## CANDIDATES CALDWELL AND MELVILLE

Monday's Election Anticipated With Interest With the Odds on Caldwell

At the nomination proceedings at Andover Monday, Thomas W. Caldwell, representing the United Farmers, and Lt. Col. W. W. Melville the Conservatives, were regularly nominated. As was generally expected Mrs. Adney dropped out of the contest.

Col. Melville was selected at the convention in Woodstock on Friday, Hon. B. F. Smith declining to submit himself to what he apparently recognized would be certain defeat. The new Tory standard bearer claims that while he was born and reared a Conservative he returned from the war with no politics. There are a host of men making exactly the same statement, which doesn't speak well for the Borden government. The colonel also poses as a "Unionist" and likewise an "Independent," and it would seem, almost anything else that will get him votes. Among other things he claims to be a farmer and sort of godfather to all other farmers. The closest relation to farm life the records show him to have held was when he was associated with the promoters of that modern South Sea Bubble, the Canada-West India Co. United Farmers recall that specious enterprise.

From all reports that come in from the various parts of the huge constituency the Farmers' candidate is growing in favor, and the members of the organization will back him up almost to a man. Of course there will be some defections; but the great rank and file of Carleton-Victoria farmers will stand pat. Encouraged by the overwhelming success of the farmers in Ontario, those in this riding will undoubtedly rally round their candidate man fashion.

Until last week there was very little interest shown in the contest by any but the farmers, but during late days there has been much discussion of the coming election, with all the odds, apparently, in favor of Mr. Caldwell.

### G. W. V. A.

Our last meeting was very interesting. The report of our representative to the executive committee of the Prov. Command was very encouraging. Space will not permit a report of the meeting but Comrade A. R. Higby was added to the provincial and also to our branch executive.

Comrade P. C. Barter, vice-president, was appointed to go before the Hartland Town Council and Comrade E. A. Britton, president, was appointed to go before County Council to press the matter of exemption from taxes as far as possible for returned soldiers.

Our president reports he has good prospects in getting one of our most prominent returned soldier chaplains to preach at our memorial service on Nov. 9 and this week we start the organization of a Ladies' Auxiliary to our G. W. V. A.

We are adding members to our Branch right along. Three comrades drove clear from Glassville to join and we have a glad welcome for all.

S. G. BARTER, sec.

### Shooting Accident May Prove Fatal

A shooting accident occurred on Sunday at Carlingford when

Ralph Turner, the seven-year-old son of Mr. and Mrs. Harry Turner, and several other boys were playing along the road and met Robert Bean, a boy about eighteen years old, carrying a shot gun. Young Bean, it is reported, called to these boys to hold up their hands or he would shoot. The children held up their hands but Bean fired and the shot struck Ralph Turner.

Doctor Chamberlain of Fort Fairfield was called and it was found the shot had scattered all over one side of the child's body. He was removed to Fort Fairfield Hospital and very little hope is entertained for his recovery.

Bean gives no reason for his action and nothing has been done by the authorities.

D. Sadler, secretary. Both of the meetings were well attended by the ladies, who are taking a great interest in women's work. These Institutes have chosen delegates to attend the provincial convention of Women's Institutes at St. John, on Oct. 28, 29, and 30. Mrs. Hedley Sleat was elected to represent the Institutes of Aroostook Junction and Miss Annie Stewart to represent the Institute of Perth.

## 1919 VICTORY LOAN IN FULL SWING

List of County Officers and District Canvassers

The 1919 Victory Loan is off to a good start and it is expected the required objective will be subscribed as quickly as it was last year. Canada's need for money was never greater than it is today, and if the nation must borrow—it is much better that it borrow within its own borders. The Dominion now pays its own people nearly \$100,000,000 a year in interest. Had not the people bought the bonds for former issues this immense sum would have to be paid to financiers outside the country. Every citizen should buy bonds to the limit of his capacity to buy. The country needs your money and will pay well for the use of it. A Victory Bond is safer than any bank and pays 5 1/2 per cent while the bank pays only 3 per cent.

