## This Feeding Floor Could Be Built in The Fall

and it would help greatly to preserve the condition of your live stock in the Spring.

Every farmer knows that in the Spring of the year his barnyard is almost bottomless. The live stock mire down into the mud and almost float around—greatly to the detriment of their physical condition.

By building a Concrete feeding floor in the yard, this trouble is done away with.

A Feeding Floor of comparatively small

area and built this Fall, would pay for itself next year. Concrete is the only material that can be used in this way at a moderate cost.

Will you ask for your copy of the book which we have prepared for you—"What the Farmer Can Do With Concrete"? It's free—and, take our word for it, you'll find it one of the most interesting pieces of such literature you ever read. And profitable, too—because it will save you money.

## MERCHANTS AND CLERK'S ASSOC'N

Such Formed at Meeting  
Here Wednesday

A meeting of the merchants and clerk's was held in the Council Chamber Wednesday to discuss early closing on Monday, Wednesday and Friday evenings. A large and representative gathering was present and the meeting was unanimous for the early closing movement.

The matter of organizing was also discussed, and it was decided to organize the Merchants and Clerk's Association. The objects of the association are to promote the interests of all, and endeavor to cultivate a more friendly and progressive spirit.

The following officers were elected:—Pres. C. A. Alexander; Sec. Treas. Jas. McKenzie; Executive

D. J. Bruce, C. F. Clare, Harry Ferguson, E. A. LeGallais, E. J. Allingham and J. T. Mowat.

A committee of ten was appointed to interview these merchants, who had not already signed the agreement to close.

The executive committee were asked to make arrangements for a social evening to be held in the near future.

The meeting adjourned until Friday, Jan. 20th.

The following merchants have agreed to close their places of business on Monday, Wednesday and Friday evenings at six o'clock:

## WARNING

We notice in The Family Herald and Weekly Star of Montreal the publishers are warning their readers whose subscriptions expire this month to renew at once. The renewal orders and new subscriptions pouring into that Office every day are a sight to behold. In their prospectus for 1911 the Publishers promise some wonderful improvements that will make the paper even greater value than ever before, although it has always been recognized as the greatest dollar's worth to be had. Every home in Canada will be the better of The Family Herald and Weekly Star as a regular weekly

## COUNCIL MEETING

On Monday evening 16th inst., Mayor Murray presided at a small meeting of the Council there being present at the opening Councillors Mowatt, Miller and Alexander,—a bare quorum.

Town clerk read the minutes of previous meeting which were confirmed—

at which time Coun. White entered the meeting.

Communication read from A. W. Campbell chairman of Board of Management, Intercolonial Railway relative to closing of Sugar Loaf street, which was laid on the table.

Letter from F. M. Murray, re the cancellation of a coal schooner's charter, offering settlement for \$21,35 which was referred to Electric Lighting Committee.

Letter from W. H. Gray asking permit for water and sewerage for his new building on O'Leary St. Referred to water and sewerage committee. The mayor read letter from Premier Hazen relative to the promise of the Provincial Legislature to provide a sum of \$5,000 for 10 years or an equivalent in a lump sum for the purpose of paying the bonded interest of the town.

This was handed to the Finance Committee.

On report of the Assessment Committee, the following reductions were made from the assessed value of land on W. H. Gray's 700 reduction,—

D. H. Luman \$100 reduction, Chas. Audette \$100 reduction. The case of Robert Connell was continued on recommendation of committee although the assessed value was found to be correct.

The Police and License committee recommended payment of accounts totalling \$13.50. Agreed.

The Finance Committee recommended payment of accounts totalling \$121.89. Agreed.

Councillor Miller moved, and Councillor Mowatt seconded, "that the sums of money to be apportioned to the town by the government be placed in the bank of Nova Scotia to bear interest at the rate of 4 per cent per annum compounded quarterly, to be used for the payment of the present bonded indebtedness subject to legislation hereinafter to be enacted by the legislature of New Brunswick."

Carried.

After long discussion as to ways and means, Councillor Miller moved, and Councillor Alexander seconded the following motion—"whereas the town treasurer's salary for the current fiscal year only amounts to \$673.76 resolved that the council make him a special grant of \$495."

