

THIS is what is generally known as the dull season in the Clothing Business.

It's a time for clearing up odds and ends of Winter lines and getting ready for Spring trade.

Already inquiries are being made for new Spring lines, and in fact, some sales have been made from the advance lines that are already here.

HAMILTON HAPPENINGS

SANITARIUM BARN IS DESTROYED BY FIRE

Patients at Mountain Institution Were Not in Danger—Excitement at Postoffice.

HAMILTON, Feb. 9.—(Special).—Fire at the Mountain Sanitarium for Consumptives, about two miles west of the city, this afternoon destroyed a large barn, the laundry and some smaller outbuildings.

The fire started in the barn and spread to the other buildings, but fortunately was kept away from the patients' blocks and the main buildings by the wind.

Caused Grave Fears. The fire occasioned considerable anxiety among people in the city who feared for the safety of the sixty-five patients in the sanitarium.

Youthful Pool Players. The crusade which has been launched against poolroom keepers who allow lads of tender years to loiter around their premises, brought another poolroom keeper into police court this morning.

Good News for Windsor. WINDSOR, Feb. 9.—Gratifying news was received in Windsor to-day from C. T. Wilcox, member for North Essex, stating that he had received word from Hon. F. D. Monk, minister of public works, that it is not intended at present to move the offices of the public works department from Windsor to London.

SENATOR KERR TO AID OF OFFICE HOLDERS His Bill May Freshen Attempt by Senate to Balk Will of Parliament.

OTTAWA, Feb. 9.—(Can. Press).—There is every reason to believe that the Liberal majority in the senate will oppose the wishes of the government and the Conservative majority in the house of commons before the session closes.

BRUCE OLD BOYS AND GIRLS. Bruce County Old Boys and Girls held their 12th annual at home and dance, in the Temple Building last evening.

SKIN SUFFERERS

Trousers! Trousers! Trousers! The Greatest February Sale of Trousers For Men Offers Immense Selection at Substantial Saving Prices

THIS great Trousers Sale is put on in February to equalize the business—in other words, to make February come up to the standard of the remaining months of the year; and in order to do that we make great preparations in order to give values that would be impossible at any other time. Great orders are placed with the best woolen manufacturers in England for fabrics suitable for odd trousers; and these are shipped direct to our own workrooms and made up in what would otherwise be slack periods. When February comes round we are ready with thousands and thousands of pairs of trousers which we offer at prices that mean savings to all who buy. The Sale is in full swing now—the values are better than ever—the prices lower than usual. Come Monday; buy one or more pair—you can't lose. Here is a sample of the excellent values offered:

- 150 Pairs of Men's Trousers, in good weight wool tweeds in mostly striped patterns and in medium and dark colors, strongly sewn and neatly finished with durable pockets and trimmings; sizes 32 to 42. February Sale price 1.00
- Another Special Trousers Value—worsted finished materials in neat striped patterns; clear wearing fabrics that will stand hard usage; correctly cut and well tailored, side and hip pockets. February Sale price 1.29
- Fine Quality Worsted Trousers, in dark and medium narrow stripe effects, fashioned in latest style, with 3 pockets and good trimmings. February Sale price 1.55
- Men's Worsted Trousers, in medium and dark closely woven smooth finish worsteds, showing striped patterns. They have side, hip and watch pockets, side straps and waist and are well finished and tailored. February Sale price 1.90
- Men's Trousers, in heavy solid worsteds of excellent quality, English fabrics that will hold shape and color, tailored in best possible manner.

Special Clearing of Men's Undershirts at 29c

FLEECE lined garments—and shirts only. Broken lines from our various lines of heavy fleece lined underwear for men. They are unshrinkable; have close fitting cuffs and all edges neatly bound; sizes 38 to 46. Priced for quick clearance. Monday 29c

Only two to a customer. Cannot promise to fill phone or mail orders.

Men's Rubber Collars at Each 11c

A tremendous purchase from a leading collar manufacturer is responsible for this very low price. They are a dull rubber in linen finish, and are easily cleaned in a few minutes. Styles include double collars, or stand-up turn-downs, in two depths, 1 3/4 and 2-inch; cut-aways, and other low turn-down styles; sizes 14 to 18 in men's and a few boys' sizes, 12 to 14, in the double collar. Monday special, each 11c

Men's Working Shirts at each 69c—Reduced to clean up broken lines, including in the lot, blue flannel, with attached, soft turn-down collars, and grey and blue. Flannel shirts with the saten neckbands; all have breast pocket, yoke and roomy bodies, with seams, double sewn. A most comfortable shirt for outdoor workers; sizes 14 to 18. Clearing at each 69c

Men's Four-in-hand Neckties 17c—Made of good quality silks and to improve this offer many ties worth double have been added. This lot includes leading colors and stripe effects, in the popular folded-end styles, and French seams, with the extra thin neckbands; many plain shades in the lot. Special price, each 17c

—Main Floor—Queen St.

Men's Sample Hats, \$1.00

HIGH-GRADE Stiff and Soft Hats in late American and English blocks and in all sizes from 6 3/4 to 7 3/4. The stiff hats have among them many good simple shapes, as well as a number of the newer low crown blocks, with rolling brims; all are trimmed with best silk trimmings and leather sweat. The soft hats are in telescope and fedora styles in black, brown, grey and heather mixed with a number of the ever-popular Oxford grey, with seamed crown. Hats to suit everybody and worth in many cases twice as much and more. Offered Monday at special price 1.00

Horse Blankets

FOR the benefit of any customers who may not have purchased blankets in January the sale prices will obtain during February. This splendid wool blanket is large size, 72 x 80. NEW BRIDGE AT GERRARD ST. OVER DON

Works Committee Recommended That One Be Built and Money to Pay for it Will Be Placed in Estimates—Brockton Hall Will Be Closed, as it is Not Safe.

A new Gerrard-st. bridge was recommended by the works committee yesterday afternoon, and a motion by Ald. Yeomans was passed, which provided that the city engineer include in his estimates a sum sufficient to defray the cost. Mr. Rust explained in his report that he was not in favor of widening the present structure. He felt that it would be more economical and satisfactory to build an entirely new bridge, and he explained that a concrete structure could be built for \$155,000, while a steel bridge would cost the city engineer report as to what would be the most suitable bridge to build.

Ald. Sanderson's motion that the Don be dredged from the G.T.R. bridge to Winchester-st., after some discussion, that between these points the river was being choked up with sewage, and that if something was not done soon, an epidemic of disease might result. City Engineer Rust said it would be impos-

able to get a dredge up the river. It was finally decided to let the matter stand.

Car Line Extensions.

The committee concurred with the city engineer's recommendation that the Toronto Street Railway be ordered to construct a line on Eastern-ave. from Queen-st. westerly. Mr. Rust also advocates that the Dupont car route be extended westerly along Dupont-st. to Lansdowne-ave. He recommended that the question of the proposed civic car line on Coxwell-ave. be held over until the matter of running rights over the street railway's lines is determined. The committee agreed with all these recommendations.

Lesson Land Damages.

L. V. McBrady, K.C., representing landholders on St. Vincent-st., appeared before the committee, suggesting a plan whereby land damages involved by the projection of the street above College-st. might be lessened some \$50,000 if the street were curved easterly at a point about 125 feet north of College-st. This plan, he said, would not necessitate pulling down some ten new houses on the west side of St. Vincent-st. and only two houses on College-st. would be affected. It was decided to have the city engineer look into the matter.

Close Brockton Hall.

The city engineer and assessment commissioner advised against any curve in Tyrrell-ave. which would result in an interference with the I.O.O.F. Home. The committee adopted the report.

Close Brockton Hall.

In his second report on Brockton Hall, City architect Mac'Arthur advised that the building was unsafe, and would cost \$18,000 to repair it. The board of control decided yesterday morning to close it.

Property Commissioner Harris stated yesterday that his department will take over the privileges of selling fodder and collecting fees at the Union Stock Yards next Friday.

Wants Information.

R. L. Drury of Victoria, B.C., visited the board of control yesterday morning to get some idea of the procedure of municipal government, to see if this city can be used as a model for his home town, where the municipal government has not worked well. In a recent pamphlet, the people of Victoria favored a commission form of government.

CLERICAL LEADER DEFEATS SOCIALIST.

BERLIN, Feb. 9.—(Can. Press.)—Dr. Peter Spain, the leader of the Clerical Centro party, was elected today president of the ralschlag, defeating August Bebel, the leader of the Socialist Democratic party, by 196 votes to 115. The honorary governors who will visit the Toronto General Hospital during the week commencing on February 13th are Messrs. D. A. Dunlop and R. J. Christie.

Toronto World

As both the Dominion Parliament and the Provincial Legislature are now in session, citizens generally are interested in the deliberations of these two important governing bodies. The Toronto Morning World delivers, before breakfast, to any address in the City of Toronto or suburbs, or dispatched by first mail each day to out-of-town readers, contains accurate and reliable reports of the proceedings, together with intelligent and timely comment on the various measures under discussion. If you are not now a reader of The World, attach your name to the following coupon, and send it to The World Office, 40 West Richmond Street, Toronto.

MONEY IS VOTED FOR THE NEW SCHOOLS

More Than \$2,000,000 Needed by Property Committee, of Which \$200,000 Will Be Used for Purchasing New Sites—Fair Wage Officer is Appointed.

Estimates bringing the aggregate for buildings and sites for the year up to \$2,100,000 were approved by the property committee of the board of education yesterday afternoon.

Supr. Bishop declared Trustee Hiltz's proposal for \$500,000 for the purchase of public school sites to be an "absolute necessity."

A sub-committee was appointed to see if the site on Bloor-st., now owned by the Ontario Government, could be bought back for the \$300,000 paid for it from the board. It is wanted for the new Jarvis-street Institute. The present site is to be sold to the city for an addition to Allan Gardens. A sub-committee will also report on the offer of the Prospect Rink owners to sell their property for \$20,000. Fifty thousand dollars was voted for

additions to the Kippendavie-avenue and Balmly Beach schools.

High School Estimates.

High school estimates for sites and buildings were passed totaling \$400,000. They included: New site for Jarvis-street Collegiate Institute, \$100,000; new building for Jarvis-street Collegiate, \$175,000; enlargement of Parkdale Collegiate Institute, \$60,000; enlargement of Riverdale high school, \$55,000; enlargement of sites, \$10,000.

Fair Wage Officer.

President Salford of the Bridge and Structural Iron Workers' Union, charged the contractors with only hiring a foreman and two or three union men and doing the rest of the work with non-union foreign labor.

The committee decided to make F. Dolson, fair wage officer, in addition to his duties in connection with the assessment rules. He will endeavor to remove the cause of complaint made by President Salford.

Vacuum cleaner fittings are to be placed in all the schools.

Patients Well Treated.

The consideration and care shown patients in residence at the Muskoka Free Hospital for Consumptives is very gratefully reflected in the following letter from Miss Jennie Macpherson, Thornhill, Ont. She writes:

"I am sending this contribution to the Free Consumptive Hospital for their kindness to my sister, Daisy Macpherson, who was at Gravenhurst for nearly a year when she was transferred to Weston. Daisy told me of the kind way in which they treated her. I only wish that I could afford to give more."

Just 75c to Buy a Piano.

Hard to credit so generous a proposition, but it is the case that the old firm of Heintzman & Co., Ltd., 125-127 Yonge-street, following their annual stock-taking, are clearing some forty odd square pianos of makers like Chickering, Steinway, Miller & Son, Heintzman and others, at prices ranging from fifty dollars to one hundred and fifty dollars, and in payments of just seventy-five cents a week. 216

DR. SUN YAT SEN IS A CHRISTIAN

President of Chinese Republic is Now Member of Evangelical Church in China.

"President Dr. Sun Yat Sen of the Chinese Republic is a member of the United Evangelical Church," was one statement in a summary of the situation in China given out at the Laymen's Mission Office yesterday.

Of the 800 Chinese students in the Canadian and United States Colleges 240 are members of Protestant churches. There are 200 newspapers published in China to-day, compared with about 20 ten years ago.

China has 470,000 native members or adherents of Evangelical missions. They contributed last year \$212,250 to the mission cause.

Protestant missions in China are now conducted by 920 ordained missionaries.

EASY MONEY FOR G.T.P.

OTTAWA, Feb. 9.—(Special)—The second reading of the bill to pay the G.T.P. the ten million dollars to which the country is rendered liable by the deal of the Laurier government of 1904, will be moved on Monday.

Curling Results at Winnipeg

Note and Comment

All the Toronto rinks tasted defeat yesterday, but that does not mean there will be no jewelry come here from Winnipeg.

The Scots also fell down the second day, but they are getting the ice, and should be in their best possible shape for the next Strathcona Cup contest.

It happened in one of the centre areas where they have prize fights the other night. Battling Gurk, the untamed cyclone from the middle west, was to fight a preliminary and, as usual, about a dozen handlers tried to crowd past the door with him.

