

TUNNERS FROM ANOVA SCOTIA

Heir to Earldom a Miserable Suicide With \$7,000 Hidden in Shack—Woman May Have Been Murdered.

Annapolis Royal, July 9.—Sensational in the extreme was the death of Abury Hillman of Tontoonport on Tuesday of last week, and the gruesome details accompanied this event.

Another reason was low prices of pork, beef, butter, etc. This reason does not hold good now, as everyone knows.

It was after the burial when the house was being searched that the sensational discovery that has set a whole county talking, was made.

Startling as were these discoveries the climax came with the finding of letters that proved beyond doubt that Abury Hillman, miser and self-murderer was none other than Howard Montgomery Sterling Montague.

Steps are being taken to inform his family in England; and the money with the other things found, will be returned to them.

May Be Murder. Was there a murder, committed at Gibson's Pond? This is the question that is uppermost in the minds not only of the inhabitants of that vicinity, but also of the authorities who have the matter in hand.

At first everything pointed to suicide, but closer investigation has indicated murder. Nothing was found upon the dead woman, who was rather pretty.

The fingers of her hand were torn and this gives rise to the suspicion that rings were torn from them. No body can be found who has seen the woman before, but two farmers have come forward with the information that they saw a covered buggy driving furiously past their farms about three o'clock Wednesday morning.

Manufacturer Fined; Will Appeal. In the police court yesterday morning Samuel K. Cohen appeared to answer a report made by Factory Inspector John Kenney of not having separate closets in his place of business, in the Wilcox building, Dock street, as required by the factory act.

Heir to Earldom a Miserable Suicide With \$7,000 Hidden in Shack—Woman May Have Been Murdered.

Rev. Wm. Lawson preached his first sermon in Zion church last evening. Taking as his subject the pastor's duty to the people and the people's duty to the pastor.

NEED OF MORE SUCKLING MILK STOCK

Department Of Agriculture Making Provision To Supply Great Want Of New Brunswick Farmers—A Great Help

Fredericton, July 8.—New Brunswick farms today are very lacking in cattle, sheep and swine, and in consequence thousands of acres of pasture and hay land are yearly going to waste and the farms are suffering in loss of fertility.

One reason given, especially in relation to dairy farming, was that no labor was available. At the present time any farmer who will assure a man a year's work at reasonable wages can get the man through the superintendent of immigration.

Another reason was low prices of pork, beef, butter, etc. This reason does not hold good now, as everyone knows.

There are over ninety agricultural societies in this province which are receiving \$13,000 of provincial money. These societies can devote all this money to the importation of good stock, and if farmers are willing to co-operate and pay fair prices for bulls, rams, boars, etc., enough good stock can be brought to the province to give every farmer access to it.

For those who want live stock and Shorthorn stock there is an importer ready to bring to the province from Scotland and England the best milking strain of these two breeds.

Let us urge our agricultural societies to devote their energies to stock improvement, for therein lies the basis of our agricultural development and its continued prosperity.

BAPTISTS TO GATHER IN SUSSEX TOMORROW

Annual Meeting of N.B. United Baptist Association Will Open in Kings County Town on Tuesday.

The pastors' meeting, preliminary to the opening of the annual meeting of the New Brunswick United Baptist Association at Sussex will be held tomorrow afternoon at 2 o'clock.

There will be eight sessions, the concluding meeting being Friday afternoon. An attendance of about 200 delegates is expected, the ministers being entertained during their stay in Sussex by members and friends of the two Baptist churches in the dairy town.

Features of the conference will be addresses on educational work by Pres. Cutten and Dr. DeWolfe of Acadia University and other addresses on missions, and on denominational literature.

Wednesday—A. M., enrollment of delegates, appointment of committees, 2 p. m., report of nominating committee, Home mission report, Dr. McIntyre, report of temperance committee, 8 p. m., Sunday school class recital, by Rev. R. M. Hynon; address on Sunday school work by Rev. J. B. Ganong; address on temperance by Rev. Joseph McLeod; address on education by Rev. Dr. Cutten, president of Acadia University, and Dr. DeWolfe, of Acadia University.

Thursday—A. M., paper on Layman's Missionary Movement; report of obituary committee, by Rev. W. W. Camp, St. John; election of officers; 2 p. m., paper on denominational literature by Rev. W. W. Camp; 8 p. m., platform meeting; subject, Home and Foreign Missions; representative of foreign missions, Rev. V. Higgins, returned missionary from India.

Friday—A. M., conclusion of conference business; 2 p. m., ordination of the four or five candidates, ordained by various district conferences; the year. Preacher of ordination sermon, Rev. F. G. Francis.

FRENCH CANADIAN FOLLOWS THE TWO FROM MONTREAL TO TRENTON, N. J.—WOUNDED WOMAN ATTACKED HUSBAND.

Trenton, July 9.—Aristide Cournoyer, a French Canadian from Montreal, found his missing wife, Marie, in this city yesterday in company with Chas. Horn, with whom she eloped last week. When Cournoyer found that the woman would not return with him he lost self-control and drawing a six-shooter from his pocket, he fired one shot at his wife and four at Horn.

Cournoyer made no attempt to escape. After he was landed in the central police station, the old Capt. Cleary, that he was interested in a moving picture business in Montreal. His mother was a school teacher and he had two sisters who were similarly employed. He was 33 years old and his wife was 25.

At about 5.30 this afternoon Cournoyer came upon his wife on the street. She was followed by Horn. As they were about to enter a house at 14 Lafayette street Cournoyer accosted his wife. The conversation was not satisfactory and he invited her to the Ewing street house "to talk things over."

When the shooting stopped Horn had a bullet wound in the jaw, a fracture of the right arm by a bullet, two bullet wounds on the left arm, another on the left side of the chest and still another wound close to this. The doctors could not tell how many bullets were in Horn's body, but concluded that he could not live.

Horn on his way to the hospital tried to tell the policemen that he was endeavoring to rescue Mrs. Cournoyer from a life of shame to which she had been driven by her husband. The police gave this story no credence.

Cournoyer spent the earlier part of the night on his knees in his cell with his rosary before him. He asked constantly about his wife and seemed relieved when Chief Hiner told him she would recover.

Among those prominent at the union are three representatives from the Congregational union of Canada, Rev. Jas. T. Daly, chairman of that union; Rev. J. K. Unsworth, pastor, Westmount Congregational church, and Mr. H. W. Barker, of Toronto.

At the afternoon session Rev. Mr. Daly gave an address on church union. He dealt at length with the subject and showed that the Congregational churches were two years ahead of the other denominations, as the individual churches had already voted on the question. No further action will be taken by the union until the matter is voted on by the Methodist and Presbyterian churches.

As to the effect of union, self-supporting churches would not be interfered with and very few city churches would be affected, but church receiving missionary aid would be advised to amalgamate.

His Lordship Bishop Casey arrived home Saturday evening from a confirmation tour. While away his lordship officiated at the ordination to the priesthood of Myles, of St. Stephen, who recently completed his studies at Holy Heart Seminary, Halifax. The ceremony was the first of its kind witnessed in a Canadian border town and the large parish church was crowded.

On Friday His Lordship confirmed a class of 15 candidates at St. Andrews and left on Friday evening for Rolling Dam. Saturday morning 20 candidates at that place received the sacrament.

Rev. J. V. Unsworth, B. A., gave a splendid address on the subject Principles and Duties of Canadian Congregationalism.

AVIATOR BROOKINS TALKS OF HIS FLIGHT

New York, N. Y., July 10.—In a statement over his signature which will be printed tomorrow in the New York World, Walter Brookins makes a number of interesting deductions from his flight yesterday evening at Atlantic City, in which he broke the world's record for altitude with an official height of 9175 feet.

Paris, July 9.—A special despatch from Lisbon says that the crew of the yacht Tolna, which is owned by Count Rudolphe Festetics de Tolna, has been ordered to return to the purpose of looting the vessel. They bound two of the officers, but the count quelled the mutiny with a revolver and the ringleaders in the affair were handed over to the police at Madeira.

Mrs. C. E. Macmichael, Head Of W. M. B. Of Congregational Union—Rev. W. J. Gibson New President.

Kingsport, N. S., July 9.—The 12th annual meeting of the Women's Board of Missions of the Congregational Church met last evening, the president Mrs. C. E. Macmichael, in the chair. Delegates were present from the various auxiliaries and mission boards, while the presence of Mrs. Unsworth, of the Women's Board of Canada much inspired and helped those in attendance.

Officers were unanimously reelected as follows: President—Mrs. C. E. Macmichael, St. John; vice-presidents, Mrs. J. H. Sulston, Mrs. J. W. Cox, Mrs. J. W. Flewelling.

The treasurer's report showed that the auxiliaries had paid during the year about \$760, which was devoted to home and foreign mission work. There was about \$40 needed to complete the pledges to mission work made by the board, which would be largely met at the meeting.

Models representing articles used by natives in Africa were shown by the speaker, who also made use of maps to illustrate her address.

Assistants—Rev. J. W. Cox, Shelburne; Assistant secretary—Rev. W. W. Wharton, Lower Selma; Treasurer—C. E. Macmichael, St. John.

