Lawrencetown Boy a Yale Professor.

Announcements of the success of our maritime province men in American university and industrial life have been made from time to time through the columns of this paper. Among the recent appointments of the Yale corporation is that of Avaril Longley Bishop, of Lawrencetown, N. S., as assistant professor of the Science Society.

Professor Bishop was graduated from Acadia university in 1901 with honors in history and economics. While an undergraduate of Acadia he took an active part in all departments of college life, distinguishing himself in debating and winning the Kerr Boyer Paper gold medal for excellence in oratory.

In September, 1902, he entered Yale college, taking the degree of B. A. in 1903 with special honors in social science. M. A. in 1904 and Ph. D. in 1906. In recognition of original research and high scholarship he was elected a member of the society Sigma Xi and Phi Beta Kappa. His doctor's thesis upon the State Works of Pennsylvania was published in the Connecticut Academy of Arts and Science and has elicited favorable comment in other universities and the public services of the United States. He has also contributed several articles to the Yale Review, such as recent report in the consular service of the United States.

Professor Bishop's advancement has been rapid and constitutes a high appreciation of his ability—few men attain this distinction within five years from graduation. We join in wishing him continued success in his chosen profession.

\$100.00 paid by Dr. Shoop for any recent case of Grippe or Influenza. It is a 25 cent box of Preventol or 10c. The doctor's supreme confidence in these little Candy Cough Cure Tablets—Preventol—is certainly complete. It's \$100.00 against 25 cents. Preventol is a preventive of colds, coughs, croup, whooping cough, and all other respiratory ailments. It never appears early colds were broken and cure for feverish children. Preventol 25 cents.

WATER POWER IN MINING.

The Londonderry Iron & Mining Co., contemplate developing the water power at Nictaux Falls, Nova Scotia, for the operation of their iron works. This Company uses all native ore in its blast furnaces at Londonderry. John J. Deunmond, the managing director, states that a large body of high grade ore has been located on the eastern end of their mining property close to the Deffers River, a tributary of the Torbrook. No. 1 shaft has been producing 200 tons iron ore per day, and it is producing 60 tons per day during the last year. It was sunk 200 feet on a rich vein of red hematite, and it is producing 60 tons per day on development work. After a thorough overhauling the furnace was started again in September and was producing steadily until lately.—Industrial Advocate.

Remember that when the Stomach

gives fail or weaken, Dyspepsia or Indigestion must always follow. But strengthen these same inside nerves with Dr. Shoop's Restorative, and then see how quickly health will again return. Weak Heart and Kidney nerves can be strengthened with the Restorative, where heart pain, palpitation, or kidney weakness is found. Don't drug the stomach, or stimulate the Heart or Kidneys. That is wrong. Go to the cause of these ailments, and the stomach will be strong and healthy with Dr. Shoop's Restorative and cure all. A simple, single test will surely tell.

The lumber cut in New Brunswick

is away below that of last year. In 1907 there were some 180,000,000 feet cut on the Miramichi river, and this year there will not be more than 100,000,000 feet, and nearly one-half of that is pulp wood.

Does Your Food Feed You?

Dr. H. Snow, late Senior Surgeon, Cancer Hospital London, wrote: "The maintenance of sound nerve equilibrium by scientific tissue nutrition like Bovril will do more to stay the ravages of any malady than a century of medical progress in drug treatment."

FARMERS' INSTITUTE AT CLARENCE

Nova Scotia a Dumping Ground for Inferior Specimens of Pure-bred Stock—Should Stop Importation of Such Quantities of Beef and Feed

The agricultural meeting advertised to be held in West Clarence took place on Saturday last. Mr. L. D. Robinson of Berwick, Kings Co., opened the meeting by a talk on spraying and cultural Societies and Farmers' Inst. of bluestone and lime should be made of the strength of one pound to the gallon. Here the speaker gave an object lesson in the amount of Paris green when using the amount of Paris green. He showed the great superiority of Bordeaux made by diluting the two ingredients, bluestone and lime, to 20 gallons each before pouring them together, over the old method of combining the strong solutions together first and afterwards adding the water. A new insecticide was recommended both for cheapness and because of its complete solubility in water. It was made as follows: Place in an iron pot, 1 lb white arsenic, 4 lbs sal soda and 1 gal. water, boil for 15 minutes or until it forms a clear liquid add enough water to make one quart, of the solution put it into a jug and label "Poison." One quart of this liquid is equal in its poisoning effects to 1 lb of Paris green. A gallon of this arsenite of soda will cost about 20 cents, or about one-third as much as the same strength of Paris green.

