COACH CRASHES SCORE ARE

Serious Wreck Near Guelph Due to Broken Flange—Action Man is Badly Hurt—Hockey Players Laid Out.

GUELPH, Jan. 14.—(Special).—Over 20 of the 30 passengers in the last coach of the Grand Trunk southbound train leaving here at 10.30 this morning were injured in a wreck that occurred about two miles from Guelph Junction at 11 o'clock.

The cause of the wreck was, it was understood, due to the steel flange, or tire, of the rear truck breaking off and allowing the car to leave the rails. The car rode along a short distance on the ties, then tipped and, balancing rolled into the ditch, sliding a considerable distance.

The instant the hose of the air brake was disconnected, the train started automatically, bringing the train to a sudden stop. There were only two cars on the train besides the baggage car, a first-class and a smoker. It was the first-class car that is now smashed to pieces at the bottom of the gully. The engine and coal-catcher coach did not leave the track.

Rescue of the confined passengers was at once started, all the uninjured lending a helping hand. In the meantime the engine was uncoupled and the engineer proceeded to run to Hespeler alone, leaving the fireman to flag and the rest of the crew to help in the rescue work. Three doctors were brought from Hespeler, and aided Dr. Peters of Hamilton, who was on board the wrecked car was used as a stretcher and on this the most severely injured were placed and taken to the hospital. As soon as all were on board a start was made for Guelph, which was reached about 12.30, and some of the injured were at once taken to the hospital.

Those Who Were Hurt. Among the injured were the prominent citizens of Guelph, the Hamilton professional hockey team, returning home after their game here the night before and many Hamilton and Acton people.

George Gillis of Acton, an elderly man, is in St. Joseph's Hospital in a very dangerous condition. He is suffering from a severe fracture of the leg, and is expected to remain in the hospital for some time.

FOR THE MURDER OF HIS BROTHER

Joseph Ryan Now on Trial at North Bay—Another Brother Swears to an Alibi.

NORTH BAY, Jan. 14.—(Special).—The preliminary trial of Maurice Ryan, charged with highway robbery, and with the murder of his brother, began this afternoon before Magistrate Weagar. The town hall was filled to the doors.

The highway robbery charge resulted in a committal. Joseph Goulet, of Waverley, Mass., swore that while returning from a trip to Winnipeg he stopped off at North Bay to meet some friends, but got acquainted with Ryan, who proposed driving out a short way in the country and having a good time.

Two witnesses testified to seeing a buggy driven rapidly from the scene and finding Goulet unconscious. The murder charge was then proceeded with, Ryan's lawyer entering no plea.

JAB FOR COUNTY COUNCIL FROM THE GRAND JURY

Should Provide House of Refuge

—W. J. Grant Retires From Board of Education.

HAMILTON, Jan. 14.—(Special.)—The grand jury this afternoon pointed out that Wentworth was the only county that had not made provision for a refuge for its poor, the two hamlets being requested for the attention of the council. It recommended that every possible means be taken to force the council to do its duty in providing a house of refuge.

The law will be argued Friday morning with regard to the suit brought by E. J. Guest against Col. Stoney, for slander, in connection with the ballot box incident.

After serving 30 years W. J. WHAT WILL THE MAYOR AND COUNCIL DO?

The World desires to impress upon the mayor and controllers of the city council the necessity of taking definite action in regard to the issue now pending between the city and the street railway company.

It is, therefore, the duty of the mayor and the council to find out what it is they want; what they will ask the legislature to give them; and what steps they ought to take to secure such a remedy.

The World doesn't take much stock in the proposal of the mayor that a friendly conference be had with the company, because there is no way of compelling the company to carry out what it might promise in a friendly conference.

The council can ask the legislature for several things, and first and foremost The World believes that the council should ask that power be given to the city to buy stock in the company on the open market, or by negotiation for the whole of it with the company, or any portion of it.

Further, with the right to purchase this stock should go the right of the city to have a director on the board of the railway, who would in this way have knowledge of all contracts made by the railway and the facts connected with it.

It may be the Toronto Electric Light Co., and it is said by Mr. Mackenzie that he has bought the Toronto radiators. If this is so the city ought to be represented on the board, and know about these transactions.

But the World urges above anything else that the city be given the right to expropriate by arbitration the street railway forthwith, or at any time before the expiry of the franchise.

Owing to the configuration of the channel by far the larger volume of water sweeps towards the Canadian shore. Admittedly on the United States side there is a danger that any further withdrawal from that part of the river will impair the amenity of the smaller fall, but it is contrarily on the Canadian side.

It looks, in fact, as if the federal government is allowing itself to be rushed into a treaty not only of great importance in itself, but really momentous in its possible consequences.

