THE NEGRO PROBLEM.

Booker T. Washington Appeals to the Alabama Constitutional Convention.

MONTGOMERY, Ala., May 28.—Booker T. Washington, in behalf of his race, today presented to the constitutional convention an appeal for conservative action. The address reminds the convention that the negro came here against their will, but have been benefited, trained and christianized. The relations now, he said, are reasonably satisfactory. Anything that will ungentle the negro now, when he is settling down to thrift and common sense, will injure both races.

The leading feature of the suffrage clause offered today by ex-Governor Jones is that which denies the right to vote "to any person who shall hereafter be guilty and convicted of selling his own vote or buying or bartering the vote of another, in any election of primary, caucus or convention or who shall make or aid in making any false count, certificate or returns or shall threaten or attempt to use any force, and be convicted thereof."

On the desks of all the members was an address by Senator Morgan and copies of the suffrage clause which he has prepared for the consideration of the convention. The address is designed to support the clause.

The real feature of the plan is in the provision that only white men shall hold office.

BRIEFS BY WIRE.

The New York Tribune says the presidency of the New York Central is offered to W. H. Newman, president of the Lake Shore & Mich. Southern R'y, and it is understood that he will accept.

Erman Kuhne, who shot his wife and then himself at Jersey City last night, died early this morning. Mrs. Kuhne will recover.

Lt.-Col. Francis Michie, military secretary to Lt.-General Miles, died at his residence in Washington at an early hour today after a protracted illness.

Goldman, Sachs & Co. of New York, will ship \$1,000,000 gold to France tomorrow. There is \$600,000 additional gold ordered at the assay office, but no name is given.

CHINESE AFFAIRS.

LONDON, May 28.—Dr. Morrison, who is in the East from Peking, says that the Chinese government has agreed to the formation of a mixed commission such as is provided for in the British proposal. It is expected that Russia will also agree to Great Britain's proposal. Von Waldersee has written to the British government proposing that the provisional government of the East should continue until the last troops have been withdrawn, but the ministers are generally in favor of permitting Russia to resume the government forthwith.

AUTOMOBILE RACES.

PARIS, May 28.—The contestants in the Paris, Bordeaux and James Gordon Bennett cup automobile races started at 4 o'clock this morning. There were only three competitors for the Bennett cup, Charon, Levegh and Girardot. There are 29 entries for both races. The race is 345 miles. The cup competitors use motors of from 40 to 48 horse power.

BORDEAUX, May 28.—Fournier, the first competitor in the automobile races to arrive here, left Paris at 4:25 a. m. and arrived here at 1:09 p. m. The exact distance is 331.3 kilometers.

THEY KILLED FATHER RIEGEL.

PHILADELPHIA, Pa., May 28.—The three men convicted of murder in the second degree for the killing of Father Riegel of Cheltenham, by the administration of "knock-out" drops, were sentenced today. Steve Bryan was sentenced to 15 years and Bob Bryan and Jacob Wynne, 20 years each. Ella Barrett and Fannie Miller, who pleaded guilty as accessories, were sentenced to two years and a fine of \$500 each.

BURNED TO DEATH.

EBELLE CENTER, Ohio, May 28.—The two children of Frank Siches, aged 2 and 5 years respectively, were burned to death by a gasoline explosion at their home here tonight. In attempting to rescue the children Mrs. Siches was fatally burned.

BURGLARS GOT \$10,000.

CLEVELAND, Ohio, May 28.—The safe in the Mechanic's Banking company office at Bradlock, Ohio, 12 miles north of Fostoria, was blown open by burglars last night and \$10,000 taken. The burglars got away on a hand car. The bank building was partially wrecked by the explosion.

THE WEATHER.

WASHINGTON, May 28.—Forecast: Eastern states and northern New York—Cloudy, unsettled weather, with rain tonight and Thursday, variable winds, mostly fresh easterly to north easterly. Western New York—Unsettled weather tonight and Thursday, with occasional rains; cooler tonight in eastern portion, variable winds.

