DEMOCRATS OF MAINE ARE EAGER TO SIGN RECIPROcity

Resolution in Legislature in Favor of Reciprocity SITUATION IN STATES Taft Will Make Vigorous Fight for Carrying Out of Agreement Made With Canada—Newfoundland May Now Open Negotiations With States

A Bangor Commercial despatch from Augusta, Me., says:—A resolve favoring reciprocity with Canada was introduced into the house Thursday without having attracted much attention as it was read by title only. It was offered by Rep. Hagan of Portland and was as follows:— "Whereas, the Democratic party of Maine has always recognized the benefits to the welfare of the people that will accrue from more friendly trade relations with Canada, and have advocated measures looking toward that end, and

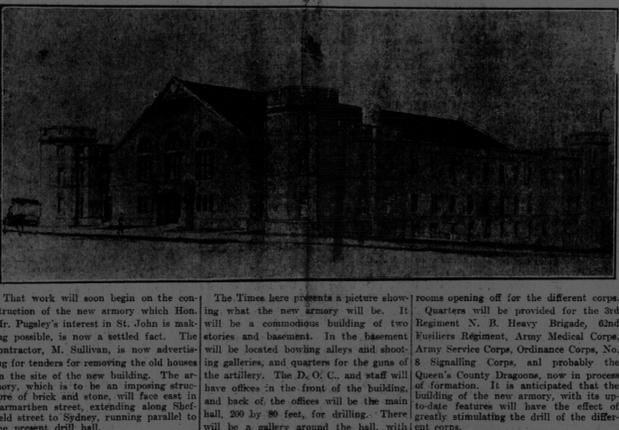

Whereas, the President of the United States, recognizing the demand for more cordial trade relations with Canada, has advocated a measure of reciprocity which is a beginning of more liberal laws and of ultimate benefit to the people, therefore: Resolved, That we request our senators and representatives in congress to use their influence for the adoption of such measures as will bring about fair reciprocal trade relations between Canada and the United States. Section 2: That the secretary of state be instructed to forward a copy of this resolution to the senators and representatives in congress from the state of Maine."

The Situation Today (Canadian Press) Toronto, Jan. 28.—A special despatch to the Globe from Washington says: "There are indications that the Canadian tariff agreement will not be acted upon by either the House of Representatives or the Senate before the session closes on March 4. Today the members of both houses in a measure recovered from their drowsy condition. Some of them condescended to wait until they heard from their constituents while others took a nap. A good many members from the cities were outstayed for the agreement. On the other hand, Republican senators from states in the northern part of the country privately hammered the schedule and tried to get the measure passed before it got out of the committee on finance to which it had been referred. The insurgent members of both houses were inclined to become "stand-patters" so far as the campaign for Canadian reciprocity was concerned and most of the house "stand-patters" said the agreement would be kept in the ways and means committee until the end of the session. Even the fact that lumber is free does not make much difference with the treasury states of Kansas, Nebraska, Iowa and North and South Dakota, which are pretty well represented by the insurgents who can count more Republican electors than the Democrats. On the other hand, the Democrats are going behind the agreement, possibly because they see they can count more Republican electors than the Democrats. It is possible that the situation may be modified between now and the end of this congress that the president may call an extra session of the sixty-second congress to consider the reciprocal agreement, said reciprocity.

Taft to Fight for It Washington, Jan. 28.—President Taft is determined that the reciprocity agreement shall pass the powers at Washington. If his own party fails to seize the opportunity and credit for putting into operation this reciprocal trade pact, the president, it is said, will not hesitate to submit his programme to the Democrats. One man in the confidence of the president came from the White House with the declaration that the proposed Canadian arrangement would not die an easy death so long as Mr. Taft was in the White House. The president was never more earnest in his life, he said: He would not hesitate to call an extra session if he thought such a course would do the business. The overturning of the Republican majority in the house and the great change in the complexion of the senate after March 4 is thought to give President Taft more than an even chance of success. When his message was read in the house yesterday it was received with acclamation by the Democrats and appearances seemed to favor an endorsement of it by the present majority, which soon will be the majority. If the attitude of the Democratic leaders of the house proves a true index of the position which minority members of the ways and means committee will take on a joint resolution to put the trade agreement into force both a resolution can be brought out of committee. The seven Democrats on the committee are believed to be in sympathy with the agreement and it is certain that four Republicans will vote to report it. It is in the senate that barriers now look insuperable. Executive leaders here today are in a quandary over the situation. Senators (Continued on Page 3—5 column)

HANDSOME NEW HEADQUARTERS FOR THE MILITIA IN ST. JOHN

The Times here presents a picture showing what the new army will be. It will be a commodious building of two stories and basement. In the basement will be located bowing alleys and shooting galleries, and quarters for the guns of the artillery. The D. O. C. and staff will have offices in the front of the building, and back of the offices will be the main hall, 200 by 80 feet, for drilling. There will be a gallery around the hall, with rooms opening off for the different corps. Quarters will be provided for the 3rd Regiment N. B. Heavy Brigade, 62nd Fusiliers Regiment, Army Medical Corps, Army Service Corps, Ordnance Corps, No. 8 Signalling Corps, and probably the Queen's County Dragoon, now in process of formation. It is anticipated that the building of the new army, with its up-to-date features will have the effect of greatly stimulating the drill of the different corps.

That work will soon begin on the construction of the new army which Hon. Mr. Pugsley's interest in St. John is making possible, is now a settled fact. The contractor, M. Sullivan, is now advertising for tenders for removing the old houses on the site of the new building. The army, which is to be an imposing structure of brick and stone, will face east in Armistead street, extending along Shepley street to Sydney, running parallel to the present drill hall. ENGLISH BOYS NOT TAUGHT THE LANGUAGE Lord Morley Deplores it—No Monarch Now on Throne of Letters (Canadian Press) London, Jan. 28.—In an address delivered yesterday to the members of the English Association, Lord Morley said that English boys were not taught to write English, and the significance of that was the indifference implied to one of the noblest and most powerful of tongues. Surely not the least stupendous fact in British annals was its consequence in the household area of the habitable globe in the past no parallel to it. Toward the close of Lord Morley's address, in which he considered the subject of English literature in many of its aspects, the veteran statesman acknowledged that at the present moment no monarch occupied the throne of letters, but that he added, did not matter.

LOCATION OF PORT MANN ANNOUNCED Pacific Coast Terminus of C.N.R. It will be built upon a 4,000-acre site, one mile and a half east of New Westminister upon the south bank of the Fraser River. Contracts have been let and 200 men are now clearing the ground. A preliminary survey will be made in May. The new city will have a water front of 2 1/2 miles and the workshops and other industries to be established by the company will support a population of 10,000 workmen at the outlet.

FEARFULLY INJURED IN WESTMORLAND WOODS Frank Ward Gets Blow From Axe And it May Prove Fatal (Special to Times) Sackville, N. B., Jan. 28.—While working in the woods at Brookton on Thursday, Frank Ward had his shoulder severely cut. His axe caught in a limb and descended with great force, cutting a terrible gash the width of the blade and more than two inches in depth. The big muscle controlling the arm was severed, a vein cut and some veins torn. The wound may prove fatal.