Your old friend Doc Tanner, hero of many a feat, is at it again. He is living in England and proposes to test his ability against a couple of foreigners.

Now, what's your excuse? In all seriousness came the unexpected reply: "Why, boss, I'm the most important of them all. I have to throw up the sponge."

His was given a ringside seat. The Royal Curling Club of Guelph were successful in their first match with Lakeview.

The best men in the world are to meet at the curling club on Monday night. The curling match between Galt and the Toronto Queens on Monday resulted in a tie, 6 all.

Granite will send five rinks to Galt on Wednesday evening. Play both Galt and Granite rinks will go to Toronto next Friday afternoon.

The Toronto Granite contingent at Winnipeg telegraphed their congratulations to the stay-at-homes on winning the Diablot Cup. They added that they are looking for the Winnipeg man who says, "Yes, it's cold here, but you don't feel it."

At Granite to-day Club medals, 9 p.m.—Holland v. Moran, Band v. Gray.

Word comes from London that an engine in India which has given close made an important discovery regarding the equilibrium of aeroplanes.

A recent test was made in India with the invention fitted to an aeroplane from a high point and it immediately, being influenced only by a gradual drop toward earth.

It is claimed that the principle of the invention, if built into an aeroplane, would render perfect the "floating" of an air craft upon an "even keel" and make tipping over or sudden tipping impossible.

Sharp turns can be made also, it is rendered of small importance. The details of the invention are a secret. British war office will be asked to test the contrivance.

TORONTO RINKS ARE DEFEATED

Rennie, Dalton and Rice Go Down in Morning Round for McLaren Cup—St. Thomas Skip Runs Up Score.

WINNIPEG, Feb. 9.—Play was continued here in the bonspiel today. Following are the scores: The McLaren Cup, 2:30 a.m. and 12:30 p.m. draws, in which eastern or Scottish rinks were engaged:

OWL SHOES DROP THREE IN BUSINESS LEAGUE

News. Make a Clean-up—Good Scores in the Athenaeum League—Results.

In the Business Men's League at the Toronto Bowling Club last night the Owl Shoes, the latter putting in their worst night of the season, no doubt due to the hard frost. All News rollers went over the 300 mark, Cap. Gordon leading with 34, while Fred Wilkes put the last over with 33. For Owl shoes Sam Black was high with 34. Scores:

GOVERNMENT STOCK CARS TO CARRY CATTLE WEST

Breeders Favor an Arrangement Whereby Better Cattle Would be Purchased and Eastern Cattle Man Saved a Great Deal of Inconvenience.

At government stations where sheep had been kept for experimental work, good profits had been made in each case, even at one station where a pure bred ram and two grade ewes had died there was a small profit.

The following directors were appointed: John T. Gibson, James Douglas, Lloyd Jones, Mr. McEwen, Mr. Brian, Mr. Robertson, Mr. Telfer and Mr. Arkel; general directors, Mr. Campbell and Mr. Lee, Auditor, Mr. Reek.

B. Thorley Sets New Track Record In 1000 Yds. Run

B. Thorley made a clean-up in the Central Y. handicaps, taking the 1000 yards run and the hop, step and jump handily. Not satisfied with winning both events, Thorley set up a new track record in the run when he went the distance in 2:30. The results:

T. C. C. ANNUAL DINNER

The Toronto Canoe Club members made merry last night when the annual dinner was held. A large turnout was the order, and all the old members were seen around the festive board.

Another White Hope Goes Down For Count

PARIS, Feb. 9.—Bob Scampon, an American negro pugilist, knocked out "Black" McCloskey, a white American fighter, in the eighth round of a boxing bout here to-night. The decisive punch was a straight right to the joint of the jaw, which landed with such force that McCloskey was unconscious for half an hour. The use of restorative methods were used by the physicians who were hurriedly summoned to the hospital.

City Hall Defeated

The city council's office defeated the city engineer's office in the case of 5 to 1 in a hotly-contested game of hockey at Excelsior rink last evening. The teams played six men a side. The line-up for Goal, Love, point, McArthur; cover, Lohr; centre, Wale, right, Hargrave; left, Down.

Northern League

BRUSSELS, Feb. 9.—The home team defeated Lucknow in a fast and clean to-night in the Northern League series here to-night by a score of 12 to 6. The line-up:

ROCK PRISON CUT IN SIDE OF HILL

When the authorities of Graham Co., Ariz., decided to look about for a place in which to confine criminals, they found a natural depression in the side of a hill. This was enlarged into what might be called an artificial cave, divided into four compartments.

When one once realizes the exquisite flavour and aroma of SANDY MACDONALD he finds the ordinary kind unsatisfactory.

ALEXANDER & MACDONALD DISTILLERS LEITH, SCOTLAND

I wonder what he wears?

It's a Wolhausen, — a hat that commands respect from Canadians who take pride in dressing well. Its "fine" appearance is more than surface deep. It's a pure FUR FELT hat. The ribbon band is of durable silk. The sweat band is of real leather. Even the stitching is of silk. HIGH-GRADE throughout, is the Wolhausen.

That's why we are able to stand behind every Wolhausen Hat and absolutely guarantee the wear and the permanency of color, to pledge ourselves to give you a new one should any Wolhausen hat ever fail to give you complete satisfaction. The guarantee inside the hat protects you fully.

Go to a good Hatter and select one of the latest Wolhausen styles. Experience daily the feeling of decided pleasure that accompanies the wearing of a hat of such high character.

SATURDAY MORNING, FEB. 10, 1912

MR. ROWELL'S OPPORTUNITY.

If Mr Rowell found that he could do nothing under the old rules, or if he was not aware of the force of the regulations, he may be forgiven for transgressing the usual limits if he were enabled to justify himself by the result of his performance. The Globe seems to think that immense progress has been made by raising Sir James Whitney to the point of ebullition. We do not believe that much is to be gained from this alchemical process. Sir James in a reasonable mood and with reasonable men is as progressive as any mere politician on the opposition benches. And Sir James never claimed to be a reformer, but simply the leader of a great political party. Mr. Rowell as the successful leader of a great political party might condense to learn a few things from such an experience as that of Sir James.

We have repeatedly said that the Liberal party has no chance of displacing Sir James except by presenting a better policy to the people than Sir James presents. When the house-keeper has been buying apples from the market-gardener she keeps on with the man she has been dealing with until he starts selling her rotten apples, or till another man comes along with bigger and better and cheaper fruit. The whole mysterious business of politics is simply the question whether Sir James's apples are rotten and whether Newt Rowell has better apples to sell.

As long as Sir James's apples are good it is only a waste of time for Newt to tell Mrs. Ontario they are rotten and bad. If he wants to get the business he must produce some Number one Spies. Greenings and shall we say, Baldwins. So far, the Greenings seem to be the only sample offered.

No sane man takes any stock in Mr. Rowell's outcry about the hydro-electric commission. He is only calling attention to one of Sir James Whitney's virtues. Sir George Ross never would correct a mistake. The Globe would never admit a mistake had been made. Mr. Rowell is trying very hard to prove that Sir James was about to make a mistake, but had the common sense not to do so. What does Mr. Rowell expect to make out of that?

The more Mr. Rowell talks bilingual schools the better Sir James will be pleased. He is an old campaigner and likes the enemy to supply the ammunition. It might be wise to wait for Dr. Merchant's report, which cannot be delayed for ever.

On the development of Northern Ontario, an assessment reform, and on several other matters connected with provincial organization, or one might say civilization, Mr. Rowell might place himself on firm ground, and he would be glad to support him in agitating for progressive policies. But he must realize that he must have better apples to offer than Sir James offers if he expects to get sale for his wares. Is he prepared to go as far as the people want in assessment reform, or is he satisfied merely to agitate without a specific statement of policy? Similarly is he only willing to talk vaguely about Northern Ontario without producing a definite plan of action?

Destructive criticism and clever carping make excellent newspaper material, but the reasoning and intelligent voter knows the facts and is not going to be hoodwinked by mere oratory. Constructive statements with solid character and integrity behind it alone beguile confidence. The first thing Mr. Rowell should do is to evolve a policy. He may not be convinced and the Globe may not permit him to be convinced, that his recent campaign program was rather too much of the nature of a fricassee to be a successful banquet dish. It did not arouse the appetite of Ontario. And Sir James's apples are not quite so rotten as Mr. Rowell would have the people believe.

We are still confident that Mr. Rowell has it in him to do better things than he has done yet. But he must get away from the old party traditions and indicate that he has a new life to live apart from what The Globe would call "grave scandals" had they occurred in any party but his own. He must go farther than Sir James Whitney is prepared to go if he desires to rally the progressive influences of

the province around him, and he must raise his standard clearly and distinctly aloft.

THE PACIFIC RAILWAY MUDDLE.

The mountain section of the western division of the National Transcontinental Railway will cost the Grand Trunk Pacific Railway Company, let us say, \$40,000,000. This company is authorized to issue bonds for this amount, and the interest upon all of them for seven years will be paid by the government. Three-fourths of this issue of bonds will be guaranteed principal and interest by the Dominion Government. Should these government guaranteed bonds sell for only \$34,000,000, then, under the decision of the privy council, the government will have to make up the difference so as to implement its promise to bear three-fourths of the cost of construction of the mountain section. The Star is in error, however, when it says, in effect, that the company may sell these government guaranteed bonds at any price it sees fit and collect the difference between the selling price and par value from the government. That particular point is guarded against by section 9 of the act of parliament, assented to on July 18, 1904, and entitled "An Act to Amend the National Transcontinental Railway Act." The section reads as follows:

The terms and conditions upon which the bonds to be guaranteed by the government pursuant to the said agreements in aid of the construction of the western division of the railway referred to therein, or any portion of them, may be sold, pledged or otherwise disposed of by the Grand Trunk Pacific Railway Company, shall be subject to the approval of the minister of finance and receiver-general and of the governor-in-council.

It would therefore appear that the bonds cannot be sold at a ridiculous price without the connivance of the government.

The situation is bad enough as it is, but it will not be improved by inaccurate statements.

The Star a few days ago announced the judgment of the judicial committee of the imperial privy council as "treason." This must have been written before reading the opinion of the lordships in the case. The contention of the government, that the discrepancy between the market value and the par value of the bonds was to be compensated by the company issuing additional bonds, fell to pieces when it confronted the supreme appellate court because, as Lord McNaughton pointed out, no authority had been given by parliament to the company to issue additional bonds and thus increase the total capitalization. One is astonished to find that the Supreme Court of Canada missed the point which the privy council took when it decided the case against the government.

As long as Sir James's apples are good it is only a waste of time for Newt to tell Mrs. Ontario they are rotten and bad. If he wants to get the business he must produce some Number one Spies. Greenings and shall we say, Baldwins. So far, the Greenings seem to be the only sample offered.

No sane man takes any stock in Mr. Rowell's outcry about the hydro-electric commission. He is only calling attention to one of Sir James Whitney's virtues. Sir George Ross never would correct a mistake. The Globe would never admit a mistake had been made. Mr. Rowell is trying very hard to prove that Sir James was about to make a mistake, but had the common sense not to do so. What does Mr. Rowell expect to make out of that?

The more Mr. Rowell talks bilingual schools the better Sir James will be pleased. He is an old campaigner and likes the enemy to supply the ammunition. It might be wise to wait for Dr. Merchant's report, which cannot be delayed for ever.

On the development of Northern Ontario, an assessment reform, and on several other matters connected with provincial organization, or one might say civilization, Mr. Rowell might place himself on firm ground, and he would be glad to support him in agitating for progressive policies. municipal debt, \$1,850,000 in reduction of rates and about \$4,500,000 was carried to reserve and revenue funds. Bearing in mind the fact that the old management has greatly increased its public undertakings and seven private companies reported that returns showed an excess of working expenditure over gross receipts.

It is not without bearing on the popular notions about the United Kingdom that of the 207 miles of street railways now open, only 131 are not electrified. Contrary to prevailing opinion on this side of the Atlantic, the old country has preceded, not followed, in the percentage of net receipts to the capitalization has greatly increased, in fact almost doubled. Not only that, but many British municipalities now operate beyond their confines, to the advantage of the suburban districts that are served. The extraordinary thing is that in western countries that call themselves democratic these public benefits should be denied.

Ping-pong has come into fashion in London again. But this is no reason why they should fake it up in Queen's Park. Let the opposition start a man-ger game.

The Globe thinks Mr. Rowell was occasionally humorous. Mr. Rowell must have been real funny to extort such an admission from the organ. Mr. Rowell should enter that \$100 competition. Considering the mild and reasonable character of Winston Churchill's home rule proposals only one theory seems to fit the objection raised by Sir Edward Carson to having a man speak in Belfast. It is the theory that the Tory leaders did not want the people to hear the proposals, and hoped to embarrass the Liberal Government by violent demonstrations. The average Englishman is so much concerned about aspersions of his hereditary and the reputation of an English sovereign of two centuries ago that he is about the form of government he lives under. When he emigrates he generally goes to the United States.

