PURITY FLOUR
And Its Keeping Qualities

SOME people find it necessary to buy a considerable quantity
 of flour at one time—sufficient to last for a long period.
 Naturally they are anxious to procure a flour of the kind best
 adapted to lengthy storage.

There are two important reasons why **PURITY FLOUR**
 possesses these qualities. One is that it is made entirely from
 Manitoba Hard Wheat. The other lies in the fact that the careful
 milling necessary to produce "Purity" absolutely excludes all
 low-grade particles of the wheat berry. It's the high grade
 Manitoba Hard Wheat Flour that keeps—stands longest storage.

That's "Purity."
 "Purity" flour may cost a little more,
 but is more than worth the difference.
 Try it. Watch results both for quality
 and yield.

CHAPTER VIII.

AN ETERNAL PARTING.

HERE may come a time when—she will meet some more worthy man—whom she will feel that—she can love. Should it—ever come, I beg that you will persuade her never to allow me to stand in her way. There is a law that will free her from the yoke with which I have fettered her life. I beg that you will entreat her to use it. I am not sorry to have you know how I suffer the shame that I have brought upon you, and I assure you that death would be a thousand times easier. It may be some consolation to you to know that I am punished for my fault as men seldom are. There is nothing more that I can say, for words but seem to add insult to the disgrace with which I have stamped you. It is an eternal good-by, sir. This is the only compensation that I can make you.

He did not wait for a reply, but left the room add the house. Very slowly, after the manner of a man who

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Dovedale, Sask.—"I was a sufferer from female weakness—monthly periods irregular and painful and a bad discharge, backache and wretched headache, and had felt weak ever since the birth of my twins. I tried doctors but got no relief. I began to take Lydia E. Pinkham's Vegetable Compound, and after three weeks I was feeling much better, and now I am well again."

Another Woman Cured. "Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a different woman. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold to suffering women."

—Mrs. MARY WOOD, R.F.D. 2, if you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, irregularities, backache, and nervous prostration.

had said farewell to every hope, he walked down the winding shell-strewn path that led to the highway. He paused for a moment beneath the shade of one of the giant elms, when he was screened from the house, and took from his pocket a miniature upon ivory.

It was one of herself that Virginia Beaufort had given him, and as his eyes rested upon the lovely face he raised it to his lips and kissed it.

"I ought to have left it, I suppose," he muttered. "That would have been the honorable thing to do; but—with almost cruel-scorn—when have I paused to consider the 'honorable thing to do'? It is all I have left that holds me to life. My—wife! my wife! Oh, God! if I had only been worthy."

A great sob, wrung from the core of his heart, burst from his lips. His grief was beyond tears; but his white, agonized face told the story all too clearly.

"It is a just punishment," he whispered to the picture. "I have deserved it all, and more. She trusted me, and I willfully betrayed her. Thank God! there is not a trace of blame in my heart for her, but only self-censure, self-lathing. I might have known how it would be; but if I had only had time to prove to her that I am not the scoundrel she believes me now there might have been hope for me. But it was not the intention of that fiend to allow me any such opportunity as that. His revenge was the only thing that he considered, and he sacrificed everything to that end. Curse him! I will find him—I will find him, and—But, no! I shall only add to the disgrace that I have brought upon her. In spite of everything, she is my wife, and I must protect the name she bears from further shame. I must endure anything for her sake. I pray Heaven that I may never see him, for in that moment I think I should go mad and not be accountable for my acts. Well, I have brought it all upon myself. I was not a child, that Lilford Loyd-Mostyn could lead me into a course without my desire. It seems that I was willing enough to play the scoundrel, that I required little persuasion; and now that the end has come I have only myself to blame—only myself."

But the reflection did not bring much comfort.

He turned, and, standing upon a mound, looked back at the house that he had left.

"Good-by, my darling," he muttered hoarsely. "If I only knew that you were happy I could bear this better; but I am doing all I can, in bidding you an eternal farewell."

No power could have described the anguish of the last words; but, after they were uttered, he turned his back, and, not permitting himself another look, walked away.

A train was drawing into the depot when he reached it. He bought his ticket for New York and boarded it.

He threw himself upon the seat in the car and drew his hat down so that his face was concealed from curious gaze, his own misery blinding him, so that he did not care for those round him.

He lived again through those long, delicious summer days, through the sweet serenity to which he had listened in the pretty ivy clad church where she had sworn to "love, honor, and obey" him—him, an outcast, an impostor, a suspected murderer.

He remembered how proud and happy he had been, remembered it with self-scorn.

He wasted none of his sympathy upon himself; his was the scorn, the contempt, the abhorrence. The sympathy, the tenderness, all for her.

And as he dreamed, the train drew into the city, the great, bustling city that has no time to pause and think of broken hearts, any more than the vast, turbulent ocean has time to pause and contemplate the breaking of a billow.

No one cared whether he was suffering or happy; and, with a feeling of weariness, of isolation, of death, he jostled through the throng that crowded the depot and entered the street.

He was absolutely alone in the world, with a hideous curse, for which he was not responsible, resting upon his life.

He was innocent, yet branded with the mark of Cain. He was penniless, or almost so; helpless from the fearful blight upon his existence, broken-hearted from the terrible grief that had darkened the whole world to the hue of ink for him; and as it all came over him with renewed terror, as he was filled with a desperation that knows no power of description, he turned around and found himself face to face with Lilford Loyd-Mostyn!

CHAPTER XI.

A Prison Cell and a Fortune.

WITH a low breath, that smothered an oath, Devereux swung round in front of Loyd-Mostyn, coming to a sudden halt.

All the white-heat agony had left his countenance, and in its place the crimson flame of rage seared and scorched like the red-hot breath of a carbon fire.

A livid flash whitened Loyd-Mostyn's face, his fear concealed beneath the cool sneer that curved his lips.

"Well!" he said grimly.

Devereux was forced to gulp back his ferocious wrath before he could reply.

"Fiend!" he ejaculated hoarsely. "You infernal, cowardly demon, when you had succeeded in ruining the life of a pure woman, you slunk away like the dog you are, to escape the punishment which you knew was in store for you. It is well that I have met you when I am unarmed, for I should have shot you down without the warning of an instant."

Loyd-Mostyn shrugged his shoulders carelessly.

"I have not the remotest doubt of it," he returned calmly. "Murder runs in the blood, doesn't it?"

An oath, that would not bear repetition, fell from Devereux's lips. His fingers opened and shut, as

Father Morrissey's Lung Tonic

Cured Miles Maroney of Serious Lung Trouble.

Blissfield, N.B., Dec. 26, 1909. Father Morrissey Medicine Co. Ltd.

As a patient of Father Morrissey's I would thank you for an opportunity of giving expression to the benefits I have received from his prescriptions and medicines, not on one occasion but at different times.

