THE CALL OF MURRAYISM

House of Assembly, Halifax, N. S., April 17, 1916. The outstanding feature of last week's proceedings in the Legislature was the masterly and compelling speech with which Mr. Tanner concluded the Opposition's discussion of the Provincial finances. Never has the Conservative leader been heard to better advantage. He had a strong case and he pressed it with skill and aggressiveness. While his speech was a crushing indictment of the Murray-Daniels Government's financial record, it was replete with practical suggestions of reform in every department of the public service.

Mr. Tanner showed that under the profligate financial methods of the present local government, direct taxation has become not merely a "menace" but a present substantial reality. When Mr. Murray took over the premiership in 1896, the public debt was \$3,443,769.17, on which annual interest of \$140,121 had to be paid. After Mr. Murray had been 19 years in power—on September 30th, 1915 he had increased the debt to \$13,410,980, and the annual interest to \$507,671. To meet the consequences of this reckless financing Mr. Tanner pointed out that the Murray Government had by legislation already imposed a most elaborate system of direct taxation on the people. Thus taxes, which in all cases the people have to pay, have been imposed by the Murray Government on insurance companies, banks, trust companies, telegraph companies, telephone companies, loan companies, express and electric companies, theatres, insurance agents, motor vehicle owners, legislation, and the estates of deceased persons, as well as the coal royalties which the consumers pay in the form of increased prices for coal. Despite all these sources of revenue when the Province made the small gift of \$100,000 to the Mother Country last year such had been the profligacy of the Government that it was unable to pay that modest contribution without making a further levy on the taxpayers of Nova Scotia.

In showing how the present huge debt of \$13,410,980 has been built up by the Murray Government, the Conservative leader subjected the Government's administrative record to a merciless critical review. A few items will serve as illustrations. One is furnished from the Halifax and South Western Railway. For over ten years that concern never paid a cent of interest on the three and a quarter million dollars the Murray Government loaned it to meet cost of construction, and in 1914 these accumulated arrears of interest aggregating \$1,096,000 were added to the capital indebtedness, of the railway and today represent just that much of the debt of the Province. This burden is a direct consequence of the ruinous bargain Mr. Murray made with McKenzie & Mann in 1902. Another \$629,000 of the public debt seven years of Murray Government deficits. Mr. Tanner also showed that the refusal of Mr. Murray and his political friends to accept the Borden Government's offer to spend \$68,000 on highways of this province in 1913, and \$102,000 in 1914, under a "good-roads system" to be pursued by the Dominion authorities from year to year, resulted in the Murray Government being driven to borrow on its Provincial credit \$180,000 for the "betterment of highways," and \$600,000 for the building of culverts. This has all been added to the public debt on which the people have to pay interest every year, and not one dollar of this money need have been borrow, had the "Good roads policy" of Hon. Frank Cochrane been carried into effect.

Such are a few of the topics dealt with by the Conservative leader, in the most closely reas-

oned and comprehensive address of the season. His review of the immigration "policy" of Mr. Murray under which in 1915 a dozen families were brought into the Province at a public cost of \$44,998 on capital account; of the scheme of technical education under which over \$50,000 was spent last year to give engineering courses in Halifax to 28 University students, and of the system of road-making in Nova Scotia, was a mockery and a scandal, a telling indictment of administrative methods, which, if continued, spell financial ruin for the Province. Fortunately however there is but little likelihood that they will be continued, for, as Mr. Tanner remained in the House, they have already been emphatically condemned in every bye-election that has been held since 1911, and the electors of the Province stand ready now to pronounce a great verdict for administrative reform. With the advent to power of a new progressive Government, Mr. Tanner expressed confidence that coal mining could be got to yield greater results; that gold mining can be developed along profitable lines; that immigration can be prosecuted both effectively and economically under intelligent service; that the public highways service agriculture, the administration of crown lands, and the great service of public instruction, will benefit in the most direct and far reaching manner by the pending change of Government.

CORRESPONDENCE

Dear Mr. Editor: I do not wish to deal severely with Mr. F. E. Wood, but his article in the Western Chronicle calls for some plain statements from me. His false insinuations I care nothing about. But why he should distort and misrepresent things as he has done, making himself ridiculous in the eyes of the public, I fail to understand.

I stated in my last article, and gave the proof that the first year I was overseer of the poor we had \$2010.79 to maintain the poor for that year. This was taxes collected from the people. At the end of the year we had \$1270.43 of this money that was not expended, and not one dollar in debt. It does not require a mathematician to figure out from this statement that we used only \$740.35 of the money collected from the ratepayers.

The balance of the expenditure was made up from the sale of produce of the farm and so forth.

Ever since I was overseer it cost \$2100 besides the produce sold off the farm, etc.

