TORONTO BAKERIES Montreal and Winnipeg Included OF \$5,000,000 BREAD MERGER

Bredin, Weston and Tomlin
Companies in Consolidation,
and Other Local Bakers Ex-
pected to Join—Cawthra Mu-
lock Likely to Undertake Flo-
tation of Big Enterprise.

That there is to be a merger of
bakeries in Toronto, Montreal and
Winnipeg, as announced in The World
exclusively this week, was confirmed
yesterday by Mark Bredin of the Bredin Bread
Co. last night. Mr. Bredin has been in
Montreal for a few days, in com-
pany with Geo. Weston, of the West-
on Bakery Co., and returned to the
city yesterday. The amount of cap-
ital involved in the new concern is
\$5,000,000. The headquarters are to be
in Toronto. While the matter has
been settled so far as the outline of
the organization is concerned, the de-
tails are not ready for publication.
"It will take a few days," said Mr.
Bredin, "before we can announce the
details of the directorate, and I am
unable at this time to state who will
be president."

"I want to correct one mis-statement,
which has appeared in the press."
He added: "No milling interest
of any kind is behind the undertaking,
and in no sense can it be termed a
combine or a trust. The basis of the
affected in, managerial and operating
expenses, by a consolidation of inter-
ests. The promoters are actuated
solely by principles of business econ-
omy. As soon as the details are at-
tached, the prospectus will be made
public."

Three Toronto bakeries are im-
mediately involved. The Bredin Bread Co.,
The Weston Bakery and Tomlin's
Bakery. Options have been taken on
two Montreal bakeries, and one Win-
nipeg business will be absorbed.

Mr. Weston declined to discuss the
matter last night, but Mr. Tomlin cor-
roborated in full the statements of Mr.
Bredin, adding that the latter was the
prime mover, and would probably be
appointed general manager.

"The object is just to save expense,"
said Mr. Tomlin. "It is a waste of
money to have different deliveries
made covering the same routes. I don't
think that every baker in the city
will come into the amalgamation. I
understand that the different bakeries
will take stock in the company and
not sell out."

"As for Cawthra Mulock, who has
been mentioned as largely interested,
I can say positively that he will have
nothing to do with it beyond possi-
bly of his being asked to undertake
the flotation."

"So far as Toronto is affected some
250 delivery routes will be involved,
as well as a large wholesale and re-
tail supply business. No accurate esti-
mate is available of the monthly re-
venue, but it is said to be between
\$125,000 and \$150,000."

REV. DR. TEEFY IS DEAD HAD BRILLIANT CAREER

Former Principal of St. Michael's
College Succumbs to Attack
of Diabetes.

Rev. Dr. Teffy, LL.D., superior of
St. Basil's Novitiate and formerly prin-
cipal of St. Michael's College, after
having been unconscious since noon on
Friday, passed away a few minutes
after midnight. Death was due to
diabetes. His brother arrived from Chi-
cago before the end. The last rites
of the church were administered by
Father Frachon, C.S.B.

Rev. John Read Teffy was born at
Brimingham, Ontario, in 1849, the
son of Matthew Teffy, postmaster of
that place. He received his education
at the high school in his native place
and at Toronto University. From there
he graduated with the degree of B.A.,
winning the silver medal in mathemat-
ics in 1871. He received the degree
of M.A. in 1874 and LL.D. in 1896.

He was ordained to the priesthood in
1878, and joined the congregation of
St. Basil. He was afterwards ap-
pointed superior of St. Michael's College
and became, ex-officio, a member of
the senate of Toronto University. In
1896 he was appointed a member of
the educational council of Ontario. After
the passage of the University Act of
1907 by the present provincial govern-
ment, he was appointed to the newly
constituted board of governors of
the university. He would have held
that office till 1914 had he lived. He
was for some time a member of the
Toronto separate school board, and a
few years ago he was appointed su-
perior of St. Basil's Novitiate.

Dr. Teffy was a writer of some
prominence, and contributed several
articles to the volume issued in 1892,
in commemoration of the golden jubilee
of the Roman Catholic Church. In
1893-4 he was editor of The Catholic
Register. By his death there will be
removed from the Roman Catholic
community one of her most prominent
sons, and a man of brilliant intellect
and unusual executive ability.

GROWING SOME.

Cawthra has a big broker's business
and promotion factory.
He has a trust company.
He has an insurance company.
He has a milling company.
He's getting a bread merger.
He's a numerous director.
When he gets a bank and two news-
papers and a departmental store and a
real estate annex and a few loan com-
panies he'll be giving the Senator a
race for the money.

ARRANGEMENTS FOR BORDEN TOUR OF WEST

Subsidiary Meetings Will Cover
Every Constituency in
Manitoba.

OTTAWA, June 9.—(Special).—The
Borden bodyguard for the coming
western tour has been selected. The
list of speakers to date, subject to
one or two possible additions, includes
Andrew Eoder of Dundas, T. W.
Crothers of West Elgin, and Col. Hugh
Clark, member for Centre Bruce in
the Ontario Legislature. This is the
contingent of easterners who will ac-
company the leader for platform work
in the west. George H. Perley, M.P.,
chief opposition whip, will also go,
but will take little part in the speak-
ing. At Winnipeg the party will be
joined by Hon. Robert Rogers, K.C.,
chief opposition whip, and Mr. Broder
over the whole tour. Dr. Roche of
Marquette, Man., and Arthur S.
Meighen of Portage la Prairie, R.S.,
will probably accompany Mr. Borden.
Mr. Cawthra of Calgary will reinforce the
party at various stages.

The opposition leader returns to
Ottawa on Monday after his participa-
tion in the Nova Scotia elections. He
leaves for the west at midnight on
the 10th, and will open his tour with
a mass meeting in the Walker The-
atre, Winnipeg, on the evening of
the 19th.