DEATH OF JOHN A. BELL.

HALIFAX, N. B., May 28.—John A. Bell, city auditor of Halifax, died this morning after an illness of two or three weeks. He was one of the best known men in this province and a scholarly and pleasing writer. Some of his poems written from time to time were highly esteemed.

DEADLY DYNAMITE.

Men, Steamer and Houses Blown to Pieces.

CHICAGO, May 28.—A special to the Tribune from Boonville says two men to bits, three houses demolished, scores of residences and business buildings damaged, a ferry boat badly wrecked, and many thousands of dollars' worth of property destroyed are the results of an explosion at this place. The accident was on the Laurine, a 24-ton Missouri river freighter, just off this city. The boat carried 2,100 pounds of dynamite, many kegs of powder, 1,000 detonating caps and 8 cases of fuses. Gasoline power was used on the vessel and when a match was applied to the generator an explosion followed. The boat took fire, and the crew, except two men, fled. These were still aboard when the fire reached the supply tanks of gasoline and the explosives. Damage was done to buildings for a mile around.

THE BARBARIC SCRAMBLE.

LONDON, May 28.—The Daily News, which comments upon the decision of the U. S. supreme court in the "Insular cases," says:—"The decisions have exasperated President McKinley from an uncommonly awkward position, but it is a lamentable, headlong fall in the moral scale and a turning of the back on all that has been the special glory and distinction of the United States in order to join in the barbaric scramble for the waste places of the earth."

LONDON, May 28.—The Daily News, which comments upon the decision of the U. S. supreme court in the "Insular cases," says:—"The decisions have exasperated President McKinley from an uncommonly awkward position, but it is a lamentable, headlong fall in the moral scale and a turning of the back on all that has been the special glory and distinction of the United States in order to join in the barbaric scramble for the waste places of the earth."

THE WAGE QUESTION.

CHICAGO, May 28.—The administrative council of the National Metal Trades association, at a meeting in the Great Northern hotel yesterday, adopted resolutions abrogating the New York agreement with the International Association of Machinists. The council decided that it would have no national arbitration of the wage question. A committee will be appointed to confer with the local officers of the Machinists' union to arbitrate wages in Chicago. President Council shall also be authorized to submit to the union for its ratification. A telegram was sent to the union to appoint a committee. The strictest secrecy was enjoined upon the council.

CHICAGO, May 28.—The strike of skilled and unskilled day laborers in the town of Grafton, Wis., has been broken. The strikers of the American Steel Works, one of the constituent plants of the United States Steel corporation, have been voluntarily increased from 10 to 25 per cent. The increase is effective at once. About 2,000 men are benefited.

RIOUS GIRLS.

NEW YORK, May 28.—Three hundred girl strikers at the Archon, Harland and Co.'s mills at Passaic, N. J., tonight attacked the girl workers who had taken their places. Eggs and stones were thrown and when the police arrived several members of the force were struck. Four girls were arrested and fined \$5 each.

NEW YORK, May 28.—The girl strikers at the handkerchief factory of Acheson, Warnes & Co., at Passaic, made a demonstration today. One hundred girls reported for duty and despite police protection, they were rather roughly handled by the strikers, who afterwards stoned the factory, smashing many windows. The police arrested four of the strike leaders, but one of them in a charge from the strikers. The three landed in jail were Julia Cusker, aged 25; Emma Feller, 17; and Sophie Nannish, 22. They were fined \$5 each. More trouble is anticipated when the working girls leave the factory tonight. The strikers number over 300.

SCORE ONE FOR BRITAIN.

ST. PETERSBURG, May 28.—News has been received from Ferris that the proposed new Russian loan of fifteen million to twenty million roubles fell through because the shah was unwilling to give the required security and grant the privileges required in South Persia. British influences are blamed for the failure of the loan.

BOERS SURRENDER.