Mr. Gibbons seems to have been extraordinarily impressed by the determination of the United States to preserve Niagara. It is quite right that they should be and so far as their particular fall is concerned they can easily protect themselves.

These latter considerations direct attention to the conflicting interests of the Dominion and the United States in the matter of Niagara power.

The antagonism is not only directly in power generation, but indirectly thru the present dependence of Ontario on United States coal.

Ontario ought to and must be left free to deal with every alteration in circumstances as it arises and only the strongest of national reasons should induce any limitation of that freedom by the acts of the federal government.

NEARLY HALF-MILLION ROLLED INTO LAW COFFERS

Three flotations drew good support from a speculating public—Further Evidence in Sessions.

Some large amounts of money were realized in the flotations by Frank Law & Co. miners, according to figures submitted in the sessions court yesterday by E. B. Stockdale, assistant manager for the Trusts and Guaranties, which held their stock pools and received the money.

The receipts from the sale of the Silver Bird stock amounted to \$73,700.55; from the Blue Bell, \$173,915 was taken from the treasury stock and \$103,633.75 from the Ontario Education Department, and from the Lucky Boys, \$56,738.15 was gathered in.

In resuming the case yesterday morning Dr. Drayton read the evidence given at the previous hearing by J. G. McGee, who was known as the consulting engineer for the Blue Bell, after after concluding that in a number of exhibits, being advertisements of mines promoted by the Trusts and Guaranties, was to the effect that he had traced gold veins across "a property" and the ore was reported to him to assay \$780 to the ton.

Assistant Mining Recorder A. J. Browning for Larder Lake district produced records in which it was shown that the Trusts and Guaranties, he pointed out, had from time to time extended the period in which to do the necessary work required by the mines act to all prospectors in Larder Lake district and therefore, Law & Co. were not defaulters in this respect.

When asked to cross-examine as to his knowledge of the mineral wealth of Larder Lake district, Mr. McGee said that he had not seen any work done on the property other than surveying until they got their proper footing.

"How long were you on the property," said Mr. Blackstock. "From 8.30 a.m. to 2.30 p.m.," "How long is the property?" "Thirty claims," noted Mr. Blackstock.

TRUSTEE BOLAND WANTS TIME TO CONSIDER IT—THE JARVIS STREET EPISODE

Trustee Boland, separate school representative, who usually does not stand on the board of education meetings, regarding the teaching of religion in the city high schools, warmed up a little in the management committee yesterday, when the subject of daily Bible reading was introduced.

Justice MacLaren and Dr. Price of the International Bible Association, with J. A. Jackson of the Ontario Sunday School Association, submitted a program of daily Bible readings, as part of the Ontario Education Department, and requested that it be used, the expense to be borne by the department.

The proposal was adopted for the public schools, but Mr. Boland would not stand on the board of education meetings, regarding the teaching of religion in the city high schools, warmed up a little in the management committee yesterday, when the subject of daily Bible reading was introduced.

FLAWS IN EXPRESS GOVERNORS REVERT TO THEIR ORIGINAL PLAN

Faculty of Education Building With Be Started Immediately on Small Scale—Funds Scarce

The erection of the new building for the faculty of education of the University of Toronto will be proceeded with at once, according to a report issued at the meeting of the board of governors yesterday afternoon. The building is to be erected on Bloor-street, between York and Spadina, and the section devoted to the work of the department will be built with practical school accommodation for about 200 pupils. The buildings now occupying the site—formerly St. Margaret's College—will not be torn down until the buildings ready to go on with the remaining sections.

This was the original intention of the governors. In accordance with the demand of the provincial department of education it was changed to give accommodation for 100 children, but lack of funds compelled the governors to revert to their original idea.

Three appointments were made at the meeting, Kenneth Ball, fellow of the Royal Society, Oxford, was appointed lecturer to succeed Prof. Telling, who returns to Oxford. A. L. Parsons was to be lecturer in anthropology, and C. Hartman demonstrator in psychology.

The matter of fees for the School of Practical Science was also settled. The question has been a troublesome one because an increase had become necessary by reason of the great expenditure to be made, while higher than last year, is still below that in medicine and in the McGill Faculty of Applied Science. It is as follows: First year annual fee including library, laboratory and one examination, \$100; second year, \$110; third and fourth years, \$120.

Supplemental examinations, admission and eudem status and B. A. degree cost \$10 each.

CLYDEDALE MEN MEET Warm Discussions Over Proposed Amendment

Henceforth persons making applications for detraction of the Clyde Dale men's status must make a statutory declaration to accompany the application. Such was one of the resolutions passed at a large meeting of the Canadian Clyde Dale Association, in the King Edward Hotel, Toronto, on Monday evening.

