BERLIN REPORTS THAT RUSSIAN FORCES ARE ON BULGARIAN BORDER

RUSSIANS ARE OPERATING ON BULGAR FRONT

Berlin's Announcement of Capture of Russ Munitions So Indicates.

GERMANS OVER DANUBE

Advances at Other Points Claimed in an Official Statement.

Special Cable to The Toronto World.

LONDON, Oct. 24.—Official statement from Berlin are to be accepted, Russian forces are already operating against Bulgaria. The German statement is that the army of Gen. Boudard has captured a Russian munitions store near Prahovo on the Danube, northwest of Negotin, and has occupied the western bank of the Timok River.

Available maps do not show a place named Prahovo on the Danube in this region, but there is a Pravo and a Kladovo on the Danube to the north of Negotin. Heretofore there has been no suggestion that the Russians were attacking Bulgaria, except by bombardment on the Black Sea and Aegean Sea coasts.

Crossed the Danube. The Danube has been crossed near Orsovo and the Slava Bozija Hill captured, Berlin claims. The statement also says:

"East of Lucavica the army of Gen. Von Koevess, of Field Marshal Von Mackensen's group, drove the Serbians back in a westerly direction. The army of Gen. Von Gallwitz has taken the southern bank of the Jasenica River near Palanik. Further east, it has reached the Rakinae line north of Petrova-Ranovaca in spite of very violent resistance on the part of the Serbians. The number of Serbians buried by our troops testifies to the heaviness of the losses sustained by the enemy."

Repulse of Left Wing Holds Up German Drive on Riga.

Special Cable to The Toronto World.

LONDON, Oct. 24.—Continuation of the fierce fighting for Riga and a repulse of the German attack in the Dvinsk region are recorded by the official report of the Russians, received from Petrograd tonight. The Russian repulse of the German left wing in the Riga district on the right bank of the River Aa, while in the centre the enemy captured the village of Repe. The Russians caught the enemy with their artillery north of Repe and inflicted enormous losses on them by a sustained bombardment. The Dvinsk was captured by the Germans on the 22nd in severe street fighting in an all-day engagement, in which they sustained severe losses. The Russians have not given up the struggle in being continued in a heavy district. Fighting here was preceded by a violent fire from the German man guns. Extreme violence has characterized the artillery engagements on both sides in the Riga sector also. South of Dvinsk the Russians began a series of attacks which gained them several advantages. The bulk of the fighting took place east of Lake Pruth and south of the Dvinsk. After the Germans had carried the village of Krumpke, the Russians counter-attacked and drove them out from the enemy in this district by hand fighting. West of Postava the combat has been resumed. It is presumed that their object is to prevent the Germans from continuing their advance into the Riga sector. The Germans also claim that they took nearly 3000 prisoners at Illoukust, probably wounded, which the Russians were unable to remove. South of the Pinsk marshes and the Pruth River, the Russians are conducting their independent attacks with considerable local success. It is presumed that their object is to prevent the Germans from continuing their advance into the Riga sector. The Germans also claim that they took nearly 3000 prisoners at Illoukust, probably wounded, which the Russians were unable to remove.

MURDERED BY THE GERMANS

Sketch of Miss Edith Cavell, drawn by a lifelong friend, Miss E. Montgomery.

"AND SHOT THE WOMAN THRU THE HEAD"

"Miss Cavell was to have been shot by a firing party in a garden surrounded by a high wall. She was led in blindfolded from a house near by, and walked bravely to meet her fate. Thirty yards from the rifle party, however, her strength gave out and she tottered and fell to the ground. The officer in charge of the firing party walked up to her as she lay motionless, and, drawing his revolver, took aim from his knee and shot the woman thru the head. The shooting shocked the whole Brussels community, who speak of it as the bloodiest act of the whole war."—From a special Daily Mail cable despatch to The Toronto World.

NO PARALLEL TO CAVELL CASE IN BRITISH ANNALS

No Women Accused of Military Offences Ever Executed in Britain.

NEW GERMAN HORROR

Calculated Indifference to Inquiries of Ambassadors Almost Incredible.

