GERMANS KNOWINGLY SINK NEUTRAL DANISH VESSEL AMERICAN LEAVES NO ROOM FOR QUIBBLES ITALIANS ADVANCING IN SPITE OF ENTRENCHED ENEMY

AMERICANS AT MEXICAN SLIGHT

Vice-Consul Robinson Wires
Washington That Situation
Is Serious.

INDIFFERENCE TO NOTE

Vera Cruz People Not Excited
by President Wilson's
"Ultimatum."

[Canadian Press.]
Waco, Mexico, June 4.—All of the mine guards of the American Consolidated Mining and Milling Company at Tzucac, Oaxaca, Mexico, were killed last Tuesday night, according to word received here today by officials of the company. Vice-Consul Robinson, at Oaxaca, telegraphed that the situation was serious. A telegram was sent to Secretary of State Bryan, requesting him to place Robinson in charge of the properties.

INDIFFERENCE TO NOTE

[Canadian Press.]
Vera Cruz, June 4.—President Wilson's note to Gen. Carranza and the leaders of other Mexican factions was published without comment in the newspapers here last night. It was received calmly by the public and apparently was regarded with indifference by groups of persons who gathered in cafes to discuss its contents.

CONDEMN CARRANZA

[Canadian Press.]
El Paso, June 4.—Copies of a proclamation issued by Gen. Villa at Leon, Huasteca, were received last night, in which the leader of the northern army states that Carranza and his followers have criminally associated themselves with the "foreigners" who are lying in ambush to divide and destroy Mexico.

PREPARING RELIEF

[Canadian Press.]
Washington, June 4.—Without waiting to see how the contending military factions of Mexico would react to President Wilson's warning, Administration officials were today co-operating with the American Red Cross in carrying forward comprehensive plans for relieving the Mexican civilian population from further distress and hunger, resulting from the incessant warfare in the southern republic.

All the relief plans in which Government agencies are aiding were ready to be laid before the Red Cross executive committee today. They included the organization of special committees in the principal cities of the country for the collection and forwarding of supplies to Mexico, supervision over the movement of supplies, efforts to secure either free transportation or reduced rates for foodstuffs to border points, and instruction by the Government to consular officers and military posts along the border to aid in assembling and moving food supplies.

MEANTIME, THE EFFECT OF PRESIDENT WILSON'S DEMAND FOR ORDER ON THE LEADERS OF THE VARIOUS MILITARY FACTIONS IN MEXICO STILL WAS AWAITED WITH INTEREST HERE.

It is not definitely known here whether or not the factional leaders have received the President's statement, although official advice told of the receipt by U. S. consular representatives in Mexico of copies.

The ultimate outcome of the battle between Villa and Obregon forces at Silao also was awaited with interest. Meagre official advice confirmed claims of a victory for Villa. Upon the result of this battle hinges supremacy in Central Mexico, and possibly the success of a final effort to bring the contending factions together to establish a new government.

LEAVING ON HORSEBACK

[Canadian Press.]
Washington, June 4.—British authorities in Mexico City are arranging to take out foreigners by horseback and automobile to points from which there is train service to Vera Cruz. The British minister reported today that former British Consul Cummins would start Tuesday with a party on horseback for Pachuca. British charge d'affaires will take a party of foreigners Wednesday to Pachuca by automobile. President Wilson's statement was delivered yesterday in Mexico City for transmission to Gen. Garza and Zapata. Department officials believe it has by this time been delivered to all the Mexican leaders.

THE WEATHER

LOCAL TEMPERATURES.

Following were the highest and lowest temperatures recorded in the 24 hours previous to 8 o'clock last night: Highest, 70; lowest, 55. The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 64; lowest, 48.

TOMORROW—FINE AND WARM.

Light to moderate winds; fine and warm today and on Saturday.

TEMPERATURES.

The following were the highest and lowest temperatures recorded in the 24 hours previous to 8 a.m. today:

Station	High	Low	Weather
Victoria	62	38	Cloudy
Calgary	60	38	Clear
Winnipeg	58	36	Cloudy
Port Arthur	66	46	Clear
Port Sound	66	46	Cloudy
Fort Erie	64	46	Cloudy
Ottawa	74	52	Cloudy
Montreal	74	52	Cloudy
Quebec	76	52	Cloudy

Weather Notes.

The pressure is now high over the continent east of the Mississippi, with the highest barometer just north of Lake Superior, while to the westward there is an extensive depression which is moving slowly eastward.

Since yesterday morning good showers have been almost general in Saskatchewan, while in other parts of the Dominion the weather has been fine.

RUSSIANS STILL HOLD SOME OF PYZEMYSL FORTS FROM ENEMY

Probably Keeping Command of These to Cover Retirement of Forces Which Left the Fortress Prior to Occupation by Austrians.

[Canadian Press.]
Austro-Hungarian Army Headquarters, June 4.—(Via London, 3:45 p.m.)—Przemysl's recapture by Austrian and Bavarian troops, according to details received from the front, resulted from the capture of five forts in the northern sector and the simultaneous threatening of the forts on the south and west fronts.

With the forts on the north side in the possession of the besiegers, with a Bavarian corps pressing impetuously through the breach against the city, and with the Austrian Tenth Army Corps within storming distance of the southern and western forts, which artillery fire already had reduced sufficiently for attack, the Russians decided to evacuate the town and all the forts except those on the eastern and southeastern sectors. This movement was executed by the Russians during Wednesday night.

The Austrians resumed their attack at dawn on Thursday, and entered Przemysl upon the heels of the retreating Russians.

The Austrian Tenth Army Corps simultaneously started towards the west and south fronts, but found the forts there had been evacuated. An attack now is in progress against the forts still held by the Russians, those positions being defended apparently with the object of covering the retirement of the Russians.

Schoolboys Released at Leeds to Manufacture Shells

[Canadian Press.]
Leeds, England, June 4.—The local board of education, in response to an appeal from the Leeds manufacturers of war munitions, has released the entire senior class in the public schools from their studies, and the students will now be put to work in a body in one of the factories. They will make shell rings.

GERMANS SINK NEUTRAL SHIP; NO "MISTAKE"

Danish Captain Told Commander Nationality of Vessel, in Vain.

CREW SAFE IN SCOTLAND

Drifted for 12 Hours in Open Boat Before Being Rescued.

[Special Cable to The Advertiser.]
Lerwick, Scotland, June 4.—The Danish three-masted sailing ship, Salvador, from Copenhagen to England with a cargo of timber, was shelled and sunk by a German submarine in the North Sea.

The crew was picked up by the trawler Fermo and landed here today, after drifting for twelve hours in an open boat.

"The submarine came alongside on Thursday morning," said Capt. Sand of the Salvador, "and her commander shouted that he would give us just five minutes to take our cargo and then we'd be sunk."

Neutral Cry Useless.

"I said: 'This is a neutral ship,' but he said that didn't make any difference, we couldn't take cargo of any kind to England. I asked him what would become of our families if he sank us. He said he would be sorry if anything happened, but that war was war, and that we'd better get into the boats."

Sank the Vessel.

"After we rowed away, the submarine's crew set fire to the Salvador and then sank her with a few shells. Then they ran alongside our boats, gave us some tobacco, two bottles of brandy and a couple of rubber coats, and towed us a short distance."

"We dropped us when another ship came in sight."

SWEDISH VESSEL SUNK.

[Canadian Press.]
London, June 4.—The Evening Standard says that the Swedish steamer Lapland was sunk last night at a point 55 miles off Peterhead, a sea-lark for Pachuca. No submarine was sighted, but Capt. Peterson stated he believed the vessel was torpedoed.

The crew of 10 men, together with 4 women, were landed at Peterhead today.

The Lapland was 288 feet long and of 1,417 tons net. She was built in 1906 at Gothenburg, Sweden, and was owned in Stockholm.

KINGSVILLE GETS NEXT CONFERENCE

Only One Vote Took Gathering From Dundas Centre, London.

[By Staff Reporter.]
St. Marys, June 4.—The London Methodist conference will be held next year at Kingsville, Dundas Centre Church, London, being out by one vote when the question was decided by ballot at the conference meeting held this morning.

Greetings to conference members were tendered by Rev. J. G. Miller and Rev. Mr. Yeule this morning on behalf of the local ministerial association and Mayor Coupland gave the welcome from civic bodies.

ADAM WANTS TO BE EMPEROR OF CANADA

This is Steam Railway Man's Decision in the Matter.

"Oh, Adam wants to be the emperor of Canada," said a steam railway man today when asked what the steam railways thought of Sir Adam Beck's threats to put them out of business.

HOPES OF CITY RUNNING WILD AT SPRINGBANK

Finest of June Days Provided for Annual School Outing.

THOUSANDS AT THE PARK

Such Fun and Ramping and Lurching Was Never Known Before.

To thousands of children in the city today brought realization of the dreams of weeks past. It was the one day in all the year to which they had been looking forward in joyous anticipation, the day of the annual school picnic, and most of them no doubt were awake as soon as it was light and eagerly peering out of windows to see whether the day was fine.

It was, in fact, it was one of the most glorious days of this year. Old Sol was on the job smiling and good natured, and the elements evidently had entered into a benevolent conspiracy with the board of education officials and school teachers to give the youngsters a thoroughly enjoyable day.

6,000 Reach Park

The parade to the Springbank picnic grounds commenced at 8:30, when several carloads of kiddies from St. George's School left the corner of Colborne and Oxford streets, and these were followed by cars from other points at short intervals. Right up till past noon, the procession continued until upwards of 6,000 children had been transported to the park. A number of "jitneys" also were pressed into the service.

The ride down was a noisy, joyous affair. The youngsters were out of the car windows and the woods along the Springbank line rang again to the echoes of songs, shouting and chatter.

Races Are Commenced.

Arrived at the grounds, the children were grouped according to the schools they attended, two or three schools to each group. At lastly possible the races were run off and most of the events had been concluded before the children sat down to lunch.

The food had been sent down in lorries and drays in locked boxes. It (Continued on Page Three.)

NO GUNS ABOARD LINER LUSTANIA

Survivors Swear to This and Officials Have Every Guarantee.

GERMAN CLAIMS FALSE

Britain Scoffs at Assertions by Gustav Stahl and Bruckner.

[Canadian Press.]
London, June 4.—Government officials scoffed yesterday at the affidavits of Gustav Stahl and Bruckner that the Lusitania was armed with five-inch guns on her forward and aft decks.

One remarked that the Government would not believe the assertions of a man from London and the announcement of the Grand Turk that it would no longer route its coal via the road to this city.

"At the time electrification was first started we told the people what would happen. They have no reason to think otherwise, and had no reason then. They were told that the M. C. R. would withdraw from London if the scheme, as outlined, went into effect, and also that the city would lose the G. T. R. coal business."

"The withdrawal of the Michigan Central, in particular, is a serious matter for the wholesalers of London. It means a delay in shipping goods at St. Thomas, and will, for that reason, give the wholesale dealers of Toronto and Hamilton an advantage over those of this city by their ability to ship direct."

Realize the Truth.

"At the present time I see no way in which we can overcome the difficulty. We have been expecting something of this nature ever since the first plans were made to electrify the road, and now that the inevitable has happened the people, I hope, will realize the truth of what was told them before they voted on the electrification scheme."

Not in Back Seat.

The letter concludes by saying that nearly all the London boys are doing well, and everything is going fine. "We are not taking a back seat for any of them," they say.

As to Mr. Randall.

Some exception is taken to the statements made by P. J. Randall, who returned to his home in this city in April from England. The members of the 12th Battery received him homecoming in The Advertiser of April 23rd. Randall claimed to be a sergeant in the Mechanical Transport, but the boys of the battery claim that he never was at any time while with the contingent an N. C. O. They also state that he never did a week's drill from the time he left London, owing to sickness. He did not go to France with the contingent.

SOON TO GET TO FRONT

Pte. Harry Livingstone, 18th Battalion, writing to friends here from Sandling Camp, under date of May 21, states that the regiment expects to leave very shortly for the fighting line.

"The men are eagerly looking for the day when we can get to the firing line, and do our share in avenging the deaths of those who have fallen. The 13th was never in better shape, and will give a good account of itself."

TWO MEN HANG.

Ottawa, June 4.—The cabinet has decided that Jacob Cuzen and P. Malakoff, Russians, under sentence of death at Winnipeg for murder, must hang next Tuesday.

DIFFERENT FROM CITY'S WHITE WAY

Pte. M. R. Winters, now with No. 3 Stationary Military Hospital at Shorncliffe, writing to friends, states that the action of the military authorities in ordering all lights extinguished during the night is embarrassing to the boys after the "White Way" in this city. All houses, he says, are ordered darkened, so that the Zeppelins may have no targets for their bombs. As a result, soldiers, citizens and autos are constantly coming into collision after dark. The boys, he says, very often go to Folkestone, 12 miles away, to spend their evenings, and often have a great time getting home.

7,327 CANADIANS ON CASUALTY LIST

Total Up to Date Shows 1,119 Killed, and 4,683 Wounded.

[Special Cable to The Advertiser.]
Ottawa, June 4.—The list of Canadian casualties by cable now totals 7,327. Of these, 1,119 are reported killed, 4,683 wounded, and 1,525 missing. Each day this cable carries several hundred new names. The ten thousand mark will be reached shortly.

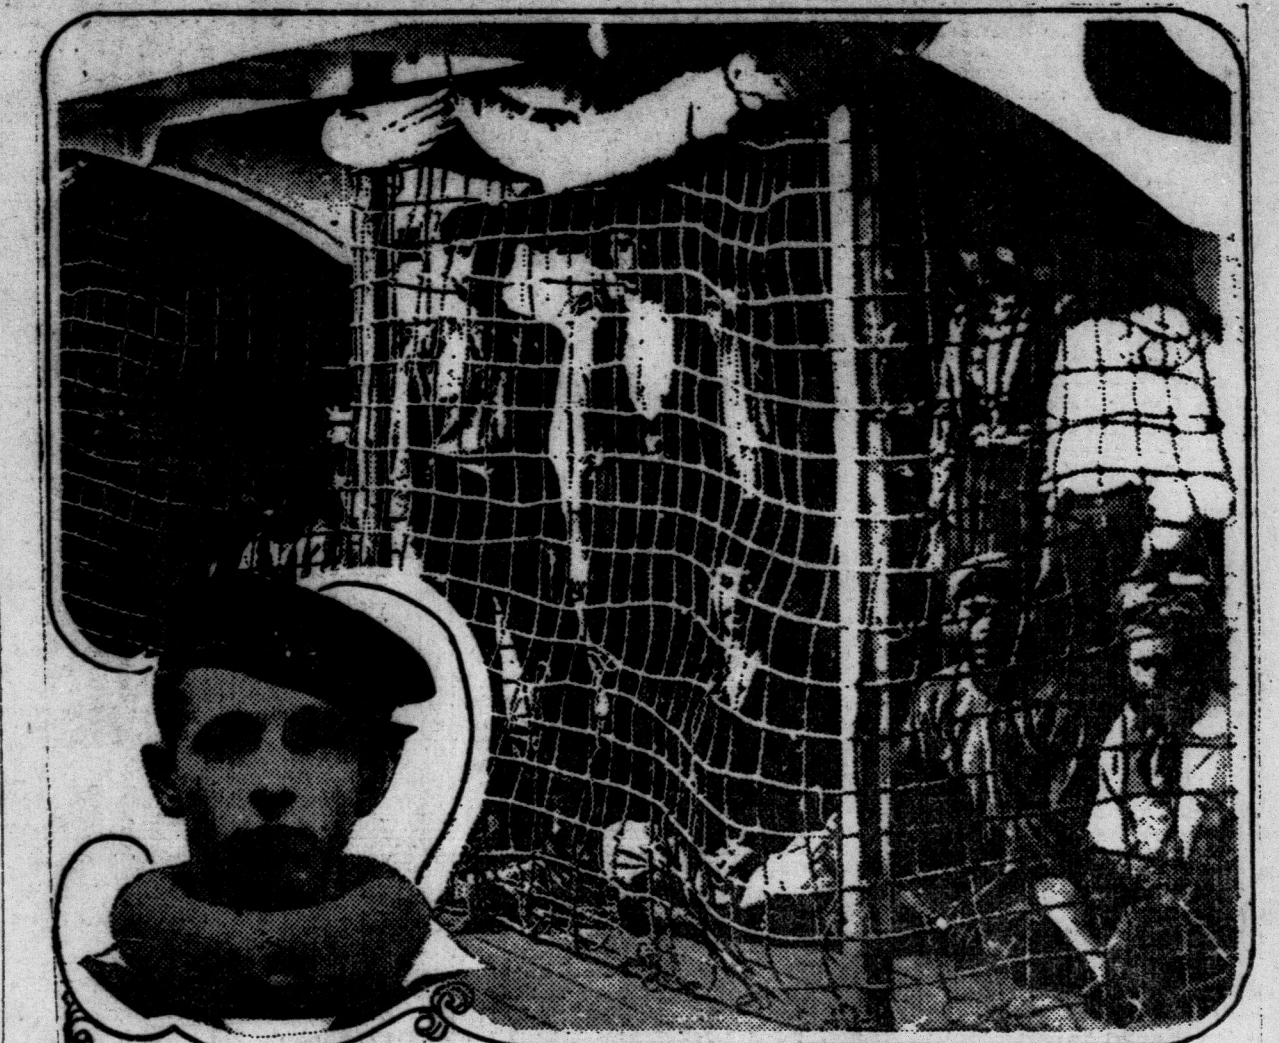

No Possible Excuse.

