THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, APRIL 16, 1920

### "That's My Idea of A Spring Suit"

That's the expression that concludes most of our sales. After all, it's the appearance of the Suit on the individual that is the determining factor of the sale.

Men who are committed to the policy of good dressing concentrate on general effect.

Unless the fabrics have the rich appearance, the tailoring finished to a nicety, the models trim and tasty, and the patterns characterful, no good effect can exist.

Men who trade here take quality for granted—value assured. Our effort is to match the Suit with their personality and taste. Our broad variety and our experienced judgment enable us to do these things with almost unfailing regularity.

### AFTER "FLU," GRIP

Fever and Other Prostrating Diseases that Exhaust the Blood.

There is often that extreme tired feeling, loss of appetite, tendency to anemia, nerve exhaustion, inactive bowels, constipation and great danger of still further prostration and serious illness.

Hood's Sarsaparilla first works upon the blood. It is remarkable how promptly its purifying, vitalizing effects are noticed. It "makes food taste good," promotes assimilation so as to help secure the greatest nourishment possible, promotes digestion. Nerve strength and healthy health inevitably follow, further danger is avoided and the glad-to-be-alive feeling again prevails. To read this is well, to realize it yourself is better.

Get Hood's Sarsaparilla today, and for a cathartic, nothing better than Hood's Pills, in small doses a gentle laxative; larger, an active cathartic.

### ONTARIO LABOR M. P. P'S REPORTED TO BE AGAINST REFERENDUM

Toronto, April 15—Caucuses were held today by the U. F. O.-Labor M. P. P's and by the Liberal M. P. P's on the matter of a request to the dominion government to hold a referendum in Ontario on the importation of liquor.

The government caucus, it is understood, brought out the fact in an emphatic manner, that the Labor members are strongly opposed to the resolution, and that they did not support it.

### What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unsolicited testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs, and of course like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says 'I will rub them with some liniment I have.' 'Go ahead,' I said just to humor her. 'Well, in she comes with a bottle of MINARD'S LINIMENT and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so.' (Signed) FRANK E. JOHNS, Montreal.

### KILL GUARD IN BRAINTREE AND STEAL \$27,000

Gang of Robbers Get Payroll of Slater and Morrill Company.

Braintree, Mass., April 16—A band of robbers yesterday killed Alessandro Jandelli, a guard, probably fatally wounded Frederick Penner, paymaster for Slater & Morrill Company, and seized the firm's payroll amounting to \$27,000.

### FOR NATIONAL FOREST POLICY IN STATES

New York, April 16—Legislation for a national forest policy in order to promote re-forestation, which is regarded as essential for the paper industry was recommended yesterday to the annual convention of the American Paper and Pulp Association by its committee on forest conservation.

### DROPS UNFAIR TRADE CASES

Federal Trade Commission Acts on Two Pattern Company Complaints.

Washington, April 16—Upon its own motion the federal trade commission has dismissed its formal complaint against the Butterick Company, Butterick Publishing Company, Federal Publishing Company, Standard Fashion Company and the New Idea Pattern Company, all of New York city, containing allegations of unfair competition and the use of so-called tying contracts in the manufacture and sale of dress patterns.

Dismissal, the commission announced, was made without prejudice to the right

to issue another complaint with respect to the same subject matter directed to such respondents as the commission may elect.

Bones of a human being were found in a dump at Kingston, Ont., yesterday. It is believed they had been used by medical students and discarded.

## Better Methods---

Better methods push their way to the front everywhere; from the tiniest workshop to the factory of million dollar dimensions.

In the kitchen, too, are better methods utilized; better ovens, better utensils, better ingredients for the goods the kitchen produces.

Where's the point? The household that has been using Star Flour for sixty years is still using it.

Proof conclusive that no improvements are possible in Star Flour—no better methods obtainable in the art of kitchen cookery than the formula using

## COSTS OF FOOD DISTRIBUTION ARE TOO GREAT

Washington, April 16.—The costs of food distribution are too great, the federal trade commission declared here, and recommended improved marketing facilities and processes at the great consuming centres as a long step towards lowering the high cost of living.

"The movement of food should be made most direct from field to factory," the commission declared in a report on wholesale marketing of food; one of the series in the food price investigation ordered by the president.

Elimination of unnecessary costs and losses in food distribution, the report added, would not only "act as a counter agent in checking disparity in food prices and money incomes, but would

strengthen the nation's position in its competition for world trade."

The report asserts that the rapid rise in food prices in recent years is not so significant as that "the money incomes of large numbers have fallen far short of a proportional increase."

"The weekly wage of union organized labor is 1918 bought but 77 per cent. (according to the department of labor) as much food as in 1918. The larger number of service incomes do not fall within this group and are much slower to respond to the pressure of a higher cost of living. Moreover, these incomes are for the same reason usually less in amount. It follows that for very large numbers of people receiving relatively small incomes, a week's wage in 1918 was purchasing much less than 77 per cent. of the food it bought in 1918."

Food absorbs 82 per cent. of the average American household's income. It, therefore, constitutes no inconsiderable part of the wage and salary cost in all production. Of two communities whose products enter the same markets otherwise equally, that one which supplies its working people with food at a lower community cost, either will pay its working people a higher real wage or will have a marked advantage in underselling the other through lower production costs. Both results may in some measure follow.

"A wise government policy toward the food industries may lower production and distribution costs together with the final sales price without proportionately increasing government costs, thus reducing the national cost of food."

## IMMIGRATION A NECESSITY

Without Aliens Americans Would Starve Says Prof. Pupin.

New York, April 16.—"Americans would starve and freeze to death if immigration were eliminated from our national life," Prof. M. I. Pupin, of Columbia University, declared here in an address before the conference on foreign immigration, held under the auspices of the international council.

"We could not do our work in twenty-four hours or twenty-four years," the professor continued. "Approximately 61 per cent of the workers in the bituminous coal mines are foreign born, 71 per cent of the workers of the packing industry are foreign born, 50 per cent of the railway maintenance workers and 72 per cent of the pottery workers are foreign born."

Dr. Antonio Stella, representing the Italian immigrants to America, protested against the literary test, which, he said, "excludes the toiler, who is a good workman but a poor scholar, upon whom America depends for her posterity."

The Audit Bureau of Circulation audits the circulation of The Evening Times.

#### CLEAN UP THE CITY.

It is possible that in urging the citizens to make St. John more presentable by a good spring cleaning, and the application of a little paint, one might be charged with inviting them to get ready to have their taxes increased; for it is alleged that the citizen who improves the appearance of his property is subjected to a severe penalty. And if there is one infliction to be dreaded in St. John it is taxes, for the people have been educated to regard a tax-bill as a personal affront, not upon them but upon the city. A villainous oligarchy entrenched somewhere in the city hall, with no bowels of compassion, and with a ferocious determination to make life a burden for us all.

These ogres may exist, but, after all, there are worse things than taxes, and dirt is one of them. Why not a concerted clean-up week in St. John this spring? It would be good for the public health, and make the city more presentable. "And this is St. John," said a venerable citizen as he pointed to scraps of paper in large numbers all along the curb at a street corner. There is paper and other rubbish everywhere. Civic pride is dead, or such a quidnunc would not exist. Why not develop the community spirit? It should be developed in the homes, the schools, the churches, the organizations of all kinds. It would mean a cleaner and healthier city—a better city, in which to live.

#### THE OLD TORYISM.

Hon. Robert Rogers is again in Ottawa, and has given out an interview in which he announces that a Dominion Conservative convention will be held in Toronto early next month to rally the party forces to the defence of the old N.P. He says:

"During the last few months Liberal-Conservative organizations in different provinces have been discussing the advisability of a Dominion-wide organization such as we had in 1911. This discussion has borne fruit. It has been decided to hold a round table conference in Toronto on or about the tenth of May next. The delegates to this conference will be selected from the duly organized ranks of the Liberal-Conservative party in all the provinces of Canada. It will be a national conference. It will be the Liberal-Conservative party, and it will have the advantage of compactness and may be expected to transact business with dispatch."