Arrangements will probably be made
for a number of subsidiary meetings
during the Borden dates, these
meetings being addressed by those
accompanying Mr. Borden. Manitoba,
for example, will have no less than
forty-five meetings up to July 3.

These meetings will be addressed by
groups of Conservative speakers, one
group including E. Sauria, W. H. Sharp,
Dr. Schaffner of Souris, W. H. Sharp,
of Leger, W. D. Staples of Macdonald
and George Bradbury of Selkirk.
Another group will include Col. Hugh
Clark, A. S. McGeheon and St. S. Mc-
Carthy of Calgary will reinforce the
party at various stages.

TORN TO PIECES

Shocking Train Fatality Near North
Newbury.

C.P.R. train No. 22, leaving Detroit
for Toronto at 1:21 p.m., daily, struck
down Miss Ruth Stephens, aged fifty-
five, last night, about two miles east
of North Newbury. She was in the act
of walking across the track as the
train approached, but being deaf, did
not hear the alarm. Those on the spot
testified to hearing it quite plainly.
Conductor Moyer, of London, who
was in charge of the train, said that
the poor soul's body was literally torn
to pieces, being scattered along the
track for some distance.
Two of the train crew were left at
the scene of the accident to attend
to the body.

TORONTO UNIVERSITY CONVOCATION YESTERDAY—THE PROCESSION ACROSS THE CAMPU.

CONFERENCE REAFFIRMS POLICY ON EMIGRATION

Fullest Co-operation to Be Given
British Dominions Requir-
ing Immigrants.

(Canadian Associated Press Cable).
LONDON, June 9.—At the Imperial
conference to-day Premier Fisher
renewed the reaffirmation of the resolu-
tion of 1907, that it is desirable to en-
courage British emigrants to proceed
to British colonies rather than foreign
countries, and that the Imperial govern-
ment be requested to co-operate
with any colonies desiring immigrants
and in assisting suitable persons; also
for the representatives of the dominions
to form a committee of the emi-
gration information office.

Premier Morris expressed himself as
favorable.
Mr. Hon. John Burns said that since
the last conference the object of the
resolution had been to a great extent
secured. If the rate of increase for the
first four months were continued for
the whole of 1911, the total number of
emigrants from Britain to all countries
would amount to 331,329, of whom it
was estimated that nearly 50,000 would
go to different parts of the empire.
This was a generous contribution in
quantity and quality from the mother
country. The result of the excellent
and increasing work in the right di-
rection carried on by the new adminis-
tration of the emigration office was
generally admitted that the quality of
emigrants had improved. With the
diminishing birth rate the mother
country could not safely go beyond
\$2,329 yearly, of which \$6,000 went to
different parts of the empire. The
conference would probably agree that
this was as much as they could re-
quest.

Laurier Approves.
Sir Wilfrid Laurier said that Burns'
statement appeared to him quite sat-
isfactory.
Sir Joseph Ward urged the altera-
tion of the resolution, so as to ex-
press approval of the policy of the emi-
gration office. Otherwise it might con-
vey the impression that they were not
satisfied with what had been done.

Mr. Hon. Lewis Harcourt suggested
that the result on should read that
having heard Burns' explanatory state-
ment, the conference resolve that the
present policy of encouraging British
emigrants to proceed to the British
dominions rather than to foreign coun-
tries be continued and that full co-
operation be accorded any of the do-
minions desiring immigrants. The resolu-
tion as amended was unanimously
carried.

Respecting Destitute Persons.
Sir Joseph Ward moved that recip-
rocal provisions be made throughout the
empire respecting destitute or deserted
persons.

Mr. Fisher, while generally approv-
ing of the principle of the motion, said
that at the actual application of the emi-
gration office in the various dominions.

Premier Fisher suggested that the
reference to poor relief burdens be
omitted, as they had nothing to do
with the poor relief burdens of the
United Kingdom.
Harcourt suggested that the resolu-
tion should read: "In order to as-
sure justice and protection for the emi-
grants and children, who have been
deserted by their legal guardian, either
in the United Kingdom or in any of
the dominions, reciprocal legal pro-
visions be adopted in the constituent
parts of the empire in the interest of
such destitute and deserted persons."

Hon. George Findlay, attorney-gen-
eral of New Zealand, agreed and the
resolution as amended was unanim-
ously agreed to.

CARRIE NATION DEAD.

LEAVENWORTH, Kas., June 9.—
Carrie Nation, the Kansas saloon
smasher, died here to-night.

A GREAT JUDGE.

A striking full-length photo-
graph of James P. Mackenzie, chief
justice of the province of Ontario, ad-
orns an article in The Sunday World
this week. Mr. Mackenzie has been a
figure among the prominent
justices of Canada. Under his
guiding hand the federal rail-
way board has been a picture-
que figure among the prominent
justices of the methods by which he has
obtained the top rung of the
ladder, read the article.

ON THE FARM—DUTCH AND SCOTCH.

The cool weather must have been
good for the crops, but the fields look
none too well at this moment. Fall
wheat has headed out, but has been
slow in shooting upward, and the grain
has a stunted look with heads of fair
size. Two or three warm days may
greatly improve it. Hay is coming on,
but not in a phenomenal way.
The farmer finds he has an unusual
number of days between his recent
work of seeding and planting, and the
moving of his hay. He ought, there-
fore, to seize these extra days in team-
ing his manure from the barnyard to
a convenient piling ground in the
fields; he should go after his stables
and weeds with spud, scythe and spray-
ing outfit. He can take a day or two
at weeding along the road. He can over-
haul his haying implements and not be
reminded to the blacksmith or the fac-
tory for repairs and parts when he
should be driving ahead in the fields.
He should be thinking of the cois that
he ought to have next year, and why
he hasn't as many this year as he
counts on. He will find that negli-
gence or overwork is his chief sin in
this respect.

