BROTHER ENGLISHMEN.

HANDS CLASPED ACROSS THE BRITISH-AMERICAN FRONTIER

Greetings from Sons of England of Canada to the Sons of St. George in Meeting Assembled at Detroit, Michigan - Re-

Detroit, Mich., Oct. 20.-The Sons of St. George Supreme Lodge has been meeting here. After routine business a pleasant incident occurred in the shape of the reading of greetings from across the frontier, sent by Sons of England under the old flag at Windsor, Ont., just across the water from the city. It was as follows:

windsor, Oct., 19th, 1892.
To the Supreme Grand President and Assembled Delegates of the Sons of St. George, United States of America.
Greeting,—At the last regular meeting of the Prince of Wales Lodge held on Oct. 18th, 1892, it was unanimously resolved to tender you our congratulations, and trust that you will not forget that you are on the border of Her Majesty's domains and will avail your selves of the opportunity of paying our majesty's domains and will avail yourselves of the opportunity of paying our
city a visit. Although we are organized under a different name, yet we
realize the fact that you are fellowEnglishmen, striving to better the condition of our fellow-countrymen on this
continent, and we trust that your stay
in our vicinity may be pleasant and in our vicinity may be pleasant and that your deliberations may be profitable to your organization.

Signed on behalf of the above lodge.

THE REPLY. To this the following reply was

unanimously agreed to:

To the president, officers and members of Prince of Wales Lodge No. 52, Sons of England benevolent

society:
Fellow Englishmen,—Under instructions of the Supreme Lodge of the order Sons of St. George, we have the unalloyed pleasure to acknowledge your kind, fraternal greeting and congratulations to this body; also inviting us to avail ourselves of our close proximity to visit your city, over which floats the grand old flag, which we as men of English blood and English hearts must respect and esteem.

You may also rest assured that should circumstances prevent us as a body

You may also rest assured that should circumstances prevent us as a body from setting foot in Her Majesty's domains, we shall not fail to do so in our individual capacity.

Reciprocating your kind and cordial greeting, we indulge in the hope that some day the Sons of England and Sons of St. George may become as united in fact, as they are in spirit and nurrose.

purpose.

Respectfully yours, on behalf of the Supreme Lodge, Order Sons of St. George.

Lodge Neptune, No. 144, Winnipeg.

The above Lodge met on Monday, the 17th inst., in the Knights of Pythias Hall, Main street. There was a very good attendance, and, as is usual with this Lodge, more members were added to the roll.

Several questions of importance to the Lodge and Order were exhaustively discussed. Among other matters of interest was the report of the Auditors, Bros. Arundel and Freeman, who dwelt earnestly and emphatically on the importance of cultivating the interest of the members in all that related to the financial standing of the Lodge and Order. He pointed out how we sometimes feel inclined to devote our attention to other and less important considerations, although they likewise require atttention and belong to our legitimate business. But should our financial standing be weakened by Ottawa district, namely, at Ormsby in apathy or indifference the very key- the Peterborough district and at Sudstone of our position would be taken bury.

away and our claim to prosperity seriously endangered, Bro, Freeman com plimented the Secretary on the satisfactory condition in which the Auditors found his books. He asked the Lodge to give him strict attention while he read the report, as it was only by this report the members could know the position the Lodge stood in.

During the quarter, sixteen candida tes had been initiated, making a total of 103. There was a balance to the credit of the Lodge after all liabilities being paid of \$282.87 the amount in the Bank drawing interest, being, \$200.

In moving that the report be accepted Bro. Gravely said that he was agree ably surprised to find the Lodge in such a good financial position, seeing that Lodges in Manitoba were under a very great expense compared with Lodges in some of the eastern cities.

THE LATEST ADDITION TO THE JUVENILE LODGES.

"Queen of the West" The New Western Juvenile Lodge. Winnipeg Oct. 28.—The Queen of the West, No. 25, is the style and title of this Juvenile Lodge, S.O.E., instituted in the city last evening. In response to the announcement of the opening proceedings a number of English citizens assembled at the St. George's rooms for the purpose of forming the Lodge with the usual ceremonial of the order.

The gathering rapidly assumed such proportions that it was found necessary to adjourn to more commodious quarters, which were, by the prompt kindness of the letter carriers' association, found in Trades' Hall, Clements block.

The meeting was called to order, and the ceremonies conducted by Bro. T. C. Andrews, acting district deputy for the

Editor ANGLO-SAXON Dear Sir and Brother:-Enclosed you will please find a list containing eleven names (I wish it was a hundred) also \$5.50, and I hope that the circulation will have been greatly extended this last two months.

If you would allow me I would suggest that you make all new subscriptions at the same rater-50c-for the balance of this year.

The Anglo-Saxon has brightened up wonderfully this last year and is getting better every month. I would like to see more news in it about some of the Juvenile Lodges. We are starting one here and would like to see some reports, and get a few ideas from some that are already going. What does the ANGLO-SAXON think about Juvenile Lodges and how can they be made most successful and useful?

HAMILTON'S CELEBRATION.

JOINT BANQUET OF LODGES AND THE NAVAL BRIGADE.

Memorable Cathering of the Pick of Hamilton's English Citizens-Speeches by Supreme Grand President Strond and Vice S. G. President Elliott and Others.

Hamilton, Ont., October 13.—Four hundred Sons of England, with the Supreme Grand President, Alderman Stroud of Ottawa at their head, dined together last night. The occasion was the annual banquet of the Sonsof England Lodges and Naval Brigade of Hamilton. The banquet was laid in the Naval Brigade Armory, and proved in

the annual banquet of the Sons of England Lodges and Naval Brigade of Hamilton. The banquet was laid in the Naval Brigade Armory, and proved in some respects one of the most interesting gatherings of the pick of the English element in our midst, ever held in this part of the country. Caterer Lewis provided the edibles, and the excellent band of the Naval Brigade, under bandmaster Sheppard, the music. The hall was decorated in a manner that every true English heart appreciated, the grand old Union Jack being a conspicuous feature.

The chair was filled by D. G. P. William Hunt, to where geniality and able management much of the success of the evening was due. Among the distinguished guests were: Supreme Grand President, Ald. Stroud, Ottawa; Grand Vice-President, Ald. Thos. Elliott (Brantford); Hon, J. M. Gibson, Mayor Blaicher, Mr. Alex. McKay, M.P.; Mr. N. Awrey, M. P. P.; U. S. Consul Monaghan, Chief McKinnon, Mr. R. Hutcheson, of St. Andrew's Society; Ald. Hancock. Mr. C. R. Smith, Capt. W. Kerr, Mr. Geo. Mason, Mr. John Tulk, Mr. B. Winnifrith, Dr. Philp, Mr. C. D. Blachford, Dr. Baugh, Major Barnard, Mr. George Hacker, Dr. Cockburn and Bro. A. Hannaford. The vice-chair was occupied by Bro. E. F. Smith, Past President of the Rose of England Lodge. The members of the Naval Brigade were in uniform. Her Majesty the Queen was of course the first on the toast list. The toast was received with cheers and the National Anthem.

eceived with cheers and the National Anthem.