Mr. Rogers does not go into particulars as to policy, but in a general interview that the purpose of the convention will be to bring the old National Policy up to date. He says not a word about Union government, but no Liberals are wanted at the Toronto convention unless they are prepared to adopt a Tory policy and support a Tory leader.

There are rumors in Ottawa that an election may be sprung by the government next fall. This, of course, assumes that an effort would be made to continue the Unionist party, but that will not suit Mr. Rogers. He wants a fight on the old party lines. Sir Robert Borden must choose between Unionism and Rogers before there is an appeal to the people. Whatever his choice, the future belongs not to the Conservatives but to the Liberals and the farmers. The country has had enough of high protection, and of a Unionism in which the Tory element predominates.

#### BLOCKED ONCE MORE.

If there is one thing more than another the people of St. John are agreed upon is that desirable and entirely feasible it is the establishment of a recreation field. The question has been discussed over and over again by representative organizations, and not a single influential voice has been raised in opposition. Nor can there be any reasonable opposition, since even the citizen who has no children can remember his or her own childhood and love of play. The Playgrounds Association, representing all classes and every organization interested in healthy physical development, through outdoor sports and exercises, has presented over and over again at City Hall the appeal for the development of the Rockwood recreation field. The annual report of the Association for the year 1912 contained the following paragraph:

"The most notable playground event of the year was the turning of the first sod of the great athletic field and recreation ground at the entrance to Rockwood Park by H. R. H. the Duke of Connaught, Governor-General, on August 19, in presence of one of the largest assemblages of citizens ever gathered together on a public occasion in St. John. A great procession of school children with banners was one of the features of the occasion, a special grandstand being erected for them and a speakers' stand for the Duke, the civic officials and representatives of this Association. This great field is the gift of Mr. Joseph Allison to the children of St. John. The city council has granted \$2,000 for preliminary work, and has been asked by this Association to add this year another \$2,000; and the Association hopes to be entrusted with the task of converting the area into a recreation ground

in accordance with a comprehensive plan to be designed by an expert. In recognition of his beneficent gift the Association elected Mr. Joseph Allison as its first honorary member."

That was in 1912. This is 1920, and all that has ever been done was to extend a sewer to carry off the outflow from Lily Lake past the grounds, and have a small amount of ashes dumped on the area. Some grants were made but not expended. On Wednesday four members of the city council wanted to issue a bond for \$10,000 to go on with the work, but Com. Jones blocked the measure by refusing his support.

We may assume that the Commercial Club, the Board of Trade, the Rotary Club, the Trades and Labor Council and all the organizations represented in the Playgrounds Association will not let the matter rest here. From the economic standpoint, if we did not consider our children at all, St. John should have facilities for recreation. We hope to get new industries, but one of the questions the promoters would be asked by investors would be: "What facilities have you for recreation for workers and their families?" And what would the answer be?

And what are the arguments now presented by two or three persons against the Rockwood proposition? Com. Jones is reported to have said there are playgrounds all over the city. What are the facts? The people of the south end have themselves, with a little help from the council, made a small playground, part of it on private property. The people of the east end have done the same, wholly on private property that may be taken for other uses at any time. The people of the west end have done the same thing with a portion of Queen square. The north end has no playground at all. The city council made a substantial grant for playgrounds this year, but there is still no playground. The city—except the portion of Queen square on the extreme border of West St. John.

But Com. Jones fears the railway may want the area at the entrance to Rockwood Park, and he thinks the ground is too low and may be flooded. These arguments are not original with Com. Jones. They were presented by a member of the Horticultural Association, who wants the playground located back of the Public Gardens and the money the other area would bring devoted to the improvement of the park. As to the flooding of the area, four or five engineers have given assurance that it can be drained and made into an excellent playground. Why question their judgment in the matter? As to the area back of the Public Gardens, it is about large enough to make a good neighborhood playground, but would cost as much foot by foot for proper preparation as the other—and there would be no room for expansion. If only a neighborhood playground is to be made let it be placed in the north end, where it is needed.

As to the matter of the railway taking over the area at the entrance to the park, that is merely an assumption, and if it should ever be taken over the government would have to pay for the improvements. Meanwhile the city has no recreation field.

One is led to wonder where those persons who are now so earnest about this matter have been all these years when efforts were being made by others to get playgrounds for the children; and why the will of the people should be flooded at the very moment the long desired action was about to be taken by the council. Must the citizens be forever organizing delegations and beating a path to City Hall? The situation is intolerable.

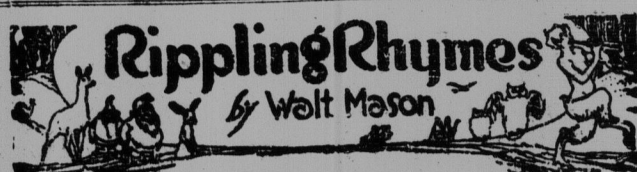

The Standard was so deeply impressed by Hon. Mr. Baxter's speech in the legislature yesterday that it printed two long reports, lest one would not do justice to the speaker—or might be misled by some unobservant reader. After a careful reading of both reports one is not convinced, however, that we should return to the methods of government which prevailed when Mr. Baxter was a member of the cabinet. Indeed he was very moderate in his criticism of the present administration.

The Ontario government has decided that if race-tracks are to exist they must pay. The tax is to be \$5,000 per day on half-mile and \$10,000 on mile tracks. The racing fraternity are highly indignant, but if as is stated the receipts are enormous they will probably continue to gather them in.

In New York city in 1909, of every thousand deaths 246 were due to tuberculosis. In 1919 the number was 128 per thousand. That is a good record for ten years and emphasizes the importance of preventive measures and a campaign of general education.

So acute is the housing problem in Toronto that the mayor is looking for sites on which tents may be placed for the summer.

The tax on hucksters in Montreal should have been a year with a new and attractive interest for young men.

#### DEAFNESS.

My ears don't work the way they should; my hearing isn't extra good; and agents come most every morn to sell some patent audiotone, some strange contraption, painted blue, to make me hear as well as you. I shoo said agents from my door and tell them to come back no more. To buy such traps I'd be a loon; my deafness is my greatest boon. The fellow with a weary tale with fungus on it, it's so stale, will pass me by before he'll tell his story when he has to yell. I miss so many tales of woe, so many chestnuts all men know, so much of gossip mean men who brought me news back again. And when I seek my couch all awake my gentle slumbers cannot break. I do not hear the rouser yell, I do not hear the milkman's bells, the hurrying motors screeching by can't make your uncle bat an eye. I'm satisfied, the way I am; you see me merry as a clam, and if I heard as well as you, no doubt you'd find me grim and blue.

##### BATTLE OF STE FOY.

On April 17, 1760, the French made a desperate attempt to regain Quebec which they had lost by the defeat at the Battle of the Plains of Abraham in the previous fall. Lewis, the French commander, had spent the winter in an endeavor to gather a force large enough for such a contest with a hope of success. On April 17 he set out with 7,200 men and marched directly towards the city of Quebec. He was assisted by several French vessels with stores for the army. All along the way to the attack he received reinforcements of Canadian troops so that when he reached Quebec he must have had an attacking force of about 10,000 troops of whom 5,500 were regulars. General Murray, the British commander, although greatly outnumbered, felt he must fight and so on the 28th of the month he met the French at Ste. Foy, not far from the Plains, and a furious battle resulted. The fight lasted for one hour and three-quarters and ended in the British being driven from the field. They retreated within the walls of Quebec and prepared to stand a siege.

Lewis was wild with delight as he imagined that once more the place was going to fall into the hands of the French. But on May 9 a ship appeared in the port. He thought it was a French vessel bringing him assistance but when the British colors were displayed he was amazed to find that it was three other warships of the British fleet anchored off the place. Lewis raised the siege and night and started back towards Montreal but the French ships in the port were attacked at once by the new vessels in the fleet and cleared the St. Lawrence of every craft flying the flag of the French monarch. So the attempt to regain the place for France ended in failure.

