WHAT RISK PARTY WERE OFFERED FOR RISK

Wm. O'Brien Declares That Redmond's Jealousy Has Imperiled Home Rule—Lloyd-George is Annoyed.

CORK, April 10.—William O'Brien, speaking here Saturday night, said that Chancellor Lloyd-George promised the Nationalists, as concessions for their support of the budget, relief from the spirit, stamp and succession duties, brewery licenses and land taxes, and from a general re-valuation.

On Monday the government's resolution prescribing that all bills become law after three readings in the house of lords will enter the committee stage. The debate on this resolution will continue until Friday when the guillotine will be applied and a vote taken on the whole resolution. On Thursday night the house will vote on the government's resolution limiting the duration of parliament to five years instead of seven.

WHAT WILL ASQUITH DO?

To Ask King for Guarantees Will Displease Several Ministers.
LONDON, April 10.—(N. Y. Tribune Cable).—The passing of the remaining veto resolutions by a majority of over a hundred is now a forgone conclusion. The subsequent proceedings are shrouded in darkness.
John Redmond seems to be bent on dragging the prime minister up to the hilt on the issue which he wants to ask for guarantees for the creation of a sufficient number of peers to secure the passage of the bill. This is his price for supplying the votes requisite for carrying the old budget thru the commons.

AERONAUT FALLS ON AUTO
Plunge of Seventy-Five Feet Results in But Slight Injury to Aviator.
MEMPHIS, Tenn., April 10.—Losing control of a Curtiss biplane, which he was operating at a height of seventy-five feet, J. O. Mars plunged downward with terrific speed into the field of the aviation course here today, alighting on top of a seven-passenger touring car, in which were seated three women and two children. The canopy top over the touring car saved the lives of its occupants, only one of whom was slightly injured. The biplane smashed into bits, and Mars was caught under the wreckage, but escaped with no injury worse than a severely bruised and wrenched knee and a slight cut on his chin.

SEE EUCLID IN SIDIS
Theosophists Believe Harvard Prodigy is the Mathematical Reborn.
CAMBRIDGE, MASS., April 10.—Boston theosophists have decided after much study and meditation that the soul of the mathematical Euclid is reincarnated in William J. Sidis, Harvard prodigy. The New Thought followers have studied the boy assiduously for over a year and one of their number, Mrs. Harriet M. Drake, has been in close intimacy with him from infancy.

UPPER BERTH IN PULLMAN SHOULD BE CHEAPER PRICE

U. S. Interstate Commerce Commission Declare It Unreasonable to Charge Equally With Lower.

WASHINGTON, April 10.—The interstate-commerce commission in a decision made public to-day, holds it to be "unjust and unreasonable" for the Pullman Company to charge equally for the upper and lower berths in its sleeping cars. Differential charges are ordered in several instances, and Pullman rates from Chicago to the Pacific are ordered reduced.
While this ruling of the commission orders reductions in rates which were specifically and formally complained of, it is recognized as the opening wedge for the readjustment of sleeping car rates wherever they exceed the average, which the commission has found to be just and reasonable in these instances.
The Pullman Company, it is stated, will carry the decision to the courts. A shipping agent's journey, the commission holds, should not carry a rate of more than \$1.50 for a lower berth, and \$1.75 for an upper. Several reductions affecting rates are made.
The record shows that the commission's investigation of the sleeping car company's contracts, general system of charging and earnings, revealed annual dividends of nearly \$60,000,000 from 1893 to 1908 inclusive.
The investigation showed that the amount carried to surplus annually did not fall far short of the annual dividends of 8 per cent., that in 1908, a cash dividend of \$7,200,000 was paid out, accumulated surplus, in 1899, a special stock dividend of 50 per cent., amounting to \$18,000,000 was declared, and in 1907, another of 38 per cent., amounting to \$26,052,224.
During a period of 11 years, \$31,000,000 in special cash and stock dividends were paid, in addition. In 1898 the stock of the company was increased from \$26,000,000 to \$100,000,000, of which \$20,000,000 is accounted for by the acquisition of the stock of the Wagner Palace Car Company. The rest of the increase, \$44,000,000, represents capitalization of surplus. The record shows that no additional capital was put in.

SUSPECT SURRENDERED TO STAND MURDER TRIAL
Robert Parker, an Aged Hunter, Accused of Having Shot Wm. Masters on Road Near Tweed.

TWEED, April 10.—(Special.)—Robert Parker, aged 70, last night gave himself up to the town police. He was wanted on a charge of murder in connection with the death of William Masters, the septuagenarian farm laborer, found on the road with a bullet wound in the heart.
Parker is a hunter and trapper, living with his wife on a small patch of land, some two and a half miles from town and about a hundred yards from the Masters' home. He denies that he had anything to do with the shooting, but he disappeared from his home Friday morning and was not seen again until he came into town last night, accompanied by William Ferguson, a brother-in-law.
Parker has a quarrelsome disposition and has been heard to threaten to shoot Masters, because he said Masters had been interfering with his hawk traps. He has three grown-up sons, who do not live here. He has had trouble with other neighbors. Parker says he can show that he was not in the locality when Masters was slain.
Parker offers no particular reason for his absence from home the last day or so only that he was visiting some friends. His brother in law, who lives about sixteen miles from here, drove him into town.
"If suppose they all want to lay this thing to me, but I am not guilty," said Parker, who added that "there were lots of fellows down thru there that day shooting at targets, and it is very likely that Masters was struck with a stray bullet."
Masters, who was a farm laborer, leaves a widow and family of four boys and one girl. Friday morning he went out with horse and wagon to gather wood. Some time later the horse returned to the house, and one of the sons, going in search of his father, found him dead. A 44-calibre bullet had passed thru the heart.