CAPE TOWN, May 28.—Two hundred Boers have surrendered at Palapye, Bechuanaland, and forty-two in heavy loads of men, women and children have surrendered at Fort Tull, Rhodesia.

EMPEROR WILLIAM.

BERLIN, May 28.—Emperor William at the annual review today of the brigade of Guards on the Tempelhof fields, put the troops through a series of movements. Then at the head of the color company he led the brigade through the city. His majesty was accompanied by a brilliant entourage, including General Bonast and the other French officers here. Subsequently the emperor luncheoned with the officers.

REMEMBER THE MAINE.

WASHINGTON, May 28.—Fifteen claims were filed today with the Spanish claims committee on behalf of survivors of the Maine disaster and the families of victims. The aggregate of damages asked is \$270,000. The sum for injuries to each of three survivors is placed at \$10,000 and that for each of twelve families of those who perished at \$20,000.

THE LONDON PRESS

Says U. S. Supreme Court Decision Profoundly Modifies Relations With Europe.

LONDON, May 28.—"The world at large stands to gain something by this momentous decision by which congress may devise for the dependencies a form of government outside the American constitution," says the Westminster Gazette, discussing this afternoon the United States supreme court's judgment. "Without the decision," continues the Gazette, "the United States government would have been unable to adopt a more liberal trade policy outside of America than within, without disarranging the whole of their continental fiscal system. The relation of America to Europe and the world is profoundly modified by the new departure. Colonies mean a navy and navy means naval bases and coaling stations and naval bases are inseparable unless they are backed by the possession of a hinterland. This is the logic of imperialism and may lead the Americans as far as it has led the Europeans, by stepping outside their continent the Americans undoubtedly weaken the force of the Monroe doctrine. There is a certain reciprocity in the present arrangement that helps to reconcile Europeans to their exclusion from South America. But if the United States plunge into Welt-reich policies equipped with a strong navy and an American canal, enabling to concentrate on either ocean, she can hardly claim to compete on the principle which limits liability while putting no limit on her expansion. The entrance of the United States on the world stage is already regarded as a highly disturbing factor by the European chancelleries. The new departure makes it more important than before for the British and Americans, by all possible means, to keep on good terms with each other and settle by friendly negotiations all outstanding differences."

PLATT AMENDMENT ACCEPTED.

HAVANA, May 28.—The Platt amendment was accepted by the Cuban constitutional convention today by a vote of 15 to 14. The actual vote was on accepting the majority report of the committee on relations, which embodied the amendment with explanations of certain clauses. The radicals made a hard fight at the last moment, and Senors Portuondo, Gomez and Tamayo bitterly arraigned the conservatives. Senor Tamayo was particularly vindictive and declared that everybody who voted in favor of the Platt amendment was a traitor to his country. The convention compelled him to retract this statement. On several occasions personal encounters seemed imminent. Senor Gomez's speech undoubtedly won over Senors Castro, Robau and Manduley. He re-asserted the long fight for independence, denouncing as perjurers all who favored the Platt amendment. Several conservatives rose and asked Senor Gomez to retract, but he absolutely refused.

LADIES IN A BALLOON.

NEW YORK, May 28.—Ladies of the Austrian court have just participated in a balloon ascent for the first time, says a Herald despatch from Vienna. Arch Duke Leopold Salvator and Captain Minterstern went up in the meteor, accompanied by Arch Duchess Bianca, wife of Arch Duke Leopold, and her seven-year-old daughter, Arch Duchess Margaret, and by the Princess Theresa of Bavaria. The party rose 7,000 feet and travelled four hours, landing in a field near Kornenburg on the Danube. The imperial party packed the balloon and all rode in a peasant's cart to Kornenburg.

AND SO SHE DIED.

NARDIN, Oklahoma, May 28.—At a picnic of young society people today a picture was being made of the group when Miss Nora Wolfrum asked Miss Bishop to point a rifle at her to add to the romance of the scene. Miss Bishop did so. The rifle was accidentally discharged, and Miss Wolfrum was instantly killed, the bullet piercing her heart.