If he has a flock of sheep he should
have them all clipped and the wool
marketed; and if he has he will find
that the price is better this year than
former years. A flock of forty to fifty
sheep ought by this time to have net-
ted him \$25 for wool, \$40 for spring
lambs, and with twenty young ones
still left in the flock. Our farmers have
neglected sheep for no sufficient rea-
son.

And what about the cow? How many
heifers has he of grade Holsteins, and
how many calves? A good many for
the most dignified think that you see
in the dairy herds of Ontario is the
spread of the black and white cow.
Let him fancy the center outward. More
than half the milk cows in York
Township now are Holstein grades.

And if the farmer has a minute to
look about, let him compare the crop
on the fields that are planted with
that which is on the surface furrowed.
The farmer who observes the bare patches in
his wheat and connect it up with the
lack of drains. Water lodges on the
fields, freezes, then smother the wheat.
Let him get good surface drains at once.
Let him run away and leave the wheat
to rot.

The farmer's wife is planning her
harvest bins of fare, her children are
at school, but thinking of the holi-
days, or rather, the days of helping
in the fields, the hired man is working
with his fellows in the way of work-
ing the respective merits of the Irish,
the Scotch, and the English. And speak-
ing of nationalities and farming, one
would think that it was in Aberdeen
in Scotland that he is judged by the num-
ber of the sons and daughters of that
celebrated district county who are now
earning their livelihood and establish-
ing themselves in Canada. Scotland
will soon be depopulated if this con-
tinues.

The Dutch Holstein cattle in
the fields and the Scotchmen working
the land that are the surprising na-
tional characteristics on many a Cana-
dian farm these days. And they're
both good for the farm.

UNPAID EMIGRATION AGENTS.

Porcupine came to the fore again y-
esterday, when Hollinger made another
big rise. This stock opened below \$14
a share in Toronto yesterday morning,
but on the London market the price
reached \$15.25. Hollinger was the first
mine developed, and this speaks well
for the Ontario gold camp. What
times for the Ontario gold camp. What
times for the Ontario gold camp. What
times for the Ontario gold camp.

SMUGGLED BUTTER

BRUSTON, N. Y., Butter-Maker Arrested
by Customs Officers.
CORNWALL, June 9.—(Special).—
United States customs officers have
arrested Francis L. Richards, a Brus-
ton, N. Y., butter-maker, on the charge
of smuggling butter from Canada.
Richards tendered the officials \$100,
which he claims will cover the duties
on the butter smuggled, but was held
in \$1000 bail to await the action of the
United States grand jury at Elmhurst
on June 12.

HE'S A TALL OFFICER.

T. G. Leith, late of the Gordon High-
landers, who is residing at the Queen's
Hotel, has the unique reputation of
having been the tallest officer in his
regiment, his height being 6 feet 8 1/2
inches. He was for three years station-
ed in the Punjab in India, and in-
tends to settle in business in Toronto.
His home is in Aberdeen, Scotland.

FIRST FRUITS FROM ONTARIO'S ORCHARDS

Canadian Berries in Saleable Quantities
Point to Abundant Yield—
Poor Showing For Late Peaches.

Those who are disposed to find
fault with the cool weather of the past
two weeks hardly realize that the fruit
season has arrived. Yes, and despite
the weather—for a cool spell in June
is as proverbially regular as a Janu-
ary thaw—the shipments of Canadian
berries are ten days earlier than last
year. Ten days earlier means a ces-
sation of shipments from United States
points, and a consequent increase in
returns to Canadian growers. On
Tuesday of this week, the first ship-
ments of any size arrived from Onta-
rio. Oakville, Aldershot and other
points, realizing as much as 22 cents
per box. Yesterday's receipts from
same places brought from 12 to 16
cents per box. The quality is good,
perhaps better than the average for
this stage of the season. Next week
will see a large increase in the quan-
tity coming into the Toronto market,
and the thrifty householder will soon
be able to enjoy her buying instincts to
secure a supply for preserving.

Reports from the Niagara, Grimsby
and Oakville districts found the fruit
growers well satisfied with the ex-
pectations. They speak of quality
being good and prices satisfactory.
Grimsby says: "We have lots of berries
ready to go, and the quality is better
than last year." Jordan has the same
spirit of optimism. While the straw-
berries are grading the table and export
markets, the raspberries, the raspber-
ries are taking form and hastening to
maturity. These, too, will ripen in
abundance, and amid this fruiting
cherries are turning color. In a fort-
night's time, no one will require to
take "two bites at a cherry." There
will be enough even for the profligate.
The farmer told The World yesterday
that there would be a sparse crop of
late Crawford's. The earlier varieties
of peaches will, according to present
indications, average up well with
former years, but it seems as if the
price of the Canadian peaches will
be a disappointing one. The Ontario
fruit of God's providence would
be more wanting than wasted.
The forward season has in the way of
a benefit in the way of spring vege-
tables. Farms stretching from Oak-
ville to Hamilton—in that sheltered
sun-kissed look around the water
donations of green goods, separate
lettuce and spinach of a re-
freshing and tempting variety.

NOW IT'S PHILANDER

Looks Like Practical Joking With
Queen's Park Register.

What does it mean?
Perhaps it's a joke after all, but any-
way the visitor's register of the par-
sonage building, dated June 8 is the
signature "Philander C. Knox, United
States secretary of state."
A week ago Champ Clark's signature
was on the register. Now it's the United
States secretary of state.
Perhaps in a few days we may ex-
pect to find William Howard Taft
strolling around Queen's Park.
And to think that Sir James Whit-
comb is in England, and that this Ameri-
can invasion goes on here!

AMERICAN AGRICULTURE

Has Nothing to Fear From Reciprocity
With Canada.