Insurgents Capture Town Cuba, Honduras, Jan. 28.—(Canadian Press)—The insurgents are active in the interior and yesterday captured Yoro, a city of 2,000 and the most important place between this city and Tegucigalpa. A concerted attack upon Tegucigalpa, the capital, from three sides is expected within the next few days.

HIRAM AND THE FLAG "Look here!" said Mr. Hiram Hornbeam to the Times new reporter this morning. "I want to say a word to Foster an' them fellers that's talkin' about the empire fallin' to pieces. I want to tell them that if business is one thing an' loyalty's an' other—did we join the States when we had the empire? Did we lose the States when we had the empire? When our fellows went out to South Africa, did we say we sent 'em because we sold some cheese an' bacon in Liverpool an' wanted to sell more? This here notion that because a feller from Boston comes down our way an' sells some live stock, or buys up some potatoes, that we're goin' to hate the stars an' stripes over his head, is the damndest rot I ever heard. I ain't got no patience with it. It makes me mad. Ain't we goin' to have an imperial conference this year? Ain't we just as proud of our flag as any Yankee from Eastport to Alaska is of his? What do these critters take us for? If this country grows, ain't that good for the empire? If you'd lose France an' Germany had free trade tomorrow they'd hitch up as one country? Not on your life. If the people of Canada don't think any more of their place in the British empire than to measure what it's worth in hay an' potatoes then you couldn't hold 'em anyway. But I tell you we'll get all the business we kin, an' we'll be good friends with our neighbors; an' while we're doin' that we'll be makin' better feelin' among the hull Anglo-Saxon race all over the world. That's with a good deal more than sense. There ain't nothin' in no dollar mark on my flag, by Heav! I kin trade with a Yankee every day in the week an' then tell 'em the freest people on the face of the earth is them that's livin' under the old Union Jack. You kin say so, too—an' tell 'em I said it."

Thirty-Nine Prisoners in Last Year A Lowed Out on Suspended Sentence WHAT IS THE EFFECT? Men Who Think Are Asking if There is a Relation Here to the Recent Outbreaks of Lawlessness in St. John—Some Cases in Particular

A question which is being quite commonly discussed in the city at present among thoughtful people, is whether or not an apparently lenient attitude of the courts towards men convicted of crime is responsible, to a certain extent, at least, for outbreaks of lawlessness which have occurred in different sections of the city during the present winter. The presence of crime of late in the city has served to bring the matter more strongly before the attention of the public. Starting in the principal streets of the city on New Year's Eve, and following those up with an attack of a murderous nature on a respectable elderly woman in Lower Cove, with the stabbing of a man in a boarding house in Smythe street, the threats of another in west St. John, and the series of petty burglaries, as well as frequent instances of drunkenness and assault, it has seemed to the thinking man that something should be done to check the apparent increase in crime. The view is expressed by some that if the courts were considerably sterner, especially in cases where there would be fewer instances of law breaking recorded.

The pupils of his eyes were tested and the other routine of a man undergoing an examination for insanity were gone through with. The doctors deny making the examination.

PROMINENT MEN AND WELL KNOWN WOMEN Gladly Testify for "Fruit-a-tives"

One reason why "Fruit-a-tives" is winning a welcome in the hearts and homes of thousands from coast to coast, is because so many of the leading citizens of Canada have spoken so strongly in favor of this wonderful fruit medicine. In every province—in every city—in every hamlet—throughout the three million, seven hundred square miles of the Dominion, there are many who own their health and some who owe their lives to the marvellous virtues of "Fruit-a-tives."

COMMISSION AND REFORM

To the Editor of the Times-Star. Sir—As a new Canada and a modern people we should adopt modern systems that have proved successful elsewhere. If our citizens are ever to progress for a moment, we will seriously consider under what conditions we were established as a city here in St. John, they will know it is under the rule of George the 4th that the Loyalists were installed here, and that their rule was the rule of the lords in Britain at that time, and which at the moment is being denounced by the people at home under the same eyes of the world as that of the Norman conqueror's satellites and followers attempted to extend over Canada and the United States.

THE CADETS' CONCERT

The performance given by the St. Andrew's Church Cadet Corps in the Opera House last evening drew a large audience. The cadets made a splendid appearance in their white tunics and kilts, and those who have had charge of their training must feel amply rewarded for their efforts, not only in the soldierly appearance of the youths, but by the creditable manner in which they went through their exercises and drill. His Worship Mayor Frank Prescott, and several speakers urged that the corps with the silver challenge cup, won by them at the Sussex shoot. FAMOUS GEMS OF PROSE THE TEXAS CLIMATE

Alexander Edwin Sweet, editor, was born in St. John, N. B., on March 28, 1841. He went to school in Poughkeepsie, N. Y., and in 1859 went to Europe, where he entered the Polytechnic institute in Karlsruhe, Germany, and returned to Texas and served in the confederate army in the 33d Texas cavalry. He practiced law in San Antonio, Texas, and later began his journalistic career there. In 1884 he moved to New York city, and there published, with J. Army Knox, the weekly journal entitled "Texas Sitings." He died in New York city, N. Y., May 20, 1910.

In the early days of the republic of Texas, and even after annexation, many of the white men who came to western Texas from all parts of the United States had strong sanitary reasons for preferring a change of climate. To be more explicit the most of the invalids had been threatened with throat disease. So sudden and dangerous is this disease that the slightest delay in moving to a new and milder climate is apt to be fatal, the sufferer dying of dislocation of the spinal vertebrae at the end of a few minutes and a rope. A great many men, and other states—let immediately, between two days—the necessity for their departure being so urgent that they were obliged to borrow the horses they rode to Texas on. All of these invalids recovered on reaching Austin. In fact, they began to feel better, and considered themselves out of danger as soon as they crossed the Brazos river. Some of those who would not have lived twenty-four hours longer if they had not left their old homes, reached a green old age in western Texas, and by carefully avoiding the causes that led to their former troubles, were never again in any danger of the bronchial affluency referred to.

As soon as it was discovered that the climate of western Texas was favorable towards invalids, a large number of that class unfortunately came to Austin. Many well-authenticated cases of recoveries are recorded. Men have been known to come to Austin far gone in consumption, and so far recovered as to be able to run for office within a year, and to be defeated by a large and respectable majority, all owing to the atmosphere and the popularity of the other candidate. There is very little winter in western Texas. But the "southern" climate of Austin has almost a tropical climate, as it is situated on the same parallel of latitude as Cairo, Egypt, where they have tropics all the year around. As it is, there is seldom any frost, although it is not an unusual thing for lumps of ice several inches thick to be found, in tumblers, by those who go to market in the early morning. Occasionally New Year's cakes are made in white linen suits and introduced condition.

THE DE BERCY AFFAIR

BY GORDON HOLMES Author of "My Mysterious Acquaintance," "By Force of Circumstances," etc. [Copyright by McLeod & Allen, Toronto.]