##### ABOUT THE TOWN.

Above the town a monstrous wheel is turning. With glowing spokes of red, Low in the west its fiery burning; And, lost amid the spaces overhead, A vague white moth the moon is fluttering.

Above the town an azure sea is flowing, Mid the best of its fiery burning; From opal unto pearl the moon is growing, Dropped like a shell upon the changing strand.—Richard Le Gallienne.

##### Things That Swell.

Wife—John, I saw in the paper that a nautical mile is nearly a seventh more than a land mile. Why is that, I wonder? Husband—Well, er—you know, my dear, that things swell in the water.—Pearson's Weekly.

##### A Loud Watch.

Ship's Officer—Oh, there goes eight bells, excuse me, it's my watch below. Old Lady—Gracious, fancy your watch striking as loud as that!—Pearson's Weekly.

##### Obedient Boy.

"Did you deliver my message to Mr. Smith, Tommy?" asked the manager of the new office boy. "No, sir," replied Tommy. "He was out, and his office was locked up." "Why didn't you wait for him as I told you to?" "There was a notice on the door, sir, saying, 'Return immediately,' so I came back here as quickly as I could, sir."—Pearson's Weekly.

The teacher was quoting wise saws to the class and getting their opinion about them. She said: "A discreet silence is better than the truth spoken without charity." Can any boy give a practical interpretation of that maxim? Some what to her content, a freckle-faced lad made this homely application: "If you see a cockroach on the table, do say anything about it."—The Outlook.

#### EMBARGO IS CAUSE OF DROP IN POTATOES

(Canadian Press Despatch.) Hamilton, Ont., April 15.—Distribution of potatoes from Ansonville county to points outside New England has been stopped by the railroad strikes and resultant embargoes, causing an almost precipitate drop in price here from \$10 to \$4.50 a barrel. The price today was \$6.

#### MORNING NEWS

##### OVER THE WIRES

The special house committee on pensions and soldiers' re-establishment held a sitting yesterday afternoon at Ottawa. Colonel John Thompson told of the working of the pension act, and said that some amendments were suggested in the interest of pensioners. He said there was not any heavy increase of liability to the country, neither was there any practical reduction. H. G. Clark, said to be from Vancouver, was found drowned in the river Thames, England, this week. He had crossed recently on the Grampian. Charles Kneller, aged ten years, was badly burned near his home in Lancaster, Ohio, yesterday by five older boys who tied him to a stake and then lighted a fire about him.

Arthur Stewart and Harold Guthrie, convicted of burglary in Berwick and sentenced to three years in the penitentiary. The suggestion of changing the name of the Church of England of Canada came up at the annual meeting in Montreal yesterday afternoon and was opposed successfully. At a meeting of the missionary and church corporations committees of the N. B. and P. E. I. Methodist conference in Moncton yesterday afternoon, it was recommended for the building of a new church at Drummond.

#### THIEVES MAKE QUITE A HAUL

(Boston Globe.) Thieves who ransacked the apartment of Nathan Fish, 26 Wabeno street, Elm Hill district, Roxbury, early last night must have been happily surprised when their overhauling of the place disclosed eight quarts of choice liquors and two quarts of alcohol. They took if all every drop in the house; also a fur cape valued at \$800, a woman's watch, much jewelry and silverware. And the family gave the police another surprise at the extremely modest value of the contents on the lost wet goods. Mr. Fish inventorying it to Sgt. Horton and Special Officer Gills as two quarts of champagne, \$1; two quarts of gin, \$4; one quart of wine, \$2; one quart of cocktails, \$2; two quarts of whiskey, \$10, and two quarts of alcohol, \$10; all of well known high-class brands.

The family was not at home during the early evening, but upon returning about 11:30 found the entire apartment overhauled and everything strewn about. The thieves must have made a long stay to do as complete a job as they did. They worked so quietly that the family did not know of the intrusion until they were at home all the evening, heard no suspicious sounds in the rooms overhauled. Entrance was gained by forcing a second-story back window.

#### BIG DIVIDEND OF ARLINGTON MILLS

Boston, April 16.—The Arlington mills of Lawrence makers of sorbets, yesterday declared a stock dividend of 50 per cent.

The Arlington corporation is controlled by William Whitman, a native of Nova Scotia. They employ 5,500 operators.

#### SUGAR TAKES A JUMP IN MONTREAL

Montreal, April 16.—Advanced prices on sugar became effective yesterday when the Canadian Sugar refinery increased their charge by \$2 a 100 lbs., making their price now \$18.50 a 100 lbs. and the St. Lawrence and Atlantic Sugar refineries each advanced \$2.50 a 100 lbs., bringing their sale prices to \$19. These are prices at the factory. Retail merchants here say that their prices will now range from a minimum of twenty cents to a maximum of twenty-three cents a pound.

#### FIRE FOLLOWS IN WAKE OF YEGGS

Levenet, Mass., April 16.—Yeggs dynamited the post office safe here last night, the building was destroyed by the fire that followed, causing loss of about \$6,000. The burglars obtained about \$115 in registered mail and a small quantity of stamps. The post office was in the general store of E. B. Hayward, who is postmaster. The store stock was valued at \$35,000. Residents awakened by the explosion found the two-story wooden building in flames.

## GOOD WORK OF W. H. A. TOLD OF AT MEETING

Visits to Hospitals, Good  
Cheer to Sick, and Other  
Matters Reported Upon —  
Activities of Committees.

The Women's Hospital Aid held a busy meeting in the board of trade rooms yesterday afternoon and received most encouraging reports of its helpfulness and of its increasing membership. Mrs. E. Atherton Smith, the president, was in the chair for the first part of the meeting and when she was called away unavoidably, the vice-president at large, Mrs. J. Vermer McLellan, took the chair. There was a very large attendance. In the absence of Mrs. J. Boyle Travers, Miss Addy acted as secretary. With regret two resignations from the executive were received. Mrs. C. F. Sanford tendered her resignation as treasurer, and after a unanimous and hearty vote of thanks had been extended to Mrs. Sanford on the motion of Mrs. A. C. Skelton, seconded by Mrs. J. H. Doody, she was elected an honorary member of the executive, and Mrs. H. Duncan Smith was appointed as treasurer. Mrs. George F. Smith resigned from the executive on account of being absent from the city during several months each year, and Mrs. J. A. Mulcahy was appointed in her stead. Mrs. W. W. White was appointed convener of a committee to take charge of the luncheon to be given to the delegates to the National Council of Women. Reports were given by Mrs. J. V. McLellan and Miss Millican on Easter gifts to the hospital, Mrs. E. A. Smith on a visit to the morgue, Miss Travers for the magazine committee, and Miss Addy as convener of the visiting committee. The reports were very satisfactory.

Mrs. E. A. Young thanked Miss Addy and her committee for kindness to an English girl from the Welcome Hostel and hearty thanks were tendered the visiting committee and all the donors of gifts. Mrs. E. Atherton Smith said that the nurses thought a personal property bag for each woman in the hospital would be most acceptable, and Mrs. Duncan Smith for the house committee said that she might be able to get these bags as a gift.

Mrs. T. H. Estabrooks was appointed convener of the visiting committee for the next month. On Mrs. A. C. Skelton's motion, seconded by Miss Addy, a vote of sympathy in her bereavement was extended to Mrs. L. Green, denominational vice-president. A letter of thanks for sympathy was read from Mrs. J. H. Doody.

**Treasurer's Report.** Mrs. Sanford gave her treasurer's report, saying that total receipts had amounted to \$4,700.34, and the balance on hand amounted to \$4,739.39. In the flower and comfort fund the balance was \$528. She spoke of the kindness of K. Pedersen in giving a discount on plants as his donation to the Easter gifts in the hospital.

Denominational membership reports occupied the remainder of the meeting. Mrs. A. C. Skelton for the Anglicans said that in the past month members had been enrolled as follows: Stone church, Mrs. F. W. Nichols, life member, and thirty-nine members; Trinity, 100 members; St. Jude's, twenty; St. James, seventeen; Good Shepherd, nine; St. Paul's, sixteen; St. George's, partially organized, with Mrs. W. H. Sampson as president; St. Luke's, eleven; Mission, twenty-two. Total fees for the denomination, \$142.50.

