ALMSHOUSE AND ITS MANAGEMENT. CHATHAM, JAN. 18TH, 1883. EDITOR ADVOCATE:-In the "World" o EDITOR ADVOCATE:—In the "World" of 17th Inst., there appears a report of proceedings of the County Council in session on Tuesday 16th, a considerable portion of which is devoted to a discussion raised by certain remarks made by Coun. Peter Loggie, in regard to the Almshouse and its management by the Commissioners. Coun. Loggie, to say the least, must certainly have acted on very inaccurate information as his unterances on the subject are full of misrepresentation and utterly misleading. In the first place, Coun Loggie, perhaps unintentionally. place, Coun Loggie, perhaps unintentionally. stated that three people do all the work of caring for the County's poor and get but \$250 a year for it. Now Keeper Harrington's salary, as Coun. Loggie might easily have ascertained, had he cared to be correctly informed, is Three hundred and fifty dollars were user. When he was appointed to the

per year. When he was appointed to the position he agreed to take care of the House and perform all duties belonging thereto, including whatever farming was thrught necessary by the Commissioners, for the sum of \$300, receiving such help as would be rendered by his wife and daughter. In return for their board. Subsequently, on petitionrendered by his wife and daughter, in return for their board. Subsequently, on petitioning the Commissioners at one of their annual meetings, for an increase of salary, it was agreed to give him \$50 extra for that year.

For Choo's Balsam of Shark's Oil that year, it was agreed to give him \$50 extra for that year.

For Choo's Balsam of Shark's Oil that Year, it was agreed to give him \$50 extra for that year.

meetings, for an increase of salary. It was agreed to give him \$50 extra for that year, but this increase has been continued along ever since. Still, not content with this, every year at the time of the annual neetings, this canvasser and agitator comes forth to a certain petty wire-puller and intriguer, (whose business is so small and salary so large, that it allows him time for such dabbling) and gets him to manœuvre in the matter, either for increased salary for himself, or remuneration for his daughter. This button-hole politician and mesmeriser. fortified by sundry recollections of jovial times in the past, goes forth to a certain set or ring he is a member of and endeavours, by misrepresentation and a plausible manner in which he slimes down things, to agitate the matter, the outcome of which is that veut is given to it in some such way as that attempted at the County Council At the last meeting of the Commissioners on Jan. 16th, Keeper Harrington petitioned for salary for his daughter, and the motion was voted down at ouce, only two votes; that of the mover and seconder being in favor of it (one of whom is a man about leaving the County) and it is not fair to attempt to throw everything on the shoulders of the Chatham Commissioners, for if they were the only ones opposed to it, they could be easily out-voted by the thirteen other Commissioners. The meeting of the Commissioners had searcely teen adjourned before; he matter, disguised under reflections on the Almhouse management, was brought up in the Council room.

Now, the Commissioners can find a man, fully competent and qualified in every respect, willing to undertake the duties of Keeper and discharge them as satisfactorily and efficiently, if not more so than is done at present, at a salary of \$260 per year and find as much help for their board as the Commissioners will allow.

and enceionly, in not more so that is done at present, at a salary of \$260 per year and find as much help for their board as the Commissioners will allow. Moreover he will give 2 sureties of \$3 0 each, for the faithful performance of his duties, and would probably be much better liked by the inmates that the present keeper is

than the present Keeper is.

As to the crops raised on the land; the front and back fields are in hay of which a sufficient quantity is raised, over and above that used by the cattle, to sell a quantity

sufficient quantity is raised, over and above that used by the cattle, to sell a quantity averyspring, being last year about \$45 worth. The other field is used for a pasture for the cattle. Can the Commissioners pay for farming and raise potatoes and turnips at fifty cents and sixty cents per bl., for which they are bought at the wharves?

In the matter of supplies the Commissioners are more than willing to have them furnished by tender, if in that way it can be done cheaper and as good quality given. Now, all the work falls on the Chatham Commissioners to yell advisit cases to make enquiries into the circumstances, to ascertain if they are deserving \$1\$ sid and look after all business connected with the House; the Secty keeps all accounts and papers, sends away papers to \$1\$. John, Bathurst, Quebec, Montreal, Woodstock; &c., wherever they wish to go, or have a claim upon, clear of the County, see after cases requiring to be sent to the Lunatic Asylum and to Deat and Dumb Institution, Halifax; corresponds with the other 13 Commissioners an 1 attends to anything they request or order to be done for their different parishes, and everything is done in a quiet regular manner without fuss or noise. And one thing there is, during the reason and the part of the counts of the c

for their different parishes, and everything is dene in a quiet regular manner without fuss or noise. And one thing there is, during the last four years or so, no one either rich or poor can say that any request or application, either for admission to Almshouse outside relief or ticket for passage away, has been refused or not attended to. Surely then, if there is any small commission in the matter of supplies, the preference should be accorded to the Chatham Commissioners. The Secty furnishes supplies from his store.

be accorded to the Chatham Commissioners. The Sec'y furni-hes supplies from his store to the smount of a little over \$300 at a commission ranging from 1 to 5 per cent amounting altogether to about \$10 cr \$12. And he can defy anyone to take in the items one by one. (there is not suck a thing as the word sundries in any account,) and say that this or that srticle is too high or higher than it could be obtained for, from any other source. Yet when he and the other Commissioner in their public capacity, try conscientiously.

in their public capacity, try conscientiously, faithfully and honestly to do their duty to-

raithfully and honestly to do their duty towards the ratepayers, the wirepullers cannot let them alone. One of the set says there is not enough red and white flannel sent to the House, another that there is not enough farming done, and another big feeling one, that the House is run tooclose and stintingly, and so on, but if they will take the trouble to look at the stock at, they will find it a complate refutation their quibbles and prevarications, as they will see that there is full and plenty in every department. The total assessment for Poor Rates for the Parish of Chatham for 1-83 will be but \$400, and were the other departments of public service as economically and efficiently managed, the taxes would be down to one-half what they are.

Let Coun Loggie ponder over these lasts.

Newcastle, Dec. 5, 1882. HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first suc cessful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have se fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparal-leled success can be attributed to but one cause: the entire fulfilment of its promises. The proprietors have often been surprised at the receipt of orders from rem tries, where they had never made an effort for The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. AYER'S Sarsaparilla

cures Rheumatism, Neuralgia, Rheuma

tic Gout, General Debility, Catarrh, and all disorders caused by a thin and impoverished, or corrupted, condition of the blood; expelling the blood-poisons from the system, enriching and renewing the blood, and restoring its vitalizing power. During a long period of unparalleled usefulness, AYER'S SARSAPARILLA has proven its perfect adaptation to the cure of all diseases originating in poor blood and weakened vitality. It is a highly concentrated extract of Sarsaparilla and other bloodpurifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier and blood-food that can be used.

"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism, with which I have suffered for many years. W. H. Moore."

Durham, Ia., March 2, 1882.

"Eight years ago I had an attack of Rheumatism so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPA-RILLA, by the use of two bottles of which I was completely cured. I have not been troubled with the Rheumatism since. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public.
