FLORENCE NIGHTINGALE.

veloped, and she gradually sank until 2 o'clock Saturday afternoon, when an attack of heart failure brought the end.

Her funeral will be as quiet as possible, in accordance with her wishes.

Florence Nightingale was born May 12, 1820. She was the first woman to follow a modern army into battle as a nurse, and in the Crimean War, she gained the title of "The Angel of the Crimea."

But as "Mother of Nurses," she will never be forgotten as long as human suffering lies upon hospital cots.

When she grew into young womanhood she abandoned her studies in mathematics and the languages.

CHIEF CLARK HOME FROM VANCOUVER

Head of Local Police Force Talks Interestingly of His Trip to Convention of Chief Constables.

Chief of Police W. W. Clark, who attended the recent convention of the Chief Constables of Canada in Vancouver, returned home Saturday.

Chief Clark who formerly held the office of vice-president of the Association, held the signal honor conferred upon him of being unanimously elected to the presidency.

Giving to the distance to travel there were few representatives from the Maritime Provinces, but the other parts of the Dominion were well represented.

The white slave traffic was also dealt with, and the effects of suspended sentence. The question of dumdums and their effects was discussed at some length.

It was a long jump from the Pacific to the Atlantic, and he thought that Ottawa, on account of its central location was the best city in which to hold next year's convention.

Speaking of his election to the presidency Chief Clark said that he was deeply affected when everyone present arose and unanimously supported him for the position.

THE McALLISTER CASE IN COURT

Charge of Assault Preferred by Moncton Alderman Against Kings County M. P. Adjourned Until Today.

Special to The Standard. Moncton, Aug. 14.—Dr. McAllister appeared in the police court Saturday to answer to the charge of assaulting Alderman McAnn at the race track on Friday.

McAllister's friends assert that there was an argument as to the merits of the alderman's horse and that McAllister merely touched him.

McAllister's general conduct while in Moncton has been the subject of considerable comment.

Brussels, Aug. 14.—The white city of the world's fair, as the Belgians have called their 1910 exposition, is tonight a mass of flames, and smouldering ruins.

A spark, falling into inflammable material in the telegraph building burst up in flames, which driven by a high wind, swept rapidly in all directions.

Thousands of people saw them march through the streets to the 65th territorial militia barracks in their new khaki uniforms presented a very fine appearance.

There was also some splendid racing in the 2:21 trot and 2:18 pace. Pretoria took the first heat then Mary Cromwell took two in succession while the fourth and fifth went to Queen Marie who had been doing good work right along.

Mooney's Sugar Wafers are created by Canada's master bakers—of the finest and costliest materials—in an airy, sunlit, sanitary factory.

Your Meal is Incomplete Without Mooney's Sugar Wafers

It's interesting work—this Mooney Method of biscuit making. In making Mooney Sugar Wafers we use flour that is a *special blend* of hard spring wheat for *nourishment* and soft winter wheat for *flavor*. The most reliable dairymen in Western Ontario supply us with the purest and sweetest butter and cream daily. We get their best, because we pay top prices. We *could* pay a third less for these ingredients, but we couldn't keep the Mooney high quality standard intact. This would be poor economy—you know this.

When you get your first package of Mooney's Sugar Wafers you'll observe how crispy and flaky the double layers are—how snappy and enticing the exquisite cream between the layers is. Each wafer is a delicious sweetmeat sandwich that fairly melts in your mouth.

Mooney's Sugar Wafers are made in the largest and brightest bakery in Canada. Here we have over 200 trained employees—640 windows—3 miles of floor space. The single special equipment for producing Mooney's Sugar Wafers cost us over \$20,000. We even ship our products in our own specially built private cars, so they are of even temperature in transit. When you open the dainty, dust and damp-proof package, the biscuits are fresh, crisp and appetizing—just as they come from the ovens. No other biscuit manufacturer in the country goes to this trouble and expense—but it's part of the Mooney Method of biscuit making. When you taste Mooney's Sugar Wafers for the first time *you will know* how delicious they really are. The luscious cream centers are made in many flavors—from real fruits.

Try The Taste Test On Mooney's Sugar Wafers

Today at luncheon or dinner, instead of serving the usual dessert, try Mooney's Sugar Wafers. Let their exquisite taste today, decide your desserts of the future. As an adjunct to the social hour; as a delightful accompaniment to ices or beverages—no other dessert confection will prove so charming as Mooney's Sugar Wafers.

It is no longer necessary to spend much money and hours of time making desserts that "might be good," when you can spend little money and no time for a *dessert that's always good*—Mooney's Sugar Wafers.