The Carleton county committee is comprised of:

F. O. Creighton, John N. Lee, E. W. Maiz, E. R. Teed, J. W. Gallagher, T. H. Noddin, J. R. Gilliland, W. S. Sutton, J. L. Ross, C. S. L. Raymond, George Ramsom, Woodstock; Rev. O. J. ## TRIP TO SPRINGS WAS A FAILURE

Crossed Continent Seeking Health  
But Came Home Discouraged

"I really crossed the continent went from Calgary to Hot Springs Arkansas and back trying to get relief from my troubles but nothing helped me until I took Tanlac," said Mrs. Jessie E. Morgan, wife of a wealthy farmer living fifteen miles north of Calgary, Alberta.

"Rheumatism has kept me crippled up for the past three years," she continued. "Not a day or a night passed that I haven't had terrible pains running all through my lower limbs, and at times my feet would swell until I could hardly get a shoe on. I took all sorts of medicines that were recommended for rheumatism, but they tore my stomach up so that I got to the place where I could hardly eat anything without suffering misery for hours afterwards. When my appetite left me and I began to suffer so badly from indigestion, I began to lose weight every day. At night I would be so nervous and restless that I couldn't sleep

and I couldn't find any relief. I went to Hot Springs Arkansas and took the baths there, but came home in as bad a shape as ever. Then I heard Tanlac recommended so highly, and as I had taken nearly everything else I thought I might as well try it too.

"I really took Tanlac hoping that it would straighten out my stomach, but didn't think it would help the rheumatism too, but it was one of the happiest surprises I ever had when I found that after my stomach began to get better, the rheumatism was relieved. I kept on taking Tanlac and after a few weeks' treatment, I am not bothered anymore by either the indigestion nor the rheumatism. My appetite is wonderful and I can just eat anything I want and digest it. I can tell by the way my clothes fit me that I have gained several pounds in weight and I just feel myself getting stronger every day. My nerves are as steady as a rock, I sleep eight or nine hours every night and I only regret that I didn't know of Tanlac sooner, as it would have saved me a whole world of suffering and misery."

Tanlac is sold in Hartland by

Esley & Curtis Co., in Bristol by Dr. G. W. Somerville, in Centerville by Stevens Bros., in Woodstock by E. W. Mair, in Benton by W. E. Porter, in River de Chute by Daniel B. Baird, and in Florenceville by A. B. Lovely, and in Bath by Bath Drug Co.

### The Visit of the Prince of Wales

The Prince of Wales will end his Canadian tour in a few days much to the regret of all Canadians. He has certainly endeared himself to all who have had the good fortune to meet him. A splendid portrait of the Prince size 16 x 22 inches and bearing a copy of the Prince's autograph, has been issued by the Family Herald and Weekly Star Montreal. Every subscriber for 1920 is to receive a copy of the portrait free. The Family Herald and Weekly Star has been vastly improved lately and is without doubt the greatest value for the money the world over. The subscription price is \$1.25 a year including the Prince's portrait. To old and young, rich and poor, the Family Herald and Weekly Star is a great favorite and the publishers are to be congratulated in supplying such a handsome

portrait of the Prince. As might have been expected The Family Herald and Weekly Star's circulation is increasing by leaps and bounds. It is in the highest sense a great paper.

Dr. S. S. King, who served several years with the Army Medical Corps, has lately been made a Fellow of the Royal Institute of Public Health of Great Britain. Dr. King has moved into David Underhill's new house on the hill and will have his office there.

### IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

"Sok, Mother! If tongue is coated, cleanses little bowels with 'California Syrup of Figs'."

Mother can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged-up waste sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs" which contains directions for babies, children of all ages and for grown-ups.

### 10-CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Bloating, Sour Stomach, Bad Breath—Gently Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, bloating and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases, take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

"—and neither could you  
have told the difference!

Why Monday's audience at the Hayden-Gibson Theatre was so completely mystified. Alice Verlet was inside the phonograph in all excepting physical presence.

At first reading, the story of the New Edison's performance last Monday night at Hayden-Gibson Theatre seems fraught with mystery.

But the explanation is simple enough.

First get a picture of what happened. Miss Verlet sang 'Caro Nome'. She stopped after the first few lines, but her voice flowed on without a break. No one even noticed she had stopped—until some eyes keener than the rest, saw her lips were still. It was only then that realization dawned. The audience found it had been listening to the New Edison.