120,000 PARADE TO PARKS FOR SUFFRAGE REFORM
Socialists and Radicals in Berlin Make Impressive Demonstration—Free From Disorders.

BERLIN, April 10.—At least 120,000 socialists and radicals took part today in the most impressive demonstration ever held in Berlin in favor of suffrage reform in Prussia. From 11 o'clock in the morning, the streets resounded from the march of squads of earnest-looking men from every precinct in the city towards the Humboldt Platz, the Friedrichshain and Treptow parks, where Police Commissioner Von Jagow had sanctioned open air meetings.
Owing to the recent outspoken criticism of the police methods in the repression of the party expression of the will, the police commissioner had withdrawn his former prohibition, on assurance from the socialists, that no disturbances would occur and that traffic would not be disturbed.
Men and women gathered at the districts in the morning at the districts to meet the demonstrators at the appointed place. There they were met by a squad of police, and they were taken to the appointed place.
There was no shouting or singing as the crowd passed thru the streets, from which the police seemed to have disappeared as if by magic. Squads of police, in the rear, kept the demonstrators from the appointed place.
For an hour and a half, the orators continued amid deafening cheers, and at 2:30 another bugle sounded. For one minute the demonstrators were dismissed, and they dispersed in all directions. Then a resolution declaring that it was the determination of those gathered to fight for reform until victory had been won for the people, was passed by acclamation. Enthusiastic scenes ensued and there was great cheering for the rights of the democracy, while 100,000 voices broke into the strident strains of the workers' Marseillaise, and the song of freedom. But they dispersed on orders from the leaders.
Garrison Not Called on.
The meetings then disbanded, the original groups marching off as they had come, without the slightest disorder.
The entire Berlin garrison was confined to barracks all day as a measure of precaution, but the services of the military were not required.
Twelve meetings were held in halls in the suburbs, and these also passed off without untoward incident. The most significant feature of to-day's manifestation was the absence of any in which they joined in such a demonstration, indicating the depth of feeling among the workers regarding the necessity of suffrage reform.
Police Commissioner Von Jagow, who in civilian clothes, witnessed the demonstration, was surprised at the discipline and good order.

PITTSBURG FOREIGN MISSIONARY MURDERED AS HE LEFT CHURCH—FELLOW WORKER WOUNDED.
PITTSBURG, Pa., April 10.—A sermon on "Martyrdom," in which Frank Skala, an editor and prominent mission worker, had declared himself willing to lay down his life for the Christian cause, was followed to-day by his assassination, and the shooting down also of a fellow church leader, John Gay, who may die.
Arm in arm, the two missionaries were leaving the little Congregational Church in Wood's Run, a suburb, at the head of more than a hundred followers. A raggedly dressed and collarless man poked his way thru the crowd, and when he was but a step behind the leaders, he pressed a revolver to Skala's head and fired twice. The bullets took effect in the jaw and temple.
Gay, who threw up his right hand to ward off the weapon, was hit first on the thumb and then a second bullet was buried in his forehead. He fell unconscious across the lifeless body of his colleague.
For a moment the assassin stood over his victims, flourishing his revolver while the panic-stricken crowd fled to shelter behind posts and doorways. Then stamping his foot on the bodies, the murderer made off down the avenue to the railroad tracks and was soon lost to view. A large armed posse of police, detectives and church people, was soon in pursuit, but late to-night had found no trace of him.
The slayer was Jan Rodvich, a character known to most of the mission for his radical opinions. A moment before he had meddled with a juvenile leader in the Sunday school, and at the beginning of the regular services and at the beginning of the sermon Skala had shaken his hand.
It is believed by some of the congregation that the sermon Skala preached with the emphatic declaration that "any moment God would want my life I am ready to lay my life down," stirred the probably insane man to test his Christian fidelity.
Skala was prominent locally as a mission worker, and associate editor of The Bohemian Christian Journal. He was a Presbyterian, but had filled the pulpit at the Congregational Mission House as a substitute to-day, as he had often done before. He came here from Moravia, Austria, seven years ago and after a thorough education at Park College in Missouri, settled at Conoposki to work among the foreigners. He was 25 years old. He married one of his converts to Protestantism and besides her, he leaves a child.

JAPAN OR THE U.S. THE EAST MUST CHOOSE
Alarm and Distrust Caused by Recent Happenings in the Far East—Alliance is Denounced.

