

A LARGE AUDIENCE GREET'S BAXTER

Hon. J. B. M. Baxter announced last evening:

"Should the Opposition be returned to power in the present Provincial Election it will be one of my first duties to examine the Provincial accounts for the purpose of ascertaining whether, in view of the financial condition of the Province, the existing Amusement Tax may be abolished. If even at the expense of other services, this can be done, it will be done immediately.

"It will also be an immediate duty to revise the methods of administration of the New Brunswick Prohibitory Law, for it is wholly unjust that municipalities should be burdened with the cost and responsibility of such administration, and at the same time be deprived of a fair share of the revenue resulting from fines, etc. This condition will be corrected without delay."

ULSTER ABLE TO NEGOTIATE FOR OWN GOOD

Viscount Grey Declares Reprisals Policy is Blocking All Roads to Agreement.

SITUATION GROWING WORSE RAPIDLY

Three Policemen Ambushed While Escorting Postal Employees by Ten Armed Men

Dunmore, Ireland, Oct. 8.—Ten armed men today ambushed three policemen at virtually the same spot where a patrol was attacked yesterday when a constable was badly wounded. Again today one constable was injured. The attempts of the attacking force were beaten off. The police were escorting postmen carrying money when the attack took place.

More Grity Views

London, Oct. 8.—Viscount Grey, of Palladen, former Ambassador to the United States today published in the Westminster Gazette another long letter concerning his ideas for a solution of the Irish situation. The letter was partly in answer to criticisms by former Premier Asquith and others of his recent proposals and partly in amplification of them.

"The best I can suggest," says Viscount Grey among other things, "is to make it clear that the very starting point of our policy is our conviction of the incapacity of the British parliament to manage purely Irish affairs and our determination to put an end to this tragic failure. And I want to see in clear beyond power of misconception, that within certain limits, frankly and honestly stated by us, Irishmen are not only free to arrange their own government, but must do so.

No Other Solution

"In no other way can I see how to get the Nationalists and Ulstermen to realize that they must take account of each other's point of view and make concessions to each other. Protestant Ulster is quite strong enough to make her own terms with the rest of Ireland, but so long as we go on allowing her to be understood as being at the Protestant Ulstermen and the rest of Ireland do not agree, we will still be responsible for the internal affairs of Ireland, they will never agree, and one or the other will block in London or defeat in Ireland whatever scheme of Irish Home Rule is initiated in the British Parliament.

Condemns Reprisals

"The indiscriminate and cruel reprisals as well as the cruel murders that provoke them, must be stopped, or else the bitterness here and in Ireland will grow until any sentiment of reconciliation is impossible. But when these are stopped, there will still be urgent need for a new departure in the Irish policy.

"It was said that what I suggested the other day is the counsel of a pessimist. The real and worst pessimism is to hold that a majority of the Irishmen are absolutely unreasonable and irresponsible, and that there is nothing for it but a settlement by war and conflict.

"Continuance of the present state of things may render the present situation hopeless, and we shall be disgraced if we let the present state of things continue. But we have, I hold, neither the right nor the need to regard the whole political situation as hopeless until we have made a better effort at settlement than the present policy of the government."

CABINET CHANGES AT OTTAWA RUMORS

H. H. Stevens of Victoria is Mentioned as a Possibility Once More.

Ottawa, Oct. 8.—A report that the presence of H. H. Stevens, of Vancouver, in the capital indicates the possibility of cabinet changes at an early date is not generally credited here. In conversation with a representative of the Canadian Press, Limited, since his rival Mr. Stevens asserted that his presence in Ottawa was for the purpose only of attending to departmental business affecting his constituency, Mr. Stevens is also interesting himself in the Prime Minister's approaching tour of the West, more particularly the British Columbia end of it. He will accompany the Prime Minister and speak at several of the meetings to be held in that province. Mr. Stevens was optimistic as to the prospects of the Government candidate in Yale-Cariboo and made the prediction that Mr. McKelvie, the choice of the National Liberal-Conservative convention, would be elected by a good margin over the Farmer and Labor candidate.

Mr. Stevens leaves for the West on Saturday evening.

Visit of Royalty To Dominion May Be Too Expensive

Princess Mary and Duke of York May Be Forced to Postpone the Trip.

(Copyright 1920, Cross-Atlantic) London, Oct. 8.—Rumor is busy in court circles regarding the proposed visit of Princess Mary and the Duke of York to Canada next Spring. It is said that the only objection now is in the cost, which the King does not regard as a proper charge on national exchequer, but which both Their Majesties may refuse, with the present high cost of living, as too heavy a burden for their private purse.

DOCTORS TREAT SEAMAN WHILE MILES AT SEA

Passenger Ship Surgeon Diagnosed Case and Prescribed by Wireless for Man.

Southampton, Oct. 8.—While the ocean liner St. Paul, which has arrived here, was in mid-Atlantic she received a wireless appeal for medical aid from the tramp steamer Schoroon. A member of the crew of the tramp was seriously ill. Dr. Stamp of the St. Paul obtained a description of the man's ailment by wireless while the vessels were fifty miles apart. He diagnosed the case as appendicitis. Then he treated the man by wireless instructions for four days, when it was reported he was on the way to recovery. Communication between the two vessels was then broken off.

MORE TROUBLE WITH LECKIE'S BIG AIRSHIP

Ottawa, Ont., Oct. 8.—Trouble with the port engine of the big F-3 seaplane which Colonel Robert Leckie and Major Basil Hobbs will fly to North Bay, and thence to Winnipeg, delayed the continuation of the Trans-Canada flight from Ottawa this afternoon. Two attempts were made to continue the flight, one at four o'clock this afternoon and the other at seven this evening; but it was found impossible to get away. It was found necessary to strip the machine to get at the seat of the trouble, which will necessitate mechanics working on it a large part of the night. The air men are hoping to make a start tomorrow morning at half-past five o'clock, as soon as it gets light. It is proposed to fly to Winnipeg in the F-3, although a relay machine is standing by at North Bay, in case it should be needed. The F-3 arrived here at noon today from Riviere du Loup, Que.

Flying to Cuba. Kingston, Ont., Oct. 8.—A big United States seaplane which has been undergoing repairs in the harbor here for several days left this afternoon about 3 o'clock for Montreal on the way to New York, and then on to Cuba. Captain Alexander, who is in charge of the seaplane, was accompanied to Montreal by Colonel W. H. P. Elkins, D. S. O., and Mrs. Elkins, Captain and Mrs. Penhale, Lieut. P. H. Morrison and Major Alderson, D. S. O. Major Alderson will go to New York with Captain Alexander. The others will leave the party at Montreal. The weather conditions for the flight today were ideal.

MANUEL WILL NEVER MAKE ATTEMPT TO REGAIN HIS THRONE

London, Oct. 8.—At a secret meeting of his partisans, held at his country home at Twickenham, near London, ex-King Manuel of Portugal, declared his irrevocable intention never to seek to regain the throne from which he was banished.

A message had been despatched from Lisbon urging King Manuel to counter the threatened Soviet movement by making another bid for the throne. The former King came to the conclusion that another Monarchical coup would make Bolshevism inevitable if it failed.

MacSWINEY BETTER. London, Oct. 8.—Mayor MacSwiney was much brighter tonight, according to the night bulletin of the League. Although very weak, it says, he is not so much exhausted.

EXTRAVAGANCE AND INCOMPETENCE OF GOVERNMENT CLEARLY REVEALED IN A MASTERLY REVIEW BY OPPOSITION HEAD

CAVALRY CALLED TO FIGHT THE FIRES

Superior, Wis., Oct. 8.—Late this afternoon forest fires were reported to have reached Pattison Park, a state reserve, a few miles south of Superior. Troop A of the Wisconsin cavalry has been called to fight the fire, and with American Legion has been called upon to furnish volunteers for aid in subduing the flames.

ADMIT PART IN POKER ROBERIES

Regina, Sask., Oct. 8.—The Saskatchewan provincial police have secured from Bill Brachuk and John Faschow, two of the four bandits captured after a long chase and a gun fight in the north country two weeks ago, complete confessions of their connection with the hold-up at the Lockhart lumber camp at Fort Francis on September 11. They stated that there were four of them in the band, and that they planned to make a "hot of money" holding up poker games at the lumber camps.

LOCATE MEN THOUGHT KILLED IN EXPLOSION

New York, Oct. 8.—Investigation to determine whether any "culpable negligence" caused the explosion in the British tanker G. B. Crowe yesterday which killed five and injured more than a score of workmen was begun today by District Attorney Lewis of Brooklyn. The trio of missing men, whom it was believed had been killed by the blast were located today when the force of workmen reported for duty. Only three of the injured remained in the hospital and these are out of danger.

Gov't of Many Crutches and Tragic Weakness Meritless Assailed on Its Record.

The last shot in the battle being waged by the Opposition in this city against the Government of spendthrifts and incompetents, marshalled by the "Boy Premier," was fired with accurate aim and telling effect by the Hon. Dr. J. B. M. Baxter, the Opposition leader, at the Imperial Theatre last night.

Despite the lateness of the hour at which the meeting was called (10.30 o'clock), the place was packed to its capacity, the circles and rotunda being filled by men and women anxious to hear an intelligent dissection of the campaign issues by a man capable of dissecting them in a fair and broad-minded manner.

Got Great Reception. When the Hon. Dr. Baxter and the city candidates of the Opposition ticket came upon the platform, they were received with loud applause. The demonstration continued for some minutes. It was a spontaneous outburst which carried a swing of victory with it, and forecasts defeat for the Government led by his helpless Premier.

There was a certain mystical, magical feeling running throughout the great audience which is a harbinger of ill for the Government of Foster, Veolot and Carier. Lieut. Col. W. H. Harrison was the chairman of the meeting. In a few introductory remarks he welcomed the audience and briefly reviewed the campaign leading up to the spring of the snap election by a Government seeking to sneak back into power while the people were sleeping. He said the people were honored in having the campaign closed for the city by the leader of the Opposition, who, after tomorrow night, would be in line for the Premiership of the province.

When Dr. Baxter stepped forward to address the audience it was the signal (Continued on page 7)

SOLDIERS DEMAND SOVIET GOV

London, Oct. 8.—A wireless despatch received from Moscow reports that a military mutiny has broken out among the garrisons in Northern Afghanistan. The despatch says the soldiers are demanding a soldiers' soviet, the same as that in Russia.

WOOL MARKET IN STATE OF PANIC

Ottawa, Ont., Oct. 8.—The live-stock branch of the Agricultural Department in its report for the week ending October 7, announces a condition of panic in the wool market. The report adds that buyers are offering prices away below what sellers are willing to accept.

JACK BRITTON IN DRAW BY PERRY

Toledo, Oct. 8.—Jack Britton, water-weight champion boxer, was hit to a draw by Jack Perry, of Pittsburg, in a twelve-round bout at the Coliseum here tonight, according to the majority of the newspapermen. The bout was fast.

SCHOGNER IS LOST. Quebec, Oct. 8.—The schooner St. Louis, of Kamouraska has been wrecked and one of the crew has been lost, as well as part of the cargo. The other members of the crew had been picked up by the steamer Labrador.

RUMOR OF BIG LOSS. Quebec, Oct. 8.—It was rumored in Quebec today that on Tuesday night, October 5, a mail bag containing a sum of \$15,000 in bank notes was lost in transmission from the Quebec post office to the C. P. R. station.

DEEP WATER WAYS SCHEME IS CRITICISED

Chambre de Commerce of Montreal Thinks it is Too Costly and Not a Success.

Montreal, Oct. 8.—The opposition of the Chambre de Commerce to the deep water way scheme was voiced at this afternoon's session of the International Waterways Commission here by Joseph Quintal, president of the organization. He submitted a resolution passed this week at a meeting of the body to the effect that it would be unwise for the Dominion of Canada to embark on such an enormous expenditure for the development of the great lakes and the St. Lawrence as outlined.

The cost as between Canals and open water navigation were the main theme of testimony given by J. A. Jamieson, C. E., Montreal, who claimed that he had made a special study of water-borne traffic in relation to grain handling. "As a result of that study," he said, "I have formed a very strong opinion that the deep water scheme cannot be an economic navigation project."

Loss to Canada.

Commissioner Powell asked witness whether his objections were not based on possible loss to Canada, to which the witness replied in the affirmative.

In regard to the power development of the scheme it was stated that there was enough power in the St. Maurice River to supply the whole of Canada for the next 24 years and that it could be obtained here much more cheaply from that source than from the international stretch of the St. Lawrence. This opinion was given by the chief engineer of the Montreal Light, Heat and Power Company who added that there was already a surplus of power in Montreal.

CANADA GETTING BIG COAL LOADS FROM UNITED STATES

Ottawa, Oct. 8.—As a demonstration of the determination of the United States to maintain her coal trade with Canada, a large shipment of coal to Montreal is being shipped to Canada today. The shipment is being made by the Canadian National Railway. The coal is being shipped from the Pennsylvania mines to the Montreal docks. The shipment is being made in response to a request from the Canadian National Railway for coal to be shipped to Montreal. The coal is being shipped in large quantities, and is expected to arrive in Montreal today.

BEAT WIFE BLACK AND BLUE; NOW HE MAY GO TO PRISON

Montreal, Oct. 8.—Samuel Meloche, 161 Delisle Street, this city was sentenced to two months at hard labor and a further twelve months if he cannot furnish a bond of \$500 to keep the peace for a year. He pleaded guilty to a charge of wife beating. His wife could not be induced to testify against him, although she was beaten almost to a pulp and her arms and body were black and blue from repeated beatings.

BRITISH SEND ULTIMATUM TO RUSS SOVIETS

Threaten to Sink Warships and Subs on Sight if They Appear in Black Sea.

REGARDED AS WAR DECLARATION NOW

Krassin Declares Message Bears the Signature of Earl Curzon, Foreign Secretary.

