WATFORD, SEPT. 20, 1907.

THE COUNTY FAIR.

The county fair now so much in evidence, is one of the institutions of our rural life, and that it has lived so long and flourished so well is good evidence of its usefulness. Once it was called a cattle show, but that purely bucolic name became too narrow and too unpretentious: it was dropped for that of Fair and even this is in places giving way to the more dignified title of Exhibition. The fair in the true sense is older than the him, and the chances are that while show. The fair was a market where animals were brought for sale, and it he will not escape making himself unanimals were brought for sale, and it was cormon once all over England, happy. nor have modern conditions of trade wholly done away with it. The cattle show as it grew up in this country had another purpose. Its spirit has always been that of the holiday and the sporting; not the commercial idea has directed it. To the cattle show the farmers brought the best specimens of their stock and competed in friendly rivalry for modest prizes. Even here the law of evolution prevailed. If the farmer exhibited stock why could not his household exhibit the products of the kitchen and the needle? And soon a place was made for the garden and orchard, apiary and the sugar bush. Out of the cattle

CHERRY PECTORAL agriculture leading to improvement in the breeding of stock and to better methods upon the farm. Of late years the feature of amusements has everywhere been added, and perhaps this has become the chief attraction. But perhaps the greatest hold the

county fair has upon the affections of the people is due to its being the great annual meeting place of the entire countryside, being a sort of clearing house for country news and neglected visits. Many old friends whom the constant demands of farm live keep pretty well at home throughout the fairs, old friendships are prolonged and new acquaintances made. And so the social side of this institution grows stronger and stronger.

The Milk Producers.

The high prices of all fodder in Ontario this year, with the poor pastures in many parts of the province, make it absolutely urgent that the farmer advance his price of milk per can. Meats are very dear when retailed, and milk has not advanced, by any

means, to its proportionate position. Some private dairies have already advanced the price to the producers, and more will likely do so. As usual, it is the biggest concerns that squeeze the hardest on the farmer. It is not to be wondered, then, that the farmer has a distrust of such groupings of capital.

It is to be hoped that the situation will be settled amicably and a reasonable price be fixed upon.—World.

Help Each Other.

When one finds that he is out of sympathy with his town and can only say a good word for it coupled with an apology, he ought to get out. Many people fall into an unconscious habit of growling. But its a miserable habit. Such people make of themselves a dead weight, while, of course, they imagine themselves particularly independent. The individual has about all he can do to get along under his own loads, and he wants help and encouragement from those going his way, and who are identified with him in interest. So with the town. It has its interests to care for, and it needs all the pluck, all the endurance, all the energy, all the cooperations and helpfulness its citizens can provide and bring to bear. Every man is a part of his town. The town embraces the fortunes, and in some measure at least takes on the character of the man. So loyalty is in the line of all well shaped human nature. Therefore it is right to say that the man who does not stand up for his town, is in some way dwarfed. There is something wrong about him. His fellows will pass this judgement upon

Name the Farm.

Of late years many persons have begun to attach names to their farms It is a commendable practice. Not only does it indicate a love of the farm in the hearts of the farmer, but it has the much-to-be-desired tendency of elevating the statutes of farm life. This means much in the determining of the boy's future usefulness in life Too long it has been preached by the farmers themselves, that the farm is drudgery, and the vim of every youth should be to get up into the professions or mercantile halls.

fostered by the competitions of the fair has had a beneficial effect upon fertile acres, rearing his plant and animal life around him. He finds here full scope for his faculties of ob servation and reason. Life becomes intensely interesting to him if he has sufficient management ability in his

make up. Executive ability in any work is largely acquired by education and the education that the farmer boy gets on a well-cultivated and well-managed farmstead is the best of all. Let us have more business about our farming. Naming the place is a step in this direction. For when a place is named other improvements must follow. Better stock must be raised and thus the old farm blossoms better than the roses on the soil of our inflated-invalue city lawns.

No Alcohol in Ir.—Alcohol or any other volatile matter which would impair strength by evaporation does not in any shape enter into the manufacture of Dr. Thomas' Eelectric Oil. Nor do climate changes affect it. It is as serviceable in the Arctic Circle as in the Torrid Zone, perhaps more useful in the higher latitudes, where man is more subject to colds from exposure to the elements.