Anthem.
The toast of the Governor General followed. Past President Thomas Mason, of St. George's Society spoke appropriately to the toast.
Next came a toast that was received with an enthusiasm second only to that of the Queen, namely, the Supreme Grand Lodge.

Supreme Grand President, Alderman Stroud responded, being greeted with a perfect ovation. He spoke in his well-known concise, business-like, practical manner, going straight to the point as he always does, and covering more ground in a few brief well-chosen sentences than most men do in lengthy speeches. After expressing his high appreciation of the flattering manner in which the toast had been received. He went on refer in terms of the highwent on refer in terms of the highest encouragement to the splendid gress made by the Order S.O.E. increase in numbers, as shown by the official statistics, was he said, most

official statistics, was he said, most satisfactory.

In 1882 there were only eighteen lodges, with a total of about 1,000 members; whereas in 1892 there were in existence 164 lodges, representing over 10,000 members. A total of \$12,000 had been paid this year to the widows of deceased brethren. The matter of the increase this year in membership not being so great as in other years was explained by the fact that new ground had been covered by the order in past years, which yielded a greater increase in membership than could be obtained now when the order was fairly estab-

now when the order was fairly established. He gave encouraging reports of the progress of the order in Quebec and other provinces.

The Supreme Grand President then entered into other details of the progress of the order, giving an immense quantity of valuable information. He dealt among other things with the extension of the Order to South Africa where there are already five prosperous of the Order to South Africa where there are already five prosperous Lodges in existence, and to England, where a commencement was shortly to be made as fully reported in the columns of the Anglo-Saxon.

THE S. G. V.-P.'S SPEECH.

Bro. Alderman Elliott, of Brantford, Supreme Grand Vice-President, also spoke in a practical, effective way in re-

ference to the working of the order. He stated that the subordinate lodges had at present \$52,000 in the funds, which he pronounced a good showing considering the membership. An effort to establish the order in England had been made, but it was found harder to work up in England, where the need of it was not felt than here in Canada work up in England, where the need of it was not felt, than here in Canada where we had people like Prof. Goldwin Smith, who tell us we should abandon the old flag and that our interests lie in the direction of annexation. Canada, however, possesses resources which make her independent and with which which we can defy any country. (Hear, hear.) Let other nations pass what bills they like, and try to shut us out by taxation on canals, and we will band closer together and remain loyal to and sustain the empire. His injunction to the members was to go on and prosper.

The assemblage showed their appreciation of the speakers' stirring words by singing with magnificent effect as one man, "Rule Britannia."

The toast of "The American Republic," was next given, and the band struckup "Marching Through Georgia." (Consul Monaghan responded in a speech that showed him a born talker.

THE ENGLISH DISCOVERERS OF

It should be noted that in the course of the speech-making frequent references were made to its being Columbus Day and to the discovery of America by Christopher Columbus. Mr. McKay, M.P., pointed out the absurdity of glorifying Columbus as the "discoverer" of this continent when it had been established by historical records the authenticity of which left no room for question that before Columbus "discovered" America, it was known to many countries and had been visited by many mariners, and settlements founded. Among the "discoverers" who preceeded Columbus, and one who did far more than Columbus to make the country known was a well known merchant captain of the famous old English seaport of Bristol—Cabot. The recorded facts relating to Cabot's discoveries established the priority of the voyages beyond dispute. Cabot's discovery was made under the auspices of Henry VII, King of England. Christopher Columbus discovered islands adjacent to the mainland, but Cabot preceded him as a discovere of the continent.

Supreme Grand President Stroud and Supreme Grand Vice President Elliott are making an unusually large number of visits to the Lodges of the Order throughout the country. Never in the history of the Order have there been such earnest and devoted efforts to bring the Lodges into touch with the Grand Lodge officers. The result has been a splendid increase of vitality. Wherever the S.G.P. and S.G.V.P. have gone the members have rallied like one man and given them a truehearted English welcome, and received in return the advantage of the extended experience and sagacious counsel of those zealous officers.

The amount of good done by those official visitations has been so marked, the wish is widely expressed that some sort of arrangement should be entered into whereby some prominent Grand Lodge officer may devote a great part of his time to making the rounds of the Lodges in need of advice, help or the personal attendance of such an officer. The life's blood of the Order has been quickened the length and breadth of the land by these visitations, and it is most desirable a system of regular visitations should be established.

With this object in view, and voicing not only our own opinion but that of many prominent brethren with whom we have been in communication, from the Atlantic to the Pacific, we suggest to the Grand Lodge Executive whether The Ladies, responded to by Bro.

The former, from the very nature of his position, must be well fitted for the performance of this important task. His familiarity with the details of organization, and wide acquaintance with the personnel of the Lodge, mark him out as one specially qualified for such a work. Some provision would have to be made for the performance of his Grand Lodge Secretarial duties in the intervals of absence from headquarters. It would necessitate some slight outlay, but the Grand Lodge machinery which was ample for a small organization, is becoming inadequate for our rapidly growing Order. It must be added to as needs increase, and one of the first of the newly developed requirements of the situation is a regular system of Lodge visitation by a Grand Lodge officer.

Gathering—Interesting Speeches.

St. Thomas, Ont., Oct. 18.—Chester Lodge No. 18, had a memorable gathering last night for the unveiling of the beautiful portrait in oil of Her Most Gracious Majesty Queen Victoria. The portrait was painted by Mr. R. H. Whale, the well-known artist and is a splendid work of art; and framed in antique oak gilt by Squance & Co. The ceremony took place at the Opera House, and was largely attended not only by the elite of English society, but by the most prominent British and Canadian residents generally.

SPEECHES.

The Chairman opened the business of the evening with a most appreciative speech. He congratulated the Lodge on having provided their lodge-room with so fine and so appropriate a portrait as that of Her Majesty which they were shortly to enjoy the privilege of seeing unveiled. He believed Lodge Chester, S.O.E. was the first lodge of the Order in Ontario to supply their lodge-room with such a painting. Competent judges had pronounced the portrait not only to be creditable to St. Thomas, but to any artist. He thought it a good idea to provide such a painting while the subject of it was alive. Our Queen was not only a noble monarch, but a grand woman and a good mother.

THE UNVEILING.

Two ladies, Daughters of England, Misses Yeo and Upton, then drew aside the curtain which veiled the portrait at the back of the stage, the band playing "God Save the Queen." followed by "The Red, White and Blue," the audience rising.

