Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☐ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☐ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☐ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	14x	18x	22x	26x	30x
☐	☐	☐	☐	☒	☐
12x	16x	20x	24x	28x	32x

The copy filmed here has been reproduced thanks to the generosity of:

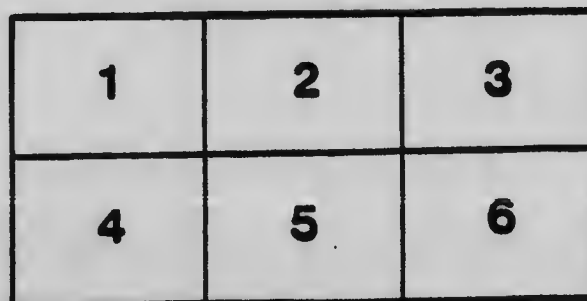

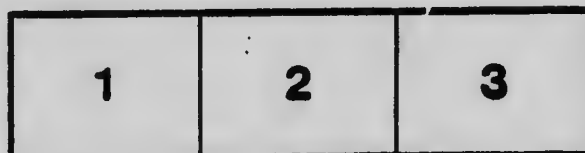

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\rightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

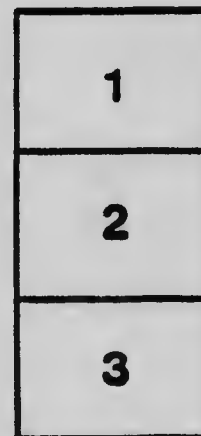

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec la plus grande soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

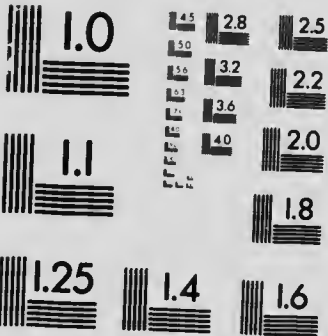

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\rightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

GEOLOGICAL SURVEY OF CANADA.

GENERAL INDEX

TO

REPORTS

1885-1906.

COMPILED BY

F. J. NICOLAS.

OTTAWA
GOVERNMENT PRINTING BUREAU
1908

No. 1000

Deac. 1985

To the Honourable

WILLIAM TEMPLEMAN, M.P.,

Minister of Mines.

SIR,—I have the honour to submit the General Index, embracing the New Series of Reports of the Survey (1885–1906).

The observations of the Survey embodied in its reports accumulate rapidly and unless a general index is prepared from time to time valuable information becomes buried under a mass of succeeding publications to be lost sight of by the public or only to be found by long and diligent search.

The material collected by the Survey from 1847 to 1863 was condensed and systematized in the *Geology of Canada* published in 1863, which was virtually a General Report of Progress to date.

In 1897, under Dr. DAWSON's instructions, Mr. D. B. DOWLING prepared a general index covering the Survey's publications from the 1863 report to the end of the Old Series, 1884 report, inclusive. The New Series, which commenced with the 1885 report, contains individual indexes, and consequently, for some years, did not call for a general index, but by 1901 the number issued had become so large that Dr. BELL commissioned Mr. FRANK NICOLAS to compile a full index to these reports. This heavy task was accomplished in his time after office hours. The original intention was to exclude minor references to palaeontology, botany and glaciation but at the request of officers of the Survey interested in such sections of geology, the author extended his work to cover these subjects, without extra remuneration. This was only possible through the help of officers especially interested, which the author fully acknowledges.

The work was undertaken in May, 1904, and completed in May, 1906. In view of the conditions under which the work was accomplished, the accuracy required, and the magnitude of the task—about 180,000 references are included—it is evident that the author has displayed commendable zeal and expedition.

It is believed that this Index will materially aid the public in readily obtaining desired information from the New Series reports.

This, combined with the former index (1863–1884), forms a complete index to the English edition of the Survey publications. Lists of these publications are issued from time to time and may be obtained by anyone, on application to the Survey.

I have the honour to be, Sir,

Your obedient servant,

R. W. BROCK,
Acting Director.

OTTAWA, January, 1908.

A. P. Low, LL.D., &c.,

Deputy Minister and Director,

Geological Survey of Canada.

DEAR SIR, I have the honour to submit, according to the contract originally made by Dr. R. BELL, and subsequently endorsed by you, a General Index to the "Annual" volumes, sixteen in number, published by the Geological Survey since 1884. These volumes, though nominally "Annual," sometimes include the reports of two years; they contain most of the principal publications issued by the Survey during the last twenty-two years.

It was not until a large portion of this work had been completed that Parliament passed a Bill constituting the new provinces of Alberta and Saskatchewan and cancelling the territories of Assiniboia and Athabaska. The change naturally entailed a great amount of work in bringing the references to conform to the new boundaries; had it not been for these necessary changes this Index would have been published much earlier.

I take this opportunity of acknowledging that without the help of all the officers of the Geological Survey this work could never have attained accuracy. That help has been given, in every case, unstintingly. To the Paleontologists of the Survey, and especially to Dr. J. E. WHITEAVES, who has revised every galley, are due the excellent fossil and zoological references included in the work; and similar acknowledgments are due to Prof. J. MACOUN and Mr. J. M. MACOUN for the careful manner in which they have checked the botanical and ornithological lists.