LONDON, April 10.—(N. Y. Times Cable).—Now that it is beginning to be feared that the Japanese have recently selected as interested in the recent developments of the far eastern policy there is a growing disposition among Englishmen to study the bearings of the Anglo-Japanese treaty of alliance.
That treaty has been denounced in vehement terms this week from two different quarters, and the question of its renewal four years hence has been put in the terse form of "Great Britain's choice—Japan or the United States."
The problem of the Pacific Ocean was a subject of debate at the monthly dinner of the Authors' Club, where non-literary topics are frequently selected for discussion. Earl Stanhope was the chief speaker, and although he diplomatically refrained from expressing disapproval of Japanese methods, the tenor of his speech indicated that he shared to a considerable extent the distrust of Japanese sudden extension of territory to this article, which, backed as it is by the command of the Pacific, is causing alarm in Australia and America.
Japan, he said, was at the parting of the ways. She had to decide in the near future whether she intended to hold her colonies for her own good, to send them drifting to the winds, or colonial manner, or whether she would govern principally with a view to their betterment and only indirectly for her own.
Japan Ambitions Distant.
Lord Stanhope plainly intimated his belief that Japanese ambitions were such that, if Englishmen were to take their own high ideals, they could have no part or lot in them.
Other speakers went further. F. E. Woodman said: English people should beware lest the Anglo-Japanese alliance handed over to Japan the supremacy of the Pacific Ocean, for with it would go Australia, India, Hawaii, the Philippines, and Alaska, and that would give the supremacy of the human race to the yellow man.
The World, of which Lord Winterton is editor, makes a special feature of an article urging a serious reconsideration of the British policy in regard to Japan. "According to this article Japan is to the United States, strategically and commercially, and in fact, in 20 years, what Germany is to Great Britain."
To a large extent, continues the writer, Lancelot Lawson, "we were compelled to enter into the original alliance."

FIRE IN TEA WAREHOUSE
At Early Hour Fate of "Saldia" Stock Was in Doubt.

Fire broke out at 2 o'clock this morning in the Saldia Tea Co.'s four-story building on Yonge-street, just above Front.
Dense smoke was coming from all windows when the firemen arrived, and it rendered it difficult to locate the seat of the trouble.
There is \$40,000 worth of tea in the building, which smoke and water, as well as fire, may destroy.
As 2:15 the flames seemed to be in possession of the rear of the building, and were showing from the upper windows.

PASTOR AFTER FIELDING
Says Sabbath Was Desecrated by Tariff Negotiations.

OTTAWA, April 10.—(Special.)—Rev. R. G. Peever, pastor of McLeod-street Methodist Church, this morning condemned Hon. W. S. Fielding for having conducted his tariff negotiations at Albany on Sunday.
If it be deemed, he said, a minister of a government which had passed the Lord's Day Act, to desecrate the day by conducting public business upon it.

IMPORTANT CHANGE.
Longer Hours for Downtown Stores.

The merchants in the central business district who have no district branches have been some time considering the advisability of remaining open during the evenings. This was partly brought about thru the male end of the customers protesting from time to time that they were unable to make the purchases they wished in the daylight hours. The Dineen Company have yielded to the popular demand, and at beginning Monday will remain open every evening until 10 o'clock. The change has been brought about by the fact that Toronto is now a very large city, and the distance between factory, office and house and the shopping district are quite considerable to negotiate.

WOMAN'S RIGHTS IN RUSSIA. Agitation started to enable women to become owners of farm lands.

ST. PETERSBURG, April 10.—The first women's rights agitation has been formed in Russia. Among its chief objects is agitation for the modification of Premier Stolypin's Land Reclamation Act for converting communal peasants into freehold farmers.

The agitation will take the direction of enabling women to purchase agricultural land and eventually to become owners.

STILL IN THE COURTS. The lawyers representing the Slater Shoe Company in their campaign against injunctions and counterfeits are carefully making every move.

Offers have been made by some offenders to settle and discontinue, but the Slater Shoe Company are intent on securing a conviction which will stand as a precedent.

A merchant who buys any of the imitations of Slater Shoes will also buy a "first option" on a lawsuit," said one of the legal authorities on the case as he outlined the procedure and the policy to be enforced as soon as the case now in courts came to trial. A speedy trial is being pressed for, but the defendants seek to delay the action.

Big Evening Hat Offer

This city has outgrown the day-shopping proposition, at least as far as men are concerned. Thousands living here are unable to steal any daylight hours to spend on the selecting of wearing apparel and are positively forced to do their shopping after six o'clock.

And more than that we have decided to make our store a good place in which to shop at night by offering some extraordinary values in all lines of English-made Hats, as well as the latest productions by world's famous makers, such as Heath of London, Dunlap and Stetson of New York and Philadelphia.

We have spent some months making such arrangements with the manufacturers as will give you a Stiff Felt Derby or a Soft Felt Hat, manufactured by the best English makers and in both American and English blocks, for \$2.50. You cannot duplicate these Hats beyond our doors for \$3.