CHAPTER XI.—(Continued) He ran down three narrow streets to Roland Street, darted up stairs, broiled Hylda Prout had contrived to put a lump in her dress as she returned from her room, an armoire, a hot racoon. How long of what the lady had said against Osborne might again appear in the paper, he did not know; but he scolded her, and inflamed her gorge, and kindled her eyes. Osborne had had a long talk with the probability in his occupation with the club and smart set. But that Osborne would have the opportunity to question him, he did not want to do. He had written to say he had not—this was a vilest act—the slightest reflection found to be incredible. The creature with the red hair certainly knew what was in the letter, but—might she not have opened it herself? He did not say so. The man Fureux were false, all might be false. An impatience to see Osborne instantly seized and transported Hoskins. He had honest eyes—had she got whispered to him to do so? She hurried off to his room, and by accident, Osborne went after her.

Osborne himself had arrived home some minutes before this, after a very cold reception from Mrs. Marsh at Porchester. As he entered the library, he saw Hylda Prout standing in the middle of the room with a facial expression which astonished him. She, lately arrived back from her visit to the Italian, had heard him come, and she had been waiting for him. "Anything wrong?" he asked with a quick glance at her. "Mrs. Marsh has been here." "Ah! . . . Mrs. Marsh?" "She has made a mad step toward him. The words that she uttered rasped harshly. He did not recognize her own voice. "I told you she would do that. It is not the slightest good for her running after you." "In your hall what?" "The man Fureux struggled with indignation in his face. All the world seemed to have gone mad when the pale, stately seigneur used such words of affront to you if you were a thousand times guilty—and I can prove you innocent—even if you were guilty—because I am yours—your pre-ordained wife—oh, I shall die of my love." "Yes, kiss me—yes—now." The correct words ended in a fierce fight for breath. Her eyes were glaring like two lakes of conflagration, her cheeks crimson from forehead to neck. Unexpectantly, she caught him round the neck in an embrace from which there was no escape. She drew him toward the clock, and pressed his lips to hers with a passion that frightened an angel.

New York, Jan. 28.—Further bullish operations are likely today in the stock market. With the supreme court taking three weeks vacation Monday, thereby precluding for that time any trust decisions with a good bank statement today further weakening in money, following the reduction of the English bank rate and the big over subscription to city bonds, expanding institutional investment, with an overall market and a light supply of stocks, it seems to us that the way is clear for a conservative and general advance under the circumstances cited we believe it would be folly for manipulative elements to neglect so attractive an opportunity to encourage a bull movement. We would buy good stocks, reasonable response. We would buy good stocks, using the stop order at limit. The most important general factor in the week's developments is Canadian reciprocity. The agreement would reduce the cost of living, increase the volume of trade, benefit manufacturers and throw a definite light on the prospect of tariff revision. Congress will be divided, but we believe this agreement will pass. Market literature and comment are more bullish.

A GREAT TREAT FOR RISHMEN.
The stupendous pictorial production, "The Lad From Old Ireland," which is a film taken on two continents by the Kalem Company will be the event of the night in motion picture circles in St. John. It is in every sense of the word a picture which Irishmen should see, as it contains scenery, customs, and characters of a pleasing story. The president of the Catholic societies here have received communists asking the societies to see the picture.

GILMOUR'S WINTER CLEAN-UP SALE.
The winter stock clearance proceeds merrily. To date, there are a good ten or twelve weeks of winter ahead, but we are having the best season's sale, and the winter stock should be sold while men remember. The practices for the concert are nearly over, and it will take place early in February.

COAL FROM UNDER THE OCEAN
Hoisted by a Rope Over a Mile Long
Few people have any idea of the depth and magnitude of a good size coal mine. For instance, few people who are using Broad Cove coal today, realize that the coal is taken from a place fourteen hundred feet below the sea level and about a half a mile out to sea, from whence it is hoisted in miniature trains of ten cars (each car of one ton capacity) at about the rate of twenty miles an hour, by steel wire rope which is over a mile long. While the men are digging the coal, the surface of the ground, once level, might be floating directly over their heads.

GAUGHT A BUTTERFLY.
An unusual capture was made in the E. R. round house in the Island yard this morning, a fine large butterfly being taken into captivity. The beautiful insect, measured two and one half inches, and its wings may be kept by the preservation of an early spring. The find was brought to the office and handed over to C. O. Vanwart, who has it on exhibition there.

NO TRACE OF MARAUDERS.
Policeman Lawson, of Fairview, this morning visited the summer cottage of Kettie Jones at MacLaren's beach, and found that as a result of the burglary in the place last night by four men, some bedding had been torn, and a piece of ransacked, but nothing of value had been taken. The identity of the men had not been learned.

RUMOR OF TRANSFER.
It is reported that R. H. Blennerhassett, of the freight department, of the C. P. R. west side, is to be promoted to Montreal to fill a vacancy in the staff in that city. P. A. Martin, of Montreal, is said to be transferred to St. John, and T. A. Martin will take his place. It is not known who will succeed Mr. Blennerhassett. Although P. R. authorities say they know nothing definite as yet concerning the change, it is believed that the report is correct, and if it means a deserved promotion for the west side official.

ST. JOHN'S 27d, Jan. 28.—(Canadian Press)—Newfoundland newspapers, including the government organ, express satisfaction over the outlook for reciprocity between Canada and the United States. In semi-official circles the proposal is believed to be a good one, and a considerable amount of sympathy between Newfoundland and the United States.

MRS. NORMANSELL THINKS NOT
Mrs. Normansell was asked today by a Times reporter and she did not think that she was suspected by the police as being the woman who had been seen in the street with a man who she had not seen him since he was arrested. She said she loved the man too well to believe he would be guilty of assaulting her. He was in the habit of coming into her store very often.

Houston, Texas, Jan. 28.—(Canadian Press)—Rene Simon, a daring aviator demonstrated yesterday afternoon that herding cattle with aeroplanes was possible. Heading across the prairie, he started directly for a herd of cattle half a mile away.

THE WELCOME SNOW.
A heavy snowfall, with very little wind, has prevailed in St. John all day, and has provided the first really good sleighing of the winter. The hope is universally expressed that the weather will not change to rain. The need of snow has been keenly felt throughout the southern part of the province.

MARKET SUPPLY LIGHT.
Since Christmas there has been hardly a Saturday in the country market with what might be termed a plentiful supply of country produce, but if the present fall of snow remains, this condition of things is expected to change. The scanty supply has been due in a large measure, to the lack of snow and to the unsafe condition of the ice in some places, and it is not because there is a scarcity of produce. This morning was no exception to the general rule, and prices were still high because of the lack of supply.