HANCOCK, Mich., June 8.—That
American agriculture has nothing to
fear from reciprocity with Canada and
that the department of agriculture as-
sists the American farmer to cope with
the world, were among assertions made
by Secretary of Agriculture Wilson, in
an address to ten thousand "copper
country" people to-day. The speech
was delivered in connection with the
visit of the Detroit board of commerce
to the upper peninsula. Mr. Wilson
placed agriculture above mining, on
which this region is dependent as more
stable and permanent.

SOME EXCLUSIVE HATS SATUR- DAY.

the Dineen Company is more than pre-
pared to meet the June demand with

markable for unusual quality and ex-
clusive style. Silk hats for a June
Sunday and the straw or light weight
felt Alpine for week-day wear. Din-

QUEEN'S UNIVERSITY SEPARATE FROM CHURCH

Vote of General Assembly Stood
132 to 79—Alternative Motion
to First Ask Ontario Govern-
ment to Guarantee Adequate
Support Rejected.

LAYMAN TO BE ELIGIBLE TO BE CHOSEN PRINCIPAL

OTTAWA, June 9.—Queen's Univer-
sity, Kingston, is to separate from the
Presbyterian Church of Canada. After
a discussion which lasted all day,
the Presbyterian General Assembly, in
session here, approved of the recom-
mendation of the board of trustees to
that effect. The vote stood 132 to 79,
but later it was made unanimous and
almost without exception there was gen-
eral satisfaction that the vexed ques-
tion that has dragged its devious
course over a decade, has been settled.
The next step will be for the assembly
to appoint a committee to act with a
trustees to insure the required legisla-
tion to make the changes proposed. It
is just possible that matters can be
adjusted so that a bill may be intro-
duced in the present session of parlia-
ment. The details of the constitution
of the new board will be worked out,
the change made in the constitution re-
moves the denominational restrictions.
The principal officers were that 27 of the
board of trustees of about 40 had to be
members of the Presbyterian Church,
and that the principal had to be a
Presbyterian.

DEGREES CAME IN STEADY SHOWER

Annual Convocation Unusually
Long Because of Numerous
Honors—Ceremonies Had
Picturesque Qualities.

Another convocation day at Varsity
is passed and gone. Yesterday after-
noon the stately procession of gradu-
ates in academic costume filed out of
University College and across the lawn
to convocation hall, where the pow-
ers that be were ready to confer the well-
earned honors. Crowds of sight-seers
were gathered on the lawn to see the
procession pass, and an imposing ar-
ray of cameras were also in active
service.

It was exactly 2:40 P.M. when the
long line of graduates left University
College. The girls graduated came first,
carrying beautiful bouquets of roses,
and marched two abreast across the
lawn, headed by the yeoman bedel,
Robert Martin. It was an imposing
procession, this, with the white cos-
tumes of the ladies, the black gown
and the white-colored hoods of the
faculty.

Scholastic Array.
The order of procession was as fol-
lows: 1. The lady graduates, 3 Bache-
lors of Arts, 3 Bachelors of Medicine,
4 Bachelors of Pharmacy, 5 Bachelors
of Applied Science, 6 Bachelors of
Science of Agriculture, 7 Bachelors and
Doctors of Veterinary Science, 8 Bache-
lors and Doctors of Forestry, Music
and Public Health, 9 Bachelors of Law,
10 Masters of Arts.

The square bedels were Vincent
Massey and Dr. Ball, while the pro-
cession was in charge of Professor
De Lury and Dr. Neidler.
Behind the graduating classes walk-
ed the faculty, the faculty of the
convocation was accompanied by the two mace-
bearers, while next in the procession
came President Falconer and the
Chancellor, Sir Charles Fitzpatrick, Dr. E. Gould
of New York and Dr. Grenfell. The en-
tire faculty of the university followed
two abreast.

Inside convocation hall the scene was
one of animation. Noises of many and
different varieties, college yells, etc.
filled the air, but everything else seem-
ed insignificant compared with the
barnyard melody that greeted the can-
didates for the degree of the Ontario
Veterinary College. Following were
the faculty of medicine, the faculty of
theology, and in some of the other
faculties too, by a peculiar arrange-
ment every convocation of graduates
going to the platform included just
one girl graduate and she was inevi-
tably greeted with the old-time melody,
"Just one girl."

Conferring of Degrees.
The honorary degrees were conferred
first. Right Hon. Sir Charles Fitzpatrick,
P.C., K.C.M.G., was presented for
the LL.D. degree, by Sir Charles Moss,
chief justice of Ontario; Elgin Reiston,
chief justice of the Province of Ontario,
for his LL.D., by Chancellor Burwash
of Victoria University; Wilfrid Thom-
son Grenfell, M.D., LL.D., C.M.G.,
was presented for his honorary degree
in medicine, by Dr. Clarke, dean of
the faculty of medicine. Hilbert Win-
ston Hill, M.D., of Minnesota, had con-
ferred on him the diploma of public
health. It was a long and tedious duty
performed by the chancellor, who conferred
degrees without cessation for almost two
hours. At the close of the commence-
ment exercises, President Falconer
read out the list of prize winners and
remarked that the results of the re-
cent examinations were extremely gra-
tifying to the professors, a general
standard of a very high order having
been reached. The winners of the
medals and scholarships, he said, were
a credit to the university. After the
commencement, a garden party
was held in the quadrangle and there was
a large attendance.

DOUBLE DROWNING.

NAPIERVILLE, Que., June 9.—St.
Luc Picaud and his son Willie, aged
16, were drowned in the Little Mont-
real River to-day while bathing.

RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-Tives."

Shanly, Ont., Sept. 23rd, 1910. "You certainly have the greatest discovered Headache Cure in the world. Before 'Fruit-a-Tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders. One of your travelers called on me when I had one of my raging headaches and had my head almost raw from external applications. I had to take to see any person coming into the store (I was a commercial traveler) and I told him very curtly that I had a headache, but he insisted on my trying 'Fruit-a-Tives'.