The oration of the evening was then delivered by Bro. Dr. J. S. King, of Toronto, P.S.G.P. of the Order.

The very air, he said, was redolent of themes, whiether one gazed on the beautiful portrait of Her Majesty, on the women who were there, the better half of mankind, or the brotherhood present, humanitarian, patriotic and fraternal. The reason the Queen was so revered was because of her noble womanhood. She is the peerless sovereign of a peerless empire. Though she has attained to an old age, Providence seems to be preserving her life, not only in the interests of the British nation, but of humanity. What a noble woman for mothers to imitate! The Sons of England owe much to the aid of woman. Man owes much to her in the flerce battles of life would not ask for it the smiles and cement its members in patriotic bonds, he would not ask for it the smiles and support of women.

cement its members in patriotic bonds, he would not ask for it the smiles and support of women.

It is as much a duty to teach loyalty as the common principles of education. As Sons of England they were not banded together simply to perpetuate the English name, or to present a bold front to any other nationality. English-Canadians wished to have the daughter Canada still united to the mother England. He hoped England, and by England he meant Great Britain, and her colonies, would yet be united in a grand confederation. The newsboys in London when asked by his friend Mr. Rich, did not know what annexation meant; we don't know, and we don't want to know what annexation meant; we don't know what annexation meant;

newsboys in London when asked by his friend Mr. Rich, did not know what annexation meant; we don't know, and we don't want to know what can't be.

The nucleus of the Sons of England consisted of eight men, who bound themselves to aid each other in getting employment, or to see that none would want, if out of employment. Out of this had grown the first lodge, Albion, now having 500 members. Other Lodges followed until they were in the two hundred with 10,000 members, providing death and sick benefits as a right, not doled out by the cold handof charity. The society was also intended to perpetuate the British Constitution. Loyalty to England meant none the less loyalty to Canada. We should also be loyal to humanity and help to raise each other up. He predicted a glorious future for the Order. The Grand Lodge had instructed a committee to prepare a new constitution providing for a

DEATH OF A WINNIPEG BROTHER.

Tribute of Affection from Neptune Lodge
An Argument for the Beneficiary Fand.

Winnipeg, Oct, 8—At the last meeting of Lodge Neptune No. 144. It being quarterly night there was a very good attendance. Three new members were added to our roll, and four applications for membership were read. Still to a stranger visiting our Lodge it would seem that something was wrong. He would have seen indications of sadness all around the room that he could not understand until at last his eyes would catch the charter draped with crape as an intimation that one of our members had passed away.

During the Order of General Business the following motion was unanimously carried by a Standing Vote.

Moved by Bro. W. Troughton, seconded by Bro. J. Heaton, — "That the members of this Lodge desire to convey to Mrs. Tiley and members of her family their deep sense of regret at the loss which they have sustained by the death of our late lamented brother, George Tiley; and they further desire to express their heartfelt sympathies with his sorrowing relatives and friends in their sad bereavement.

"It is gratifying to know that our late brother, by his exemplary life and conduct had endeared himself to all with whom he came in contact, and his loss is much regretted, but we are assured that the many christian virtues which marked his life will be a source of consolation to you in this time of your affliction. Signed on behalf of the members. W. Jones, President; W. G. Stubbs, Rec. Secretary.

Our late Bro. George Tiley was a chartered member of our Lodge. He took a very active part in furthering the interest of the society. When a brother who has given his time to the Order that others may be benefited by it is taken from us, it brings to our mind the words of our immortal Sheakespeare:

AN IMPORTANT CONSTITUTION-AL CHANGE SUGGESTED.

Northwest Brother Proposes a New Pro cedure in the Matter of Degree Lodges -An Argument Put Forth for Discussion.

Winnipeg, Oct. 17.—It seems a deree of Providence that all things English must be governed by a precedent, so when the young giant, Sons of England, was ushered into the world it claimed that tremendous code, the British Constitution, for its paternal relative, its mentor and its guide. Of course it would not be quite nice to allude here to its birth amid sordid surroundings and so on, but we will proceed to propel our vehicle along the following route. It appears that in all constitutional forms of government where the representatives are elected by the

SUFFRAGES OF THE PEOPLE,

that it is necessary to divide those representatives into three orders—aleader who has more or less absolute power, the rank and file composing the "membership" of the assembly, with yet a third element containing within itself a force emanating from both the others as it were, which enables it to at times act as a curb, or break, upon either factor, and so preventing undue preponderance.

Admitting the truth of these premises it must be evident to every person who thinks at all about such matters, that thinks at all about such matters, that such a combination is capable of almost any amount of complications. Some of the combines can be arranged to give the head, be it sovereign, president, doge, or by whatever name it may be called, practically unlimited power, or it may, as is the case in England, leave the chief magistrate a mere figurehead.

THE DIFFICULTY

Men have their entrance and their gratts, and in thine play many parts.

A walking shadow who frets his in more on the stage and then is seen no more.

Gone from the stage of life is one who has played his part nobly and well. He has made his exit to be seen no more.

The magnitude of so small a word as exit can be fully realized by all who knew our late brother; to us it conveys the absence of a sincere friend, a Brother who by his actions had proved to be true to his God, true to his country and an ornament to society.

AN ARGUMENT FOR THE BENEFICIARY FUND.

There is one more thought that this lamentable circumstance conveys to my mind, namely, the importance of taking up a life policy in the Beneficiary Department. I am sorry to say our late Bro. Tiley was not a member of this important branch of our society. Three members of our Lodge have now passed away and not one of them was in the Beneficiary. This matter is worth the serious consideration of our members. Think how often we see a widow with a small family forced to marry a man she can never love in order to get the necessaries of life for her children. There are many things that a woman is compelled to do that is left with three of four children that she would not do had her husband left her a sufficient amount to keep her and her children from starving.

I have spoken to some of our members about this and they have told methey are going to join but they cannot raise the money just now. Now, this is all bosh. There is not one of us who is in work but can join this Department, and I take it as a duty I owe to my wife and children. There are going to join but they cannot raise the money just now. Now, this is all bosh. There is not one of us who is in work but can join this Department, and I take it as a duty I owe to my wife and children. The opportunity was an unusual one for exchanging views on matters of great-importance relating to the Order, Supreme Grand President Stroud and Supreme Grand Vice-President Elliott were both present. In view of the presence of strangers aud aliens, much that they would have said of special interest and value to the Order as well as to Englishmen and Britishers generally would, no doubt be held back in defenrence to the guests and in the interests of harmony.

Again, what a reversal of custom, usage, habit, the accepted ways of Englishmen, and the general fitness of things, placing the toast of the "American Republic" before "England." It was probably done out of an exaggerated feeling of courtesy to and obsequiesness. There are two that the offensive bunting be taken down. You will find on the toast list I enclose sandwiched in between "The Queen" and "England," on the above occasion, the "American Republic."