Horse Improvement in Canada.

The investigation conducted by the Ontario Department of Agriculture in. to the conditions and requirements of the horse industry should have a farreaching effect upon the class of horses raised in this province. The money expended has been made good use of even if the investigation were not followed by an additional campaign, but in order to reap the full benefit from this work further steps should be tak en. The result of the investigation is that owners of stallions and owners of mares bave been aroused and are considering whether or not they are adopting the best methods. This point taving been gained, advantage should be taken of the opportunity to disse-minate as much information as possible along horse breeding lines.

The Boy and the Man.

Don't laugh at a boy who magnifies his place. You may see him coming from the postoffice with a big bundle of his employer's letters, which he displays with as much pride as if they were his own. He feels important, and looks it and is proud of his place. He is attending to business. He likes to have the world know that he is at work for a busy concern. The boy who says "we," identifies himself with the business. Its interests are his. He sticks up for its credit and reputation. pleasure in his work, and hopes to say we are in earnest. The boy will repeat what he sows, if he keeps his grit and sticks to his job. You may take off your hat to him as one of the future solid men of the town. Let his employer do the right thing by him check him kindly if he shows signs of being too big for his place, counsel him as to his habits and associates, and occasionally show him a pleasant prospect of advancement. A little pride does an honest boy a heap of good. Good luck to the boy who says "we.

THE Division Court clerks of Ontario are asking the government to relieve them of paying rent for their offices.

"IF your town is good enough to live in, good enough to make your money in, it's good enough to spend your money in." THE open season on black and grey squirrel and quail is from the first day of November to the first day of December, both days inclusive.

THE municipal statistics, issued Tuesday by the department of agriculture, show a slight increase for the year in the population of Ontario. The gain is 40,511.

"WHAT do yho call that queer-looking arrangement?" "That's what we call the house-keeper's friend." It's a family ice-box, capable of being converted at a moment's notice into a coal bin."

SEPTEMBER is the month of transplanting the strawberries. Each farm ought

variety that they got from a neighbor, that was wholly unsuited to their soil, and they lost.

LAWYERS stand up in court houses be fore jurors, in the presence of large audences, and denounce men as liars, scoundrels, thieves, and perjured villans, and when court adjourns the men appear to harbor no ill will against them. But let a newspaper faintly intimate that a man's character is blemished, and he has to face character is blemished, and he has to lace a horse pistol, defend a libel suit, or suffer what the people consider the greatest of all mortifications—lose a subscriber.

LOVERS of toothsome chocolate confections, and their name is legion, may expect a raise in prices soon. within a couple of weeks the retail that within a couple of weeks the retail costs of candies will have to take a jump in conformity with the higher price which is being paid for raw material. With this increase in the cost of bon bons, and with flowers selling at good round figures, courtship is likely to prove an expensive pastime for young men with large ambitions, generous natures, and limited incomes.

Young people should require the habit of correct speaking and writing, and abandon as early as possible any use of slang words and phrases. The longer you put these off, the more difficult the acquirement of correct language will be; and if the golden age of youth, the proper season for the acquisition of language, be passed in its abuse the unfortunate victim passed in its abuse the unfortunate victum will most probably be doomed to talk slang for life. You have merely the use of language which you read, instead of the slang you hear to form a taste in agreement with the speakers and poets of the country.

AFTER all there is a good deal in talk. Let a man talk dull times and it is infectious, everybody talks dull times. Instead of hustling around to take care of what business there is, they all sit down and mope over dull times. If a customer does happen to drop into one of these "dull times" stores he actually gets trightened out of one-half as much as he expects to buy, because things look so blue. He catches the spirit of the store and resolves to hang on to all his money with a death grip. even if business goe to pieces on account of running short of goods to fill up the empty shelves. The bug-bear of hard times should be sat oug-vear or hard times should be sat down upon. It is doing more to kill business than anything else. Tell a man he is sick. Keep it up, and you will eventually hound him to death.

Cure For The Blues

ONE MEDIGINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way:

for some time; head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up: you have dyspepsia; you will be all right soon."