London, July 9.—Bishop Charles H. Brent, of the Episcopal church in the Philippines, who has been a delegate to the World's Missionary Conference at Edinburgh, is endeavoring to secure the consent of the British Government to the opium conference at The Hague proposed by the American state department, to give effect to the decisions reached by the Shanghai conference. Accompanied by U. S. Ambassador Reid, the bishop yesterday interviewed Premier Asquith, Sir Edward Grey, the minister for foreign affairs, and Lord Morley, the secretary for India. While not unwilling to go into another conference, the Indian government for economic reasons is not prepared to go as far as the resolutions proposed by the American state department, to give effect to the decisions reached by the Shanghai conference.

Rev. J. J. Thompson made application for membership in the union which was granted, and a letter of transfer to Hancock county conference, Maine, U. S., was given to Rev. I. A. Ross.

At the afternoon session Rev. Mr. Daly gave an address on church union. He dealt at length with the subject and showed that the Congregational churches were two years ahead of the other denominations, as the individual churches had already voted on the question. No further action will be taken by the union until the matter is voted on by the Methodist and Presbyterian churches.

As to the effect of union, self-supporting churches would not be interfered with and very few city churches would be affected, but church receiving missionary aid would be advised to amalgamate.

His Lordship Bishop Casey arrived home Saturday evening from a confirmation tour. JOHNSON THE BETTER MAN DECLARES JEFFRIES OLDEST ELK OPENS ANNUAL REUNION

San Francisco, July 8.—"I never could have whipped Jack Johnson at my best." This from James J. Jeffries answers the question that has been raised since the former undefeated champion was toppled over by Johnson Monday afternoon, at Reno, Nev. Bruised physically and sore mentally, he made his admission on the dingy car of the train which landed him in Oakland last night. He was sitting with his chin buried in one hand, brooding over his downfall, as he has done since the fight. There was a vacant stare in his eyes, but when a questioner asked: "Was it your age that caused your downfall?" he straightened up for an instant, and answered gloomily: "I don't know what it was that defeated me. I do know, however, that I never could have bit that fellow when I was at my best. I could not have reached him in a thousand years."

Detroit, Mich., July 10.—Daniel O'Connell, 105 years old, the oldest Elk in the world, transformed lower Woodward avenue tonight into a fairyland of green and white. Standing on the city hall steps the centre of a dozen spot lights, two gray haired men escorted by Mayor Brietmeyer, stepped vigorously to the head of the executive committee of the National reunion of Elks and pressed a button officially illuminating the decorations hung in the court of honor which extends along Woodward avenue, from an arch of welcome at Jefferson avenue to a second arch at Grand Circuit Park. A cheering cheer from a great throng greeted the venerable guest of the evening. More than 20,000 Elks from Boston, Atlantic City and other cities reached Detroit today for the formal opening of the reunion tomorrow.

GOVT. OXFORD DEGREE AT 50

Women Who Heads National Educational Association Has Had Remarkable Career-- Knows School Work.

Boston, July 9.—The election of Mrs. Ella Flagg Young to the presidency of the national educational association marks a climax in the affairs of that body and may mean a great deal to the reform movements in education that are becoming more and more insistent in every part of the country.—movements which have a two-fold object; to make education a thing that will be of definite, practical value to every child in the land, as well as a source of enjoyment in life itself; and secondly, to minimize the influence of politics and school-book publishers in the schools as well as the education of the country.

It also means, of course, that the demands of women for equal rank and pay with men in the schools of the land will be strengthened and given more heed and consideration by school boards. And it is a recognition of the fact that intellect and ability of the highest educational order are not confined to one sex. Looking at it from this point of view, the woman suffragists may be said to have scored a point.

Knockout To Ostrerism. The election of Mrs. Young at the age of 65 to this high office should be an inspiration to a great many people in every walk of life, for it is something like a knockout blow to the famous theory of Dr. Ostrer that a person at 60 is "all in" and should be chloroformed, and it may also give those who believe that a teacher should be retired and placed on the pension list at 60 something to think about.

For here is a woman at 65, a five-mentally and physically; woman of such acknowledged ability that she was chosen a year ago from a wide field of eminent educators as the one fit person to be superintendent of the schools of Chicago—a job which is far and away bigger than the job of president of any university in the world, as far as magnitude, actual work and responsibility are concerned. But of course it will be said that Mrs. Young is a remarkable woman. That is true. And there is no doubt if she were a man she would be a remarkable man, for she possesses those traits of character which seem to be fundamental in real greatness—modesty of bearing; a clear, cool brain; and great capacity for work.

She is one of the type who have to know to fully appreciate and the best test of her genius lies in the fact that she is thought most of by those who know her best and have known her longest. The teachers from Chicago, among whom she has worked all of her life, simply worship this woman. They have absolute faith and confidence in her and that includes the most radical among them as well as the most conservative.

Got Oxford Degree at 50. And nobody wants to suppose for an instant that the "highbrows" in education have anything on Mrs. Young, for she quietly went over to Oxford when she was 50 years old and took her degree there. And what is more she has the unusual distinction of having been one of the first professors of teaching in the world—she held that new chair in Chicago university for several years. So it will be seen that in electing Mrs. Young president of the National Educational Association the members have honored one of the most eminent if not the most eminent teacher in this country—a woman of demonstrated executive as well as professional ability.

But really she doesn't look the part—at a first glance. There is no dash or strut or swagger to Mrs. Ella Flagg Young. She is a modest, appearing woman of middle age and medium size, with eyes that are over-emphasized by the glasses she wears—eyes that are keen, or thoughtful, or twinkling as the humor of the moment may dictate—eyes that are pleasant and comforting to those who know the woman. Her hair is deeply tinged with gray; her face has earnest lines of thought in it when she is in repose, but it is radiant when she speaks. Her voice is a soft, womanly, motherly voice. Her lips are full and she presses them into a sort of pout when she is talking and in the intervals of conversation. It is a rather curious thing, but this woman's face reminds one of Abraham Lincoln. It has something of the same look of sadness in it; the same high cheek bones; the same large, deep eyes; the rather heavy lips and that capacity for radiance which changed Lincoln's whole personality in a moment. And this woman has in her way much of Lincoln's great capacity in the management of people, and much of that kind of patience for which he was celebrated.

Lace Over Straw is Strongest Note in the Women's Millinery

The girl who wears a straw hat covered with lace can't go far wrong on the summer's millinery styles. The hat shown here is of white straw, covered with black chantilly lace. The parade of ribbon is a novel arrangement of ribbon is shown, the straw being slashed and a masonica colored satin ribbon being drawn through the aperture. The brim is turned up very high on the left side and back.

It demonstrated that she could teach teachers. She demonstrated that she knew education root and branch and understood the relation of educational work to the acquisition of knowledge in a rational way. When asked why she gave her life to teaching she said: "Because I love it. It is the grandest work in all the world. I have taught every grade from the first one up, and each one was an inspiration." Was Born in Buffalo. When she was elected superintendent of the Chicago schools, she said: "There are two things to watch sharp for. One of these is to cheer and inspire the teaching force so that the school shall be truly educational for the teachers; the other is to look sharp for the administrative side. One must be able to advise the board as to the best ways of meeting the needs of schools and children. Otherwise their work ceases to be educational and becomes political, or at least haphazard. All of the failures of superintendents have been due to a slipup in one or the other of these. I believe in personal contact. All discussion and instruction I think ought to be informal and conversational."

Mrs. Young was born in Buffalo on Jan. 15, 1845, and she received most of her early schooling there. Her father, Theodore Flagg, although never engaged in educational work, was a distinguished mathematician, and from him the daughter got her excellent grounding in that subject, as well as other undergraduate courses. In fact, the home influence here of the greatest importance in her subsequent development.

When she was a young girl she moved with her family to Chicago and graduated from the high school there. In 1862 she entered the Foster primary school as a teacher, and all of her subsequent experience in teaching has been in that city. But she never ceased to be a student, which is the most important thing in any professional career.

Marriage No Bar to Work. She was married in 1868 to William Young, but her domestic life never interfered with her educational work. During the first part of their married lives Mr. Young was engaged in active work as a merchant in Chicago. Later he went to California with his brother, a distinguished physician. The change was made for the benefit of Mr. Young's health. He died of consumption and Mrs. Young has been a widow for more than 26 years. Mr. and Mrs. Young had no children and she has no near and few remote relatives.

DODD'S KIDNEY PILLS. FOR ALL KIDNEY DISEASES. BRIGGS' GREAT PEAS. DIABETES BAKERS' PATENT. NO. 23 THE PHARMACEUTICAL BUILDING.

RECIPES FOR BERRY TIME

Gooseberries are most famous of all garden fruits in English song and story; and from English cook books come all the best recipes for serving tarts and puddings. Gooseberry Torte—Stew one pound berries with three ounces sugar and two tablespoons water until tender, then rub through a colander. Divide a sponge cake into slices, place in a deep dish, cover with the gooseberry pulp, pour over it one-half pint warm custard and allow it to become perfectly cold. When ready to serve whip one-third pint of cream stiffly, spread over the pudding, sprinkle with almonds and serve. Gooseberry Fool is a favorite dessert. Simmer one quart of berries in two cups of water, and when the fruit reaches the bursting point, press through colander. Mix with one-half pound of sugar and chill. Thicken one quart of boiling milk with the beaten yolks of three eggs, season with nutmeg and a little salt, and stir into the gooseberry pulp. Make stiff meringue with the beaten whites of the eggs, or serve with whipped cream.