Note: Use an extra pound Paris green when using arsenite of soda. The speaker referred to recent experiments conducted at the Geneva Experiment Station, N. Y., for the purpose of devising a remedy for Bordeaux injury. These experiments proved conclusively that an excess of lime will not prevent Bordeaux injury, but 3 lbs each of lime and bluestone are almost as effective in fighting the crab as 4 lbs of each, and that Bordeaux injury is greatly lessened by using the weaker mixture.

Mr. Fuller, Superintendent of Agricultural Societies and Farmers' Institutes followed in a well received address on stock-raising and subjects connected with that department of farming. He maintained that farmers should not be satisfied with pure bred stock, that the wise farmer should be satisfied not only with the best from such stock, Nova Scotia in too many instances had been a dumping ground for pure bred stock not wanted in Ontario. Farmers often paid high prices for inferior Ontario pure bred stock when better and cheaper stock could be purchased at home. The speaker referred to Nova Scotia as the best country in the world for the raising of turkeys. This fact should place Ontario ahead of Ontario as a beef producing country and stop the importation of such large quantities of beef and feeds from the Upper Provinces.

D. A. R. Railway Man's Sudden Death.

ADDISON LECAN OF THE D. A. R. PASSED AWAY SUDDENLY AT HOME IN WINNSBOR VESTERDAY MORNING.

WINNSBOR, N. S., Mar. 2.—Addison Lecan, a bricklayer and former conductor on the Midland division of the D. A. R., died suddenly at his home here this morning. He had been suffering for a few days with a severe cold, which ended in a slight attack of influenza. He died at about 10 o'clock Saturday and several hours later passed a comfortable night. In the morning the maid in the kitchen heard as though laboring for breath. She went to her room and found that he had passed away. Lecan was away from home, having been in Toronto several weeks undergoing medical treatment. The sad news was communicated to her last night and she arrived home today. Mr. Lecan was 66 years of age and has been in the employ of the D. A. R. since he was 16 years old. His only daughter, a girl several years old, was pastor wife of the Rev. J. W. MacLeod, who was at home at the time. Besides his widow the deceased leaves six children, several of whom are away from home.

New Sunday School Field Secretary.

The Rev. A. M. MacLeod has been appointed Field Secretary for the Nova Scotia and Bermuda Sunday School Association. Mr. MacLeod is a graduate of Dalhousie College 1889, and of the University of Toronto 1901, of the Post Graduate Course in Edinburgh. His last charge was Harbor Grove. He expects to commence work on the Sunday School workers' all over the Province who have missed the visits of a Field Secretary since Mr. Muirhead went to Alberta a year ago. As soon as possible Mr. MacLeod will commence a tour of the Province. His first work will be to hold District Conventions. Notice will be sent to the County Officers as soon as definite arrangements can be made.

A DAILY PRAYER FOR BUSY PEOPLE.

O Lord, I have a busy world around me, my eye, ear, and thought will be needed for all my work to be done in this world. Now ere I enter on it, I would commit my eye and ear and thought to Thee. Do thou bless them, and keep their work true, that as through Thy natural laws my heart beats and my blood flows without any thought of mine, so my spiritual life may hold on its course at those times when my mind cannot consciously turn to Thee to commit each particular thought to Thy service. Hear my prayer for my dear Redeemer's sake. Amen.—Daily Prayer of Dr. Arnold of Rugby.

Correspondence

LOWER CHARVILLE.

About sixty of the friends of Mr. and Mrs. J. S. MacKenzie assembled at their home on Wednesday evening and gave them a genuine surprise party. In the course of the evening they were presented with a handsome parlor table and centre piece. Presentation speech by Mr. W. H. Vanflateron to which Mr. and Mrs. MacKenzie responded in a pleasing manner. A collation was served immediately afterwards. Readings were given by Miss Jessie West and games enjoyed by all. At a late hour the company repaired to their homes, all feeling they had spent a very pleasant evening.

BELLE ISLE.

Mrs. (Rev.) William W. Crowell of Summersville, P. E. I., who came home to attend her mother's funeral, is remaining a few days with her sister, Mrs. Frank P. Bout.