Carried.

In answer to questions, Solicitor MacKenzie gave it as his opinion that the I. C. R. had power themselves to close Sugarloaf street, but that the Railway Board wanted to put the onus of closing the street on the Council.

Councillor Mowatt, and Solicitor MacKenzie were instructed to appear at the present session of the County Council, and oppose in toto, the relief grant recently voted by that body for the town of Campbellton.

This being all the business Council adjourned.

## DARING BURGLARY

Late on Monday night or early Tuesday morning the premises occupied by Wm. Richards & Co., Richardsville, were entered and a large sum of money stolen. From what meagre details can be gathered it appears that the thieves entered the office by breaking a pane of glass in the window. The firm have been daily expecting their safe and in the meantime the cash was kept in the office in two strong covered iron drawers and one of these has been taken away. The police are naturally reticent in the matter but Chief Hughes is busy on the case. The till in the office was forced and the sum of \$5 taken away, but in the cash drawer was a large sum. The thieves seemed to know their way about as the stolen box held the larger sum while the one that was not touched contained only \$50,—this however may be accounted for by the thieves being scared away before finishing their nefarious work. Up till the present no trace of the thieves or the missing box has been found.

From what meagre details can be gathered it appears that the thieves entered the office by breaking a pane of glass in the window. The firm have been daily expecting their safe and in the meantime the cash was kept in the office in two strong covered iron drawers and one of these has been taken away. The police are naturally reticent in the matter but Chief Hughes is busy on the case. The till in the office was forced and the sum of \$5 taken away, but in the cash drawer was a large sum. The thieves seemed to know their way about as the stolen box held the larger sum while the one that was not touched contained only \$50,—this however may be accounted for by the thieves being scared away before finishing their nefarious work. Up till the present no trace of the thieves or the missing box has been found.

On Monday night or early Tuesday morning the premises occupied by Wm. Richards & Co., Richardsville, were entered and a large sum of money stolen. **BANK OF NEW BRUNSWICK.**

The general statement of the Bank of New Brunswick, as at December 31st, submitted to the shareholders at Monday's meeting, will be found elsewhere in this issue of the Graphic. This statement was outlined in the report of the meeting, and there is little to add except that it shows this long-established bank to be in an excellent position. Incorporated nearly one hundred years it was long perhaps the most conservatively managed financial institution in the country, confining its business to St. John city. Conditions have changed, however, in the banking business, and in accordance therewith a policy of expansion has been entered upon. Branches have been opened in different parts of the Maritime provinces and the management is now considering extension to the upper provinces. The Campbellton branch is in charge of Mr. R. M. Hope.

**ARE WE PREPARED?**

A great amount of work yet lies before us in this year of grace 1911. We received a terrible lesson in 1910, have we profited by it? Yes and No.—In our anxiety to rebuild our town have we taken the necessary steps to preserve and safeguard it? Are we equipped to fight even a small conflagration should it break out? These are serious questions; can we give a satisfactory answer?—Months have passed and we have yet only the primary appliances for fire fighting.—Now is the time to organize the Fire Department on a solid basis and allow it to grow with the town.—Appoint a salaried Fire Chief, one who has had a thorough training in some of the large cities,—make him fully responsible, and allow him to organize his forces into a proper state of efficiency.—We cannot do everything at once but we can make a beginning.—As the town increases those hydrants can be put down, alarm boxes placed in the streets, the site of sub-stations arranged, and proper appliances bought, and installed,—the necessity of having a Chemical Fire Engine being of paramount importance.—These things will all come we know but they are too long on the road,—and until the Fire Department is fully equipped and put on a satisfactory basis, we cannot feel secure.—The Council are doing all they can we know—but we think this matter should have precedence over everything else.

**BUY AT HOME.**

Recently in discussing the "Buy in Campbellton" question the writer was given some hard raps. One gentleman, (and by the way he belongs to St. John), why it was he, was obliged to pay twenty-five to thirty per cent. more for goods he purchased here, than he paid in St. John. He certainly believed in the "buy at home" principle, but not when merchants were charging exorbitant prices. "If," he said, "the merchants of Campbellton expect to build up a large trade they will certainly have to revise their business methods."

