JUDGE CENSURED JURY BUT THEY DIDN'T BUDGE

Found Abram not Guilty on all Charges and Maintained the Accuracy of Their Verdict—Judge and Crown Attorney Comp etely Non-plussed—His Honor Scores Them.

Another rather dramatic scene occurred in court to-day, when the jury brought in a verdict of "not guilty" in the case of Rex vs Abram charged with burglarizing the Stephens' residence. The crown attorney evidently thought that it was shot without missing that Abram would be convicted. The judge charged very strongly against him, and it was thought the evidence was without a break.

"Do you," said the crown attorney, "mean to say that you find the prisoner not guilty?"

"Yes," replied the foreman.

"What," said the crown attorney, "on both counts, that is of burglary in the night, and stealing in the day-time."

"Yes," replied the foreman. "Well," spoke up Judge Bell, "this is the most extraordinary verdict I ever heard after twenty years experience. Surely upon the evidence you do not acquit him of both charges. You better retire again and consider it." The looks of the foreman and his fellow jurors bespoke instant dejection. They again retired for just a minute and promptly returned with the same verdict of "not guilty," and the majesty of the law had to be satisfied. Abram is being held on another

charge in connection with the George Stephens' burglary. Mr. Kerr defended the prisoner and expressed the view that interfering with the verdict of a jury in this manner was a gross parody and outrage on the liberty of the subject. He took exception to the action as soon as the jury retired.

REX VS DAVID KRIBBS
This was a charge of indecent assault in which a young girl of fifteen years was complainant. After the close of the crown's case, Geo. G. Martin counsel for Kribbs, submitted that no case had been made out, and the court was very much of the same opinion, but allowed it to go to the jury on the question of a common assault. Mr. Martin in a strong eloquent address covered the crown attorney's case with ridicule, much to the amusement of the court audience, and it took the jury just five minutes to acquit the prisoner.

REX VS ANDREW EPPERSON.
Epperson was then brought up and placed in the dock to face two serious charges as the result of the previous day's fracas.

Epperson is charged with murdering assaults upon Constables Cape and Thompson. He pleaded not guilty, and was ready for his trial. He said last night, however, that Mr. Martin will volunteer to defend him and move to have his trial before a High Court Judge at the fall assizes, so that medical experts from Toronto and London will pass their opinion upon his sanity. The sessions will no doubt close to-day.

ENGINEER MUST BE BOSS OR RELINQUISH HIS JOB

Mr. McNab Places his Ultimatum Before the Civic Board of Works —an Amicable Settlement Arrived at — Other Business.

"Bet you a bottle of champagne!" It was the City Engineer, who uttered the deft, and he leaned across the table to Ald. Marshall, who presided.

The chairman modestly murmured something in connection with his long established and well known total prohibition principles.

But it was Ald. Pritchard's chance. He gurgled with compressed glee for a moment, gave a little preliminary complacent cough and leaned towards the man with the bluff.

"Let me see, Mac," he said. "Didn't you and I have a little bet about something?"

"You bet we did. You won a hat from me all right, and you can get it any time at Stony's. I only impose one little condition. It's got to be one of those high flyers, like the Mayor's."

This little incident served, to pour oil upon the troubled waters and recapture the white pinioned omen of Peace that had temporarily taken to flight.

The City Engineer complained that he was hampered in his work by aldermen giving personal directions and comments. He emphatically declined to take orders from anyone except the committee or council in session. He was always gratified to have suggestions, but unless this rule was estab-

lished in connection with orders, he would immediately place his resignation in the hands of the Board.

The engineer said he was appointed to work for the city's interests and would never sign a pay sheet unless the city had got one hundred cents worth of labor for the dollar expended. If he was not running matters in the city's interests, then the aldermen would be fools to keep him a moment.

Ald. Mounteer said he had no desire to dictate but thought the Engineer had been unreasonable.

The matter was finally adjusted by a resolution setting forth that every workman should have a blue tin badge with white number supplied by the Engineer.