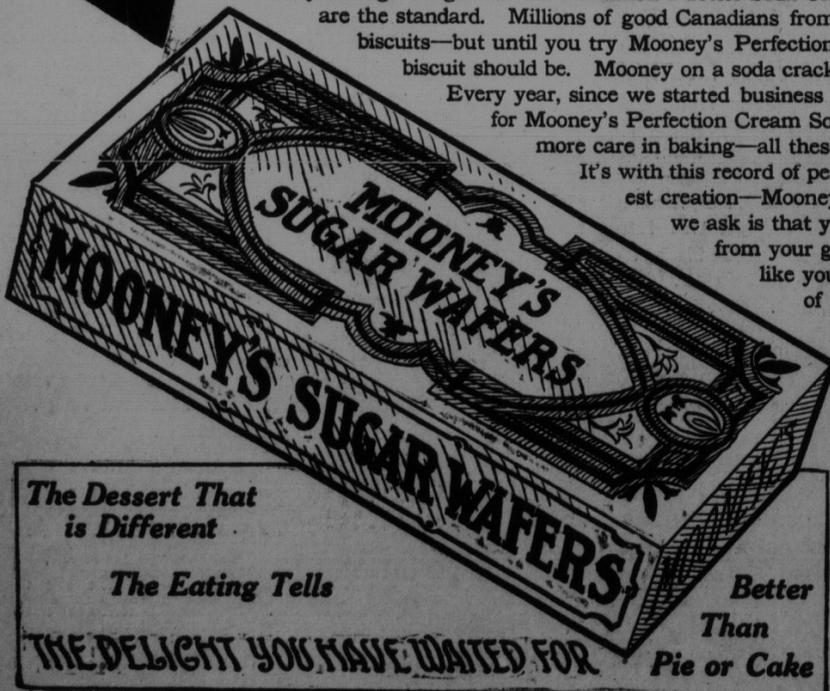

MOONEY'S SUGAR WAFERS

The Dessert Your Guests Will Like

Six years ago we gave to the Dominion a better Soda Cracker—better flavored—better made. Today Mooney's Perfection Cream Sodas are the standard. Millions of good Canadians from coast to coast eat them. You have heard of biscuits—read of biscuits—eaten biscuits—but until you try Mooney's Perfection Cream Sodas you don't *know* biscuits. They are everything that the ideal biscuit should be. Mooney on a soda cracker means "goodness."

Every year, since we started business in 1903, we have had to enlarge our factory to meet the increasing demand for Mooney's Perfection Cream Sodas. A little better flour—a little richer butter—a little finer bakery—a little more care in baking—all these are details of the Mooney Method of biscuit making.

It's with this record of perfection in biscuit production that we offer what we believe is our greatest creation—Mooney's Sugar Wafers. The coupon entitles you to a package FREE. All we ask is that you purchase a 25 cent package of Mooney's Perfection Cream Sodas from your grocer. Mayor Gaynor Recovering; Figures in the Tragedy

The scene on board the Kaiser Wilhelm Der Grosse a moment after Mayor Gaynor had been shot. Dr. Smith, a passenger, is shown holding the half-fainting Mayor from falling while one of the Mayor's friends is hurrying up to assist. The Mayor's wound, under the right ear, is pouring out a flood of blood and the blood has begun to run over his mustache from his nose. His coat and hand are already spattered with blood. The Mayor tried to stanch the blood from his nose with his hand, and it smeared his face. This remarkable picture was taken by a newspaper photographer who happened to be aboard.

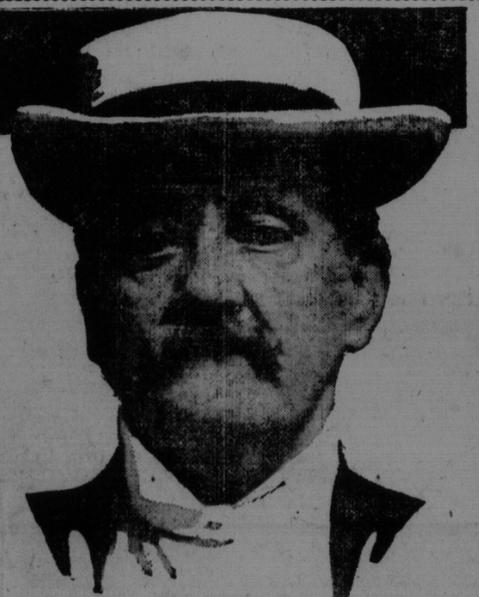

Mrs. W. J. Gaynor, wife of the wounded Mayor of New York. From an snapshot photograph.

John Purroy Mitchel, President of the New York Board of Aldermen. He is a Republican.

Signor A. Pedro Montt, wife of the President of Chile. Mayor Gaynor was chatting with her and her husband when Gallagher opened fire.

GAVE LIQUOR TO INDIANS

Liberal M.P. Fined at Orillia, Ont., for Supplying Liquor to Two Redskins on Ontario Reserve.

Orillia, Ont., Aug. 13.—Manley Chew M.P., recently pleaded guilty to supplying liquor to two Indians living on Christian Island and was fined \$75 and costs for each offence. Mr. Chew's counsel objected, that he had already pleaded guilty before the Indian agent on Christian Island and paid a fine, but Police Magistrate Clark declined to recognize proceedings taken in another court after information had been laid before him.

In a third case Mr. Chew admitted taking three kegs and a case of lager into the Christian Island reserve, but claimed it was not intoxicating within the meaning of the Act. An analysis made on August 6, a month after the offence is alleged to have been committed, and showing 2.92 per cent. of proof spirits, was submitted by the prosecution. But the magistrate intimated that this would not be sufficient to satisfy him that the liquor was intoxicating at the time Mr. Chew took it to the island, and an adjournment was made till the 16th inst., to allow the prosecution to submit expert evidence.

The question of whether or not Beauvoile Island is in the county of Simcoe was not finally disposed of. The police magistrate intimated his opinion that it was not, but allowed an adjournment of the seven cases against Mr. Chew on the island to permit the prosecution to get definite information.

One of the witnesses in the Christian Island case swore that when Mr. Chew started from Midland he had a satchel filled with bottles of whiskey and wine and a jug of whiskey, but said these were left at Beauvoile. This was the only light thrown on the Beauvoile charges.

(Mr. Chew is described in the Parliamentary Companion as "a methodist and a Liberal." He is the man who defeated W. H. Bennett, the former member for Simcoe, and his election was described in the grip press as a general victory for purity and reform.

More bread and Better bread —And the Reason for it

A STRONG FLOUR can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for Purity Flour.

But that's not all. Every grain of this wheat contains both high-grade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

Of course this special process is more expensive to operate but it means a lot to Purity flour users—that's why we use it.

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat in the world.

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

SAINT JOHN, MONDAY MORNING, AUGUST 15, 1910

LIBERALS IN P. E. ISLAND FACE DEFEAT.

