almost be said that it is the most important, for weedy seed having once been sown, it is impossible to forestall the damage that may be done to the growing crop, or the disappointment that may ensue when gathering or reaping time comes round.

Hence, at this season of the year, when a prisoner, the sheriff and county attorney of Cattle County, Texas, are under arrest.

By the Seed Branch of the Department of Agriculture at Ottawa, entitled "Cleaning Seed" is most timely and valuable. It tells of the implements that are needed and the methods that should be followed, especially in the cleaning of grain and grass seed. A letter to the Publication Branch, Ottawa, will bring the pamphlet promptly and without cost.

What Union Labor Thinks of Strike Weapon in War-Time

Two weeks ago striking carpenters in Eastern shipyards were recalled to their tasks only by a direct message from the White House, in which President Wilson concluded his remarks by asking them, "will you co-operate or will you obstruct?"

For the benefit of our readers who may have been led to wonder whether labor really intends to co-operate or obstruct, we have asked the editors of many journals representing organized labor whether in their opinion disaffected labor in war industries should accept Government arbitration instead of striking.

The replies are published in this week's issue of THE LITERARY DIGEST—March 2d. While the minority which speaks for socialists and "working class" radicals insists that labor, in the words of the Whelming Majority, "should never in war or peace give up its right to strike," other labor editors reflect a different opinion. For instance, the Labor World (Duluth), says that "No American workmen who have any regard for their country stand for the laborer who is at stake in this war, will do one act that will delay for a single moment the building of a ship or the production of an article needed to feed, clothe, or equip our boys in France or in training at home."

### WANT BETTER CAR SERVICE

Citizens of Fairville Meet and Protest Strongly Against Present Conditions—To Take Action

A meeting of the citizens of Fairville, which took place last evening in the court room there, declared itself strongly on the matter of the service that is being given on the street railway in the Fairville section. There were more than fifty men present at the meeting. Amador W. Anderson was elected chairman of the meeting and H. Marshall Stout, secretary.

W. A. Nelson explained in detail the act of 1906. It states that adequate service must be provided for the people of Fairville and that when car service is not practicable, a conveyance must be provided by the company to connect with the line to West St. John. Other sections of the act were explained and Mr. Nelson contended that the street railway has in no way lived up to its obligations. He cited several persons in instances of long waits for cars, and told of some cases where passengers had to wait as long as thirty-five minutes for a car.

Councillor John O'Brien said that he and Councillor Goding had made representations to the company, requesting that the service be improved, and he read two letters from M. E. McCormack of the company respecting the situation. In the first letter Mr. McCormack stated some reasons why he did not ever a shuttle service through Fairville to connect with the West End cars; that he favored a service whereby fewer stops be made in through service cars. In the second letter he stated that a census had been taken for one week of the traffic of Fairville on the cars, and gave the number of passengers on the cars daily. The cost of operating was also stated and the writer contended that the Fairville service was not paying.

Mr. O'Brien said that at a subsequent meeting with Mr. McCormack the latter said that the schedule would be improved by having the cars make fewer stops, and that in order to do this the poles along Douglas avenue would have to be removed. The weather conditions had interfered with this work and so nothing had been done up to the present.

At this point in the meeting there were expressions of disapproval from all sides and several citizens repudiated what they believed to be a misrepresentation of the case in the matter of Fairville travel. They contended that every day a large percentage of the people walked down to the corner to take the West St. John car, rather than wait for the car going up Fairville and so no census taken by the company would be a correct estimate of the travel on the cars by the people of Fairville.

Rev. Thomas Marshall said that it was in his opinion that the sentiments of the meeting should be laid before the county members in the legislature and that they be asked to take up the cause of the people in this regard.

After further discussion, in which instances of hardship on account of long waits were recited, it was moved that a committee of three from the meeting be appointed to serve with the Lunenburg highway board to impress on the New Brunswick Power Company, the sentiments of the public. The committee chosen is composed of W. J. Linton, S. T. Tippet and H. M. Stout. An amendment to the motion was afterwards carried to the effect that the committee mentioned, in conjunction with the Lunenburg highway board and two county members, should appear before the New Brunswick Power Company to request that adequate service be provided for the people of Fairville, and to state that the people have a right to expect it.