EASY PAYMENTS.

ling his fellow citizens by breaking and entering their premises. Twice he had been allowed his freedom on suspended sentence, and a third time, on an old charge, had been sentenced to five years in Dorchester. AN EPIDEMIC IN HOCKEY.
In the city at present there seems to be hockey epidemic raging among employees of business houses. The fever has spread amongst the different houses of the business district, and hardly a day goes by without a new septette making its debut for honors with the puck and stick. The latest acquisition is another team from the C. P. R. freight office. They are out with a challenge for their friends in the I. C. R. local freight department, and will battle on Saturday evening next in the Queen's rink. The C. P. R. team will be Messrs. H. L. Lindsay, J. E. Burke, H. W. Newhall, J. W. Walker, A. D. McLeod, H. L. McKean, and C. V. Johnson.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent newspapers. These papers advocate: British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion. No graft! "The Shamrock, Thistle, Rose and the Maple Leaf forever."

THE NEW PUBLIC SPIRIT

Last night's meeting of the citizens' committee on the commission plan of government indicated the strong and widespread desire for a change. It is a non-political and broadly representative committee, and when increased to a hundred will be still more representative and effective. The business of organization was proceeded with in a most business-like manner, and the necessary sub-committees provided for. It was necessary at this first meeting to call attention to a serious blunder made by the city council in its legal notice regarding the plebiscite. The notice is not in accord with the resolution which the council itself adopted.

This citizens' committee approaches its work in a serious manner, with a keen desire to improve the system of civic government. The proposal to send a small delegation to Des Moines, and perhaps to other cities, will probably be carried out. It shows a disposition to get knowledge at first hand, and to give the citizens full information on which to form their estimate of the commission plan. Any impression that may have gone abroad that this movement was not of the people, and not begun in a proper spirit, is now removed. There is no disposition on the part of any advocate of the commission plan to thrust an ill-considered scheme down the throats of the people, but to work out carefully, with an earnest desire to get better results, a system of civic government along lines that have produced splendid results in other cities.

LENIENCE AND LAWLESSNESS

If a smaller number of offenders against the law were released on suspended sentence, would the amount of petty crime be lessened?

This is a question many citizens are asking. There is much to be said in favor of lenience in certain cases, provided the individual is kept in touch with authority, and some effort is made to keep him on the right path; but there is no provision for looking after a man when he leaves the jail or police court. He goes back to his old way of life, to fall again into temptation.

Highly or wrongly, there is an impression among those who have little regard for the law that they can transgress the law with a degree of impunity, and they grow bold to the point of insulting the police.

There has lately been more than usual of petty crime and less of arrest and punishment. It is quite fair to assume that some of the illegal acts committed are the work of persons who did the like before and "got away with it." To be able to do something the law does not permit, and "get away with it," appears to be a source of satisfaction to minds of a certain order. In such cases lenience is a mistake.

At this very time a period of quick detection of wrongdoers and a stern application of the law would do a great deal of good in St. John.

BUILDING LAWS

The city of Montreal is likely to suffer from its failure to secure a proper building law and have it enforced. The witness says:—

"Some of our great apartment houses, crowded with families, would go off in a puff of matchwood if they caught fire. One of them did a few months ago, fortunately before it was occupied. Some other one will go some day, or some night, when full. It would, says Mr. Arcand, take little less than a Niagara to put out a fire with five minutes' start in most buildings which at present are being put up in Montreal. The fire losses in Europe amount to 33 cents per head, in North America to \$2.30 per head—just seven times as much, implying the wildest recklessness in our manner of building. These conditions are getting worse rather than better. The fire losses in Montreal last year were fifty per cent greater than the year before. There is every reason for hating in reconstructing the department buildings are being robbed up faster and

more recklessly than ever, to find room for the rapidly increasing population, and to take advantage of the rapidly rising rents."

In their proper scrutiny of all building work done in St. John? We are told that the by-laws relative to new buildings are to be revised. It should be done thoroughly, with a knowledge of the fact that the city is to have much greater activity in building during the next few years than for many years past. In the revision, also, the interests of the public, and not of any individuals, should be considered.

His friends in New Brunswick learned with great pleasure that F. B. Carvell, M.P., was not suffering, as had been reported, from typhoid fever.

The man who tries to convince the people of the maritime province that a larger free market will injure them will discover that he has a very large task.

If the valuation of real estate is to be increased for assessment purposes, the vacant lots should bear a fair proportion. They have not done so in the past.

The new armory, of which a picture appears in today's Times, will be an imposing structure, and a most valuable addition to the list of public buildings in St. John.

It is no credit to the city of St. John that the Women's Council should be called upon to raise funds to provide the city with a patrol wagon.

Five or six temperance meetings are held in this city every Sunday. Before the Every Day Club set the fashion there were practically none. With so much interest now aroused, there should be a better enforcement of the liquor license law. There should be action as well as words.

Mr. W. Frank Hatheway and the Standard are convinced that by getting a free market in the United States for Canadian produce this country will fall away from the empire, and either become independent or join the United States. Having stated the effect of free trade, they raise their voices in a fierce shout of indignation that time was not put on the free list. There's consistency for you.

It is pleasing to note that in its discussion of the movement favoring the commission plan of government the Standard, while growing more verbose, is in a decidedly calmer mood. It has even persuaded itself that it is doing a great public service. It is to be regretted that the Standard, in basing a long article on the description of two elections in Des Moines which appears in Mr. Hamilton's book wholly misrepresents the case. Mr. Hamilton tells the whole story and shows how the double election plan gave the city good government.

By the omission of important facts, and placing its own interpretation upon others, the Standard seeks to show that the double election system is not effective. This is neither fair nor legitimate criticism.

The more the people study the proposed new trade agreement between Canada and the United States the more they will be convinced that if adopted it will contribute immensely to the growth and development of this country. The cables state that the members of the British government regard the agreement with satisfaction, although the British tariff reformers, as might be expected, profess to see in it possibilities of injury to imperial interests. The Conservative leaders in Canada oppose it because it is a government measure. The manufacturers, or some of them, will oppose it because they stand for high protection. It is worthy of note, however, that the high tariff men across the border are equally outspoken in opposition. If it were such a bad bargain for Canada, and such a good one for the United States, there would be less opposition at Washington.

A WORD FOR FATHER. Paul West, in the New York World, has another word for "father."

And now who gets his meals of praise? Father. Who is it labors all his days? Father. Who always has to pinch and strive to keep the family alive, and sheds his hair at thirty-five? Father.

Who always lones his wages brings? Father. Who sees them fit for clothes and things? Father. Who sees them go for food and rest and never gets himself a cent, except when he's already spent? Father.

Who sees the cost of living soar? Father. Who says, "Well, soon we'll get no more?" Father. Who, when the month's first day comes around, half buries his ears in the hills that cause him woes profound? Father.

But who is happy all the while? Father. Who only asks a pleasant smile? Father. Who only seeks the smile? Father. Who only seeks the simple bliss of welcome long and loving kiss and later such patronage as this? Father.

THEN GET MARRIED. Ferdinand—"She is all the world to me." What would you advise me to do? "William—"See a little more of the world, old chap."—Aly Sloper's Hall.

SHE CURED HER HEART DISEASE

When She Cured Her Kidneys With Dodd's Kidney Pills

Mrs. Henry J. Jacques found a Speedy Relief for All Her Troubles, and Now Enjoys the Best of Health.