The Liberal government in Prince Edward Island is finding itself in very deep water. The general impression is that it cannot hold on to office much longer no matter what disgraceful devices it may resort to in order to defeat the public will. At the last election Premier Haszard secured sixteen out of the thirty seats, leaving him with a majority of one vote with the Speaker in the chair. This was equivalent to a disastrous defeat when it is remembered that the vote of the Dominion officials is large in the different constituencies in comparison with the total electorate. The vote in the island is not a large one, and there are many Dominion officials employed on the P. E. I. Railway and the lighthouses and breakwaters along the coast. Open voting prevails, so it was easy to coerce them into voting for the Haszard government, and into using their influence in its behalf, and yet the government was fought to a standstill. Knowing it would be impossible to carry on the work of the legislature with a majority of only one on the floors of the House, Mr. Haszard induced a member, who had been elected as a Conservative in the Cardigan District, to accept a position under the government and resign his seat. The constituency was thus left unrepresented during the whole of last session, and by this disgraceful movement the government was given a majority of two on the floors of the House.

The government selected its own time for bringing on the election for the vacancy. Federal officials swarmed all over the constituency, and promises of public works were scattered broadcast. The result, however, was the defeat of the Liberal party, and the election of Mr. J. A. Dewar, the Conservative candidate. Mr. Mathieson, the able leader of the Conservative party in the legislature, took an active part in the campaign, addressing public meetings in different parts of the constituency, and exposing the maladministration of the government.

The appeal made to Liberals to support the Liberal party irrespective of the record of the local government, did not avail, and in view of the fact that Mr. Mathieson had the active opposition of two governments, well fortified with the "resources of civilization," his victory is a most significant one. It is very doubtful if Mr. Haszard can tide over another session. It is well known that he is anxious to retire from politics to a seat on the Supreme Court bench of the province, but the difficulty of finding anyone to take his place as leader of the government may prevent him from realizing his ambition. There is not another man in sight in the Liberal party in the legislature who possesses any qualifications for the leadership and if the present premier should resign the party in provincial politics will practically disappear. The Conservatives of Prince Edward Island, who have always put up a good fight, even under adverse conditions, are more than pleased with the present outlook.

TWO BEAUTIES.

Two shining lights of the Liberal party, Mr. Manley Chew, M. P. for East Simcoe, Ontario, and Dr. D. H. McAllister, M. P. for Kings-Albert, have earned a degree of notoriety within the last few days, while it is a source of much tribulation to their friends, may have a healthy tendency towards opening the eyes of the electors as to the class of men selected as standard bearers for the party in power.

Mr. Chew, who is described in the Parliamentary Companion as "a Methodist and a Liberal," succeeded in defeating Mr. W. H. Bennett, the former member for East Simcoe, at the last election, and his success was hailed by the Liberal press as a victory for purity and reform. Mr. Chew's recent activities may serve to indicate how this success was achieved.

There are some Indian voters in his constituency and Mr. Chew on a visit to their reserves took along with him three kegs and a case of lagerine, a keg of whiskey and a satchel filled with bottles of whiskey and wine. Being brought to book Mr. Chew pleaded guilty to supplying liquor to two Indians living on Christian Island, and has been fined \$75 and costs for each offence. There are seven cases in all against Mr. Chew concerning which the prosecution is now seeking more definite information.

Supplying Indians with intoxicating liquor is not only a moral but a criminal offence, and Mr. Chew's method of wooing his aboriginal constituents would seem to make it necessary for Sir Wilfrid Laurier to demand his resignation. It will be interesting to note how the premier deals with this hypocritical advocate of "purity and reform."

Dr. McAllister, the representative of Kings-Albert, in parliament, has been distinguishing himself in another direction, and appears to have provided the chief source of entertainment at the Moncton speedway last Friday. He stands charged with making an unprovoked assault upon Ald. James A. McAnn. After being arrested and released he is said to have made another disgraceful exhibition of himself. Hearing on the charge will take place today. If the allegations are true Dr. McAllister will rank with his fellow member, Mr. Chew, as no fit and proper person to hold the position he now occupies as a representative of law and order.

RESTRICTING THE OUTPUT OF COPPER.

Negotiations were recently concluded in Europe to restrict the world's output of copper and the decision will probably be of far reaching effect. The production of copper in recent years has shown a remarkable growth. Fifteen years ago people who discerned the immense growth of the electrical industry saw as its only menace the inability of the then known mines of copper to produce sufficient of the metal at prices which would not be prohibitive. The world's production was then 334,565 tons, the United States producing about half of this amount, the metal selling in London at prices ranging from £38 to £47 per ton, while in New York the quotation was as low as 9 cents per pound.

What followed bore out the fears of the pessimists. Despite the fact that the production of copper increased rapidly, the production of the United States, the principal producer, doubling in the next ten years, the price of copper went up, until in 1900 it reached £79 in London, an increase of 75 per cent. In 1901 and 1902 the production evidently overtook consumption and prices dropped to 11 cents in New York. From then on there was another steady advance in price until the top mark of 25 1/2 cents was reached in 1907.

The price of the metal stimulated production and restricted consumption, with the result that prices again tumbled rapidly, last year the minimum price being only one half of the top price of 1907. At twelve cents a pound copper production ceases to be profitable in all except the richest mines. The copper producers cannot see why their capital should be employed for the purpose of producing the metal at cost price for consumers, and the arrangement, recently concluded, is being undertaken with a view of remedying these conditions.

Great as has been the growth in consumption, production has increased far more rapidly, and, as a matter of fact, there does not appear any reason to expect that a natural shortage of supply will ever be encountered. Whether it is possible to maintain a limitation of supply that will enable producers to make a fair profit on their investment is a question time alone will tell.

THE CHANGE IN EUROPE.

France has filled so great a place in history that it is difficult to realize that she is hardly now in the front rank of the great powers. Something of the same sort happened once before in the beginning of the decadence of Spain. In the time of Charles I. men remembered what Spain was in the reign of his father and thought of her as still the leading power of Europe. By the time of Charles II, France was far in the ascendant, and only the efforts of William of Orange and, later, of Marlborough, and their allies, prevented her from dictating to the continent.