It was decided not to add any members to the committee appointed at the meeting in the Seaman's Institute recently to oppose the New Brunswick Power Company's bill at Fredericton. It was moved by H. Marshall Stout that the meeting place itself be record as being thoroughly in sympathy with the resolution passed at the recent meeting in the Seaman's Institute under the auspices of the Board of Trade. The motion was seconded by W. J. Linton and carried unanimously.

**NURSING SISTERS HONORED**  
Halifax Herald—At the Waegwollie hospital, a presentation was made by the members of the nursing staff to Matron Nursing Sister Anderson, C. A. M. C., and Nursing Sister Bell, C. A. M. C., who were called to St. John. The presentation was made on behalf of the nurses by Matron Grace M. Grant, R. N. Both Sisters Bell and Anderson were greatly surprised and in responding, expressed their regrets at leaving Halifax.

DON'T DIET YOURSELF

TO CURE DYSPEPSIA IT ISN'T NECESSARY The sufferer from dyspepsia and indigestion who has to pick and choose his food, is the most miserable of all men. It does him little good to eat and digest so imperfectly that he does him little good. What dyspepsia needs is not dieting, or artificial digestants, but something that will put their stomach right so he will manufacture its own digestive ferments.

WAS FIRST KILLED RECRUIT IN U.S.

The first recruit secured in the United States by the MacLean Kilites, the 390th Battalion, commanded by Lieut.-Colonel P. A. Guthrie, now in England, was in the city recently en route to England. He is Sergt. J. E. Kerr of Boston. Sergeant Kerr was the publicity director of the order of Scottish clans in Boston and was chairman of a committee which organized a lifted Massachusetts regiment when the United States adopted conscription. Kerr's organization wired Col. Guthrie to come to Massachusetts and they would guarantee 400 men in three weeks. The colonel went and the promise was made good.

DAYLIGHT SAVING

(Halifax Chronicle) We call it rising-time in summer when the sun has already been long in the sky. We still call it rising time in winter when the sun will not appear for hours. But the incongruity is not so obvious in winter, when, in spite of our clocks, we have full advantage of whatever sunlight there is. In summer, it is glaringly apparent when, by following the clock, we are deprived of the best hours of sunlight in the day.

## Labor Men to Study Aristotelian Lore

## Fifteen Trades Unionists to Explore Political Theory Under Prof. Milner

Toronto, Mar. 1.—For the rest of the season at the Technical School leading trades unionists and workers will study Aristotle under the guidance of Professor Milner of the University of Toronto. Recently a letter was addressed to the president of the Toronto branch of the Labor party from Principal McKee suggesting that members of the party take advantage of the class about to be started, with the idea of equipping workmen that they might be able to successfully take places in legislative bodies. The same letter was sent to several factories. It was suggested that the first class be limited to twelve. However, last Monday night fifteen workmen responded, purchased a text-book, and commenced their studies.

The members present to join the class to-night, since it would be of great benefit to them. It was also pointed out that an effort was being made, through President Falconer, to have a number of similar classes started throughout the city, the cost to be borne by the board of education. After pressing the necessity for a proper knowledge upon the members of the party as necessary to any aspirant for a post in the gift of the electorate, Mr. Gunn put forward a motion to instruct the provincial secretary to get into touch with the officials of similar organizations throughout Canada to suggest the formation of a national Labor party with definite aims and objects, to include workers by brain or hand. Mr. Gunn crystallized the expressions of many members present who thought that the growing proportions of the Labor party demanded a reorganization. His motion, which was seconded by C. M. Logue, was agreed to.

## Militia Department Revives Old System

## Returned Soldiers Aid Commissions Prevail Upon Minister to Resume M. H. C. Method

As the result of the representations made by the secretaries of the various provincial returned soldiers aid commissions to the Hon. S. C. Mewburn, minister of militia, during the recent conference held in the headquarters of the militia commission in Ottawa, Militia authorities have agreed to hold the returning soldiers long enough at the discharge depots at St. John, Halifax and Quebec, to secure their names and addresses, and the names and addresses of those whom they wish to notify by wire of their return.

The difficulties arising from the establishment of the discharge depots as conducted by the Military Hospitals Commission has disrupted the work of the provincial commissions, and has caused a great hardship to the relatives of the men who have desired to welcome them home.

**Uniform Name Taken.**  
Secretary E. H. Scammell of the Military Hospitals Commission presided over the conference in which it was agreed that hereafter the provincial organizations should be uniformly designated the "Returned Soldier Commissions," the name in each case to be preceded by the name of the province. The secretaries will be recognized channels of communication for complaints to the Military Hospitals Commission through the provincial commissions. Hereafter such complaints have been forwarded to the Military Hospitals Commission through the provincial commissions and in turn passed on to the authority in question.

