Agents Wanted!

We wish to appoint agents in the principal cities of the Dominion to sell St. Leon Mineral Water. This celebrated water is an unfailing cure in cases of Dyspepsia, Liver Complaint, Rheumatism and Constipation. For Dyspepsia, the water should be taken after meals, and previously in cases of Constipation. For further information apply to
GINGRAS, LANGLOIS & Co.,
Dominion Agents,
QUEBEC.

Commercial Summary.

It is reported an Insurance Brokers' Association is to be organized in this city.

The Citizens Insurance Company have declared a semi-annual dividend of three per cent.

The Citizens Mutual Insurance Company of Mobile, Ala., has been victimized by an over issue of stock.

The S.S. Lake Superior on her recent trip to this country brought 77 fine thoroughbred horses for parties in Illinois.

The Lawson mine at Maccan, N. S., owned in Boston, but which has been idle for 13 years, is under lease for a year and has been reopened.

The machinery for the new pulp mill, at Sheet Harbor, N.S., has been shipped. The boilers were made by John Patterson & Co., Halifax.

MONTREAL firms will be well represented at the combined Dominion and Provincial Exhibition to be held in London, from the 7th to the 12th prox.

C. PEVERLEY,
OFFICE: 1782 NOTRE DAME ST., MONTREAL

The stock of Dumochelle Frs. has been sold by auction to Mr. William Keith, of Comber, Ont., for 58c in the dollar. He is likely to remove it from Belle River.

INCORPORATION will be applied for by "The Toronto Window Shade Manufacturing Company, Limited," with headquarters at Toronto, and capital of \$25,000, in shares of \$10 each.

It is reported that Mr. Thomas Wavill has removed from Hamilton, Ont. He leaves a number of friends, who lent him their names on the back of his paper, to mourn his departure.

FORBES, CONVEY & Co., wholesale gents' furnishings, Toronto, have assigned. Their liabilities are placed at from \$55,000 to \$60,000, and the estate is expected to pay about 50c on the dollar.

The continued low price of grain at home and abroad do not suit the 'bull' speculators, and their latest 'point' is, that "as thrashing progresses the quality of the now grain is much below the average."

THE Munster bank failure is followed in Ireland by a widespread distrust in banking institutions. The great Provincial Bank of Ireland reports a reduction of \$1,000,000 in its deposits for the past month.

SO FAR this season there has been no sign of yellow fever or other epidemic disease in New Orleans. The health of this city, a cause of solicitude at this time every year, is reported to be unprecedentedly favorable.

St. Paul Street, MONTREAL.

THE lumber firm of N. & O. J. Phelps, Merriton, Ont., has made an arrangement with its creditors on a basis of 53 cents on the dollar. The Imperial Bank of Toronto is the principal creditor. The firm resumed business.

SEVERAL consignments of wool which have reached Toronto from Calgary are said to compare favorably with Blue Cape wool, and will probably find a market at a price between ordinary fleece and South-down fleece.

THE hop-growers of New York State met in Utica recently and fixed upon twenty-five cents a box and board as the price to be paid to regular pickers. Many young men who want a vacation leave the cities to pick hops.

ALONZO Smith, an extensive stock raiser and cattle dealer of Harvey, Albert county, N.B., has failed. His liabilities are placed at \$50,000 of which a large amount, said to exceed \$15,000, is due the Halifax Banking Company's agency at Hillsboro.

A LARGE number of forged Dominion notes are in circulation in Western Ontario and the United States. From the excellence of the work it is concluded that the bills were struck off from a form taken from a plate in use by the department and transferred to steel.

THE Indian and Colonial exhibition to be held in London, England, next year promises well, the guarantee fund having already reached one million dollars. A space covering 5,400 square feet in the best part of the building has been secured for the Canadian section.

HERBERT Harrison, of Maccan, N.S., has purchased Harrison's lake, a body of water covering 400 or 500 acres. He proposes constructing a canal to drain the lake and let in

the tide to make marsh of it. A local paper says he will make the province \$30,000 or \$40,000 richer if he is successful.

THE traffic on the great lakes has fallen into the hands of the owners of the largest vessels. A steamer which arrived at Sarnia, Ont., a few days ago from Duluth and Port Arthur, carried 5,000 bbls. of flour, 5,000 bushels of wheat, two car loads of wool, a quantity of miscellaneous freight and a number of passengers.

THE American Sardine Exchange held a meeting recently at Eastport and unanimously voted that owing to the strong advance in the prices of tin plate, pig tin, and the scarcity of fish, the price for 1/2 oil sardines be advanced on September 1st to \$5.25, and 3/4 mustard and spiced to \$4.25. The formation of a syndicate to handle all the fish packed is being discussed.

THE sale of the damaged cargo of the SS. Grassbrooke at this port yesterday, drew a large number of buyers. The list included glass bottles, liquors, glycerine, acetic acid, sulphur, zinc, toys, etc. It is evident that a number of jobbers present did not know what they were buying in a business sense, as in some lines the goods fetched more than their value.

THE trustees of the estate of Patrick Gallagher, Moncton, N.B., are asking for tenders for his stock in trade. His liabilities amount to about \$12,500.00, and the assets are estimated at \$3,000 to \$5,000. A number of Sackville people are among the creditors. Gallagher has made an offer of 25 cents on the dollar, secured, payable in three, six and nine months.

plies, Toronto, will probably succeed in making satisfactory arrangements with their creditors. The firm has given no preferences, and with the exception of one or two companies, who have laid the matter before their directors for decision, the creditors have already signified their intention of accepting the firm's offer.

The Chatham Manufacturing Co., Chatham, Ont., have just completed, and successfully started, a band saw mill for sawing large short logs. The saws used in this new mill are about forty-three feet long, five inches wide, and one-sixteenth of an inch thick, and are run on two pulleys, one above the other, seven feet in diameter. This is the introduction of band saw mills in Canada.

HAMILTON, Ont., which has recently been celebrating its civic holiday, was named after George Hamilton, who made the first survey there in 1813. In 1830 Hamilton was a struggling hamlet. In 1837 the population was

3,188. It became a city in 1846, and four years later the population was 10,000. It is now a city of nearly 40,000, ranking after Halifax among the cities of Canada.

CANADA has won high praise and distinction because of the excellence of her display at the Antwerp exhibition. Twenty-nine men, representing every nation that took part, have passed a resolution that the cereal exhibit of the Dominion surpassed that of any other nation. The King of the Belgians as a token of his good will and gratitude to Canada, has requested her representative, Sir Charles Tupper, to accept the grand cordon of the order of Leopold.

The brigantine Man Zu, of 244 tons register, built for a company in Hamburg, has been launched from the shipyard of Putnam Bros., Maitland, N. S. At Noel the day previously Messrs. Osmond, O'Brien & Co. launched the barque Pactolus, of 1,040 tons.—In the year ending June 30, 1885, the deal shipments from Northport, N. S., were 17 cargoes, containing 6,138,000 ft., valued at \$56,205. Six cargoes, containing 2,098,000 ft., valued at \$18,212, were shipped during that period from the adjacent port of Tidnish.

THREE large vessels have reached American shores from China and Japan, with cargoes of new tea. Unusual interest was manifested in the first arrivals this year, one of the ships being destined for Tacoma, in Puget Sound, W. T., with a cargo valued at \$700,000, the first direct shipment over the Northern Pacific railway for St. Paul, Duluth and other points north. The

SS. Glenarvon brought 36,000 pkgs. of tea to New York, even her saloons and cabins being filled with it, on the same day that the first ship of the series arrived at San Francisco.

ROBERT McNaught, an employee of Mr. James Walker, soap manufacturer, of Hamilton, has joined the ranks of the army of defaulters who have preceded him to the United States, heartlessly deserting his wife and child. His duties were to collect grease, and a few days ago he was intrusted with \$100 to buy tallow at the market, but he appropriated the money and neglected to turn up again. He has swindled several acquaintances out of small sums, and is also reported to have been short in his cash, but to what amount is not stated.