"Once more it can be stated positively that the Lusitania was unarmed," said an official of the Government yesterday. "She not only was not armed, but had no Government convoy. In no sense could she be classed as an other ship, one which, owing to any other circumstances, might be put in the category of a steamer upon which an attack legitimately could be projected."

"The Lusitania pursued the right of passage with innocent passengers." At the Cunard offices an inquiry as to whether the Lusitania was armed brought a reiteration that the German affidavits were entirely untrue.

GRAVITY REVEALED BY WASHINGTON INCIDENT

Terrible Turks' in Open Air Prison Aboard British Man-o'-War

Advertiser Illustration.

The way the British are keeping Turkish prisoners taken in the Dardanelles action. Cages of rope netting have been constructed on the after decks of the battle ships and cruisers and the Turks there incarcerated under guard. Insert at left is photograph of British sailor wearing the new safety collar, with which the Queen is providing them out of her own purse. The collar is not quite the size of an ordinary life preserver, but is sufficient to keep a man's head above water until picked up. Its principal use is expected to be with those sailors knocked unconscious or wounded when a ship is blown up.

Loss of Prussians Alone Is 1,388,000

(Canadian Press.)
Amsterdam, Holland, June 4.—The Telegraaf states that according to German casualty lists, Prussian losses alone have reached a total of 1,388,000.

Recent casualty lists contain the names of 56 airmen, of whom 11 were killed and 35 wounded, the remaining 10 being missing.

CITIZENS NOW REALIZING TRUTH OF ELECTRIFICATION, SAYS MR. R. C. STRUTHERS

Prominent Wholesaler Declares M. C. R. Withdrawal Will Be Serious for Business—Coal Business Also Gone.

"Just what we expected."

This is the way R. C. Struthers, wholesaler, sums up the situation now existing in connection with the electrification of London and Port Stanley Railway through the withdrawal of the M. C. R. from London and the announcement of the Grand Turk that it would no longer route its coal via the road to this city.

People Were Warned.

"At the time electrification was first started we told the people what would happen. They have no reason to think otherwise, and had no reason then. They were told that the M. C. R. would withdraw from London if the scheme, as outlined, went into effect, and also that the city would lose the G. T. R. coal business."

Realize the Truth.

"At the present time I see no way in which we can overcome the difficulty. We have been expecting something of this nature ever since the first plans were made to electrify the road, and now that the inevitable has happened the people, I hope, will realize the truth of what was told them before they voted on the electrification scheme."

President Makes Precedent by Taking Counsellor Lansing to Cabinet.

NO ROOM FOR EXCUSES

Note Sweeps Aside All Contentions About Lusitania Being Armed.

[Special to The Advertiser.]
Washington, June 4.—The intense gravity of the present international situation so far as concerns the United States was emphasized when the cabinet met today.

Confronted with the final approval of the rejoinder to Germany, which is to go forward probably within the next few hours, President Wilson summoned to his aid Robert Lansing, counsellor of state department.

This was the first time the counsellor, admittedly one of the great international law experts in the United States, has been present at a cabinet meeting which his chief, Secretary Bryan, also attended.

Radical Departure.

It was also a radical departure from ordinary procedure. Heretofore the President has consulted the counsellor alone. Today he sent for him to aid in making the rejoinder to Germany correct to the last detail, so that there may be no slip and no excuse for further delay in dealing with points affecting the honor of the United States.

Lansing took with him to the cabinet meeting the brief he has prepared, dealing with issues raised by Germany in her unsatisfactory note received here last Monday night.

All irrelevant.

The cabinet will sweep aside as irrelevant the Lusitania question, including affidavits alleging that the liner was armed and carried explosives, which were otherwise described in her manifest.

It was generally expected that the complete note will set forth that all other points raised by Germany must be disregarded until the United States is assured that the rights guaranteed to this country under international law are recognized.

MEMBERS RETICENT.

[Canadian Press.]
Washington, June 4.—Following the cabinet meeting, the members were unusually reticent, but there was some indication that the note had finally been disposed of.

"I cannot divulge anything that happens in cabinet meetings," said one.

The meeting lasted for two hours.

ITALIAN OFFENSIVE DEVELOPING WELL

Troops Progress Against Austrians Strongly Entrenched in Hill Country.

Enemy Fiercely But Vainly Assaults Some Alpine Detachments.

[Canadian Press.]
Rome, June 4.—An official statement issued tonight says reports of preparatory movements along the entire front show that the situation continues to develop in favor of the Italians, who have assumed an offensive against the Austrians, who are strongly entrenched and supported by powerful artillery.

The statement issued by Gen. Cadorna, chief of the general staff, follows: "Preliminary movements and engagements continued all along the front during June 3, developing always to our advantage. Special mention must be made of the favorable, although slow, progress our troops are developing on the southern slopes of Monte Nero, on the steep crags on the left bank of the Isone near Tolmino and on the line of the valley. Our troops are fighting with dash and determination against Austrians strongly entrenched and supported by powerful artillery."

"In Carnia the Austrians continue (Continued on Page Three.)"

JAPAN STILL IN ALLIES' COMPACT

With Others She Is Pledged Against Any Independent Action.

[Canadian Press.]
Tokyo, June 4.—Foreign Minister Kato, interpellated in the House of Peers today by the budget committee, made the declaration that Great Britain, France, Russia, Italy and Japan had agreed to take no independent action of any kind in connection with the European war.

EFFORTS OF WOMEN SAD RACE WITH CASUALTIES; C.W.C.A. NEEDS INCREASE

Socks, Bedsocks, Delicacies and Invalid Chairs Among Constant Necessities—Gifts Big and Little Are Asked.

Month by month the shipments of the Red Cross Society, and of the C. W. C. A., have been growing larger and larger, and the race with the casualty lists has become a constant one. Since February the Red Cross shipments have doubled in size, and now follows a list of the C. W. C. A. shipments for May, showing that it, too, is keeping well "up to strength."

Shipped May 28.
Socks, 678 pairs; sheets, 32; day shirts, 18; hospital shirts, 54; towels, 12; pillow cases, 20; pyjamas, 30 suits; underwear, 21 sets; cholera belts, 95; handkerchiefs, 594; hospital work, 54; dressing gowns, 18; nightgowns, 1; slip-jackets, 13; operation socks, 9; knee-caps, 21 pairs; bandages, 87 dozen; old sheets, 2 boxes. Price of materials in this shipment, \$1,144.25.

From the trench fund—Two boxes of soldiers' comforts valued at \$200, including soap, tobacco, pencils, tooth powder, scrapbooks, fruit cake, and writing paper, were shipped; also 12 private parcels.

Many people still do not understand that the hospital at Shorncliffe, which is becoming so well known, was sponsored by the C. W. C. A. and is always in the firm to be stocked by them with a constant renewal of supplies. Very often people say: "Oh, I thought the C. W. C. A. only cared for the men at the front!"

Objects of C. W. C. A.
Perhaps we may quote from the original cards sent out last December:
The objects of the association are:
"To assist in providing a hospital of 50 beds (with power to increase) for the use of the Canadian forces. By special permission to be known as the Queen's Canadian Hospital."

"To generally promote the welfare of the Canadian contingent and to assist in caring for the sick, wounded, and convalescent."
"To supply certain kinds of clothing and comforts, required by the troops on active service, and in convalescent and other hospitals."

"To engage in any general relief, or other useful work, in relation to the war."
"To work in close co-operation with the Imperial and Canadian authorities, and with the Red Cross Society, and with the Order of St. John of Jerusalem."

Now the hospital has been increased to 125 beds, and possibly may have to be enlarged again before long.
So while the helmets, mufflers, and wristlets (upon which the Red Cross Society has been working) are noticeable by their absence, all our members are busy with extras for the hospital at Shorncliffe.

When one reads the May list carefully, and remembers that no sewing for the C. W. C. A. is ever done in the home, but that all the work is done in the association through town and country, two thousand, five hundred and eighty-four articles made this month, exclusive of the knitted goods!

So we hope and expect to have the work quietly carried on all summer, and hope to show even a larger increase in tangible efforts.

For we are not nearly satisfied yet! The greatest need is still ahead of us, and we want many, many more things.

Money First!
THERE IS THE NEVER CEASING NEED FOR SOCKS! AND BED SOCKS! By the thousands, and to make up the thousands, there must be all those single pairs.

The wool for each pair costs 50c. While many persons are constantly sending in socks, giving both wool and work, there are a great many expert knitters who cannot afford to buy all the wool that they could make up.

Everybody Needs Socks.
Surely there must be many people who cannot knit, but who would be glad to provide a pair of socks every month? If we had sufficient capital we could give out \$200 worth of wool each month—enough to make pairs for all well-to-do people's needs. Our committee hopes that there will be 200 volunteers ready to provide socks in this way.

Reversing the usual order, and going from foot to head, we would remind our friends that jams, jellies, sweets, etc., will be received with great season and of season, and as fast as a barrel full is obtained, it will be packed and sent forward to Shorncliffe. And for those same wounded soldiers, we want invalid chairs. A dozen of them. To be shipped as soon as possible. The C.W.C.A. have pledged themselves to send that number. If in whose absence it is in charge of Mrs. Marshall Graydon. This fund is confined to sending special personal comforts to the men in the trenches—chocolate, tobacco, cigarettes, etc.

The Trench Fund.
A less known department of the C.W.C.A. is the "Trench Fund" under the able management of Mrs. Gates, in whose absence it is in charge of Mrs. Marshall Graydon. This fund is confined to sending special personal comforts to the men in the trenches—chocolate, tobacco, cigarettes, etc.

Through a special arrangement made by the C.W.C.A. in England, every 25c box as much tobacco as can be bought here (under the most advantageous terms) for 50c.

The officers of the fund are sending \$200 a month for this purpose, as well as boxes of comforts, packed here.

Officers Recognize C.W.C.A.
The Canadian officers at the front now apply to the C.W.C.A. in London, England, for all the extras they want, and above the government supplies, and as the requests come in the things are forwarded promptly. One month, the biggest request was for foot powder, and other varieties. Next month, sweets may have the preference, and the central committee may use it for the need of the moment.

And the needs are increasing. We want big subscriptions, and we want lots of little ones too.

Even enough to buy a single individual towel—about the size of a handkerchief, and is always in the firm to be stocked by them with a constant renewal of supplies. Very often people say: "Oh, I thought the C. W. C. A. only cared for the men at the front!"

Now! What about subscriptions? And donations? All speak at once. We don't mind. Money may be sent for any of our purposes to the treasurer, Mrs. Niven, 423 Colborne street.

FIREMEN BATTLE
DENSE GAS FUMES
IN NASTY BLAZE
Capt. John Case Nearly Overcome—Stubborn Fire.

Dense gas fumes made breathing difficult and stung nostrils and lungs of firemen combating a bad blaze in the attic of Dr. K. H. R. Neville's residence, 570 Colborne street, late yesterday afternoon.

Capt. John Case, of the Central fire, one time was nearly overcome while fighting the blaze in the upper story and was forced to break the stained glass in a small gable window to reach the fresh air. He crawled back from the aperture on the stairs on hands and knees, keeping his face close to the floor and holding the choking fumes. Chief Aitken also felt the effects of the biting gas when entering the neighbors, the family being away from home. Ladders were run up to a side gable where smoke was pouring out in dense clouds, and flames were darting through the framework.

A deluge of water was turned into the attic, until the line from the chemical tank was taken up the stairway and turned on the blaze. The dam, age, it is said, will be considerable. The fire, although badly gutting the attic, was confined to the upper part of the house. Gallons of water that were poured out from the fire percolated through partitions and floors into the lower portion of the house, drenching furniture and upholstery.

The blaze is believed to have been caused by a short circuit in the electric wiring under the attic floor.

IN ONE FIGHT HE LAID LOW 25 FOES, 9 MONTHS IN WAR

Lance-Corp Cain Has Been
in Most of Fighting
Since Mons.

MATES BLOWN SKY HIGH

Writer Survived Bullets, But
Fell a Victim to
Sickness.

The advertiser has previously reproduced letters from Lance-Corp. C. S. Cain, of the King's Royal Rifles, who is a brother of Mrs. William Gilles, of Springfield, describing his experiences in a regiment that has been in the fighting since the retreat from Mons.

His regiment has suffered tremendous losses, but has not been wounded, although on all sides of him during the prolonged fighting his comrades have been killed on all sides by the score. At the time of writing he was home on sick leave. His letter is characterized without any bombast. Of all the letters printed whether from British-born or Canadian it is noticeable that the writers have little to say about their accomplishments. In this letter Corp. Cain says in the most matter-of-fact manner that he "accounted for 25 Germans" in one fight.

And the truth of the statement is made plain when it is realized that each British soldier must have killed scores of Germans in order to stem the tide. The letter follows:

"Fermine," Meldy Avenue, Prestatyn, N. Wales.
In War For Nine Months.

My Dear Sister, I am so very sorry to have kept you waiting so long without a letter, but when I have told you what I have suffered through you will understand my apparent remissness. You will be glad to know I am safely housed with Laurie, after being in a better world than I have known for some time. I was in La Bassee, and then after some time in the trenches, standing up to our knees in mud, I had an attack of bronchitis, and was eventually invalided out of the firing line, and after a spell in various hospitals I found my way to Manchester, where I wound up on March 18. Laurie came to see me the next day, and then I was sent temporarily to a convalescent home, where I stayed eight or nine days, and then came down to Wales. I have had quite a passage since last August, and I will give you an epitome of our regiment landed at Le Havre on August 12; left on 14th for our country, and arrived at Le Havre on the same day. The 18th for four miles south of Mons, which place we reached on the 21st; on the 22nd and 23rd was the battle. On the morning of the 23rd started the retirement from Mons, which lasted up to September 1. Marching day after day was perfectly sickening, and we were all anxious for an opportunity to turn round and chase the beggars who were following us. We continued to follow them up, and one day we arrived at a place called Coligny, which the Germans had left at 4:30 p.m., and my battalion was in the advance guard, and we had a position just on the opposite side of the River Aisne. It was awful that morning. Katie. We had to go up a hill, and the Germans started peppering us with machine gun fire, shrapnel and shrapnel. Eventually we took up our position, having lost during the short fight of less than four hours about 100 men. I was glad to account for 25 Germans. Then we had a fight of 35 days in the trenches, in which I saw sights that will live with me as long as I live. It was awful to see your mates blown sky-high from your very side.

All "Out" But 135.
We were relieved by the French on the 15th or 16th of October, and went by train up to Cassel; from there we marched to Elverdinghe, and the next day on to Ypres. During the march we had some excitement outside of the line. Upon one occasion, out of 1,200 men we had in the battalion, we came out of action on October 30 or 31, and I stayed until December 18 or 19, when I was removed to Havre, and was sent from there in the early days of January back to my battalion, just to arrive in time for another bending, which we were doomed to receive; then we had a few days' peace, only occasionally getting shells over us. It was at this time I had rheumatism again, but I stuck it out until at last I got so feverish that I had such a cough that I could stand no longer, so I reluctantly lowered the flag, and on doctor's orders, I was immediately admitted to the hospital. Now I have got leave of absence, but I shall soon have to go back again. After what I have gone through, I can't say I'm bursting with the idea of getting back, but it is my duty to go, and I shall go with a good heart. I am enclosing two buttons off my great coat, which have been blood-stained since the beginning of August, which I want you to accept as souvenirs. Love to the dear kiddies and yourself, with kind regards to Will. Your loving brother, CLARENCE.

"WHAT WOULD YOU DO
IF GERMAN CAME?"
SOCIALIST IS ASKED

Soldier Differs With Organizer Regarding Need of War, At "Soap-Box" Meeting.

London Socialists held a "soap-box meeting" on the market square last night. Harry Wilson, of Toronto, Dominion organizer for the Social Democratic party of Canada, speaking on economic and labor questions.

Some interruption ensued when the speaker entered into a general denunciation of war, holding that it was always in the interest of the ruling or capitalist classes, and never involved workers of any country involved.

Workers would you do if the Germans came over here?" asked several members in the audience. A number of soldiers who were present also expressed their disagreement with the speaker's arguments.

CHILD BURIED.
The funeral of Margery Perkins, only child of Mr. and Mrs. Clarence Perkins, lot 45, concession 8, London Township, was held yesterday afternoon at Siloam Cemetery and was largely attended. Services were conducted at the house by Rev. Mr. Wainwright, at 1:30 o'clock. The pallbearers were John Ardell, Mosley Harding, Harold Guest and Elmer Harding.

HALF OFF IS SATURDAY'S PRICE- MAKING ON 20 LADIES' SUITS

SMALLMAN'S INGRAM

IS A BAZON PERSON IN COURT WARREN IN COURT WARREN

Ready to Fight and Said She'd
Like to Bayonet One
Witness.