As regards the other officers of the Department there is not one who has not, from time to time, given me valuable help, but I must tender special thanks to Mr. D. B. DOWLING, whose intimate knowledge of the Grass River district and the coal areas of the Rocky mountains, together with his previous experience gained in indexing the Geological Survey reports from 1863 to 1884, has added much to the usefulness of this work; to Mr. HUGH FLETCHER, whose lively interest in the work from its initiation and whose many years of exploration in Nova Scotia enabled me to follow the reports of that province much more ably than could otherwise have been possible; to Dr. R. W. ELLS, who took an immense amount of trouble in elucidating many of the geographical and geological features of New Brunswick and Quebec; to Mr. W. McILNNE, to whom the correct locating of the innumerable streams and lakes in the Rainy River and southern Thunder Bay districts is mainly due; and to yourself, who, though overburdened with the cares of Directorship, never grudged the time to adequately discuss references to northern Quebec, the unpronounceable names of Labrador and the position of numerous questionable localities in Franklin.

The geographical names of this Dominion had, in many cases, become so distorted by local use or by careless authors and map-makers, that Parliament appointed, in 1898, a Geographic Board, to give decisions on disputed nomenclature. In order that this General Index should be made as far as possible a standard work in regard to the correct

spelling of the names of Canadian localities, Mr. JAMES WHITE, Dominion Geographer, a member of the Board, carefully revised the first three hundred pages and, but for the necessity of his visit to England, would have continued to check the entire work. In the balance of the Index the spelling of the names is in accord with the decisions of the Board, so far as they were published up to the time of going to press.

A special point has been made throughout the volume, of supplying, whenever possible, the full initials of any person to whom reference has been made. In connexion with this endeavour, over one thousand letters have been written asking for information and all but seven have elicited replies. For information of this description I am especially indebted to Mr. C. C. CHURMAN, Commissioner of the Hudson's Bay Company at Winnipeg.

As to typographical errors the compiler believes that the Index will compare favourably with any similar work published in Canada and for this he tenders his grateful thanks to his assistant Miss ETHEL WHITE, whose vigilance and untiring efforts have very largely contributed to make this work of reference worthy of the reports of which it endeavours to form a synopsis.

Your obedient servant,

FRANK NICOLAS.

OTTAWA, January, 1908.

ABBREVIATIONS.

Alta	Province of Alberta, (including the former territory of Alberta and the western portions of the former territories of Saskatchewan, Assiniboia and Athabaska).
B. C.	Province of British Columbia.
C. B.	Cape Breton.
C.P.R.	Canadian Pacific Railway.
Frank.	Provisional district of Franklin*.
G.T.R.	Grand Trunk Railway.
H.B.C.	Hudson's Bay Company.
I.C.R.	Intercolonial Railway.
Kee.	Provisional district of Keewatin*
Lab.	Labrador and the provisional district of Ungava*.
Mack.	Provisional district of Mackenzie*.
Man.	Province of Manitoba.
N. B.	Province of New Brunswick.
N. S.	Province of Nova Scotia.
Ont.	Province of Ontario.
P.E.I.	Province of Prince Edward Island.
Q.C.I.	Queen Charlotte islands.
Que.	Province of Quebec.
R. M.	Rocky mountains.
Sask.	Province of Saskatchewan, including the eastern portions of former territories of Saskatchewan, Assiniboia and Athabaska
V. I.	Vancouver island.
Ykn.	Territory of Yukon.

The above divisions have been chosen in consultation with the Dominion Geographer as being, on account of general usage, the most suitable. According, however, to Act of Parliament, Keewatin, Ungava, Mackenzie and Franklin have no legal existence, the whole being included under the general term North-west Territories, while Labrador includes only that portion of the Atlantic coast under the jurisdiction of Newfoundland.

As defined by Order in Council.

NOTES.

With the exception of the new provinces of Alberta and Saskatchewan, and the districts of Ungava and Labrador (which are included under the abbreviation "Lab."), the provinces, provisional districts and territory mentioned in this Index are those coloured in the map of the Dominion of Canada published by the Department of the Interior in 1903.

Throughout this work all localities in Ottawa county, Quebec, have been referred either to "Labelle county" or to "Wright county." These divisions are not "counties" in the accepted meaning of the term, but are electoral divisions for the Federal Parliament and are Judicial divisions for Provincial Government purposes.

For purposes of more exact reference certain areal names are used in the Index that are not the names of political divisions but refer to areas covered by published geological map-sheets.

These are : -

Grass River dist.—comprising the area to the northwest of Lake Winnipeg, lying between the lower Saskatchewan river and the Churchill river and between Cumberland lake and the Nelson river.

Manitou dist. comprising that part of Rainy River district to the east of Lake of the Woods and north of Rainy lake extending from Hawk Lake station to Taché station on the Canadian Pacific railway and from the foot of Manitou lake to a few miles north of the railway.

Ignace dist. comprising a rectangular part of Rainy Lake district cut diagonally by the Canadian Pacific railway between Taché and English River stations and extending about twenty miles to the north and south of the railway.

Seine River dist. comprising the part of Rainy River district lying to the north of Hunter island and to the south of the last named area and extending from the boundary of Thunder Bay district westerly nearly to Rainy lake.

Shebandowan dist. comprising the part of Thunder Bay district lying between its western boundary and Thunder bay and extending north and south between Carlstaet station and Port Arthur.