GOVERNOR Star.—Although the season is not more than half gone yet, and stocks are lower than in some former years, there is still a considerable quantity of lumber on the dock here. E. Hargraves, of Toronto, has received about one million feet on the G. T. R. dock, the best of which is being shipped via Halifax to the old country. Williams & Murray have at present only about two million feet, but will yet receive large consignments. H. Secord has already shipped from here a very large trade, and has now perhaps one million feet on dock, with more to arrive.

E. E. KNOTT, Toronto, Ont., real estate and insurance agent, is reported to have left that city recently with his wife and family, after selling his house and furniture for cash and borrowing as much money as he could. He leaves numerous creditors behind, who besieged his office to-day enquiring as to his

**Montserrat Lime-Fruit Juice & Cordials.**

Prize Medal awarded at the International Food Exhibition, London, 1880, 1881; at Melbourne, 1880; Adelaide, 1881; Calcutta, 1884; Quebec Province, 1892; Ottawa, 1879; Montreal, 1884; Toronto, 1884.

THE Island of Montserrat is the *only place* where the lime tree is *specialty* cultivated, and where the juice is pressed in a systematic manner with suitable machinery. In pressing the choicest fruit alone is used, and to ensure freedom from mucilaginous and pulpy matter, only about two-thirds of the juice is pressed out. It is mainly owing to these precautions that the Montserrat Juice is so much superior to that prepared in Jamaica, which is the *only article* (excepting Montserrat) from which Lime Juice is imported into Canada. The fact that the Montserrat Lime Fruit Juice is the only kind used in the British Royal Navy is evidence of its superiority.

CAUTION.—The success which has attended the introduction of this article has caused several imitations to be offered for sale; our original style of bottle and registered title is also copied. The public are therefore cautioned to protect themselves by seeing that the trade mark of the Montserrat Company is upon the capsule of each bottle.

whereabouts. It is said he has let his father-in-law in for \$5,000. One of his partners, named Campbell, also cleared out on Thursday last, taking \$200 with him. The cause of his hurried departure is a mystery, as he was considered financially sound. He is believed to be in New York.

Some idea of the increasing trade in eggs between Canada and the United States may be gathered from the statement of a shipper in Antigonish, N.S., who commenced business fourteen years ago. His early shipments averaged 10,000 dozen; now they average between 45,000 to 50,000 dozen, the latter quantity being forwarded in 1883. During the past few years a number of merchants went into the business and cut it up considerably, consequently rendering it less remunerative than formerly. The experiment of forwarding eggs to England was tried four years ago, but it proved unsuccessful. The average price paid for eggs last year was 14c.

NICOLET, Que., has a petroleum boom. Some eight or ten years ago at a certain place near St. Gregoire, Nicolet county, a peculiar odor

was noticeable. This spring a Quebec engineer visited the locality and pronounced it a petroleum well. Oil miners were brought from Petrolia with boring apparatus, and up to a recent date they had bored to a depth of 210 feet. Already several gallons of oil have been pumped up with the borings, and the enterprise seems very promising. A company has been formed and 100 shares issued at \$25 each; ninety-six shares have been taken up, and as soon as the remaining four have been disposed of the company will seek incorporation.

An interesting insurance case will shortly come to trial here. As will be remembered the tannery of Ald. J. H. Mooney & Sons was partially destroyed by fire some time ago, the premises being insured for a large amount in the Imperial of London, Royal of Liverpool, the Queens, the London, Liverpool and Globe, the Commercial Union, the Guarantee, Caledonian, Northern, London Assurance Corporation, the National of Dublin and the British American. The companies contest the suit on the ground that the plaintiff permitted the

Hudson Cotton Co. to store a quantity of cotton in a house adjoining the tannery for the purpose of drying the same. The fire originated in the house referred to.

The line of railroad to the coal mines of the Northwest Coal Mining and Transportation Company, on Belly River, Manitoba, will it is said be completed in a few weeks, by which time the company will have 300 experienced coal miners at work to turn out coal. The machinery necessary for the proper working of the mine has been purchased, and is already on the works. If the demand for the coal is very large the staff of miners will be increased, so that the output will meet the demand. Agents to sell coal will be appointed at all points along the Canadian Pacific Railroad. It is the intention of the company to deliver coal to consumers in Winnipeg at \$8.50 a ton. The company has also an arrangement with this railroad to supply all the coal necessary for the operation of the Western division. The Indian department and government in the Northwest

Advices from Watertown, N.Y., says a man named Solomon Vermylea, accompanied by his wife and two other women, came there and hired rooms for the alleged purpose of manufacturing corsets. Mrs. Vermylea and the other women canvassed the city, taking orders for corsets, which, it was claimed, were to be made here. Something about the business excited suspicion, and Special Custom Agent Cole began to investigate. Vermylea was found to have a large corset factory in Belleville, Ont., and the women who were making trips to and from Canada via Cape Vincent were smuggling over their most expensive goods in various ways. Stays and corsets were packed in bustles, dirty and worn corsets contained several new ones, and between the numerous dresses in large trunks owned by the women were new corsets. A thriving trade was car-

PETER R. LAMB & CO.,

Manufacturers,

TORONTO, Ont.

ried on here, because they undersold local dealers. Vermylea brought over a fine team, which were the envy of local horse fanciers, and altogether they were cutting quite a swell. Their career, however, was cut short this morning by Agent Cole and Deputy Collector Gardner, of Cape Vincent, who seized about \$1,000 worth of goods in the so-called manufactory, together with the team which was being driven around town delivering goods.

GEO. CROSBY, West India trader, Ohio, Yarmouth Co., N.S., is offering a compromise of 50c on the dollar spread over 12 months secured, which has been accepted. Liabilities are between \$22,000 and \$23,000, with assets of about \$17,000. He was an endorser of W. H. Redding & Co., recently failed.

KELLY BROS., contractors, Winnipeg, Man., are offering to compromise. Their liabilities are estimated at \$60,000, and assets of over 20,000 in excess, but largely made out of property, plant, etc.

MONTREAL, AUGUST 21, 1885

THE PUBLIC HEALTH.

The experience of life insurance companies as regards the rate of mortality in Canada goes to prove that the recent claims of medical lecturers in Montreal are not over-rated as regards the salubrity of our climate. Canadians as a whole are an exceedingly robust race, and in appearance compare favorably with their cousins across the way. Our oarsmen, lacrosse players, riflemen, etc., have a world-wide reputation, and our statesmen in the seventies and eighties can compare in prolonged mental and physical vigor with those of transatlantic

fame. The children of British parents born in Canada grow taller and are usually more long-lived than their progenitors. If there be any exception to this rule it will probably be found in the large cities, especially in Montreal, where early marriages among the masses of a large proportion of the population and the want of proper sanitary precautions result in sweeping off annually a considerable number of weakly persons young and old. The lack of any general knowledge of the simplest hygienic conditions among these people, and the enforced economy in winter heating which prevents proper ventilation in our almost air-tight dwellings, which unlike the poorer class of houses in other cities of the Dominion are chiefly built of brick, tend to bring about a rate of mortality in Montreal, which, although much less than in cities less frequently referred to in the newspapers, is still far too high to be ignored. It is to be regretted that those who possess the power do not use it in the direction of compulsory vaccination among the masses. The exaggerated accounts of cases of small-pox by agents of foreign journals are scarcely less mischievous than the prejudice against vaccination, and are as difficult to overcome, and our hotels and business men generally must have considerable cause to regret the existence of so many "foul birds" among us.