SPECIAL STIFF OR SOFT FELT HAT, \$2.50

We stand behind this Hat with a guarantee that it is the very latest design and the very best of fur felt quality. Come in and see what we have to offer, even if you do not need a Hat. We want you to compare it with the other kind.

The difficulty in stirring up the interest of the citizens where "off season" bylaws are concerned, was evidenced in the light vote on the water mains in the very districts to be benefited. In the polling places taking in Earlscourt, Dovercourt, Wychood and Broadcourt only a small proportion of the qualified electors took the trouble to mark their ballots.

RUSSIA EXPELLING JEWS POPULATION IN TERROR

Sixteen Hundred Bokhara Farmers Suffer Expulsion and Are in a Desperate Plight.

BERLIN, April 10.—(N. Y. Times Cable.)—Expulsion of Jews from Russia are taking place on a scale unprecedented in extent and cruelty. The details received by the German Jewish Relief Association indicate that the number is increasing from day to day, and already reaches far into the thousands.

The entire Jewish population of the Russian Empire is in a state of the utmost terror. Almost every community outside the limited regions where Jews are permitted to dwell is daily the scene of wholesale evictions, Jews acting in co-operation with the Jewish Baltic provinces and also Jews in Kiev are being persecuted with special severity.

In Kiev alone 1200 families have been deprived of the right of further domicile. One thousand six hundred families of Bokhara Jews have been driven from their homes during the last few weeks, and now find themselves in a desperate plight. The Emir of Bokhara, acting in co-operation with the Jewish Russian persecutors, has refused to permit them to re-enter the country.

PROTESTS AT HINT ERUVIKGJAND EBY. Protesters at the Russian ministry of the interior, which formerly resulted in the abandonment of the Russian Jewish expulsion methods, have now become entirely futile. There is no longer any doubt that the persecution movement has the support of the highest and most responsible authorities.

The Toronto World

FOUNDED 1888. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO.

MONDAY MORNING, APRIL 11, 1910.

TELEGRAM AND TUBES. The Evening Telegram, having no constructive ability, lies in wait for the proposals of others, and attracts attention by tremendous feats of demolition.

On Saturday one may observe the approaches being laid for an attack on the tube proposals. The building of a tube system on the New York plan is assailed.

It also charges 'The World' with an attempt to lead up the 'project with estimates so extravagant as to prevent progress on the tube scheme for the next twenty years.'

The World believes that expert opinion can be got which would simplify the whole problem. So, we believe, does the city engineer.

The Toronto project is quite large enough. It was properly put before the professional world in the municipal and engineering journals, to attract skilled attention and advice.

Immense sums will be saved by getting knowledge to bear upon the tube scheme. If it is to be a matter of cheap experiment and guesswork, such as the Telegram usually supports, no doubt the city will have to pay dearly in the long-run.

The Telegram, it will be noted, as in other cases, has no plan of its own to propose. It is probably quite justified in not trusting its own judgment.

TORONTO PLAYERS' SUCCESS.

Toronto at least has no reason to be disheartened by the awards in the competitions held at the gracious invitation of His Excellency Earl Grey. Congratulations are due to the Dickens Fellowship players.

It is well to note how this works out. The short rides are taken as a rule by people who do not value money except as it contributes to their luxuries.

ALTHOUGH the electors who took the trouble to vote upon the hospital and water extension bylaws represented only a small percentage of the number qualified, the result was exceedingly satisfactory.

ingly satisfactory, since it indicates the privilege of having it killed by a speech from the minister of justice.

Government by commission does not mean loss or impairment of popular control. The right of initiative and recall and the referendum provide ample protection, more, indeed, than is secured by the present system.

IMMIGRANT RUSH OVER THE I. C. R.

Record Number of Trains in the Past Month.

HALIFAX, April 10.—The rush of immigrants has kept the Intercolonial officials busy providing means of transportation, and altho the demand for trains has been large, there has been no delay in this respect.

That this season will be a record one for the number of immigrants landed in Halifax from Europe and dispatched over the I.C.R. on route west, is quite evident by the way the new settlers are being rushed in during the few weeks.

It is well to note how this works out. The short rides are taken as a rule by people who do not value money except as it contributes to their luxuries.

PASTOR RUSSELL'S SERMON Mountains Swept Into the Sea.

TEXT—"We Will Not Fear Tho' the Mountains Be Carried Into the Midst of the Sea." (Psalm xlii, 2).

Pastor Russell, accompanied by Dr. Jones, who will serve him as stenographer, and by a representative of this journal, sailed from New York April 5 for Paris, Bern, Naples, Alexandria, Cairo and the Pyramids, Jaffa, to Jerusalem and vicinity. His visit will be via Rome, Vienna, Warsaw, Berlin, Eberfeld and London. Meetings have been arranged for enroute. His longest stay will be in Great Britain where about twenty appointments in the principal cities await him.

He will be speaking practically every day. His Sunday discourses will be especially reported in these columns. Special interest will centre in the discourses at Jerusalem and Rome. The many readers of the "World" will follow the pastor in his journey with great interest. He is scheduled to be back in Brooklyn June 5, when his topic will be "The Mountains Swept Into the Sea."