Mr. Daniel W. Covert of Malden Mass is visiting his relatives and friends, here. Mr. Covert moved away from here in 1894 and this being his first visit, his many friends were pleased indeed to greet him.

Miss Olga Wade spent last week with her cousin, H. H. Wade at Bridgetown. Large quantities of fruit have been moved from here during the past fortnight, for shipment to the English market.

Miss Gussie Wade has returned to Bridgetown to resume her former position with W. W. Chesley.

The Middleton and Victoria Beach Railway will soon be thought of as a thing of the past—pitiful object of a useless waste—the "sick man of the county," with no hope of cure. He thinks they had better take down their sign if they have not the goods.

GOOD REASONING.

HOW MR. BOK BECAME A TOTAL ABSTAINER.

Edward Bok, Editor of the Ladies Home Journal, took a characteristic way of arguing himself into total abstinence. He says:

"As I looked around and came to know more of people and things, I found the always unanswerable argument in favor of a young man's abstinence; that is, that the most successful men in America today are those who never left a wine-glass to their lips. Before my interest in this fact I had a curiosity to inquire personally of the leading business men in the country, whose names I selected at random, twenty-two never touch a drop of wine. I made up my mind there was some reason for this. If liquor brought such pleasures, why did these men abstain from it? If, as you say, it is a stimulant to a busy man, why do not these men, directing the largest business interests in this country, use it? And when I saw that these whose opinions in great business matters were accepted by the leading newspapers of the world, refuse to make use of it, I concluded that their judgement in the use of liquor would satisfy me. If their judgement in business matters would command the respect and attention of the leaders of trade on both sides of the sea, their decision as to the use of liquor was not apt to be wrong."

The Apple Industry

KINGS BOARD OF TRADE WANTS NAMES OF DISHONEST APPLE PACKERS PUBLISHED.

The thirteenth annual meeting of Kings County Board of Trade was held at the Court House, Kentville, on Wednesday at two o'clock. Many of the leading men from all parts of the County were present, and took part in the discussion before the Board. The President, J. A. Kinsman, County Fruit Inspector, gave a very interesting address on all matters of importance which are before the County, especially the apple industry. His address will appear in full in the County papers.

The following officers were elected: President, W. H. Woodworth, Berwick, N. S.
Vice-President, M. G. DeWolf, of Kentville.
Sec. Treasurer, W. B. Burgess.
Auditors, Geo. Calkin and J. H. Cox.

The old Council was re-elected. After much discussion, participated in by Capt. C. O. Allan, P. Innes, W. P. Innes, Warden MacMahon, Mr. Stairs and others, the following resolution was passed and allowed to be presented to the Dominion Government:—

"Whereas, it is known that the steamship companies are making private arrangements with speculators, foreign apple receivers, or their agents at home or abroad, therefore, resolved that the Government be requested to compel the steamship companies to advertise an equal rate for all under similar circumstances, and any steamship company departing from such advertised rate, shall be deprived of their subsidy by the Government."

INFERIOR APPLE PACKING.

It was also resolved that in aid in reducing the numerous complaints made regarding the inferior packing of apples, the names of all parties fined under the Fruit Marks Act be published by Chief Inspector Yroom in the papers of the County where the offenders live; that the Minister of Agriculture be requested to give effect to this resolution and that copies of same be sent to J. W. Ruskell, Chief Commissioner, and to the members of the Counties interested.

LAME SHOULDER.

Whether resulting from a strain or from rheumatic pains, there is nothing so good for a lame shoulder as Chamberlain's Pain Balm. Apply it freely and rub the parts vigorously at once in application and a quick cure is certain. For sale by W. A. WARREN, BRIDGETOWN, W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

MT. HANDLEY.

Mr. David H. Armstrong has been on the sick list for the last two months but is better at time of writing. Dr. Young is his attendant.

Mr. and Mrs. McNeill, (see Hattie Hayes), have been the guests of Mr. and Mrs. John Hayes, they returned home on Wednesday last.

Mr. and Mrs. W. Berry and son from Bridgetown are the guests of Mrs. Berry's parents, Mr. and Mrs. Z. Elliott, for a few days.

Mr. Bertram Thompson and Miss Emma Thompson from Bloomington were the guests of their brother, John Thompson for a few days.

There will be preaching service in the church Sunday morning, March 8 at 11 o'clock.