It is only within the last thirty years that much attention has been paid to the science of sanitary engineering, which received its first impulse from the sanitary commission of the army of the Crimea. This movement led shortly afterwards to the establishment of "Boards of Health" in various cities on both sides of the ocean. The effect of these was shown by the following statistical results for two periods of six years each before and after that war:

	BEFORE.	AFTER.
Gibraltar....	22 per 1,000	9 per 1,000
Malta.....	18 "	14 "
Ionian Is...	27 "	9 "
Bermuda...	35 "	11 "
Canada.....	20 "	10 "
Jamaica.....	128 "	17 "
Ceylon.....	74 "	27 "

It will be seen that the rate in Canada fell to one-half under the influences of the sanitary reforms effected. There is no city in Canada more favorably situated than Montreal for the removal of sewage. The powerful current along the city front rapidly bears away

the accumulations of the various sewers constructed with modern engineering skill along the courses of the original streams emptying into the river at this point, and although there are many cases of imperfect drainage along the lower levels of the city, the system as a whole will bear favorable comparison, and it is not along this portion of the city that we must look for the greatest proportion of mortality. The main causes of sickness among our citizens will be found due more to individual neglect, simply to dirt, which has well been defined as "matter in the wrong place," and a visit to some of the poorer class of streets will serve to prove the correctness of the statement. Once contagion begins it is difficult to cope with it; it is spread by means of street-car, cabs, church pews, etc. The people therefore should be instructed in the ordinary rules of health, one for example—to burn all kinds of kitchen refuse instead of heaping it into barrels to remain for several days by the rear doors and winnows of the dwelling; or in the lanes under the influence of the boiling sun until the scavenger makes his rounds—and in his indifferent way leaves a large portion of it behind him or scatters it along the route.

The filthy conditions of our streets is a subject of general comment. No sooner is the liquid filth dried up in the early summer days than it is swept up by the winds and blown into open windows and doors and into people's nostrils. The attempt at scraping the streets when muddy, and watering them when dry, are a mere farce and would not be tolerated in any second rate city. And verily it is not because the taxes are light.

The health of the city is a subject of supreme importance to the business community. Apart from its effect upon summer travel—largely through the exaggerations of the press local and foreign—manufacturers and all employers of skilled labor suffer more or less through a lower state of health among their operatives, who can neither accomplish as good work or as much of it under such conditions.

Our Board of Health have much to answer for in all that affects the sanitary condition of the city and through it our commercial welfare. Spiritually our people would seem to be fairly well provided for, and there is no lack of skillful physicians among us; what we want most now is some energetic reformer to awake the people to a sense of their responsibility physically—their temporal welfare, and to a general, practical application of the proverb that an ounce of prevention is worth a pound of cure.

THE LATE SIR FRANCIS HINCKS.

There are few men who have left their mark more indelibly upon their generation than the subject of this notice, the Hon. Sir Francis Hincks, K.C.M.G., C.B., who died on Tuesday last in this city after a very brief illness. Born of a family the members of which have been distinguished for their learning and ability, he came to Canada at a time when his practical training specially fitted him to take an active part in the affairs of his adopted country. Among all his contemporaries, no one struggled with more earnest endeavor and persistency for the rights of the people or contributed more towards obtaining for them the blessings of responsible government.

Sir Francis Hincks was born in the city of Cork in 1807, the youngest of nine children, and was consequently in his 78th year at the time of his death. He received his early education at Fermoy, in the same county; but in his 14th year his father was appointed head classical master in the Royal Belfast Academy, and there he completed his education, entering college in 1823, before completing his 16th year. He showed an early predilection for commercial pursuits, and in his 17th year entered the counting house of John Martin & Co., Belfast, where he served a five years' apprenticeship. This firm was engaged in foreign commerce and owned several ships trading with houses in North and South America and elsewhere. This led the young aspirant to form plans for seeing something of the world, and, accordingly, on the completion of his term of apprenticeship in 1829, he took passage in one of the vessels about to sail for the West Indies, supplied with letters of introduction to the first reign correspondents of his late employers. While in Barbadoes he became acquainted accidentally with Mr. Geo. McIntosh Ross, of Quebec, a young man of about his own age, who had gone out to the West Indies in a vessel belonging to his father, since the Hon. John J. Ross. Mr. Ross strongly advised him to visit Canada, and offered him a passage in his ship, assuring him that he could thence return home more cheaply than from the West Indies. Arriving in Quebec late in the season, he was tempted to visit Montreal where he met persons from Upper Canada, then very sparsely settled, whose accounts of the new country led him to visit York (Toronto) where he spent the winter. The journey to York by stage and schooner occupied ten days. He was a regular attendant at the House of Legislature which was in session during the winter (1830-31) and made acquaintances

among the members. He returned to Ireland the following spring, but he had formed a strong inclination to settle in Canada, and after having fulfilled a previously contracted matrimonial engagement and made arrangements to begin a mercantile life, he returned to Canada in 1832. When the Farmers' Joint Stock Banking Co. was organized in Toronto Sir Francis became a director. Another bank was shortly afterwards started by the Reformers, and with this he became connected as manager in 1835. This bank, known as the Bank of the People, was subsequently sold to the Bank of Montreal, which prior to that time had had no agency in the upper Province.

His public career began with the publication of the *Examiner* in 1838; and shortly after the appointment of Lord Durham as Governor General, he was elected a member of the first Union parliament, in which he represented the county of Oxford, remaining in active public life under the administrations of Lord Sydenham, Sir Charles Bagot, Lord Metcalfe, Earl Cathcart and the Earl of Elgin. He accepted the appointment of Inspector-General or Finance Minister under Sir Charles Bagot. He resigned this office in 1843 along with other members of the Lafontaine-Baldwin government, the result of some ministerial differences with Sir Charles Metcalfe; and having severed his connection with the *Examiner* he removed to Montreal, where he established the *Pilot* in 1844. Throughout his early public career, in parliament and by his writings, he was an earnest advocate of a union of the two Provinces the secularization of the clergy reserves, and he may be said to be the chief promoter of the municipal system of Upper Canada. In the election of 1844, he was defeated by a small majority in Oxford, but subsequently recovered his seat on the exposure of some political scheming characteristic of the times. In 1847 he re-visited his native land. On his return he found the country in the midst of a new election, and being again nominated for Oxford was returned by a large majority, after insisting upon another scrutiny of

the returns. During the governorship of Lord Elgin, Sir Francis again became Inspector-General, under the Lafontaine-Baldwin administration, and in 1851, on the resignation of Mr. Lafontaine, the Hincks-Morin administration was formed, and it was during this period that the great struggle for popular rights received its greatest impulse. The platform included the secularization of the clergy reserves, the extension of the franchise, abolition of seigniorial tenure, encouragement of railway and steamship enterprises, etc. The construction of several lines of railway was proposed, including the Northern, the Great Western, the St.

Canada, the adoption of a decimal currency, the abolition of silver as a legal tender, the repeal of the law of primogeniture, the advocacy of reciprocal free trade in natural products, the abolition of seigniorial tenure in Lower Canada, and the reform of the Legislative Council.

In 1854 the administration resigned, and in the following year, while travelling in Ireland, Sir Francis received notice of his appointment to the governorship of Barbadoes and the Windward Islands. On his return to Canada, before departing for the scene of his new labors, he found that much of the former party bitterness and animosity had subsided, and he received an address from the Quebec Board of Trade soliciting his influence on behalf of reciprocal trade relations with the West Indies. A number of leading Canadian gentlemen visiting London at the time testified their appreciation of his public services by a banquet at the Canada Club.

In 1855 he received the Order of the Bath and was appointed Governor of British Guiana. He returned to Canada in 1860 and was created a Knight of the Order of St. Michael and St. George with the usual Imperial pension of retiring governors, one thousand pounds per annum. The portfolio of Finance Minister of Canada being vacant at the time, he was offered the position by the Premier, Sir John Macdonald, and, although he had fully determined to retire from public life, he accepted the position with the knowledge that he sacrificed thereby one third of his Imperial pension. He filled this office till 1873 when he finally retired from public life. It was

SIR FRANCIS HINCKS.