I have chosen for my text a sea-fable, a symbolic prophecy which, I believe, is rapidly nearing fulfillment. All Bible students recognize that the time of the inauguration of Messiah's millennial kingdom is near. Some of them detail the peace and joy and blessings which will then prevail amongst men when the great leveling processes of the time will raise all the worthy poor and degraded and will humble all the proud, establishing society under such new conditions that the new order of things will be symbolically styled in the Scriptures "a new heaven and a new earth, wherein dwelleth righteousness." (II Peter iii, 5-6). Others of the Psalms describe in highly figurative terms the work of the millennial age. For instance, we read:

"And thy sword upon thy thigh, O most mighty, with thy glory and thy majesty. And in thy majesty ride prosperously, because of truth and righteousness; and thy right hand shall teach thee terrible things. Thine arrows are sharp in the heart of the King's enemies; whereby they shall be brought down: they shall be brought down as the slain of the Lord." (Psalm xlviii, 1-4).

The great Creator has contended Himself with such a supervision of human affairs as leaves much responsibility in human hands. He merely interposes to raise up or to bring down the man of the hour. His cause and program may demand. For instance, the case of the Pharaoh, judged to be the Egyptian ruler, who would not bow down to the God of Israel, God there raised to the throne a man of great determination, and hindered from reaching the throne by the men who were favorable to the tyrant. Thus, without interfering with the free moral agency of the king, God raised up a man to succeed him, and the remainder He restrained. Similarly, God previously raised Joseph to the governorship of Egypt for his wisdom and his ability to deal with the famine. The prophet describes the tumult of the day of overwhelming trouble, when God's Kingdom will be established on earth. "The mountains will be troubled, the mountains will quake with the swelling thereof. In the fourth and fifth verses following our text the church is symbolically pictured as the City or Kingdom of God, His dwelling-place. The stream of truth is represented as a river making the city clean and fresh and glad. The proclamation is that "God is in the midst of her! She shall not be moved! God shall help her early in the morning—early in the millennial morning. The church to be a first-fruit unto God." Her salvation as the Bride of Christ will be accomplished early in this millennial morning. On how else will all those accounted worthy of a place in that elect church—the church of the first-born, whose names are written in heaven—shall not be moved? It is in agreement with the first verse in assuring us that God's people will be preserved from fear and doubt, misunderstanding of the events of that "time of trouble" and that their faith will enable them to triumph over all their adversaries. The beatitudes (the people's) raged! These words describe the tumult which will prevail amongst humanity in the great time of trouble before the climax is reached. "Raging" angry voices arise from public meetings, and in the more private meetings of the laity, the laborer and capitalist, and thru the columns of the press to the extent permitted. In Germany the "raging" press for some time has been muzzled. The same is true in other nations. In Great Britain, in the United States and in

Realty and Building

Real estate in South Parkdale and in the High Park district has been very active in the past few weeks. Several large residences have been sold. W. H. Williamson, who recently retired from business, has disposed of his beautiful home, 101 Jameson-avenue, to N. C. Maynard, and will leave in a few days to reside in California. Mr. James Simpson has sold his new residence on High Park-boulevard. It is understood he obtained \$100,000 for it. Atkinson Bros. sold their new doctor's residence, corner Roncesvalles and Walter-street, to Dr. McVicar, who will shortly occupy it. The cut of this was advertised in a recent issue of The Sunday World. They have sold several large dwellings in West-

ter-street recently. Mr. Duggan has disposed of several recently at prices ranging from \$600 to \$800 on Sunny-side-avenue. Vacant land has taken a rapid rise on Roncesvalles and several hundred feet have changed hands during the past week at prices ranging from \$60 to \$75 per foot. An offer of \$80 was refused for a block of 60 feet near Geoffrey-street. Land on Glendale Algonquin and other streets west of Roncesvalles has sold during the past week at prices ranging from \$60 to \$75 per foot. It is surprising to see the rapid development that has taken place in this district during the past year.

Conservation: What It Involves. Dr. Fernow's address before the Canadian Institute, Saturday evening, concerned itself not with facts but with the attitude of the mind towards conservation movement, a movement which takes its origin from the more limited movement for a reform in the use of the timber resources of the continent.

He characterized this movement as a fight for the right of future generations to enjoy the same natural resources that we enjoy today. He demanded the restraint of private greed for the sake of the public good. It is the attitude of the mind towards conservation for individuals. It is the answer which the twentieth century gives to the laissez faire philosophy that has so strongly influenced the economic and political life of the nineteenth century.

The lecturer pointed out that in the United States during later years paternalism had become rampant and rights which even in paternalistic Germany would not find sanction, were supported by the courts. A classification of resources was attempted, namely, into exhaustible and inexhaustible ones; the exhaustible ones being grouped in minerals, and the inexhaustible ones in water, wind, and solar energy. The lecturer pointed out that in the United States during later years paternalism had become rampant and rights which even in paternalistic Germany would not find sanction, were supported by the courts.