The Blackberry is the most important of the small fruits. It contains iron, and is therefore used as a tonic in all cases of weakness and syphilis. Its juice is undoubtedly remedial in all diseases related to dysentery, and is supposed to be valuable for several troubles of the mouth, throat and eyes. Blackberry muffs are not commonly made; they serve equally well for breakfast or as a simple dinner dessert, with a good liquid sauce. Sift two cups of flour with two teaspoons of baking powder, and one-half teaspoon of salt; work one-half cup of butter or lard into the flour, add one cup of milk, and one beaten egg, and one tablespoon of sugar, and one cup of ripe blackberries. Bake in muffin pans 20 minutes. Blackberry Pudding—Beat three eggs and add two teaspoons milk. Sift flour, salt and sugar. Beat one cup of flour with flour and stir into batter. Bake covered in a greased dish for an hour, then uncover and brown. Serve with hard sauce.

The Elderberry is said to charm away epilepsy and dropsy. Its juices make sauces for meats, and vinegars for salads. As elderflower water it appears among the choicest accessories of the table in summer, and the dried flowers have been used as a perfumed filling for sofa pillows, and as a practical packing for fruits and even eggs. European peasants dry ripe elderberries in summer, and in winter make of them a wholesome soup. Elderberry catsup is a choice dressing for fish. Pour one gallon of boiling vinegar over one gallon of ripe elderberries, and set in a warm place overnight. Strain juice into preserving kettle; rub the berries through sieve, and add them to the vinegar with a teaspoon each of cloves, cinnamon, nutmeg, two blades of mace, and one-half teaspoon each of salt and ginger. Boil 15 minutes and bottle while hot. Set aside six weeks before using.

Raspberries are delicious served with pineapple. Cut off top of pineapple and save. Remove the inside of fruit, cut fine and mix with one cup of raspberries. Sweeten and set in refrigerator. When ready to serve fill the shell with the fruit, put on top and serve. Raspberry Whip—Beat 1 1/4 cups raspberries with one cup powdered sugar and one egg, mix stiff. Pile on dish, chill, surround with lady fingers and serve with custard.

EASY LIFE OF A REGICIDE Luccheni, Who Killed Empress of Austria in 1898, is Leading a Luxurious Life in Swiss Prison.

London, July 9.—It has often been stated that Luigi Luccheni, the man who murdered the Empress Elizabeth of Austria in 1898, had either died in prison from the effects of the severities to which she was subjected, or was hopelessly insane and chained in a dungeon. Harry De Windt of the Daily Express contrives to get a visit made to the prisoner, showing that the prisoner is leading an enjoyable, almost a luxurious life in the old prison of Geneva, known as L'Eveche. He is in excellent health.

It was as a delegate to the Paris Penal Congress that De Windt was allowed to talk with Luccheni, who has seen no one except prison officers for years. De Windt found him in a light, airy ward, overlooking the lake. He is employed at bookbinding, but this is voluntary as he need not work unless he is so disposed. He was refractory to the assassins on Wednesday, showing that the prisoner is leading an enjoyable, almost a luxurious life in the old prison of Geneva, known as L'Eveche. He is in excellent health. F. L. POTTS, Auctioneer, July 8, 1910.

WATERBOROUGH. Waterborough, K. C., July 8.—Early green peas are to be found on the farm of Thos. M. Wiggins, of this place. They are nicely filled and are fit for table use. Miss Etta Taylor, of St. John, who has been visiting Mr. and Mrs. C. H. Mott, was very ill yesterday, but is better today. The Timothy is in its first blossom here. The farmers around here have not finished sowing their buckwheat, and they are afraid they will not be able to do so on account of the wet weather of late. Capt. James A. Dixon, of the school for Mrs. L. Elkins, is home for a few days vacation here.

SAINT JOHN, MONDAY MORNING, JULY 11, 1910

MANITOBA'S GREAT FIGHT.

Manitoba today is in the throes of a provincial election, and indications point to the Roblin government being again returned to power notwithstanding that the combined forces of Ottawa and the local opposition are fighting against it.

During the ten years that Premier Roblin has held office he has established a record for progressive legislation notably in his policy of state-owned wheat elevators, and in the many important railway measures he has carried through the legislature. The elevator question is all important in the Prairie Province, and the enormous amount of railway mileage the ministry has obtained for Manitoba through the province, giving a guarantee of the interest on the bonds, is a strong point in its favor.

The Liberal opposition, with a weight of deadwood and machine hangers-on, is but little stronger today than when the Greenway-Sifton combination was swept out of power in 1899. The fight in reality is more a contest between Mr. Roblin and the machinery of the Ottawa government. Time and again Sir Wilfrid Laurier has endeavored to capture Manitoba. At every provincial election he has organized his forces and used them in the battle against the Liberal-Conservative government and never more so than in the campaign which closes today. The right to deal as he desires with the franchise and with the registration of the voters, the opportunity which would be afforded his friends to distribute public rights after the same plan pursued at Ottawa and last the boundary question, are all important reasons why Sir Wilfrid is anxious to secure power in Manitoba.

The Prairie Province demands the extension of her limits to Hudson Bay. Sir Wilfrid represents himself as ready to grant the extension, but declines to give the land, the timber and the minerals an even adequate financial compensation for the withholding of these valuable possessions. Quebec and Ontario are to get the land, the timber, and the minerals, but Manitoba is to be differently treated. So long as Premier Roblin is in power a settlement that gives Manitoba differential treatment will not be accepted. The Ottawa machine is fighting to secure the election of politicians who will complacently agree to Sir Wilfrid's terms.

In the legislative assembly which was recently dissolved out of a total of forty-one members, the Conservatives held twenty-eight seats. The campaign has been the most strenuous ever held in Manitoba. Mr. Roblin and his party, with an effective organization and a record which has commended itself to the people, are confident of victory.

SIR WILFRID'S TOUR.

The tour which Sir Wilfrid Laurier is now making through the Northwest should, if properly conducted, be not only interesting but instructive. The Premier is accompanied by Hon. George P. Graham, Minister of Railways; Mr. E. M. Macdonald, M. P. for Picton, N. S.; Mr. F. F. Pardee, M. P. Liberal whip for Ontario, and Senator William Gibson. Most of these gentlemen are in a position to throw much light on matters which despite repeated attempts at explanation on still dark and impenetrable mysteries. The Premier, as the Ottawa Citizen points out, will have an opportunity of explaining how it is that the portion of the Transcontinental from Winnipeg to Moncton which is being built by the government was originally estimated to cost \$51,300,000, and, according to the figures quoted in the House on December 31st last, will cost at least \$500,000,000. The length of the road is 1,804 miles, and it was estimated by the Finance Minister that this would cost about \$25,000 per mile. Instead of that the expenditure in eight months to \$111,000 per mile. He may also be able to explain how the contracts let represent a cost for extras over the original estimate of 60 per cent.

Mr. Macdonald, M. P., will also be on the spot to explain at least a part of this enormous discrepancy, as he was the chairman of the committee which was appointed to investigate the charges. It will be recalled that Mr. Lumsden, the chief engineer, resigned as a protest against the manner in which extras were being allowed on the construction of this road. An investigating committee was appointed composed of a minority of Conservatives. The majority of the committee refused to have a counsel appointed to represent the taxpayers of Canada on the investigation, and, as a result, the Conservatives refused to act on what was obviously a white-washing investigation.

That it was a white-washing investigation, was proved in most humorous fashion by the ultimate finding of the Liberal majority. Mr. Macdonald and his colleagues succeeded in discovering that there was absolutely no wrongdoing in connection with the allowance of extras for contracts, and that there was nothing in the allegations of Mr. Lumsden that prices were allowed contractors for rock cutting where no rocks existed.

The upshot of the investigation was that the chief engineer was placed in the remarkable situation of having resigned his position, and the handsome salary attached thereto, as a protest against the abuses in awarding extras to contractors, when in reality no such abuses existed. This reduction to an absurdity Mr. Macdonald will no doubt be able to adequately and eloquently explain.

In connection with these facts and figures, Hon. Mr. Graham, as the responsible minister, will also no doubt be able to contribute much valuable information of an explanatory character, which may or may not convince the audiences who will gather to hear the distinguished party.

Then there is Mr. Pardee, the Liberal whip for Ontario, who so valiantly acted as sponsor for the American company which has undertaken the greatest raid on Canada's natural resources that has, so far, been under-

taken. He it was who fathered the bill which aimed at granting to the great electrical corporation of the United States the right to dam the St. Lawrence river at Cornwall, and generate there some 800,000 h. p. He it was who led the house during the celebrated all night session, when five members of the government sat in the front row, lending their moral support to what was nominally a private bill, and at stated intervals found it necessary to arise and formally impress upon the House that though they were there to back the measure, it was not a government bill.