LONDON, Oct. 24.—Sir John A. Simon, British home secretary, and former attorney-general, in the course of an interview today, declared that the fate of Edith Cavell, executed by the German authorities at Brussels, had, and could have, no parallel in the records of Great Britain's treatment of persons accused of military offences.

Even in cases of clearly proven espionage, Great Britain has, according to the home secretary, meted out to women no sentence of death.

"No woman," said he, "who has been tried for any military offence in this country, has suffered the death penalty since the war began, or has ever been sentenced to death. In this country a woman, whatever her nationality, is always tried by a civil court."

Net Sudden Discovery. The secretary explained that evident differences existed in conditions in Belgium and in conditions in England, and that in occupied territory like Belgium, the administration of the law was expected to be slightly different.

"But," he continued, "the Cavell case was not some sudden discovery calling for a drumhead court-martial on the field of battle. This was Brussels, where the Germans claim to have established an orderly government community."

LONDON, Oct. 24.—Horatio W. The Earl of Derby added, according to the speaker, that this was something to be proud of, and that he confidently anticipated that by the end of November he would have sufficient recruits to meet all requirements.

GERMAN CRUISER SUNK BULGAR COAST SHELLED

British Submarine Operates Successfully in the Baltic as Allied Fleet Shells Bulgarian Ports.

PETROGRAD, Oct. 24, via London.—A British submarine operating near Libau attacked and sunk a German cruiser of the Prinz Adalbert class, according to official announcement made tonight. The Prinz Adalbert is an armored cruiser 303 feet in length and with a displacement of 8355 tons. She carries a complement of 557 men. The Russian naval department has issued the following communication.

"On the afternoon of Oct. 21, a squadron of British and French warships and the Russian cruiser Askold, bombarded the Bulgarian coast, directing their fire on observation posts for batteries that had recently been erected and the port of Devedegatch. Their fire appears to have caused great destruction in the ammunition stores, military magazines and other buildings. The station and railway bridge were also bombarded. The enemy did not reply."

"On the same day a detachment of the allied fleet led by the Askold bombarded the military establishments at Porto Lagos."

"In the operations of the Baltic fleet, our landing party, near the Town of Domness on the coast of Courland, at the entrance to the Gulf of Riga, on Oct. 22, defeated the German force protecting that point and captured prisoners and material. A German officer and 42 men were found dead on the battlefield. We lost only wounded."

ITALIANS WIN MUCH GROUND IN ADVANCE ON CARSO FRONT

Two Thousand Prisoners and Much War Material Taken in Progress Upon San Merlino—Monte Nordic and Fort in Cordovale Valley Stormed.

ROME, Oct. 24.—Considerable progress was made by Saturday noon with the new general offensive of the Italian army, undertaken with the object of relieving the pressure on Serbia and of invading Austria, the war office reporting the capture of Monte Nordic by assault, in the western valley of Lake Garda, the storming of a small Austrian fort in the Cordovale valley, and the capturing of the Schludernbach, thru the pass between the height of the Boite and the head of the Rienz, and the making of an advance along almost the whole Carso front, especially towards San Merlino, with the capture of 2000 prisoners, including 60 officers. In the Carso fighting seven machine guns were taken, as well as a large quantity of munitions and other war material. Successful raids were also carried out in Carnia. An important success was won in the Selsera Valley, where 420 Austrian dead were buried. Along the upper and middle Isonzo, Italian troops also made progress on Little Javorok, on the Santa Luci hill, east of Flava, and on the Celavica hill, and they repulsed two violent counter-attacks against Mrzil, taking 151 prisoners, including two officers.

BEEF TRUST IS TRYING TO PREVENT BUTCHERS

Who Use Civic Abattoir From Getting Contracts to Supply Meat to Soldiers.

Contracts are to be let today for the supply of meat to the troops who will spend the winter in Toronto. In this connection, Controller John O'Neill stated to 'The World' last night that an effort was being made by the beef trust to prevent any contracts going to the butchers who do business with the Toronto Municipal Abattoir. "The people of Toronto will not stand for any interference by the beef trust," said the controller. "The men who do business with the civic abattoir are entitled to any business they can get, and the civic abattoir also is entitled to any business it can get, and no one should be allowed to stop butchers who use the civic abattoir from getting contracts to supply meat to the men who will be wintered in Toronto."