Grindstone quarry work by, Lower Cove, N.S.	13 s	XI
	15 s	XIV
	16 s	XV
	14 s	XVI
Atlin, CASSIAR DIST., B.C.		
Glaciation at.	13 B	XII
Hydromagnesite from.	10, 12 R	XI
	192 A	XII
photo. Facing	47 B	XII
Magnesite near	46 B	XII
	72 A	XII
Mineral water near	22, 23 R	XII
Rocks at, and near.	62 A	XIII
	21, 22 B	XII
Atlin lake, CASSIAR DIST., B.C.		
Copper on.	69, 70 A	XII
Depth of.	28, 46 B	XII
	8 B	XII
Earthquake on.	53, 54 A	XIII
Flora from.	62 A	XIII
Gold on, and near.	210, 211 A	XII
Throughout Pt. B.		XII
Hydromagnesite on	190 A	XII
Ice season of	12 R	XII
Indian relics from	207 A	XII
Magnesian spring on.	235 A	XIV
analysis.	59 R	XII
	233 A	XIV
Rocks on.	58, 59 A	XII
	19, 21, 23, 27 B	XII
	53, 58, 59 A	XIII
Terraces on.	10, 11 B	XII
Atlin Lake div., CASSIAR DIST., B.C.		
Fossils from	262 A	XIV
Gold fields of, maps of.		XII
ref. to.	247, 248 A	XIV
mining in, hydraulic.	203 s	XV
	114 s	XVI
Production of, 1898.	154 s	XI
1899.	107 s	XII
1899-1900.	62 A	XII
	44 B	XII
1900.	120 s	XIII
1901.	121 s	XIV
1902.	202 s	XV
1903.	117 s	XVI
Report on, by Gwillim.		
summary.	52, 75 A	XII
	52, 62 A	XIII
Rocks on, petrographic work on.	144 A	XIV
Tailings from sluice-boxes in, tests on.	11-13 A	XIII
Atlin Lake Hydraulic Mining Co.

GENERAL INDEX

Bell, Dr. Robt. *Cont.*

PAGE. VOL.

Ref. to surveys by, in:—

Sask.