Lawrence and Atlantic and later the Intercolonial railway. The discussions of the Hincks-Morin government led also to the establishment of the Allan Line of Steamships, and the appointment of a delegation to visit England for the purposes of railway construction, and it was during this visit that arrangements were initiated which led to the building of the Grand Trunk Railway. Among the other public measures promoted by Sir Francis Hincks were the Amendment of the University and Common School Acts of Upper

in the beginning of 1876, when president of the City Bank, that Sir Francis began his connection as associate Editor with the *JOURNAL OF COMMERCE*, in a series of articles on the Sugar Question. In the period of 9½ years down to the issue of the 14th inst., there were scarcely half a dozen issues of the paper without some contribution from his pen; so that he may be said literally to have died in harness. During this period he found time also for various contributions to the American and English magazines, and pamphlets on

various subjects. His last great literary effort was the publication last winter of "Reminiscences of his Public Life," a work which has cleared up much in Canadian history and in his own career that had otherwise remained in oblivion. He retained his mental faculties unimpaired far into a time of life when the faculties usually begin to show signs of decay. His industry and energy were remarkable, and in this sense he possessed that which has been truly defined as a great capacity for work, genius. On one occasion during the early years of his connection with the *JOURNAL OF COMMERCE*, the writer asked him when he thought of leaving for his midsummer holidays. "I never took a holiday in my life."—was the reply.

His ideas of responsibility in money matters were no less characteristic of the man, and in this respect as well as in the high sense of honor which guided him throughout, he required no prompting from "*Noblesse oblige*." His early training in mercantile life taught him the importance of the former; the latter was part of himself. His was a wisdom and tact which enabled him to pursue the right without recourse to means less direct; and he had the courage of his convictions as can be witnessed by the brilliant circle of business and professional men who during the last few years gathered around him at the City Club in the early afternoons to discuss matters of moment and listen to his opinions. His name will survive in the history of his adopted country as having contributed in the highest degree to its material progress and welfare. The hearts of the entire people are heavy for his loss; yet while we cannot but deplore the manner of his removal from among us, we cannot but think that even this may be productive of benefit to his fellow-citizens as tending to arouse them from the indifference with which the fell disease which so suddenly struck him down has heretofore been regarded among us, so that even in his death he served the people, and we can fancy no more appropriate greeting for the close of such a life, full of honors and usefulness, than, "Well done, thou good and faithful servant."

Sir Francis Hincks leaves two sons and a daughter, the last married to Colonel Ready, of Melbourne, whose son is manager of the Merchant's Bank at Sherbrooke. His elder son resides in England; the second son, Francis, has lived for some years in Philadelphia. Sir Francis lived to see his great-grand children, and although he passed a somewhat retired life

since the death of Lady Hincks in 1880,"

"Like one
Who treads alone
Some banquet hall deserted;
Whose lights are fled,
Whose garland's dead,
And all but he departed,"

he was blessed with frequent visits from his numerous relatives and friends, and was enjoying a visit from some friends in Toronto, when taken ill. He first showed symptoms of indisposition on Thursday, the 13th inst., and on Monday sent written word to the office that he would not be able to be down for a couple of weeks. He died the following evening. Owing to the nature of the disease, what would in all probability have been a large public funeral was strictly confined to the members of his family.

THE ST. CROIX COTTON CO.—At the annual meeting of the stockholders of the St Croix Cotton mill, recently held, James Murchie, of Milltown, Charles D. Owen, George Owen, Jr., and Louis Dexter, of Providence, R. I., and L. G. Downes, of Calais, the old board of directors, were unanimously re-elected. The treasurer's report for the fiscal year ended June 30, 1885, was of a gratifying character. It showed that the old stock of goods on hand at the time of the failure of D. Morrice & Co., was entirely disposed of, that a very small quantity of the recent product remained unshipped, that the mill was now readily disposing of all the goods manufactured, and that the demand in some lines was greater than could be supplied. While the element of profit was not so large as might have been wished, yet the steadily decreasing cost of production was just as steadily improving the prospects of the corporation. It will be remembered, says the *St Croix Courier*, that at a meeting held about six months ago, a deficit of about \$17,000 was announced. Yet owing to the changes that have been made in the product and the strict economy exercised, the whole year's work shows nearly a clean sheet after the interest on the debt, the running expenses and the cost of the exceptional changes necessary for manufacturing the class of goods now turned out have been paid. More than \$173,000 have been expended for labor during the year and nearly 7,000,000 yards of cloth manufactured.

TUNNELLING THE ST. CLAIR.—Work has been commenced on the proposed tunnel under the St. Clair river at the Grand Trunk railway crossing, Port Huron. The point at which operations have been commenced, according to the *Detroit Free Press* is a little below the Great Western crossing on the Port Huron side, where the river is even shallower than at the ferry slip. A preliminary shaft will be sunk, and as soon as it is completed the work of tunnelling will be commenced in dead earnest. The approaches will be built back some distance from the river on each side, giving a gradual slant to the tunnel level, so that entire trains can be run through without change of engines. The same paper publishes the following alleged interview with a Grand Trunk official:—We shall form a tunnel company and give its bonds as security for the requisite capital, which we expect to raise largely in London. We find that we can guarantee 6 per cent interest on these bonds, pay the cost of maintenance and repairs on the tunnel, and still save \$40,000 a year on the present cost of ferrage."

J. B. THOMAS, of Covent Garden, London, has issued his usual circular on the prospects of the fall and winter apple trade, which may be

summarised as follows:—(1) That the apple crop of Europe, taking it as a whole, will be in excess of that of last year. (2) That fall shipments of American and Canadian apples to Glasgow and Liverpool should meet with fair demand at values ruled by supply. (3) That shipments to London of winter fruit will, as in similar seasons, compare favorably in net proceed with other markets on this side.—Speaking of the crop in Ontario the *Hamilton Times* says:—Reports from many sections of the Province go to prove that the crop, while in some localities fair, will not be nearly so large this year as last. The year 1884 produced a fine supply of the fruit, and the present appears to be the "off" season. We do not believe, however, that apples will be very dear during the ensuing season, at all events not until the shipments to Europe begin.

A SUBSTITUTE FOR OAK BARK IN TANNING.—A new tanning agent, likely to be of great value, is said to have been discovered in Arizona; one which also has the property of adding weight to the leather. The plant is an annual, and grows upon desert and dry upland soil. It is known by the Mexicans and Indians as "Gonagra" and has a root somewhat longer and more scraggy than the cultivated beet, though resembling it in appearance. Practical use demonstrated that its tanning properties were about three times as great as the common oak bark, and that in all essentials it was superior to the bark in the manufacture of leather. The discoverer has used this root in the manufacture of leather, it being delivered to him by the Indians for about \$8 per ton, while oak bark cost \$20 per ton in San Francisco, and freight to be added.

SEVERAL boatmen of Staten Island have chartered a tugboat with which to make daily cruises off the coast or in the harbor in search of porpoises. When porpoises are sighted, the boats take long detours around the schools, unwinding from a large reel a thick and strong net. The net goes deep in the water. Porpoises do not show fight. When they find a net in front of them they leisurely wheel off in another direction until met by the net again. When hauled out of the water they seem nervous, and they almost die from fright. They flap considerably, but they are not pugnacious. The big fish are worth about \$30. All are taken to a place on South Beach, Staten Island, and the flesh boiled for the oil, which is often marketed to retailers as whale oil or cod liver oil according to the refining processes.

THE first peach train of the season has arrived at Boston direct from Delaware. These trains were started in 1878, and in that year 210,000 baskets of peaches were brought into the Boston market. This quantity has gradually increased until last year 340,000 baskets of the fruit were brought. The present season is early, and the peaches are arriving in good condition, and readily command fair prices. There is reason to believe that the crop will be fully equal to that of last year, both in quantity and quality. From a commercial point of view, the peach crop is of no small moment to the Boston commission merchants and shippers. The average value of a basket of peaches being \$1.25; the entire crop of say 300,000 baskets represents a value of \$375,000.