It was on the same celebrated occasion that Hon. Mr. Emerson patriotically sided with the opposition against the job that was being put up, and was instrumental in bringing forward information that the chief engineers of three government departments had investigated the proposition, and unanimously condemned it as dangerous to Canadian property, and liable, in the case of accident, to flood the suburbs of Montreal, but that the same three engineers had been ordered later on to make another report on the same project, and, strangely enough, had pronounced in favor of it, notwithstanding the physical dangers which they so vividly realized when making their first report.

Eventually Mr. Pardee's bill went through with the active assistance of the government, after several important amendments had been forced into it by the Conservative opposition.

So far as Senator Gibson is concerned, he has no sins to answer for, and is probably taken along as a make-weight, and in order to add to the joyousness of the tour by the exuberant radiance of his genial personality.

CIVIC TAX REFORM.

Perhaps the City Fathers would do well to comply with the request of the council of the Board of Trade and grant Mr. James Pender an exemption of taxation on the proposed extension to his plant. By so doing they would make public recognition of what is now a commonly accepted principle of civic taxation elsewhere, and involve themselves in a multitude of difficulties from which they would only be able to escape by effecting a general reform of the local system of taxation. It cannot be seriously denied that it is desirable to a recognition of the principle that it is desirable to exempt improvements from taxation would be a step along the right road.

Many cities have placed almost the whole burden of taxation upon the land, or rather upon the unearned value due to the growth of the community. But through the principle of the single tax system was incorporated in the jubilee year of Moses, and applied in one form or another in Merrie England under feudalism, there are certain considerations which, even in cities, weigh strongly against the adoption of the Henry George system in its entirety.

No doubt St. John would do well to impose a much higher tax on vacant lots than it does at present, but the city is already troubled with a congestion of buildings, and until certain areas are reserved as breathing spaces, it might not be altogether wise to attempt to force landlords to erect buildings in order to secure revenues to pay taxes. Moreover, it would at first sight seem unfair to place the same tax upon the site of a factory, which may bring its owner thousands of dollars a year, as upon the land occupied by the residence of a man of moderate means, or upon a vacant lot that brings its owner no revenue at all.

Yet, if we regard the city as a business organization, having a purely business relation to the citizens, there is no very apparent reason why it should, apart from water rates, impose a higher tax on factory property than upon residential property occupying a site of equal size. Its ordinary expenditures for street purposes, police and fire protection, may not confer a greater benefit upon the owner of a factory than upon the owner of a residence. And if the object of city government is to increase the efficiency of the city's industrial organizations, then powerful considerations may be adduced in support of the plan of imposing the burden of taxation on land values.

To a city a factory is of greater economic value than a residence, and if the owner of the factory does not pay a greater tax than the owner of a residence, still his enterprise, by increasing the number of citizens, enables the city to get more money from its water rates and other sources, and also stimulates business all round in several different ways. Moreover landlords, because they could not shift a tax on land values upon the shoulders of tenants—the building up of vacant lots and the increased supply of houses would prevent them doing this—would be obliged to become manufacturers, and tear down old ramshackle buildings and erect large and modern structures in order to obtain larger revenues from them.

St. John should, at any rate, follow the example of other cities, and abolish in so far as possible, the tax on personal property and the stock in trade of its citizens. This tax is not only wrong in principle, but it is obviously unjust in principle. The Jeweller, for instance, has to put all his stock in trade right before the eyes of the people where the assessors may see it, while the butcher, by the nature of his business, does not have to do this. And it not only makes an undue distinction between classes of business—it imposes a handicap upon the local merchants. Our wholesale merchants have to meet competition with Montreal or English cities where there is no personal property tax. Our retail merchants are frequently complaining about the competition of the mail order concerns in Toronto, a city that also abolished the personal property tax years ago.

In Ontario cities, as in Montreal, a business tax has been substituted for the old tax on personal property, or stock in trade. The idea upon which this tax is based is that the city is a market, and a struggle is being made to build it up. Every business man pays for the privilege of having a stall in the market. But just as the landlord does not specify how many children or how much furniture a tenant shall have, so the city's business tax takes no notice of how much or how little stock is possessed by the merchant.

In the death of Professor Rolfe, which occurred last week in Massachusetts, the world loses a ripe scholar. His labors of late years had been devoted to the works of Tennyson and Shakespeare. Especially in his critical notes on our greatest dramatic poet Professor Rolfe contributed to the education of thousands to whom he was not even a name. He was eighty-three years old. As recently as last Thursday the New York Evening Post contained an interesting article from his pen giving instances of the strange forgetfulness of authors in their own literary history.

During the political campaign in Winnipeg recently two prominent citizens had an interchange of political verbiage, in which one called the other skunk, while the second came back with the term "hyena." The first man responded again with the opinion that his opponent was a "ring-tailed wart hog." The debate stopped there, probably because the superlative of invective had been reached.

With the probability of the Jeffries-Johnson fight pictures being excluded from Canada, from many American states, from Great Britain, Europe and South Africa, the men who paid a fair fraction of a million dollars for the picture rights may well begin to wonder where their profit is coming from.

UNREST.

Where the winds blow soft with a perfume rare,  
 And the flowers are languid with rapt delight,  
 And the hazy stars with a lazy stare  
 Look down on the greatness of the night—  
 There is God's limitless mystery.

'Tis there I'd be—'tis there I'd be,  
 Out of the mad exultant whirl  
 Of a heart unchained and a love run wild,  
 With passionate eyes and proud lips curl:  
 Into a land that is undefined,  
 By love unstirred—like a placid sea;  
 'Tis there I'd be—'tis there I'd be.

Light as a bird with naught to do  
 But sail aloft with wings outspread,  
 Joyously trilling the whole night through,  
 Nothing to pain in the words unsaid,  
 Where the world is my own and is God's  
 And is free—  
 'Tis there I'd be—'tis there I'd be.

—Ruth Basset Eddy.

THE PROVINCE OF PHILOSOPHY.

Philosophy is not a theory for popular acceptance, and designed for show; it is not in words, but in deeds. It is not employed to help us pass the day agreeably, or to remove ennui from our leisure; it forms and fashions the mind, sets in order our life, directs our action, shows what ought to be done, and to be left undone; it sits at the helm and guides the course through perplexities and dangers. Without it nous can live fearfully, none securely; countless things happen every hour which calls for counsel, and this can only be sought for in philosophy. Whether fate constrains by an inexorable law, or God is judge of the universe and arranges all things or chance without reference to any order impels and compels the affairs of men, philosophy ought to be our safeguard. It will encourage us to obey God willingly, to obey fortune without yielding; it will teach us to follow God, to put up with chance.

—Seneca.

Good Stories

"I see," said the man at the corner desk, "that they've got old Brown at last."  
 "Who's got him?" said the book-keeper.  
 "The suffragists. Here's a newspaper notice that proves it. The stork left a girl at his house the other day, and the announcement reads, 'Born to Mrs. and Mr. Brown.' Take notice of that? Mrs. and Mr. That's the suffragist way of spreading the news."

Then it Happened

Uncle Josh Cidermill was taking his decennial ride on the railroad cars. It was a novel experience for Uncle Josh, and he let nothing escape his wondering eyes.

A sign in the car caught his attention. It said:  
 "There is danger if you put your head out of the window."  
 So Uncle Josh promptly put his head out of the window to see if he could see the danger.

Everybody said the corpse would have looked very natural if the head hadn't been so mangled.  
 (The End.)

**JOSH WISE SAYS:**  
 Our virtues always look larger to us than to anybody else.

The little Quaker sat behind two ladies of the Four Hundred at the opera.  
 "I am cold," complained one, so that he could hear.

He leaned forward and touched her gently on the shoulder.  
 "I think," said he, "that what these needs is another necklace."

Wilfred—Ma, I wish I was crossed-eyed.  
 Mrs. Gunbusta—What makes you wish such a foolish thing, my dear.  
 Wilfred—Why, then I could stand on the sidewalk and watch a parade coming and going at the same time.

Cynicus—"It is quite impossible for a woman to keep a secret."  
 Henpeckke—"I don't know about that. My wife and I were engaged for several weeks before she said anything to me about it."

I don't care much for the country if I can get away;  
 But I'm very fond of the country if in town I'm forced to stay.

### Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of the hard wheat used, but also the superior milling facilities, that places "PURITY" flour so far above all others. Our milling plant at St. Boniface, Manitoba, cost nearly \$1,000,000, and is one of the most perfectly equipped mills in the world. The wheat itself is subjected to the most wonderful system of cleaning and scouring, passing through twenty distinct machines. Fifty-five steel rollers, the largest in Canada, reduce the wheat into flour. Then it is purified and dressed by "bolting" it through silk sifters of fine mesh. Not a "branny" particle or speck of dust is ever found in "PURITY" Flour.

You may have to pay a little more for Purity, but baking results, quality and quantity, prove it is worth far more than the slight difference.

We have two other modernly equipped mills at Brandon, Man., and Goderich, Ont.