London, Oct. 8.—A British ultimatum to Russia, threatening to sink Russian warships and submarines on sight, if they appear in the vicinity of Nikolai on the Black Sea, has been handed to Leonid Krassin, the Bolshevik emissary in London.

The note, according to Krassin, was from Earl Curzon, the British Secretary for Foreign Affairs. The message is regarded in some quarters as a declaration of war.

"The note," said Krassin, "declared that it has been reported to the British Government that a Russian submarine has been sighted off Nikolai and further states that if this is so it will be sunk as will all Russian warships on sight." Krassin has forwarded the note to Moscow.

ELECTION EVE FINDS CAPITAL CALM AND QUIET

Farmer and Women the Two Uncertain Elements in the Provincial Election.

Special to The Standard. Fredericton, N. B., Oct. 8.—On the eve of the Provincial Election the Capital is very quiet. The opposing parties are all confident of victory, but every candidate is making a last minute effort to ensure his election.

The Farmer party declares it will carry the day in the province. The Opposition and the Farmers are equally confident they will pull it down. The uncertain element in the contest is the vote of the women and the rural population.

The New Element

Undoubtedly there is a tremendous revolt in all parts of the province against the costly administration of the Government. The Farmers are indignant of the Liberal party, but the Liberal party is not indignant of the Farmers as has been the case in the past. This is going to cost the Farmer party a great many votes.

AN AMERICAN LIBRARY IN ROME OPENS

Designed to Make Italy and United States Better Acquainted.

(Copyright, 1920, by Public Ledger.) Rome, Oct. 8.—One of the most complete collections of Americana in Europe is being brought together in a new project here. It is "The Library for American Studies in Italy," which exists under the patronage of Ambassador Johnson and has for trustees James Byrnes, Alfred P. Dennis and H. Nelson Gray, and for secretary and treasurer, Henry Cook Macdonald, trade commissioner of the department of commerce. These Americans are prominent in the American colony in Rome and primarily due to the untiring work of Mr. Gray the American collection was first begun in June, 1918. The programme calls for 25,000 volumes and already the collection includes almost half that number. The library is situated in the famous old Corso Umberto and occupies a handsome series of chambers in the vast palace. The founders realize that there is a great lack of authentic information in Italian libraries just as there is little historical data on Italy in American libraries.

Several thousand selected volumes have been assembled and accurately catalogued on the system of the Congressional Library at Washington and many more books are on their way from American works in both Italian and English, as the purpose of the institution is to enlighten each of the two nations upon the true character and supreme purpose of the other. There is a reading room containing daily newspapers from all parts of the United States and there are also numerous leading weeklies and reviews. The primary purpose of the library is to enable Italians who follow the daily course of events in the United States to observe the development of American opinion regarding the solution of social and economic problems, to study the origin and growth of American institutions, government, literature, science, art, commerce, etc. The purpose is also to serve men in public life, students, journalists and authors. A further activity of the library is that of assisting Italian libraries in their selection of American publications. Bibliographical lists of Americana and of books relating to modern Italy will be published from time to time. The library is associated in its work with the Italo-American Association and American Library Association has taken a helpful interest in the project. While there has been much hearty support of the project in America, there is a great amount of work to be done to secure its ultimate development. The library is receiving duplicate copies of many important publications in America, and efforts are being made here to procure a maintenance fund of \$50,000 lire.

WOMAN JUROR FAINTS AT SIGHT OF BLOOD

(Copyright, 1920, by Cross-Atlantic.) London, Oct. 8.—A woman juror fainted in the box during the first Manchester City Sessions trial in which women jurors took part. "Rather an unfortunate start," was the Recorder's comment. Five witnesses in a wounding case had been heard when the proceedings were thus abruptly stopped. The case was one in which a young man attacked an elderly one with a razor, and it was when the blood-stained weapon was being shown that the juror collapsed. She was certified by a doctor to be unable to continue, and another woman took her place. "Now, madam, do you think you can last this case out?" the Recorder asked her amidst laughter. The woman smiled, and the Recorder added, "Now, you are sure you don't mind trying this case, madam; you don't feel frightened of it?" The new juror gave the necessary assurance; the jury returned their verdict, and the five witnesses repeated their evidence.

It's Getting That Way. Judgments one has to give to domestics are apt to offend members of some families to repeat to their parents the plea of the Prodigal Son: "Make me as one of thy hired servants."

Locomotor Ataxia Yields TO PHOSPHONOL

TREATMENT. The remarkable efficacy of this advanced scientific method of treatment is demonstrated in the case of a patient who secured a box of Phosphonol less than a month ago. This case was of a man 54 years old, who had been afflicted with locomotor ataxia for more than four years. He came shuffling into a drug store on his case which announced his entrance as he painfully labored to a chair. The man told the old sad story of a fortune wasted in "doctoring" and "cures" trying to regain health. After only three days treatment, the same man came back a different man. He was able to walk unaided for the first time in more than a year. His eyes spoke the gratitude his tongue could not express. For the past week this man has been working in his store. He was able to scrub the floor unaided. He does not need his cane any more. His step in walking is almost brisk. At the rate of his remarkable improvement this man should be entirely well within a short time. This is only one of the many dreaded ailments which have yielded to Phosphonol. Sold at all good drug stores or by mail from The Scobell Drug Co., Montreal. Price, \$3.00 a box, or 2 for \$5.00. Don't waste your money in cheap remedies. Get one worth while. BOLSHEVISTS ALARMING THE FRENCH FARMERS

Tenant Farmers of Bas-Adour Visited by Red Agents.

(Copyright 1920, by Cross-Atlantic.) By HENRY W. FRANCIS. Bordeaux, Oct. 8.—The tranquility of the picturesque farming region of the Bas-Adour is broken these days by the strident notes of syndicalist prattlers and radical declaimers. On market days they visit the trading towns set up their soap boxes in the farmers just what is wrong with the "tenant farmer system." They offer a novelty, and their audiences are large and attentive. Therefore, it is said that the farmers of the Bas-Adour are potential Bolshevists. Some of them may be, but the vast majority are too busy preparing for their harvests to read the "Principles of Soviet Government" or the "Deductions of True Democracy," which are being circulated among them in pamphlet form by the newcomers. There is, however, discontent among the farmers, and this is worth noting for it is something new in the Bas-Adour, an almost primitive corner of France in which peace and harmony have reigned for centuries and where nothing of a general nature ever has arisen before to disturb the tranquility of the countryside.

The Bas-Adour is a country of small farms, cultivated by tenant farmers on shares with the landlords. Wheat, corn, hay and vegetables of all kinds are grown and pigs and poultry raised. From the time the first farm was rented, say the old residents, it has been the rule that the tenant farmer should give two fifths of his produce annually in return for the land. In the old pre-war days when produce prices were low, two fifths did not seem a great deal to the farmer, but with prices of every thing except real estate at least four times what they were six years ago, two-fifths of the produce of an acre of land seems a lot to pay for the use of that acre, especially when the increased cost of hired labor is considered. So reason the farmers. The newly-arrived "Leaders" and "Organizers" confirmed the reasoning and proposed the formation of a "tenant farmers' union" and the body has been formed with some 200 farmers enrolled. There have been parades behind the Red Flag and resolutions urging the repudiation of landlords' rights and the seizure of property by the tenant workers. But these have been flashes in the pan. The majority of the farmers, while viewing the two-fifths demands of the landlords with discontent are means. Arbitration has been accepted by both sides and an agreement is expected before long unless the radicals' exhortations in the market places succeed in persuading the farmers to excessive demands.

CHINESE PRISONER SUICIDES WHEN HE IS SENT TO PRISON

Mark Tong Hangs Himself in Cell After Judge Imposes Five Year Term.

Woodstock, Ont., Oct. 8.—Dependent at the prospect of serving the next five years in Kingston penitentiary, Mark Tong the Toronto Chinaman found guilty here of stealing valuable cloth and shoes from local merchants, and of having opium in his possession, committed suicide in Woodstock jail by hanging himself. The prisoner was waiting along with Wong Fing, who received a similar sentence, to be taken to Kingston. He seemed normal and even jovial in spirits all day and at five o'clock he laughed and joked with the turnkey through the door of his cell. At six o'clock, Turnkey Robley found him hanging dead. He had fastened his necktie about his neck and tied the other end to the top grating in his cell door, stood on his cell bench and stepped off. He was occupying a cell by himself. The jail physician and coroner were called and arrangements made for an inquest. Tong was a married man with a

wife and family in China. The theory is that in a sudden fit of mental depression and despondency, caused by the lack of opium, to which he was a slave, he ended his life.

What is Nuxated Iron?

Physician Explains—Says Public Ought to Know What They Are Taking—Practical Advice on What to Do to Build Up Your Strength, Power and Endurance and Increase the Red Blood Corpuscles.

The fact that Nuxated Iron is today being used by over four million people annually and that so many physicians are prescribing it as a tonic, strength and blood builder in weak, nervous, rundown conditions has led to an investigation of its merits by designated physicians and others whose reports should be of great importance to the public generally. Among these is the statement made by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and Westchester County Hospital, who says: "When one patient after another began asking my opinion of Nuxated Iron, I resolved to go thoroughly into the subject and find out for myself whether or not it possessed the real value claimed by its manufacturers and attested to by so many prominent people. This is exactly what I believe every honest, conscientious physician should do before prescribing or lending his endorsement to any product whatsoever. If an article is worthless we practitioners ought to be the first to know of it, and if it is efficacious we are in duty bound to recommend it for the welfare of our patients. A study of the composition of the Nuxated Iron formula so impressed me with the therapeutic efficacy of the product that I immediately tested it in a number of obstinate cases. So quickly did it increase the strength, energy and endurance of the patients to whom it was administered that I became firmly convinced of its remarkable value as a tonic and

The TRUTH about Shoe Economy

A FAMOUS essayist crystallized in a single sentence the whole philosophy of economy when he said "Economy no more means saving money than it means spending it. It means spending to the best advantage."

When you spend your money on the purchase of a pair of Hartt shoes you are most certainly spending your money to the best advantage. Experience will convince you that Hartt shoes outlast two or three pairs of ordinary shoes.

Every factor that can ensure shoe value enters into their manufacture. Only the best of leather is used; the workmen who make them are the most highly skilled; the designs and lasts are the best word in good taste and style.

GREAT LINER HEADED FOR JUNK HEAP

The Leviathan, Formerly the Vaterland, is to be Scraped.

The great trans-Atlantic liner Leviathan, formerly the Hamburg-American liner Vaterland, and a sister ship of the Imperator, the last named now in the regular trans-Atlantic service of the Cunard line, may never again be seen on the high seas.

This is due to the fact that the great liner now in the mud of her Hoboken dock, has deteriorated to so great an extent that it will require an outlay of no less than \$5,000,000 to put her again in condition for sea service.

Not a Single Bid Received.

As a matter of fact, the liner, one of the four largest trans-Atlantic passenger carriers in the world—others being the Imperator, Olympic and Aquitania—is so far on the way to the junk pile that when she was recently offered for sale by the shipping board, not a single bid was received.

The above facts were admitted at the shipping board recently. The Leviathan has been lying idle, with only her little crew of caretakers on board, in Hoboken for exactly one year and a day, or since Sept. 5, of last year. Every day her condition becomes more serious, her plates, become a little more rusted, she sinks a little deeper into the Hoboken mud, her engines become a bit more obsolete and so on, the result being that today the shipping board has on its hands a now liner, the original cost of which was more than \$15,000,000, but which in the short period of little more than one year has been permitted to rot away to probably less than one-third of her first cost.

At present, and it has been the same for months, the Leviathan is manned by a skeleton crew of caretakers who are doing their best to prolong the life of the famous ship by keeping pipes open, and as far as possible, ward parts of the vessel protected from too hasty decay.

Had Famous War History.

The story of the Leviathan, when it is told in all its details, will be one of the saddest in the maritime history of America. No feat of the naval construction corps was more applauded during the war than was the repairing of the Leviathan after her German officers and crew had as they thought, damaged her beyond all hope of repair. She carried to Europe more American soldiers than any other ship and she also brought more American boys home than did any other vessel in the maritime service.

But for the opposition of the Hearst newspaper the Leviathan would probably now be flying the American flag in the trans-Atlantic service between New York and Southampton. In January last the liner was all but sold to the International Mercantile Marine, which company offered to pay \$15,000,000 for the ship. It would have cost a great deal more to put the ship in condition, but the sum would have been small compared to what it will now cost.

For a time it appeared definitely settled that the Leviathan would be the flagship of the International Mercantile Marine, but the Hearst papers began a fight against the sale and in the end the deal fell through and the Leviathan was placed in charge of her little crew of caretakers and tied up in Hoboken.

The Leviathan, it is understood, is still for sale, but the records indicate that she is not wanted by any of the big lines or individual owners in the overseas passenger and freight traffic. When the ship was offered for sale recently it developed that the International Mercantile Marine, which nine months ago was anxious to add the great ship to its fleet, was no longer interested in the matter.

GREAT BRITAIN'S MANUFACTURERS ASK PROTECTION

By WILLIAM J. BUTLER.

(Copyright, 1920, by Cross-Atlantic.) London, Oct. 8.—As a result of extraordinary pressure by the largest British manufacturers, for a high protective tariff against United States commodities, particularly automobiles, Premier Lloyd is giving the subject careful consideration. He has before him plans for introduction of an anti-dumping bill against Germany and this measure will be introduced as soon as parliament is reconvened. Whether the Premier will commit himself to a protective policy against the United States is not indicated, but according to Geoffrey Chesebrough, general secretary of the National Union of Manufacturers, which represents millions of dollars of British capital, British manufacturers recently united in a strong plea to the Premier for such a policy. The latter has not yet signified what action he will take in the matter, according to Chesebrough. He said, however, that the Premier realized the importance of such a policy, particularly as it affects the Anglo-American situation.