It is charitable to assume this was done, either, as I said before, in an exaggerated and mistaken idea of courtesy, or if not, then in absolute, bare naked, absolute, downright ignorance of the usages and customs of English

Good News from Edmonton, N. W. T

Bro. W. H. Clarke, a member of Albion Lodge, No. 1, three months ago left Toronto for Edmondton, N.W.T., to make his fortune, and by the letters received from him he is in a fair way of accomplishing his object; but we are glad to hear that he has a more noble object in view, for he has written for all particulars as how to go about forming a lodge of the Sons of England. He says he can hunt up quite a few Englishmen, although Edmonton is a Scotch settlement. They have a good S.O.E. Lodge at Calgary, which is about 200 miles away, so he is very anxious to have a Lodge where he is.

It was torn from the staff, but the Stars and Stripes still waved. Mr. Hall does not know who tore down the emblem of his country, but says if he finds out he will make it hot for him. He has sent a letter to the British Consul requesting him to take measures to make it a punishable offence to insult the British flag.

Mr. Hall said to a World reporter yesterday that he had a suspicion who tore down the flag, but was unprepared make a specific charge. The neighbors belive it was the work of a few wicked boys in the neighborhood.

Heavy Losses in Wales.

During the heavy rain storms the mail driver between Hawarden and Chester had a narrow escape from death, the lightning throwing him off his van on to the high road. In Colwyn Bay there was a waterspout. In Flintshire the rainfall was of almost tropical violence. The Alyn, a tributary of the Dee, speedily overflowed its banks at Rhydymwyn, and blocked the Chester, Mold, and Denbigh line.

Heavy losses of cattle are reported. The lower part of the city of St. Asaph, which is situated on the banks of the Elwy, was completely flooded. Numerous buildings hove been washed down, and several narrow escapes are reported. Heavy Losses in Wales.

The Welsh farmers are suffering terribly, the corn, as yet ungathered, being utterly ruined.

Temperance Legislation. At the annual meeting of the North of England Temperance League at Newcastle-on-Tyne, it was resolved so advise the Government so keep any so advise the Government so keep any licensing reform measure apart from a measure enacting the direct popular veto, for this conference warns the Government that on the question of licensing reform no unanimity on the part of temperance reformers can be relied upon. A resolution in favor of Sunday closing was carried, and so was this resolution, "That this conference is of opinion that to relegate the function of licensing to county councils would, by the introduction of other issues, hinder rather than help us to issues, hinder rather than help us to secure our object. It therefore reaffirms its faith in the direct veto of the people on the issue of licenses as a simple and constitutional method of dealing with the manifold evils of intemperance."

Long Hours and Railway Accidents.

Major H. A. Yorke, in his report to the Board of Trade on a collision on August 21 at Leman Street, on the Great Eastern Railway, when a good many persons were injured, says that the collision was due to forgetfulness on the part of a signalman, whose momentary error should not, in view of all the circumstances, be judged too severely. As to the driver, who travelled 540 yards before he found out that he was on the wrong road, Major Yorke does not think that he can be fairly charged with carelessness. He feels it his duty, however, to draw attention to the long hours of duty of this man on the two days preceding the collision. The attention of the reader is directed to the letter signed "A Son of England," under the head, "The Order has changed all that," in this issue. There is one statement in it which need not be further indicated in these columns, that should sink into the mind of every reader of the ANGLO-SAXON.

CANADIAN POLITICS.

We are constantly asked why the Anglo-Saxon does not bang away full meaning, we may point out that whilst tilt at more of the political questions of our contemporary publishes in the the day. There is no need to be in a issue from which the above extracts violent hurry. Burning crises have a were taken exactly four lodge cards way of cropping up quite often enough outside Toronto, where it is published, without going out hunting for them. At the present moment no one in particular seems to be treading on Englishmen's corns in Canada. We have done all that is necessary in calling attention through our news columns to the only questions of live interest that really affect Englishmen in Canada to an extent calling for notice just now. Readers of our news columns can scarcely fail to have had their minds stored with facts relating to these subjects that will prove of use when occasion arises. If there is one way more nonsensical than another of expending energy that ought to be stored up for a fight when the hour of need arrives, it is that of constantly hammering away at matters of remote consequence. There is a great deal to be done towards consolidating the English in Canada before effective political action of a general character can be taken. In the meantime, no better work presents really affect Englishmen in Canada to

itself than that of arousing interest in such practical everyday matters for example as the occupation of the vacant lands of British America, by British settlers and capital. Here is a practical question that involves issues relating to British connection, British trade, British well being in this country, British influence in the councils of the land, and many other things affecting the material interests of every man, woman and child of our race. Such questions may not be visible politics, but they are the fundamental elements of politics and of all social economics of the slightest value to the British on the American continent.

ACKNOWLEDGMENTS.

We have to thank our Toronto contemporary for a handsome acknowledgment of the work the Anglo SAXON is doing for the Sons of England. The editor writes: "No one is more willing than I to acknowledge the claims of the Anglo-Saxon as an organ working arduously and ably for the unification, consolidation, and supremacy of the English race and British interests." * * * and again, "that the Anglo-Saxon is doing a grand work I gladly admit."

The editor however objects to "the statement that it (the ANGLO-SAXON) is the only paper published in the English language devoted to the cause, and continues: "I must ask my brother editor not to deny the English Canadian that recognition which is justly her due. A journal which has been officially recognized by the Grand Lodge of the Sons of England, the most powerful corporate body of Englishmen in the Dominion, can fairly claim a foremost place among the organs devoted to the interests of the brotherhood of Englishmen."

What the Anglo-Saxon claimed was, not that it was the "only" paper published, "devoted to the cause," but that it was the "only" paper published "singly, solely and exclusively" to promote English unification, consolidaspecial and sole planks of its journalistic platform. There are several news papers published in the interests of the Sons of England, Sons of St. George, and other societies which are almost wholly English, but we were not aware that any of these had for their "sole" and "exclusive" platform the above clearly and briefly defined planks. Most of them are weekly newspapers devoted in the main to British connection and English interests, and also giving a good deal of attention to other matters of general import, miscellaneous news, newspaper clippings, and such like compilations usually found in more or less carefully edited syndicate plate. To speak of such newspapers as "simply, solely and exclusively" devoted to the

However as our contemporary wishes "simply, solely and exclusively" the our contemporary being "officially" connection we may ourselves without impropriety or in the slightest degree desiring to put the ANGLO-SAXON unduly forward, acknowledge with thankfulness the official recognition extended to the Anglo-Saxon by so large a number of Lodges S. We should imagine if any question arose in the mind of any reader of the paper regarding the intentions of the lodges, Order Daughters of England and Sons of England as to the organ they have selected and intend to uphold as their official newspaper repre sentative, the above list would settle it. We do not put this forward in a spirit of self-laudation, or with a desire to depreciate the value of our ally's services in the good cause, but merely as a matter-of-fact statement called forth by our contemporary's observations. We gladly take this opportunity of making our Toronto brother the amplest amends in our power if unintentionally we have done him an injustice, and we welcome him most cordially as an ally on the same platform and with the same planks as the Anglo-Saxon. Long may the healthy, generous, fraternal rivalry that should be the fruits of such an alliance continue.