It was recorded as the result of the inquiry that the government should be asked to make arrangements to buy land in any province whether it be federal or provincial, for the purpose of privately owned.

The secretaries conferred with W. E. Segrave, administrator of the vocational work of the Military Hospitals Commission, who explained to them that the department were not intended to tabulate the individual views upon the employment possibilities which could be secured for training men in the factories.

He pointed out that in such cases men remained in the employment of the factories in which they were trained when their term of training had been completed.

## My Limbs Would Twitch

## And Waken Me—Unable to Rest or Sleep, I Walked the Floor in Nervous State—When Specialists Failed I Found a Cure.

This is the kind of cure that has set Wm. M. Sullivan, 37 Arthur street, at ease. He writes: "I was suffering from nervous breakdown, which was due to a shock when five broke out during the war. My nerves were in such a state that, after going to bed I could not get any sleep. I used to get up and walk around the room, or go to the bathroom, or drop off to sleep my limbs would twitch and waken me. I used to have nervous night sweats, sometimes would become unconscious and lie that way for quite a little while. I was always cold and it seemed impossible for me to get warm or keep warm. When on the street I would see two or three people at once, and did not want any person to speak to me or bother me. Any little noise irritated and annoyed me very much. I had consulted specialists and tried many remedies during this time, but could not gain relief. At last I found long ago that this treatment was proving of benefit. I am now feeling so much better that I can go out on the street without any difficulty, can go across the river and go about the same as any other man. I sleep well at night, and am feeling more like myself every day. I am pleased to be able to write you to tell you how much good the Nerve Food has done me. It has strengthened and built up my whole system. I am now referring it to everybody I find suffering from nervousness of any kind."

## ALEXANDRA TEMPLE

That there are forty or more bootleggers in St. John; that twelve of them are women; and that they are well organized and had offered a former liquor dealer \$2,000 a year to be their manager, was a statement made by Commissioner McLellan at the monthly open meeting of Alexandra Temple of Honor last evening. He added that by the bootleggers he did not mean the mere peddlers, but those higher up, who were also fences for thieves; and he hoped one or two of them would eventually be landed in Dorchester.

George Blewett presided, and there was a good attendance of templars and ladies, with a strong delegation from the Pleasant Point Junior Temple, in charge of the governor, C. A. Black.

Miss Eunice Milbery sang a solo and responded to an encore, and later played a piano solo.

A. M. Belding spoke briefly, as did Mr. Emsor, pastor of St. Matthew's church, and Governor Black, of the executive committee, and the meeting closed with the National Anthem.

## Great Britain Recognizes the Value of Music in War-time

To manufacture any article in England today it must be proven to be an absolute necessity. The land is stripped bare of extravagance and waste.

Yet the making of musical instruments has been increased by two thirds in the last year over 1916. Why? Music is a tremendous necessity in homes no less than in the trenches. Good music is absolutely needed to strengthen our endurance—our morale. Great Britain knows it to be so.

So your purchase of a Columbia Grafonola is not an extravagance. It is a sign you are bringing courage, cheer, inspiration, good fellowship into your home.

## Salts in Hot Water Clears Pimply Skin

Says we must make kidneys clean the blood, and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which show abroad only in the form of pimples.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Epsom Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus assisting them to filter the blood of impurities and clearing the skin of pimples.

Epsom Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

## BRITISH COMMITTEE SENDS THANKS FOR WORK FOR AGRICULTURAL RELIEF.

Ottawa, Mar. 1.—The following cablegram has been received by His Excellency the Governor-General from the Duke of Portland, chairman of British Committee for Agriculture Relief of Africa:

"Agricultural Relief of Africa Committee ask me to convey their thanks to your Excellency to Doctor Robertson personally, and to Canadian committee working with him for efforts in connection with February campaign for fund-raising in England. Recently the British committee sent to France many thousands of young fruit trees to repair those which the Germans had wantonly destroyed during their retreat."

## (Signed) "PORTLAND."

The campaign to obtain contributions from farmers for this fund is in full swing under the provincial department of agriculture in co-operation with voluntary organizations of farmers and women's institutes. Recently the British committee sent to France many thousands of young fruit trees to repair those which the Germans had wantonly destroyed during their retreat.