### A NEW PASTOR ENTERS A NEW BRUNSWICK GIRL WITH A GOLDEN VOICE

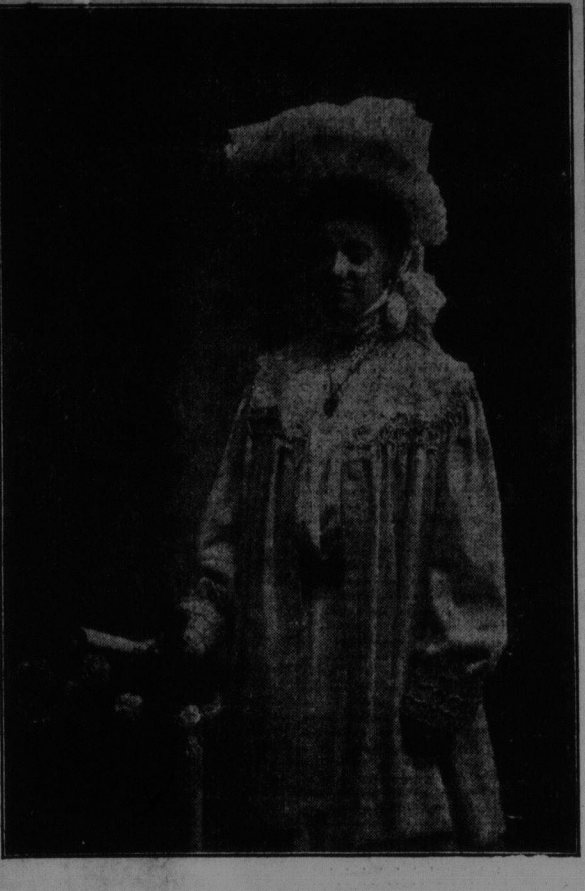

Rev. Wilfrid Gaetz Preached His First Sermons There Yesterday and Made a Particularly Good Impression.

Rev. Wilfrid Gaetz preached his inaugural sermons in Queen Square church yesterday, occupying the pulpit both morning and evening. He reached St. John on the steamer Prince Rupert Saturday evening and preached his first sermon yesterday morning.

From this text he drew three lessons. First, "that we should seek the noblest and best in life; 2nd, that we ought to make any sacrifice to get the best; and 3rd, that all we give up is more than made up to us by the value of the thing we sacrifice for."

The pearl signified the higher things of life and the husks the lower things. If man were made for base uses, exhausting himself in trifles, beautiful things would not have been put into the world for his benefit.

Some men can get rich and still hold on to their souls, but most men can't. The Jews increased their material possessions and relinquished the eternal possession of their souls, for they are looked upon as a standing reproach to mankind. What does it profit a man if he gain the whole world and lose his own soul?

MISS MARY STEWART.

Miss Mary Stewart of Andover, now visiting friends here, has won distinction in musical circles in the City of Halifax.

Miss Mary Stewart, a New Brunswick girl, who has achieved an enviable position in musical circles in the City of Halifax is the daughter of J. E. Stewart, managing director of the Tobique and Campbellton Railway Company, with headquarters at Andover, N. B.

### THE MAIDENS OF THE ST. JOHN "CENTRAL" AND WHAT THEY HEAR

Many a Tale of Love, Woe or Gain Hums Over the Vibrant Wires to Their Chipman Hill Clearing House--Every Voice Has a Color and the Girls Know Them All.

The golden voice, which is the voice of love, calling to love; and sometimes we may neglect our other customers to listen, perhaps wistfully, to the mellow richness, the tender proprietorship of its tones. Then there is the drab voice with its wistful draw--the voice of the neglected wife waiting patiently and sadly for the coming of the man who passes his evening sampling high balls. And there is the green voice with the note of alertness, and a sort of hissing in it, the voice of jealousy calling up someone after place to find the husband that had a sudden called to some business engagement.

### CRACK SHOOTING ON THE RANGE SATURDAY

Under Favorable Weather Conditions Local Riflemen of 62nd and Artillery Put Up Fine Scores.

Saturday was an ideal day for the riflemen and the range was a scene of much bustle during the afternoon. Clear and bright with a moderate and very steady wind the scores made were high.

The 62nd Fusiliers shot their regular match and the 3rd N. B. Canadian Artillery Rifle Association held their first cash match of the season. The highest league score ever made on the range was put up by the 62nd team, with no less than three possible Lt. Dunfield taking the record with a possible at 200 yards and 8 straight bulls at 500 yards.

The scores are as follows:

League Match.	200	500	600	Tl.
Sergt. E. F. Gladwin	33	33	32	98
Mr. C. Dunfield	35	35	25	95
Maj. J. S. Frost	33	30	32	95
Sergt. Maj. Perley	31	31	34	96
Serg. Maj. Lamb	30	33	29	92
Lt. L. O. Bentley	30	35	26	91
Sgt. G. W. Hazen	29	31	28	88
Col. Sgt. London	28	31	28	87
Pt. J. F. McIveen	27	27	30	85
Corp. Vincent	27	31	27	85

In this second matches a very interesting finish was the shootoff of a tie for Class A, between Lt. Dunfield and Sergt. Gladwin which was fired at 600 yards and at the end of three shots again resulted in a tie. The scores were:

200	500	600		
A Class:—	33	33	32	98
Sergt. E. F. Gladwin	33	33	32	98
Less 3 point handicap	30	30	29	89
Winnor of spoon	30	30	29	89
C Class:—	5	17	29	51
Pte. Cartile	5	17	29	51

Some of the cadet boys of St. Andrews church corps also shot during the matches with the following scores:

Corp. H. Dobson	26	23	17	66
Pte. W. Weford	26	21	11	58
Shootoff:—				
Lt. Dunfield	4	4	5	13
Sergt. Gladwin	4	4	5	13

The following is the score made in the Artillery match:

A Class	200	500	600	Tl.
Sgt. I. F. Archibald	32	30	34	96
Gr. A. L. McIntosh	31	29	31	91
B Class:—				
Corp. O. J. Dick	29	30	28	88
Lt. J. D. C. McRobbie	26	31	26	83
Gr. Coates, 50c.	29	30	22	81
C Class:—				
Gr. Jos. Barbour	22	23	22	67
Sig. Lockhart	26	22	20	68
Gr. Denton, 50c.	23	17	28	68

The following were prizes in connection with the matches:

Class A—G. Fletcher, spoon, 93 points, and handicap; L. A. Langstroth, 94, \$1.00; Alfred Langstroth, 91, 50 cents.
Class C—C. H. Richardson, spoon, 63 points; Geo. Hay, 63 points.

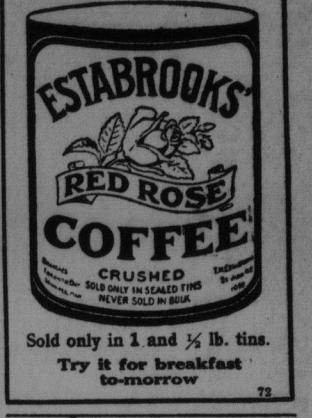

**Ladies Quartette and New Show at Nickel.**

The Nickel will doubtless be the attraction for thousands today when the Boston Ladies Quartette makes its bow. At 3.15 the ladies will make their first appearance and will be heard again at 4.15. In the evening their hours are 7.45, 8.45 and 9.45. So that their singing will be thoroughly appreciated a familiar number has been selected for the first selection, namely, "Carmelia Waltzes"—a delightful swinging melody with a Spanish tang to it. At each hearing the quartette will render a popular song of the day as well. Five such programmes every day in the week with changes Wednesday and Friday ought certainly to please everybody. The Nickel's picture bill really never was better the management claims. The new Biograph home story "The Marked Girl" will be the leading feature with "The Miser's Child" as a grand secondary film. In the line of dainty comedy "History Repeats Itself" will be put on and what is sure to make an all-round hit, a little story of a tiny boy's heroism entitled "The Stuff Canadian Boys are Made of." Altogether the programme is most attractive throughout. Be early for seats tonight.

**WEDDINGS.**  
Johnson-Taylor.  
A quiet wedding took place at the home of Thomas Delling, 36 Pond street, at 8 o'clock Saturday evening when Christian O. Johanson, of Copenhagen, was married to Miss Cora Taylor, of Bridge, N.B., by Rev. H. D. Marr. Thomas Delling acted as groomsmen and Miss Annie McCausland as bridesmaid. The couple will reside on Sheridan street.

Pennsylvania: C M Robinson, New York; L S N Stevens and wife, Springfield; Edgar M Boster, J F Welman, Toronto; Miss A MacLeod, South Side; P E H Mr and Mrs N Longwell, New York; Mr and Mrs H W Merriman, Campbell.

Good coffee means a good breakfast. Nothing takes its place. Nothing tastes so good. Estabrooks' Coffee has the vigorous strength and delicate richness which brightens and satisfies the appetite. Clears the brain. A good starter for the day.

**OXYGEN**

If sick yourself or if any of your loved ones are suffering or in pain; Would it not be well to drop in and investigate the merits of the wonderful Oxygenator?

It is absolutely a fact that Oxygen spells Life. These wonder working machines, that sell for \$25 and \$35 (and last for life) Cure all Curable Diseases.

They can be used by Men, Women and Children. We have a list of some of the most reputable men and women right here in St. John who are the proud possessors of these Splendid Machines.

Our offices are reached by electric elevator. Trained lady attendant always on duty.

