# VERDICT OF \$2,500

for Murder at Spring Assizes.

Seems to Have Come Out of His Apathetic Mood of Few Weeks Ago.

The grand jury at noon today brought in a true bill of indictment for murder against Daniel Reynolds for the death of Frederick Culver on the night of Dec. 14 last, and the ac cused was arraigned for trial. Crown Attorney McGregor Young, of Toronto, asked that the case be laid over for the spring assizes, which commence on Feb. 26, on the ground that it would be in the interests of justice owing to the absence of a material witness

Mr. P. H. Bartlett, counsel for the defence, stated that he had not asked for a postponement, although it would be agreeable to the defence.

When Reynolds was brought into the court he appeared to have lost all the apathy which he exhibited on previous occasions. He looked well, and seemed bright and attentive, and looked about the court room in an interested and wide-awake way. He was neatly and carefully dressed.

Pleads Not Guilty. He pleaded not guilty, and expressed himself as ready for his trial. When he was being led out of the prisoner's box to be taken back to the cells his wife arose from a seat in the audience just to the rear of the box and called

him by name. Not attracting his attention she followed her husband and the constables to the door of the court room, where she reached out her hand and after kissing him, said good-bye. Then she back across the room and out of the opposite door

frightened and evidently agitated manner. Reynolds did not seem as indifferent to his wife as he was before Arthur John Miles, one of the important witnesses in case, had planned to return to England the day following the death of Culver. After being examined he was allowed to go, a he had intended. It is understood that

Employees Unable to Refute Story Told by Victim of Accident. Last July.

The case of John J. O'Rourke vs the C. P. R., was decided in favor of the plaintiff this morning, a verdict of \$2,500 being awarded. The case occupied the attention of the high court session yesterday afternoon. John J. O'Rourke, a brakeman, while uncoupling a car at Ayr, Ont., last July, had one leg run over and severed. O'Rourke stated in court that he had signalled for the train to be held, but that while

under the car it started unexpectedly The plaintiff alleged that it was due to the negligence of the company or the company's servants that the acci-

The argument for the defence was that the engineer had no knowledge whatever that O'Rourke was under the train, and that the train was not started by the engineer.

[Special to The Advertiser.] Ottawa, Ont., Jan. 10. - Parliamen resumes this afternoon, and there is going to be at least three solid months of it, and possibly more. The Liberals who have been home find that their constituents want them to say quite a lot in Parliament about dismissals. The Conservative members have come back with a lot of new applications for places which are now being satisfactorily filled by Liberals.

Axe-Wielding.

The Government has already felt the increased pressure for axe-wielding but the indications are that decapitations are going to be fewer hereafter The Government is a little thin-skinned, and has not relished the criticism which followed the first gory onslaugh upon Liberal office-holders. It is getting "cold feet." Members who are applying for dismissals are getting little encouragement. Hon. Mr. Monk is said to have entirely shut down his "canning factory," and has refused Messrs. Number of Important Subjects Will Be Discussed at Big Convention.

[Special to The Advertiser.] the larger towns and cities men interested in the diversified branches of the dairy industry are arriving to attend the forty-fifth annual convention of the Dairymen's Association of Western Ontario. For two days cheese will be king, and it is fitting that this subject so important to the farmers of the fertile sections of Western Ontario should gather in convention in this town, the birthplace of the association. Weather onditions are adverse, but despite this drawback, the large number already here indicates a large attendance and ne of the most successful conventions in the history of the association.

The convention opened at 10:30 this morning, when the president, W. W. Waddell, of Kerwood, gave his address,

which was of much interest. He was pleased to welcome the members to Ingersoll, because of its historic association, with the dairy industry. It was in the Ingersoll district, he pointed out, that the factory system originated, and where the first and one of the largest cheese was made and exported. He also referred to the zealous work of former citizens on Kissingen. He had, he said, repudbehalf of the industry, mentioning the names of James Noxon, C. E. Chadwick, and a present resident, Mr. J. The exports for the year 1911, he believed, would equal, probably exceed, those of 1910. There had been a decrease of 68,000 107,000 boxes of butter. It was also had been a steady increase in home

consumption. The total home trade he estimated at about \$80,000,000 a year, which meant hat the home market is the most imortant to the dairy farmers. The presilent, in conclusion, called attention to the scarcity of milk, which is having a serius effect on some of the cheese fac tories and creameres, as many towns and citles are getting their supplies from eng distances. On the whole, it was stated that the dairy industry is on a nost healthy basis and there need be no fear to increase the production as all dairy products are likely to find ready sale and remunerative prices. The financial statement was presented by Mr. Frank Herns.