To every ear, the two voices, living and RE-CREATED, had been without a shade of difference.

That was what mystified the audience. They had expected the RE-CREATED art to betray its phonographic origin. It was a step too advanced for their comprehension that this instrument should be all that Miss Verlet is, excepting her physical presence.

## The NEW EDISON

"The Phonograph with a Soul"

This extraordinary proof is the only means through which people learn to appreciate the powers of the New Edison. If you are interested in music, it is indeed unfortunate that you were not present.

Yet, you know this is a test which no other phonograph dares to attempt. It is proof that no one can evade or deny. The New Edison is the only phonograph which RE-CREATES music and the soul of music. Come in and hear it for yourself.

This instrument used in Monday's Tone-Test is the regular model which sells for \$431. It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

## "I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright-eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part:

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag." Striking, and beautiful in design, this flag will form not only a unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbours to do his. Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve"  
Will You also Serve?

Mrs. F. Clarke, Belmont, Man., writes:—"My baby had eczema on her ear. The sore was very bad and nothing seemed to do her much good. Hearing of the remarkable cure Dr. Chase's Ointment was making, we sent for some, and after the third application the sore began to heal. Mr. and Mrs. Reuben Robinson were greatly surprised Friday evening Oct. 21 when fifty of their neighbors and friends met at their home and spent a very pleasant evening in music and games. Delicious refreshments were served by the ladies, after which David Noble, in a neat little speech, presented Mr. and Mrs. Robinson with a costly casserole. Although greatly surprised, both replied in very fitting manner. These people leave for their new home with a host of kind wishes for a bright and prosperous future. ## Election Card

LADIES and GENTLEMEN: Electors of Carleton and Victoria, I beg to solicit your support in this election. My motto will be, to encourage in the strongest possible way, all legislation in the interest of our agricultural life.

I am not in favor of a high tariff nor a free trade, but will encourage a tariff suited to our needs, and which will tend to develop our resources and stimulate the industrial life of our Dominion. I cannot support free trade as this would mean direct taxation. I will promise, however, to encourage and support a free interchange of our farm products.

Knowing the great sacrifice our boys in the great world struggle just ended, and having passed through some of the hardships myself, I feel it my duty to protect the returned man in every possible way.

All other questions that come before parliament will be given my independent consideration, always keeping before me the great problem of reconstruction, which, I am aware, will require the most serious thought and independent action.

The time is so short that I will be unable to call on the electors personally, soliciting the support and assistance along the above lines.

I remain, your obedient servant,  
W. W. MELVILLE,

### Election Card

To the Electors of the Federal Constituency of Carleton-Victoria:

Having been nominated by a Convention of the UNITED FARMERS OF NEW BRUNSWICK, which was held in Woodstock on September 2nd, to contest the coming Bye-Election in the above Constituency to fill the vacancy caused by the resignation of the Dominion Minister of Public Works, and as the Election is to be held on October 27th and the time being so short it will be impossible for me to personally call on all the Electors in the two Counties, I, therefore, take this opportunity to state to you what the aims of the UNITED FARMERS are.

They are, in brief, as follows: THE UNITED FARMERS are strictly independent of both the old Political Parties, and their representatives will be perfectly free to support any measure that is for the best interests of the Farmers of Canada, and just as free to oppose any measure that they feel is not in the interests of the Farmers.

And Canada, being an Agricultural Country, we believe that any legislation that is beneficial to Agriculture is indirectly beneficial to every citizen of Canada.

THE UNITED FARMERS also stand for PURITY in elections, so they believe that the lack of this is the starting point of all the Political Graft and Corruption which is so much in evidence in Canada to-day.

We would therefore appeal to every loyal citizen of Canada to support the FARMER'S PARTY, and to the Electors of Carleton-Victoria, to support me as the UNITED FARMERS Candidate in the coming Bye-Election.

T. W. CALDWELL.

Zam-Buk invaluable for eczema, both in the case of my baby and myself," says Mrs. L. Bonin of West Ararat, N.S. "She adds: 'Baby's skin was badly broken out, but repeated applications of Zam-Buk entirely cured it.'