## WAR HOG PUNISHED BY SOLDIER'S MOTHER.

Bangor Commercial: That regarding the war from a selfish standpoint doesn't pay is undoubtedly the opinion now being expressed by a certain Portland business man who was a passenger on a suburban car Friday, says the Star. It was a small machine hand that administered the two smart slaps on the face which consolidated his rebuke, and perhaps that fact will intensify his chagrin. The man in question, a prosperous looking individual, was heard to remark to his friend, "I hope the war will last five years. If it does I'll be a millionaire." Hardly were the words out of his mouth when a startling interruption came in the form of two smart slaps on the speaker's face. A small woman, modestly but quietly garbed, rose from her seat, her eyes blazing. "I've two sons over there," she choked out, "and there are other mothers in Portland who have as many, or more. And then you say you hope the war will last five years. You ingrate!" The man's face reddened, he seized his hat and turned aside to escape the curious glances of the other people in the car, and it is safe to venture the prediction that he will not be speedily guilty again of such selfish and cruel statements.

## Y. W. P. A. MEETING

At a meeting of the Y. W. P. A. in the War Veterans' room last evening the president, Miss Jessie Church, was in the chair. The treasurer, Miss Alice Hatch, reported a balance of \$414.35 in the general fund, \$171.52 in the returned soldiers' fund, and \$66.10 in the reserve fund.

The feature of the evening was a very interesting address by Mrs. Harold Lawson on the work of the Red Cross. She explained how and where the money donated to the Red Cross was spent, and traced briefly the history of the Red Cross and explained the origin of the symbol. She also gave the history of a casualty from the time of wounding until reaching Canada. This was illustrated by beautiful views under the direction of Sergeant Paddy.

Montreal Fire Was Not Due to Defective Wire

First Report Without Foundation—All Electric Equipment Saved Without Damage

The early report that the fire in the Grey Nuns Hospital in Montreal was due to defective wiring attached to the electrical apparatus in the X-Ray room of the wing used by the Military Hospitals Commission as a convalescent ward for returned soldiers, has been declared without foundation by the authorities.

Investigation established the fact that the blaze started in the floor above the one occupied by the soldiers and did not reach the X-Ray room until the officers had been able to remove all the apparatus. The expensive equipment sustained only a slight water damage which was quickly remedied.

All Records Saved. All the records of the M. H. C. C. and the A. M. C. were saved by the officers and staff out of the building and all the assistance possible given in rescuing the babies.

The portion of the building which the soldiers occupied is not in any way fit for occupation now. The time it will take to put the quarters into condition again depends entirely upon the action taken by the Order.

Increased accommodation has been arranged for by the M. H. C. in the Royal Victoria and Montreal General Hospitals, also in the Drummond Convalescent Home, including ten bed patients.

Through the prompt action of the authorities and the generous help of Montreal citizens in opening their doors and providing transportation none suffered serious ill effects.

AWFUL ATTACKS OF HEART TROUBLE

EASED BY SECOND DOSE OF Milburn's Heart and Nerve Pills

One of the first danger signals announcing something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all-gone" sinking feeling, or, again you may experience a smothering sensation, gasp for breath and feel as though about to die.

In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is beyond question, marvellous.

Mrs. Frank Arsenau, Newcastle, N.B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better, I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

At present my sister is taking them for nervousness, and finds great comfort by their use."

Milburn's Heart and Nerve Pills are for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

COMPLETE RETURNS FOR NEW BRUNSWICK

Ottawa, Ont., Feb. 28.—Returns of soldiers' votes taken in England received late this evening complete the election returns for Nova Scotia, New Brunswick, Manitoba, Saskatchewan and British Columbia. The returns for Quebec and Prince Edward Island, received this morning, increased the government's majority from sixty to sixty-four, with the Yukon in doubt, owing to a local technicality as to the soldier vote.

Tonight's returns do not change any constituencies. Returns received tonight were as follows, the government candidate being the first mentioned in each case: New Brunswick.

Royal—McLean, 548; Sharpe, 15. St. John and Albert—Wignmore, 946; Elkin, 920; Broderick, 35; Emery, 35. Charlotte—Hart, 162; Todd, 11. Kent—Rodibeaux, 68; Ledger, 7. Westmorland—Copp, 82; Price, 38. In this constituency there was no government endorsement and 434 soldiers' votes were rejected.

Toronto—McLeod, 442; Brown, 17. Restigouche—Stewart, 202; Michaud, 7. Northumberland—Legge, 339; Morrisey, 23.