# HAS NEW CRISIS Three Days' Sale of Boys' Clothing

Thursday, Friday and Saturday for Suits and Overcoats

Previous to stock-taking we wil' make a determined effort to reduce our stock of Boys' Clothing to a minimum by three days of the biggest price reductions of the season. If you have boys to clothe here is your opportunity. In these days when prices are kite-like and dollars are measured more carefully by men, a store of this magnitude and especially of this character comes as a positive relief, especially to homes of large families with many heads and bodies to keep warm. He who has only himself to think of is only slightly affected, but he who has two to a half dozen or more, big and little, to clothe, must needs get the best for the money and take advantage of such opportunities as this, where clothing may be had for two at about the price you would expect to pay for one, and better still as the prices in many cases are cut in half, some better.

THE DAIRYMEN'S CONVENTION.

The annual meeting of the Western Ontario Dairymen's Association at Ingersoll is one of the most useful of the many conventions for many purposes. The dairy industry saved Canadian agriculture in the critical period following the close of the United States market. It is still the main pillar of Ontario husbandry, though Ontario farmers are not dependent upon a single Interest as are the majority of their western brethren. The dairy production of Canada last year was valued at \$105,000,000, of which this province supplied much more than half. Western Ontarlo in turn supplied much more than half the output of Ontario.

The following statement, which will be presented at the convention in Ingersoll, shows the number of cheese and butter factories in the counties embraced in the Dairymen's Association of Western Ontario and also their total production of each diary commodity during 1910: County. Factories Pounds Made.

Such fertile counties as Essex, Kent, Halton, Peel Simcoe and York have no cheese factories, but they excel in other lines of production to which their soil is peculiarly adapted.

The annual dairymen's convention is always a stimulus to the dairy industry and has been one of the most powerful agencies in constantly raising the standard of excellence in dairy products.

#### A WEAKNESS IN THE REPUBLIC. A forcible, if somewhat verbose,

article by Theodore Roosevelt or "Judges and Progress" appeared in the New York Outlook of Jan. 6. The expresident has become convinced that the powers of supreme courts, both at Washington and in the several states, need some revision.

The supreme court of the United States, an independent and irresponsible body of nine judges, has the power of ultimately deciding whether any legislation, state or federal, is contrary to the written constitution. With us the judicial committee of the privy council is the final court, an equally Government refer the navy question independent body, but in some ways more sensitive to public opinion in that score for a year or two? matters of doubtful law. Besides, our constitution can more easily be altered when necessary to meet new

It is the new conditions of commerce and labor with which legislators have been trying to cope in the United States, but they have been hampered by reactionary decisions of state and federal judges. What is becoming practically a veto power was vested by the constitution of 1787 in the federal and state supreme courts. These courts may decide very wisely on legislation which involves the relations of individuals, but when it comes to reviewing the laws made necessary by the growth of modern industry and by new social conditions, the best of judges are apt to be "steeped in some outworn political or social philosophy," or touched by political passion and prejudice. In the Bakeshop case, for instance, the supreme court of the United States, by a majority of five to four, took the ground that the people of the State of New York did not have the right, when they found certain conditions to be unhygienic, and so declared through the Legislature, to prevent men from working for too many hours under these unhygienic conditions. The constant plea of judges in such cases is that the liberty of the individual must not be interfered with. The individual must be

tree to hang himself. But it is the conflicting decisions of

majority decisions of the federal supreme court that cause particularly angry comment and weaken the national respect for the courts however just those courts are in the main. Mr. Roosevelt quotes authorities to show that under such circumstances adverse decisions against social reform legislation are an abuse of the courts' constitutional powers. They should declare a law unconstitutional only when there can be no doubt in the minds of men of ordinary intelligence and good faith that their contention is just." "The violation of the constitution must be so maifest as to leave no room for reasonable

doubt. What Mr. Roosevelt asks, therefore, s that if the judges will not be content to use without abusing their powers, there should be made possible an appeal to the people of some sort against doubtful decisions.