HOUSE AN AWFUL PLACE

Raid of Police Brings Belligerent Character Before
Squire.

"Up against it this time, but I'm not afraid. I make a good soldier. I put on a uniform, too, and fight," declared Annie Warren, a buxom woman, who appeared in the court today for having too noisy a home out near the Roman Catholic Cemetery. She was sent to jail for three months by Squire Chittick on charges of keeping a disorderly house and house of ill-fame.

"I'd bayonet you right between the shoulders, if I were a soldier," she shouted at one of the witnesses, who testified that as many as 30 men, mostly soldiers, had been seen going in and out of her house in one day. Profanity, drunken brawls, and quarrels were frequent, neighbors who appeared as witnesses said.

Soldiers Didn't Come.
"There were to be some soldiers here this morning to see I didn't get the worst of it, but they haven't shown up," Mrs. Warren remarked.

"That shows how true they are to you," the magistrate said. "Do you wish to be sworn?" She didn't know what that meant.

Mrs. Warren said her neighbors were unkind to her. "They wouldn't even give me some water when I asked them," she said. The caretaker of the cemetery, Pat Gleason, who was one of the witnesses, and who declared that the house was a nuisance to the entire neighborhood, explained that he had refused the prisoner water because, he said, she was not a fit character to come into his premises.

Has a Friend There.
"Why have a friend buried in the cemetery?" Mrs. Warren told him reprovingly. The soldiers she said used to drop in to play and organize. Two girls had even been there, and they were both drunk, so she threw them out.

"Oh, I don't want to hear any more of your troubles," she said with a toss of her head, to the magistrate, who had not spoken for fifteen minutes. "Don't think I'm afraid to go to jail, though." Early next week the jail authorities will have a physician examine Mrs. Warren in order to determine her mental status. During her trial this morning she broke out frequently with audible remarks, about mind readers and millionaires. One drink of gin, she declared, sent her raving and crazy.

(Continued From Page One)

HOPES OF CITY

was supplied by the parents and collected at the various schools before-hand. The supply for each class was kept in a separate box, and in this way anything in the nature of confusion was avoided. Good things had been provided in such quantities that it seemed impossible that the youngsters could eat it all. But the appetite of a boy or girl is wonderful, and they polished off the pies, sandwiches, cake, milk and minerals in a way to make a dyspeptic green with envy.

Aldermen in Battle.
And how the kiddies enjoyed themselves! So did the parents, the teachers, the trustees, and the quantities of whom were present to lend what assistance they could. The grown-ups became children again and entered into the fun as heartily as the youngsters.

The children apparently were impatient to get to the races, and played ball, climbed trees and generally ran wild with an abandon possible only to healthy young animals. Of course, they were not to be allowed to do that, but what does that matter? They will have had a glorious day of fun and tomorrow is Saturday and a no-school day.

RECEIVED NO ANSWER
WHEN SHE VOLUNTEERED
TO SERVE AS NURSE

For This Reason Miss Thom Went With
Chicago Party.

Miss Elizabeth Thom, of Chicago, daughter of Mr. and Mrs. John L. Thom, 129 Wellington street, who is going with Dr. Murphy's party of nurses and doctors from the Illinois city for service at the front with the British, writing to her parents, stated that she first volunteered with the Canadian authorities, and tells why she is going under the Stars and Stripes.

Miss Thom wrote to Ottawa some time ago, offering her services for Red Cross work, and received a reply, thanking her for the offer and telling her to write to London. Miss Thom did so, and never received a reply. This she thinks was regrettable, especially when she was anxious to serve under the flag of her native land.

HAUNT LIBRARY

Old Country People Pore Over Lists
for Friends.

The public library is one of the busiest spots in the city these days, and the war, according to Librarian Charles Swagley, of this city, has made it responsible for the extra number of people visiting that institution.

Many of the former old country residents, who now reside here and in the surrounding country, visit the library daily to look over the English papers to see if any of their friends or relatives back home, who have enlisted, are mentioned in the casualty lists.

At a meeting of the library board last night the members decided to reduce the fine of keeping books past the time of return to one penny. The fee of 5 cents for borrowers has also been done away with.

MORE JITNEYS

Another Line To Be In Operation Saturday.

London's second jitney company will commence operations on Saturday, June 5, according to the London Standard, and the company will operate a number of autos. It is planned to give a special service to and from Wolsley Barracks, and also to Springfield on Sundays. The company will be known as the Wolsley Jitney Company. It will charge the same rates as the other jitney firm—six tickets for a quarter.

PORTUGAL NEXT

Press Demands That Diplomatic Relations With Germany Be Severed.

Lisbon, via Paris, June 4.—Protesting vehemently against the sinking of two Portuguese ships by German submarines, the press of Portugal demands that the Government immediately sever diplomatic relations with Germany.

18TH BATTALION ON KINGHARD AT SKEPPY DRILL

Practice Under Channel Forts
Built in Days of
Napoleon.

SING "SOUR APPLE TREE"

Kentish Villagers Know Cana-
dians Have Fixed Purpose
Under Cheery Manner.

Pte. Fred Young, of the Stretcher-Bearer Section, 18th Battalion, and one of the most popular Londoners who left with the second contingent, has written another letter to the Advertiser under the date of May 22. It is as follows:

Dear Friend,—Since I wrote you last things have kept moving in merry England. The street car strike in London, the condemnation of the German Zeppelin at Folkestone aroused the interest of the boys in camp. The news of Italy's intervention has created national approval, and today English newspapers are full of the railroad tragedy at Gretna Green.

At Skepp's Drill.
The boys in camp have got right into harness again. Musketry practice was the order for last week, and 6 a.m. found the boys on the march every morning, bound for the targets on the English Channel, right under the shadow of forts built in Napoleon's time. For two days we had a brand of washing that made Noah famous, but the schedule for target practice must have been framed by the Medes and Persians, for it changed at us. To see the boys marching home from the ranges in the pouring rain, and hear them blithely singing "We'll hang old Bill the Kaiser from a tree," was a sight to see.

The arrival of the 18th (Montreal) Battalion, about midnight on Thursday, with their brass band playing their into camp, caused an impromptu muster parade of the 18th, that would never have passed the censor at a moving-picture film. Disbale is right.

The Toronto regiments haven't arrived yet.

Visited Sir M. "Bill" Chivas.
I visited Sir M. "Bill" Chivas in a hospital near here. Lord Markham has placed his beautiful home at the disposal of the Red Cross.

It is one of the prettiest spots in England. Bill says he's right in clover. He has a comrade bandman in the Seventh Band before the war. He "swapped" news of the front for home news. He is badly wounded, in the right leg and chest, but bright and cheerful as ever. Neither shrapnel nor "frustration" can get Bill's goat.

We certainly appreciate the regular appearance of the "Tiger." They all say you might tell us of some of our friends who inquire that mail addressed to 18th Battalion, London, England, will be forwarded to us, even after we cross the channel.

The Canadian mail was four days late last week, and it received the welcome of a long-lost brother. Yours as ever, FRED YOUNG.

KEEP BASEMENT CLEAN

Board of Control Disapproves of Ren-
dering Lard There.

The board of control at its meeting today expressed its decided disapproval of tenants who foul the basement of the market house by rendering lard and in other ways. The members were unanimously of the opinion that the basement must be kept clean and will take steps to see that it is.

The board decided to hold Connolly, Agnew & Co., of Toronto, to the terms of their contract for sections two and four of the new East End sewers. The Toronto firm wish to change the contract now and the members instructed the city clerk to wire them at once that no change would be allowed.

The city holds a marked check and is protected in every way.

A recommendation of Engineer Chipman that section 2 of the sewer, which runs along Dundas street east from Egerton, be proceeded with as a local improvement, was adopted and tenders will be advertised for it.

A tender of James Vano of New Hamburg for repairing the Ridout street bridge at \$750, was accepted upon recommendation of the engineer.

The Controller, Rose, urged the acceptance of Homer Smith, a local man, at \$536. The engineer stated that Mr. Vance had had a good deal of experience in bridge work and that Mr. Smith had none and would expect him to supervise the job.

The board will run the present office occupied by the electrical inspector and his assistants to the Government for \$100 a year as that department passes shortly from city to provincial control.

The Western Fair board's request for payment of insurance money for the grandstand was denied, the board decided to make payments to the board as it needs them.

HOMER BEACH LILLEY IN HEAVY BATTALION FIGHTS WOUNDED

But He Is Still "Better Off
Than a Million Dead
Men."

GERMANS MOWED DOWN

Canadian Boys Made Huns
Pay Dearly for Slight
Advantage.

Homer Beach Lilley, son of Frank Lilley, manager of the Eagle Pencil Company, of New York City, and a grandson of Mr. and Mrs. Charles Lilley, has been wounded at the front. Pte. Lilley, who is 21 years of age, was at Port Arthur working with an engineering party when the war broke out, and enlisted. He was transferred to the 8th Battalion at Winnipeg.

A letter recently received by his father, who is a native Londoner, and forwarded to the young soldier's grandparents, is as follows:

About midnight on Wednesday, the German heavy artillery began a terrific cannonade, our guns answered, and the whole line, and in less than a half-hour guns were booming along a front of ten miles from Zonnebeke to Lisserne. All night long the firing raged.

On Thursday, the Germans made a wicked attack on our line, and with the aid of gas bombs gained a temporary advantage, but they paid dearly for it. We took a stand at St. Julien, just west of the Haanebeek stream, and believe me, we gave them "hell."

They were mowed down by our infantry fire, which was supported by a half of shrapnel from our artillery, and the result was a brilliant success. The German line was covered with German corpses. The sight of their infantry creeping across the open space in front of the trenches in a brilliant sunshine, with hundreds of shells bursting overhead, and a murderous hail of bullets all around, was impressive, to say the least.

The bursting of the big shells terrified you at first. They make enormous pits in the ground when they strike, and come through the air with the roar of an express train, but in time you get used to it, and laugh at them. We held them on that day, and the next morning advanced and gained some of the lost ground.

Shoots Left-Handed.
It was in this engagement that I got my wound. I was in the left hand and elbow, which was a matter of commission, as I shoot left-handed.

Altogether, we were about thirty days in the trenches, and in the engagement described above we were fighting about sixty hours, and slept fifteen. Our losses were heavy, but we inflicted considerable loss on the Germans. They must have lost close upon 300 men in three days, from Poelcapelle to St. Julien, and double that at other points, because the French and British were so extreme left, and the British to our right, and all had terrific battles, and made good gains; but they dug into the trenches of the fellows pretty hard.

The German reinforcements for the attacks on Steenstraete, Pilkem, and St. Julien, were very strong. The troops were brought from bodies of German forces encircled in the rear of their advanced trenches, and from other fields of battle. Their dash at our front certainly was courageous. This battle will no doubt be one of the heroic incidents of the war.

Must Fall Back.
There is every indication now that it will only be a matter of a short time when the Germans will be compelled to fall back all along the line in Flanders and Belgium; but don't think the war is over. There is a lot of hard fighting ahead of us yet. Our men will have a respite, until the moment comes for them to move again.

My eyes were badly affected by the gas fumes, and they say I will have to wear glasses when I return to the front. Am at the Base Hospital in France. Address as before, adding "Base Hospital, France." Tell mamma not to worry. I am a better off than a million dead men. Fondest love to all.

News of Men in Training For Great War

WESTERN ONTARIO WILL RAISE ANOTHER BATTERY FOR OVERSEAS SERVICE

Authority Granted for Mobilization of 39th Field Artillery Unit in This Military Division—No Officers or Training Grounds Yet Announced.

As intimated in The Advertiser some days ago, another Field Battery will be raised in this district for overseas service. Col. L. W. Shannon, divisional officer commanding, announced today that immediate recruiting would start for the 39th Field Artillery in this division.

This 25th Battery will be the third to have been raised in Military Division No. 1 since the outbreak of the war. The 8th (London) Battery (now known as the 12th) was mobilized for the 1st Contingent. The 16th was raised here for the second, afterwards, when the officers elected a very short time to disband, and is now on the way to the front, while the 19th will be for the 3rd Contingent.

Just where the new battery will be mobilized and trained is something that has not yet been announced. It is expected, however, that it will be mobilized in this city, and on completion taken to Petawawa for training. No military ranges are available here, and it is hardly likely that it will be kept in the division for any longer time than is necessary for the mobilization purpose.

Is it understood that Dr. Fairbank, of Petawawa, will be one of the senior officers of the new battery. Col. Shannon, while he has the officers practically selected, will make no announcement as to how they will be yet. This announcement will, however, be made, it is expected, in the course of a few days, when the actual recruiting orders are issued.

As mentioned before, the artillery is a popular branch of the service, and little difficulty is anticipated in securing good men to fill the ranks.

Plans for the creation of a brass band for the 39th Battalion took another step forward at noon yesterday, when the committee elected a special committee, to complete the arrangements for one. The band committee, which will be composed of the following: Major Hanes, Capt. Muir and Cowell and Lieut. Duck and Hill, will go immediately to work, and it is expected that a band will be organized in a very short time. Prices have already been secured for instruments and the selection of a bandmaster has been under consideration, so the preliminaries are practically over.

COURSE OF LECTURES
Officers of 33rd and 34th to Get Special Instruction.

A course of special lectures for all officers of the 33rd and 34th Battalions has been ordered. These lectures will be delivered in the lecture-hall of the 34th, and will be held on Tuesday and Friday nights of each week. It is compulsory for all officers to attend.

URGED TO QUALIFY
Officers Requested to Attend Provisional Infantry School.

Today's divisional orders specially urge all unqualified officers and those in line for promotion to attend the special provisional school of instruction which will open at Wolsley Barracks on Wednesday of next week. The first school will be for provisional lieutenants to qualify for their rank, while a school for captains and field officers' certificates will open at the same time.

FIELD DAY WEDNESDAY
Outpost Work Will Be Carried Out in Tactical Area.

Tactical manoeuvres in which all regiments will participate will be held on Wednesday next, when an outpost company will be worked out on the tactical grounds along the north branch of the river. The plans for this tactical manoeuvre have not yet been completed by Lieut.-Col. H. D. Smith, general staff officer of the headquarters staff, but will be announced shortly.

THE DIARY OF MARS
Having captured Pzemysl, the Austro-German forces are maintaining their offensive with unusual speed along the Galician front. The troops which broke through the Russian line at Stry are pushing northward rapidly. A statement from the Russian war office contains the admission that in the region beyond the Dniester River the Austro-German army has advanced, along the Tienietza-Stry front.

A Petrograd dispatch states that the German force which captured Libau, in Russia, on the Baltic, some time ago, has been isolated. Russian forces are said to have cut off the Germans from their base at Memel, East Prussia, while other Russian troops have approached from the north and south, so that the only communication with Libau is now by sea.

Few details are available of the development of the Italian campaign. A statement from Gen. Cadorna, Italian chief-of-staff, says the preliminary movements are continuing as along the frontier, developing to the advantage of the Italians. The Vienna war office states that the Italians have bombarded Austrian fortifications at several points without success.

Woodrow Wilson, Taxidermist
The answer is that of the president's "health," said Dr. Carey T. Grayson, U.S.N., and squirrel as he will to escape the praise, Dr. Grayson himself must take credit for the fact that it was his duty, not alone to himself, but to the nation as a whole, to take the most perfect care possible of his health.

"And today, President Wilson realizes this. Often when it would be much easier for him to finish the press of work which surrounds him, he forces himself to lay aside his labors and take the exercise in the open upon which his health and hence his greatest efficiency in the service of his country depend."

"On Saturdays he invariably takes a holiday. We have a standing appointment for breakfast together, and then we start out for a long drive or a game of golf—generally it is golf. My great effort is to draw the president's mind completely from the heavy responsibility of his office, and with the mental concentration necessary to play a fair game at golf, and the anecdotes we interchange, the effort is usually successful."

The president's famous game of golf on the Saturday the Lusitania horror broke on an outraged world illustrates his systematic control in the face of the most appalling of problems.

"The president's routine on week days," Dr. Grayson continued, "is almost as inviolable. He breakfasts at eight, works until noon, and after luncheon he and I go out to the links for golf. Three solid hours nearly every day in the week are thus given to exercise in the open air. It is not easy for the president to spare this time, but its results are shown in Mr. Wilson's present state of health."

"On his return from the links the president accomplishes an hour's work before dinner, and he is at his desk again in the evening, but is invariably in bed at 10 and has nine hours' sleep."

To this regularity of the president's life, Dr. Grayson attributes largely his physical ability to stand the great strain of his office.

For two years Dr. Grayson has been President Wilson's inseparable companion. Yet with astonishing success he has kept himself completely out of the public eye.

Dr. Grayson is the only man from whom the President of the United States takes orders, and he is just 36.

King of Norway in Heart to Heart Talk With Mary Boyle O'Reilly Gives Views on What Neutral Nations Should Do.

WHAT HAAKON II. THINKS ABOUT HYPHENATED AMERICANS.

ADVERTISER CORRESPONDENT IS GRANTED FIRST INTERVIEW BY NORWAY'S RULER SINCE BEGINNING OF WAR—LOOKS AND TALKS LIKE AMERICAN BUSINESS MAN.