For the Presbyterians, Miss Etta Millican reported: St. Andrew's, ninety-nine and three donors, Mrs. S. J. Parkin, Miss Marion Knox and George Rob-

erts; St. David's, thirty; St. Matthew's, thirteen; Carleton, fourteen; Knox, sixteen and seven donors, Mrs. L. C. Armstrong, Mrs. Thomas Irvin, Mrs. F. S. Robertson, Mrs. G. M. Robertson, Mrs. Peter Campbell, Mrs. A. P. McIntyre and Miss Marjorie McIntyre. Total fees, \$97.

For the Baptists, Miss Alice Estey reported: Central, fifty-eight; Waterloo street, fifty; Germantown street, sixteen and two donors, E. M. Sippell and Harold Rising. Total members 126; total fees, \$68.

For the Catholics, Mrs. J. H. Doody reported: Cathedral, forty-two and one donor; Holy Trinity, sixteen; St. John the Baptist, four and one life member, W. J. Emerson, of Brooklyn (Mass.). Total fees, \$56.60.

Mrs. J. V. McLellan, who has at each meeting presented the longest denominational report and brought in a splendid total in fees and donations, gave a

### CHORAL SOCIETY'S FINE PROGRAMME

Oratorio in St. Jude's Last  
Evening Afforded Pleasure  
to Large Gathering.

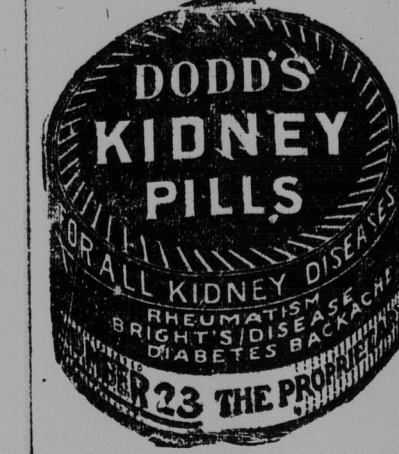

John Farmer's oratorio, "Christ and His Soldiers," was cleverly interpreted by the choral society of St. Jude's Anglican church, West St. John, last evening under the direction of Rev. J. H. A. Holmes. A large gathering was deeply appreciative of the merits of the excellent programme given. Those who took part were Miss Valde Fenton, Mr. Holmes, Mrs. G. G. Hare, Irving Appleby, J. A. Coster, Lawrence Harding, Miss Edith Nichols, Miss Muriel Ellis, Mrs. W. L. Harding and Mr. Kee. After the recital a congregational meeting was held in the Sunday school at which gratifying reports of work done by various departments of the church were received. Miss Dunham gave the senior W. A. report, Miss Ruth Coster, the girls' W. A. Mrs. T. Dean, the junior W. A. Mrs. B. A. Edwards, the home department; Superintendent John Griffiths, the Sunday school report; Miss Clement Fenton, the choral guild, and Scoutmaster S. G. Olive reported for the scouts.

#### MARINE NOTES.

The steamer Ajana, the last New Zealand Line vessel to come here this season, is expected next week.

The Canadian Voyager, C. G. M. M., reports by wireless that at noon on Wednesday she was off Cape Race. She is expected here from London about Saturday.

The Canadian Warrior is now at Judo loading sugar for St. John.

The Pretorian will leave for Glasgow, Scotland, on Tuesday next.

The Melita, C. P. O. S., arrived at Liverpool at 9 o'clock on Tuesday morning. She left St. John on the 4th.

The Corsican, C. P. O. S., arrived at London at 6 a.m. on Saturday from St. John and Havre.

Towed by the cutter Osipier, the steamer Mytic, disabled at sea by the splitting of boiler condensers, arrived at Boston yesterday.

The steamship Tashmoo, New York to Irish ports, is reported disabled about sixty miles off Sandy Hook with her steering engine broken. She is returning and is being operated by hand gear.

#### Belishers Arrive.

New York, April 16.—Five star British runners who will represent Oxford and Cambridge universities in the University of Pennsylvania relay carnival at Philadelphia on April 30 and May 1, arrived today on the steamship Adriatic.

They were welcomed by a delegation of Pennsylvania athletic officials.

The British athletes—W. G. Tatham, P. B. Stallard, B. G. D. Rud, E. A. Montague and H. R. Milligan—were accompanied by their trainer, Alfred Shrubbs.

#### Stecher vs. Lewis.

New York, April 16.—Joe Stecher, world's champion heavyweight catch-as-catch-can wrestler, will defend his title here tonight in a bout to a finish with Stranger Lewis. One fall will decide the winner. This will be their fourth

### Do Good Clothes Cost More?

They do if you figure price. They don't if you figure quality, style, longer service, satisfaction.

Take 20th Century Brand for example, or our other good clothes. When selecting the cloths from which they're made we passed up any that did not appear to come up to our standard of quality.

Compare these with any of the cheaper lines and you'll quickly realize how much more real value they represent for the money.

The first cost of quality is high but the final cost is low. There's real economy in good clothes.

Values specially featured \$35 to \$40 in Spring Suits and Overcoats.

Seldom nowadays that \$10.50 Boots are sold at \$6.85; but that is the case in this popular shoe house.

Big stock of Crack, Comfy Bluchers for Men, which was ordered nearly a year ago, was late in arriving—so late, in fact, that the present selling price should be \$10.50. All Goodyear welt and extra good value. But we need the room and, hence, appeal to the men to help us out by reducing price to \$6.85, and rest assured they will move quickly! Briefly they are:—

### A CASE OF A BOY.

A short session of the juvenile court was held in camera this morning during which a case against a lad for sleeping in a barn and being a vagrant was taken up. The boy is about nine years old and seems to have no means of support. The matter will be investigated.

### SUBURBAN DELAYED.

The Sussex suburban train was delayed last night for thirty-five minutes in the Union station, the engine not being sent out of the round house, as it did not have steam up. The train was delayed another twenty-five minutes at Coldbrook waiting for the Halifax train to cross it there, so that before reaching Sussex the train was an hour late.

### PRESENTATION TO TEACHER.

Class C in the Vocational Training Department in Oddfellow's Hall yesterday held an afternoon tea and made a presentation of a nice fountain pen to their teacher, Miss Kingston. A pleasant social time was enjoyed by the gathering. Miss Hennigar made the presentation, extending the thanks of the class for the interest taken in and assistance given the members by Miss Kingston.

### RIVER OPENING.

The opening of the river to navigation this year will take place on Tuesday, when the steamer Majestic will leave for Fredericton, according to an announcement by D. J. Purdy this morning. The river is reported clear of ice, except for a little in the reach, but indications are that this will be out soon. The opening last year was on April 15, when the Deane went up.

## CITY BONDS

Issue of \$200,000 at 5½ Per Cent. for Forty Years.

The city council this morning passed a motion authorizing the issue of debentures of not less than \$500 each at 5½ per cent for forty years, totalling \$200,000, for water and sewerage work done last summer and for \$41,500 at the same rate and time for public works done.

Commissioner Fisher thought the period should be shortened to about twenty years, but as a unanimous vote was needed he would vote in favor of it. He was not against the principle of issuing bonds for forty years but only because of the high rate, he said.

Mayor Hayes said that he thought in this case it was all right as the bonds would be taken up by the city almost entirely. He had asked for authority for a shorter term but none had yet been given. The idea would be to permit of a shorter issue on the basis of a longer term sinking fund.

## LARGE DOCKET IN POLICE COURT

Several Stealing Cases Are Heard—Reported Threat Against Police Sergeant.

With the intention of making room for the "over the week-end harvest," the magistrate cleared the dock this morning in the police court, disposing of several cases which have been set down from day to day, besides new cases brought up this morning.