To those who do not care to purchase outright we rent the machines and apply the rental paid on the purchase price.

No Drugs, No Massage No Electricity Used, Just Oxygen. Not an Experiment. 14 years of Successful Record.

ALARM IN WALL STREET OVER CROP REPORT

CROP REPORT RESULTS IN INCREASES

Sensational Rise in Wheat Follows the U. S. Government Bulletin on State of Crop—Showers in Stricken Districts

New York, N. Y., July 9.—Prices of stocks advanced today in view of the showing of the government crop on spring wheat. The stock market thus demonstrated the resisting power which it has developed by the course of liquidation of weak speculative accounts to which it has been subjected and by the building up of a short interest of sufficient dimensions to afford an effective absorption power by its necessities.

The movement of the price of wheat today left no room for debate that the speculation had failed to appreciate adequately the amount of damage disclosed by the government report to spring wheat. The compensating advantage of the good promise of the winter wheat and the news today of showers in the drought stricken district did not prevent sensational advances in the price of the cereal.

Bonds were steady. Total sales, par value, \$30,000. U. S. bonds were unchanged on call, during the week.

REPORTS ON B. C. SALMON SEASON

Washington, July 9.—Consul Abraham E. Smith of Victoria, in reporting that the salmon season opens in British Columbia on July 1, reviews the prospects:— It is stated fifty-six canneries will be operated in 1910, of which twenty-two are located on the Fraser River, two on Skeena River, eight on River Inlet, four on Naas River and ten in outlying districts.

Under the direction of an American scientist of California for the past eight years, the salmon-packing industry of British Columbia has been developed to greater extent than ever before. This American expert, however, having recently received the appointment of State Fishery Commissioner of California, has resigned his position in British Columbia to take effect Aug. 1, 1910. His official report of the pack for 1909 in British Columbia was 967,920 cases of salmon of forty-eight pounds each, of the approximate value of \$5,600,000.

CLOSING COTTON LETTER.
By direct private wires to J. C. Mackintosh & Co.

New York, July 9.—Liverpool closed 3 up. Sales 6,000. New York opened two down, sold off 6 points on evening up over end of the week. Quiet Saturday. For the last two or three weeks crop reports have been less unsatisfactory showing no rain in Texas and Oklahoma and unless better reports are forthcoming soon a buying movement will set in and carry prices very much higher. Trade conditions are the only drawback to this. Spinners both American and foreign reporting curtailments. Market closed steady at about opening prices.

JUDSON & CO. NEW YORK BANK STATEMENT.
By direct private wires to J. C. Mackintosh & Co.

CLOSING STOCK LETTER.
By direct private wires to J. C. Mackintosh & Co.

New York, July 9.—The market immediately after the opening developed a strong tone and the price movement was in one direction until the close. Many of the traders who were sellers yesterday turned buyers and on the advance considerable covering of shorts was made.

WHEAT MARKET.
Chicago, July 9.—Only bird seed left in one state and half a crop in another, such were among the inferences drawn on chance here today in tracing the significance of the government crop report as to the coming yield of wheat as affected by the drought. In a whirl of excitement and advances of as much as 3 1/2 cents a bushel were made on some sales but the close found the market comparatively steady at a net advance of 2 1/2.

COTTON RANGE.
By direct private wires to J. C. Mackintosh & Co.

INSURANCE

JARVIS & WHITTAKER, General Agents, 74 Prince Wm. St.

THE WEEK IN FINANCIAL CIRCLES

New York, July 10.—The financial market last week continued to reflect the apprehension felt over the general business outlook, but the further drastic purging to which the stock speculation was subjected, left that market so far relieved as to bring into question its further movements.

It is considered that the steel and iron industries are now sufficiently established in Canada to be successful in the future for 14 years and 193,181 tons from foreign ore, the bounty paid being \$93,205; steel, \$69,762 bounty on a production of 750,390 tons; wire rods \$53,812 bounty for an output of 89,200 tons; total bounties paid, \$1,898,542.

There was a subsidence of the acute anxiety felt earlier by speculators over the question of government regulation of railroad rates.

This was due partly to the action of the interstate commerce commission in resorting to increases of grain rates from Buffalo previously disallowed and the intimations that increased expense obligations of the railroads formed an influence on the decision.

An isolated engagement of gold in London was subject to some difference of opinion as to its responsibility to natural exchange conditions.

Robert Kirkpatrick, federal customs officer, has obtained a leave of absence for six months. During his vacation John Y. Flemming is acting official here.

George Lavery has returned home after spending a well earned vacation at Sackville.

Dr. C. A. and Mrs. Kirkpatrick and children and Mr. Richard Wheeler at Debec by automobile, and were the guests of Dr. Kirkpatrick's parents, Mr. and Mrs. Robert Kirkpatrick.

Crops generally are looking in a thriving condition. Indications are that the hay crop will be exceptionally good.

Recent visitors to Debec—Ethel Turner, Florenceville; Mary Carr, Hartland; Elder Kirkpatrick, Grand Falls; Mrs. (Rev.) Currie, Mrs. Alfred Henderson and Mrs. Yerra, Green Road; Mrs. Ira Carson, McKenzie Corner; Mrs. S. Billings, Mrs. Ezra Flemming, Elmwood; Mrs. Jas. Blair, Mr. Chas. Blair, Jr., St. Marys; and Miss Laura Kennedy, Kirkland.

CARSONVILLE.
Carsonville, July 8.—Rev. R. Heine, formerly of the Millstream, but now a Bible society missionary gave us an interesting address on Sunday afternoon on his work also sang two pieces, one in Italian and the other in Norwegian.

Samuel J. Frazee is rejoicing over the arrival of a baby boy.

The most terrific thunderstorm for years passed over here Monday morning, the lightning striking in different places. A tree near E. H. Leiper's was completely shattered. Several telephones were also damaged.

Miss Florence Northrup was here on Sunday last visiting her mother, Mrs. Agnes Northrup.

Octavius McLeod, of St. John, is visiting friends here.

Our school closed on Thursday last. The trustees have engaged Miss Bertie Leiper for the next term. Our former teacher, Miss Gaunce, goes to Albert County.

A number from here attended the S. S. Convention at Collina today.

GAEKWAR OF BARODA ARRIVES IN NEW YORK

New York, July 9.—His Royal Highness the Gaekwar of Baroda, and his high born consort, the Maharani, their only daughter, the Princess Indira Ragi Gaekwar; their son, the Prince Jaising Gaekwar and Captain C. N. Nubalkar, aide de camp of the British Army, have arrived in New York from the west with a retinue of servants. This is his second visit to this country in four years.

The Gaekwar is one of the most interesting of all the East Indian potentates who have ever visited New York, and he is now on a tour of the world. He recently left Japan, where he studied educational conditions.

Japan, he says, is far ahead of India in the matter of diffusing education among the masses. He explains this is due to the fact that there are so many various elements represented among the people of India, while Japan has far greater homogeneity among its people.

HAMMONDVILLE.
Hammondville, July 7.—Mr. Clarke held his usual service here Sunday evening. We are sorry to learn that he is leaving soon for Moncton, where he has accepted a call.

Miss Ethel Kelly is visiting friends at Berwick.

Mrs. Gordon Smith and little son, of Montreal, are guests of Mrs. C. W. Alexander.

Mr. Stephen Tabor is cooking at Camp Sussex.

Mrs. W. P. Fowler and daughter, Enid, spent Sunday in Havelock with Mrs. A. H. Robinson.

Mr. Vinton L. Faulkner, of Lunenburg, spent a few days with his father this week.

Mrs. Tom Alexander entertained the ladies at tea Tuesday afternoon in honor of Mrs. Gordon Smith, of Montreal, and Mrs. S. Kelly, entertained them Wednesday afternoon.

The road work is being rushed ahead here now. Four teams and eight men are at work today.

Mr. W. C. Tabor, of Connecticut, is visiting his aunt, Mrs. Murray McDonald here.

LONG REACH.
Long Reach, July 8.—The Misses Edna and Edith Fullerton and Zelda White have gone to the city to try the entrance examinations for Normal school.

Mr. and Mrs. Robert Holder, of St. John, are spending their summer vacation at Berwick Cottage.

Miss Marguerite Gonnage, of the Cedars, has returned home after spending a very successful year at St. Vincent's College, N. S.

Mrs. Mason, of Boston, is spending the summer here.

Mr. and Mrs. Bisset and family, of Boston, have arrived at their summer cottages.

Many of the young men of this place were up to Sussex to drill.

The residents of Long Reach gathered at the Methodist parsonage on Tuesday evening and presented Rev. and Mrs. J. S. Young, who leave on Thursday for the Springfield circuit, with a small purse as a token of the esteem in which they are held.

NEW DRESS SHOES.

St. Johns Nose Out Victory

DEFERRED BY RED SOX Veteran Young Has Yet to Win His 500th Game--Detroit Loses to Athletics--Other Games.

Boston, July 9.—"Cy" Young today attempted to win his 500th game since he started major league pitching, but was ineffective and Boston defeated Cleveland 5 to 4. Young was taken out of the box after the 2nd inning.