Likening himself to Lincoln protesting in the name of humanity against the 5 to 4 Dred Scott decision, Mr. Roosevelt declares that the American people have the right to decide for themselves in regard to legislation already passed and enforced by nearly all civilized countries, including the principal provinces of Canada, but plocked by fossilized "constitutionalsts" in the United States. The constitution of 1787 was intended to be document of liberty, but its custodians make it a fetter. Mr. Roose velt calls for a check on them.

As Mr. Roosevelt says himself, the power of the American courts is unique. Such social and labor legislation as has been enacted under our more-elastic policy in Canada has been impossible in the Republic owing to the law's delays and the judicial veto. We have a better system here and are glad of it; the people rule, and the judges, independent in their more limited functions, are held in full respect.

#### CANADA AND THE SIKHS.

The Asiatic question comes to the front again, the British Columbia colony of Sikhs having applied for permission to bring their wives and children to this country. Undoubtedly there is keen hardship in the separation of these men, who are British subjects with a fine tradition of loyal-

ty, from their families. Their case has enlisted the active sympathy of a number of influential Canadians, but the great majority of the people of British Columbia are opposed to granting the petition of the Sikhs or to any relaxation of the restrictions on Oriental immigration. They make n distinction between Asiatic races.

The Laurier Government had a sim flar problem in dealing with Japanese immigration. The Japanese being allies of the mother country, the Government had to take account of im-Ol perial considerations. Happily a state manlike solution was found. The Tokio Government agreed to impose restriction on the emigration of Its subjects, amounting to virtual prohibition. Japan has kept faith, and, even British Columbia now makes no complaint.

The Laurier Government, during its efforts to settle the question in a friendly way with Japan, was exposed to savage partisan attacks in the coasi province. These were so successful that the Liberal contingent in the Canadian House of Commons was wiped out in the election of 1908, even after the arrangement with Japan had been effected. For nearly ten years the Oriental issue has been in British Columbia politics to the profit of the McBride Government and the corresponding disadvantage of the Laurier Government. The Conservative party now bears the whole responsibility It is to be hoped Liberals will not aggravate its difficulties. The problem because of its bearing on the situation in India, is a delicate one, but i will not be made a party one.

Does Mr. Beck want the hydro-electric undertaking made a department of the Government, or does he not? He is getting some credit for privately opposing the transfer, but as a minister he will be bound to defend it, if it is made.

The split in the French cabinet over the Morocco question reveals what has been all along known, but not avowed, by the politicians, namely that groups of French and German capitalists wished to exploit Morocco, and dragged in their respective governments, so as to make the public foot the bills.

The president of the Canadian Bank of Commerce estimates the average assets of an American settler entering mies of fame were tall compared with Canada at \$1,000, of a British settler at her. \$150, and of an immigrant from other countries at \$10. The Yankee is an asset as an immigrant, but is he no good as a customer on the other side of the line?

The Halifax platform, Mr. Borden's declaration of political principles, contains these articles: "2. Appointment of public officials upon consideration of capacity and party service, and not of party service alone. 3. More effective provisions to punish for bribery and fraud at elections." Thus, it appears that, centrary to the second article of the Halifax creed, Mr. Smith is dismissed for approving of the third article of the Halifax creed. Surely some enemy of Mr. Borden and the Halifax creed hath done this thing.

# CORRESPONDENCE

The City Hall Site.

To the Editor of The Advertiser: In tonight's issue of your paper I otice an article credited to Chief Williams as having advocated the corner of Dundas and Wellington streets as the most suitable place for the new city hall.