"I did so, with what I would call amazing results. They completely cured me, and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health. I was 65 years old yesterday, and have been a general storekeeper at the above address for twenty-five years."

WM. PITT. As Mr. Pitt says "Fruit-a-Tives" is the greatest headache cure in the world. Dealers everywhere have "Fruit-a-Tives" at 50c a box, 6 for \$2.50 or trial size, 25c, or sent on receipt of price by "Fruit-a-Tives" Limited, Ottawa.

EATON'S DAILY STORE NEWS

"EATON BRAND" for the Man's Best Suit of Black

Such a suit as a business or professional man would wear on dress or semi-dress occasions.

To meet this demand, "EATON BRAND" Clothing has been tailored of black materials. Suits particularly suited to the requirements of men who must dress well, yet who practice economy in the matter of clothing expenditure—men who want the biggest money's worth possible in a high-grade suit of clothes.

The designers of these "EATON BRAND" Black Suits have aimed to give them a quiet dignity of style, and in this they have been most successful. The coats have been moulded and padded by hand to secure a snug, perfect fit about the collar and shoulders; the fronts are reinforced with haircloth the whole length; the pockets are constructed on a new system that eliminates possibility of their sagging, and the sewing has been done by hand wherever necessary to insure permanent shape. The materials and linings are all cold water shrunk.

"EATON BRAND" Clothing is so low in price because it carries no middleman's profit, and the maker's and retailer's profit, which we combine, we make a small one.

Suit in sizes from 36 to 44. An "EATON BRAND" Suit of black vicuña cloth, that has a nice soft dull nap finish and is fast in color, single-breasted coat with cloth buttons, lined with strong wearing material. 15.00

BUFFALO OUTFIT LEAFS AND WON FIRST GAME

Al Shaw Had a Homer and a Triple
—Truesdale and Killifer Had
Three Hits For Bisons.

The Buffalo herd won the first game of the series from Joe Kelley's team by 5 to 3.

Buffalo outdid the home team and clinched the game in the third inning when a double, two singles and a base on balls resulted in three runs.

Edwin and Merritt were opposing pitchers and the Buffalo twirler had the better of the argument. Shaw, Delahanty and Kocher were the only ones to secure safeties off him. Shaw had a homer and triple, Delahanty two singles and a triple, and Kocher a double.

Rudolph was touched up for 11 right hits, including a double by Sharpe, that started the trouble in the third inning.

The visitors started in earnest, Truesdale dropping a nice single in right field. He advanced on an infield out and scored. White's single into right field, and Killifer's double, made a great running catch off the third out ball to right field for Sharpe. He scored on the play.

Half of the first, when with two out, Jordan walked, but Kocher doubled to right and Delahanty scored. Mullen gave White a hard one to get for the third out.

Buffalo looked dangerous in the third, but the double play ended matters. The Leafs, however, got one in their half of that inning, when Al Shaw hit a corker over Schiml's head for a home run.

In the fourth inning, after Shaw had made a great running catch of McCabe's hit to right center, Killifer hit into left field for two bases and scored on McDonald going in the same direction.

In the fifth, Killifer hit to center, in the sixth, Killifer hit to center, in the seventh, Killifer hit to center, in the eighth, Killifer hit to center, in the ninth, Killifer hit to center.

Note and Comment

Harry Giddings has made a record probably unequalled by any owner in the history of the Canadian turf. In six starts with two horses at Woodbine and Blue Bonnets he has scored as many firsts, viz: four with St. Bass and two with Ondramon.

Joe Kelley managed the ball team yesterday from the bench, wearing his street clothes, when the chief roster wanted to get the Leafs' leader on the coaching line and enquire why he fancied Stanley Fay to defeat St. Bass. Toronto's last victory was the first game of the double-header with Rochester, one week ago to-day.

The historic Latonia Derby, 114 miles, will be run at Latonia to-day. The derby was inaugurated in 1883, when Leonatus won. Since then the victorious horses have included Los Angeles, Lazzarone, Hatma, Ben Brush, Ornament, Lieutenant Gibson, Hermando, Harry New, Woodlake, Elwood, Sir Huron, The Abbott, Pinkola, Olambala and Joe Morris. The biggest value was \$12,250, in Ben Brush's year.

If Carl Morris, the Oklahoma Giant, beats Jim Flynn at Tulsa on July 4, he will take a trip to Europe, as he says he will not fight again until autumn. He has promised to box 10 rounds with Albert Palmer in New York next October, so that easterners can have a chance to size him up.

G. L. ("Tex") Rickard, who put on the Johnson-Jeffries fight in Reno last July 4, writes from South America that he will offer a purse of \$50,000 for Jack Johnson to fight two men the same day for the world's championship at Buenos Ayres. Rickard declares his belief that Johnson can defeat any two men in the world, one after the other. "All I ask," he says, "is that Johnson get a rest of 15 minutes after disposing of the first adversary."

Providence 10, Jersey City 2.

PROVIDENCE, R.I., June 8.—Jersey City was an easy proposition for Providence this afternoon, the Grays winning a fine game by a score of 10 to 2. Crowley held the visitors safe all the way, showing splendid work in the box. His support was fast and snappy. Justus was driven from the mound in the seventh by the feature, his three drives being to Tompman, c., 1; 2; 3; 4; 5; 6; 7; 8; 9; 10; 11; 12; 13; 14; 15; 16; 17; 18; 19; 20; 21; 22; 23; 24; 25; 26; 27; 28; 29; 30; 31; 32; 33; 34; 35; 36; 37; 38; 39; 40; 41; 42; 43; 44; 45; 46; 47; 48; 49; 50; 51; 52; 53; 54; 55; 56; 57; 58; 59; 60; 61; 62; 63; 64; 65; 66; 67; 68; 69; 70; 71; 72; 73; 74; 75; 76; 77; 78; 79; 80; 81; 82; 83; 84; 85; 86; 87; 88; 89; 90; 91; 92; 93; 94; 95; 96; 97; 98; 99; 100.