It is only a hundred years since Napoleon over-ran Europe. Fifty years ago, France was still considered at least as great a power as any other on the continent. Bismarck shattered the illusion. Since then France has continued to become weaker as compared with Germany. Instead of being a country equal in wealth and population, she is now a country of only about two-thirds the population of Germany, and she is much less strongly organized.

Compared with Germany her power has shrunk by one-third. The effect is the same as if she had lost one-fifth of her territory, while Germany had increased hers by one-fifth. If that had happened it would be visible, so to speak, on the map, and would be more clearly realized. Russia, too, has lost power by comparison with Germany. Instead of being a colossus, overshadowing Europe, she has become decidedly weaker than her nearest neighbor.

The British Empire, the United States and Japan, are the only powers that have not lost ground, and that are with Germany in the front rank. France does not now count for much more than Austria or Italy, and Russia, while stronger potentially, is no better off at the present moment. A map of Europe which would allot territory to all the great powers in proportion to their strength would present some striking changes.

ABOLISHING THE HANDSHAKE.

A movement has been started in Paris to stop the shaking of hands. Illogical in impulse and habits, the Paris gentleman who kisses his comrade on both cheeks hesitates to grasp his hand for the fear of the transmission of germs. This is a tribute to the memory of George Francis Train, who in later life refused to shake hands even with his publisher, but the movement will hardly meet with universal favor. Hand-shaking here is too closely associated with friendship and democracy to be abandoned. It is a mystic symbol of mutual help. It has come to be the emotional expression of a people.

If the movement could be diverted to abolish certain abuses of the handshake, as the Vancouver World suggests, it would receive the commendation of all sane persons. There is the two-fingered, pick-a-plum handshake, for example, which is an abomination to any other sane person. Then there is the party who offers a hand like an empty buckskin glove dipped in bilge water, which must be grasped and squeezed without flinching. As to the politician's hand, the lodge grip hand, the hand that treats your defenseless paw as if it were a strength-test machine, the genial soul who pumps like a frantic sailor and asks for a loan, all these could be abolished and the world would be the better for it. As a half-way measure the Paris movement is an excellent one.

CURRENT COMMENT

(Montreal Gazette.)
A Canadian government loan of \$7,500,000, falling due in October, is to be renewed at a lowered rate of interest. It might have been thought that a better course would have been to take some of the big surplus recently announced and pay off the obligation, thus saving the country the amount of an interest charge of over a quarter of a million dollars a year. As people know, however, Mr. Fielding's surpluses are not there when they are needed for economic financing.

(Toronto Star.)
Critics have been pointing out that one of the new Ontario school books uses "eat" (et) as the past tense of eat. And while the latest and finest dictionary, the Oxford, is said to prefer this form to "ate," most well-bred people will decline to risk public opinion, and will leave the "et" severely alone.

(London Free Press.)
Co-operative banks in the small farmers of Britain is a scheme which has been launched by Earl Carrington. The new banks will make loans up to \$2,500 for permanent improvements, roads, irrigation, etc. The loans will be repaid in instalments when the country is prosperous.

THE EQUALITY OF MEN

Nature hath made men so equal, in the faculties of the body, and mind; as that though there be found one man stronger than another, or of quicker mind than another, yet when all is reckoned together, the difference between man and man is not as considerable, as that one man can thereupon claim to himself any benefit to which another may not pretend, as well as he. For as to the strength of body, the weakest has strength enough to kill the strongest, either by secret machination, or by confederacy with others, that are in the same danger with himself.—Hobbes.

Then it Happened

Mr. Henpeck had been explaining as he toyed with his breakfast why he had not reached home until 4 a. m. He had been called suddenly, he said, to attend a sick lodge brother, whose desperate illness had not even permitted Henpeck a moment's time to send word home. Just then Mrs. Henpeck went to the door to answer the bell. "Here's a stick not some sounder guy wot lives here let' haugh' on the bar las' night," said a very rough person. "Is dere any reward?"

RIFLEMEN WERE OUT SATURDAY

Three Matches Shot on Local Ranges—Some Good Shooting Despite Tricky Weather—The Results.

Saturday was a great day for the riflemen. Despite their recent exertions on the Sussex ranges the energy of the men who are devoted to this line of sport did not flag and there were three good matches on the local ranges. The 3rd N. B. C. A. Rifle Club held a spoon match as did also the 62nd rifle club and the St. John rifle club held its regular Saturday afternoon match on the local range.

St. John City Rifle Club held their regular Saturday afternoon match on the local range. The afternoon was fine and good scores were made. The following were the prize winners:—
Class A—
L. A. Langstroth, spoon 33 29 32 94
A. G. Staples cash \$1. 31 32 30 92
Class B—
A. Bentley, spoon, .. 31 27 27 85
Percy Pettigill, .. 26 23 20 69
Class C—No competition.

The P.R.A. meet now being over the next event to look forward to in rifle shooting will be the Moncton shield match, which will be held on the St. John range on the 8th of September. This match is open to teams of five bonified members from any military or civilian rifle club in the province and it is expected that teams from Moncton, Sussex, Sackville, Carleton and York Counties and other shooting centres will take part. The St. John rifle clubs, including the 62nd, Artillery and civil clubs will have one or more teams from each. The entrance fee is only \$5 for teams and the prize list include (1) the shield to be held for one year; (2) \$10 in cash; (3) \$5.

As the match will take place during Dominion Exhibition in St. John, it will give competitors a chance of visiting the fair and also participate in the low railway fares then in force on all railways. Applications for entrance can be procured from James G. Sullivan, secretary St. John Civilian Club, who are the present holders of the shield. All entries accompanied by the fee must be forwarded before the last of August, in order that arrangements may be made for entertaining visiting teams. The merchants of St. John last year very kindly made donations to the City Club of articles for the purpose of holding a merchant match in the afternoon, and a committee has the matter in hand again this year and hope they will be successful in procuring sufficient prizes to enable the visiting rifle men and others to participate in a merchants match again this year, and thus enjoy a full day's shooting. The members of the St. John City Club will compete for places on the

Seattle, Wn., Aug. 13.—Twenty-five Chinese stowaways who had eluded the inspectors at Vancouver, B. C., were captured aboard the British steamship Kumeric, recently arrived from Hong Kong, by immigration authorities yesterday. The Chinese had walled off a room twenty feet square under the cargo of the Kumeric. They had been confined to this den since the steamship left China early in July and planned to slip ashore when the Kumeric reached Portland, where she is going to load lumber. In their little den they cooked their food, ate and slept.