Village Nine Miles From Bulgar Stronghold Captured—Allies May Land Forces at Porto Lagos, on Aegean Sea—Sofia Claims Uskup Has Been Taken.

NISH, Friday, Oct. 22, via London, Oct. 23, 1 a.m. (delayed).—An official statement says:

"Toward Krivolak the battle has been joined by the French troops, who are fighting with us."

LONDON, Oct. 24.—Official announcement from Paris today that French troops have effected a junction with Serbian troops after crossing the Greek frontier, and that French forces have defeated the Bulgarians about nine miles south of Strumitza, comes as an offset to the claim from Sofia that Uskup has been wrested from the Serbians.

A despatch from Athens to the Hava News Agency of Paris says it is understood at Saloniki that the entente allies plan to make a landing on the Bulgarian coast in the Aegean Sea, at Porto Lagos.

The French official statement says: "The debarkation of French troops at Saloniki continues regularly and under the best conditions. The French troops who crossed the Greek frontier have effected a junction with the Serbian troops."

"On October 21 our troops had an engagement with the Bulgarians in the direction of Radevo. That village, which is a distance of approximately 12 miles south of Strumitza, remains in our hands. Our losses were very small."

Successful Flank Attack. A heavy flank attack on the Krivolak-Strumitza front, made by French troops, has completely checked the Bulgarian attack on the Serbian Town of Veles (Koprivul) on the River Vardar, according to unofficial advices from Saloniki.

Bulgarian forces have completely conquered Uskup, according to an official communication issued at Sofia on Saturday, and received in London today. Uskup is the chief Serbian town on the railway between Nish and Saloniki.

RUSSIA SEEKS HEAVY CREDIT

More Than Two and One-Quarter Billion Dollars Required.

TO REFORM SYSTEM

Plans for Tea, Sugar and Match Monopolies Being Framed.

PETROGRAD, Oct. 24, via London, 2:55 p.m.—An imperial ukase issued today authorizes the Russian minister of finance to transact on foreign markets credit operations amounting to 5,500,000,000 roubles (\$2,275,000,000) and also to issue abroad the necessary bonds in pounds, francs and dollars.

Explaining his plans to a representative of the press, Pierre Bark, the finance minister, said the whole fiscal system of Russia would be reformed on the basis of the income tax, which already had been approved by the duma, and now was under consideration by the council of the empire.

All textiles, he said, also will be taxed, which will bring into the treasury \$75,000,000 annually.

Schemes for creating tea, sugar and match monopolies are being worked out.

Finances Healthy. The question of a six per cent. internal loan shortly will be determined, as the Russian money market is rich in resources, the proof of which, said the minister, will be found in the recent official statement that current deposits in private banks had reached the marvelous total of \$2,000,000,000, and that the increase in deposit accounts for the year ending in September amounted to \$350,000,000, while the savings bank deposit monthly increase was \$25,000,000.

GOOD TRAINING CORPS Many Soldiers Furnished for Active Service by This Unit.

By a Staff Reporter. HAMILTON, Monday, Oct. 25.—An open-air meeting in the interest of the Hamilton Home Guards was held at the corner of Belton and Ottawa streets last evening, when addresses were delivered by Messrs. Landers, W. H. Wardrop, K.C., and Captain Harry Stead. The speaker told of what the home guard has done during the past year for the local regiments and others and what is expected from the organization in the future, as the military officials are now depending largely on the home guards for recruits to fill in the ranks of the local regiments. It was found necessary to revise the various companies, and the corps is now on the actual basis of a battalion. There is room for more recruits, and it is expected that those who cannot join the city regiments or go overseas will join the home guard.

Parliamentary Party Pauses Between Gladstone and Dauphin as Memorial.

SIR WILLIAM HONORED

Address Presented by Senator Edwards—New Line Given Praise.