I am speaking for the whole board of overseers (1901) E. A. Lewis and H. H. Kinsman, when I state that the first thought of the board was to look after the unfortunate poor to see that they were properly clothed, fed and made comfortable in every way possible. Our second thought was to look after the interest of the ratepayers. To see that the business entrusted to our care was done in a proper manner, with due regard for economy. That supplies were bought and farm products sold at a favorable time and that the farm was conducted in a manner so that it would be a source of revenue.

The dead were buried in a covered coffin. We always had an undertaker and a clergyman attended the burial service. Since that time the poor have been buried in a box. If they cost more than fifty cents they paid to much for them. Any person doubting my word, I would advise them to call at the poor farm and satisfy themselves, as there is a stock of these boxes kept on hand. The poor were buried by the foreman without a semblance of a civilized, let alone a christian burial. Little children were going barefoot all winter for several winters until the S. P. C. authorities got after those in charge and made them supply the children with shoes and

stockings. I do not ask your readers to accept my statement as final let them ask any of the neighbors Grit or Tory.

Mr. Wood says the township (for three years) were only charged for three gallons of cider instead of four as I stated, I had to write from memory in this matter, I tried to get the information from the clerk, but failed. He evidently agrees with Mr. Wood in thinking that all matters in connection with the Cornwallis poor business should be kept secret as much as possible.

Mr. Wood has the clerk's books and papers in his possession, showing how every dollar of money was expended the three years I was overseer of the poor, and he has been studying them for three years, with the one idea of hoping to find something wrong with my method of doing business.

Net result of his vigilant search—1st: Three gallons of cider that was bought for mince pies. The matron stating positively that it was used for nothing else. 2nd: A hat cost-bought from A. E. Calkin costing \$2.10. He wants to know who got the hat. Percy Huntley got the hat. If Mr. Wood doubts my word, I can get a sworn statement from his mother to that effect. 3rd: I bought two cows from Mrs. W. C. Bill for \$55.00. That looks like pretty good business for the township, as Mr. Bill not keeping anything but first-class cows. I do not know how the township could get any better receipt for the money paid for these cows than the one given.

Mr. Wood's array of figures recalls to my mind a saying I have read that "figures won't lie, but liars can figure."

He was reprimanded in the Council quite severely for making his charges so extortionate I have not seen the minutes of the Council for this year. He states his charges this year are very much lower. That looks as if the reproof was the cause of a saving to the municipality.

C. R. BILL, JR. Billtown, April 20th, 1916.

British Troops Penetrate Points into German Trenches.

London, April 19—The British official statement on the campaign in France and Belgium reads: "Twice in the last thirty hours our troops have penetrated at different points into the German trenches—once in daylight yesterday, and once during the night. On each occasion the enterprise met with complete success. A machine gun emplacement was destroyed and several dugouts were bombed. Our casualties were one wounded and one missing. Two German officers and at least twenty men are reported killed.

"During the night two small German efforts against our positions at St. Eloi, preceded in the evening by a heavy bombardment, were successfully repulsed.

"Today there were isolated artillery duels at various points. There has been further mining activity eastward of Vermelles without altering the general situation there."

A War-time Puzzle.

A company of soldiers dressed in khaki, with the bandage-like puttees about their legs, were waiting for their train at a station in Wiltshire. Among the spectators were an old countryman and his wife.

"I say Garge," the old lady whispered, there's somethin' I can't understand about they soldiers.

"What be it, lass? I can't think how they get their laigs into they twisted trousers.

St. John has adopted the daylight saving scheme. On the last Sunday in April the clocks are to be turned ahead on hour each day until the last Sunday in September.

Haines Bros. PIANOS. NOTHING in music that science and culture have produced can surpass the perfection of the Haines Bros. Piano. With all its beauty, durability and sweetness, it costs no more to buy a Haines Bros. Piano than to buy any ordinary kind. Sold by J. R. WEBSTER.

SERVICE THROUGH THE WHOLE YEAR. DUNLOP TREAD. And a service you are proud to tell your friends about. The Demands of the Time

The man who produces one pound of anything of value, the man who improves the breed of his cattle, the man who makes two blades of good grass grow where one grew before, is adding to the wealth of the nation to the richness of the country. Not alone is that the case, but he is contributing his bit to Christianity and to the welfare of the world. It is given to the farmer and breeder to serve his native land more by his individual effort than is within the power of the ordinary follower of any other occupation. The farmer by his own unaided efforts, except by the gifts of nature, can maintain his wife and family. No other worker in the world's vineyard can say as much unless he is willing to go naked and that he and his should often times suffer the pangs of hunger. And the claims upon the farmer and his fellow, the breeder, in present circumstances are not only urgent but many.