A lantern used in the search was thrust into the room but the poison fire instantly extinguished the flames. The men were half clad and some were ill from their long confinement and scant provender of tea, rice and water.

Headaches or Glasses?

The choice is yours. Headaches are a result of eye strain, medicines will not effect a cure. Glasses will. Do not think because your vision is good that you do not need glasses, for headaches come usually when the vision is good, because there is a strain on the muscles of the eye to get that good vision. If you "don't like glasses" and "won't wear them" till you have to, don't complain—that's your choice. If you want to be rid of your headaches let us make you a pair of glasses that will relieve the eye strain.

AMUSEMENTS

World's Greatest Cowboys At Nickel. The winsome actress Sadie Calhoun and her talented wee company of stock players, who have been delighting so many at the Nickel this fortnight past, will enter upon a third week of tabloid or "botted" plays today in a bold-down version of the popular comedy "A Scrap of Paper," under the title "The Diplomacy of Susanne." This is a sparkling story of the Baron de la Glaciere, his daughter, his fair cousin Susanne de Ruseville and Prosper Gourmont. Throughout the playlet is charming. Then the Nickel will supplement this fine feature with what is stated to be the finest western film ever photographed: "Life in the Great South-West." In this remarkable production Pat Long, champion steer catcher and steer "bull-dogger," Charles Fuqua and Johnny Mullens, champion steer ropers; Henry Grammer, king of lariat throwers and Tom Mix, U. S. marshal and famous broncho buster will be seen at their hazardous work among semi-wild bovines. Every moment is a thriller. Add to this programme the fine new Biograph film "Unexpected Help," the western story "The Sheriff" and a queer comedy "A Hunting Story," with Miss Prescott in songs and the Orchestra and you will have the best show the Nickel has put on in many months.

ENGINEER'S REPORT ON MAIN ST. PAVING

A special meeting of the Board of Works will be held at 3 o'clock this afternoon to consider the granting of a lease of the sheds on the Pettigill wharf, and other matters. At this meeting Mayor Frink will present the special report on the concrete foundation of Main street, a synopsis of which has already been published in The Standard. The report was prepared by C. E. Dodwell, government engineer for the Maritime Provinces, who has his headquarters at Halifax. Mr. Dodwell, whose professional reputation is beyond question, made a careful investigation of the Hassam method of laying concrete, and though he admits that what he heard about it had prejudiced him against it, he arrived at the conclusion, after a careful verification, that the method provided a very satisfactory foundation for permanent pavement.

THE EVERY-DAY CLUB OPENS ITS MEETINGS

MR. FOSTER AND DR. PUGSLEY; THEIR RECORDS CONTRASTED

The Fredericton Mail Asks an Impertinent Question and Receives an Answer Embracing Pertinent Facts—The Minister of Public Works Labelled as Unworthy of Cabinet Rank.

(Moncton Times.) The Liberal Fredericton Mail expresses a desire that Mr. Borden should make a statement as to the Hon. George E. Foster's position in the Conservative party, and as to whether Mr. Foster will be taken into the cabinet when Mr. Borden reaches power. It is not customary for the leader of an opposition to state who his colleagues will be in the event of his being called upon by the people to assume the reins of government. Still, for the benefit of the Fredericton paper, it may be stated that there is no known public reason why Mr. Borden should not ask Mr. Foster to be one of his colleagues after the next general election, which, according to all the signs, will bring Mr. Borden called upon to lead the government of this country. One hundred thousand dollars of the money of the people of this country was spent in the effort to blacken Mr. Foster's character in the insurance investigation, but when pressed in Parliament Sir Wilfrid Laurier was forced to admit that nothing had been brought out of which Parliament might take cognizance.

Mr. Pugsley's Record. What is of more immediate concern to the people of Canada at the present time is that Sir Wilfrid has among his colleagues a man who, on indisputable evidence, is unworthy of holding a cabinet position. That man is the Hon. William Pugsley. Mr. Pugsley, while a member of the government of this province, managed in one way and another to draw from the treasury some eight thousand dollars a year on a salary and seasonal allowance of about three thousand dollars. As a member of the provincial government he was intimately connected with the Central Railway business, the commissioners appointed to inquire into which found extraordinary looseness and a sum of some \$130,000 entirely unaccounted for. As a member of the provincial government, Mr. Pugsley's private tele-

A sensational race against time, Ullan, owned and driven by C. K. G. Billings, came under the wire at the Randall race track, near Cleveland, O., after completing a mile in 2:01, thereby smashing his own world's record of 2:02 3/4 for a gelding trotting a mile to wagon.

Woodstock Pitcher Receives Offer to Go West for Two Weeks—Offer for Neptune, Too.

Woodstock, N. B., Aug. 13.—That this town has made a far-reaching reputation through the medium of her fast ball team is shown in the following telegram received here today:

Saskatoon, Sask., Aug. 13, '10. "Owen Kelley, Woodstock, N. B.—Chief of Police, Woodstock, N. B.—Please loan us Peasley for two weeks. Set your own price. To win Western pennant. Answer within an hour.

FRANK SULLIVAN, The following reply was sent: Woodstock, N. B., Aug. 13, '10. "Frank Sullivan,

Saskatoon, Sask.—Peasley signed for try-out with Detroit. Must leave here Sept. 4. OWEN KELLEY. Frank Sullivan is a Woodstock boy, who up to three years ago conducted a grocery business in this town, when he went to Saskatoon.

