HEREAS the General Assembly of this Province stands prorogued to Thursday, the 22d day of December inst:

I have thought fit, further to prorogue the said General Assembly to Thursday, the eighth day of February next, then to meet for the Dispatch of Business; of which all persons concerned are hereby required to take notice, and govern themselves accordingly,

GIVEN under my Hand and Seal at Arms, at Halifax, this 9th day of December, 1815, in the 56th year of His Majesty's Reign.

By His Excellency's Command,

H. H. COGSWELL.

JOURNAL,

PROCEED INGS

THE HOUSE OF ASSEMBLY,

THE PROVINCE OF NOVA-SCOTIA.

THURSDAY, 8th FEBRUARY, 1816.

MESSAGE from His Excellency the Lieutenant-Governor, by Mr. Deputy Secretary Cogswell, Mr. Speaker,

His Excellency the Lieutenant-Governor commands this House to attend His Excellency immediately in the Council Chamber.

Accordingly Mr. Speaker, with the House, went up to attend His Excellency in the Council Chamber.

And being returned,

Mr. Speaker reported, That the House had attended his Excellency in the Council Chamber, where His Excellency had been pleased to make a Speech; of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House, and is as follows:

Mr. President, and Gentlemen of His Majesty's Council; Mr. Speaker, and Gentlemen of the House of Assembly:

T is with peculiar pleasure, I address you at a moment, like the present, when, after a long series of awful and uncertain warfare, we behold the whole world enjoying the bleffings of peace. The military renown of Great-Britain,

has.

has, during this eventful period, been exalted beyond all former example; and univerfal admiration and applause have been excited by the glorious result of the hard-fought and decisive battle of Waterloo: Contested, as it was, by a part only of the Armies of the Allied Sovereigns, opposed to a far superior force, yet these Troops, directed by the consummate skill and bravery of the Duke of Wellington and Prince Blucher, and animated by the most heroic valour, overthrew the host which Bonaparte had assembled for their destruction, and opened to themselves a ready way to the French Capital. To the gallant and successful exertions of those Illustrious Commanders, and the Heroes who served under them on that memorable occasion, is Europe, under Divine Providence, indebted for a Peace, which promises to be as permanent as it is honorable.

The Treaty of Peace between Great-Britain and America, which has been ratified by the latter Power since our last meeting in General Assembly, is another subject for congratulation.

The Declaration of War by the Government of the United States against us in 1812, having abrogated the Treaty of 1783, the Americans have, confequently, forfeited the privilege they enjoyed by that Treaty, of fishing upon our Coasts, and curing their fish in the uninhabited creeks and harbours of this Province; and I am particularly happy to observe, that no stipulation for the renewal of this objectionable Article has been made in the present Treaty. You will further perceive, by the Commercial arrangements which have fince taken place between the two Countries, that our Parent State evinces a determination to prevent all foreign interference with the welfare of her Colonies. The British North-American Provinces will, consequently, be enabled to supply our West-India Islands with fish and lumber, without the dread of any competition from their American neighbours in these branches Prospects so encouraging will, I doubt not, be taken advanof commerce. tage of by the industrious and enterprising inhabitants of Nova-Scotia; and, you may rest assured, that nothing can be more gratifying to my feelings, than to fee this Province advancing with rapid steps towards the attainment of that state of commercial prosperity, to which, from her local situation, and her maritime and agricultural resources, she is so well entitled to look forward.

Mr. Speaker, and Gentlemen of the House of Assembly:

I have directed the accounts of the public expenditure for the last year, to be laid before you; and I trust they will be found correct and satisfactory. The proper Officer will present to you an estimate for the Civil Establishment, and other services required for the present year; for which, from the frequent experience I have already had of your liberality, I entertain no doubt but that you will make the necessary provision.

Mr. President, and Gentlemen of His Majesty's Council: Mr. Speaker, and Gentlemen of the House of Assembly:

Although the state of the weather during the last Summer, has proved so unfavorable

unfavorable to working on the Public Roads; yet, I think, it will be acknow-ledged, that they are very confiderably improved; and that travelling has been rendered much more expeditious and commodious fince the prefent fystem has been adopted. It having been represented to me, that some improvements might be made in our Light-Houses, likely to be beneficial to Mariners approaching this Coast, I feel it my duty to submit a matter of this importance to your consideration: and I will order the communications which have been made to me on this subject, to be laid before you.

Allow me to recommend, that the Public Business be entered upon, and expedited as much as possible, at the commencement of the Session: to avoid hurry when the usual period of prorogation approaches; and rest assured, of my cordial co-operation and assistance in any beneficial measure that may be suggested in the course of your deliberations.