Moncton, N. B., Feb. 28.—(Special)—Hon. J. B. M. Baxter, of St. John, and Fred Magee, M. P. of P. E. I., addressed the Moncton Canadian Club this evening, advocating maritime union. There was a large attendance and the speeches were heard with much interest. A resolution was unanimously adopted by the club supporting maritime union and recommending that a sub-committee of five be appointed by the Canadian Club to confer with similar committees from the city council and board of trade to deal further with the question.

Among those who spoke were Hon. C. W. Robinson, ex-Mayor of St. John, Judge Hewson, George J. Oulton, principal of the Aberdeen high school, and J. F. Edgett, H. S. Bell president.

ENTHUSIASTIC RAID ON GERMAN TRENCHES

United States Troops Go Beyond Objective, But Accomplish Work in Fine Style

With the American Army in France, Feb. 25.—(By the Associated Press)—Details of the Franco-American raid in the Chemin des Dames Saturday show that twenty-six picked American soldiers participated after every member of their battalion had volunteered. The Americans moved forward eagerly to the attack behind a barrage fire, the first time this has been done by our troops. Some of the Americans made captures and others chased Prussian troops through the trenches as far as 750 metres, going beyond the objectives sought.

The raid had been planned carefully and rehearsals were held the day before. The barrage fire began at 2.30 o'clock in the morning and continued until 9.35.

HENRY B. THOMSON, CHAIRMAN OF THE FOOD CONTROL BOARD, PHOTOGRAPHED AT HIS DESK IN OTTAWA.

In an address to members of the University Club, Ottawa, Henry B. Thomson, food controller, said that as far as he could see at the present time it would be a waste of energy to put drastic rationing regulations into effect in Canada. "If conditions get worse it may come to that," he said, "but if this country produces to the limit, I trust that it will not be necessary."

"We have had many letters advocating that Canada be put upon rations," Mr. Thomson continued. "Card-rationing systems may be workable in congested countries, where you have full control of the supplies and there may be in such cities as Montreal and Toronto populations sufficiently congested. Still, if card rationing were established, it would have to be operated upon a Dominion-wide basis, and not merely in one or two districts. It would be very difficult to operate such a system the Dominion over. How would you enforce the rationing system among the farming population?"

"Mr. Haana's policy was to put it up to the people, and I think 90 per cent of the people are absolutely right. A certain number are sitting back, waiting till the period comes when they expect to be forced to do what they ought to do, but the question is: What would the card rationing system cost to force these few people? Is it worth it?"

"The people are getting conversant with the food situation. Statements from Baron Rhonda, the British Food Controller, are growing more emphatic every day. Spring is approaching. The greater production campaign has been launched. Soon we can get wheat, corn and other foodstuffs. Speaking of substitution of other foods for wheat products, and the mixing of other flour with wheat flour, Mr. Thomson pointed out that there were few substitutes available, except corn, and owing to transportation difficulties, corn had not yet come freely on the market. There was no surplus of barley in the country, and the demand for oats and oatmeal by Great Britain was such that it was difficult to interfere with the existing arrangements. For the first time in a generation at least, Mr. Thomson pointed out, cattle and human beings had come into direct competition for the same grains. Mill feeds were a necessity to farmers for their live stock; consequently it had been judged unwise to increase the milling extraction for flour beyond 74 per cent, because to do so would mean leaving more of the wheat berry in the flour and less in the offal for mill feed.

Price Fixing a Failure. "The panacea of fixing prices has failed," said Mr. Thomson. "In New York last summer, the Food Control Board fixed the price of milk. The result was that the State administration had to take over the situation. In December, Mr. Hoover himself had to grapple with it. Because, since September, when the price of milk was fixed, the farmers, finding the price did not pay, butchered 70,000 milk cows for beef. The result of that was that milk in New York city went to 20 and 21 cents a quart. Fixing prices of milk in New York has gone by the board. Fixing profits is another matter."

"Public clamor is directed against food dealers," he continued. "It is a natural tendency for the consumer to think the trouble revolves around his or her own corner grocery, but the blame has been added by the efforts of retailers in competition with each other to grab the public's unreasonable insistent demands for what it calls 'service.'"

Mr. Thomson referred to the multiplying of delivery systems and the extravagant shopping habits developed by the telephone. "In a few days we expect to have regulations in force controlling the situation," he said. "There are 22,000 retail grocers operating in Canada, and we are placing them under license."

