BIG PRIZES OFFERED TO COLLEGE MEN.

\$2,250 for Best Essays on Economic Subjects.
Open to Undergraduates of American Universities and to All Who Have Graduated Since 1894.

CHICAGO, Dec. 30.—College men have been invited by a committee of leading economists to prepare competitive essays on present day problems, including public control of the railway rates, taxation of railway property, causes of large fortunes and other subjects. A competition of the same character held last year resulted in important contributions to economic literature.

Four prizes amounting to \$2,250 will be given to the successful writers. The subjects announced by Professor Laughlin are as follows: 1.—To what extent, and by what administrative body, should the public attempt to control railway rates in interstate commerce? 2.—A just and practicable method of taxing railway property? 3.—Will the present policy of the labor unions in dealing with non-union men and the "closed shop" further the interests of the working men? 4.—Should ship subsidies be offered by the government of the United States? 5.—An examination into the economic cause of large fortunes in this country. 6.—The influence of credit on the level of prices. 7.—The cattle industry in its relation to the ranchman, feeder, packer, railway and consumer. 8.—Should the government seek to control or regulate the use of mines of coal, iron or other raw materials, whose supply may become the subject of monopoly? 9.—What provision can be made for working men to avoid the economic insecurity said to accompany the modern wage system? The essays are to be delivered to Prof. Laughlin before June 1. The competitors will be divided into two classes. Class A is exclusively for all persons who have received the bachelors degree from an American college in 1894, or thereafter. The prizes in this class will be \$1,000 and \$500. Class B is for undergraduates. The prizes will be \$500 and \$250. Any member of this class may compete in class A.

ROCKEFELLER UNDER THE SEARCH LIGHT.

He and Rogers May be Compelled to Testify Before an Inquiry Instituted by Missouri.

ST. LOUIS, Mo., Dec. 30.—A trial will begin here very soon which it is expected will rival the New York insurance investigation's sensational developments. The state of Missouri has instituted

HENRY WOLLMAN, who will probe the Standard Oil wells of inquiry.

proceedings against the Standard Oil Company for alleged illegal methods of conducting its business in that state. The U. S. special commissioner, Henry Wollman, has been selected to conduct the inquiry. Among the witnesses who will undoubtedly be summoned will be Rockefeller himself, with Rogers, Flagler and a dozen other financial magnates, who are more or less financially concerned with the great Standard Oil monopoly.

PLAN TO ANNIHILATE RIGA REVOLUTIONISTS.

Troops Will Round Them Up Where Escape is Impossible and Cut Them to Pieces—Odessa Crisis Past.

RIGA, Dec. 29, via Edytukhnen, East Prussia, Dec. 29.—It is said that the new general with 32,000 additional troops planning to uproot the revolutionary movement by surrounding Latvia and Courland and driving all the revolutionaries into a bag shaped corner of Courland which will be annihilated, warships cutting off all escape by sea.
LONDON, Dec. 30.—The Times in its second edition today publishes a despatch from Odessa which announces that the crisis there is over. Public sentiment has cooled under martial law, two thirds of the strikers will be back at work today and the majority of the leaders have been arrested. ST. PETERSBURG, Dec. 30.—The suppression of the insurrection at Moscow and the certainty that similar uprising elsewhere will be crushed, mark the collapse of the first attempt of the "Reds" to overthrow the government and administer a defeat from which it is not believed the revolutionaries can quickly recover. Now that the smoke of the battle is clearing away the utter hopelessness of the conflict seems to be apparent. The populace had about and single military unit actually joined the revolutionaries. Even the general strike crumbled under their feet by their challenging and precipitating a conflict before the proletarian organizations were prepared. The government secured a comparatively easy, though ruthless victory, and it is believed in high official circles that the organizations have been so demoralized and disrupted by the blow and by the arrest of the most able leaders that it will be impossible for them to attempt the coup planned for the anniversary of "bloody Sunday."

RELATIONS BETWEEN FRANCE AND GERMANY STRAINED.