GEO. A. MILLS, gent's furnishings, Hamilton Ont., has assigned. There is a chattel mortgage held against him as security, and outside creditors will probably not realize over a small percentage of their claims.

ODELL & Therrien, manufacturers boots and shoes, city, have lately assigned, with liabilities of between \$1,700 and \$1,800. They recently came here from Hamilton, Ont.

ELLIOTT, Routledge & Co., general store, Arva, Ont., were closed up some days ago on execution in Chancery, and have since assigned. Liabilities not yet to hand.

GILCHRIST BROS., grocers, Ottawa, Ont., have failed; liabilities about \$1400 and assets \$600. T. V. Gilchrist has been carrying on the business alone lately.

J. R. LIPPE, general store, St. Jean de Matha, Que., has assigned. A small affair; liabilities \$600, and assets about \$100.

J. P. CARDINAL, hotel, St. Jerome, Terrebonne Co., Que., has assigned, liabilities about \$1,400 and assets about \$500.

G. F. RICE, watches, Toronto, Ont., is advertised to be sold out by bailiff. A small affair.

THE JOURNAL OF COMMERCE will be permanently increased to 48 pages next week.

JAMES LENNOX & Co., Harriston, Ont., have assigned. Liabilities small.

FIRE RECORD.

ONTARIO, *Eastman's Springs*.—Aug. 14—Tomlinson's saw mill, No insurance. *Clackan*, 14.—W. Graham's barn, loss \$1,000, insurance \$600. *Wallacetown*, 14.—H. Garbut's barn and outbuildings, loss \$2,500, insured in Dunwich Mutual for \$700. *Lawrence Station*.—H. Hendry's store, loss \$8,000, insurance \$2,750; building owned by T. Murray, insured for \$1,000. *Blenheim*, 16.—T. B. Shillington & Co.'s store, loss unknown, insurance \$1200, British America and Western. *Hamilton*, 16.—J. Dianis' shoe store damaged, loss \$500, insured.

QUEBEC, *Hadlow*.—15.—M. Walsh's saw mill, loss \$14,000 insured for \$5,000 Royal and \$2,000 Northern. *Montreal*, 19.—G. R. Willis' rope factory, loss \$3,000, no insurance. *Roxton Falls*, 19.—Shaw Bros. & Cassils' bark mill and the Leach House, loss not stated.

MONTREAL WHOLESALE MARKETS.

Aug. 20, 1885.

There is a gradual and healthful expansion of business in most lines as the season advances. Travellers for city dry goods and boot and shoe houses have secured a large number of fall orders, and in the iron trade we notice a growing confidence in values, though business in that branch has not improved. Money loaned on call at 2½ to 3 per cent. Sterling closed weak with sales of sixties at 8 7-8 prem. and of demand at 9 1-8 prem. The stock market after a fairly active week closed quiet with an unsettled feeling. Bank of Montreal to-day sold at 201 in the morning and 200½, 200½ and 201 in the afternoon. The only

other bank stocks touched were Commerce 10 shares of which were placed at 127½ and Hochelaga which sold at 79. Passenger changed hands at 119½ and 119, Telegraph at 127, Gas at 187½ and 187½, Richelieu at 69 and 69½, Hudson Cotton at 80 and Pacific at 45. The following were the total sales and highest and lowest prices of leading stocks for the week:—

ASRES.—Receipts have been light. Sales at \$3.90 to \$2.90 as to tares, the lowest at the close being \$3.82½ for First sort. No Seconds offering. Pearls without change, demand very light and quotations nominal. Receipts since 1st January 3,319 brls. Pots, 182 brls. Pearls. Deliveries, 3,730 brls. Pots, 257 brls. Pearls. Stock Wednesday morning, 1,045 brls. Pots, 132 brls. Pearls.

COAL AND WOOD.—There has been a fair jobbing demand for coal but wood is dull. We quote American anthracite at wholesale as follows:—Stove, \$5.65; nut, \$5.35, and egg and furnace, \$5.15. Ordinary distributing prices, according to quantity are: stove, \$5.75 to \$6; chestnut, \$5.50 to \$5.75; egg and furnace, \$5.25 to \$5.50. Cape Breton, \$3.10 to \$3.20; Picton, \$3.30 to \$3.50, as to mine, Scotch steam at \$4 to \$4.10; Welsh anthracite, \$4.50. Cordwood—Yard prices per long cord (cartage 50c extra) are as follows:—Maple, \$6; birch, \$5.50; beech, \$5; tamarac, \$4.50; hemlock, \$4. Wharf prices about 50c lower.

DAIRY PRODUCE AND PROVISIONS.—The only movement of any consequence in butter is in creamery, which is commanding a fair sale at 19c to 20c for good fresh jobbing lots. There is also some demand for fine dairy suitable for the leading grocery trade at 18c to 19c. As to the medium and poorer grades there seems to be no enquiry whatever, and the prospects of held stock are anything but promising. The export trade is practically dead. In cheese transactions are few and far between. Holders are not prepared to accept the views of buyers and the latter, with few exceptions, see no money in the article at present prices. There is a large quantity in the country and considerable here: some of the latter, it is said, will have to change hands at an early date. It is reported that 7c is about an average price for most of the best stock here, and we quote 6½c to 7½c; French cheese, 5c to 6c. At London, Ont., on the 19th inst., 396 boxes sold at 7½c, 430 at 7½c; 820 at 8c and 800 on private terms. At Woodstock, the holders of 9,270 boxes of July make asked 8c, but there were no buyers at that price. Eggs.—Good fresh stock has been selling at 12½c to 13½c but anything doubtful in quality is

sacrificed at any price. Provisions.—Pork sold fairly well, there being a demand for small lots of short cut at \$13.35 to \$13.50 per bbl. Lard, hams and bacon have also met with a good jobbing enquiry.

DRUGS AND CHEMICALS.—The fall business in drugs, has so far been favorable and collections are good. Castor oil is firm. Canary seed has advanced and is likely to be still dearer. The combination among German manufacturers still keeps up the price of glycerine and we quote 18c to 22c. Owing to the dread of infectious diseases causing an increased demand carbolic acid, both crude and crystal, has advanced. Opium is unchanged. Damaged glycerine and rather poor quality sold at \$30 per case, representing about 15c per lb., at the sale of the damaged cargo of the S.S. Grassbrooke. Opium is unchanged. In heavy chemicals the only change reported is an advance of 15s a ton on Bleach. Dye stuffs.—Sumac \$90 to \$100 per ton for prime brands. Cutch firm at 6½c. Extract of logwood 7½c; chip log-wood 1½c to 2c. Archil 27c to 30c per lb. for concentrated.

DRY GOODS.—The wholesale trade continues to be actively engaged in the execution of orders. The majority of the travellers have returned from the regular fall trip and are unanimous in reporting a good feeling throughout the country. The crops now being harvested are prolific and a large proportion in Western Ontario is already safe. Since the middle of the month there has been an improvement in remittances. Prices, generally, are firm, and the outlet is such that manufacturers are not accumulating stocks to any great extent. The city retail trade is quiet but in the suburbs business has been fairly active. In Boston most woolsens are selling steadily at low prices. Serges have been advanced. Flannels are in large movement at firm, in some cases improving prices. Worsteds are selling briskly at a handsome profit. From present appearances chevrolts will only be in limited demand during the present season.

FISH AND OILS.—Labrador herrings will be earlier in the market than usual as a steamer which recently left port has been specially chartered for a return cargo of this fish. It is generally October before the first arrivals are in, this year they will be on the market early in September. Dry cod have sold at \$3.62½ and we quote \$3.50 to \$3.75. Cape Breton herrings are worth \$4.75 to \$5.00. A few consignments of canned mackerel are expected by steamer on Saturday. Canned mackerel \$3 to \$3.10. Canned lobster, \$5.60 to \$5.70 per case of 4 doz. Canned salmon \$1.30 per dozen to arrive. Oils dull and unchanged.