Another gentleman hit a more personal note. His agreement was: If the Graphic charged twenty-five to thirty per cent. more for printing commercial stationery how many of the town merchants would "buy at home". Not many and in my case this is just my position. I will not buy in Campbellton when

I can save from twenty to thirty per cent. by buying elsewhere.

Another gentleman asked us this question? Why is it that at one hardware store I pay \$2.85 cents for a keg of two and a half inch wire nails while at another I pay \$3.25. Of course we could not answer.

There is no doubt that the Graphic's campaign to interest Campbellton citizens in Campbellton's welfare is creating comment and we trust that before long more interest will be taken in this matter. Our columns are open to short, pointed letters on this subject.

**A Medicine That Does Not Cost Anything Unless It Cures.**

The active medicinal ingredients of Rexall Orderlies, which are odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say. They will, Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store, T. Wran.

**ST. ANDREW'S PRESBYTERIAN CHURCH**

The annual meeting of the church was held on Wednesday evening, under the presidency of Mr. D. J. Bruce. All the accounts were well received and the balances at the command of the various branches of the church work show healthy signs of activity. Rev. Mr. Drummond in presenting the Report of Session, paid a fitting tribute to the memory of the late Dr. Carr and asked for the continued support and consideration of the congregation in his endeavor to follow in the footsteps of his illustrious predecessor. There are 238 members on the roll, being a net increase in membership of 10 for the year ending Dec. 31, 1910. The balance of cash on hand for the benefit of the poor of the congregation is \$117.24.

In the Sunday School report Mr. D. C. Firth asked for volunteers for the teaching staff, which was very much undermanned. All the records had been destroyed in the fire, so that few comparisons could be made. The school opened in the Dimock Hall on Sept. 11th, 1910 with an attendance of 37. Since then it has increased to 159, showing remarkable progress. The collections to Dec. 31st, amounted to \$27.50.—It may be mentioned that the Presbyterian Publishing Co. have given the school all necessary supplies.

Mr. W. F. Yorston reported that the Men's Union had a membership of 19 and an average attendance of 10. Balance on hand \$18.62.

Mrs. Gerrard reported that the Women's Foreign and Home Mission Society had a membership of 50. Average attendance at meetings was 17. Cash balance on hand is \$97.44.

Mr. P. Gerrard read the report of St. Andrew's Club which showed a flourishing condition, having nearly \$300 at their back, for the purchase of a piano which is greatly needed in the club room.

In the Trustees report presented by Mr. D. C. Firth, the cash receipts were \$4623.23, expenditure \$3670.89, leaving a balance on hand of \$952.34. For the Manse and Church building Fund, the receipts were \$15,918.56 and the disbursements \$7022.13, leaving

**COUNCIL ECHOES**

Sugarloaf street still bulks large in the council eye. As already stated in the Graphic the fact remains that work on the yards and station has been suspended until this matter is disposed of. To the man in the street it appears as if the I. C. R. were insisting on the council closing this street, when they themselves have the power to do so, and for the only reason that they would be required to open up another thoroughfare for the convenience of the public and residents. It seems a small matter, yet there is a lot behind it.

We are pleased to see that the friends to be placed to our credit by the governments are to be placed in the Bank of Nova Scotia. The various banks were asked what their rate of interest would be and although we are sorry that they were not all at the same figure and thereby perhaps each getting a share, still we are doing the best for the town and getting the best return.

The special grant given the town treasurer was the best way of getting out of what might have been construed as a precedent. The treasurer's salary is really a percentage of collections and this year, with a reduced assessment and difficulty of collection, he was given even more work and fully deserves the consideration of the Council. This grant will only bring up his earnings to last year's level.

The meeting was changed to a Monday to suit the early closing merchants. There was a small meeting. Verb sap.

**The Bank of New Brunswick**

INCORPORATED 1837

Capital (paid up) \$ 774,300  
Rest, \$1,405,025

HEAD OFFICE: ST. JOHN, N. B.

**Director's Report**

The Directors beg to present to the Shareholders the following Report and Statements for the year ending 31st December, 1910.