(Special to the Star.) PARIS, Dec. 30.—Only a year or so ago no Parisian journal would have dreamed of publishing a series of articles instituting comparisons between the French and German armies. But now this has been changed by the drift of the frontier along the eastern frontier is not greatly inferior to the German as regards numbers, while the cavalry and artillery are quite as strong as the corresponding arms across the border. In nearly all the mobilization operations France is on a par with Germany, and it is a mistake to affirm that the work of containing would be hampered. "It suffices to throw a glance on our network of railways to perceive at once the fragmentary exaggeration of the former minister of marine. The real inferiority of France," he concludes, "consists in the loss of her birthrate as compared with the prolific German. The German army can always be superior in numbers to the French, which, however, can compensate this drawback by suppleness."
The increasing acrimony of the Franco-German press controversy carried on by some of the leading journals in Paris and Berlin, is fit to grave and significant signs of the times to be allowed to pass unnoticed. The latest attacks on the French nation contained in Lokalesaer and the Tagblatt of Berlin would alone probably account for the attitude of the French press. The following passage from the Tagblatt of Berlin is attracting a great deal of attention just at this time: "Republican France will have to show whether she is disposed under the direction of M. Rouvier to continue the old policy of the old country. M. Clemenceau says in the Aurore that there is no way of living in peace with William II. for a single moment. Possessing everything that might be desired to satisfy an ambition, he averages he needs still more, though exactly that nobody can tell. While the French are going to the front, he loved, and complains that wicked people at whom he constantly brandishes the sword, he has not the least intention of being loved. Nothing would like to be loved. "Nothing (Continued on page 7.)"

4900 N. Y. PRINTERS GET 8 HOUR DAY.

NEW YORK, Dec. 30.—The official announcement was made at the headquarters of the Typographical Union yesterday that 4,900 printers will be granted the 8-hour day on January 2. Several firms granted the demand yesterday, and union officials declared that two-thirds of the employing printers in this city will concede the eight-hour day.

The local printers' strike situation remains the same and while there has been talk of doing certain things as yet quiet. The men are satisfied and the employers are not worrying so that things are apt to run along quietly unless stricter orders are received from headquarters.

ELECTION RUMORS IN GREAT BRITAIN.

(Special to the Star.) LONDON, Dec. 30.—A great many interesting rumors are afloat, supposed to have been circulated with the idea of influencing the results of the forthcoming general election. In many cases these rumors are so broadly general that it is not even possible to take any stock in them. In other cases the reports appear detailed in character. Among other things it is stated that the Reunion Typewriter Company, whose machines have a large sale in the United Kingdom, has a plant ready to be erected, and a site near the coast has been provisionally secured for a factory to be erected in the event of a tariff reform winning during the elections.

There is not an article of any merit whatever that cannot be sold through advertising.—M. V. Kelley, Majestic Mfg. Co., St. Louis.

ASSYRIAN COLONY'S QUEEN A WAR CENTRE

Her Husband Has More Cause For Jealousy. Police Magistrate Hears of Awful Threats of Murder and Violence—Religious Differences Involved.

The time of the police court was mostly taken up this morning with an interesting Assyrian case in which Mrs. John Sullivan, known as the Queen of the Assyrian colony, once more played an important role and once more seems to have been the principal cause of an uprising in the colony. Mrs. Sullivan's husband charged her with assaulting and beating him in his yard off Brussels street.

THE SUCCESS OF ONE GOVERNMENT RAILWAY.

(Special to the Star.) TORONTO, Ont., Dec. 30.—The commissioners of the Temiskaming and Northern Ontario railway have handed Provincial Treasurer Matheson a cheque for \$100,000, representing the net earnings for the first year's operation of the road from January 16, when the road was taken over by a commission, until December 31. The line is now operated from North Bay to New Lakeard and 113 miles more of road is under construction and 100 miles further under survey.

The road derived a large revenue this year from miners going to Cobalt, from tourists flocking to Temagami and from settlers in the basin of Lake Temiskaming. Seventy-five thousand passengers were carried and the freight traffic was heavy.

COOK CREMATED IN BOARDING HOUSE FIRE.

NEW LONDON, Conn., Dec. 30.—Emma Hurand, a cook, was burned to death in a fire early today which burned a wooden building at 53 Bank street. May Pearson, a boarder, was thrown from a window on the second floor by an explosion of gasoline in the rear of the building and she is now in the hospital seriously injured, but will recover. The property loss is estimated at \$15,000.