Now, I think that when anyone advances an opinion upon such matters, they should state their reasons for doing so, or, in other words, paint a picture of London in 57 years from now, or the same length of time as the present hall has existed. If the advocates of Dundas and Wel-

lington or Waterloo streets can prove that the same transformation scene will be enacted on Richmond street that has taken place upon Ridout, since the remov. f the city hall from there, then the ...ove is a good one, and should be encouraged. However, are we to believe that all the banks, the custom house, postoffice, and railway station will leave Richmond street in the step-up, and Wellington and Dundas streets become what kichmond is now, and the principal corner in London move two blocks east?

For myself, I fail to see the change, and have faith that as time goes on Richmond street will be the big street of the future, as everything points that way at present.

One of the strongest features in support of the above statement is the fact that both railway stations are situated at each end, and that will keep i alive. Judging from the actions of railway corporations over the country just now, there is not the slightest reason to believe or to look for any her birth she measured only 51/2 inches change in the way of a union station ever being erected in London.

According to transportation men worldwide changes and normal conditions in agriculture are responsible for the sudden demand for ocean carriers.

The drought in Europe has called for heavy shipments of foodstuffs and fodder. The record-breaking cotton crop is also a factor, and apples are said to be crossing the Atlantic at a rate never before equalled. The potato famine here has stimulated imports.

### REFUSE TO SURRENDER HANDSOME RETURNS FOR TELEGRAPH BUSINESS ADVANTAGES OF TREATIES

Declared a Dividend of Hundred Per Cent.

[Canadian Press.]

Ottawa, Jan. 9.-That the Great during a period of eight years paid an average dividend of over 100 per cent, was one of the main points brought out in this morning's session of the general inquiry into telegraph ariffs and forms before the railway commission.

Stress was laid on this by Mr. Pitblado, chief investigator for people, to show that the G. N. R. had not been so badly fixed financially as had been alleged. Some further evidences of the hardships caused to senders by the existence of two local rates for two separate telegraph companies, instead of one through rate, were also advanced.

The proceedings started with Mr. George D. Perry, general manager of G. N. W. Telegraphs, to clear up some of the points which remained over from yesterday's hearing. For a number of years, it was shown, there had only been one meeting of G. N. W. directors each year. This took place at the same time as the annual meeting of shareholders for the very good reason that most of the Canadian hareholders were directors. Mr. Perry further stated that between the years 881 and 1887, the G. N. W. had paid 250,000 cash dividends, which, with the stock dividends told of yesterday would bring the average for the eight years to over 100 per cent. Asked by Mr. Chrysler, K. C., coun

sel for the C. P. R., as to a later fall ing off in the company's dividends, Mr Perry stated that long-distance telephones, and the introduction of C. P. R. competition, had been responsible for them. Particularly in Ontario and had the last-named cause Quebec proved effective. Some further evidence as to rates

was then heard. A particular instance referred to was that in which a peron who lived in Sudbury and wanted to send a message to Barrie would be charged 50 cents for the service, which would go over two lines, while if he lived in New Brunswick and wished to telegraph to Barrie it would eost him only 25 cents.

Mr. W. J. Moule, assistant auditor of disbursements, C. P. R. Telegraph Company, was next called to the stand, and spent most of the morning explaining the bookkeeping forms in to the audit officers. The telegraph ompanies claim the question of contract and liability is a factor with them in determining their rates. The question of telegram forms will not be taken up for a few days, when the present subject of inquiry is fin-

Ottawa, Jan. 9. - Premier Borden nad no comment to make today on the announcement from London that Northwestern Telegraph Company had the foreign office had been unsuccessful in its negotiations with the favored-nation countries to secure an abrogation of the clause in the trade reaties between Great Britain and these countries binding the self-governing dominions not to make any tariff discriminations against them. It will be remembered that at the last Imperial Conference a resolution was passed, on motion of Sir Wilfrid Laurier, asking the British Government to secure the exemption of the VIOLENT GALE SWEEPS operation of Great Britain's favorednation treaties.

All of the twelve countries on the list-namely. Norway, Sweden, Den-Russia, Austria - Hungary, mark. Spain, Switzerland, Japan, the Argentine Republic, Bolivia, Colombia and Venezuela, have declined to give up their advantage under the treaties, some of which are now centuries old. Mr. Borden said this afternoon that, pending receipt of the official from London, no communication statement could be made as to what attitude the Government would now take in the matter.