The chairman, Ald. Marshall, whipped off his coat when he took his seat to preside over the deliberations of the civic Board of Works last evening. Ald. Pritchard followed suit, but Ald. Mounteer took a seat by the open window and smoked serenely at his sweltering colleagues.

John Blake asked the privilege of cutting grass on Inches Ave. For the privilege of doing this he agreed to remove the weeds and thistles.

P. Kelly claimed he had drained his lot on Park Ave. into the ditch, where water was backing up. He asked relief.

Referred to City Engineer to report.

The act. of McKough & Trotter

was referred to the engineer for certification. Blonde Bros. and D. W. Crowe asked permission to lay sidewalk on the south side of Emm's St.

Referred to Engineer.

The petition to reinstate Frank Hawke as street cleaner was referred to the Engineer to report.

As the communication from S. J. Dalsen, asking city to co-operate with Raleigh in opening road at the extension of Lacroix St. to the 3rd concession, Ald. Marshall said the committee should first ascertain the cost and what Raleigh would do. The matter was left to be dealt with at a joint meeting of the committee and the representatives of the township to be arranged by the chairman.

Ald. Marshall stated that he anticipated that the new sprinkler would be here by Wednesday next.

Relative to the communication of the Chatham Navigation Co. complaining of the danger arising by the extension of a livery stable over the banks of the river, the matter was referred to the Engineer.

Ald. Mounteer drew attention to the unsightly condition of the river banks between the two bridges. He said it was bound to create an unfavorable impression in the minds of Maple City visitors.

Referred to Engineer.

The Engineer asked the Board to hasten the purchase of street signs. Ald. Marshall said that with the possibility of a high rate, it might be well to leave the matter in abeyance.

The Engineer—Pardon me, but what's going to cause this high rate? Ald. Marshall—That's a big question.

The Engineer—Well, as far as this department is concerned, I don't see where its going to come in. By comparison of figures in the purchase of lumber, sewer pipe, etc., and the 33 sheets, I find we are not spending 33 per cent. of the amount we did before my regime.

Ald. Marshall—That is very gratifying.

The Chairman of the Board of Works Chatham:

Gentlemen—I herewith beg leave to submit the following report of work done since my last return.

OUR CITY.

Now is the time to get together in the work of bolstering our good city.

Let us be civic patriots with energies consecrated to the betterment of the community.

WHAT ABOUT DOMINION DAY?

The holiday arrangement which circumstances forced upon the people of Chatham this year might be a good one to perpetuate.

It is wonderful how the average voter will allow a smart politician demagogue to pull the wool over his eyes.

THE HOT SUNDAY.

Chatham is a city of churches and its people are largely church-goers.

But in the summer months we have been often forced to the conclusion that the religious bodies of this good city were handicapped in their endeavors to retain the interest and attendance of the public by the length of the sermons preached by their ministers.

What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues.

How do they manifest themselves? In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor, general debility.

Hood's Sarsaparilla

which also builds up the system that has suffered from them.

It is the best medicine for all humors.

attention of those ministers and clergymen who were wondering last year—and will be wondering this year—why it is that people will not come to church in the summer solstice.

We do so because the force of habits acquired during the winter may need a considerable amount of resolution to break.

ARE THERE ANY "TOMS" IN CHATHAM?

It is wonderful how the average voter will allow a smart politician demagogue to pull the wool over his eyes.

But to get back to Tom Johnson: Now that Tom is very rich and owns more millions than he can ever spend, he has become a great philanthropist and is in favor of all the reforms the most wild-eyed socialist can dream of.

Tom Johnson has still large interests in street railways, and the remarkable thing about it is that he is not in favor of three-cent fares in the cities where he can give the people cheap rides just by saying the word.

No discovery in medicine in modern times has done so much to bring back the rich glow of health and the natural activity of healthy young womanhood to weak and ailing girls as has Dr. Williams' Pink Pills.