The Net Profits for the year, after making full provision for interest on Deposits, Rebate on Current Discounts, and for all bad and doubtful debts, amount to \$142,180.44. The following disposition has been made of these profits, amounting in all to \$100,337.54. To the Rest Account has been added \$25,000, to the Pension Fund has been contributed \$5,000, there has been written off Bank Premises \$10,000, and the balance of \$1,822.00 has been added to Profit and Loss Account.

The Rest Account has been further increased by the addition of \$32,900, being the premium on new Capital Stock sold and issued during the year.

The Bank has had a satisfactory year, and the increases in the various departments show a continued growth of the business.

Branches of the Bank have been opened at Hampton and St. Stephen, New Brunswick, and at Hantsport in Nova Scotia. The sub-agencies at Newton and Petitcodiac have grown sufficiently to warrant their being made regular Branches.

The Building at Campbellton owned by the Bank was destroyed in the fire that devastated that town in July last, but it was sufficiently insured, and is now being rebuilt.

New buildings have been erected by the Bank in Fredericton, Summerside, and on Charlotte Street, St. John. These have occasioned the increase in the Bank Premises Account.

All the Branches and the Head Office have been inspected during the year, and independent Chartered Accountants have certified to the correctness of the Balance Sheet.

JAMES MANCHESTER,  
President.

St. John, N. B., 16th January, 1911.

DIED.

John W. Ferguson died on the 14th inst. in his 71st year. The deceased has been ailing since the fire at the home of his sister Mrs. Michael Murray. He was a most unselfish person and suffered great agony with Christian patience. He leaves to mourn the loss of a kind and affectionate brother, four sisters and two brothers. Rev. Mr. Drumm conducted the service at the house, and the Rev. Mr. Shurman officiated at the grave.

FAILURE OF ELECTRIC LIGHT

On Wednesday evening the electric power was off in the town for a space of twenty minutes, owing to the heating of one of the cranks. The machinery in the power house had to be shut off to allow it to cool, but Mr. Farrer soon had his lights burning as brightly as ever.

RUMORED NEW INDUSTRY

We hear it rumored in town that a proposal is afoot to establish a Pulp Mill at Tide Head. Dame Rumor, however, was ever a lying jade and the GRAPHIC is afraid that the "wish is father to the thought." Such an industry, however, would be the very best thing we could have to ensure complete success in the years that lie before us and we wonder that such a thing has not come before this, the situation is so eminently suitable.

RABIES SCARE

There has been quite a scare in Flatlands this week, six dogs having developed symptoms of hydrophobia and destroyed. One dog in Campbellton showed signs and was also destroyed. It is a mistaken idea that only dogs in hot climates are affected with rabies, as travellers tell us that dogs in the higher regions of Labrador and Greenland are often affected during a spell of extra cold weather. Where there are any signs of sickness, dog owners should take every precaution for the benefit of the public safety. Is there an order for the muzzling of dogs?

BOARD OF TRADE

The annual meeting of the Campbellton Board of Trade will be held at the Council Chamber Monday evening Jan. 23, officers for the year will be elected and much important business will come before the Board. The Board of Trade is being thoroughly reorganized and an effort will be made to elect officers and council which will take a live interest in the town's welfare and devote some of their time towards promoting the town's interests. All merchants and citizens generally should be present and lend their assistance in this important work.

CHURCH NOTICE

At the Church of England School House, Santa Claus made his appearance to a large gathering of the school children and friends on Tuesday evening. The children's friend explained the reason of his delay, blaming it on the Canadian Express Co. who had left his baggage longer than they should. Rev. Mr. Coleman was chairman, and an energetic committee of Misses Wilson and Anderson and Mr. Collier, looked after the comfort of all. The committee are indebted to the Lord Bishop of the Diocese and many friends in St. John. There were gifts for all and the children sustained the programme themselves. Coffee and cake were served to all by the ladies.

while perfect in its reproduction and musical in its tone, is not loud, strident, noisy or ear-piercing.