WINNIPEG, Man., Oct. 24.—Nineteen years ago William Mackenzie and Donald Mann, contractors, who had been engaged in building for other people, decided to build a railroad for themselves.

The idea found expression in a road about 100 miles long between Gladstone and Dauphin. They formed themselves into the Canadian Railway Company and entrusted the construction of the road to D. B. Hanna. Since then the little 100-mile road has grown to be a great transcontinental railway system, extending over 10,000 miles.

Parliamentary special on its return trip from the Pacific to Atlantic tidewater at Quebec should pause between Dauphin and Gladstone to recall the birth of the Canadian Northern. The senators and members of the house of commons on both sides of the water, recreation car Saturday afternoon to present an address to Sir William Mackenzie and the executive of the C.N.R. contemplating the recall of the argument of a transcontinental service and expressing their appreciation of the great effort across the continent now drawing to its close.

The address was read by Senator Edwards, and speeches were delivered by Richard Blain, minister of the interior of Ontario, by Senator Casgrain on behalf of Quebec, by J. P. Mulloy and Thomas McNutt, leaders of the western provinces, and by Messrs. Kytte, Carvell and Nicholson on behalf of the maritime provinces.

Mr. Blain, in endorsing the complimentary references in the address respecting the physical perfection of the line said that the C.N.R. system had been subjected to much unjust and unfair criticism. It would be well, he thought, if those who criticize the action of the government in subsidizing the bonds of the company would take the trouble to learn the real facts and conditions of the road by traveling over it. No railway could be built without some assistance from the government, and such assistance had been freely extended in the past, no matter what party was in power.

Mr. P. Carvell, Liberal M.P. for Ontario, N. B., said that no public opinion should be allowed to admit that he had been mistaken. He had vigorously opposed the Canadian Northern legislation 18 months ago, and had not been able to get his criticisms done so. At the same time he desired to say that he had sometimes spoken without sufficient information and had sometimes spoken what he now knew to be misinformation. His trip to the coast had taught him many things about the Canadian Northern and the country it served.

J. P. Molloy, Liberal M.P. for Provencher, who was ever present and outspoken. He admitted having said a good many hard things about the Canadian Northern, and a good many of them he wanted to take back. "I am an Irishman," Mr. Molloy continued, "and I cannot take back all I said at one time, but I am asking to be forgiven." (Laughter.)

Mr. Molloy went on to say that his observations upon the criticisms had convinced him that he had been misled both as to the character of the road and the service it was rendering to the country. He said that he had been misled both as to the character of the road and the service it was rendering to the country. He said that he had been misled both as to the character of the road and the service it was rendering to the country.

All the parliamentarians who spoke tonight in praising the splendid construction of the road, its freedom from grades and curves, and its capacity for handling the transportation of the country efficiently.

Sir William Mackenzie in acknowledging the address and the compliments which greeted him spoke briefly and with evident emotion. He said that he was a man of action rather than of words, and that he had no desire to make a speech to an audience composed almost wholly of parliamentarians. He might repeat, he said, the words of the members of the British House of commons, with whom he dined in London lately, that he left speaking mainly to the politicians, the lawyers, and the politicians. Sir William recalled the inception of the C. N. R. system, the criticism which the train was then standing. He and Sir Donald Mann commenced to build railways because the western people demanded them. No road had been built in any district except in response to earnest entreaty from the people. It was not until the year 1870 that they built here, there and everywhere through the prairie provinces as the governments of those provinces and the people requested. Subsequently they decided to find an outlet to the east, and also to the west, and he was glad to have the opportunity of showing senators and members of the house of commons just what kind of a road the Canadian Northern had constructed, and was operating. He hoped that when they returned home they would tell their friends, neighbors and constituents what they had seen.

Satisfied With Truth. "You can do us no greater service," he added, "than to tell the truth. We want the people to know the truth about ourselves and our system. They have been perhaps misled against the road by people who did not know what they were talking about. If they come to know the real facts and the exact truth, we will be entirely satisfied."

JEWELS AND IRON UNDER HAMMER

Some Buyers Got Bargains
and Others Didn't at Sale
in Police Court

IN ROLE OF AUCTIONEER

Inspector Kennedy Displayed
Skill in Disposing of Un-
claimed Articles.