Among the many who have regained health and strength through the use of Dr. Williams' Pink Pills, the fifteen-year old daughter of Mr. G. A. Cloutier, residing at No. 8 Lallemand street, Quebec city.

Permit us to explain that in the title of The Planet's new and thrilling story which opens in this issue - "A Humble Hero" - there is no insinuation cast against the young men who so successfully saved the judge's life.

If the engineer is correct in his statement that the current expenses of the Public Works Department are but 33 per cent. of what they were formerly, he deserves a cordial vote of thanks.

It was a pleasant sight to see the cricket and baseball clubs in harness again yesterday, and both placed victories to their credit.

Whatever happened the movement to secure the election of our public school trustees by the city at large?

It is with deep regret that we observe that the Toronto Star is offering prizes for the encouragement of fish stories.

At the meeting of the Civic Board of Works last evening Ald. Mounter drew attention to the unsightly condition of the river banks within the corporation limits.

"Darling," he sighed, "I would go to the end of the world for you. Speak but the word and I will flee to the uttermost corner of the universe to prove my devotion."

Dr. Talmage's Views on the Gambling Mania.

FINANCIAL RUIN OF OTHER DAYS

A Warning to All Men Whose Moral Principles Are Not Thoroughly Settled to Keep Out of Wall Street—Honesty Pays Best for Both Worlds.

Washington, June 9.—In this discourse Dr. Talmage arraigns the spirit of wild speculation and gives some account of the financial ruin of other days. Proverbs xxiii, 5, "Riches certainly make themselves wings, they fly away as an eagle toward heaven."

Money is a golden, breasted bird with silver beak. It alights on the office desk or on the parlor centre table. Men and women stand and admire it. They do not notice that it has wings larger than a raven's, larger than an eagle's. One wave of the hand of misfortune and it spreads its beautiful plumage and is gone—as an eagle toward heaven.

What a verification we have had of the flying capacity of riches in Wall street! And Wall street is one of the longest streets in the world. It does not begin at the foot of Trinity church, New York, and end at the East river, as many suppose. It reaches through all our American cities and across the sea. Encouraged by the revival of trade and by the fact that Wall street disasters of other years were so far back as to be forgotten, speculators ran up the stocks from point to point until the present people on the outside suppose that the stocks would always continue to ascend. They gather in from all parts of the country. Large sums of money are taken into Wall street and small sums of money are taken out. Thank God, in time to warn of a great many who were on their way thither, for the sadness of the thing is that a great many of the young men of our cities who save a little money for the purpose of starting themselves in business, and who have \$500 or \$1,000 or \$2,000 or \$10,000 go into Wall street and lose all. And these are the young men who are to speak out in regard to certain kinds of nefarious enterprises now in the time.

Stocks rose and fell, and now they begin to rise again, and the young men will be ruined unless the printing press and the pulpit give emphatic utterance. My counsel is to countrymen, so far as they may hear of this business, if they have surplus to invest, invest it in mortgages and in moneyed institutions which, though paying comparatively small interest, are sound and safe beyond dispute, and to stand clear of the Wall street vortex, where so many have been swamped and swallowed. What a compliment it is to the healthy condition of our country that these recent disasters have not now destroyed the trade! I thank God that Wall street's capacity to blast this country has gone forever.