FLOUR AND GRAIN.—The flour market has been quiet. Stocks last week decreased 6,000 brls. Two thousand sacks of Strong Bakers' were taken for export to London and several lots of flour were also sold for shipment below. About 1,300 brls. of Manitoba Strong Bakers' changed hands at \$4.45 to \$4.55. Grain.—The movement from the West for through shipment is increasing, but the amount of business on spot is light. The principal changes in stocks is an increase last week of 25,000 bushels of wheat and a decrease in pens of 48,000 bushels. Corrections in prices will be found in the tabulated form elsewhere.

FREIGHTS.—The market has been quiet, and owing to the scarcity of freight offering low rates obtained; grain freights however close firmer as more stuff is beginning to move. The development in the cattle and deal trades at this port has been a great aid to vessel owners, but ships seeking deals for Liverpool

this week did not meet with much success. Grain to direct ports was taken at 1s 9d to 2s. Cattle freights slightly better at 50s by regular liners. Deals to London this week 46s 3d, to Liverpool 45s and to Glasgow, 42s 6d to 45s. A sailing vessel from Bastiscan to Liverpool was chartered at 48s 9d. Phosphates 6s. Lumber to River Plate \$13 per 1000 feet. Butter and cheese to direct parts, 25s per gross ton.

GROCERIES.—A fair business has been done in staple lines of groceries. *Teas* have been moving to about the same extent as last week, a good proportion of the new crop being amongst the shipments. At New York where several large consignments have been received the demand has been a little uncertain and confined in the main to small lots on the development of some unexpected want. Buyers, however, find nothing available until they are willing to bid full former figures, and the tone is steady. *Sugar.*—The market has been firmer during the past few days with granulated held for 6½c to 6 7-8c. The St. Lawrence refinery is again in operation. The following was received from New York:—For the time being refiners are fairly supplied and call for additions only lightly, but are distributing their product well, and this is looked upon as a supporting feature. Indeed, desirable raw sugars are sparingly and indifferently offered and sellers' valuations range high and full all around. The European accounts are favorable generally. Sales of 100 blds molasses sugars at 4 7-8c; 55 do muscovado, 5 1-8c; 95 Jamaica, 5 1-4c; 147 Barbadoes, 5 1-4c. Refined have been in good demand from home sources, and of both hards and softs the supply was very well cleaned up, with no great change in values. Exporters were looking around, but appeared to find sales too high for their limits. Coffee has been quiet and somewhat neglected.

Molasses fairly steady but slow of sale. Spices in limited demand.

GREEN FRUITS.—There has been an ample supply but the trade in fruit has ruled dull. Apples have again fallen in price but are depressed at the decline, and there seems to be no demand for them. We quote good to fair at \$1.50 to \$2 per bbl; choice \$2 to \$2.50. Oranges \$5.50 per box. Lemons \$5 to \$8 per box as to quality. American peaches, \$2.50 to \$3 per crate. Canadian, \$1.25 per basket. Bartlett pears \$4 per keg; \$8 per bbl. Bananas dull at \$1 to \$1.50 per bunch. Water melons \$3 per dozen; 25c each. Concord grapes, 11c; Delaware, 18c.

HAY, STRAW AND FEED.—The receipts of new hay have not been large to date and the demand has been fair at steady prices. Timothy sold at \$9 to \$10 per hundred bundles, as to quality. Straw firm at \$6 to \$7. Pressed hay is steady at \$16 to \$17 per ton; straw in bales, \$8 to \$9 per ton; shorts, quiet at \$17 to \$18 per ton; bran, \$14 to \$15, the former for Montreal and the latter for Upper Canada; moulte, \$24 to \$26, as to quality; buckwheat, 65c per bushel.

HIDES AND TALLOW.—Prices of hides, published elsewhere, have undergone no change during the past week, Montreal uninspected being still quoted at \$8.50. Clips are firm at 40c and lambskins at 46c. Tallow is quoted at 5½c to 6½c for rendered, with probably an occasional sale of choice at 7c.

HONEY.—A considerable quantity of strained honey has arrived but it is slow of sale.

Prices range from 11c to 12c per lb, as to quality and size of package.

HOPS.—The market here is quiet and unchanged at prices quoted last week. By last European mail Messrs. W. H. & H. Le May report:—The market remains in a very quiet state, the few consumptive orders that come to hand are executed entirely in buyer's favor; holders are competing keenly to secure the orders. The reports from the plantations all say that the bine has suffered from the excessive drought; vermin is causing a great amount of anxiety in some parts of East Kent, in fact some gardens have gone black; mould gives a little trouble in the Weald and Mid-Kent districts; the early descriptions are now well in hops, the first pocket was assigned to us on the 1st inst, and realized £8 8s per cwt. The imports of foreign hops into England last week were 1,064 bales; for the corresponding week last year 464; the total imports of foreign hops into England from September 1st, 1884, to August 1st, 1885, were 65,466 bales; for the corresponding period last year, 94,281.

IRON AND HARDWARE.—The local market has remained quiet all round. A few British houses continue to write dolefully of the iron trade, but the drift of opinion seems to show that the slight improvement, previously reported, has been maintained. There is a good demand for nails as dealers are getting their stocks sorted up for the fall trade; the mills are all running at full capacity. The situation as regards nails in Boston is reported as follows:—There has been an improved demand this week and trade is now very fair. Collections are better also. Some of the nail factories in the West

WHISKEY.

have started up with feeders in place of the striking nailers but the success is doubtful. We quote \$2.15 to \$2.20 according to the size of the lots. The makers of shot in our own market, in consequence of the advance in lead goods of all kinds, are going to issue a new list of advanced prices. There has been an advance established in the States in the price of wrought iron pipe. One of the large makers of pipe says:—"Iron having gone up 10c per 100 lbs. we are justified in securing higher prices. We have been selling far below cost for some time, and as trade is picking up, manufacturers are determined to get cost at least for their pipe hereafter. We are now extremely busy." The impression among a portion of the trade here, is, that in the event of a material check to the ravages of cholera in Europe the exports of lead from Spain would be heavy and the late advance could not be maintained. In the States and particularly in St. Louis this article has been largely controlled by speculators and these state that lead is up to stay. The president of the Desloge Lead Company, explains the situation by saying that even if Mr. Corwith, who has advanced the market, should let go and throw his holdings overboard, prices would not go down 4c. He said that lead had been mined at sacrifice, and that as a consequence smelters had only been run to keep the men employed and the machinery from lying idle. Lately they had been running full. The tributary mines, those without smelters, had also been idle. The trouble with the lead men had been that they did not bring business sense into the conduct of their affairs, and Mr. Corwith had done as a speculator just what they should have done as intelligent business men—hold their products for prices which would pay them for their labor and expense. It was very clear that lead was worth the money, and would go higher, as the supplies in Colorado were about exhausted, and living prices would have to be paid.

LEATHER, BOOTS AND SHOES.—Business in the manufactured article continues fair, the influx of orders from travellers being large. The situation as regards leather is unchanged, and we notice the same state of affairs prevails in Boston as is the case here. A Boston manufacturer, who was recently interviewed, said:—"We are very busy with an excellent trade and are cutting up a great deal of leather, although buying in small lots. The leather dealers ought to get a fair price for their stock, now, if ever, especially as hides are strong and advancing. And yet every time we go into the market we find the leather dealers anxious to sell and the leather market weak all along the line.

LIVE STOCK.—The exports of cattle continue large and in excess of previous years, the total to date being 38,710 head. The exports of sheep have been 26,234, a decrease of 2,522 as compared with last year. Sales of stock for shipment transpired at 42c to 52c, but the

supply of really choice was limited. Sheep were slow of sale at 34c to 4c per lb, live weight. Butchers, cattle 34c to 44c. Live hogs, 5c to 54c. Calves \$4 to \$6. Total exports of beef to date 7,974 quarters, against 8,024 last year. The improvement noted last week in the British markets has been lost, and prices of prime Canadian steers have fallen from 134c to 13c. The receipts have been heavy and the demand slow and irregular. Best sheep in Liverpool sold at 13c.