Mrs. Laura Brown and daughter, Nora, from Port George were guests of her aunt, H. Henniger for a few days last week.

Mrs. Sarah Sloum of this place is visiting her sister, Mrs. J. Rensch at Victoria for a few weeks.

All the talk with the farmers at present.

The farmers are cutting ice this week to fill their icehouses for summer use.

HOME MADE SARATOGA CHIPS.

"Home made Saratoga Chips are much more of a rarity than they should be," says Fannie Merritt Farmer in the August Woman's Home Companion. "If one owns a potato slicer, they are not difficult to prepare. They are always an acceptable accompaniment to fried fish, but perhaps are never more happily in evidence than when served as one of the accessories of a picnic luncheon. Wash and pare medium sized potatoes. Slice thin, using a vegetable slicer made for the purpose, into a bowl of cold water, and let stand one or two hours, changing the water twice. Drain, plunge into a kettle of boiling water, and let boil one minute. Drain again, sever with cold water, and let stand five minutes. Take from the water, and dry between towels. Fry in deep fat until delicately browned, keeping in motion with a skimmer throughout the cooking. Remove with a skimmer to a pan lined with brown paper which will absorb the superfluous fat, and sprinkle with salt. Always drain fried potatoes on brown paper. For fried food if properly drained seldom absorbs enough fat to be indigestible."

Most people know that if they have been sick they need *Scott's Emulsion* to bring back health and strength.

But the strongest point about *Scott's Emulsion* is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

THE HOME

MOTHER'S TROUBLES.

The leader of a mother's meetings gave a talk on the foregoing subject, and it was so full of vivid, helpful things that it deserved a much larger hearing. She began with the morning and took up in detail the trying things that might occur in the care of the children during the day.

There has been an accident. The careless, boisterous child has torn the new, little dress. Perhaps angry words spring to your lips and you think of punishment. It seems such an inexcusable thing. But pause a moment. Are you allowing yourself to feel more troubled about this than if your child had told a lie? Many mothers do. Yet the accident, the torn frock, the broken dish, the muddy shoes, are little things, not wrong at all, only vexing to our caretaking spirits. On the other hand, the lie, the deed of selfishness the impure word, may be the beginning of a habit that if not checked, will blight the soul. We mothers need to distinguish between the two classes of childish offenses. There are the really wrong things, and the other things, that are the result of the unguided activity of the young animal. We are not surprised that a puppy tears to pieces anything left in his reach. Let us have at least as much consideration for the child that is blundering through his awkward, destructive period. Unfortunately, the child's mischief is especially trying to the tired mother. "I have dressed a child in a white frock to take it out, and, having neglected a warning, I have come down to find it contentedly making mud pies." The little one was doing nothing wrong, but one finds it costs a struggle to keep patient at such a time. Yet we must keep patient if we are going to be good mothers. If we have a shower of reproaches going all day long we shall soon lose control of the children and ourselves as well. Then meet the accidents with an unmovable spirit. If there is a natural penalty that will teach caution for the next time, impose it without harsh words.

Another hard place taken up was the following. Perhaps the mother goes into the children's room and finds it in the wild disorder that children some times leave a room after a frolic. The impulse is to do the picking up herself in order that it may be thoroughly done, and punish the children by some quite unconnected penalty. The one effectual thing to do is to call the children and insist pleasantly but firmly that they report on the state of their state of order. It will be better, too, if the mother remains out of the room while the work is being done, gives no more thought to it until the children come to report on their work. Here is finished. Then, and not until then, the children are in a frame of mind where they may hear with profit a few remarks on the necessity of order.

"Again, the child comes in and covers a disagreement with a playmate. We all know how prone we are to think our own child has not been at fault, but has been sooty smudged against. If we voice this feeling, we do to the child a serious wrong. Here is our opportunity to start in him a frame of mind that will save him much sorrow and many mistakes in the future. Help him to look at the other child's standpoint. It is a wonderful education if just dealing this looking for the other fellow's viewpoint. "If you were Mary, would you have been really kind?" Do not let the child think that he is always in fault. That breeds the temper of "I'm right, Margaret Walters."

If the color has been taken out of a fabric by an acid try sponging it with a weak solution of ammonia. It will sometimes restore the color.