Across the island of New York in 1685 a wall made of stone and earth and cannon mounted was built to keep off the savages. Along by that wall a street was laid out, and as the street followed the line of the wall it was appropriately called Wall street. It is narrow, it is unarchitectural, and yet its history is unique. Excepting Lombard street, London, it is the mightiest street in this planet. There the government of the United States was born. There Washington held his levees. There Mrs. Adams and Mrs. Caldwell and Mrs. Knox and other brilliant women of the Revolution displayed their charms. There Washington and Hamilton, Edwards and George Whitefield sometimes preached. There Dr. Mason child Alexander Hamilton for writing the constitution of the United States without any God in it. There negroes were sold in the slave market. There criminals were harnessed to wheelbarrows and, like beasts of burden, compelled to draw or were fished through the street behind carts to which they were fastened. There fortunes have come to coronation or burial since the day when reckless speculators in powdered hair and silver shoe buckles dodged Du-gan, the governor-general of his Majesty, clear down to yesterday at 3 o'clock. The history of Wall street is to a certain extent the financial, commercial, agricultural, mining, literary, artistic, moral and religious history of this country. They are the best men in this country and there are the worst. Everything from unsweeping integrity to tiptoe scoundrelism—everything from heaven-born charity to blood-red Satanism. I want to put the plow in at the curbstone at Trinity and drive it clear through to Wall street ferry. And so it shall go if the horses are strong enough to draw the plow.

First of all, Wall street stands in a first in this country for integrity and the most outrageous villainy. Farmers who have only a few hundred dollars' worth of produce to put on the market have but little to test their character, but put a man into the seven times heated furnace of Wall street excitement and he either comes out a Shadrach, with hair unmingled or he is burned into a black moral cinder. No half way work about it. If I wanted to find integrity I would go among the bankers and merchants of Wall street, yet because they have been such villains enacted there are different times some men have supposed that it is a great financial de-bauchery, and they hardly dare go near the street, or walk up or down it unless they have buttons up to last pocket and had their lives insured or religiously crossed themselves. Yet if you start at either end of the street and read the business

signs you will find the names of more men of integrity and Christian benevolence than you can find in the same space in any street of any of our cities. When the Christian commission on the sanitary commission wanted money to send medicines and bandages to the wounded, when breadstuffs were wanted for famine-stricken Ireland, when colleges were to be endowed and churches were to be supported, and missionary societies were to be equipped for their work of sending the gospel all around the world, the first street to respond has been Wall street, and the largest response to all the land have come from Wall street.

But while that street is a type of integrity on one hand it is also a type of unbounded swindle on the other. There are the spiders that wait for innocent flies. There are the crocodiles that crawl up through the slime to catch the calf. There are the anacondas, with lifted loops, ready to crush the unwary. There are financial wreckers, who stand on the beach praying for a Caribbean whirlwind to sweep over our commercial interests.

Let me say it is no place for a man to go into business unless his moral principle is thoroughly settled. That is no place for a man to go into business who does not know when he is overpaid \$5 by mistake whether he had better take it back or not. That is no place for a man to go who has large funds in trust and who is all the time tempted to speculate with them. That is no place for a man to go who does not know whether he should take the back of the state forbidding usury or patronize it. Oh, how many men have risked themselves in the vortex and gone down for the simple reason their integrity had not been thoroughly established. Remember poor Ketcham. How soon the flying hoofs of his iron grays clattered with him to his destruction! Remember poor Gay, at 30 years of age astonishing the world with his fortunes and his forgeries. Remember that famous man whose steamboats and whose opera houses could not atone for his adulterous rides through Central Park in the face of decent New York, and whose behavior on Wall street by its example has blasted tens of thousands of young men of this generation.

I hold up the polluted memory to you, young men whose moral principles are not thoroughly settled, to keep out of Wall street. It is no place for a man who shivers under the blast of temptation. Let me say also to those who are doing a legitimate business with the bank and whose behavior on Wall street by its example has blasted tens of thousands of young men of this generation. I hold up the polluted memory to you, young men whose moral principles are not thoroughly settled, to keep out of Wall street. It is no place for a man who shivers under the blast of temptation. Let me say also to those who are doing a legitimate business with the bank and whose behavior on Wall street by its example has blasted tens of thousands of young men of this generation.