After the game with Waterville Joe Neptune received an offer from a man who claimed to own a team in Virginia. The stranger was a witness to the game played with Waterville in Houlton.

On Monday Woodstock plays two games at home with Mars Hill. On Wednesday the local team goes to Calais where they play the third game with Calais on Thursday. This game is expected to be a hummer. Many Woodstock people will accompany the team on the trip.

On Friday Woodstock will play one game with St. Stephen, returning to Woodstock Friday night. The management of the Millinocket team is after Woodstock for an attraction in the Maine town on Labor Day.

Miles McLeod, who is just now a farmer, but who may be slated for pugilistic laurels.

In comparison with Johnson, McLeod shows more of the perfect man. He is 3 1/2 inches taller, has the advantage of 9 1/2 inches in reach, and is broader across the shoulders and deeper of chest. Johnson is bulkier than the Missourian in arms and limbs. The following figures will show where McLeod has the advantage over the negro: McLeod, Johnson. Age 28 years 32 years. Height 78 inches 72 1/2 inches. Reach 81 1/2 inches 72 inches. Chest (expanded) 49 inches 39 1/4 inches. Chest (normal) 44 inches 36 3/4 inches. Arms 41 inches 34 3/4 inches. Biceps 16 inches 18 1/4 inches. Forearm 13 inches 14 1/4 inches. Wrist 8 inches 10 1/2 inches. Thigh 23 inches 25 3/4 inches. Calf 16 inches 15 3/4 inches. Ankle 10 1/2 inches 10 3/4 inches. Neck 16 inches 17 1/4 inches. Weight 235 pounds 205 pounds.

Here's a man who can whip Jack in Chicago, when the latter's brother, Walter, pointed him out to Corbett.

At least Jim Corbett says so, and it is generally admitted that few followers of the scrap sport are in a better position to know than Corbett, who stood up as best man and chief mourner to Jim Jeffries at the Reno slugging. On that blistering July day Corbett had no adequate comeback to Johnson's kidding, but it is generally supposed that right there Corbett made a deep-dyed and blood-thirsty resolve to have revenge on the big chocolate drop, and that he is scouring the world for any likely looking youngster who can hand Johnson one hard enough to put him on the blink and send him to dippy land while the referee counts 10.

The "future hope of the white race," according to James J. Corbett, is a farmer boy hailing from the "show me" state of Missouri, county of Gentry. His name is McLeod—Miles McLeod, but you pronounce it just as though it were spelled "McLeod."

And the remarkable thing about this youngster of 28 years is that he has never done any fighting—that is, professional fighting. Of course he puts on the gloves once in a while with the neighbor boys, anyone of whom he can whip with one hand tied behind him, but he isn't a professional—yet. He has everything to learn, but—and it's a great big but—he has no old tricks to unlearn.

Stood up by the side of Johnson he would tower five and three-quarter inches above the black man. He is as strong as a bull, and just as wiry, agile and quick as you can get 'em. He is not a college-bred man, He is just a farmer boy, a physical giant, but does not claim to be much of an athlete. But he is willing to train, and he is anxious to fight.

This is what he has to say about it himself: "If Mr. Corbett says I can lick Johnson, I'll sure enough lick him. I have never seen a man I'd refuse to fight, and I am anxious to fit myself to meet the negro. I want to fight him and will fight, providing the match can be arranged and Mr. Corbett has sufficient confidence in me." And when he goes into training he will not have to quit smoking or drinking, because he never began to smoke or drink. He has lived a clean mental and physical life, and when it comes to material fitness, well—he has pitched a whole lot of Missouri hay, and shoved a plow around miles of Missouri fields, and he has gone to bed early, and got up early, and eaten clean, wholesome food prepared by his mother.

American Oarsmen No Match for Ottawa and Toronto Eight in Potomac Regatta—Ottawa Crew Won.

Washington, Aug. 13.—Winners a week ago of the senior eight-oar championship of Canada the same eight from Ottawa won the championship of all North America today. They took first honors in the prime event of the closing day of the thirty eighth annual regatta of the National association of amateur oarsmen in a spectacular "meeting." Scarcely less important in the eyes of the aquatic world was the victory of William Melhoff of the New York Nassaus in the senior single sculls. His victory over the mighty Fred Sheppard, measured by one second for the entire mile and a quarter course.

The race of the senior eights was an international event. Two Canadian crews the Ottawa and the Argonauts of Toronto, were entered for the Dominion and the Potomacs of Washington; the Vespers of Philadelphia and the New York Athletics for the United States.

The American oarsmen were no match for their rivals from across the border. The real contest was between the Ottawas and the Argonauts, and as at St. Catherine's last week, the former crew crossed the line less than a length ahead of the latter.

The Summary. Association singles sculls: (Senior) S. F. Gordon, of Vespers, Philadelphia, won; Fred Fuessell of Harlem Club, New York, second and Butler of the Toronto Club, third. Time 8:39.

Senior four oared shells: Arundells of Baltimore, won; Municipality of St. Louis, second; Centrals, of St. Louis, third. Time 7:25.

Intermediate single sculls: Jacks, Argonauts, Toronto, won; Kelly, Vespers of Philadelphia, second; Keenow of West Lynn Boat Club, third. Time 8:45 1/2.

Quadrup sculls shells: (Senior) Hananusses of New York City, won; New York of New York City, second. No third. Time 7:24 3/5.

Championship senior single sculls: Melhoff of the Nassau Club of New York, won; Sheppard of the Harlem Club, New York, second. Time 8:34 1/2.

Senior eights: Ottawa Rowing Club won; Argonauts, Toronto, second. Time 6:33 1/2.

DAIRY PRODUCE AND POULTRY.