The semi-annual police sale of un-
claimed articles was held Saturday af-
ternoon in the police court. Inspector
Kennedy of the detective department
was the auctioneer and was assisted
by members of his staff. Tho not an
auctioneer by calling, the inspector by
skilful judgment boosted his stock to
good purpose and generally received
the values of the articles.
The collection of articles, which was
the result of a six months' saving,
consisted of nearly everything that
was portable under the sun. There
were baby carriages, pitchforks, crow-
bars, jewelry of all description, old
and new boots, antique shafts and in
fact everything that goes to make
up an up-to-date departmental store.
Most of the afternoon was taken up
with knives, of which there were
thousands. They were wrapped in
bundles of six and were eagerly snap-
ped up by the buyers at an average of
50c a bundle. There were some rare
bargains. One old-fashioned gold
brooch set with corals went for \$60,
while a pair of unique gold earrings,
tipped with coral and centred with
diamond chips, was boosted from 10c
to \$25.
The second-hand dealers were on
the spot and started many a lively
contest for second-hand iron goods,
auto skid chains and coils of wire,
which seemed to run into miles. One
foreigner bid \$10 for a pair of chains
and when it was knocked down to him
at that price refused to take it. He
claimed that it was only worth 60c,
and it was only after a heated argu-
ment that he was prevailed upon to
fulfill his bargain.
William R. Travers, ex-president of
the Farmers' Bank, was an interested
spectator of the sale.

SACRIFICE MADE FOR HIGH IDEALS

Men Are as Ready as Ever to
Die for a Big
Cause.

SERMON TO STUDENTS

Prof. W. Morgan Preaches to
University Audience at
Convocation Hall.

Symbolizing the bounty of God and
teaching a lesson of human generosity,
the story of the widow's barrel of meal
and the cruse of oil, Prof. W. Morgan
of Queen's University preached a ser-
mon to a university audience at Con-
vocation Hall yesterday morning, in
which he emphasized God's bounty
and the fact that the spiritual needs
as the physical needs of humanity are
always looked after. The story about
the barrel of meal and the cruse of oil
was not cited as a historical fact, but
as a witness of the impression which
Elijah's life made upon his country-
men.

No figure of Hebrew history except
Moses and David stamped itself
as deeply on the people as did Elijah.
If the stories about him were touched
with the marvelous it was because the
man himself was of heroic mold,
said Prof. Morgan.
The lesson which was drawn from
the story was the mechanicalness of
the divine provision and resources.
In a literal sense, the speaker declared,
that people never reached the bottom of
nature's resources so that in this sense
the story was true.

There is more than a human life of
ours than sin. There is God working
through all to subdue sin and to build
up a kingdom of righteousness and
love. The triumph of God's goodness
is greater than the ravages of evil. We
have witnessed an outburst of dishonor
and brutality during the last year that
has shocked the entire world, but there
has been set over against it a multi-
tude of things that are ennobling and
that show devotion and self-sacrifice.
Men are as ready as ever to die for a
cause that is big. In Canada there is
being created a new type of heroism
and self-sacrifice for high ideals that
will proclaim to future generations
that the world does not live by bread
alone. We never really lose by being
generous," concluded the speaker.
"We never diminish our real wealth
by sharing it with another."

Autumn Leaves

By William Henry Taylor, author of "Canadian Seasons," etc.

October's glorious month! we follow thee,
Led by the Spirit-of-the-Woods to roam,
Where Autumn's kisses glance from tree to tree,
And zephyrs whisper: "We are going home."

The seasons march across the pictured screen,
Which hangs before the sun, whereon is drawn
A dream in colors by the Fairy Queen,
All blended by the Hand which lit the Dawn.

The maples, oaks and birches are arrayed,
In robes of shaded crimson, green and brown,
With bands and veins of virgin gold o'erlaid—
A wealth of dying glory falling down.

The wind is rising. Frost refines the air,
Leaf showers thicken drifting, whirling past;
A sighing, moaning music, low and rare,
Now seems to glide when leaves are falling, fast.