The finger-marks so frequently left on painted doors by children or careless maids may be removed by rubbing with a perfectly clean cloth dipped in a little paraffine. The place should be afterward covered with a thin coat of water and given a final polish with a clean soft cloth. There is no real remedy for finger marks on light wall-paper, but sometimes simply rubbing with a clean cloth will help. Water, usually not injure it, and should be left alone to dry, as interference may cause a lasting stain.

It is curious, but a fact gathered from years of observation, that the worst-tempered children often make the best-tempered men and women. Girls who are fretful and selfish may, if properly guided, grow into sweet, unselfish women, and become excellent wives and mothers. In the same way boys who have been most mischievous and unruly frequently make the clearest and kindest men. This being the case, what is the treatment for bad-tempered children? The answer is, "Be patient."

SALE OF WOOD ALCOHOL.

(Yarmouth Times.)

As will be seen from our news columns another man has met his death from drinking a form of wood alcohol. Such deaths are becoming so common that we feel that the time has come when proper restrictions shall be placed upon the sale of this and kindred poisons. It was shown at the inquest that at present a druggist has power to sell any quantity to any person. The question of restricting the sale finally has been more than once discussed by legislative bodies. Now, it seems high time for action.

It is just a century since it was proved by actual experiment that anthracite coal could be used for burning in a grate, and the centenary of the discovery has just been celebrated at Wilkesbarre, Pennsylvania. Long before the close of another century the known supply of anthracite in that region will be exhausted, and no one seems to know what will happen after that event.

LOVELY LITTLE FELLOWS.

The lovely little fellow sits among his little toys.

And finds no charm about what once he thought his greatest joys: He does not run and laugh and play he would but sit still and wait And listen for a football or the rattling of the gate.

And watch to see somebody coming through the open door— Somebody who will chasp him and sing to him once more.

He is too young, they tell us, far too young to know at all the truth about the sorrow that the hand of fate fell— And yet he sits and watches, with his hope told in his eyes, And oft with lips a quiver he will stifle little sighs; He gazes from the window in the sunshine and the rain, And none of us may fathom how his heart is wrong with pain.

At night he bravely chambers in his little bed alone, And wishes little prayers that his trusting soul has known.

Since first he leaped them slowly kneeling at somebody's knee— And should we tip-toe lightly to his bedside we should see their sorrow, and they dumbly hold and keep A memory that mocks them of the grief that will not sleep.

The lovely little fellows! Do you know of one some where? Then go take him and scotch him while you smooth his sunny hair, And sing to him and whisper little stories all his waking hours, Until his eyes are laughing and his lips will wear a smile, And life is sent of gladness, and the shadows dull the day.

When the lovely little fellows do not sing and laugh and play.

THE MOVERS.

"Yes," said the young lady in the brown costume, "we are going to move to avoid having to clean the house."

"And so are we," answered the lady with the golden hair. "I think it will take the new tenants two weeks to get rid of all the rubbish we are leaving behind."

"The same in our case. Our house will need attention from cellar to roof. By the way, where are you going?"

"No. 15 L—street."

"What? Why, that is where we are leaving!"

"Well I declare! Where are you going?"

"No. 11 B—street."

"And that's where we are leaving."

—THE KICKER.

There has ever been a disposition to denounce the kicker and knocker, but after all, all things seemingly unprofitable have their uses. We can cordially endorse the recent expression of a distinguished statesman: "Heaven bless the kicker." He is the salt of the earth. Without him, nothing worth saving would keep. He never hurt a good thing, and the bad ones he has slaughtered sure. Legion—Maryville Democrat.

JOKER'S CORNER

AS BARGAINED.

Jimmy's dog, Tiger, was a nuisance. The animal's pet theory must have been that all things were created to be destroyed; at least, so his practices indicated. Jimmy's parents were anxious to get rid of Tiger.

"Jimmy," said his father one day, "I'll give you a dollar if you'll get rid of that dog."

Jimmy gasped at the amount and said he would think it over. The next day at dinner he announced that he had got rid of Tiger.

"Well, I certainly am delighted to hear it," said the father. "Here's your money; you've earned it. How did you get rid of the nuisance?"

"Changed him for Johnny Morgan's two pups," answered Jimmy.

FIRST AID.

A Washington doctor was recently called to the telephone by a colored woman formerly in the service of his wife. In great agitation the darkey advised the doctor that her youngest child was in a bad way.