St. Rose de Lac, Man., Jan. 27—(Special)—That Heart Disease is one of the results of disordered Kidneys and is consequently easily cured by Dodd's Kidney Pills, is the experience of Mrs. Henry J. Jacques, of this place.

"My heart troubled me all the time," said Mrs. Jacques in an interview. "And I knew what terrible results might follow. The fact that my limbs would swell and my back ache led me to believe that I also suffered from Kidney Disease. So I determined to try Dodd's Kidney Pills. I bought four boxes, and before long had finished the third box. Swelling had gone, my back was well, my heart was no longer troubled me. I am now in the best of health, and I owe it all to Dodd's Kidney Pills."

Heart Disease is one of the troubles that come from unhealthy Kidneys. They fail to strain the impurities out of the blood, and those impurities are bound to affect the heart, which is the engine that pumps the blood through the body. To cure Heart Disease cure the Kidneys with Dodd's Kidney Pills. To prevent Heart Disease keep the Kidneys toned up and healthy by using Dodd's Kidney Pills.

AFTER WATER

(By Robert Barr.)

Flow gently, sweet Afton, among thy green braes,
Flow gently, I'll sing thee a song in thy praise;
My Mary's asleep by thy murmuring stream—
Flow gently, sweet Afton, disturb not her dream.

Thou stock-dove, whose echo resounds through the glen,
Ye wild whistling blackbirds in your thorny den,
Thou green-crowned lapwing, thy screaming forbear—
I charge you disturb not my slumbering fair.

How lovelly, sweet Afton, thy neighboring hills,
Far marked with the courses of clear winding rills;
There daily I wander as noon rises high,
My flock and my Mary's sweet cot in my eye.

How pleasant thy banks and green valleys below,
Where wild in the woodlands the primrose grows low,
There, oft as midnight sweeps over the lea,
The sweet-voiced lark shades my Mary and me.

Thy crystal stream, Afton, how lovelly it glides,
And winds by the cot where my Mary resides;
How wanton thy waters, her snowy feet
As gathering sweet dew-drops she stems thy clear wave.

Flow gently, sweet Afton, among thy green braes,
Flow gently, sweet river, the theme of my lays,
My Mary's asleep by thy murmuring stream—
Flow gently, sweet Afton, disturb not her dream.

LONELY

On the farm and in the village
Time hangs leaden on all hands,
Folks are sighing, folks are crying,
'Cause they're lonely, in all lands;
But the baseball fan in winter
When no athletic sweat the ball,
Is the one who gets our pity—
He's the loneliest of all.

ONE THING AT A TIME

"How is the new filling system?" Success," asked the agent of the merchant to whom he had sold a "system" a few days before.
"Great," said the merchant.
"Good," said the agent, rubbing his hands.
"Business?" echoed the merchant.
"Oh, we have stopped business to attend to the filling system."—San Francisco Star.

"An Epistle"

Since last I wrote you, Edith dear,
Just think, 'tis almost half a year,
The hills and vales were garbs of green,
And in the meadows flowers were seen,
The feathered songsters 'mong the trees,
Of summer sang "in throated ease."
Knights of the Red, in lake and brook,
Lured leaping fish with feathered hook,
A russet garment wore the hare,
The partridge watched her brood with care.

The night-bird preyed when day declined,
On nuts and berries bruised and dried,
The cricket chirped in early light,
The orb of day shone warm and bright,
Prosperity held sway on earth,
And o'er the land was peace and mirth.

The Frost King now the sceptre yields,
And Flora's season to him yields,
O'er hill and dale a carpet white,
Hides Autumn's mantle brown from sight,
No hobnob, no robin here,
With note and chirp in park to cheer,
An ermine coat the rabbit wears,
In caves, and dens sleep bats and bears,
Our streets and highway decked in snow,
With jingling music sledges go.

On pleasure bent, with steel he'd feet,
Fast youth and present daily meet,
And nearby hills in crystals clad,
From shore to shore are floored with ice,
And nearby hills in crystals clad,
Re-echo about of girl and lad,
While swiftly down their pebbly sides,
The runner, or toboggan glides,
The Maple chime, from East to West,
In Winter's role is richly dressed,
Well, an revoir, me there amine,
A Happy New Year, I wish thee.

NOBILIA,
January 26th.

GRAND FALLS TRADE BOARD VERY ACTIVE

One Matter in Hand is That of Second Class Tickets on Railways—Liquor Licenses Reduced—New Water System

Grand Falls, Jan. 27—The Grand Falls Board of Trade is showing marked activity. On Thursday evening the officers were elected and important matters taken up. The officers are: President, J. L. White; vice-president, George M. Taylor; secretary-treasurer, J. A. Gallinger; executive council, Dr. B. A. Puddington, Dr. C. A. Kirkpatrick, A. J. Martin, James F. McKinstry, C. H. Currier, D. J. Collins, and W. M. G. Desbray.

A number of important matters were discussed by the board. A resolution was adopted that measures be taken to have highways constructed on the dams on Salmon River. A motion that the town council be requested to enact a by-law compelling the telephone and telegraph companies to paint their telephone and telegraph poles in the streets, was adopted.

It was resolved that the railway commission be communicated with regarding the sale of second class railway tickets to the public. In this province, second-class

tickets are sold only on the Intercolonial Railway.

A committee was appointed to interview the merchants with the object of making an agreement to close the stores three nights in the week instead of two nights as at present.

A resolution that the board memorialize the government to provide a clock for the tower in the new post office building and also provide better fittings or furnishings for the interior of the building, was adopted unanimously. A motion that the board petition to change the present site for the new post office was lost.

Heretofore the monthly meeting of the board will be held on the fourth Friday instead of the third Wednesday.

The liquor license commissioners for the town of Grand Falls met on Wednesday evening, the 26th instant, C. H. Currier, John Vasseur, and H. Clyde Glenn, the commissioners, and William J. Wilson, the inspector, were present. Ten applications applied for licenses, five for retail licenses, and five for wholesale licenses. The following were granted licenses for

the ensuing license year—William Price, wholesale; Herbert Tait, wholesale; Laurent A. Fournier, retail; and C. P. McKinstry, retail. The inspector failed to recommend G. E. Potras, Thomas McKelver and Edward Long, and hence the two latter, who were granted licenses last year, were debarred from obtaining a license for the ensuing year. G. E. Potras was the only applicant who did not have a license. Last year six licenses were granted, and this year the number was reduced to four.

The new pump and engine for the water-works system has been installed, and the water will be turned on tomorrow for the first time. If the trial be successful Grand Falls will have one of the most modern and up-to-date systems of waterworks in the province.

The Evening Chit-Chat
By RUTH CAMERON

THE matter of the lady and the girl with the heart that won't grow up, were talking about one of the girl's favorite projects—the purchase of a horse.

"I had just seen a beautiful chestnut horse with a fine broad chest and a little head, and a sixteen-year-old gelding, and I was planning to buy them," she said.

"Better wait until you get him," warned the matter of fact lady after the fashion of her kind.