Salts Is Fine For Kidneys, Quit Meat

Flush the Kidneys at once when Back hurts or Bladder bothers.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headache, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scuffling get about four ounces of J. S. Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

J. S. Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

INLAND REVENUE RETURNS INCREASE OVER \$2,000,000

Big Gain in Finances of the Dominion During the Last Seven Months.

Ottawa, Oct. 8.—During the seven months of the fiscal year ending September 30, inland revenue collections totaled \$3,478,831. In the corresponding months of last year, inland revenue collections were only \$1,065,238.

During the same period alone, income tax receipts showed a startlingly heavy increase. During the seven months of this year, they were \$6,385,418; during the seven months of last year, they were \$1,672,628. Revenue from business profits tax shows a slight decline. For the two seven months' periods, it was: 1919, \$15,884,293; 1920, \$15,189,473.

Total ordinary revenue during the month of September was \$27,170,789, as compared with \$26,898,840, the total ordinary revenue in Sept., 1919. During the seven months' period ending September 30, total ordinary revenue was: 1919, \$159,985,539; 1920, \$139,905,911.

Total ordinary expenditure was: September, 1919, \$25,143,277; September, 1920, \$16,848,075; seven months' period, 1919, \$122,732,917; 1920, \$15,624,297.

Capital expenditure in September of last year was \$66,405,531, as compared with \$68,881,777 last month. The reduction has almost entirely due to lessened war expenditure.

The total net debt, no credit being taken for non-active assets, now stands at \$2,276,516,163.

Frequent Headaches A Danger Signal The Victim Nearly Always Suffers from Weak, Watery Blood.

There are few ailments that cause more genuine misery than nervous or sick headaches. Only those who have endured the suffering, sometimes for days at a stretch, can realize the agony of the victims. Noises increase the pain; food is unthought of, for it only adds to the distress. When the attack is on there is little to be done until it passes away. These headaches are nearly always a danger signal that one frequently passes unheeded. They are the symptoms of many maladies, such as anaemia, constipation, indigestion, etc., and when these are cured the headaches permanently disappear. Headaches are more often a sign of weak, watery blood than anything else, and the most successful treatment, therefore, is a remedy that will rebuild the blood and make it rich and red. This can best be done through a fair course of Dr. Williams' Pink Pills, which has a special action on the blood, and through the blood on the nerves. In this way Dr. Williams' Pink Pills have been found invaluable in a wide range of diseases due to poor, watery blood, such as anaemia, rheumatism, indigestion, after effects of influenza, neuralgia, etc. The effectiveness of this tonic treatment is illustrated in the following case: Mrs. Geo. Arn, R. R. No. 6, Simcoe, Ont. says: "Some years ago my daughter, then a young girl of seven, became very much run down and nervous. She was troubled greatly with sick headaches, and frequently with vomiting spells, and although we lived just across the road from the school, she was not able to attend. She was taking medicine all this time, but it did not seem to do her any good. I had often read of Dr. Williams' Pink Pills, and finally decided to give them to her. By the time she had taken two boxes she seemed much better, and before the fifth was finished, she was again in the best of health, and has always since enjoyed the best of health. I am satisfied it was Dr. Williams' Pink Pills that restored her, and I have since seen equally good results in other cases."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

IRISH REPUBLICAN ARMY 300,000 MEN

Have Plenty of Rifles But Very Few Machine Guns—No Artillery at All.

By SYDNEY B. CAVE. (Copyright, 1920, by Cross-Atlantic.) London, Oct. 8.—Three hundred thousand armed men, is the strength of the Irish Republican army, according to figures obtained in an investigation by British authorities. The total is higher than was generally anticipated, but it was found that many small towns and villages practically the entire male population is enrolled. It is understood that the official investigation revealed the personnel of the entire republican forces and that the authorities are now fully informed of the most minute details of the rebel army. Their names are known from general to private. The

LIQUOR ANALYST

Regina, Sask. Oct. 8.—Dr. M. R. MacLean, assistant professor of the Department of Chemistry at McGill University, has been appointed official analyst to the Saskatchewan Liquor Commission. He will supervise all bottling operations and will have charge of the shipping of liquor into the province.

NOT GUILTY OF MANSLAUGHTER

Montreal, Oct. 8.—Not guilty was the verdict rendered tonight by the court in the case of Ambrose Bourgeois, charged with manslaughter. He was accused of having "killed" the death of Suzanne by having "made her fall down the gallery stairs of his house."

NO OFFICIAL WELCOME FOR PREMIER MEIGHEN

Winnipeg, Oct. 8.—No official welcome will be extended to Right Hon. Arthur Meighen by the Manitoba Government on his arrival here. It was announced following a meeting of the provincial cabinet today. The Government considered that, as Premier Meighen is on a political tour, it would not be fitting to extend an official welcome on such an occasion. "The government officially welcomed the premier to Manitoba last summer," a cabinet minister pointed out.

WESTERN TRADE BETTER

Winnipeg, Oct. 8.—There is, if anything, a little more business stirring and things are busier in most wholesale lines, with the exception of boots and shoes and clothing, since the weekly report of the Canadian Credit Men's Trust Association.

SHIP LOSES TWO PROPELLOR BLADES

Expected to Arrive at Halifax Saturday to Make Repairs to Vessel.

Halifax, N. S., Oct. 8.—The American steamer Carleton, enroute from a trans-Atlantic port to an American port, is making for Halifax with two blades of her propeller gone, and is expected to reach port at noon Saturday. The Carletonian which is owned by the Garland Steamship Company of New York was last reported as arriving at Stockholm on September 26th, from Philadelphia and is now likely on her return trip. She registers 4,170 gross, and 2,707 net tons, and was built in 1906, being formerly known as the "Southester" and the Harley.

BOMB PLOT FIZZLED OUT

Hutchinson, Kansas, Oct. 8.—Hutchinson's "bomb plot mystery" flickered out today when it was determined that a cylinder found by boys on a creek bank in the centre of the city and supposed to contain powerful explosives, was only a discarded piece of work.

Six Thousand At Woodstock Meet

Jeffrey, Sommersworth Boy and Bill Sharon Winners—Latter in Free for All 2.11 1/4

Woodstock, N. B., Oct. 8.—The last of the summer series of gill-edged races on the Parlor Track took place in summer weather this afternoon before 6,000 people, the winners being Jeffrey, Sommersworth Boy and Bill Sharon.

In the 230 trot, it was easy for Jeffrey to win as he was the only horse in the race who was a straight heat, although The Manor showed some signs of being a contender.

The 216 class, the favorite in the pools was Delta Patch. In the second heat of this race at the three-quarter mile Jeffrey fell and threw his driver, Claude Bennett over his head.

The Free-For-All was won easily by Bill Sharon, who trotted first heat in 2:11 1/4, which lowers the track record for trotters held by Bradge, who did the mile last summer in 2:16.

The following is a summary: Free-for-All—Purse \$1,000. Bill Sharon (Alcorn), Blackville, 1 1/4.

216 Trot and Pace—Purse \$500. Jeffrey (Hanson), Prosego, 2 1/4.

220 Trot—Purse \$500. Somersworth Boy (Holloway), Houlton, 2 1/4.

Ties Record of Fastest Pacer

Louie Grattan Wins Board of Commerce Stake at Lexington.

Lexington, Ky., Oct. 8.—In winning the Board of Commerce stake, which featured the programme for Friday, Louie Grattan, driven by Vic Fleming, paced the two miles in 2:00 flat, each mile being faster than has previously been paced in a race this year.

The second half started out strong from the start and kept the ball in Rothesay territory during the most of the period. About five minutes from the whistle Davidson of Fredericton secured the ball on the twenty-five yard line from right out of the scrum and booted the pigskin over the bar in a neat drop kick.

Favourite Wins Lexington The Lexington stake for two years old trotters was second in point of interest, being won by Favourite owned by Mrs. Agnes Edman, and driven by Frank Edman.

Advantage won the first heat of the day, 2:17 trot, but was distanced in the second, due to a break. James Snel's Lucille Bingen, trot heats in the 2:11 trot, positioned from Thursday, trotting the last heat in 2:06 1/4.

Rothesay Won The First Game

Defeated Fredericton Yesterday by Score of Nine to Four.

In winning from the Fredericton High School team by a score of 9 to 4 yesterday the Rothesay Collegiate boys secured the first victory of the Inter-scholastic football league this season.

The game was played on the Rothesay campus and was a clean and hard fought battle from start to finish. Fredericton did decidedly the best of the first half and kept the ball in Rothesay territory during the most of the period.

The line-up of the teams follows: Fredericton Forwards: McIntyre, Strling, Strling, Yerra (Capt.), Second Line: Turner, McLellan, Woods, Bradley.

Today's Game. Today the Fredericton boys will play the St. John High School team on the Shamrock grounds, the game starting at 2:30 sharp.

THE QUESTION AT ISSUE.

The question which the people of New Brunswick are called upon to decide today is an important one. They are asked to say whether they consider the manner in which the administration of affairs has been carried on by the Government headed by the Hon. Walter E. Foster has been in the best interests of the province or not. That is the main question at issue.

The official statements of the finances show that while the present Government has received a larger income by several hundreds of thousands of dollars than any previous Government ever received, it has over-seen its income year after year. It has had resort to borrowings that have naturally increased the bonded debt, which today stands at more than five million dollars in excess of its figure three years ago. As a consequence the annual interest charges have increased enormously, and the prospect is that if this kind of administration is continued for any length of time, the debt must be paid to direct taxation, in the shape of an income tax, in order to take care of it and other expenditures.

of the conditions that make for destructive fires in this country would not be tolerated there. Example will do much to bring about their elimination. Not everybody will do their part during Fire Prevention Week this year, but the example of those who do will inspire others another year.

THE END OF THE CAMPAIGN.

The campaign is now over, and though it has been somewhat strenuous while it lasted, it leaves no unpleasant aftermath. The people of this province, while they take their politics very seriously, do not permit them to interfere with their personal friendships. During the campaign there has been a considerable amount of hard-hitting on both sides, but it has been carried on with the utmost good humor, and no man cherishes any ill-feeling for the Government and Opposition champions will meet together at the Club and elsewhere in the same cheerful, half-fellow-well-met style as of yore; the election is over and all party feeling has been put on one side. This is as it should be; and as long as this kind of usage obtains, New Brunswick cannot go far wrong. All of us, no matter what our political leanings may be, are equally patriotic; we are all equally interested in the welfare and progress of our province, even if we do not all agree upon the exact way in which its affairs should be managed. Each party naturally prefers to be on the inside, but as this is not possible, whichever is left on the outside will accept the situation with the best grace it can, and trust to better luck next time.

A DECLINE IN FOODS.

The drop in wheat to below \$2 a bushel, and in corn to below \$1 a bushel, marks another important milestone in the progress to stable price conditions. The cost of raising wheat will be estimated at \$2 a bushel, yet the magnificent yield in all areas will give the farmer just as good a return as in the years of scarcity. The price of livestock is beginning to show the effects of decidedly cheaper grains. Cheaper meats are coming. In fact, in the general round of foodstuffs, such as flour, potatoes, meat, fruit and vegetables, the declines that have already become well established, or are apparently imminent, will make a big difference in the household table.

This relief will, in itself, release buying power for other things. It rents in the cities and towns where normal, the easing would be generally noticeable. During the peak-period, arguments were plentiful respecting what group of commodities would first show price breaks. Silks came first, then wool, then hides, then cotton, then wheat and corn, and other grains, and now, slightly, meats. Manufacturers are not responding noticeably in comparison, because labor, tax and other costs are eating up savings on raw materials, and high-price goods are still circulating through the trade. If labor costs are maintained, business may have to go through a period of non-profits, but, ultimately, the readjustment will benefit business, by releasing buying power. It is a fine thing to have the readjustment come gradually, by buying maintained, and to have living costs lowered through larger production—as in the case of food—rather than through hard times.

The speech of the Hon. J. B. M. Baxter at the Imperial last night was just the sort needed to put the last touch of "pop" into his supporters. It was a fighting speech from start to finish, one that carried the confidence of victory in every sentence. Although he has been addressing meetings in various parts of the province every night this week, the Opposition leader showed no signs of fatigue, and point after point was driven home with all his old-time vigor. The impressions gathered in different parts of the province are such as to inspire him with the utmost confidence as to the outcome of the election; and while it is never wise to shut till you are out of the wood, it seems to be pretty well conceded that the Foster Government is doomed.

German beer is to be restored to peace strength, which is stated to be 8 per cent. proof spirits, a considerably higher figure than is permitted by law in the brew that is making Quebec a place of resort from travelers all over the continent. There may be commercial diplomacy as well as thrust belted such a change. Germany will be on the tourist maps again soon.

Senator Harding is being rebuked because he said that the United States did not enter the Great War through any high altruistic motives, but because she had to protect her rights. If the Senator is not right, why did he let his country not declare war on Germany before 1917?

WHAT OTHERS SAY

WHAT OTHERS SAY—...
And Only Twenty Years Ago (Bush and Pall)
Nobody swatted the fly.
Nobody had seen a wrist watch.
Nobody had appendicitis.
Nobody wore white shoes.
Nobody sprayed orchards.
Most any young man had "lively" bills.
Farmers came to town for their mail.
The heavens were not full of man-birds.
Nor the sea alive with under-water boats.
The hired girl drew \$1.50 a week and was happy.
The butcher "threw in" a quart of liver.
The merchant "threw in" a pair of suspenders with every suit.
Nobody "tired in" on the telephone.
Straw stacks were burned instead of baled.
There were no hobnobbers or international anarchists.
The safety razor had not introduced the cleanness of the face.

The French View.
(Kingston Whig.)
The French view is that one should make hay while the sun shines.
Not Jumping Down.
(Tobago Blade.)
Prices are coming down, but they are not skipping any rounds of the ladder like they did when the went up.