A MISTAKE.

Our attention has been called to a somewhat embarassing feature of the Hamilton celebration which was not mentioned in the report of the proceedings sent to us and which appears on another page, or in any other report that we have seen, and is scarcely likely to be. We refer to the fact that, owing probably to an unfortunate inadvertance, guests were invited to the banquet who were not in the slightest degree in sympathy with the Order S.O.E., and at least one who represented an antagonistic class. We believe in holding ont the olive branch when the olive brauch is wanted, but we also believe it will be anything but conducive to the interests of the Order S.O.E. to admit unsympathetic elements when they can be left out without anything being sacrificed. On the occasion in question the presence of the element referred to might naturally be expected to seal the lips to a great extent of the S.O.E. members who were intending to speak. The latter, out of I asked him if I could not send it to you. cases like this and others mentioned in the last issue of the ANGLOSAXON in which the benefits of last issue of the Lodge S. O. E. has done so much to help it along. The right hand of fellowuninteresting generalities rather than this. I am very sorry I did not know of give voice to sentiments liable to be this sooner or I might easily have sent misconstrued. Hence an unusual opportunity of exchanging views would, be lost, never to recur. It is impossible to talk with freedom on topics nearest the heart in the presence of strangers and aliens completely out of sympathy with the aims and objects of the speakers. Hostife action has been taken by our neighbors to injure our trade, and in many of the relations of life life that go to make up the sum of national welfare, action that in various respects is as bad almost as a state of war, and is constantly encouraging a feeling akin to that of enemies by land and sea. To go out of one's way to assume an attitude of hospitality and cordiality under such circumstances does certainly appear somewhat strange.

In offering these remarks we do not in the slightest degree intend to reflect on our Hamilton brethren; very far from it. We have no means of knowing how the mistake arose and would be the last in the world to fasten a stigma on auyone not shown conclusive to deserve it. But we trust there will be no more incidents of the same sort. When we want to meet outsiders and talk over things in general it is hardly necessary to organize a banquet of the Order S. O. E. for the purpose Nobody goes to divine service to smoke a pipe or to a billiard room to hear divine service. A certain amount of respect should always be shown for the

A District Rich in Gold for Which Several Carloads of Machinery are on the Way Other Northwestern Notes.

Winnipeg. Oct. 28.-Mr. D. B. Burdett arrived from the South yesterday on his way to the Gold Hill mines, eighteen miles below Rat Portage. Mr. Burdett is the vice-president of the Northern Gold Mining company. He is an old Canadian, his old home being in Belleville, Ont.

Mr. Burdett was seen at the station while waiting for the train, by a reporter. He said he was on his way to open up the mines. A large amount of machinery to operate the mines had been shipped ahead, and it is the intention to have it commenced by December 15th of this year.

The machinery is of the Leedes' process, which by a long study Mr. Burdett has found superior to any other machinery used between the Atlantic and the Pacific. They shipped three car loads south which was tested by the process. Prof. Leedes is a graduate of Germany, where he attended one of the best mining schools for eighteen years, and then had eleven years experience in the mines of North and South America. He is also mining engineer of the Comstock mines of Nevada, controlled by the famous syndicate. consisting of Senator Jones, I R Mackay and others.

The professor visited the Gold Hill mines over a year ago and by discoveries and observations pronounced them rich. He also prophesied that the surrounding district was adapted for rich mines. He made a test of the ore and pronounced it very refractory, but rich in

Mr. Burdette said that Leedes' process is the only one in the world that treats the refactory ores of the Lake of the Woods, and in a short time the other mines will be operated by the system. Forty or fifty men will be employed in them mines.

The ore will be refined to gold bricks which will be shipped to Ottawa as fast as made. Next Monday a number of capitalists who are shareholders in the Northern Gold Minning Co., will leave Minneapolis for the mines on a tour of inspection. Among the number are J. L. Record, the heavy Minneapolis contractor; Col. P. A. Hinkell, capitalist Major L. Cass. lumber dealer; D. F. Gray and Geo. Copeland, superintendent of the St. Paul and Duluth railway. J. L. Record is the president. Mr. Burdette proceeded to the mines last evening.

Strawberries in Manitoba in October.

Mr. Smith, Immigration Office, Winnipeg Dear Sir,-I send you by to-day's mail parcel containing second-growth wild strawberries picked yesterday by Mr. Chas. Burrows on his farm, 32-5-10. He picked several cupfuls to show his friends. you a much larger quantity, as Mr. Burrows has, unfortunately, preserved or used what he has picked. Mr. Burrows' place is about a mile north of the village of Swan Lake.

Yours very truly, W. N. HANEY.

There seem to be large quantities of grain moving, as our small town of Belmont is unusually busy with farmers marketing their wheat.

Two or three of our British settlers contemplate taking a trip to the Old Sod this winter, and I hope they will have a good time and return full of hard work for next spring.

The other day I visited the Ingram horse ranche, and was pleased to see the stock looking so well. He has a very good selection of horses, mostly for driving purposes, which are the young stock of his celebrated stallion, St. Elmo. It seems a pity that the ranche is hidden away in the bush, as few people outside are aware of his excellent stock.

The GOLD BRICKS FROM THE ORES creamery industry will this year have turned 10,000 pounds of first class butter, thely from the farm's own cows; operations in this direction will be considerably enlarged next spring, and a creamery station will be made at Silver Creek, 12 miles from the Barnardo farm, where milk will be collected and separated, and the cream then drawn to headquarters. London, Oct. 21.—An interview with Mr. Foster, the Minister of Finance of the Dominion of Canada, who is now in England, appears in this morning's Chronicle. Mr. Foster admitted to the interviewer that he had come to England with Mr. Abbott, the Canadian Premier, to negotiate with the Imperial Government for a permanent strengthening of Canadian interests at Washington and other capitals. Mr. Foster added that the annexationists in Canada were few in number and of little importance.

British Purchases from Canada.

The British Board of Trade returns ssued on Wednesday, show that exports to Canada increased one per cent. in nine months ended September, and imports from Canada increased 16 per cent. Butter increased £25,000; cheese £29,000; wood, nearly a million steri

An Exodus the Other Way.