But Nature never dies; her moods are kind;
Her sturdy trees defy the gathering storm;
Each leaf that falls has left a bud behind,
Encased in downy sheaths to keep it warm.

These are the days when men and leaves are strewn
In drifts and tangles on the foaming shore,
Of that dim No Man's Land, which God has hearn,
From Time's Beginning to the Nevermore.

The Cross of Christ is wreathed with bloody leaves,
And crowned with thorns from trees of human woes;
An Antichrist has stacked his harvest sheaves
On countless Marys' Hearts which overflow.

This Autumn of the World now views a Lord
Flaming Cross and Crescent on his sable shield;
His Hunz and Turks are keeping watch and ward
On Danube's banks, and Salem's burial field.

A hundred years ago, from God's right hand,
A bolt was hurled, as now, to clear the sky—
Napoleon stamped his foot, and Tyrantland
Was strewn with kings, like leaves that fade and die.

Alas! Our Maple Leaves have fallen fast,
In those brown trenches 'yond the Belgian shore;
But noble hands of brethren hurry past,
Who shout: "Revenge! Canadians pay the score!"

BAR SALVATIONIST ARMY CHAPLAINS

Military Authorities Alleged to
Have Discriminated Against
Them.

IN HOUSE OF LORDS

Earl Grey Queries War Office
re Those With the
Canadians.

LONDON, Oct. 24.—Some interest-
ing disclosures have recently been
made here regarding the position of
Salvationist chaplains with the Cana-
dian forces. The question was
brought forward in the first place by
a letter to the press from Commis-
sioner Lamb, of the S.A., which pro-
voked from Earl Grey a question in
the House of Lords upon the matter.
Commissioner Lamb spoke of the
curious differentiation of treatment
under which Canadian Salvationist of-
ficers, while carrying on their work
among the forces while in England,
were not permitted to accompany
them to the front.

In the house of lords, Lord Newton
replied that the question was under
the consideration of the military au-
thorities in France, and that the army
council was not disposed to see any
objection to duly commissioned chap-
lains of the S.A. accompanying Cana-
dian troops on the continent. Lord
Newton ventured the personal con-
jecture that difficulty might arise in
France owing to the semi-military
basis of the Salvation Army. "Con-
siderable confusion and perplexity
might perhaps be caused among
French officials if they were called
upon to deal with individuals ap-
parently of high military rank
who on investigation turned out not
only to be not military officers, but
possibly officials belonging to the op-
posite sex."

Fears Groundless.
Commissioner Lamb, writing to the
press, makes answer that Lord New-
ton's fears are groundless as the Sal-
vation Army has not up to the pre-
sent considered the appointment of
"chaplains of the opposite sex." The
commissioner adds that his lordship
might have found some women ap-
pointed to high military rank during his visit
to the forces.
Incidentally he also mentions how
the "Church Times" has drawn at-
tention to the lack of efficiency in the
chaplain's department, asserting that
chaplains have been appointed "who
are incompetent to manage a boys'
bible class." The same paper declares
that the present chaplain-general
should give way to another, and pleads
that it is attacking the present
system and not the man.

THIRD AMBULANCE HAS BEEN DONATED

Col. Noel Marshall Accepts
Motor From McLaughlin
Company and Employees.

BUILT ON NEW LINES

Design Was Approved by Of-
ficers Serving at the
Front.

Col. Noel Marshall, on behalf of the
Canadian Red Cross Society, was the
recipient on Saturday afternoon of the
third motor ambulance to be presented
to the association by the McLaughlin
Carriage Company and employees. The
ambulance will be used in connection
with the military hospital at the Ex-
hibition camp, where there are now
some three hundred men on the sick
list. It was in turn presented to the
hospital staff, in charge of Colonel
Richardson, by Colonel Marshall on
behalf of the Canadian Red Cross
Association.

Following the presentation, which
was made by Robert McLaughlin, pre-
sident of the company, a photograph
of the car was taken with the donors
and members of the Canadian Red
Cross in the foreground, after which
the men and officers of the Army Med-
ical Corps stationed at the Exh-
hibition lined up and were also photo-
graphed with the ambulance as the
central feature.