Alfred Foster was charged with acting, together with others, in breaking into a shed and stealing dry goods valued at \$400, the property of Thomas French. The complainant told of loading his wagon on last Saturday night with dry goods so that it would be ready for Monday morning when he intended to drive through the country. Before leaving the shed where the wagon was kept he locked it securely. On Monday the lock was broken, the door open and the contents of the wagon gone. He noticed the detectives and went with them to the accused's residence, 15 Middle street, where, he said, they found some of the stolen property, and from information received there went to the residence of Mrs. Tucker, Brussels street, and in the attic between the walls found the rest of the goods.

Sergeant-Detective Power and Detective Biddiscombe and Donahue arrested the accused. The case was postponed until Monday morning at 11 o'clock.

Herbert N. Dean was charged with breaking and entering the warehouse of Ames-Holden & McCready, March 18, and stealing two pairs of boots and a pair of binoculars, valued at \$24, the property of Harry C. Simmonds. Joseph Gilbert, a clerk in a second hand store in Mill street, said he bought the binoculars from the accused for \$10. He said the accused gave him his name as "B. A. Dean," but a few years ago he bought a revolver from the accused who then gave him his name as "H. N. Dean." The name "H. C. Simmonds" was printed on the inside of the case the glasses are kept in. John Owen, a shipper in the warehouse, told of finding the door broken open when he opened up the morning of March 19. He identified the shoes. The case was postponed until Tuesday morning.

James Murphy was charged with stealing a case of "Johnnie Walker" whiskey, valued at \$32.50, the property of the Andersons, from the store of the ship Cabotia. Policeman McInnis told of seeing the accused walking across No. 8 street carrying a box. He accused him and the accused said he had been sent to take the box on board the ship. The accused was near a row of whiskey cases when first seen by the policeman. The case was postponed until tomorrow morning at 10.30. C. F. Inches conducted the prosecution.

George O'Dell, charged with stealing a coat from William Johnson, was sentenced to two years in the penitentiary. William Howe was charged with using threatening language against Sergeant O'Neill in West St. John. Policeman Spinney said he was in No. 5 shed and he heard the accused say "somebody is going to get a bullet through his head," and he turned and asked him who it was, and the accused answered, "It is Sergeant O'Neill; he will get a bullet through his head." William Johnson said he also heard the remark. Sergeant O'Neill said he had heard similar remarks made about him and has also received several threatening letters. The case was postponed, and the accused allowed to go on a deposit of \$50 for his appearance, and is also required to get two sureties to bind him over to keep the peace.

George Carr, charged with having liquor in his possession other than his private dwelling, was remanded.

John Williams, who pleaded guilty to stealing some ladies' wearing apparel, was again remanded.

William Carr, charged with assaulting his wife, was fined \$20 or two months in jail with hard labor.

Fred Vincent, charged with vagrancy, was sent for three months to the almshouse.

Albert McAuliffe, who was given in charge by Mrs. Helen Lacey on charges of being drunk, creating a disturbance and using abusive language in her residence in German street, was remanded.

Milton Kachivala, charged with having liquor in his possession, was remanded.

One man charged with drunkenness, pleaded guilty and was fined \$8 or two months.

James Murphy, here mentioned, is of 40 Broad street.

## WHAT CAN BE DONE WITH THESE THREE?

Pitiful Case Brought to Attention of Children's Aid Society.

Rev. George Scott, agent of the Children's Aid Society, has to deal with many pitiful cases, and one that engaged his attention this week presents unusual difficulties.

A man and his wife and a child about five years old live in two poorly furnished rooms. All three of them are afflicted with scabies in an apparently chronic form. The man and the child are worst afflicted, the child's little hands being covered with sores. There will very soon be another infant in the family. The man is working, but he and the woman and child need treatment in an institution. Mr. Scott appealed to the Municipal Home authorities, but they could not take such a family. He appealed to the Board of Health and they had the family medically examined and are willing to give outside hospital treatment, but there is no hospital accommodation for such a family. To leave them where they are, without the benefit of baths and clean clothing means that they will not be cured, and the woman is nearing the time of her confinement. They have been living very long in the city, but say they have no relatives elsewhere who would help them. The child cannot be placed in any of the homes without risk to all the other inmates, and if it were the mother's problem, it would not be solved. If a wing were added to the hospital for the treatment of skin diseases such cases might be dealt with successfully, but what can be done in the case of this family?

### A. L. TREMLET DEAD

Word has been received by the Knights of Columbus, St. John Council, telling of the death of A. L. Tremlet in Montreal. He was a member of a British local council prior to his departure for Montreal some time ago and had not transferred. Mr. Tremlet came here some years ago from St. John's, Newfoundland, and was here engaged in the stone-cutting business but went with the C. P. R. in Montreal. He was much esteemed by many friends who will regret to hear of his death. The telegram gave no particulars of the death.

### BRITISH FINANCING

Buenos Aires, April 16.—It is learned that an arrangement whereby the British government will loan Argentina \$50,000,000 to pay off a six per cent five year loan of that amount due to New York bankers on May 15, is a sort of triangular transaction by which Great Britain pays off half of the \$100,000,000 she owes Argentina. The latter debt was contracted by Great Britain with Argentina in 1918 in the form of a credit for the purchase of wheat for \$10,000,000. It is understood that in view of Great Britain shipping gold to the United States, Great Britain agreed to the Argentina minister in London to ship \$50,000,000 for the account of Argentina, which will stand as a British loan to this country at five per cent until January next, when, unless other arrangements are made, it is expected Great Britain will charge the sum to Argentina in paying off the \$100,000,000 debt.

### OUR GAS BILLS

Perhaps one of the reasons why outside concerns are still tumbling over themselves to be established in St. John is contained in a letter received today by his Worship Mayor Hayes from Alton B. Adams, of Boston. It has to do with charges for gas and says that the rate of \$2 a thousand feet charged here is the highest of which he has knowledge in North America. Mr. Adams is a public service engineer and the mayor has been in correspondence with him. In his last letter he gave at Mr. Adams' request the figure on gas per thousand feet, with the consoling response as given above.

### ROBERT A. MCCHELAN

Many friends will learn with regret of the death of Robert A. McChelean, who formerly kept a shoe-repairing shop in this city and later in Fairville. He died at the home of his daughter, Mrs. Sedgfield Perry, in Freeport, N. S., where he and his wife had lived for about two years. He was seventy-two years old. Mr. McChelean was born at Tay Creek, York county, and came to St. John about twenty years ago. His wife was Miss Agnes Maston of Young's Cove, Queens county. He is survived by her and by one son, G. G. McChelean, of this city, and one daughter, Mrs. Perry of Freeport. All three were with him in his last illness. Another son, Charles, was drowned about thirteen years ago. The late Mr. McChelean was a man of fine character, and had many friends. The funeral will take place from the home of his son, 69 Brussels street, tomorrow afternoon at half-past two o'clock.

## BIG THINGS IN THESE MATTERS AT FREDERICTON

### (Special to Times)

Fredericton, April 16.—A discussion which began on the respective value of the salmon fisheries and a pulp and paper project in the corporations committee this morning took an unexpected turn when it swung into consideration of a proposal made by Premier Foster for immediate action to secure the development of hydroelectric power at Grand Falls, the greatest single power site in the province.

The premier's proposal to require the present owners of the rights to either develop power without delay or give way to those who would develop the same, was met with a most interesting and unexpected forthwith.

This suggestion was made in order that ample power might be secured for the new Fraser project at the Tobique without running the risk of entirely destroying the salmon fisheries of the St. John river and harbor, and it was possible that the conflict over the Fraser will result in additional developments of far reaching importance to the province.

## F. W. SEXTON GOVERNOR OF ROTARIANS

Charlottetown, P. E. I., April 16.—The Rotary Conference for district No. 10, held in St. James' Hall, Ninety delegates were at the sessions during the day. The program included addresses by President E. J. Terry and R. D. Patterson of St. John. An interesting feature of the conference was the presentation of a large number of gifts to the Rotarians of St. John.

## GRAND FALLS OR TOBIQUE FOR DEVELOPMENT

(Continued from page 1.) Hon. Mr. Veniot took exception to that, and cited the Restigouche and Miramichi and other streams of the North Shore.

Inspector Harrison said that experts had been sent to the Tobique and Grand Falls to examine the water power. He said that the water at Grand Falls was of a higher quality than at Tobique, and that the water at Tobique was of a lower quality than at Grand Falls.