WOOL.—The demand for wool has continued moderate, there is a slight disposition apparent in some quarters to anticipate requirements, but as a rule manufacturers seem to think that they can secure all they want at present prices and purchase in a hand-to-mouth sort of way. At the next London wool auctions, Sept. 1, 2,900,000 bales in all are expected, of which 71,000 bales were held over from the last sales owing to low prices. Recent auction sales of East India and Mediterranean carpet wools in England established a decline there of 5 to 7 1/2 per cent in price. The Boston market continues strong and firm with large sales, although the demand is no longer so well distributed as during the last month and the total amount is attained by the heavy sales of a few houses. The inquiry is still good and in many instances more wool would have been sold if it could have been offered.

TORONTO WHOLESALE MARKETS.

(Revised by Telegraph.)

Toronto, Aug. 20, 1885.

Business continues generally very fair. In all departments of trade there is the usual amount for this season of the year. Remittances are fair. The money market rules unchanged. There is but a quiet business doing. Money on call is in light demand; a few loans have been made on debentures at 3 per cent; rates rule from 3 to 4 per cent. on debentures and 5 to 5 1/2 per cent on stocks; prime commercial paper is discounted at 6 per cent and the general run at 6 1/2 to 7 per cent. Sterling Exchange is easy at a decline of 1-8 to 1/4 since Saturday, 60-day bills between banks are quoted at 108 1/2 to 109 and over the counter at 109 1/2 to 109 3-8 and demand bills at 109 1/2 to 109 3-8 between banks and 109 1/2 to 109 1/2 counter. The stock market has been rather unsteady since this time last week. During the past few days it has taken an easier turn. Sales have been made of Montreal at 200 1/2 and 202; Commerce at 127 1/2 and 127 1/2; Imperial at 126; Federal at 96; Standard at 116; Western Assurance at 99; Imperial Savings and Loan at 104; London and Canadian Loan at 144 and 144 1/2; Consumers Gas at 162 1/2; Building and Loan at 104 1/2; and Canada Permanent at 201 1/2. Following are prices bid to-day as compared with those of last Thursday:

Send for Descriptive Illustrated Price Lists.

BUTTER.—The amount of business doing is light. Very choice dairy is in good demand and all offering sells readily at 14c to 15c per lb.; best store-packed has been selling for 12c to 13c per lb.; leavings are slow at 7c to 8c per lb. Butter on the street has sold at 18c to 20c for pound rolls and 14c to 15c for tubs and crocks of choice. *Cheese* shows very little change selling at 8c to 8½c for good to choice and 7½c for inferior. *Eggs* have been in good supply and plenty offering; round lots are worth 10½c to 11c; sales on the street have been made at 12c to 13c.

COAL AND WOOD.—Show no change. The demand for both is fair. Hard coal is selling at \$6 per ton and soft at \$5.75. Wood unchanged; first quality of hard sells at \$4.50 a cord, second quality at \$3.50, and pine at \$4.

COAL OIL.—A good many orders are being filled. The market is firm and unchanged. Five to ten barrel lots of Canadian job at 15½c per gallon, and single barrels at 16c. Carbon safety firm at 19c. American oils steady, prime selling at 23c and water white at 26c.

FLOUR AND GRAIN.—Flour is inactive and easier. Superior extra guaranteed sold on Friday at \$3.90; extra on Friday and Saturday at \$3.75; on Tuesday choice extra sold at \$3.80, and very choice superior at \$4; yesterday superior extra was quoted at \$3.90 and extra guaranteed at \$3.70. The stock in store here is 2,375 bbls. against 1,675 bbls. for the same period last year. *Wheat*—Little doing,

prices are easier. The market closed yesterday with No. 2 fall offered at 87c with 64 bid. No. 3 fall held at 84c with no bids; spring nominal. Fall and spring sold on the street at 80c to 82c and goose at 70c. The stock in store here is 81,112 bushels of fall against 40,541 bushels last year and 61,442 spring against 56,066 last year. *Barley* continues dull and unchanged. The stock in store is 10,567 bushels against 2,072 bushels same time last year. *Oats*—Offerings are light, but sufficient to supply the demand; there has not been much doing. Prices are firm at 33c for cars and 36c to 37c on the street. The stock in store is 7,306 bushels against 4,140 bushels same time last year. *Peas*, nothing doing. Prices nominal at 66c for No. 2. There is none in store here against 1,213 bushels a year ago. *Rye*, none offering; none in store against 442 bushels last year. *Bran* has been inactive and is quoted at \$10.50 to \$10.75. *Oatmeal*, quiet at \$4 for car lots and \$4.25 to \$4.50 in small lots.

GROCERIES.—A very satisfactory business is being done. There is a fair demand for everything. Sugars continue very firm; yellows are scarce, prices are unchanged, granulated has been selling at 6½c. Canada refined sold to-day at 4 7-8c to 6c and granulated at 6 7-8c to 7c. Fruits unchanged. London layers \$2.50 to \$2.75; black baskets, \$3.25 to \$3.50 loose muscatels, \$2.25 to \$2.40; new sultanas, 6c to 6½c. Prunes, Bosnia, 5c to 6½c; do, French, 4c to 4½c. Tobaccos in good demand; myrtle navy, 58c; solaces, 42c to 53c. There is also a good demand for liquors.

HIDES AND SKINS.—Hides are in good demand at firm prices, green are selling readily at former prices; cured are firm at 9c. Calfskins are

Canal Bank, - Montreal.

superior and rams and 3½c to 3¾c per lb. and a shade over for choice. Lambs are dull and from 25c to 37½c per lb. lower at \$3 to \$3.25 per head for choice and \$2.25 to \$2.75 for common to good. Calves dull at \$2 to \$8 each. Hogs unchanged at 5c to 5½c per lb. for light fat; 4 7-8c to 5 1-8c for stores and 4c to 4½c per lb. for heavy fat.

Provisions.—The demand continues fair; for bacon there has been an active inquiry; prices are steady; two cars of long clear sold at 6½c and none is wanted at that price; Cumberland has sold at 6½c; rolls are not offered and bellies are scarce and firm at 11c. Hams are in good demand at steady prices; trade lots of smoked

have sold at 11½c and small at 12c and canvassed at 12c to 12½c. Lard, continues quiet and weak in consequence of the plentiful supply of poor butter; tinnets are quoted at 8½c to 9c and pails 9½c for small lots. Pork, slow and unsteady; a sale was made to-day at \$13; small lots are quoted at \$14. Hops—Country lots of choice have sold at 10c; brewers have bought single bales at 10c to 12c. White Beans continue quiet and unchanged with finest quoted at \$1.10 to \$1.20 and poor at 75c.

Wool.—Buyers and sellers still apart, but one large lot of fleece changed hands on p.t.,

and a few lots of 1,000 to 2,000 lbs. have been moving at 15c to 17c for coarse to medium, and 18c for fine; Southdown worth 22c, but scarcely any offered. Super in good demand and firm at about 22c, but very scarce. Extra nothing doing, but steady.

AMERICAN MARKETS.

Boston, Aug. 19.—Flour, demand moderate sales only in small lots. Sales of Superfine at \$3.50 to \$3.75; Extras, \$3.90 to \$4, including

Essex, one of the most energetic and respected citizens of the old sea-port. The house claims to do the largest commission business in the Lower Provinces. Mr. Essex is President of one of the best tanneries in the Dominion, situated at Picton, N.S., and we are told that Halifax owes much to him for his efforts to improve its internal affairs. The advertisement of the firm appears in another column.