Mrs. Alfred Blinn occupied the second and third floors of the building as a boarding house. There was a tobacco store and a barber shop on the ground floor, and the smoke penetrated to the apartments above and aroused the occupants all of whom hurriedly left the building with the exception of Miss Durand and Miss Pearson. While these two were waiting at the front window the gasolene tank exploded and Miss Pearson was thrown to the street by the shock. Miss Durand disappeared from view at the same time and her body

N. Y. INSURANCE ENQUIRY IS ENDED

Last Session Being Held This Afternoon. Full Report of the Scandalous Discoveries Made Will Soon Be Given to the Public.

NEW YORK, Dec. 30.—After pursuing a line of inquiry into the business methods of life insurance companies in this state which has covered a period of nearly four months the legislative insurance investigating committee will end its sessions today. The vast accumulation of testimony, which contains revelations that have astounded the public will at once be prepared in the form of a report to the Legislature. The inquiry has brought forth more startling disclosures than any previous proceedings laid under similar lines. Like a match applied to a haystack, the trouble arising in the affairs of the Equitable Life Assurance Society in the early part of the year started a conflagration of insurance exposures which in the public mind appeared inconceivable.

Evidence which described the juggling of vast sums of money invested by policyholders, methods of "graft" for personal advantage, schemes for financial gain and plans of bewildering intricacy for private profits have been produced and will be the subject of the most earnest consideration of the Legislature.

Joel G. Vance, actuary of the Equitable Life Assurance Society, was the first witness today. He has been with the society for 15 years and answering Mr. Hughes, said that he was responsible for the actuarial methods of the society.

He was asked if any of the management interfered with him and replied: "Henry B. Hyde attempted to make figures on dividends declared on deferred dividend policies higher than I thought advisable. That was about 15 years ago. I reported it to the Vice President, James W. Alexander, who explained the dangers of this plan, and he persuaded Mr. Hyde to give way."

Fred Salley, the defendant, took the stand and said he came from Portland, Ore. He was here with his mother, He said he was a Methodist and that all the other Assyrians in the town were down on him. On the night in question he was in the Brussels street yard to meet Berne Addison, who had business with him. Sullivan met him there and caught hold of him and said he was going to kill defendant. They were going to strike Addison and he had to strike Sullivan to get clear of him. Sullivan has been after him for a long time and says he did not get out of this town he would kill him. Sullivan said you can see marks on my arm how many men I have killed in the old country. Witness had to get police protection. He knew Mrs. Sullivan but never the cause of Mrs. Sullivan leaving home and husband. Michael George and John Sullivan had threatened Mrs. Sullivan and said they would cut her throat.

Bruce Addison took the stand and said that he had an engagement with Salley on the night in question. He lived in the same yard as Sullivan. Witness looked at the love letter and said it was not in his wife's handwriting although her name was signed to it.

Michael George took the stand and said he was known as the boss of the Assyrian colony. All the boys knew him and worked for him. They called him boss.

To this about twenty Assyrians outside the railing nodded assent. Witness said he had spoken to Salley several times to keep away from John Sullivan's wife and he had chased Salley from Sullivan's house after midnight.

George Moses took the stand and swore that Michael George had informed him that he would cut Salley's throat. Witness said it was common talk in the colony that Michael George was the one who was always around after Mrs. Sullivan.

To this Michael George called out in court: "Boys do you say I love Mrs. Sullivan?" and the answer came in a chorus, "No!"

Continuing witness said that the chief trouble was a religious one and that the Assyrians did not want Salley in the city and were trying to get rid of him. Witness also said that Charles Thomas had told him that Michael George was after Mrs. Sullivan, and that if he ever got one of the gang alone he would kill him.

Thomas took the stand and denied what Moses had said. Witness told of Sullivan showing him the letter in question at Portland, Me., and said that Mrs. Sullivan destroyed other letters. There had been no trouble in the colony until Fred Salley struck the town.

The court here adjourned until 2:30 this afternoon.

STR. CELTIC IN FEARFUL STORM.

NEW YORK, Dec. 30.—The White Star steamer Celtic which arrived today from Liverpool, encountered on Christmas Day a terrific hurricane from the northwest. An enormous sea broke over the starboard quarter and ripped out a section of the heavy plated waist bulwarks. The uprights were snapped like pipestems and several sections were dented in. The portion struck away was held by rivets an inch and a half thick but these were the number of 59 were drawn apart.

