The fruit-growers association has in the past done much to aid the agricultural interest of the valley. Here is an opportunity of doing even better work for this interest, in aiding to secure for our farmers the boon of cheap transportation for our farm products to Eagland. The Patrons of Industry of Otatrio have already made one important move in demanding that the fast line shall carry freight; but in order that our farmers may receive much benefit from the expenditure of so large a sum as the proposed subsidy, it is necessary that the new line shall carry that freight cheaper than it has hithersidy, it is necessary that the new line shall carry that freight cheaper than it has hither-

During the past winter Miss Magee has read before cultured audiences on several occasions in Boston, and will, during the coming summer, fill a number of engagements at the different health resorts near the city. 4 cents per lb., potatoes 15 cents per bushel, herring ½ cent per lb., or equal to one dollar per barrel, and everything else in about the same proportion. This is so small a change from the McKinley tariff, that the further progress of the bill becomes a matter of the utmost indifference to those of us on this side of the line who have been hoping for more common-sense trade relations as one of the results of democratic rule. Such a compromise, after so long a contention among the democratic senators, shows how strong a hold the protection sentiment must have nonot the people of the United States. Thus, herring 1/2 cent per lb., or equal to one dollar upon the people of the United States. This, surely, is a case of the mountain being in labor and bringing forth a mouse. Ever since the first election of President Lincole, in 1860, the democrats have been in the cool shades of opposition; and now that they have failed so miserably in carrying out their pledges, it is likely to be another long period of years before the people again entrust them with power. Mrs. Edwin Dodge met with a very serious accident on Sunday evening last. On going out of the new Baptist church after service, she by mistake made a misstep off the side of the steps, and falling heavily struck her head against a hard substance. Surely some one should have public spirit the elessened take of cod, herring and mack erel; these three items when compared with the products of 1892, standing thus:

This loss is to a considerable extent made good by the increased catch of lobsters, alewives and salmon; these items standing thus;

shad and alewives be so changed that no nets be allowed to be set after 10th of June in the municipality of Annapolis." His reasons for this suggestion are that under cover of fishing for shad and alewives the fisherment take salmon, but I state that whitefish and salmon-trout, the product of the Bedford hatchery, are making their appearance in his district.

The overseers state generally that the regulations have been fairly observed, the exception being the too-frequent violations of the lobster-fishing regulations.

In concluding this report, I beg to state that a very undesired phase of the lobster business has been developed by the speculator who having on hand on the 1st of July lobsters legally taken holds themover for the purpose of obtaining better prices. The temptation to illegally fish and claim that the fish on hand were caught before the 1st of July is too much of a strain on the average fisherman, hence the law is violated. It would, I believe, be wise that the words of the regulations be changed by striking out the words "without lawful excuse" and an attack upon our good faith and stand-

Sir,—In your paper of May 9th, you publish an attack upon the Pidgeon Fertilizer Co., by one G. B. McGill, and in justice to us we now request you to publish the foregoing communication, not particularly as a reply to this person, but that your readers may have our statement of the case.

The circular in question, which is so maliciously attacked, was written only in self-defence and not to bolster up or advertise our goods, as the Pidgeon Fertilizers are extensively used and well known throughout the maritime provinces, Mr. McGill himself having used them and testified in their favor.

To give your readers the facts of the case as briefly as possible, as we do not want to encroach upon your space, a circular was issued at Middleton in 1893, and in this circular the values were placed as follows, viz.

This circular was extensively used against us, to our disadvantage, and as we were being pressed by our agents and customers for an explanation, we procured the Bulletin of the Ifland Revenue Department for 1893, No 36, "Fertilizers Sold," and replied, giving value of goods drawn by the Dominion Government Inspector, at different places on sale, to consumers in 1893, viz:—

A STRANGE EXPERIENCE.

AN INTERVIEW WITH A WELL KNOWN BRANT COUNTY LADY.

Suffered for Two Years With Sick Headache. Dizziness and Dyspepsia—How She Found Relief—What Well-Known Chemists Say.
From the Brantford Expositor.

Mrs. S. W. Avery lives on Pleasant Ridge, about four miles out of the city of Brantford, that being her nearest post office and where all her trading is done, Mr. and Mrs. Avery have always lived in that neighborhood, and he is the owner of two splendid farms, the one where he lives consisting of 160 acres the other lying near Brantford comprising 100 acres. They are highly respected residents of the community in which they reside, and every person for miles around knows them. Having heard that Mrs. Avery had been cured of chronic dyspepsia and indigestion, by the use of Pink Pills, a reporter called there recently and asked if she was willing to make public the facts concerning the cure. Mrs. Avery replied that she had benefitted by the use of Pink Pills, and was perfectly willing to give her experience for the benefit of those who might be similarly suffering. "For the past two years," said Mrs. Avery, "I had been greatly troubled with a very "I had been greatly troubl "I had been greatly troubled with a very sick headache, dizziness, and a cough which I believe' were the symptoms of dyspepsia Blood Bitters, took two bottles and my headand indigestion, and I could find nothing to relieve me although I tried several different several dif medicines. I could not even find anything which would relieve my cough, which at

times would be very severe. Early last the winter I read in the Expositor of Dr. Wil-winter I read in the Expositor of Dr. Wil-bounded as the symptoms mentioned were somewhat similar to mine I was | ections—as much as could be heaped on a thus induced to try them. I procured a ten-cent piece every three hours? supply from Messrs. McGregor & Merrill, uggists of Brantford. Before I had used Oi cud, docthor. I strongly recommend Pink anyone who suffers similar to what I rom dizziness, headaches, indigestion,

tc., and I believe they will derive great henefit from their use. Mrs. Avery's statement was corroborated by her husband, who was present during the interview, and who said that without a shadow of a doubt Pink Pills had accomplished more for his wife than any other medicine which she had taken.

Messrs. McGregor & Merrill were interviewed, and in reply to a query as to the sale of these pills, Mr. McGregor said: "We have sold in the neighborhood of 5,000 boxes during the past twelve months and there is no remedy we handle gives better satisfacrion to our customers than Dr. Williams'

Head it "Twilight!" Mr. Merrill, the other member of this wellknown firm, said: "I have more pleasure in selling Pink Pills than any other medicine we handle, because it is rarely there is any disappointment in them, and the people themselves as well satisfied. I am well acquainted with Mrs. Avery and I know that all her statements are reliable, and I have watched the improvement Pink Pills have made in her case and have seen a great change for the better. Many other druggists recommend some preparations, sometimes their own, to be equally as good as Pink Pills, but we cannot conscientiously say so, knowing that as a system tonic Dr.

Williams' Pink Pills stand unrivalled." Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such paralysis, locomotor ataxia, St. Vitus dance nervous headache, nervous prostration and tired feeling therefrom the after effects of tired feeling therefrom the after effects of la grippe, diseases depending on humors in bulk.