There are people who object to the assertion that the agriculturist in making the earth yield its utmost, in tending his flocks and herds with care, diligence and intelligence, is doing his bit, the same as the man in the trenches. He is not directly placing his own life in jeopardy perhaps, but he is helping to sustain those who are. He is providing a good-sized portion of the ammunition. The fault is not in the assertion itself, but in the man who has no spirit for the fight and who, the probabilities are, is doing his full bit neither in agriculture nor in any other form of industry. There are possibly men on the land who would be more use on the field of battle, but one thing is certain if the men who are of value to the soil and to the farmyard are taken away some means must be found to replace them.

Canada's future lies in the womb of her agriculture. To make the best use of the opportunities that are and will be, to take our rightful place in the world's economies, we must toil without ceasing, we must produce and improve, we must bend all our energies to results, we must utilize waste and, amidst it all, we must focus our eyes upon the future and pay our respects to conservation. Our position is unique in nearness to, and in our facilities for reaching, the best markets. Transportation just now may be difficult and expensive, but it will not always be so, and when the time comes for greater freedom of trade we must be prepared for it. This can be done not alone by industry, but also economizing; not by hoarding, but by the judicious use of our resources. A truth ever to be borne in mind is that what is wasted by fools is turned into profit by the wise. Even in the midst of its campaign of destruction and ferocity, Germany, so word is flashed across the sea, is devoting attention to education and internal improvement and development.

A strike of laborers of the Boston and Yarmouth Steamship Co. took place at Yarmouth yesterday, demanding 30 cents an hour instead of 20. The steamer Prince George will be delayed in unloading and loading cargo as only a few men are available.

Holland's Position.

(From the New York Sun)
Holland seems to be reaching a time when she can no longer keep her finger in the hole in the dike.

Fairville, Sept. 30, 1902.
Minard's Liniment Co., Limited.
Dear Sirs,—We wish to inform you that we consider your Minard's Liniment a very superior article, and we use it as a sure relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it.
Yours truly,
CHAS. F. TILTON.

Production and Profit

To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfillment our success, and consequently our national safety, may ultimately depend.—SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.**

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

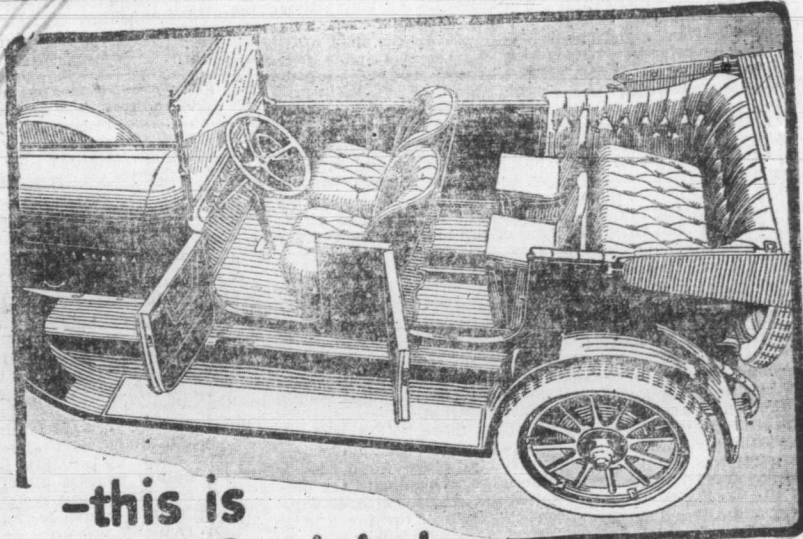

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

-this is what Studebaker COMFORT means!

Just look at that illustration a second time. Look at the roominess of this new Studebaker SERIES 17 FOUR—the individualized COMFORT that's built into the car for every one of the SEVEN passengers it carries.

Not a detail has been overlooked that will make the car easier-riding. The front-seats, for example, are divided—and they are also adjustable—that is, they can be moved fore or aft to fit the passenger's wishes.

In the tonneau, roominess is especially evident—lots of room for five full-grown people. The rear seat is wide and deep and luxuriously upholstered with the finest straight-grain, semi-glazed leather. And everywhere roominess, convenience and a host of COMFORTS have been built into the car.

This new Studebaker is the most powerful 4-cylinder car on the Canadian market within hundreds of dollars of its price—the biggest car that any such price as \$1225 ever bought—but on COMFORT alone it stands as the GREAT value of the year. Come in and see this splendid "Made in Canada" Car.

BOARD OF TRADE

An important meeting of the Kentville Board of Trade will be held tonight in Town Hall. Special business—"Daylight Saving Scheme." A full attendance requested.

A CLEVER STUDENT.

A thesis entitled "Foundations in Fairweather's Waters" by S. W. Fairweather of Ottawa, formerly of Kentville, has won the Greenshields prize of Twenty-five dollars for the best civil engineering essay, and also the undergraduate prize of \$15.00 for the best essay of the fourth year engineering class, at McGill University.