Excitement following excitement until all kinds of gambling projects came forth. There was a large com-

pany formed with a great capital for providing funerals for all parts of the land. Another company with large capital—\$5,000,000 of capital—to develop a wheel in perpetual motion. Another company with a capital of \$2,000,000 to insure people against loss by servants. Another company with \$2,500,000 capital to transplant walnut trees from Virginia to England. Then, to cap the climax, a company was formed for "a great undertaking, nobody to know what it is." And, lo, \$600,000 in shares were offered at \$100 a share. Books were opened at 9 o'clock in the morning and closed at 3 o'clock in the afternoon, and the first day it was all subscribed. "A great undertaking, nobody to know what it is."

An old magazine of those days describes the scene (Hunt's Magazine). It says: "From morning until evening 'Change alley was full to overflowing with one dense, moving mass of living beings, composed of the enormous numbers of men and women things save the mad pursuit wherewith they were employed utterly opposite in their principles and feelings and far asunder in their stations in life as the warring nations of the Statesmen and clergymen deserted their high stations to enter upon this great theatre of speculation and gambling. Churchmen and dissenters left their pews and their pulpits, and their wranglings upon church government in the deep and hazardous game they were playing for worldly treasures and for riches, which, if gained, were liable to disappear within an hour of their creation. Whigs and Tories buried their weapons of political warfare, discarded party animosities and mingled together in kind and friendly intercourse, each exulting as their stocks advanced in price and grumbling when fortune frowned upon them. Lawyers, physicians, merchants and traveling men forsook their employment, neglected their business, disregarded their engagements, and whirled along in the stream, to be at last engulfed in the wild sea of bankruptcy. Females mixed with the crowd, forgetting the station and the duties of their nature had fitted them to adorn, and dealt boldly and extensively and, like those by whom they were surrounded, rose from poverty to wealth and from that were thrown down to beggary and wretchedness, and all in one short week, and perhaps before the evening which terminated the first day of their speculation. Ladies of high rank, regarded as 'good' women, were changed and blinded by the prevailing infatuation, drove to the shops of their milliners and haberdashers and there met their stockbrokers, whom they regularly employed and through whom extensive sales were daily negotiated. In the midst of the excitement all distinctions of party and religion and circumstances and character were forgotten. A copy of the People's Common Sense Medical Adviser, sent free on receipt of 31 one-cent stamps to pay expense of mailing and customs. IT IS EASY WORK when you are well, to rub and scrub, but when the back aches and the head throbs, a woman's work is hourly torment. No woman can be the victim of those womanly diseases which are often responsible for feminine sufferings. Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the female system, say that work doesn't tire them any more. "Favorite Prescription" regulates the periods, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription," neither opium, cocaine or any other narcotic. I had poor health for nine years (ever since the birth of my child), writes Mrs. Armitage Watkins of Acme, Kansas. "I had female weakness, was very irregular and would suffer untold misery. My family doctor did not do any good and I concluded to write to you. When I wrote I had no idea that I would ever get well, but your letter reached me. I corrected my hope. I commenced taking Dr. Pierce's medicine and began to improve in strength. I was soon able to do the work for my family. I think there never were any other medicines in the world. I took eight bottles, three of 'Favorite Prescription' and five of 'Women Medical Discovery' and two vials of 'Dr. Pierce's Pellets cure constipation.'"

WROUGHT IRON RANGE CO., LIMITED Founded 1864. Paid-up Capital \$1,000,000. Factories, Salesrooms and Offices: TORONTO, CANADA, and ST. LOUIS, MO. Western Salesrooms and Offices: DENVER, COLO. We manufacture and carry a complete stock of Stoves and Kitchen goods; also the unique and HOME COMFORT WHEEL FEEDERS. Write for catalogue and prices. A SEVERE TEST. Suffered Very Little Damage By The Hull Fire.