Adjusting the Burden.
(Toronto Telegram.)
Sfr Harry Drayton is faced with greater financial problems than ever confronted any previous finance minister in Canada. In raising the necessary revenue to pay the war debt it will be imperative to bear just as heavily on the grain grower in the West as on the artisan in the East.

A BIT OF VERSE

WITH YOU.
Oh, to have a Spring with you!—
That would be a joy—
Sharing every thing with you.
Just a gift and a boy,
Through the woodland wandering
Where the rivers wind,
Hither and yonder,
All the world behind!

Oh, to have a Summer, dear,
Hand in hand with you—
Greeting every corner, dear,
Every bend of a bay,
With a song together, dear,
Strolling here and there
In the Summer weather, dear,
"Wood without a care!"

But, if not the merry way
Ours the joy to know,
Any way a fairy way
We together go;
I could walk the dreary road,
What the weather be,
If you went the weary road
Side by side with me!

THE LAUGH LINE

Some men never recognize an opportunity unless it is labeled.
Candid.
"Well, good-bye, partner. I'm afraid Maude and I look so happy that everyone will know we are just married."
"Don't worry, old man; it will only be for a day or two."—London Saturday Journal.

Still Going.
"Where are the girls of our youth?"
"Some of them are still managing to look girlish," answered his friend, the druggist!—Kansas City Star.

More Milk Than a Cow.
"Bill—What gives more milk than a cow?"
"Kate—I haven't the slightest idea."
"Bill—Why, a milk wagon."
The Higher Ups.
"That gentleman over there at the round table is much better served than I am. I shall complain to the manager. Where is he?"
"At the round table, sir."—London Opinion.

Her Last Words.
"So your wife has left you?"
"Yes, about four days ago."
"What did she say when she went?"
"Is my hat on straight?"—Houston Post.

Some Man!
"Is your husband sensitive over his bed?"
"No!"

So Do We All.
"George, aren't you ever quick about anything?" inquired Jim's dad of his new office boy.
"Yes, sir," answered George meekly, "I get tired quicker than anybody I know."

Benny's Note Book

In school yesterday Miss Kitty started to lauk 'bout poetry, asking if anybody knew the difference between poetry and prose, and Patsie Sinkins raised his hand and said, Poetry has more rhimes and less sentas.
Nonsensia, poetry is the bewifflil impression of a bewifflil thout, that's all, sed Miss Kitty, and for that reason real poetry must deal with a bewifflil subject, such as flowers, for instance. Lots of bewifflil poetry has bin written about flowers, and now I bleeve ill see whether we have any poets in the class. Who can make up a nice 2 line ponie about flowers? Ill give you all a few minnits to think.
Wich pritty soon Lew Davis raised his hand, Miss Kitty saying, Well, Lewis?
Flowers grow because they must, But ashes to ashes and dust to dust, sed Lew Davis.
Well, that seems to be a 'litle sad, and I dont think its especially bewifflil, who elts has thout of a pone? sed Miss Kitty.
Wich Bill Brant raised his hand, saying, Most flowers smell pritty but some smell bum. And one dont smell eny, the krichan-thenum.
There's nothing bewifflil about that, I must say. Whose next? sed Miss Kitty, and I raised my hand and Miss Kitty sed, Well Benny, lets have yours.
Wich I did, being, Choo choo choo, choo, approached the train, and the darty cried, Alas alack! Watover indocced me to make up my mind to grow upon a railroad track?
I could imagine nothing less bewifflil, sed Miss Kitty, And some more of the fellows raised their hands to read theirs but Miss Kitty wouldnt listen to eny more and started the joggrrity lesson.

Fifty Roads from Montreal to States With Fifteen Officers to Guard Them.

New York, Oct. 8.—The town of Plattsburgh, on Lake Champlain at the Canadian border, about sixty miles from Montreal, is today the scene of one of the most extensive bootlegging campaigns in the United States, according to the New York World, whose investigation has been up to date in getting a general idea of "hotch" conditions.

The fact that this choice stock can be bought at Montreal for from \$2.50 to \$3 a quart and can be sold at from \$5 to \$15 a quart in the United States explains why a number of Plattsburgh youths who have hitherto lived most innocently are now sporting many costly and silk shirts and are carrying away from \$50 to \$1,000 in cash, the investigator says.

One man admitted to The World reporter that before Prohibition became effective he had earned \$18 a week as a lecturer. Now, he boasted, his income ranges from \$100 to \$150 a week. And, aside from risking arrest and imprisonment, he asserted, he lived an entirely happy, carefree life. He explained, however, that as a precaution he pretended to work at a soft job.

"How do they get away with this bootlegging?" "The answer is simple and offers this explanation: 'There are at least fifty roads from Canada leading into the United States through Plattsburgh, and there are only about fifteen United States customs officials to guard these fifty or more bootlegging trails.'

"In addition to the fifty or more thoroughfares through the woods there is Lake Champlain. 'Yet, in spite of the obvious difficulty in trapping the bootleggers, the United States customs officials in and about Plattsburgh have been averting four arrests in trapping the bootleggers, and have only raised before a United States customhouse and are usually charged with smuggling. Occasionally a charge of violating the Volstead act is added.

"When the man is brought to trial before a Federal judge, however, as they plead guilty and are dismissed upon payment of a fine of \$500 to \$1,000. This, according to one of the bootleggers, is not a severe penalty, as the 'gang' can easily raise as much as \$20,000, if necessary.

Plattsburgh has a population of 15,000.

St. John Woman Is Councillor

Mrs. Lawrence is Elected to Important Post in Canadian Council of Immigration.

Ottawa, Oct. 2.—The Canadian Council of Immigration, which held its first annual meeting this week in Ottawa, has elected among its officers the following:—President, Mrs. Wm. Dennis, Halifax; Mrs. Lawrence, St. John, N. B. was elected eastern councillor.

Some important changes were made in the constitution, providing for more representatives from eastern and western provinces. The committee on standardization of housework gave a detailed report showing careful and widespread study of the question had been made from the viewpoint of both employers and employees.

In the study of household service, a survey was made and information came from men and women of labor bureaus and household science schools not only in the United States and Canada, but in the following other countries:—France, Denmark, Belgium, Persia, Japan, Switzerland, Australia, and New Zealand. It was found that Switzerland led in standardization.

Lectures of appreciation were received from overseas on the work being done by the Canadian women's hostels for overseas women.

ASK DOMINION TO HOLD TARIFF POLICY FOR LAND

Saskatoon Manufacturers Endorse All Pleas for National Protection Before Com.

Saskatoon, Sask., Oct. 3.—Manufacturers here endorsed the stand taken by the Canadian Manufacturers' Association and asked the retention of the protective tariff before the tariff commission which opened an inquiry this afternoon. Representative farmers appeared under the auspices of the joint council of agriculture and urged the reduction of the tariff on farm implements and necessities of life.

Recommendations advocating the alteration of the present tariff system were made by the Saskatchewan Grain Growers' Association as follows:

The Grain Demands.

1. The placing of all foodstuffs on the free list, and the removal of the import duty from lumber, gasoline, kerosene, agricultural implements, farm and household machinery, vehicles and fertilizers.
2. The gradual general reduction of the import tariff with a view to making all industries self-supporting and competent to produce at world values.
3. If artificial assistance is to be continued, that it be open and direct.

The Real Secret of Rejuvenating the Face

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded, or discolored surface skin may be gradually absorbed in an entirely safe and rational manner, by the nightly application of ordinary mercerized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercerized wax, procurable at any drugstore (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles. For the deeper wrinkles, an excellent recipe is: Powdered starch, one ounce, dissolved in one-half pint of witch hazel. Bathing the face in the solution produces quick and wonderful results.

Summer resorts, summer resorts, Various places of devious sort; Yet are yet all in the same case—8977.

Duller of prisons and grimmer than torts.

Summer resorts, summer resorts! Boasting and bathing and filling and sailing.

Promising, blithely and cheerfully falling.

Misadventure and links and mud tennis courts.

Summer resorts, summer resorts!

Summer resorts, summer resorts! Your commissariat appetite thwarts; Menus of length that is almost incredible.

High-sounding dishes that prove quite indigestible.

(Nothing at all served in pints or in quarts.)

Summer resorts, summer resorts!

Summer resorts, summer resorts, Wildly I flee thy plasma cohorts! Who, with continuous giggle and chatter.

In wooden rockers eternally clatter; Veiled evocues and caustic retorts— Summer resorts, summer resorts!

Summer resorts, summer resorts, Though to enjoy these my neighbor exerts.

Deep in my heart there is nothing but pit.

For poor wights who "have to get out of the city!"

I am not fooled by their glowing reports.

Summer resorts, summer resorts!

Tramp Cyclist Is An Artist

So Says New York Critic— Tells Amusing Story of Caruso.

By GILBERT SELDES.

New York, Oct. 3.—The days are crowded with openings and the theatres are crowded with patrons, and the plays are crowded with perfectly good stars. The only thing not crowded in this New York season is that noble place known as the theatrical heights. The chronicle of the theatre is not necessarily a chronicle of small beer, but it just prevents one from getting immediately excited.

The finest artist I have seen in the last few weeks is Joe Jackson. Let the commission of the loyalty of the Saskatchewan farmers to Canada and to what they believe to be in the true national interest. Their requests for a change in the tariff are not actual, it continued, by a desire to further their vocational class interests at the cost of others, but for what they believe will be fair to all legitimate industries in Canada. "Every threat to the nation's fundamental democratic institutions have come from the industrial centres and not from the farm. We are not wreckers," it was stated.

"We have adopted reciprocity in Quebec," said Canon Scott in addressing the Canadian Club. "The Americans come to Quebec for whiskey, and we go there for divorce."

Happiness That Circles Back

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc. Being the Confessions of the Seventh-Hundredth Wife.

If you are taking a ride in your automobile and see a tired man or woman or an unhappy looking child by the way, and you give them a "lift" or a ride—that's happiness circling back to you.

If you give cheer to folks as you go along, and to whomsoever may need—that's happiness circling back to you.

If you see your friend making some grave mistake, or someone else giving him an unjust deal, and you go right to him and tell him frankly—that will mean that happiness will circle back to you.

If you are sad and try to make someone glad—that's sure to bring happiness circling back to you.

If you see a chance to take a wrong, and right it all at once—then happiness will circle round your way and make you doubly glad.

For happiness is a revolving affair. It never stays still for a minute. It keeps circling and circling—always touching people who give it most.

If you want to feel a smile running about in your heart, find a heart that's all dark and go and knock—and wait until the door's flung open—and then run in! That is one of the ways to make happiness circle back to you.

If you are honest and if you are kind and if you are a worker and a doer—then happiness is sure to find you. For it keeps circling about such folks.

If you want the things that make one fine and noble—give them! They move in circles—round and round—every one.

Auto Race To Halifax Off

Mix-up in Prize Money at Last Minute Results in the Contest Being Cancelled.

The endurance run which was to have started at 2 o'clock this morning was called off. A great deal of interest had been aroused in the race and a large crowd was present at King Square to see the start.

There was confusion regarding the \$1,000 supposed to have been offered for the victor. There was much telephoning to Halifax to the carnival committee and at the end it was announced that the race was off.

Mr. Alexander was one of the most conspicuous figures in the crowd.

HONOR FAMILY WHO ARE QUITTING FARM

Joseph Alexander, a farmer of Millstream, has decided to dispose of his farm in Kings county and locate in Red Head. Mr. Alexander has bought a farm in that section and will carry on a milk business in connection with his farm and supplying milk direct to consumers in the city.

Mr. Alexander was one of the most conspicuous figures in the crowd.

How the Strike Against High Prices is Being Won

For a long time, remarks the New York Times, "high prices seemed like the weather, about which, as Mark Twain said, everybody talked but nothing was done." Then the buying public, reacting at last from the wave of extravagance that swept the country in war time, began a few months ago to rebel against the ever diminishing purchasing power of the dollar. The result of this action is seen in the dramatic price cuttings in the wholesale market last month, which affected wheat, corn, oats, wool, cotton, automobiles, textiles, clothing, food-stuffs, metal, leather, and many other commodities. The wholesale prices of these commodities have declined on the average about 20 per cent. below the high prices of February, according to R. E. Edmundson of the New York News Record, a commercial daily, who predicts that these cuts are "certain to be reflected in a reduced cost of living—removing the usual excuses for striking to get higher wages." Dispatches from various cities report that the procession of falling prices in the retail trade has already begun.

The leading article in THE LITERARY DIGEST this week, October 9th, will be read with great satisfaction by the public. It gives a comprehensive review, drawn from all sources of information, of the conditions of trade in the United States, including the prospects for the country's getting back on a lower price level without affecting the hours or wages of labor.

Approval of the Work and Encouragement Given in Number of Addresses.
The activities of the Young Women's Christian Association were brought to the notice of a large audience both by addresses and practical demonstration at a rally held in the Recreation centre, King street last evening. The president, Mrs. John A. McAvity was in the chair, and after a hymn and prayer introduced two speakers. Those giving addresses of encouragement and approval of the work were Lieut. Governor Pugsley, Premier Foster, Dr. Bridges, Rev. Canon Kuhring, Miss Tapscott, secretary; Miss Phyllis Wood, Girls' Work secretary; Rev. J. A. MacKeigan and Capt. Stokes of the Y. M. C. A. Others present were Mrs. Pugsley, Mrs. W. E. Foster, Mrs. James F. Robertson, Mr. and Mrs. Lugsdan, W. E. Anderson, Captain Stokes, Mrs. Alfred Morrissy, Mrs. W. G. Good.