Washington, July 9.—Washington and St. Louis split even on today's double header, the visitors winning the first game 9 to 6 while the locals captured the second, 3 to 2. St. Louis used four pitchers in the first game and Washington 3. The heat was oppressive and the errors of both teams were in a measure responsible therefor.

Philadelphia, July 9.—Philadelphia made it two straight from Detroit today when the latter was shut out, 5 to 0. The home team hit Donovan delivery hard and usually at the right time, while Plank kept Detroit's few hits widely scattered.

Philadelphia today did not reach third base until the 9th inning, when Magee hit for a double and went to third on a single by Branchfield. Magee scored Philadelphia's only run on Doolan's out at first. Cannitz was strong all the way, while the visitors used four pitchers.

Boston, July 9.—Boston lost the first game of the series to St. Louis today by a score of 2 to 1. Harman and Brown pitched splendidly after the first inning. Eason pitched his first game in the national league.

Cincinnati, O., July 9.—McLean's triple and Roth's single in the final inning won the first inning game between Cincinnati and Brooklyn today for the former. Both Rowan and Bell pitched nicely but the locals got to Wilhelm's delivery. Lennox was put out of the grounds in the third inning for arguing with the umpire.

MORE RECORDS LOWERED AT WOODSTOCK

Onward Gratten Makes New Record of 2.15 1-2 in 2.21 Class--Walter H. First in 2.20 --King Arion Drawn.

Woodstock, N. B., July 9.—Fast time, close finishes and clean, good horse racing marked the second day of the meeting here today. A new record was established by one winner while another winner twice stepped to his mark.

The racing in the 2.30 class trot was the feature of the day. Walter H., a grey riding owned and driven by Peter Carroll, of Halifax, stepped twice to his record of 2.21 1-4 and carried off first money after four heats had been raced.

The 2.21 class was also closely contested. In this class the stallion, King Arion was a disappointment as he had to withdraw on account of colic after the first heat.

Chicago, July 9.—Chicago outplayed New York in the first game but both teams played good ball in the second game and it took 11 innings to determine the winner.

Chicago, July 9.—New York took the opening game of the series today, 7 to 3, by bunching six hits for a total of four runs in the first inning.

Chicago, July 9.—Jack Johnson, the pugilist responded this afternoon to the report that his defeated rival was seeking another bout.

Chicago, July 9.—The St. Peters ball team, of St. John, came to the border town today and played against the Thistles, and though the score was 4 to 0 in favor of the visitors, the game was at all times an interesting one.

Exciting Finishes and Surprises Marked Opening Day of Running Races at Moosepath Park

Time-1.00 1/4, Fotheridge, C. A. Morgan and Jack Ryan also ran.

The curtain raised on the seven days' meet of the St. John Driving Club at Moosepath, Saturday, when a distinctly high class programme of running races was witnessed.

Not for many, many years has such a monster crowd thronged to the track. Fully 2,500 gentlemen and ladies were present, and long before the starter's pistol set the meet in motion, not a seat could be had in the grandstand.

Of the nine entries in the second race, The Clown, Jack Blinn, Johnny Wise, Laura A. and Lillian Leigh should be considered best.

Chief Hayes' performance Saturday must not be taken seriously. This one is capable of better work than he showed, but when he gets going, though they will be fighting it out at the end, and we look for them to finish in about that order.

Don Hamilton again. The smallest field of the day happens in the fourth race, but what is

The 2.21 class was also closely contested. In this class the stallion, King Arion was a disappointment as he had to withdraw on account of colic after the first heat.

Chicago, July 9.—Chicago outplayed New York in the first game but both teams played good ball in the second game and it took 11 innings to determine the winner.

Chicago, July 9.—New York took the opening game of the series today, 7 to 3, by bunching six hits for a total of four runs in the first inning.

Chicago, July 9.—Jack Johnson, the pugilist responded this afternoon to the report that his defeated rival was seeking another bout.

Chicago, July 9.—The St. Peters ball team, of St. John, came to the border town today and played against the Thistles, and though the score was 4 to 0 in favor of the visitors, the game was at all times an interesting one.

Chief Hayes' performance Saturday must not be taken seriously. This one is capable of better work than he showed, but when he gets going, though they will be fighting it out at the end, and we look for them to finish in about that order.

Don Hamilton again. The smallest field of the day happens in the fourth race, but what is

St. Peter's, July 9.—The St. Peter's ball team, of St. John, came to the border town today and played against the Thistles, and though the score was 4 to 0 in favor of the visitors, the game was at all times an interesting one.

St. Peter's, July 9.—The St. Peter's ball team, of St. John, came to the border town today and played against the Thistles, and though the score was 4 to 0 in favor of the visitors, the game was at all times an interesting one.

BONSEL WAS THE WINNING MOTOR BOAT

Gandy & Allison's Speedy Craft the Third to Finish at Frederickton, but Corrected Time Gave Her Victory.

Frederickton, July 10.—The long distance motor boat race from St. John to this city on Saturday was won by the Bonsel, owned by Chester Gandy and H. A. Allison of the St. John firm of Gandy & Allison.

The distance is approximately 84 miles and the Bonsel's time was 6 hours 8 minutes and 17 seconds. She was the third boat to reach here, the time of her arrival being 4.25 p.m.

The boats which took part in the race and also Commodore Thomson's flagship of the R.Y.C., the Corinthian, and Commodore S. P. Gorr, flagship of the St. John Boat Club, the Lolta, and several smaller craft, remained anchored off the B. & B. Club over Saturday night and all started on the trip down river today.

Corrected Time. The corrected time of the competitors follows:—

Hours Mins. Secs. 1—Bonsel...6 8 17 2—Keonik...6 25 04

Newport, R. I., July 9.—With the wind a little more friendly, although still blowing from the same quarter, better time was made by the boats in the third day's contest in the series under the auspices of the Newport Yacht Racing Association today.

Empire City Race Track, N. Y., July 9.—T. Wilson's Olombala today added another stake to his already long list when he gets going the \$46,000 Brighton handicap 1 1/4 miles, here today defeating a fairly good field.

The officers of the Automobile Club Syracuse are engaged in an effort to raise the membership of the organization to 700 before the end of this year. At the last meeting of the club twenty-three applicants were elected to membership.

Bonsel Won Boat Race

Tilley's Team Win Out from Clippers 7-6 in Exciting Game -- Five Pitchers Were Tried Out.

St. John, 7; Clippers, 6. Charley Tilly's artists put another one over on Sunday afternoon when a large number of elite of this cultured community saw a game that abounded in baseball of various brands.

For the St. Johns Mr. Bovard was the first heaver and the Clippers found him to an extent that made Manager Tilley call upon Bart Nesbitt to win the day. Bart was as steady as a job with the government and did some glit edged leaving. In the field there was little to choose between the teams.

That boy, Donnelly, who covers first sack for the Clippers again showed a good game, but in his third year and in the field, Bucky Mills also surprised his most intimate friends who have watched his baseball career since he first played with the Mount Ararat Wood, under a star pitcher.

Newport, R. I., July 9.—With the wind a little more friendly, although still blowing from the same quarter, better time was made by the boats in the third day's contest in the series under the auspices of the Newport Yacht Racing Association today.

Empire City Race Track, N. Y., July 9.—T. Wilson's Olombala today added another stake to his already long list when he gets going the \$46,000 Brighton handicap 1 1/4 miles, here today defeating a fairly good field.

The officers of the Automobile Club Syracuse are engaged in an effort to raise the membership of the organization to 700 before the end of this year. At the last meeting of the club twenty-three applicants were elected to membership.

St. Peter's, July 9.—The St. Peter's ball team, of St. John, came to the border town today and played against the Thistles, and though the score was 4 to 0 in favor of the visitors, the game was at all times an interesting one.

New England Forecast.

Washington, July 10.—Forecast for New England: Showers Monday and somewhat cooler. Tuesday generally fair, moderate south to southwest winds. The temperature will moderate somewhat Monday.

AROUND THE CITY

Will Play at Newcastle.

The Caledonian Pipe Band will leave for Newcastle today to take part in the Orange celebration there on the 12th inst.

Sharpers At The Track.

The police who were stationed at Moosepath on Saturday afternoon had their work cut out for them. Besides the task of keeping the large crowds in order, there was the additional, and more difficult, task of keeping an eye on several well known sharpers. Suspicious characters were kept well under surveillance, however, and no trouble was reported.

Back From Camp Sussex.

No. 8 Company Army Medical Corps and the Signalling Corps arrived in the city from Sussex by special train Saturday afternoon. After disembarking from the train, they formed up in the station, where Major Walker complimented them for the progress and good showing they had made at camp. The fatigue party under Sergt. Smith arrived late Saturday.

Rev. H. D. Marr in New Pulpit.

In his inaugural sermon to a large congregation in Portland Methodist church last evening, Rev. H. D. Marr, M. A., appealed to the church to help him in his labors in their field. Taking as his subject the "Crises of Life," he pointed out the turning point in the life of the church and of the individual, referring at some length to his altogether pleasant four years pastorate at Queen Square church.

Paid \$100 Fine.