But she doesn't get "all right" and

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES. Dear Mrs. Pinkham:

Dear Mrs. Pinkham:

"I suffered for four years with female troubles—inflammation of the stomach and fallopian tubes which caused me violent pain and often torture, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried the doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright, for I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

September 'Canadian Pictorial.

A Canadian girl sitting at the end of a pier jutting out into one of the great lakes, her head silhouetted against the setting sun, which touches the dancing wa-ter with its slanting rays-this is the cover picture of the September 'Canadian Pic-torial,' the monthly which, though only in its second year, announces that there to is a surprise in store next month as it is be enlarged considerably. In the series of distinguished Canadians, the public man chosen for this month is Sir Louis Jette, chosen for this month is Sir Louis Jette, Lieutenant-Governor of Quebec, and Lady Jette's picture appears in the woman's section. The result of the photographic competition is announced, the sovereign going to Ontario, and the prize picture is reproduced with several 'honorable mentions.' The important happenings of the month are illustrated; the explosion at Essex,; the fire at Old Orchard Beach, in which half the summer hotels were destroyed and thousands of guests rendered temporarily homeless; the pilgrim Douk-hobors in Winnipeg; the annual outing of the Canadian Alpine Club; the birthday of Professor Goldwin Smith. There are two pages of summer scenes in the coun-try, and by the lakeshore that will interest everybody. The women's department includes a sketch of the work of the W. C. T. U, the Dominion convention of which is to be held this month in Winnipeg, with articles an autumnal fashion, care of the teeth, and other timely topics. Ten cents a copy; one dollar a year postpaid, the world over. The pictorial Publishing Co., 142 St. Peter street,

An Expensive Raffile

Toronto, Sept. 10.—"Breach of the lottery act" was the offense for which Thomas Banks had to pay a fine in the police court yesterday morning. Several weeks ago Banks had a cow which he did not want. He decided to dispose of it by the old-time raffling method, but in doing so he was committing a "breach" of the law regarding lotteries. A dispute over the result of the raffle attracted the attention of the authorities, and an information was of the authorities, and an information was sworn out against Banks. He pleader guilty ten days ago, and came up for sen tence yesterday. Col. Denison imposed fine of \$5 and costs or 30 days.

BY-LAW NO. 10, 1907

OF TOWNSHIP OF WARWICK. A By-law to provide for draining work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the municipality the sum of Eight Hundred and Fifty-Five Dollars, the portion to be contributed by the said municipality for completing the same. Provisionally adopted the 2nd day of September, 1907.

Whereas, Duncan McGill, one of the parties interested in and assessed for the construction of the Higgins Local Drain, has petitioned the Council of the said Township of Warwick to have the said drain cleaned out and put in a proper state of repair.

And whereas, thereupon the said Council And whereas, thereupon the said Council has procured an examination to be made by C. A. Jones, being a person competent for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications and estimates of the drainage work to be made by the said C. A. Lones and an assessment to be made by plans, specifications and estimates of the drainage work to be made by the said C. A. Jones, and an assessment to be made by him of the lands and roads to be benefitted by such drainage work and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability and injuring liability, which in his opinion will be derived or incurred in consequence of such drainage work, by every road and lot or portion of lot, the said assessments of made being the assessment thereinatter by this By-law enacted to be assessed and levied upon the roads and lots or parts of lots upon the roads and lots or parts of lots hereinatter in that behalf specially set forth and described; and the report of the said C. A. Jones in respect thereof and of the said drainage work being as tollows:—

said drainage work being as follows:—

Petrolea, June 24th, 1907.

To the Municipal Council, Township of Warwick,
GENTLEMEN:—In compliance with instructions received from your Honorable Body I have made an examination of the Higgins Drain, iots 2 to 11, concession 6, 8, E R., of your Township and find the same considerably out of repair, more particularly the portion on the west ¼ and east ½ lot 6, where it is evidently tramped in more than elsewhere by cattle pasturing on these lots.

I would recommend that it be repaired from the centre of lot 11 to its function on lot 2, with the McGill or Townline Drain, though the work on lot 2 will merely be remyling the drift wood that has collected in it on this lot. The work across lot 3, particularly the west half will also be very light, consisting principally of levelling the bottom andmaking it an even grade.