(While in Christiania, Mary Boyle O'Reilly, The Advertiser's correspondent, was presented to the King of Norway, by His Excellency Albert G. Schmedman, U.S. minister to Norway.—Editor.)

BY MARY BOYLE O'REILLY.

Christiania, Norway, May 18.—It is ten years since Norway broke the union with Sweden and invited young Charles of Denmark to occupy the Norwegian throne.

Democratic and businesslike, the Danish prince entered into negotiations with his potential subjects.

He told them that being a constitutional king was no job for a healthy, ambitious young man. In his breezy way, he told them he thought they ought to assure him of a pension in case they failed to agree, adding that he would turn the job over to his son when he was 30 years old.

The sailor prince of a sea-going people came to Christiania with a fixed purpose. He would make himself the far-sighted and efficient managing director of Norway-on-the-Seas, the greatest maritime organization upon the earth.

HIS MAJESTY HAAKON II. SECOND GRANTED ME AN AUDIENCE IN HIS STUDY AT THE ROYAL PALACE, THE AMERICAN MINISTER, HIS EXCELLENCY ALBERT G. SCHMEDMAN, PRESENTING ME TWO HOURS' TALK.

The great room is simple and businesslike. The only note of luxury is a semi-circle of silver framed photographs of half the crowned heads of Europe. Above all stood a bronze bust of Edward VII. of England, father of the Norwegian queen.

In front of the big fireplace stood a great revolving globe and nearby the king's big armchair and the little chair of the boy who must some day be king.

His majesty smiled and explained that Olaf, his son, prefers to study geography with his father instead of with tutors, because both father and son are sailors at heart.

Then the king proceeded to talk to me. Young, slender and very tall, he sat before his desk table as matter-of-factly as a successful American businessman. He spoke to me in fluent English, smiling occasionally and lapsing into American slang. He told me that he thought the

United States or any other country ought to bill contraband of war honestly, to Petrograd or any other place. That then it would be up to the enemy to protest or stop the transportation of goods. But for the United States or any other country to bill goods to Bergen, Norway, from Bergen to the frontier and then from the frontier to points in countries at war, he thought was not true neutrality.

As the king talked I was busy thinking of his majesty's frank expressions regarding hyphenated Americans. His

admonition on the duties of naturalized Americans made last July at the opening of the Christiania exposition:

"As Norwegians who have taken the oath of American citizenship you are bound by a double tie. You are bound to the United States of America and to the United States of America."

We spoke of the use of neutral flags at sea, and his majesty said that he considered true neutrality is in the

King of Norway in Heart to Heart Talk With Mary Boyle O'Reilly Gives Views on What Neutral Nations Should Do.

WHAT HAAKON II. THINKS ABOUT HYPHENATED AMERICANS.

ADVERTISER CORRESPONDENT IS GRANTED FIRST INTERVIEW BY NORWAY'S RULER SINCE BEGINNING OF WAR—LOOKS AND TALKS LIKE AMERICAN BUSINESS MAN.

(While in Christiania, Mary Boyle O'Reilly, The Advertiser's correspondent, was presented to the King of Norway, by His Excellency Albert G. Schmedman, U.S. minister to Norway.—Editor.)

BY MARY BOYLE O'REILLY.

Christiania, Norway, May 18.—It is ten years since Norway broke the union with Sweden and invited young Charles of Denmark to occupy the Norwegian throne.

Democratic and businesslike, the Danish prince entered into negotiations with his potential subjects.

He told them that being a constitutional king was no job for a healthy, ambitious young man. In his breezy way, he told them he thought they ought to assure him of a pension in case they failed to agree, adding that he would turn the job over to his son when he was 30 years old.

The sailor prince of a sea-going people came to Christiania with a fixed purpose. He would make himself the far-sighted and efficient managing director of Norway-on-the-Seas, the greatest maritime organization upon the earth.

HIS MAJESTY HAAKON II. SECOND GRANTED ME AN AUDIENCE IN HIS STUDY AT THE ROYAL PALACE, THE AMERICAN MINISTER, HIS EXCELLENCY ALBERT G. SCHMEDMAN, PRESENTING ME TWO HOURS' TALK.

The great room is simple and businesslike. The only note of luxury is a semi-circle of silver framed photographs of half the crowned heads of Europe. Above all stood a bronze bust of Edward VII. of England, father of the Norwegian queen.

In front of the big fireplace stood a great revolving globe and nearby the king's big armchair and the little chair of the boy who must some day be king.

His majesty smiled and explained that Olaf, his son, prefers to study geography with his father instead of with tutors, because both father and son are sailors at heart.

Then the king proceeded to talk to me. Young, slender and very tall, he sat before his desk table as matter-of-factly as a successful American businessman. He spoke to me in fluent English, smiling occasionally and lapsing into American slang. He told me that he thought the

United States or any other country ought to bill contraband of war honestly, to Petrograd or any other place. That then it would be up to the enemy to protest or stop the transportation of goods. But for the United States or any other country to bill goods to Bergen, Norway, from Bergen to the frontier and then from the frontier to points in countries at war, he thought was not true neutrality.

As the king talked I was busy thinking of his majesty's frank expressions regarding hyphenated Americans. His

admonition on the duties of naturalized Americans made last July at the opening of the Christiania exposition:

"As Norwegians who have taken the oath of American citizenship you are bound by a double tie. You are bound to the United States of America and to the United States of America."

We spoke of the use of neutral flags at sea, and his majesty said that he considered true neutrality is in the

COMPLIMENTS WILSON

Says a Jingo at White House Would Have Plunged Country into War.

PHILADELPHIA, June 3.—"If we had had a jingo in the White House," said former President Taft in an address at

the commencement of Bryn Mawr College, today, "this country would now be at war with Germany."

"Instead," Mr. Taft said, "our chief executive is a man who appreciates his responsibility and realizes that, considering the temper of the people, a turn of his hand would plunge us into an international conflict."

DR. THOS. MANNING ELECTED PRESIDENT LONDON CONFERENCE

Rev. D. N. McCamus Is Runner-Up, and May Be Next Choice.

[Special to The Advertiser.] ST. MARYS, June 3.—Rev. Dr. Thomas Manning, pastor of Central Methodist Church, Stratford, was elected president of the London conference in succession to Rev. G. N. Hazen, London, at this afternoon's session and Rev. A. E. M. Thomson, Aylmer, was made secretary. Rev. D. N. McCamus, London, received the next highest vote to Dr. Manning in the balloting for president, and as it is regular that the runner up succeed to the presidency for the next conference, Rev. D. N. McCamus will likely have this honor in 1916.

Theological Students in War. Rev. Dr. Smythe, principal of Wesleyan Theological College, Montreal, addressed the conference this afternoon and made a report on the work that institution had done during the past year. Students, representative of nine Methodist conferences throughout Canada to the number of 92, had been in attendance. This was the greatest number since the college first began its work. Seven students had volunteered for active service with the Canadian contingents.

London Helps Education. Rev. Dr. J. W. Graham, secretary of education for the Methodist Church in Canada, made a splendid appeal for higher educational ideals among the people at large. London conference, he said, had gone beyond last year in its giving for educational work in the church. Sixty per cent. of the total amount received for educational purposes was used in assisting probationers in college, the rest being devoted to college sustenance. He made a strong appeal for more assistance for Victoria College.

Christianity and the War. The Kaiser and the German army was roundly condemned and the speaker insisted that Jesus Christ was the great power in the world today and not militarism or Prussianism. At all their works. He pleaded with his hearers to give Christ the first place in the educational scheme of things and thought also.

Congratulation for King. As today was the birthday of King George, upon recommendation of Rev. H. S. Douglass, of St. Thomas, which London conference and to have this forwarded to the King by cable, after this had been unanimously passed the conference members sang "God Save the King."

ART GALLERIES RECEIVE BULK OF BIG ESTATE. [Canadian Press.] Dublin, June 4.—It is announced that the bulk of the estate of Sir Hugh Lane, the wealthy Irish art expert, who was lost on the Lusitania, is bequeathed to galleries in Dublin and London. The principal items in the estate are the collections of paintings.

PLANS TO PERPETUATE NAMES OF THE FALLEN

Geographic Board of Canada Names Rivers After British Columbia Heroes.

OTTAWA, June 3.—Names of Canadian soldiers who have fallen at the front are being perpetuated by the Geographic Board of Canada. The north fork of the Fraser River, in British Columbia, has been renamed McGregor River, and creeks draining into it, J. J. Creek, Herick Creek and Captain Creek, in memory of Capt. J. Herick McGregor, 15th Battalion, killed at Ypres April 25.

The late Lieut. D. P. Bell-Irving's name is given to the north forks of the Naas River, in British Columbia. He was a Vancouver man who fell early in the Canadian fighting. The name of Pte. Philip Norton, a British Columbia man killed at Ypres April 24, is bestowed on a tributary of the Nation River in that province. It will be known as Philip Creek.

TOBACCO GROWERS WILL SEND TOBACCO

RIDGETOWN, June 3.—The patriotic women of Ridgetown and vicinity shipped yesterday to the Red Cross headquarters, at Toronto, to be forwarded to the soldiers at the front, 2 barrels and a box containing jams, jellies, maple sugar and maple syrup and a quantity of fruit cakes, also a bale containing 106 pairs of socks, 37 dozen handkerchiefs, 13 hospital shirts, 4 pairs of wristlets, 4 pieces linen and 1 flannel sheet.

DATES OF EXCURSIONS TO GUELPH O. A. C.

[Special to The Advertiser.] GUELPH, June 3.—The dates for the annual June excursions to the college have been announced. There has been a great falling off in these events year by year, and this year it is noticed that the excursions are fewer again than last year. This is largely accounted for by the work of the district representatives, who in a measure take the college to the farmers, and do not make it necessary to visit the college in person to get a good idea of the work carried on here. The dates that President Creelman has filled in up to date are as follows: Saturday, June 12.—Halton, West Huron, North Grey, West and North Bruce. Tuesday, June 15.—North and South West, Centre Grey. Wednesday, June 16.—Centre Simcoe, South Grey, North and South Bruce. Thursday, June 17.—East York, Peel and East Middlesex. Friday, June 18.—South Perth, West Simcoe, North and South Waterloo. Saturday, June 19.—Lincoln, Dufferin, South and West Bruce and East Huron.

SIX WOUNDED FROM WESTERN ONTARIO

WOUNDED. GUELPH.

Pte. W. M. Bolton, Strathcona Horse, (Enlisted Edmonton). TUPPERVILLE (Kent Co.). Pte. Robert B. Moulton (7th Battalion, formerly 30th). COLLINGWOOD. Pte. P. Van Kaughnet, between May 20-23 (13th Battalion). GUELPH. Pte. Walter Mitchell Molton, 13 Glasgow street, (Lord Strathcona Horse). PAQUETTE STA. (Essex). Pte. Robt. Earl Shue, 1st Battalion.

WIARTON. Pte. Clark Wright, 5th Battalion.

MISSING. MIDLAND. Pte. James Malnes (May 15, 4th Battalion).

MESSAGE TO SISTER, BROTHER IS WOUNDED.

GUELPH, June 3.—Miss Bolton, of 13 Glasgow street, has received the following wire from Ottawa: "Sincerely regret to inform you that 2489, Pte. Walter Mitchell Bolton, Lord Strathcona Horse, officially reported wounded."

It was just yesterday that Miss Bolton received a letter from Walter Bolton, written in France, telling his sister that he was well and had seen a number of the Guelph boys who were with the first contingent. He enlisted at Edmonton, having left this city after learning the jewelry business with Savage & Co.

WALKERTON SOLDIER HOME ON SICK LEAVE.

WALKERTON, June 3.—Findlay Russell, son of Robt. Russell, arrived on the late train from Shorncliffe Hospital on a three-months' sick leave. At the opening of the war Russell was in the West with the Saskatchewan Horse and went to Europe with the first contingent. He has been in the hospital for some time and will return on his convalescence. As Russell has not visited his parents for seven years, his unexpected visit was quite a surprise and will be much appreciated.

PTE. GEORGE IS THIRD PAISLEY MAN HIT.

PAISLEY, June 3.—Mr. and Mrs. T. H. George have been officially advised that their son, Pte. Thomas, has been wounded. He enlisted in Winnipeg and was with the 18th Battalion. Pte. Archibald McNeill, of the 48th Highlanders, son of Mr. and Mrs. D. McNeill, of Southampton, and formerly of Paisley, is reported wounded. Pte. John McLeod, also a Paisley boy, of the renowned Princess Patricia Regiment, reported wounded at the battle of Langemarck, is slowly recovering in a hospital in France.

CONSCRIPTION FOR ALL

Mrs. Pankhurst Would Have It Apply to Men and Women.

LONDON, June 3.—There was adopted at a mass meeting held in London this afternoon, under the chairmanship of Mrs. Emmeline Pankhurst, a resolution reading as follows: "That we men and women here assembled ask the Government to establish obligatory war service for both men and women."

NOT A MURDER VERDICT

Coroner Sees No Sense in Such Finding on Zeppelin Victims.

LONDON, June 3.—Contrary to the precedent set by other British coroners in dealing with the victims of German air raids, the Lusitania disaster, etc., a coroner sitting this afternoon at the third inquest held in connection with the recent Zeppelin air raid over London, declared he could not see that anything was gained by returning a verdict of murder. Consequently he instructed the jury to find "the deceased died from bombs dropped by hostile air craft."

STEAMER ARRIVALS.

Montreal, June 4.—Arrived: Steamers Westonby, from Glasgow; Miramichi, from Port Talbot; Caledonian, from Southampton.

HOW HE WON THE D. C.

Drake Went to Aid of Comrade With Bullet in Side.

MONTREAL, June 3.—Stretchers-bearer Reginald Harry Drake, who has been granted the D. C. medal, writing his parents here of the exploit for which he has been honored by the King, says: "Pte. George Poole Soady, of the 14th Battalion, had been 'bowled over' by a German sniper, and fell

about a hundred yards in front of the position where I was writing a letter to a friend in Montreal." The stretcher-bearer, accompanied by a companion named Gould, started out to bring him in, and both were hit with a bullet in his side. Drake went out and gave Soady first aid before he would consent to have his own wounds attended to. The brave effort to rescue Soady was futile, for he succumbed shortly after. Drake is nineteen years of age.

NATIONAL ANTHEM OPENS ASSEMBLY

Patriotism Marks Gathering
at Kingston—Missionaries
Enlist.

MISSIONARIES ENLIST

Half of Those in Eastern Field
Offer Themselves for the
War.

[Canadian Press.]

KINGSTON, June 4.—An expression of loyalty to King and Empire opened the second day's sessions of the general assembly of the Presbyterian Church, sitting as it did on the King's birthday. The National Anthem was heartily sung, and a prayer for King George was offered by Rev. Dr. Sedgwick.

The work of the church in home missions was the feature of the day's proceedings, the reports of both eastern and western sections being presented. The western section reported that in spite of the subscriptions to the Patriotic Fund and Red Cross work and the comparative failure of the crops in the west the amount received for 1914 was almost as much as the previous year. Despite this there is a heavy deficit, the expenditure for the year exceeding the receipts by \$137,651.

The reserve fund was drawn upon to the extent of \$30,000, thus showing a deficit of \$7,651. Thirty-two congregations were given augmentation status, of which eleven had been self-maintaining. Thirty-two new fields were added. Many student missionaries have offered their services to the board.

Half Missionaries Enlist.

The report of the eastern section which was presented by Rev. James Rose, of New Glasgow, stated that one half of the men on the mission fields had enlisted for the war and their influence was having a good effect. The year's operations were begun under favorable circumstances both as to financial resources and supplies of students. The expenditure for the year exceeded the receipts by \$368.

Dr. R. Dyke Shaw, representing the Presbyterian Alliance of the United Provinces, stated that the year's operations were begun under favorable circumstances both as to financial resources and supplies of students. The expenditure for the year exceeded the receipts by \$368.

Alta., Lieut. Douglas Gordon Allan,
Toronto, Major Arthur James E.
Kirkpatrick, Toronto.

FOURTH BATTALION.

WOUNDED—Pte. William Henry
Farr, Oakville, Ont. (shrapnel wound in
arm and hip), Pte. John Williams,
St. Catharines, Ont. (gunshot wound in
scalp).

MISSING—Pte. Budd Hall, Hawke-
stone, Ont. (seriously wounded),
Pte. Charles Edward Turner (former-
ly 12th), Campbellton, N.B. (seriously
wounded), Pte. James M. Macdonald,
Midland, Ont. (May 15), Pte. John J.
Flynn, Hamilton, Ont.

FIFTH BATTALION.

WOUNDED—Sgt. Robert Macpherson,
Stewart, Pte. Robert Macpherson,
Sgt. Charles Edward Turner (former-
ly 12th), Campbellton, N.B. (seriously
wounded), Pte. James M. Macdonald,
Midland, Ont. (May 15), Pte. John J.
Flynn, Hamilton, Ont.

SEVENTH BATTALION.