Pittsburg Pennsylvania Times: Immigration Inspector, Robert D. Lawson, has returned from a tour of the lake ports of entry, where he was investigating immigration from Canada. To his surprise he found that more people are leaving the United States for the Dominion than are coming in. An unusual number have crossed the great lakes en route to Canada this year, and they were not all tourists or cashiers, but quite a number of settlers from the States went there to live. The number of immigrants from Canada has been smaller than usual.

Pandering to the Anti-British.

Ottawa Citizen, (Oct. 20.)-The influence of the anti-British sentiment in the United States is shown in the failure of the American press to condemn the ruffian who tore down the British flag displayed by a resident of Brooklyn on Columbus day. It is also shown in the fact that Mr. Blaine in the first speech he has made in this campaign appealed to Irish voters to oppose free trade and the Democratic party, be. cause England was favorable to the former. A still more extraordinary illustration of this fact is found in the circumstance that Cleveland is being charged with the atrocious crime of having stopped at the "Victoria" Hotel while in New York.

The Order Has Changed All That.

Editor Anglo-Saxon:-Having read letters in your valuable paper recently in regard to opening the gates to Irish and Scotch, I cannot rest without entering my protest against such a thing being member of the Sons of England, in fact almost one of its founders, I know a little of what prompted the foundation of the Society. Had it not been for the clannishness of Scotchmen and the adhesiveness of the Irish I don't suppose the Sons of England would ever have been instituted.

Before the Society was formed, it was almost next to imposible for an Englishman to find employment, not ecause he was an inferior workman, but for the simple reason that he was an Englishman. Today this state of things is changed through our banding together, and assisting one another, and instead we are looked upon as a power in the land, and I feel proud of

our Society.

I have no ill feeling towards the Scotch or Irish; far from it, my hand is always open to greet them, and my purse to assist them.

The Sons of England are doing a noble work in the Dominion, and the people are beginning to realize it. Trusting the Supreme Grand Lodge will not entertain such a question, believe me to be a true

Lands Taken Possession of for Nebraska, U. S., Farmers Extensiae of Railway

Facilities the Macleod. Farmers Coming in from Nebraska. Winnipeg, Oct. 12.—A party of representative delegates from Nebraska, who have been inspecting the Northwest, have returned to the city well There I gazed on such a scene as I satisfied with their observations in the west. The delegates were Messrs. Gadsden, Code, Williams, Chronister, Custard, Briggs and Edmundson. The district to which these gentlemen paid special attention is that between Calgary and Edmonton, and their observations have resulted in the purchase of 6,000 acres immediately adjoining Olds station. These lands will all be taken up by Nebraskans, who are anxious to better their condition. Many of the settlers are ex-Canadians. who have found out that Nebraska is not the "paradise" it was painted, Thirty-five families will leave Nebraska next spring for Olds. Nearly all are practical farmers, and are possessed of capital. Among the number will be a banker and several merchants.

The delegates are all loud in their praises of the west. They say it is the most perfect country for the settler they have yet visited. All are well pleased with the courtesy shown by the immigration offices in Manitoba and the Territories, who could not do too much for them.

Visitors From Michigan,

Battleford, Oct. 14.—This district was visited this week by a delegation of twelve gentlemen from Michigan, who were under the charge of Mr. James Anderson, Dominion immigration agent. Teams were placed at their disposal by Inspector Howe, of the N. W.M.P., and the local immigration committee showed them over a large area of country and they returned in time to be present at the annual exhibition of the agricultural society. They were also invited to and were present at the annual dinner of the society.

During the toasts Mr. Clinkskill, replying to "Our Local Legislature," took occasion to point out the leniency of our laws, as affecting the farmer.

An address, expressive of the high opinion which the delegates had conceived of this district as an agricultural country was then read by one of their

Dr. Collison, of Norfolk, St. Lawrence county, New York State, and H. W. Nash, of Brockville, Ont., has just returned from a prospecting tour in the Edmonton district and proceed homeward at once. The doctor is so favorably impressed with the capabilities and prospects of Northern Alberta that he has determined to make his future home there. He has invested several thousand dollars in South Edmonton town lots and will next spring erect a drug store and commence practising medicine in the new town, Dr. Collison believes he can induce quite a number of farmers around his old home to accompany him to Edmonton. Mr. Nash has also invested pretty heavily in South Edmonton town lots and Dr. Collison have great faith in the future of Northern Alberta, and more particularly in the town site South Edmonton, which they claim has many advantages as a town site over the old town on the north side of the river.

He was very favorably impressed with both British Columbia and the Northwest. Vanconver, he says, appears to be steadily progressing and will be a great place.

On the other hand Seattle and T. Washington Territory appear to be undergoing a re-action after a too vigorous booming.

In British Columbia mining is booming.

In British Columbia mining is booming. In the Illicilewset district he saw mines away up in the mountains thousands of feet, in places, where he wondered how people could even climb to much less carry on work. One mine owner showed him a sample of lead ore (12 per cent. silver) of which he claimed there were 40,000 tons in sight, not to speak of what was out of sight.

The Northwest Mr. Allen regards as a grand agricultural country. He thinks the whole western part of Canada to the coast has a grand future. Ottawa he looks on as a very fine city. In British Columbia mining is booming

We now pass by the remarkable attempted invasion of England by the Armada, and record the stirring story of England's naval struggles with the Dutch. The latter had long been the terror of the seas and had inflicted serious loss and injuries upon English interests, and the trouble culminated in the most sanguinary succession of sea fights the world has ever seen. The Dutch had the preponderance of ships, guns and men, and Van Tromp, their Admiral, carried at his masthead a broom, signifying that he would sweep the seas of the English. being published, as it might be the means of helping to relieve others whose sufferings were the same or similar to what his had been.

His story was as follows:

"My name is Philander Hyde. I am nearly 70 years old—will be 70 in September. I was born in Brookfield, Madison county, where all my life was spent until recently, when becoming helpless, my son-in-law was kind enough to take me into his home, and from him and my daughter 1 have had the kindest care. My life occupation has been that of a farmer. I was always prosperious and well and strong and rugged until two years ago last winter, when I had the grip. When the grip left me I had a sensation of numbness in my legs, which gradually grew to be stiff at the joints and very painful. I felt the stiffness in my feet first, and the pain and stiffness extended to my knees and to my hip joints, and to the bowels and stomach and prevented digestion. To move the bowels I was compelled to take great quantities of castor oil.

"While I was in this condition, cold feelings would begin in my feet and streak up my legs to my back and would follow the whole length of my backbone. These spells, which occurred daily, would last from two to four hours and were excruciatingly painful. I could not sleep, I had no appetite, I became helpless, and life was such a burden that I prayed for death. Yhy, my dear sir, the pain I suffered was more to be dreaded than a thousand deaths.