The situation is an anomalous one, and is a serious difficulty in the way of Canada's freedom to negotiate trade treaties with foreign countries. However, now that the reciprocity agreement with the United States is no longer a Government proposal, and no trade treaties with other foreign countries are at present contemplated, the issue may be left in abeyance for the present. Sir Wilfrid Laurier will doubtless ask Parliament for a declaration of the Government's policy as to taking further steps in

Mr. Grant interviewed Dr. Haanel, director of mines here, he cently, and told of finding diamonds of large size and good quality as a result of a long search in the Keewatin district, west of James Bay. He said he had sent specimens to experts in New York, who had found them of fine quality. However, Mr. Grant produced no specimens here for inspection and was very vague as te the exact location of his diamondbearing area. Beyond his own statement there is no evidence here to substantiate his claim. Nor has the acting deputy minister, Mr. advised by the New York experts that specimens from a new diamond field have been received there, as is practically always done where precious minerals affecting Canada are found and submitted for listing.

# Music and Drama

"Doctor De Luxe," a fine, brisk, wholesome show, will surely win its

way into the favor of theatregoers at play two nights, Thursday and Fri-It is rapidly active with queer con-

eits, beginning with the "doggie" number in the first act, and they are all operated very showily. A good instance is "The Skeleton Girls." This une is infectious. "Doctor De Luxe" can be said to be absolutely satisfactory in every particular. For good, genuine fun, no musical comedy has ever equalled the Gaites offering, and the laughter is continuous from the ance. Mr. Ralph Herz, who is the star of the production, finds ample opportunity to employ his original manner of walking, talking and singing. The music is all of the catchy, whistly variety, and every musical number orings its own surprises in the form of some novelty. Miss Polly Prim is tresistible in her dancing, and her elightful eccentric comedy captivates audience. The costuming and stage settings are at times startling in their originality and brilliancy.

Fiske O'Hara.

At the Grand Saturday, matinee and night, Fiske O'Hara will be seen in his successful play, "Love's Young days in Ireland when the dashing madcap crowd of young Irish noblemen kept things moving in the Green Isle at a lively rate. The role created for Mr. O'Hara gives that popular young star an excellent opportunity for displaying his many and varied talents. His songs, as usual, are one of the delightful features of the performance. Manager Irwin has surrounded his got a supply, and, marvellous as star with a company that is theroughly suited to the various characters here is a wealth of handsome scenery and costumes. The papers speak highly of this attraction. They played Toento and Hamilton to capacity houses. Seat sale opens today.

THE LONDON ADVERTISER

Vanderbilt Builds Apartments For Poor of the New York East Side.

New York, Jan. 9.—The just completed-idea of Mr. William K. Vander-bilt, Sr., to "bring the sanatorium to the tubercular patient instead of sendng the patient to a sanatorium" was reporter shown to a reporter this afternoon at the new East River homes on Seventy-Seventh and Seventy-Eighth streets and the new John Jay Park, where newspapermen were

invited to inspect the new buildings. There was no "function." Mrs. Vanderbilt visited the building in the forenoon, but was not present during the sight-seeing expedition which Dr. no serious concern of the British Gov- Henry L. Shively conducted in the afternoon. The unique idea has become a reality through the generosity of Mrs. Vanderbilt, and the home will be open about Jan. 15, free from any what is now described as the blunder encumbrances. The site, the nest of of the Balfour Government in allowing four adjoining buildings and the upto-date equipment cost about \$1,300.

Expect to Make 4 Per Cent. "And please make every one understand right from the start," asked Dr. Shively, "that the East River homes i possible forerunner of the partition not a 'charity' in any sense of the word. These building consist merel; of a number of rooms and apart ments, all equipped hygienically, for set her house in order if she wishes to discharged patients and their families and for the delicate who are in danger of contracting tuberculosis. Each person or family will pay rent for his room and bath or apartment, and w hope to make about 4 per cent on the investment. But every cent of this in come will be spent to fight tuber ulosis."