DIED OF WOUNDS—Sgt. Robert
Parker, Victoria, B.C. (gunshot wound in
thigh), Pte. Robert Macpherson,
Sgt. Charles Edward Turner (former-
ly 12th), Campbellton, N.B. (seriously
wounded), Pte. James M. Macdonald,
Midland, Ont. (May 15), Pte. John J.
Flynn, Hamilton, Ont.

EIGHTH BATTALION.

WOUNDED—Pte. Henry Harrison Mc-
Nally (formerly 12th Battalion), Clares-
holm, Alta., Pte. Edward Brown (former-
ly 32nd Battalion), Lloydminster,
Sask., Pte. Robert Montiel Cosh, P.O.
Drake, Sask., Pte. W. T. Fidler, Col-
linsville, Man.

TENTH BATTALION.

WOUNDED—Pte. Vernon Albert Bow-
man (formerly 32nd Battalion), Well-
ington, Ont., Pte. William Herbert Whit-
field (formerly 32nd Battalion), Bow
Island, Alta.

THIRTEENTH BATTALION.

KILLED IN ACTION—Corpl. Leonard
Munn (formerly 3rd and 4th Batta-
lions), Toronto, (between May 20 and
23), Pte. Peter Brodie, Amherst,
Cumberland, N.S.

DIED OF WOUNDS—Pte. Dun- can Ferguson, Shanty, Ont.

WOUNDED—Sgt. Edwin William
Clark, Montreal, (May 20-23), Pte. Wil-
liam Evans, Vancouver, B.C., Pte. Wil-
liam John Williams, Montreal, (May 20-
23), Pte. Frederick John Thornton,
Halifax, N.S. (May 20-23), Pte. John D.
Tipton, Montreal, (May 20-23), Pte.
Fred Goucher (formerly 17th Battalion),
Halifax, N.S., Pte. Albert Sheldon,
Fredericton, N.B., Pte. P. Van Kough-
net, Collingwood, Ont., Pte. George Jones,
Cranbrook, B.C., Pte. George Peter Cook,

ING BETWEEN APRIL 22 AND 2

ANY BACK PREVENTS VICTORY

Lloyd George Says It Has Delayed Allies in Western Field.

MORE WEAPONS NEEDED

If Munitions Had Been Plentiful Germans Would Have Been Smashed.

[Canadian Press.] MANCHESTER, June 3.—(10:30 p.m.)—Declaring that the German victory in Gallia was due to an overwhelming superiority in equipment and that if the Allies in the west had been as well equipped the Germans would have been driven from France and Belgium, David Lloyd George, the new minister of munitions, made a stirring appeal tonight to employers and workmen to supply the British armies with the necessary munitions.

The speech was delivered before employers in the engineering trades and trade unionists. Mr. Lloyd George, who had previously lunched at the Clarendon Club, received a remarkable ovation from the people of Manchester, which was in striking contrast to the manner in which he had been received in this city on previous visits of a political nature, particularly when he appeared at the time of the Boer war as an opponent of that struggle.

"I come," he said, "as an emissary of state to carry the most urgent message ever told to the ears of a Manchester audience. Our country is fighting for its life, for the liberation of Europe and for what we do, upon what it is prepared to sacrifice, depends the issue. It depends more upon the munitions and men equipped in running workshops than upon any part of the community, whether Great Britain will emerge from this colossal struggle, beaten, humiliated, stripped of power, honor and influence, and a mere bond slave of cruel military tyranny, or whether it will come out triumphant, free and more powerful than ever for good in the affairs of men.

The plain truth, unless you know it, you cannot be expected to make sacrifices. Our Russian allies have suffered a severe setback. The Germans have achieved a great success, not because of superior valour of their soldiers or strategy of their generals. The German triumph is due entirely to superior equipment, an overwhelming superiority of shot and shell and munitions and equipment. It was a battle won by the use of their skilled industries, and especially by the superior organization of German workshops.

"Two hundred thousand shells were concentrated in a single hour on the heads of the gallant Russians. Had we been in a position to apply the same process to the Germans on our front, the Germans would have been turned out of France and driven half way across the devastated plain of Flanders. They would have been well out of the country, they would have been tortured and tormented with dastardly cruelty. More than that, we should have actually penetrated Germany.

More Men Than Weapons. "For the moment, we have more than plenty of men for the equipment available. More men than we can use, and we want the workshops to equip them with weapons. The state now needs the help of all, and I am perfectly certain that British engineers can do what the French engineers have already done.

"In France, private firms have given the state assistance on a scale which is beyond computation. The last French victories were largely attributable to the private workshops of France.

"I am here to ask you to help us to equip our armies with the means for breaking through the German lines in front of our gallant troops, and I know you will do it."

Compulsory Service. Speaking of conscription, he said: "To introduce conscription as an important element in organizing the nation's resources of skilled industry and trade, does not necessarily mean conscription in the ordinary sense of the term. Compulsory methods of raising to fight Great Britain's battles abroad. If the necessity arose, I am certain that no man of any party would protest.

"We won our liberties in this land on more than one occasion by compulsory service. France secured the liberty she won in the revolution by compulsory service. The great republic to the west won its independence and saved its national existence by compulsory service, and two of the greatest democratic countries in Europe to-day, France and Italy, are defending their nations by means of compulsory service.

"It has been the greatest weapon in the hands of the democracy many times, for the saving and preservation of freedom. All the same, it would be a great mistake to resort to it until it was absolutely necessary."

Compulsion for Work. After referring to what has been done in France and Italy, Mr. Lloyd George said it might be dangerous to depend entirely upon the continuance of present conditions.

"We have enlisted men," he said, "who would have rendered better service at home. We needed compulsion, not to send men to the front, but to get them to work."

Blood Thin and Weak Too Nervous to Sleep

Here Is Another Case in Which Dr. Chase's Nerve Food Proved Its Great Reconstructive Influence.

"Thin blood and exhausted nerves usually go together. A considerable portion of the blood is constantly consumed in keeping up the vitality of the nervous system. Once the blood is deficient, either in quantity or quality, the nerves suffer and bodily pains result. Headache, nervousness, or a sick pain are the indications in some cases, while in others weakness, nervousness, irritability and sleeplessness are the most marked symptoms."

Mrs. E. F. Catlin, Elm Springs, Ark., writes: "For years I was troubled with nervousness, and could not sleep nights. Also had a sick color as a result of the blood being thin and weak. My husband saw Dr. Chase's Nerve Food advertised, and got some for me, and wanted me to try it. I did so, and it has proven a wonderful help to me. By enriching the blood it has restored color to my face and has built up the nervous system so that I rest and sleep well. It is a pleasure to recommend so excellent a medicine."

Dr. Chase's Nerve Food goes direct to the formation of pure, rich blood, means of increasing the quality as well as the quantity of blood in the human system. The feeble, wasted nerves are restored, and through the nervous system new vigor and energy is imparted to every organ a member of the body.

You will be surprised at the way this food cure puts new strength and vitality into the weakened body. And the best of it is that the benefits are both thorough and lasting. In this the Nerve Food differs from mere stimulating medicines which give rise to false hope and when discontinued leave you as weak as before. Put this great restorative treatment to the test and prove its merits in your own case. 50 cents a box, 6 for \$2.50. All dealers or Edmondson, Bates & Co., Limited, Toronto.

BEGINS CAMPAIGN TO END THE WAR

LLOYD GEORGE.

prevent them from going to the front. We have been endeavoring to conduct a war against the most formidable antagonist that has ever attacked human freedom with the ordinary untrained weapons of peace. You may as well send our men to face shrapnel and howitzers, armed with picks and shovels, as merely to go through the war with the industrial, organized, equipped and armed with ordinary shifts and experiments of peace.

In closing his appeal to the employers and men the minister said: "Stand by your country now that it has risked its honor, its life, in the most chivalrous cause for which any nation ever went into battle."

The meeting passed a resolution pledging to support in every possible way the efforts of the Minister of Munitions to increase the output of war materials.

TRAWLERS SUNK BY GERMAN SUBMARINE

Several of Crew Killed or Wounded by Shell Fire.

LONDON, June 4.—(1:53 a.m.)—Two Welsh trawlers have been sunk by German submarines—the *Horrid* of Cardiff and the *Victoria* of Milford. The *Horrid* was sent to the bottom about 150 miles south of Lundy Island and the *Victoria*, 135 miles from St. Ann's Head.

Several men on board the *Victoria* were killed by shells from the submarine. The remainder of the ship's company and the crew of the *Horrid* have been landed at Milford.

Huddleston, a member of the crew of the *Victoria*, was seriously injured. In an interview at Milford, he said the submarine was after the trawler. A boy of thirteen was put on the bridge and the member of the crew proceeded to lash a life raft together for use in case of necessity. Another shot, according to Huddleston, struck the bridge killing the boy. Then the skipper came forward and was talking to a member of the crew when a shell came and killed both of them.

Blew Off Legs of Mate. Huddleston says that he was talking a cup of water to a wounded man when a piece of shrapnel struck him on the arm and head and still another shell blew off the legs of the mate of the ship and injured him in other places, breaking both legs of one of them.

The men then scrambled upon the raft and the submarine coming up pulled them down. The officer of the trawler, according to Huddleston, told him that if they had stopped they would not have been fired on. The fishermen were kept about the submarine all night and the following morning were put aboard a small boat belonging to another trawler. The submarine crew then boarded the *Victoria* and set her on fire with a bomb.

Huddleston says he and his companions were treated well aboard the submarine. They were given an order of Four Le Merites, were granted the Oak Leaf decoration to that order.

TILLSONBURG MINISTER IS ELECTED PRESIDENT

HAMILTON, June 3.—At the general session of the Hamilton Methodist conference which opened today, Rev. J. H. McCall, of Tillsonburg, was elected president.

GERMANS DECORATED

Kaiser Scatters Orders Among Generals in East.

[Canadian Press.] Berlin, June 4.—Via London.—General Alexander Linsingen, who commanded the forces which captured Smyrna, has been decorated with the order of Pour Le Merite, while many other officers active in the Gallia campaign have given similar or lesser honors. The Pour Le Merite is the most certain honor in Germany.

Generals Von Emmich and Von Der Marwitz, who were present at the Four Le Merite, were granted the Oak Leaf decoration to that order.

NORWEGIAN STEAMER TORPEDOED AND SUNK

Vessel of 2,805 Tons Sent to Bottom—Crew Land.

LONDON, June 3.—(1:10 p.m.)—The Norwegian steamer *Cubana* was torpedoed and sunk yesterday off the Flandrian Islands. The crew was landed in the Hebrides, a group of islands off the west coast of Scotland.

The *Cubana* was formerly the British steamship *Strathmore*. She was of 2,805 tons net register and built at Greenock in 1912. She was 375 feet long, fifty-two feet beam and twenty-five feet deep.

GERMANS DESTROY TOWER OF CHURCH IN YPRES

BERLIN, June 3.—(Via London, 4:19 p.m.)—The army headquarters gave out today the following statement: "A battle developed in the village of Hooze, three kilometers east of Ypres, which had been strongly fortified by the British. The battle took a course favorable for us."

"Yesterday we found ourselves obliged to destroy the tower of the Church of St. Martin in Ypres, on which artillery observation posts had been discovered."

AIRMEN RAIN SHELLS ON HEADQUARTERS OF CROWN PRINCE

[Canadian Press.] PARIS, June 3.—(10:30 p.m.)—The headquarters of the German Crown Prince were bombarded this morning by French aviators. Twenty-nine machines dropped 178 shells and several thousand darts. Many of the shells are said to have reached the mark. This announcement was made in the official statement issued by the war office tonight. The text is as follows:

"Twenty-nine French aeroplanes between 4 and 5 o'clock this morning bombarded the headquarters of the Imperial Crown Prince. They dropped 178 shells, many of which reached the mark, and several thousand darts. "All the machines were subjected to a severe cannonade, but they all returned unscathed."

"There is nothing else to report except new progress of our troops in the 'Labyrinth,' to the southeast of Neuville St. Vaast."

STEEL TRUST WINS LONG FOUGHT CASE

Federal Court Says It Need Not Dissolve—Foreign Trade Lawful.

[Canadian Press.] TRENTON, N. J., June 2.—The decision in the United States Steel Corporation case was filed in the United States district court here this afternoon and the decision held that the corporation should not be dissolved. The principal points in the decision are: It refuses to issue an injunction. The opinions, two in number, are largely a discussion of whether the Steel Corporation monopolized the steel trade or dealt unfairly with competitors or purchasers.

The opinion says: "This case, a proceeding under the Sherman anti-trust law, is one largely of business fact."

Suit Begun in 1911. The suit against the United States Steel Corporation was filed at Trenton, N. J., October 26, 1911, during the Taft administration. It was started by George W. Wickersham, who was attorney-general at the time. Prior to the filing of the action, the corporation had been under investigation several times. The federal bureau of corporations under different administrations delved into the operations of the concern and a Congressional committee, headed by Representative A. O. Stanley, of Kentucky, investigated the alleged trust. In preparing the case for action the bureau had collected more than 15,000 printed pages. There were more than 1,750 pages of printed arguments, aside from the voluminous answers filed by the many defendants, and the oral arguments filled more than 1,800 typewritten pages.

PRO-GERMAN RIOT IN ROUMANIAN CAPITAL

[Canadian Press.] London, June 4.—Telegraphing from Bucharest, the Daily Telegraph's correspondent says:

"The police have been compelled to interfere to quell a pro-German demonstration in the streets and at the headquarters of the Conservative party. The Conservative party congress was meeting in the streets and at the headquarters of the Conservative party. The Conservative party congress was meeting in the streets and at the headquarters of the Conservative party. The Conservative party congress was meeting in the streets and at the headquarters of the Conservative party."

BRANTFORD RELATIVES SEEKING PARTICULARS OF CRUCIFIXION CASE

Feel That Victim of German Inhumanity Is Sgt. Elliott.

[Special to The Advertiser.] BRANTFORD, June 3.—It now appears that a British medical man, who was supposedly crucified by the Germans, is in fact a victim of a cruel hoax. The victim, Sgt. Elliott, is the only man of the Army Medical Corps to be taken to the city that it might be and his relatives are decidedly pessimistic, inasmuch as they have not heard from him since he was taken from his home. He wrote it was from a duty base in France. He was a sergeant and this coincides with the story related by the British press. He was subsequently lost the wallet and key book the man he took down from the crucifix.

The war office has been asked to go further into the matter, and further particulars are awaited.

BRITISH WADE RIVER TO GET AT TURKS

Enemy Pursued and Defeated Along the Euphrates in Mesopotamia.

LONDON, June 3.—An account of recent fighting between British and Turkish forces in Mesopotamia was given out officially here today as follows:

"After hostile columns which recently threatened us on the lines of the Euphrates and Karun Rivers had been successfully dispersed, as described in previous communiques, a combined naval and military attack was organized on the morning of May 31 against the remaining hostile forces in the position a couple of miles north of Kurna."

"Starting at 1:30 a.m. our troops, partly by wading, partly by boats skillfully executed a turning movement. The enemy's guns were soon silenced by our artillery. Excellent practice was made by naval guns and by a territorial battery, which was especially conspicuous. The heights occupied by the Turks were seized by noon and the enemy fled, leaving three compound guns complete with ammunition, and nearly 250 prisoners in our hands."

"After successfully repulsing several heavily charged mines discovered later in the river bed and on land, we continued our advance on June 1, but found that the enemy had been evacuated his camps at Barhan and Ratta, leaving a number of tents standing. He was observed retiring in steamers and native boats which were speedily pursued by the naval flotilla."

"By evening we reached a point five miles north of Kurna's Tomb, some 33 miles north of Kurna."

"The Turkish steamer *Bulbul* was overtaken and sunk. We also captured twenty large lighters, one containing three field guns, ammunition and about 300 prisoners. The pursuit was continued by moonlight."

"Our casualties have been trifling, about two in all."

TWO DESPERADOES CAUGHT BY POSSE

Armed Civilians Land Them After All Day Chase and Fighting.

ARE TAKEN FROM BOAT

Robert Bell and John Williams May Have Done Burglaries.

[Canadian Press.] OWEN SOUND, June 3.—After an exciting chase lasting all day, and an exchange of shots, the police this evening, aided by a posse armed with Ross rifles, rounded up a pair of the most dangerous criminals who have been in Owen Sound in years. Robert J. Bell is now in jail with a bullet hole in one hand, while John Williams, who is uninjured, is also in custody.

For the last month the town has been subjected to a series of burglaries. Last night, Bell and Williams broke into Forbes Miller's garage, stole a motorcycle, and set out for Meaford, whence they intended to go to Collingwood to take a boat for the north shore or the Soo. This morning, the loss of the motorcycle was discovered. The owner of the garage cut to chase the men, accompanied by two chums. The burglars' machine had stalled a few miles out toward Meaford, and as they were repairing it, the pursuers came into sight, whereupon they took to the bush. Shortly after noon, two policemen encountered the men near Annan, and shots were exchanged. Bell being shot through the hand. The two desperadoes, however, escaped into the bush. A civilian posse with rifles was then organized. About 7 o'clock the men came to the shore of the harbor, and taking a rowboat, set out to cross to the western shore.