The committee to Chicago to bring about some better regulations regarding the recording of Clyde Dale men in the American books was passed.

Much business of importance was done. Considerable feeling was expressed against fraudulent certificates and persons casting aspersions on the certificates of the board.

The election of officers took place and resulted in the following: President, John Bright, Myrtle, vice-president, Robert Graham, Bedford Park; vice-president, Ontario, P. J. Christie, ex-M.P.; directors, Messrs. Wm. Smith, James Torrance, John Boag, Thomas Graham, James Henderson, A. G. Gormley and E. Major.

Treasurer's statement showed total receipts of \$1,056.37, and a balance on hand of over \$300.

ARRESTED FOR PERJURY Swears There Was No Gambling—Police Swear True

Samuel Parsonson, 139 Munro-street, was arrested for perjury as he left the witness box in the afternoon police court yesterday, where he, with six others, were being brought in for a breach of the Gambling Act, Constables Hoag and Miller swore they went to a stable and found 18 men sitting at a table playing dice for money. Parsonson swore that there was no money in sight, and that no dice had been thrown. He said the constables were wrong.

"Take that man into custody," directed Magistrate Kingford. T. L. Parsonson, who had been arrested, said: "You haven't heard the other boys," he said. "What divine right have these officers to be believing every one of these men's word? I'm in the box at I swear that there was no money. You're not only committing that boy; you're prejudging his case." The others were remanded till Jan. 18. Parsonson was bailed in \$500.

A War Correspondent

Grateful to Zam-Buk

Tells how a Scratch led to Blood-Poisoning and what followed that!

WHEN our Canadian troops were fighting the Boers in South Africa, we read reports of their various engagements from the pen of the famous war correspondent, Mr. Frank Scudamore. Mr. Scudamore is well known for his exposures of the Armenian Atrocities, and his vivid word-pictures during the wars of Turkey and the Soudan Campaigns, prior to his writings during the Boer War. He has passed unscathed through twenty-nine battles, but came near meeting death at home through a mere scratch! Zam-Buk, the great herbal balm, saved him; and in gratitude, and the hope that his experience may lead others to a means of relief in time of suffering, he tells how Zam-Buk released him from the terrible agonies of blood-poisoning.

Mr. Scudamore writes:—"I have experienced the extraordinary benefits which come from the use of Zam-Buk, and desire not to keep the knowledge thereof to myself, but to make it known to any others who may be suffering as I suffered.

"Some time ago, after escaping the dangers to which one is exposed in the hazardous trade of war, I fell a victim to an evil—the evil of blood-poisoning—just as deadly, in peace at home. The blood-poisoning started owing to the poisonous dye in some underclothing penetrating a small scratch or sore. I was treated by doctors in the usual way, and told to hope for the best, but the inflammation, pain, and swelling did not appear to be relieved by their treatment. Ulcers broke out on my foot and limbs, and for some time it was quite impossible for me to put my foot to the ground, or get about.

"On my left leg, below the knee, I had seventeen deep holes, into any one of which I could have put my thumb, while I had no fewer than fourteen similar ulcers on the right leg.

"Worn out with pain and lack of sleep, I yielded in despair at last to the advice of a friend that I should try Zam-Buk, of which my friend gave the highest accounts. I applied this herbal balm to the sores and ulcers changing the dressings frequently. For a week I persevered with the Zam-Buk treatment, leaving off all else. At the end of that time the pain and inflammation had gone, and the skin, which had before so obstinately refused to heal, was now growing beautifully. I persevered with the treatment, and the benefit increased, until in the end the blood-poisoning was cured, the ulcers cleansed and healed, and new healthy skin covered the previously diseased places.

"What impressed me most about Zam-Buk was the immediate relief it gave from the burning pain. It seemed to bring ease immediately it was put on, and then the cleansing and healing process went on painlessly."

*I am truly yours,
Frank Scudamore*

LESSONS FOR CANADIAN HOMES. WHAT ZAM-BUK CURES.

ALL MOTHERS SHOULD REMEMBER

That every scratch, every cut, every sore, every open wound, every skin-disease is liable to turn to blood-poisoning. The air is full of poison germs, which, falling on to sores and wounds, may set up festering and blood-poisoning. How important, then, that Zam-Buk (which is science's latest and best protector against blood-poisoning, as well as the finest healer) should be kept handy in every home!

Zam-Buk operates in an absolutely unique manner. When first applied to a sore or wound its antiseptic power comes into operation. Painlessly, yet effectively, it attacks all disease germs and the injured cells and stimulates the lung tissue to build up new cells. Painlessly, yet effectively, it attacks all disease germs and the injured cells and stimulates the lung tissue to build up new cells. At the same moment, therefore, there is a defecation (against disease germs) and a constructive process going on all the way Zam-Buk heals and cures all skin diseases and injuries.