## GOOD THINGS COMING TO THEATRES OF ST. JOHN

### NEW PROGRAMME AT OPERA HOUSE

Tonight there will be an entirely new change of programme at the Opera House. The five vaudeville acts should be greatly enjoyed. It will be as follows: J. Warren Keane and Grace White in a novelty skit entitled "The Ace Was Still on Top"; Love and Shanks, "The Boys from Dixie"; in blackface comedy; May Nalls in songs and character changes; Hanvey and Francis "The Fun Makers"; Jack Morrissey and Company, "The Australian Whip King." There will also be another episode of the new motion picture serial, "Lightning Breezy."

### PRICES FOR CHILDREN AT IMPERIAL

The matinee admission prices for children at Imperial Theatre is now ten cents. The higher price applies only to Saturday afternoon. Cost of special programmes suitable to children and the greatly increased cost of everything entering into the production of programmes necessitates this slight increase. Otherwise the Imperial's prices are the same.

### MANY CATCHY SONGS IN MINSTREL SHOW

Don't forget that the big minstrel show which will be presented under the auspices of St. Peter's Y. M. C. A. will be held in St. Vincent's auditorium next Monday, Tuesday and Wednesday evenings. It is replete with catchy songs and dancing specialties and should be one of the big hits of the season.

## NOBLE WORK OF TRAVELERS' AID

The following example of work done by the Travelers' Aid and Y. W. C. A. in Bangor are given in the Bangor Commercial, and is exactly similar to the work done by the same organization in St. John.

"Arriving with her five children, the youngest a mere baby, a woman who had nothing but Canadian money applied to Mrs. Brown for help and explanation. She was going to Levant to join her husband who had secured work there. She had had a long trip, was half sick with fatigue and care and the children were all hungry, nervous and very tired. The money question was settled, the woman provided with American money, food and rest obtained for her and her five children and she was escorted to the Charleston car.

"Another woman, traveling from Nova Scotia to New Hampshire, had, because of a serious impediment in her speech, received through and making clear her destination, wrong directions. She arrived in Bangor with her two children, neither of whom was able to walk about alone. She had money enough to get her to her destination had the train connections been right, but she was obliged to stay over Sunday in this city. A carriage was provided for her. She was taken first to the Y. W. C. A. and arrangements were made for her entertainment over Sunday.

"A little girl of thirteen who had come from Lewiston to make a surprise visit to some relatives found that the relatives had moved, no one seemed to know where. Mrs. Brown took charge of the little girl and after a search among the

neighborhood found the address of the little girl's relatives. "A woman whose husband had deserted her arrived in Bangor from Halifax on her way to Millinocket with two small children. She missed connections and was obliged to remain sixteen hours in Bangor. She had less than \$2 on her person. All three were cared for at the Y. W. C. A. and the remainder of the journey made easy. "These are only a few of the incidents which happen day and night at the Union Station in which the work of the Travelers' Aid, supported by the Y. W. C. A., is doing. It is work which is done for all girls and women and children no matter what their color, calling, station in life, creed or religion. It is work which bears close relation to all community betterment work."

## AN UNEXPECTED DIP.

New York, April 16.—Jack Johnson recently had a bath in the ocean for which he was not prepared. While out with some Mexican oyster tongs, Jack became so intent upon gazing down into the depths that he failed to notice that his huge bulk was making the craft list at an alarming angle. He leaped out a trifle too far and suddenly the boat turned turtle and Jack went in. The one-time heavyweight champion is an in-

different swimmer, but when he came to the surface he was able to reach the boat and hold on until it was righted. Jack said that he drank more water during his unexpected bath than he had done in a month.

## The All-Purpose Weather Coats

## DOMINION RAYNSTERS

("Made-in-Canada" Raincoats.)

are not solely for rainy days. They are all-weather coats. Waterproof when it rains. Stylish and comfortable when the air is cool enough for a top coat.

They are good looking and well made. They present the new styles of the moment, in a pleasing variety of patterns and effects. They have that appearance of good form and correctness which comes only with careful, experienced workmanship.

The fact that they are absolutely waterproof means simply that you get twice the service from them.

The "DOMINION RAYNSTER" label is in every coat as an assurance of sound value and lasting satisfaction. The best stores carry "DOMINION RAYNSTERS" for men, women and children.

## Semi-ready Tailoring is clever in style

Smart, too

Smartness is reflected in the superior style of Semi-ready Suits.

When you come in to see them, note particularly the fine fabrics—such textures as have not been seen in Canada since 1914.

Masterly tailoring lend the garments shapeliness and style.

Physique type designing guarantees a nicety of fit, with an obvious effect that bespeaks quality and value.

HOUSE DOES MUCH BUSINESS

Hon. Dr. Baxter in Critical Mood in Budget Debate—House in Committee Deals With Several Bills.

Fredericton, April 15—The only speaker on the budget debate today was Hon. Dr. Baxter, who will be leader of the opposition during the absence of Hon. James Murray. He criticized the financial statement of the province and also the failure of the government to have a by-election in Carleton to fill the vacancy there. He moved an amendment calling for stoppage of supply until a writ should be issued for the by-election. Maritime union was mentioned by him as a method of securing better terms from the federal government on many matters.

Thirteen Bills Disposed of. Thirteen bills had been disposed of by the committee of the whole when the house arose tonight. Those of general interest included the bill to incorporate the professional engineers of the province, to legitimize children under certain circumstances, and to amend the Succession Duties Act. The engineers' bill was sent back to the law committee for amendment to define more clearly the classes of work affected. The bill to legitimize children born out of wedlock includes within its provisions all such children whose parents subsequently have married or who are married in future. In the case of those whose parents' marriage occurred before the passage of the act property interests will not be affected. The succession duties bill elicited a little passage of arms between Mr. Baxter, who is acting leader of the house during the balance of the session, owing to Hon. J. A. Murray having been called away, and one of his colleagues, Mr. Peck. The latter, in moving that the maximum size of estates free of succession duties should be restored to \$50,000 instead of \$25,000 according to the bill, said that by the time the lawyers got through with it their were not be much left of a \$25,000 estate. Mr. Baxter rather acridly suggested that Mr. Peck confine his criticisms to what the government did with the share of the estates which passed into the provincial coffers.

Before the house adjourned Premier Foster announced that there would be no week-end recess this week, but that the house would sit on Saturday afternoon and evening and resume on Monday afternoon. Mr. Murray (Kings) said that as it had become necessary for him to leave the province on urgent private business he would ask for leave of absence for himself for the remainder of the session. For the information of the House he wished to say that Mr. Baxter would act as opposition leader during his absence.

The Cotton That Looks Like Silk

"DIAPHALENE" is a new cloth, created at the wonderful Horrockses Mills in England, for women who appreciate beautiful and dainty Undergarments.

It is a very fine colored cotton, that has a silky finish and is made in white, pink, sky, and other popular colors.

Then—there are HORROCKSES' Cambrics, Nainsooks, Madapolans, and India Longcloths for those who prefer plain white cottons. Obtainable at all stores.

Look for the name HORROCKSES' on the label.

**KLIM**

Of Course, You'll Like It!

KLIM has the natural flavor that you have always been accustomed to. It is powdered separated milk, rich in protein and carbohydrates, which are the body-building parts of milk. In its dry powdered form, Klim remains sweet and fresh until it is used from the handy cover tin. Make it into liquid by simply whipping into water with a wire whip or egg beater. It is a necessity! Order from your grocer.

Write for "The Wonderful Story of Klim," an interesting recipe book.

Hon. Mr. Robinson gave notice of suspension of the rule 78 to permit of the introduction of a bill to incorporate the Central Trust Company.

The house went into committee with Mr. Burchill in the chair and took up consideration of a number of bills. A York county, a bill relating to the Church of England Institute in the city

and county of St. John, and an act to incorporate the Grand Manan Light and Power Company were reported.