The Secret

LONDON, June 4.—(2:40 a.m.)—The Morning Post's Petrograd correspondent comments on the fact that the Germans seem to have an almost inexhaustible supply of all the important ammunition.

By this alone, he says, they were enabled to make a good stand against the Russians whose tactical dispositions apparently were more advantageous.

AUSTRIAN TROOPS HAVE POSITIONS ALONG FIEMME

VERONA, Italy, June 3.—The Austrian troops are withdrawing from their positions along the Fiemme Valley (part of the valley of the River Avisio, to the northeast of Trent).

They have virtually destroyed the health resort of San Martino De Castrozza. This village contained eight large hotels, six belonging to Germans and two to Italians.

Why the Allies Are Not Now On German Soil

Would Be There If They Had As Much Ammunition As Germans.

"Two hundred thousand shells were concentrated in a single hour on the heads of the gallant Russians. Had we been in a position to apply the same process to the Germans on our front the Germans would have been turned out of France and driven half way across the devastated plain of Flanders. They would have been well out of the country they had tortured and tormented with dastardly cruelty. More than that, we should have actually penetrated Germany."

—From Lloyd George's Manchester speech.

ANOTHER 'MISTAKE'

Germany Willing To Compensate Norway for Sinking of Belridge.

[Canadian Press.] Christiania, June 4.—Via London.—Germany has informed Norway that an investigation has shown that the Norwegian tank steamer *Belridge* was torpedoed accidentally by a German submarine. The communication says Germany deplores this fact and is willing to pay full compensation. It proposes the appointment of a committee of Norwegian and German experts to fix the amount of compensation. Norway, it is said, has replied, agreeing to the appointment of the experts.

Germany also has informed Norway that a thorough investigation has shown that the Norwegian steamer *America* was not sunk by a German submarine.

The steamer *Belridge* was torpedoed near Folkestone on February 19 last. She was beached at Walmer and later unloaded her cargo in the Thames.

The steamer *America* was sunk in the North Sea on May 5. Her crew was saved. At a naval investigation held at Christiania, witnesses testified that the steamer had been destroyed by a torpedo.

Remarkable Furniture Bargains

The greatest furniture bargains of the year will be on our floors before you read this announcement. We just received word of the arrival of goods that should have reached here weeks ago. We must sell them and will sell them. Goods reduced in price far below any former sale. Come in and see. It has not been possible to list these new arrivals. Below will be found samples of bargain prices, but let us impress this fact, there are hundreds of others.

IN ALL YOUR LIFE YOU NEVER SAW SUCH REDUCTION.

Dining-Room Furniture At Factory Prices

TWO CARLOADS OF BUFFETS, TABLES, CHAIRS AND CHINA CABINETS, IN FUMED OR GOLDEN OAK, JUST PURCHASED AT ABOUT HALF PRICE, TO BE SOLD AT ONCE.

TABLES	BUFFETS	CHINA CABINETS.
\$12.00 Tables for \$ 7.50	\$20.00 Buffets for \$14.00	\$20.0

National Cemetery For the Bodies of Fellow Canadians

Suggestion Made to Government Is Under Consideration.

[Special to The Advertiser.]
OTTAWA, June 3.—A proposal for a great national military cemetery has been made to the Government. It has been represented that the bodies of Canadian soldiers who fall in Europe should be brought back and buried in a great graveyard at Ottawa.

The Central Experimental Farm has been suggested as a most picturesque and suitable location for the national cemetery. The Government has the proposal under consideration.

GIVES NUCLEUS OF NEW LOUVAIN LIBRARY

Manchester Foundation Starts Good Work—Others Expected to Donate.

[Canadian Press.]
Manchester, England, June 4.—When the devastated cities and towns of Belgium rise again, one of the first tasks to be undertaken will be the reconstruction of the library of the University of Louvain. A nucleus of the organization and funds necessary for this purpose has just been established here by the John Rylands Library, a wealthy foundation established many years ago by a millionaire Manchester cotton manufacturer.

The governors of the John Rylands Library have voted to present to the University of Louvain a large gift of books from the surplus store in their library, and it has been suggested that similar action by the directors of other libraries in various parts of the world would enable the university to start its new career with an excellent stock of books.

The collection which the Rylands governors will present to the university will be selected from the large stock of duplicates in the possession of the library, which have gradually accumulated through the purchase from time to time of large and special collections, which almost inevitably contain a certain proportion of works already on the Rylands shelves.

CANADA TO PRODUCE 1,000,000 POUNDS OF GUNCOTTON A MONTH

Has Already Started To Make Highest Explosive Known to Science.

Ottawa, June 3.—A plant for the manufacture of large quantities of trinitrotoluol, one of the highest explosives known to modern science, has been erected in Canada, and is now in operation. Its location is being kept a secret at present, but Gen. Sam Hughes, minister of militia, inspected the works today and expressed himself as highly gratified with the progress which has been made.

Work was started on the factory seven weeks ago, and it had not been expected to be ready for four months, but operations were rushed, with the result that the plant is now running. The new plant is turning out the immense quantity of 800,000 pounds of trinitrotoluol per month, and constitutes a record, both as regards erection and production.

It is announced that Canada will shortly be in a position to turn out one million pounds of guncotton per month, she has for some time past been producing large quantities of cordite.

ADRIATIC ARRIVES SAFELY AT LIVERPOOL

[Canadian Press.]
Montreal, June 4.—The White Star liner Adriatic, which carried Sir Thos. Shaughnessy, president of the C. P. R., and other Canadians, arrived at Liverpool at 10 o'clock this morning according to a message received at the C. P. R. offices today.

TRAPPED TO CHURCH WITH RAGS ON FEET

Port Hope a Sodom; Stratford Place of Moral Degradation; But Times Have Changed—A Romantic Tale of Pioneer Missionary Work.

[Special to The Advertiser.]
ST. MARTYR, June 3.—Three addresses of exceptional merit were listened to at the evening session of the London Methodist Conference. The speakers were Rev. James Allen, M.A., Toronto; J. H. Gundy, Toronto, and Mrs. Gordon-Wright, London. It was the missionary anniversary of the conference and each of the speakers had to tell of some phase of missionary work.

Rev. Mr. Allen told of the older days in the London conference, when hardships, unthought of now, were met with and overcome. He cited instances, as written down in black and white by the stalwart pioneers in Methodism, where the older ministers, some now dead and gone, had gone into virgin territory and done yeoman service in missionary work.

Romantic Recitation.
The time he made mention of was between the years of 1845 and 1855. At that time, what are now centres of industry and thrift in Western Ontario, were holes in the wood. A Gaelic minister at that time had made the following annotations: "We need fifteen for our work in this vicinity. With this we can secure two men to carry on the work of Port Hope."

The following had been written down of conditions there then: "This place is full of enterprise and spirit, but also of whisky, and it is a regular Sodom." Of Pembroke: "We have to reach our members here by birch bark canoes, well peopled, but very cold. In fact, it lies in the northern frigid zone."

Of Stratford: "Moral degradation is rampant. We need a few dollars to give the people the Gospel."

Of Saratoga: "Some appointments here are only possible to visit once a month and on foot."

Women Wear Rag Shoes.
Of St. Mary's—This is a new country about here. Halfstems of the year 1849 have greatly injured the crops and the people this coming winter are going to suffer greatly.

Warwick and Adelaide—"Chiefly English people live here. They are very poor. Last Sunday some women appeared in church with their feet encased in rags, and in winter others had no covering for their feet at all, but their sturdy Christianities."

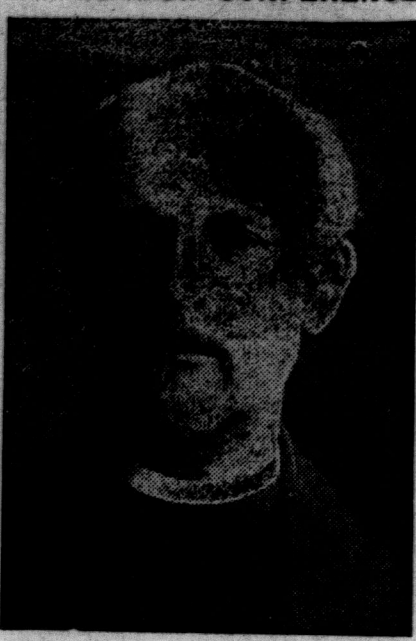

Of a concession nearby London the speaker told of the wonderful celerity with which a church was built, dedicated and made perfect and all in one day. Rev. Mr. Digman was the minister and so related was he with the good work of his people that to fitly tell of their enterprise he wrote a poem, it was a good one, too, but on the night of the celebration some member, having seen the poetry, wanted to sing it. All hymn books were gone through, but no music seemed to fit the words. After the meeting had closed the light of inspiration shed itself on the mind of one of the parishioners. He suddenly remembered that the music set to "Old Dan Tucker" was just the thing and although too late for that night's use it did good service at later meetings.

Work of W. M. S.
Mrs. Gordon-Wright gave a splendid resume of the work done by the women's missionary society and told especially of what women in the London conference had done. Although faced with a deficit at various times they had always, by denying themselves a little more managed to come out all right.

"Although the war is on," she declared, "we can give, give, give, and more we give the better."

A Plea For Auxiliaries.
Mrs. Gordon-Wright made a plea to

REV. DR. MANNING ELECTED PRESIDENT LONDON CONFERENCE

REV. DR. THOMAS MANNING, pastor of Central Methodist Church, was yesterday chosen to succeed Rev. G. N. Hazen, of London, as president of the London Methodist Conference. Rev. D. N. McManus, of London, received the next highest vote. Dr. Manning was pastor of Dundas Centre Church before going to Stratford.

The ministers to give their best endeavors in the furtherance of women's auxiliaries. The London auxiliary was the third highest in giving; the fourth in auxiliaries, the first in getting annual members, and the second in contributions to the rest fund. It was up-keeping 119 white missionaries in the foreign field and 100 native missionaries. The speaker received a splendid ovation when she concluded her address.

Mr. Gundy spoke on the great work the missionary department was doing in the foreign field and made a strong plea for greater endeavor.

SOP TO HUNGARIANS

Germany Drafts Bill Promising Benefits to the Various Nationalities.

[Canadian Press.]
London, June 4.—Telegraphing from Budapest, the Morning Post's correspondent says: "As a reward to Hungary's multifarious nationalities for their war services, the German Government has drafted a bill modifying the restrictions under which many of these peoples hitherto have lived. The bill allows the Slav population considerable freedom, permits the use of the national languages in schools and courts, and provides for a new Roumanian university at Kronstadt. The bill has been received with violent opposition by the aristocracy."

"It is said that audiences granted by the Emperor to the Hungarian majority leaders were attempts to form a coalition cabinet."

Toronto Prisoner Escapes From Germany By Bribes

NEW YORK, June 3.—Lieut. Lissant Boardman, of Toronto, an operative agent, who was a member of the Queen's Own Militia Regiment, was on the American liner Philadelphia, which arrived today. He is on leave of absence from the British army.

At the outbreak of the war Boardman was singing at the Berlin Opera House. The Berlin authorities interned him. On January 29, by bribing some officials, he managed to get out of Germany and into Austria. There he was arrested at Feldkirch, although he was posing as a German bound for Turkey on official business. He was confined in a hotel under guard and bribed hotel servants to let him out at night and get him a peasant's costume.

In disguise, he made his way to Switzerland over the snow-covered mountains and then to France and London, where he obtained a commission in the 23rd Infantry Reserve.

GERMAN DOCTOR LANDS IN MADRID'S CELLS

Embassy's Physician Would Exhort People to Join With Kaiser.

[Canadian Press.]
Montreal, June 4.—A cable to the Gazette says: "Dr. Kastek, the physician of the German Imperial embassy, is the hero of a scene that almost led to a riot in the central square of the Spanish capital."

The physician entered the square last night (Wednesday) and began to cheer up the crowd with Teutonic jokes that for a few minutes caused a great deal of amusement. But he soon went too far with his humorous explosions of patriotism.

Under Arrest.
A policeman arrived in time to avoid an unpleasant experience, through which the physician certainly would have passed, by inviting him to finish his speech at the police station. Dr. Kastek agreed to this suggestion and proceeded to the station followed by several hundred of people, who were not at all in a friendly mood toward the exuberant German.

Again Locked Up.
After he had identified himself at the station, the officer in charge ordered the immediate release of the German, but as soon as he put his foot in the street he tried again to address the people and convince them of the necessity for Spain to participate in the European war with the Teutonic allies.

He was taken to the station again, the joy of the police station. Dr. Kastek was taken to the station again, the joy of the police station.

SUICIDE IMPOSSIBLE

Doctor Says Mrs. Coderre Could Not Have Burned Herself.

[Canadian Press.]
St. Hyacinthe, Que., June 4.—No further light has yet been cast upon the murder of Mrs. Pierre Coderre, of the fifth range, St. Denis Parish, who is supposed to have been burned to death by two miscreants. Detectives Samson, of Montreal, and D. D. Lorrain, of the provincial detective force, arrived here yesterday afternoon, and spent some time investigating the tragedy, but so far they have arrived at no conclusions.

That suicide was impossible was indicated by a statement made to the detectives by Dr. Richard, of St. Denis, who attended the woman at the hospital there. He said that it was evident that kerosene had been poured over her clothing, not only in front, but over her back, in such a manner as to make it practically impossible that she could have done it herself.

AGED SERVIAN KING RETIREES TO RESORT

Peter Will End His Days Without Formally Abdicating.

[Special Cable to The Advertiser.]
Nish, Servia, June 4.—King Peter, aged 70, and practically an invalid, has retired to an inland resort, and will remain there to the end of his days, according to high Servian officials. There will be no formal abdication, but young Prince Alexander will continue his regency, till the death of his father leaves him the actual king.

GERMANS DEPRIVED OF SUPPLY BASE

Russians Cut Libau Off From Memel, Says Reuter Dispatch.

[Canadian Press.]
Petrograd, June 4.—Russian forces operating south of Libau have cut that city off from Memel, depriving the Germans of their base of supply, says a Reuter dispatch from Petrograd. At the same time the Russians took Polangen (on the Baltic, in Courland) and the village of Rutzan, south of Libau. Another Russian force is approaching Libau from the north. With this city enveloped, the Germans have an outlet only to the sea.

BALTIC TOWN CAPTURED

Petrograd Says All War Materials Were Taken From Przemysl.

London, June 4.—Russian forces operating south of Libau have cut that city off from Memel, depriving the Germans of their base of supply, says a Reuter dispatch from Petrograd. At the same time the Russians took Polangen (on the Baltic, in Courland) and the village of Rutzan, south of Libau. Another Russian force is approaching Libau from the north. With this city enveloped, the Germans have an outlet only to the sea.

WAR MATERIALS REMOVED

[Canadian Press.]
Petrograd, via London, June 4.—Russian troops on the front to the north and west of the fortress of Przemysl evacuated their position on Wednesday night, after all the war materials taken from the Austrians had been removed, according to an official statement issued last night by the Russian general staff. It is explained that after the capture of Jaroslau and Tadmoy by the Austro-German forces they began to spread along the west bank of the San, making the defence of Przemysl a difficult task. The Russians contend they realized from the first that Przemysl was incapable of defending itself, and that they were there only as long as it served their purpose.

Extended Their Front.
The positions occupied around Przemysl extended the Russian front by about 24 miles, and the troops occupying them were exposed to a concentrated artillery fire. The text of the communication follows:

"We carried away from Przemysl the materials taken from the Austrians. This finished, we removed on Tuesday the last of our batteries. The following night our troops, pursuant to orders, evacuated the fortress, and moved to the west of the positions surrounding the city, and formed a more concentrated force to the east."

Attacks Repulsed.
"Attacks delivered by the enemy on Monday between Przemysl and the Danaster were repulsed."

"In the regions beyond the Danaster the enemy, concentrating important forces in the town of Stry, succeeded in advancing on the Austro-German front. They sustained great losses, however, leaving a thousand prisoners in the course of our counter-attacks."

"On the Stry-Lomza front on Monday we pressed the enemy on the Bystrica, and successfully repulsed his attacks."

VIENNA'S STORY

[Canadian Press.]
Vienna, via London, June 4.—The German and Austrian forces broke the Russian lines at Stry are moving northward rapidly. The Russians apparently are unable to make a stand in the plains, and the chances of doing so north of the river are regarded as problematical.

Now that Przemysl has fallen, rendering it possible for Gen. Mackensen to continue his movement eastward, he would naturally meet a check at the Russian fortified positions partly composed of a chain of lakes extending north and south, about eighteen miles west of Lemberg.

On to Lemberg.
It is thought, however, that these positions will prove untenable because Gen. Linington, having crossed the Russian line at Stry, will likely cut the communications with Lemberg. The Austro-German plan of operations against Lemberg apparently is the same as against Przemysl. They are expected to throw columns westward of the city, and then press to get some distance beyond it.

In the meantime the movement seems to threaten the Russian fighting around Nadworna.

With a view of the double success at Przemysl and Stry it is expected in Vienna that the Galician campaign will move at an accelerated pace the next few days.