OLD-AGE PENSIONS.

Editor World: Seeing that I have been a reader of your paper for some time I have come to a conclusion that your paper at all times pleads the cause of the worker. Therefore, I ask a favor of you for a room sweet, in regard to Sir Richard Cartwright's attack on old age pensions, as it would breed paupers. Now in the first place, we will take a laborer with no trade at \$1.75 per day and probably only seven months in the year. He can get work at that. If he is a married man with a family of young children he cannot show me or anyone else how he can save anything for old age. I consider the man and his family is only half living to make ends meet. He rents and living have gone up. I admit there are some that will squander, but there easily can be a remedy to catch them, therefore, the others shouldn't suffer. Also I think it is a downright shame to call anyone a pauper, especially those who have always done their best, altho by no fault of theirs, never had the chance to save anything for old age after giving their country their best. He is at least called a pauper. When I look at the men who are doing our affairs on a large pay gap from the workers' labor, I would like to know who should be called the real pauper. Here we

read this week of ten millions of the people's money given to a railroad company which for each week been done. How far would that have gone to help the few in their old age? I consider it is not charity, either, only getting a little of their own back. So the time has come now, unless the party in power do not do what is justice to the worker I am afraid their term will be short. James Coulter. Owen Sound.

SUNDAY OBSERVANCE.

St. John, N.B., Telegraph: Toronto sends up to the quiet stars a vigorous protest against the Puritan Sabbath. The law has been enforced against those pleasureseekers who were endeavoring by Sunday sports to inject some color into the drab of existence in that city, and an eager revolt and protest follows from the law-breakers. Their words are strong and their tale is not one of little meaning. The problem that is raised is one which will become increasingly difficult with the growth of our country. Much of the future of this country depends on our Sabbath customs. The judgment creditors, C. P. Smith for Jackson. Motion by judgment creditors for an order making absolute attaching order. Motion enlarged for one week. Hammond v. Moffatt—G. F. McFarland for defendants. Motion by defendants for an order making absolute attaching order. Motion enlarged for one week. Allen v. Grand Valley Railway Co.—G. H. Redwood for plaintiff, J. G. Smith for defendants. Motion by plaintiff for an order for a commission to go to New York to examine defendant Verner for discovery. Motion enlarged until 12th inst. Heffernan v. G. N. W. Tel. Co.—W. Davidson for plaintiff, J. G. Smith for plaintiff. Motion by defendants for an order for the examination to be done in case of a witness over 30 years of age. Order made for examination as may be arranged by parties. Walker v. Maxwell, White v. Walker—E. E. Wallace for plaintiff in first action. H. S. White for defendants. Robertson and White, C. R. McKee, K.C., for plaintiffs in second action. Motion by plaintiff in first action for an order consolidating actions, or for a second action. Order made that first action, for an order made for sound sittings. Second action stayed meantime. Costs to be in the first action. Liddell v. Andrews—A. R. Clute for plaintiff. Motion by plaintiff for an order discharging certificate of abs. defendants herein. Order made. Cranson v. Canada Iron Corporation, Ltd.—B. H. Ardash for defendants, A. E. H. Creswick, K.C., for plaintiff. Motion by defendant for an order striking out part of paragraph 12 of statement of claim as embarrassing affidavit in issue. Motion dismissed. Costs in cause. Wilkinson v. La Presse Publishing Co.—Hetherington Mills, Raney & Co. for plaintiffs. Motion by plaintiffs on consent for an order dismissing action without costs and for payment out to defendants of money in court with any accrued interest.

Judges' Chambers.

Before Meredith, C.J. Standard Mutual Fire Insurance Co. v. Hudson Bay Insurance Co.—W. J. McWhinney, K.C., for plaintiffs. J. H. Hunter for defendants. Motion by E. B. C. Clarkson, liquidator of plaintiff company, on consent, for a reference to all matters arising between the parties to George Kappel, K.C., an official referee. Upon filing a statement of the matters to be referred, order to do so.

Divisional Court.

Before the Chancellor—Letchford, J., Middleton, J., McGuire—J. Haverson, K.C., for defendant. G. H. Watson, K.C., for plaintiff. An appeal by defendant from the judgment of Tetzell, J. of Nov. 17, 1911. This was an action by the Russian consul for \$1000 damages for the death of John Fundzins, which death was alleged to have been caused by the supply of defective liquor to excess by John Coggin, bartender for defendant. McGuire, who had deceased perished from cold early on Dec. 25, 1910. At trial judgment was awarded plaintiff for \$500, appeal dismissed with costs.

Before Middleton, J.

Sir Aemilius Irving, K.C., treasurer of the Law Society of Upper Canada, presented to the court the following gentlemen who have been called to the bar by vocation, and on the flat of the judge, they were sworn in and enrolled as barristers-at-law: William Henry Walker, Robert Pickford McBrine, Abraham Singer and Thomas Reginald Sloan. A Singer and T. R. Sloan were also sworn in as solicitors of the supreme court of judicature.

Divisional Court.

Before the Chancellor—Letchford, J., Middleton, J., McGuire—J. Haverson, K.C., for defendant. G. H. Watson, K.C., for plaintiff. BRITAIN'S NAVY MUST ALWAYS BE SUPREME

Continued From Page 1.

navy was in the nature of a luxury. What was existence to us was expansion to them.

Will Keep Naval Supremacy. These facts ought to be clearly stated, because the suggestion that the naval risks of Great Britain and Germany were on an equality was utterly untrue.

The newspapers now said that there were prospects of further naval increases among the continental powers. That was a very serious matter, because not only were navies increasing in size, but everything connected with navies was increasing in cost.

English Hair Grower

American Rights Secured for NEW DRUG, CRYSTOLIN

Great Britain, said Mr. Churchill in conclusion, would be the first power to welcome a retardation of slackening of naval rivalries.

All the satisfaction that they got from the government to the committee, where works had been begun and where there was an obligation on the government to complete them.

LASHED TO BEAMS

Two Men Worked in Bitter Cold at Top of City Hall Tower.

High in the city hall tower, nearly 200 feet above the sidewalks, where they were several degrees colder than the shivering thousands below, two men worked for several hours yesterday repairing the striking apparatus of "Big Ben," the city's timepiece.

CHEAPER S. A. CABLES

LONDON, Feb. 9.—(C.A.F.)—The Eastern Telegraph Co. announces that the Union Co. of South Africa have consented to reducing the present rate between Great Britain and Cape Town from 18 to 7 cents, beginning in March.

DOCTORS GAVE ME UP

But "Fruit-a-lives" Cured Me.

MOORFIELD, Ont., March 25, 1910. "I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress.

"I could not do any work and became so run down and weak that I could hardly walk. I was attended by two experienced doctors and they both pronounced my case incurable, that they could do nothing more for me as they thought my disease was Heart Failure and incurable. The doctors gave me up and I looked forward for death in a short time.

"At this time my son asked me to try 'FRUIT-A-LIVES' and from the outset of taking these wonderful tablets I was better, and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and I have gained over thirty pounds in weight."

"HENRY SPEERS, J.P."

"Fruit-a-lives" is sold by all dealers at 50c per box for \$2.50, or trial size, 50c or sent on receipt of price by Fruit-a-lives, Limited, Ottawa.

The Toppo, Tasty Toast

Food science has taught us that there is much body-building nutriment in the whole wheat grain which we do not get in white flour. The only question is how to make the whole wheat grain digestible. That problem has been solved in the making of

TRISCUIT

the shredded whole wheat wafer.

It is the whole wheat, steam-cooked shredded, compressed into a wafer, and baked—the maximum of nutriment in smallest bulk. Many people prefer it to ordinary bread toast. Heated in the oven to restore its crispness it is delicious for luncheon, or for any meal, with butter, potted cheese or marmalades.

PUBLIC AMUSEMENTS

Grand Opera Artists.
Much has been written about the famous women who figure in the personnel of the Montreal Opera Company, which opens a fortnight's season of grand opera at the Royal Alexandra Theatre on Monday, but the men are not by any means to be overlooked. The tenor who will sing the opening performance will be Ugo Colombini, an artist of wide repute, who has sung not only all over Italy, but in the great opera houses of South America and Russia. He was with the grand opera of Odessa on the Black Sea before he was engaged in Canada to accept his present engagement. Another tenor of experience in Russia, who is also a virtuoso of grand opera, is Michel Darjat, who was last season with the grand opera of Petersburg and won great applause there by his performance of Romeo and Faust, both of which roles he will sing in Toronto. Another French tenor is Paul Sterlin, who has scored a brilliant success in opera of the modern French school, for which his Parisian training equipped him. Constantine Strouss, another French tenor, has won great applause in Europe for his conscientious acting, and Hugh Allen is regarded as a most promising artist.

Coming to the basses and baritones are first an organization of remarkable strength, that of the tenor in the great basso, Albert Huberty, who has been pronounced by all those who have heard him to be the greatest French basso to loom up since the days of Placido and Edouard de Reszke. He is a man of superb physique and the melody of his voice is heard in an auditorium twice the size of Massey Hall. Franco Nicoletti is another famous singer who is a pillar of strength in the organization. He was brought to America a year ago to sing the leading baritone part in Mascagni's opera, "Iris," and it was the success of this failure to deliver the score that enabled the Montreal Opera Company to secure his services. He is a superb actor as well as a fine singer. Bonaie, another baritone, is described in France as "the golden-voiced baritone," and as an artist in singing and general artist he is said to be exquisite. Paul Cergue is a basso of sterling quality, and Natalie Cervi, a basso buffo that few can compare with, also include admirable singers in the persons of Bruce Walman, the popular American tenor; Leo Charles, Mario Marti and George Pannone.

"THE NEVER HOMES."

"The Never Homes," the big Lew Fields musical satire on the suffragette movement, will be seen week of Feb. 26 at the Royal Alexandra. The piece is somewhat unique among musical comedies in that a consistent humorous idea is maintained from beginning to end. This humorous idea is an attempt to portray the conditions which would exist should lovely women suddenly be given full sway in the conduct of the municipal affairs of a typical American city.

The cast is one of singular excellence. It is headed by that always delectable Grob; George W. Monroe, who appears as Patricia Flynn, a female political boss. Others in the long list of entertainers include Lillian Hervey, Jess Dandy, Al Leach, Lillian Hervey, Bessie Clifford, Will Archie, Joseph Satterly, Vera Finlay, Maud Gray and Denman Mauley.

The piece is staged with the lavish disregard for expense which has established Mr. Fields as the most extravagant producer of musical shows in this country.

"The Light Eternal."

Book readers familiar with the fascinating story of Christian martyrdom told in the late Cardinal Wiseman's historical novel, "The Light Eternal," will be given an opportunity of seeing a dramatization of that work—"The Light Eternal"—at the Grand next week. The subject matter of the novel, the life of a man who created a play, a play that is superior to all former offerings of the kind. To the poetic beauty of the writing has been added an exceptional skill in stagecraft—resulting in a veritable poetic drama bordering on the venture of melodrama. The scenic and costume design is above many of the best of the genre. The principal roles are played by Louis Dunbar and John Mitch, both of whom are considered among the foremost readers of the classic drama on the present stage.

London Symphony Orchestra.

Some twenty years ago, as the conductor of the foremost orchestra in America, Arthur Nikisch made an impression upon those who were fortunate enough to hear his concerts at that time. He demonstrated his wonderful powers as a conductor and drew admiration to some of the real beauties of music in his highest form. The work that he did then has been followed by the wonderful development of real musical worth and its growing appreciation through the new world. Since his return to Europe from his position in America, his great genius has kept on growing and he has developed until, without exception, he is looked upon as the greatest wizard of the baton and the highest authority, past or present, as the ultimate in symphony orchestra music.

Many attempts have been made to place Mr. Nikisch back to America for a permanent position or for special concerts, but never until now have the conditions been such as to secure his consent. In the present tour he to select his own orchestra. In the first place Mr. Nikisch was permitted to direct with capabilities to meet his wishes and to illustrate with his wonderful skill and intelligence his wonderful ideas of interpretation, is praise enough for this great organization. No higher authority is known than the judgment of this master, who has stood before nearly every famous orchestra in the world and conducted royal operas and royal orchestras for over a score of years and whose position as the foremost leader, not only of this time, but of all time, is universally acknowledged and unquestioned. It is desired to avoid any comparison with our many other American organizations, but the London Symphony Orchestra, under the baton of Mr. Nikisch is presented as the very highest artistic achievement in Europe and an exemplification of the present

THE ENTERPRISING DRUMMER—AGAIN WITH ROSE STAHL.