The water swept through the engine-room gangway, flooding various compartments and smashed windows, doors and head lights.

MORMONISM SOME DAY THE RULING RELIGION.

Chief Prophet Joseph Smith Predicts That Doctrines of Latter Day Saints Will Enslave the World.

CHICAGO, Dec. 30.—The prophecy that Mormonism some day is to enslave the world as the ruling religion of the universe was made last night by Joseph Smith, who with other Mormon leaders, spoke to an audience of 400 persons at the Latter Day Saints' church. "All elders of our church are forbidden

JOSEPH SMITH, Head of the Mormon Church.

to entice people to our belief against their will, said Mr. Smith, "we do not seek to coax women away from their families. I want you to know that the church does not tolerate such wrongdoing. To you young men, here in New York, I would leave this message: "It is essential that you lead pure lives, that you keep your word sacred and that you be honest in your business dealings. Do not bear down other people's belief, but show them yours, and if yours is better they will choose it. This is our idea of religion."

MORE SUCCESS FOR PROFESSOR BELL

Latest Designed Kite Lifts Heavy Man 30 Feet.

HALIFAX, N. S., Dec. 29.—Professor Alexander Graham Bell, who has been experimenting for some time at his laboratory at Edwin Street, Bedford, with flying kites of the tetrahedral form of construction, succeeded last Wednesday in getting his latest designed kite, which he has named the "Frost King," to lift a man named McDermid, weighing 165 pounds, to a height of thirty feet and supporting him there as steadily as if glued to the sky. The "Frost King" kite weighs 64 pounds, and carried a load comprising flying lines, darning needles and a rope ladder weighing 42 pounds. The man clinging to the flying line as he was lifted gracefully into the air. The total weight of the kite is 81 pounds, making a total weight of 248 pounds. The kite was completed some time ago and Professor Bell was preparing to leave for Washington, when, on Wednesday, the desired breeze was blowing, and Prof. Bell immediately got his men together. Soon the "Frost King" arose gracefully in the air with McDermid and remained suspended until satisfactory photographs were taken of the kite, which remained in the air for some time under perfect control. Prof. Bell then left for Washington, pleased with the result of the experiment, which he believes advances him another stage towards his goal of producing an airship heavier than air.

CRUISER AGADIA TO BE BROKEN UP HERE

The old government cruiser Agadia is due to arrive at her moorings in St. John at any hour. She will be broken up here, and sold for junk. This will be the end of the vessel, which has been the vessel that ever sailed on the Atlantic coast.

The Agadia was built in 1889 for a millionaire of Chester, Pennsylvania, who wanted a speedy pleasure yacht. She was built at a cost of \$1,000,000, and had a part with the Acadia. After several changes of ownership, she was purchased by the Dominion government in August, 1888. The price paid was \$400,000, and another \$100,000 was paid for fitting her for the fisheries protection service, which at that time kept all the cutters on the jump.

The Acadia replaced the old Lansdowne, and after a service of about 17 years, was condemned. In 1901 she was written in by E. Antulium and since then has been lying in Halifax. She is now on the way to St. John. The Acadia was built for speed and comfort. She is 185 feet long and only 23 feet beam. Her fittings were of the most expensive wood, and she was regarded as the dandy among the government cruisers.

FREDERICTON NEWS.

FREDERICTON, N. B., Dec. 29.—The funeral of the late Mrs. John Maxwell took place this afternoon and had a large attendance. The body was taken to St. Ann's church, where services were conducted by Rev. Dean Partridge. Interment was made in the rural cemetery. The chief mourners were John Maxwell, Robert Maxwell, M. P. F., T. E. Dyer and James Dyer.

The supreme court will meet next Friday pursuant to adjournment and deliver judgment in the banking case, and also in the case of Miss Mabel French of St. John, who is seeking admission as an attorney.

Prescott MacDowell of Maryville, was brought home today from the bushy lumber woods. A tree fell on him and his right leg was badly crushed.

Ernest H. Turnbull, formerly of St. John, but now a resident of England, is visiting in this city. He will sail for home again on January 5th.