Zam-Buk is a sure cure for piles, fistula, bad leg, varicose veins, and chronic wounds. It is also the finest known healer for cold sores, chapped places, frost bite, ringworm, blood poisoning, scalp sores, children's sore heads, eczema, rich, scabby, and all irritated and diseased conditions of the skin.

Druggists and stores everywhere sell at 50c a box, 3 for \$1.25. Post free from Zam-Buk Co., Toronto, for price.

DRAINS PAY FIRST YEAR ONTARIO FARMERS AT IT

A Report From the O.A.C. Shows How This Important Work is Growing in Favor.

Agricultural Editor: It affords pleasure to comply with your request for a statement regarding the drainage surveying done by the department of physics at the O.A.C. writes William H. Day, B.A., of G. J. H.

Some years ago, the staff of this department were engaged in farmers' institute work during a wet spring, going about the province from place to place, they saw the need of drainage on thousands of acres of land on which the crops were very severely "drowned out," and they were impressed with the immense areas that were in urgent need of drainage. Representations were made to the minister of agriculture that steps should be taken to encourage underdrainage on a large scale, and accordingly he authorized this department to undertake the work. Before doing so we enquired why this phase of agriculture was so generally neglected, and we came to the conclusion that the cause lay in the lack of comprehensive knowledge of extensive drainage operations. Many men could put in a few drains by the eye or by some crude method of leveling, but when it came to planning a general system for 50 or 100 acres, a system composed of several miles of drains, every part of which must fit in with every other part, the grades of which must be sufficient for effective drainage and yet not require too deep digging, the depths of which must be great enough to protect the tile from the frost, and yet varied enough in different parts to secure proper grades, and the outlet for which must be ample and free—when it came to the planning of such a system, many of which are imperative if pro-

per drainage is to be secured, very few farmers were equal to the task. And so the method for the department of physics to pursue was plain: We must assist in the surveying and planning of these general systems, and go right into the field and survey the farms, where the owners wish us to, and make out plans showing the drains with their grades, depth and size of tile. At first we stopped there, but now, in addition to this, we hold a public hearing in the field at the conclusion of each survey to illustrate and discuss the various principles and methods of drainage, from the preliminary survey to the installed and completed system of drains.

From the outset this assistance was very much appreciated by those directly benefited, and now that its practical results are in evidence in many localities the applications for aid are becoming more numerous and urgent. The following table will show the progress of the work:

Year.	Applications.	Surveys (Number).	Area Surveyed (Acres).	Drains Installed (Miles).
1906	15	15	500	45
1907	126	70	3570	357
1908	106	100	5000	519

It will be noted that in 1906 we were able to respond to all applications. During the next year, however, the shade over half were attended to. For 1908 the staff was increased and still we were unable to assist all who applied, although we surveyed over 500 miles of drains. In the last three years, the work has increased somewhat over tenfold.

During 1908 we had applications from every county west of Peterboro and from a few east, making 39 in all, and we have made surveys and held demonstrations in 25 of these.

The drains are being put in as fast as men can be got to dig them. The value of this work can be best shown by an illustration: In 1907 the Horticultural Experiment Station Farm at Jordan Harbour, in the Niagara Peninsula, was underdrained. This year the part that was formerly the wettest and heaviest and which usually grew crops that were scarcely worth the cutting produced a bumper crop of oats—55 bushels to the acre, despite the exceedingly wet spring and subsequent severe drought! Land will soon pay for its own drainage at that rate. For years that farm has been notorious for wetness in the spring. To-day its transformation wrought by drainage is a marvel to the neighborhood. A few examples like this in the low-lying counties of Ontario will produce profits that can be measured only in millions.

WASHINGTON, Jan. 14.—The senate committee on public buildings soon will start an investigation into the demolition of the old Pennsylvania depot, which was torn down by order of the president, apparently in the absence of legislative authority.

10 YEARS FOR BROKER

Who Got Money From Clients for Investment by False Pretences.

BOSTON, Jan. 14.—Cardino F. King, former broker, who maintained a palatial office in Boston and New York, and for a short time published a daily paper, was sentenced to not less than ten years at hard labor for securing \$22,000 by false pretences from patrons who invested in the stocks which he promoted.

The sentence followed a dramatic statement by King in court. He declared that he was innocent of any wrong intent, and accused Thomas W. Lawson of secretly fighting him and bringing him to financial ruin.

POTATO FAMINE IN B. C.