W. W. Hubbard, secretary of agriculture for the province, and Mr. Daigle of Edmundston, who will have charge of the dairy department at the Dominion Fair, visited the grounds Saturday to inspect the buildings and the equipment. The dairy exhibits are so numerous that a second judge will have to be appointed. A. C. Smith of Waltham, Mass., will be judge of the poultry, and this feature also will be so large that another judge will have to be added to the staff. Mr. S. L. Peters of Queenstown will be in charge of the agricultural department, and Mr. C. N. Vroom will be judge of fruit. Exhibitors have commenced to get their booths ready and the building presents a very busy appearance. The West India booth is nearly completed. This exhibit will include every plant that has ever exhibited anywhere and will be the finest ever seen in Canada outside of Toronto.

rather self-conscious and awkward pose, but that is because he is not used to facing the camera without his clothes. He will get over that, of course. But when it comes to size, looks and general proportions you've got to admit that he looks mighty good. In fact, there is something about him—perhaps it's the firm, steady light in his eyes—that makes you feel he will be right there if he is ever turned loose in the squared ring with Johnson.

Anyway, keep him well in mind, because he is almost sure to bob up on page one of the newspapers some day.

CLIPPERS WON IN BOTH GAMES

They Are Now on Even Terms With the St. Johns --Saturday's Double-Header Proved Awful Exhibition of Kindergarten Baseball --Donnelly's Good Work a Feature.

Those Clippers and Saints did a double drill at the ball park Saturday. Playing brisk ball all the way through, the Clippers romped away with the long end of the score in both sessions, climbing up to the same rung of the ladder as the saintly ones. They annexed the first event by the figures of 13-1 and the second by the more conservative count of 6-5.

Mr. Brogan, late of Marysville, brought down his entire repertoire for the first event, and had the pleas aggregation completely mystified. He heaved up all kind of throws, and throughout the nine sessions allowed but three puny bingles. His backing, too, at times, was of the sensational brand. Donnelly's work at first base was the feature of the game throughout. He accepted all kinds of throws with comparative ease, and his one handed catch of a difficult fly away back of the first sack, brought the stand to its feet.

The Tillyites played poor ball all through. They batted like novices and threw the ball about the field like a college team usually does.

Mr. Gero Blew Up. The high salaried Mr. Gero, was knocked off the mound in the fourth, and was succeeded by Tilly's understudy, the youthful Mr. Humphrey. This youth silenced the bombardment for some time, but also took the aviation mode of travelling in the seventh, the Clippers falling upon him in a wicked manner and buffeting his offering all over the grass, and when the diamond dust had settled down in that awful stanza the big score board on the club house had registered five runs. Mr. Humphrey's fate, however, was mild in comparison to what was administered to the Hon. Gero. From the tap of the gong, McBrine's stick-smiths went at him in a highly vengeful manner. Every man up either broke a stitch in the ball, or playfully tapped it to a saint, just to see if he could make an error.

It was a bad day for Hon. Gero. His usual serene and placid countenance was clouded with sorrow, as with every smashing crack of the enemy's willow he had visions of a panting locomotive and a trip back to whence he came.

In the fourth section of the fray he was replaced by the versatile Humphrey, and basking in the sunshine, he was allowed to warm the bench for the remainder of the proceedings.

Big Attendance. Such a band of taxpayers and suffragettes never before congregated to see the perspiring efforts of our demon athletes. Every available seat in the commodious stand was filled long before the ump gave the word go, and hundreds were unable to gain admission to the high priced seats, no matter how much of their loose change, they were willing to be separated from.

A new umpire D. Connolly appeared in our midst, and was as autocratic as the Czar of Russia. The prospect of trampling over each other, to get at that post series coin has made the men on Tilly's and McBrine's payroll a vinegary lot of individuals. Instead of looking cheerful and sharing their tobacco with

Tillyites blew up entirely. Without the semblance of a hit error succeeded error, the ball was thrown around the lot, and when matters had finally settled down the Clippers had scored the winning run. Following are the details of both games:—

THE LID ON CLEVELAND RACE TRACK

Authorities Shut Down on Betting at North Randall Track and Track May be Closed as Result.

Cleveland, Ohio, Aug. 13.—Acting under peremptory instructions from Governor Harmon, the county authorities clamped down the "lid" today on the betting ring at North Randall track, three hours before the close of the Grand Circuit race meetings. As a result it is predicted that the track may be permanently closed. Sheriff A. J. Hirsztus retired from the raid with his pockets, his hat and front of his shirt stuffed with currency and tonight a swarm of aggrieved betters are looking through the town streets for the bookmakers armed with tickets that have not been redeemed. Mysteriously the bookmakers learned at noon that a raid was scheduled. Bondsmen were on hand to provide bail in case arrests should be made. Nevertheless at 2:30 o'clock when the sheriff with his deputies appeared the bookmakers were in full voice, and a string of contented winners was warping past the little stands engaged in cashing in.

RACES AT SARATOGA. Saratoga, N. Y., Aug. 13.—Before a crowd of 15,000 persons, and amid rousing cheers, S. C. Hildreth's Dalmatian, admirably ridden by Shilling, carrying the \$6,000 Travers stakes, 1:14 miles here today. Dalmatian, carrying top weight, 125 pounds, conceded weight to his entire field and at no stage of the race was in danger. Dalmatian and his stablemate Hampton Court, were always the favorites at odds. The officers army service cup race was hotly contested and resulted in a victory for Sequence, ridden by Major Roberts.

Special Committee Will Meet. The special committee appointed on motion of Ald. Jones and Wigmore to conduct an investigation into the administration of the various services under the control of the Board of Public Works, will meet at four o'clock this afternoon.

Queen Anne Cottage Withdrawn. The Queen Anne cottage and adjoining lands on the corner of Hazen and Coburg streets owned by Mrs. Harry W. deForest, was withdrawn from sale by F. L. Potts at Chubb's Corner on Saturday noon. The highest bid was \$11,700.

Buried Yesterday. The funeral of David Lowell took place at 2.30 yesterday afternoon from his late residence, Moot Street, to the church of the Holy Trinity, Rockland road, where services were read by Rev. Father J. J. Walsh. Interment was made in the new Catholic cemetery.