THE MORMONS HELPING SIR WILFRID.

Senator Smoot, the Mormon representative from Utah, is supporting the reciprocity agreement. The Mormons who are in Alberta and who are a growing factor in Canada are also in favor of reciprocity, and there is no doubt that the government at Ottawa was in a position to ask the Mormons of Alberta to influence their Utah brethren, represented by Mr. Smoot, to support the bill.

The United States have a Mormon problem on their hands, and the first thing Canada knows, she will have the same thing, and the net result will be that we will gradually become entangled with the politics of the United States if we mix up our tariff affairs with theirs, and give them what they practically have if reciprocity is carried, the right to make the tariff of Canada in secret treaty with one or two ministers from Ottawa. In other words, parliament would divert itself of the right to frame and change and do what it likes and whenever it likes with the Canadian tariff law. If we get reciprocity by the aid of Smoot we've got a Mormon question next day. Make no mistake of that.

THE ENGLISH CENSUS.

During the decade ending April 1 last the population of England and Wales increased by over three and a half millions, or 10.91 per cent, the smallest ratio for a century. The census figures show clearly that improved transportation facilities are tending to check the segregation of workers in the populous centres, which in many cases have been practically stationary as regards population. London proper, for example, has decreased by 0.29 per cent, whereas what is known as the outer ring has increased by no less than 33.60 per cent.

Contrary to the experience of Scotland, the figures for the agricultural counties are also favorable. Dorsetshire increasing by 10.50 per cent, and the north riding of Yorkshire in nearly an equal ratio. This, however, does not warrant the reference that the people are getting back to the land to any great extent, but more accurately that the urban workers are yielding to the attractions of country life. It is none the less satisfactory since it means that the homes of the future will have a healthier environment than can possibly be found in congested cities. The movement has, however, created difficulties of another kind, by increasing the burden of taxation in the depopulated areas.

INFANT MORTALITY.

The death rate among children under one year of age, according to a return prepared by Dr. MacMurchy for 15 cities of Ontario, averages 189.2 per 1000. There were 7618 children born in the city in 1906; 1215 of them died before they were a year old. Seventy per cent of the deaths may be avoided by proper care. Does the city council wish to get Toronto any lower on this list?

BIG CIVIC SPIRIT.

Acting Mayor Spence has shown more pluck than any city father in a generation when he proposed to expropriate the lot on the corner of King and Yonge streets, and widen the street forthwith. The C.P.R. is not likely to refuse the offer of the property from the city, and as Controller Spence said, if the company does not buy it there are plenty of others who would.

The board of control have decided to expropriate the C.P.R. property at the southeast corner of Yonge and King-street. The 30-foot lot immediately to the east, owned by the Imperial Bank, will also be taken over by the city. The property will be resold to the C.P.R. less a 5-foot strip on the Yonge-street frontage and another of the same width on King-street. A 5-foot strip will also be taken from the Imperial Bank property.

WANTS DECENT DRINK.

Water, water, everywhere, But not a drop to drink. Editor, Toronto World: It was lately stated that Canada has more pure drinking water in one of her great lakes than the whole of Europe. That is the 8,000,000 of Canada have more of this most necessary element than the 200,000,000 of Europe, and yet no person in Toronto, with one of these magnificent lakes at our door can get a decent drink of water. We are obliged to drink poison in one form or other every time we quench our thirst. Either we must pour microbes down our throats or we must drink chlorine, which is perhaps just as harmful in the long run.

FINE DUTCH WATER COLORS.

On Thursday, June 15, the art loving public will have an exceptional opportunity to secure representative examples of quite a number of the most noted Dutch water color painters. The collection includes works from the easels of such prominent artists as P. P. Schiedeggs, J. Van der Linde, P. Schipperus, G. A. Altmann, A. W. Van Voorden, N. Steffelaar, Hoogeweg and others of recognized genius. The drawings are of unusual quantity and are especially remarkable for their delicate effects and admirable technique.

May Use Metropolitan Lines.

The civic authorities are negotiating with the Metropolitan Railway Co. for the use of their tracks in connection with the municipal system. This plan was suggested to the Ontario Railway Board together with the proposition that the railway double-track its Yonge-street line, at the time the Metropolitan Company made application for permission to secure a private right-of-way. The board is awaiting the result of the negotiations.

PEASE THE FURNACE

What Stands for simplicity in furnace construction. It Distributes heat evenly from every register. Requires the least attention. Lasts longer with a minimum of repairs. Extracts the greatest quantity of "heat" possible from the fuel used. Has a special contrivance which assists in consuming the gases which would otherwise escape up the chimney. Makes practically no dust at all in the house, on account of its specially constructed cup joints. Is the most economical both from a fuel burning standpoint and cost of upkeep.

What It costs It may cost a little more to install than most furnaces because only the highest quality materials are used throughout its entire construction. But it costs less for fuel because of the special construction of its combustion chamber, air blast, and radiating surface. It costs less to operate because owing to the high quality of material used throughout it costs practically nothing for repairs and lasts longer. What Your temper, because it always works right it saves and is "on duty" all winter through. Labor, because there is practically no dust when you use a "PEASE." Money, because it burns less fuel and needs almost no repairs. Backache, because you don't have to stoop with its new shaker. It will save you from all future heating troubles if you install one this summer. "ASK THE MAN WHO HAS ONE."

Hot Water AS MUCH AS YOU WANT

WHENEVER YOU WANT IT IF YOU USE A Vulcan Water Heater

How convenient it is to have plenty of hot water for laundry, kitchen or bath. Obtaining hot water and obtaining it quickly, has often been the greatest trouble during the hot weather. It can be heated by the Vulcan Gas Water Heater at a cost of one cent. It is easy to operate—a match lights it—a turn of a tap extinguishes it. Why go through another hot summer without a VULCAN? We connect it to your kitchen boiler to-day. Send for Booklet. Phone Main 1833.