Mr. Thomson expatiated on the new export license system by which Canada and the United States control exportation into this continent of food and other essential commodities. "The North American continent," he said, "is now commercially water-tight. This system gives us the power to wage commercial war. Mr. Thomson told of the attempt of Germans in control of business enterprises in Central America to hold up the supply of sisal used in the making of binder twine. By withholding licenses for export of certain goods to Yucatan and other Central countries, these countries had been forced to release sisal."

INDORSERS WOMEN'S OFFER. Pershing Urges Acceptance of Garments From Red Cross Workers. With the American Army in France, Mar. 1.—(Associated Press).—A cablegram forwarded to the Surgeon General at Washington, mentions the value of the garments which volunteer Red Cross workers are making in the United States for the American expeditionary forces. The message contains General Pershing's appreciation of the work done, and recommends that the medical department accept an offer of 100,000 convalescent uniforms which has been made by American women.

General Pershing calls attention to the fact that the medical department is buying large quantities of pajamas, operating gowns, bathrobes, and convalescent suits in the open market, when the Red Cross has offered to supply the articles gratis. This is likely to result in duplication of the supply and an unnecessary demand for tonnage. General Pershing says that the work done by American women in service in promoting the morale of the army and is also of value because it releases commercial labor for other purposes.

### IT'S NOT SUFFICIENT

to tell the purchasing public today that an article is superior. You must prove it! We can prove that our remedy—Zam-Buk—is superior to ordinary ointments. Zam-Buk is all medicines—100% against 5% medicine found in ordinary ointments. Obviously, Zam-Buk has 85% more healing power. The herbal extracts of which Zam-Buk is composed are so blended and refined that the balm has unusual power of penetration. Instead of remaining on the surface skin, as ordinary ointments do (owing to their coarse ingredients) Zam-Buk soaks through until it reaches and destroys all germs in the underlying tissues. Having medicinally purified the diseased parts, Zam-Buk actually grows new skin, which replaces the worn-out tissue. Curious, as it does, from the "root" up, there is no trace of disease left to break out again—the cure is permanent. Finally, and best proof of all, we have letters from millions of people all over the world telling us that they have found Zam-Buk the most reliable remedy on the market for eczema, ringworm, scald sores, ulcers, abscesses, bad legs, blood-poisoning, piles, rheumatism, cuts, burns and scalds. Price, 50¢, 3 for \$1.25. All dealers or Zam-Buk Co., Toronto.

Thomas H. Ince Presents William S. Hart in "THE APOSTLE OF VENGEANCE" A Gripping Story of Kentucky Strife. The fight scene in "The Apostle of Vengeance" depicts Hart, as the Herculean young minister-son of a feudist, engaged in fist combat with an equally powerful "boot-legger" when the latter attacks a girl in the mountains. To equip the scene with a new "twist," Hart selected as a "location" the steep bank of a mountain stream. This enabled him to send his opponent reeling into the water. ATHLETICS. Offers Cabana \$5,000. Montreal, Mar. 1. - "If Cabana, the so-called 'champion' does not compete in the strong-man tourney here in April it will be because he is afraid of being beaten," said promoter Leo Dandurand today, following an announcement that the big policeman had declined to enter, but instead had gone to New York to challenge the winner of the strong man tournament to be staged there next month by Richard K. Fox, proprietor of the Police Gazette.

Chicago, Feb. 28. - Jack Dempsey has arrived at Joplin, Mo., where tonight he is scheduled to meet Bob Devere in a fifteen round battle. "The Brennan bout was a dandy training stunt for me," Dempsey said before leaving here. "It will give me every bout I start just as quickly as I can. Brennan returned to Chicago in a wheel chair following his match at Milwaukee. Physicians said his ankle was sprained in the bout. Milwaukee, Mar. 1. - Bryan Downey, Chicago middleweight, has been suspended for sixty days by the Wisconsin Athletic Commission on a charge of having violated the rules of the commission by "stalling" and refusing to heed the warning of the referee during his bout with Joe Eagan of Boston, Feb. 27.