A Poor Apple Crop. G. A. Morris of Upper Clarence, N. S., in a letter to J. Willard Smith, says: "The apple crop is quite a failure. I hear of orchards that are generally good for one to two hundred barrels yielding scarcely enough for home use—say five or ten barrels. Mr. Morris adds that the barrel makers will have a lot of stock to carry over."

Tenders Were Laid Over. A special meeting of the Building Committee of the Board of School Trustees was held on Saturday with M. Coll in the chair. Tenders for the erection of a school building on the Weldon lot were opened, but, after some discussion, were laid over for further consideration at a later meeting to be called by the chairman.

Mission Work in India. Rev. I. C. Archibald, a returned missionary from India, preached in the Tabernacle Baptist church yesterday morning on his work in India. Mrs. Archibald took the evening service and gave an interesting account of women's work in the eastern colony. Mr. and Mrs. Archibald expect soon to return to their mission.

The St. Stephen Bank. The first announcement to come from the committee managing affairs at the St. Stephen bank is to the effect that today checks will be mailed to all depositors for 33 1/3 per cent. of their deposits, an announcement that is heard with much pleasure by the community. The "ante" is larger than depositors were expecting at this time.

Will Remain in Glace Bay. The Presbyterian Witness says: A rumor having reached the congregation of Knox Church, Glace Bay, that their pastor, Rev. D. N. MacRae, Ph. D., might be persuaded by another congregation to leave them, a meeting and representative deputation met with him, on returning from his vacation, with the result that Dr. MacRae remains with his congregation.

Socialists Criticize Library. The Socialists are indignant because the public library has been closed nearly a month undergoing repairs and painting. They say that in any other city one part of the building would be painted at a time, so that it would not be necessary to close the whole building to the public. They also think the library authorities should have a new up-to-date catalogue arranged, printed, and made available to the public for the sum of 10 cents.

Rev. J. H. Gibbs Says Farewell. Rev. J. H. Gibbs, for some time the efficient pastor of St. Phillips A. M. E. church, Queen St., preached his farewell sermon to a large congregation last evening. He came from Bermuda in 1909 and has been very successful in his pastorate here. Mr. Gibbs was the host of Bishop Derrick, head of the Eastern Division of the church during the Maritime Convention held here last year and was transferred by the conference meeting at Yarmouth this year.

McLean, president of the association; Col. J. L. McAvity, Major H. Perley, Major J. S. Frost, Sgt. Major Lamb, Sgt. J. S. Downey and E. F. Gladwin of the 62nd regiment; James Donnelly, Lt. L. A. Langstroth, G. F. Fletcher, B. Conley, F. A. Dunston and E. R. Murray of the St. J. R. A.; Major J. D. E. McKelvie of the Hussars; W. J. Costes, A. L. McIntosh, Sgt. I. F. Archibald, Lt. C. Goes to South Africa. The St. Croix Courier says: Calvin McLean of St. John, who has a second home in St. Stephen with Mr. and Mrs. W. R. Carson, left us this week, to sail from Montreal August 27th enroute to South Africa. In the class of graduating engineers at McGill college this year, Mr. McLean stood second, and through that achievement he has secured a very desirable position with the great Consolidated Mines Co. of South Africa, where he will be employed for the next three years. He is a young man of many excellent qualities and has a host of friends here whose best wishes will follow him.

STANLEY WARREN DROWNED IN THE HARBOR SATURDAY

Sailor on Schooner Lulu Porter Fell Overboard and Drowned Within Few Feet of His Companions—Little Girl Saw Man's Hand Above Water and Told Police.

Yet another victim was added to the season's long list of drowning fatalities Saturday evening, when Stanley Warren, a young sailor fell from the deck of the schooner Lucia Porter lying at Walker's wharf, and found a grave in the waters of the harbor.

Young Warren's death is of a mysterious nature. Unable to swim he perished under the very eyes of a half dozen shipmates, who were unable to bear his pitiful cries for help. How he fell into the water nobody seems to know. That he lost his balance and fell backwards is merely a matter of conjecture.

He was of a mild retiring disposition, and no one on board seemed to know much of his past. Although signed on the schooner articles as belonging to Bangor, Maine, Warren, it is said, belongs to Goggin Mines, Nova Scotia, where he has relatives. It was about 6 o'clock Saturday evening when the accident occurred.

The schooners Witch Hazel and Lucia Porter are lying side by side at the wharf. Scarcely five minutes before 6 o'clock Warren was talking to Fred Saben, a shipmate. He started to go forward. About a minute later Saben heard a splash. He went to the side of the schooner and looked over, but did not see anything. Believing that Warren had gone down into the forecastle, he did not make any further inquiries.

Shortly after this, Sergeant Baxter, who was doing duty on Market Square was accosted by seven-year-old Caro-

line Millar, who lives on Walker's wharf, who told the officer that a man was drowned off a schooner at the wharf.

Little Girl Saw His Hand.

In reply to questions the little girl stated that she was playing about the wharf when she heard a splash and then saw a man's hand sticking out of the water. The hand remained in sight for but a few minutes, and then sank below the surface. The child had become frightened and she started and forgetting to tell any of the crew, started in search of someone on shore to tell her story. Sergeant Baxter immediately went to the schooner and made inquiries about the matter, and it was soon discovered that Warren was missing.

The tide was running strongly at the time and it is feared that the unfortunate young sailor was carried down the harbor. At low tide Officers Sheehan and Ross conducted a search for the body, but no trace of it could be found.

Before signing on the Lucia Porter about two months ago, Warren stayed for some time at Nelson's sailors' boarding house, on Water street. Mr. Nelson said last night that Warren belonged to Goggin, N. S. He was of a sober, industrious disposition, and was about 24 years old.

Captain Sprague said that Warren was not addicted to drink, and bore an excellent character in every way. A search for the body will be continued today.