The deputy commissioner for agriculture, T. A. Peters, has returned from Fort Elgin, where he inspected a very fine grist mill lately erected there by J. and C. Hickman. The mill is a three story structure with a high basement, and was built at a cost of about \$10,000, having a capacity of eighty barrels per day. It is run by steam power. A provincial subsidy of \$1,000 will be granted the proprietors. This new mill is the largest in the province, with the exception of Sherwood's mill at Centerville, Carleton Co., which has a capacity of 100 barrels per day.

Rev. W. D. Andrews, pastor of the Seventh Day Adventist church, has accepted a call to Hartford, Conn., and leaves for there in January.

Announcements were received here this afternoon of the wedding at Huntington, Indiana, on Wednesday, of this week, of Miss Margaret Maud, daughter of Mr. and Mrs. Odell Miles Hart, formerly of the Hart boot and shoe factory of this city, to Wilson Alexander Loudon, assistant auditor general for the province of New Brunswick. The announcements state that the bride will be at home at Fredericton after January 15th.

MADAME NORDICA STAMPS OUT BLAZE

While Singing in Metropolitan Theatre.

NEW YORK, Dec. 29.—Madame Lillian Nordica won the enthusiastic plaudits of a large matinee audience at the Metropolitan Opera House today, when she quite coolly stamped out a blaze on the stage near the footlights, caused by fire dropping from a torch carried by a chorus woman in Gotterdammerung.

The incident occurred during the scene of the last act of the opera. Burning oil spilled from one of the chorus torches and set fire to the stage carpeting. Immediately there was an unusual apparent in the audience and several persons started to quit their seats. Mrs. Nordica was singing at the time and her attention was first attracted to the fire by the sudden movements of persons in the orchestra chairs. Quickly comprehending the situation, the singer walked over to the blaze and without interrupting her song, stamped out the last spark of the fire. When the act ended, Mrs. Nordica was given an ovation.

DARING BANK ROBBERY COMMITTED AT WINNIPEG

WINNIPEG, Dec. 29.—About two weeks ago a daring theft was perpetrated in one of the city's banks, whereby the chief cashier, \$100,000, vanished without leaving the faintest clue.

The bank inspector was making his usual official visit and with the teller was engaged in checking over the cash when the cashier called out to him to get the case for a moment to go into the vault close by, but inspector and teller were dumfounded returning to find a parcel containing seven thousand dollars had vanished.

Another equally daring robbery was discovered last evening, through which the Merchants' Bank was again victimized to the extent of \$100,000.

As in the other case, it was a package of bills which was taken. The money had been done up for transmission to the Eastern Townships Bank through the clearing house, but upon the arrival of the package at its destination it was found that a dummy substituted in its place, though by whom or where in transit the officials are at a loss to know.

STEAMER PENOBSCOT COLLIDES WITH SCHOONER

BOSTON, Dec. 29.—The steamer Penobscot of the Eastern S. S. Co., while leaving the harbor for St. John, Me., today, collided with the fishing schooner Shepherd King, opposite Fort Independence. Both vessels were damaged and came to their wharves tonight.

An investigation began immediately after the collision, through which the Merchants' Bank was again victimized to the extent of \$100,000.

As in the other case, it was a package of bills which was taken. The money had been done up for transmission to the Eastern Townships Bank through the clearing house, but upon the arrival of the package at its destination it was found that a dummy substituted in its place, though by whom or where in transit the officials are at a loss to know.

WIFE WHO TICKLED HIS FEET DIVORCED.

Verdict in Suit Against Mrs. Alvin T. J. Ritterhoff Is for the Husband.

NEW YORK, Dec. 27.—Immediately at the conclusion of the evidence in the suit for divorce brought by Alvin T. Ritterhoff, a member of the Seventy-first regiment, against his young wife, Minnie Ritterhoff, because of her alleged attentions to Frederick A. Finacom, whom she met in Washington in the summer of 1904, Judge Clegg, of the Supreme Court, decided in favor of the husband, saying he was convinced of the wife's guilt.

Mrs. Ritterhoff sobbed as she heard the decision against her, and leaning on the arm of her mother, Mrs. Margaret Bray, of Washington, who came to the city to testify in her daughter's behalf, left the court room. The young wife had put in a counter suit for separation on the ground of her husband's cruelty, in addition to denying his accusations.