SUICIDE OF A CHOIR GIRL.

SYCAMORE, Ind., May 28.—Miss Aggie Long, 14 years old, daughter of John Long, committed suicide in the Methodist church here today. Miss Long was a member of the church choir and this afternoon went to the church alone for organ practice. She took a revolver with her and later she was found dead on the floor of the pulpit with a bullet through her heart. On the organ was found a letter naming her pall-bearers, telling how she should be clothed for the funeral and also selecting the choir, organist and minister to officiate at the obsequies. No cause is known for the deed.

WAGES HAVE INCREASED.

Dealing with the wages of men in the building trade in New York the Post states that in eighteen years wages have been increased by forty cents, the length of the working day has been reduced from ten to eight hours, and the Saturday half holiday has been gained. It quotes the following minimum scale of wages for union men: Brick-layers, \$4.00 per day of eight hours; marble-cutters, \$4; marble-carvers, \$4.50 (both of which are increased 50 cents a day after August 1); painters, \$3.50; carpenters, \$4; plasterers, \$4.50; roofers and metal workers, \$3.75; steam-fitters, \$4; tile-layers, \$4.50; hod-carriers, \$2.65; plasterers' helpers, \$3; stone-cutters, \$4.75; plumbers, \$3.75. In nearly all cases there is a marked increase within the last twenty years.

DOOMING US IN LONDON.

Referring to the coming of English farmers to New Brunswick the London correspondent of the Montreal Gazette says:—

New Brunswick, through its London representative, Mr. Hickman, has adopted the novel and practical idea of offering to British farmers who have a little capital, the inducement of a cheap return ticket from London to St. John, to tempt them to go and apply for the land for themselves. The trip is offered for \$12 by the Furness line, and I understand many are making application, while by a late steamer a considerable number have already gone out. The government will give them every opportunity for viewing and selecting the land, and it is hoped that it will lead to a substantial number becoming permanent settlers. If it is worth while to arrange such trips for the farmers, it should equally be worth while for the Canadian government to offer inducements to the regular holiday excursionist—every one from here is himself a possible settler, and he certainly would be an excellent medium for advertising the country.

A RELIGIOUS PROBLEM.

An interesting question was up for discussion at the district meeting of the Methodist church in Montreal last week. It was one that has been much discussed in religious conferences in the east as well as the west. It relates to the over-lapping of circuits and consequent waste of energy by different denominations. The Methodists and Presbyterians in Quebec province have found that their circuits in some places overlap in this way, and a board, consisting of members of the two denominations was appointed to make, if possible, a readjustment. So far as appears from the report of the Methodist district meeting very little thus far seems to have been accomplished, beyond the establishment of a very fraternal feeling between the two denominations. It appears to be very difficult to get members of one church in a district to accept the services of the other denomination. One of the speakers, however, declared that he considered the over-lapping of circuits in some cases to be positively criminal, and another asked if it would not be wiser for the church to withdraw from places where they had only four or five members, who could be as well served by the Presbyterian church, and extend their energy in the wider field of the great Northwest. A resolution was adopted favoring mutual concessions and a re-adjustment of circuits.

OUTING DAYS.

(The Star will be glad to receive communications for this column, relating to fishing resorts, fishing parties, fisherman's luck, and that sort of thing.)

Geo. A. Wilson, 4, C. R., returned to Moncton Tuesday morning from a fishing trip at Cambridge, near Gasploing on the St. John river. Mr. Wilson brought home with him about three dozen good sized shad, which he presented to his fellow-employees in the freight department of the said office. Mr. Wilson enjoyed his trip very much, as did each of the fortunate individuals who walked home today with a fresh shad under his arm.—Transcript.