It is easy to make a loud Phonograph. It is an art to make a Phonograph which gives proper value to each kind of music and all within the compass of the ordinary parlor or sitting room. When you buy an Edison Phonograph you will appreciate what

It is to have an instrument that reproduces sound properly of the right volume for your house.

There are three distinct reproductions of the same music on Edison Phonographs and Gramophones. Each has its own character and its own value. The Edison Phonograph reproduces the music as it was originally performed. The Gramophone reproduces the music as it is heard through a horn. The Edison Phonograph reproduces the music as it is heard through a horn.

KIMOUSKI SALMON LAKE, SAYABEC

A very enjoyable meeting of the English boys of the Metapedia Valley took place on January 6th. The boys from Salmon Lake and Sayabec went up on the local express.

It was very regrettable that our friends from Metis and Matane could not come up, but it must be hoped that at the next meeting they shall be present.

There were fewer attending the meeting than last year, but this is accounted for, when we turn over the pages of last year's doings find that Dan Cupid has got hold of a few of those present last year.

Others have left this part of the country, but, on taking all this into consideration the answer to the "Call to Arms" was very satisfactory.

The morning past away quickly and after lunch and the customary cigars we all went over to the skating rink and some had a fairly good skate.

After this all hands went over to Mr. Edward Helleur's new home, and he and Mrs. Helleur must certainly be congratulated for their good taste, for they certainly have an ideal little home.

Most of the crowd being bachelors and some ripe enough to marry should take Mr. Edward Helleur's example and go to the parson and do the deed.

Mrs. Helleur gave us some music and we had some nice singing by Messrs. Frank and Philip Helleur, Blair, Valpy and Somerville.

All returned to the Helleur Boarding House for dinner, and after more singing went to the Theatre Populaire and saw some good subjects in moving pictures.

After this entertainment we all returned to Mr. Edward Helleur's home, we again had some good singing and also some very good music with Mrs. Helleur on the piano and Mr. Edward Helleur on the violin.

The party broke up in time to take the midnight train, and all seemed pleased with their day. Thanks are due to all who assisted, but especially so to Mr. and Mrs. Ed. Helleur and Messrs. Frank and Philip Helleur, the latter being the organizer of the meeting.

It was mentioned that in the early summer that another meeting would be organized, and we all hope that this will mature and that the meeting will be supported by all our married friends as well as the bachelors. We shall hire Cupid's services for the day.

Rimouski was represented by Mr. and Mrs. Edward Helleur and Messrs. Frank Helleur and Fairlie Blair.

Sayabec was represented by Messrs. Philip Helleur, Edward Valpy, A. N. Somerville, and C. P. Steves.

Salmon Lake was represented by Messrs. J. E. Acteson, F. J. Walker and P. J. DeGruis.

TO REMOVE TO MONTREAL The Father Morrisey Medicine Co., will remove their head office to Montreal, and will keep their factory in Chatham only if the town will agree to exemption from taxes for ten years.

One Barrel of Flour Instead of Two

YES, in the old way there was one kind of flour for bread and another for pastry.

Now, OGLIVIE'S ROYAL HOUSEHOLD FLOUR is an all-around flour. It makes not only the very best bread but also the very best cakes, pies, biscuits, rolls, muffins, pop-overs, pancakes, dumplings, anything that you want to make or bake from flour.

"ROYAL HOUSEHOLD" saves money and trouble. Instead of having two barrels of flour in the house you can get along much better with one.

And you can be certain that it is always uniform--will always come out right whether for Bread or Pastry.

ROYAL HOUSEHOLD is made from the finest grade of wheat in the world, Manitoba Red Fyfe wheat, and milled by the very finest machinery, in mills that are a model of cleanliness.

"ROYAL HOUSEHOLD" costs a trifle more by the barrel than ordinary flour but this trifle extra proves real economy when the loaves are counted. For "ROYAL HOUSEHOLD" goes farther than ordinary flour--farther in actual quantity of baked product.

Even if "ROYAL HOUSEHOLD" cost a great deal more than ordinary flour it would be well worth it for it is more nourishing.

You can't afford to buy impoverished flour at any price. You can't afford to skimp on health. And you do skimp on health when you buy flour just because it costs less than "ROYAL HOUSEHOLD".