The Doherty Manufacturing Company, of Sarnia, Ont., was incorporated three years ago, for the manufacture of stoves, ranges, furnaces, school desks, etc., and is now building up a first-class reputation. The capital of the company, \$50,000, has nearly all been placed, and the stock is in few hands. The proprietors were assisted by a bonus of \$7,000 from the town. A full line of goods is turned out, and being close to Port Huron the company has the advantage of securing anything new and

of land, constituting it one of the largest establishments of the kind in the Dominion. The main rope walk is 1,300 feet long. About 150 hands are employed, and the capacity is ten tons of coring rope and four tons of twine per day; \$4,000 per month is disbursed in wages. See advertisement.

In another part of this issue, appears the advertisement of the Halifax Sugar Refining Company (limited), the capital of which is \$700,000. The company has been in existence since 1833 and is doing a large business. The manager is Mr. George E. Franklyn, and the agents, S. Cunard & Co., of London and Halifax. The employes number 200, or more, and the full capacity of the refinery is 700 barrels per day. The sugars manufactured are equal to any in the market, and it is needless to say may be looked upon as absolutely pure and free from the adulterations which it might be necessary to guard against in the imported article.

Macdonald's anti-freezing and waste preventing water-closets have been successfully used all the year round in exposed out-buildings where the ordinary water-closet would freeze; and as sanitary laws favor the isolation of these conveniences from the household, their adoption should become more general. The trap and water valve are placed below frost line in the earth or in a frost-proof pit. The water rises to the small flushing cistern only when the closet is being used, the underground valve being opened by the pressure on the seat,

LONDON, - - - ONT.

THE PATENT
Exhaust Steam Injector

WORKED BY EXHAUST STEAM
ONLY.

The most economical boiler feeder in existence,
and at same time the simplest and most durable.
Supersedes both pumps and feed-water heaters and,
by condensing the exhaust steam, removes the back
pressure, and, consequently, increases the power of
the engine. Utilizes a power heretofore thrown
away. Works automatically at a steam pressure of
less than half a pound. The exhaust steam, in
passing through the injector, heats the feed-water
to a temperature of 190 degrees F., thus effecting a
saving over any other injector of from 15 to 25 per
cent. in fuel.

For further particulars apply to

F. W. GATES, Jr.,
22 JAMES ST. W.,

HAMILTON, ONT.

Sole Licensee for the Dominion of Canada.

Leading Hotels in Canada.

St. Lawrence Hall.

THIS HOTEL WAS OPENED on the First of May,
 1879, by the former Proprietor, so long and favor-
 ably known throughout Canada, the United States
 and British Empire, who has spared no expense in
 entirely Re-Furnishing the whole House; also adding
 ALL MODERN IMPROVEMENTS, which will con-
 siderably enhance the already enviable popularity
 of this First-class Hotel.

H. HOGAN, Proprietor.
S. MONTGOMERY, Manager

THE RUSSELL,
OTTAWA.

THE PALACE HOTEL OF CANADA
 This magnificent new Hotel, fitted up in the most
 modern style, is now Re-opened. The Russell con-
 tains accommodation for over FOUR HUNDRED
 GUESTS, with passenger and baggage elevators, and
 commands a splendid view of the city, Parliamen-
 tary grounds, river and canal. Visitors to the Cap-
 ital having business with the Government find it
 most convenient to stop at the Russell, where they
 can always meet the leading public men. The entire
 Hotel is supplied with escapes, and in case of fire
 there would not be any confusion or danger. Every
 attention paid to Guests.

NORTHERN ASSURANCE CO'Y.

OF LONDON.
ESTABLISHED 1836.

CALEDONIAN INSURANCE CO.,

OF EDINBURGH.
FOUNDED 1805.

Over \$30,000,000 Capital and invested funds represented. The best Fire Insurance securities, facilities and powers in Canada. Extension of Agencies contemplated. Applications invited.

TAYLOR BROS..

45 ST. FRANCOIS XAVIER STREET, MONTREAL,
GENERAL AGENTS.
ESTABLISHED 1845.

THE ONTARIO MUTUAL LIFE ASSURANCE CO'Y.

Head Office, Waterloo, Ontario.

DOMINION DEPOSIT, - - - - \$100,000.00

The only Purely Mutual Life Company in Canada.

Total number of Policies in force, Dec. 31, 1883,	5,241
Covering Assurance to the amount of,	\$3,572,719 71
Reserves to Credit of Policyholders,	482,177 47
Net Surplus,	43,761 95

The Company's Reserves are based on the Actuaries' "Table of Mortality," and four per cent. interest—the nearest standard adopted by any Life Company in Canada, and one-half per cent. higher than the standard used by the Dominion Insurance Department.

The rapid growth of the Company may be seen from the fact that in 1870, the first year of its business, the total assets amounted to only \$6,216, while last year they reached the handsome total of \$533,705.55 !!

J. E. BOWMAN, W. HENDRY, W. H. RIDDELL,
President. Manager. Secretary
General Agent for Montreal: Geo. Forbes.

THE FEDERAL

LIFE ASSURANCE COMPANY.

HEAD OFFICE, HAMILTON, ONT.

Guarantee Capital	\$700,000
Government Deposit,	51,100

WRITES LIBERAL POLICIES
Without burdensome conditions.

NON-FORFEITABLE POLICIES.

Example:—Age 35—\$1,000 Ordinary Life Policy. Payment of three annual Premiums will keep the Policy in force 5 years and 298 days. The same number of Premiums on an Endowment or Term-payment Life Policy will keep it in force a longer term.

SCOTT & BOULT,

CHIEF AGENTS FOR DOMINION.

THE LONDON MUTUAL FIRE INSURANCE CO'Y OF CANADA.

The Successful Pioneer of Cheap FARM & RESIDENCE Insurances.

Financial Statement 31st December, 1884, shows Assets, \$365,541.32.

Over 41,000 Members. Nearly 15,000 Policies Issued in 1884.

The only "Fire Mutual" licensed by the Dominion Government. Takes risks on Farm Property, and on Private Dwellings in City, Town or Village, on more favorable terms than any other Company.

HEAD OFFICES: 438 RICHMOND ST., LONDON, ONT.

JAMES ARMSTRONG, M.P., President.	JAMES GRANT, Vice-President.
W. R. VINING, Treasurer.	C. G. CODY, Fire Inspector.
D. C. MACDONALD, MANAGER.	

The "London Mutual" does a larger business in the Insurance of Farm Property and Private Residences than any other Company in the Dominion, and has done the same for now over a quarter of a century. Parties intending to insure should give this "old and tried" Company the preference, for until it was established the stock companies, having all their own way, charged the owners of farm property and private residences high rates to make up for their losses on more dangerous classes of property: this is changed now, through the efforts and working of the successful "London Mutual." For reports or Insurance apply to any of the Agents, or address the Head Office.

CAPITAL, \$1,188,000.
CASH ASSETS, 1st January, 1883,

per Government Blue-Book 407,987.89
 Deposit with Dominion Govt. - 122,000

President, Vice-President.
Sir A. T. GALT. HON. JAMES FERRIER.
MANAGING DIRECTOR.
EDWARD RAWLINGS.

THE ACCIDENT INSURANCE COMPANY OF NORTH AMERICA possesses a record for both reliability and liberality, one proof of which is that it has paid over two thousand losses and has NEVER contested a claim at law. It has ample financial resources, and has made the Special Deposit with the Insurance Department at Ottawa. It is, moreover, the only Company whose capital and funds are solely applicable to Accident Insurance.

WILLIAM ROBERTSON, General Manager.

Confederation Life Asscn.

The **SECURITY** offered to Policyholders is **UNSURPASSED** by any Company doing business in the Dominion.

Its **PROGRESS HAS BEEN UNEXAMPLED** in the history of Insurance in Canada.

Its policies are **INDISPUTABLE** after three years and **NON-FORFEITABLE** after two years.

Its **PROFITS ARE DISTRIBUTED** upon an equitable basis, resulting in very much larger returns to "Ten payment life" and "Endowment" Policyholders than under the Uniform Bonus plan pursued by some Companies.

Intending insurers will find it for their interest to **EXAMINE CAREFULLY** its system and terms before insuring elsewhere.