Some eight years ago I had occasion to apply to the Rev. gentleman for treatment for lung trouble which proved to be of a serious nature; so serious was my case that my friends looked upon my recovery as almost hopeless, but after his treatment I am thankful to say that to-day I am in perfect health.

On Feb. 26, 1907, I had occasion to ask his advice and treatment for a lame back. I received a prescription which gave me immediate relief.

Thanking you, I am Yours faithfully, Miles MARONEY.

though closing spasmodically over the white throat that he longed to strangle.

"Listen to me!" he said, with that slow scorn that shows but too clearly that ever word is meant and more.

"You have brought a curse upon my life, beside which the stain of murder sinks into insignificance, and entirely without cause. You betrayed me while playing the part of the noblest of friends. For all that I might forgive you, because it was done only to me, but for the wrong you have done to her—to a pure and innocent woman, you must suffer. There is no thing that can cleanse it but blood! You have got to fight!"

Loyd-Mostyn laughed.

"You grow dramatic," he sneered. "Do you know how duelling is punishable? Do you want to die as your brother did?"

"Silence!" cried Devereux through his locked teeth, his eyes flashing fire. "A husband has the right to protect the honor of his wife. You have given me that right yourself. Listen, while I tell you what it is I demand. There is a secluded patch of woods near High Bridge. Meet me there. We shall need neither seconds nor surgeons, for the duel will be to the death. There is no reason that the world should receive any explanation. Put your visiting card in your pocket, as I shall mine, it will be sufficient."

The coldness of the tone bore its own meaning.

To be continued.

News was received here a few days ago of the loss of the schr. Pleasant Times, Capt. Davis, at Dead Island, recently. The crew are coming home by the S. S. Invermore.

A friend writing us from Placentia Bay mentions the death of Miss May Emberley, of Bruley, which took place at that settlement last week. This young girl, although only 15 years of age, was very popular, and her sweet disposition and winning ways endeared her to all with whom she came in contact.

Friends came from far and near to visit her during her last days, and her funeral, which took place last week, was attended by friends from all the surrounding settlements. The beautiful casket containing the remains was covered with flowers sent by sorrowing friends. The sympathy of the whole Bay goes to the bereaved parents in the death of this their only child.

The lads of the Columbia Cadet Corps paraded to the Cathedral last evening, and on returning took a turn around town. When their uniforms arrive and the lads turn out on parade, they will look well. The kindness of the officers and others in organizing the brigade for the benefit of the boys should be appreciated by all interested. The boys should show their gratitude by regular attendance at drill, and obedience to all the rules of the Brigade. The officers are to be congratulated on last night's turn out.

CRICKET WILL BOOM.

Each Saturday the past month young men, mostly of the central and upper parts of the West End, have played some interesting cricket matches and have shown that they are not novices at the game. Three excellent clubs are now in being and these meet each Saturday and play well contested matches on a nice crease which is suitable on meadowland off Shaw's Lane. In these aggregations are some excellent bowlers, one especially, a young chap named Stephens, having come under the notice of the members of the older teams for excellence in this department of the game. Besides these clubs, others are in process of formation. Funds will be raised during the winter and the best kind of cricket stock purchased in the spring, so that cricket will boom here next summer.

SALE AT HALF PRICE.—We are now offering and will continue to offer during all of next week, a very pretty assortment of silverware, cut glass, etc., at half price. See our window for your bargain. Notes From Harbor Grace.

Quite a large number of passengers left by the express last evening for Sydney, Seattle, Boston and other places, and among them several females who go to join their husbands, sons, etc., and will make their homes in these places.

Monday morning brought us our first touch of winter—half and snow, with cold north wind.

Mr. James Dove, one of the Water Company's employees, picked up a monster eel in Bannerman Lake brook a few days ago. It measured 4 1/2 feet and was six inches around. It had evidently got caught in the shoal brook and perished.

Mr. John Fynn and his son Herbert arrived by Monday's express from Marble Mountains, C. B., where they had been engaged the past summer.

Mr. Stewart Noel, of the South Side, leaves in a day or two for New York where he takes a good position on a steamboat for the winter months. Stewart is a very popular young man, and his numerous friends will wish him much success.

A very enjoyable berry-picking party was held on the South Side hills one day last week. The youth and beauty of the North as well the South Side were well represented. One young gentleman volunteered to act as steward, and the way he accomplished his important duties was much appreciated by the fair sex. That little mischief maker—cupid—was there, and one heart, although smitten by him, was made happy even if others were a little disappointed.

Mr. Richard Joy, the young man who met with an accident, resulting in the loss of his hand at King's Cove, last summer, left by yesterday's train for Coachman's Cove, where he enters upon his work as teacher. A number of his friends were at the station to see him off, and to wish him much success in his new work.

The Evening Chit-Chat

By RUTH CAMERON

I am over thirty. All my girl chums are married. I do not think that I shall ever marry. I might as well make up my mind to that. But even if I am not going to marry, I am not going to be an 'old maid,' not so our kind. I have decided that, and I have also decided that the way to do it is to keep in touch with young life. Since I am to have no children of my own, I am going to try to be interested in and as much with my girl friends' children as is possible.

That is the decision that a young woman whom I know made a year ago.

And in that year it has actually so changed and sweetened her from the rather embittered and self-sufficient young person which she was then, that her acquaintances are continually saying to each other:

"What has come over Louise? She has improved so."

And that decision is the secret. Isn't it a splendid one?

Think of the people that have been affected by it.

There are Louise's friends who today enjoy her bright, jolly presence. Whereas a year ago they almost avoided her caustic, self-sufficient ways.

There are Louise's father and mother, who are delighted beyond words at having their daughter so much happier and more contented.

There are the half dozen of her friends' children who have learned to call her "Aunt Louise," and to rush to the door to greet her whenever she comes to see them.

And best of all, there is Louise herself, who is replacing discontent and dreariness and unrest by contentment and peace and serenity.

I remember years ago hearing a very fine unmarried woman of forty five or fifty say, as she looked at another woman's baby:

"That is the hardest thing in my life to me. I don't mind so much being called an old maid. I don't mind so much not being a wife, but the terrible thing is to think that I shall never be a mother—that no little boy or girl will ever say that dear word 'mother' to me."

It seems to me as if deep down in her heart every unmarried woman must have the same feeling, and cannot think of anything finer than her friends' determination to be another by proxy, since she cannot be a real one.

I wonder if there are not some unmarried women among my readers who might make their own and their friends' lives sweeter by adopting that resolution.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Household Notes.

A little muriatic acid added to the rinsing water after a blue or white rug is scrubbed with soap and water will help restore the color.

A perforated rubber mat is almost an essential when the drain board of the sink is of porcelain. It saves many an ugly chip on fine china.