"Oh, dear no," laughed the girl. "Let's have the fun of naming him right now, and then we'll be sure of that."

"Do you think the lady guessed?"

"Half the wisdom she expressed."

I don't think it, for it seems to me there is a very good mine of wisdom in that half jesting speech of hers.

We cannot always have the joys of realization. And when we do, all too often, the worldly hope we set our hearts upon, turns ashes. "And anon, like snow upon the desert's dusty face, lighting a little hour or two, is gone."

But we can always have the joys of anticipation, pale to be sure, but sweet and unalloyed and untroubled, and it seems to me that the matter of fact folks who sternly deprecate the whimsy of these from cowardly fear of disappointment are foolishly pushing away one of the best gifts of the gods to men.

I have actually known parents who tried to discourage their children's imaginative tendencies, that seems to me like needlessly shutting the little ones out from a beautiful playground especially prepared for them.

"I have a little cousin seven years old who loves to have me come and see her because we have a beautiful game we play together."

"It's called 'let's pretend.'"

We have chosen a beautiful mansion near her summer home and we pretend that when we are there we are going to live there together.

In the spacious stable we are going to have four white ponies for Jeanette and a pair of coal black chargers for me. We are going to have a lovely saddle and a little team of grey horses. We are going to invite lots of the poor little children from the city to visit us and take them out on the water-let them ride the ponies, pick the flowers in the fields and in our greenhouses, too, and give them ice cream three times a day.

In the big room on the left of the front door—we have never been in the house but we have walked past it so carefully that we are sure we know what it looks like inside—we are going to have a sort of combination ice cream parlor, soda fountain and candy shop. Any time we like we may go in there and they will give us anything we want and we will not have to pay for it.

The passport to the kingdom of "let's pretend" is part of every child's birth-right.

Wise the parent who helps the child realize the full value of that passport, and happy the child who not only uses it through childhood but can grow up without wholly forgetting the passport to the land of "let's pretend" and "someday."

Daily Hints for the Cook

RAISED BOILING.
Mix one cup each of boiling water and scalded milk, one rounding tablespoon each of butter and sugar and one level teaspoon of salt. Cool until lukewarm, add one third yeast cake, four cups of sifted bread flour and one beaten egg. Cover and let rise over night. The dough should have doubled in bulk. Butter some muffin pans, fill half full with the dough, and let stand until even full, then bake.

SMOKED HALIBUT.
Shred into medium sized pieces two cups of halibut and put it on the stove in a spider. Cover with cold water. Let it come to a boil and simmer for five minutes. Turn off the water and, covering again with cold water, scald again and then pour the water off. Add one cup of milk and water, enough to cover, thick with flour wet in cold water, add two well-beaten eggs and a teaspoonful of salt. Cook for ten minutes.

RICE CAKE.
Boil four ounces of rice in a quart of water until the milk is absorbed. When it is cold form it into a paste with half a pound of butter, four eggs, one quart of flour and a little salt. When the paste is sufficiently stiff to form a cake, place it on a round of buttered paper, brush it with the yolks of one egg, and cook it in a moderate oven. Serve hot or cold.

FRUIT SPICE COOKIES.
Cream a cup of butter and when light, add three eggs, beaten very thoroughly. Add a half cup of stoned currants with a half cup of seeded and chopped raisins, and dredge plentifully with flour. Stir in a little sugar and a teaspoonful each of all spice, nutmeg and cinnamon—all powdered—and add enough flour to make a thin dough. Stir in the fruit and, when well blended, roll out into a sheet, cut into rounds and bake. If the dough is too thin after the fruit is added, put in more flour until of the right consistency to roll out.

NEARING ACCOMPLISHMENT OF A FAST MAIL SERVICE

Lord Strathcona Says Two or Three Years Will Revolutionize Trading Facilities Between Canada and Old Country—Untrained Youth the Cause of Unemployment—Political and General Chat of London

(Times Special Correspondence)

London, Jan. 12.—Lord Strathcona on his visit to Birmingham the other day, which had for its object the promotion of Canadian trade with the Midlands of England, took occasion to express his growing conviction that we are nearing the accomplishment of his dream of a fast mail service which will bring London within four and a half days from Quebec and within eight days of the Pacific Coast.

In this matter, he says, the announcement in which Lord Strathcona has such confidence can be long delayed. It is his conviction that King George will open his first parliament in person on February 6, means the beginning of the London season which in many respects will be the most memorable of our time.

Soon after parliament opens the prime minister and Lord Curzon, who leads the ministerialists in the House of Lords, will attend a dinner in their honor at the National Liberal Club, when the victorious party will be taken into the corridors of business that may be expected.

Tariff Reform a Dead Issue.
The Tariff Reform League is already giving Mr. Balfour to understand the desirability of not withdrawing the decisive smashing it received at the elections. The course, that they might anticipate the movement to side track their cause. Many liberal conservatives are preparing to leave the hope that Mr. Balfour will advise the dropping of protection, which is done in the way of all other traditional Tory policy. Mr. Balfour realizes that it is too short for the fatuous agitation which has wrecked poor Mr. Chamberlain and is threatening to destroy himself.

In conversation at the headquarters of the Free Trade Union this week I heard that the efforts of tariff reformers are now taken seriously and that the campaign is to slow down, because for the lifeless generation of the tariff reform movement. The stream of facts from the board of trade returns, has shown that the Government whose strategy has prompted them to deny Britain's commercial progress. They are standing by the starting figure of last year's official returns, which show that our overseas trade has reached 1200 million sterling for the year 1910. Last month (December) showed an increase of twelve millions for the month as compared with the corresponding period of 1909 and the figures for the whole year showed the extraordinary increase of 218,000,000.

Our exports of manufactures increased in value last year, while wool, iron and steel were down, and cotton and silk were five millions sterling.

The labor market is not depressed by bad trade, and the reactionary protectionists' grumble is no longer heeded.

Although details of the coronation pageants are not yet published, already we have syndicates promoted to speculate in seats on the supposed route of the royal procession. One floor of a house in the west-end has been bought for \$2,000 and rich visitors to London this summer will be paying by the fabulous rates. There was too high a scale attempted by owners of windows at King Edward's coronation pageant, and there was a slump in prices as a result of greed of the speculators. Intending visitors to London this summer will be well advised not to assist the game of the speculators who are hoarding millions and iron and steel in windows and seats for the coronation.

The Battle of Sleepy
When parliament opens, some debate will be roused over the tragic events in the east end of London. Opinion amongst politicians is divided on the policy of the Aliens Act and foolish party prejudices are likely to appeal to hysterical jingoes who would make the exclusion of aliens more drastic and perhaps destroy England's generous policy of extending liberty to the down-trodden of other countries.

It is unfortunate that the narrow and selfish spirit "England for the English" is becoming conspicuous in a great political party whose boast is its impartiality.