VANCOUVER, B.C., Jan. 14.—(Special.)—The frost has ruined all stocks of potatoes above ground in the district near Vancouver, and prices jumped over ten dollars in two days. The only stocks in store here are five hundred tons and that constitutes nearly the entire supply of coast cities.

MOTORLESS AEROPLANE

Ohio Inventor Claims He Has Made Eight Successful Flights.

CANTON, O., Jan. 14.—Wm. H. Martin, former surveyor of Stark County, announces that he has made eight successful flights in a motorless aeroplane of his invention.

His wife rode in the machine at a height of 30 feet for a distance of two hundred feet.

The aeroplane is operated on sleigh runners. As soon as it receives sufficient velocity it rises in the air and sails.

Martin will purchase a motor, he says.

May Live on Reserve.

MONTREAL, Jan. 13.—(Special.)—Hormisdah Perrault, the French-Canadian, who has an Indian wife living at Caughnawaga, has been granted a pension in his favor in the police court this morning. Perrault had been in the habit of going over to see his wife, but this, according to Judge Basin, did not make him a resident.

DEPOSIT OF SILICA

Valuable Find Extends 1000 Feet Along Detroit River.

WINDSOR, Jan. 14.—(Special.)—What is pronounced the largest and most valuable deposit of silica out of which glass is manufactured has been discovered on the Elliott farm, near Amherstburg. The silica was found 61 feet below the surface and covers a wide area. It extends for 1600 feet along the Detroit River, and runs back one-half or three-quarters of a mile. An analysis of the deposit shows it to be 93 per cent pure, and without any trace of either iron or cobalt.

To promote the industry the Ontario Silica Company has been formed, and steps are under way now to exploit the field.

Civic Question Committee.

The First Ward Conservative Association have appointed committees to give special attention to civic questions as follows:

Technical education—Geo. Creighton, F. Collins, T. Robinson, E. H. Rowles, S. Dean, J. Watt.

Annexation and Bloor-street extension—R. Bethune, E. A. Forster, W. L. Purvis, Owen McAvoy, Jas. Moran, L. Collyer, George Chandler, H. Harding.

Hydro-electric—C. Doughty, A. Davidson, George Drury, W. Buckland, E. F. Ledy.

Local Questions—W. Fenwick, Dr. E. M. Bateman, L. Cross, T. P. Whittam, S. Wilson, George Wichelso, W. J. Saunderson.

Welfare Committee.

MONTREAL, Jan. 14.—(Special.)—Chief Detective Carpenter has sent a letter to the police committee protesting against that body's interference and alleging that the force will suffer if it does not cease.

RHEUMATISM

HERE IS HOPE

I want every chronic rheumatic to throw away all remedies, all balms, all plasters, and use MURPHY'S RHEUMATISM REMEDY. No matter what your doctor may say, no matter what friends may say, no matter what remedies you may be against all advice, get a bottle of the RHEUMATISM REMEDY. If it fails to give satisfaction, I will refund your money—Murphy's Remedy contains no medicine, no opium, no cocaine, morphine or other harmful drugs. It is put up under the guarantee of the Pure Food and Drug Act.

Special Service for C.M.B.A.

The members of the Catholic Mutual Benefit Association in Toronto are arranging to hold a special service for all of the members of the various Toronto branches on Sunday, January 22nd, at St. Michael's Cathedral, His Grace Archbishop McEvay is to take this opportunity of speaking to the city members and their friends for the first time since he has been appointed Archbishop of Toronto.

Business of a Big Hotel.

NEW YORK, Jan. 14.—At the 30th annual dinner of the Hotel Association of New York, at the Waldorf last night, Chairman George C. Boles of the association, also proprietor of the Waldorf, presided.

He showed by figures that nearly 19,000 persons, by actual count, entered the Waldorf during 18 hours in one day last April.

True in Chinese Feud.

SAN FRANCISCO, Jan. 14.—Merchants in the Chinese quarter, who have long affiliations, have their doors open to-day for the first time in several weeks. The two warring organizations, the Sue Don and the On Yek, have signed a truce which is to hold until Feb. 10, or 20 days after the Chinese New Year. The war has paralyzed business.

Four Treaties Ratified.

WASHINGTON, Jan. 14.—The senate to-day ratified arbitration treaties with Haiti, Ecuador, Uruguay and Bolivia.

ANOTHER CONCESSION

Unfortunate Provision in Waterways Treaty Noted.

(Canadian Associated Press Cable.)—LONDON, Jan. 14.—Regarding the waterways treaty, The Standard says we apparently decide on Canada's behalf that Canadian suitors shall be compelled to submit to the decision of a joint commission, while the United States suitors will find a court appeal in their senate. Such a provision is extremely unfortunate. The day of concessions to the beautiful eyes of the United States or any other power, has definitely passed away.