On the roof will be a garden and playground. Balconies are everywhere. To pass from one apartment to another on any floor you have to go along a passage that is just an open air balcony. All the rooms and partments have a receptacle for garpage set in an outer well, over which is a suction system that draws off the old food smells.

Special Public Servant Needed To Care for Little Delinquents.

WATCH THEIR CAREERS

Cases in Court Sympathetically Dealt With, But Footsteps Need Guiding.

Sheriff D. M. Cameron does not think that the establishment of a children's court is urgently needed in London, but is of the opinion rather that a probation officer should be appointed to co-operate with the police magistrate in dealing with and looking after cases of juvenile delinquency.

Relative to the opening of the children's court in Toronto, Sheriff Cameron was asked by The Advertiser whether he would favor the establishment of a similar court in London.

He replied: "The duties of a judge of a juvenile court in London most efficiently and sympathetically discharged by the late Police Magis-trate Love, and his successor, P. M. Judd, has exhibited the same sympathetic concern towards juvenile delinquents as his predecessor. The im pediments in the way of effective dealing with our javenile court delinquents do not arise from the want of what is specifically known as a juvenile delin-quents' court nor would the establishment of such a tribunal in my view meet the difficulty

Another Officer Needed.

"On its judicial side, which I have already indicated, the attitude of the present police magistrate meets all requirements. The insight into juvenile human nature which is the pre-eminent requisite in a juvenite court judge, is possessed in an ample degree by the present police magistrate and he is quite capable of taking that fatherly Interest which is the essential feature of juvenile court work. But what is wanted is a probation officer, who would keep delinquents constantly or periodically under supervision, and who would be the right-hand man of the police magistrate in tracing and disclosing the causes that produce delinquency and suggesting if possible the means of remedying these causes. Mr. Sanders, of the Children's Aid Soclety, has most efficiently filled that position as far as his time and opportunities would permit, but the Children's Aid Society work alone is increasing, and he should be relieved of other responsibility in connection with Juvenile delinquency in view of the ex-tensive and varied increase in the children's protective work. Might Not Suit Here.

"It must be remembered that the size and population of a city has much to do with the question of a juvenile court, and what might be in pressing demand in Denver or Toronto, might not suit or be adapted to the condi-

Young fellows who took positiones at the time are row rated above the old-timers, it is said, and will have first call on the best runs on the sys- hurrled to Clark and Randolph

RASH SO BAD BABY CAME NEAR DYING

Head Broke Out, Spread to Arms, Legs and Entire Body. Itched So He Would Scratch Until Blood Ran. One Box of Cuticura Ointment and Nearly One Calle of Cuticura Soap Curod Him, Has Had No Return.

"When my boy was about three months old, his head broke out with a rash which was very tichy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skin, He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws.

"He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. He was cured more than twenty years ago, and there has been no return of the trouble. I shall be giad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Maitland, Jasper, Ontario, May 27, 1910.

For more than a generation mothers have found a speedy, agreeable and economical treatment for their skin-tortured little ones in Cuticurs Soap and Ointment. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole props., 63 Columbus Ave., Boston, U.S.A.

London, Jan. 9. - The Times in an editorial this morning protests that Great Britain and Russia can hardly e expected to tolerate the Persian arangement with respect to the treasaryship. It says that the two powers are willing to facilitate a loan to Persia if a treasurer-general satisfactory to them is appointed, and other reasonable conditions are fulfilled. adds the Times, the present shillyshally policy is only making matters worse, and the question of sending another British expedition into Southern Persia may have to be considered, and possibly the immediate occupation of the harbors on the gulf

ctresses are looking for work here now," was the statement from the Rowland Clifford offices, which closed der of his daughter over a year ago. three companies recently. "Usually, when the new year comes around there are a large number of companies going out, but this year it is "all coming in and nothing going out."

Harry Askin, manager of the La Salle Opera House, who has several companies on the road, has just closed one, "The Girl I Love," but is preparing another "Louisiana Lou" company for the road.

"There are hundreds of chorus girls here now looking for places, where way to a school in New York City usually it is hard to find any at this time of year," he said.