"What seems to be the trouble?" asked the doctor.

"Doc, she done swallowed a whole bottle of ink!"

"I'll be over there in a short while to see her," said the doctor. "In the meantime have you done anything for her?"

"I have done give her three pieces o' blotting paper, Doc," said the negro, doubtfully.—Harper's Weekly.

FOR DISEASES OF THE SKIN.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and her- ber's itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by Applying Chamberlain's Salve. It always the itching and smarting almost instantly. Many cases have been cured by its use. For sale by W. A. WARREN, BRIDGETOWN, W. W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

HONEYMOON READING.

The mother had quieted after the wedding; husband and Aunt Mary were in the parlor talking it over.

"So it's over," said Aunt Mary smiling into mother's eyes.

"Yes," said mother, bravely although a little tearfully, "it's over and begun."

"They'll be happy, I'm sure."

"Yes. They are very well suited to each other."

"Very, I could see that. They both have staid habits."

"Yes, but, Mary"—mother paused and the gleam of mischief evoked by Aunt Mary, sooner than anybody else, darted into her eyes. "Mary, they can't have much sense of humor. Though it's my own girl, I say it."

"Why not?"

"Do you know what she took to read on U.S. wedding journey?" "Stevenson's Travels West a Donkey."

NOT NATURAL FOR HIM.

Thomas W. Lawson, Boston's noted financier, was talking to a reporter about a notorious New York capitalist.

"Well," said Mr. Lawson, "I have heard that you tell the truth once or twice. He can tell the truth, I admit but it doesn't come natural to him. He reminds me of the Russian mujik."

"A Russian mujik sat one day in the anteroom of the military commissioner of his town. There was an anxious frown on his face. A friend approached and said:

"What is the matter, Poir?"

"I am worried," Poir answered, "about my son. I don't know what to say when the commissioner asks me about his age. You see, if I make him out younger than he is he will be sent to school, and if I make him out older, they'll stick him in the army. What the deuce am I to do?"

"How would it do," said the friend thoughtfully, "if you told the commissioner his exact age?"

Poir clapped his leg and laughed delightedly.

"The very thing!" he cried. "I never thought of that!"

Small-Minded Precaution

DO NOT WITHHOLD THAT WHICH DOES NOT BELONG TO YOU, FOR THE SAKE OF PROVIDING AGAINST EMERGENCES.

The following from the New York Outlook is timely and suggestive:—

Panics are always irrational, because they are born of unintelligent fear, or because they greatly increase the possibilities of peril. There are many occasions which justify a panic. When a real danger comes, the first duty is to keep one's mind at the highest point of intelligent action, and to keep one's emotions out of sight and hearing. In the face of a great danger a man ought to listen to his judgment, not to his emotions. The worst feature of a panic is that it makes men cowards where it does not make them braves; and the special form of cowardice which comes with financial stress is unwillingness to part with what one has and increases the peril, instead of generously giving it out and thus removing the cause of the peril. In every stringency a host of people begin by not paying small bills— even more than large ones which prolong hard times and unjustly and unnecessarily lays a heavy burden on the backs of some of the most prudent and honest members of the community. An honest man always pays his debts. If misfortune overtakes him the day of the discharge of his obligation is only postponed; it comes as soon as he can make ready for it. But in a time of panic it is every man's pressing duty to pay his debts with the utmost promptness.

There are hosts of people today who have money in hand and are letting their grocers, butchers, milkmen and others who supply the necessities of life go unpaid simply because they are timid and, like some country and city banks, want to collect and keep as much money on hand as possible as if money were for hoarding, and not for circulation. This small minded precaution is bringing misfortune to many industries and faithful men and women.

Those who supply the means of life whose coming and going from the house are part of the daily routine of keeping the family alive ought to be the very last to suffer from delayed payment. As a matter of fact, they are the very first. People who can still spend money on the theatre, the opera, concerts and other forms of entertainment, are letting their butchers grocers and milkmen go unpaid thus contributing to the very condition which makes them cowards. There is no longer any reason for timidity; but if there were, the duty of paying one's small debts with as great promptness and as deep a sense of responsibility as one pays one's large debts would seem still more imperative. It is a great deal more honorable to have a small bank account and no unpaid bills in the house than to have a large bank account made up by keeping many which belong to other people. The first duty of an honorable man in a time of stringency is to see that he is not transferring to those who furnish the necessities of life the burden which he ought to bear himself.