Water Bad for Eczema. MANY SUFFER DURING COLD WEATHER—GREAT RESULTS FROM Dr. Chase's Ointment. Winter is dreaded by people who are subject to such skin affections as eczema and salt rheum and by others whose skin is easily irritated by cold and dampness. There is nothing so bad for eczema as water and exposure to cold piercing winds. And there is nothing so effective in curing eczema, as Dr. Chase's Ointment. This has been proven in many thousands of cases such as the following:

Henrietta Croaman in "Sham." At the Princess Theatre, Thine night Henrietta Croaman will enter upon an engagement of three nights and Saturday matinee, presenting here for the first time the haunting music so characteristic of that romantic land. A special augmented orchestra is an added feature.

Public Amusements. "The Love Cure." The "Love Cure" Company, with its gorgeous scenic equipment, arrived in Toronto last evening for a three-day engagement at the Princess Theatre. This is another big show by the Indian Henry W. Savage production, and is regarded by the sole legitimate successor of the "Merry Widow." It is a Venetian opera with an American setting, and has the haunting music so characteristic of that romantic land. A special augmented orchestra is an added feature.

Cobalts Show Disposition To Ease Under Liquidation

Mining Issues Subject to Small, Erratic Fluctuations, with Easier Tendency Apparent in Most Instances.

World Office, Saturday evening, April 10th. What is usually termed the "bull" market characterizes trading on the exchanges dealing in the Cobalt Silver Mining Stocks, and, for that matter, has done so for some little time...

There is one argument in favor of increased interest in connection with the Ontario silver stocks which is coming into more prominence from day to day, and that is the increasing lack of confidence in the United States copper issues...

Interest in relation to the lower-priced stocks continues to be maintained, such stocks as Cobalt Lake, Timiskaming and Little Nipissing, with prices in this connection subject to small, erratic fluctuations...

The only news feature of interest during the past week has been the asking to the shipping list of one Elk Lake property, the Lucky Godfrey...

The market closes the week with prices in the majority of instances a little below those of current week ago. It is generally believed that as long as the present feeling of stability prevails among speculators...

Following are the shipments from the Cobalt camp for the week ending April 8, and those from Jan. 1, 1910, to date:

Combination of Circumstances Against the Wall St. Market

Tight Money, Strikes and Other Matters a Puzzle for the Bulls—Canadian Securities Have Started Sagging.

World Office, Saturday Evening, April 9.—Wall-street's usual method of bidding for stocks on the appearance of bad news was attempted this week. Further engagements of gold, making the total already sent out \$3,500,000, was, if the market was to be believed, accepted as a subject of congratulation. The moving spirits in the market took hold of United States Steel and Union Pacific as the two issues which would exert the biggest influence in sentiment and ran them up several points.

A slight disruption in the prices of the coal and steel shares has brought Canadian speculators to a more conservative frame of mind. The annual statement of the Dominion Coal Co. was an eye-opener except to those who were able to size up the company's earnings and accounts for the past year. The dividend is not to be paid until the end of the year. The company's earnings for the year ended Dec. 31, 1909, were \$1,000,000. The dividend is not to be paid until the end of the year.

Between gold reports and the government crop report issued on Friday, the market has had its hands full of material sufficient to make it lower prices. The rally early in the week was ascribed to the much improved crop outlook and the market boosters promised a more definite improvement in stocks when the April crop report became known. The publication of the government figures had the effect of showing that the crop was not so good as it had been held to be.

At no time in the last ten years has public interest in New York stocks dwindled to such a small affair as at present. The business is pretty much left to the floor traders and insiders, and there are enough outside operators still there to permit of reasonable fluctuations, which have to be varied with more than the usual movements in order to eliminate the possibility of a steady price. This is bad, but only when the abandoned acreage is available can the true condition be realized.

NOTICE is hereby given that a dividend at the rate of eleven per cent. (11 per cent.) per annum upon the paid-up capital of the bank has been declared for the three months ending 30th April, 1910, and that the same will be payable at the Head Office and Branches on and after Monday, the 2nd day of May next. The transfer books will be closed from the 18th to 24th of April, 1910, both days inclusive.

On Wall Street. Erickson Perkins & Co. had the following: The early break in stocks did not bring out many long holdings. The selling was probably to a large extent to cover later on they bid prices up on them. The market was a bear attack, but when the shorts tried to cover later on they bid prices up on them.

Wall Street Gossip. Joseph says: Traders will naturally await developments that will be conservatively bearish. Good support will be given to Rock Island, M. & K., and C. and O. Average B. R. ROSS SENTENCED TO HANG MORAN TO SERVE 10 YEARS

Justice Mulock Imposes Penalties at North Bay—Gouin, Guilty of Assault, to Be Sentenced Later.

NORTH BAY, April 10.—(Special.)—Deplored the seeming growth in the disregard for law evidenced by the fact that, in the past week, three murder charges were tried by a jury, the only one was the capital crime held proven by the jury. Chief Justice Mulock Saturday night imposed sentences as follows:

WALTER ROSS, for the murder of his companion prospector, Percy Parkinson, to be hanged on Friday, May 20.

JAMES MORAN, for manslaughter, in causing the death of Wm. Dyon in a fight—10 years in penitentiary.