One of the most interesting characters in "Maggie Pepper," Charles Klein's play of department store life, which Rose Stahl comes to the Princess Theatre for one week, commencing Monday night, with matinee Wednesday and Saturday, is Jake Rothschild, the drummer, who seeks that he may sell the store's largest bill of goods. This type of salesman is a very familiar one about the big department stores. The size of the order which is given to him depends entirely upon the judgment of the person in charge of a certain line of goods as to how much of the line he will order. Therefore it is necessary that the salesman should stand in the good graces of the person in charge of the goods, both equal as to quality and to price. It is naturally the most popular salesman who gets the order. The good personality and giving the impression that his house is doing business on the level. There are other kinds of salesmen, these are the men who seek to bribe by means of personal gifts. Mr. Rothschild offers Maggie Pepper the prospect of the profits of his house. He figures that he says cost him \$400,000, but he will be advantageously affected by the sales induced thereby, and the cost of the present is charged up to advertising. All large department stores have a hard and fast rule that any salesman accepting gifts from salesmen is liable to instant discharge.

Lina Abarbanell in "Madame Sherry."

The extraordinary popularity of "Madame Sherry," which comes to the Princess Theatre in the near future, is undoubtedly due to the infectious melody. Every comedy-drama work that he did then has been followed by the wonderful development of real musical worth and its growing appreciation through the new world. Since his return to Europe from his position in America, his great genius has kept on growing and he has developed until, without exception, he is looked upon as the greatest wizard of the baton and the highest authority, past or present, as the ultimate in symphony orchestra music.

MAcLYN ARBUKLE AT SHEA'S.

At Shea's next week, Maclyn Arbuckle will appear in a new one-act play, entitled "The Reform Candidate," written by Edgar A. Quett and himself. It is a clean, wholesome comedy-drama playlet of politics and home.

TOBACCO HABIT.

Dr. McTargart's tobacco remedy removes all desire for the weed in a few days. A vegetable treatment, requiring no touching of the tongue with its occasional, "Free."

LIQUOR HABIT.

Marvelous results from taking his remedy for liquor habit. Safe and inexpensive. No treatment, no touching of the tongue, no public loss of time from business, and no expense.

"Have a Fresh Cigar?"

"No thanks, I'm going home to kiss my family. Have you any SPEARMINT?"

The refreshing mint leaf juice instantly removes breath odors, besides purifying and preserving teeth. It makes you hungry before meals and helps digestion afterwards.

Buy it by the Box
of any dealer

Get the habit of taking SPEARMINT to your family every night. It is the only beneficial confection, the cost is almost nothing and children love it!

The Flavor Lasts

Look for the Spear

ESTHER FERRABINI.
The great Italian prima donna, who will sing the role of "La Tosca" at the opening performance of the Montreal Opera Company's forthcoming engagement at the Royal Alexandra Theatre.

DR. COOK'S LECTURE.

Dr. Frederick A. Cook, the Arctic explorer, who will lecture in Massey Hall on Monday, Feb. 12, has just returned from his expedition to the North Pole. He will speak on "The Arctic Expedition." The first of a series of lectures on the Arctic region, which will be given in Massey Hall on Monday, Feb. 12, at 8 p.m.

"ELIJAH" AT MASSEY HALL.

The New York Mail speaking of a recent performance of the "Legend of St. Elizabeth," said "Miss Wirthlin is a new contrast to New York and she proved her right to this distinguished company before she had sung many measures. She has a powerful, ringing quality and fullness in intonation and dramatic control, pure and rich in production." Miss Wirthlin has been suggested by Dr. Torrington to sing the part of "Elijah" in the Massey Hall.

ONE WEEK ONLY FEB. 12 TO 17

To every purchaser of a pair of our \$3.00 to \$5.00 Glasses, this week, we will give, without extra charge, a duplicate pair of glasses, which, in case of breakage, we will place in your mounting free of charge. ROSE STAHL.
The noted comedienne, who will be at the Princess next week in the celebrated play, "Maggie Pepper," by Charles Klein.

Cubans Got Away With \$30,000.

KINGSTON, Jamaica, Feb. 9.—Two Cubans were arrested here today on the board of the steamer "Fagus," charged with the theft of \$30,000 from the postoffice at Santiago de Cuba. The entire sum was recovered by the local police and proceedings for the extradition of the Cubans to Santiago will be commenced immediately.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY OTHER SUFFERING FROM WOMEN'S AILMENTS
I have found the cure.
I will mail, free of any charge, my home truth with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—100% my reader, for yourself, or your daughter, your mother, or your sister. I will tell you how to cure yourselves at home with the help of a doctor. What we women know from experience, we know better than any doctor. I know that my home treatment and cure cures for Leucorrhoea, the White Discharge, Uteritis, Displacement of the Uterus, Prolapse, Stagnation of the Blood, Painful Periods, Swelling of the Ovaries, Painful Menstruation, Headaches, Back and Neck Aches, Nervousness, Irritability, and all the ailments of women. I will send you my book, "WOMAN'S OWN MEDICAL ADVISER," with explanatory illustrations showing why and how to cure yourselves at home. Every woman should have it, and decide for herself. Thousands of women have cured themselves with my home remedy, which is simple, quick, and sure. I will explain a simple home treatment for your case, entirely free, in plain language, by return mail. I will also send you free of charge, my book, "WOMAN'S OWN MEDICAL ADVISER," with explanatory illustrations showing why and how to cure yourselves at home. Learned Piano and Mandolin Through Free Lessons by Mail; Now Wants to Learn Guitar

Washington Man Says Method Not Only Easy, But Interesting, and Its Entire Cost Only About Two Cents a Day—Any Instrument Can Be Learned.

Five years ago W. S. Whitman began to learn the guitar with the aid of the free music lessons given by the famous U. S. School of Music.

Washington, D. C. January 12, 1912. U. S. School of Music, 225 Fifth Avenue, New York City.

Dear Sirs—I have taken the Piano and Mandolin Courses from you, and an thinking of learning the guitar, of course, turn to you again. When I took my first lesson from you I did not know the first thing about music, and did not know one note. I found your method of instruction not only easy and perfect, but interesting, and the interest increasing with each lesson.

Most truly yours, W. S. WHITMAN. (Signed)

Just Fill in and Send the Coupon (Requests by postcard or letter will do.)

U. S. SCHOOL OF MUSIC, 225 5TH AVE., BOX 316, NEW YORK CITY. Gentlemen—Please send me particulars how I can learn the instrument after which I have marked X with the aid of your FREE COURSE OF LESSONS.

DISEASES THAT TREES SHARE WITH MANKIND.

Plants suffer from the maladies of men. Obesity afflicts plants as it afflicts man. Trees accumulate unhealthy fat by continued absorption of superabundant and too substantial nutrients.

as best the fat and ailing human being. The human victim of obesity is told to exercise, to take hot baths, to massage, and to diet. The obese tree can do nothing, and until very recently its malady was not recognized.

CHURCHILL FOR ENGLAND

Home Rule for Ireland Can Alone Remove Bitterness That Imperils Britain's Future.

LONDON, Eng., Feb. 9.—(Can. Press)—(Thru Reuter's Ottawa Agency).—In his speech at Belfast yesterday, Winston Churchill said that the case of home rule rested upon three main sets of argument: (1) the imperial argument; (2) the house of commons argument; and (3) the Irish argument.

He especially emphasized the imperial argument as the largest and wisest, and said that the settlement of the long quarrel between the British government and the Irish people would be to the British empire a boon, a blessing, a treasure ship, a wonderful reinforcement beyond comparison.

Expatriated Irishmen Bitter. "What can we say of those Irishmen," continued Mr. Churchill, "who are assuredly the best of their kind, incapable of managing their own affairs, but who in every other part of the English-speaking world have won their way, out of their own power, to positions of trust, affluence and authority, particularly political authority."

"Speaking as an English minister, I must say that on the whole, in varying degrees, no doubt, and with notable exceptions, they have been an excellent counter to our Irish agitators."

"As the years have passed, especially since Gladstone halved the British nation rule cause, things have got better and better, feeling improved, but still Irishmen overseas have done us much harm."

"In the past, they have been an adverse force in the colonies. They more than once unfavorably deflected the policy of the U. S., and they are now the most serious obstacle to Anglo-American friendship. We got along despite all that. We got along despite a great deal of bitterness."

Antagonism Will Melt. "I speak not only to you, but to the great audience in all parts of the empire—all those who are the home rule cause either on one side or the other. Only think, if we had their aid instead of their enmity, their help, instead of their hindrance, how much quicker our progress, how much brighter our future; what new possibilities would be opened; what old dangers would be removed."

"There is no final reason for this antagonism between the races of the countries. The Irish people are by character and tradition attached to monarchial institutions. The idea that the King is King, not only of Great Britain, but of all the world, is a natural barrier between the Irish people and the Crown of this country."

"Here, is elsewhere through the empire, the crown may become the supreme link of unity and acceptance. Since his accession, the King has traveled widely, has reviewed his fleet and armies, has been in Scotland and Wales, has journeyed to the vast provinces of the Indies, and has met with many great and famous cities that rendered him allegiance, but it was in Dublin—Oathkeeps—that he met the greatest of his subjects, the King of the United Kingdom."

Questions for Unionists. "It is this that makes me put my first question to earnest and generous Unionists (Unionists in Ulster). It is really necessary for your safety and welfare that you should be made aware of Irish loyalty should be refused?"

"Must the empire be made for all time to stand out of all advantages from it? Are British governments to be condemned to maintain a quarrel with the Irish nation, for it is a quarrel with the British nation?"

"Are British governments to be compelled to govern their only by force as a subjugated race? Are we to be forbidden on both sides to go forth with a full hope and benefit for all?"

"Surely at the very least, it is incumbent upon Ulster Unionists, if they take that view, to make the most substantial reasons to make it clear to the British public and to the colonies (who are also enquiring) that they are not betrayed by a honey and partisan, and to justify, if they can, with patient heart-searching, an Irish hope and imperial needs."

"For our part, we look forward to the time, which has been long retarded, but which we believe now to be near, when this island, instead of being a disruptive force in the empire, shall be transformed into a new centre of union, when the harsh and lamentable cry of reproach which has so long jarred the concept of empire shall die away, when the accursed machinery whereby hatred is manufactured and preserved shall be broken for ever; when from every country where our language and our institutions are established, hands shall be joined across the seas in peace and cordiality."

"Then, indeed, shall be a victory worthy to stand for ever with Trafalgar and Waterloo. Every part of the empire would join in out-rejoicing every parliament in its own right, and in the United States would approve and applaud our decision; the self-governing dominions would draw more trustfully towards the motherland; the difficulties of federation of the empire would be sensibly diminished by the reconciliation of Great Britain and Ireland."

World-wide Unity. "And far wider even than unity of empire the great dream of the ages, dreamed of good relations and the ultimate unity of the English-speaking people all over the world. Why should it not come true? Why cannot this great settlement be made? Why cannot we all make friends? We have done it in Canada, in South Africa, and not much, perhaps, has been accomplished in the last few months in Ben-

Have You A Fur Need To-day? GREAT FUR CHANCES HERE YET TO BUY. Assortments are being pulled down, but there are still great buying opportunities in garments and smaller pieces. Some of the season's finest fur creations and selling at one-third to one-half off the marked prices. Guaranteeing the style, the quality and the service.

- MEN'S FUR-LINED COATS: Shells made from best quality imported English beaver cloth; lined throughout with good dark muskrat skins; collars of otter; 50 and 52 inches long. Regular \$55.00. Sale price 34.50.
LADIES' PERSIAN LAMB COATS: Semi-fitting style, made from best quality Leipzig-dyed Persian lamb skins, large shawl collar and cuffs, best quality linings and trimmings. Regularly \$300.00. Sale price 215.00.

INTERESTING EXPERIMENTS WITH LIQUID RINGS. Every tobacco smoker has pondered over the curious and complicated movements seen in rings of smoke and has wondered at this tenacity of form and motion. Their study has not been entirely reserved to the imaginations of the users of pipes, however; for locomotives furnish some of the most perfect examples of ring motion, or vortex motion, as the scientific investigators term it.

Why in these days when Irish Catholics are so much in the news, and their nature, are they never to be remembered too? I cannot help thinking of a speech which I was a witness when the heights of our comrades when Ladyemth was relieved. On the crest of a hill facing the fire of sixty guns, in a veritable whirlwind of exploding shells, the valiant Boers, up the Boer shells marched unflinchingly the Dublin and Impinkillie Pushers. The Boers possessed the following characteristics: They moved in a ring and each carried with it the same material with which it issued from the muzzles of the guns.

THE ELECTROLYTIC RECOVERY OF ZINC. A new process for the electrolytic recovery of zinc has been successfully worked out by Chituro Yoshida, the proprietor of a copper refinery in Iwano, Province, Japan. The zinc ore is dissolved in the electrolyte, and from a liquid zinc is precipitated by electrolysis. The process is simple, but several of the presence of a small particle of copper, antimony or arsenic is enough to render the process futile.