Ref. to work by, in entomology, 261 A I

On Royal Commission, 1890, 12 H XIV

Representative, in Vienna, of Royal Soc. of Can., 1903, 17 AA XV

Reports by, on explorations in:—

Atrawapiskat and Albany Rivers dist., Pt. 6, II

French River sheet, Ont., Pt. 1, IX

Hudson bay and strait, Pt. 10, I

Hudson strait, Pt. 1, VI

Nottaway River basin, Que., Pt. 6, VIII

Sudbury dist., Ont., Pt. 1, A

Summary reports by, on surveys in:—

1887, Timiskaming and Abitibi districts, 22 27 A III

1888, District of Lake Huron, 74 80 A III

1889, Sudbury dist., Ont., 29 A IV

1891, District N. of L. Huron, 31 35 AA V

1892, 30 33 A VI

1893, 33 39 AA VI

1894, 52 55 A VII

1895, Nottaway River basin, Que., 74 84 A VIII

1896, 64 74 A IX

1897, Hudson strait, 75 83 A X

1898, Michipicoten dist., Ont., 99 105 A XI

1900, 109 121 A XII

Summary reports by, as Acting Director:—

1899, Pt. A XII

1900, Pt. A XIII

1901, Pt. A XIV

1902, Pt. A XV

1903, Pt. AA XVI

1904, Pt. A XVI

Snails found by, in Newfoundland, 357 A XVI

Synopsis of Rep. by, 1882, on L. of the Woods dist., Ont., 9 C I

Views of, re elevation of Hudson Bay shores, 58 R II

42 R III

32, 61 J III

191 F IX

50 D XII

124 A XVI

Kewatin series in Rainy river, Ont., 27 F III

Lower Cambrian of Kee, 7 A XIV

Manitoumuk group, 8 B II

oil fields of Gaspé co., Que., 342 A XV

origin of apatite, 100 K IV

tar-springs, 14 O XII

pyrrhotite of Sudbury, Ont., 34 D V

topographic surveying preceding geologic, 12 A XIV

101 A XI

101 A XVI

Visit of, to Columbian Exhibition, 1893, 37 AA VI

Visit of, to U.S., re geological nom- enclature, 35 AA VI

Work by, 1874, 17 E V

1885, 16, 56 A I

1887, 22 A III

1888, 7 I X

1889, 77 A III

1890, 29 A IV

1891, 41 A V

1892, 26 AA V

Catchacoma lake, PETERBOROUGH CO., ONT.	106 A	XI	Cattle <i>Con.</i>		
<i>Catenopora agglomerata</i> , Hall.			Graham island, B.C.	12 B	XVI
See <i>Halysites catenularia</i> , L.			Manitoba, suitability of, for raising	24 E	V
<i>echinoides</i> , Lamarck.			Poisoning of, by larkspur.	146 A	X
See <i>Halysites catenularia</i> .			Westmorland co., N.B.	136 M	VII
Catfish. See Mudpout.			Cattle valley, TRACHYTE HILLS, YALE DIST., B.C.		
Catfish creek, L. WINNIPEG, MAN.	82 G	XI	Composition of hills of	83 B	VII
Catfish lake, PETAWAWA RIVER, ONT.			Volcanic rocks, with limestone, marl.	42 B	VII
Timber on.	193 A	XIII	Canda-gall formation.		
Catfish pt., L. WINNIPEG, MAN.	31 G	XI	Memphremagog lake, Que.	9 J	VII
Catfish pt., PLAYGREEN LAKE, KEE	14, 15 G	XI	Candron, O.	178, 179 A	XV
Catfish river, L. WINNIPEG, MAN.			Canguinawaga, LA PRAIRIE CO., QUE.		
Description of shores N. and S. of	31 G	XI	Building stone at	126, 128 K	IV
Catching lake, MISITTO RIVER, KEE	154 F	IX	Fossils from, Chazy	122, 123 J	VII
<i>Cathartes aura</i> See Vulture, turkey.			Rocks of	25 T	IV
Cathawachaga pt., KAZAN RIVER, KEE.	134 F	IX	Cauk. See Barytes.	21, 28 G	XIV
Cathcart, BRANT CO., ONT.			Cauliflowers.		
Boring at, for oil.	45 G	A	Mentioned as growing at -		
Cathcart pt. See McKellar pt.			Albion lake, Que.	142 A	XIV
Cathcart tp., JOLIETTE CO., QUE.			Burntwood river, Kee	36 F	XIII
Amorphosite in	116, 123 J	VIII	Dawson, Ykn	44, 52 A	XX
Crystalline limestone and marble in	24, 26, 149, 152 J	VIII	Dease lake, Cassim dist., B.C.	77 B	III
Graphite in	149 J	VII	Grass River dist., Kee	7 F	XIII
Gold in, prospecting for.	148 J	VII	Cauliflower pt., L. ALBION, ONT.	121 A	XIV
Quartz from, assay of	34 B	VII	Caulier, Aulus	90 H	III
Cathedral mt., ATLIN LAKE DIV., B.C.			Causapscal river, MAITANE CO., QUE.		
Rocks of,	39 B	XII	Fossils from	13, 15 M	III
granite-porphry.	54 A	XIII	Survey of, by Ellis	8 A	I
Cathedral mt., BANFF DIV., ALTA.			Cavagnol pt. See Point à Cavagnol.		
Assay of quartz from	53 B	IV	Cave creek, NEWTON CO., ARKANSAS.	72 AA	VI
Fault to west of	38 D	II	Cavendish, QUEENS CO., P.E.I.		
Quartzites of	39 D	II	Boulder clay of,	55 M	VII
Section across	With Pt. D	II	Direction of glacial striae at,	83 M	VII
Spur of Bow range	140 B	I	Cavendish tp., PETERBOROUGH CO., ONT.		
Cathedral rocks, PORCUPINE RIVER, Ykn.			Rocks of	123 A	XII
Crinaceous shales near	138 D	IV	Surveys in, 1885	49 A	I
Catherine tp., NIPISSING DIST., ONT.			1891.	148, 247 A	XIV
Copper north of	217 A	XVI	Caves.		
Gold prospecting in, advisable.	224 A	XVI	Fairford Mission, L. Manitoba	195 E	V
Cattell, Prof. Charles			Hants co., N.S.	61 AA	VI
Polydymite discovered by and Clark.	53 F	IV	Pictou co., N.S.	169 F	II
See also Clarke and Cattell.	11, 17, 39 B	XIV	St. John, N.B. (in limestone)	17 G	I
<i>Catocala concavensis</i> , Walk			Upper Stewiacke, N.S.	92 F	V
Sault Ste. Marie, Ont.	89 F	V	Wakefield, Que.	74 J	XII
<i>relucta</i> .	204 AA	XV	White Man pass, Alta.	112 B	I
Caton island, ST. JOHN RIVER, N. B.			Cave rapid, OTTAWA RIVER.		
Formation of	68 X	IV	Altitude of	282 I	X
<i>Chadus pulcher</i> from	36, 55 A	IV	Notes on, by Barlow	169, 180, 181 I	A
<i>Catostomus catostomus</i> , See Sucker, northern.			Cave rapid, WINNIPEG RIVER, ONT.	151 E	IV
<i>forsterianus</i> , Richardson.			Cawki. See Barytes.

 Fossil collection of, in Peter Red-
 path museum, 30 m
 Names "Saxicava sand" and "Leda
 Clay" given by, 7 G
 Ref. to list by, of fossils in "Saxicava
 sand of N. B." 42 G
 Ref. to Surveys by, in:—
 Manitoba, 14, 15 E
 Nova Scotia, 14 E
 7, 9, 18, 33, 69, 84, 93, 103 p
 53 m
 129 d
 113 s
 28 m
 Ontario, 24, 174 f
 Quebec, 44 G
 6 J
 10 m
 Ref. to paper by, on Ornamental
 stones of Ancient Egypt 133 J
 Remarks by, on:
 apatite deposits of Burgess and
 Ainsley, Ont. 13, 14 d
 coal measures on Kennetcook
 river, N.S. 171 v
 fossil woods from Lewis river,
 Yuk. 146, 147 b
 Post Glacial formations, Rainy
 river, Ont. 150 E
 sandstones of Malagash pt., N.S. 165 v
 structure of Cobeguid hills, N.S. 151 f
 Scythopus muriei of, ref. to 82 J
 Section by, of rocks at Malagash,
 N.S. 148 p
 Subdivisions by, of Carboniferous
 of N. B. 17 m
 Views of, regarding:—
 agricultural possibilities of Rainy
 Lake dist., Ont. 176 F
 coal in P. E. I. 369, 370 v
 Eozoon canadense, 77 A
 fossil flora of Kootenay series, 162 b
 fossils (Carboniferous) of N.B.
 Port McNeill, V.I. 25, 33 g
 South River lake, N.S. 55 p
 fossils, Similkameen dist., B.C. 75 b
 glaciation in Lower St. Lawrence
 18 m