Dr. Bridges referred to his efforts to have a gymnasium for the High School and urged the Y. W. C. A. members when they grow up and become trustees to vote for a gymnasium. Canon Kuhring pointed out that all should enjoy both work and play thoroughly. Mrs. McAvity gave an account of the work being done at the Travelers Aid, the Home on King street, and the Recreation centre. Miss Tapscott referred to the poster and pencil campaign which will be undertaken by the girls, and pointed out the need of a swimming pool. Delightful solos were given by Miss Valde Fenton, Miss Muriel Turner and Clarence Girvan. The gymnasium class under the direction of Miss Littlefield then gave a splendid exhibition of club swinging and folk dancing, after which refreshments were served, the spirit of the Residence Club acting as waitresses.

Police Court Cases Yesterday

A juvenile charged with carrying a concealed weapon on his person and threatening to cut Donald Paterson, St. Patrick Street, was before the Police Magistrate yesterday afternoon. Evidence was given by Detective Saunders, who produced a large breed knife which it was alleged the defendant had threatened to cut Paterson with. The detective said the prisoner seemed under the influence when arrested. Paterson gave evidence and the youth was remanded. At the morning session of the court a juvenile charged with stealing one dollar was sent into jail for the time being until his case can be considered. The doctor's certificate as to the child's mental condition is unfavorable. One man charged with drunkenness pleaded guilty and was remanded to jail. A complaint against Frank Garneau that he had staged on the sidewalk contrary to law, was called but the defendant did not appear and the case was set over until today.

Y. M. C. A. Classes In Full Swing

Every Indication Points to a Most Successful Year.
The majority of the classes at the Y. M. C. A. are now in full swing and every indication points to a most successful year. The Business Men's class has opened with ten regular members enrolled, and is to meet twice a week, on Tuesdays and Fridays. The Yolly Ball League of last year was a feature which kindled much enthusiasm amongst the members of this class, and this year's programme is to be made equally attractive.

Boxing and Wrestling.

Boxing and wrestling classes will be a feature of this year's work. Some forty to fifty have already enrolled in the boxing class which will have a week out an hour each week on Wednesday evenings. The class will start in two weeks time. J. Redfern has consented to don the gloves and will act as instructor in the manly art. The wrestling classes will start in some two or three weeks time. They were very popular last year and should prove an even greater success this year, as a good many today grapplers were developed during the last season.

MARTELLO BAND FAIR OPENS SATURDAY

The great Fall Fair of the Martello Cornet Band, formerly the 26th, will be opened in the Carleton Curling Rink on Saturday evening next by Acting Mayor Frink, assisted by Commissioners Thornton and Jones. A feature of the inaugural night will be announcement of election returns. Elaborate preparations have been made by the band to create a fairyland in the rink, and when the final decorations are in place, it is predicted that the scene will be well worthy of public approval.

The serial story, "The Lost City," will also be shown. Special prices will rule, namely: 25c and 35c for the evening, and 25c for adults at the matinees. The children will be admitted to the matinee as usual. Many people were disappointed last evening by a misleading political notice that a meeting was to be held at 8.15, when it should have read 10.15. However, they can see the film today or tonight and bear the election returns in the bargain.

STYLE HEADQUARTERS
Where Society Brand Clothes Are Sold.

THERE'S A NEW STYLE NOTE

You will see the new style note this Fall wherever the best-dressed people gather—in homes or at clubs, at play or at work. The new style is a welcome change to most men. It's a change from the high-waisted, pinched-in and skirted effects to ample, chested, full coats that hang almost straight from the shoulders. Vents will be shorter, noticeably shorter in Fall Suits.

Society Brand Suits

for Fall embody correctly these style changes. The highest priced and proudest custom tailor in town is cutting his Fall Suits along these lines. We have the style in Society Brand Suits. Also the fabrics and fine tailoring. A call at our store is like visiting the exhibit of advanced style.

HUN SOCIALIST HAS EYES OPEN ON RUSS. TRIP

Back in Berlin to Tell Workers of Failure of Soviet Plans.

VIGGO TOEPFER.
(Copyright, 1920, Staff Correspondent Cross-Atlantic.)

Berlin, Oct. 8.—At the invitation of the Central Bolshevik government in Moscow, Herr Wiggo Toepfer, a prominent member of the most extreme socialist party, recently went to Russia to convince himself of the blessings of Soviet rule. He has come back deeply disappointed.

"Only the absolute ignorance of the Russian peasants who constitute three fourths of the entire population, makes Soviet rule possible in Russia," he says. "They were won over by the promise that all land formerly belonging to the large estate owners would be divided among them. Socialism and communism do not exist in the country districts and in the cities there is no dictatorship by the proletariat, but a dictatorship over the proletariat by the Soviet bureaucracy maintained by brutal power."

"Russia is passing through a reign of terror. According to the official records which I had an opportunity of inspecting, 803 people were shot by the authorities after being 'tried' during the month of July this year, and many more were put to death without even the semblance of a trial. The freedom of the press does not exist any more than does individual liberty. Political societies are forbidden and no public meetings are allowed to be held. The ballot is public, not secret, and anyone voting against the Soviets is executed or disappears. Censorship has been reintroduced in its more severe form; deserters are shot. Industrial life and activity has been paralyzed. Strikes are criminal acts and anyone trying to provoke a strike is shot."

CHURCHES IN KOREA AND CHINA DISPLAY HATRED FOR JAPAN

(Copyright, 1920, by Public Ledger.)
Tokyo, Oct. 8.—The Korean or mission is sending native Korean delegates to the world Sunday School convention next the Japanese point to their attendance as an evidence of the popularity of Japanese rule in Korea, is the statement of American missionaries arriving for the convention today. Only three native Koreans have arrived. All the missionaries declared that in some districts of northern Korea the native delegates lives would be endangered as bitter as the opposition to Japanese rule among Christians and non-Christians. In some missions the feeling is so intense that the question of sending delegates to Tokyo was not even allowed to come to a vote.

No Chinese delegates have yet arrived. The convention leaders today were of the opinion that no native Chinese delegates would come, leaving the Chinese and the Koreans illustrates the hatred of Japan, as in both countries the Christian movement is strong and more vigorous than in Japan, but the antipathy to Japan outweighs the interest in the convention. Hence the convention will be almost entirely an American and Japanese gathering, since the 423 are coming from America, no other country, excepting Japan, having a delegation as large as America.

CHINESE GIRLS ARE SOLD FOR FOUR CENTS

Famine Area Extends Over 90,000 Square Miles and Affects 30 to 40 Millions.

(By London Daily Mail Cross-Atlantic Cable.)

Peking, Oct. 8.—The famine situation in the provinces of Chihli, Honan and Shantung (Eastern China) is more serious than was generally believed. The famine belt extends to 90,000 square miles and affects a population of 30,000,000 to 40,000,000. Fleeing families tie their children to trees to prevent them from following, and girls are selling at 100 cash each. The Chinese cash is a coin perforated so that a large number can be carried on a string and is of very small value, not being worth scarcely four cents.

Funds required for adequate relief are conservatively estimated at \$15,000,000, to provide which is beyond the present power of the government. A Presidential mandate orders the ministries of Finance and the Interior to co-operate with the civil Government of the affected provinces in establishing rice and grain stores, selling at low prices and exempting customs dues.

PRICE OF ADMISSION TO U. S. IS NOW \$8

Washington, Oct. 8.—The price of admission to the United States is among the many things which has gone up since the war. Before the war it was \$1.00. Now every immigrant must pay \$8.00. Uncle Sam hopes to collect \$5,000,000 from this source this year. The cost of leaving the United States has increased five fold. Previously the war a passport cost \$2.00; now the price is \$10.00.

GERMAN NEWSPRINT FOR UNITED STATES

Seventy Thousand Tons Ordered by American Firms in Late Contracts.

New York, Oct. 8.—Canadian paper mills have a new competitor in the United States newsprint market. It is reported that contracts with German manufacturers for some 70,000 tons of paper have been made by United States publishers. This is for delivery in the future running well into 1921. The first shipment of this paper is said to have already been received by a New York daily.

The report of the arrival of German paper follows closely upon the announcement that a number of Canadian producers have notified customers in the United States that in 1921 approximately 70,000 tons of newsprint from the mills in the Dominion would be diverted to British colonial possessions. Should the 70,000 tons of German paper develop as being actually available for the needs of the United States publishers, it will just balance the loss from the Dominion.

"BEWARE" SAYS DOCTOR OF SOME DASHING GIRLS

"They Won't Do" is His Advice to Matrimonially-Inclined Males.

(Copyright, 1920, by Cross-Atlantic.)
London, Oct. 8.—Advice to the married, the engaged, the about-to-be-engaged and the merely hopeful, is a never failing stream. The latest comes from a "widowed physician," who has catalogued the characteristics which he considers objectionable in feminine youth.

He admits that he deals with objectionable characteristics but disarms any criticism that he falls in with the "vice youth" by saying that "the nice youth needs no instruction in fully appreciating the qualities of the opposite sex."

"The Widowed Physician" sums up his ideas in clear, brief warnings as follows:

1. Beware of the girls who manure their nails to the shape of a claw. Do not know why, but beware of them.
2. Beware of girls who prefer to dress in purple or scarlet colors. Their is usually something wrong with their morals.
3. Beware of girls who are heavily spotted.
4. Beware of the girl who is too obviously modest and demure. She does protest too much.
5. Beware of the girl with low, slumping forehead and dry, straight, jowl-like hair. Any experienced magistrate will tell you that women of this type frequently summon their husbands for assault and battery.
6. Beware of the intensely religious girl. She does not mean to be dangerous, but the fact that she is so levotional indicates that she possesses an unbalanced, passionate nature.
7. Beware of the girl who slides up to you, or lays hands on you or comes so close to you as to lead you readily to lay hands on her.
8. Beware of teasing with a chum's sisters, unless, of course, you wish to get married.
9. Beware of the girl who drinks wines freely; she will make a poor wife and a worse mother.

GAMBLING WAVE SWEEPING PARIS

Cuban Holds the Record by Winning Five Million Francs.

Paris, Oct. 8.—Millions of francs were won and lost across the baccarat tables and the roulette wheels in the frenzy of gambling for stakes hitherto unknown in France during the season, which is drawing to a close at Deauville.

Foreigners have been conspicuous in keeping the croupiers busy passing stakes over the green carpets. Mr. Vaghiere, a Greek ship owner, according to L'Avenir won 2,600,000 francs at baccarat in a sitting of three hours and a half at Deauville recently. On the other hand, an American, whom the newspapers refer to as the "Tolucco King," is said to have dropped 1,500,000 francs between midnight and daylight one night during the week. "Oh, puhaw, it only means a little over \$100,000," he is reported to have told a consoling piker.

But the... extraordinary player of them all is a young Cuban, a sugar grower of Havana, who is said to have won about 5,000,000 francs after losing 2,500,000 in August. "Whether winning or losing his face never gives him away to his opponents and his manner of dealing reminds one of a cat gently stretching out its paw." A French theatrical manager just returning from Deauville, told journalists.

PLUNGING AT DEAUVILLE.

Paris, Oct. 8.—Such unparalleled extravagance is being shown at Deauville, where the short season is now at its height, that a reaction is showing itself there. In the casino it is not unusual to see some of the war-made millionaires lose from \$50,000 to \$100,000 at luncheon between dinner and midnight. Some players have not yet learned how to lose with calm. There have been unpleasant scenes by excited plungers who have met with bad luck.

To the Electors:

The Government Press and Spokesmen are declaring that the Opposition is unable to find anything in the record of the Foster Government to find fault with, and that it (the Opposition) is therefore compelled to confine its criticisms to generalities.

Here are a few charges that are specific enough at any rate.

Coming into power on the strength of their promises to administer the public affairs with prudence and economy, they have proven themselves to be the most recklessly extravagant and wasteful stewards the province has ever known. In three years they overspent their income to the extent of \$802,000.

They increased the public debt from \$15,301,000 to \$20,563,763.

They increased the liability of the province for interest charges \$244,448.

They cannot even give an honest statement of what they did with the money, for their Treasurer's accounts give one set of figures, and their balance sheet gives quite a different one.

They collected \$99,000 from the people under the pretence that it was needed for patriotic purposes, and then they spent it as ordinary revenue.

They paid \$775 per acre for land of a character similar to land adjoining that no one would give more than \$43 per acre for.

They put a tax upon every man, woman and child that wishes to go to the cheapest kind of entertainment even, so great were their necessities.

They are proposing, if given the chance, to spend three millions more on roads for their automobile friends, the result of which must inevitably place a crushing load of debt upon the people.

Other millions are to be spent in an attempt to develop the water-powers of the province, which will only add further to this load.

They are acting throughout on the principle of "Take no thought for the morrow," and a few years more of the same sort of administration would land the province in for a heavy income tax, as the only method of paying the interest upon their extravagant expenditures.

It is time they were relieved of their responsibilities.

PROHIBITION CLOSES THREE JAILS IN ONT.

Salvation Army Officer Claims It Has Also Reduced Cases Needing Their Help.

Toronto, Ont., Oct. 8.—As a result of prohibition in the Province of Ontario, three of the seven provincial jails have been closed and the prison population reduced from 1,970 to about 1,000, according to Brig. Gen. W. H. Fraser, of the Salvation Army, here, in an interview. The three institutions closed were the old Central Prison here, the jail at Guelph and the jail at Whitby.

"Before prohibition we had a soup kitchen, but we don't have to keep one going now," Brig. Gen. Fraser said. "Before prohibition I used to have sixty or seventy persons lined up at my office door seeking relief. There is none of that now."

According to Salvation Army officers here the increase in the number of "dope" victims is not largely due to the lack of liquor but to the state of retained soldiers, who had been given drugs when sick or wounded and had a craving for the stuff after their recovery.

BUSINESS MEN VICTIMIZED BY LADY SWINDLER

Beautiful American Woman Got the Better of French Merchants.

London Daily Mail and Cross-Atlantic.
Paris, Oct. 8.—Mystery surrounding the arrest at a fashionable hotel here of Mrs. Katherine Taintor, nee Gray, a thirty-five year old American woman of striking beauty, has been cleared up by a police statement.