A Dorchester correspondent writes to the Transcript: "W. E. Lawrence has leased the Atkinson pond at Upper Dorchester and intends stocking it with trout."

F. W. Ayer left Bangor Monday morning for his annual fishing trip in Canada. He expects to be gone about a month and will go to his favorite ground on the Restigouche.—Commercial.

J. Y. Payant, of Halifax, recently caught 13 salmon in the Medway river.

Excellent trout fishing is reported from the streams in Digby County.

STOCKING THE LAKES AND STREAMS.

Describing a visit to the fish hatchery at Rapide du Fomme, Grand Falls, recently, the Victoria Co. News says there were 500,000 salmon fry in the troughs. The young fish will be ready for distribution about June 15th.

There has already been a large number of white fish distributed, viz.: Thirty-two cans containing 120,000 each have been sent to Harvey Lake, Lake George, Lake John, and the Oromocto brook, within half a mile of Dead Lake will be supplied this week, and several other lakes and streams in the course of a few days as the fish mature.

MOOSE AND RAILWAY MAN.

Sportsmen have exciting times up around Millinocket, Me. A letter to the Bangor Commercial says:—"O. W. Howe, yardmaster at Millinocket, while out fishing a few days ago along Smith brook, within half a mile of Millinocket station came across three large moose, two cows and a bull. The cows were satisfied with a good long look at Mr. Howe, but it was different with the bull. He evidently desired to have acquaintance and walked deliberately up to Mr. Howe, who, not knowing whether it might be prudent or not to stay and shake hands, decided to return home and tell his wife about it. He only had eleven fish but thought that was enough for dinner, so he left suddenly and made the half-mile in about seven minutes."

ONE DOLLAR AND 98 STEPS.

To the Editor of the Star:—Sir,—Now that a warning has been given the dog owners of the city take license in order to avoid being fined, and in case there are this year persons who are owners of man's most faithful friend for the first time, it might be well to state for the benefit of the "new ones" that in obtaining a license they will be required to do considerable travelling. They will first mount a flight of twenty-four steps, apply for a license, get a form, descend the twenty-four steps, visit the chamberlain's office, present the form and receive the receipt, climb the same twenty-four steps, deliver the receipt and get the license and finally crawl down the same twenty-four steps and reach the freedom of the street. The cost of a dog license is therefore one dollar and ninety-eight stair steps.

BOARD OF WORKS.

Matters in Reference to Wharf Charges Discussed.

B. Schofield was heard by the Board of Works yesterday with reference to the charge for side wharfrage May 1 to May 5 against the Furness Line Loyalist. None of the other boats lying at No. 3 were charged, and the Furness boats have a special arrangement with the government for the winter, and it was understood no wharfage would be charged. Harbor Master Taylor claimed that all boats coming in after May 1 should pay. The matter was referred to a special committee. M. F. Mooney's complaint as to top wharfage on pulp, for shipment to Great Britain, at Sand Point, was referred to the same committee.

Col. McLean and J. N. Sutherland and Mr. Oberine, of the C. P. R., were present in reference to the charge against the hay boats for wharfage. A committee was appointed to look into the matter.

The C. P. R. Co. were given permission to extend their coal shed; assessors of taxes were allowed the right to cross the ferry free of charge. A committee was appointed to look over the ground at Prospect street to determine what the future of the site should be. W. A. Lambert was notified that the city was not liable for damage done his boat striking against an old hulk near Sand Point; the condition of the retaining wall pushing out on the coal shed of the Fleming firm's coal shed; the Imperial Oil Co.'s request was referred to the director and superintendent of fisheries. It was decided to appoint A. W. Christie to the first position as city treasurer.

Aid. Christie stated that the sub-committee which visited Douglas avenue, decided to finish the road its full width.

MY ALLIBON.

The Closing Exercises at the University Yesterday.

SACKVILLE, May 19.—The dinner of the Alumni and Alumnae societies in the new university residence last evening was most enjoyable. Principal Palmer presided. The speakers were Mrs. Crowell, S. D. TOURIST MATTERS.