Dawson, Sir William *Con.*

- Views of, regarding:—
 origin of apatite, 92 k
 Digby Gut, N.S. 24 m
 manganese in N.S. 59 m
 rocks, Antigonish co., N.S. 6, 18, 36, 70 p
 Guysborough co., N.S.
 (L. Cambrian), 44 p
 Miocene of Greenland 12 b
 New Glasgow conglomerate
 193 p
 Work by, 1857-58, 96 G

Dawson, W. Bell

- Map work by, 1897, 114 v
 Donation from, 112 v

Dawson, S. J.

- Sand examined for, 30 R
 Altitudes in Man. determined by, 148 E
 Rainy Lake dist., Ont.
 determined by, 13 F

Dawson, Klondike Dist., Yks.

- Altitude of, 7, 70 b
 43, 52 A
 Bench near, rock-cut, 8 b
 Climate of, 210 A
 45, 53, 54 A
 Flora and soil of, 39, 42, 44, 47, 48 A
 Position of, 6 b
 Route to, from the White pass, 40 v
 Timber supply for, 50 b

Dawson Bay, L. Winnipegosis, Man.

- Brine springs on, 24, 59 E
 analysis, 26, 29 R
 291 s
 Description of, by Macoun, 60 E
 Geology of, 172-186 E
 Islands of, note by Tyrrell, 22 A
 photos of, Frontis. Pl. R
 surveyed, 1888, 75 A

Dawson claim, Sturgeon River, Ont.

- 93 A

Dawson Inlet, Graham Island, B.C.

- 10 B

Dawson Inlet, Hudson Bay, Keew.

- Notes on, by Tyrrell, 86 F
 Striae on, 182 F

Dawson Island, L. Huron, Ont.

- Slate conglomerate on, 185 A

Dawson peaks, Athol Lake Div., B.C.

- Altitude of, 53 A
 Flats west of, 56 A
 Quartz from, assay of, 47 E
 Rocks of, 54 A
 31 B
 west of, 58 A

Dawson (Wabigoon), L. Timiskaming, Ont.

- Lithographic stone at, 155 f

Dawson properties, Miller Tp., Frontenac Co., Ont.

- Feldspar from, 221 s

Dawson route, Rainy River Dist., Ont.

- Notes on, by McInnes, 12, 13 b
 Notes on, by W. Smith, 15 G
 Rocks on, 69 C

Harrington, LISCAR DIV., MAN. 146 E

Harrington copper mine, ASCOT
TLE, SHERBROOKE CO., QUE. 50, 51 K

Marsh hill, AROOSTOOK CO., MAINE.

Altitude of 6, 10, 21 G

Conglomerates of 7 M

Marsh Island, QUEEN CHARLOTTE
SOUND, B.C. 52 B

Marston, C. F. 79 K

Marsh, J. D. 37 M

Marsh, Prof. C. C. 163 B

9 A

Marsh, Rev. T. J. 6 C

Marsh hay, St. JOHN CO., N.B. 12 S

Marsh brook, McLELLAN BROOK,
PICTOU CO., N.S.

Contorted area near 10 M

Coal seams on 13 M

Section of strata on, ref. to Logan's,
19, 24 MMarsh colliery, CASCADE BASIN,
ALTA.

Analysis of coal from 20 T

61 S

85 S

Coal horizon of 45 S

outcrops of 133 B

seams of 48 S

69 S

Marsh colliery, PICTOU COAL FIELD,
N.S.

Coal production of, 1901 32 S

Operations at, 1902 63 S

Section of; accident in 19, 36 M

Marsh harrier. *See* Harrier, marshMarsh lake, N. OF TAGISH LAKE,
Y.K.N.

Anthracite west of 46 A

Character of 8 B

Dawson's report on 163, 164 B

Description of river between, and
Tagish lake 165 BDiabase porphyrite from, lithology
of 235 B

Fall to, from Little Atlin lake 9 B

Indians between, and Tagish lake 204 B

Meteorological observations at 247 B

Marsh lands. *See* Swamps.

Marsh sett., PICTOU CO., N.S.