Christian Brothers to Build.

The Christian Brothers are negotiating for a large property on the Kingston-road, very near St. John's Church, Norway, which it is expected will pass into the hands of the order. The price is to be \$30,000, and the land will be used as a site for a novitiate or preparatory school for young men contemplating joining the Brothers.

Political Prisoners Freed.

LIMA, Peru, Jan. 14.—All political prisoners were set free to-day in consequence of the decision of the supreme court, Aug. 3.

DR. WOOD'S NORWAY PINE SYRUP

Is without an Equal for COUGHS, COLDS, BRONCHITIS and all Affections of the THROAT and LUNGS.

All the most serious affections of the throat, the lungs and the bronchial tubes, are in the beginning but colds or coughs. Too much stress cannot be laid on this fact, and neglect to cure the cold very often causes years of suffering and in the end "Consumption." Dr. Wood's Norway Pine Syrup combines all the long-acting virtues of the Norway pine tree with other aromatic, expectorant and soothing medicines of recognized worth, and is absolutely harmless, prompt and safe.

Mr. J. L. Furdy, Millvale, N.S., writes:—"I have been troubled with a hard, dry cough for a long time, especially at night, but after having used Dr. Wood's Norway Pine Syrup, for a few weeks, I find my cough has left me. To that this remedy is well worth a trial. I would not be without it in the house."

So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it. Don't be humbugged into taking anything but "Dr. Wood's." Put up in a yellow wrapper; three pine trees the trade mark; price 25c.

SHIPOWNERS' UNION
Want to Do Away With Destructive Competition.

NEWCASTLE, Eng. Jan. 13.—Ship-owners of northern England, representing more than \$50,000,000 worth of tonnage, met to-day under the chairmanship of Sir Walter Huntman, and took the first steps toward the formation of an international union of shipowners, with the object of improving the position of the business and arranging matters thru which competition may be less destructive and the supply of tonnage equalized to meet the demands of freight, and for maintaining freight charges at a remunerative level.

Day's Doings in YORK COUNTY

CITIZENS AND FARMERS LIKE ARE OPPOSED

P. C. Harris Recommends Further Closing of St. Lawrence Market
—Suburban News.

The action of Property Commissioner Harris in advising the board of control to sanction the closing of the northern section of the St. Lawrence Market for two weeks during the month of March was practically the last straw that broke the camel's back.

The dates suggested by Mr. Harris are from Feb. 18 to 28, to the Automobile and Sportsmen's Exhibition, and from March 1 to 6 for the Canadian Cement and Concrete Association. The revenue which will accrue to the city from the rental of the market by the property commissioner at \$1300.

The dates chosen, from the standpoint of the business men in the St. Lawrence district, are most unfortunate, and represent a total cessation of all business for a much longer period than appears on the surface. It is pointed out that when once the word has gone out that the market is closed, a fortnight is always required to resume anything like normal conditions.

"How long do you think a private company would last, if they conducted business in that haphazard sort of way?" said R. C. Steele, ex-president of the board of trade, to The World on Thursday. "It is only by continuity of purpose, and keeping steadily at it that the big business firms of the city or any enterprise is built up on a stable basis. It is utterly wrong, and opposed to the best interests of the city at large."

"We must get busy and secure the co-operation of the city authorities against the proposal," said Geo. Crosby, a prominent King-street merchant. Mr. Crosby stated that Ald. Church and other prospective candidates, prior to election, had intimated that the market would in all probability not be again closed.

C. E. Godden, the hardware man; D. Pike, Lendon Bros., and scores of others have from time to time testified to the great injury to the merchants from the fatuous opposition of Mr. Harris and a pillant council.

Farmers' Right Ignored.
From the standpoint of the farmers of York County, who have largely made the city what it is, the opposition is even more strenuous and well-timed than the city man. That the farmer and the farmer's wife, should be compelled after driving anywhere from 10 to 30 miles in zero weather to find the doors of the St. Lawrence Market barred to trade, and be compelled to dispose of their farm produce on the open street, or falling that to dispose of it from door to door, has aroused widespread dissatisfaction.

The fact that the York toll gates were removed in compliance with a mutual understanding that the market should be abolished, and permanent quarters established, is beyond dispute. The York County Council will meet in the morning on a charge of forgery. The police also arrested Charles Williams of Maria-street last night. Perjury is the charge. He was allowed on bail for \$1000.

Two hockey matches were played on Ravina rink last night. The first, between Victoria and St. Helen's, resulted in a tie, 2-2. Ravina defeated the Brotherhood of St. Paul in the second game by 3 to 1.