I have staked out and levelled the proposed work in stations of 2 chains or 8 rods each, commencing with stake 10 at or near the line between the east and west halves of lot No. 11, the portions from st 0 ta 10 on the east ½ of said lot being in my opinion deep enough and wide agough as it now is.

The bottom width will be 4 ft. from the head to \$100, which is 44 rods east of the 6-7 side road and from st 160 to the outlet it will be 5 ft. This is 1 ft. wider than wher last repaired but as it can be made this width now without interfering with the sides and yet making the side slopes 1 horizontal to 1 vertical I deemed it advisable to do so.

I have prepared a plan of the locality, profile of the drain, estimate of cost and specification of the work together with a schedule of assessment on the lands affected, all in triplicate, one copy being for the Grand Trunk Railway Co., all of which I herewith submit.

Following is my estimate of the cost of the propersed work:

Killed as Wife Looked on.

Niagara Falls, Ont., Sept. 15.—Harvey Hill, an employe of the municipal elec-tric plant, when turning on the incandescent electric street light from a pole box on Ferry-street at south end of the city Saturday evening in some unaccountable manner got his hand in contact with high voltage and was instantly killed in the presence of his wife, who was waiting for him on the sidewalk. As there was no more than 150 volts on the incandescent circuit, insufficient to kill, the line must have been in contact with some foreign high voltage wire.

Man Falls Sixty Feet.

Hamilton, Ont., Sept. 18.—Nelson Sin-clair, a stone mason on the new Central Presbyterian church, fell from the top of the building and was probably fatally injured. Sinclair was laying the stone which forms a top dressing for the brick work about 60 feet from the ground, when, in attempting to place a large stone, he overbalanced and fell. The stone also fell, but fortunately it struck the ground first. The unfortunate man the ground first. BABY'S DANGER.

More little lives are lost during the hot weather months than at any other time of the year. In the summer months little ones are the victims of diarhoea, cholera infantum, dysentry and stomach troubles. These come suddenly and without warning, and when a medicine is not at hand to give promptly the short delay may mean death. During the hot weather months Baby's Own Tablets should be kept in every home where there is a young child. An occasional use of the Tablets will prevent storage, and bowel young child. An occasional use of the Tablets will prevent stomach and bowel troubles. Or it the troubles come unawares a prompt use of this medicine will bring the child through safely. Mrs. J. Renard, New Glasgow, Que., says: "I cannot speak too highly of Baby's Own Tablets. One of my children had a severe attack of diarrhoea which the Tablets promptly cured," Sold by medicine dealers or by mail at 25 cents a box or from The Dr. Williams' Medicine Co., Brockwille, Ont. ville, Ont.

TWENTY FOUR KILLED.

Fearful Wreck on the Boston and Main Railroad, in Vermont.

White River Junction, V. T., Sept. 16. A fearful head-on collision between the southbound Quebec express and a northbound freight train on the Concord division on the Boston and Maine railroad, occurred four miles north of Canaan station early Sunday, due to a mistake in a train despatcher's order, and from a demolished passenger coach there were taken out 24 dead and dying and 27 other passengers, most of them seriously wound.

passengers, most of them seriously wounded. Nearly all of those who were in the death car were returning from a fair at Sherbrooke, Que., 160 miles north.

The accident was due to a misunderstanding between J. A. Crowley, the despatcher at Concord, who has been in the service service server years, and John Greeley. service seven years, and John Greeley, the night operator at Canan, who has seen 27 years' service in transmitting or-ders. Work of Dynamite.

St. Catharines, Ont., Sept. 17—A few days ago it was reported that part of a stick of dynamite had been found in a hill of potatoes in a field belonging to Beverly Holcomb.

A few days previous Disher's threshing machine, at work on Mr. Holcomb's premises in Pelham township, was seriously injured by an explosion, now believed to have been caused by the other part of the stick of dynamite. Alpheus Tice, who was assisting, says the explosion occurred whilst threshing a sheaf of oats that had been on the outside of whilst threshing a shear of oats that had been on the outside of the mow, and therefore easy of access. The explosion almost stunned those near, and wrecked the bottom of the threshing machine.