Ordered, That Mr. Solicitor General Robie, Mr. Archibald and Mr. Lawfon, be a committee, to prepare an Address in answer to His Excellency's Speech.

Ordered, That Mr. Lawson, Mr. Pyke, Mr. Chipman, Mr. Crane and Mr. Wells, be a committee of this House, for the purpose of examining the Public Accounts, jointly with a committee of His Majesty's Council, and that the Clerk do acquaint the Council therewith.

Ordered, That Mr. Pyke, Mr. Haliburton and Mr. Marshall, be a committee to examine into and report on the expiring laws.

Ordered, That no Petition, of a private nature, be received after Tuesday, the 20th instant.

Mr. Speaker acquainted the House that he had received, during the recess of the House, a Note from His Excellency the Lieutenant-Governor, addressed to him, which he read to the House, and is as follows:

Government-House, 16th June, 1815.

SIR,

Herewith I transmit the copy of a Letter I have received from Earl Bathurst, by which you will perceive, that the Prince Regent has been pleased to approve of my receiving the present of Plate, voted me by the House of Assembly at the close of the last Session: and I have the honor to signify to you, that I shall, in consequence, now accept, with great pleasure, the very handsome testimony offered by the Legislature, of the favorable opinion they were pleased to entertain of my conduct since I have had the honor of administering the Government of this Province. This token, of the sentiments of the House towards me, I shall appreciate the more highly from the conviction, that it would

not have been presented if that Respectable Body had not thought my services deserving of this flattering acknowledgment.

I have the honor to be,

Sir.

Your most obedient Servant, I. C. SHERBROOKE.

Mr. Speaker also laid before the House a copy of Earl Bathurst's Letter, addressed to His Excellency the Lieutenant Governor, and referred to in His Excellency's Note: which he read to the House, and is as follows:

Downing-Street, 10th May, 1815.

I have submitted to his Royal Highness the Prince Regent, the Address of the House of Assembly of Nova-Scotia, of the 3d ult. in which they request your acceptance of a sum voted for the purchase of Plate, and I am commanded to assure you, that his Royal Highness has much satisfaction in sanctioning your acceptance of this tribute of respect and approbation which he cannot but consider to be most justly due to the unremitted attention which you have uniformly paid to the interest and security of the Province under your Government.

I have the honor to be, Sir,

Your obedient Servant, BATHURST.

Mr. Speaker also laid before the House, a copy of a letter written by him to John Robinson, Esq. Speaker of the Assembly of New Brunswick, dated 20th August, 1815, on the subject of the Plaster of Paris Trade; and also Mr. Robinson's answer to the same, dated St. John, 15th November, 1815; also,

A copy of a letter from Mr. Speaker to Andrew Belcher, Esq. dated 27th June, 1815, requesting him to procure the Plate to be presented to His Excellency the Lieutenant Governor; with Mr. Belcher's answer to the same, dated London, 4th August, 1815; and also,

A Petition of the Reverend Charles William Weeks, of Guysborough; and the same was read, praying payment of his salary as Master of the Grammar School in the County of Sydney from the 2d of March to the 2d of September, 1814, amounting to 251.

Ordered, That the said papers do lie on the table, to be perused by the Members of the House.

The Speaker also acquainted the House that the Reverend Doctor Stanser, the Chaplain of this House, was absent in England on his private affairs, and

thereupon,

On motion, resolved, That the Reverend Robert Milne, be appointed acting Chaplain to the House for the present Session.

Then the House adjourned until to-morrow at eleven of the clock.

Friday, 9th February, 1816.

PRAYERS.

Mr. Speaker laid before the House, the undermentioned letters, received by him during the recess of the House, Viz:—

Two letters from Nathaniel Atcheson, Esq. addressed to the President of His Majesty's Council, and Mr. Speaker, one dated London, 7th May, 1815, and the other dated the 1st July, 1815, on the affairs of the Province; also,

A copy of a letter from the chairman of the London Committee of Trade to Earl Bathurst, dated London, 5th June, 1815, on subjects connected with British North-America; and also,

A copy of a letter from Henry Goulburn, Esq. to Nathaniel Atcheson, Esq. dated, Downing Street, 29th May, 1815, on the subject of persons desirous of emigrating to North America.

The faid letters were read by the Clerk, and thereupon,

Ordered, That the letters do lie on the Table, to be perused by the Members of the House.

Saturday, 10th February, 1816.

PRAYERS.