Arrowroot is excellent for thickening sauces made of fruit juices as it neither clouds the mixture nor destroys the flavor of the fruit.

The small jars in which candy sometimes comes should be saved for picnic use and lunches, as they are excellent for carrying salad and sauces.

For almond cake filling, Blanche and pound a pound of almonds, add two eggs, a cupful of sugar and a teaspoonful of vanilla and spread between layers.

Cooked beets, hollowed out and pickled in spiced vinegar, may be filled with minced celery and apple and served on lettuce leaves with oil and vinegar.

A delicious flavor is added to the maraschino cherries used in or as a decoration for fruit or other salad by stuffing them with pecan nuts, chopped rather coarse.

A good plan is to place pieces of Canton flannel between plates when they are piled in the china closet. It reduces the danger of breakage and prevents rattling.

A clean cloth dipped in hot water, then in a saucer of bran, will speedily clean white paint without scratching it in the least. The soft bran acts like soap on the dirt.

For falling hair, try massaging the scalp nightly with a lotion of lime water and half an ounce of tincture of cantharides.

Cushion covers, especially designed for plaza use, come stencilled in most artistic designs, and may be had in a variety of colors: They are lenin, crash, burlap, men's cloth and linen.

Boiled radishes are dainty. Cut them into rounds about half an inch thick, boil ten minutes in slightly salted water and fry in butter until tender. They should be highly seasoned.

If the colored candles used for guest tables and other festive occasions become soiled before they are used, they can be nicely washed with a soft brush, white soap and warm water.

If fringed napkins look worn because the fringe is thin and uneven, cut it off, draw a few threads and hemstitch the napkins. They will make very attractive dollies and will last a long time.

A sticky bread or cake pan should not be cleaned with a knife or anything that will scratch the surface and make more sticking probable. A crust of bread is the best cleanser to use.

A good sponge cloth for the dining table can be made of a double thickness of white flannel, laid with the soft side on the inside and quilted on the machine, edged with binding of white tape.

When making a solid black chocolate cake, it is well to take it from the oven a moment before it seems done. A few minutes too much heat dries out the cake and it loses much of the flavor.

T. P. Union --- Officers' Report, 1910

To the Members of the St. John's Truckmen's Protective Union.

Gentlemen,—In accordance with our custom on similar occasions in the past, before vacating our offices, we wish to give you a brief resume of the affairs and workings of the Union during the past year, but before doing so will take advantage of this opportunity of congratulating the members upon the attainment of this its twelfth Anniversary.

The Union opened the year in October with a large and most enthusiastic meeting.

Early in the year, after some discussion, it was decided that a Delegate in connection with the Union be appointed, and the Executive were empowered to draft rules for his guidance. At a subsequent meeting he submitted same for your approval, and after a lengthy debate, participated in by many members, the following Resolution was moved and carried:

"Resolved,—That in the opinion of the Union a Delegate in connection with it is unnecessary, and no appointment of such should be made."

On Labor Day the Union in conjunction with the other Unions of the city took part in the celebrations, and we are pleased to report that in the various events of that day our members were most prominent and successful. We feel that we cannot of this opportunity pass without extending to our Brother Member, Mr. John Thomas, our hearty congratulations on his success in the Marathon Race, and in being the winner of the most coveted prize of the day, the beautiful cup donated by the Hon. the Premier, Sir E. P. Morris, and to Mr. Frank Jeans, the gentleman who coached our brother member, we extend most sincere thanks.

We also congratulate our brother members Messrs. Gregory Clooney, Jeremiah Clooney, William Dooly and John King who were the lucky winners of four gold and two silver medals which were the trophies awarded to them for gaining three first and three second places in the events competed in by them.

On Sept. 29th a dinner was held at Smithville at which many members and guests were present and had a most enjoyable time.

We have to again tender our thanks to the Mercantile Community, our Solicitor, Hon. Sir E. P. Morris, the Editors of the daily papers and the public generally for many acts of kindness extended to us during the year.

We are pleased to state that the health of the Union has been exceptionally good during the past year, there being no death within our ranks.

Twenty members were added to the roll during the year which now numbers 150.

The sum of Five Hundred and Seventy Dollars was paid from the funds within the year as benefits to members who through accidents were deprived of their horses.

Speaking in a general sense the Union has had a very successful year, and is in a good condition financially as you will see from the following extract from the Treasurer's report:

Balance on hand and cash in Bank, Oct. 1909.	\$943.77
Total amount received from all sources during the year.	558.14
	\$1,501.91
Expenses	\$873.42
Balance in Bank and cash on hand	628.49

In conclusion we wish to thank you for your kindness to us during the past year, and pray that God may in His wisdom guide you in the selection of our successors.

Signed on behalf of the officers:
NICHOLAS J. MURPHY, President.
JOHN J. NEVILLE, Secretary.

Daughters of the Empire.

In the British Hall at 3 p.m. yesterday a meeting was held to listen to a delegation from the Canadian Chapter of the Imperial Order of the Daughters of the Empire. The delegates consisted of Miss Merritt, Miss Auden, Miss Hughes and Miss Young.

Lady Horwood was called to the chair and introduced the Organizing Secretary who outlined the objects of the Society and made reference to work already accomplished.

The subject matter of the speech has already been set forth in the Evening Telegram. There is a Chapter of the Order in New York whose members are Newfoundlanders, and at their suggestion the visit was being paid. It was hoped to form an Imperial Chapter, shortly and to hold a Congress next year in London, much on the lines of the Imperial Press Conference.

On motion of Lady Whiteaway, seconded by Mrs. White, it was decided to form a National Chapter for Newfoundland. The election of officers was then proceeded with, and the first officers elected were:—President, Lady Horwood; Vice-President, Mrs. R. G. Reid; Second Vice-President, Mrs. W. C. Job; Treasurer, Mrs. J. A. Chitt; Standard Bearer, Miss Goodridge; Secretary, Mrs. C. Macpherson.

All the ladies in the audience signed the roll of the Order and became members. Other addresses of a pleasing nature were given by the ladies of the delegation.

In addition to the ladies in the

Fishermen, Be Careful.

Now that the fishermen are coming here to land their fish they should be careful and keep the cabins and forecastles of their craft secured when they leave their vessel, if they want to keep their property safe from the hands of certain tight-fingered gents who prowled around the docks. Tuesday night a man saw a suspicious character come out of the forecastle of a craft at an East End wharf. There was no person on board at the time and the stranger seemed to have a parcel under his arm. Whether it was stolen or not the man could not tell. Too often outboard men leave their crafts unprotected and with the different apartments on board open to all-comers. Such carelessness is almost like an invitation to the dishonest, and the wonder is that more thefts do not occur.

Invermore Arrived.