The Big Straw Tick.

I'll sing a little song to you-It isn't any trick The subject of my ballad is
The big straw tick.

In the pioneer's log cabin Everything was slick; I looked around in vain to see A big straw tick.

I saw an old Dutch oven, A sap trough cradle thick, But the best of all was wanting— The old straw tick.

Talk about your mattresses, However fine and slick, They cannot hold a candle The old straw tick.

When it was getting shabby You could take it to the rick And stuff it full of provender— A new straw tick. They never had the nightmare,

And they were rarely sick, Because they went to sleep upon The big straw tick,

They rose at dawn so much refreshed
They felt just like a brick,
Because they passed the night upon
A big straw tick.

They raised the finest childer-un, Fine kids to love and lick, Because the youngsters slept upon A big straw tick.

pioneer he says to me; "When I the bucket kick, hope that I will die upon A good straw tick."

We wouldn't a had a country—
To this statement I will stick—
But for the bed of olden time, Ye bygge strawe tycke!

In the weekly official health bulletin, issued yesterday, Health Commissioner Evans declares that a few centuries will see Chicago an Adamless Eden. He draws his conclusions from the death rate in Chicago for twenty years, and especially the last five months, when five members of the stronger sex died for every two of the fairer. Dr. Evans makes the start-ling statement that during the last seven months of 1907 in Chicago, about 12,000 men succumbed to 8,000 women. He says that in the last year the ratio of differential the details of the says that in the last year the ratio. ference in the death rate between men

and women has been thirty, against less than ten per cent. twenty years ago. The cause for this is attributed by physicians to the strenuous life. ributory are the quick lunch, and care-lessness. The men, he says, are living at a rate that is thirty per cent. faster than that of a woman

that of a woman.
"They work harder. They take less care of themselves than of their wives and daughters. They court danger. They dissipate more, they exhibit a carelessness begotten of familiarity with danger," The remedy, according to an eminent physician, lies in the return to the simple life of our fathers.

Labor Scarce In West.

Winnipeg, Sept. 12.—The crop situation is still bright. A large proportion of the crop in Manitoba has been cut, and stacking is in progress. The scarcity of labor is causing alarm in spite of the large num-ber flocking to the West. Reports from northern Saskatchewan and Alberta state that large crops are suffering from severe frosts, but these reports are in the min-ority. It is estimated that 75 per cent. of the wheat was cut before the arrival of damaging frost.

Farmers Win Against Bank

Judge McHugh has handed down his de-cision in the important action brought by the Traders Bank against a farmer named White. The suit was dismissed with costs. White. The suit was dismissed with costs. The action was brought by the bank as a test case to collect a note for \$200 given by the defendent. He and a number of farmers took stock in the old Consumers' Tobacco Company and gave their notes in payment. The company was to buy their tobacco at a certain stipulated price, his heing provided for in agreements, but the company was amalgamated with the McAlpine Tobacco Company in Toronto and after the McAlpines acquired full control they repudiated the agreements with the farmers.

The notes had been discounted by the The notes had been discounted by the Traders' Bank, but the farmers kicked about settling after the company did not purchase the tobacco, according to the agreements. Some of the farmers paid up rather than defend a law action, but White signified his willingness to dispute the claim. About 80 tarmers who were also in the position of White, contributed to pay his legal expenses and protest payment. The decision is a victory for the defendant, who declares he will detend the case in the highest court in the country if an appeal is taken.

Brain Workers

Brain workers do their best between the ages of 25 and 45; before that they are preparing for work, after that their work, preparing for work, after that their work, no matter how extensive, is largely routine. Lawyers and physicians do much of their practice after 40, but the learning was ac complished before 40 or 45. Successful merchants lay the foundations for weslth and success in youth and middle life. The great men that we know are all old men tout the foundations for their greatness were laid when they were young. Prof. Frederic E. Bolton in the Popular Science Monthly.

When That Cold Comes.