Willard Said He Is Willing. Jacksonville, Fla., Mar. 1. - Jess Willard, heavyweight champion, when informed that Fred Fulton had knocked out Frank Moran, said he would meet Fulton for the championship if Fulton is willing "to make reasonable terms." Willard added that he would be willing for the fight to take place as soon as arrangements could be completed. BASEBALL Will Barrow Be President? While Ed Barrow will take the managerial reins of the Boston Red Sox when the club goes to Hot Springs, it is stated that the former leader of the International League is slated for a higher position, and just as soon as plans, which Manager France has materialized, Barrow will be elevated to the position of president of the club. It develops that France has not yet given up hope of persuading Bill Carrigan to come back to Boston temporarily and lead the Red Sox until Jack Barry is available again. It is stated that Barrow has been in communication with Carrigan and will try to tempt the former leader back to his old job for a while anyway. France, it is stated, placed Barrow at the head of the club because of the keen competition among the players to be appointed to the job. France wants to give up his time to other enterprises, so if Barrow is successful in getting Carrigan back, France will probably retire as president and leave the affairs of the club in the hands of Barrow.

BURNS SIGNS WITH GIANTS Veteran Outfielder Comes to Terms After an Interview With McGraw - After Other Holdouts New York, Mar. 1. - George Burns, the Giants' left fielder, considered by Manager McGraw as one of the most valuable players on his club, has signed his contract, thereby dispelling much gloom from the vicinity of the New York club offices. Burns had a long talk with President Hempstead and Manager McGraw, after which he stated that he was perfectly satisfied with the compromise which had been made over the salary question. McGraw said that Burns had been very fair about the matter and that there never had been the slightest friction in their relations. Burns led the National League in scoring runs last season, with 108 to his credit, batting at an average of .302. He was second in base running, having 40 steals to his credit. Burns is considered as being one of the best lead-off men in the major leagues. He is one of the steadiest and most reliable players in the game and went for a stretch of more than three seasons without missing a single game. Manager McGraw declared that he would start today to visit the other players who have failed to come to terms. It is said that one of the hold-outs - presumably Slim Salter - has accepted terms and has mailed his contract to New York. McGraw suggested that an ship would be handy for him to get around to see his players in a hurry. He will go to Louisville to see Percie Sapp and while he is down that way he will call on Pol Perritt, who is at Greenville, S. C. He will have to jump out to Collinsville, Ind., to see Art Fletcher, and in between jumps will try to round up Davey Robertson and Jim Thorpe. As McGraw wants to get down to Texas during the next two weeks, he will have to spend much of his time on railroad trains. The Giants have put in their order for next year's uniforms and the road robes will be Yale Blue with black trimmings, while the home uniforms will be the same as the club had in 1912. They will be of Colonial cream with wide blue stripes. One of the most costly deals that Manager John J. McGraw of the Giants has made in recent years was the trade for Jim Middleton, the Louisville pitcher, who was sent by the Giants to Kansas City the other day. He gave Stroud, Palmero, Lew Wendell, Bill Ritter, and Wade Killifer to Louisville for Middleton, who failed to become an effective boxman during the time he was with McGraw's team.

### MAVITY MEN FORM EIGHT TEAM BOWLING LEAGUE

Will Compete for Silver Trophy Donated by G. Clifford McAvity — Many Experienced Bowlers Available

At a meeting of the employees of T. McAvity & Sons, Ltd., it was decided to start a bowling league composed of members of the various departments. Eight teams already have entered and the league will be formally opened on the "vile" alleys on Monday night. Games will be played every Monday, Wednesday, Thursday and Friday nights during the next three months. All the teams will be composed of players well known in bowling circles, who, with the other members with less experience, should make a creditable showing. Judging by the interest shown in previous matches conducted by these players, there will be no lack of interest and some rousing games are anticipated.

G. Clifford McAvity, who is a great advocate of this popular game, has graciously donated a silver trophy which will become the property of the team winning this series. The winners will be called upon to defend it next season. Any team winning this trophy for three successive seasons, becomes the permanent owners of it.

It was through Mr. McAvity's influence, and at his instigation, that this league was formed, and it is doubtful if there is a more ardent follower of the game in connection with this league than he is.

The committee who will have charge of the games is composed of Messrs. Legas, Treat, Meyers, Tucke and Ramsay.

The following is the league schedule: The teams entered are as follows:—Water St. Office, Water St. Finishing, Water St. Foundry, Vulcan, King St. Store, King St. Office, 45 Shell Plant, B. J. Shell Plant.