Who is Polly Prim? Polly Prim is a young girl who has been discovered in a cave in the mountains of the United States. She is the only living remnant of a race that lived there for many years. She is a beautiful girl, and her discovery is a great find for the world.

The World's Leap Year Baby Mugs. As was stated in a recent issue, The Toronto World will present a beautiful silver birthday mug to every baby born in Ontario on the 29th of next February. These children will only have an anniversary once in four years, and it is fitting that their birthday should receive some special recognition. There are no conditions or entrance fees attached to the award, the only regulations to be observed are as follows: 1.—Only babies born in Ontario are eligible. 2.—Babies must have been born between the hours of 12.00 midnight February 28, and 12.00 midnight February 29.

Who is Polly Prim? Polly Prim is a young girl who has been discovered in a cave in the mountains of the United States. She is the only living remnant of a race that lived there for many years. She is a beautiful girl, and her discovery is a great find for the world.

RAILWAY BOARD CHAIRMAN FAVORS COMPANIES' PLANS

Viaduct in Northern Part of Toronto Would Close Huron, Howland, Albany and Divert Ossington, and Mr. Drayton Says the City Wants a Square Deal.

Chairman Mabee of the Dominion Railway Board after three hours' discussion of the plans submitted by the C.P.R., the C.N.C. and the city for the viaduct stretching from Davenport street to Lansdowne-avenue said that the railway's scheme appeared to be the best, but reserved judgment in case that the board's chief engineer could go over the ground again, and that the board might have time in which to give the matter more attention.

The principal difference between the plans of the railways and those of the city is that the companies' scheme would necessitate the closing of Huron street, Howland and Albany-avenues, and the diversion of Ossington-avenue.

It appeared to the chairman as if the city had instructed Mr. Drayton to object to any scheme which the railways might bring forth.

"Now, all that the city wants is a fair and square deal. The street crossings we contend should be left as they are, and that the railway tracks should be elevated instead of the streets depressed," said Mr. Drayton. Mr. Drayton spoke strongly in favor of doing away with all street depressions so far as possible. The only plan which provides for this is the one submitted by the city, and which calls for an elevation of eighteen feet, double-tracked and a third track on the present street level, all to be used jointly by the Northern Pacific and the Canadian Pacific.

The corporation claims that the plan for the railways would be inadequate and spoil the appearance of the streets at the point which Mr. Drayton emphasized was that the closing of the three streets and the diverting of Ossington-avenue would be had down planning. He claimed that the city would agree to meet the elevation of eighteen feet would mean that the city would be useless so far as some of the line was concerned. The high elevation would result in vastly more work in shipping.

Engineer Mountain suggested that the elevation be two-thirds and the present one-third. This would mean that the elevation would be twelve feet and the city would agree to such a plan as this so long as the city is not closed.

Mr. Mountain's plan is very similar to the one proposed by the Canadian Northern in the first place.

State Atlantic Cable

Editor World: I cabled to Sir Joseph Ward on Monday last, the 5th inst., from Toronto, asking whether in his opinion New Zealand was still in favor of the Atlantic state-owned cable being laid. His reply has just reached me, and is as follows:

"New Zealand strongly favors laying state Atlantic cable."

I did not receive the cable in time to read it at the Empire Club luncheon, which I had the honor of addressing on this subject on Tuesday, 6th inst.

Yours faithfully,
Martin Archer-Shee.
Feb. 7, 1912.

DR. J. A. MACDONALD SPEAKS IN THE STARD THEATRE.

The series of matinee now being held in the Strand Theatre every Sunday evening by the Y. M. C. A. are still proving a great success and drawing crowds of men. The type of addresses given has been very rich, and the address for tomorrow night will be no exception. Dr. J. A. MacDonald will be the speaker. The Harmony Male Quartet will again render acceptable music. These matinees are for men only.

MRS. BELL GETS DAMAGED.

Mrs. Agnes M. Bell was awarded \$200 yesterday afternoon at the conclusion of her action against the Toronto Street Railway for \$200 for injuries received while alighting from a car at Dundas-street and Ossington-avenue some time ago. The jury heard the testimony and found in favor of the woman as before passengers had sufficient time to alight.

Officer Drowned at Sea.

HALIFAX, Feb. 9.—(Can. Press.)—Frank Elliott, aged 30, second officer of the steamer Rosalia, which is expected to-day from New York, is missing, and is supposed to have been drowned at sea. He was last seen after leaving his watch at midnight on Wednesday.

Father Officer to Preach.

The Rev. Father Officer, O.H.C., of Holy Cross, New York, will preach at St. Matthias' Church, Bellwoods-avenue, Sunday morning and evening, and will give an address each evening during the week on "The Christian Life."

BUDGET DEBATE RESUMES ON THURSDAY

Crowds Who Expected to Hear Sir James Whitney Yesterday Were Disappointed — Mr. Rowell Introduces More Notices of Motion in Connection With Boundary Question

Anticipating the continuance of the debate on the speech from the throne by Sir James Whitney, large crowds filled the galleries of the legislature yesterday, but they were disappointed, as the debate did not continue, and probably will not until Tuesday. The session was taken up with the introduction of several government bills which have been dealt with by the Statute Revision Commission. Hon. J. J. Foy introduced two bills, one to prevent minors from frequenting billiard halls, and one to prevent excessive and degrading gaming. These bills have been before the house before, but are being revised in order to make the wording more exact.

J. C. Elliott gave notice that he will ask the house if one Brown, or Bromley, a license inspector for North York, and Henry Moore, the same riding had taken an active part in the provincial election campaign there, and if so, will the government instruct these men to refrain from all further participation? He also wants to know if the government will remove the men from office if it is proved that they have taken an active part in the campaign. Hon. Mr. Hanna promised that the matter would be investigated.

Mr. Rowell gave notice that he will move, seconded by A. G. MacKay, that in the judgment of this house the Province of Ontario is entitled to its own hinterland, and to have its westerly boundary extended north to the middle parallel, so that its northerly boundary shall be the same as that of British Columbia, Alberta, Saskatchewan and Manitoba, but in order that the Province of Manitoba may have access to an ocean-going port on Hudson Bay thru its own territory, this house be prepared to approve a settlement whereby the westerly boundary of Ontario shall be extended north to the Churchill River and shall then follow the middle thread of the river north-easterly to deep water on Hudson Bay. This house respectfully protests against any settlement of the boundary which shall deprive Ontario of any portion of her hinterland south of the Churchill River, and which does not secure for Ontario a good port on Hudson Bay for ocean-going trade.

Mr. Rowell also gave notice of a motion asking for all correspondence between the Dominion and provincial governments in connection with the boundary question. He also wants all reports and correspondence which has passed between the governments of Manitoba and Ontario.

Tax Reform Bill.

Mr. Rowell will shortly introduce a bill to amend the Income Tax Act, and it is altogether likely that Mr. Rowell will also incorporate the plank in his campaign to give municipalities the right to tax land rather than improvements.

Mr. Rowell also intends to introduce a bill to amend the Judicature Act, repealing the section of 1910 providing for the appointment of additional high court judges.

Technical Education for Women.

The monthly meeting of the Canadian Household Economic Association will be held on Tuesday, Feb. 13, at 3 p.m. in the room of the Margaret McKeay, North-street. Dr. A. G. McKeay, principal of the Technical

SURER THAN FATE!

The First of the Old Time Engine Factories to Protect Itself by Adopting the Augustine Rotary Engine Principle.

Buffalo Courier.

SATURDAY, FEBRUARY 3, 1912.

BIG SHOP TO MAKE AUGUSTINE ENGINES

Augustine Engine Company Organize \$500,000 Subsidiary Concern.

The following is a news item from the Ohio State Journal under date of January 31:

On the market of Buffalo, N. Y., and in the New First National Bank building, yesterday filed papers incorporating the Augustine Rotary Power Company of Columbus, with a capital stock of \$500,000. The new company will manufacture and place on the market the Augustine rotary steam engine.

The general offices of the company will be in Columbus and the engines will be manufactured in the plant of the Reeves Engineering company at Mt. Vernon, which will be consolidated with the new company. Columbus, Pittsburgh and Buffalo capital is interested in the new company, and it is expected to make it quite a factor in central Ohio industry. The engine which will be placed on the market is the invention of B. F. Augustine of Buffalo, N. Y., and is not an experiment, as over 200 of these are now in use. One of them is in Columbus, being operated in the plant of the Indianapolis ice company. They have been made up to 200 horsepower, and the patent company has a large factory in Buffalo. The engines, which are built, as the name would indicate, on the rotary principle, are much lighter than other motors, a fifty horse-power engine weighing but 1,200 pounds.

In addition to the steam engines, it also is planned to manufacture a gas and gasoline engine on the same principle. They have been tried out in automobiles and motor boats and are asserted to have proved most satisfactory. The engines have been successfully used for over four years and are in use in many large plants. They are small, even large powered engines occupying but little space, and are said to be most economical in operation. "Columbus will be the headquarters of the company, with the plant at Mt. Vernon, and it is proposed to place an automobile on the market the coming year equipped with the rotary automobile engine. Mr. Augustine is now in Columbus making arrangements for the opening of the local offices and the taking over of the Reeves engine plant will be done at once. The officers of the new company are well known here, as they at one time operated an engine factory in Columbus. It is claimed for the new engine that, in addition to its low cost of first installation, it also is far more economical of fuel and requires but little skill to operate, being practically automatic. The incorporators of the local company are Benjamin F. Augustine, John E. Cather and D. B. Grubb.

"Yes," said Mr. Benjamin F. Augustine in the Chamber of Commerce, when seen by a Courier representative yesterday upon his return from Columbus. "All plans are complete now and blue prints and patterns will be forwarded at once to Mt. Vernon and the manufacturing of steam rotary engines hurried along to catch up with orders on hand. In the present factory they will work about 100 men and within six months we expect this number will be increased to 1,000 or more. The demand for our rotary engine for factory and mill purposes is enormous, and while the Mt. Vernon factory is in 1912, with foundry and other buildings, I do not believe it will be able to keep up long with the demand without enlarging the plant or sub-letting contracts. It is too late to do it, but I have one other plant in Ohio, with five acres of land, turned over to manufacture my engine. Besides we get a cash bonus, a large block of the stock and a guaranteed output.

"Our business is moving along at a rapid rate. The new factory addition of three stories at No. 1262 Elmwood avenue is completed and machinery is being installed as fast as it can be cured and delivered. Quite a number of other subsidiary companies are in process of forming to take up the manufacture of rotary engines for headlights and train lighting, fans and blowers, pumping oil, automobiles, motor boats, irrigation, heating and refrigerating, all of which will add an immense volume of business for our company.

"The patents soon will be issued on the gas rotary and then I will show to the public the rotary that will create the sensation of the power age. It will have to be adopted wherever engines are used for power, and all engine companies will hurry to make arrangements to manufacture rotary engines for some special line, in preference to steam reciprocating and turbine types. I would like to have all Buffalonians visit our factory."

High School, will deliver an address entitled "Technical Education for Young Women." The public is cordially invited to be present.

CHINA DRAWS UP MAGNA CHARTA

SHANGHAI, China, Feb. 9.—(Can. Press.)—The draft of the proposed magna charta of the new Chinese republic has been completed by Dr. Wu Tingfang, the minister of justice in the republican cabinet, and now awaits the approval of the senate at Nanking. The document provides for a presidential term of five years, but the senate will probably make the first term only one year.

MY TREATMENT IS THE WONDER OF THE AGE

Not a Dollar Need to be Paid Until You Are Cured

WORN-OUT, NERVE-TIRED EXHAUSTED PERSONS

Do you feel tired in the morning and easily exhausted? Do you have difficulty in fixing your thoughts? Are you losing ambition? Do you feel that you are not like you once were. Do you have hot flashes up and down the spine or sudden faint spells, especially after eating? Have you palpitation of the heart? Dull headaches, pain at the base of the brain, sudden spells like light from no apparent cause? Are you very restless or sleepless at night? Are you nervous and irritable, with a feeling that you want to be alone? Are you gloomy, with the sense of some great oppression upon you? If so, then you need my treatment.

If you have any or all of the above symptoms, you surely do not desire to remain so. Let me explain to you my methods of rebuilding the strength of men, and refer you to the thousands I have cured.

Mr. SAMUEL J. HARNETT, North Gower, Ont., says: "I received a Belt from you some four years ago, and I wish to say that it was all it was represented to be, having cured me of indigestion and other ailments, and I now feel like a new man, giving all the credit to your Belt. Anyone giving it a good trial, I know, will feel as I do."

My Belt makes people noble. It causes the nerves to tingle with the joyous exhilaration of youth. It fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel. IT DOES NOT cure you by pouring electricity, which is Nature's energy, into your nerves and blood. Electricity is life to the weakened parts. It will make them strong.