"While in this condition I was treated by the free of Poolsville and Dreaded the pain I suffered was more to be dreaded than a thousand deaths.

Facts of Value to Old Country Producers Who Have Settled in British America \$10,000,000 Less English Wheat Than Last Year.

London, Oct. 14.-In making our final estimate of the harvest of the year 1892, we are brought face to face with a most serious condition of affairs, at all events with respect to the wheat crop. It cannot be said, however, that the position is entirely unexpected, because during the whole of the season this cereal has been in a condition which promised nothing like an

On June 1 the prospect was particularly bad, for the estimates which were made for Great Britain did not reach higher than 88'9 per cent., and very little change took place during that month. By the end of July there had been an improvement to something like 3 per cent, in the appearance of the wheat, and some hope was indulged in that it might, with favorable weather, appreach something near to, if not quite, an average crop. The condition of the plant, combined with the weather, prevented this desired for consummation, and during the month of August a great falling-off was observ-

WHY GROW WHEAT?

London, Oct. 7 .- Mr. Walter Wren writes to the Times: "It is quite clear from your reports that we can buy better wheat than we can grow, and cheaper. Then, why grow it? Why this wheat and bread superstition at all? People who can get plenty of who agreed that men earning 25s. a meat, fish, vegetables and fruit, want very little bread. What is the average daily consumption of bread by the readers of the Times? Shall we say a quarter of a pound per day? I not suffer any alteration in their don't believe it is as much. If there is a demand for flour bread, and therefore wheat in England, there will be a supply. Never mind where it comes from. The better and cheaper it is, the I read that American wheat is of ing whether it is made of Russian or Indian or American or Australian or English flour? From what I have read far rather have bread for my own eating made of American wheat.

Why not see the fact that our climate is unsuitable for growing wheat and workmen employed by Messrs. Cochpotatoes, as compared with more ram & Co., bridge and girder manufavored countries? What is to be done, then? Why do not cultivators of the met their employers, and, in order to soil study market reports? There has assist them to compete in the iron been a strong demand, a brisk inquiry, markets, have consented to submit to etc., for

Our cultivators have at their doors the finest market in the world, where they decline to compete with their foreign rivals in those products in which really foreigners cannot be their rivals. There is a strong demand for the best FRESH ENGLISH BUTTER.

A very small percentage of us ever taste it. There's a strong demand for new-laid eggs. Foreigners cannot supply 'new-laid' eggs at all. We eat others by millions, going without 'newlaid.

Apples are in strong demand. We pay 2d. and 3d. a pound for them at the grocer's. Twopence a pound is 9s. 4d. per bushel; lots of apples are sold in car and fell down a 15 foot embarkment, country district for 2s. 6d. or 3s. a bushel. Almost or quite all

Tomatoes and mushrooms have been selling in London at 9d. and 1s. 3d. a pound. There is an enormous demand for all kinds of hardy vegetables in all our large towns and cities. Let farmers study the market reports. They will see what is in demand, and the good prices paid, and therefore what our growers should grow. I have not gone into the meat question or the horsebreeding question, or the poultry question, or the game question. Space for-

FARMERS' CAPITAL LOST.

Mr. Arthur B. Markham returns to the subject of wheat-growing, which, he repeats, is unprofitable because English land bears an artificial value. "The majority of farmers in this country have lost a large amount of their capital during the past few years, and this capital has been, to a great extent, paid to the landlords.'.

ENGLISH CAPITAL AND LABOR

Cheshire Agricultural Laborers.

Mr. Richards, Government Commissioner, recently held an inquiry at Nantwich as to the condition of the Cheshire agricultural laborers. There was a good attendance of gentlemen interested in the question, among those present being Messrs. Henry Tollemache, M.P., Charles Rundell, M.P., and Colonel Cotton-Jodrell, M. The deterioration continued during P. The complaint was general that there was not a sufficiency of laborers for present requirements. There had been a large decrease in the number of \$10,000,000 LESS THAN THE AVERAGE agricultural laborers during the past This figure is nearly 10 per cent. lower 15 years, though there had been an improvement in the rate of wages. REDUCTIONS OF WAGES.

Almost the whole of the shipyard workers on the Wear have now accepted a reduction in wages. The latest section to submit to the employers' terms were the general laborers, week, and men earning 21s. and less than 25s. a reduction of 6d. a week, while men earning less than 21s. should present wage. The reduction comes into force in November.

If this decision is accepted for a good many past years, I would by the various societies a deputation will wait upon the masters.

Owing to the serious depression in the South Staffordshire iron trade, the facturers, Woodside, near Dudley, have a reduction of 5 per cent. in wages all round. The workmen number nearly 1,000.

ed Havec in Colorado Denver, Col, October 14.- A special from Cheyenne received at I o'clock this morning, says: For nearly three days the severest storm ever known on the Union Pacific railroad has been raging here and as far west as Ogden, Utah. In all directions telegraphic communication was cut off until to-night when this despatch was sent through on a temporary wire. All railroads have been blocked, the cuts being filed with snow which in some places is piled up 18 feet. Rotary snow plows have been hard at work between Granite Canyon and Laramie, the snow being 5ft. deep on the level at the latter place.

At Granite Canyon, Conductor Roberts yesterday was blown off the platform of a the deep snow saving his life. Reports are being received of immense losses of cattle and horses in Northern Colorado

NORTHWESTERN LODGE NEWS.

FIRST MEETING OF THE NEWLY LODGE.

Ex-Mayor Pearson, a Member of Westward Ho !, and the Mayorality-Grewl About Belaved Correspondence.

Winnipeg, Oct. 22.-At last the Fate which has been so long delayed is now upon us; for the first time this season the very thinnest of ice formed in exposed situations. For the first time in the experience of modern Winnipeggers, tomatoes and other gourds have ripened without any set back; in fact the profusion in which all kinds of flowers and the more delicate productions of the vegetable world have abounded has rendered them almost a drug on the market, and the florests have suffered in their business as a result of nature's bounty. The civic authorities have just woke up to the fact that a general cleansing and scavenging of backyards and so forth is necessary as a condition to successfully meet the exigencies of what may possibly arise in the coming spring. Whether in anticipation of a rapidly increasing revenue, or from a desire to make a show of work accomplished during their now nearly passed term of office, these same authorities are high busy laying down side-walks on the most extensive scale in those places where they may be most seen, though not perhaps, do the most good. For years the city has been blamed for its parsimony in the matter of improvements in public works, but it must be confessed the broom which was new last December has made a clean sweep of all the old ways of doing things, and the probability is, will at its demise, now in a few short weeks, confer upon us a legacy of endless litigation.