The S. S. Invermore, Capt. Jacob Kean, arrived here at 9.30 last night from Labrador, having connected with the Stella Maris at Hopedale. The ship brought 150 passengers across the Straits of Belle Isle, and landed them at the different Newfoundland ports of call, most of them leaving the ship at Carbonear, Harbor Grace and Brigus. The passengers in sail-look for St. John's were:—Mr. Geo. Wooty, Capt. Jensen, G. A. Sara, J. Burke, Rev. Mr. Bohaman, wife and family from Okak, going home to Germany; Mrs. Serrick and Capt. W. Bartlett; Capt. Bartlett's crew from Turnavick were landed at Brigus. The fishery was about closed down when the Invermore passed south, and all the schooners had left the coast. The ship brought a large freight including seal oil from Hopedale. The return trip was very stormy after leaving Cape Harrison. Another and a worse storm was met after crossing the Straits. The ship had to be driven seven hours of the Grey Islands. The cargo was badly shaken up and several casks of oil were broken. Being unable to get to Fannington on account of the big sea, raging Capt. Kean had to run for Snook's Arm. Three wrecked crews were brought up and landed at Carbonear and Harbor Grace. Two of the schooners were driven on shore, the third was destroyed by fire at Low Arm, near Snug Harbor. Murphy, of Carbonear, owned one schooner, and one belonging to Capt. Nath. Davis, of Harbor Grace, lost at Seal Island.

Thrown on Beam Ends

The little schr. Ophir, Capt. Wm. Maher, of Acquaforite, narrowly escaped going to bottom in coming from that port here on Saturday morning at 7 o'clock. As she came down the shore when off Cape Broyle Head a sudden squall from the W.S.W. came all the land and striking the schr. which was light in ballast, threw her on her beam ends and shifted the ballast. A tremendous sea was raised and for nearly two hours the sea was washed over by sea after sea. One of the men named Benjamin Craft was washed overboard, but was thrown back by the sea, and clung to the rail until the skipper grasped him and after a struggle got him on board, wet, chilled and exhausted. Leaving the skipper at the wheel the other man and boy on board had to get into the hold and trim the ballast, after which the ship stood on an even keel and was nursed into Bay Bulls, where she sheltered until Tuesday. The crew congratulated their friends of their experience and escape.

Railway News.

From Mr. W. D. Reid, President of the Reid Nfld. Co., who arrived here last evening, we got the following information about the progress on the work: The station at Seal Harbor is completed. A new station is also being completed at Seal Cove, Southward Bay. About two miles of snow fence are erected, the graders are now up to the 62nd mile. The axe men, who are clearing the right of way, will be ready by the week. The rest of the line from Trinity finished last Tuesday and the track, it is expected, will be laid into Trinity town by the end of the week. About a half mile of track is being laid per day.

Attacked by a Bear.

Mr. Joseph Fisher had an exciting experience with a female bear with a cub. He was returning from the woods and was walking the track when he suddenly came upon a female bear and her cub. The animal snarled and roared upon her hind legs as if to attack him. So close was he to the bear that he could not have used a weapon had he one in his possession. With rare presence of mind, however, he threw a bag he was carrying over the bear's head and made a run for it. The bear was non-plussed for a moment, but quickly recovered and threw off the bag, running after Fisher as she did so. Seeing that no hope lay in flight along the track, Mr. Fisher dashed down the bank into the river. The bear did not follow him, but it was some hours before Fisher ventured to leave his uncomfortable and chilly position. He returned home at an early hour in the morning, his clothes in ribbons and his flesh badly lacerated.—Western Star.

Passing of Mr. Dallas.

The business people of St. John's and many others in the city will learn with deep regret of the death of Mr. A. B. Dallas, which sad event occurred at Pernambuco, yesterday. Mr. E. B. Duder had a wire from that place giving the news of his death, which resulted from heart failure. It will be remembered that last year Mr. Dallas delivered a fluent and absorbingly interesting address before the Board of Trade. Since then he has been in a position in Brazil connected with Newfoundland's fishing and commercial interests, a post for which he was well qualified. His passing will be a loss to the business interests of this country in Brazil.

Marine Notes.

The schr. Mary Anne, Capt. Jones, is being loaded with bulk fish by Bowring Bros. for Oporto. The schr. Nellie Louise was cleared to-day by Bowring Bros. for Pernambuco, taking 6,426 drums and halves with 4,896 qts. fish. She sails for market the first opportunity. The s.s. Tobago leaves Halifax for this port this afternoon. The s.s. Amethyst sailed last night for Sydney and Montreal. The s.s. Siberian arrived here at 1.30 p.m. to-day after a run of 5 days from Philadelphia, which port she left at 7 a.m. Saturday last. She had fine weather all the way and brought 580 tons cargo. She sails at noon tomorrow for Glasgow.

The Revolution.

The news from Portugal is alarming for Newfoundland. The very meagreness of the intelligence is a disturbing element. We do not know the extent of the revolution and have no indications how long the fight will last. The revolutionists apparently have the upper hand, but we have no means of gauging the strength of the resistance which can be put up against them.

To what extent the army has gone against the King is not evident. A prolonged struggle will be a serious matter for Newfoundland. Portugal is one of our biggest customers for dry fish, and with cholera disturbing the markets in Naples and other Mediterranean markets, a diminution in the purchasing power of our Portuguese customers will seriously affect the exports and price of fish in Newfoundland.

This revolution has been brewing for many years. The present King who is not yet 21 years of age succeeded his father in February 1908, after the latter and a son had been assassinated in the streets of Lisbon. The assassination was a part of a revolutionary plot which failed but which had ramifications alarmingly widely extended. The unpopularity of the Royal House was then glaringly apparent. This was due in a large measure to wild and thoughtless extravagance by its members among a poverty stricken people. This unfortunate Manuel succeeded to a large heritage of debt and hatred for which he was too young to be held accountable.

King Manuel has, however, to answer for the sins of his House. The extract appended from a recent issue of Pearson's Weekly pictures the intense feeling which existed against him.

It is an open secret amongst those who are behind the scenes in European politics that King Manuel of Portugal intends to abdicate very shortly.

The reason is that he is disliked by

his own subjects as no monarch perhaps was ever disliked before. The 'Pear' is unpopular amongst a comparatively small section of his people only, the bulk of them almost worship him. King Alfonso earned the enmity of the anti-clericals amongst his subjects for consenting to the execution of Senor Ferrer, but the anti-clericals, again, constitute a quite insignificant proportion of the Spanish people.

With King Manuel, on the other hand, the case is altogether different. High and low, rich and poor, liberal and reactionary, unite in condemning him. His unpopularity is personal, and it is universal. To try to buy his portrait in the shops of his own capital, is to lay one's self open to insult. "We do not sell portraits of that fellow," they will tell you quite openly.