Syenitic rocks of 14 F

Marshall, James 109 A

Santucket Island, Bay of Fundy, N. B.	273 A	XVI
Saukokan lake, Chibougamau CO., QUE.		
Meteorological observations on	384 E	VIII
Notes on, by Low	492, 205 E	VIII
Sapun river, Miramichi Bay, N. B.		
Boulders near	43 N	III
Marine deposits along	9 N	III
Soil of valley of	29 N	III
Sapance, Adirondack CO., ONT.		
Ice markings near	77 J	XIV
Kingbird from, egg of	405 A	XV
Trenton limestone in	479 A	XIV
quarries	484 A	XIV
Sapance Cement Works Co.,	491 SS	A
Sapance Gold Mining Co.,	62 K	IV
Sapance Mills, Adirondack CO., ONT.		
Cement from, specimen	158 A	VI
works at	190 S	V
	491 SS	A
Terracotta works at	496 S	A
Sapenberger process.		
Adoption of, at Walker graphite mine, Buckingham tp., Que.	72 SS	V
Sapier.		
Voyage of, 1737	32 I	IX
Sapier Gold Mining Co.		
Notes on, by Fairclough, 1903	484 AA	XV
Operations of, 1892	436 S	VI
1897	446 S	X
1902	448 A	XV
Sapier lake, Kamloops Bay, B. C.		
Nicola formation near	425 B	VII
Pyrites of, amorphous	312 B	VII
Quartz from, assay of	64 R	V
Tertiary rocks on, and near	233, 235 B	VII
Sapierville, Napierville CO., QUE.		
Cambro Silurian near	48 J	VII
Sappan, Cumberland CO., N. S.		
Changes in level at	23 M	VII
Copper near	104 A	X
chalcocite, description	14 R	IX
Experimental furnace	52 A	VI
Gypsum at	137 M	VII
at	68 E	I
Sappan river, Cumberland CO., N. S.		
Agricultural land in valley of	55 G	I
Sandstones and shales on	14 E	I
Shore lines east of	41 AA	A
Saptha. For Statistics of, See under Oil statistics		
Sarnak Islands, Great Bear Lake, Mack.		
Description of, by J. M. Bell	46 C	VII
Sares, George	12 R	II
Sares lake, Lewis River, YKN.		
Distances from, to neighbouring lakes	465 B	III
Notes on, by Dawson	166 B	III
Photo of	166 B	III
Volcanic ash near	43 B	II
Sarraway, J. E.	465 A	XV
	204 AA	XV

Pointe de Roche, L. ALBERTA.

Limestone at, fossiliferous, 24 A A
Sandstone at, 24 A A
51 D A

Pointe de Roche, GREAT SLAVE LAKE, MACK.

Description of, by McConnell, 73 D IV
Meteorological observations at, 149 D IV

Pointe des Fourches, STE. ANNE DE LA PÉRADE RIVER, QUE.

Bog iron ore from, 68 L A
Ochre from, 68 L A
Striae at, direction of, 49 L A

Pointe d'Orme, ROSEAU RIVER, MAN. 154 L IV

Pointe du Lac, St. MAURICE CO., QUE.
Bog iron ore of, 59 L XI
Ochre deposits of, 146 K IV
40 L IV
133 S A

Point Edward, LAMINGTON CO., ONT. 155 A XIV

Point Lake, COPEMINE RIVER, MACK. 16, 24 R II

Point Maquereau, BONAVENTURE CO., QUE. 16, 19 M II

Point mine, LEITCHFORD GOLD FELD, N.S. 324 A XVI

Point St. Peter, GASPE CO., QUE.
Anticline of, 124 S VI
343 A VI
Boulders at, Laurentian, 253 A XVI
Coal at, 82 K IV
Fault near, 343 A VI
Oil near, 83 K IV

Pointe Seul, SLAVE RIVER, MACK. 44 S D IV

Polfer, Hon. Pasent 29, 30 R VIII
191 A VII
10 G VII

Polson hill, SLEWOLAKEN HILLS, TULLOCH DIST., B.C.

Dabase porphyrite from, petrography, 354 L VII
Geology of, 224 B VII
Quartz from, assay of, 72 R VI
Rocks north of, 141 R VI
Sketch of basalt rocks viewed from, 225 L VI
Striae on, direction of, 254 R VI
Temperature observations near, 425 R VII

Pokegama falls, MISSISSIPPI RIVER, U.S. 46 E IV

Pokegama quartzite (MEAL) RIVER 384 A XVI

Pokemouche, GLOUCESTER CO., N.B.

Hay grown on salt marshes at, 50 M II
Peat bog at, 29 M II
Sand at, 39 M II

Pokemouche harbour, GLOUCESTER CO., N.B.

Estuarine flats on, 51 M II
Peat bog near, 23 S III
77 M A

Poker creek, WALKER CREEK, YUKON AND ALASKA 35 A XIV

Pokesaw, GLOUCESTER CO., N.B. 47, 36 M II

Poklok bridge, TORREY RIVER, N.B. 6 G I

Soules, F. J. (1892)

Rept. by on gold mining, Lalor
dist., B.C., 1894 174, 177, 88 A
1892 180, 187, 8 A

Soules mts., Marble Mt., QUE.
Asbestos on 4 A

Soulanges canal, QUE.
Dendrites from 112 A IX
Glacial strata on 73 A A
39 A A

Soulanges co., QUE.
Potsdam formation in 49 C XIV

Soulanges tp., Soulanges co., QUE.
Cambro-Silurian of 49 C XV

Soulier pt., PLAIN GREEN LAKE, KEELE, ONT.
131 A XII

Sounding creek, BATTLE RIVER, ALTA.
Altitudes on 170 I II
Fossils from 154 E II
Minor refs. to 140 II
Notes on, by Tarrell 320 C

Sounding lake, MEDICINE HAT, ALTA.
Alga discolouring water of 350 II
Altitude of 15, 170 E II
Belly River series on 83 E II
Cree and Stoney names of 35, 173 E II
Description of, T. H. 34, 35 A II
Poplars south of 32 E II
Surveys on, and near, ref. to 46 A I
43 I II

"Sour springs," TISCAWAGA, BRANT CO., ONT.
61 I IV

Sourdough gulch, BONANZA CREEK, KENDRICK DIST., YUK.
33, 34, 37 G XIV

Souris, BRANTON DIV., MAN.
Altitude of 147, 148 E IV
Clay from, analysis of indurated 33 R VI
Cretaceous shales near 122 A XV
for bricks 187, 188 A XV
Water from boring in, analysis 74 G VI