Raven of Worcester Lodge No. 47, conducted the proceedings. After the ceremony an enjoyable evening was spent, with Bro. C. Hopping, president of the adult lodge in the chair. Prizes were distributed by Bro. Raven P.P. Many friends from Worcester Lodge, S.O.E., No. 47, and Rose of Kent, D. O. E., No. 1, were present and took part in the entertainment.

Your Kind of Oysters.
"First catch your fish!" is the way in which English receipt begins. The modern version, applied to oysters, is "First buy Sealship!" "Sealship" oysters have that distinctive, salt oyster flavor. The reason is they are packed in galvanized steel containers, sealed air-tight, with the brand name on the containers, but not in the oysters. No water is used. "Sealship" oysters cannot be used, nor collect dust, nor germs.

"Sealship" oysters are guaranteed. The white porcelain case bearing the blue "Sealship" trade mark from which you buy "Sealship" oysters, is your protection. You can be just as particular about any other food—"Sealship" oysters are for particular people.

SMALLPOX STILL RIFE.

Scarboro Township the Storm Centre of Disease.
Reports from the Township of Scarboro are conflicting with reference to the smallpox epidemic. In some quarters the disease is looked upon as being practically under control, and treated with more or less levity, while other reports are sent out indicating the steady advance of the scourge. The churches are for the most part closed, and social functions, usually a big feature in Scarboro at this season of the year, are for the time being postponed. Some 30 cases altogether have been reported to the medical health officer.

WANT MORE SCHOOL ROOM.

A movement of ratepayers of s. w. corner of Scarboro Township is on foot for the formation of a new school section to embrace Blantyre and Victoria-avenue and surrounding territory as children of district rapidly settling in the area. The ratepayers formed an association and held a meeting at W. Stewart's, corner Blantyre and Windsor-streets at 8 o'clock last night, and discussed the matter in all its phases. It is probable that some well defined plan will shortly be submitted to the proper authorities for approval.

NORWAY.

Teammate Sues for Damages and Jury Awards \$1000.
NORWAY, Jan. 14.—(Special.)—A case of peculiar interest to the Norway district was the action of the jury awarding damages to-day in awarding Samuel Goodyear, a local farmer, \$1000 as a result of a mishap with a Scarboro and York trolley.

Goodyear was turning from Woodbine-avenue on to the Kingston-road one night last summer when his rig was struck and demolished, one horse killed and Goodyear badly shaken up.

ANOTHER SMALLPOX CASE.

Mrs. Morrow, who for several days has been quarantined at her home 9 Westmoreland-avenue, with her husband, who is known to have the disease, has also contracted the disease. The attending physician, however, believes that both patients will recover. The other members of the household, a boy and girl, 5 years old, neither one of whom as yet has shown any smallpox symptoms. The house is being kept under a rigid quarantine.

HIGHER SALARIES FOR JUDGES

Proposed Scale of Stipends for the Judiciary in the U. S.
WASHINGTON, Jan. 14.—The Legislative, Executive and Appropriation Bill was reported to the senate to-day by Senator Cullum for the committee on appropriations. The bill includes provisions for increasing the salaries of the federal judges also in inclusive and traveling expenses; of the vice-president to \$20,000, and of the speaker of the house to \$20,000. Provision is also made for an increase in the salaries of federal judges as follows: Chief justice of the supreme court, \$13,000; associate justices, \$17,500; circuit judges, \$10,000; district judges, \$6000; chief justice of the court of appeals of the District of Columbia, \$10,000; chief justice and associate judges of the supreme court of the District of Columbia, \$8000; chief justice of the court of claims, \$7000; associate judges of the court of claims, \$7000.

FATAL HOTEL FIRE

Two Lives Lost in Burning of Frame Structure at Everett, Wash.
EVERETT, Wash., Jan. 14.—Two persons were burned to death, another fatally burned and two painfully injured in the destruction of the North Hotel by fire to-day. Ignition of gasoline caused the fire. The hotel was a two-story frame structure.

TOPEKA HOTEL BURNED.

TOPEKA, Kansas, Jan. 14.—The Copeland Hotel, Republican headquarters for 20 years, burned at 4 o'clock this morning. The cause is unknown. E. Lambert of Emporia, former district attorney, is the only person believed to have been injured. There were several broken ankles on account of jumping from upper floors.

ICE BLOCKADE IN B. C. AFFECTS G.T.P. CONSTRUCTION

VANCOUVER, B. C. Jan. 14.—(Special.)—Passengers arriving from the north this evening say that Skeena River, in northern British Columbia, is a solid mass of ice for 40 miles from its mouth.