His father, they killed, his brother they killed, and he himself only escaped the bullets of the assassins by the merest accident. Since then he seems not to have been able to make himself any more popular than he was at the time that terrible tragedy was enacted, and now there is practically no course open to him but abdication.—P.W.

Fishery Treaty

BETWEEN NEWFOUNDLAND AND AMERICA IN PREPARATION.
Washington, D. C., Oct. 1.—Taking the initiative in Canadian reciprocity negotiations, the United States has asked the Dominion Government for an early conference, at which a treaty may be signed. Coincident with the conference over a treaty with Canada there will be undertaken a reciprocity agreement with Newfoundland. This cannot be covered with a treaty with Canada. Mr. Chas. M. Pepper, of the Bureau of Trade Relations has been in Newfoundland preparing the way for a treaty and the negotiations are perhaps more advanced than those with Canada which resulted from the meeting of the President and Canadian officials when the application of the maximum and minimum tariff was under consideration. The removal of the fisheries question from the conference with Newfoundland, through the action of the Hague court, takes from it one of the serious handicaps formerly present.

Worst Case Of Eczema

Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.

Mrs. Wm. Miller, St. Catharines, Ont., writes:—"My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no man could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent."
The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin disease. Do not be satisfied with imitations or substitutes, 60 cents a box at all dealers or Edmanson, Bates & Co. Toronto.

NETTED ONE HUNDRED AND EIGHTY-TWO DOLLARS.—The drama—the Octoroon—produced in the T. A. Hall last week netted the substantial sum of \$182.00 which was devoted to the fund for repairs to St. Patrick's Church.

DON'T MISS THE Shamrock Club's Big Dancing Assembly, Monday night, Oct. 10th, in the Prince's Rink; music by T. A. Band. Tickets at popular prices. Double, 70c.; Ladies', 40c.—oct.11.

HORSES FOR HARMSWORTH'S.—Mr. Thos. Curran, who was recently at Charlottetown, and took in the position, purchased 20 fine horses for the A.N.D. Co., at Grand Falls. Fifteen of the animals came along to the Falls by yesterday's freight train and the others will follow later. They will be used in the forests the coming winter.

WEATHER REPORT.—Along the line to-day the winds are variable. The temperature is from 40 to 52.

On Knowling's premises at 1.30 to-day a young man named Spence, of Mullock Street, was hurt by a bale of goods falling on him; one of his legs was badly crushed. Dr. Tait was called and attended him, after which he was driven home in the firm's express.

GOOD FISHING OUTSIDE.—The local fishermen out on the ledges off St. John's had fair catches of codfish this morning. They report squid numerous all over the grounds, and if fine weather prevails good fishing will be done for the next few weeks.

Magistrate O'Donnell Died Yesterday.

Mr. Thomas P. O'Donnell, Magistrate of Bell Island, died yesterday at 3 p.m., after a very short illness. He was in his 68th year and was born in Ireland. He is the last of a family whose name is associated with the history of this country in the sixties and who gave many of its members to the church. Deceased was a telegraph operator in early life, and after spending a few years in New York obtained a position in Placentia. He also engaged in the teaching profession for a few years in Placentia Bay. In 1890 he was appointed Magistrate of Harbor Main, and in 1900 was transferred to Bell Island, where he continued to perform the duties of his office up to the day of his death. He had been complaining of being unwell for several weeks past, but on Monday felt so well that he was able to be about as usual. The next day he was so well that his wife came to town with her sister, Mrs. Jones, and was shocked last evening when she received the news that her husband had passed away. Deceased leaves a large family, including two sons, Mr. Jeremiah O'Donnell of the Postal Telegraphs Office, St. John's, and Mr. John O'Donnell, engineer with the D. I. S. Co. on Bell Island. The Telegram extends its sympathy to the family.

Nutritive Hypophosphites.

When a person feels "blue"—"all tired out"—"doesn't feel like doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares, overstudy, etc. Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00. The more you trade here the better you like this store. **PETER O'MARA,** The West End Druggist, 46 & 48 Water St., West. Telephone 334. Mail orders promptly attended to.

Upper Gullies Notes.

Fine fishing was done here last week, but nothing has been done since owing to the stormy weather which has been experienced here, and keeps the boats from getting to the fishing grounds.

A meeting of the Agricultural Society was held at Kelligrews on Wednesday last in which R. Bailey, teacher, was appointed Secretary instead of Mr. W. Payne, who resigned. The meeting occupied about three hours, and much important work was done.

On Sunday last the Rev. C. Barton, M. A., Principal of Queen's College, was here and held two services in Hopewell Church. The congregation wishes to express their thanks to the rev. gentleman for same.

On Sunday evening here joined the incoming express for Canada Mr. and Mrs. Wood who had been here this past week spending their honeymoon.

The frost which was experienced here last night ended the blue-berry season for this year. **CORRESPONDENT,** October 4th, 1910.

Where Abraham Fished

(London Globe.) Mrs. Victoria de Bunsen in "The Soul of a Turk," related a legend concerning Abraham which will be new to many readers. She learned of it while at Edessa, the traditional Ur of the Chaldees. She was shown there a large oblong tank of water so filled with fishes resting just below the surface of the water that their fins and backs seemed almost wedged together so as to form an almost solid layer of silvery life. The guardian of the mosque throws some meal into the water and the fish jump high to catch it, a great living pyramid, of which those who jump the highest form the pinnacle. The tradition is that Abraham, as a child, fished in the tank. Hence the fish were considered sacred. No single one has ever been caught or killed to this day. Indeed, death would overtake the man who transgressed this law.

SEAMAN IN TROUBLE.—J. McMillan, a Scotch seaman, fell on Duckworth Street and was cut about the head badly by coming in contact with the cobble stones. He was taken to Dr. Anderson's surgery for treatment. The police did the best they could for him.

Revolution in Portugal REPUBLIC ESTABLISHED

Royal Standard Dragged Down--Whereabouts of King Manuel Doubtful--May be Prisoner--May be Fighting in Palace, Which was Bombarded--May be a Refugee on Board Warship--Navy and part of Army aiding Revolutionists.

Special to Evening Telegram. PARIS, Oct. 5.

Portugal, since yesterday, has been isolated from the rest of the world. Circuitor reports declare that the country is in the throes of a violent revolution. All the Portuguese navy and part of the army are reported to have cast in their lots with the revolutionists. The Portuguese warships shelled the Royal Palace, while the land forces, after desperate fighting in the streets, dragged down the Royal Standard and raised the banner of the Republic. King Manuel is said to be a prisoner in the palace. Although a revolution, peaceful or accomplished with violence, was not unexpected, it is generally believed that the immediate cause was the assassination in the capital of Professor Bombard, a Republican and deputy chief of the Liberal League, by a lieutenant of the army. So intense was the feeling against the throne that this incident, comparatively trivial in itself, was sufficient to start the outbreak. On September 30th, policemen raided a bomb factory and arrested ten persons. This action is said to have been followed by the discovery of a widespread anti-monarchical plot, with ramifications throughout the kingdom. An Imperial, an official organ, at that time declared that the Government were prepared to mercilessly crush the revolt.