But Meantime the Supply Will Not Be Cut Off. The board of control are evidently not accepting all the medical officer's sayings as gospel. Meanwhile the unchlorinated water will be allowed to run. T. E. L. to Reduce Rates. The Toronto Electric Light Co. announce that they will issue their rate reduction schedule next week.

STORM INTERFERES WITH WORK ON INTAKE

Detached Portion Will Be Ready For Replacing Almost as Soon as Weather is Clear.

Good progress was made on the intake pipe yesterday morning, and Superintendent Randall calculated on having the pipe cleared of sand by night and ready for the repair men to get to work. Unfortunately, tho, a heavy wind blew from the south and east just after 1 o'clock noon and such a choppy sea began to roll and pump that dredge No. 3, which was pumping away at the sand, was forced to leave the job and make for shelter.

Practically all the sand is now cleared away from the detached pipe, both outside and inside. Not more than thirteen feet remain on the pipe, and this will easily be removed in two or three hours should the weather be favorable this morning.

Chains are to be adjusted round the pipe, while the last portion of the sand is being removed. The chains will be passed to a derrick scow, which is to be sunk several feet with water and then pumped out again to start the pipe from the bottom with its buoyancy, somewhat on the pontoon principle. The pipe will then be floated into place attached to the bottom of the scow.

Miller, Cummings & Robertson, the repairmen, were prevented by the storm from making any progress with repairs. They will start on the first break about three hundred feet from the shore as soon as the weather is favorable. They will lift the pipe in about 4 inches with wooden wedges. Afterward they will replace the length north of the intake and repeat that. This will not be a long job should the weather prove at all favorable. It will then be possible to use the temporary intake pipe.

MAY BE MURDER

Threw Landlady Downstairs and Drew Knife Against Her.

MONTREAL, June 9.—A fight that may end in a murder trial took place to-day at 447 Cadieux-street, when Pierre St. Denis threw his landlady down stairs in a drunken passion. She is at the General Hospital, and is not likely to recover. He had been drinking all night, and when she reproved him for it he struck her and then threw her downstairs. He drew a knife and ran at her again. Police passing stopped him as he raised his hand to strike.

Long-Lost Heirs Found.

A romantic story came to an end yesterday when Col. Legie of Hamilton announced to Mr. Justice Riddell at Osgoode Hall that W. H. Baker and his sister, who have been missing since 1878 and were supposed to have been massacred by Indians, when children, were in court for them, and it will be distributed under letters of administration.

PUBLIC DRINKING CUP NOT YET ABOLISHED

Controllers Decide That They Must Remain Until a Substitute Has Been Provided.

The board of control had a few things to say about the public drinking cup yesterday. Dr. Hastings, medical health officer, and Ald. Rowland, chairman of the local board of health, were present to represent the opinion of the officials that it should be at once abolished as a menace to the health of the people.

Ald. Yeomans put up a stiff fight against this proposition. While he thought there might be something in the contention of the medical health officer, the cups should not be removed until some substitute had been provided for them.

"The cups are gone and children who play in the parks get no water to drink. I am of opinion that it hurts them a great deal more to go thirsty on a hot day than to use the public drinking cup," he said.

"But you cannot ignore the public health act and the expressed opinion of the city solicitor," retorted the medical health officer. "I have no objection to the public drinking cup being abolished," said Ald. Yeomans. "The act, however, should be intelligently administered."

"If the children use the public drinking cup they run the risk of catching disease; if they do without water a little while they merely get thirsty. In the one case they run into danger, in the other they simply suffer a little inconvenience," said Dr. Hastings.

The acting mayor intimated that the board of control were prepared to accept the dictum of the medical health officer and abolish the cups, but that they would not until a substitute had been provided.

"How long will it take to provide a substitute?" asked Dr. Hastings. "I modified the board in April that the cups would be removed, and asked that a substitute be provided."

Finally it was decided that the cups should remain for the present, the controllers promising to make their use unnecessary at a very early date.

AT HANLAN'S TO-DAY

Sensational Aerial Acts and Band Concerts for Everybody.

At Hanlan's Point there will be all kinds of fun for everybody, and most of it is furnished free. One of the most sensational acts seen at this popular resort in years is presented by the Five Nelsons, who perform the most daring feat, high in the air. The Matthews Trio also furnish thirty minutes of exciting amusement. A new feature at Hanlan's that is attracting much attention is "The Circus of Curious People." They are well worth seeing. Victoria is the fattest girl in the world. She is 18 years old and weighs over 500 pounds. Captain Nip is the smallest man, he is 28 years of age and weighs 34 pounds. Johnny Webb is the biggest baby, and Baroness Sionia is the only living bearded man. During the afternoon and evening the Body Guards Band will render popular programs. To-morrow (Sunday) afternoon and evening and all next week the original Angelo Vitale and his Italian boys' band will give concerts every afternoon and evening. This is the same organization that was here two years ago, and should not be confounded with any other.

The Honorary Governors, who will visit the Toronto General Hospital during the week commencing on June 11, are Messrs. John Northway and James Lumbers.

EXCURSIONS TO WESTERN CANADA.