From the Evening Journal, Ottawa, under date June 7th, 1900. Since many years "The Wrought Iron Range Co., Limited," manufactures the "Home Comfort" Stove, which they guarantee to be as resistant and durable as it is possible to make them. Their qualities have been fully shown on the occasion of the terrible Hull fire, the 26th of April last. There were eight of these stoves in that part of the city which was devastated by the conflagration; in spite of tumbling walls and chimneys, in spite of the water which flooded them, they were found perfectly preserved in the middle of the ruins. In one case, however, a cast iron pot which happened to be on one of these stoves, melted all over it; the bronze reservoirs were necessarily deformed, not a lid nor a single dish was broken nor cracked. The company has generously repaired these damages and returned these stoves to their owner in as good a condition as if they were new. The malleable iron and amianthus which enters into, as well as the method used in their manufacture, is what makes them so resistant. We have no doubt whatever that the "Home Comfort" Range stove is without a rival. F. Bernier, Willie Harper, Joseph Larose, Charles Mousseau, Herman Legault, W. N. McCormick, H. Pihlon, Camille Damour.

This latter is the popular train which has revolutionized travel in Canada since being put on by the popular Grand Trunk Railway.

PUT IN A BUSY DAY

Civic Committees all Held Sessions on Various Municipal Matters Yesterday.

Notes of the Proceedings as Jotted Down by Planet Reporters who Were Present.

FINANCE COMMITTEE. The Finance committee yesterday afternoon looked more like a court of revision on dog tax assessments than an active body appointed to safeguard the civic exchequer.

The statement of the cost of the sidewalk on the north side of Wilson Avenue was also discussed by the committee, with the ratemakers on the street.

A mistake was found in the cost of nails, and one of the men interested took exception to the charge of \$7 made by the city for the hour's work, which he said, the city engineer had put on the works, and the ratemakers promised to investigate what he termed an exorbitant charge before he paid his frontage tax.

Chairman Scane and Aldermen Cowan and McGeorge were present at the meeting. In regard to the request of Mary Ramsey for remission of taxes, no action will be recommended.

The committee will advise that the following dog tax assessments be struck off:

William French, F. Garner, Mrs. Littleton Johnson, Clifford Morrison, J. R. Watson, James Graves, John Cooper, O. Doering, No action will be recommended re the request of Thomas Walters to have his dog tax assessment transferred to P. C. Dezella. The request of Rev. F. H. Larion for the time he was here, was granted.

John D. Thompson, Frank Cartier, and John L. Paulucci, who were here to pay for the walk on the north side of Wilson Avenue, appeared before the committee to receive a bill of costs of the walk. The treasurer's books showed that the work had cost as follows: Lumber, John Piggett & Sons, \$56.49; W. N. Drader, \$36.75; Westman Bros., nails, \$3.10 and \$5.44; Peter McMillan, \$6.90; interest on money advanced, \$3.50; engineer, \$7; Solicitor's fees \$5; printing, \$4; registration of by-law, \$2—total \$134.38.

Mr. Paulucci said that only three-quarters of a keg of nails were brought near the work, and when the work was done, there was at least ten pounds left in the keg. The second amount charged \$5.44. A ratemayer on Lower street told him that he was paying \$14.24 per year for a new walk in front of a 50 foot lot on that street while the residents on Wilson Avenue had to pay \$19.19 and they had been some digging and ratemaking in connection with the lower street walk. Mr. Paulucci also found fault with the charge of \$7 made for the City Engineer's service, and promised to have this well looked into before he paid it.

The committee said that the only reduction they could offer was to recommend that the overcharge of \$5.44 for nails be refunded.

PARKS AND CEMETERY. The Parks and Cemetery committee met yesterday afternoon to consider the offers made by Mr. McLachlan of the use of his grounds on William street for a park.

Chairman McCaug and Aldermen Fleming, Pritchard and Cowan were present.

Mr. McLachlan's two proposals that the city buy or lease the grounds for park use, and that the city should recommend that the matter be left in abeyance till the end of the year, when a proposition re purchasing this property will be submitted to the people.

Mr. McLachlan's proposition was based on his desire to build a school for the accommodation of 400 or 500 pupils and he wished to know whether the city desired to assist in securing such an institution for this city or not.