Souris, KINGS CO., P.E.I.
25, 79, 79 M VII

Souris colliery, SOURIS COAL FIELD, SASK.
Coal measures near 90 A XV
Minor refs. to 49 S XV
Notes on 47 S VI
12, 14, 25, 27 I XV
Work at, 1902 49, 68 S XV

Souris lake, CHODURCHIE RIVER, SASK., H.S.D.
VIII

Souris lake, DELAVALL, MAN.
86, 87 E IV
183 A XV

Souris mts., BRANTON DIV., MAN.
45 S A

Souris river, SASK., MAN., AND U.S.
Altitudes on 23, 437, 147, 148, 154 E IV
Coal on 5, 6 A VI
182 A XV
Throughout P.E.I. A
Drainage of 8 I XV
Fossils from 127, 68 A I
Glaciation on 22, 51 E IV
beaches 62 E IV
Gorge cut by, through Tiger hills 34 E IV
Laramie of 43 C I
Minor ref. to 38 S XVI
Notes on, by Upham 25 E IV

Three Rivers, Can.

- Summary Reports on geology of
 Hills, 1898 111-118 A XI
 Giroux, 1892 40-45 A XI
 Laflamme, 1886 367-38 A XI

Three Sisters mts., NEAR CANMORE, ALTA.

- Rocks of, Cretaceous 133 B I
 limestone 112 B I
 folding in 88 A V
 Sketch section of 109, 110 A XVI

Three Sisters rapid, L'ASSOMPTION RIVER, QUE.

- 10 J VII

Threestree creek, OROMOCTO RIVER, N.B.

- Carboniferous fossils from 28, 29 M VIII
 Coal and coal boring on 64, 66 M X
 23, 34 M VIII

Throat river, BERENS RIVER, KEELE, N.B.

- 28 F VII

Thron gulch, NEAR PINE CITY, ATLANTA LAKE DIV., B.C.

- 37, 38 B XII
 60 A XII

Thrush, hermit

- Mistassini lake, Que. 34 D I
 328 I VIII

olive-backed

- Hamilton river, Lab. 327 I VIII

water

- Hamilton river, Lab. 327 I VIII
 Hudson strait, specimen 51 A II
 Mistassini lake, Que. 34 D I
 Wilson's 32 AA VI

Thrust-faults. See Faults.

Thucetade river, THE UPPER PART OF FINLAY RIVER, B.C.

- 22 C VII

Thudaca river, FINLAY RIVER, B.C.

- 21, 20 C VII

Thulne lake, See Bog lake, Alta.

Thumb bay, ARROW LAKE, B.C. See Galena bay.

Thunder bay, JERVIS INLET, B.C.

- 123 B II

Thunder bay, L. SUPERIOR, ONT.

- Agates on 15 T IV
 Amethyst and chalcedony on 62, 71 S III
 17 T IV
 Animikie series on 14 C I
 22 B III
 Hornstone in silver-bearing rocks of 38 T IV
 Minerals and mining on 39, 48 A I
 13 K I
 Rock crystals in quartz on 55 F IV
 Striae on islands in 116 E IV

Thunder Bay dist., ONT.

See also Thunder Bay silver-mining dist.

Sketch map of southeast portion

With Vol.

- Summary reports on portions of:
 1889 Southwest 25-28 A IV
 1891 25-28 AA V
 1892 25, 26 A VI
 1898 116-120 A XII
 1901 Nipigon Lake dist. 89-109 A XIV
 1902 208-221 A XV
 1903 Kenogami dist. 109-120 AA XV
 1904 154-173 A XVI

Thunder Bay mine, MCGREGOR TP., THUNDER BAY DIST., ONT.

- Discovery of, in 1866 14, 54 B III
 Irregular working of 71 S II
 Notes on, by Ingall 54-56 B III

Thunder Bay silver-mining dist., ONT.

- Galena of 122 S X
 Report on, by Ingall, 1887-88 17, 18 III
 Rocks of, petrography App. 1, 17, 18 III
 Silver industry of, 1886 73 S II
 1890 168, 169 S V
 1891 151, 152 S V
 1892 131, 144-147 S VI
 1893 124 S VII
 1896 146, 147 S IX
 1897 132 S X
 1902 419 A XV
 Sketch map of Facing 20 B III
 Zinc-blende in 244-248 S XV

Thunder cape, L. SUPERIOR, ONT.

- Galena at 31 F I
 Malachite at 44 F IV
 Rocks of, basalt and trap 107 S IV
 Nipigon on Animikie 23 B III

Thunder creek, ASSINIBOINE RIVER, MAN.

- 141 E V

Thunder creek, PELICAN LAKE, QUE. ARTHUR DIV., SASK.

- 63 C I

Thunder creek, RIDING MT., MAN.

- 96, 71 E IV

Thunder creek, WAGBORN INLET, ONT.

- 124 K IV

Thunder hill, MAN. AND SASK.

- Cretaceous on 17 E V
 Notes on, by Tyrrell 107, 109, 126 E V

Thunder hill, NEAR COLUMBIA LAKE, B.C.

- Quartz mining on, 1891 171 S V
 1892 180, 183 S VI

Thunder Hill Mining Co.