This thesis covers practical experiences of the writer in connection with foundation work on the Dominion Atlantic Railway.

The same student won the British Association Exhibition of \$50.00, last year, at McGill, for the highest standing in certain subjects of the Third year.

Mr. Fairweather was formerly a student at Kentville Academy.

CHEVROLET LEADS OTHERS FOLLOW

Mayor Pelton in His Studebaker Suffers Defeat in Exciting Road Race.

Last Friday afternoon Kentville was the scene of a short encounter between the Studebaker and Chevrolet cars.

Ralph Macdonald, on his way home in his Chevrolet, was passing the Studebaker headquarters when up came the Mayor's car with his son, Harold, at the wheel. After a short sharp tussle the Chevrolet shot to the front in a cloud of dust and the occupants waved "adieu" to the Mayor.

The pace was so hot that both drivers were summoned to appear in Court on Saturday to answer a charge of speeding.

Call at MACDONALD'S GARAGE (opposite the Aberdeen Hotel) and see the CHEVROLET—"The Car That Has the Power."

THIS WEEK'S PROGRAM AT THE NICKLET THEATRE

Monday and Tuesday—Peerless Pearl White Supported by Geo. Probert, Sheldon Lewis and all star cast in "The King's Game," A Pathe Gold Rooster Play in five acts.

CORRESPONDENCE

Kentville, N. S.
April 25, '16

Mr. Editor:

The deception attempted by the resolution passed recently by the Liberal Association of the County, has scarcely passed from public attention when the resolution is again reproduced in the Western Chronicle. This is it:

"Resolved that the Liberal Association of Kings County hereby commends the action of the Executive Committee in promoting the appointment of additional Magistrates pledged to try cases of those guilty of the illegal sale of intoxicating liquors, and is gratified that as a result many offenders within the County were convicted and fined during the year. As an Association we hereby pledge our efforts to secure if possible still more effective temperance legislation, and to our Provincial representatives our continued support in any action they take towards this end."

The very transparent object of this resolution is to give grounds for an inference that the dismissal of Mr. E. M. Beckwith from the Magistracy and the appointment of "Additional Magistrates pledged to try cases of those guilty of the illegal sale of intoxicating liquors" was a move very much in the interests of temperance with the consequent glorification of Messrs. Wickwire and Covert for the noble work they had done.

The result is said by the resolution to be "that many offenders within the County were convicted and fined." Let the report of the inspector of the County presented to the Municipal Council speak for the situation in it the Inspector refers to the difficulty arising from a new law and a new Magistrate during the first nine months of the year and he then says:

"The resignation of the newly appointed and very efficient Stipendiary Magistrate, William Ainley, practically held up the work for the remainder of the year. While one Magistrate in both Canning and Kingston consented to try some cases, both have now signified that they do not care to undertake any more, and we find ourselves at the end of the year without a magistrate who is willing and competent to prosecute violators of the Nova Scotia Temperance Act."

Is this result "a source of gratification," or is it a source of despair?

The Inspector says there was a hold up of the work for three months in the year—and he shows how. The resolution says the appointment "was a source of gratification."

Nothing more hollow was ever put before the public. It would take more than such a resolution to vindicate the dismissal of Mr. Beckwith, or wipe out the stain of turning a man out of a judicial office without ever being heard in his own behalf, while demanding an investigation of any charges against him.

Notwithstanding the very patent object of the resolution Mr. I. B. Oakes is in print to charm the situation. In a letter in your last issue he pretended to sympathize with the resolution. It contains he says two simple statements, first the approval of successful efforts to punish offenders. When did the association ever before manifest such approval. Many times previously offenders—large numbers of them, had been punished. Gallons and gallons of liquor had been destroyed. Why the gratification at that particular time? The man who cannot read between the lines and see that the object was not to give an expression of gratification but to stop if possible the extension of revulsion over the County arising from the dismissal of Mr. Beckwith has eyes that see not. Why did not the resolution state all the facts? Why omit the most overwhelmingly important fact?

Why did it not say that for months in the year the Act was a dead letter in Kings County and ask Messrs. Wickwire and Covert for a remedy.

A very simple way would have been to have Mr. Beckwith reinstated in his office. Some effort of Mr. Oakes might have been much more to the point than a Pecksniffian resolution of the kind that was passed.

The other simple statement is that the resolution was a pledge of efforts to secure more effective temperance legislation if possible. The public would be "gratified" to know what efforts the association made—how they redeemed their pledge. Every one knows that the irresistible wave of temperance reform drove the whole legislature in a mass—Hallifax representatives and Dr. Covert excepted—to pass the Prohibition Act. But no one has heard of any effort of the Association made to secure that result.