PROPERTY. The Property committee met last night, those present were Chairman Taylor and Aldermen Edmondson and Fleming.

The people wanted a lamp at the corner of Duke and Wellington streets and a coal oil lamp would do. This was recommended.

The carbons they were using now were much better than the old ones and 25,000 were recommended bought. The contract for the firemen's suits was awarded to The T. H. Taylor & Co. at \$21.50.

The contract, Mr. Fleming said, was let according to price and quality. The location of boxes 42 and 13 was changed so as to get the numbers following each other closer together.

THE MACCABEE MEMORIAL DAY. The Maccabee Memorial Day, Sunday, June 16th, will be observed by Chatham Tent No. 8, in a manner befitting the Order of which we have the honor to be members.

The Tent has arranged the following program for the day:

The Sir Knights will assemble at the Lodge room at 1:30 p. m., and welcome the visitors from a distance who are going to join with us.

At two o'clock the procession will form, headed by the 24th Regiment Band, and march to the cemetery, where the beautiful Ritualistic work for the occasion will be carried out by the officers.

After the services are through the lines will reform and march back to the lodge room and disband till 6 p. m., when the Sir Knights will again form and march to the Baptist church, where Rev. F. J. Ross will deliver our annual sermon.

Let every Sir Knight be in line and show the citizens what a good turnout the K. O. T. M. can make.

Mr. Stockton was in the city for the purpose of interviewing the Mayor and getting a recommendation from him of the work done here.

THE WRONG MEDICINE

Thousands of people yearly treat their ailments with the wrong medicine. They are in the habit of jumping at the first "cure-all" they see advertised and fancy they are going to be benefited.

People should use more caution in selecting their medicines. These are times when the country is flooded with the printed boasts of experimenters. Those who have piles in any form cannot be too careful in its treatment.

The delicate membranes may receive injuries from humbug remedies that will lead to the most complicated eruptions.

Pyramid Pile Cure is the greatest remedy known to medical science. It purifies the affected parts, reduces the tumour, and takes away the inflammation. If you are troubled try it.

It is prepared by the most skilled specialists who have made the curing of piles and kindred troubles a life study.

It is now the best known pile remedy before the public. Thousands have been cured who had experimented for years with every other known remedy. Hundreds who have been treated surgically without results have been completely cured by Pyramid Pile Cure. Don't experiment with dangerous drugs nor run the risk of a painful surgical operation. This remedy is a prompt, perfect and permanent cure for the most persistent case of piles. It is manufactured by the Pyramid Drug Co., Marshall, Mich., and has found its way into every wide-awake drug store on this continent. Ask for it and be cured of a disease which may lead to fatal complications.

are constantly changing. Some dealers are always behind in their selections. Others buy undesirable and out-of-date patterns, because they can be bought at their own price. They will try to make you think they are the correct thing. Such goods are never cheap, except in price. Let us show you our line of Meriden ware. Our word for it—the patterns are the latest, the quality the best, and price we will make you will be the lowest consistent with the best that is made in plate.

How Chathamites will Spend the Summer

A SERIES OF SKETCHES OF THE CHARMING RESORTS WHICH BECKON PLANET READERS FOR THE LONG VACATION.

No. 4 Pt. Lambton

"For white are the sails in the far-away And dirty the sheets close at hand."

One might wonder how such a quotation could be applied to Port Lambton, that popular summer resort on the St. Clair, and yet it is not at all inapplicable when that beautiful rendezvous is viewed through Maple City spectacles.

Port Lambton is so far away as not to be a convenient resort for Maple City business men. They are unable to go out at night, and return in the morning with any degree of pleasure, but we have our own Eriean and so envy no one.

However, the distance of this summer abode from Chatham and the infrequency with which Maple Cityites visit it makes it appear, in the eyes of the uninitiated, as on a par with the unknown realms of the blest. This idea goes abroad because of the oft told tales of the glorious times spent at Port Lambton by those who have tasted of its pleasures. Distance, you know, lends enchantment to the view, and the unattained pleasures always seem the sweetest. It is by no means my purpose to disparage Port Lambton, for it is a delightful spot. I have been there and I know.