How is it to be cured? This method is simplicity itself. Rub the chest and throat well with Nerviline, use it as a gargle and take some in hot water before retiring along with one of Dr. Hamilton's Pills. Next with one of Dr. Hamilton's Fills. Next morning finds you refreshed, free from cold and bright as a dollar. These household remedies are wonderfuly saccessful, and cer-tainly won't fail in your case. For sale at all dealers.

Western Harvest.

Winnipeg, Sept. 12.—Crop reports from the west to-day show that the grain is about 80 pe. cent. in Saskatchewan. The weather is very wet and cold in the the west and work is greatly retarded. Heavy frosts are reported from some local-ities.

Heavy frosts are reported to the highest point this year, and touched \$1.00\frac{1}{4}, and October \$1.03\frac{1}{4}. Cash oats are very scarce in the Winnipeg market. Local dealers have very few on hand, which they are holding for railway contractors.

Recipe.

Take one gallon of rain water from the barrel at the southeast corner of the house and remove the wigglers. In it squeeze the juice of two nutmegs and add five drops of benzine. Boil over a quick fire and drink while hot, This makes a very refreshing summer drink.—Milwaukee Sentinel.

Stand up for Your Town.

If you have made up your mind to live in a town, then stand up for it and if you know of positively no good, then silence is golden. Do all you can to help along is goiden. Do all you can to help along every man who is engaged in legitimate business. Do not send away for everything nice you want and still expect the home men to keep a stock to suit the whim of one or two customers. The successions of the succession of the whim of one or two customers. The success of your fellow townsmen will be your success. No man liveth to himself, and no man can do business independently of his fellow men. Take the home paper. Do not imagine the big dailies fill up all the space. There are many little crevices of good cheer, social sunshine and personal mention, in the home paper, that the hig dailies do not reint. paper, that the big dailies do not print. Do not abuse your neighbor. The main difference in the number of his taults and your own is that you see through a magnifying glass as a critic. The illomened, the croaker, can do a town more harm in a minute than two good citizens can repair in a month.

A Hard Case Overcome.

No longer necessary to suffer from mus-cular rheumatlem. Every case can be cur-ed. Ferrozone is unfailing as proved by David Johnston of Ormond, Ont. "My wife was a dreadful sufferer" he writes. "For two years she could scarcely do any work. Her knuckles and joints swelled, causing torture. To get up or down stairs was impossible. She took box after box of Ferrozone and rubbed the sore places with Nerviline. Improvement started and she mended fast. Today she is quite cured and we thank Ferrozone for her recovery." No remedy more popular with doctors than remedy more popular with doctors than Ferrozone; it does cure, 50c per box at all

How Tunnel Will Be Built.

The Sarnia-Port Huron tunnel was most remarkable engineering feat but it was built in the usual way by boring through the soil underneath the river. The tunnel that is to connect Windsor and Detroit at an expense of some ten million dollars, is an entirely different proposition. Immense tubes are being made at the St. Clair steel works on the river and these are to be made in sections each of which will be temporarily sealed each of which will be temporarily sealed at the ends and slid into the water and floated down to the proper position; and then will be sunk in a trench scooped out then will be sunk in a trench scooped out at the bottom of the Detroit river. The tunnel will be a double tube, so as to be a two track road, and after it is sunk in position it will be covered with sand and gravel. This is an unique way of building a tunnel, and, to the ordinary person, would seem an impossibility, but the engineers who conceived the plan are no doubt sure of their ability to carry it out, and the result will be watched with the keenest interest by everybody whether they are engineers or possessed of only the ordinary minds of the laymen. the ordinary minds of the laymen.

HOLD UP MAN IS ARRESTED.

Nabbed by Night the Operator

at Glencoe After

Chase. St. Thomas, Sept. 15.—Chief of Police Armstrong received a message to the effect that a man who held up Operator "Jack" Millen, at Thamesville Friday morning, and robbed the depot of \$70 and a revolver, had been nabbed at Glencoe. He gave his name as Edwin Joseph Zeamin, and he had the tell-tale money and goods in his possession. He admitted committing the robbery. His home, he says, is in Atwood. The police believe he has a "fat" police court record.