BARGAIN OFFER.

We have rendered a large number of bills during the past month offering special rates to all who, paying arrears, would include subscription for 1908. In order that all may take advantage of this offer we have decided to extend the offer until March 31st.

LOCAL AND SPECIAL.

Today is Ash Wednesday. March came in like a lamb. Easter Sunday falls on April 19th. A Conservative Convention is to be held here shortly. A number of property changes are anticipated this spring. John Dunn, a former manager of the Halifax Chronicle is dead at the age of 76. The river has broken up above the bridge and we may shortly look for an open waterway. Mr. C. G. Plimond will preach at Methodist church, Dalhousie, on Sunday next, 8th inst., at 7 p. m. A circular letter has been issued to the parishioners of St. James Church announcing Lenten services. The committee on tenders and public property of the Municipal Council held a meeting here on Monday at the St. James Hotel. The W. M. A. S. met at the home of Mrs. J. Healy yesterday afternoon and presented her with a life membership certificate. The results of the New Brunswick elections which took place yesterday, as received by wire last evening give 29 seats to the opposition, with 14 for the government. A delegation representing the Lumberman's Association waited upon the government with a request for certain amendments in the law looking to protection against forest fires. An advertisement of furniture at private sale last week, though colored for a number of weeks only required one insertion to sell all the goods. Monitor advertising pays. It is reported that Scott Act Inspector McKay has been the rounds and warned all keepers of stock rooms that any violation of the Act after March 1st will be visited with the full penalty of the law—Annapolis Spectator. Mr. H. L. Fleming and family, who have been residents of our town for the past two years have decided to remove to Ennis. Mr. and Mrs. Fleming have made many friends and acquaintances here who will regret to learn of their removal. In the Provincial Legislature on Feb. 20th, Mr. Tupper asked what was the cost of the Victoria Beach Esplanade and the kind of service given. E. H. Armstrong gave notice of a resolution in favor of the absorption of the small lines in Nova Scotia by the I. C. R. The ladies of St. James Church purpose holding their annual Sale of Work shortly after Easter. The first sewing meeting will be held tomorrow (Thursday) afternoon at the Rectory at 1:30, and the ladies will be obliged by taking this notice as a personal invitation to attend and bring their work. The outlook for labor employment throughout the Dominion is distinctly encouraging. The railway companies want 40,000 men for spring construction work, and there is a brisk demand for agricultural labor in practically every Province. This will mean more work for the shoe and factory and contribute to a general improvement in business all over Canada says an exchange. During Lent, in addition to the ordinary services in St. James Church, there will be a Lenten Service with an address by Rev. J. Healy, Rector, at Round Hill, on Wednesday afternoons at 4 o'clock and on Friday afternoons services for children at the same hour. These services will be held in the School-room, 7-day being Ash Wednesday, the hours of service are 10:30 a. m. and 7:30 p. m. In the Methodist Church, on Sabbath morning, the 5th inst., the subject of the sermon will be: "The childhood and youth of Jesus." The children of the Sabbath School, under the direction of Prof. Morse will take a principal part in the singing. The song service on Sabbath evening, Feb. 18th, was much appreciated. Prof. Morse promises a Farney Crosby Song Service at an early date which will be announced later. Although a new time table went into effect on the H. & N. W. Railway on March 1st, there is no news of reopening of the Middleton and Victoria Beach Branch. Station Master Crosskill has had no instructions and is not in position to give information to the public regarding the line. The bi-weekly train service continues from Middleton to Lunenburg. Granville residents are getting anxious lest they have lost their railway, but we apprehend that patience will have its reward. The formation of the Law and Order League which took place here last week, as recorded in our last issue of the Monitor, has already proved beneficial in its results. Apparently the only weapon necessary in the conflict with the demon which has possessed our town for some time past is a determined expression of public opinion, and now we have it. It may not be too confident of permanent suppression of the trade, but the signs are very encouraging. Bridgetown is today a dry town, and our oldest and most popular hotel is taking the initiative by advertising itself as a "Temperance Hotel" as may be seen by reference to another column. It was our intention to publish the names of the members of the Law and Order League in this issue, but in the absence of the secretary, Rev. Dr. Jost, we were unable to obtain the list until later.

PERSONAL.