And then the resolution pledges "our continued support" in any action to that end—"continued" indicates support in the past.

Will Mr. Oakes tell what the Association had ever done in the way of support to that end in the then past. If such had taken place it produced little effect on the representatives who had lined up promptly in the legislature against all efforts of that kind until resistance could no longer prevail and the virtue of necessity appeared.

I suggest that in order that the public may properly estimate Mr. Oakes and his letter, regard be had to the facts, the situation and the inferences that an informed and unbiased citizen of the County must draw.

THE KINGS COUNTY TEMPERANCE ALLIANCE FORWARD MOVEMENT

Fellow Workers:—

You will be interested to learn that the Alliance has secured the services of Rev. F. H. Beals, M. A., who is well known to the constituency, to devote the whole of his time as General Secretary to the work of temperance and moral reform in the County.

The purpose of this forward movement is to take advantage of the present crisis in the world's history, to create and foster temperance and prohibition sentiment in the County in co-operation with other societies and workers. The Secretary will give public addresses, bring before the Public and Sunday Schools the latest word of science respecting the evil effects of alcohol and other drugs, and, through the children, introduce suitable literature into the homes. He will also endeavor to stimulate a campaign for the stricter enforcement of the Nova Scotia Temperance Act, and to perform such other work as the needs of the field demand.

In order to raise funds necessary to prosecute this work, the Alliance appeals with confidence to the temperance people of the County. Many, for some reason, not being able to do the work themselves, will, we believe, be glad to have a representative in the field. The amount needed for the purchase of literature, should easily come from offerings at public meetings. The salary of the Secretary (\$800) it is proposed to raise by pledges from individuals and temperance organizations. An appeal will be made to each Temperance Society for a definite pledge, and to appoint an interested worker in each locality to solicit subscriptions from individuals.

Unless some such programme is put into operation, a great deal, if not all of what has been achieved in the past, and the advantages we now have in the recent and more advanced legislation passed by both the Local and Dominion Parliaments, will count for naught. May we all feel a responsibility in the matter, as in my opinion the real work of temperance reform is only beginning.

All cash and pledges should be sent to the Alliance Treasurer, W. E. Porter, Kentville, and when convenient, it is requested that cash should accompany the pledge.

E. B. NEWCOMBE,
President.

Kentville, N. S., April 20th, 1916.

A Thing of Beauty and a Joy Forever

The new Heintzman Piano styles for 1916—just in—have added perfection to their sixty-five years of excellence.

Built to conform with modern tastes, they yet have drawn inspiration from the best traditions of the old masters of piano making, and adhere rigidly to their high ideals of workmanship.

Other pianos may have almost as good a tone (when new) almost as artistic an appearance (when new.) But a musician can always detect the difference instantly—and time reveals it to all. You do not want an "almost" piano.

If when you buy, you want a piano that will be a thing of beauty and joy forever—see the new Heintzmans!

PROHIBITION BILL LAW ON JUNE 30TH.

The Legislative Council, After Divisions on Amendments, Passes the Bill by a Vote of 12-5

Halifax, April 19—After four divisions had been taken on as many amendments, resulting in 12-5. Bill No. 10, making Halifax a "dry" city, was passed by the legislative council yesterday afternoon. The debate on the amendments proved quite lively, and after they were lost the Bill was passed without further objection by the same vote. The messenger did not take this Bill to the House of Assembly. This will be done today, and no further amendments can be made to it. The Bill will become effective on and after June 30th.

\$1,450 for Stamp Donated by King George

London, April 4—King George, who is a devoted philatelist, recently gave the gem of his stamp collection to an auction sale of stamps in aid of the Red Cross. It is a 9d stamp of 1865, unused and very rare. It was sold to a collector for £280 (\$1,450).

Canon Powell Passes Away

Word arrived this week of the death in Philadelphia of Canon Powell who last year resigned the presidency of Kings College after a most successful tenure of five years. Canon Powell was one of the most forceful speakers ever heard in Nova Scotia.

A cable message has been received in Shelburne from Jaboticabal, Brazil, announcing the death in that place on March 31st of Mrs. Jane A. Herries Locke, widow of Mr. E. Locke, of the firm of J. & E. Locke, Lockport.

Pure Milk and Meat Products

A special meeting of the Kentville Board of Trade was held on Tuesday evening last and there was a good attendance. President Blair opened the meeting calling the attention to the need of more care in the production and marketing of milk and meat products. He explained how great care was taken at the Experimental Farm in both lines and the milk was made as pure as possible and the animals were examined every six months and the tuberculosis test used. He introduced Prof. Townsend of Truro who gave a most interesting talk on the necessity of keeping our milk supply pure. He explained how contamination could take place and the necessity of each town having an inspector to visit dairies and slaughter houses, to see that sanitary regulations were carried out. Short addresses were also given by Messrs. Dr. Webster, Councillors R. H. Lamont and F. B. Newcombe, Truman Bishop, Wm. Yould, Dr. Burns, H. G. Harris, B. Webster, etc., and the necessity for carrying into effect the valuable suggestions of Dr. Townsend was emphasized. A hearty vote of thanks was given Dr. Townsend for his address.