Hon. Mr. Foster in regard to the bill to incorporate the Grand Manan Light and Power Company suggested that before securities were issued permission of the public utilities commission should be sought. It would be well that the public utilities act be amended to that effect.

The house went into committee with Mr. Smith (Charlotte) in the chair and agreed to a bill to authorize the town of Chatham to issue debentures.

Consideration was given to a bill to incorporate the professional engineers of the province of New Brunswick.

OFFICERS CHOSEN BY I. O. D. E.

Fredericton, April 15—At the annual convention of the New Brunswick Chapter, I. O. D. E., here this afternoon, officers were elected and interesting resolutions passed, including one against Hearst publications being allowed into Canada and another pertaining to text books in the schools. Fletcher Peacock gave an address on vocational training.

**CLEANLINESS IS HEALTH**

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

ENTERING BAPTIST MINISTRY. J. Adolphus Beya was taken by surprise last evening at his home at East St. John when loyal friends and members of the Tabernacle church made him the recipient of a beautiful roll top desk and along with it two splendid commentaries, given on behalf of the pastor, Rev. Mr. Brindley. The presentation was made by the senior deacon, A. H. Patterson. Mr. Beya replied in a very fitting manner. A very pleasant evening was spent and refreshments were served. Mr. Beya's friends wish him every success in his new activity the work of the Christian ministry.

Captain A. J. Mulcahy said yesterday, "I am glad to see the collision between the tugs Kenton and Neptune will be held after the close of the winter port season."

### AMERICAN WRITER

KILLED BY GERMANS

Paul De Mott, of Paterson, N. J., Victim of "Murder by Solidarity."

Berlin, April 16—An official announcement made in the case of Paul De Mott, of Paterson, N. J., said to have been an American citizen, who was killed recently at Wesel, near the Ruhr region, states that he was shot dead while attempting to escape from military arrest.

De Mott, who was twenty-two years old, was taken prisoner by government troops, near Dinslaken, southeast of Wesel, early last week, charged with being in possession of arms and aiding in the rebellion. He was caught in company with members of the Red Army, according to the government statement.

The whereabouts of De Mott since his arrest had not been known here, although he was generally believed to be safe, despite the fact that he was reported sentenced to death by a military court. This belief was due to the government's declaration, reiterated only last Saturday, that no death warrants would be issued unless approved by President Ebert.

De Mott is said here to have stated

## A WASHINGTON HEARING ON THE PULPWOOD MATTER

Washington, April 16—Chairman Porter of the house foreign affairs committee announced yesterday that a hearing would be held on April 26 on a senate resolution authorizing appointment of an American commission to confer with Canadian government officials regarding restrictions placed on the export of pulpwood to the United States.

Representative Christopheron, Republican, South Dakota, introduced a resolution yesterday by which Attorney-General Palmer would be directed to conduct a "sweeping and thorough" investigation into the manufacture, sale and distribution of print paper and "to institute criminal proceedings against all who have violated the law or who are guilty of trafficking."

TWO KILLED IN FIGHT OF NEGROES AND DETECTIVES

Concordville, Pa., April 16—Two men were killed and three others wounded in the Baltimore & Ohio railroad yard here last night when railroad detectives engaged in a fight with five negroes, who some time ago threatened to "get" the detectives.

Ben Kohrt, thirty-five years, of this place, one of the detectives, was killed instantly when a bullet struck him in the chest. James Wright, negro, of Johnstown, Pa., died a few minutes after being wounded. The three wounded were negroes.

SAYS THAT COMPULSORY EDUCATION IS NOT ADVISABLE IN QUEBEC

Montreal, April 16—Compulsory education was not advisable in the province of Quebec and instead of attempting to pass such a law, efforts should be directed towards removing the causes which militate against school attendance and against a more satisfactory scholastic record, was a plea made by Amédée Monette, M. L. A., before the Junior Liberal Association last night. Fernand Rinfret, victor in the recent by-election in St. James division, was the guest of honor.

## HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva E. Yatsman, Krugersdorf, Ont., writes: "I feel that I must write you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly ill with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that I was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

NO LOW GOWNS AT

ST. JAMES' COURT

Dressmakers, Too, Decried It

Must Go—Popularity Even

Wanes in Paris.

(Special Correspondence to The Wash-

ington Post and New York Sun.)

London, March 31.—The court of St.

James has put a ban on the low-cut

corset and it is doomed in London. In-

deed, reports received here from Paris

where it originated, say that the popu-

larity of the ladies' low in front and

lower in the back, is waning even there.

It will not be long, London fashion

makers say, before such gowns will be

seen only in museums.

New dresses seen in London are show-

ing more decency than ever before, and

even for day wear the throat is less open

than was the style last year. The new

widest is a fairly affair, higher than for

many seasons and closing at the

throat with a ruffle or a fall of lace.

Fashionable London dressmakers who

go to Paris for inspiration are setting

themselves squarely against the low-cut

gowns. This was emphasized recently

when one of these dressmakers saw a

gown in a Rue de la Paix establishment

where she liked it.

"I must ask you to put a bodice on

it," she told the saleswoman, who

magically consented to put some more

material in the "wonderful creation" the

fashionable was displaying.

The fact that the bodiceless gown is

not approved at the court of St. James

is enough to cause English women to

refuse to accept it.

# TOP COATS

At This Special Sale of \$30 to  
\$35 Top Coats for  
**\$25.00**

Yesterday and today witnessed tremendous demand for these rare values—interest grows as the real significance of such a price in the face of present market conditions becomes apparent to clear-thinking, forward-looking men

This is a shipment of Top Coats that we just received from the makers. They should have been here six weeks ago, and now that the season is well advanced, we decided to cut our profits to a minimum for quick selling.

No mistake about it—every dollar spent for one of these coats will pay big dividends in increased value next fall as well as this spring. Bought today they'd cost us more than the price quoted.

## TRADE QUERIES GOING TO U. K.

Varied List of Commodities  
of British Manufacture  
Sought—Want Canadian  
Goods.

"Large numbers of Canadian manufacturers and importers are turning their attention to the United Kingdom to secure goods on account of the exchange situation between the dominion and the United States. Quite a number of these buyers are seeking for the first time to buy their merchandise from British sources." This statement of the change that has been coming over the trade situation was made by F. W. Field, British trade commissioner in Ontario. He gave his opinion that even when conditions are more nearly normal much of the Canadian purchasing that has commenced will continue.

A very extensive list of inquiries has been received by the three British trade

commissioners in Canada during the last three months. In this office, for example, requests have been received for quotations of United Kingdom firms from manufacturers and importers throughout Ontario. They embrace such items as tinplate (60,000 boxes), silver-plated ware, cotton duck in large lots, pipe in 12-ton lots, borax glass in one-ton lots, steel sheets, Scotch twine, swords for regalia purposes, cotton goods of various kinds, pig iron, machine tools, fractional motors, oil well tubing, water well casing, etc.

"Numerous inquiries have also been received for the names of United Kingdom manufacturers of various lines, including pottery, spice, jewel boxes, needles, brushes, gelatine, wire, mining tools, chemibrella covers, rubber sheets, chemicals, airplanes, farmers' supplies, laces and textiles of all kinds, foundry supplies, etc.

Production Being Speeded.  
While the United Kingdom cannot supply the demand which is being made upon her manufacturers at present, her export trade is gaining volume, and as time passes she will be back again in the markets of the world, just as keen a competitor as ever. A great number of United Kingdom manufacturers are booked a long way ahead with orders, and until these are filled Canadian buyers will not be able to obtain all they desire. This phase is gradually passing, however, and local buyers will obtain more of their requirements in the comparatively near future.

"A number of inquiries have also been received from firms overseas for Canadian products. These have been dealt with in our office or referred to the department of trade and commerce at Ottawa, or to the Canadian Manufacturers' Association. The British trade commissioner's office in Ontario has received inquiries for Canadian supplies of ground mica, intermediaries for dye-making, brewers' and bottlers' supplies and equipment, etc.

"Visitors to my office recently have come from Coventry, Leicester, Manchester, London and Hull (England), from the West Indies, South Africa, Australia and New Zealand.