SAUL GOUIN, acquitted of murder, but convicted of assault and doing bodily harm—sentence postponed.

Early Saturday the jury trying Saul Gouin, accused of shooting Mary Smith in a shack near Cobalt two years ago, returned on acquittal after two hours' deliberation. At a previous trial the jury disagreed with ten for acquittal. A hum of satisfaction thru the court was answered by the declaration of G. T. Blacklock, K.C., crown prosecutor, that the verdict was a travesty on British justice.

An unusual feature of the case was the stalling of the verdict by Judge Mulock until certain portions of the evidence, wrongly interpreted by the crown, had been re-read. He asked the jury to again retire for consideration. This they refused to do, stating that all the evidence had been carefully considered, and a verdict been arrived at.

When the court resumed on Saturday, Gouin was placed on trial charged with wounding with intent to kill and wounding and causing serious bodily harm. He was convicted on the latter charge, the jury being out two hours.

Justice Mulock, in passing sentences, made scathing denunciation of Gouin, whom he charged with being guilty of coldblooded murder, without a shadow of reason or excuse. He sent him back to jail until the autumn assizes, when he will receive sentence.

Young Moran, accused of G. L. T. Bull, made strong plea for clemency, backed up by petitions from leading citizens of Ottawa, and strong letters reciting the prisoner's good character and the fact that he had been left fatherless at five years, and had been forced to make his own way in the world since he was ten. Prosecutor Blackstock seconded the request for mercy, in a strong plea full of charity for the prisoner, and the judge concurred in both, but said that the interest of justice demanded the sentence.

None of the prisoners had anything to say except thru their counsel. Moran being most affected apparently, seeming to be dazed after the sentence, and, standing with his head down, had to be told repeatedly by the constable to take his seat.

Gouin was visibly affected by his position, but Ross, on the other hand, emotion, and walked firmly back to his cell.

The scene in the crowded courtroom was one of intense interest, as a large audience listened to Justice Mulock's solemn and charitable remarks as he sentenced Ross and Moran, and his denunciation of Gouin as a murderer for whom no sympathy could be extended, but to whom a large measure of mercy had been extended by the various jurors who had considered his case.

He deplored the seeming growth of disregard for the law, and hoped that, in this district, the lesson of this court would result in men better controlling their passions and living good and true lives.

BIG BRIST OF COUNTY AND SUBURBAN NEWS

Spring Seeding is Well Under Way—Earls Court Wants Fire Protection—Notes.

NORTH TORONTO, April 10.—(Special.)—In all the town churches to-day there were large congregations, the delightful weather serving to swell the attendance.

In Earls Court Methodist Church, where Rev. Mr. Balfour held a receptionist meeting, following the special evangelistic meeting, so less than 21 new members were received. The evening service, especially, was full of interest, and the occasion was one long to be remembered.

In Eglington Presbyterian Church, and in St. Cleon's, the congregations were especially large and full of interest.

For the first time in a long while, the Rev. Mr. Anderson of Bedford Park, who has been seriously ill, was able to come downtown. A host of friends, York County, and in the city, will learn with pleasure that the worthy ex-councilor is now on the high road to complete recovery.

Road Foreman Christopher Turner of Eglinton-avenue is suffering from rheumatism and confined to his home.

Ex-Assessment Commissioner J. M. Whaley is taking short drives and gentle exercise, and shows marked improvement.

Councillor H. J. Brown is doing largely to the dimensions of his conservatory.

The next "mothers' meeting" of the Earls Court Methodist Church takes place in the Sunday school room on Wednesday, April 13. Let the mothers attend.

On Sunday evening, April 11, in Earls Court Methodist Church, Rev. Mr. Ono, a Japanese student of Victoria University, will give the subject.

Don't forget the concert in the Davilleville Methodist Church on Friday evening, April 12, at 8 o'clock, by the Clinton street Methodist Church choir.

There were the usual number of property hunters looking for choice residential sites on Saturday afternoon, and a number of sales were effected.

Librarian Hogins' report shows that for the month of March the public library was opened 14 times, number of tickets, 215; increase during month, 57; number of books exchanged, 58, with the total number of volumes, 75.

The report of the committee of young gentlemen who volunteered to take a census of the Bedford Park district with respect to the establishment of a public school, have submitted their report.

It shows Mrs. Independent of a total of 40 children, and between 4 and 5 about 20. An analysis of the attendance at English school shows some 20 absentees altogether.

A report, which is, however, unconfirmed, is to the effect that the old Selder farm has been sold and will be immediately cut up into building lots. Allegedly the price of the property is credited with getting \$16,000 to relinquish his lease, which has yet five years to run.

It is further stated that the town council will revert to the old-fashioned system of street sprinkling, or whether the present one, which was tried out late in the fall, will be reintroduced.

WEST TORONTO.

WEST TORONTO, April 10.—On Monday night the Rev. Mr. Maggett of the Park-avenue Methodist Church will be addressed by Rev. J. H. Haggwood, former pastor.