She has been wanted for some time for alleged swindling and similar charges.

With her husband, who was arrested last week on kindred charges, Mrs. Taintor has been visiting Aix-les-Bains, Deauville, and similar resorts, where she attracted widespread attention by her stylish mode of living.

Nothing but the best would suit her. Invariably, so the story runs, she stayed at the foremost hotels, always insisting on having the most luxurious suite, and always going about in a handsome limousine.

For all this, it is alleged, she tendered worthless cheques in payment. A long series of complaints has been pouring in to the police.

It is said that so great was her charm that her list of victims numbered many otherwise staid business men.

Paris, however, has apparently been her undoing. After committing alleged frauds here to the value of 4,500 pounds, the list of sufferers including a leading Rue de la Paix jeweller, a well-known department store, an American hospital just outside Paris, and a rich banker, the police finally arrested her.

The amount of her alleged operations at various watering-places is not given, but is stated to total a very large sum.

FOUR YEARS FOR THEFT OF BAGGAGE

Montreal, Oct. 8.—Four years' imprisonment was the sentence passed today on Sam Gale, one time captain in the Forestry Corps of the Canadian forces, for theft of baggage from Mrs. D. H. Stator, of St. John's, Newfoundland, and Mrs. E. Brotherton, of Seattle, Wash. These ladies left their suitcases in the Windsor Hotel, whence they were taken by Gale, who cashed at the C. P. R. office tickets for Seattle found in the baggage.

SINN FEIN RAID CAPTURES RIFLES

Dublin, Oct. 8.—By means of surprise, concentrated force of Sinn Feiners, nearly 200 strong, carried out a bold coup at Schull Police Barracks in West Cork last night. They captured fifteen policemen, several machine guns, rifles and a large amount of ammunition and equipment, and concluded the attack by burning the building to the ground.

Under two sergeants the besieged constables kept the Sinn Feiners at bay for four hours until, at midnight, when they were overwhelmed by the superiority of numbers and the volunteers stormed the place.

MONKEY BITES KING OF GREECE

Athens, Oct. 8.—King Alexander of Greece was bitten by a monkey Saturday. The king rushed in to rescue his dog which was getting the worst of a battle with a monkey. The animal bit the royal ruler on the arms and legs, but inflicted no serious damage.

INVENTION WILL EXTEND WIRELESS USE

Danish Inventor Has Electro-scope Which Promises to Quickened Range and Speed.

(By London Daily Mail Cross-Atlantic)

Copenhagen, Oct. 8.—In an interview, Mr. Rahbek, the Danish inventor, who recently made a violin talk at the Polytechnic Academy here, said that he and Mr. Johnson after working together for six years, have invented a pocket electro-scope that will greatly increase the capacity and speed of wireless stations.

The two scientists discovered the new force, which resembles electro-magnetism, in 1917; and eight days later they evolved a loud-speaking telephone of which the violin was a modification.

Next, they constructed their new pocket electro-scope, an instrument for detecting extremely minute quantities of electricity. The instrument is much more sensitive than anything of the kind previously devised, and is more easily handled than all previous electroscopes.

One use for the new instrument, Mr. Rahbek said, would be to increase the receiving capacity of wireless stations. He is now at work on a device which will permit of despatches being received 20 times more quickly than now.

Applied to wireless, the invention may mean not only more rapid transmission of messages, but also that an installation of low power would be able to send messages to far greater distances than is now possible. The invention may possibly prove of great value also in wireless telephony.

HENNA-SHADED SUIT FOR MEN IS LATEST DESIGN

Chicago, Oct. 8.—The only shocking thing in the latest styles for men is by inference only. A henna shaded suit is being exhibited by the Merchant Tailor Designers' Association.

That doesn't sound significant until you remember the increasing popularity of that hue as applied to women's hair. Now if this color is being used because necessity is the mother of invention, wives might demand an investigation of some kind or another. No doubt they will do the probing themselves every day after hubby gets to wearing the suit.

Tailors announce that this new shade is "the berries." Otherwise the suit is rather tame. Coats will be longer next year than they were this season by at least two inches. There will be no pads in the shoulders. The general effect of the coat will be slimmish, as the three buttons will hold it soberly together in front.

Stovepipe trousers will be unadorned by cuffs. All well-dressed young men will appear little with straight fronts.

Overcoats are going to be large and boxy. The belt will be banished. It is a relic of the war. Half-belts, however, will be permissible in suits and ulsterettes.

W. R. Stanbury, of Detroit, has promised one innovation. He is designing a waistcoat for fat men that will give the heavies who wear them the lissome appearance of a French corsage.

CHILD CROSSES OCEAN ALL ALONE

(Copyright, 1920, by Cross-Atlantic.)
London, Oct. 8.—Among the passengers who have just arrived here from New York on the American liner Philadelphia is Jean Mary Greenings, an eight-year-old London girl, who has crossed the Atlantic alone. The child is motherless, and her father being in business in New York, she is living under the care of friends in England.

Not having seen her father for a year she decided to get to America alone. She was put on board the Philadelphia at Southampton on the ship's last voyage but one, and in due course arrived safely in New York. After a few weeks with her father she returned to Southampton on the same ship in the same way, reaching home again happy and well.

GERMANS DETAIN SUPPLIES.

Berlin, Oct. 8.—A Dutch steamer, bound from Rotterdam to Danzig, having on board a cargo of airplanes, munitions and food for the Polish army, has been stopped by the German coast defense at Hottensau, province of Schleswig-Holstein, on Kiel harbor, and turned back to Rotterdam, says a Kiel despatch received here.

GUILTY OF MANSLAUGHTER.

North Bay, Ont., Oct. 8.—A Calveo was found guilty of manslaughter at the assizes here yesterday and sentenced by Mr. Justice Latchford to the penitentiary for one year. Calveo was charged with the murder of W. Gural, but was convicted of the lesser crime.

FUTURE OF LABRADOR.

London, Ont., Oct. 6.—The Labrador is a portion of Canada that is going to prove of immense value to the Dominion was the declaration at the Masonic Temple here last night, of Dr. Wilfred T. Grenfell, famous Labrador missionary and medical man, in inaugurating a campaign for funds in abeth Churchill Sattley, of this city, support of his humanitarian work.

Wedding

Trinity Church was beautifully decorated with palms and ferns on Tuesday afternoon at three-thirty o'clock for the marriage of Miss Rosemond (Bertha) McAvity, only daughter of Mr. and Mrs. George McAvity, Orange street, and Mr. Alexander Cunney Orr of Galt, Ontario. Pink roses, marigolds and white satin ribbons marked the pews of the central aisle, reserved for the relatives and friends of the principals in the happy event. Miss McAvity was given in marriage by her father and wore a beautiful gown of Brussels net and white satin, the bodice trimmed with rose point lace and embellished with orange blossoms. Her veil of point lace was fastened with a coronet of orange blossoms, and fell in graceful folds to the end of the court train of white satin and she carried a bouquet of pale pink roses tied with a rope and pendant of pearls. The Rev. Canon H. A. Armstrong performed the ceremony and the lovely Miss Rosemond pronounced the benediction and addressed the bride and groom. Mrs. Henry O'Brien, (Toronto), was the matron of honor and wore a handsome gown of orchid velvet trimmed with silver lace with court train, a hat of silver lace with a wreath of sweethearts, roses and pink roses. Miss Cornelia Adams of Columbus, Ohio and Miss Orr of Galt, Ontario, sister of the groom were bridesmaids. They wore gowns of white with garlands of white roses, and wore white and tulip-trimmed hats with pink roses. Miss Jean McAvity, niece of the bride was flower girl and wore a dainty frock and pink bonnet of pale pink tulle, rose trimmed and carried a silver basket of sweethearts. The full veiled choir under the capable direction of Mr. J. S. Ford, who presided at the organ, rendered appropriate music. Mr. Allan Thomas was groomsmen, and the ushers were Mr. Ralph Hayes, Mr. Hugh McLean, Mr. Fortin, (Galt), and Mr. Thomas McAvity. After the ceremony a reception was held at the residence of the bride's parents, Orange street. The wedding party received in the drawing-rooms which had been attractively decorated with white pedicels, with garlands of smilax, on which rested silver basket of pink roses and maiden-hair fern. The mantel also was backed with the same exquisite flowers. The bride's table in the dining-room, was covered by the conventional wedding cake and at each place were favors of tiny satin slippers, those for the ladies containing sweets, and for the gentlemen cigarettes. A nice pudding served Jack Horner style was also an attractive decoration and was surmounted by a white satin rose and orange blossoms under which were favors of tiny satin bags of rose petals and confetti, tied with silver cords and tiny silver horseshoes. Mrs. Franklin Stetson presided at the tea table, which had for decoration pink roses. The health of the bride was proposed by Canon Armstrong, Pugsley and was responded to by the bridegroom in a happy speech. Mr. Allan Thomas responded to the toast to the bridesmaids, proposed by the groom. Mrs. McAvity, mother of the bride, wore a fashionable gown of tulle and velvet with sleeves and front panel of orchid georgette, embellished with silver and purple beads, tulle skirt of the same shade and hat of tulle and velvet and silver, trimmed with metal roses. Corset bouquet of moss roses. Mr. and Mrs. Orr left amid showers of rose petals and confetti for their wedding trip to Boston and New York followed by the bride and bridesmaids and friends. The bride wore a smart tailored suit of navy blue with French turban of navy velvet, with a blue shantung lace draping and squirrel

VITAL TABLETS THE GREAT FRENCH TONIC

Builds up a Run-down Constitution. Tones you up generally. Rheumatism and Kidney Trouble will feel the influence of this wonderful remedy.

I cannot praise Vital Tablets sufficiently. I only wish I could tell every one who suffers as I did. I was a nervous wreck. My nerves were all unstrung. I had indigestion so bad that at times I became very despondent. I saw your advertisement of Vital Tablets in a newspaper. I have used twelve boxes. Today I am a new woman and so happy. I have told dozens about your wonderful remedy.

(Signed) MRS. McGEE, Halifax, N. S.

VITAL TABLETS will do all we claim for them. Ask someone who has tried them. You will feel like a new person in a few days. Headaches, biliousness, constipation, weak nerves and all nervous trouble will at once feel the relief that follows. You will sleep better, eat better, and life will be truly worth living. Why drag on with your suffering? VITAL TABLETS do not cost a fortune but will be worth a fortune to you. If you need bracing up, if you need a tonic, if you have rheumatism, if your blood and nerves need toning up—take VITAL TABLETS. Your stomach will be sweet; the coating from your tongue will go; your eyes will be bright; your colour better. No matter what your trouble is, just you try VITAL TABLETS. Price 50c. a box or 6 boxes for \$2.50. Sold at all Drug Stores. If you have any difficulty purchasing VITAL TABLETS, send to us and we will mail them to you. Rothsary

Rothsary, Oct. 8.—The annual "Sports Day" at "Netherwood" was observed on last Saturday afternoon.

The weather was fine, and many parents and friends attended, also a number of the Netherwood graduates.

Among the Netherwood graduates, namely, Mrs. Fred. R. Taylor, Miss Irene MacArthur, Miss Edith Miller, Mrs. John Byles, Miss Margaret Ryan, Miss Laura Burdell, Miss Kathleen Skelton, Mrs. Alexander Fowler, Miss Catherine McAvity, Miss Isabel Jack.

A programme of twelve races was successfully carried out, and thoroughly enjoyed, and the showing of "Class Colors" received much favorable comment. "Class calls" were given and voted on. After the sports programme, two spirited games of basketball were played, the first between the "House Girls" and the "Day Girls," the second between the "Old Girls" and the school.

Mrs. F. H. Taylor was referee for these games, and this year giving a cup to the girl winning the most points in basketball. After the sports, the graduates had a business meeting, and, among other things, decided to give several prizes in the school this year. A new teacher, Miss Watson, of England, who arrived at Quebec yesterday on board the Empress of Britain, will be here today.

Apohaqui

Apohaqui, Oct. 8.—Mr. and Mrs. Thomas S. McAuley and Mr. and Mrs. Frederick Sharpe returned early this week from a delightful motor trip through P. E. Island, having chosen the rather unique and social way of enjoying their "honeymoon" together.

Mr. and Mrs. McAuley and Mr. and Mrs. Sharpe also attended the Charlottetown Fair during their absence.

Mr. and Mrs. Howard O'Neill have returned from their wedding journey and taken up their residence at Belleville. Mr. and Mrs. O'Neill also visited Charlottetown during Fair week.

On Wednesday evening the spacious residence of Mr. and Mrs. J. E. McAuley at Lower Millstream was in gay attire, when upwards of one hundred guests accepted an invitation to make merry in honor of the nuptials of the soldier son, Thomas McAuley, and his bride (nee Miss Jennie Sharpe), who had just returned from their wedding journey.

A huge bon-fire was lighted which shone around the country, side and amid the glare of light, the friends of the popular young couple, indulged in a rousing serenade, while inside the many guests were being entertained with music and social chat. The bride was charming in her wedding gown and received with her mother-in-law, the many friends who were delighted to welcome her at the teaching staff of the Lower Millstream school quite recently.

Mr. and Mrs. Frederick Sharp was similarly honored on Monday evening when a huge bon-fire was lighted in their honor. Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, more likely to pave the way to dangerous diseases, fully ninety per cent of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Joe Lunette, immediate Consular Agent, writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them."

Of Course, the Women Liked It

On special occasions, such as an afternoon tea, the new Red Rose Orange Pekoe Tea had its first introduction to many of the women of Canada.

And at such times its extra qualities could be discussed and enjoyed at leisure.

The women found that its aroma is delicate and delightful, that it has a bright sparkling amber color in the cup, that the flavor is of rare charm and distinction, while its strength is rich and satisfying.

The more-cultivated your taste, the more you will appreciate Red Rose Orange Pekoe Tea.