### MANY INVOLVED IN CASE ARISING FROM WOOL SALES

Mysterious "John McLean of Gagetown" Arranged Sales Over Telephone and Teamster Collected the Money—Two Have Left Town

Now implicated in the charge of theft of wool against Harry Hayes, senior and junior, of the Marsh road, are several other persons; a man named Johnston, John H. Kain, a Mr. Parlee and "John McLean of Gagetown," whom nobody apparently has seen, with the exception of James W. Willis, but who has carried on telephone conversations with John Kimble & Son, and in this way conducted the sales of wool.

The first witness called in the case at the police court this morning was F. Deering, manager of the Colonial Hide Company, according to whose testimony \$197 pounds of wool has disappeared from the warehouses of his company and no one knows where it has gone. The wool is valued at from \$220 to \$2300.

William M. Ryan appeared in the interests of the Colonial Hide Company. George A. Kimble, of John Kimble & Son, the next witness, informed the court that he was acquainted with Parlee and Hayes, senior. In November, he said, Parlee brought him some wool about which he knew nothing, apparently. "I had received a telephone message before this from a person who introduced himself as John McLean of Gagetown," and seeing as to the price of wool, he told me he would send me down some and I could put the money for it in cash into a sealed envelope and hand it to the driver. The envelope was addressed to John McLean. This occurred again in December. One day there was some trouble with the cash book and I was called in to see Mr. McLean. He telephoned me on Jan. 11 about some ten to his address and the letter had been returned, but he excused himself with the words "Oh, I have been away and I have not been home for a month." I have never seen John McLean. During the last few months, a load was figured by a man called Johnson and the others by Parlee and one by a boy who said his name was Parlee. I always said his name was Parlee. I always said his name was Parlee. I always said his name was Parlee.

The programme was as follows: Piano solo, Miss Helen Robertson; recitation, Miss Bessie Bell; reading, Miss Florence Johnston; duet, Mr. and Mrs. B. Kirkpatrick; piano solo, Miss Nellie Scribner; reading, George McKel; reading, Miss Elizabeth Wood; piano solo, Miss Lillian Garnet; quartette, B. Kirkpatrick, George Kelly, William Ross and George McKel.

The next witness called was Harry W. Stables, teamster of the Canadian Hide and Skin Company of 111 to 115 Marsh road. He said that he knew both the Hayes and had on Jan. 12 purchased wool from Hayes, senior. "Mr. Hayes asked me if I wanted any wool and I told him that I would buy it if he got it and I didn't ask him, but at the time he referred to a trade he had made in Hayes and said that the wool had figured in that. There was some washed and some unwashed. I gave him a check for \$197.50 Monday morning at seven o'clock. I never bought wool from Hayes. I think there is some of the wool left." The court here instructed Mr. Kimble and Mr. Stubbs to hold whatever part of the wool that was left until it could be ascertained whether or not it had been stolen.

Mr. Ryan then asked Mr. Kimble whether at any time he had ever bought any wool from John H. Kain. "He is another man about whom we have suspicions, Your Honor," he said. The answer to this was withheld until information should be laid against Mr. Kain.

James W. Willis was then called again, and, after his evidence was re-read, he was asked to hold any wool he had. In his evidence he testified that both Johnson and the mysterious "John McLean" were present and sold wool to him and a reconnaissance was taken from him so that he would be on hand to identify these gentlemen and particularly McLean, should they appear.

Mr. Ryan said that both Johnson and McLean had left the city rather hurriedly, but that the police were hot on their trail and hoped soon to lay them by the heels. The court was adjourned until Monday morning at seven o'clock. J. A. Barry was present this morning in the interests of the two Hayes.

### FAIRVILLE W.C.T.U.

The Fairville Branch of the W. C. T. U. celebrated "Frances Willard Day" yesterday afternoon with a special meeting at the home of Mrs. S. T. Cougle, Main street, Fairville. Mrs. O. D. Hanson, president of the Fairville branch, presided and devotional exercises were conducted by Mrs. Seymour of St. John.

A sketch on the life story of Frances Willard was read by Mrs. J. W. Stevens and Mrs. William Bonnell contributed a paper on "What the W. C. T. U. stands for."

Mrs. Christie, county president, read a sermon by Rev. Billy Sunday on "The Second Coming of Christ." Mrs. Christie had personally heard the great evangelist deliver this powerful address. The final item was an address by Mrs. Seymour on her work in the Seaman's Mission. A vocal duet was beautifully rendered by Mrs. Arthur Long and Miss Fern Townshend. At the close of the meeting refreshments were served by the hostess, Mrs. Cougle.