The Grand Trunk Railway System announces that on Tuesdays June 13 and 27, July 11 and 25, August 8 and 22, Sept. 5 and 19, 1911, Home-seekers' Excursions will be run from all stations in Ontario and Quebec to Western Canada, via Chicago and Duluth or via Chicago, St. Paul and Minneapolis, at reduced round trip fares. The well-known double track line of the Grand Trunk from the east to Chicago appeals to the traveler, and with the superior train service that is offered by this line, including the famous "International Limited," from Montreal daily at 8 a.m., and which is the finest and fastest train in Canada, many passengers will be attracted this way. The route via Chicago is a most interesting one, taking passengers through the principal cities and towns in Canada and in the States of Michigan and Indiana. In addition to this a choice of seven lines between Chicago and St. Paul and Minneapolis is offered. Owing to the great number of Canadians who reside in Chicago, St. Paul, Minneapolis Duluth and other cities en route there is no doubt that the Grand Trunk will find many patrons who will take advantage of the opportunity thus afforded them for a brief visit at the stations with their friends. Canadian citizens are exempt from so-called immigration examination, and there is no detention at any point. Baggage is carried through the United States in bond without requiring any special attention on the part of the passenger. Inspection is not necessary at any of the points at the border. Another feature that will appeal to the homeseeker is the comfortable transfer at points like Chicago, St. Paul and Duluth into freshly ventilated clean cars, avoiding the necessity of traveling a long distance in the same car. In addition to the above routes, the sale of tickets is also authorized via Sarnia, and the Northern Navigation Company's magnificent steamers across Lake Huron and Lake Superior. For further particulars apply to any agent of the Grand Trunk Railway System, or write to Mr. J. Quinlan, District Passenger Agent, Bonaventure Station, Montreal, or Mr. A. E. Duff, District Passenger Agent, Union Station, Toronto.

PUBLIC AMUSEMENTS

AT THE PRINCESS.

"The Lion and the Mouse."
Heralded as one of the greatest dramatic achievements in modern theatricals is "The Lion and the Mouse," by Charles Klein, which the Baldwin-Melville Stock Company will present at the Princess Theatre, all next week with matinee Tuesday, Thursday and Saturday.
"The Lion and the Mouse" deals with a phase of life novel and intensely interesting to all classes of citizens. John Burkett Ryder, an unscrupulous master of finance, is the real power behind the railroad trust menaced by hostile legislation. Ryder's gold has both legislative and supreme court judges bribed. One man alone, Judge Rosemore, is incorruptible. This honest public servant, Ryder has sworn to ruin. Judge Rosemore is impeached and about to be tried. The young woman who displays so much knowledge of men and things, and engaged her to do some literary work necessitating a stay of two weeks under his roof. There is a paralytic amount of love interest, Shirley being courted secretly by Ryder's son, a clean-cut independent young man, who does not hesitate to tell his father what he thinks of him. Finally the girl prevails upon the young man to help her obtain certain papers, which constitute Ryder's alleged proof of her father's guilt. Ryder discovers the loss, and a stormy scene follows. Shirley discloses her identity, asgals Ryder, and with a long and bitter denunciation of him causes the financier, almost speechless, to order her from the house, but her words have gone home. The money king passes a sleepless night, and in the morning comes to Shirley, who is preparing to go, and informs her that he has used his influence to quash the impeachment. He sets his seal of approval upon the love of his son for Shirley, and all ends well.
The cast is headed by Arthur Bryson, as "John Burkett Ryder" (as played by himself for 72 weeks in Chicago and Boston), Miss Adelaide Kelm as "Shirley Rosemore," Mr. Will Deming as "Jefferson Ryder" (his first appearance with this company).

AT THE ROYAL ALEXANDRA.

"The American Widow."
The women of Miss Haswell's company are going to have an opportunity next week to display their gowns when "The American Widow" will be presented for the first time. It is a rollicking farce comedy overflowing with laugh provoking complications. The reason this fun-making play has not been seen in Toronto before, is that when in the height of its success in New York at the Hudson Theatre, there was some trouble over the copyright and it had to be withdrawn.
"The American Widow" is a smart farcical comedy in three acts, by Kelllet Chambers. It tells the laughable adventures of a very fascinating widow. She has been married to a man much older than herself, a millionaire for whom she had little love. He has died and at the opening of the play the period of mourning is just over. Naturally she is excited over resuming more colorful and pretty clothes. She has become fascinated by an English lord, but there is a codicil to the will. The widow "Betsy" is not to get a cent of his vast wealth if her second husband is a titled foreigner. "Betsy" is in despair until she realizes that she will provide that for her second marriage and not her third. When she realizes this she and the earl plan a temporary marriage. The earl insists that this person must be some one impossible socially so that there will be no chance of the impressionable "Betsy" really falling in love with her temporary husband. After a suitable time this marriage is to be annulled by divorce and "Betsy" will be free to marry the earl.
At this point "Betsy" meets a musician, Jasper Malloy, who is a bit of a genius. He has been writing an Italian opera and to get local color has lived among Indians becoming uncivilized. The earl thinks him an admirable choice. He agrees, on condition that "Betsy" will produce his opera. They are married and complications begin. "Betsy" finds out it is almost impossible to get away from her husband. Everyone is constantly misunderstanding the situation. Jasper's opera turns out a big success. He immediately drops his odd clothes and manners and becomes a well-groomed man of the world. When "Betsy" sees him she is quite impressed with him and gradually they grow fond of each other. The earl is jilted and driven to depart for Pittsburg in search of an heiress.
The play contains many laughable situations and lines. When "Betsy" is in the midst of her matrimonial tangle the fun is fast and furious. Miss Haswell will play "Betsy," of course, another delightful comedy part. Mr. Fred Tiden will enact "Jasper Malloy," the musician. Mr. Crimmins plays the friend and he and Mr. Smiley, as the family solicitor, constantly get into trouble in trying to straighten out the difficulties. Miss Booth Chapin will play an Italian prima donna, who was born in Ireland. Her constant mixture of the two dialects is very amusing. Other parts will be Miss Alice Putnam as a spinster companion to "Betsy," Miss Catherine Harris as the Italian prima donna's Irish mother, Mr. Thomas V. Emory in the eccentric part of the earl, Mr. Allen Fawcett as an anaemic young man, Mr. Jack Rogers as a Jap servant and Miss Angela Ogden as a smart, pert maid.