The car is of the new type designed
to accommodate four lying patients or
12 sitting patients. It has been con-
structed according to the latest de-
signs obtained from British and
French sources, and has ample space
provided for medicines and other sup-
plies. An ingenious device for carry-
ing the stretchers is a feature of the
car.
Saletids for the protection of the
driver are supplied, and a drop step
at the rear enables the ambulance to
be backed up to any platform. The
rear doors being made to open the
full width of the car according to a
design approved by the officers serv-
ing at the front.

In presenting the ambulance, Mr.
McLaughlin said that altho it was the
third car to be given by his company
and the employees, there would surely
be more to follow. Colonel Richard-
son declared that it was the very thing
needed, and expressed the hope that
the Red Cross would be able to secure
two more ambulances for that particu-
lar hospital as they were urgently
needed.

Special Train for Accommodation of Hunters via Canadian Pacific Railway.

Special hunters' train will leave
Toronto 10 p.m. on Wednesday, Thurs-
day and Friday, Oct. 27, 28 and 29, for

Wallingford Steps
Into Your "Movie"
Theatre TODAY

For five years Wallingford has rolled
through the pages of the Cosmopolitan
Magazine and has won for himself a fol-
lowing of millions of friends who believe
him to be the greatest American character-
ization of all literature.

It is something to have brought Wallingford
into moving pictures and it is a fact
that if you come today and see this pecu-
liar financial genius that you are probably
going to watch him for many weeks to
come.

You are going to find in the Wallingford
pictures a treat such as is rarely brought
to you in the "movies"

THE NEW ADVENTURES OF J. RUFUS WALLINGFORD

is going to be the biggest photo play success ever
produced. Backing it are those who are respon-
sible for the "Exploits of Elaine" the "Perils of
Pauline," "The Goddess," and who are able to
bring the best stars into the best plays produced
without hesitancy at expense, but intent on mak-
ing the pictures right.

Pathe is the manufacturer of the motion pictures
and Pathe motion pictures mean the best today.
Leopold Wharton and his brother have been
chosen as the directors because there are no di-
rectors in America who can equal them.

If there was any man in the world who was best
qualified to play Wallingford, he it was who was
to be chosen and that is why Burr McIntosh, the
great character actor is to be seen in the name
part with all the comedy that he is capable of,
with all the pathos he is capable of, with all the
classic acting that his career of 20 years has
given him. You know George Randolph Ches-
ter's great stories of Wallingford? You read
them in the Cosmopolitan Magazine? All the
characters you have known are coming to life

exactly as you have pictured them in your im-
agination—only better.

Don't think your imagination is going to be
jarred. It is going to be pleasantly lead on and
all of your stories of Wallingford will assume
so much more interesting a value.

For instance Blackie Daw will be played by
Max Figman. I ask you—is there anybody in all
moving pictures that you know of that you your-
self could have suggested as better fitted to play
this part? If you were to see him in moving
pictures you would say to us that Mr. Figman is
the very man for the part. Why, he is Blackie
Daw.

And then, too, Lolita Robertson will play Vi-
olet and what a Violet she will make!

Snake Discovered in A BUNCH OF BANANAS

F. E. Fleming Found the Reptile
While Unloading Fruit at
Front Street.

F. E. Fleming, an employe at the
warehouse of the White Co. Ltd.,
corner of Front and Church streets,
was astonished on Saturday morning
to see a live snake, two feet in length,
coiled around a bunch of bananas
which had recently arrived in the
warehouse. The reptile apparently
had been affected by the cold climate
and did not resent its removal to
warmer quarters. Here the snake
showed unmistakable signs that it was
in a famished condition and made
hasty inroads on the food that was
thrown in to it. After satisfying its
hunger the snake did several peculiar
tricks with its fangs which convinced
Mr. Fleming that the snake is a poi-
sonous one.

Accepted in Windsor, Rejected in Toronto

The Windsor Record calls attention to the suggestion made by Sir Adam Beck to Walkerville, as a possible solution for the troubles of municipalities which are suffering from the refusal of corporations to give street car service where required.