Extend Commissioner Service.  
"One of the most important phases of the extension of the trade commissioner service is the fact that the British government has offered the facilities of that service to the other governments of the British Empire. In the majority of, if not in all cases, the offer has been accepted wholly or in part. The Canadian government for instance, has accepted the facilities of our service at all points, in various countries, at which it has not a trade commissioner of its own. The government of India has accepted the service in its entirety. It may be said, therefore, that this is one of the first practical steps taken by the imperial government and by the governments of the dominions to link commercially the various units of the British Empire. The resolution of General Smuts of South Africa, at the imperial war conference in 1917, recommended that these governments should co-operate so as to make the trade commissioner service as useful as possible to the British Empire as a whole, especially for the promotion of inter-imperial trade.

"It may be mentioned here that manufacturers of Canada and of our other dominions were eligible as exhibitors at the British industrial fair of 1920, held in London, Birmingham and Glasgow last month. This is an innovation, as previously only manufacturers of the

United Kingdom were eligible as exhibitors. It is another indication of the new spirit of inter-empire trade relations."

## HOME GARDENS AN URGENT NEED

Massachusetts Commissioner of Education Says Value of Them This Year Will Be Greater Than Ever Before.

Boston, Mass., April 16.—"The value of the home garden this year will be greater than in any previous year," says Arthur W. Gilbert, Massachusetts commissioner of education. "It takes only a brief noting of present conditions to make this evident. The first and biggest factor is the increasing shortage of farm labor. Last fall there was twenty-five per cent. less wheat planted by the United States. The farmers everywhere appear to be planning a general cutting down this spring. Recently the governor of New Hampshire said that the farmers of his state would probably cut off twenty-five per cent. this year.

"This last week we have been made aware of a general disposition on the part of the farmers in Massachusetts to either sell out or curtail their work to what they are able to handle without help. When it is understood that the farmer with his prepared land and special equipment is able to produce more per unit than the home gardener, the seriousness of the farmers' curtailment may be somewhat comprehended. It means that if the cutting down by the farmers and the consequent high prices are to be fairly offset, there must be something like a fifty per cent. increase in home gardening.

Not Turning to Grains.  
"A recent report that New England farmers are turning away from vegetable raising and planning to devote their lands to grain, wheat and corn, is only partially true, they are doing the first, but not the second," says Harold F. Thompson, head of the department of vegetable gardening at Massachusetts Agricultural College. "To use their truck garden soil for grain would be impracticable, for the soil is too rich for grain, causing it to run to leaf and bringing a return too small for profit. Whereas \$150 might be realized on an acre planted to certain vegetables, only about \$50 would probably come from grain. Also, vegetable growers are not equipped with the machinery necessary to the harvesting of grain.

"The acute labor situation is going to cause the farmers to raise the court vegetables like squashes, tomatoes and string beans, rather than beets, carrots, parsnips, lettuce, celery and so on, which take more personal care. It is also going to lead the farmers to install truck garden tractors and other machinery which will make production with less help possible. As it is now there are probably not over ten tractors used in truck gardening in the state.

"At a meeting of the Boston Market Gardeners Association recently there was an indication that three-fourths of the 150 present were contemplating planting less vegetables this spring, perhaps on the average of thirty per cent. less, which would be sown to hay, and rye for straw, but not to wheat, corn or other grains.

The Labor Situation.  
"Labor shortage on the farm, caused largely by emigration and by other labor paying much higher wages, will be overcome only on the operation of the law of supply and demand. When the scarcity of farm products becomes so great and the price of those products gets so high as to make farm employment exceedingly attractive, and the farmer himself is certain of being able to move his goods when produced, and to labor counter back to the farm.

"The present agricultural situation does not lie entirely in the realm of the negative, however. The positive, constructive undertakings of the agricultural colleges and the state department of agriculture are doing not a little to make farming in Massachusetts more efficient, productive and profitable. Research is being conducted which will tend to show the farmer of this state how he can profitably raise those vegetables for local consumption which are now being shipped in from other states; to show him how to cut down expenses; to save him trouble and money by seeing to it that his seeds are pre-examined and certified; by encouraging farm machinery, and so on.

## THE CREW STAGES WE'LL ORGY AT SEA

Eten Returns With One Dead, Twelve Wounded After Wild Cruise to South Africa.

New York, April 16.—Completing a round trip to Cape Town, which included "anti-prohibition celebrations" at sundry South African ports, the steamer Eten arrived here with two members of her crew in the brig, a dozen in the sick bay covered with cuts and bruises and one buried at sea after a wild alcohol orgy.

The steamer sailed out of this port last January, six days before constitutional prohibition went into effect. She carried a crew of 125 men, most of whom, according to their officers, apparently had shipped for the sole purpose of going ashore at all the "wet" ports. Life on the ocean wave aboard the Eten proved "merry," her officers said. In a "jovial" mood, the sailors are alleged to have threatened to throw the immigration officer overboard when he went out to the Eten at Port Elizabeth, Cape Colony. At East London, another South African port, police reserves met the steamer at her pier.

Heated Over Ship's Rail.  
After participating in fights in East London, some of the crew, instead of being laid up, had to be hoisted over the ship's rail from the pier. At Durban some of the crew spent six days in jail, until the boat was ready to sail. Two men were shot aboard ship when a revolver was said to have gone off by accident.

One seaman was taken to Ellis Island to answer charges of assault preferred by ship's officers.

## MRS. NELLIE PECK, of Kansas City, who says her little boy never had a well day until he began taking Tanlac. Declares she will never be able to pay the debt of gratitude she owes the medicine.

"I will never be able to pay the debt of gratitude I owe to Tanlac for what it has done for my little boy and me," said Mrs. Nellie Peck, No. 1221 Charlotte street, Kansas City, recently. "My little boy Curtis is fourteen years old and never in his life had he seen a well day until he began taking Tanlac. I worried and worried over his condition, but in spite of everything I could do he didn't seem to gain any strength and was weak and delicate practically all his life. He seemed to have a very weak stomach. It just looked like he couldn't eat anything and digest it like other children. He had no appetite at all and what little he did eat seemed to sour on his stomach. Sometimes his heart would palpitate terribly and he would get so dizzy he could hardly walk and as I stood and looked at him I thought he would surely fall over. He would have bad headaches and was nervous and could never sleep well at night. At school he was never able to keep up his work and he had to stay out a great deal on account of poor health.

"I had heard so much about Tanlac I decided to try it and see if it wouldn't help him. Well, you just can't imagine how overjoyed I was when he began to improve. I kept right on giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon as he goes to bed. In fact, he is perfectly well in every way.

"After seeing what Tanlac did for him I began taking it myself as I have been suffering from stomach, headaches and dizziness for five years. Since taking this great medicine I am now happy to say that I never suffer any more with these troubles.

"Tanalac has been one of the greatest blessings that ever came into our home and I expect to praise it as long as I live."

Tanalac is sold in St. John by the Ross Drug Company and P. W. Munro and by the leading druggist in every town.

## YOU WILL NOT GET THE "FLU"

If You Build up Your Run-Down Condition

It Attacks People Who Are All Worn Out, Anaemic, Devitalized and Weak

## Strong People Never Get Influenza

During every epidemic it is always the weak, run-down, over-worked, devitalized men, women and children who so quietly fall a prey to the ravages of disease. When, therefore, an epidemic is prevalent why not use a little precaution and build up the tired out, run-down, over-worked, devitalized members of your family by giving them VINOL?

There is nothing that acts so quickly as a tonic reconstructer. It makes red corpuscles, enriches the blood, quickens the circulation, sharpens the appetite, promotes sound sleep, and imparts strength, vitality and energy to every organ and muscle in the body. Your physician recommends VINOL, and your druggist agrees to return your money if it fails to benefit.

For all run-down, nervous, anaemic conditions, weak, women, overworked men, feeble old people and delicate children there is no remedy like VINOL. "So you think you are becoming near-sighted, do you?" said the optician. "Yes, I do," replied the little business man. "What makes you think so?" "Because I can't see a dollar go near as far as I used to,"—Yonkers State man.