The House of Commons is likely to keep cool in its discussion of the "Battle of Sleepy" and the murders of brave police officers by cowardly Russian anarchists. England has reason to dread the outbreak of horrible un-English crime as a result of her ports being open to aliens. There are fewer aliens in the large towns in England, in proportion to the English population than in any other large cities in the world. The poverty and overcrowding

Payment of M. P.'s
Payment of M. P.'s is agitating government supporters. The leaders of the government are pledged to the idea of paying all M. P.'s, £200 so as to secure the best class of men. Others who are disposed to dread the risk of tempting adventures would propose a small salary which could not for itself tempt anybody. It is thought a proposal to pay £400 a year will be the limit. The question will be up after Easter.

TAFT TO FIGHT FOR IT
Washington, Jan. 27.—President Taft is preparing to fight for the adoption of the new tariff agreement, and it is claimed he will not hesitate to call a special session if congress turns down the new arrangement.

London, Jan. 27.—Members of the Liberal government express satisfaction over the new trade agreement proposed between Canada and the United States. Tariff reformers and strong imperialists, however, are not enthusiastic.

STRIKING ARRANGMENT OF IDLE RICH BY ONE IN THE INNER CIRCLE

Lavish Waste of Money in Providing Sensational Pastimes—The Dinner on Horseback in New York Restaurant; The Girl in the Pie, and Other Instances—Whence The Suggestion for it All?

A striking article on the excesses of the idle rich in the United States in their efforts for sensationalism appears in Everybody's Magazine. It is written by Frederick Townsend Martin, himself one of the inner circle of society, and who may therefore be regarded as an expert witness in the arraignment of his own class. Some extracts from his article are here given.

A few young men, some of society, set up new idols in the ancient temples. They began to ape the habits and to imitate the morals of that world which, while possessing wealth in plenty, had never possessed the refinement or the ethical standards of true society.

NEW YORK TEAMS STRENGTHEN

LOUIS LITZCHI OF THE LANCASTER TEAM WHO WAS THE CHAMPION RECROQUET FOR THE YANKEES.

SHEAN OF BOSTON TAKEN BY THE GIANTS FOR THE YANKEES.

New York, Jan. 28.—Both the Giants and the Yankees have during the last week each acquired an infielder of whom great things are expected in the championship race next season. "Davy" Shean was purchased by the Yankees from the Boston Nationals in exchange for Arthur Schaefer, the utility man, and Louis Litch was signed for "Hal" Chase's nine, having been purchased from the Lancaster team of the Tri-State League.

Shean, the better known of the two players, is remembered in this city for the great game he played with the Fortham University nine, of which he was captain in 1908. After he was graduated he got a tryout with "Comie" Mack, and landed with the Rutland, Vt., combination. He afterward played with Montreal and later in Williamsport, from where he came to the Philadelphia Nationals. The Quakers traded him to Boston. Shean is a fast man at both second base and short stop, and the consensus of opinion of those in the game know that McEwain got the better end of the trade.

Litch, the Yankee recruit, played an excellent game with the Lancaster Club last season, being the best fielding short stop in the Tri-State League. He also was given a trial by "Comie" Mack several years ago, and stayed with the Athletics for quite some time. He is at present at Reading, Pa., his birth place.

It is a vitality tonic to your nerves, a rejuvenator of waning vitality. Use it for any ailment which drugs have failed to cure, and you will never cease to praise it.

I claim that I can cure weak men—that I can pump new life into worn-out bodies; that I can cure pains and aches, limber up your joints, and send you back to your work. I have done it for thousands of men. That's claiming a good deal, but I have got a good remedy, and know it well enough to take all the risk if you will pay me when you are cured. I covered by the act of man. The therapeutic value prevented me from sleeping or walking, one night, when suffering greatly and could not sleep. I was free from my leg and after 6 hours' sleep, I awoke free from pain as if by magic. The next night I applied it to the other leg with the same result. I have since sold it to other people. I have done its work, and I would not sell it or exchange it for any other belt. I expect through my recommendation you will sell out your own through my recommendation. Other Lake, Que.

Dear Sir,—Words would fail to tell you the good that your belt has done for me. At the time I got it, I was in an invalid bed for nearly 2 years. Some of the things I had for over 20 years. Well, Doctor, I often think of the blessing you—and thank God that ever such a wonderful remedy was covered by the act of man. WEDDING OF DAUGHTER OF BELASCO TO WM. E. LIOTT, ENGLISH ACTOR

Mrs. and Mrs. William Elliott

New York, Jan. 28.—Wearing a beautiful gown of white satin, with overdress of yellow tulips, the wedding veil that was worn by her mother at her marriage years ago, Miss Augusta Belasco, second daughter of Mr. and Mrs. David Belasco, was married to William Elliott, a young English actor, in the Hotel Mar Antonine, where the bride's family has lived for several years. The wedding brought together a very large gathering, including many persons well known in theatrical and operatic circles. Justice Mitchell L. Elanger, an old friend of the Belasco family, performed the ceremony in the white and gold room. Attending the bride was her sister, Mrs. Morris Gest, and Mr. Gest was best man for Mr. Elliott.

If you neglect the warning the slight feeling of dizziness grows, and you fail to take treatment, there will be a gradual progression to something more serious. THE DEWITT CO. AFFAIRS. Wm. F. Gibbon, of Sussex, petitioner for the winding up of the affairs of DeWitt Bros., Ltd., offered in court yesterday afternoon an amendment to the original petition. It was admitted by Justice White. The amendment stated that conversations by E. B. DeWitt and J. W. Clark, of the insolvent company, with C. B. Lockhart, had led to the insolvency of the company, and that E. B. DeWitt had paid to Mr. Lockhart claims of the latter in preference to others. Another

Caught a Heavy Cold. It Left Him with a Hacking Cough.

Mr. J. H. Richards, 1832 Second Ave. East, Vancouver, B.C., writes—"Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little wind, the hacking cough would become a full spitting one. It kept on getting worse, and I kept on spending money for cough remedies until I tried your Norway Pine Syrup. I took him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind. Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees trade mark; price 20 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

The summer cottage of R. Keltie Jones, at MacLaren's beach, was entered last night by four men, who pillaged it from top to bottom, ransacking the rooms, but whether or not they took anything of value is not known. The young son of Frank Toby who lives nearby, saw a light in the house, and on his father approaching the house, a shot was fired at him. Policeman Lawson and Constable Hard, traced the tracks of the men to Seaside Park.

ROBBIE'S ANSWER

I've travelled music a weary mile Along the milky way, man I wish to rest 'til you're a while Before the break of day, man. I note tonight the Scottish clans Are gathered round the hearth, man. Tho' far from Scotia's rocky strand Commemorate my birth, man. I heard the din o' knife and fork As on the plate 'twixt 'd' man, I heard the toast o' every cork. The waiter lads would draw, man. They pointed out in long language My virtues and my faults, man. How in my prime in said Lang syne I never called a halt, man. But led a wild and reckless life Regardless o' my own, man. But had I got a prudent wife I'd surely been a fine man. But little thanks I gie them now For a' their love and praise, man. They're a' gones, they're a' gones, man. Despised my simple lays, man. When adverse winds, with ruthless might, Pressed hard my cabin door, man. They passed my cot both day and night When I was sick and sore, man. Now I must leave thee, lovelier dear, But tell them that I said, man. Encompass high and words of cheer Are worthless to a dead man. HUBBARD TIPPING. St. John, Jan. 27, '11.