Mr. Solicitor General, reported from the committee appointed to prepare an Address in answer to His Excellency's Speech, that they had drawn up an Address accordingly, and he read the Address in his place, and afterwards delivered it in at the Clerk's table, where it was read, and is as follows:

To His Excellency Lieutenant-General Sir JOHN COAPE SHERBROOKE, Knight Grand Cross of the Most Honorable Military Order of the Bath, Lieutenant-Governor, and Commander in Chief, in and over His Majesty's Province of Nova-Scotia, and its Dependencies, Vice-Admiral of the same, &c. &c. &c.

THE ADDRESS OF THE HOUSE OF REPRESENTATIVES IN GENERAL ASSEMBLY:

May it please Your Excellency,

IS Majesty's dutiful Subjects, the Representatives of the loyal People of Nova-Scotia, beg leave to thank your Excellency for your Speech at the opening of the present Sessions of the General Assembly.

The pleasure we experience in meeting your Excellency in times like the present, when, after an awful and uncertai. Contest of so many years, the World

repoles

reposes from the calamities of War, is heightened by the proud consciousness, that, during this period, the British Commanders have rivalled the glories of their most celebrated predecessors, and have more than supported the ancient claims of their Country to Military Renown.

The universal admiration excited by the successful result of the Battle of Waterloo, is a tribute justly due to the brave Men, by whose heroic valour, it was gained. This valour, animated and directed by the matchless skill and bravery of the Duke of Wellington and Prince Blucher, overthrew an Army, and a Chief, long accustomed to Victory, and by placing the French Capital in the power of the Conquerers, has, under the blessing of Divine Providence, terminated the Wars of Europe, by a Peace which we hope, may be permanent, as it is honorable.

We acknowledge, with gratitude, the attention of the Parent State to the interest of the Colonies; and feel the fullest assurance that the privileges granted to the Americans by the Treaty of 1783, the exercise of which has proved so injurious to the Commerce of Great-Britain, will never again be conceded to them; and we considently trust, the Inhabitants of Nova-Scotia will avail themselves of the many advantages now afforded them, by the commercial arrangements between the two Countries, by so employing their maritime and agricultural resources, as to enable them to supply our West-India Islands with Fish and Lumber, and thereby attain all the advantages arising from those branches of commerce.

We thank your Excellency for the early period in which you have directed the Accounts of the Public Expenditures for the last year to be laid before us; and we assure your Excellency, that we shall, with the greatest readiness, grant such Supplies, as may be necessary for the Civil Establishment, and other Services, required for the present year.

We observe with great satisfaction, the improvement of the Roads throughout the Province: and shall earnestly pursue such systems, as may appear best calculated to render the communication between the Capital and the remotest part of the Country, expeditious and commodious.

In submitting to our consideration, the Communications relative to the Light-Houses, we feel the interest taken by your Excellency, in every thing connected with our prosperity: and we are happy in the occasion now afforded us, of expressing, not only our affurance, that we will give to this important subject the serious consideration it requires, but our thanks to your Excellency, for this added proof of your attention to the welfare of the Province.

On our part, we shall gladly concur, with His Majesty's Council, in expediting the business of the Session at its commencement: and we rely, with perfect considence, upon your Excellency's assistance and co-operation in every measure conducive to the public good.

Resolved, That the Address be presented to His Excellency by the whole House.

Ordered, That Mr. Pyke, Mr. Purdy and Mr. Crane, be a committee, to

wait on his Excellency the Lieutenant-Governor, to know his pleasure when he will be attended by the House.

A Meffage from the Council, by Mr. Cogswell: Mr. Speaker.

And then the Messenger withdrew.

On motion of Mr. Dimock, resolved, That this House will, on Monday next, cake into confideration the subject of the repair of roads and bridges throughout the Province.

BEG to return you my warmest thanks for this Address.

The Communications which I have received respecting the state of the Light-Houses on the Shores of the Province shall be immediately laid before you, and as there are some other circumstances with which it appears to me necessary that you should be made acquainted, I shall take an early opportunity of making known their purport to you by Message.

Mr. Bishop reported from the Committee appointed to examine into the Account of Expenditure by the several Supervisors on the Great Roads: and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That the committee have examined the Accounts of the several Supervifors, and are of opinion, that William Smith, Efq. Supervifor of one part of the road leading to Windsor, in the year 1815, has made very improper charges relative to Men of Colour, employed under him, as appears by a certain written Contract entered into with them, and which Contract is before the House, and from which the committee are fearful other improper charges may also have been made. The committee also find that the sum of £30 9 5 is charged for Liquor supplied to the Men, and £1 50 for the carriage of their Baggage to the place where employed, likewise the sum of £4 for the attendance of the Supervisor on the House of Assembly in the last Session, by the It also appears to the committee that the said Superviorder of the House. for has charged the fum of £125 15 0 as his commissions on the money expended by him in the last year. Supervisor Terence Cochran: His accounts appear correctly added. But the committee are informed that his Son was employed as an Overseer; and as he was only in his Eighteenth year, the committee think it highly improper that a Boy of that age should