M. E. Hanlon, who on Thursday last was sentenced by Magistrate Ritchie to three months in jail or a fine of \$100 for illegal selling of liquor, was before the magistrate again on Saturday. Hanlon offered to pay \$75 of the fine, and promised to have the balance forthcoming in a day or two. He was told that until he could produce the full amount he would have to remain in jail. He was allowed to get in communication with his friends, and at 10 o'clock Saturday night, upon having secured the necessary \$25, was released.

One of the Best of 'Em.

Among the visitors to the city in connection with the racing season at Moosepath Park is William Pierce, who is handling the publicity end of the big meet. "Billie" Pierce is well known in the newspaper offices of Eastern Canada. He is a sporting writer of repute, having served in this capacity with several of the Upper Canadian papers. Among the mechanical staffs he is also well known as one of the fastest typographers in Canada and in this connection is the holder of more than one record. He is no stranger to the east as he was a member of the Halifax Herald staff before going to Montreal.

Break in the Water Main.

A break in the water main at the corner of Gilbert's Lane and City Road occurred a little before 1 a. m. on Sunday. At 1 o'clock the attendant on watch at the water and sewerage office on Carmarthen street, noticed a reduction of 16 feet in the water pressure and shortly after while efforts were being made to locate the trouble, word was telephoned in that the break was at the point mentioned. A gang of men was immediately called out and put to work and before six o'clock last evening the break had been repaired and the excavation filled in again. Owing to the shutting off of the water there was a considerable lowering of the pressure in the vicinity, but the general water service of the city was not seriously affected.

Labor Man Delayed by Strike.

Thomas Izzard, of Toronto, 4th vice-president of the international union of bricklayers and masons, who was expected in St. John last week to assist in starting the organizing campaign, for which a large sum of money has been voted, was called to Montreal in connection with the big strike in the building trades there, and may be detained there until the difficulty is adjusted. Meantime the local building trades council is making arrangements for calling mass meetings of workers as soon as Mr. Izzard is at liberty to visit the city. It is proposed to organize first a union of plumbers, many of whom have already signified their intention of joining the ranks of union labor, and then to proceed with the work of organizing the stone masons and other trades.

Back To Nature.

William McIntosh, curator of the Natural History Society, returned at 10 o'clock Saturday evening from "Peanutsooze" camp with 30 boys, who have had twelve days' outing near Nerepis, Queens county, under the auspices of the society. The boys were near the shores of the Keppell and Robin Hood lakes in an open glade in the woods, so that fishing, boating and nature study could all be indulged in. John McKinnon had charge of the amusement end of the outing, while Mr. McIntosh, himself instructed the boys and acted as general overseer. Not a case of sickness nor an accident was reported. The kids did all their own work and each day two boys acted either as "woodcutters," cooks, waiters, or dishwashers in turn.

Arthur B. Hannay, formerly a St. John newspaper man and now a member of the press gallery in Ottawa is in the city on a visit.

ELM TREE BEETLE

HAS INVADED PROVINCE

William McIntosh is Quite Sure That the Dreaded Insect Has Found Lodgment in Kings County.

That the Elm Leaf Beetle, which from point of destruction is second only perhaps to the famous Brown Tail Moth, and which is equally dreaded, is at present quickly spreading throughout the province, and may be the species recently discovered at Sussex, was the statement made by William McIntosh, who has made a thorough study of the insect. Although Mr. McIntosh has not yet received a specimen of the moth, which is reported to be causing such havoc in Kings County, he said last evening that judging from the description which he had seen in the press, he was fully convinced that it was none other than the deadly Elm Leaf Beetle. That this insect was slowly spreading throughout the province, he had no doubt.

He had first discovered their presence last year in the Grand Lake region and he also had specimens sent him from the Western part of the province.

"The appearance of this destructive insect is alarming," he said, "and measures should at once be resorted to, to prevent its further growth. This insect is in all probability responsible for more ruined elm trees in the United States than all other destructive agencies combined. The extensive and vigorous means employed in controlling this pest in several of the States, however, have mitigated the injury very materially, and have demonstrated the possibility of keeping the insect under control, and should New Brunswick desire to rid itself of its ravages, now is the proper time to take the matter in hand."

This dreaded insect is common over a large part of Europe, and is particularly injurious in Germany, France, Italy and Austria. It probably established itself in this country in 1834, and its ravage became noticeable in 1838. It rapidly spread through the different states to Charlotte, North Carolina to Salem, Mass. It occurs as far west as Kentucky and is well known in Ohio.

It has spread over a large portion of Connecticut and Rhode Island, leaving a trail of destruction in its path. In this province it is not as yet so common, but it has been reported to have suffered a similar fate had it not been for the systematic spraying undertaken then and since continued. Practically the same story has been repeated throughout the States, and the pest has established itself in force, and unless the insect is checked now on its advent into New Brunswick this is likely to be our experience.

In the city of Albany alone it was estimated that more than 1000 elms were killed within the city limits by this pernicious insect, and many more elms have suffered a similar fate had it not been for the systematic spraying undertaken then and since continued.

Practically the same story has been repeated throughout the States, and the pest has established itself in force, and unless the insect is checked now on its advent into New Brunswick this is likely to be our experience.

It seems that out in one of the suburbs there lived a maid, and this maid was the possessor of a \$20 bill, and when she got upon a car to ride to town she presented this bill to the conductor.

Now conductors do not carry change for a \$20 bill, and as the maid was fair and good to look upon none had the heart to put her off her car. So back and forth she rode on the strength of that \$20 bill till all the conductors on the line got to know her. Then growing bolder, she began to bring a friend and then more friends to ride with her, and the friends likewise were fair and none carried change. The conductors were at their wits end. They couldn't save up enough money to capture that \$20 bill, and they didn't like to hold up the fair maid and her fair friends.

Presently the executive office became cognizant of the difficulty and somehow the financial magnates who direct the destinies of the street railway heard of it. One of these gentlemen rose to the emergency.

"I'll capture that bill," he said.

"How?"

"Leave that to me. I'll tell you about it later."

And forthwith the magnate returned to his private business office and set one of his employees to work collecting pennies. When \$19.95, all in coppers had been collected, he put them in a strong bag, and getting into a cab with his burden drove to the car shed, and called to him one of the conductors on the line patronized by the maiden with the bill.

"Here's your change," said he. "Bring me the bill when you get it."

Shortly after the magnate appeared at another meeting of the directors, and told how the conductor had got even with the young lady by giving her \$19.95 in coppers to carry away.

And then triumphantly he produced the famous \$20 bill. Another magnate accustomed to handling much money looked at it and then drily observed, "I'm afraid the joke is not on the young lady. This bill is a counterfeit."

The Borden Club Moonlight. The moonlight excursion to be held under the auspices of the Borden Club on Wednesday the twentieth instant, promises to be one of the greatest of its kind and already a large number of tickets have been sold to out of town parties. The limited number on hand may be purchased from members of the committee or from stores throughout the city. Come and bring your lady. She is welcome.

You can't fool her, "Othello" chocolates are the right kind. At White's King St.

It is expected that the convention will be very largely attended by members from all parts of the United States and Canada. A feature of the session here will be the election of officers for the next two years. All members of the order will be welcomed at the meetings.

LABOR MAN OBJECTS

TO UNFAIR ARTICLE

Editorial in the Evening Times is Said by a Local Union Officer to be Most Misleading.

An official of one of the local unions of the International Brotherhoods requested a Standard representative yesterday to point out that the editorial appearing in the Evening Times the other day under the caption of "The foreign dictator," is misleading.

The Times quotes a statement from the Montreal Witness, that "the practical fact seems to be that the control of Canadian labor has passed into the hands of United States labor officials, which is curious, and also menacing to our prosperity and national independence." The Times in this connection, further adds that there is an "irksome dictation in local affairs."

"This is not the case," said the St. John union official. "The Times would find it difficult to point to a single instance where a United States labor official acting for the American Federation of Labor, has ordered a strike in Canada. All that these officials ever do is to sanction a strike which the Canadian workers have voted in favor of. Trade unions are self-governing bodies, ruled by the will of the majority. It is true an International officer from the States might go to any Canadian city and advise the local union to strike, but though I have been connected with the labor movement for a good many years, I never heard of any of them doing so, unless the local men were anxious to strike anyway. And in any case this advice would not be acted upon unless a majority of the members of the local union thought it good. They are more apt to advise against strikes because the International has to foot the bill."

"At present the International unions, except in extreme cases, seldom send men from the States to deal with Canadian labor affairs. All of them now have several Canadians in the grand executive and in order to have disinterested advice an International vice-president, resident in Montreal, for instance, is sent to Toronto to handle a strike, or vice versa."

"Moreover, not all the dues paid by Canadian unions are controlled by the International officers. The International hands over 18 cents per capita on its Canadian membership to the Trades and Labor Congress of Canada for legislative and other purposes, besides paying the expenses of the organizers in the Canadian field most of whom are Canadians."

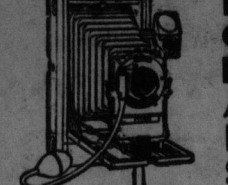

PAINLESS LENTISTRY

Teeth filled or extracted free of pain by the celebrated "HALE METHOD."

All branches of dental work done in the most skillful manner.

BOSTON DENTAL PARLORS, 227 Main St., Tel. 643. DR. J. D. WAHER, Proprietor.