No steamers have been able to reach Port Essington for a week, and the prospects are gloomy. Some railroad construction camps on the Grand Trunk Pacific are short of supplies. The camps may have to be closed down.

Rev. L. Tracy, rector of an Episcopal Church in Brooklyn, N. Y., is believed to have perished in a snowstorm which recently raged in the Gaudoupe Mountains in New Mexico.

SOLDIER MOIR TO SPEND HIS LIFE IN ASYLUM

Accquitted on Charge of Murder on Ground of Insanity on Advice of Chancellor.

LONDON, Jan. 14.—(Special.)—After 15 minutes' consideration the jury this morning acquitted, on the ground of insanity, Private Moir, 1st Battalion, Royal Grenadier Regiment, charged with the murder by shooting of Sergt. Lloyd at Wolsey Barracks last spring. Chancellor Merridale, in his charge to the jury said there was no doubt Moir had been insane.

Moir will be committed to the Hamlet Asylum, and Dr. Bruce Smith, provincial inspector of prisons, says that not in 32 years has anyone sent to the asylum on account of epilepsy been allowed his freedom.

"Under the verdict," said the chancellor, "the prisoner will be kept in close confinement till the pleasure of the crown is known. He will be practically he will be confined in an asylum for life. This trial shows the public are in danger from epileptics such as the unfortunate prisoner. Such people may go around without having knowledge of their condition and their homicidal mania may develop at any time."

"Those in charge of affairs should see that epileptics such as the prisoner should be subject to imprisonment for life until such time as medical science will have discovered a remedy, which has not yet been done."

Moir, who is tattered and shown emotion by twitching lips and gulping throat when the verdict was announced, was then led away thru the crowded court-room.

FOES OF HYDRO-ELECTRIC SCORED IN OPEN COURT

Master-in-Chambers Balks Attempt to Rush Trial of Action Against London Bylaw.

A curious phase of the legal fight being made to block the City of London from consummating its contract with the hydro-electric power commission transpired at Osgeode Hall yesterday.

J. E. Jones appeared before Master-in-Chambers Cartwright and successfully pleaded against the City of London being suddenly forced into a trial of the action, in the name of R. H. Smith, to declare the power bylaw invalid.

Mr. Jones produced an affidavit from A. H. Lefroy that the City of London only learned on Jan. 9 that the case had been set for trial at the assizes commencing on Jan. 11, whereas in September the plaintiff had announced an intention of amending his claim.

As no amendment had been made, the City of London had not been placed in a position to put in its defence, and therefore was not prepared to go to trial.

In concurring with Mr. Jones in favor of the City of London, the master-in-chambers said that, although the case would there be in going down to trial if there is no defence?"

U. McPherson, for the plaintiff, argued that his client was within his rights.

"It is a gross breach of etiquette on the part of my learned friends' principal," said Mr. Jones, "to invite us into all these notices of motion and surprise us at the trial."

OTTAWA WANTS HOTEL

OTTAWA, Jan. 14.—(Special.)—The board of control this afternoon, as a result of the long continued inaction of the Grand Trunk Railway in regard to the proposed new hotel on Major's Hill Park, permitted to send a deputation to Sir Wilfrid Laurier.

Starting out with promises to build this hotel within a certain time, the Grand Trunk has escaped responsibility by avoiding the obligation to begin at any certain time, and with the erection of buildings work was suspended. The city now wants this unsightly object removed.

FRUIT GROWERS COMING WITH SOME SUGGESTIONS

Deputation to Impress Railway Commission To-day With Handicaps in Niagara District.

GRIMSBY, Ont., Jan. 14.—(Special.)—President William H. Bunting presided at the annual meeting to-day of the Niagara Peninsula Fruit Growers' Association. The entire district was represented in the deputation, which was devoted to a discussion of the lack of facilities afforded growers by express companies and the excessive rates charged for shipments of fruit. When the matter comes before the board of railway commissioners in Toronto to-morrow the following committee will be present: Mr. Hendershott, A. E. Kimmins, J. W. Smith, P. A. Goring, M. Pettit, Mr. Metcalf, H. Fleming, T. H. P. Carpenter, E. L. Jemmetts, R. Thompson, J. W. Brennan, W. B. Bridgeman. They will be accompanied by many other growers to give moral aid to the fight, and vegetable men will also be on hand. A resolution adopted to-day will also be submitted, declaring that "it is desirable that every effort be made to bring to bear upon the railway commissioners the importance of the fruit industry of several reductions of (1) express rates; (2) graded rate on large shipments, also car loads; (3) eliminating pilfering and rough handling; (4) fixing responsibility regarding delays; and a proper method of settling just claims within a reasonable period; (5) proper accommodation both as regards cars and shelters at points of shipment be provided.