Ask for it by the full name—Red Rose Orange Pekoe Tea.

GIVE STATEMENT ON THE MARKET

Manufacturers Claim the Industry Has Gone Through the Readjustment.

Montreal, Oct. 8.—The Fine Manufacturers' Association of Canada went out the following statement showing market conditions:

"There has been lately all over world a general feeling that prices should be reduced and that all kinds have been ahead. Prices will come down to pre-war prices this fall.

"After consulting with the principal shoe manufacturers of this city, it was decided to issue a statement, it was shown that they could not be any cheaper than from 10 to 15 per cent. less than the prices of Spring. Though hides and skins have come down in price, one must not get that in shoe making there are many items which have to be taken into consideration.

"Materials: It is the general opinion that the prices on leather have reached the bottom and it is not surprising if, as soon as the market falls, there will be higher prices than are today. The law of supply and demand will work.

Labor No Cheaper.

"Labor is not any cheaper. Shoe workers have had to lose it for the last few weeks on account of the slackness of business and most of them have spent the money they saved. Moreover, food, fuel and rent are much dearer than a year ago.

"Freights have increased 40 per cent. Travelling expenses, telephone rates, salaries, taxes, fuel, power, light, etc. have advanced considerably. In the last few months, these will all go to a large extent the reduction of the prices of leather.

The three main factors of cost—leather, materials, labor and overhead expenses. There is no prospect of ever having these items reduced.

"The fact that three or four months' retailers have been clearing their stocks at very much lower prices than they can replace the same goods today.

Stocks Are Low.

"Stocks in the hands of shoe manufacturers and retailers are very low. As the retailers have not bought any extent for the last three or four months and the manufacturers have had either to shut down entirely, or work at 25 per cent. capacity. There is surplus stock of shoes today; this plus existed three or four months ago has been disposed of since.

"Prices are now at the lowest, and shoes are being sold at a profit. The manufacturers are at present on the rebuilding business for Spring, and only they are receiving comparative orders with past seasons.

"The Board of Commerce during their investigation established the fact that there was no profiteering in the shoe manufacturing industry.

"No industry is compelled to follow closely the condition of other's markets. No industry works on a closer margin of pay for its wares.

"The manufacturers claim that the shoe industry was the first to feel the pressure of the market, and adjustment which has gradually taken place during the last five months. Other industries are just starting their readjustment while the shoe industry already gone through this period."

DEFENSIVE SERUM FOR MEASLES FOUND

Paris, Oct. 8.—A method of stopping the spread of measles in a family which one of the children has caught, the illness is claimed to have been covered by M. Nicolle, Director of Pasteur Institute at Tunis, and Dr. Conell. Their treatment is to inject under the skin of brothers and sisters a small quantity of the blood taken when the patient is beginning to recover and when has not been feverish for five or six days.

The serum, they state, would contain defensive properties.

BIG ADVANCE SEEN IN SPIRITUALISM

Mrs. Etta Wriedt, Leader in Movement, Says War Gave it Impetus.

(Copyright, 1920, by Public Ledger.)
London, Oct. 5.—Spiritualism has made remarkable progress since my last visit to England," said Mrs. Etta Wriedt, of Detroit, one of the leaders of the movement in America, in an interview here today.

"The war created a new field for spiritualism," she continued, "and as a result, during the last two years the advancement has exceeded that of any previous period of equal duration. People who lost relatives and friends in the trenches and training camps in the prime of life have been unwilling to rest their minds without making an effort at communication. They have become interested in our work from spiritual and not from materialistic reasons. The average man of the world is seeking a new religion."

"Spiritualism is the coming religion, which is going to take the place of the old church doctrinal belief. It has been a hard struggle, but the worst is over. We have interested an intellectual class of people who are eager to help the cause."

In speaking of the position of spiritualism in Europe as compared with that in the United States, Mrs. Wriedt said the people in Great Britain and France are more interested and enthusiastic than those of America, and as a result, more progress has been made in those two countries. She praised highly the work of Sir Arthur Conan Doyle and said he was appealing to the hearts and not to the pocket-books of the people.

When asked as to the possibility of the future use of spiritualism in catching criminals, Mrs. Wriedt expressed the opinion that this is outside the legitimate field of the movement, which is essentially a spiritual one.

GERMAN OFFICIALS PLEADED HUNGER

Stole 418 Pounds of Cheese for Starving Families.

By Cross-Atlantic Newspaper Service.
Berlin, Oct. 5.—Two officials of the Berlin Food Office were tried for having forged Cheese Coupons and obtained possession of 418 pounds of cheese. The accused pleaded hunger; their wives and children they said, were starving and they had eaten up the quantity. The Court accepted this defence, sentenced them to four week's imprisonment with a recommendation to mercy.

GERMANS BUILD IMMENSE AIRPLANE

Constructed at Zeppelin Works for Flight to United States.

Berlin, Oct. 5.—Trials are to take place this week of the world's largest airplane, with which an attempt will be made to fly from Germany to the United States.

The machine has been built at Staaken, near Berlin, by the Zeppelin Company.

It is a monoplane, constructed entirely of steel and aluminum, and is after the style of the Fokkers. It has four engines, each developing 250 horsepower, and, it is believed, will be able to make a new world's record so far as speed is concerned—250 miles an hour.

There is room aboard for eighteen passengers, in addition to two pilots and two mechanics. The tests will include the continuous running of the engines for six days. The two airmen who, if the tests are successful, will attempt to fly the machine to America, are Captain Heese and Lieutenant Lehmann, two former army aviators.

Home-made, but Has No Equal for Coughs

Makes a family supply of really dependable cough medicine. Easily prepared, and shows 25¢.

If you have a severe cough of chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with cough and you want quick relief, try this reliable old home-made cough remedy. Any druggist can supply you with the mixture of Pinex. Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief. You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for 25¢ ounces of Pinex with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

THE STANLEY MILLS CORPORATION

BROMPTON ACTIVE WITH 5,000 SHARES SOLD IN MONTREAL

Asbestos Closes Day With 5 1/2 Point Gain and 1,275 Shares Sold.

Montreal, Oct. 8.—Over one half the day's trading on the local stock exchange today centered on Brompton with a turnover of over 5,000 shares. The most active stock was Asbestos with 1,275 shares. Outside of these names, the market was not active.

Brompton opened at 80 and fluctuated all day between a fraction over and under that price, with the close at 81, showing a gain of a point. The Asbestos issues continued strong, both making new high record prices, the common at 103 and the preferred at 100. In final sale the common received 5 1/2 points of the advance at 103 1/2, and the preferred retained three points at 107. The popularity of this stock is claimed to be due in some measure to talk of merger and to record earnings.

In utilities only Detroit continued yesterday's advance, ending up 2 to 108. Power lost 1 1/2 points at 85, and Shawbridge was down a fraction at 110.

Stronger stocks were Atlantic Sugar up a point at 131; Hordorn which gained two points at 25; Windsor Railway up 1/4 at 33 1/2; and Montreal's Bank which gained two points at 163.

Wheat issues were Dominion Bridge down 2 at 85; Laurentide down a point at 112; Spanish Common which lost 2 1/2 at 110 1/2, ex-dividend 1 3/4 per cent; Toronto Railway down at 44; and Bank of Montreal down 3 at 108. Total sales, listed 10,181; bonds, \$48,700.

ST. LAWRENCE SHIP CANAL OPPOSED BY U. S. MEETING

Claim it Would Cost \$100,000,000 and Aid Canada More Than the States.

Atlantic City N. J., Oct. 8.—Opposition was expressed in a resolution adopted at the closing session here today of the annual convention of the Atlantic Deepwater Waterways Association, against the proposed St. Lawrence Ship Canal which would imply an expenditure of \$100,000,000 of which the United States would pay half.

The strong sentiment in the U. S. association against this plan for a direct highway from the Great Lakes to the sea on the ground that the Dominion of Canada would derive by far the greater benefit. Many of the delegates contended that the proposition is a "subtle attempt" to tap Niagara Falls for power purposes.

ST. LAWRENCE FLOUR PROFITS ARE DOWN

Special to The Standard.

Montreal, Oct. 8.—The annual report of the St. Lawrence Flour Mills Co., Ltd., for the year ending August 31, shows net profits \$215,077, against \$245,894 the previous year. The balance applicable to common stock is equal to 13.5 per cent, as compared with 16 per cent. in 1918, current assets are \$509,530 against \$784,000, current liabilities are \$469,177 against \$356,148 and working capital \$831,443 against \$617,888.

SHORTS CRUSH WALL STREET TO LOWER LEVELS

New York, Oct. 8.—The stock market was under pressure almost from the very outset of today's session, the shorts carrying their aggressive manoeuvres to greater lengths than in any of the preceding days of the week.

In their facility to take the professional element was assisted by technical conditions, such as the direct abatement of public interest in support and prospects of stiff money rates in the approaching week. The latter probability was forecasted by the course of call or demand loans, which opened at 7 1/2 per cent, the maximum renewal of the week rising to 8 per cent. in the early afternoon and holding at that figure until a few minutes before the close, when it relaxed to the initial rate.

CHICAGO WHEAT UNDER PRESSURE FROM DOMINION

Market Closed Unsettled With 3/4 Cent Decline for the Day.

Chicago, Oct. 8.—Wheat went sharply lower in price today with pressure heavy from the Canadian surplus and with reports conflicting as to domestic offerings. The market closed unsettled at 4 1/2 to 5 3/4 cents net decline. Corn lost 1 3/4 to 4 1/4, and oats 5 1/2 to 7 1/8. In provisions the outcome ranged from 35 cents net back to 27 cents advance. Beans had the advantage in the wheat market throughout the day, especially in the late dealing when it appeared that free offerings from Canada were being an outlet here and at Minneapolis and at other domestic centres. Slowness of export demand for United States wheat and so, too, the export interests were heavy sellers at Winnipeg.

HOLLINGER HOLDERS TO GET STOCK IN THREE RIVERS PULP

Special to The Standard.

Montreal, Oct. 8.—A letter from N. A. Timmins accompanies circular sent out by the Guarantee Investment Corporation to Hollinger shareholders making an offering of the 5 per cent cumulative participating preference shares of the Three Rivers Pulp and Paper Co., Ltd., of which Mr. Timmins is president. He states that as shareholders of Hollinger are largely interested in the Three Rivers Company, he has been able to arrange the purchase of making a prior offering of this issue to Hollinger shareholders upon the underwriting terms outlined. These are \$100 for each preferred share carrying with it a bonus of 5 per cent dividend. The number of shares of common to be issued is estimated at \$1,500,000, or over four times the dividend requirements of \$4,000,000 on the issued capital of \$4,000,000 of 8 per cent cumulative preferred share.

SHORTS CRUSH WALL STREET TO LOWER LEVELS

New York, Oct. 8.—The stock market was under pressure almost from the very outset of today's session, the shorts carrying their aggressive manoeuvres to greater lengths than in any of the preceding days of the week.

In their facility to take the professional element was assisted by technical conditions, such as the direct abatement of public interest in support and prospects of stiff money rates in the approaching week. The latter probability was forecasted by the course of call or demand loans, which opened at 7 1/2 per cent, the maximum renewal of the week rising to 8 per cent. in the early afternoon and holding at that figure until a few minutes before the close, when it relaxed to the initial rate.

CHICAGO WHEAT UNDER PRESSURE FROM DOMINION

Market Closed Unsettled With 3/4 Cent Decline for the Day.

Chicago, Oct. 8.—Wheat went sharply lower in price today with pressure heavy from the Canadian surplus and with reports conflicting as to domestic offerings. The market closed unsettled at 4 1/2 to 5 3/4 cents net decline. Corn lost 1 3/4 to 4 1/4, and oats 5 1/2 to 7 1/8. In provisions the outcome ranged from 35 cents net back to 27 cents advance. Beans had the advantage in the wheat market throughout the day, especially in the late dealing when it appeared that free offerings from Canada were being an outlet here and at Minneapolis and at other domestic centres. Slowness of export demand for United States wheat and so, too, the export interests were heavy sellers at Winnipeg.

HOLLINGER HOLDERS TO GET STOCK IN THREE RIVERS PULP

Special to The Standard.

Montreal, Oct. 8.—A letter from N. A. Timmins accompanies circular sent out by the Guarantee Investment Corporation to Hollinger shareholders making an offering of the 5 per cent cumulative participating preference shares of the Three Rivers Pulp and Paper Co., Ltd., of which Mr. Timmins is president. He states that as shareholders of Hollinger are largely interested in the Three Rivers Company, he has been able to arrange the purchase of making a prior offering of this issue to Hollinger shareholders upon the underwriting terms outlined. These are \$100 for each preferred share carrying with it a bonus of 5 per cent dividend. The number of shares of common to be issued is estimated at \$1,500,000, or over four times the dividend requirements of \$4,000,000 on the issued capital of \$4,000,000 of 8 per cent cumulative preferred share.

ST. LAWRENCE SHIP CANAL OPPOSED BY U. S. MEETING

Claim it Would Cost \$100,000,000 and Aid Canada More Than the States.

Atlantic City N. J., Oct. 8.—Opposition was expressed in a resolution adopted at the closing session here today of the annual convention of the Atlantic Deepwater Waterways Association, against the proposed St. Lawrence Ship Canal which would imply an expenditure of \$100,000,000 of which the United States would pay half.

The strong sentiment in the U. S. association against this plan for a direct highway from the Great Lakes to the sea on the ground that the Dominion of Canada would derive by far the greater benefit. Many of the delegates contended that the proposition is a "subtle attempt" to tap Niagara Falls for power purposes.

SCOTTISH DRYERS' CAMPAIGN DAILY GROWING FIERCER

Hand Bills Issued by Contestants Numbered in Millions.

London, Oct. 8.—The Scottish dry campaign grows fiercer each day. Already Scotland threatens to become a dry-land before the polls are taken next month. The Glasgow correspondent counts over six kinds already issued.