Zeamin nearly frightened Operator Millen again Friday night. After dark he showed up around the depot and made no effort to hide his presence. "Jack" put in an uncomfortable two hours, but kept the authorities at St. Thomas acquainted with what was transpiring. Zeaman finally boarded an eastbound freight, and preparations for

direction. Operator Millen came to Glencoe, and positively identified the prisoner as the man who committed the hold-up on Fri

day morning.

Donald J. Ross, arrested here as a suspect, was today sentenced to thirty days in jail on a charge of trespass, he having admitted stealing a ride from Windsor.

According to Mr. Lamb's description, the horse is black, stands 12½ hands high, has a white star on its forehead and a white hind leg. The horse is a fine looking animal, but is almost blind. This will probably prove a disappointment to the thieves, who probably did not notice the horse's blindness in the dark.

Lusitania Makes New Ocean Record

New York, Sept. 12-The Lusitania crossed Sandy Hook bar at 9.03 a. m.

Twenty minutes are usually allowed steamers to cover the distance from Sandy Hook lightship to the bar. This makes the Lusitania's time of arrival at the lightship 8.43 a. m. Her time from Daunt's Rock off Queenstown, to Sandy Hook lightship (2780 miles) is, therefore 5 days, I hour, 33 minutes. The Lucania's record is 5 days, 7 hours, 23 minutes for the same course.

If the Lusitania actually passed Sandy Hook lighting ship at 8.43 a.m. her average speed for the course from Daunt's Rock (2,700 miles) was 22.87 nautical miles per hour. This compares with the Deutschland's record speed for the Sherbourg course of 23-15 nautical miles per hour, and with the Lucania's record of 21.81 miles, for the Queenstown course

TERRIFIC ELECTRICAL STORM.

Many Barns Burnt.

A terrific electrical storm accompanied by a heavy downpour of rain swept over Western Ontario shortly before 8 o'clock Monday evening and for over an hour the heavens were aglow with a brilliant pyrotechnic display, which was, however, a little too close to permit of a full appre-ciation of its full grandeur.

a little too close to permit of a full appreciation of its full grandeur.

Strathroy, Sept. 17.—During the severe electrical storm yesterday; the barns and sheds belonging to Henry Smale, concession 6, lot 6, Caradoc, were totally destroyed entailing a loss of about \$1,000. The barns and contents belonging to Neil Galbraith near Appin were destroyed with a loss of about \$1,000. Barns and sheds of Thomas A. Logan, 21st side road, 15 concession, Brooke, were burned, loss about \$1,000, insured for about \$500. Mrs. Logan was severely stunned by the shock. Adam Remely living near North Ekfrid reports the loss of a valuable horse, which was struck by lightning, loss \$200.

Forest, Sept. 17.—One of the most terrific lightning storms that ever passed over this locality occurred last night from 7 to 11 o'clock. At one time four burning barns could be seen.

John Hubbard, a farmer living about three miles west of the town on the 14th of Plympton, had his barns completely destroyed, along with all his crops. Mr. Hubbard had threshed, but his grain was still in the barn.

ROMANCE OF PORTY YEARS AGO. Culminates in a Wedding at Point Edward.

Sunday's Detroit Free Press contained

the following:

A romance that started in Windsor forty years ago has recently been revived after many years of separation during which both the principals chose other life

partners.
It culminated Wednesday in the wedding of James D. Wilkie, 14 Glengarry avenue, an employee of the Vinton company in Detroit, and Mrs. Annie Marrs, of Feamsville, formerly Miss Annie Atherton of Windsor.

of Feamsville, formerly Miss Annie Atherton, of Windsor.

Forty years ago James Wilkie, then a railway man running out of Windsor, was a boarder at the home of Thomas Atherton, formerly foreman on the Grand Trunk. An attachment sprang up between him and Atherton's daughter, then a girl of 15. But a little quarrel prevented the impending wedding and they drifted apart. Miss Atherton chose another man for her husband, and Wilkie

was married sometime afterward.
Two years ago, however, Mrs. Marrs-returned to Windsor to visit the family returned to Windsor to visit the family home, and the pair met. The attachment of the earlier years was revived and a quiet wedding took place Wednesday at the home of Mrs. Merrs's sister, Mrs. Beasley, in Point Edward, Rev. James H.