Halifax Association Offers to Help Other Towns.

Proposal to Have Convention in Fall and Appeal to Government for Aid.

(Maritime Merchant.)

A very wise step is being taken by the Nova Scotia Tourist Association that we hope will be well received by those for whose immediate benefit it is intended. We refer to the recent proposal to establish local tourist associations in all parts of the province, to be conducted along the same general lines and for the same general purpose as that now operating in Halifax, namely to attract tourists to the province in summer, to facilitate their movement and entertainment, while here, to improve the character of our entertaining powers, and in a broad way to enhance the interests of the province in respect of tourist travel.

The Nova Scotia association offers to send representatives to the various localities to assist in organizing, and proposes to aid new associations to the utmost of its power and experience. These offers should be taken full advantage of by the country, for it is safe to say that the association in Halifax has been eminently successful, and has done a great deal, not only for the city but for the whole province. If the people of the various towns and other centres of population in Nova Scotia take hold of the tourist traffic with the same amount of enthusiasm displayed by a number of progressive Halifax business men and are able to reap a proportionate harvest from their sowing, we ought to see a vast improvement in the character of our life, which we may call the parent association, has been able to do good to various localities in all parts of the province, how much more good would those same localities derive from the efforts of associations of their own, whose members would better understand their needs and possibilities. We do not need to point out in detail how all this would come about. We simply need to point to the work of the parent association again, and that is done. No more proof is needed of what energy well directed can accomplish. But before we leave the subject, perhaps we may remind our readers that in numbers there is strength.

These associations of road workers, united on matters of broad concern to the whole province. Representing every business community in the province, the federated tourist associations ought to have a mighty influence. By all those who know him well, he might be designated many movements for the improvement and betterment of the province that are not properly introduced now, because there is no independent and forceful demand for them. Good roads, wider advertising of the province, improvement and extension of our attractions, the provision of means of getting at them, would all come within the purview of such an organization, and with the influence it would wield, surely these much needed improvements would follow quickly.

We notice that a convention of provincial tourist associations formed during the summer is planned to take place next fall during exhibition week, when a plan of co-operation will be made and a definite appeal framed asking for a governmental aid in carrying on the work, which will be duly forwarded to the provincial government with reasonable expectation of being well received there. We are heartily glad that this good step forward has been taken and hope the business people of the province will give it the support it should have.

A FASHIONABLE WEDDING.

HALIFAX, N. S., May 19.—St. Matthew's Presbyterian church was the scene of a fashionable wedding tonight, which attracted a very large number of interested spectators. The principals in the ceremony are members of prominent families. The bride was Miss Mary Evangeline, daughter of Hon. E. H. Holmes, and the groom Robert Bauld, of the firm of B. Bauld and Company.

The church was decorated with palms, ferns and cut flowers. Rev. Thomas Fowler, assisted by Rev. Dr. Pollock, tied the nuptial knot. The bride was given away by her father, and was attended by Miss Jane Fielding, daughter of Hon. W. S. Fielding, and Miss Nellie Doull, daughter of Mrs. W. S. Doull, Murray McNeil of St. John was groomsmen.

Professor Porter presided at the banquet.

The bride's dress was white ivory satin, train, and waist of real lace, and chiffon veil with real orange blossoms. The bride's ornaments were pearls and diamonds. She carried a bouquet of white roses and satin streamers. Miss Fielding's dress was a turquoise blue silk, under white silk organdie.

After the wedding a reception took place at the residence of the bride's father.

The newly married couple took the suburban at 11:15 for Truro, and departed tomorrow morning for Boston, to a three months' trip to Great Britain and the continent.

ROYAL ARCANUM.

After the regular meeting of the Royal Arcanum last evening an oyster supper, scheduled for two weeks ago and postponed on account of the death of F. W. G. Brock, one of the society's members, was held in Lang's restaurant.