FREE BOOK

Every man who admires the perfection of physical strength should read my beautifully illustrated book. It tells how strength is lost, and how I restore it with my Electric Belt. I will send this book, closely sealed, free, upon request. If you are not the man you should be, write to-day. I have a book for women also.

Put your name on this coupon and send it in.
DR. M. J. MOLAUCHLI, 237 Yonge Street, Toronto, Can.
Dear Sir,—Please forward me one of your Books, as advertised.

WHO IS POLLY PRIM?

festive board, where the remainder of the evening was spent in speeches from the various brothers.

The officers for the ensuing term are as follows: C. C. Bro. F. Plattner; T. C. Bro. H. H. Madill; preside, Bro. E. Dandy; M. of W., Bro. P. G. Thompson; M. of P., Bro. H. Crealock; M. of E., Bro. C. Deverall; K. of R. and B. Bro. C. N. Deverall; M. at A., Bro. F. Harris; I. G., Bro. A. Crealock; O. G., Bro. J. W. Sutherland.

I invite in particular all men who have become dissatisfied with treatment elsewhere. I will explain to you why you have not been cured, and will prove by actual benefit why I can cure you safely, quickly and for life, when others fail.

I ask all men who are afflicted, who really desire a cure, to honestly investigate my original and strictly modern, scientific method of treatment. A private consultation, a thorough personal examination, will cost you nothing, and a perfect cure (if you decide to engage my services) will not be more than you will be willing to pay for the benefits I will give you. I will do for you as I would want you to do by me if our cases were reversed.

CONSULTATION AND EXAMINATION FREE

Dr. WILLIAM P. MORTER, Box 87, Hawkesbury, Ont., says: "I am pleased to report a good account as regards my health. I am beginning to find myself stronger in every way. Certainly your Belt does its duty, and its work is sure."

DIG TEMPERANCE CONVENTION NEXT WEEK

Massey Hall Will Be Crowded With More Than 1000 Delegates From All Parts of the Dominion, and a Local Option Campaign Will Be Decided Upon.

Massey Hall will be the scene of one of the biggest temperance demonstrations ever held in Ontario when the National Temperance Congress and Ontario Provincial Convention opens its session on Tuesday next, February 15th.

The annual conventions of the Ontario branch of the Dominion Alliance have been developed into what has been termed a "Provincial Parliament." Every church and temperance society in Ontario is entitled to representation and delegates attend from all parts of the province representing different phases of temperance thought.

Special interest attaches to this year's convention on account of the Dominion features. A National Temperance Congress will be held at which delegates will be present from every province in the Dominion.

From British Columbia the energetic secretary of the Local Option League, Rev. Dr. Spencer, will be on hand. Rev. W. G. W. Fortune of Edmonton with some other stalwart workers from Alberta is coming. Representatives are also expected from Saskatchewan and Manitoba. From the east, George E. Full, one of the veteran leaders of Prince Edward Island, is upon the program, together with R. Grant, Dr. A. J. McDonald of Nova Scotia, and E. N. Stockford of New Brunswick.

Quebec Representatives. The Province of Quebec will be especially well represented, not only by the workers in the Quebec Branch of the Alliance, but in the French Catholic organization of the Anti-Alcoholic League. His Honor Chief Justice F. X. Lemieux and other leaders in the great movement in Quebec will also be on hand.

In addition to the delegates, many people from all parts of Ontario and also eastern provinces will no doubt take advantage of the special cheap arrangements having been made for which a single fare return has been obtained from all points in Canada east of Port Arthur on the convention plan.

The convention opens on Tuesday morning at 9 o'clock at which session the annual report of the executive will be presented. Rev. Dr. Spencer, Mr. Joseph Gibson of Ingersoll, will present his annual address.

Local Option Campaigns. Tuesday afternoon will be taken up with a workers' conference at which practical questions relating to the organization and conduct of local option and license reduction campaigns and law enforcement will be discussed.

On Tuesday evening the Dominion Congress will be opened by a public mass meeting. Mr. John H. Douglas of Montreal, proprietor of The Montreal Witness and Dominion president of the alliance will be the speaker. Addresses of welcome will be given by Mayor Geary of Toronto and Mr. Joseph Gibson, president of the Ontario Alliance. There will be replies by Secretary W. G. W. Fortune of Alberta, after which Mr. F. S. Spence, Canadian government representative to The Hague, will present a report of his trip. Special music will be furnished by the Alexander Choir, assisted by Douglas Stanbury, boy soprano.

HE NEVER SAW SUCH LIGHTING Cleveland Visitor Was Surprised When He Saw the Hygas Lamps at Night.

George Rettig, a "landscape architect" from Cleveland, spoke to the Canadian Club last night when 80 or 90 members enjoyed his photographs of his home city and parks and squares and streets in Berlin, Paris, Strasbourg, Stuttgart, Bremen, Mayence and Potsdam.

On Wednesday afternoon Dominion questions will be considered. There will be a roll call of provinces in which representatives from each province will report as to progress in their respective provinces.

On Thursday morning questions of Dominion-wide interest will be discussed, some of those taking part in the program being John H. Roberts, Montreal; E. N. Stockford, New Brunswick; C. B. Keenleyside, Saskatchewan; Dr. D. S. Spencer, British Columbia; H. R. Grant, Nova Scotia, and F. S. Spence, Toronto.

PILES Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once, and as certainly cure you. See a text; all dealers, or Edmond, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 3c. stamp to pay postage.

Give Moose Jaw a Chance To Make Money For You

The phenomenal growth of Moose Jaw from 1,558 in 1901 to 18,000 in 1912, and the rapid rise of real estate values in consequence thereof, has made many fortunes for shrewd investors.

THE RAILWAY HUB

Many more fortunes will be made in Moose Jaw, for it is destined to be one of the West's greatest cities. It is already the Railway Hub of Saskatchewan—a centre from which eleven lines of railway radiate.

All the Transcontinental Systems run into Moose Jaw. The C. P. R. has made it one of their Four Grand Divisional Points of the West. Winnipeg, Vancouver and Calgary are the other three cities so honored.

The C. P. R. have 30 miles of tracks in their freight yards at Moose Jaw. The value of their terminal plant is over \$3,000,000. Their payroll aggregates \$200,000 monthly.

LARGE MANUFACTURING CENTRE

Moose Jaw is the largest manufacturing centre of Saskatchewan. It is the home of big wholesale houses. And on account of its unsurpassed railway facilities and the vast territory depending upon it as a base of supplies, the future of Moose Jaw as a huge commercial city is assured.

Moose Jaw has grown to its present size with only one-twentieth of the available land of the Province of Saskatchewan under cultivation. Just imagine the size and importance of Moose

Jaw when even one-quarter of the territory is under cultivation. If you are a far-sighted man you will readily see the great possibilities of reaping large profits from shrewd real estate investments in Moose Jaw.

TWO GOOD OPPORTUNITIES

We can show you what we believe are two of the best real estate opportunities at present to be obtained in Moose Jaw.

One opportunity is in Lyabrook Heights. There are just a few lots to be secured in this desirable residential locality, which is pretty well built up now. Street cars will serve this section this year and property should naturally rise in value even more rapidly than ever. \$250 will buy a corner for you, or \$225 an inside lot.

LOTS \$125 AND \$150

Another opportunity that seems to us to be a particularly good buy is in Parkview, which adjoins Hillhurst, a subdivision in which the lots were eagerly sought for and bought up within a few days after they were offered for sale. Perhaps you tried for a Hillhurst lot and were disappointed in not being able to obtain one. Make up your mind you'll not let this Parkview chance slip by. The lots are sold on easy terms. Almost anyone can arrange to make the investment.

The present price for inside lots is \$125, and \$150 for corners. We advise immediate purchasing, as it is hardly likely that we will advertise these lots again.

McCUTCHEON BROS.

107 Eighth Avenue West, Calgary. 447 Main Street, Winnipeg
98 KING STREET WEST - - - TORONTO

Choice Block for Subdivision

Giving 3,400 feet frontage. Good location on a main thoroughfare, every foot high and dry, first-class selling proposition. Good chance for a syndicate or someone wanting 150 lots on which to retail on easy terms. I will bargain with the purchaser to sell twenty lots within one month from the date of purchase.

Colonies Strong For Home Rule

Necessary to Hold Empire Together, Says Daily News—Post is Bitter.

LONDON, Feb. 9.—(C. A. P.)—The Daily News, a constant ministerial supporter, says: "We cannot have more compact imperial fellowship until Ireland enters as an equal, which is the opinion of the dominions who all are overwhelmingly in favor of home rule. British and foreign policy should endeavor to bring this country and the English-speaking republic across the Atlantic into the most intimate friendship, which can be as long as the Irish suffer under a sense of bitter grievance." The Morning Post says everything is to be sacrificed in the hope of placating Patrick Ford and other Fenians who have long been the violent enemies of the British Empire.

NATIONAL RELIGION FOR JAPAN

VICTORIA, B. C., Feb. 9.—(Can. Press.)—The Japanese home minister has called a conference of the representatives of Christian, Buddhist, and Shinto religions to discuss a national religion for Japan, according to advisers brought by the steamer Canada Maru. Official recognition is now given to Shintoin, a cult for the worship of ancestors. Mr. Tokomami, vice-minister, said the primary aim of the conference was to bring the religions into closer relationship with the state, and to raise a God-fearing sentiment and a cult of national morality among the people.

HAWKES TROUNCED IMPOSTOR

LIVERPOOL, Feb. 9.—(C. A. P.)—Just before sailing to-day Immigration Commissioner Arthur Hawkes caught a small western city's employment agent requesting applicants to purchase the hundred dollar town lots two miles from the city's centre. Mr. Hawkes trowned the culprit. He also repudiated newspaper misgivings immigration with real estate propositions.

NIAGARA'S COMING SHAM BATTLE

NIAGARA FALLS, Ont., Feb. 9.—(Special.)—At a meeting of militia officers here to-night, preliminary plans for the big sham-battle to be held at Niagara district shortly, were mapped out. The fifth and thirtieth brigades will participate in the plan. Officers will meet in St. Catharines on Friday to further plans.

Montreal College Quarantined

MONTREAL, Feb. 9.—Notre Dame des Neiges College has been ordered quarantined by the health authorities for the fifth time in the outbreak of scarlet fever in the place. The medical health office is annoyed because

FARM FOR SALE BY AUCTION

On the premises, lot 6, Can. S. Vaughan, on Tuesday, Feb. 12th, one hundred acres, brick dwelling and good out-buildings and well underdrained, one and one-half miles from Woodbridge, and convenient to schools, good for dairy purposes. Ten per cent. down, balance in 30 days.

WALMER HILL

Near 85 Clair Avenue and Avenue Road. \$25 per foot up and upwards.

R. B. HALEY & CO.

FARMS FOR SALE.

VALUABLE fruit farm for sale at Grimsby, on main road; forty-five acres, twenty-five acres in fruit; brick house, bank barn, implement shed, poultry house, packing house, good water, electric road, adding opposite. This must be sold; personal reasons. A bargain. Terms arranged. James & Manning, 23 Scott Street, Toronto.

VALUABLE farm property for sale—59 acres, rich clay loam, in a high state of cultivation; three acres bush; orchard; beautiful view; good wire and rail fences; ten-roomed stone house, furnace, distern and woodshed; two barns, 70 ft. x 40 ft. and 60 ft. x 20 ft., with basement to both; large carriage house; two good wells, with iron pumps; one mile from village, with postoffice, school, churches and telephone. For particulars and price, apply to Mrs. Donald McLean, Box 53 Jarratt, Ont.

THE fat man's farm—47 per acre; \$100 cash, balance easy, for 100 acres, with good frame house, stone cellar; well-built barn, with comfortable stabling under; there is another building that could be moved to make a pigsty and henery. There are about 25 acres of mixed wood on the property; water is supplied by a good well to each acre. The property is only 30 miles from Toronto and within two miles of C.P.R. station and 60 ft. x 20 ft. with basement to both. The owner weighs about 200 pounds, and this farm has got a little too heavy to follow a team. Full information and if you wish to see our new list of about 100 farms, Philip & Beaton, Whitelaw, Ont.

W. A. Lawson's List.

FARMS for sale by W. A. Lawson, Ontario's Farm-Selling Specialist, 102 Church Street, Toronto.

WE are offering some very choice lots ranging from five to thirty acres at a price that is interesting to the investor. These are situated in the district where hundreds of acres have been sold at more money per acre than this land is quoted. Secure five acres now at the price that will be advanced very shortly.

6 ACRES—2 1/2 miles from Toronto, on choice clay loam, all under cultivation, 20 waste land, beautifully situated, near village, and on the good roads; this will make you a choice home or splendid investment. Four hundred per acre.