Von Papen Indicted By United States Federal Grand Jury

New York, April 17—Captain Franz Von Papen recalled German military attaché at Washington was today indicted by the federal grand jury in connection with the alleged plot to blow up the Welland Canal in September 1914.

Sir Sam Hughes made in England the following statement. Only one man in a thousand among Canadian soldiers has been brought up for drunkenness.

YOU CAN CURE CATARRH.

J. H. Taylor, 54 Bond St., Toronto, Breathed Hyomei and Cured a Long-Standing Case of Chronic Catarrh That Defied All Other Remedies, Also Toronto and New York Specialists.

Without taking a drop of medicine into the stomach, J. H. Taylor, 54 Bond Street, tells how the distressing troubles of Catarrh were overcome by simply inhaling Hyomei air. It's the history of tens of thousands similar cases on record, proving that Hyomei can be depended upon to cure Catarrh, Bronchitis, Coughs, Colds and Croup. It has no equal for any distress of the breathing organs.

Mr. Taylor says: "Some years ago while on a hunting trip in Northern Canada, I contracted a severe cold that settled in my head and finally affected my throat. It rapidly developed into catarrh and caused a miserable throat weakness. My head would become clogged during the night and there was a catarrhal dropping from the nose into the throat. Many days I had been unable to breathe other than through my mouth, and the constant hawking and spitting was almost unbearable. I had been treated by the best throat specialists here and in New York but nothing benefited my condition. I obtained Hyomei and soon found relief, the throat dropping ceased and my head began to clear. I continued with Hyomei for six weeks and after that time I was well in every detail. There has been no return of the trouble since and I feel grateful in speaking well of Hyomei, as it cured me when all else failed."

A complete Hyomei outfit costs \$1.00, and J. D. Clark, the druggist, will refund your money if it fails to cure.

The chauffeur never spoke except when addressed, but his few utterances, given in a brogue, were full of wit. One of the men in the party remarked, "You're a bright sort of fellow, and it's easy to see that your people came from Ireland."

"No, sor, ye are very badly mistaken," replied Pat.

"What!" said the man; "didn't they come from Ireland?"

"No, sor," answered Pat; "they're there yit."

Over a Million Armenians Slain in Massacres.

Amsterdam, via London, April 16—Telegraphing from Cologne the correspondent of the Tjld says:

"Catholic ecclesiastical authorities in Germany have received from an authoritative source in the Catholic mission trust-worthy information that more than one million Armenians have been murdered by Turks through starvation or ill treatment. About 100,000 Catholic were among them, including four bishops.

The message concludes: "Popular feeling among the Armenians was roused against the Turks by the British."

WOMEN'S WISDOM

Kentville Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained.

Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know. M. Howard Amburg, of Kentville, N. S. says: "I am very much pleased to recommend Booths Kidney Pills for their quick relief and cure of very severe sick headache and dizziness which made me miserable for days at a time. My back had troubled me greatly and I concluded his was all caused from kidney trouble. I tried numerous remedies and prescriptions but only received temporary relief. I then learned of Booth's Kidney Pills which were recommended to me and procured a box at J. D. Clark Pharmacy, and I am now convinced that they are all that is claimed for them as the terrible headache, with which I had suffered have not returned, the dizzy spells have left me and my back is as well and strong as it ever was." Sold by Dealers. Price, 50 cents. The R. T. Booth Co Ltd., Fort Erie Ont. Sole Canadian Agents.

NOTICE

All bills due me must be settled by Feb. 1st, 1916. After Dec. 31st, 1915 all blacksmith work will be strictly cash.

HORTICULTURAL

Prof. W. Saxby Blair, Supt. of the Experimental Station at Kentville, will furnish us with material from week to week bearing on Horticulture. We are confident that our readers will appreciate this valuable information as Prof. Blair is a well known authority, and if his suggestions and advice is followed, success is assured.

GARDEN PEAS.

Probably no variety of garden peas is as popular as the Gradus or Prosperity. The Thomas Laxton is equally as good but more difficult to get. The pods seem to fill better than do the Gradus. They can be seeded as early as the ground is fit to work. It is a good plan to make successional sowings two weeks apart. The Stratagem is one of the best late peas, and after the first seeding, successional sowings of this variety is desirable. The richer the ground the better for good fat peas. It is not necessary that the ground be spring plowed and a good soil fall manured and worked with the harrow in the spring is the best preparation.