The parallel to Toronto is sufficiently close. The people of Walkerville, under Sir Adam Beck's instigation, voted against the extension of the franchise nine days ago, and now they have no prospect of a car service in a district which needs it badly.

Aspirants for employment in the newspaper world have probably less difficulty in finding opportunity than in any other occupation.

Freedom of the press demands freedom in this respect as in others, but there is no reason why there should not be proper courses of training for those who wish to get into "the newspaper game," as its devotees love to speak of it.

What a gulf lies between British and German ideals is manifest in the noble words of Edith Cavell, spoken before she was done to death by the Kaiser's system of Kultur.

Whatever may be thought of the situation in Greece, one thing is apparent, and that is that Greece understands she is dealing with civilized powers and not with the barbarous Hunns.

Not Wild Beasts at Ephesus. Whatever may be thought of the situation in Greece, one thing is apparent, and that is that Greece understands she is dealing with civilized powers and not with the barbarous Hunns.

Anglo-French Loan Not for Canadians. It appears that in spite of all that has been said and the warnings given and the official notices to the effect that the object of the Anglo-French war loan would be defeated to the extent that British investors subscribed to it, a number of Toronto people have been either too stupid or too disloyal to heed the wishes of the government.

Dr. Grace Carries His Bat. Only the last generation can understand the affectionate interest with which the cricketer career of Dr. W. G. Grace, who has just "gone west," at the age of 67, was followed in Great Britain. His phenomenal record has never been rivaled, and he continued to play until he was past 50.

There is a picture hung in the city hall of the great match in which "W. G." played in Toronto in 1872, at the old McCaul street grounds, when R. A. Fitzgerald's eleven played a Toronto eighteen, and Dr. Grace made 142.

Organization. In a few instances the result of the Red Cross fund campaign in the province fell below expectations. The reason is not far to seek. There was no organization. Want of thought, more than want of will, prevented people realizing their duty and doing it.

Making Newspaper Men. Aspirants for employment in the newspaper world have probably less difficulty in finding opportunity than in any other occupation.

PARLOR BOY WINS THE NEW FEATURE

Colors Was Best in Race—Meeting Closes at Mount Royal Track.

MONTREAL, Oct. 23.—The nearest to a feature on the offering of the Back River Jockey Club for their getaway day offering was the fifth race, which was won by Parlor Boy, who has won four out of his last five starts. He scored a lucky win this afternoon, as Colors, who was second, was much the best, but was allowed to run out at the head of the stretch, which enabled Cruise to slip thru on the run. The winner won by a nose. Sempilla, who was favorite, suffered from the running out of Colors, as he was taken to the outside rail just as he was making his run on the turn.

Word was sent to the track by Matt Wynn to ship all horses going to Juresa straight to the track on Wednesday, when five cars will leave here. The horses leave here tonight for Marysville to race at Pimlico and Bowie.

Good Saturday Run With the Hounds

The hounds met Saturday at 2.30 p.m. at York Mills. There was a good turnout, a run so fast that very few were able to keep up to the pack.

The cavalcade started east with the pack check at Dunlop stables, then on east and north, and the next halt a couple of miles above Sullivan's Corners, then back thru the Don Valley to the starting point.

Those in the saddle included G. W. Beardmore, M.F.H. Mrs. Douglas Young, Messrs. Lovell, Dymont, Hume Blake, McMillan, Geo. Elliott on Back River, Miss Gascien, Fred English, Huntley Christie, Fred McFarlane, and Phillips on his 20-year-old Hunter.

WILL PURCHASE FLOUR FOR MEN IN DOMINION. Military Authorities at Ottawa May Ship Supplies Over in Transports. OTTAWA, Oct. 23.—The militia authorities will probably purchase all flour and oats for Canadian soldiers in England and at the front in Canada and ship it over in transports. This suggestion has been made by Colonel McRea, head of the Canadian Army Service Corps in England. The flour for the soldiers has hitherto been bought in England, and at present is costing there \$5.10 a barrel. It takes 2,000,000 pounds of flour a month for the troops in England.