SILENT QUARTETTE GUARD GRAVE OF MRS. EDDY

Live in Little Wooden House Inside Tomb of Christian Science Leader

The four guards stationed in the Mt. Auburn receiving tomb to watch over the mortal remains of Mrs. Mary Baker Eddy, former head of the Christian Science church, live in comparative comfort, in that one naturally damp, gloomy place, mainly above ground, as well ventilated and lighted by several clusters of electric bulbs. The Romanesque arches are of brick, and the distance from floor to ceiling is about fifteen feet. The catacombs, one hundred in number, are at the rear of the vault; and Mrs. Eddy's body is in one of the large spaces at least 25 feet away from the little house in which the guards sleep.

Fox Creek, N.B.—"I have always had pains in the loins and a weak- ness there, and often after my meals in my food would distress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with ambition. I have encouraged many mothers of families to take it, as it is the best remedy in the world. You can publish this in the papers." WILLIAM BOURQUE, Fox Creek, N.B., Canada.

The above is only a part of the thousands of grateful letters which are constantly being written to Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery. Mrs. Pinkham, of Lynn, Mass., advises all sick women to write her for advice. She has guided thousands to health and her advice is free.

HOW TO DO IT.

A "Mad Doctor" unobtrusively declares that women do everything but sleep. They don't eat so well, they don't sleep, they don't get on their feet, they don't get a chance to go out for meals and to get the fresh air, which their little house does not furnish abundantly, and the sunlight which they denied entirely in their retreat. Although the guards look healthy and comfortable and smiling as they emerge from the tomb, nevertheless they shake their shoulders and draw deeper breaths as they inhale the fresh air of outdoors. Whatever conversation the guards have among themselves, or by telephone with some representative of the Christian Science church, on their walks to and from the tomb they look casually at the visitors in the cemetery; but their lips are as closely sealed to strangers as are those of her whose body they guard.

TWO WOMEN ARRESTED
Disorderly House is Charge In Brussels Street Case—Board of Health Invitation

Between 8 and 9 o'clock this morning, policeman Marshall arrested two women, Lavina Lang, aged 48, and Annie Doherty, aged 38, the one on a charge of keeping a disorderly house at 91 Brussels street. The Lang woman in court was nursing a cut over an eye with one hand, using the other as a support against the rail, while with her tongue she emphatically denied that the house was disorderly. She had been drinking.

Policeman Marshall said that the board of health would have to visit the premises as they were in a filthy condition, while the women had been anything but peaceable. They were remanded.

BIG LABOR TIME HERE IS PLANNED

Carnival Receipts to go to Fund For Labor Day Demonstration—Outside Places To Assist

The carnival to be held in the Victoria rink, on Monday evening, February 6, under the auspices of the St. John Trades and Labor Council, is expected to be a great success. The committee in charge is having nothing but amusement and pleasure for the patrons. Colonel and Mrs. George W. Jones, of the Victoria rink, and Mrs. Frank and Mrs. W. V. Smith, have consented to act as judges in awarding the prizes.

The proceeds will be devoted toward a fund which is being raised for holding a big labor demonstration in this city on Labor Day, in which it is expected that Fredericton and Moncton will participate. Charles H. Stevens has been authorized by the Trades and Labor Council, to sell tickets for the carnival, and to call upon the merchants of the city and solicit subscriptions for the Labor Day demonstration, and he is meeting with a hearty response to the appeal for funds. No doubt the response will continue to be generous, and ensure a great local celebration on Labor Day.

IT WOULD HELP HORSE RACING

Local Turf Men Well Pleased Over Section of Trade Agreement Which Interests Them

The removal of duty on animals in the new trade arrangement between Canada and United States according to the local horsemen will be the best thing that has happened to the racing game in these provinces for many a year. Great enthusiasm is being manifested locally, and all kinds of things are predicted.

While at the present time some good American horses have come into the maritime provinces during the racing season, the procedure in connection with the bonding, etc., has been very troublesome, and the duty on horses has been such that few cared to buy any American stock. The restrictions removed, some of the creamier ones would be bought up. "You will see a lot of them," said John Rose to a Times-Star reporter, "and we will have some great racing." The new order of things would not only mean the acquiring of American horses by local horsemen, but would also work the other way as experts from the other side of the line have in times past been scouting in these parts, and they would now be free to pick any thing that looked good. Opinion has also been expressed that farmers and businessmen would benefit also and some of the best stock would be brought across the line for farming and other purposes.

THINK HE ANSWERS THE DESCRIPTION OF MRS. NORMANSELL'S ASSAILANT

Police to Confront One of Two Arrested for Emerson & Fisher Break With Victim of Assault

It is about four weeks since the assault on Mrs. Norman, of Britain street, which created such comment took place, and though the police have been at work upon the case since that time, no one has been charged with the crime, there being but little in the way of a clue to work upon.

They are now of the opinion, however, that one whom they have in custody may know something about the affair, Harry Stone, aged 22, and George Stanton, aged 23, were arrested yesterday by Detective Killen and Deputy Chief Jenkins on a charge of breaking and entering the store of Emerson & Fisher, of German street. Chief Clark said this morning that the description given by Mrs. Norman of the man who committed the assault tallied very well with the appearance of one of the men. They would endeavor to learn more by having Mrs. Norman see the prisoner. After the assault, Mrs. Norman had described her assailant as being fairly tall, quite stout, of dark complexion and rather swarthy hue.

Some of the articles stolen from the store of Emerson & Fisher were found in the possession of the prisoners. They are charged with stealing six shaving brushes, two razors, and ten pocket knives on Tuesday night last. E. S. Ritchie is appearing for them. They were remanded this morning until 10 o'clock on Monday.

THE TAX RATE

Some Real Estate Owners May Find Their Bills Heavier This Year

There is much conjecture as to what the tax bills this year will show. While the tax rate has been fixed for a period of five years, not to exceed \$1.88 on the hundred, it is thought that some of the real estate owners will face larger amounts than last year. There has been a slight increase in the warrants for the city and county, combined, and the new amendment to the assessment act, providing for a reduction in the poll tax from 85 to 82 for all owners of real estate, personal estate and income, who have not heretofore had this consideration, will make it necessary for the assessors to find the revenue in some other way and real estate is likely to have to make it up. It is hardly likely, however, that there will be enough added to the real estate values to make it possible to reduce the tax rate.

Every Day Club

There will be a specially interesting meeting at the Every Day Club tomorrow evening. The club's fine orchestra of fifteen pieces will play a number of selections, beginning at 8 o'clock. Prof. W. C. Bowden will lead. M. F. Morris will sing a baritone solo, "Thy Will Be Done." The Emerald street church quartette will also contribute a number. The accompanist will be Miss Bertha Woodson. After the musical programme an address will be delivered by Rev. R. A. Armstrong, rector of Trinity.