Mrs. Ritterhoff testified it was not long after their marriage that trouble began, when her husband threw a plate of fried smelts in her face. She declared that at another time, when she was inclined to be hilarious and tickled the soles of his feet with a feather, he did not see the joke and tried to choke her.

While living in Washington, a year ago Christmas Eve, Finacom called upon her. The night was cold and it was snowing and blowing a gale. Finacom begged to be permitted to remain, saying he was ill, and Mrs. Ritterhoff declared, she gave her consent. She said that while Finacom called her "Minnie" and "Baby" he had never kissed her. As to letters she had written and signed "Cecy," because she was born under the influence of her mother, Mrs. Ritterhoff said she merely wrote to "show off."

"To show off what?" she was asked. "My ability to write love letters and exercise my vocabulary" and see how many ways one could write a love letter," she replied.

She believed the letters were taken from her desk, as she had never mailed them to Finacom. Her mother, Mrs. Bray, testified in her behalf. Ritterhoff testified that his wife called him a monkey if he turned his toes in. Deprived him of his tobacco and told him he would be shot if he smoked another cigar.

GUILTY OF CONSPIRACY SENT TO PENITENTIARY

Five Officers of Carriage and Wagon Workers' Union Were Found Guilty.

CHICAGO, Dec. 29.—Five officers of the Carriage and Wagon Workers' Union, and two hired sluggers tonight were found guilty of conspiracy, and all of them will be sent to the penitentiary unless they are granted new trials.

The severest punishment was inflicted on Charles Gilhooley, leader of a gang of sluggers, who was sentenced to the penitentiary and fined \$3,000.

The other men found guilty are Henry Newman, financial secretary of the union; Edward Shields, recording secretary; Charles H. Deutsch and John Holden, members of the executive board, and Marcus Looney, a hired slugger.

The specific case in which the men were tried was that of Charles J. Christum, who, while returning home last April, from a factory where a strike was in progress, was attacked by two men and lay unconscious on the frozen ground for several hours.

He died two weeks later from pneumonia, contracted, it was said, at this time.

During an investigation of the teamsters' strike last summer, George Meiler, a former president of the Carriage and Wagon Workers' Union, turned state's evidence and declared his union hired sluggers to intimidate non-union men. As an example he cited the Christum affair.

Trying to Get Permission to Withdraw Service.

And Send All Their Boats to Halifax— It is Reported that the Government Has Refused

The statement that Montreal advised credit to the Allans, that these reasons for withdrawing is that their turbine boats will be on and that they fear accident coming from Halifax here, is a Jack on this port that the people of St. John should resent.

The longshoremen have appealed to the trades and labor council, protesting against unfair treatment by the Allans, with the result that the local council in correspondence with the main council with an idea of putting all the strength they can against the Allans, getting a renewal of the main contract, which they are now seeking.

The New Brunswick Southern Railway Company have received the locomotive which was mentioned in the Star some time ago as coming from the western section of the C. P. R. The locomotive is No. 6 and considerably heavier than the other locomotives in use on the N. B. Southern and will be used this winter running on the express to St. Stephen and return.

No. 6 was given a trial trip over the road on Thursday and proved very satisfactory to Supt. Frank V. McPeake and other officials.

In cold winters it has been found that the company's light engines were not powerful enough to keep the road clear as well as the management desired, but with the \$50,000 spent last summer on the roadbed and new bridges and with two new snow plows Supt. McPeake is ready to battle with the heavy snow storms expected this winter.

No. 6 being somewhat longer than the other locomotives on the road some slight alterations are being made in the water tanks.

ADMIRALTY COURT.

The case of Hatfield vs. the ship Wandrain was continued yesterday afternoon and evening, the following witnesses being examined: F. W. Roberts, John H. Crowell, J. K. Scammell, Capt. John Cook and Capt. Chas. A. Morrison.

The hearing was resumed in the evening, and the evidence of a number of witnesses heard. Those who testified at the session were Capt. Robert Elliott, Fred Reid and Capt. H. D. Farrie, who was in command of the tug Flushing at the time of the collision.

The general tenor of these witnesses was to show that the collision was unavoidable.

The court adjourned at half-past nine last night to meet again this morning, when Col. McEwen and his last witness, Capt. John Patterson, of the Wandrain. This concluded the evidence. Argument will be heard some time in the latter part of January.