BERLIN NOT SURPRISED

[Canadian Press.]
Berlin, June 4.—The quick fall of Przemysl, to which the chief contributing factors were the Austrian 12-inch mortars and the impetuous bravery of the Bavarians, came as no surprise to initiated circles in Berlin. It was known that, in spite of desperate exertions which the Russians were making to save the situation in Galicia, Gen. Dimitiev's armies were in no shape to offer a successful resistance to the Austro-German forces. The capture of Przemysl is looked upon as a preliminary in the campaign for Lemberg.

The San line is regarded as no longer tenable; the Danaster line is already trembling, and the Austro-German army is pushing forward toward a point to the rear of Lemberg, and is now barely 35 miles southeast of Lemberg.

Big Gap Opened.
The fall of Przemysl was due to the breach driven into the girdle of forts from the north by the Bavarian troops. The gap opened by the capture of five works was almost five miles wide, and big enough to drive a whole army through. The inner lines were, under the circumstances, utterly unable to resist the pressure. The garrison by night-fall Wednesday had been driven back to the outskirts of the city itself. The other forts of the fortress were exposed to attack from the rear, as well as the front, and by dawn Thursday both fortress and town were restored to Austrian rule.

Another Holiday.
The garrison at Przemysl, according to reports received here, comprised at least two divisions of infantry, including regular line troops and navy-trained imperial militia. The captives include a large number of stragglers and unwounded soldiers, who were separated from their units during the confused retreat from Dunajec and the Carpathians.

No report has yet been received as to the amount of artillery and stores captured, but it is thought that there was much artillery, because the Russian siege guns used in investing Przemysl were in great part mounted in the reconstructed fortress, only a small part having been sent to the Carpathians after the capture of the fortress by the Russians.

A general school holiday has been proclaimed throughout Germany for Friday.

STEAMER ARRIVALS.
New York, June 4.—Arrived: Steamer, Bergensford, from Bergen.

OUR AIM

- to strive always to secure the satisfaction of every customer.
- to win confidence by meriting it.
- to create a chain of good-will between our customers and ourselves.
- to try to build this business bigger, and to build with as few defects as is humanly possible.

RAPHAEL'S

At the Store that is Always New—

New Summer Styles

Choosing your Summer Dresses, Waists and Skirts here you will find a pleasure—not only on account of the becoming styles and charming variety, but also on account of the reasonable prices. It is not worth while to take the uncertain way of having your Waists and Dresses made, or of making them yourself, when so much distinction and style can be had at Raphael's for so little money.

Hot Weather Muslins

Among the new Muslin Dresses we mention particularly one made in apron style, of diamond-shaped check, black and white or in dainty colorings; \$5.50. Black and white is particularly in demand, and our assortments are correspondingly great. Polkadots are also one of the season's strong style features, and are well represented in our stock. Very special values in charming Muslin Dresses at \$5.75, \$6.95 and \$7.75.

Pongee Silk Dresses

Pongee returns to great popularity this year—a fabric that deserves popularity for its many good qualities. We have some very pretty Dresses, in shirred skirt and other styles, at \$7.75, \$11.50 and \$12.50.

White Waists and Silk Waists

New arrivals in pretty White Waists at 95c, \$1.19, \$1.29, \$1.49, etc. New Middy Blouses in all sizes, at 98c. A very special line of Silk Crepe de Chine Waists at \$3.39; also at \$4.75 and \$5.00.

"All Raphael Ads Are True"

HOPES GERMANY WILL LEAVE BELGIUM FREE

Holland Would Rather See Eastern Territory Annexed at War's End.

[Canadian Press.]
The Hague, via London, June 4.—The Austro-German successes in Galicia have aroused hopes in Holland that Germany in the event of a victorious war would turn her attention to the acquisition of territory in the east, instead of annexing Belgium as hinted in several German quarters.

The Nieuwe Courant, in this connection, says: "Should Germany at the conclusion of the war occupy foreign territory only on the western front, the position of Holland would be endangered. If her continued successes on the eastern front, however, and the possible occupation of territory there, the chance of a diminution of the danger for Holland from a victorious Germany."

COUNTRESS IN JAIL FOR INSULTING GERMAN

Young Girl and Grandmother Each Given Three Months.

[Canadian Press.]
Amsterdam, via London, June 4.—According to a Berlin telegram received here, the 15-year-old Countess Helene Darley has been sentenced to three months' imprisonment for publicly insulting a German officer, and her grandmother also was sentenced to a similar term of imprisonment for complicity in the offence.

RUSSIANS HAVE RESPIRATOR SUPPLY

[Canadian Press.]
London, June 4.—Measures were taken a month ago, says the Times Petrograd correspondent, to provide the Russian troops with respirators for use when attacks with asphyxiating gas are made. Prince Alexander of Oldenburg, supreme chief of the army health department, who is a patron of the law school at Petrograd, detained the students of the institution after the 1st of May until they had made one hundred thousand of these respirators.

NO STRONG EVIDENCE AGAINST SWOBODA

[Canadian Press.]
Paris, June 4.—Charges of espionage preferred by the military authorities against Raymond Swoboda appear to be unfounded, says the Journal. The inquiry conducted by Major Julien, of the Paris permanent court-martial, has failed to bring out proof that Swoboda was a German spy. It already has been established that he had nothing to do with starting the fire aboard the steamship La Touraine, a charge which led to his arrest.

While there is no strong evidence against Swoboda, Major Julien has decided to continue his inquiry at all places in France where Swoboda is known to have stayed before ordering his release.

DECEIVED BY GERMANS PLEADS THIS CAPTAIN

Excuse Given For Handing Over Cargo of Rifles to Enemy.

[Canadian Press.]
London, June 4.—A dispatch from Stockholm to the Morning Post says: "The Swedish steamer Pan has returned to a Swedish port without her cargo of rifles. The captain of the steamer explained that he was deceived by the Germans, who had promised him a safe passage through the Kaiser Wilhelm Canal. The Swedish Government regrets its inability to take steps to punish the offenders, as the offence was committed within the jurisdiction of the Danish authorities."

MALINES ISOLATED

Germans Thus Resent Strike of Belgian Workers in Arsenal.

[Canadian Press.]
Amsterdam, via London, June 4.—The city of Malines has been completely isolated by the German civil authorities, while all traffic for men or merchandise has been prohibited, and the passport office closed.

ZINC ORE REACHES RECORD HIGH PRICE

[Canadian Press.]
Joplin, Mo., June 4.—The effect of the European war on zinc ore sent the price of that product in the Joplin district to \$100 a ton basis today. It is the highest figure ever paid for zinc ore, and is \$60 a ton greater than the price at a corresponding date a year ago. Spelter has reached a record position both in the United States and abroad, which is responsible for the increased ore prices.

BEDFORD HOTEL FINED

GODERICH, June 3.—The first conviction of a hotelkeeper under the Canada temperance act was registered yesterday against the Bedford Hotel on a plea of guilty, the result of a quantity of beer being found on the premises. A fine of \$75 and costs was imposed.

These fines are now paid to the county treasurer and the expenses of enforcement borne by the county.

During the three years the C. T. A. was in force 25 years ago there were over \$10,000 collected in fines and the expenses were \$5,000, leaving a balance in the license fund of the county of over \$4,000, with interest on hand to secure the enforcement of the act.

Your System Demands

an occasional corrective to insure good health and strength. Success is almost impossible for the weak and ailing. Enjoyment is not for the sick. Impaired health and serious sicknesses usually begin in deranged conditions of the stomach, liver, kidneys or bowels.

Beecham's Pills

are recognized all over the world to be the best corrective of troubles of the digestive organs. They tone the stomach, stimulate the liver, regulate the bowels. They cleanse the system, purify the blood and act in the best and safest way.

GERMANS HAVE NERVE TO DEMAND INDEMNITY

[Canadian Press.]
Paris, June 4.—A demand for indemnity for damage done German property in Milan during anti-German disorders, has been addressed by Germany to the Italian Government through the Swiss legation at Rome, says a Geneva dispatch to the Matin.

POPE TO ISSUE "WHITE BOOK"

[Canadian Press.]
London, June 4.—The Daily Telegraph's Rome correspondent says Pope Benedict is preparing a White Book, in which he will show the steps he took in support of peace.

GIVES CAMP ALTARS

[Canadian Press.]
Rome, June 4.—The Pope has donated 5,000 francs (\$1,000) for the purchase of twenty-five camp altars for use at the front. In all, 20,000 francs (\$4,000) have been collected to meet the religious requirements of the army in the field.

COUNTLESS PARDONED

[Canadian Press.]
Milan, June 4.—Countess Marie Larinsky, sentenced in May, 1910, to eight years' imprisonment for complicity in the murder of Count Karmarowsky at Venice in November, 1907, has been pardoned and released.

ON TO EMBROIDERING GERMANS' OBJECT

Indications Point to Their
Attempting to Force Way
Through.

MACKENZIE HAS CHOICE

Can Either Stand Where He
Is or Make Big Push
Onward.

[Canadian Press.]
London, June 4.—The second edition of the London morning papers today publish the confirmation from official sources in Petrograd of the fall of Przemysl. The word "reported" accordingly stricken from the accounts of the Austro-German victory in Galicia, and the words, "Przemysl lost," constitute the leading headline in English newspapers today.

The big loop which the Austro-Germans have made around the Przemysl stronghold has been drawn to a straight line. At the same time, to the southeast, Stry has been left behind as Gen. Von Linsingen's forces are pushing them westward. The Austro-Germans are pushing them westward, the Austro-Germans are pushing them westward, the Austro-Germans are pushing them westward.

Mackenzie Safe.
To the north of Przemysl, Gen. Von Mackenzie is now safe, having dared to essay to drive a wedge between the Russian armies on the lower Sany, and the fortress and made good. It was a risky move, and knowing its peril British observers have been watching it with keen interest. For a week they have been expressing hopes it would fail. But it did not fail, and now Gen. Mackenzie has a breathing spell and can elect either to stand where he is or to push forward from a base of great strategic advantage.

After Lemberg.
No one can predict whether the Austro-Germans will continue their terrific offensive in the east, such as preceded the taking of Przemysl. But viewing the complacency with which the Austro-Germans have accepted punishment in the past in order to achieve their aims, the belief here is that they have set their heart upon Lemberg and that they will not for some time to come be content to assume the defensive.

In the West.
Some commentators on the military situation are suggesting today that the Allies in the west will now initiate an offensive movement in the hope of relieving the pressure on the Russians, but, on the other hand, it is noticeable that during the Austro-German rush into Galicia there was no synchronizing allied movement in the west, and it would be no surprise if the Germans themselves should begin a serious offensive movement in France or Belgium.

Club for Men of Overseas Forces

Victoria League Thus Expresses Gratitude For Splendid Services Rendered.

[Special Cable to The Advertiser.]
London, June 4.—"In grateful recognition of the splendid help given by the Dominion soldiers in Flanders and the Dardanelles," a club for men of the overseas forces has been established near Piccadilly Circus by members of the Victoria League. Lord Grenfell, in declaring the club open yesterday, said it was intended not only as a sort of London home for the men, but also as an expression of deep gratitude for the noble services rendered by the overseas forces generally to this country. The achievement of the Canadians in Flanders and of the Australians in Gallipoli would go down to posterity as among the first of military services. Sir George Grey, who was a member of the Dominion soldiers, said, and it would be greatly appreciated.

ACCUSES AMERICA OF GREAT DESIRE TO ASSIST GERMANY

Berlin Paper Says Value to
Germany of Diplomatic
Relations Imaginary.

REVENUE ARRANGEMENT

Government Will Be Clear of
Traffic's Profits by Year
1919.

[Canadian Press.]
Berlin, June 4.—Via London, 12:30 p.m. The Kreuz Zeitung, the latest issue today, publishes the substance of the interview given to the Associated Press May 30 by Gottlieb von Jagow, imperial foreign secretary, in Germany's answer to the Washington note concerning the Lusitania case, in which the secretary said he believed it essential to establish a common basis of fact before entering upon a discussion of the issues involved.

Again Blames Britain.
This is done, the paper explains, on the strength of the report reaching Berlin to the Reuter Telegram Company, of London, that the "forthcoming American note to Germany forebadowed a common basis of fact before entering upon a discussion of the issues involved.

Continuing, the Kreuz Zeitung says: "We want to remind America once more that Great Britain bears the responsibility for the submarine warfare. Germany would have stopped it had Great Britain been honest. At one time America could have exerted pressure on Great Britain to this end, but it did not do so.

Will Not Stop.
"Now that the war of starvation has failed, America comes forward with the proposal that she should not do so much to this war, but rather do they desire to lend their moral support to Great Britain, in whose interests they long ago gave up the Lusitania case. The American diplomatic relations with the United States has to become rather imaginary."

Continued From Page One

ITALIAN OFFENSIVE

Severe but vain attacks on Alpine
detachments near Monte Croce Pass, but
they invariably are repulsed.

LIEUTENANT HONORED.

[Canadian Press.]
Rome, June 4.—The achievement of a detachment of Alpine mountaineers in capturing an entire Italian regiment in the head of Val Inferno, near the head of Val Inferno, has been noted by the ministry of war. The detachment was all too heavily outnumbered, but they continued to direct his men until the position was captured.

King Emmanuel himself planned the military medal on the wounded lieutenant's breast.

WELCOME ITALIANS.

[Canadian Press.]
Verona, June 4.—Via Paris.—The inhabitants of the town of Verona, who had been driven from their homes by the Italian troops, for wholesale requisitions by the Austrian authorities of the town, have been reduced to the verge of starvation. The first act of the Italian general in command was to issue the order for the distribution of bread and 2,000 rations of flour.

There are still posted on the walls an Austrian proclamation ordering the people to remain in their homes between 9 o'clock at night and 6 o'clock in the morning and imposing other restrictions on pain of severe punishment.

FIGHTING FOR RIDGE.

[Canadian Press.]
Udine, Italy, June 4.—Austrian troops have made repeated efforts to dislodge the Italian forces which have succeeded in establishing themselves on the ridge of the Riva. According to reports received today, the Austrians are still in possession of the ridge.

The advance of the Italians across the Isonzo has been accomplished in the face of the heaviest enemy resistance. The advance of the Italians across the Isonzo has been accomplished in the face of the heaviest enemy resistance.

Once the troops reached the further bank of the river still greater difficulties were encountered. The rain had transformed the mountain paths into a sea of mud, and the Austrians were pouring down the mountain sides uprooted trees and obstructed progress at every turn. The few mountain bridges left by the Austrians were unusable for camping places. Thick fog hung over the whole region, making it impossible to see for any distance. Progress was slow but the invaders were making their way up the mountainside, taking with them heavy artillery, ammunition and transports with supplies.

They occupied Dravos, Carre, Karfreit and other smaller villages below Monte Nero and finally obtained possession of the ridge. Regular communication with the base on the right bank of the Isonzo has been maintained, including a telephone line over which the commander of the Italian forces has been informed of each attack by the Austrians in their efforts to dislodge the Italians.

Commanding Position.

Monte Nero commands the whole Friuli valley. Possession of this ridge enables the Italians to menace Tolmino from the rear. This town, together with the batteries recently constructed on Santa Maria and Santa Lucia hills, presents one of the most formidable obstacles to an Italian advance across the Isonzo at that point.

Mont Nero also commands the valleys leading to the northeastern part of the Isonzo Piani district, having on the north Predil Pass which, strongly fortified, protects the road to Tarvis. The Italian occupation of this ridge is thus commensurate with the whole of the Raccalunga and Dogna Valleys, threatening the Seebach valley leading to Predil.

THREE SONS WOUNDED

Montreal Parents Have Four in Khaki
and One Discharged Sick.

Montreal, June 4.—Three of the five sons of Mr. and Mrs. Morrison have been reported wounded during the past two weeks at the front. A fourth son was compelled to take his discharge because of an attack of pneumonia, and a fifth is now waiting to go abroad with a Highland contingent here.

DRIVE LAST NAIL IN GERMAN LIBOR COIN

Premier Scott Says This
Would Be Result of
Closing Hotels.

REVENUE ARRANGEMENT

Government Will Be Clear of
Traffic's Profits by Year
1919.

[Canadian Press.]
Regina, Sask., June 4.—With the singing of the national anthem by members of the House and spectators, one of the most memorable sittings of the Saskatchewan Legislature was held yesterday afternoon on the occasion of the second reading of the "new sales of liquor act."

In moving the second reading, Premier Scott said he was in hopes from some of the remarks of the leader of the Opposition that this measure might be unanimously passed in the House. The Premier went at length into details of the measure, showing that every provision had been taken to insure that the will of the people should be given effect.

No Revenue in 1919.
When a vote shall be put to the people in 1919, there shall neither be a strongly entrenched liquor interest in the province to fight on its own behalf, revenue coming to the Government from the sale of liquor to produce the people, for the profits of the system by that time will have been voted to other objects. In the first year the Government will lose in revenues \$50,000. Revenue from licenses hitherto has been \$90,000. The year under the new system profits to the Government will be restricted to \$350,000. These profits will be annually reduced, until in 1919 they will be altogether abolished.