15 ACRES—2 1/2 miles from Toronto, close to post office, school and church; just a short block off the Danforth, splendid house, hot air heating, nicely shaded, acre and half of fruit bearing, large barn and other outbuildings, all in first-class repair. Ten thousand.

5 ACRES—3 miles from Toronto, this is a corner lot with large street frontage, acre and half of fruit bearing, large barn and other outbuildings, all in first-class repair. Ten thousand.

4 1/2 ACRES—3 miles from Toronto, on the good roads, corner lot, has 50 feet of frontage; adjoins property that has sold for higher in large blocks. Two thousand.

10 ACRES—1/4 miles from Toronto, on the good roads, close to postoffice and school, electric, well situated, no waste land; this is offered to close out the block. Twenty-seven hundred.

50 ACRES—3 miles from Toronto, mile from village and postoffice, choice clay loam, high state of cultivation, one of the clearest farms in York County, large brick house, in first-class repair, excellent cellar, good water, well fenced, acre and half of fruit bearing, large barn and other outbuildings, all in first-class repair. Eleven thousand.

80 ACRES—Just 1/4 miles from city, on good roads; this farm is very suitable for subdivision. It is beautifully situated on high elevation overlooking surrounding country and offers an attractive investment. Five hundred per acre.

100 ACRES—5 miles from Toronto, five minutes walk from radial on Yonge Street, John's village, rich clay loam, all under cultivation, watered by running stream and good wells; two acres of orchard, eight-roomed house, large bank barn, drive house and implement shed; early possession. Eleven thousand.

THE above for sale by W. A. Lawson, 102 Church Street, Toronto.

(t) To amend section 114, Edw. VII. (1905), so that the whole cost thereof shall be borne by the owners of the lands benefited.

(u) To amend section 114, Edw. VII. (1905), so that the whole cost thereof shall be borne by the owners of the lands benefited.

(v) To amend section 114, Edw. VII. (1905), so that the whole cost thereof shall be borne by the owners of the lands benefited.

THE POWER THAT DRIVES THE HUMAN FACTORY. Dr. Williams' Pink Pills Help the Blood and Make You Well.

Dead Men. The man lacking in the vital power nature gave him, debarr'd by weakness form functional enjoyment of his most important functions, merely a burlesque upon strong, robust, manhood, is, in a sense, A Dead Man.

Strandgard's Medical Institute. Medical Director, Dr. G. M. Shaw. 128 Yonge Street. Above Mr. Alvie Bolland. Hours: 10 a.m. to 8.30 p.m. Consultation Free. Phone No. 1830.

NEW THEORY AS TO SHIFTING STARS AND GLACIERS. Another suggested cause of glacial periods is that they have been due to shifting of the Milky Way, such as is known to have occurred.

Porcupine Stocks Advance Sharply—Silver at 60 Cents an Oz.

Pronounced Turn for Better In Trend of Mining Markets

Heightened Demand for Porcupine Stocks Lifts List out of Apathy—Hollinger the Only Weak Spot.

World Office, Friday Evening, Feb. 9.

A sharp turn for the better in the Porcupine stocks, brought about by the heightening of market demand, lifted the mining market out of its apathy today and carried prices for the majority of the gold mining issues up in short order. Trading was on a much more active scale, and taken altogether, the list showed a brighter undertone than in a long time.

It was current gossip on "the street" during the time of the market stress that much of the buying call in evidence represented the endeavor of short traders to recover on their commitments. Undoubtedly a weighty short interest has been established during the decline, and as usual, any attempt to cover results in turning the market into the upward path.

Traders who have been dealers in the Porcupine since the inception of trading in such issues reported today that they were in receipt of good orders from the public, and it was repeatedly stated that the market was being in better form than in many weeks. This was accounted for by the being in some quarters that the worst was over and that a more sustained advance was to be expected in the future.

Control in Cheaper Issues.

It was in Dome Extension that the movement found its centre, and the sharp uptick in these shares bore conclusive evidence to the fact that the public were not inclined to sell much stock at present current quotations. The price soared in short order to 43, a net advance for the day of nearly seven cents, and while profit-taking wiped out part of the gain, the closing figures were well above last night.

The movement in Dome Extension found its counterpart in the Vipond, which was up to 43 1/2, and closed bid at 44 1/2 five points up from yesterday. Other strong spots were Crown Charter, which touched 37, and the closing bid was 37 1/2. Porcupine Southern crossed par.

Northern Ontario Exploration was the feature of the big issues, with an advance of 60 points to 34, and closed bid at 34. Hollinger, singularly enough, was the only weak spot in the list, showing a decline of 30 points to 51 1/2, under what was accepted as forced realizing.

Cobalt was quiet and in the main comparatively unchanged. McKinley-Darragh gained a couple of points at the close, while the Beaver showed a firmer tone, but other than these there was nothing of interest in the trading.

Hollinger to Be Listed on Exchange

An interesting point in connection with the Hollinger annual report recently issued, and which seems to have generally escaped notice by the public, is the fact that the president says "arrangements have been made to have the stock listed on the Montreal and Toronto Stock Exchanges, and to open a transfer office in Montreal." It is also the intention of the directors to keep the shareholders informed from time to time of the progress of the development and development work. This will prevent the shareholders from being misled by any unauthorized statements which may be circulated.

LEWISOONS STILL HOLD CONTROL OF KERR LAKE.

Denial is made by the Lewisoons interests of the reported transfer of control of the Kerr Lake Mining Co. to the Mines Finance Co., S. S. Robertson, a director in both the Kerr Lake and the General Development Co., concerning the report in entirely without foundation either in fact or probability.

GOOD OUTLOOK FOR REDDICK.

Mr. W. M. Ogilvie's report upon the Reddick Mine is encouraging. In part he says:

"At the present time, the mill is in fairly good running order, and with some more drifting being done, stoppage could be commenced, and the output handled on a profitable basis."

"In the present state of affairs, it is not possible to say that you have what is undoubtedly a valuable mining property, and I would highly recommend it as one on which to expend sufficient money in place to a profitable working basis."

Standard Oil Melon Worth \$141 a Share

CHICAGO, Feb. 9.—The increase of \$25,000,000 in the capital stock of the Standard Oil Co. of Indiana, which will be voted on at the annual meeting, on March 5, will be paid to present stockholders as a stock dividend, each holder of one share getting twenty-nine shares of new stock.

Whether stockholders will be asked to pay for the stock, and a cash dividend of that amount be given them, cannot yet be learned. But no matter how the distribution is made, present stockholders will get the new stock as a net dividend, costing them nothing.

As the present market price of the Standard Oil Indiana stock at around \$4200 a share, the thirty shares will have after the distribution a given a market value of about \$141 a share.

British Commerce Shows Big Increase

LONDON, Feb. 9.—The monthly report of the British Board of Trade shows an increase of £4,308,000 in imports and a gain of £2,638,000 in exports. Imports of foodstuffs, raw material and manufactured goods increased £7,000,000, but cotton decreased £3,000,000. The principal increase in exports was in manufactured goods, which rose £1,000,000.

The subjoined table shows the trade of Great Britain in January this year and last year:

Imports	£47,002,000	£45,804,771
Exports	£40,416,000	£37,730,831

Excess of imports £6,586,000 £2,963,940

London Stock Market Shows Big Decline

The Bankers' Magazine of London, England, in its usual review of financial conditions says: "Business in public securities during the past month has been comparatively slack in the main departments, interest, in fact, having chiefly centred in some of the miscellaneous speculative, descriptions, where some considerable gains have occurred. In consequence, however, of the fairly substantial decline which has occurred in a few leading sections our list of representative stocks shows a decline of about eight millions, the exact figures being as follows:

Aggregate value of 287 representative securities on Dec. 19, 1911, £15,514,462,000
Aggregate value of 287 representative securities on Jan. 20, 1912, £6,903,969,000

C.P.R. Leads Decline in London Market

LONDON, Feb. 9.—The stock market was quietly firm during the forenoon today. Grand Trunk shares were strong on the dividend announcement, and copper stocks advanced on bullish American statistics, but home rails dropped irregular. The whole market dropped in the afternoon on profit-taking.

American securities opened steady and a fraction higher, but the market soon eased off in sympathy with the weakness in Canadian stock, which was due to continental selling. Later Canadian Pacific recovered, but the rest of the list moved narrowly, and the closing was undecided.

INTERESTING READING.

Two chapters in this year's Canadian Almanac (Copp, Clark Co. Ltd.), are devoted to Great Britain's army and navy. Viscount Haldane's defence of the "Terriers" and his remarks on the navy make interesting reading.

Special Service in St. James' Square.

On Sunday evening, in St. James' Square Presbyterian Church, the usual monthly lecture and musical service will be given. The subject of the address by the minister, Rev. Andrew Robertson, D.D., will be Dante's "New Life." Dr. Day's will play selections from the Wolf-Ferrari, "The New Life," which was so impressively sung by the Mendelssohn choir last week. Excerpts from Brahms' "German Requiem" will be sung by the gowned choir. Mr. Caldwell will sing "Holy City" and Miss Himeley, "I Know That My Redeemer Liveth" from Handel's "Messiah."

The Sting of Corns Relieved In A Night

Never sit your boots—that doesn't cure them. Just apply that old stand-by, Putnam's Painless Corn and Wart Extractor. It acts like magic, kills the pain, removes the corn, does it without burn or scar. Get the best—Putnam's Painless Corn and Wart Extractor. The sure relief for callouses, bunions, warts and corns. Price 25c. As substitutes are dangerous, insist on getting "Putnam's" only.

Watch the Movements

The big decline in mining stocks has cleared the market of most of the pure speculators. The stocks are now held by those who have paid outright for them, and regard their purchases more as investments. Another speculative wave will carry prices higher, and we regard many of the listed issues capable of showing great profits to present buyers.

WANT AGRICULTURAL REP.

Deputation From Welland County Make Requests From Government.

With the object of securing the appointment of an agricultural representative for the County of Welland, a deputation waited on the Hon. James Duff, Minister of Agriculture, which consisted of Major Sharp, J. E. Fraser, M.L.A., of Welland, and the Hon. Dr. Reame, Minister of Public Works, with regard to securing certain water lots on Burlington Bay in the City of Hamilton for industrial purposes. The building of a public wharf on the waterfront to certain railway ways which have not yet got access to the bay can now ship their merchandise to the wharf. The city's proposal is opposed by the Grand Trunk Railway. Every consideration will be given to the matter by the government.

ASK FOR WATER LOTS

City of Hamilton Wants Concessions From the Government.

Mayor Lees, Controller Bailey, ex-City Engineer McGeehan and several other representatives of the City of Hamilton composed a deputation which waited on the Hon. W. H. Hearst yesterday with regard to securing certain water lots on Burlington Bay in the City of Hamilton for industrial purposes. The building of a public wharf on the waterfront to certain railway ways which have not yet got access to the bay can now ship their merchandise to the wharf. The city's proposal is opposed by the Grand Trunk Railway. Every consideration will be given to the matter by the government.

\$3.50 RECIPE FREE FOR WEAK MEN

Send Name and Address To-day—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excess, unnatural diet, or the failure of youth, that has cured so many weak and nervous men in their own homes—without any medicinal help or medicine—that I think every man who wishes to regain his strength, health and vigor, should at once, quietly, send me a copy. So I have determined to send a copy of the prescription free of charge in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of man, and is the result of the surest combination for the cure of deficient manhood and vigor failure ever known.

I think I owe it to my fellow men to send them a copy in confidence, so that they may be cured of their weakness, and I will send you a copy of this splendid recipe in a plain, ordinary sealed envelope, to any man who will write me for it.

SEWAGE DISPOSAL PLANT

Hamilton Wants Government to Pay Part of the Cost.

Headed by Mayor Lees and Controller Bailey, a deputation of officials of the City of Hamilton waited on the provincial secretary yesterday to ask the government to contribute a certain part of the cost of a sewage disposal plant.

The government has made an order to the effect that sewage has to be treated, and while there are already two sewage disposal plants in the city, the most advanced of them is the best for the west end sewer. One has now to be built, and since the sewer from the west end enters the city sewer system, the municipality thinks the government should bear part of the expense of building and maintaining the disposal plant.

ST. CATHARINES, Feb. 10.—(Special.)—A full page in the Art Section of the Toronto Sunday World is this week devoted to views of St. Catharines. Many hundred portraits appear in a number of columns showing the children of the Court-st. School, the children of the St. Nicholas School, and the boys and girls of the Central School.

Wall Street in Torpid Condition And Stock Market Barely Moves

NEW YORK, Feb. 9.—The stocks newly designated as the leaders of the market, which are the mediums, the bulk of speculative transactions, were retired to the background to-day. Most of them barely moved. The Hill stocks and St. Paul were the only prominent issues which broke away from the dead level of the market. These shares were strong, but changes otherwise were insignificant, except among the inactive stocks. Some of the specialties moved widely, although fluctuations were mixed, and were in response to no general tendency. The bear faction which for several days had been attempting to control the market seemed to have become convinced for the time at least, that little impression could be made on the list. The undertone was perceptibly firmer. Trading was light, and during the afternoon there was only the semblance of a market. During one hour only 15,000 shares were traded in.