The seed should be sown in rows 2 1-2 feet apart to give an opportunity to cultivate with the horse. Put in sufficient seed so that you will not have to buy seed next spring. Do not pick all the pods but allow some to ripen. We do not stake these peas as a general thing and if the space mentioned is given they can be gathered without difficulty and will mature well. If the garden is small may be saved by planting closer and staking.

Spinach should be grown for greens. The Bloomdale and Victoria are good varieties. Sow in rows 15 inches apart and cut when about 4 to 6 inches high. Sow early, the earlier the better, and make another two weeks later. Make the ground rich. Lime is necessary on most soils to grow Spinach.

Like the peas Basic Slag with Nitrate of Soda will give the best results applied at the rate of 500 pounds per acre of the former and 100 pounds of the latter. Manure is of course the best fertilizer for most garden crops and the above can be used in addition. Ground Limestone at the rate of 2 tons per acre will give excellent results but may not be necessary for many soils.

The Cold Frame

The cold frame is an excellent place to harden off plants starting in the hotbed, but it is of value also for starting some early vegetables in such as carrots, beets, lettuce and radish. These can be sown in rows 6 to 8 inches apart.

The cold frame is made of boards whatever size the sashes are that are to be used. As already stated any outside windows can be used, but they should be well painted so that water will not cause rotting of the wood. The front of the frame should be 8 inches the back 12 inches. This frame is set right on the soil and the soil inside is well manured with good rotted manure and thoroughly dug up and levelled after which the seed is sown.

It is just as important to give attention to the ventilation of the cold frame during bright days as it is to give it to hotbed. The soil will heat up quickly and the young plants will be injured by the high temperature. Ventilation from nine in the morning to four in the afternoon will usually be necessary.

The carrots, beet and lettuce can be thinned to 1 inch apart and allowed to mature where they are. Plants for transplanting can be taken from the lettuce row also. The cabbage or cauliflower will be excellent for transplanting early in June. If the cabbage have been sown thick they should be thinned some to make good stocky plants.

All of the hardy annual flowering plants can be started in the cold frame in this way and usually will give as good plants as if sown in the hotbed. Make the cold frame now. Place the frame and sashes and in a few days the ground will be fit to dig and in the meantime the ground is warming up.

W. S. BLAIR

Carrots, Beets and Parsnips.

For early carrots and beets seed as early as possible but for the winter stock seeding the latter part of May or early June will be the best time.

Chantenay and Danvers carrots and any of the Globe beets are good. If the seed has been sown thick and all the seed has germinated it should be thinned to one inch apart.

Plant in rows 2 1-2 feet apart. Level culture usually is desirable unless the ground is heavy in which case ridging may be best.

Deep thorough preparation tillage is desirable for all the roots and a good yielding soil will give the best formed roots.

W. M. REGAN - Wolfville

Excellent Farm For Sale

Situated at Waterville near station, post office and stores, 80 acres orchard giving 500 bbls of apples, tillage pasture and hay land, will cut 1000 cords of hard and soft wood and timber. Fine house, large new barn and other buildings. A fine location, soil excellent, and will be sold at price little in advance of what it would cost to put up new buildings. Part may remain on mortgage. For full particulars and price, address **J. G. HARRIS, sw Kentville.**

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

As settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The act of cultivation is subject to reduction in case of rough, scrubby or tosy land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G.,
Deputy of the Minister of the Interior

For Sale—Two pair of Oxen, weight about 2800. Apply to **Avery Ward, Coldbrook.** 4sw

OBITUARY

Clifford A. Tufts.

As announced on Friday last the death of C. A. Tufts, B. A., of Saskatoon, took place at Montreal. He had come east for an operation for appendicitis and everything seemed progressing well up to Monday when he complained of being tired and was wheeled to the ward in his bed. About 2.30 a. m. he complained of a pain in his side and his sister in law, Miss Brock, day nurse in charge at the hospital was summoned but he was dead before she reached his bedside.

Mr. Tufts was born at Kingston and educated at Acadia College and Dalhousie Law School. He was in partnership here with Mr. Barclay Webster and also with Mr. W. P. Shaffner. He was a man of absolute integrity and was a foremost temperance worker and Oddfellow.

The funeral was held at Kingston on Sunday and was largely attended. A number from Kentville went out in autos to attend the service which was under the auspices of the Oddfellows conducted by Rev. A. E. Wheeler. Deceased was 45 years of age.

Mr. Tufts has been a resident in Saskatoon for several years where he did a successful law business and accumulated considerable property which will be of value when better times comes to the west. He leaves surviving him a widow, daughter of the late Canon Brock of Kentville and three children, Courtney, Constance and Karl.