A SON OF ENGLAND FOR MAYOR. Ex-mayor Pearson who for two years was at the head of civic affairs, has just returned from a lengthened tour in Europe. Whether he will or will not be a candidate for civic honors has not yet even been mooted, but one thing is pretty certain, which is he is about the best man we can find to lift city affairs out of the muddle into which the heedless activity of the present combination has plunged them. Should he make up his mind to enter the struggle he has the advantage of being a member of Westward Ho Lodge of the S.O.E., and that fact should lump him all the votes available within the Order in this city if for no other reason than the fact that he previously filled the office with credit to himself, sparing neither time or pains, and thus reflecting honor upon the judgment of the friends who elected him to office.

THE SONS OF ENGLAND here suffer under several disadvantages from the fact of the Supreme Grand Lodge being so remote. It takes a week, even when no time is lost in sending the reply; to send a letter and get the answer. This alone would be bad enough, but when months pass by and affairs of moment which have been submitted for approval or review, do not even get the courtesy of an answer at all, it really would seem if the Order home. The foregoing statement in regard to neglected correspondence does not apply in an apply in a contract of the Department of the Interior, will give his "Views in England" and "Through the Rockies" not apply in any sense to the S. G. Secretary or his office.

LODGE SHAKESPEARE, NO.164, S.O.E. held its first meeting in Knights of Pythias Hall on the evening of the 10th inst. As might well be expected there was a full attendance not only of its members but of visiting brothers from the other Lodges. Considering this occasion was the first under which the new machine attempted to work automatically, there was very little friction, and everything glided smoothly along. The officers are certainly to be congratulated on the facility with which they comprehended and carried out their individual duties. Unfortunately, speaking for those members who had entered into the holy estate, the immense amount of business necessary to be gone through with compelled a very

One of the most important features of the evening's business was the installation of officers for the ensuing term. This ceremonial on account of the unavoidable absence of the D.D. the Rev. Canon Coombes was presided over by Bro. T. C. Andrews, President improved this year, and every Son of Codge, who is the esteemed editor of Westward Ho No. 98, assisted by England should subscribe for it. OTTAWA LODGE NOTES.

Question of Relieving the Congestion of Population in England and Developing the British Northwest.

Derby and Stanley lodges were present, and a most enjoyable evening was spent.

Bro. W. H. Snelling, Pres., took the situation in, and finding there was no business of a serious or important nathre to be brought before the lodge, cancelled all orders of business, and proceeded with the object of the visit, by inviting the visiting brethren to address the lodge. President Bro. Geo. Brown, of Stanley lodge, made a brief and pointed address, assuring the members that Stanley lodge, he was glad to say was like Russell lodge, adding steadily to the roll of members, and consolidating und uniting Englishmen in the city to act as a unit.

Bro. L. Williams, V. P., of Derby lodge also made a few remarks, follow ing up the previous speaker, and made some pointed illustrations of the benefit the Order was becoming to Englishmen. Songs was sung by Bros. Foss, Pain, Parker, Kemp and others, to the great delight of all present. Bros. Jas. Hope, Ald. J. Hawken and Geo. J. Wilson, made happy allusion to the visit.

Bro. Wilson emphased his remarks by telling the brethren that the time was dawning upon the Englishmen of this country that an effort should be made by them to introduce the advantages Canada possesses as a field for the over populated districts of England, and the Sons of England should be in the front, fully equipped to assist in the great undertaking of settling our Northwest. Bro. Wilson has travelled through the territories several times and consequently speaks with great power on these parts of our

Stanley lodge held its regular meeting on Thursday 27th, Bro. Geo. Brown in the chair. The business of the evening was the balloting for candidates. Two propositions for membership were received. This lodge struck a committee to report upon the advisability of holding a concert or social. Bro. House, of Russell lodge, addressed the lodge upon his visit to Quebec. He assisted at the opening of the lodge in the citidal city, and said the brethren of Quebec were of the right material.

Bro. H. Bolton, Royal City Lodge, Guelph, in sending a list of subscribers for the Anglo-Saxon, reports that the regular meeting of the lodge was a good one. Three applications for enrolment as members were received, and the balance of the year, and there is a bright future before it.

Kent Lodge No. 3 Still Advancing. Bro. J. W. Williams sends us the

following excellent report: The 356th meeting of Kent Lodge No. At the last meeting of Russell lodge, 3 was held in Lodge Room Shaftsbury held in Albert Hall, Stanley Avenue, a | man, Toronto, on Meanney, Oct. 24th large number of the brethren from There was a large attendance of members. Bro. W. H. Hewlett, the W.P., occupied the chair.

There were four brethren reported sick. There were two members accept ed by clearance, two initiations and five propositions, so you see the illustrious No. 3 is still holding her own and not dropping into old fogeydom.

There was considerable business done. The Auditors' report was read, report of Committee on the recent dinner, &c.

There were four applications for class B of beneficiary.

Marked Improvement.

A prominent member of Kent Lodge, SAXON a budget of Lodge notes, writes: membership largely before spring. "I wish you every success. No one can read the paper without noticing the very marked improvement in it."

Salisbury Lodge, No. 42.

Salisbury lodge held their regular fortnightly meeting on Thursday night, W. P., Bro. Smart presiding. There was a fairly good attendance of members and throughout the proceedings the usual perfect unanimity prevailed. The managing committee reported favorably on the progress made in the condition of the sick brethren under their care.

A very pleasing feature of the evenng was the handing over to the lodge for safe keeping, of the beautiful silver cricket trophy won by the Brantford brethren at their recent Grandview picnic. The splendid cherry wood case in which the trophy is placed, adds greatly to its appearance and reflects the utmost credit on the maker Bro. C. Dunnett.

" A Welcome Visitor."

Bro. Laurason, Secretary of Londes borough Lodge, No. 143, in sending on the lodge card for insertion in the Anglo-Saxon, writes: "The Anglo-SAXON is a welcome visitor. I would not like to be without it and I will be able to send you more subscribers before long."

Lodge Oxford, Belleville. Old Oxford, No. 17, is doing well. New members are coming in and taking the places of those who are dropping out, and growing all the time. We are aware that it has been the policy of French nationalist governants to close the province of Quebec as far as practicable against British immigration, and hold it exclusively for the French and French-Canadians, and for all we know to the contrary there may be no vacant lands left and no openings for Englishmen or English capital in the Eastern Townships; but some information on the subject would

We have to thank Bro. Hunt, D.D. G.P., Hamilton, for a most interesting budget of western Lodge news. Bro. Hunt is President for the second time of Britannia Lodge No. 8, and one of the most energetic and devoted members of the Order.

Bro. Hunt writes: "I consider your splendid paper deserves the hearty support of our members. In our Lodge we have already a club of twenty names. We hope to double that number soon.

"I have asked your agent, Bro Fisher, to write to you for terms to end a copy to a friend of mine in England. He is a Sergeant in the Metropolitan police, London.