"Small dramatic and musical companies have had a hard season," said A. Milo Bennett, a veteran Chicago ooking agent, "Two companies came in yesterday from Ohio, and I have word that many others are closing or about to close.

"Managers are complaining that they cannot get enough shows, and the owners of the companies are saying they cannot get audiences. I am placing a large number with southern stock companies, but hundreds are going to be out of work during the cold spell, I am afraid."

# It is Womanlike To Want The Best

Two dining-room accessories that have always found favor with women are the coffee percolator and the chafing dish.

Both enable the bostess to add the personal touch of hospitality to the refreshment offered her guests.

Women, nowdays, insist upon E ectric chasing dishes and Electric coffee percolators.

The ease and cleanliness of operation appeal strongly. No alcohol lamps have to be filled, wicks trimmed, or danger of fire incurred.

The proverbial uncertainty of the alcohol lamp as a cooking agent is eliminated, and a steady, even and intense heat secured as long as desired.

And the Electric chafing dish and the Electric coffee percolator are always ready for instant use.

# DEATH CALLS THREE ALVINSTON RESIDENTS

Miss Tessie Risk, Hugh Ferguson and Mrs. Rae Pass Away.

[Special to The Advertiser.] Alvinston, Jan. 10 .- The funeral of Miss Tessie E. Risk was held from the home of her parents Mr. and Mrs. Jacob Risk, this afternoon, and was very largely attended. Rev. C. F. Logan conducted the services. Miss Risk was 22 years of age, and died after an illness extending over some time. Besides her parents, she is survived by four brothers, Herbert, of Cargill, Ont. Sherman, of Detroit, and Milton and Arnold, of the Northwest.

The death occurred at his home in Mosa, near here, of Hugh Ferguson, an old resident of this vicinity. He had been ill for some time. His wife predeceased him 30 years ago. Besides three daughters, he leaves the following sons: Alex., John and Dan, Mosa, and Duncan and Archibald, in

BIG PRICE FOR BIBLE

Twenty-Seven Thousand Dollars for Famous Guttenberg Book. [Canadian Press.]

New York, Jan. 10. - In less than two minutes bidding for a Bible ran up to \$27,500 at last night's session of the Hoe library auction. The treasure was a copy of the famous Guttenberg Bible of 1450, the original of which was sold from the Hoe collection last spring for \$50,000. The bidding for last night's offering was spirited, with Bernard Quaritch, of London, the ag-

gressor and final winner. Mr. Quaritch was previously an owner of the Bible, having purchased it from Lord Ashburnham, for \$15,000, and later selling it, he said, to Mr Hoe, at an advanced price of \$1,500.

DEAD PLACED AT SIX

Two Watchmen of Safe Deposit Com-pany Are Still Missing—Body of Battalion Chief Walsh Has Not Been Found.

[Canadian Press.] New York, Jan. 10. — A white-hot

furnace still glowed fiercely in the cellars of the ruined Equitable buildefforts of the firemen to drown out the flames. Chief Kenton doubted whether flames. Chief Kenton doubted whether the fire would be completely extinguished before nightfall. The blaze is now confined, however, to the heaped up ruins in the cellars, for above the the first story nothing is left save the incrustations of gleaming ice. Pilasters and ornaments bear coatings of ice which in some places is two feet thick, while the surface of Broadway and the other streets surrounding the ruins are sheathed with ice to a depth of from one to three feet.

All night long, under the glare of three powerful searchlights, from the Singer tower, ice-covered firemen poured in streams from 20 nozzles. Until the flames are completely extinguished, little effort can be made to reach the vaults, where securities and papers valued at \$1,500,000,000, are

Whether a new and more magnificent ome will be erected on the same site

for the Equitable Life is a question nto which enter several elements of loubt. The site is the most valuable ingle piece of property in New York City, and for several years plans have been on file with the city building department for the erection of a 62-story building to cost \$25,000,000. The building would be the tallest in the world, 200 feet higher than the Metropolitan Tower, and 150 feet loftier than the Woolworth building now in course of onstruction.