Portugal, following the example of Spain, has been imbued in recent years with a strong anti-clerical sentiment, and the Government plan

included a revision of the statutes of the Religious Orders. President elect Concesca, of Brazil, recently arrived at Lisbon and last night a grand banquet was to have been given him by King Manuel. Accordingly the Brazilian statesman must have been a witness. It is believed, of scenes similar to those in 1859 in Brazil, when the Portuguese Empire was overthrown.

Following the discovery of the bomb factory there have been arrests made daily among medical students, who were members of a secret revolutionary society, with branches in the Medical School and the University of Coimbra. The Government's action against the clericals also complicated the situation. Following the expulsion of the Jesuits from the Monastery of Alca, many Spanish priests known as Maranos, who had settled in various parts of the country establishing convents and monasteries, were ordered out of the Kingdom. The Portuguese unrest which had gradually increased since the discovery of plots to overthrow the monarchy and set up a military dictatorship or republic was aggravated by serious strikes among the cork cutters and cooper. More than 20,000 men stopped work at Barreiro and rioting followed. The strikers seized railroad trains and burned thousands of balls of cork. Municipal guards and regiments of infantry and cavalry were despatched to Barreiro and a collision between the strikers and the soldiers ensued. 50 strikers were injured.

The Revolution in Portugal.

Special Evening Telegram. LONDON, Oct. 5.

The Admiralty has received a brief message confirming the news of a revolution in Lisbon, but giving even fewer details than were despatched last night. Upon receipt of the message orders were sent to Gibraltar for the despatch of two cruisers to watch British interests in the troubled country. The cruiser Newcastle proceeded for Lisbon, followed by the cruiser Minerva. Beyond wireless messages received by the Admiralty the Foreign Office has no word of the revolution.

Special to Evening Telegram. GIBRALTAR, Oct. 5.

The British cruisers Newcastle and Minerva sailed to-day from here to-day, steaming at full speed for Lisbon.

Special to Evening Telegram. LISBON, Oct. 5.

An official communication issued to-day says: "It is confirmed by information private but certain, that an important revolution has broken out in Lisbon, that bombardment of the city has commenced and that on Tuesday night King Manuel was still in the Royal Palace resisting the revolutionists."

Special to Evening Telegram. MADRID, Oct. 5.

The latest advices received here tonight are to the effect that King Manuel and the Queen Mother Amelia have left Portugal on a warship for England; that the revolutionists have triumphed, and that the republic has been proclaimed amid wildest enthusiasm. This is the first news from Lisbon since Tuesday morning.

Special to Evening Telegram. ROME, Oct. 5.

Grave apprehension is felt here over a cable from Portugal to the effect that the Royal Family has been imprisoned and a republic proclaimed. Interest here is intense, especially as the Queen Dowager, Maria Pia of Portugal, is an aunt of the King of Italy; whilst the Vatican is anxious over the religious situation and the possible effect the revolution may produce in Spain.

WHALES AGAIN PLENTIFUL.—Passengers by last night's train inform us that whales the past two days have again appeared in large numbers in Conception Bay. Yesterday down near the mouth of the bay a vessel supposed to be the Port Saunders killed two large fish.

Cable News.

Special to Evening Telegram. BOSSNY, France, Oct. 5.

It is stated at the Brazilian legation here that King Manuel had taken refuge on the Brazilian battleship Sao Paulo.

Special to Evening Telegram. PARIS, Oct. 5.

Leon Morat, who started at 9.43 this morning for Clermont-Ferrand in an attempt to win the Michelin aviation prize, fell here and sustained a broken leg. His brother, Robert, who was a passenger, sustained a broken skull.

Special to Evening Telegram. PARIS, Oct. 5.

The new world record for altitude in an aeroplane recently established by Henry Wymalain, at Mourmelon, has been officially recognized by the Aero Club of France, the new figures are much better than those originally given out, as Wymalain is now credited with having reached an altitude of 2,800 meters, or about 9,000 feet.

Special to Evening Telegram. PANAMA, Oct. 5.

A native who just arrived here in a small boat reports that all the passengers and crew with the exception of one fireman on board the steamer Chiriqui have been saved. So far as could be learned there was an explosion on the steamer which resulted in the death of the fireman. It is not known what damage was done to the steamer. The Chiriqui plied between this port and Buenaventura, and it was reported to have been wrecked by the explosion in her boiler. Steamers which have gone in search of the vessel have not yet returned.

Special to Evening Telegram. CHATTANOOGA, Tenn., Oct. 5.

The plant of the H. L. Judd, Curtain Pole Manufacturing Co., in East Chattanooga, was destroyed by fire last night. The loss is estimated at about \$200,000, partly covered by insurance.

Special to Evening Telegram. MONTERRI, Mexico, Oct. 5.

Six Japanese miners entombed in Mine No. 2 of the Cosuita Coal Co., W. Pahu, Mexico, as the result of Friday night's explosion, which more than 100 miners lost their lives, have been found alive although they had been without food and water since the explosion. It is said all of them will recover. The men had been walled in by a heavy rock fall, disturbed by the explosion. This prevented their death from fire damp. Rescue parties are working steadily. Thirty-five bodies have been brought to the surface.

Got Six Months.

By the Invermore we learn that at Nain a couple of months ago an inquisitor caught a very grave offence against a little girl aged 14 years. The child had been adopted by the man's wife and was alone when the affair leaked out the man was arrested and admitted the facts. After being arrested he was brought before Capt. Wm. J. P., and sentenced to six months hard labor. He is now being brought forward by Constable Sheppard on the Stella Maris to serve the term in the Penitentiary here.

No More Misery in the Stomach.

Indigestion, Gas, Heartburn or Dyspepsia vanish in five minutes.

If what you just ate is souring or your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Fullness, Nausea, Bad taste in mouth and stomach headache—this is Indigestion.

A full case of Pape's Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

WHALES AGAIN PLENTIFUL.—Passengers by last night's train inform us that whales the past two days have again appeared in large numbers in Conception Bay. Yesterday down near the mouth of the bay a vessel supposed to be the Port Saunders killed two large fish.

POLICE COURT NEWS.