"In my own case, I had eczema on my hands, which made it very inconvenient for me to do my housework. Particularly was this so, as it aggravated the trouble so to put my hands in water. By using Zam-Buk, however, I soon got relief, and it was not very long before every trace of the trouble had disappeared. I really think no home should be without Zam-Buk. **LOOK!**

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

**FREE TRIAL.** Cut out this article, write across it the name and date of this paper, and mail it (with 10 stamps to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

## THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly lie up from my bed, and I was unable to do my housework. I had the best doctors in East Chichester and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. Buzza, Black River Falls, Wis.

It is just such experiences as that of Mrs. Buzza that have made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass.

Mrs. Fred Smith gave a party Monday night for the young folks.

### A TONIC FOR THE NERVES

The Only Real Nerve Tonic is a Good Supply of Rich, Red Blood

"If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of to-day. Sufferers find themselves tired, morose, lowspirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to cure nervousness, and run-down health, Dr. Williams' Pink Pills should be taken. These pills actually make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin curing yourself to-day by taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### MEDICAL INSPECTION OF SCHOOLS

In Parishes of Brighton and Wakefield

Dear Sir:—Having been called upon by the Provincial Board of Health to fill the unenviable position of Sub-District Health Medical Inspector for the Parishes of Brighton and Wakefield, I would like to place before your readers of these Parishes a few facts concerning the work required to be done, so that the parents may realize some of the difficulties as well as necessities, and how they can greatly help by their intelligent co-operation.

In the first place, the work required to be done as per the Act is almost limitless to the thorough and conscientious man, in the time available from the daily and nightly routine of a heavy country practice, while from a financial standpoint the medical inspector is asked to give his best in diagnosis and advice to say nothing of the actual work involved, of travel at all times, over all kinds of roads, at all times of the year, the vaccination of all the children, complete examination of each individual child from hair to toes, the necessary antiseptics and bandages for arms, etc., to be at the call of every teacher in these districts who may fear that some one in her care is threatened with measles or other "catchy disease,"—all for a sum of money that would little more than feed my "Lizzie" in gas and oil while doing the work.

What of the poor souls who want the Doctor to come "at once," if not sooner, while he is away up country looking after our "Nation of the Future"?

I understand that a large part of the new act was formulated prior to or during the period of the war. Just consider that the war has of course changed many of our outlooks on many things. Personally it has, for obvious reasons, changed the whole future outlook of my health and life, but not of my ideas on School Medical Inspection, a question I had spent much time and thought on previous to my going "over there." The only change, if any at all, with regard to the children question is that it makes me realize even more intensely the dominating importance in our national life of all that affects the child. I spent between three and four years with the Imperial Army chiefly in the East, but also more than a year in France, and on all these fronts, while we found our boys fully equipped with all that could be at the time supplied them, and trained to tip top of physical endurance capable of being at-

tained, still they could not be equipped with a physical health and efficiency greater than their childhood had left them.

Only proper care of childhood can give us adult men and women of that force and vigor which is latent in our race, but which often bad conditions during childhood and school days deform or suppresses.

I am not writing my war history neither do I wish to moralize on wars, but there is no special reason for thinking that this is absolutely the last of wars, with all due regards to the "Peace" and "The League of Nations." Nor is this kind of war the only kind a nation has to fight. There is the war of commerce, the war of science, the wars of every day life with the survival of the fittest in all these various and different kinds of wars. And who is to fight

### LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

### HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, notice them—they are not Aspirin at all.

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only sad imitations.

Look for the "Bayer Cross"! Then it is real Aspirin, for which there is no substitute.

Aspirin is not German but is made in Canada by Canadians, and is owned by a Canadian Company, all rights being purchased from the U. S. Government.

Genuine "Bayer" Tablets of Aspirin have been proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Twenty-five boxes of 12 tablets—also larger "Bayer" packages—can be had at any drug store.

Aspirin is the trade mark registered in Canada of Bayer Manufacturers of Monrovia, Massachusetts of Salicylic Acid.