There was a time, before Eriean became so popular, when Port Lambton was the summer home of many Maple Cityites, both in tent and cottage. The little hamlet, after a winter of sleep, awakes to life and bustle. Then come the summer residents and the place is all brilliant with the gay dresses of the city folks and the bright faces of the home people. There is one attraction that the summer cottagers boast of, and that is the boats. Ask anyone who makes this pleasant spot their summer home what there is to interest them and they will surely say first of all, they will say "Why, the huge steamers that pass up and down the river every hour prevent ennui." What will they say when the Georgian Bay comes in sight? But it may never become a reality. There are plenty of other amusements. There is good boating and fishing. The sailing is good, too, when it can be enjoyed, but owing to the swift current this pleasure cannot be indulged in if the wind happens to be down stream, so that, in contrast with Eriean, there are days when the wind blows that the yachts must lie idle. But the wind blows out and from many quarters, so that these unsalable days come not too frequently, and, even if sailboats cannot be run, the wind makes the air cool and Port Lambton is noted for being a pleasant, delightful place, and the temperature there is always kept at a most agreeable point by these cool winds.

Then there are delightful drives along the cool and well shaded road that parallels the river. The scenery, too, is one of marked beauty. The band concerts given by the Lake Erie

R.R. bring friends from Chatham, Dresden and Wallaceburg, and these nights are eagerly looked forward to for the gaiety and fun they furnish. Robert Gray is the only Chathamite who owns a cottage there, but Mr. Gray's judgment is good and worthy of commendation. Wallaceburg and Dresden residents, however, are wide awake to the Port's charms, and people from these places add materially to its summer population. Port Lambton offers many inducements to those seeking a pleasant holiday residence and this year well deserves to be crowded with summer girls, their sisters, cousins, aunts and big brothers.

JESUS APPEARS TO JOHN.

International Bible Lesson for Tomorrow—Rev. I., 9-20.

Golden Text—Heb. xiii., 8. "Jesus Christ, the same yesterday, and today, and for ever."

Time—About A. D. 96.
Place—Patmos, a small island near the coast of Asia Minor.
1. We have the persecuted disciple.
2. In the spirit on the Lord's day.
3. What he heard.
4. What he saw.
John, like Paul, David, Jeremiah, John Bunyan and hundreds of others, finds himself in imprisonment and the place of reflection, revelation, blessing and usefulness. Jesus, on whose bosom he leaned at supper, he now sees as the head of His church in glorified form, our great Priest King, fulfilling all types and shadows of the law, as He terms (like Aaron, the high priest in the tabernacle) His churches (the lamps) in His dark world of sin, while Jesus holds the stars (His ministers) in His right hand and approves what is good in His churches. He rebukes sharply what is sinful, then counsels and encourages the churches. The Jewish high priest also used the golden snuffers with his lamps and then poured in the oil in the temple service that there might be light in the sanctuary, and here we find our Great High Priest, Jesus, clothed in the garments of His eternal priesthood at His glorious work purifying His people. "He is the same yesterday, and to-day and later ever." Are we the light of the world?

A NICE GIFT.
Mrs. A. Emerson gave a carpet rag bee the other day to a number of her lady friends.—Leamington Post.

Soft Shirts

This negligee shirt trade gets bigger and more important each summer. We went about it methodically this season as usual. Gathered every worthy new style as fast as it came into bud—brought from a maker here and a maker there, and some of the very smartest shirts we made ourselves for you.

It's odd, but a man is hardly more particular about his dress suit than he is about the tints and style of his colored shirt. It's one of the articles that reveal the wearer's taste, and there's more room for individual taste in a shirt than many more important garments. Whether your taste leans to vivid colors or to quiet, twilight things we're equally ready for you. And every correct sort of making of course.