To-day three drunks were discharged. A fourth and fifth were fined respectively \$1 or 5 days and \$2 or 7 days. A drunk in charge of a horse and carriage was fined \$10 or 20 days. Three stokers and a bluejacket of H.M.S. Britannia, who were implicated in the attack on Sergt. Mackey last night, were before the court. Two were charged with being drunk and disorderly and assaulting the Sergeant and Clarence Godden, W. Cullen and Jas. Martin, citizens, who went to the aid of the officer; two others were charged with obstructing the police in the discharge of their duty while drunk and disorderly. The trial of the men was referred to the authorities on board ship, and Supt. Grimes with the citizens alluded to and Sergt. Mackey will go on board to give their evidence in the matter. An assault case, a trivial family affair, was dismissed. Six owners of unlicensed dogs summoned by Sergt. Cliphant settled up.

WIRELESS FROM FLORIZEL.

Messrs. Harvey & Co. had a wireless message from the Florizel, yesterday at 1 p.m. via Sable Island and Cape Race saying that the ship was then 220 miles west of Cape Race and was due here at 6 o'clock this evening.

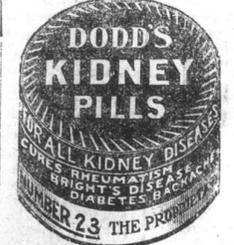

You Blame the Stomach

But chronic indigestion will disappear when the liver, kidneys and bowels are set right by DR. A. W. CHASE'S KIDNEY AND LIVER PILLS.

You are skeptical. For you have tried many medicines and still suffer from indigestion with all its annoying symptoms. Leave the stomach alone, for the source of trouble is in the intestines and healthful digestion can be restored by the use of Dr. A. W. Chase's Kidney and Liver Pills. Mr. C. D. Bennett, Maple Grove, Michigan Co., Ont., writes: "I had dyspepsia very bad. The food would sour, my stomach would swell up, I suffered a great deal and could not sleep. As the result of using Dr. Chase's Kidney-Liver Pills I am now entirely cured and can eat any kind of food. They have made a new man of me and I cannot say too much in their praise." Dr. A. W. The Two Girls Heard From.

The two young women, Tremblett and O'Reilly, who left here by the s.s. Rosalind under mysterious circumstances, have been heard from. The Rev. Mother in charge of the Working Girl's Home at Halifax went on board the ship and had a long talk with them and found out all about the party who furnished them with the passage money here. The sisters took them in hand and looked after them while in Halifax and gave them letters to the ladies who conduct the Working Girl's Home at New York. They went on in the Rosalind.

Great Missionary Campaign.

Rev. George E. Hartwell, B. A., B. D., one of the pioneer missionaries of the Methodist Church to China, and Rev. F. C. Stephenson, M. D., Secretary of the Young People's Forward Movement for Missions, will pay a visit to Newfoundland this Fall in the interests of their work. A great Missionary Campaign is being planned in connection with their visit.

Newspapers and Libel.

Sir Edward Russell: "One of the most important duties of the Newspaper Press—a duty which it cannot without inefficiency and shame avoid—is the criticism of men in public office. The presumption of the law ought to be that if this duty is performed in good faith and with sincere regard to utility, the publishers and conductors of a newspaper should be held harmless. But, unhappily, notwithstanding the improvement in press actions and prosecutions under such judges as Cockburn, Russel of Killowen, and Coleridge, equity and public interest in this behalf have not yet been secured or even judicially asserted. A sound and just verdict in favor of a newspaper which has criticized a public man is usually in the teeth of the judge's charge; not because of any iniquity or obliquity in his lordship, but because in a law court the general principle is understood to be that the newspaper is a gratuitous intruder, offensive at its own risk.

What happens is that in cross-examining the aggrieved person and his friends the defending counsel contrives by caustic or satirical anticipation the common-form rulings he knows will come from the judge in his summing-up, which is practically certain to say nothing of the real merits. When his time to speak comes, the defendants' counsel, who should be the Erskine or the Rufus Isaacs of his day, makes the plaintiff and his witnesses as ridiculous or odious as they deserve to be, and uses his most urgent eloquence to make the jury realize that by law the decision rests with them, and not with the judge.

It never comes to anyone, except the prosecuted journalist, that if the function of the jury is a salutary one, it ought to be shared by the judge, and he ought to be bound by his office to co-operate with the jury in carrying out its principle. If the law were authoritatively revised thus, no wronged person would be likely to fall in his remedy. But no person would be held to have been wronged if the Press's censure of his public acts had been just.

"We need a new Libel Act, with a preamble. The details of the Act should be as Parliament might be advised. But the preamble should declare once for all—in such terms as legislative drafting may require—that newspapers have duties to do which are indispensable to the community, and that for doing their duties, with-out malice, injustice or culpable carelessness, they shall not be punished, either criminally or civilly."—London Times.

\$500 Necklace for 6d.

A necklace worth \$500 has just been recovered by its owner—Mr. A. C. Baker, of Cosgrove Hall, Stony Stratford, Buckinghamshire—after a strange series of adventures.

It was lost from a motor car in the neighbourhood of Stamford, Lincolnshire, and the following announcement was made by the police:—"£50 reward. Lost on Tuesday, August 30, a pearl necklace of 77 pearls, diamond clasp, with small safety chain attached. Above reward will be paid to finder. Information to be given to local police."

On the day that the necklace was lost it was picked up by a man in Stamford. He gave it to another man who sold it to his landlady for a pint and a half of beer and three half-pence, and eventually the necklace came into the possession of a local pawnbroker, who notified the police. On hearing of its recovery Mr. Baker journeyed to Stamford and identified the necklace, which was insured at Lloyd's, by whom the reward was offered. It was found that one pearl in the necklace had been smashed.—Daily Mail.

A Son to Dr. and Mrs. Grenfell

Boston, Mass., Sept. 29.—The birth of a son to Mrs. Wilfred T. Grenfell, wife of the famous medical missionary of the Labrador coast, was announced in a cablegram received in Boston today from Dr. Grenfell at St. Anthony, Northern Newfoundland. The boy, who has been named Wilfred T. Grenfell, jr., was born at St. Anthony on September 25.—Mrs. Grenfell previous to her marriage was Miss Anna MacClanahan, of Chicago.

Others in Danger.

Yesterday afternoon Mr. Piccott, Minister of Marine and Fisheries, had the following message from Twillingate, dated Monday:—

"A heavy gale from the north-east raged all night; now subsiding. Schr. Orion, of Carbonar, with 70 people on board, which arrived Sunday evening, parted one chain about 10 o'clock Sunday night. Got lines ashore, which saved her. Passengers and crew well and women and children ashore. Advise Duff's, Carbonar, re Orion. Butcher's schr. Valkyrie ashore at South Side; no other damage reported. Several schooners reported by Orion en route from Labrador for which anxiety is felt. The s.s. Elinor is in the harbor."