Southern Rails Strong. Aside from the Hill issues and St. Paul, the strongest railroad stocks were in the southern group. For several days Southern Railway preferred had been strong on the expectation that the dividend would be increased to a 4 per cent. rate. The stock made a further advance of nearly a point at the opening, and improved only slightly on the announcement that the rate had been increased. Atlantic Coast Line and Louisville & Nashville were strong. Canadian Pacific sold off 2 points, owing to reports to pressure from abroad, but later recovered half of its loss. The tobacco stocks fluctuated widely. American Tobacco preferred fell 3 points and Lorillard 5. The Telegraph stocks were conspicuously strong. The heavy copper stocks reported in yesterday's monthly statement imparted a decidedly firmer tone to the copper metal markets, both here and abroad. An improvement in railroad earnings was indicated by latest figures of gross returns. The receipts of 25 railroads for the fourth week of January showed an increase of 13 per cent. compared with a decrease of 4 per cent. in the preceding week.

ON WALL STREET. Erickson Perkins & Co. had the following: Stocks were bid up a little on the increase in the Southern preferred dividend, but traders used this to sell on and the undertone was very shaky in the last half hour they offered down Reading and Steel. The market was very narrow all day. Some appeared desirous of being out of the market, in view of the coming holiday on Monday. But no long stock to speak of went out, and the undertone was very shaky. The local banks will show another decrease in surplus, but the money situation is not a factor at the moment. Charles Head & Co. to J. E. Osborne: A dull and featureless market marked the opening dealings. Fractional changes were small and the tendency was heavy. After selling off the market strengthened and gained 3/4 to 1 point in the afternoon. The Money Trust investigation continues to worry the 'street,' and it is said to be reasonable more than any other factor for the prevailing inaction of the leading financiers. The bank statement to-morrow is expected to make a poor showing with increased cash and reserve due to gold exports, but money continues abundant and cheap. Closing was heavy and net changes for the day small.

INCREASED DIVIDEND ON G. T. R. PREFERRED. LONDON, Feb. 9.—At a meeting of the directors of the Grand Trunk a dividend of 1 1/2 per cent. was declared on the third preference 4 per cent. stock. This is an increase of 1 per cent. over the previous yearly dividend, which was paid on May 5 last. Dividends on the G.T.R. third preference shares have been paid as follows: 1907, 1 per cent.; 1908, 1 1/2; 1909, 2; 1910, 3; 1911, 1 1/2.

January Dividends Should be Invested in Our GUARANTEED MORTGAGES Netting 5% Per Annum THE TRUSTS AND GUARANTEE COMPANY LIMITED 45 King Street West - Toronto

Advance in Mackay Shrouded in Mystery

The rise in Mackay common to around \$2 in the Toronto market yesterday aroused a good deal of comment on the 'street,' and was shrouded in mystery as to keep every body guessing as to its true import. The major part of the increase was done by a local brokerage house which has specialized in the Mackays for some years, but just when the movement was founded, it was hard to find out. The annual meeting is called for the 15th inst., and there seems to be little, if any, expectation of an increase in profits. However, there is no saying what the management may see fit to do, and as the company strictly adheres to its policy of letting the public know practically nothing at all of its internal workings, 'the street' had better prepare itself for almost anything.

World Office, Friday Evening, Feb. 9. Speculative interest in the Toronto Stock Exchange to-day was confined almost entirely to certain of the specialties, which have been more or less in the limelight of late. Mackay common and the Russell Motor stocks were the only issues to undergo any material change, the remainder of the list doing little more than holding its own under an extremely apathetic movement.

European Bourses. PARIS, Feb. 9.—The bourse opened firm but closed irregularly to-day. BERLIN, Feb. 9.—Trading was dull on the bourse to-day. Canadian Pacific closed lower.

INDEPENDENTS REDUCE VARIOUS STEEL PRICES. PITTSBURGH, Feb. 9.—Reports that prices on steel bars, plates and structural shapes, which have been reduced to 110 per cent. on a basis of \$1.85 per 100 lbs., are confirmed by the local steel men. This price, however, is subject to case of certain smaller independents.

U. S. STEEL REPORT SHOULD BE FAVORABLE. The United States Steel Corporation's report of unfilled tonnage for the month ending Jan. 31 last, showed a net public-to-day (Saturday). It is likely to show an increase for the month of about 500,000 tons, or a total of unfilled bookings amounting to over 5,000,000 tons, which would be the largest reported by the corporation since December, 1909, when the orders of the books aggregated 5,927,001 tons. At the beginning of the present year the corporation's unfilled tonnage was 5,084,761 tons.

Cotton Markets. Erickson Perkins & Co. (J. G. Beatty), 14 West King Street, report the following on the New York Cotton Market: Open-High-Low-Close. March 10.30 10.31 10.30 10.29; April 10.15 10.16 10.15 10.14; May 10.00 10.01 10.00 9.99; June 9.85 9.86 9.85 9.84; July 9.70 9.71 9.70 9.69; Oct. 9.55 9.56 9.55 9.54.

STAMPEDE IN COTTON ANOTHER SHARP ADVANCE. Erickson Perkins & Co. (J. G. Beatty) wired: There was of unusual proportion today. Shorts were literally stamped, and prices rushed up another dollar before the buying movement subsided. The first incentive to buy came from Liverpool, where prices were strong and spot sales large. During the morning session New Orleans advanced rapidly, which further encouraged speculation for a rise. As is usually the case, we think that in this instance the advance has over-discounted the situation, and we look for a decrease in the spot demand and heavier offerings. Under the circumstances we advise liquidation contracts in advance.

MONEY MARKETS. Bank of England discount rate, 3 1/2 per cent. Open market rate, 3 1/2 per cent. for short bills, 3 1/2 per cent. for New York call money, highest 3 1/2 per cent. lowest 3 1/2 per cent. Call money at Toronto, 5 1/2 per cent.

FOREIGN EXCHANGE. Glasgow & Crown, James Building (Tel. Main 781), to-day report exchange rates as follows: Between Banks. N. Y. funds, 1-32 pm, 1-32 pm; Montreal funds, par. par. 1/4 to 1/2; Ster., demand, 91-16 91-16 10-16; Cable transfer, 91-16 91-16 10-16.

Early Advance in Wheat Market Wiped Out in Late Dealings

Quotations Closed Comparatively Unchanged for the Day—Argentine News Affects Sentiment—Corn and Oats Firmer.

CHICAGO, Feb. 9.—For a while today the wheat market showed decided strength on account of reports that, despite official announcement to the contrary, the Argentine strike had not been settled. Front-taking, however, gradually wore off the effect and left prices in the end not over a shade higher than last night's figures.

There was but little outside support for wheat, a fact which at the advance tended to induce good selling on the part of commission houses in general. Besides, cash demand remained slow and the flour trade quiet. In addition, primary receipts were slow, and especially so north-west, Minneapolis gaining a substantial amount for the week. Another fact that counted against the bulls was the absence of evidence that any real damage had been done to the winter crop.

Heavy Exports to Europe. On the other hand, exports of wheat and flour from the United States to Europe reached a total nearly as great as from all other quarters put together. The strength of coarse grains formed, too, a material influence adverse to the bears. Front-taking by longs, tho' had sufficient headway to nullify completely the early advance, followed the opening and the close, may ranged from \$1.03 5/8 to \$1.04 1/8, with latest trading shade net higher at \$1.03 1/2 to \$1.03 5/8.

Corn and Oats Strong. Zero weather leading to extra feedings of farm animals helped to bring about active buying of corn. Futures were mostly regular continued to indicate unusual scarcity of cars and moderate power. The late weakness in wheat caused some reaction, but there was a steady feeding at the close. May fluctuated from 68 5/8 to 69 1/8, and finished net higher at 69 5/8. Cash grades were firm.

In the oats crowd, corn strength and the buying for prominent bulls sent the market upward, but the movement of prices was reversed when horns turned sellers on the bulge. Outside limits touched for May were 52 1/2 and 53 1/2, with the close at the first named level, a gain of 1 1/2 net. Provisions eased off a little on local selling. Shipments of hogs, 15,770, the largest for any day since June, 1906. Pork was up to 7 1/2-2c down and other products 2 1/2-3c cheaper at the close.

Northwest Receipts. Receipts of wheat in cars at primary centers were as follows: To-day, week Year Chicago 20 15 36 Duluth 11 13 57 Minneapolis 20 20 103 Winnipeg 276 477 78

European Markets. Liverpool wheat closed 1/2 to 3/4 higher, and corn 1/4 higher. Paris wheat, 1/2 to 3/4 lower. Antwerp wheat, 1/2 to 3/4 lower, and Buda Pest 5/8 lower. Buenos Aires wheat was 3/4 to 1/2 higher.

CHICAGO GOSSIP

Wheat Market Shows Variable Tone—Cash Demand Falls Off. J. P. Bickell & Co. from Logan and Bryan at the close.

Wheat—After a day of fairly good activity wheat prices closed practically the same as yesterday. Local trade seemed to get over bullish on the advance and followed the tactics of previous days in selling out on a declining market later in the season. Market seems to need constant bull news to keep up activity on buying side and yet there is an absence of aggressive bear operations even on the weak spots.

Chicago Markets. J. P. Bickell & Co., Lawler Building, report the following fluctuations on the Chicago Board of Trade: Open High Low Close.

Wheat—100% 104 1/2 103 1/2 103 1/2 May 97 97 97 97 Sept 96 96 96 96 Corn—88 1/2 88 1/2 88 1/2 88 1/2 July 88 1/2 88 1/2 88 1/2 88 1/2

Montreal Produce. MONTREAL, Feb. 9.—The trade in butter is fairly active, but prices are good. Provisions steady.

Winnipeg Grain Market. WINNIPEG, Feb. 9.—On the wheat market to-day trade in options was anything but good, although prices opened at an advance on all months. The cause of the stronger prices was rumors of renewals of the strike in the Argentine and forecasts of higher world's shipments.

Minneapolis Grain Market. MINNEAPOLIS, Feb. 9.—Close—Wheat—May, 110 1/2; July, 107 1/2; No. 1 hard, 108 1/2; No. 1 northern, 107 1/2; No. 2 do., 106 1/2; No. 3 yellow, 66c to 67c; No. 3 white, 49 1/2 to 50c; Rye—No. 2, 82c.

World's Estimates. Broomhall cables, 4,225,000 bushels, against 4,225,000 last week. Of this Europe will take about 2,200,000 bushels, against 488,000 last week, and 285,000 last year. Broomhall estimates shipments next week 2,200,000 bushels.

Red Willow Coal Company Limited

Capital, \$1,000,000, divided into 400,000 shares 7 per cent. Preferred Stock, and 600,000 shares of Common Stock, Par Value \$1.00 each, fully paid and non-assessable.

DIRECTORS: PRESIDENT—William D. Wilson, Toronto (Vice-President and Managing Director—Wilson Lytle, Badgerow Company, Limited). VICE-PRESIDENT—J. M. Walton, Aurora, Banker.

The property of the Red Willow Coal Company comprises 2,720 acres in Red Willow, Alberta. We have been offering at par the 7 Per Cent. Preferred Shares (Par Value \$1.00) which have been carrying with them a bonus of 50 per cent. of Common Shares.

Of the merits of the enterprise there is absolutely no question. The location of the 2,720 acres of land which the Company has purchased could not be better. It is in the heart of the finest section of Alberta, about sixteen miles northeast of Stettler, on the Canadian Northern, Edmonton to Calgary Branch.

A very important avenue of profit will be the sale of lots in the Town of Glen Hayes (\$25,000 worth of which has already been disposed of), which has been conservatively estimated to yield the Company a net profit of at least \$150,000. Glen Hayes is destined to become a very important center. Within a radius of six miles, over 1,000,000 bushels of grain were shipped last year.

The stock is now selling very rapidly, and as this is an investment of an exceptionally meritorious nature you cannot afford not to investigate. WRITE US AT ONCE FOR ILLUSTRATED BOOKLET giving full particulars of the Red Willow Coal Company, Limited, which will be mailed to you without any obligation or expense on your part.

LOCAL FRUIT MARKET. Apples, per bbl. Greenings, \$2.50 to \$3.00; do. do. Baldwin, 2.50 to 3.25; do. do. Spies, 2.50 to 3.75; do. do. Russets, 2.50 to 3.00.

THE CANADIAN BANK OF COMMERCE. DIVIDEND NOTICE. Notice is hereby given that a quarterly dividend of 2 1/2 per cent. upon the capital stock of this institution has been declared for the three months ending the 31st day of January, 1912.