Would Be Last Nail

Referring to the threat of the licensed victuallers to close all the hotels of the province on June 30 next, Premier Scott said: "I may say this: If there's an opening left in the coffin in which the bars are to be placed for another nail, the carrying out of such an announcement will drive that nail home. There will be such revulsion of feeling among thinking people that nobody will ever dare again to suggest that the bar business be revived."

Happy Coincidence.

Closing his speech, Mr. Scott said: "It is a happy coincidence that the motion for second reading of this bill should be made on King George's birthday. The King is the chief bond of the Empire, and we have set an example to the whole world by becoming an abstainer, and thereby indorsing the temperance movement. I am proud that upon the King's birthday this bill comes before the Legislative Assembly of Saskatchewan. I believe that this bill will have the support of all the honest citizens of the province of this my own province of Saskatchewan."

The debate was adjourned by W. B. Witherby, leader of the Opposition.

TOM FISH STOOD BEHIND A TREE

But Speedometer Proved Car Not Going
22 Miles an Hour.

Acting on request of Wortley road residents, plainclothes members of London's finest have been watching for some days with the result that Police Magistrate J. C. Judd had a number of cases to dispose of today.

C. A. Whitman, who was in plain clothes, stated that he timed the car while it was going along Wortley road, and that it was going at the rate of 22 miles an hour.

In the witness-box, Mr. Whitman stated that he submitted the officer was mistaken as Fred Wright, another plainclothesman, had been hiding behind a tree, and that he looked at his speedometer, and it showed he was going less than fifteen miles.

Thomas Lawerson had his number covered up through an accident. He was allowed to go on payment of the court costs which amounted to £5.

"Five dollars and costs," said the Magistrate to H. J. Jones when he pleaded guilty to the speeding offence. George J. Jackson and G. Watson paid £2 and costs each for breach of the motor act.

On the speed cases keep on like this, I am going to raise the fine from £5," said the magistrate as he completed the cases.

GIVE PLEASING RECITAL

The first annual recital of the pupils of Miss Florence Woolley was given last night in Heintzman Hall, and reflected great credit on the speaker, by the excellent presentation of the program, and expression in youthful artists, many of whom were making their public appearance, and Miss Woolley has every reason to feel proud of her class who acquitted themselves in a manner that showed evidence of very careful training. A pleasing feature of the evening was the presentation of a beautiful bouquet of roses to Miss Woolley for her part in the presentation of the program. The assisting artists were Miss Little Violet Noyes, who had the distinction of winning a medal in the London Conservatory of Music examinations last year. The assisting artists were Miss and Mrs. J. A. Rich, whose songs and duets were much appreciated by the audience that packed the hall to its capacity.

The following program was presented: "Gipsy Dance," duet (Zureich), Eleanor Robinson and Violet Noyes; "Moon of the Desert," (Behr), Marjorie Webster; "Bonnie" (Beethoven), Thelma Richardson; "Soldiers' March" (Schumann), Richard Brown; "Morning Song" (Guritt) Gladys Hodgins; duet, Marjorie Webster and Thelma Richardson; "The Swan" (Verdi), Mr. and Mrs. J. A. Rich; "Minuet" (Beethoven), Isabel Springer; "Consolation" (Mendelssohn), Thelma Richardson; "Gavotte" (Grieg), Gwendolyn Ferguson; "Musette" (Bach), Louisa Wigmore; "Valse" (Tchaikovsky), Violet Noyes; "Large duet" (Handel), Marjorie Webster and Gladys Hodgins; "Curious Story" (Heller), Ernest McIntosh; "May Song" (Wilm), Mary Marshall; song, "Angus MacDonald" (Brannan), Mr. J. A. Rich; "Minuet" (G. Beethoven), Evelyn Webster; sonata (Kuhlau), Marjorie Webster; "The Fountain" (Bohm), Blanche Mackenzie; "Angels' Serenade" (Brannan), Yvonne Wigmore; dialogue (Meyer-Helmund), Artamias Hartle; "March of Terrors" (Godard), Jessie Love; song, "Nelson" (Brannan), Mr. J. A. Rich; waltz from "Faust," duet (Gounod), Mary Jenkins and Miss F. Woolley; "God Save the King."

BERNSTORFF'S AGENT SALES FOR COPENHAGEN

Thursday's Steamer on
Short Notice.

NOTE TO THE POINT.

[Canadian Press.]
Washington, June 4.—The American Government's rejoinder to the recent German note concerning the sinking of the Lusitania was ready to be laid before the cabinet today. President Wilson drafted the communication himself. It is short and to the point. It asks definitely whether Germany intends to be guided in the future by the humane principles embodied in international law for the conduct of maritime warfare.

To Give Private Tip.

The dispatch of the note to Berlin only awaited cabinet approval. Its transmission, a personal representative of Count von Bernstorff, the German ambassador, will leave for Berlin tomorrow. The note is a personal communication of the situation in the United States as respects public opinion towards the German Government, and to explain the American point of view on submarine warfare as gleaned by the ambassador from his conference on Wednesday with President Wilson.

Foreign governments have given assurance of safe conduct for the emissary at the request of President Wilson.

GOES FORWARD AT ONCE.

[Canadian Press.]
Washington, June 4.—President Wilson's note concerning the sinking of the Lusitania was ready to be laid before the cabinet today and laid it before the cabinet. It probably will be dispatched to Berlin late tonight or early tomorrow.

No arrangement has yet been made as to the time when it will be made public.

The United States Government is convinced there is no ground for the contention that the Lusitania carried guns, and the note will so inform Germany.

ATTORNEY-GENERAL TO SPEAK IN CITY

Hon. Arthur Melgheon Will Address
Canadian Club.

Hon. Arthur Melgheon, Attorney-General of Canada, will address the Canadian Club at the Toronto House at 10 o'clock on the evening of Friday next.

Mr. Melgheon comes to London to attend the annual meeting of the East Midlands Conservative Association on Saturday, and it is expected that there will be a large attendance to greet him, as he is known as one of the best speakers among the younger members of the Government.

NEW MINISTERS BILL GIVEN ROYAL ASSENT

Brief Sessions in Both British Houses
of Parliament.

[Canadian Press.]
London, June 4.—Both Houses of Parliament held brief sessions today. The Lords passed the bill making necessary the re-election of ministers promoted in the new cabinet, and the royal assent for the bill was given.

Patrols were increased in the House of Commons was in session for only a few minutes.

FINANCIAL AND COMMERCIAL

LOCAL MARKET

Over 35 loads of hay were on the local market on Friday, and sold for 10 to 12 cents per load. The ruling price was around \$14 per ton.

W. J. Wray & Co.
JEWELERS, 234 DUNDAS STREET.

EVER SEE THE POPULAR-PRICED SHOE for women that we have sold for years and years ago? Ever since we have been in business we have stocked a standard line of women's shoes for street wear, which we have kept at the same price and quality in spite of all advances in the cost of leather. These shoes are made of patent leather that makes as fifty a shoe as you would want to wear at \$2.50. Hundreds of London women know about and wear these shoes. But there are hundreds who do not, and we want to interest them. Why not come in and investigate?

MANY MEN NEEDED OF VARIOUS TRADES WHILE EMPIRE WARS

Wm. Gray, M.P., Gets List of Artisans Wanted in Old Country.

ENGLISH POSITIONS OPEN

Applicants Assured at Least Six Months' Work.—Fares Paid.

William Gray, M.P., has received from the Minister of Labor a schedule of conditions governing the sending of artisans from this country to Britain to assist in work connected with the war.

The lines of trade for which men are wanted are as follows: Machinists, millwrights, fitters, turners, millers, millwrights, riveters, drillers, shipwrights and carpenters, boiler-makers, boiler-makers' helpers, sheet iron workers, cooper-smiths, blacksmiths, blacksmiths' helpers, moulders.

No applications will be entertained from persons already in employment or over 50 years of age. Mechanics are to be engaged at standard British rates of pay, together with war bonus. The minimum engagement is for six months. If a man is not required in his trade he may have his fare paid on arrival in the United Kingdom, and fares are paid back if the man stays as long as he is required. No families will be paid for, but subsistence for men will be of standard quality. The applicant must undertake to remain for at least six months.

Mr. Gray says he has been working since February to secure this schedule and says the way is now open for all workmen of the classes stated to secure work in the British Isles, if they are out of employment in Canada.

QUERIES ANSWERED

INQUIRER—Can a Canadian be forced to go beyond the borders to fight? **Ans.**—No, unless he enlists, or an act of parliament is passed enacting that he should do so.

Distribute Clothing Among Needy of City During Winter.

KIT BAGS FOR SOLDIERS

Talbot Street Club Makes 100 Valued Gifts—Membership Increasing.

Eleven reports of the work done in the past year by the Talbot Street Club of London were presented at the annual union meeting, held last evening in the college assembly room. A large number of members were present from the thirteen clubs, and the meeting was a most enthusiastic one. Much of the work of the Alexandra Club consisted in procuring clothing and tributes for the soldiers. An "At-Home" for the teachers and parents proved an enjoyable affair. Empress Avenue, the second largest non-sectarian club, has 100 members. Through holding an aluminum demonstration \$10 was given to the Red Cross Society. At the Lorne Avenue Club 81 members were reported. A concert during the year realized an encouraging sum. The Lady's Club members were reported as belonging to Princess Avenue Club. The Lady's Club had been given to the Red Cross Society \$15 was sent to the Red Cross Society towards the equipment of a nurse for overseas work.

Kit Bags for Soldiers.—One hundred kit bags for soldiers had been made by 50 members of Talbot Street Club, St. George's Club reported 40 members, and 10 given to the W. C. T. U. fund to support a chaplain at the front. In Worley Road Club clothing had been collected early in the winter, and sent for Belgian relief. At St. James Street Club 43 paid members were on the roll. Donations had been given to the Red Cross Society, an increase of 25 over last year, were reported to the Victoria Club. Donations to various patriotic efforts of \$40 in all had been given.

In all the clubs during the year talks on matters relating to the home, education, and the child, have been given by the members, or by different professional men of the city. From contributions given from the various clubs \$15 was sent to the Red Cross Society towards the equipment of a nurse for overseas work.

Inspector Praises Club.—An address by School Inspector Edwards was a feature of the evening's program. Inspector Edwards congratulated the ladies upon the excellent showing of the past year, as represented by the reports. "I am struck with admiration at the financial ability of the mothers of the city of London," he said. "I believe it would be a wise idea to turn over the financial administration of the city to the women of London."

The public schools are trying to prepare the children by developing their powers, mentally and physically, for their real life-work after on. We are trying to lay the foundation for the children of the future, the industrial school, the university, or the commercial class.

A demonstration of the new lantern recently purchased for the use of the Talbot Street Club, was given by the ladies, assisted by Mr. McRoberts. The educational value of such a lantern in the school, and in the industrial school, pictures of harvesting in many lands were thrown upon the screen, historical views, and others of interest.

At the close of the meeting refreshments were served.

REFUSE TO GRANT SWITCH EXTENSION AT BALL GROUNDS

Board of Control Refuses Street Railway's Request.

At a meeting of the board of control P. Orman and other citizens of Ridout street notified the board that they contemplated suits for damages on the ground that the lowering of the street in connection with the work is spoiling their property. The matter will be taken up with the engineering department and city solicitor at once.

Meredith & Meredith, who are acting for H. J. Glauk in his suit against the council and utilities board, to recover wages and interest, notified the board that the action would proceed at once. The board referred the matter to the utilities commission for a full report.

The London street railway wanted to extend their switch in front of the baseball grounds, but the board refused its permission.

City Clerk Baker was instructed to notify the provincial health department that it is not liable for \$900 asked for in connection with the salary of the provincial medical health officer. It will be pointed out that London maintains its own health officer.

The board decided to initiate a new pavement on Princess Avenue from Adelaide to Charlotte street.

Tenders for a new combination fire truck were referred to Fire Chief Aitken to report on.

Connolly, Agnew & Co., of Toronto, who have a contract in connection with the storm sewers, notified the board that they wished to make some changes. The board will not allow any changes to be made now that the contract has been signed.

SAYS HONORS DESERVED

Canon Tucker Pays Tribute to Dr. Gordon, of Queens.

Rev. Canon Tucker, commenting on the birthday honors list, and the number of Canadian whose names appear on it, remarked that in almost every case the honor appeared to be well deserved. He expressed himself as being especially glad that Dr. Daniel M. Gordon, principal of Queen's University, had been singled out for recognition.

"Dr. Gordon," said Canon Tucker, "is given a great deal to the world at large, as well as to Canada, in some cases honors are the result of political influence, but in his case everyone will admit that he merited the distinction which has now been given him. The honor is Queen's as well as Dr. Gordon's, and that also is appropriate for the university has given a remarkably large number of men to the service of the empire in this war."

FORMER MEMBERS

OF GERMAN CHURCH

EXPLAIN CLOSING

Sunday Services Suspended Indefinitely, Is Decision of Congregation.

PEACE-LOVING CITIZENS

Members Ask That Justice Be Accorded Them By Citizens.

The following letter has been submitted to the Advertiser for publication by the council of St. Paul's Lutheran Church, as an explanation for closing the doors of the German church, at Wellington and Grey streets, last Sunday.

To the Editor of The Advertiser: The Council of St. Paul's Lutheran Church has appointed a committee to deal with present difficulties; said committee presented its report in full, and at a special meeting of the congregation the report and the following recommendations were accepted by an unanimous vote in each case:

That, owing to the present condition of affairs, the German church, in connection with our church and in order to counteract such agitators, be it resolved, that we close the doors of this church indefinitely.

The following explanations shall also be given to the press for publication: That the pulpit of the church has since September of last year, owing to a shortage of pastors, been supplied by the English Lutheran Church of Central Canada, with different students and professors of the Canadian Lutheran Seminary of Waterloo. These gentlemen were obliged to stop at some member's house from Saturday until Monday.

We consider it our duty to give this explanation to the public in order to throw off all suspicion of wrong-doing against any of our members who were kind enough to help the church along in keeping these gentlemen.

We also want to make it clear to the public that this congregation never did.

MADE-IN-LONDON

ESSAY WINNERS NAMED AT HIGH

L. C. I. Writers Outline Benefits of City-Made Goods.

The prizes offered to the pupils of the Collegiate by the London Industrial Bureau for the best essays on "Made-In-London" manufactures have been awarded by Principal Rogers as follows: First, Calvin Fitzgerald; second, A. F. MacDonald; third, Basil M. McLean.

"Made In London." The subject of the essay, "Made-In-London," showing how the people of London can, by buying goods made by Londoners keep London money in London and give employment to London people," given by the educational committee of which E. R. Dennis is chairman, is introduced in the first place as a review of present conditions, which render imperative the patriotic duty of buying where possible the products of Canadian industry. The essay advises London people as a civic duty, to familiarize themselves with articles made in London, and commends "Made-In-London" exhibitions for this purpose. In city work and contracts preference should be given to London goods, London contractors and London labor. The advertising of London made goods in the London district is advocated as good business. The closing paragraphs of this paper advocate co-operation—co-operation—we will not feel the shock of war as would be the case if we were not co-operating with London in Canada. Let us from now make unity our watchword and we will see our city thrive ahead."

The paper which is awarded the second prize points out that the war has brought about an industrial awakening in Canada. "For several centuries the vast Dominion has lumbered in the arms of European manufacturers, thoroughly satisfied that these arms would always be capable of sustaining their patronizing burden." The writer says the tottering infant, Canada, suddenly left to its own resources, fully realizing the danger of dependence and resolved to work out its own industrial future.

The paper which is awarded the third prize asks the reader to suppose certain goods to be prohibited from entering the city, and describes the conditions which would result. The local manufacturers of the prohibited goods would be hurt, but the writer believes, "will be inclined to buy in such a way that money and employment will be given to London people, but if under prices are asked and the goods are of poor quality, manufacturers cannot expect patronage."

Home Circulation. He points out that money put in circulation here may reasonably be expected to return; on the other hand, if you buy goods from a distant town, it is probably gone forever. The Made-In-London campaign should benefit London commercially and industrially, and the others be benefited. Lists of Made-In-London manufacturers and writer points out, can be obtained from the Industrial Bureau.

BERLIN PROFESSOR HAS NOT RESIGNED BAND LEADERSHIP

It is Leader of Waterloo Band Who is Out of Office.

An unfortunate error in a headline on an item dated from Berlin, Ontario, in yesterday's issue may have given the impression that Prof. Stockton, leader of the Berlin Band, had resigned, whereas it was the leader of the Waterloo Band who had resigned, as the item clearly stated.

It may be added that Prof. Stockton, of the Berlin Band, is held in high esteem both by the bandmen in his organization and the loyal citizens of Berlin.

Mr. Stockton was with the British Royal Artillery for over twelve years as bandmaster and is well-known throughout the province.

HOW THIN PEOPLE CAN PUT ON FLESH.

A NEW DISCOVERY.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all that fat? You have gained in weight one ounce. That food passed from your body like unburned fuel through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is, you haven't got enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream made by cutting out everything but the fat. Cut out every one of those single Sargol tablets. In two weeks note the difference.

Fire to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak stagnant blood with millions of fresh new red blood corpuscles—reverses the blood carrying power to deliver every ounce of fat-making material in your food to every part of your body.