- Operations of, B.C.:
 1891 171 S V
 1892 180, 183 S VI
 1893 142 S VII

Thunder lake, POPLAR RIVER, LAKE WINNIPEG, MAN.

- 196, 88 G XI

Thunder mts., THUNDER BAY DIST., ONT.

- 31 B II

Thurlingto, GERMANY.

- Porphyry from 1357 B VII
 Quartz-porphry dikes of 17 C VIII

Thurlow islands, JOHNSSTONE STRAIT, B.C.

- 46, 48 B II

Thurlow tp., HASTINGS CO., ONT.

- 24 A I

Thurso, LOCHABER TP., LABELLE CO., QUE.

- Brewer's duck from, specimen 1205 AA XV
 Limestone near 10, 51 J XII

Thuja canadensis. See Cedar, yellow

Thuja occidentalis. See Cedar, western

Thuja occidentalis, B.C.

*Imports in this table refer only to imports from the Dominion.

	Page	Vol.		Page	Vol.
United States of America—Cont.			Upham, Warren		
Copper imports, 1897	42 s	X	Altitude of, on glacial lake, Azessiz Pt.	174	IV
1898	32 s	XI	Referred to, on glacial lake, Azessiz Pt.	174	IV
1899	32 s	XII	Referred to, on glacial lake, Azessiz Pt.	174	IV
1900	35 s	XIII	Referred to, on glacial lake, Azessiz Pt.	174	IV
1901	32 s	XIV	Referred to, on glacial lake, Azessiz Pt.	174	IV
1902	32 s	XV			
1903	44 s	XVI			
Copper imports, 1887	36 s	XVI	Upham, Kings Co., N. E.		
Gypsum imports, 1877-1897	22 s	III	Gypsum deposits of	74 s	A
Iron ore in, scarcity of	88 M	X	Mangrove, of	96 s	A
Mineral imports, 1874-1886	10 s	II	Upham's mills, Salmon River, N. E.		
1887	9 s	III	John River, N. E.	57	III
1888	6 s	III			
1889	6 s	IV	Upper Canada Co., I.		
1890	6 s	IV	Johns River	70	III
1901	5 s	V	Upper Hamilton Limestone of R. M.		
1902-3	6 s	VI	Contact with Lower R. L.	35	II
1904	6 s	VII	Description of, by	18, 19	II
1905	8 s	VIII	Peaks of	37	II
1906	9 s	IX	Upper Canada Company.		
1907	10 s	X	Formation of, purchases of	22	III
1908	11 s	XI	Working Wallace mine, Ont., 1896, 1897	122	A
1909	10 s	XII	Upper Canada, FRANKS RIVER, Y.		
1910	10 s	XIII	KON		
1911	10 s	XIV	Description of, by Dawson	106	II
1912	12 s	XV	Upper Canaque, So Canaque.		
1913	10 s	XVI	Upper Falls, Mowat Adams River, N. E.		
Mineral production of, per capita				82	X
1896	7 s	IX	"Upper Horizon," Souda, COAL		
1898	7 s	XI	LIBEL, SASK.		
1899	7 s	XII	Details concerning, by Dowling	9, 10, 39, 40	IV
1900	7 s	XIII			
1901	7 s	XIV	Upper Island portage, Belle River, QUE.		
1902	7 s	XV	QUE	25	II
1903	7 s	XVI	Upper Maitland Lake, THUNDER		
Natural gas, imports, 1891-6, 139, 140 s			Bay District, ONT.		
Nickel imports, 1890	141, 142 s	V	See Angikoking lake.		
Nickel production, 1897-1898	174, 179 II	XIV	Upper Mormon bar, FRANKS RIVER, R. C.		
1897-1898	145 s	X	Placer gold mining on	117	II
1899	111 s	A	Upper Rocky pt., MARCH 11, CAL.		
Oil exports from, to China and Japan, 1894	14 A	VII	LETON CO., ONT.		
Platinum yield of, 1887	105 P	III	Bogartown, Ont.	24	IV
Pyrites exported from, 1888	75	IV	Upper Savage Islands, EAST of		
imports, 1881-86	61 s	II	Big Island, HUDSON STRAIT.		
1887	81 s	III	FRANK	17	A
1890	161 s	V	Upper Stew Lake, COLCHESTER CO.		
1896	148 s	IX	N. S.		
1897	195 s	X	Antimony in	59	A
Salt imports, 1883-86	71 s	II	Limestone in	98	II
method of manufacture from			Upsala, THUNDER BAY DIST., ONT.		
brine, 1894	36 B	A		124	IV
Silver imports from Capetown, Que.	88 s	III	Upsalquitch Lake, RESHCOUGH		
State of, quality, and cost of pro-			CO., N. E.		
duction, 1897	7 A	XV	Gold on	42	M
Zircon mining in, 1887	67 s	III	Minerals in	29	A
				11	II
United States Haryta Co.			Upsalquitch River, RESHCOUGH		
Operating on McKellar Island, L.			RIVER, N. E.		
Superior	106 s	A	Elevation of upper waters of	19, 41	II
United States of Columbia.			Fall of	12	II
Mineral exports of, 1874-1886	9 s	II	Intervals on	27, 28	II
1888 road	20 s	IV	Leda clay and Saxe, as said on	41	II
1889	6 s	IV	Rocks on, and near	9	II
1893	6 s	VII	Surveys in, by	278	A
1894	8 s	VII		19, 62	A
United States National Museum.