Sarah Maggett, wife of Wm. Maggett, died Saturday, in her 42nd year after a long illness. She was a devoted and growing family. The funeral will take place at St. Philip's Cemetery at 2 p.m. on Monday.

William Darling, Lambert Mills, died Saturday after a lingering illness, in his 88th year. He was a member of the Oxford Chapter will visit.

Earls Court. Big Thickly Congested District Has Inefficient Fire System.

EARLS COURT, April 10.—(Special.)—The tremendous importance of a more modern and efficient system of fire protection over the whole of the big and rapidly expanding Earls Court district, is becoming more and more apparent. The present conditions as they exist are a menace alike to the lives and property of hundreds of owners and the city cannot begin to cope with the work of installing better protection.

NEW TORONTO. Large Variation in Prices for Sewerage Work in Township.

NEW TORONTO, April 10.—(Special.)—A special meeting of the Etobicoke Council will be held on Thursday to consider the tenders for the new sewerage system which will later be installed. It is gratifying to the council and property-owners that they have been enabled to secure the services of T. Aird Murray, C.E., and his associate partner, McCallister, to supervise the work. Out of the ten firms tendering on the work a very wide disparity of prices exists, the figures ranging from \$11,000 down to \$440.

SEEDING WELL ON THE WAY.

The past week has been a busy one among the farmers of York County, and on many of the well-tilled lands practically all the grain has been sown, with the possible exception of peas, which the early seeding season has dried up the land, so that it is difficult to come across a single field which is not grand shape for cultivation.

The ground is fine and loamy, and the work has been done by the men and women and teams. By the middle of the week there will be little left to do, but the county is in the shape of spring seeding. Fall wheat and grass seeds look well, the warm rain would be beneficial to each.

YORK COUNTY NOTES.

J. J. Griffin, a former Markham Township farmer, and later Cobalt mining man, has bought 250 acres of land in Pickering, three miles west of the Town of Whitchurch, and has already let the land to the Farmers' Union to be planted thereon. The barn will be 60x125 feet, and will be the largest by all odds in Pickering Township.

Newmarket is experiencing a real building boom.

Whitchurch Township Council will appropriate enough money to pay for 200 tons of crushed stone to macadamize Wellington-street from the town limits to the second concession.

English Cotton Spinners to Reduce Wages.

MANCHESTER, England, April 10.—The master cotton spinners' federation have voted in favor of a five per cent reduction in the wages of operatives, and have called a joint meeting of employers and spinners to discuss the matter. The step was taken owing to the depression in the cotton trade. It is believed that the operatives will strongly resent the proposition.

Followed His Victim to Deathbed. NEW YORK, April 10.—A man named Gaudet, who had followed his victim to a hospital, and stooping over him where he lay dying, whispered: "You don't get up, get up!" before the horrified attendants could catch breath he had fled. Miller died a few minutes later, but not until he had given the name of his murderer.

What Kind of Overcoat Do You Intend to Get This Spring?

BE FRANK with yourself—did you intend to get an Overcoat at all? Didn't you just put off deciding and drag along hoping to jump out of your winter coat into shirt sleeve summer without any intermediate stage at all?

You shouldn't hope to do that. You shouldn't try. It's not doing yourself justice. A Spring Overcoat is part of a gentleman's equipment and only false economy prompts a man to attempt to do without one.

Let us go into this question with you in person. Won't you step into the Men's Store next time you are passing? Raincoats, Chesterfields and Toppers all have their own merits.

Men's Spring Weight Overcoats, in fine grade all-wool English cheviot, rich black shade, silk-faced lapels, fine mohair twill body linings, \$12.50. Men's High-grade Stylish Spring Overcoats, made from a medium grey, fancy herringbone striped English worsted, cut on the latest Chesterfield model, long shapely lapel, button through style, finest trimmings, \$15.00.

Men's English Covert Cloth Raincoats, dark Oxford grey and greenish fawn, Chesterfield style, heavy mohair body linings, suitable for fine or stormy weather. Extra value, \$12.00. Men's Automobile Waterproof Coats, genuine English paramatta cloth, greenish fawn, strictly storm proof, button close to throat with Prussian collar, latest auto style. \$15.00.

Two Clearing Lines of Men's Underwear

2300 garments of spring weight natural wool, fine saten trimmings, elastic rib cuffs and ankles; all sizes up to 42; shirts or drawers. The regular selling price would be \$1.00 per garment. On sale Tuesday, 69c garment. Phone orders filled.

1000 garments of Balbriggan Underwear, in shades of blue, pink and natural, splendid trimmings; all sizes up to 44. These are the garments you are accustomed to pay 50c for. Buy them here at, per garment, Tuesday, 39c.

Have You Bought Your Spring Hat Yet?

SOME men would never get a new hat if it were not for their wives, or if our ad. didn't keep reminding them.

Some specially good values here on Tuesday:

Men's Derby Hats, new shapes, fine English make, latest styles, color black only. Tuesday, 79c.

Men's Derby Hats, extra fine grade, best fur felt, and celebrated English makes, up-to-date styles, colors black and brown. Tuesday, \$1.39.
