Judge Ridley rose in his seat and tapped him upon the shoulder, saying that he had no right to refer to him so. St. Maur replied hotly, and there was a brief wordy interview. The crowd followed the judge to the door, giving vent to their feelings by hooting and jeering at the judge.

The election recount which was demanded by H. E. Duke, the defeated Unionist candidate, who lost at the general election to H. Whitford's Evidence

At the hearing this morning Whitford, the young half-breed, gave apparently straightforward evidence. He had worked at Lennox's since last October. He saw Soderberg in the house on Tuesday before the murder. He was riding a big horse, and Soderberg was riding a smaller one. He knew of no trouble between Lennox and Soderberg, except what the latter had told him. This, however, was not admitted as evidence. He said that the trail usually runs by the house of the late Mrs. Whitford's. This is the route which the police traced the footstep. Whitford said also of poisoning Anderson the night before the murder. He said he could ride from Lennox's to Stettler in three quarters of an hour.

SODERBERG TRIAL IS ADJOURNED

Resumes Monday, When the Strongest Evidence Will Be Produced.

Stettler, April 14.—After a brief sitting, lasting only an hour this morning, the trial of Alex Soderberg for the murder of William Lennox was adjourned till Monday afternoon. Then the Crown will present the strongest evidence against the accused. The only witness examined this morning was Mrs. Whitford, a young half-breed, first arrested for the murder, and H. T. Harding, a Stettler lawyer. The former's evidence, if anything, added a little to the case of the Crown against the prisoner, but there was nothing sensational in it. Harding, who has been acting for the Lennox estate, produced mortgages showing that Soderberg was indebted to Lennox for \$4,666.

Scene of the Crime

This afternoon counsel for both sides, with the representative of the Laidlaw, visited the scene of the murder. The Lennox shack lies twelve miles to the north of Stettler. In a wild, rugged country on the south shore of Athabasca Lake, the surface resembles the foothills of the Rockies, and is well suited for grazing, while of little use for farming, owing to the very uneven surface.

CALLS THE BIG FARMERS' DEPUTATION "GANG OF WIND BAGS FROM WEST"

Ottawa, April 11.—Opposing reciprocity in the Commons tonight, Colonel Hughes showed the character of the Conservative and corporation campaign by vicious attacks on the grain growers of the West and the big farmers' deputation which visited Ottawa in December to present their views to the government.

He also charged that the organization of the grain growers was a "gang of bamboozling buccanniers" who wanted to corner the grain market. He declared the grain growers were the kind of men who left their wives to take the cow stables while they sat around the backsmith shop and talked. He charged that the government had been stampeded into reciprocity by this "gang of wind bags from the West." The Hughes outbreak is regarded as significant of the style of the campaign being conducted by the "Farm Reform League and the political and corporation opponents to reciprocity.

GOVERNMENT RESPONSIBLE

"It doesn't seem strange to me," said the defendant, the Alberta and Great Waterways Railway Company, in payment of interest upon the bonds, as alleged in the said preamble, such default was caused by the action of the government of the said province in stopping the construction of the said line of railway and refusing to permit its continuance.

The claim of the plaintiffs is stated to be based entirely on an act of the legislature of the province of Alberta, passed Dec. 18th, 1910, chapter 9, of the acts of 1910 (second session), which is an act respecting the bonds guaranteed for the Alberta and Great Waterways Railway company, being an act to specify certain defaults of the railway and the consequent rights of the province. This act, by which \$7,000,000 with accrued interest, deposited in the three banks, is declared to form part of the general revenue fund of the province, being an act to specify certain defaults of the railway and the consequent rights of the province. It is claimed by the defendants that the recitals contained in the preamble to this act are untrue in the following respects:

HON FRANK OLIVER SPOKE IN CALGARY

Minister of Interior Discussed Reciprocity in Southern City.

Calgary, April 14.—The reciprocity arrangement is believed to be in the interest of all Canada, the Government believes that the prosperity of Canada depends to a large extent on the West and that which advances the West, must of necessity advance all Canada. The Government believes that the right policy that the farmer of the prairies should have the benefit of all the markets he can get for all the produce he can raise. It is difficult to conceive that an arrangement to facilitate trade across an imaginary boundary, the 49th parallel, is less desirable than an arrangement to give the western farmer a market in China or Japan. The only way to guard against the possibility of a sectional split in the Dominion is in a trade policy giving equal rights to all fair play to every section. If there is one point on which the Government is strong it is on the value of this reciprocity arrangement to the Empire. What is true of Imperial interest in relation to the United States is also true of the interests of the Dominion of Canada.

THE McCormick Reel is the Strongest and Most Effective Ever Placed on Binder. The McCormick reel offers a wide range of adjustment and successfully meets the conditions encountered in any field, whether the grain is tall or short-standing, down, or tangled.

On 7 and 8-foot McCormick binders the reel has outside support. This effectively prevents the reel from striking the ends of the cutter's while the machine is being operated on rough ground.

The McCormick reel is a revelation of simplicity in construction, accuracy in timing, and ease of adjustment. Only two moving parts constitute the working mechanism of the McCormick timing device.

There are many other features and advantages of McCormick binders. The McCormick agent will tell you about them. He will tell you about the wonderful strength of each individual part and of the strength of the binder as a whole.