The period for lodging requisitions for polls under the Temperance Act of Scotland closes this afternoon, and that result, except a number of small areas, which are already dry, because of the veto of the Territorial Lords, especially every ward and parish in Scotland will go to the polls.

The issue to be voted on is whether public houses and grocers' licenses in districts shall be abolished altogether, or reduced twenty-five per cent, or whether things shall remain as now. Glasgow will have thirty-seven elections; Edinburgh sixteen. Sir Samuel Chisholm, ex-Lord Provost of Glasgow, who is a prominent member of the temperance party, says it is a misnomer to call their campaign prohibition. The manufacturers and sale of drink for private consumption, and houses of hotels, restaurants and clubs would not be interfered with except that there are to be no open bars in hotels.

However, it is admitted that the adoption of prohibition in the United States and Canada has enormously increased the ambitions of the Scottish totalitarians, whose ultimate aim is to dry Scotland. One favorite slogan in the campaign is "Parish is a many reasons for no licenses as there are children in the world."

Effects of Education. For the last thirty years, every child in Glasgow public schools has had the evils of alcohol drilled in his ears for an hour weekly. Anti-prohibitionists say that the rank and file of the temperance societies have learned twelve million rhymes to be affixed in all bottles of beer sold there. The favorite argument is "Class legislation," and "Why let the poor man and child alone the rich?"

Reports from the mining areas suggest that the rank and file of the miners are pretty much equally divided. Rev. Adam Hewick, of Motherwell, which is the great steel and iron center, says steel workers are already very temperate, and their favorite drink being cold water with oatmeal in addition.

It is significant that a large number of the properties if you let us in Middleton.

BULL FIGHT FANS RIOT BECAUSE EAR NOT GIVEN VICTOR

Madrid, Oct. 8.—Civil guards were forced to draw their swords to quell an insipient riot on Sunday's bull fight. The trouble began when an official, whose duty it was to award prizes commensurate with the performance of the toreros refused to give Luis Freg, the famous Mexican, an ear of one of the animals he killed.

Freg had been horned by his second bull, receiving a long shallow wound in his stomach, when he killed the animal and the crowd gave him an ovation and demanded that he be awarded an ear. This the official at first refused to do. The crowd then surged into the ring.

After order was eventually restored it was seen that the attitude of the spectators was still menacing and in order to remove this and keep the peace, the award to Freg was made. Three other toreros were slightly wounded by the bulls.

Curable Mistake. "I see the population of Windsor has increased by 5,000 in the past year," said mother at the breakfast table. "Some mistake there," said father. "Perhaps the parties who did the counting took a census of the empty bottles left behind by parties who came visiting from Detroit."

Effect of the petitioners for polls are women. Ministers generally are taking the platform on both sides. Presbyterians pass resolutions only by casting the votes of their moderators. Those who advocate local restrictions include some who are not themselves in favor of prohibition. Those who take the other side include many advocates of reform in the conditions of the "trade."

ELECTION CARD. To the Electors of Carleton County: Ladies and Gentlemen: The Government having dissolved the House of Assembly and issued the writ for an election to be held on the 14th day of October, I have decided to be a candidate in opposition to the present administration. Having represented this county for a number of years, and in view of a very large measure of confidence that has been placed in me by the electors of this constituency in the past, especially on the last two occasions in which I appealed to them, also in view of the fact that there are many questions that require careful consideration, I feel that I can safely trust my interests in your hands at this time. I am not opposing the United Farmers' ticket. Their platform, as I have been able to view it, is largely in accord with my own views. This constituency having gone so strongly in favor of the present opposition party in the last contest, it is only right, in my judgment, that at least one member should be returned with two farmers to represent the people as a whole. I am strongly in favor of increased revenue from stumpage rates on our Crown Lands as advocated by the Opposition members at the last session of the Legislature. We need extra revenue in order to pay our school teachers a higher salary, and to provide for better roads, especially in the rural districts which have been sadly neglected by the present administration. Burdens of taxes have been imposed by the present Government upon the common people, when they (the common people) own this important asset. The large owners of timber lands have been allowed to reap immense profits from the same, while the price for all lumbering materials has been soaring far beyond our expectations. I am safe in saying that \$1,000,000 more should have been gathered from our Crown Lands the last year. Had this been done it would have been unnecessary for the Government to have added to our bonded indebtedness as they have, which has placed burdens upon us for years to come. It is common knowledge that the big Crown Land interests have control of the present administration. Our Crown Lands are being devastated, not only by the axe, but by insect pests, blow-down and other things common to the forest, and a careful analysis of the conditions shows us that we are today cutting thirty-two logs for one thousand feet, whereas a few years ago from eight to ten logs produced the same amount. This in itself tells the whole story, and plainly shows us all that we want to conserve our forest wealth as much as we can and to get full returns in stumpage rates from lumber that may be cut from year to year.

I am in favor of a prohibition that prohibits. I am strongly opposed to some of the methods which have been employed in enforcing the present law. The sale of liquors should be handled in such a way that it would be possible for those who require to use the same for medicinal purposes to get it at half price plus the commission for handling.

I wish to take this opportunity to correct an impression, which generally prevails in some parts of the county, that I had purchased a residence in the County of York, in Marysville, and intended to remove there. There is no foundation, however, for these statements, as the purchase of such property was in common with the purchase of a number of other real estate purchases which were made purely from a standpoint of business. And I may say to the electors of this constituency that I have absolutely no intention of removing from Carleton County. My interests here are growing larger and larger from year to year. My business is also increasing annually and my home is here in Carleton County, the place of my birthplace, and I propose to remain here.

The time before polling day is so short that it will be absolutely impossible for me to call upon the electors of the county personally. Having appealed to you many times before, and being well known throughout the county, I feel that I can safely trust the result with the utmost confidence.

PREDICTS GREAT CITY IN NORTH

Mayor of Winnipeg Says Hinterland Groans With Wealth.

Winnipeg, Oct. 8.—That the second largest city in Manitoba will emerge from the wilderness in the northern portion of the province when the vast natural resources of the hinterland are developed, was the prediction of Mayor Charles F. Gray upon his return from a trip north with the Manitoba Legislature party.

The Mayor said, would be the greatest copper mine in the world. A stamped to the district is inevitable he added.

Judging by the action of the French workmen in voting to work nine hours, instead of eight, we are inclined to believe that they must have seen some of these Toronto Exhibition posters, reading: "Work and Prosper."

sees the possibilities there in timber, copper, gold, silver, and precious metals, such as gold, silver, radium and tungsten, north of 53, he said. "The mining possibilities in that district will give to one of the most conservative mining fields the world has ever seen."

The people of Manitoba, he declared, have no conception of the untapped resources of the province. "The Flin Flin mine has ore in sight worth \$150,000,000. The diamond drilling in the mine so far has shown the vein to be 300 feet wide, 3,000 feet long and 300 feet deep, and the end of its possibilities are not known, concluded the mayor.

The people of Manitoba, he declared, have no conception of the untapped resources of the province. "The Flin Flin mine has ore in sight worth \$150,000,000. The diamond drilling in the mine so far has shown the vein to be 300 feet wide, 3,000 feet long and 300 feet deep, and the end of its possibilities are not known, concluded the mayor.

Judging by the action of the French workmen in voting to work nine hours, instead of eight, we are inclined to believe that they must have seen some of these Toronto Exhibition posters, reading: "Work and Prosper."

TUXIS BOYS AND TRAIL RANGERS

"FIRELIGHTER."
Things have been moving fast in "Tuxis" and "Trail Ranger" circles this past week. St. Mary's "Tuxis Boys" held their rally on Friday, the 2nd instant, and addresses were given by Rev. R. T. McKim, Rev. J. Robinson and A. H. Davis. Several other Churches have held their rallies and reports indicate an excellent season all round. Truly we can say that G. S. E. T. is going forward.

Taylor Statten, the National Secretary, was in town last week-end, and in several very excellent addresses stirred up interest amongst several clubs and societies of business men and women interested in the Boy Life of our town.
Mr. A. M. Greig, accompanied by Rev. A. S. Bishop, conducted the Grand Falls Boys' Conference, the first of the series of ten. Mr. Greig reports a very good Conference, with an attendance of 47. The spirit was fine and the attendance as good as could be expected owing to the importance of potato picking.

St. John will be the scene of a Boys' Work Conference, the first since 1915, on the 22nd, 23rd and 24th of this month, and every Church should aim to have every last boy and leader eligible attend. "Registrations" should be the topic of the day, and Mr. McEwen will be glad to have them and give any advice he can to those in doubt. Give him a ring at his office—Y. M. C. A.

Now, Boys and Leaders, let us make this the best Conference St. John has ever known, and in case this column does not meet the eye of your father, ask him if your Group has chosen its delegates, for time is getting short.

Contributions such as reports of Group Meetings, will be greatly appreciated if left at Y. M. C. A., addressed "Firelighter." Let's make this the best "Firelighter" column in Eastern Canada. It can be done; will you help?

JOY.
Real joy comes not from riches, not from east, not from applause of men.
But from having done things that are worth while.

—W. T. Grental, "FIRELIGHTER," Oct. 9th, 1920.

THE NATIONAL TUXIS CAMP.
The first National Tuxis Camp has passed into history. For ten days in August one hundred and fifty men and older fellows gathered in a great camp at one end of Canoe Lake, Algonquin Park, in the North Woods of Ontario. They came from all the provinces between Prince Edward Island and Alberta, and visitors were there from Pittsburg, New York, India, New Zealand, China and Japan. They came because the call had gone out for leaders to gather in the out-of-doors to learn the ways of nature and how to interpret the meaning of life of Canada's growing boys.

When the crowd was on its way into camp it rained, not a gentle shower to lay the dust, but a heavy downpour that soaked every stitch of clothing. However, every one was in good spirits, bundled into one great tent to spend the night and was ready for the bright sunshine the next morning to dry out clothing and get set up for camp. Tents went up as if by magic, and before long over fifty patches of white were arrayed along

the shore. Fifty canoes on the beach and around fifteen tribal camp fires, the newly formed tribes got acquainted with their Indian names, with each other and with some of the intricacies of camp cooking.

An interesting programme of four-fold activities was carried out as follows:

- Intellectual. Nature study, outdoor photography, collecting specimens, Educational lectures.
- Physical. Setting-up exercises, Aquatics, Hiking, Canoe trip, Campcraft, Group games and contests.
- Devotional. Service of worship, Morning watch, Nature, music.
- Social. Tribal relationships, Camp responsibilities, Social training in leadership—Life saving.

The outstanding naturalists of Canada were there to lead in the study and enjoyment of the outdoor world; Hovecraft—that newest of the sciences, was ably cared for by Taylor Statten, C. A. Myers, Manson Doyle and "Fred" Smith, who are among its national leaders; the evening by the campfire with illustrated lectures and inspirational addresses will live long in the memory of all, and the great canoe trip was an initiation on the part of many into the mysteries at least of maintaining the proper bal-

ance in life.
The men of all ages who attended this camp have gone back to their many groups of boys to put into actual operation the ideas and methods that were set forth at camp.

TEXAS RANGER, INDIAN CHIEF, ON VISIT TO LONDON

(Copyright, 1920, by London Daily Mail and Cross-Atlantic.)

London, Oct. 8.—Fresh from a four in India, Captain George Ash of the Texas Rangers, and Chief Hallstrom, of the Cherokee Indians of America, who have travelled all over the world, have come to London.
Hallstrom, who is heir to a famous Cherokee chief and whose cap of a hundred feathers shows that he had secured as many scalps, has filmed the life of the various Indian tribes, and has presented Indian war dances in various parts of the world.

"I was born in Canada," Captain Ash says, "and after a spell at sea got down to Texas, where I have a ranch of my own. I have been shot several times.
"I was in Calcutta when the riots took place. There was a lorry going along the streets loaded with silver. The crowd attacked it, and I jumped on the wagon, killed two, and wounded several more, but got the lorry safe to the mint."

The men of all ages who attended this camp have gone back to their many groups of boys to put into actual operation the ideas and methods that were set forth at camp.

12 POUNDS OF COFFEE TO EVERY INHABITANT

Washington, Oct. 8.—The Volstead law, has apparently increased the number and the capacity of coffee drinkers of the United States, according to the National Coffee Roasters' Association.

The sale of the alcoholic liquors legally stopped at midnight of June 30, 1919, and for the year ending June 30, 1920, all United States coffee records were broken. The total consumption was 3,333,000,000 pounds an increase of 389,000,000 pounds over the preceding twelve months. The per capita consumption was 12 1/2 pounds.

Hood's Sarsaparilla Makes Food Taste Good

Creates an appetite, aids digestion, purifies the blood, and thus relieves scrofula, catarrh, the pains and aches of rheumatism and gives strength to the whole system.

Nearly 50 years phenomenal sales tell the story of the great merit and success of Hood's Sarsaparilla. It is just the medicine you need now. Hood's Pills help—fine cathartics.

Japs Gain in Silk

Comparative figures on silk production, based on the last crop, indicate that France is losing supremacy in the silk industry being surpassed by Japan, China, the Levant, and Italy. The total yield for the world is estimated at 27,900,000 kilos, or 60,000,000 pounds.

To Have Curly, Wavy Hair Like "Nature's Own"

Women who have trouble keeping their hair in curl, or of securing the desired wavy effect—and especially those who realize the harm that the hot iron does to the hair—will do well to try plain liquid silmerine. In no other way can they acquire such pretty waves and curls, having all the appearance of "Nature's own." And the hair, instead of being singed, ragged or dead looking, has such a lively lustre and wholesome beauty.

If one will get a bottle of liquid silmerine at any drug store and follow the accompanying directions, she will be simply delighted with the result. This product is of course perfectly harmless, and there is nothing sticky, greasy or unpleasant about it. The hair will be quite manageable, no matter in what fashion it is done up.