W. J. SCOTT.

Mr. Piccott wired Messrs. Duff of Carbonar re the Orion. The message was delayed in transit owing to the Postal Telegraph lines being interrupted by the storm of Monday.

Bankers Doing Well on the Labrador.

By the Invermore we learn that the bankers fishing down off the Labrador coast have been doing well up to the time the ship was leaving Grady to come south. Those fishing out of Bateau, Grady and nearby places have found fish very plentiful. The schr. Hispaniola, Capt. Jno. Lewis, loaded his vessel off Bateau, and after leaving for home on the 16th September had returned just before the Invermore left and had 150 qts. fish caught in two days while at work off Grady. Capt. Wm. Hollett's vessel of Grand Bank went home with 700 qts., and came back on her second trip to the coast and was picking up a lot of fish at Grady when the Invermore was coming up. Banking skip-pers are now beginning to realize the value of the banks off the Labrador Coast, especially during the months of August and September, when it has been noticed that cod is more than ordinarily plentiful down there. The belief is also entertained that good fishing can be done in deep water off the coast all summer.

Sailors Create a Disturbance.

Shortly after 10 o'clock last night Water Street East was the scene of a disturbance in which a number of tipsy blue jackets were the principal actors. Sergt. Mackey had his eye on these chaps all night, seeing that they were inclined to be quarrelsome, and when he interfered in the interest of law and order, he was attacked and might have received serious injury but that civilians came to his aid. The matter was reported at the police station. Supt. Grimes who was there alone with the Guard ran quickly to the scene, and with Sergt. Mackey and a number of civilians brought the offending sailors to the station. One of them kicked out pretty lively and had to be handcuffed before he could be brought to the cells.

Sir John Fisher relates an amusing experience he had one inspection day. Somehow he got separated from his official friends, and at last lost his way. He wandered about, and eventually came upon a workman genty hammering a piece of iron outside one of the workshops.

Are the Lords of the Admiralty about here?" asked Sir John.

"No fear, matey," said the man, who did not know his rather carelessly-dressed inquisitor. "I'm here doing a job for 'em!"

"Crow! What's that?"

"What, don't yer know? Inside this 'ere shed my mates is a-takin' of it easy. When I sees someone that don't matter I knocks soft, like now. But when I sees old 'Jacky' Fisher I knocks like blazes; and when old 'Jacky' Fisher pokes his nose inside they're working like blazes, too! See?"

"'Jacky' Fisher did see, and crowd-shooting was begun in the dockyard that day.

FOR OPERATION FOR PILES.—DID NOT GO AND WAS CURED BY DR. BOVEL'S HERB AND GUM SALVE.

Hundreds of Fearful Cases of Chronic Piles Cured in a Short Time by Dr. Bovel's Herb and Gum Salve.

There is no longer any necessity for suffering the excruciating agony, itching and pain of piles. Hundreds of cases of men and women who have suffered for ten, twenty and thirty years from this fearful disease have been cured in a few days or weeks.

The following is only one from the hundreds of testimonials we are receiving.

College St., Toronto

Gentlemen, It gives me pleasure to write recommending your Dr. Bovel's Herb and Gum Salve. For years I was troubled with piles. My doctor did what he could to relieve me from time to time, and finally ordered me to go to the hospital for an operation. This I did not do, but as a last resort tried your remedy and am glad to say that after using four boxes am completely cured. You have my sincere thanks. Make any use you like of this letter.

Yours truly, W. KILNER

Bishop Jones at Trinity

On Sunday morning last the Lord Bishop of Newfoundland arrived per Ethie on an episcopal visitation. During the 11 o'clock service the dedication of a beautiful memorial window (presented to St. Paul's, Trinity, by Mr. Hart) took place. In the afternoon the Bishop, accompanied by Rev. Rural Dean Hollands as his chaplain, crossed over to Trinity North, and at 7 o'clock Confirmation was held at the Parish Church, when a large number of candidates were presented by the Rector, Rev. Arthur Stirling, for the Laying-on of Hands. The Bishop gave a most helpful and inspiring address. An immense congregation was present; many being unable to gain admission.

On Monday morning the Bishop, accompanied by the Rector and Rural Dean, proceeded to English Harbor, where a cemetery was consecrated and Confirmation held at 11 o'clock.

At 3 o'clock in the afternoon a large number were confirmed by the Bishop at Salmon Cove.

At both places the Bishop's address was listened to with rapt attention by the young soldiers of the Cross. The Bishop and clergy returned to Trinity East after the ceremony.

On Tuesday morning at 10.30 His Lordship laid the corner stone of the new Parish Church, and in the afternoon went back to Trinity for Confirmation at St. Paul's that evening.

Beneficent Microbes.

Dose of 100,000,000 to Cure a Lung Complaint.

Four hundred million microbes are being carefully nursed and guarded in the laboratory of St. Bartholomew's Hospital until they can be used as a cure for one of the patients.

The patient is suffering from a chronic pneumonia, and inflammation of the covering of the lung, which has resulted in the formation of abscesses somewhere between the lungs and the encircling ribs. The disease first appeared seven years ago and was apparently cured by an operation. Since then, however, three fresh outbreaks have occurred in the same region, showing that the causative germs have never been thoroughly driven out of the system.

The microbes under cultivation are the direct descendants of germs collected from the lung secretions. The part they will play in effecting a permanent cure of the patient was explained by one of the bacteriologists at the laboratory yesterday.

"We found that three micro-organisms scientifically known as (1) streptococci, (2) staphylococci, and (3) pneumococci were present in about equal quantities in the discharge from the lungs. These germs were therefore cultivated, and when we have grown the three kinds to practically the same microbe-strength the microbes will be killed by heating the solutions, and a dose of dead microbes, ten million of each variety, will be injected into the tissues under the skin of the patient's arm. These dead microbes in the patient's body will lead to the formation of substances which will attack and kill the three varieties of live microbes causing the trouble in the lung."

At intervals larger doses will be given until finally one hundred million germs can be injected at one time. This maximum dose, it is expected, will complete the rout of the destructive microbes in the patient's lungs and render the cure permanent.—Daily Mail, Sept. 22.

The local arrived here at 10.40 last night bringing B. Hoey, Jos. Cantwell, Mrs. Dee, Hon. J. C. and Mrs. Crosbie, Dr. McLoughlin and about 30 others, including the Glencoe's passengers.

Cabman in Trouble.

As Sergt. Byrne came down Water Street last night he saw a horse attached to a cab standing near the curb and bathed in perspiration. Inquiries elicited the fact that the animal had been driven at top speed over a long distance and the owner was not to be seen about. He was located later in a saloon, and when the officer told him to look after his horse he became insolent and would not heed the advice given. He was placed in his cab and taken to the police station, after which friends took the horse home and looked after it.