W. E. THORNTON

Medical Inspection of Schools, Can. them?—the coming nation. Even then if we do not try to unchain the powers of man for the sake of life itself, its vigor, its beauty, its goodness, its expression, let us at least remember that wars of all kinds are fought better by men and women who in childhood were properly cared for, taught physical, as well as mental science and allowed to be strong and helped to overcome their weaknesses.

The careful medical inspection of each individual child is the only sure foundation upon which preventive or remedial work of a lasting character can be established. The process, to many persons, may seem slow, it may appear that much time, patience and energy (we won't say money) is being expended which might be used to a better advantage, but I am convinced that the basis upon which the work is being undertaken by our Provincial Board of Health is sound and that the realization of the results aimed at, namely healthy childhood can be anticipated with confidence.

I do not mean that the board can single handed accomplish all that is required but by employing proper men, with adequate time, and proper and sufficient financial disbursement, who can demonstrate with clearness and accuracy the needs of the child in concrete form, and by pointing in some degree to the many and various causes of the disabilities under which the child is suffering may be able to bring to bear in each individual case those agencies and influences which are necessary to the ultimate prevention or remedy of the defects and diseases discovered.

The Doctor's best attention must for a short period (in our case two short periods) be concentrated on each child in all the different schools (about 40) the result being, in even our hurried examination, a very considerable gain in knowledge of the child's physical condition, its possibilities and limitations. The Doctor may find the child has a diseased heart, unknown to parents and teacher, requiring care in both physical and mental exercises, or other treatment. Or the child may have decaying teeth which may have become to the child and parent so much a matter of course as not to be considered the physical handicap they in truth are. Very often too the eye sight will be found at fault. Sometimes one eye is nearly or quite blind and come to the teacher, parent and child as a revelation. Then there are defects of ears, nose, throat, lungs, spine, joints, nerves, skin and bones, which may be found many times in each school.

The defects that "fall notice" or can be "put up" with are almost incredible. Think of the offensive ear discharges so common, the verminous conditions, decaying teeth and gums poisoning the digestion, etc. We hear—"Johnnie always was pale and thin" or again "Nellie is so backward", what about her hearing or eyesight, her tonsils and adenoids, which are a common cause of "backwardness" in the school child. And although there is a difference in "backwardness" and "feebleness," it is one of degree only, and in my opinion, undoubtedly the same physical causes and defects often operate in both classes of cases to produce their mental result.

This Medical Inspection of Schools so far may be described as the focussing of the knowledge of health on the school child by means of a machine of Public Health Administration that should enable us to take up each child as an individual and deal with it as an individual and not in the hurry scurry half examination that will needs be done by any busy country doctor with some 35 to 40 schools to visit, many being at the further end of a long radius from his office.

It was possible to carry out the vast possibilities opened to

## "My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being let in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

## Dr. Chase's Kidney-Liver Pills

our view by this new School Inspection Act by the busy men who are asked to attempt it, this would be a immense step forward, although it is not a new knowledge that has been given us, for many of us have been strongly advocating School Medical Inspection for all the years of our professional life; neither is this the proposal of a new remedy or the discovery of previous unknown causes and effects, it is the use of existing knowledge and its proper application in individual cases according to individual needs.

But the light of Medical knowledge must be focussed not only on the child alone but upon its environment, the schools, the building and the furniture of the school used by the child. It was my privilege while in England to visit a few of their schools and witness for myself the thorough manner of their Medical Inspection. There the Doctor had the aid of a nurse, while a lady representing the "Childrens Care Committee" was present obtaining immense quantities of statistical information as to possibilities of treatment and social conditions etc. But of these visits, with your permission Sir I may be able to tell something later.

### Whooping Cough

Mr. Arthur Hainge, Ashton Farm, Perley, Sask., writes:—  
"Two years ago whooping cough was very bad in this part of the country, our eight months old boy caught it and had a very severe attack. A neighbor advised the use of Dr. Chase's Syrup of Linseed and Turpentine and we gave it and nothing else with splendid results. When the older brother took the whooping cough we used this medicine promptly and prevented serious trouble as the cough passed off in two or three days."

### TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Dandruff right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is sure evidence of a neglected scalp; of dandruff—this evil scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and dislodge the hair falls out fast. A little Dandruff tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Dandruff from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Dandruff. Save your hair! Try it!