Much sympathy will be felt for the family in the West and his relatives in Kingston.

Rose Elizabeth Landry

The funeral of Rose E. Landry took place on Good Friday afternoon from her late residence at Aldershot, The Rev. T. C. Mellor held a short service at the house at 2.30. The burial service was held in St. James' Church and interment at The Oaks Cemetery.

Rosie had been taking a course of study at the Commercial College, Halifax, during the past few months. When sickness seized her she made light of it so as not to cause worry to her parents. But it was found necessary to remove her to the hospital where an operation was performed, and where she died.

Much sympathy is felt for the parents, Mr. and Mrs. Fred Landry in their sore loss, for Rosie was a bright, intelligent and upright girl, one who will be missed in her circle of girl friends. Many of her class mates in the High School and Sunday School attended the funeral as a mark of esteem.

Beautiful and costly floral tributes were sent by her associates in Halifax, and from the High School, Kentville, as well as from private individuals thus testifying to the high place she had held in the regard of her friends. "Blessed are the dead who die in the Lord, Even so, saith the Spirit for they rest from their labors."

Arthur W. Armstrong.

The death took place at Springfield, Mass., recently of Arthur W. Armstrong, a native of Wolfville and for one or more years a principal of Horton Academy. Mr. Armstrong graduated from Acadia in 1897. After teaching at Horton Academy and in Cape Breton he went to the United States and after a training course settled at Hyde Park, Mass., and taught there with marked success until a recent date. He was 63 years of age and leaves a widow and two sons.

Infant Son of Harvey and Nora Aalders

Rev. T. C. Mellor officiated at the funeral of the babe of Mr. and Mrs. Harvey Aalders on Wednesday, April 19th at the Oaks Cemetery.

"It was sent to deliver a message and the message being delivered God took it back again."

PORT WILLIAMS.

Some special prayer services are being held here this week in the Baptist Church led by the Rev. A. J. Prosser.

Mrs. Hill of Canard has been spending a week with her friend Mrs. G. H. Illsley.

Preparations are being made to hold a reception on Easter Monday evening, in Citizens Hall for the young men who have enlisted from here for Overseas service. Some fourteen or more are now in drill with the 112th and the 219th.

Measles are still lurking around at present. Pte. Gerald Mills is a victim; Councillor Campbell has an attack of rheumatism and several are suffering from bad colds.

Mrs. A. N. Coulston has been entertaining this week her brother, Mr. Harris of Margareville also her cousin for a few days.

Miss Glennie Kinsman is spending the Easter holidays with her parents in Grafton.

There was an Easter Concert on Sunday evening in the Baptist Church under the auspices of the W. M. A. S. and M. B.

Mr. George Gates, the energetic and up to date road master, is making great improvements, by building a fine sidewalk on the west of Main Street to Mr. John Beanson's. It has much improved the access to and grounds of the Baptist church, now the agitation is for cement walk and steps to church.

Mrs. Joseph Goodwin, who has been spending the winter with her daughter in Canning has returned home. Mr. Goodwin is still at the Victoria Hospital.

Mrs. Shaw of Windsor and daughter has been the guest of her sister, Mrs. Jas. Kennickie.

Mr. G. A. Carter and family have removed to Wolfville where he has taken charge of the garage business. They leave many friends here, as they proved themselves good citizens always ready to help in anything for the good of the town.

CANNING

Mr. Robie D. Eaton arrived home on Saturday from Boston where he accompanied his wife who went there for treatment. By examination under the X-Ray by experts in Boston, her case as diagnosed by Dr. Miller under the X-ray at Canning was confirmed. Mrs. Eaton remains and later on operation will be necessary.

Mr. William Dickey, who has been in Milton, Mass., for the winter returned home on Saturday and will work on the farm for the summer with his parents, Mr. and Mrs. H. S. Dickey, Canard.

Mrs. Grace Woodworth, station agent, at Round Hill has been at home visiting her relatives for Easter. She attended the Railway ball on Monday evening and leaves on Tuesday for her duties again.

L. C. Woodworth of the 85th Battalion spent Easter at his home here.

Mrs. C. M. Atkinson has gone to visit friends in Boston and other New England cities.

William Brewster and family have moved to Windsor.

The Ladies of the United Baptist Church, Canning, will hold a Fancy Work Sale and Ice Cream Social on Saturday afternoon and evening April 29th in Mr. Joudrie's Ice Cream Parlors on Main Street. A good display of fancy and useful articles will be on sale. The public are heartily invited.

For Sale—One disc harrow, just as good as new. Price \$10. Jas. Rooney. sw tf

The engagement is announced of Willena Louise, daughter of William Wilson, Falmouth, to Fred Layton Spencer of Three Rivers, P. Q. The marriage will take place May 17th in the Methodist Church, Falmouth.