Mrs. Bessie Matheson is recovering from illness. Miss May Phalen spent the week end with friends in Tupperville. Rev. Dr. Jost is visiting Sackville this week and will return Friday. Mr. George Copeland, recently from Boston, is visiting at O. P. Goldsmith's. Mr. I. C. Archibald of Wolfville, was a guest at the home of Chas. E. Hicks last week. H. S. Baughall of Acadia College, has received a call to the Lawrenceton Baptist church. Mrs. John Gurbitt has removed from Granville street to the double house of Chas. Parker, Queen street. Leslie S. Eaton, formerly of Kentville, has been appointed Conservative organizer in British Columbia. Mrs. Byron Chesley and Miss Lizzie K. Marshall after spending a few weeks in Boston, returned home on Wednesday. Stipendiary Magistrate John Cox is in town for a day or two and is apparently enjoying the best of health. He expects soon to return to Bridgetown permanently. Mr. W. D. Woodworth, who is addressing the Institute Meetings in the County was the guest of Mr. and Mrs. Stanley Marshall over Sunday. Prof. Bradford K. Daniels, Acadia '94 son of Alonzo Daniels, West Paradise, is now professor of English in one of the Colleges of Tacoma, Wash. Mrs. Harry Lister, of Bridgetown, and Mrs. Alonzo Daniels of Paradise, who have been visiting their sisters, Mrs. S. G. Hawkins, Halifax, returned home Saturday.—Chronicle. Mr. Wm. Dennis, publisher of the Halifax Herald, who has been absent for a month or more in a private hospital in Cambridge, Mass., is expected to return home shortly. Mr. W. Anthony, who has spent several months in Amherst returned home on Saturday, and with Mrs. Anthony and child reopened their home which has been closed during his absence. Mr. Fred Bath returned from his New Brunswick trip on Saturday and was at the Grand Central over Sunday, leaving again the first of the week for Quebec in the interests of the Graves Vining Co. Miss Letia M. Brown, daughter of Postmaster Brown, after having spent some three years training at the Roosevelt Hospital, New York and having passed her examinations successfully, has accepted the position of one of the head nurses, in the operating room, of the same institution. Mr. Jackson Messenger is critically ill at his home, Centreton. He has been ill with pneumonia for a week, but previously to that he had been suffering from ulceration of his teeth, which appears to have poisoned his system. A consultation of Doctors DeBios, Armstrong and Burns was held yesterday afternoon. Mr. S. M. Beardsley, who recently assumed the agency of the Manufacturers Life Insurance Company for the eastern end of the province returned from a trip to the Eastward on Wednesday accompanied by Mr. Machum, the general manager of the company, who spent the week-end with Capt. Beardsley at his home at Port Lorne. Mr. George Whitman, M. L. C., who was one of the guests at the seasonal dinner at Government House, Wednesday night, has attended similar functions under ten different Lieutenant Governors. The Honorable gentleman is now well on in the eighties. His brother, who resides in New York, is a bout ninety-five years of age.—Chronicle.

TOWN COUNCIL.

At a special meeting of the Town Council, held on Monday evening, Revs. A. S. Lewis and A. J. MacDonald as a deputation from the Law and Order League waited upon the Council and requested them to re-appoint Police-master Anderson as Scott Act Inspector, under the Temperance Committee, Councillors, Calder, Longacre and Freeman. The Council accordingly re-appointed Avaril Anderson, policeman and Scott Act Inspector. A resolution was also passed relating to the surveying of the street line of Queen street. A number of small bills were passed.

FRUIT PACKING CRITICIZED.

Board of Trade advises, through the Canadian Trade and Commerce Department, from England comment very strongly on the Canadian apple pack this season and state many complaints have been received regarding the grading and packing this season, one report stating that the best judges in the trade have stated that the grading and packing have seldom been worse. Apples found headed No. 1 were found when opened to be No. 2's and at times of so inferior a quality as to be worth about 5 shillings, when they had been sold for No. 1's for 17 shillings. Much of the fruit of Nova Scotia is bought on the trees by speculators from the United States and it is possible that these gentlemen may be responsible for the shabby work. The report says, "such a thing as 'stove piping' the barrels of fruit in packing is not unknown to these Yankee gentlemen," also Nova Scotia has had a good name for square dealing in the past, but we would remind our friends on the other side that to be ill-deemed is to be half-hanged."

NEW BUSINESS LOCALS.