But under the New York State laws affecting insurance companies, such companies are permitted to own and hold real estate solely for the purposes of their own business, and would remain within the discretion of the state insurance department whether the society would be violating the law if it erected a building the major part of which would be rented to tenants in no way connected with its business. A statement by E. E. Rittenhouse, conservation commissioner for the Equitable, says that no definite action will be taken for a few days.

"As a matter of fact," he says, "there has been some talk of late to the effect that a life insurance company ought not to have a big building. Anyhow, definite decision has yet been

Practical Address Given at Institute Meeting Held In St. Marys.

[Staff Special.] St. Marys, Jan. 9.—D. James, of York County, who addressed the Farmers' institute here yesterday, is optimistic regarding the future of the institute movement in Ontario. "Taken on the whole," he said, "the outlook is very encouraging. At Mitchell yesterday 50 armers turned out, although it was the roughest kind of a day, and the attendance here was very good considering the weather. Some of the secretaries have reported a falling off in attendance since the refusal of the Gueiph Fat Stock Show management o give free admission to members in ood standing."

Growing Alfalfa. Mr. James, who is an authority on alfalfa raising, gave an interesting talk on the methods of caring for this crop. "To successfully grow alfalfa," said, "the soil must be sufficiently rolling not to retain water, so that the young plants will not be nipped by frost while still in the ground. If the ground is wet it should be underdrained. It is also essential that the and be put in good condition previous year. Charged With Blocking Crossing for Longer Time Than Law Allows.

[Special to The Advertiser.] Chatham Jan. 9.—Robert Windrum, P. R. conductor, residing in London, ppeared in court here today in connection with a charge of blocking Centre street crossing, for more than five ninutes. He asked that the case be adjourned for a week to allow him time to have the brakeman and other memto plead, but said that if he did commit the offence it was through ignorance of the existing regulations. All of the witnesses for the prosecution were present. City Solicitor O. L.

Lewis appeared for the city. It is probable that some action be taken against the brakeman of the train. On the day in question Mayor Brackin was present at the crossing and was one of the delayed pedestrians. OPERATING MACHINE He remeasurated with the train crew and the brakeman, it is alleged, be-

A case of cruelty to animals was tried before Squire Chittick and Capt. T. E. Robson this morning. William England, of Westminster Township, was charged by Inspector Sanders, of the Humane Society, with not properly bedding and feeding some hogs kept on his premises.

Squire Chittick was in favor of imosing a fine, but Capt, Robson, in ew of the scarcity of straw and provnder at this season was inclined eniency. The two magistrates compromised by allowing England to go on suspended sentence.

## REPLACING KITCHENS

Force at Hospital for Insane Clears Up the Debris.

Wor kon arranging temporary equipment for the kitchens at the London Hospital for the Insane, which were put out of commission by the collapse of a wall, following the big fire there a week ago, is being rushed through, and it is expected that the plant will be in shape for service shortly.

Tte steam heating pipes, wrich were cut off by the fall of the bricks in the gable above the engine room, have been replaced, and the institution is now in fairly comfortable shape.

The plans for replacing the amusement hall have not as yet been ratified by the department at Ottawa, and no announcement is expected for a few days.

Close Their Visit There by Winning From Victorias-Were Nine Points to Good.

Quebec, Jan. 9 .- The Scotch curlers brought their visit to a close this evening and have gone to Montreal, where they will meet the brithers of the roarin' game in a series of matches beginning tomorrow. On their two days' play in the Ancient Capital the Scotsmen lead with nine points. They pulled out ahead on Monday with four shots to the good. This morning they accumulated four more, and this afternoon in the Victoria Rink matches they added another one. Today's events were very interest

ing, and the closeness of the play in nearly every match aroused great enthusiasm.

The morning games were well contested, the visitors being defeated by Quebec by four shots, but defeating Victoria by eight.

There were two very exciting games at the Victoria Rink in the evening when Skip Colley, of Victoria, and Skip Riddall, of the visitors, split even with 14 each. On the other side, there was a battle royal between Skip Harry Thomson, of Victoria, and Skip J. G. Kennie, of the visitors, the latter winning out by the lean majority of one shot. The game was not decided until the very last stone was