have had the command of Men, while expending Public Money, and therefore fubmit the same to the consideration of the House. It also appears to the committee, that there are several Contracts for expending large Sums of Money, for which there are are no Vouchers. The committee are also of opinion that the greater part of the Money laid out by the Supervisor between the Ardoise Hill and the Avon Bridge was expended on the dry gravelly part of the Road least wanting repair, while the Road most requiring repair was neglected. That the Monies expended by the Supervisor appear to amount to 1051l. 18s. 8d.

James Keys, a Supervisor of the Cobequid Road: It appears by his accounts that he has charged Government with the Sum of 1032l. 16s. 3d. expended in the year 1815. That he commenced working on the 16th June, and ended on the 27th November following; making 141 working days, for each of which days he has charged 15s. amounting in the whole to 105l. 18s. The committee find no error in the account of the said Supervisor as

stated by him.

George Mackay, a Supervisor as abovementioned: Charges for the expenditure of the Sum of 999l. 115. 53d. in the year 1815. His accounts appear to be correct, and are attested to before Edward Mortimer, Esq.

The committee further state that none of the Supervisor's Accounts are at-

tested to, excepting George Mackay's.

The Committee also report that they find the amount congred by the four Supervisors, and for the extra pay of Overseers to be 4681. 18s. 6d. exceeding the usual allowance of Commissioners for expending the same Sums under Commissioners by 2421. 9s. 3d.

Ordered, That the faid report do lie on the Table, to be perused by the

Members of the House.

On motion, resolved, That the Clerk do immediately summon William Smith, and Terence Cochran, Supervisors of the Windsor Road, and James Keys, Supervisor of the Cobequid Road, to attend at the Bar of the House without delay.

Then the House adjourned until To-morrow, at eleven of the clock.

HE Treasurer of the Province having represented to me, that much additional trouble has devolved upon him, in issuing, calling in, and paying the Treasury Notes that have been in circulation, for which he has received no remuneration, and that he conceives himself justly entitled to a reasonable compensation for these services; I think it right to lay a copy of Mr. Wallace's letter to me on this subject before you, and to recommend its contents to the savorable consideration of the Legislature.

I have reason to believe, that this will be the only remaining expense attending the transaction in question, as by a communication I have received from the Commissioners for issuing Treasury Notes, (a copy of which is likewise hereunto annexed), I find those Gentlemen have performed the duty which devolved upon them gratuitously, and that they, from motives most homorable to themselves, decline accepting any remuneration for the services rendered by them to the Public on this occasion.

Mr. Solicitor-General reported from the committee, on the subject of Paving Water-Street: and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That, from the best information the committee have been able to obtain, as well from the Commissioners of the Highways as from others, it appears to be the desire of the greatest part, if not all persons possessing property in Water-street, that the same should be paved.

That the committee further report, that from the narrowness of that street, in many places, it will be necessary, in order to make the proposed improvements, that all porches, cellar doors, steps, and every other obstruction, should be effectually removed, so that the middle of the street, should be of a sufficient breadth for the patting and repassing of horses and carriages, and that a sufficient space should be allowed on each side of the street for the passing of persons on foot. That the committee are of opinion, that the paved part of the street should be of the breadth of forty feet, wherever the wideness of the street will admit, and the passage for persons on foot on each side the street, should be four feet wide.

That it is the opinion of the committee, the Commillioners of the Highways have sufficient authority under the Statute of the 41st George III. chapter 5th, to cause all the aforesaid obstructions to be immediately removed, but to prevent any doubt on that subject, it might be expedient to enact a Law similar to the 7th section of that Statute, which should be published for a reasonable time before its being carried into effect.

That the committee are of opinion, that the foot way should be made either of brick, or of hewn stones, and that the expense of making it should be borne by the proprietors of the lands it adjoins.

The committee is also of opinion, that it will be difficult to keep this street clean, and to prevent the drains being choaked up, unless the Laws made for keeping the street clean are enforced, as, owing to the situation of the town on the side of the hill, dirt and rubbish of every description, which are thrown out in the upper streets, are washed into Water-street every time a great rain or thaw takes place, which perhaps, as much as any other cause, contributes to the present state of that street.

That if it shall be deemed adviseable to proceed in paving the street, it would be proper to commence at the Market Slip, and to proceed both in a south and north direction, so that each end of the town might have an equal share of the expected advantage.

Ordered, That the Report do lie on the Table.
